Some commenters recommended that the Board reconsider whether it was necessary for the auditor to recognize in the audit report changes that result when a company is required to adopt a newly issued accounting standard. They indicated that the significance of a company's discretionary change in accounting principle may be diluted if the auditor recognizes both discretionary changes and those changes in accounting principles required by a newly-issued standard in the report. Another commenter suggested that the auditor should not be required to include an explanatory paragraph in the audit report when changes in accounting principle have been applied retrospectively because, in such cases, the financial statements included in the filing will appear consistent. As noted above, the Board believes that it is important for investors to be informed when the prior year financial statements presented with the current year are different from previously issued financial statements. In addition, the Board believes that the different language in the auditor's report for discretionary changes and those required by a newly-issued standard provides sufficient notification to investors of the general nature of the change. Therefore, the Board adopted the requirement as proposed.<sup>16</sup>

One commenter suggested that the proposed standard deleted useful information about a change in accounting principle that also involves a change in an estimate. The proposed standard did not carry forward the requirement of AU sec. 420.13 that the auditor should recognize in his or her report a change in accounting principle that is inseparable from a change in estimate. After considering this comment, the Board concluded that the requirement in AU sec. 420.13 does result in useful information being included in the auditor's report. Accordingly, the Board updated the language in AU sec. 420 to reflect the term used in SFAS 154, and included the requirement in Auditing Standard No. 6.<sup>17</sup>

Some commenters asked the Board to clarify the reporting requirement related to a change in reporting entity. According to AU sec. 420.08, a change in reporting entity resulting from a transaction or event, such as the creation, cessation, or complete or partial purchase or disposition of a subsidiary or other business unit, does not require that the auditor include an explanatory paragraph in the auditor's report. Under the proposed standard, the auditor may have been required to report on, for example, the disposition of a subsidiary or business unit because SFAS No. 154 (and its predecessor, APB Opinion No. 20) did not specifically exempt such a transaction from the definition of a change in

---

<sup>14</sup> The auditor has substantially the same responsibility for evaluating a change in accounting principle as under AU sec. 431, *Adequacy of Disclosure in Financial Statements*, and paragraph .50 of AU sec. 508, *Reports on Audited Financial Statements*. The language in Auditing Standard No. 6 has, however, been updated to be consistent with SFAS No. 154.

<sup>15</sup> This responsibility is substantially unchanged from AU sec. 508.51.

<sup>16</sup> In addition, one commenter suggested that the standard include an example of a change in the method of applying an accounting principle. The final standard, like the proposed standard, notes that under SFAS No. 154 a change in the method of applying an accounting principle is also a change in accounting principle. While the Board believes that it is helpful for the standard to reference the accounting requirement, it also believes that it is not appropriate for the auditing standard to provide accounting guidance.

<sup>17</sup> The new standard uses the term "change in accounting estimate effected by a change in accounting principle," which is defined in SFAS No. 154 as "a change in accounting estimate that is inseparable from the effect of a related change in accounting principle."

reporting entity. Generally, dispositions or spin-offs have specific disclosure requirements in the accounting standards and the Board did not intend to change practice and require the auditor to report on these events through an explanatory paragraph. Accordingly, the Board carried forward the requirement from AU sec. 420.08 regarding a transaction or event. In addition, the Board also added a reference to paragraph 2f in SFAS No. 154, which describes a change in reporting entity, as suggested by some commenters.

In response to comments, the Board also modified paragraph 8 of the proposed standard, which provided direction for reporting a change in accounting principle. Some commenters noted that the proposed conforming amendments to AU sec. 508.17 had a more clearly stated version of the number of years that the auditor is required to include an explanatory paragraph related to a change in principle than did footnote 5 to paragraph 8. After considering the commenters' recommendation that the language in the footnote be changed, the Board decided that the footnote was not necessary because paragraph 8 referred the auditor directly to the reporting requirements in AU sec. 508. The Board therefore removed footnote 5 from the final standard.

## 5. Correction of a Material Misstatement in Previously Issued Financial Statements

Under Auditing Standard No. 6, the correction of a material misstatement in previously issued financial statements (i.e., a "restatement") is recognized in the auditor's report through the addition of an explanatory paragraph. Under the conforming amendments to AU sec. 508, the explanatory paragraph in the auditor's report regarding a restatement should include (1) a statement that the previously issued financial statements have been restated for the correction of a misstatement in the respective period and (2) a reference to the company's disclosure of the correction of the misstatement. The first statement in the explanatory paragraph distinguishes restatements from adjustments to prior-period financial statements resulting from changes in accounting principle. Previously, the auditor's responsibilities for reporting on most restatements were the same as for reporting on changes in accounting principle.

One commenter suggested that the proposed standard did not clearly explain whether corrections of an error not involving a principle would require recognition in the auditor's report. Unlike the previous requirement, the proposed standard did not distinguish between the "correction of an error in principle" and an "error correction not involving a principle."<sup>18</sup> Rather, the proposed standard required recognition in the auditor's report of any correction of a material misstatement, whether or not the error involved a principle. The Board reconsidered the language and concluded that the requirement as proposed was sufficiently clear. The new standard aligns the auditor's reporting responsibilities with the accounting standards, which require disclosure of all restatements, by requiring an explanatory paragraph when the company has restated the financial statements.

Some commenters suggested that it would not improve clarity to have the auditor's report include a statement that the financial statements were restated "to correct a material misstatement." They noted that SFAS No. 154 already defines a restatement as the revision of previously issued financial statements to reflect the correction of an error. The Board decided to retain the reporting

---

<sup>18</sup> This distinction previously was in paragraphs .12 and .16 of AU sec. 420, *Consistency of Application of Generally Accepted Accounting Principles*.

requirement as proposed because it clearly distinguishes corrections of misstatements from changes in accounting principle. Also, the required reporting language regarding restatements is more informative because it does not rely entirely on the user's knowledge of the definition of "restatement" in the accounting standard.<sup>19</sup>

One commenter also recommended that the auditor's explanatory paragraph about the correction of a misstatement should contain additional information. The commenter recommended that the explanatory paragraph include a statement that (1) the previously issued auditor's report should not be relied on because the previously issued financial statements were materially misstated, and (2) the previously issued report is replaced by the auditor's report on the restated financial statements.

The Board believes that the recommended additional language is not necessary because existing PCAOB standards and rules of the Securities and Exchange Commission ("SEC") are sufficient to inform users about misstatements in previously issued financial statements. Specifically, AU sec. 561, *Subsequent Discovery of Facts Existing at the Date of the Auditor's Report*, requires the auditor to take specific action when he or she concludes that information discovered after the financial statements have been issued would have affected his or her report if the company had not reflected the information in the financial statements and people are currently relying or are likely to rely on the financial statements and auditor's report. According to AU sec. 561.06, the auditor should advise the company to make appropriate disclosure of the newly discovered facts and their impact on the financial statements to persons who are known to be currently relying or who are likely to rely on the financial statements and the related auditor's report.<sup>20</sup>

A U.S. public company that is not a foreign private issuer under SEC rules also is required to file a Form 8-K current report, if it concludes that any previously issued financial statements should no longer be relied upon because of an error in such financial statements.<sup>21</sup> If the auditor has notified the issuer that action should be taken to prevent future reliance on a previously issued audit report, the company also must disclose that information in the Form 8-K.

## 6. Changes in Classification

Auditing Standard No. 6 does not require the auditor's report to recognize a change in classification<sup>22</sup> in previously issued financial statements, except for a reclassification that is also a change in accounting principle or correction of a material misstatement.<sup>23</sup> Accordingly, the new standard clarifies that the

<sup>19</sup> Two commenters suggested that the standard include the explanation from the release that the term "error," as used in SFAS No. 154, is equivalent to "misstatement," as used in the auditing standards. The Board agreed and has included that explanation in the final standard.

<sup>20</sup> AU sec. 561.06 also requires that if the effect on the financial statements or auditor's report can promptly be determined, disclosure should consist of issuing, as soon as practicable, revised financial statements and auditor's report. If issuance of the financial statements with an auditor's report for a later period is imminent, a company is permitted to disclose the revision to the financial statements instead of reissuing earlier statements. When the effect on the financial statements cannot be determined without a prolonged investigation, appropriate disclosure would consist of notification that the financial statements and auditor's report should not be relied on and that revised financial statements and auditor's report will be issued upon completion of an investigation.

<sup>21</sup> See Securities Exchange Act Rule 13a-11, 17 C.F.R. § 240.13a-11.

<sup>22</sup> AU sec. 420.17 also did not require recognition of a change in financial statement classification in the auditor's report.

<sup>23</sup> SFAS No. 154 uses the term "presentation" in its definition of an error in previously issued financial statements. The directions in paragraph 11 of the new standard address the auditor's

(continued)

auditor should evaluate a material change in financial statement classification and the related disclosure to determine whether such a change is also a change in accounting principle or a correction of a material misstatement. For example, in some circumstances, a change in financial statement classification also may be the correction of a misstatement. A restatement to correct the misclassification of an account as short- or long-term or misclassification of cash flows would be both a restatement and reclassification. Therefore, the auditor should evaluate these matters as part of the evaluation of corrections of misstatements. Under Auditing Standard No. 6, a classification change that is also a change in accounting principle should be reported on as a change in accounting principle, and a classification change that is also a correction of a material misstatement should be reported on by the auditor as a restatement.

Some commenters recommended slight revisions to the first sentence of paragraph 11 to clarify the auditor's responsibilities. The first sentence stated that changes in classification in previously issued financial statements do not require recognition in the auditor's report. This seemed to conflict with the second sentence which required the auditor to review a material change in classification and related disclosure to determine whether such a change also is a change in accounting principle or a correction of a material misstatement. The Board agreed with the comments and modified the first sentence to state that a change in classification does not require audit report recognition unless the change represents the correction of a material misstatement or a change in accounting principle. Additionally, in the proposed standard, the Board used the word "review" to describe the auditor's responsibility when there has been a material change in financial statement classification. The Board concluded that the word "evaluate" better describes the auditor's responsibilities in this area and is more consistent with the other requirements in Auditing Standard No. 6. Accordingly, the Board replaced "review" with "evaluate."

### C. Description of GAAP and Removal of the GAAP Hierarchy From the Auditing Standards

As discussed previously, the FASB has proposed to incorporate the GAAP hierarchy into its own standards. The Board believes that it is appropriate to locate the GAAP hierarchy in the accounting standards rather than in the auditing standards. Thus, the Board amended its interim standards to remove the GAAP hierarchy from the auditing standards. These amendments do not change the principles in AU sec. 411 for evaluating fair presentation of the financial statements in conformity with GAAP.

Commenters strongly supported removing the GAAP hierarchy from the auditing standards and stated that it was appropriate for the GAAP hierarchy to be contained in the accounting standards. However, one commenter observed that the proposed amendments contain significant differences from the American Institute of Certified Public Accountants' ("AICPA") Auditing Standards Board's ("ASB") proposed amendment to AU sec. 411 of the ASB's standards.<sup>24</sup>

---

*(footnote continued)*

responsibilities for changes in classification, which is an element of the presentation and disclosure financial statement assertion under the auditing standards. See, e.g., paragraph .08 of AU sec. 326, *Evidential Matter*.

<sup>24</sup> In addition, this commenter suggested that U.S. auditing standard-setters should work together to achieve consistency on core auditing standards that are used by almost all auditors of U.S. entities. This commenter also suggested that if the Board continues issuing its own standards for audits

*(continued)*

The Board believes that the amendments to AU sec. 411 are consistent with the Board's objective of removing the GAAP hierarchy from the auditing standards, and retaining, or providing, direction necessary for audits of public companies. The significant differences between the ASB's amendments to its AU sec. 411 and the Board's amendments primarily are related to sources of GAAP for governmental entities and direction on the application of accounting principles, which the Board did not believe was appropriate for inclusion in the proposed amendments. In addition, the Board deleted references to Rule 203 of the AICPA's *Code of Professional Conduct*. Rule 203 prohibits auditors from expressing an opinion on financial statements that do not conform to GAAP unless the auditor can demonstrate that due to unusual circumstances the financial statements would have been misleading without departing from GAAP. In 2003, when the Board adopted certain AICPA rules and ASB standards as interim Board standards, the Board did not adopt Rule 203. Consistent with that action, the proposed amendments did not include a reference to Rule 203.

## D. Section-by-Section Description of Amendments to the Interim Auditing Standards

In addition to proposing an auditing standard on evaluating consistency of financial statements, the Board also proposed amendments to other interim auditing standards and related interpretations. The following sections describe key aspects and elements of the amendments to the standards and interpretations, comments received, and changes incorporated in the final amendments.

### ***AU sec. 410, Adherence to Generally Accepted Accounting Principles***

The Board proposed to delete AU sec. 410.02 which discussed the meaning of "generally accepted accounting principles" and included other matters that are addressed elsewhere in the standards. However, some commenters suggested that, to improve clarity, AU sec. 410 should retain the sentence in existing AU sec. 410.02 which states that the "first standard is construed not to require a statement of fact by the auditor but an opinion."

The Board agreed that, when viewed alone, the first standard of reporting, contained in AU sec. 410.01, does not provide a complete description of the auditor's responsibilities related to fair presentation in conformity with GAAP. However, the first standard of reporting combined with the fourth standard clearly indicates that the auditor is providing a statement of an opinion and not a statement of fact. The fourth standard of reporting provides that the auditor's report shall contain either an expression of opinion regarding the financial statements taken as a whole, or an assertion to the effect that an opinion cannot be expressed. To emphasize that the first and fourth reporting standards must be read together, the Board is including the fourth standard of reporting in the final amendment to AU sec. 410. However, as proposed, the prior statement on the meaning of "generally accepted accounting principles" has been deleted from AU sec. 410.02.

---

*(footnote continued)*

of public companies, it should adopt alternative numbering/referencing schemes in order to reduce confusion between its interim standards and the AICPA standards. The Board is considering these comments as it seeks to make continuous improvements to its standard-setting and other programs.

### ***AU sec. 411, The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles***

The Board proposed to delete AU sec. 411.02, which was a detailed description of GAAP, and AU secs. 411.05, .07 and .09-.15, which described the application of the GAAP hierarchy. The Board proposed to replace the description of GAAP in AU 411.02, with a statement that GAAP refers "to the accounting principles recognized in the standards of the Financial Accounting Standards Board or in the standards of any other standard-setting body recognized by the U.S. Securities and Exchange Commission."

However, commenters had concerns about the proposal. One commenter noted that the SEC might allow companies to file financial statement prepared in conformity with international financial reporting standards ("IFRS") but not recognize the International Accounting Standards Board, which issues IFRS, as a standard-setting body. Another commenter suggested that to avoid potential confusion by users, the Board should acknowledge that there are other sources of GAAP for entities other than public companies.

In response to these comments, the Board decided to modify its proposed amendment of AU 411. It deleted AU sec. 411.02, which described GAAP, and revised AU sec. 411.01 to indicate that the auditor should look to the requirements of the SEC for the company under audit to identify the accounting principles that are applicable to that company. This change should also clarify that the standard is focused only on the accounting principles that may be used for purposes of the federal securities laws. Other accounting principles may apply to financial statements prepared for other purposes or by entities that are not issuers. The Board also modified AU 411.01 to better emphasize that standard's focus on the meaning of the phrase "present fairly."

Finally, as proposed, the Board eliminated AU secs. 411.16 and .17 which set an effective date and transition requirements that are no longer applicable.

### ***AU sec. 420, Consistency of Application of Generally Accepted Accounting Principles***

AU sec. 420 has been superseded by Auditing Standard No. 6, *Evaluating Consistency of Financial Statements*. However, some commenters suggested that parts of AU sec. 420 should have been incorporated into Auditing Standard No. 6. Commenters suggested that guidance on the objective of the consistency standard and the relationship of consistency and comparability, matters that may not affect consistency, and changes expected to have a material future effect provided useful direction.

The Board believes that it is unnecessary to include the preceding direction. The proposed standard clarified that the auditor's report should recognize only those matters that require recognition under the existing auditing standards—i.e., a change in accounting principle or the correction of a material misstatement. The Board does not believe it is necessary to list in a standard those matters that do not require recognition in the auditor's report. Also, the Board believes that paragraph 1 clearly describes the objective of the standard. Paragraph 2 makes it clear that the standard considers comparability to be between periods for the company under audit.

### ***AU sec. 431, Adequacy of Disclosure in Financial Statements***

AU sec. 431 describes the auditor's responsibilities for evaluating the adequacy of disclosures in the financial statements. The amendments address two technical matters relating to that section.

Footnote 1 to AU sec. 431.03 is not consistent with the SEC's independence rules regarding non-audit services and therefore has been eliminated.

AU sec. 431.04 is an application of the AICPA's *Code of Professional Conduct* regarding the disclosure of confidential client information. In 2003, when the Board adopted certain AICPA rules and ASB standards as interim Board standards, the Board did not adopt Rule 301. Consistent with that action, the proposed amendments would eliminate AU sec. 431.04.

Some commenters expressed concerns that the proposed elimination of AU sec. 431.04 would change the auditor's obligations, or reflected Board policy, regarding the use of confidential client information in connection with evaluating the adequacy of financial statement disclosures. Those commenters generally recognized the limited nature of AU sec. 431.04 and acknowledged that, since in 2003 the Board did not adopt Rule 301, removing a portion of the interim standards based on that rule was a conforming amendment. However, they were concerned that the Board's action might be construed as minimizing the auditor's responsibilities for maintaining the confidentiality of client information.

The Board is aware that many auditors have legal or professional obligations to maintain the confidentiality of client information. These requirements arise from the rules of state licensing authorities,<sup>25</sup> the rules of professional organizations such as the AICPA and the International Federation of Accountants, and the laws of some foreign jurisdictions. The Board's decision to omit Rule 301 from its interim standards was based on a determination that incorporation of that rule was not necessary to fulfill the Board's mandate under Section 103(a)(1) and (3) of the Sarbanes-Oxley Act. It did not reflect a decision that auditor confidentiality requirements imposed by other authorities were inappropriate. Similarly, in amending AU sec. 431, the Board seeks neither to modify nor to detract from existing confidentiality requirements.

### ***Interpretations of the Auditing Standards in AU 400 Sections***

The auditing interpretation in AU sec. 9420.52-.54 has been incorporated into Auditing Standard No. 6 and therefore has been eliminated, as proposed. The auditing interpretations in AU sec. 9411 and the remaining auditing interpretations in AU sec. 9420 are addressed by the accounting standards and therefore also have been eliminated as proposed.<sup>26</sup>

### ***AU sec. 508, Reports on Audited Financial Statements***

In general, the Board has adopted the amendments as proposed. The amendments have conformed this interim auditing standard to Auditing Standard No. 6 on evaluating consistency and the amendments to AU secs. 410 and 411, described above. For example, AU sec. 508.16 now specifically identifies the matters related to consistency of the company's financial statements that should be recognized in the auditor's report. Similarly, AU sec. 508.17A provides the requirements for evaluating consistency, that also is in paragraph 7 of Auditing Standard No. 6. AU secs. 508.17B and C, and AU sec. 508.18A provide separate requirements for reporting on changes in accounting principles and restatements, as discussed previously.

---

<sup>25</sup> For example, confidentiality requirements are included in the provisions of the Uniform Accountancy Act, which has been enacted in some form by many states.

<sup>26</sup> One commenter suggested that some of the auditing interpretations should be retained because the guidance is still relevant. The Board considered the view of this commenter but decided to eliminate the interpretations because other auditing standards provided the necessary direction regarding the matter addressed in the interpretation, the interpretation dealt with items not requiring recognition in the auditor's report, or the interpretation was related to an accounting consideration of the company.

In addition, the amendments eliminate AU sec. 508.14-.15. Those paragraphs were an application of AICPA Ethics Rule 203, which, as previously noted, was not adopted as an interim standard by the Board.<sup>27</sup>

Finally, in light of the definitions in SFAS No. 154, the amendments change references to "restatements" to the more general term "adjustments" to refer broadly to changes to previously issued financial statements that may result from either a correction of a misstatement or a change in accounting principle.<sup>28</sup>

### **References to APB Opinion No. 20**

In addition, the Board has adopted other amendments to update references to APB Opinion No. 20, which was superseded by SFAS No. 154. Accordingly the Board amended AU sec. 561, *Subsequent Discovery of Facts Existing at the Date of the Auditor's Report*, footnote 3 to paragraph .06, to reference paragraphs 25 and 26 of SFAS No. 154. For AU sec. 328, *Auditing Fair Value Measurements and Disclosures*, footnote 4 to paragraph .19, the Board referenced paragraph 20 of SFAS No. 157, *Fair Value Measurements*, which states that a change in valuation technique or its application is appropriate if the change results in a measurement that is equally or more representative of fair value in the circumstances. This replaces a reference to the preferability requirement in SFAS No. 157 because that requirement does not apply to a change in a company's method for determining fair value. Paragraph 20 is the accounting guidance applicable to a company's change in method for determining fair value.

## **E. Effective Date**

This standard and amendments will be effective 60 days after approval by the SEC.

\* \* \*

On the 29th day of January, in the year 2008, the foregoing was, in accordance with the bylaws of the Public Company Accounting Oversight Board,

ADOPTED BY THE BOARD.

/s/ J. Gordon Seymour  
J. Gordon Seymour  
Secretary

January 29, 2008

---

<sup>27</sup> One commenter expressed concern about deleting these paragraphs and suggested that, if the Board's intent was to delete all reference to the AICPA Code of Professional Conduct from the Board's interim standards, the Board should indicate the professional ethics that auditors should follow when conducting audits according to PCAOB standards. The Board's Rules 3500T and 3600T describe the Board's interim ethics and independence standards, respectively. These standards include certain provisions from the AICPA's Code of Professional Conduct. In addition, the Board has adopted ethics and independence rules concerning independence, tax services, and contingent fees. See PCAOB Release No. 2005-014 (July 26, 2005). State law and membership organizations may impose additional requirements.

<sup>28</sup> Some commenters suggested that certain other changes were needed to AU sec. 508 or that certain amendments were not necessary. For example, some commenters suggested eliminating AU sec. 508.57 and retaining the original terminology in AU secs. 508.73-.74. The Board decided that some of the suggested changes would change existing practice, such as the elimination of AU sec. 508.57, and were outside the scope of this project. For the others, the Board concluded that the amendments were consistent with the direction in Auditing Standard No. 6. In addition, one commenter believed that there were inconsistencies between the proposed amendments to AU sec. 508 and Staff Questions and Answers, *Adjustments to Prior-Period Financial Statements Audited By a Predecessor Auditor*. However, the Board reviewed the Staff Questions and Answers and did not agree that there were inconsistencies with the proposed amendments to AU sec. 508.

APPENDICES—

1. Auditing Standard No. 6—*Evaluating Consistency of Financial Statements*
2. Amendments to Interim Auditing Standards

## Appendix 1

### **Auditing Standard No. 6, *Evaluating Consistency of Financial Statements***

[Supersedes AU secs. 420 and 9420]

#### **Consistency and the Auditor's Report on Financial Statements**

1. This standard establishes requirements and provides direction for the auditor's evaluation of the consistency of the financial statements, including changes to previously issued financial statements, and the effect of that evaluation on the auditor's report on the financial statements.

2. To identify consistency matters that might affect the report, the auditor should evaluate whether the comparability of the financial statements between periods has been materially affected by changes in accounting principles or by material adjustments to previously issued financial statements for the relevant periods.

3. The periods covered in the auditor's evaluation of consistency depend on the periods covered by the auditor's report on the financial statements. When the auditor reports only on the current period, he or she should evaluate whether the current-period financial statements are consistent with those of the preceding period. When the auditor reports on two or more periods, he or she should evaluate consistency between such periods and the consistency of such periods with the period prior thereto if such prior period is presented with the financial statements being reported upon.<sup>1</sup> The auditor also should evaluate whether the financial statements for periods described in this paragraph are consistent with previously issued financial statements for the respective periods.<sup>2</sup>

Note: The term "current period" means the most recent year, or period of less than one year, upon which the auditor is reporting.

4. The auditor should recognize the following matters relating to the consistency of the company's financial statements in the auditor's report if those matters have a material effect on the financial statements:

---

<sup>1</sup> For example, assume that a company presents comparative financial statements covering three years and has a change in auditors. In the first year in which the successor auditor reports, the successor auditor evaluates consistency between the year on which he or she reports and the immediately preceding year. In the second year in which the successor auditor reports, the successor auditor would evaluate consistency between the two years on which he or she reports and between those years and the earliest year presented.

<sup>2</sup> When a company uses retrospective application, as defined in Statement of Financial Accounting Standards No. 154, *Accounting Changes and Error Corrections* ("SFAS No. 154"), to account for a change in accounting principle, the financial statements presented generally will be consistent. However, the previous years' financial statements presented with the current year's financial statements will reflect the change in accounting principle and, therefore, will appear different from those previous years' financial statements on which the auditor previously reported. This standard clarifies that the auditor's evaluation of consistency should encompass previously issued financial statements for the relevant periods.

- a. A change in accounting principle
- b. An adjustment to correct a misstatement in previously issued financial statements.<sup>3</sup>

## Change in Accounting Principle

5. A change in accounting principle is a change from one generally accepted accounting principle to another generally accepted accounting principle when (1) there are two or more generally accepted accounting principles that apply, or when (2) the accounting principle formerly used is no longer generally accepted. A change in the method of applying an accounting principle also is considered a change in accounting principle.<sup>4</sup>

Note: A change from an accounting principle that is not generally accepted to one that is generally accepted is a correction of a misstatement.

6. The auditor should evaluate and report on a change in accounting estimate effected by a change in accounting principle like other changes in accounting principle.<sup>5</sup> In addition, the auditor should recognize a change in the reporting entity<sup>6</sup> by including an explanatory paragraph in the auditor's report, unless the change in reporting entity results from a transaction or event. A change in reporting entity that results from a transaction or event, such as the creation, cessation, or complete or partial purchase or disposition of a subsidiary or other business unit does not require recognition in the auditor's report.

7. The auditor should evaluate a change in accounting principle to determine whether—

- a. The newly adopted accounting principle is a generally accepted accounting principle,
- b. The method of accounting for the effect of the change is in conformity with generally accepted accounting principles,
- c. The disclosures related to the accounting change are adequate,<sup>7</sup> and
- d. The company has justified that the alternative accounting principle is preferable.<sup>8</sup>

8. A change in accounting principle that has a material effect on the financial statements should be recognized in the auditor's report on the audited financial statements. If the auditor concludes that the criteria in paragraph 7

---

<sup>3</sup> The term "error," as used in SFAS No. 154, is equivalent to "misstatement," as used in the auditing standards.

<sup>4</sup> See SFAS No. 154, paragraph 2c.

<sup>5</sup> SFAS No. 154, paragraph 2e, defines a "change in accounting estimate effected by a change in accounting principle" as "a change in accounting estimate that is inseparable from the effect of a related change in accounting principle."

<sup>6</sup> "Change in reporting entity" is a change that results in financial statements that, in effect, are those of a different reporting entity. See SFAS No. 154, paragraph 2f.

<sup>7</sup> Newly issued accounting pronouncements usually set forth the method of accounting for the effects of a change in accounting principle and the related disclosures. SFAS No. 154 sets forth the method of accounting for the change and the related disclosures when there are no specific requirements in the new accounting pronouncement.

<sup>8</sup> The issuance of an accounting pronouncement that requires use of a new accounting principle, interprets an existing principle, expresses a preference for an accounting principle, or rejects a specific principle is sufficient justification for a change in accounting principle, as long as the change in accounting principle is made in accordance with the hierarchy of generally accepted accounting principles. See SFAS No. 154, paragraph 14.

have been met, the auditor should add an explanatory paragraph to the auditor's report, as described in AU sec. 508, *Reports on Audited Financial Statements*. If those criteria are not met, the auditor should treat this accounting change as a departure from generally accepted accounting principles and address the matter as described in AU sec. 508.

Note: If a company's financial statements contain an investment accounted for by the equity method, the auditor's evaluation of consistency should include consideration of the investee. If the investee makes a change in accounting principle that is material to the investing company's financial statements, the auditor should add an explanatory paragraph (following the opinion paragraph) to the auditor's report, as described in AU sec. 508.

### ***Correction of a Material Misstatement in Previously Issued Financial Statements***

**9.** The correction of a material misstatement in previously issued financial statements should be recognized in the auditor's report on the audited financial statements through the addition of an explanatory paragraph, as described in AU sec. 508.

**10.** The accounting pronouncements generally require certain disclosures relating to restatements to correct misstatements in previously issued financial statements. If the financial statement disclosures are not adequate, the auditor should address the inadequacy of disclosure as described in AU sec. 431, *Adequacy of Disclosure in Financial Statements*, and AU sec. 508.

### **Change in Classification**

**11.** Changes in classification in previously issued financial statements do not require recognition in the auditor's report, unless the change represents the correction of a material misstatement or a change in accounting principle. Accordingly, the auditor should evaluate a material change in financial statement classification and the related disclosure to determine whether such a change also is a change in accounting principle or a correction of a material misstatement. For example, certain reclassifications in previously issued financial statements, such as reclassifications of debt from long-term to short-term or reclassifications of cash flows from the operating activities category to the financing activities category, might occur because those items were incorrectly classified in the previously issued financial statements. In such situations, the reclassification also is the correction of a misstatement. If the auditor determines that the reclassification is a change in accounting principle, he or she should address the matter as described in paragraphs 7 and 8 and AU sec. 508. If the auditor determines that the reclassification is a correction of a material misstatement in previously issued financial statements, he or she should address the matter as described in paragraphs 9 and 10 and AU sec. 508.

## Appendix 2

### Amendments to Interim Auditing Standards

The following amendments relate to the standards and auditing interpretations in AU sec. 328, the AU 400s sections, AU sec. 508, and AU sec. 561 of the Board's auditing standards.

### Auditing Standards

#### **AU sec. 328, "Auditing Fair Value Measurements and Disclosures"**

Statement on Auditing Standards ("SAS") No. 101, "Auditing Fair Value Measurements and Disclosures," (AU sec. 328, "Auditing Fair Value Measurements and Disclosures"), as amended, is amended as follows:

- a. The text of footnote 4 to paragraph .19 is replaced with the following:

Statement of Financial Accounting Standard No. 157, *Fair Value Measurements*, states that a change in valuation technique or its application is appropriate if the change results in a measurement that is equally or more representative of fair value in the circumstances.

#### **AU sec. 410, "Adherence to Generally Accepted Accounting Principles"**

SAS No. 1, "Codification of Auditing Standards and Procedures," section 410 (AU sec. 410, "Adherence to Generally Accepted Accounting Principles"), as amended, is amended as follows:

- a. Paragraph .02 is replaced with following paragraph, and the reference to footnote 1 is moved to the end of the new paragraph .02.

The fourth standard of reporting is:

The report shall either contain an expression of opinion regarding the financial statements, taken as a whole, or an assertion to the effect that an opinion cannot be expressed. When an overall opinion cannot be expressed, the reasons therefor should be stated. In all cases where an auditor's name is associated with financial statements, the report should contain a clear-cut indication of the character of the auditor's work, if any, and the degree of responsibility the auditor is taking.

#### **AU sec. 411, "The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles"**

SAS No. 69, "The Meaning of *Present Fairly in Conformity With Generally Accepted Accounting Principles*" (AU sec. 411, "The Meaning of *Present Fairly in*

*Conformity With Generally Accepted Accounting Principles*"), as amended, is amended as follows:

- a. The third sentence of paragraph .01 is replaced with the following:

The purpose of this section is to explain the meaning of "present fairly" as used in the phrase "present fairly . . . in conformity with generally accepted accounting principles." In applying this section, the auditor should look to the requirements of the Securities and Exchange Commission for the company under audit with respect to the accounting principles applicable to that company.
- b. Paragraphs .02, .05, .07, and .09–.18 are deleted.

### **AU sec. 9411, "The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles, Auditing Interpretations of Section 411"**

Auditing Interpretation No. 3, "The Auditor's Consideration of Management's Adoption of Accounting Principles for New Transactions or Events" of the auditing interpretations of AU sec. 411 (AU sec. 9411.11–.15) is deleted.

### **AU sec. 420, "Consistency of Application of Generally Accepted Accounting Principles," and AU sec. 9420, "Consistency of Application of Generally Accepted Accounting Principles, Auditing Interpretations of Section 420"**

SAS No. 1, "Codification of Auditing Standards and Procedures," section 420 (AU sec. 420, "Consistency of Application of Generally Accepted Accounting Principles"), as amended, and the related auditing interpretations (AU sec. 9420) are superseded by PCAOB Auditing Standard No. 6, *Evaluating Consistency of Financial Statements*.

### **AU sec. 431, "Adequacy of Disclosure in Financial Statements"**

SAS No. 32, "Adequacy of Disclosure in Financial Statements" (AU sec. 431, "Adequacy of Disclosure in Financial Statements") is amended as follows:

- a. Footnote 1 is deleted.
- b. Paragraph .04 is deleted.

### **AU sec. 508, "Reports on Audited Financial Statements"**

SAS No. 58, "Reports on Audited Financial Statements" (AU sec. 508, "Reports on Audited Financial Statements"), as amended, is amended as follows:

- a. In Paragraph .03, footnote 2 is deleted.
- b. In Paragraph .11, item .11b is deleted; item .11c is reordered as .11b; .11d is reordered as .11c; the paragraph references in .11c (formerly .11d) to paragraphs .16 through .18 are replaced with paragraph references .17A through .17E; and a new item .11d is added as follows:

"A material misstatement in previously issued financial statements has been corrected (paragraphs .18A through .18C)."

- c. Paragraphs .14–.15 are deleted, along with the preceding heading "Departure From a Promulgated Accounting Principle," and the note following the paragraph.
- d. The text of paragraph .16 is replaced with the following:
  - The auditor should recognize the following matters relating to the consistency of the company's financial statements in the auditor's report if those matters have a material effect on the financial statements:
    - a. A change in accounting principle
    - b. An adjustment to correct a misstatement in previously issued financial statements
- e. Paragraphs .17–.18 and related footnotes 12 and 13 are replaced with the following:

***Change in Accounting Principle***

.17A As discussed in PCAOB Auditing Standard No. 6, *Evaluating Consistency of Financial Statements*, the auditor should evaluate a change in accounting principle to determine whether (1) the newly adopted accounting principle is a generally accepted accounting principle, (2) the method of accounting for the effect of the change is in conformity with generally accepted accounting principles, (3) the disclosures related to the accounting change are adequate, and (4) the company has justified that the alternative accounting principle is preferable.<sup>12</sup> A change in accounting principle that has a material effect on the financial statements should be recognized in the auditor's report on the audited financial statements through the addition of an explanatory paragraph following the opinion paragraph. If the auditor concludes that the criteria in this paragraph have been met, the explanatory paragraph in the auditor's report should include identification of the nature of the change and a reference to the note disclosure describing the change.

<sup>12</sup> The issuance of an accounting pronouncement that requires use of a new accounting principle, interprets an existing principle, expresses a preference for an accounting principle, or rejects a specific principle is sufficient justification for a change in accounting principle, as long as the change in accounting principle is made in accordance with the hierarchy of generally accepted accounting principles. See FASB Statement 154, paragraph 14.

.17B Following is an example of an explanatory paragraph for a change in accounting principle resulting from the adoption of a new accounting pronouncement:

As discussed in Note X to the financial statements, the company has changed its method of accounting for [describe accounting method change] in [year(s) of financial statements that reflect the accounting method change] due to the adoption of [name of accounting pronouncement].

.17C Following is an example of an explanatory paragraph when the company has made a change in accounting principle other than a change due to the adoption of a new accounting pronouncement.

As discussed in Note X to the financial statements, the company has elected to change its method of accounting for [*describe accounting method change*] in [*year(s) of financial statements that reflect the accounting method change*].

.17D The explanatory paragraph relating to a change in accounting principle should be included in reports on financial statements in the year of the change and in subsequent years until the new accounting principle is applied in all periods presented. If the accounting change is accounted for by retrospective application to the financial statements of all prior periods presented, the additional paragraph is needed only in the year of the change.

.17E If the auditor concludes that the criteria in paragraph .17A for a change in accounting principle are not met, the auditor should consider the matter to be a departure from generally accepted accounting principles and, if the effect of the change in accounting principle is material, issue a qualified or adverse opinion.

### ***Correction of a Material Misstatement in Previously Issued Financial Statements***

.18A Correction of a material misstatement in previously issued financial statements should be recognized in the auditor's report through the addition of an explanatory paragraph following the opinion paragraph.<sup>13</sup> The explanatory paragraph should include (1) a statement that the previously issued financial statements have been restated for the correction of a misstatement in the respective period and (2) a reference to the company's disclosure of the correction of the misstatement. Following is an example of an appropriate explanatory paragraph when there has been a correction of a material misstatement in previously issued financial statements.

As discussed in Note X to the financial statements, the 20X2 financial statements have been restated to correct a misstatement.

<sup>13</sup> The directions in paragraphs .68-.69 apply when comparative financial statements are presented and the opinion on the prior-period financial statements differs from the opinion previously expressed.

.18B This type of explanatory paragraph in the auditor's report should be included in reports on financial statements when the related financial statements are restated to correct the prior material misstatement. The paragraph need not be repeated in subsequent years.

.18C The accounting pronouncements generally require certain disclosures relating to restatements to correct a misstatement in previously issued financial statements. If the financial statement disclosures are not adequate, the auditor should address the lack of disclosure as discussed beginning at paragraph .41 and in AU sec. 431.

- f. Paragraph .50 is deleted.
- g. The text of paragraph .51 is replaced with the following:

***Departures from generally accepted accounting principles related to changes in accounting principle.*** Paragraph .17A states the criteria for evaluating a

change in accounting principle. If the auditor concludes that the criteria have not been met, he or she should consider that circumstance to be a departure from generally accepted accounting principles and, if the effect of the accounting change is material, should issue a qualified or adverse opinion.

- h. In paragraph .52:
- The first three sentences of the paragraph are replaced with the following:

The accounting standards indicate that a company may make a change in accounting principle only if it justifies that the allowable alternative accounting principle is preferable. If the company does not provide reasonable justification that the alternative accounting principle is preferable, the auditor should consider the accounting change to be a departure from generally accepted accounting principles and, if the effect of the change in accounting principle is material, should issue a qualified or adverse opinion. The following is an example of a report qualified because a company did not provide reasonable justification that an alternative accounting principle is preferable:
  - In the second sentence of the first paragraph of the example report, the phrase "for making this change" is replaced with the phrase "that this accounting principle is preferable."
- In the text of footnote 17, the first two sentences are deleted; the word, "However" is deleted at the beginning of the third sentence; the word "because" at the beginning of the third sentence is capitalized; the phrase "the middle paragraph" is replaced with "this paragraph;" and the references to paragraphs ".16 through .18" are replaced with references to paragraphs "17A through 17E."
- i. The text of paragraph .57 is replaced with the following:
- If the auditor issues a qualified or adverse opinion because the company has not justified that an allowable accounting principle adopted in an accounting change is preferable, as described in paragraph .52, the auditor should continue to express that opinion on the financial statements for the year of change as long as those financial statements are presented and reported on. However, the auditor's qualified or adverse opinion relates only to the accounting change and does not affect the status of a newly adopted principle as a generally accepted accounting principle. Accordingly, while expressing a qualified or adverse opinion for the year of change, the independent auditor's opinion regarding the subsequent years' statements need not express a qualified or adverse opinion on the use of the newly adopted principle in subsequent periods.
- j. In the text of footnote 19 to paragraph .59, "(b)" is added to the beginning of the list of subsections.
- k. The first sentence of footnote 20 to paragraph .62 is deleted.

- l. In the second sentence of footnote 25 to paragraph .67, replace the phrase "section 420, *Consistency of Application of Generally Accepted Accounting Principles*," with the phrase "PCAOB Auditing Standard No. 6, *Evaluating Consistency of Financial Statements*"
- m. In the second sentence of paragraph .69:
  - Item (c) is inserted as follows:

(c) if applicable, a statement that the previously issued financial statements have been restated for the correction of a misstatement in the respective period,
  - Item (c) is changed to (d)
  - Item (e) is inserted as follows:

(e) if applicable, a reference to the company's disclosure of the correction of the misstatement,
  - Item (d) is changed to (f) and the words "the fact" are inserted at the beginning of the item
- n. In the third sentence of paragraph .73, the word "restated" is replaced with the word "adjusted."
- q. In paragraph .74:
  - In the first sentence of the third text paragraph, the word "restated" is replaced with the word "adjusted," and the word "restatement" is replaced with the words "the adjustments."
  - In the second sentence of the third text paragraph, the word "restatement" is deleted, and the word "his" is replaced with the words "the auditor's."

### **AU sec. 561, "Subsequent Discovery of Facts Existing at the Date of the Auditor's Report"**

SAS No. 1, "Codification of Auditing Standards and Procedures," section 561, "Subsequent Discovery of Facts Existing at the Date of Report," as amended, is amended as follows:

- a. The text of footnote 3 to paragraph .06 is replaced with the following:

See paragraphs 26 and 27 of Accounting Principles Board Opinion No. 9 and paragraphs 25 and 26 of FASB Statement No. 154, regarding disclosure of adjustments applicable to prior periods.

**PCAOB Release No. 2008-003*****Ethics and Independence Rule 3526,  
Communication With Audit Committees  
Concerning Independence, Amendment to  
Interim Independence Standards, Amendment  
to Rule 3523, Tax Services for Persons in  
Financial Reporting Oversight Roles,  
Implementation Schedule for Rule 3523***

PCAOB Release No. 2008-003

April 22, 2008

PCAOB Rulemaking  
Docket Matter No. 017

**Summary:** The Public Company Accounting Oversight Board ("PCAOB" or "Board") is adopting an ethics and independence rule, Rule 3526, *Communication with Audit Committees Concerning Independence*, that will supersede the Board's interim independence requirement, *Independence Standards Board Standard No. 1, Independence Discussions with Audit Committees* ("ISB No. 1"), and two related interpretations. The Board is also adopting an amendment to Rule 3523, *Tax Services for Persons in Financial Reporting Oversight Roles*, and further adjusting the implementation schedule for Rule 3523 as it applies to tax services provided during the audit period. Specifically, amended Rule 3523 will not prohibit tax services provided during the portion of the audit period that precedes the beginning of the professional engagement period. In order to maintain the status quo while the SEC considers this amendment, the Board has further delayed the implementation of the prohibition against pre-engagement period tax services to persons in financial reporting oversight roles in existing Rule 3523 until December 31, 2008. The amendment to Rule 3523 will become effective immediately upon approval by the SEC, and Rule 3526 will become effective on the later of September 30, 2008, or 30 days after the date the SEC approves the rule.

Board Contacts: Bella Rivshin, Associate Chief Auditor (202/207-9180; rivshinb@pcaobus.org), or Greg Scates, Deputy Chief Auditor (202/207-9114; scatesg@pcaobus.org).

**I. Introduction**

On July 26, 2005, the Public Company Accounting Oversight Board ("PCAOB" or "Board") adopted certain rules related to registered public accounting firms' provision of tax services to public company audit clients. As part of this rule-making, the Board adopted Rule 3523, which provides that a registered firm, subject to certain exceptions, is not independent of an audit client if the firm, or an affiliate of the firm, provides tax services during the audit and professional engagement period to a person in, or an immediate family member of a

person in, a financial reporting oversight role ("FROR") at an audit client. Rule 3523 was intended to address concerns related to auditor independence when auditors provide personal tax services to individuals who play a direct role in preparing the financial statements of public company audit clients. Rule 3523 was approved by the Securities and Exchange Commission ("SEC" or "Commission") on April 19, 2006.

On April 3, 2007, the Board issued a concept release to solicit comment about the possible effects on a registered firm's independence of providing tax services to a person covered by Rule 3523 during the portion of the audit period that precedes the beginning of the professional engagement period and other practical consequences of applying the restrictions imposed by Rule 3523 to that portion of the audit period.<sup>1</sup> With a few exceptions, commenters on that release recommended that the Board amend Rule 3523 to exclude that portion of the audit period.

After considering the comments received, on July 24, 2007, the Board proposed to amend Rule 3523 as described in the concept release.<sup>2</sup> At the same time, the Board also proposed Rule 3526, *Communication with Audit Committees Concerning Independence*, a new ethics and independence rule that would supersede *Independence Standards Board Standard No. 1, Independence Discussions with Audit Committees* ("ISB No. 1"), and two related interpretations, and require a registered public accounting firm to communicate certain information related to the firm's independence to the issuer's audit committee.

The Board received 16 comment letters on the proposed rules. Overall, the commenters were supportive of proposed Rule 3526 and the proposed amendment to Rule 3523. Commenters generally agreed that proposed Rule 3526 would enhance communication between the auditor and the audit committee and recommended that the Board adopt the rule. Commenters also reiterated that they believed that an auditor's independence would not be impaired by the provision of tax services to a person in a FROR during the portion of the audit period that precedes the beginning of the professional engagement period, and that the Board should adopt the proposed amendment to Rule 3523. Commenters also suggested certain modifications to the proposed rules.

The Board is adopting proposed Rule 3526 and the proposed amendment to Rule 3523 with some modifications in response to comments. This release describes key aspects of the amendment and new rule, comments received, and changes incorporated in the final rules. Additionally, as described below, the Board is further adjusting the implementation schedule for Rule 3523, as it applies to tax services provided to persons in FRORs during the period subject to audit but before the professional engagement period begins, to allow sufficient time for the SEC to consider whether to approve the amendment to the rule.

## II. Rule 3526. Communication With Audit Committees Concerning Independence

Under Section 301 of the Sarbanes-Oxley Act of 2002 ("the Act"), "[t]he audit committee of each issuer, in its capacity as a committee of the board of directors, shall be directly responsible for the appointment, compensation, and oversight of the work of any registered public accounting firm employed by that issuer...for

---

<sup>1</sup> See PCAOB Release No. 2007-002 (April 3, 2007). Because the Board has adjusted the implementation schedule for Rule 3523, the rule has not prohibited the provision of tax services to persons in FRORs during the portion of the audit period that precedes the beginning of the professional engagement period.

<sup>2</sup> See PCAOB Release No. 2007-008 (July 24, 2007).

the purpose of preparing or issuing an audit report or related work...."<sup>3</sup> PCAOB interim independence standards require the auditor to provide certain information to the audit committee about independence that could assist the audit committee in fulfilling these oversight responsibilities. Specifically, ISB No. 1 requires, among other things, firms to disclose at least annually to the audit committee all relationships between the auditor and its related entities and the company and its related entities that, in the auditor's professional judgment, may reasonably be thought to bear on the auditor's independence. ISB No. 1 does not, however, require the firm to provide information to the audit committee about the firm's independence in connection with *becoming* the issuer's auditor (i.e., *before* the person or firm becomes the issuer's auditor).

As discussed in the proposing release, the Board proposed Rule 3526 because it believed that the accounting firm should discuss with the audit committee before accepting an initial engagement pursuant to the standards of the PCAOB any relationships the accounting firm has with the issuer that may reasonably be thought to bear on its independence. The proposed rule was intended to build on the communication requirements in ISB No. 1 and provide the audit committee with information—including information about the firm's relationships with persons in FRORs at the company—that may be important to its determination about whether to hire the firm as the company's auditor. The Board also proposed to include in the rule a new requirement for the firm to document the substance of its discussion with the audit committee.

All commenters were generally in favor of the Board adopting the proposed rule, and, as discussed more fully below, some recommended modifications. Commenters stated that Rule 3526 would assist audit committees in fulfilling their responsibilities and would aid them in their decision making process. After carefully considering the comments, the Board is adopting Rule 3526 with one modification, as described below. If approved by the SEC, Rule 3526 will supersede ISB No. 1 and two related interpretations.<sup>4</sup>

## A. Scope of the Required Communication

The Board proposed in Rule 3526(a) to require the registered firm, prior to accepting an initial engagement pursuant to the standards of the PCAOB, to

---

<sup>3</sup> The SEC has implemented this provision by adopting rules directing the national securities exchanges and national securities associations to prohibit the listing of any security of an issuer that is not in compliance with the audit committee requirements mandated by the Act.

<sup>4</sup> ISB Interpretation 00-1, *The Applicability of ISB Standard No. 1 When "Secondary Auditors" Are Involved in the Audit of a Registrant*, and ISB Interpretation 00-2, *The Applicability of ISB Standard No. 1 When "Secondary Auditors" Are Involved in the Audit of a Registrant, An Amendment of Interpretation 00-1*. The interpretations state that the responsibility to comply with ISB No. 1 rests solely with the primary auditor, but that the primary auditor should include in its report to the audit committee all of its relationships and those of its domestic and foreign associated firms that could reasonably bear on the independence of the primary auditor. Under these interpretations, if the primary auditor is relying on the work of secondary auditors not associated with the primary auditor's firm, the report of the primary auditor should either describe any such secondary auditors' relationships, or it should state that it does not do so. The treatment of secondary auditors under Rule 3526 will be similar to the treatment of secondary auditors under ISB No. 1 and the two interpretations. Secondary auditors will not need to comply with Rule 3526, but the primary auditor will need to disclose to the audit committee any relationships of the firm's affiliates that could reasonably be thought to bear on the independence of the primary auditor. As under ISB No. 1 and the related interpretations, the scope of any communications about secondary auditors under Rule 3526 should be clear to the audit committee. Accordingly, the Board expects the primary auditor's report to either include any covered relationships of any secondary auditors not affiliated with the firm or state that it does not do so. One commenter recommended that the Board consider providing an exemption for secondary auditors. Because the rule does not require communications by secondary auditors, an exemption is not necessary.

describe in writing to the audit committee<sup>5</sup> all relationships between the accounting firm or any affiliates of the firm<sup>6</sup> and the potential audit client or persons in FRORs at the potential audit client that may reasonably be thought to bear on independence. The Board also proposed to require the firm to discuss with the audit committee the potential effects of those relationships on the firm's independence. In Rule 3526(b), the Board proposed to require a registered firm on at least an annual basis after becoming the issuer's auditor to provide the same information described above and also affirm to the audit committee of the issuer, in writing, that the firm is independent in compliance with Rule 3520, *Auditor Independence*.<sup>7</sup> As described in the proposing release, the Board intended for these communications to provide the audit committee with sufficient information to understand how a particular relationship might affect independence and to foster a robust discussion between the firm and the audit committee.

Commenters generally believed that the scope of the required communications was appropriate. Several commenters noted that, to a large extent, firms are already making the kinds of communications that would be required by proposed Rule 3526. One commenter acknowledged, however, that existing communications between the firm and a potential new audit client do not include the disclosure of tax services to a person in a FROR or his or her immediate family member. Additionally, some registered firms noted that communications regarding the auditor's independence currently vary in content and timing and may, in some instances, occur only orally.

Most commenters did not believe that it was necessary for the Board to expand the scope of the required communication to include any additional matters. One commenter, however, recommended requiring the firm to confirm its independence in writing to the audit committee prior to accepting an initial engagement. Another commenter recommended revising Rule 3526(a) to require the firm to make the communications in its initial proposal to the company's audit committee. As discussed above, the Board proposed to require firms to affirm their independence annually but did not propose a similar requirement that would apply before the firm is initially engaged as the company's auditor. Rule 3526(a) requires registered firms to make certain communications about relationships that may reasonably be thought to bear on independence before accepting an initial engagement pursuant to the standards of the PCAOB. Rather than prescribing a particular time before that point when the communications must occur, however, the rule allows registered firms and audit committees the flexibility to make that determination. The Board understands that, in some cases, firms need time before a new engagement begins to resolve any matters

---

<sup>5</sup> One commenter recommended the Board provide guidance in situations in which an issuer does not have an audit committee. Under Section 2(a)(3) of the Act, "[t]he term 'audit committee' means—(A) a committee (or equivalent body) established by and amongst the board of directors of an issuer for the purpose of overseeing the accounting and financial reporting processes of the issuer and audits of the financial statements of the issuer; and (B) if no such committee exists with respect to an issuer, the entire board of directors of the issuer." Accordingly, under Rule 3526, if an audit client does not have an audit committee, the auditor would be required to make the communications to the entire board of directors. Additionally, one commenter recommended that audit committees provide better disclosure, through the proxy, when approving non-audit services performed by the auditor. The commenter stated that providing this type of transparency will permit investors a greater ability to evaluate audit committee's fiduciary performance of shareholders. The Board does not have statutory authority to require disclosure by audit committees.

<sup>6</sup> One commenter recommended that the Board adopt a definition of affiliate of the firm. This term is already defined in Rule 3501.

<sup>7</sup> Rule 3520 states that a registered public accounting firm and its associated persons must be independent of the firm's audit client throughout the audit and professional engagement period.

that could impair their independence. If a firm were required to affirm its independence prior to accepting a new engagement, it would need to wait until it has resolved any independence issues to make the required communications. These communications are intended to assist the audit committee in fulfilling its responsibility to hire the auditor—their usefulness for that purpose may diminish if they are left until immediately before the engagement begins. Accordingly, the Board does not believe a requirement for auditors to affirm that they are independent before accepting a new engagement is appropriate.

Other commenters recommended certain exclusions from the scope of the required communications. For example, one commenter asserted that the auditor cannot be expected to know about all relationships that may reasonably be thought to bear on its independence, and recommended that the written communication to the audit committee state that the auditor's assessment is based on information provided to the auditor by the issuer. The Board does not believe that allowing auditors to include such a limitation in the communication would be appropriate. Complying with the Board's independence requirements is the responsibility of the auditor.<sup>8</sup> To fulfill this responsibility, as well as their related responsibility under the SEC's independence rules, auditors need to ascertain what relationships with the issuer and persons in FRORs at the issuer may reasonably be thought to bear on their independence. Moreover, some of the information the auditor must assess in order to assure its independence and that may need to be communicated under Rule 3526—such as the firm's or its associated persons' financial interests in the audit client—can be more readily obtained by the auditor than its audit client.

Another commenter recommended that the Board exclude tax services to a person in a FROR from the required communications because the commenter believed that compliance with Rule 3523, as amended, should adequately address any independence concerns regarding such services. As discussed in the proposing release, Rule 3526 is intended to require disclosure of not only whether the firm provided any specifically prohibited services or maintained any specifically prohibited relationships, but also whether any of the firm's relationships or services may reasonably be thought to bear on independence under the SEC's general standard of auditor independence<sup>9</sup> and AU sec. 220, *Independence*.<sup>10</sup> Because auditors will need to consider the relevant facts and circumstances

---

<sup>8</sup> Another commenter suggested that the audit committee should be able to rely on the firm to determine and resolve any independence issues, and that a requirement for the auditor to discuss these matters with the audit committee would increase the responsibilities of the audit committee with respect to independence. This commenter recommended that the Board not adopt these requirements. As discussed above, the rule is intended to provide audit committees with information to assist them in carrying out their responsibilities to oversee the audit engagement, but auditors remain responsible for complying with the independence requirements. Nothing in the rule adds to, or otherwise modifies, the responsibilities of the audit committee.

<sup>9</sup> 17 C.F.R. § 210.2-01(b). Under that standard, an accountant is not independent if "the accountant is not, or a reasonable investor with knowledge of all relevant facts and circumstances would conclude that the accountant is not, capable of exercising objective and impartial judgment on all issues encompassed within the accountant's engagement." In considering this general standard, the SEC "looks in the first instance to whether a relationship or the provision of service: creates a mutual or conflicting interest between the accountant and the audit client; places the accountant in the position of auditing his or her own work; results in the accountant acting as management or an employee of the audit client; or places the accountant in a position of being an advocate for the audit client." 17 C.F.R. § 210.2-01, preliminary note.

<sup>10</sup> AU sec. 220, *Independence*, requires that "[i]n all matters relating to the assignment, an independence in mental attitude is to be maintained by the auditor..." AU sec. 220 notes that "[i]t is of utmost importance to the profession that the general public maintain confidence in the independence of independent auditors" and that public confidence in the auditor's independence "would be impaired by evidence that independence was actually lacking, and it might also be impaired by the existence of circumstances which reasonable people might believe likely to influence independence."

in order to make such a determination, the Board does not believe that *per se* exemptions are appropriate.

Some commenters suggested that, in certain circumstances, firms would be restricted in the information they could provide to the audit committee about relationships with persons in FRORs due to legal limitations imposed by confidentiality and privacy laws. Specifically, one commenter was concerned that the auditor would not be able to disclose to the audit committee information about tax services rendered to a person in a FROR prior to obtaining a consent from that person. Another commenter recommended that the Board address the need for obtaining such a consent in its final release, while another recommended that the Board provide an exemption in circumstances where applicable legal restrictions impede an auditor's ability to comply fully with the disclosure requirement.

Under ISB No. 1, auditors have been required to disclose to the audit committee relationships with the company and its related entities and to discuss the auditor's independence with the audit committee. Accordingly, the required communications could include discussion of tax or other services provided to an entity or person other than the company itself. The Board understands that firms are subject to certain confidentiality requirements in the tax context<sup>11</sup> and that other restrictions could arise outside of that context, depending on the facts and circumstances that a particular relationship presents. The Board is not, however, aware that firms have encountered difficulty in communicating with audit committees, as required by ISB No. 1 or any other professional practice standard, as a result of such privacy requirements.

As described above, Rule 3526 is a general requirement that, like ISB No. 1, requires disclosure of certain relationships that may be relevant to the audit committee's oversight of the engagement. It does not set forth a list of relationships that must always be disclosed or mandate specific information that must be communicated when disclosure is required. Rather, Rule 3526 allows firms significant flexibility to determine how to comply with the requirements to describe a covered relationship and discuss the potential effects of that relationship on the firm's independence. Accordingly, while the Board will monitor the application of the rule in this regard, it does not believe that the recommended exception is necessary or appropriate at this time.

The Board also received several comments on its proposal not to include the words "in the auditor's professional judgment" in the rule's description of the scope of the required communications. ISB No. 1 requires disclosure of certain relationships that "in the auditor's professional judgment may reasonably be thought to bear on independence." In the proposing release, the Board explained that it believed that omitting the reference to the auditor's professional judgment would clarify the requirement by reminding auditors of the need to focus on the perceptions of reasonable third parties when making independence determinations. Some commenters supported the proposed exclusion of the words "in the auditor's professional judgment" from Rule 3526. Other commenters, however, believed that the absence of the reference to judgment could confuse, rather than clarify, the requirement and noted that it is reasonable and appropriate for audit committees to rely on the accounting firm's judgment as to what matters should be disclosed. One of these commenters contended that this aspect of the Board's proposal is inconsistent with the Board's recent

---

<sup>11</sup> See 26 U.S.C. § 7216; 26 C.F.R. § 301.7216-3 (prohibiting disclosure or use of tax return information without written consent of taxpayer that meets specified requirements); 26 C.F.R. § 301.7216-1 (defining "tax return information" to mean "any information, including, but not limited to a taxpayer's name, address, or identifying number, which is furnished in any form or manner for, or in connection with, the preparation of a tax return of the taxpayer").

focus on the importance of the use of auditor judgment. Conversely, one commenter did not object to the absence of a reference to judgment, provided that the adopting release contain an acknowledgement that the auditor must apply judgment in determining which matters are required to be communicated to the audit committee.<sup>12</sup>

As the Board explained in the proposing release, auditors will need to apply judgment to determine whether a relationship may reasonably be thought to bear on independence. After considering commenters' views, the Board continues to believe that adding specific reference to the auditor's professional judgment is unnecessary and inappropriate in this instance. While the Board agrees that auditors must exercise sound judgment in carrying out their responsibilities, it does not believe that specific reference to judgment in this rule is necessary to encourage auditors to do so. Judgment is called for in applying any reasonableness standard to particular facts and circumstances, and Rule 3526 is no different. Determining what relationships may reasonably be thought to bear on independence requires consideration of how a third party—not the auditor—would view the relationship, which is consistent with the SEC's general standard of auditor independence and AU sec. 220. A reference to "in the auditor's professional judgment" could suggest otherwise, however, and therefore could discourage the necessary analysis. Accordingly, the Board has determined not to add the phrase to Rule 3526.

## **B. Time Period Covered by Rule 3526(a)**

In the proposing release, the Board solicited comment on whether the initial communication in Rule 3526(a) should be limited to relationships that existed during a particular period, and, if so, how long that period should be. Commenters provided a wide variety of recommendations in this area. Some commenters stated that the initial communication should not be limited to relationships that existed during a particular period. Some of these commenters noted that establishing a specific period could result in arbitrary exclusion of certain relationships and recommended that the audit committee and auditor be responsible for determining the relevant time frame.

Other commenters recommended that the time period be limited to the audit and professional engagement period because, according to these commenters, the relevant relationships are those that exist currently or will continue to exist. One of these commenters stated that requiring communication of relationships that existed prior to this period would cause an unnecessary burden on the firm to identify and communicate these matters and on the audit committee to consider such information, because the firm was not subject to the auditor independence rules with respect to the audit client before the beginning of the audit and professional engagement period. One commenter recommended that the required time period should, at a minimum, be the audit period and that the rule should require auditors to consider communicating relationships that existed before that time. Finally, one commenter recommended that the time period should be no longer than two years prior to the commencement of the audit period, and two commenters recommended that the proposed rule should cover a time period of at least three years.

After considering these comments, the Board has determined that the initial communication required by Rule 3526(a) should not be limited to relationships

---

<sup>12</sup> Additionally, one commenter recommended including the reference to judgment and also referring to the SEC's general standard of auditor independence and the preliminary note to the SEC's independence rules in the proposed rule or the adopting release. Footnote 9 of this release refers to the general standard and the preliminary note.

that existed during a particular time period. While the Board agrees that a relationship that existed during the audit and professional engagement period may be more likely to bear on independence than a relationship that ended substantially before that time, it does not believe that the passage of time is the only factor relevant to a determination of whether a relationship may reasonably be thought to bear on independence. The nature of the relationship must also be considered. For example, if the firm customized and implemented the company's financial reporting system, that relationship, depending on the circumstances, might reasonably be thought to bear on independence even if the engagement to design the system was concluded before the beginning of the audit and professional engagement period. Determining whether a particular relationship is covered by Rule 3526(a) will, therefore, depend on the relevant facts and circumstances.

The Board is making one modification to the rule in response to a comment recommending that Rule 3526 make clear that the relationships required to be disclosed are those that may reasonably be thought to bear on independence as of the date of the communication. Because the relevant relationships are those that continue to bear on independence at the time of the communication, the Board has modified the rule by adding the words "as of the date of the communication" where appropriate. This clarification should help firms distinguish relationships that are covered by the rule from those that are not.

This modification should also clarify that, if a relationship may reasonably be thought to bear on independence as of the date of the communication, it must be disclosed regardless of whether it was disclosed in a prior year. Some commenters suggested that auditors should not be required to repeat a previously made disclosure. The Board believes that an earlier disclosure may reduce the amount of information that needs to be disclosed, but it does not obviate the need for disclosure altogether. If the nature of the relationship and the potential effects of the relationship on independence remain substantially unchanged, a reference to the earlier disclosure will generally be sufficient when disclosure is required. Moreover, as discussed above, after some amount of time, the length of which depends on the nature of the relationship, a relationship may no longer reasonably be thought to bear on independence and, therefore, would no longer need to be disclosed.

### **C. Timing of the Communications**

As discussed above, the Board proposed Rule 3526(a) because it believed that auditors should communicate relevant information about independence before becoming the issuer's auditor. A few commenters expressed concern that the proposed rule could cause undue burden on private companies pursuing an initial public offering if the communication were required before the auditor accepts an engagement to assist an existing private company client in going public. According to commenters, a requirement to complete the independence assessment before the auditor could commence work related to the initial public offering might disadvantage the audit client by causing delay. One commenter stated that auditors generally begin work on the initial public offering based upon an initial review of relationships between the accounting firm and the company and complete their independence assessment before the company's registration statement is filed. This commenter suggested that the Board reconsider the required timing of the communications in the context of an initial public offering.

After considering these comments, the Board has determined that relieving a firm whose private company audit client is pursuing an initial public offering

from compliance with Rule 3526 is not necessary or appropriate. As discussed above, the rule is intended to provide audit committees with the information they need to effectively oversee the audit engagement. When a private company undertakes an initial public offering, it must, for the first time, have its financial statements audited by an auditor that is independent within the meaning of the rules of the SEC and PCAOB. Among other decisions an audit committee must make is whether to engage its existing auditor for the initial public offering or whether to retain a new auditor for that purpose. In this context, the Board believes that the communication about an existing auditor's independence—which is relevant to the existing auditor's ability to continue as the company's auditor through, and after, the initial public offering—should not be delayed until just before the registration statement is filed. Moreover, the Board believes that this evaluation will not cause an unnecessary burden because the private company is already a client of the accounting firm and therefore should already be aware of most of the relationships that would need to be communicated.

The Board also received comment on the timing of the annual communication requirement that the Board proposed in Rule 3526(b). Like ISB No. 1, proposed Rule 3526 did not specify when during the year the firm would be required to make the annual communication.<sup>13</sup> One commenter recommended that the Board specify in Rule 3526(b) when the annual communication should take place to make sure that these critical discussions do not take place at the end of the audit engagement. The commenter recommended that the proposed rule be changed to state that firms should apply Rule 3526 as early in the audit process as practicable, preferably during the planning stage of the audit. One commenter recommended that the communication occur before substantial planning procedures commence, while another recommended that the annual communication should take place at the time the engagement letter is signed and then again near the end of the audit. Finally, one commenter recommended adding a section to Rule 3526 requiring an auditor to update the communications when he or she becomes aware of a covered, previously unknown or new relationship.

After considering these comments, the Board does not believe it is appropriate to mandate specifically when the Rule 3526(b) annual communication take place. In most cases, the communications will be more useful if they take place near the beginning of the audit process. However, by not prescribing the timing of the communication, Rule 3526(b) will allow the auditor and audit committee to determine the timing that is most appropriate in the circumstances of the particular engagement. Similarly, the Board does not believe that it is necessary for the rule to explicitly address how a firm should correct an incomplete communication.

### **III. Rule 3523. Tax Services for Persons in Financial Reporting Oversight Roles**

#### **A. Amendment to Rule 3523 to Exclude the Portion of the Audit Period That Precedes the Professional Engagement Period**

Rule 3523, as adopted by the Board, prohibits a registered public accounting firm, or an affiliate of the firm, from providing tax services during the "audit and professional engagement period" to a person in, or an immediate family

---

<sup>13</sup> The Board understands that, under ISB No. 1, the communication typically occurs at the end of the audit when the financial statements are issued.

member of a person in, a FROR at the audit client. Consistent with the SEC's independence rules,<sup>14</sup> the phrase "audit and professional engagement period" is defined to include two discrete periods of time. The "audit period" is the period covered by any financial statements being audited or reviewed.<sup>15</sup> The "professional engagement period" is the period beginning when the firm either signs the initial engagement letter or begins audit procedures, whichever is earlier, and ends when either the company or the firm notifies the SEC that the company is no longer that firm's audit client.<sup>16</sup>

In circumstances in which a registered firm has been the auditor for an audit client for more than a year, the "audit period" is a subset of the "professional engagement period." However, when a registered firm accepts a new audit client, the audit period may cover a period of time before the commencement of the professional engagement period. In such circumstances, Rule 3523, as adopted, provides that the firm is not independent of its audit client if the firm, or an affiliate of the firm, provided tax services to a person covered by Rule 3523 during the audit period but before the beginning of the professional engagement period. This aspect of the rule therefore effectively prevents a firm from accepting a new audit client if the firm, or an affiliate of the firm, provided tax services to such a person during the period covered by any financial statements to be audited or reviewed.

In preparing for implementation of the Board's tax services and independence rules, the Board decided to revisit the application of Rule 3523 to tax services provided during the audit period. As discussed above, on April 3, 2007, the Board issued a concept release to solicit comment about the possible effects on a firm's independence of providing tax services to a person covered by Rule 3523 during the portion of the audit period that precedes the beginning of the professional engagement period, and other practical consequences of applying the restrictions imposed by Rule 3523 to that portion of the audit period. After careful consideration of comments received in response to the concept release, the Board, on July 24, 2007, proposed to amend the rule to exclude the portion of the audit period that precedes the beginning of the professional engagement period.<sup>17</sup>

The Board received 13 comments on the proposed amendment to Rule 3523. Almost all of the commenters supported the Board's recommendation to amend Rule 3523.<sup>18</sup> Many of these commenters reiterated their belief that the firm's independence would not be affected by the provision of tax services to a person in a FROR during the portion of the audit period that precedes the beginning of the professional engagement period. Commenters also reaffirmed their belief

---

<sup>14</sup> 17 C.F.R. § 210.2-01(f)(5).

<sup>15</sup> Rule 3501(a)(iii)(1).

<sup>16</sup> Rule 3501(a)(iii)(2).

<sup>17</sup> See PCAOB Release No. 2007-008, which includes a discussion of the comments the Board received on the concept release.

<sup>18</sup> Only one commenter on the proposed rule objected to the amendment of Rule 3523. This commenter's objection stemmed from the contention that the terms "professional engagement period" and "a person in a financial reporting role" were not defined. Definitions for "professional engagement period" and "financial reporting oversight role" are provided under Rules 3501(a)(iii)(2) and 3501(f)(i), respectively. The same commenter, while not specifically addressing the proposed amendment, also expressed concern with Rule 3523(a), which provides an exception for tax services to a person who is in a FROR only because he or she serves as a member of the Board of Directors, and, referring to the responsibilities of directors, recommended deleting this section in its entirety. This commenter also recommended that the Board eliminate Rule 3523, which provides an exception, under certain circumstances, for tax services to a person who is in a FROR only because of the person's relationship to an affiliate of the entity being audited. The Board does not believe that eliminating these exceptions is warranted.

that, if Rule 3523 is not amended, it could adversely affect companies' ability to change auditors by limiting the companies' choice of auditors.

The Board has carefully considered these comments, as well as the comments on the concept release,<sup>19</sup> and determined to adopt the amendment to Rule 3523. The Board continues to believe that it is not necessary for the rule to restrict the provision of tax services during the portion of the audit period that precedes the professional engagement period. Rule 3523 relates to services provided to individuals and not the audit client that issues the financial statements subject to audit. Additionally, registered firms would remain responsible for considering the relevant facts and circumstances of a specific tax engagement and determining whether their independence is impaired under the SEC's general standard of auditor independence.<sup>20</sup>

One commenter objected to the discussion in the proposing release (and included here in the paragraph above) describing the firm's obligation to consider whether the firm's independence is impaired under the SEC's general standard of auditor independence. This commenter stated that the discussion sends a contradictory message by calling for firms to assess whether their independence is impaired despite the Board's conclusion that restrictions are unnecessary to preserve independence. The Board disagrees. As a result of the Board's amendment, firms will not be specifically prohibited by Rule 3523 from providing tax services to persons in a FROR during the portion of the audit period that precedes the professional engagement period. That does not mean, however, that such services are categorically permitted. Rather, as discussed in the proposing release, the amendment reflects the Board's belief that a more tailored approach, based on facts and circumstances and measured against the general standard of auditor independence, is preferable to a *per se* prohibition. Accordingly, as with any other service or relationship that is not specifically prohibited by the independence rules, firms must determine whether the service or relationship impairs independence under the SEC's general standard of auditor independence.

## B. Application of Rule 3523 to New Issuers

The Board proposed adding a note to Rule 3523 concerning the application of Rule 3523 in the context of an initial public offering in light of comments received on the concept release. The proposed note stated that, in the context of an initial public offering, the provision of tax services to a person covered by Rule 3523 before the earlier of the date that a registered firm: (1) signed an initial engagement letter or other agreement to perform an audit pursuant to the standards of the PCAOB, or (2) began procedures to do so, does not impair a firm's independence under Rule 3523. Commenters generally recommended that the Board adopt the note and encouraged the Board to consider expanding it to include other corporate life events, noting that corporate life events other than an initial public offering may also result in the need for an audit client's

---

<sup>19</sup> In response to the concept release, two commenters stated that Rule 3523 should not be amended to exclude the portion of the audit period that precedes the professional engagement period. These commenters believed that providing tax services to a person in a FROR during the audit period impairs independence, and suggested that audit firms may plan for a change of auditors sufficiently in advance to avoid or minimize any problems resulting from the application of the rule to the audit period.

<sup>20</sup> 17 C.F.R. § 210.2-01(b); see footnote 9.

financial statements to be audited pursuant to the standards of the PCAOB for the first time.<sup>21</sup>

In response to these comments, the Board determined to revise the note to Rule 3523 to describe events, other than just initial public offerings, pursuant to which a company's financial statements must be audited in accordance with the standards of the PCAOB for the first time. Specifically, the Board replaced the words "[i]n the context of an initial public offering" with "[i]n an engagement for an audit client whose financial statements for the first time will be required to be audited pursuant to the standards of the PCAOB." This situation may occur when a company decides to conduct an initial public offering of its securities,<sup>22</sup> which would require the company to file, for the first time, a registration statement under the Securities Act of 1933. Additionally this situation may occur when a foreign private issuer decides to list its securities on a national securities exchange, which would require the company to register its securities, for the first time, under the Securities Exchange Act of 1934. In both cases, the company's audited financial statements would be required, for the first time, to be audited pursuant to the standards of the PCAOB.<sup>23</sup>

The Board does not believe it is appropriate to list in the note the various corporate life events identified by commenters, such as mergers or acquisitions, reverse mergers or other similar transactions. The relevant factor is not the name given to a transaction or event but whether the transaction or event triggers the initial requirement for an audit pursuant to the standards of the PCAOB. For example, the surviving company in a merger or acquisition transaction may be an issuer that is already filing with the SEC financial statements required to be audited pursuant to the standards of the PCAOB. The Board did not intend the note to Rule 3523 to describe such a scenario.<sup>24</sup> By focusing on the need for a first-time audit pursuant to the standards of the PCAOB, the company and its auditors are better able to determine whether a proposed transaction or corporate life event is described by the note.

One commenter stated that, while it is easy to identify the date on which the initial engagement letter to perform an audit pursuant to the standards of the PCAOB is signed, it would be very difficult to apply the second prong of the note, which requires identification of the date that the auditor began procedures to perform an audit pursuant to the standards of the PCAOB, especially

---

<sup>21</sup> Commenters suggested the following as examples of when an audit client's financial statements would, for the first time, need to be audited pursuant to the standards of the PCAOB—mergers, reverse mergers in which a privately-held entity merges with a public company and succeeds to the public company's reporting obligations under the Securities Exchange Act of 1934, issuance of publicly traded debt, issuance of partnership or other units, inclusion of a public company's securities in an employee benefit plan, decision by a foreign private issuer to list its securities in the United States, and companies that have greater than 500 U.S. shareholders and total assets exceeding \$10 million as of the latest fiscal year-end.

<sup>22</sup> The company may offer equity securities, debt securities, limited partnership interests, trust interests, or another type of securities in the initial public offering.

<sup>23</sup> The Board intends the note to Rule 3523 to describe all circumstances in which a company that was not an "issuer," as defined by the Act, becomes an issuer as a result of a corporate life event or otherwise. These circumstances include those in which a private company that was once an issuer becomes an issuer again. As long as the company was not required to have its financial statements audited pursuant to the standards of the PCAOB, the company and its auditors are better able to determine whether a proposed transaction or corporate life event is described by the note.

<sup>24</sup> Another example is a private operating company becoming a reporting company through a reverse merger with a reporting shell company. In this scenario, even though the operating company assumes the reporting obligations of the former shell company, the surviving reporting company is the former shell company whose financial statements already were required to be audited pursuant to the standards of the PCAOB. Therefore, the note to Rule 3523 does not describe this situation.

if the registered firm audited the company's prior years' financial statements.<sup>25</sup> Another commenter similarly questioned whether this period begins when the auditor begins planning for the audit. The Board recognizes that, in certain circumstances, it may be difficult to identify when a continuing auditor began procedures pursuant to the standards of the PCAOB. An auditor begins procedures for purposes of Rule 3523 when he or she begins procedures, including required audit planning procedures, to update its earlier audits to conform them to the standards of the PCAOB or begins procedures on a new audit pursuant to those standards. This point in time will depend on the facts and circumstances of the particular engagement and corporate life event, rather than on any more specific triggering event that the Board could establish by rule.

### C. Transition Periods

Rule 3523 prohibits the provision of tax services to covered persons once the professional engagement period begins. Some commenters on the concept release recommended that the Board amend Rule 3523 to allow a transition period after a company changes auditors so that the new auditor may complete any tax services in progress to any persons in FRORs affected by the issuer's change of auditors.<sup>26</sup> Other commenters stated that tax services to persons in FRORs should, as is currently required, cease before the professional engagement period begins. The Board decided to seek further feedback on this topic in the proposing release. Specifically, the Board asked commenters to specify why they believed any transition period was necessary and how long any such transition period should be.<sup>27</sup>

The majority of commenters on this topic recommended that the Board provide for a 180-day transition period to allow an accounting firm to complete covered tax services once the professional engagement period begins. Most of these commenters stated that, since the Board has previously determined that a 180-day transition is appropriate when a person is hired or promoted into a FROR,<sup>28</sup> the Board should provide the same transition when an issuer changes its auditor. The commenters stated that, without a transition period, the person in a FROR could experience undue hardship because he or she may have to switch tax preparers in the middle of the personal tax services engagement. Additionally, some commenters stated that some accounting firms may not be able to terminate the in-process personal tax services engagements within a timeframe that would also allow them to submit their proposal for the new audit engagement. Conversely, some commenters stated that they believed that the Board should not provide a transition period and that it is appropriate for the firm to cease the personal tax services before the professional engagement

---

<sup>25</sup> The commenter noted that, when a company undertakes an initial public offering, it is required to include in the registration statement audited financial statements for its past three completed fiscal years. These financial statements may have previously been audited pursuant to generally accepted auditing standards ("GAAS"). The commenter was concerned that if the company does not retain a new auditor for its initial public offering, there may be a question as to whether the auditor should consider its audits of the prior years in assessing when it "began procedures" as provided under the note to Rule 3523. An auditor should not consider work already performed on previously completed GAAS audits for determining when the auditor "began procedures" because those audits were not performed pursuant to the standards of the PCAOB.

<sup>26</sup> Rule 3523(c) provides a time-limited transition period for an auditor to complete in-progress tax services to a person that becomes a FROR at the audit client through a hiring, promotion, or other change in employment event. That transition period is unaffected by this release.

<sup>27</sup> See PCAOB Release 2007-008 (July 24, 2007), at 12.

<sup>28</sup> See Rule 3523(c).

period begins or that a transition period should only be available on a case-by-case basis where cessation of services would cause significant hardship.<sup>29</sup>

After considering these comments, the Board does not believe that a transition period is necessary when a company changes its auditor and has determined not to amend Rule 3523 to include one. The Board adopted Rule 3523 because the provision of tax services to a person in a FROR after the accounting firm is hired as the auditor creates an unacceptable appearance that the firm lacks independence. While the Board believed a time-limited exception was warranted to accommodate persons who, through a hiring or promotion event, abruptly become covered by the rule, it does not believe that such a transition period is similarly necessary after an auditor change. In the former situation, the firm already is the issuer's auditor and has no control over whether or when the person is promoted or otherwise moved into a FROR. In contrast, the firm controls whether and when it begins a new engagement. The Board therefore believes that the firm is able to conclude, or transition to another provider, any tax services to persons in FRORs at a new audit client before beginning the engagement.<sup>30</sup>

Some commenters also encouraged the Board to consider providing a transition period for firms to complete tax services to persons who become covered by Rule 3523 as a result of a corporate life event, such as a merger, acquisition, or initial public offering. Commenters suggested that such corporate life events present conceptually similar transition issues to those related to the hiring or promotion of a person into a FROR and that Rule 3523(c) should therefore be expanded to accommodate them. Commenters also stated that the absence of transitional relief may cause unnecessary hardship for persons in FRORs whose tax return preparation work was well underway at the point of the initial public offering, merger, or acquisition.<sup>31</sup>

As discussed above, in the context of an initial public offering, the rule, as amended, makes clear that tax services provided to a person in a FROR do not impair independence as long as those tax services are concluded before the earlier of the date that the firm: (1) signed an initial engagement letter or other agreement to perform an audit pursuant to the standards of the PCAOB, or (2) began procedures to do so. Auditors should have sufficient time before that date to conclude any tax services to persons that would be covered by the rule. Accordingly, the Board does not believe that the recommended transition period is necessary in the context of an initial public offering.

The Board also considered whether a transition period is necessary to allow a firm to conclude tax services to persons who become covered by the rule after a merger or acquisition. As discussed above, Rule 3523 already provides a transition period for a firm to conclude tax services to a person who was not in a FROR before a hiring, promotion, or other change in employment event. If a

---

<sup>29</sup> Another commenter stated that Rule 3523 should be effective immediately for issuers with fiscal years ending on or after December 15, 2007, that all personal tax services in process should be allowed to continue until the filing of the applicable tax return, and that such services, along with the related fees, should be disclosed in the issuer's filings with the SEC and documented in the minutes of meetings of the audit committee.

<sup>30</sup> Nothing in Rule 3523 requires a firm to complete or terminate tax services to persons in FRORs at a potential audit client before submitting a proposal for a new audit engagement. Rather, the rule requires the accounting firm to complete or terminate those services by the beginning of the professional engagement period.

<sup>31</sup> The commenters further stated that, because persons in FRORs may receive tax services from a number of accounting firms, the application of the rule to the audit period may unreasonably restrict a company's ability to either continue or change auditors after a corporate life event. As discussed above, the Board has amended the rule to exclude the portion of the audit period that precedes the professional engagement period.

business combination results in a change of employer for a person in a FROR—from, for example, the acquired company to the acquiring company—the existing transition period in Rule 3523 would apply.<sup>32</sup> For example, if Company A acquires Company B, a person who was in a FROR at Company B would experience an "other change in employment event" if he or she became an employee of Company A in a FROR as a result of the acquisition. If such a person had been receiving tax services from Company A's registered public accounting firm pursuant to an engagement in process before the acquisition, the time-limited exception in Rule 3523(c) would apply.<sup>33</sup>

In the example above, persons in FRORs at Company A would not experience a change in employment event because they were employed by Company A both before and after the acquisition, and Rule 3523(c) would, therefore, not apply. If Company B's auditor became Company A's auditor after the acquisition (replacing Company A's auditor), Company B's auditor would have to conclude any tax services to persons in FRORs (and their immediate family members) at Company A before the start of the professional engagement period. The Board believes this is appropriate because, as discussed above, the Board does not believe that a transition period is necessary to allow a newly engaged auditor to conclude in-progress tax services to persons in FRORs at the new audit client. Accordingly, the Board has determined not to expand the existing transition period in Rule 3523(c).

## IV. Effective Date and Adjustment of Implementation Schedule

Rule 3526 establishes new requirements for registered public accounting firms. The Board believes it is appropriate to allow a reasonable period of time for such firms to prepare internal policies and procedures and train their employees to ensure compliance with these new requirements. Accordingly, Rule 3526 will become effective, and ISB No. 1 and the related interpretations superseded, on the later of September 30, 2008, or 30 days after the date that the SEC approves the rule.

The amendment to Rule 3523 would have the effect of making permanent the Board's delay in implementing the rule as it applies to tax services provided during the period subject to audit but before the professional engagement period. Accordingly, no transition period is necessary, and the amended rule will become effective immediately upon approval by the SEC. The Board has also determined to further adjust the implementation schedule for Rule 3523 to allow sufficient time for the SEC to consider whether to approve the amendment to Rule 3523.<sup>34</sup> Specifically, the Board will not apply Rule 3523 to tax services provided on or before December 31, 2008, when those services are provided during the audit period and are completed before the professional engagement period begins.<sup>35</sup> The Board has filed this adjustment to the implementation schedule with the SEC as an immediately effective proposed rule change. The

<sup>32</sup> See also Staff Questions and Answers, *Ethics and Independence Rules Concerning Independence, Tax Services and Contingent Fees* (April 3, 2007), Question and Answer No. 6, at 4-5.

<sup>33</sup> *Id.*

<sup>34</sup> Under the adjustment to the implementation schedule for Rule 3523 that the Board made on July 24, 2007, the Board will not apply Rule 3523 to tax services provided on or before April 30, 2008, when those services are provided during the audit period and are completed before the professional engagement period begins.

<sup>35</sup> This will apply regardless of whether there is an engagement in process on April 30, 2008.

rule change became effective upon its filing with the SEC, thereby extending to December 31, 2008 the implementation date for this aspect of Rule 3523.

\* \* \*

On the 22nd day of April, in the year 2008, the foregoing was, in accordance with the bylaws of the Public Company Accounting Oversight Board,

ADOPTED BY THE BOARD.

J. Gordon Seymour

Secretary

### **Rule 3523. Tax Services for Persons in Financial Reporting Oversight Roles**

A registered public accounting firm is not independent of its audit client if the firm, or any affiliate of the firm, during the ~~audit and~~ professional engagement period provides any tax service to a person in a financial reporting oversight role at the audit client, or an immediate family member of such person, unless—

- a. the person is in a financial reporting oversight role at the audit client only because he or she serves as a member of the board of directors or similar management or governing body of the audit client;
- b. the person is in a financial reporting oversight role at the audit client only because of the person's relationship to an affiliate of the entity being audited—
  - (1) whose financial statements are not material to the consolidated financial statements of the entity being audited; or
  - (2) whose financial statements are audited by an auditor other than the firm or an associated person of the firm; or
- c. the person was not in a financial reporting oversight role at the audit client before a hiring, promotion, or other change in employment event and the tax services are—
  - (1) provided pursuant to an engagement in process before the hiring, promotion, or other change in employment event; and
  - (2) completed on or before 180 days after the hiring or promotion event.

Note: In an engagement for an audit client whose financial statements for the first time will be required to be audited pursuant to the standards of the PCAOB, the provision of tax services to a person covered by Rule 3523 before the earlier of

the date that the firm: (1) signed an initial engagement letter or other agreement to perform an audit pursuant to the standards of the PCAOB, or (2) began procedures to do so, does not impair a registered public accounting firm's independence under Rule 3523.

### **Rule 3526. Communication with Audit Committees Concerning Independence**

A registered public accounting firm must—

- a. prior to accepting an initial engagement pursuant to the standards of the PCAOB—
  - (1) describe, in writing, to the audit committee of the issuer, all relationships between the registered public accounting firm or any affiliates of the firm and the potential audit client or persons in financial reporting oversight roles at the potential audit client that, as of the date of the communication, may reasonably be thought to bear on independence;
  - (2) discuss with the audit committee of the issuer the potential effects of the relationships described in subsection (a)(1) on the independence of the registered public accounting firm, should it be appointed the issuer's auditor; and
  - (3) document the substance of its discussion with the audit committee of the issuer.
- b. at least annually with respect to each of its issuer audit clients—
  - (1) describe, in writing, to the audit committee of the issuer, all relationships between the registered public accounting firm or any affiliates of the firm and the audit client or persons in financial reporting oversight roles at the audit client that, as of the date of the communication, may reasonably be thought to bear on independence;
  - (2) discuss with the audit committee of the issuer the potential effects of the relationships described in subsection (b)(1) on the independence of the registered public accounting firm;
  - (3) affirm to the audit committee of the issuer, in writing, that, as of the date of the communication, the registered public accounting firm is independent in compliance with Rule 3520; and
  - (4) document the substance of its discussion with the audit committee of the issuer.

## Appendix 3

### Amendment to PCAOB Interim Independence Standards

Independence Standards Board Standard No. 1, *Independence Discussions with Audit Committees* ("ISB Standard No. 1"), ISB Interpretation 00-1, *The Applicability of ISB Standard No. 1 When "Secondary Auditors" Are Involved in the Audit of a Registrant*, and ISB Interpretation 00-2, *The Applicability of ISB Standard No. 1 When "Secondary Auditors" Are Involved in the Audit of a Registrant, An Amendment of Interpretation 00-1*, are superseded by Rule 3526.

**PCAOB Release No. 2008-004*****Rules on Periodic Reporting by Registered Public Accounting Firms*****PCAOB Release No. 2008-004  
June 10, 2008****PCAOB Rulemaking  
Docket Matter No. 019****Summary**

The Public Company Accounting Oversight Board ("Board" or "PCAOB") is adopting rules to establish a reporting framework for registered public accounting firms. The rules require that each firm report certain information annually. The rules also require special reporting regarding certain specified events within 30 days of the event. The Board is adopting eight new rules (PCAOB Rules 2200 through 2207), two new forms (PCAOB Form 2 and PCAOB Form 3), and amendments to five existing rules (PCAOB Rules 1001, 2107, 2300, 4000, and 4003). The rules will take effect 60 days after Securities and Exchange Commission ("Commission") approval pursuant to Section 107 of the Sarbanes-Oxley Act of 2002.

**Board Contacts**

Michael Stevenson, Deputy General Counsel (202-207-9054; [stevensonm@pcaobus.org](mailto:stevensonm@pcaobus.org)), Sarah Williams, Deputy Director, Division of Registration and Inspections (202-207-9076; [williamss@pcaobus.org](mailto:williamss@pcaobus.org)), and, for questions relating to non-U.S. firms, Rhonda Schnare, Director of International Affairs (202-207-9167; [schnarer@pcaobus.org](mailto:schnarer@pcaobus.org)).

\* \* \* \* \*

Section 102(d) of the Sarbanes-Oxley Act of 2002 ("the Act") provides that each registered public accounting firm shall submit an annual report to the Board, and may also be required to report more frequently to provide information specified by the Board or the Commission. The Board solicited comment on proposed rules and forms for annual reporting of certain information and event-based reporting ("special reporting") of certain other information.<sup>1</sup> After considering all comments submitted on the proposal, the Board is today adopting rules and forms for annual and special reporting, to take effect 60 days following Commission approval, with the earliest potential reporting deadline for any firm (including special reporting of certain events that may have occurred since the firm registered) being 90 days after Commission approval.

Section I of this Release discusses how the Board's adoption of these rules relates to the ongoing public discussion about the nature of information that

---

<sup>1</sup> See Proposed Rules on Periodic Reporting by Public Accounting Firms, PCAOB Release No. 2006-004 (May 23, 2006) ("Proposing Release") at 2.

firms should publicly disclose. Section II of this Release discusses the information that the rules require firms to report, as well as issues relating to timing, amendments, and PCAOB follow-up. Section III discusses public availability of reported information. Section IV explains how the rules implement the Board's policy of reasonably accommodating foreign registered firms faced with non-U.S. legal restrictions. Section V describes when the rules will take effect and the related timing of initial reporting. Section VI addresses various issues raised by commenters and that are not otherwise addressed in Sections II through V. A detailed table of contents is set out below.

## I. The Relationship Between These Rules and Ongoing Public Discussion of Additional Disclosure Requirements

In taking final action with respect to this set of rules, the Board does not mean to suggest that the information encompassed by these rules is the only information that the Board will require firms to report under Section 102(d) of the Act. Over time, the Board may identify other useful requirements by, for example, monitoring public discussion of relevant issues or considering disclosure requirements in other auditor regulatory regimes. To the extent that the Board identifies additional reporting requirements that are necessary or appropriate in the public interest or for the protection of investors, the Board may propose and adopt them at any time.

In particular, the Board is aware of the work of the Department of the Treasury's Advisory Committee on the Auditing Profession ("Advisory Committee").<sup>2</sup> Among other things, the Advisory Committee has considered whether the public interest would be served by increased transparency concerning public accounting firms, including through requirements that such firms periodically disclose certain information that goes beyond that required by the rules the Board adopts today.

The Advisory Committee has published for public comment a draft report dated May 5, 2008<sup>3</sup> and an addendum to that draft report issued June 3, 2008.<sup>4</sup> The Advisory Committee's draft recommendations include recommendations relating to transparency of public accounting firms and include specific recommendations for action by the Board to require certain disclosures by registered firms. The Board's action today should not be understood to suggest any Board view on the substance of the Advisory Committee's draft recommendations. The Board has for some time been working steadily toward final action on its earlier rule proposal and is now ready to implement those elements of a disclosure framework.

Rather than delay that implementation pending any final Advisory Committee recommendations, the Board is proceeding now for a variety of practical reasons, including that firms' registration applications are increasingly stale. Through today's rulemaking, the Board puts into place a mechanism through which firms can, among other things, comply with the Act's requirement that they annually update basic elements of the registration information. Waiting to formulate specific rule proposals based on the eventual Advisory Committee recommendations, and obtain and evaluate public input on those proposals, would delay the Board's adoption of any reporting rules until well into 2009. In addition, the Board's reporting framework will be new to public accounting firms. The Board sees value in implementing the basic framework now, so that firms can begin to adjust to this reporting obligation and begin to get familiar with the Board's web-based reporting system, rather than waiting for the development of additional reporting requirements. The Board's action today will put in place the basic elements without further delay, and without diminishing the Board's ability or willingness to consider imposing additional disclosure requirements.

The Board will continue to monitor the Advisory Committee's process, including the public comments on the draft report and addendum, and will give careful

---

<sup>2</sup> Information about the Advisory Committee's work is available at [www.treas.gov/offices/domestic-finance/acap](http://www.treas.gov/offices/domestic-finance/acap). Certain individual Board members have participated as observers in meetings of the Advisory Committee and its three subcommittees.

<sup>3</sup> See *Federal Register*, Vol. 73, No. 95 (May 15, 2008) at 28190.

<sup>4</sup> See [www.treas.gov/offices/domestic-finance/acap/draft-report-addendum\\_06-03-2008.pdf](http://www.treas.gov/offices/domestic-finance/acap/draft-report-addendum_06-03-2008.pdf).

consideration to the Advisory Committee's final recommendations. To the extent that implementation of any of those recommendations would involve the development of new Board rules, the Board will formulate a proposed approach to those recommendations and provide opportunities for further public input.

## II. The Substance of the Reporting Requirements

The reporting requirements serve three fundamental purposes. First, firms will report information to keep the Board's records current about such basic matters as the firm's name, location, contact information, and licenses. Second, firms will report information reflecting the extent and nature of the firm's audit practice related to issuers in order to facilitate analysis and planning related to the Board's inspection responsibilities and to inform other Board functions, as well as for the value the information may have to the public. Third, firms will report circumstances or events that could merit follow-up through the Board's inspection process or its enforcement process, and that also may otherwise warrant being brought to the public's attention (such as a firm's withdrawal of an audit report in circumstances where the information is not otherwise publicly available).

The reporting framework includes two types of reporting obligations. First, it requires each registered firm to provide basic information once a year about the firm and the firm's issuer-related practice over the most recent 12-month period. The firm must do so by filing an annual report on Form 2. Second, upon the occurrence of specified events, a firm must report certain information by filing a special report on Form 3.

There is no significant overlap between the information required to be reported annually on Form 2 and the special reporting required on Form 3. The purpose of Form 2 reporting is principally to provide a profile of the firm at a point in time, based on its activity related to issuers over the most recent 12-month period. The purpose of Form 3 reporting is principally to alert the Board to the occurrence of events that may, depending upon the situation, have more immediate bearing on how the Board carries out its regulatory responsibilities regarding the firm. With just two exceptions, special reporting on Form 3 does not serve to update information reported on Form 2.<sup>5</sup>

### A. Annual Reporting on Form 2

#### 1. Required Information

Beyond basic threshold information about the identity of the firm and the location of its offices, Form 2 requires information in three categories: the firm's issuer-related practice, internal and external resources on which the firm draws in performing audits, and certain new relationships and acquisitions. Form 2 also requires an affirmation related to the firm's statutory obligations to cooperate with the Board.

##### *a. The Firm's Issuer-Related Practice*

Required Form 2 reporting includes information about whether the firm issued any audit reports for issuers (and, if not, whether the firm played a substantial role in any audits of issuers), identifying information concerning all such

---

<sup>5</sup> Among the things required in an annual report on Form 2 are the firm's name and certain contact information for the firm's Board contact person. Any changes to those two items must be reported on Form 3. No other information required on Form 2 is subject to updating via Form 3.

issuers, the number of firm personnel who exercised authority to sign the firm's name to an audit report, and a breakdown showing the percentage of the firm's total billings that was attributable to certain categories of services provided to issuer audit clients. The final rules generally mirror the proposal on these points, but consideration of comments has prompted the changes and clarifications described below.

#### **(i) Fees Billed to Issuer Audit Clients**

Commenters voiced concern about burdens associated with the proposed requirement to report the percentage of total fees billed to all clients that is attributable to fees billed in each of four categories of services provided to issuer audit clients. Commenters indicated that firms, particularly large firms, may not be able to comply with the proposed requirement without making costly changes to their internal systems. The Board has weighed these concerns carefully, bearing in mind that the purposes for which the information is sought do not depend upon a high level of precision in the data. The Board is adopting a modified version of the proposed requirement, incorporating some elements of alternatives suggested by commenters.

Form 2 will allow a firm to select from two methods of calculating the percentages to report. Firms that are reasonably able to report the requested percentages based on data precisely coinciding with the annual reporting period (i.e., the data specified by the proposed requirement) may do so. As an alternative, a firm may, for each category of services, report the percentage derived by (1) using as a denominator the total fees billed to all clients in the firm's fiscal year that ended during the annual reporting period and (2) using as a numerator the total issuer audit client fees as determined by reference to the fee amounts disclosed to the Commission by those clients for each client's fiscal year that ended during the reporting period (or, for clients who have not made the required Commission filings, the fee amounts required to be disclosed). Under either approach, a firm may use any reasonable method to estimate the components and may round the reported percentages to the nearest five percent. Firms that use estimated data in their calculations should briefly describe their methodology in an exhibit to Form 2.

Some commenters also expressed concern about what they saw as a disconnect between the four categories of services used in the proposed form and the four categories of fees that the Commission requires issuers to report in proxy filings. The Board reiterates that its definitions of these four categories of services correspond to the Commission's descriptions of services for which an issuer must disclose the fees paid to its auditor.<sup>6</sup> The Board is not adopting commenters' suggestions to make the Board's labels conform to the Commission's labels (i.e., to say "audit-related services" instead of "other accounting services" and to say "all other services" instead of "non-audit services") because the labels that the Board uses come from Section 102(b)(2)(B) of the Act and have been used in all applications for registration on Form 1.<sup>7</sup> Commenters also noticed a disconnect between Item 3.2's focus on fees billed and the reference to "revenues" in Item

---

<sup>6</sup> See Proposing Release at 4, n.3. Compare the descriptions of services in Item 9(e) of Commission Schedule 14A (17 C.F.R. §240.14a-101) under the headings "Audit Fees," "Audit-Related Fees," "Tax Fees," and "All Other Fees" with, respectively, the Board's definitions of "Audit Services" (Rule 1001(a)(vii)), "Other Accounting Services" (Rule 1001(o)(i)), "Tax Services" (Rule 1001(t)(i)), and "Non-Audit Services" (Rule 1001(n)(ii)). The note to Item 3.2 on Form 2 has been expanded to highlight this point.

<sup>7</sup> The Board is, however, taking this opportunity to delete from the relevant definitions certain provisions that ceased to apply after December 15, 2003. Specifically, the Board is amending Rules 1001(a)(vii), 1001(o)(i), and 1001(n)(ii) by deleting the paragraph denominated "(1)" from each rule.

3.2's caption. The Board has changed the caption to refer to fees billed instead of revenues.

### (ii) Audit Reports

Item 4.1 of Form 2 requires information relating to a firm's issuance of audit reports during the reporting period. As it was proposed, Item 4.1 would have required, among other things, the total number of firm personnel who exercised authority to sign the firm's name to an audit report during the reporting period. Commenters suggested various alternatives to requiring that precise number. Bearing in mind that, here too, the purposes for which the information is sought—principally inspection scoping and planning—do not depend upon precise information, the Board has adopted a slightly modified version of an approach suggested by a commenter. As adopted, Item 4.1.b requires a firm to indicate from among the following ranges how many individuals exercised the authority to sign the firm's name to an audit report in the reporting period: 1-9, 10-25, 26-50, 51-100, 101-200, or more than 200. If the firm indicates that the range is 1-9, the firm must also provide the exact number.

One commenter sought clarification on whether the audit report date being requested referred to the date of the auditor's report, the report release date pursuant to PCAOB Auditing Standard No. 3, *Audit Documentation*, or the date that the issuer filed the report with the Commission. A note to Item 4.1 now clarifies that the date called for by Item 4.1.a.3 is the date of the audit report, as described in AU 530, *Dating of the Independent Auditor's Report*. A note has also been added to clarify that it is not necessary to provide the date of any consent to an issuer's use of an audit report previously issued for that issuer, except that, if such consents constitute the only instances of the firm issuing audit reports for a particular issuer during the reporting period, the firm should include that issuer in Item 4.1 and include the dates of such consents in Item 4.1.a.3.

### (iii) Substantial Role

If, during the reporting period, a firm plays a substantial role in the preparation or furnishing of an audit report that was issued in the reporting period, but the firm did not issue audit reports required to be reported under Item 4.1, the firm must report certain information under Item 4.2. As proposed, Item 4.2.a.4 would have required the firm to report the date of each such audit report. One commenter expressed concern that a firm might not have access to the date of an audit report issued by another firm. The Board has revised Item 4.2.a.4 to require, instead, the end date of the fiscal period covered by the financial statements that were the subject of the audit report.

#### *b. Internal and External Resources*

Form 2 requires information about internal and external resources on which the firm draws in performing audits for issuers. As to external resources, Part V of Form 2 requires the firm to identify and describe any memberships or affiliations in or with any network, alliance, or similar arrangement that affords the firm access to resources for use in issuer audits, including procedures, manuals, or personnel. As to internal resources, Part VI of Form 2 requires information about the total number of the firm's personnel, accountants, and certified public accountants.

Regarding Part V, commenters sought clarification on various points. Item 5.2.a.3, as proposed, would have required the firm to state whether it has any "affiliation, whether by contract or otherwise, with another entity through or from which the firm commonly employs or leases personnel to perform audit services, or with which the firm otherwise engages in an alternative practice

structure." Commenters asked for clarification of "commonly" and also suggested that the term "affiliation" could cause confusion since the item does not appear intended to be limited to relationships commonly viewed as "affiliate" relationships. The final version of Item 5.2.a.3 avoids the use of "affiliation" and "commonly" and requires the firm to state whether it has any "arrangement, whether by contract or otherwise, with another entity through or from which the firm employs or leases personnel to perform audit services." One commenter also asked the Board to clarify that Item 5.2.a.3 does not encompass a firm's hiring of, or contracting for, support personnel. Item 5.2.a.3, by its terms, encompasses only arrangements through which the firm employs or leases "personnel to perform audit services."

Regarding Part VI, commenters expressed concern about Item 6.1.d's requirement to provide information about the number of firm personnel, segregated by functional level, who provided audit services during the reporting period. Commenters stated that some firms cannot readily track with precision the number of such individuals. Commenters constructively suggested various alternative ways to collect a rough surrogate for that number. The Board has concluded, however, not to adopt any version of Item 6.1.d at this time.

Item 6.1.b requires the firm to report the total number, as of the end of the reporting period, of the firm's certified public accountants, and requires the firm to include in that number any firm accountants with "comparable licenses" from non-U.S. jurisdictions. One commenter asked for clarification of the "comparable license" concept. The "comparable license" concept is not new, but is employed in the Form 1 application for registration. Even so, the commenter suggested clarifying that the requirement refers to accountants that are (1) licensed by the jurisdiction in which they render services and (2) by virtue of such license, are certified to perform the functions of a public accountant. The Board confirms this as the appropriate understanding of the requirement.

#### *c. Certain Relationships and Acquisitions*

Form 2 requires that the firm report information about certain potentially significant relationships. Part VII of Form 2 requires the firm to report information about certain types of relationships with individuals and entities who have specified disciplinary and other histories. Part VIII requires the firm to report certain information if it acquired another public accounting firm, or took on at least 75 percent of the individuals who were partners, shareholders, principals, members, or owners of another public accounting firm. After consideration of comments, the Board has made significant changes to both Part VII and Part VIII.

#### **(i) Relationships with Persons or Entities Having Specified Histories**

In Part VII of Form 2, the firm must report information if it stands in certain relationships to individuals who, or entities that, were the subject of a Board order imposing a disciplinary sanction or a Commission Rule 102(e) order entered within the five years preceding the end of the reporting period.<sup>8</sup> The Board has made a variety of changes to Part VII, including requiring the firm to specify the date of the relevant order and whether it was a Board or Commission order.

---

<sup>8</sup> The Form 2 reporting requirement expressly excludes from its scope certain relationships that must be reported by a special report on Form 3. Those relationships—with individuals or entities that are currently subject to sanctions or orders that have the effect of prohibiting them from issuing audit reports, being associated persons of registered firms, or appearing or practicing before the Commission—must be reported on Form 3 within 30 days of the beginning of the relationship. They need not be reported again on Form 2.

The Board has also made an important scope change. As proposed, the Part VII items would have required a firm to report new relationships commenced during the reporting period, and the proposal would have required every firm's first Form 2 filing to report this information not only for the reporting period but for the entire period back to the cut-off date that the firm used for information it supplied in its Form 1 application. For hundreds of firms' first Form 2 filings, that period would be more than five years.

Rather than impose that burden, the Board has restructured the Part VII items relating to firm personnel or owners to capture only relationships that (1) exist as of the end of the reporting period, (2) are with individuals or entities whose relevant disciplinary sanction or Rule 102(e) order was entered within the five years preceding the end of the reporting period, and (3) have not previously been reported by the firm on Forms 1, 2, or 3. The Board has also restructured the Part VII item relating to receipt of consulting or professional services to capture only relationships that involve services received, or contracted for, in the reporting period. With these changes, a firm's first Form 2 will still effectively serve to fill any gap, but the burden will only extend to currently relevant information. Subsequent Form 2 filings need not report the same information again just because the relationship continues to exist at the end of the reporting period.

In response to commenters' concerns and suggestions, the Board has also limited the scope of relevant firm personnel to those who provided at least ten hours of audit services for any issuer during the reporting period. It is important to note, however, how this change intersects with the structural change described above. Just because an individual does not meet the ten-hour threshold during the reporting period in which the relationship begins does not mean that the firm need never report the relationship. If there is a later reporting period in which that person meets the ten-hour threshold, and that reporting period end is still within five years of the entry of the disciplinary sanction or Commission order, the firm must report that relationship in its annual report for that period. The relationship need only be reported one time, however, and need not be reported again for future reporting periods in which the criteria are met.

Also in response to comments, the Board has added a scope limitation to Part VII's approach concerning the firm's receipt of consulting or other professional services. The Board has narrowed the reporting trigger to encompass only arrangements for services related to the firm's audit practice or related to services the firm provides to issuer audit clients. The reporting obligation is triggered for any reporting period that ends less than five years after entry of the disciplinary sanction or Commission order and in which the firm has received or arranged to receive such services.

Finally, the Board is eliminating one category of reportable relationships that was included in the proposal. The Board proposed that firms report information if they entered into a relationship with any individual who, while not having been sanctioned personally, was a principal of a firm at the time of conduct for which the firm was later subjected to specified sanctions. After carefully considering comments, however, the Board is persuaded that any occasional value this information might have is outweighed by the fact that treating this information as a risk indicator about either the firm or the individual has the potential to diminish the professional opportunities of (1) individuals who had no connection to the misconduct at all, and (2) individuals who had a connection to alleged misconduct, but who never had an opportunity to defend against charges because a regulator was satisfied to conclude the matter through a settlement with the firm. In addition, the Board is sensitive to the unusual burden that would be placed on firms not only to ascertain this information at

the time they commence the relationship, but also to continually monitor for it, since the relevant sanction might not be entered until years after the conduct.

### (ii) Acquisitions

In Part VIII of Form 2, the firm must report information if it has acquired another public accounting firm or taken on 75 percent or more of another accounting firm's principals. Commenters suggested the need for some clarification, and the Board has made changes to clarify two points. First, where the proposal referred only to acquisition of an "accounting firm"—which commenters correctly noted is not a term defined in the Act or the Board's rules—the final form now refers to a "public accounting firm," which is defined in both the Act and the rules. Second, with respect to taking on 75 percent or more of another firm's principals, the final form includes language clarifying that the reference is to 75 percent of the persons who were principals of the other firm "as of the beginning of the reporting period."

As proposed, Part VIII also would have required that a firm's first Form 2 filing report such acquisitions not only for the reporting period but for the entire period back to the cut-off date that the firm used for information it supplied in its Form 1 application. Here too, in recognition that the burden imposed by that requirement would likely be disproportionate to its value with respect to firms that have long been registered and been subject to the Board's inspection process, the Board has eliminated that requirement with respect to all firms that are registered before the effective date of Rule 2201 (the rule that requires the filing of annual reports). For firms that become registered after that date, however, the Board has left in place the requirement that their first Form 2 provide the Part VIII information going back to the Form 1 information cut-off date.<sup>9</sup>

#### *d. Affirmation Related to Consent to Cooperate*

In addition to requiring the information described above, Form 2 requires an annual affirmation related to the Act's requirements that the firm consent to cooperate with the Board and enforce cooperation by the firm's associated persons. Tracking the consent language included in Form 1, Form 2 requires the firm (1) to affirm its consent to cooperate with Board requests for testimony or documents, (2) to affirm that it has secured from each of its associated persons the required consents to cooperate with the Board, and (3) to affirm the firm's understanding and agreement that its cooperation and compliance, and the securing and enforcing of consents from its associated persons, is a condition of its continued registration with the Board.

The inclusion of the affirmation in Form 2 should not be understood to suggest that a firm's original consent, as required by the Act and executed in the firm's Form 1, expires at any point. Rather, the purpose of the Form 2 affirmation is to serve as an annual reminder to the firm of both the firm's obligation to cooperate and its obligation to secure signed consents from new associated persons. A firm's affirmation of these points is strictly required, subject only to an accommodation for registered firms that face non-U.S. legal obstacles, discussed below. Aside from that accommodation, the Board's system will not accept for filing a Form 2 that does not include the affirmation.

One commenter seemed to misunderstand the proposal and suggested that the Board make clear that this requirement is an update of the Form 1 consent

---

<sup>9</sup> The Form 1 information cut-off date for such a firm could be either before or after the beginning of the reporting period for the firm's first Form 2. If it is before the beginning of the reporting period, the firm's reporting on this point must reach back to that date. If it is after the beginning of the reporting period, the firm's reporting on this point need only go as far back as that date and need not go all the way back to the beginning of the reporting period.

and is required only for new employees since a firm's initial registration. The Form 2 affirmation does not impose a new substantive requirement but merely requires the firm to affirm that it remains aware of its continuing obligation to cooperate and that it has in fact been keeping up with its ongoing obligation to secure the requisite consents from all of its associated persons.

As discussed generally in Section III below, the reporting framework includes accommodations for firms faced with potential non-U.S. legal obstacles to their ability to comply with Form 2 requirements. One such accommodation is reflected in a note to the Form 2 affirmation section. The note explains that the affirmation shall not be understood to include an affirmation that the firm has secured consents from associated persons that are unregistered foreign firms that assert that non-U.S. law prohibits them from providing the consent, as long as certain requirements concerning that assertion are satisfied.<sup>10</sup> Two commenters expressed concern about the note's provision that the registered firm (filing the Form 2) must have in its possession documents relating to the unregistered firm's asserted conflict that would be sufficient to satisfy the requirements of Rule 2207(c)(2)-(4). The commenters expressed concern about whether that language effectively requires the registered firm (filing the Form 2) to assess the substance of the unregistered non-U.S. firm's conflict assertion. The note requires no such assessment by the registered firm, but only requires the firm to ascertain that the documents appear, on their face, to be the documents described in Rule 2207(c)(2)-(4).

*e. Signed Certification*

To be accepted for filing, a Form 2 must also include a signed certification by an authorized partner or officer of the firm. In addition to certifying to the completeness and accuracy of the information in the form, the signer must certify that the firm filed a special report on Form 3 with respect to each Form 3 event that occurred during the reporting period. If a firm ignored or overlooked the special reporting requirements for some period of time, the firm would eventually discover that it needed to become current on its Form 3 obligations, even if that meant late filing of a Form 3, so that it could truthfully provide the certification required in order to satisfy the annual reporting requirement.<sup>11</sup>

The person signing the form is, among other things, representing on behalf of the firm that the form does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading. The Board's discovery, through inspections or otherwise, that a firm has provided untrue, misleading, or incomplete information could result in disciplinary action against the firm for violating the reporting requirements and, potentially, against an associated person who causes the firm's violation. It is therefore in a firm's interest to approach its reporting obligation with care and, where appropriate, to amend a previously filed form, as discussed in Section II.C below.

---

<sup>10</sup> The point of the note is solely to define the reporting requirement. This facilitates reporting on all other associated person consents, without miring the affirmation point in the issues raised by unregistered foreign firms' assertions about non-U.S. restrictions. The narrowed scope of this reporting requirement, however, does not modify a firm's obligation, under Section 102(b)(3)(A) of the Act, to secure the required consents, and it is not in any way an exercise of the Board's exemption authority under Section 106(c) of the Act.

<sup>11</sup> Form 2 does not require a firm to certify that it has filed all required Form 3's on a timely basis, but only that it has filed them. The result is to force a firm to file any overdue Form 3 before the firm can truthfully provide the certification necessary to file Form 2.

## 2. Timing of Annual Report

Rule 2201 sets June 30 as the deadline for the annual filing of Form 2. The reporting period covered by the report would be April 1 to March 31, leaving each firm with three months to prepare and file a Form 2 reflecting information from that 12-month period. Any firm that was registered as of March 31 of a particular year would be required to file Form 2 by June 30 of that year, but any firm that became registered in the period between and including April 1 and June 30 would not be required to file a Form 2 until June 30 of the following year.

Commenters suggested alternatives, such as tying a firm's reporting deadline to that firm's fiscal year, to avoid what those commenters saw as unnecessary burdens on firms. In the Board's view, a single filing deadline for all firms is more appropriate than varying deadlines tied to individual firms' fiscal years. The Board has considered the comments about burden and has made changes that will address those concerns—such as allowing a firm to use its and its clients' fiscal year data in reporting the fee billing information—without introducing varying reporting periods and deadlines for different firms.<sup>12</sup> With the changes described above, the required Form 2 reporting does not involve any complexity or burden that makes it unreasonable to require all firms to supply the information according to the same schedule.

## B. Special Reporting on Form 3

### 1. Required Information

Under the rules, the occurrence of specified events triggers an obligation to file a special report on Form 3. The reportable events described on Form 3 are not events that routinely occur, and the Board anticipates that most firms will go through most years without having any of the reportable events occur. Many firms may never experience a reportable event. Nevertheless, reportable events will sometimes occur, and the public interest, as well as the ability to consider whether prompt action is warranted by the Board's inspection staff or enforcement staff, will be served by contemporaneous reporting of the event. The events that trigger a reporting requirement under Form 3, as adopted today, are summarized below.

#### Form 3 Reporting Triggers

- The firm has withdrawn an audit report on financial statements, and the issuer failed to comply with Commission reporting requirements (Item 4.02 of Commission Form 8-K) concerning the matter.
- With respect to the 100 issuer audit client threshold that determines the frequency of Board inspections under Rule 4003, the firm has crossed to a different side of the threshold than the firm was on in the preceding calendar year.
- The firm, or a partner, shareholder, principal, owner, member, or audit manager of the firm (in some cases limited to those who provided at least ten hours of audit services for any issuer during the

---

<sup>12</sup> In addition, the use of a reporting period ending March 31 coincides with the end point of the period for which the Board's inspection staff will typically request substantial information from larger firms in connection with their annual inspections in that year. Using that same end point for purposes of Form 2 may spare a firm from having to prepare, on a single topic (*e.g.*, a list of issuers for which the firm prepared audit reports and the dates of the reports), a lengthy response for purposes of the inspection and a different lengthy response for purposes of Form 2.

firm's current or most recently completed fiscal year), has become a defendant in certain types of criminal proceedings, or any such proceeding has been concluded as to the firm or the individual.

- The firm, or a partner, shareholder, principal, owner, member, or audit manager of the firm (in some cases limited to those who provided at least ten hours of audit services for any issuer during the firm's current or most recently completed fiscal year), has become a defendant or respondent in a government-initiated civil proceeding, or an administrative or disciplinary proceeding (other than a Board proceeding), arising out of conduct in the course of providing professional services, or any such proceeding has been concluded as to the firm or the individual.
- The firm, or a parent or subsidiary, has become the subject of a petition filed in bankruptcy court or certain similar proceedings.
- The firm has taken on individuals or entities meeting certain criteria regarding disciplinary history, or entered into an arrangement to receive from such individuals or entities services related to the firm's audit practice or related to services the firm provides to issuer audit clients.
- The firm has obtained or lost authorization to engage in the business of accounting or auditing in a particular jurisdiction, or that authorization has become subject to conditions or contingencies.
- Contact information for the firm's Board contact person has changed.
- The firm has changed its legal name, while otherwise remaining the same legal entity that it was before the name change.<sup>13</sup>

The list of reporting triggers summarized above reflects the Board's decision, after consideration of comments, to drop some items from the list that was proposed and to refine the focus of other items. The changes and clarifications relate to a client's unauthorized use of the firm's name, reportable criminal and other proceedings, reportable new relationships, and changes in authorization to engage in the business of auditing.

*a. Excluding a Requirement to Report Clients' Unauthorized Use of the Firm's Name*

The Board has excluded from the final requirements one special reporting trigger that was proposed: an issuer's unauthorized use of the firm's name, such as by making a filing with the Commission that includes an audit report that the issuer falsely represents as having been issued by the firm.<sup>14</sup> In proposing that item, the Board noted that it might protect investors and serve the public interest by drawing attention to a potential problem relatively quickly. At the same

---

<sup>13</sup> Under the reporting framework, a registered firm's name change should be reported on Form 3 only if the firm remains the same legal entity that it was before the name change. If the name change is in connection with a more significant change in which the firm, as previously constituted, ceases to exist—such as a change in the legal form of the firm or a merger resulting in a new legal entity—the new entity does not automatically succeed to the registration status of the former entity and may not report the event on Form 3 as a mere name change. The Board has separately proposed, and continues to consider, rules and a form (Form 4) that would govern whether and how a new firm may succeed to the registration status of a predecessor.

<sup>14</sup> As proposed, a firm would have been required to file a report on Form 3 if "the Firm has become aware that an issuer has made use of the Firm's name, without the consent of the Firm, in a report, document, or written communication containing the issuer's financial statements."

time, the Board noted that this reporting obligation might be viewed as unnecessary in light of a registered firm's existing obligation, under Section 10A(b) of the Securities Exchange Act of 1934, to follow the steps prescribed there when the firm becomes aware of an illegal act. The Board particularly encouraged commenters to address, in light of Section 10A(b), the value of including this trigger.<sup>15</sup>

The commenters who addressed the point expressed a view that this reporting requirement would be fundamentally about issuer conduct and, therefore, is more appropriately left to the Commission in the context of its disclosure framework and its framework for addressing Section 10A(b) reports from auditors. After consideration of those comments, the Board has decided not to adopt such a requirement at this time.

*b. Withdrawal of an Audit Report*

The proposed rules included a requirement that a firm file a special report when it withdraws an audit report, but also provided an exception to that requirement if the issuer audit client had already disclosed the relevant information in a Form 8-K filing with the Commission. The views expressed by commenters on this point were similar to the views described above with respect to an issuer's unauthorized use of a firm's name.

The Board is adopting this item as proposed. The point of this item is not to have the firm draw the Board's attention to potential problems with an issuer's financial statements. A withdrawn audit report is a risk indicator concerning the auditor's conduct preceding the withdrawal, not merely a risk indicator concerning the issuer's financial statements. The Board has a regulatory interest in being aware of that information and possibly following up on that information for reasons directly related to its oversight of auditors.

Nor is the point of the item to have the firm draw the Board's attention to a failure by the issuer to file a required Form 8-K. The Board's interest is in the fact of the withdrawn audit report. In the usual case, the Board can obtain that information from issuer Form 8-K filings without requiring duplicative filing by the firm, but the Board cannot do so if the issuer does not file the Form 8-K. For that reason, the Form 3 requirement is limited to circumstances in which the information is not otherwise available to the Board through a Form 8-K filing.

One commenter noted that if an issuer is no longer a client, the firm may not be in a position to monitor whether that former client has made the Form 8-K filing. Item 4.02(c) of Form 8-K, however, requires the issuer to provide the firm with a copy of the disclosures it is making in response to Item 4.02 no later than the day the issuer files the Form 8-K, and also requires the issuer to request that the firm furnish to the issuer a letter addressed to the Commission stating whether the firm agrees with the statements made by the issuer in response to Item 4.02. The firm should, therefore, generally be in a position to know whether the issuer has made the filing.

*c. Criminal and Other Proceedings*

As proposed, Form 3 would have required a firm to file a special report if a partner, shareholder, principal, owner, member, or audit manager of the firm became a defendant in criminal proceedings involving certain categories of offenses. After consideration of comments, the Board has narrowed this requirement in two respects. First, the Board has reformulated these Form 3 reporting triggers to distinguish between proceedings that arise out of conduct in providing audit

---

<sup>15</sup> See Proposing Release at 10-11.

services or other accounting services for issuers and proceedings that do not arise out of such conduct. As to the latter category, the reporting obligation will be triggered only if the relevant individual provided at least ten hours of audit services for any issuer during the firm's current or most recently completed fiscal year. Second, the Board has eliminated from the categories of relevant offenses two relatively broadly described categories: crimes arising out of alleged conduct relating to "dishonesty," and crimes arising out of alleged conduct that, if proven, "would bear materially on the individual's fitness to provide audit services to issuers."

Other points raised by commenters may merit some clarification. One commenter expressed uncertainty about whether a firm would need to report the event if the firm suspended or terminated the individual or prohibited the individual from providing audit services for issuers. The reporting obligation includes no such qualification. The firm's reporting obligation is triggered when it becomes aware of the proceeding,<sup>16</sup> and that obligation is not cut off if the firm terminates its relationship with the individual.

Some commenters sought clarification about the inclusion of "managers" and "members" within the scope of relevant individuals. One commenter asked whether "members" was meant to include employees generally. "Members" is not meant to include all employees but, rather, is intended as it is often used in firms' structures and parlance to distinguish those with certain ownership or governance rights from others. Some commenters noted that "managers" typically are not owners or partners and so questioned whether the Board intended to include them within the scope of this requirement. The Board is aware of the distinction and does intend the requirement to encompass manager-level personnel. The Board has, however, referred in the final rules to "audit manager" rather than merely "manager," to avoid any possible confusion about other sorts of managers, as the term is more generally used.

Some commenters expressed concern about the information that Form 3 would require the firm to provide about the proceedings that triggered the reporting requirement. Commenters suggested that providing descriptions of the proceedings could be burdensome, that the descriptions would be inherently subjective, and that the descriptions should not be in the public arena while the proceeding is ongoing. The Board has not made any changes related to this point. Form 3 requires the firm to list the statutes, rules, or legal duties that are alleged to have been violated, which involves no subjective or qualitative analysis, and requires a brief description of the alleged conduct, which can be drawn from the relevant complaint or charging document without creating any implication that the firm concedes anything about the allegations. If grounds exist, under Rule 2300, for keeping the reported information confidential, the firm may request confidential treatment.

*d. New Relationships with Persons or Entities Currently Subject to Specified Disciplinary Sanctions or Rule 102(e) Orders*

Form 3 requires a firm to file a special report if it enters into certain specified relationships with individuals or entities that are currently subject to any of the following: (1) a Board disciplinary sanction suspending or barring an individual from being an associated person of a registered public accounting firm, (2) a Board order disapproving an entity's application for registration,<sup>17</sup> or (3)

---

<sup>16</sup> The "awareness" trigger is discussed separately below.

<sup>17</sup> An entity is considered to be "currently the subject" of a Board order disapproving registration if either of the following is true: (1) the Board order disapproving registration identified a date after which the Board would not treat the violations described in the order as a sole basis for possible disapproval of a new registration application, and that date has not passed, or (2) the Board order identifies no such date, and the entity has not subsequently become registered with the Board.

a Commission order under Rule 102(e) of the Commission's Rules of Practice suspending or denying the privilege of appearing or practicing before the Commission. Commenters suggested that the scope of relevant individuals should be limited to those who provide audit services. Although the Board has made such a change to the similar Form 2 requirement, such a change is not appropriate for this Form 3 requirement, which is generally intended to gather information about new relationships with persons or entities that are effectively restricted from providing audit services. In this context, the qualification suggested by commenters would have the effect of either negating the requirement entirely or transforming it into a requirement for a firm to report that a person or entity is violating such a restriction in connection with audits performed by the firm. For similar reasons, the Board has rejected suggestions to narrow the scope of consulting and professional services received by the firm that trigger this reporting requirement.

Commenters also expressed concern about the burden associated with identifying the existence of the sanction or 102(e) order. Firms should understand, however, that to a significant extent that burden effectively exists regardless of whether the firm has a reporting obligation. Not only does the firm have an obvious need to know, for its own purposes, of any such limitations on the person's ability to provide services, but Board Rule 5301(b) provides that "no registered public accounting firm that knows, or in the exercise of reasonable care should have known, of the suspension or bar of a person may permit such person to become or remain associated with it, without the consent of the Board, pursuant to Rule 5302, or the Commission."<sup>18</sup>

*e. Changes in Authorization to Engage in the Business of Auditing or Accounting*

Form 3 requires a firm to file a special report regarding certain changes in its authorization to engage in the business of auditing or accounting in a particular jurisdiction. After considering comments, the Board has made wording changes to clarify three points: (1) the requirement is intended only to cover circumstances that involve a loss of the firm's authorization to engage in the business of auditing or accounting; (2) the proposed phrase, "made subject to condition or contingencies," was not intended to encompass conditions or contingencies that are broadly applicable to all firms licensed in the jurisdiction; and (3) the requirement to report new licenses or certifications, or changes in existing licenses or certifications, is limited to licenses and certifications that authorize the firm to engage in the business of auditing or accounting.

## **2. Organization of Form 3**

One aspect of Form 3's organization warrants discussion. Part II of the form requires the firm to indicate, by checking a box, which triggering event listed in Part II has occurred and is the reason for the report. For each box checked, Part II directs the firm to the particular Parts of the report that the firm must complete to provide the relevant details.

This approach serves two principal purposes. First, it allows a reader of the form to ascertain quickly, from a glance at Part II, the nature of the event or events being reported, without having to page through the entire form to see where the firm has included information. Second, it takes into account that some foreign registered firms may assert that non-U.S. law prohibits them from providing

---

<sup>18</sup> Rule 5301(b)'s prohibition on allowing such a person to "become or remain associated with" the firm is not a prohibition against any and all employment or other relationships, but only a prohibition against allowing the person to be an "associated" person as that term is defined in Section 2(a)(9) of the Act and Board Rule 1001(p)(i).

the details that the form requires about a particular event,<sup>19</sup> and it provides a mechanism for at least alerting the Board at a very general level that a certain type of event has occurred.

To make the firm's responses to Part II as specifically informative as possible, Part II breaks some of the categories of reportable events into more specific components. That is, some of the reportable events summarized in a single bullet point above are broken down in Part II into two or three more specific triggers in order to provide more focused information, from a simple checkbox in Part II, about the event being reported.

### **3. Timing of Special Reports**

The proposed rules would have required that special reports on Form 3 be filed no later than 14 days after the triggering event. Several commenters expressed concern that 14 days was not sufficient time in which to review and assess an event and report the required information, and that this was particularly true for non-U.S. firms that may need to assess possible legal obstacles to reporting and prepare the materials necessary to comply with Rule 2207. Commenters' alternative suggestions included 30 days, 45 days, 60 days, and 90 days. The Board is persuaded that a longer period than 14 days is appropriate and is adopting a requirement to file special reports within 30 days of the triggering event.

Commenters also raised questions about when, for certain reportable events, the "trigger" actually occurs. In particular, several triggering events are described in Form 3 in terms of when the firm has "become aware" that something has occurred. Commenters asked for clarification of what it means, in this context, to say that the firm has become aware of a matter. The Board has added a note to the beginning of Part II of Form 3 to specify that the firm is deemed to have become aware of the relevant facts on the date that any partner, shareholder, principal, owner, or member of the firm first becomes aware of the facts. The Board believes it is reasonable to expect a firm to have controls designed to ensure that any such person who becomes aware of relevant facts understands the firm's reporting obligation and brings the matter to the attention of persons responsible for compliance with the obligation.

### **4. Initial Form 3 Reporting to Fill Gaps**

In addition to requiring firms to file special reports going forward, Rule 2203 includes requirements designed to eliminate gaps that otherwise would occur in the information the Board has about a firm. One possible cause of such a gap is that certain information on a firm's Form 1 application for registration need not be any more current than as of a date 90 days before the application is submitted. For firms that become registered after the date that Rule 2203 takes effect, Rule 2203(a)(2) addresses that gap by requiring that, within 30 days of becoming registered, the firm must file a Form 3 concerning any reportable events that occurred between the firm's Form 1 information cut-off date and the date of registration.

Another possible cause of such a gap is the much more substantial passage of time that has occurred since the Form 1 information cut-off date used by firms that are already registered, the vast majority of which registered in 2003 or 2004. The proposed rules included a "catch-up" provision that would have required those already-registered firms to report all Form 3 events that have

---

<sup>19</sup> The Board's approach to making accommodations for conflicts with non-U.S. law is described in Section IV below.

occurred since the firm's Form 1 information cut-off date. For hundreds of firms, that requirement would have covered all Form 3 events that occurred over a five-year period.

In view, however, of the passage of time, the obvious burden, and the fact that registered firms have been subject to the Board's inspection program, the Board has substantially restructured and narrowed this aspect of the proposal. Rule 2203(a)(3) requires already-registered firms to file a "bring current" special report on Form 3 only to the extent that certain events have occurred since the Form 1 information cut-off date and only to the extent that information about those events has current relevance. General Instruction number 4 to Form 3 specifies the circumstances that trigger a firm's obligation to file such a special report. For firms that are registered as of the date Rule 2203 takes effect, and to which any of the circumstances specified in General Instruction number 4 apply, Rule 2203(a)(3) requires the filing of a special report within 30 days of the effective date of Rule 2203.

### C. Amendments

Rule 2205 provides for the filing of amendments to previously filed annual or special reports if the originally filed report included information that was incorrect at the time of the filing, or if the originally filed form omitted any information or affirmation that was, at the time of such filing, required to be included in that report.<sup>20</sup> Rule 2205, as adopted, reflects reassessment of the amendment concept since the proposal.

As proposed, Rule 2205 would have required a firm to amend its filing within a fixed time after becoming aware of the error or omission. Commenters raised concerns about the practical difficulties posed in this context by reliance on the concept of a firm becoming "aware" of an error or omission. The Board recognizes those difficulties. Rather than prescribe requirements for firms to have systems and procedures to surface such errors or omissions and then report them within a prescribed time, the Board's revised approach relies on the firm understanding its self-interest. The Board expects annual and special reports to be complete and accurate, and inaccuracies or omissions could form the basis for disciplinary sanctions for failing to comply with the reporting requirements reflected in Rules 2200 and 2203 and the instructions to Forms 2 and 3. Firms should be sufficiently motivated to have procedures to detect any need for amendments, and to amend filings as soon as possible, in order to mitigate the possibility of disciplinary sanctions for the inaccurate original filing.

As revised, Rule 2205 also makes clear that amendments are appropriate only to correct information that was incorrect at the time of the filing, or to supply omitted information or affirmations that should have been supplied at the time of the filing. The amendment process should not be used to update information reported on a form in the event the information changes. In the event of changes, the firm should consider whether a new Form 3 reporting obligation has been triggered or whether the information needs to be reflected in the firm's next Form 2 filing.

---

<sup>20</sup> When filing an amended form, the firm will be required to file the entire completed form, as corrected. A section of the form will require the firm to identify the particular item or items with respect to which the firm has revised its report. The Board's reporting system will facilitate such filing by giving the firm access to an electronic copy of the previously filed form that the firm wishes to amend, so that the firm can make the necessary changes without needing to reconstruct the entire form.

## D. Follow-Up Pursuant to the Board's Inspection Authority

As information comes to the Board's attention through the reporting process, it may be appropriate for the Board to follow up with focused inquiries concerning a matter, without in the first instance launching a full inspection or investigation, in order to determine whether any more formal action or inquiry is immediately warranted. Accordingly, the Board is adopting an amendment to its inspection rules that makes clear that the Board may require a firm to provide additional information.

Specifically, the Board is amending Rule 4000, which provides that registered firms shall be subject to such regular and special inspections as the Board chooses to conduct. The amendment adds a paragraph providing that the Board, in the exercise of its inspection authority, may at any time request that a registered firm provide additional information or documents relating to information provided on Form 2 or Form 3, or relating to information that has otherwise come to the Board's attention. The amendment provides that the request and response are considered to be in connection with the firm's next regular or special inspection. Accordingly, the cooperation requirements of Rule 4006 apply, and the request and response are subject to the confidentiality restrictions of Section 105(b)(5) of the Act.

In response to concerns raised by some commenters, the Board confirms that the information-gathering activity described in the amendment is an exercise of the Board's inspection authority. It does not provide a basis for the Board to compel a firm to provide information beyond the scope of information encompassed by the inspection authority, or for purposes other than assessing compliance by the firm or its associated persons with the "Act, the rules of the Board, the rules of the Commission, or professional standards, in connection with its performance of audits, issuance of audit reports, and related matters involving issuers."<sup>21</sup>

## E. The Effect of Pending Requests to Withdraw from Registration

Existing Rule 2107 governs the process by which a firm may seek to withdraw from registration with the Board. Under Rule 2107, a firm cannot withdraw at will, but must request the Board's permission to withdraw, and the Board may withhold that permission under certain conditions.<sup>22</sup>

The Board is amending Rule 2107 to change the way it addresses the reporting obligations of a firm that has filed Form 1-WD seeking leave to withdraw. Existing Rule 2107(c)(2)(i) provides that, beginning on the fifth day after the Board receives a completed form 1-WD, the firm can satisfy any annual reporting requirement by submitting a report stating that a completed Form 1-WD has been filed and is pending. Under the amended rule, the firm's reporting obligation, including both annual and special reporting, would simply be suspended while Form 1-WD was pending. Because a firm cannot prepare or issue audit reports, or play a substantial role in the preparation or furnishing of audit reports, while Form 1-WD is pending, and because the withdrawal process normally ends with the firm ceasing to be registered, there is no reason to subject the firm to a reporting burden. If a firm withdraws its Form 1-WD and continues as a registered firm, however, Rule 2107 would require the filing of any annual or special reports, and the payment of any annual fee, that otherwise would have been required while the Form 1-WD was pending.

---

<sup>21</sup> Section 104(a) of the Act.

<sup>22</sup> See PCAOB Rule 2107(d)-(e).

The Board is also eliminating from Rule 2107 the five-day delay between receipt of a completed Form 1-WD and the effect of that filing on a firm's reporting obligation. Suspension of that obligation would occur immediately upon the Board's receipt of the completed Form 1-WD.<sup>23</sup>

### III. Balancing Legitimate Confidentiality Interests and the Public Interest in Prompt Availability of Information

Annual and special reports will be made public on the Board's Web site promptly upon being filed by a firm, subject to exceptions for information for which a firm requests confidential treatment. The Board intends that as much reported information as possible be publicly available as soon as possible after filing. To accomplish that goal, the reporting framework relies on two elements.

First, the Board's Web-based reporting system will automatically publish a Form 2 or a Form 3 to the Board's Web site as soon as the form is filed.<sup>24</sup> In doing so, the system will redact from the published version any information for which the firm requested confidential treatment.<sup>25</sup> Unless and until the request for confidential treatment is denied, the information will remain redacted, but processing the request for confidential treatment will not delay publication of the rest of the form. As a safeguard, the system will, at a final pre-submission stage, show the firm two separate versions of the completed form—one showing all of the information the firm has entered and the other showing what the publicly available version of the form will look like, with redactions where confidential treatment is requested.

Second, consistent with the approach described in the proposal, the forms identify certain categories of information for which a firm simply may not request confidential treatment. This reflects a determination that for certain categories of information there is no genuine possibility that the information could include information that is proprietary or otherwise protected from disclosure by any applicable law. Precluding the possibility of confidential treatment requests for those categories will avoid having to delay publication of that information while the Board processes a baseless request.

The Board does not take lightly the preclusion of confidential treatment requests. Section 102(e) of the Act requires the Board to honor "applicable laws relating to the confidentiality of proprietary, personal, or other information," and also requires that "in all events, the Board shall protect from public disclosure information reasonably identified by the subject accounting firm as proprietary information." Taking into account confidential treatment issues with which the Board and its staff have become familiar in connection with the registration process, including issues of non-U.S. law, the Board has aimed to err on

---

<sup>23</sup> In connection with that change to Rule 2107, the amendment also eliminates the five-day delay before certain other consequences take effect. Among other things, the Board is amending Rule 2107(c)(2)(iii) so that the Board would, immediately upon receipt of the completed Form 1-WD, have the discretion to forego any regular inspection of the firm that otherwise would commence. This change necessitates a conforming change to Rule 4003(c), and the Board is making that conforming change as well.

<sup>24</sup> A form is treated as "filed" when it is completed in accordance with the form's instructions and submitted. Satisfaction of the criteria for "filing" will be recognized in the automated system, which will then direct the form to the Web site for publication. Users of the Web site will be able to go to a page for a particular firm and find there a chronological list of all filings by the firm, with each item on the list linking to a complete copy of the filed form.

<sup>25</sup> PCAOB Rule 2300(b)-(h) provides a process for confidential treatment requests for information provided on Form 1. The Board is amending Rule 2300 so that it also encompasses confidential treatment requests on Forms 2 and 3.

the side of allowing confidential treatment requests with respect to categories for which there is any genuine possibility that the required information could include information that is proprietary or is otherwise protected from disclosure by any applicable law.

Set out below is a summary of the types of reportable information for which a firm may not request confidential treatment.

- Information identifying the firm (including any changes in the firm's name), contact persons, and office locations.
- The period covered by an annual report.
- Very general information about the nature of a firm's practice (e.g., whether, during the reporting period, the firm issued any audit reports for issuers).
- For U.S. firms, the percentage of a firm's annual billings attributable to certain broad categories of services provided to issuer audit clients (non-U.S. firms may request confidential treatment for this item).
- The identity of a firm's issuer audit clients.
- Basic information about whether the firm is a member of any network or affiliation related to its audit practice for issuers.
- The identity of any other firm acquired by the firm.
- Affirmation of the firm's statutorily required consent to cooperate with the Board.
- The identity of an issuer concerning which the firm has withdrawn an audit report, and the date of that audit report.<sup>26</sup>
- Changes in legal authorization to engage in the business of auditing or accounting.

The Board encouraged commenters to review the specific corresponding items in the forms and to comment on whether the proposal overlooked any confidentiality protection provided by law. Although some commenters expressed general concern about any limitation on the ability to request confidential treatment, only one of the items in the list set out above generated any specific comment arguing that confidential treatment should be an option for that item. Commenters noted that, under the local law relevant to some non-U.S. firms, the fee percentage breakdowns might be considered proprietary. The Board has not attempted to determine whether or where that might be the case, but consistent with a conservative approach toward limitations on the availability of confidential treatment, the instructions to the Form, as adopted, allow non-U.S. firms—but not U.S. firms—to request confidential treatment for the fee percentage data in Item 3.2.

In addition to limiting the categories of information for which a firm may request confidential treatment, the Board is adopting new requirements concerning the support that a firm must supply for a confidential treatment request.<sup>27</sup> The amendments require that a firm support a request with both a representation that the information has not otherwise been publicly disclosed and either

---

<sup>26</sup> As discussed above, the proposal requires a firm to report this information only if the issuer has failed to make a filing on Commission Form 8-K concerning the matter.

<sup>27</sup> The amendments to Rule 2300(b)-(c), concerning the required support, also apply prospectively to confidential treatment requests on Form 1.

(1) a detailed explanation of the grounds on which the information is considered proprietary, or (2) a detailed explanation of the basis for asserting that the information is protected by law from public disclosure and a copy of the specific provision of law.

The amendments also provide that the firm's failure to supply the required support constitutes sufficient grounds for denial of the request. In some cases, of course, the appropriateness of the request may be evident on its face, or the Board may otherwise be aware of a provision of law that protects the information, and the Board will not deny confidential treatment in those circumstances just because the firm failed to supply support. At the same time, the Board does not view Section 102(e) of the Act as requiring that the Board independently research whether certain information is protected from disclosure if the firm itself does not point to any basis for that protection. Accordingly, a firm's failure to supply the required support may well, on that basis alone, result in denial of the request.

In response to questions raised by commenters, however, the Board emphasizes that this approach to confidential treatment requests does nothing to change a firm's right to seek review of an initial denial of confidential treatment. Initial decisions will continue to be made by the Director of Registration and Inspections, pursuant to delegated authority, under Rule 2300(h). A firm may, under Rule 5468, seek Board review of any denial.

One commenter noted that confidentiality protection might arise from sources other than statutes and regulation, including common law, judicial orders, and contractual terms, and that the Board should more broadly define the scope of documentation that may be presented in support of a confidential treatment request. Rule 2300(b), however, does not limit the scope of documentation that a firm may present to support its argument that the rule's criteria for confidentiality are satisfied. The Board also agrees that "applicable law related to the confidentiality of proprietary, personal, or other information" that may protect information from public disclosure is not limited to statutes and regulations. At the same time, however, a contractual agreement between two parties does not constitute "applicable law" and is unlikely to satisfy the rule's criteria.

## IV. Accommodating Non-U.S. Legal Restrictions

In developing its rules, policies, and programs, the Board consistently seeks to accommodate the legitimate concerns of non-U.S. firms faced with legal restrictions that might limit their ability to provide information to the Board. Early on, the Board adopted a rule that allowed firms to omit required information from registration applications if non-U.S. law prohibited the firm from submitting the information to the Board.<sup>28</sup> The Board has also articulated a framework for cooperation with non-U.S. regulators, the objectives of which include working with those regulators to resolve potential conflict of law problems as they arise.<sup>29</sup> The Board's commitment to that framework is embodied in Board rules related to inspections and a Board rule related to disciplinary investigations.<sup>30</sup>

<sup>30</sup> See PCAOB Rules 4011, 4012, and 5013; see also Final Rules Relating to the Oversight of Non-U.S. Public Accounting Firms, PCAOB Release No. 2004-005 (June 9, 2004) ([www.pcaobus.org/Rules/Docket\\_013/2004-06-09\\_Release\\_2004-005.pdf](http://www.pcaobus.org/Rules/Docket_013/2004-06-09_Release_2004-005.pdf)).

In adopting Rule 2207 today, the Board continues its commitment to reasonable accommodations for non-U.S. firms and reliance on a framework for cooperation. The core principle underlying Rule 2207's treatment of legal conflicts is the same as the core principle underlying Rule 2105 in the registration context. Specifically, so long as a firm has certain materials that support its assertion of a legal conflict and has made appropriate efforts to obtain waivers or consents that would overcome the conflict, a report on Form 2 or Form 3 will satisfy the basic filing requirement even if it omits the information that is the subject of the conflict.

Although the core principle is the same, the Rule 2207 process differs in some respects from the Rule 2105 process. As described below, the process differences are designed to accomplish two goals: (1) minimizing certain burdens relating to the supporting materials; and (2) making clear to readers of the form whether the firm is actually withholding information, thereby eliminating the possibility of an ambiguous general assertion that non-U.S. law limits the firm's ability to provide information of a particular type.

## **A. Materials Supporting the Asserted Conflict**

Under Rule 2207, when a firm withholds required information from Form 2 or Form 3, it must have certain supporting materials, including (1) a copy of the relevant provisions of non-U.S. law, (2) a legal opinion concluding that the firm would violate non-U.S. law by submitting the information to the Board, and (3) a written explanation of the firm's efforts to seek consents or waivers that would be sufficient to overcome the conflict with respect to the information. These are the same materials that are required to support the withholding of information from a registration application under Rule 2105.

Unlike in the Rule 2105 process, however, Rule 2207 would not require a firm routinely to include those supporting materials with the form that the firm files. Rather, the firm must certify on the form that it has the supporting materials in its possession. The rule reserves to the Board, and to the Director of the Division of Registration and Inspections, the discretion to require that a firm submit any of those supporting materials in a particular case, but the rule does not include those materials in the basic filing requirement.

In addition, Rule 2207 makes clear that a firm is not required to secure a new legal opinion specific to each Form 2 or Form 3 that the firm files. Rather, the supporting materials maintained by the firm need only contain a legal opinion that the firm has reason to believe is current with respect to the relevant point of law. The rule does not attempt to specify the ways in which a firm may satisfy this requirement, and various approaches might be satisfactory. Compliance does, however, depend upon a firm implementing in good faith some mechanism for generally being aware of relevant changes in the law, rather than relying on a particular legal opinion in perpetuity without genuine regard for whether the law changes.

To address a concern raised by commenters, the Board has revised Rule 2207(c)(4), and added a related note at the end of the rule, to make clear that the rule does not require a firm to repeat previously futile efforts to obtain consents and waivers. Specifically, Rule 2207(c)(4) requires the firm to prepare and maintain a written representation that it has made "reasonable efforts" to obtain relevant consents and waivers. The note at the end of the rule makes clear that the "reasonable efforts" element of the rule does not require either (1) that the firm renew efforts with parties that have previously declined to provide consents or waivers with respect to similar types of information, or (2)

that the firm seek consents or waivers from parties other than firm personnel and firm clients.<sup>31</sup>

The Board has also made a slight wording change to a formulation that appears throughout Rule 2207 and the certification parts of Form 2 and Form 3. Instead of phrasing the point in terms of a firm's assertion that it would violate non-U.S. law by providing certain information, the rule and forms now speak in terms of the firm asserting that it "cannot provide such information . . . without violating non-U.S. law." The subtle difference is meant to encompass more clearly the situation where the asserted obstacle is not an obstacle to the firm providing information that it has but, rather, is an obstacle to the firm requiring that an individual give the firm the information that the form requires.

## **B. Transparency Concerning the Meaning of an Asserted Conflict**

The Board's experience with legal conflict assertions in the registration context has informed the design of the Rule 2207 process in two significant respects. In combination, these elements are intended to allow a reader of a Form 2 or a Form 3 to discern at a basic level whether a certain condition exists or a certain event has occurred, while preserving a firm's opportunity to withhold details that it asserts it cannot lawfully provide.

First, from the Board's experience with Form 1, it appears that in the vast majority of cases in which a firm would assert a conflict, the firm would not assert that non-U.S. law prohibits it from providing a general indication of whether a type of condition exists or a type of event has occurred. Accordingly, both Form 2 and Form 3 routinely employ formulations that facilitate reporting of the basic foundational point. For example, if a partner in a non-U.S. firm becomes a defendant in a criminal proceeding involving certain types of crimes, Item 2.4 of Form 3 provides a place for (and requires) the firm to report that basic fact, even if the firm asserts that it cannot lawfully provide identifying information or other details required in Part III of the Form. Once notified of the basic fact, the Board can determine whether the matter warrants additional follow-up, potentially including with the cooperation of non-U.S. regulators.

Second, unlike with Form 1, a legal conflict can be asserted on Form 2 or Form 3 only if the firm is actually withholding information that the form requires. A firm may not indicate a legal conflict on Form 2 or Form 3 as a way of making a general point that non-U.S. law would prohibit the firm from providing certain information if the firm had any such information. For clarity on this point, Form 2 and Form 3 will differ from Form 1 with respect to how a legal conflict is indicated. On Form 2 and Form 3, "LC" checkboxes will not appear throughout the form.<sup>32</sup> Instead, a separate section at the end of each relevant part of the form instructs the firm that if any portion of its response in that part is incomplete because of an asserted legal conflict, the firm must, in that separate section, identify the specific items in that part with respect to which

---

<sup>31</sup> The Board has also added to Rule 2207(c)(4) a provision specifying the time range within which the written representations required by that paragraph must be signed.

<sup>32</sup> On Form 1, the opportunity to indicate a legal conflict appears throughout the form with an "LC" checkbox next to each item in the form, giving rise to the potential for ambiguity about whether the firm is actually withholding information or just preserving a legal position.

the firm actually has withheld, or been precluded from obtaining, responsive information.<sup>33</sup>

### C. Limits on Asserting a Conflict

The Board believes it is feasible to identify a small number of items on Forms 2 and 3 as to which either (1) it is not realistically foreseeable that any law would prohibit supplying the information or (2) the Board could not, consistent with its most basic responsibilities, allow a firm to withhold the information and remain registered. Accordingly, for the following few items, the forms do not afford a firm the option of withholding the information on the basis of non-U.S. law.

- Basic identifying information about the firm (including any changes in the firm's name) and a firm contact person.
- The period covered by an annual report.
- Very general information about the nature of a firm's practice (e.g., whether, during the reporting period, the firm issued any audit reports for issuers).
- The identity of a firm's issuer audit clients and the dates of audit reports.

As with the issue of confidential treatment, the Board does not take lightly limiting the items for which a legal conflict may be asserted, and the Board encouraged comment on whether the proposal overlooked any actual or realistically foreseeable non-U.S. legal restriction. One commenter expressed a general view that there should be no limitations on what information can be withheld based on a legal conflict, but that same commenter also noted that "most of the areas the Board identifies [for which a conflict could not be asserted] are not likely to present problems."<sup>34</sup> That commenter did specifically request that the Board allow for the assertion of a legal conflict for Item 4.1 of Form 2, which requires the identify of issuer audit clients and dates of audit reports, but the commenter did not indicate any reason that non-U.S. law might block a firm from supplying that information, which is necessarily a matter of public record when the issuer makes the required Commission filing.

### D. Asserted Legal Conflicts and the Board's Statutory Authority

While committed to cooperation and reasonable accommodation in its oversight of registered non-U.S. firms, the Board has not surrendered any of its statutory authority ultimately to compel firms to provide information necessary for the Board to fulfill its investor protection and public interest mandates. For example, while Rule 2105 lets applicants withhold required information without having the application treated as incomplete, the Board reserves its ultimate authority to deny registration if questions concerning the withheld information prevent the Board from finding that approval is consistent with the public interest and the protection of investors.<sup>35</sup> Similarly, the Board's commitment to

---

<sup>33</sup> Rule 2207 and the instructions to Forms 2 and 3 make clear that only a foreign registered public accounting firm may withhold required information on the basis of an asserted legal conflict. The Board cannot envision a circumstance in which the Board would honor any assertion by a U.S. firm that non-U.S. law prohibits the firm from providing, on Form 2 or Form 3, information in the firm's possession.

<sup>34</sup> Letter from Swiss Institute of Certified Accountants and Tax Consultants (July 24, 2006) at 5.

<sup>35</sup> See Frequently Asked Questions Regarding Issues Relating to Non-U.S. Accounting Firms (March 11, 2004), at 2 ([www.pcaobus.org/Registration/2004-03-11\\_FAQ.pdf](http://www.pcaobus.org/Registration/2004-03-11_FAQ.pdf)).

working cooperatively with non-U.S. regulators—and carrying out the Board's mission without creating unnecessary confrontations between legal systems—does not entail any relinquishing of the Board's ultimate authority to require information from registered firms if those efforts at cooperation are unavailing in a particular case.<sup>36</sup>

Rule 2207 continues in that vein. The rule is an accommodation to concerns of non-U.S. firms. Paragraph (e), however, provides that the Board may ultimately require a firm to file an amended Form 2 or Form 3 providing the withheld information. Although the Board does not foresee invoking paragraph (e) with any regularity, its inclusion is necessary to preserve the authority that Congress intended for the Board to have over all registered firms.<sup>37</sup>

To date, the Board's accommodations and cooperation initiatives have worked well. The Board is optimistic that this approach will continue to work well and that reservations of authority such as that in Rule 2207(e) will serve a purpose that is principally theoretical, and will rarely need to be invoked as practical tools.

## V. Effective Date of Rules and Timing of First Reports

In the Proposing Release, the Board stated that it intended for the reporting requirements to take effect 21 days after Commission approval, with the "catch-up" Form 3 filings due 14 days later. The Board has considered comments expressing concern that this is too ambitious a schedule, and the Board is now taking a different approach. The Board intends that the rules, rule amendments, and Forms 2 and 3 that it is adopting today will take effect on the date that is 60 days after Commission approval. This will build in more than ample lead time for firms to become aware of Commission approval of the rules and to prepare any reports that will be due after the rules take effect.

The first report due after the rules take effect will be the "bring current" special report on Form 3, which must be filed by any firm to which any of the circumstances described in General Instruction number 4 of Form 3 apply. That report must be filed no later than 30 days after the rules take effect. This gives firms 90 days between Commission approval and the deadline for any "bring current" special reports that must be filed.

The normal special reporting framework will also go into effect on the date that the rules take effect. Any reportable events occurring on or after that date must be reported on Form 3 within 30 days thereafter.

The first reporting period for which an annual report on Form 2 will be required is the period from April 1, 2008 to March 31, 2009. Under Rule 2201, the annual report for that period must be filed by June 30, 2009.

---

<sup>36</sup> See Oversight of Non-U.S. Firms, at 5.

<sup>37</sup> Because of the different context to which Rule 2105 applies, no comparable rule provision is necessary to preserve the Board's authority there. Rule 2105 accommodates non-U.S. firms by providing, essentially, that the Board will act on an incomplete application. But that accommodation provides no guarantee about *how* the Board will act. The Board retains the authority to impose the relevant sanction in that context—*i.e.*, to disapprove the application—if questions concerning the withheld information prevent the Board from finding that approval would satisfy the Rule 2106(a) standard. Once a firm is registered, though, the situation is different. The Board can sanction a registered firm only if the firm violates some provision of certain laws, rules, or standards. Rule 2207(e) preserves the Board's authority to obtain information by preserving the possibility that, in an appropriate case involving sufficiently important information that is not otherwise forthcoming (*e.g.*, through cooperation with non-U.S. regulators), the Board can ultimately put the firm to the choice of providing the information or being subject to a sanction for violating the Board's rules.

## VI. Discussion of Other Comments

### A. Audit Reports

Some commenters questioned the need for the Board to require firms to report information identifying the issuers for which a firm issues audit reports. Commenters noted that this information is already publicly available. One commenter also indicated that the requirement would excessively burden registered firms with large numbers of issuer clients. Another commenter expressed concern about requiring firms to provide the date of their audit reports because firms do not "track" these dates, and questioned the Board's need for such information.

Although information about the identity of any single issuer's auditor is readily available, the Board is not aware of any way in which information about a particular firm's list of clients is similarly available to the public without going to significant trouble or expense. The commenters provided no persuasive reasoning or information to support the proposition that there is any unreasonable burden in expecting a firm to be able to generate a list of its audit clients and the dates of audit reports issued by the firm.

### B. Affiliations and Networks

A commenter suggested that Item 5.2.a.2's reference to "joint audits" is unclear because, in some foreign jurisdictions, joint audits are not done through a network or alliance. That point, however, does not render the item's reference unclear, it merely means that there may be circumstances in which joint audits are conducted other than through arrangements described in Item 5.2.a.2, and which therefore fall outside the scope of the reporting requirement.

### C. New Relationships

Some commenters suggested that the requirement to publicly report a new employment or partnership relationship with a previously sanctioned individual could have the unintended consequence of making a firm reluctant to take on the individual. Commenters suggested that the Board should therefore consider not requiring such disclosure regarding individuals who are not applying for senior-level positions, are not being hired to work on issuer audits, or who were subject to relatively minor sanctions. They also suggested that the proposed disclosure would be duplicative of prior public notice of the sanction, which one commenter said would be "unfair." That commenter also noted that broad application of the requirement might dissuade individuals who become involved in PCAOB or Commission investigations or proceedings from settling with regulators in light of the potential collateral consequences.

The Board takes seriously the concern about imposing requirements that might unfairly affect employment and contractual opportunities. As described in Section II above, the Board has eliminated one entire category of reportable relationships that was included in the proposal (relationships with individuals who were not personally sanctioned but were with another firm at the time of conduct for which the firm was sanctioned), and has also narrowed the remaining requirements so that the obligation to report is only triggered if the individual provides at least ten hours of audit services for any issuer in the reporting period. The Board is not persuaded, however, that any further narrowing is appropriate. As for the concerns expressed by commenters about publication, the publication of a Form 2 or Form 3 will not involve making public anything

about the individual, his or her past conduct, or the sanction, that is not already public. The report would simply alert the Board that that person has joined the particular firm. The Board also does not share the view that this reporting requirement would create any greater disincentive to settlements than the public notice disincentives that already exist.

## **D. Administrative and Disciplinary Proceedings**

A commenter suggested that the Board clarify that the references in Form 3 to "administrative or disciplinary proceedings" are to proceedings brought by governmental agencies, and not by, for example, nonpublic membership organizations. The commenter, however, is mistaken. As is true in Form 1, and as is described in a note to Item 3.1 on Form 3, "Administrative or disciplinary proceeding" does include proceedings brought by professional associations or bodies.

## **E. Bankruptcy**

One commenter expressed concern that the bankruptcy reporting threshold was too low, in that it would require the reporting of both voluntary and involuntary bankruptcy petitions. The commenter suggested changing the phrase "has become the subject of a petition filed in a bankruptcy court" to read "has become the subject of an order for relief from creditors entered by a bankruptcy court," in order to focus the disclosure requirement on situations in which the firm is actually dealing with an insolvency issue rather than simple creditor disputes. In this context, however, the Board believes it is preferable to err on the side of a threshold that may be low rather than a threshold that risks being too high. The Board also notes that, in the broker-dealer context, Form BD requires prompt updating if the broker-dealer is the "subject of a bankruptcy petition," which is comparable wording to that in the Form 3 requirement.

## **F. Confidential Treatment**

One commenter suggested that the Board consider offering affirmative guidance as to categories for which confidential treatment will ordinarily be granted (*e.g.*, information relating to pending litigation and disclosures of a firm's relationship with persons or entities that have been subject to Board or Commission sanction). The Act requires the Board to disclose information that is reported unless it is protected from disclosure by applicable law or is proprietary. Applicable law is subject to change and the issue of whether particular information is proprietary is fact-specific. Without ruling out the possibility of some limited degree of guidance on this point in the future, the Board is not attempting to provide any such guidance at this time.

## **G. Non-U.S. Firms and Rule 2207**

Commenters suggested, in various ways, that the Board modify the provisions concerning the affirmation of consent to cooperate with the Board by adding language such as "to the extent permitted by any applicable law," or otherwise indicating a willingness to accept "qualified consents" from non-U.S. firms that believe they face non-U.S. legal obstacles to providing the required unqualified consents. The Board believes, however, that it is sufficient to allow non-U.S. firms to withhold the affirmation if they assert that a legal conflict prevents them from providing it (and they comply with proposed Rule 2207). The Board has consistently maintained that, although it will seek to work cooperatively with and through non-U.S. regulators, and although it is willing to accommodate

a non-U.S. firm's reluctance (rooted in an asserted conflict of law) to provide the required written consent to cooperate, each firm ultimately has an obligation to cooperate with the Board to the extent that the Board requires cooperation. The Board does not view this statutory obligation as limited or qualified by non-U.S. legal restrictions. The Board's acceptance of a qualified consent could lead a firm to believe, mistakenly, that the Board accepts that the firm's statutory obligation is qualified.

Separately, some commenters, while acknowledging the Board's indication that Rule 2207(e) would be a rarely invoked last resort, expressed concern that the rule allows the Board to put a firm in the position of having to choose between breaching local law or breaching the Board's rules. These comments amount to suggestions that the Board should, by rule, forfeit a degree of its statutory authority under U.S. law to require registered firms to provide information. The Board declines to do so, but emphasizes its continued commitment to a cooperative approach and reiterates its hope and expectation that Rule 2207(e) will be invoked rarely, if ever.

One commenter expressed a view that Rule 2207's requirements, related to withholding information because of a legal conflict, are substantially more onerous than the Rule 2105 requirements that apply in the registration context. Although not entirely clear, part of that comment seems focused on Rule 2207(c)(1), which requires a firm to have in its possession a version of the form that includes the information that the firm would be required to report in the absence of a legal conflict.

This requirement imposes no greater burden on a non-U.S. firm than on a U.S. firm that actually reports the information. The opportunity to assert a legal conflict is an accommodation in light of the possibility that a firm may believe that it is stuck between competing legal requirements. But a firm should not assume that its mere assertion of a conflict is the end of the matter, and there is no reason to provide that a firm need not even have assembled the information, in the form in which any other firm would have to assemble it, before asserting that non-U.S. law precludes it from disclosing the particular information it is withholding.

## **H. Reliance on Non-U.S. Reporting Requirements**

Commenters suggested that the Board establish a rule allowing the Board to place reliance on information collected and provided by non-U.S. oversight bodies, in order to reduce administrative work for firms, reduce duplication of information, and facilitate oversight bodies' understanding of conflicting legal provisions. Without prejudging anything about possible future carve-outs to avoid duplication of particular non-U.S. reporting requirements, there does not appear to the Board to be any reason, at this time, to subject non-U.S. firms to any different PCAOB reporting requirements than those imposed on U.S. firms.

***APPENDICES—***

Rules on Periodic Reporting by Registered Public Accounting Firms  
Amendments to PCAOB Rules 1001, 2107, 2300, 4000, and 4003  
Form 2 Instructions  
Form 3 Instructions

## Appendix—Rules and Forms Related to Reporting

### SECTION 2. REGISTRATION AND REPORTING

#### Part 2—Reporting

##### 2200. Annual Report

Each registered public accounting firm must file with the Board an annual report on Form 2 by following the instructions to that form. Unless directed otherwise by the Board, the registered public accounting firm must file such annual report and exhibits thereto electronically with the Board through the Board's Web-based system.

##### 2201. Time for Filing of Annual Report

Each registered public accounting firm must file the annual report on Form 2 no later than June 30 of each year, provided, however, that a registered public accounting firm that has its application for registration approved by the Board in the period between and including April 1 and June 30 of any year shall not be required to file an annual report in that year.

Note: Pursuant to Rule 1002, in any year in which the filing deadline falls on a Saturday, Sunday, or federal legal holiday, the deadline for filing the annual report shall be the next day that is not a Saturday, Sunday, or federal legal holiday.

##### 2202. Annual Fee

Each registered public accounting firm must pay an annual fee to the Board on or before July 31 of any year in which the firm is required to file an annual report on Form 2. The Board will, from time to time, announce the current annual fee. No portion of the annual fee is refundable.

##### 2203. Special Reports

- (a) A registered public accounting firm must file a special report on Form 3 to report information to the Board as follows—
  - (1) Upon the occurrence, on or after **[insert effective date of this rule]**, of any event specified in Form 3, a registered public accounting firm must report the event in a special report filed no later than thirty days after the occurrence of the event;
  - (2) No later than thirty days after receiving notice of Board approval of its application for registration, a registered public accounting firm that becomes registered after **[insert effective date of this rule]** must file a special report to report any event specified in Form 3 that occurred after the date used by the firm for purposes of General Instruction 9 to Form 1 and before the date that the Board approved the firm's registration; and
  - (3) No later than **[insert date thirty days after the effective date of this rule]**, a registered public accounting firm that is registered as of **[insert effective date of this rule]**, must file a special report to report, to the extent applicable to the firm, certain information described in General Instruction 4 to Form 3 and current as of **[insert effective date of this rule]**.

- (b) A registered public accounting firm required to file a special report shall do so by filing with the Board a special report on Form 3 in accordance with the instructions to that form. Unless directed otherwise by the Board, a registered public accounting firm must file such special report and exhibits thereto electronically with the Board through the Board's Web-based system.

#### **2204. Signatures**

Each signatory to a report on Form 2 or Form 3 shall manually sign a signature page or other document authenticating, acknowledging or otherwise adopting his or her signature that appears in typed form within the electronic submission. Such document shall be executed before or at the time the electronic submission is made and shall be retained by the filer for a period of seven years. Upon request, an electronic filer shall provide to the Board or its staff a copy of all documents retained pursuant to this Rule.

#### **2205. Amendments**

Amendments to a filed report on Form 2 or Form 3 shall be made by filing an amended report on Form 2 or Form 3 in accordance with the instructions to those forms concerning amendments. Amendments shall not be filed to update information in a report that was correct at the time the report was filed, but only to correct information that was incorrect at the time the report was filed or to provide information that was omitted from the report and was required to be provided at the time the report was filed.

#### **2206. Date of Filing**

- (a) An annual report shall be deemed to be filed on the date on which the registered public accounting firm submits a Form 2 in accordance with Rule 2200 that includes the signed certification required in Part X of Form 2.
- (b) A special report on Form 3 shall be deemed to be filed on the date that the registered public accounting firm submits a Form 3 in accordance with Rule 2203 that includes the signed certification required in Part VIII of Form 3.

#### **2207. Assertions of Conflicts with Non-U.S. Laws**

If, in a report on Form 2 or Form 3, a foreign registered public accounting firm omits any information or affirmation required by the instructions to the relevant form on the ground that it cannot provide such information or affirmation on the form filed with the Board without violating non-U.S. law, the foreign registered public accounting firm shall—

- (a) In accordance with the instructions to the form—
  - (1) Indicate that it has omitted required information or affirmations on the ground that it cannot provide such information or affirmations on the form filed with the Board without violating non-U.S. law;
  - (2) Identify all Items on the form with respect to which it has withheld any required information or affirmation on that ground; and
  - (3) Represent that, with respect to all such omitted information or affirmations, the foreign registered public accounting firm has satisfied the requirements of paragraph (b) of this Rule and has in its possession the materials required by paragraph (c) of this Rule;

## Select PCAOB Releases

- (b) Before filing the form with the Board, make reasonable, good faith efforts, where not prohibited by law, to seek any consents or waivers that would be sufficient to allow it to provide the required information or affirmation on the form filed with the Board without violating non-U.S. law;
- (c) Have in its possession, before the date on which the foreign registered public accounting firm files the form with the Board and for a period of seven years thereafter—
  - (1) An electronic version of the form that includes all information required by the instructions to the form (including certification and signature) and a manually signed signature page or other document that would satisfy the requirement of Rule 2204 if that version of the form were filed with the Board;
  - (2) A copy of the provisions of non-U.S. law that the foreign registered public accounting firm asserts prohibit it from providing the required information or affirmations on the form filed with the Board, and an English translation of any such provisions that are not in English;
  - (3) A legal opinion, in English, addressed to the foreign registered public accounting firm and that the foreign registered public accounting firm has reason to believe is current with respect to the relevant point of law, that the firm cannot provide the omitted information or affirmation on the form filed with the Board without violating non-U.S. law;
  - (4) A written representation, in English, that the Firm has made reasonable efforts, and a written description of those efforts, to obtain consents or waivers that would be sufficient to allow it to provide the required information or affirmation on the form filed with the Board, manually signed by the same person whose signature appears in the certification portion of the form, and indicating that the signer has reviewed the description and that the description is, based on the signer's knowledge, accurate and does not contain any untrue statements of material fact or omit to state a material fact necessary to make the statements made not misleading, and dated—
    - (i) for Form 2, after the end of the reporting period and no later than the date of the Form 2 filing; and
    - (ii) for Form 3, after the date of the reportable event and no later than the date of the Form 3 filing;
- (d) Not later than the fourteenth day after any request by the Board or by the Director of the Division of Registration and Inspections for any of the documents described in subparagraphs (2)–(4) of paragraph (c) of this Rule, file an amended report on Form 2 or Form 3 including, as an exhibit to the amended report, the requested documents; and
- (e) Not later than the fourteenth day after any request by the Board for any of the information included in the document described in subparagraph (1) of paragraph (c) of this Rule, file an amended report on Form 2 or Form 3 including the requested information.

Note: Rule 2207(c)(1) does not require that the version of the form maintained by the firm include any affirmation required by Part IX of Form 2. If the firm withholds any such affirmation, however, the asserted legal conflict must be addressed in accordance with subparagraphs (2)–(4) of Rule 2207(c).

Note: Rule 2207(c)(1) does not require a firm to include on the form maintained by the firm any information (1) that the firm does not possess, and (2) as to which the firm asserts that the firm would violate non-U.S. law by requiring another person to provide the information to the firm. The asserted legal conflict that prevents the firm from requiring another person to provide the information to the firm, however, must be addressed in accordance with subparagraphs (2) - (4) of Rule 2207(c).

Note: The "reasonable efforts" element of Rule 2207(c)(4) does not require a firm to renew efforts to seek consents or waivers from parties who have previously declined to provide consents or waivers with respect to disclosure of similar types of information and does not require a firm to seek consents or waivers from parties other than firm personnel and firm clients.

## Amendments to Rules 1001, 2107, 2300, 4000, and 4003

### SECTION 1. GENERAL PROVISIONS

#### **Rule 1001. Definitions of Terms Employed in Rules.** [*Amended Rule—deletions indicated by strike-throughs*]

All provisions unchanged except for the following:

##### **(a)(vii) Audit Services**

The term "audit services" means—

- ~~(1) subject to paragraph (a)(vii)(2) of this Rule, professional services rendered for the audit of an issuer's annual financial statements, and (if applicable) for the reviews of an issuer's financial statements included in the issuer's quarterly reports.~~
- (2) effective after December 15, 2003, professional services rendered for the audit of an issuer's annual financial statements, and (if applicable) for the reviews of an issuer's financial statements included in the issuer's quarterly reports or services that are normally provided by the accountant in connection with statutory and regulatory filings or engagements for those fiscal years.

##### **(n)(ii) Non-Audit Services**

The term "non-audit services" means—

- ~~(1) subject to paragraph (n)(ii)(2) of this Rule, services related to financial information systems design and implementation as defined in Rule 2-01(e)(4)(ii) of Regulation S-X, 17 C.F.R. 2-01(e)(4)(ii), and all other services, other than audit services or other accounting services.~~

- (2) ~~effective after December 15, 2003, all other services other than audit services, other accounting services, and tax services.~~

**(o)(i) Other Accounting Services**

The term "other accounting services" means—

- (1) ~~subject to paragraph (o)(i)(2) of this Rule, services that are normally provided by the public accounting firm that audits the issuer's financial statements in connection with statutory and regulatory filings or engagements and assurance and related services that are reasonably related to the performance of the audit or review of the issuer's financial statements, other than audit services.~~
- (2) ~~effective after December 15, 2003, assurance and related services that are reasonably related to the performance of the audit or review of the issuer's financial statements, other than audit services.~~

**SECTION 2. REGISTRATION AND REPORTING**

**Rule 2107. Withdrawal from Registration** [*Amended Rule—additions to existing rule indicated by underlining, deletions indicated by strike-throughs*]

(a) and (b) unchanged

**(c) Effect of Filing**

- (1) ~~Beginning on the date of Board receipt of a completed Form 1-WD, the firm that filed the Form 1-WD shall not engage in the preparation or issuance of, or play a substantial role in the preparation or furnishing of, an audit report, other than to issue a consent to the use of an audit report for a prior period, unless it first withdraws its Form 1-WD.~~
- (2) ~~Beginning on the fifth day following the Board's receipt of a completed Form 1-WD, and continuing for as long as the Form 1-WD is pending—~~
- (i) ~~the firm may satisfy the annual reporting requirement by submitting a report stating that a completed Form 1-WD has been filed and is pending;~~
- (1) the firm shall not engage in the preparation or issuance of, or play a substantial role in the preparation or furnishing of, an audit report, other than to issue a consent to the use of an audit report for a prior period;
- (2) the firm's obligation to file annual reports on Form 2, and special reports on Form 3 shall be suspended;
- (ii) ~~any annual fee assessed shall be zero;~~
- (3) ~~the Board shall have the discretion to forego any regular inspection that would otherwise commence pursuant to Rule 4003(a) or Rule 4003(b); and~~

~~(4iv)~~ the firm's registration status shall be designated as "registered—withdrawal request pending," and the firm shall not publicly represent its registration status without specifying it as "registered—withdrawal request pending."

(d) and (e) unchanged.

**(f) Withdrawal of Form 1-WD**

A registered public accounting firm that has submitted a Form 1-WD may withdraw the form at any time by filing with the Board a written notice of intent to withdraw the Form 1-WD along with any annual fee ~~and~~ annual report and special report that the firm would have been required to submit during the period that the Form 1-WD was pending if not for the provisions of paragraph (c)(2).

(g) unchanged

\* \* \* \*

**Rule 2300. Public Availability of Information Submitted to the Board; Confidential Treatment Requests.** *[Amended Rule—additions to existing rule indicated by underlining, deletions indicated by strike-throughs]*

(a) Except as provided in paragraph (b) below—

- (1) an application for registration will be publicly available as soon as practicable after the Board approves or disapproves such application; and
- (2) all other forms filed pursuant to Part 1 or Part 2 of this Section of the Rules of the Board, and any amendments thereto, will be publicly available as soon as practicable after filing, except to the extent otherwise specified in the Board's rules or the instructions to the form.

**(b) Confidential Treatment Requests.**

- (1) A public accounting firm may request confidential treatment of any information submitted to the Board in connection with its application for registration on Form 1, and may request confidential treatment of information on other forms filed pursuant to Part 1 or Part 2 of this Section of the Rules of the Board to the extent specified in the instructions to the form, provided that the information as to which confidential treatment is requested—
  - ~~(1i)~~ has not otherwise been publicly disclosed, and
  - ~~(2ii)~~ either ~~(Ai)~~ contains information reasonably identified by the public accounting firm as proprietary information, or ~~(Bi)~~ is protected from public disclosure by applicable laws related to the confidentiality of proprietary, personal, or other information.
- (2) Failure to provide an exhibit that complies with the requirements of paragraph (c)(2) of this Rule constitutes sufficient grounds for denial of any request for confidential treatment.

**(c) Application Procedures.**

To request confidential treatment of information for which such requests are permitted by paragraph (b)(1) of this Rule ~~submitted to the Board in connection with an application for registration~~, the applicant requestor must—

- (1) identify, in accordance with the instructions ~~on Form 1 to the form~~, the information that it desires to keep confidential; and
- (2) include as an exhibit to ~~Form 1 a detailed explanation as to why, based on the facts and circumstances of the particular case, the information meets the requirements of paragraph (b) of this Rule.~~ the form a representation that, to the requestor's knowledge, the information for which confidential treatment is requested has not otherwise been publicly disclosed and—
  - (i) a detailed explanation of the grounds on which the information is considered proprietary; or
  - (ii) a detailed explanation of the basis for asserting that the information is protected by law from public disclosure and a copy of the specific provision of law that the requestor claims protects the information from public disclosure.

(d) and (e) unchanged

(f) Unless the ~~applicant requestor~~ requests otherwise, the exhibit containing an explanation supporting a confidential treatment request will be afforded confidential treatment without the need for a request for confidential treatment.

(g) Information as to which the Board grants confidential treatment under this ~~Rule~~ will not be made available to the public by the Board. The granting of confidential treatment will not, however, limit the ability of the Board (1) to provide the information as to which confidential treatment was granted to the Commission, or (2) to comply with any subpoena validly issued by a court or other body of competent jurisdiction. In the event the Board receives such a subpoena, the Board will notify the ~~applicant~~ public accounting firm of such subpoena, to the extent permitted by law, to allow the ~~applicant~~ public accounting firm the opportunity to object to such subpoena.

(h) unchanged

## SECTION 4. INSPECTIONS

**Rule 4000. General** [*Amended Rule—additions to existing rule indicated by underlining*]

(a) Every registered public accounting firm shall be subject to all such regular and special inspections as the Board may from time-to-time conduct in order to assess the degree of compliance of each registered public accounting firm and associated persons of that firm with the Act, the Board's rules, the rules of the Commission, and professional standards, in connection with its performance of audits, issuance of audit reports, and related matters involving issuers.

(b) In furtherance of the Board's inspection process, the Board may at any time request that a registered public accounting firm provide to the Board additional information or documents relating to information provided by the firm in any report filed pursuant to Section 2 of these Rules, or relating to information that has otherwise come to the Board's attention. Any request for information or documents made pursuant to this Rule, and any information or

documents provided in response to such a request, shall be considered to be in connection with the next regular or special inspection of the registered public accounting firm.

(c) Inspection steps and procedures shall be performed by the staff of the Division of Registration and Inspections, and by such other persons as the Board may authorize to participate in particular inspections or categories of inspections.

\* \* \* \*

**Rule 4003. Frequency of Inspections** [*Amended Rule—additions to existing rule indicated by underlining, deletions indicated by strike-throughs*]

(a) and (b) unchanged.

(c) With respect to a registered public accounting firm that has filed a completed Form 1-WD under Rule 2107, the Board shall have the discretion to forego any regular inspection that would otherwise commence during the period beginning on the ~~fifth day following the filing of the~~ date of Board receipt of a completed Form 1-WD and continuing until the firm's registration is deemed withdrawn or the firm withdraws the Form 1-WD.

(d) unchanged

## Form 2—Annual Report Form

### GENERAL INSTRUCTIONS

1. Submission of this Report. A registered public accounting firm must use this Form to file with the Board the annual report required by Section 102(d) of the Act and Rule 2200 and to file any amendments to an annual report. Unless otherwise directed by the Board, the Firm must file this Form, and all exhibits to this Form, electronically with the Board through the Board's Web-based system.
2. Defined Terms. The definitions in the Board's rules apply to this Form. Italicized terms in the instructions to this Form are defined in the Board's rules. In addition, as used in the instructions to this Form, the term "the Firm" means the registered public accounting firm that is filing this Form with the Board.
3. When Report is Considered Filed. Annual reports on this Form are required to be filed each year on or before June 30, subject to the qualification in Rule 2201 concerning any firm that has its application for registration approved by the Board in the period between and including April 1 and June 30. An annual report is considered filed when the Firm has submitted to the Board a Form 2 in accordance with Rule 2200 that includes the signed certification required in Part X of Form 2.
4. Period Covered by this Report. Annual reports on this Form shall cover a 12-month period from April 1 to March 31, subject to the qualification in Part VIII of Form 2 relating to the first annual report filed by a firm that becomes registered after **[insert effective date of Rule 2201]**. In the instructions to this Form, this is the period referred to as the "reporting period."
5. Amendments to this Report. Amendments shall not be filed to update information in a filed Form 2 that was correct at the time the Form was filed, but only to correct information that was incorrect at the time the Form was filed or to provide information that was omitted from

the Form and was required to be provided at the time the Form was filed. When filing a Form 2 to amend an earlier filed Form 2, the Firm must supply not only the corrected or supplemental information, but must include in the amended Form 2 all information, affirmations, and certifications that were required to be included in the original Form 2. The Firm may access the originally filed Form 2 through the *Board's* Web-based system and make the appropriate amendments without needing to re-enter all other information.

Note: The *Board* will designate an amendment to an annual report as a report on "Form 2/A."

6. Rules Governing this Report. In addition to these instructions, the *rules* contained in Part 2 of Section 2 of the *Board's rules* govern this Form. Please read these *rules* and the instructions carefully before completing this Form.
7. Requests for Confidential Treatment. The Firm may, by marking the Form in accordance with the instructions provided, request confidential treatment of any information submitted in Part VI, Part VII, or Exhibit 99.3 of this Form that has not otherwise been publicly disclosed and that either contains information reasonably identified by the Firm as proprietary information or that is protected from public disclosure by applicable laws related to confidentiality of proprietary, personal, or other information. See Rule 2300. *Foreign registered public accounting firms* may also request confidential treatment for Item 3.2 and Exhibit 3.2, though U.S. firms may not do so. If the Firm requests confidential treatment, it must identify the information in Part VI, Part VII, or Exhibit 99.3 (or, for a *foreign registered public accounting firm*, Item 3.2 and Exhibit 3.2) that it desires to keep confidential, and include, as Exhibit 99.1 to this Form, an exhibit that complies with the requirements of Rule 2300(c)(2). The *Board* will determine whether to grant confidential treatment requests on a case-by-case basis. If the Firm fails to include Exhibit 99.1, or includes an Exhibit 99.1 that fails to comply with Rule 2300(c)(2), the request for confidential treatment may be denied solely on the basis of that failure.
8. Assertions of Conflicts with Non-U.S. Law. If the Firm is a *foreign registered public accounting firm*, the Firm may, unless otherwise directed by the *Board* pursuant to Rule 2207(e), decline to provide certain information and affirmations required by this Form if the Firm could not provide such information or affirmations without violating non-U.S. law and the Firm proceeds in accordance with Rule 2207. The Firm may withhold responsive information and affirmations on that basis from any Part of the Form other than Parts I, II, and X and Items 3.1.a, 3.1.b, 3.1.d, and 4.1. If the firm withholds responsive information or affirmations, the Firm must indicate, in accordance with the instructions in the relevant Part of the Form, the particular Items with respect to which the Firm has withheld responsive information or a required affirmation. The Firm may not use the Form to make any general assertion that a particular requirement may conflict with non-U.S. law, but only to indicate that, on the basis of an asserted conflict, the Firm has in fact withheld from this Form required information or a required affirmation.
9. Language. Information submitted as part of this Form, including any exhibit to this Form, must be in the English language.

**PART I—IDENTITY OF THE FIRM AND CONTACT PERSONS**

**In Part I, the Firm should provide information that is current as of the date of the certification in Part X.**

## Item 1.1 Name of the Firm

- a. State the legal name of the Firm.
- b. If different than its legal name, state the name or names under which the Firm issues *audit reports*, or issued any *audit report* during the reporting period.
- c. If the Firm's legal name at the beginning of the reporting period was different than the name provided under Item 1.1.a, state that legal name and any other legal name the Firm had during the reporting period. Include the legal name of any *registered public accounting firm* that merged into, or was acquired by, the Firm during the reporting period.

## Item 1.2 Contact Information of the Firm

- a. State the physical address (and, if different, mailing address) of the Firm's headquarters office.
- b. State the telephone number and facsimile number of the Firm's headquarters office. If available, state the Website address of the Firm.

Item 1.3 Primary Contact with the *Board*

State the name, business title, physical business address (and, if different, business mailing address), business telephone number, business facsimile number, and business e-mail address of a partner or authorized officer of the Firm who will serve as the Firm's primary contact with the *Board*, including for purposes of the annual report filed on this Form and any special reports filed on Form 3.

**PART II—GENERAL INFORMATION CONCERNING THIS REPORT**

## Item 2.1 Reporting Period

State the reporting period covered by this report.

Note: The reporting period, which the Firm should enter in Item 2.1, is the period beginning on April 1 of the year before the year in which the annual report is required to be filed and ending March 31 of the year in which the annual report is required to be filed. That is the period referred to where this Form refers to the "reporting period." Note, however, the special instruction at the beginning of Part VIII concerning the first annual report filed by certain firms.

## Item 2.2 Amendments

If this is an amendment to a report previously filed with the *Board*—

- a. Indicate, by checking the box corresponding to this item, that this is an amendment.
- b. Identify the specific Item numbers of this Form (other than this Item 2.2) as to which the Firm's response has changed from that provided in the most recent Form 2 or amended Form 2 filed by the Firm with respect to the reporting period.

**PART III—GENERAL INFORMATION CONCERNING THE FIRM**

## Item 3.1 The Firm's Practice Related to the Registration Requirement

- a. Indicate whether the Firm issued any *audit report* with respect to an *issuer* during the reporting period.
- b. In the event of an affirmative response to Item 3.1.a, indicate whether the *issuers* with respect to which the Firm issued *audit reports* during the reporting period were limited to employee benefit plans that file reports with the *Commission* on Form 11-K.
- c. In the event of a negative response to Item 3.1.a, indicate whether the Firm *played a substantial role in the preparation or furnishing of an audit report* with respect to an *issuer* during the reporting period.
- d. In the event of a negative response to both Items 3.1.a and 3.1.c, indicate whether, during the reporting period, the Firm issued any document with respect to financial statements of a non-*issuer* broker-dealer in which the Firm either set forth an opinion on the financial statements or asserted that no such opinion can be expressed.

Item 3.2 Fees Billed to *Issuer Audit* Clients

- a. Of the total fees billed by the Firm to all clients for services that were rendered in the reporting period, state the percentage (which may be rounded, but no less specifically than to the nearest five percent) attributable to fees billed to *issuer audit* clients for—
  1. *Audit services*;
  2. *Other accounting services*;
  3. *Tax services*; and
  4. *Non-audit services*.
- b. Indicate, by checking the appropriate box, which of the following two methods the Firm used to calculate the percentages reported in Item 3.2.a—
  1. The Firm used as a denominator the total fees billed to all clients for services rendered during the reporting period and used as numerators (for each of the four categories) total fees billed to *issuer audit* clients for the relevant services rendered during the reporting period.
  2. The Firm used as a denominator the total fees billed to all clients in the Firm's fiscal year that ended during the reporting period and used as numerators (for each of the four categories) total *issuer audit* client fees as determined by reference to the fee amounts disclosed to the *Commission* by those clients for each client's fiscal year that ended during the reporting period (including, for clients who have not made the required *Commission* filings, the fee amounts required to be disclosed).
- c. If the Firm has used a reasonable method to estimate the components of the calculations described in Item 3.2.b, rather than using the specific data, check this box and attach Exhibit 3.2 briefly describing the reasons for doing so and the methodology used in making those estimates.

Note: In responding to Item 3.2, careful attention should be paid to the definitions of the italicized terms, which are found in *Board*

*Rules* 1001(i)(iii) (*issuer*), 1001(a)(v) (*audit*), 1001(a)(vii) (*audit services*), 1001(o)(i) (*other accounting services*), 1001(t)(i) (*tax services*), and 1001(n)(ii) (*non-audit services*). The definitions of the four categories of services correspond to the *Commission's* descriptions of the services for which an *issuer* must disclose fees paid to its auditor. Compare the descriptions of services in Item 9(e) of *Commission* Schedule 14A (17 C.F.R. § 240.14a-101) under the headings "Audit Fees," "Audit-Related Fees," "Tax Fees," and "All Other Fees" with, respectively, the *Board's* definitions of *Audit Services*, *Other Accounting Services*, *Tax Services*, and *Non-Audit Services*.

#### **PART IV—AUDIT CLIENTS AND AUDIT REPORTS**

##### **Item 4.1 *Audit Reports* Issued by the Firm**

- a. Provide the following information concerning each *issuer* for which the Firm issued any *audit report(s)* during the reporting period—
  1. The *issuer's* name;
  2. The *issuer's* CIK number, if any; and
  3. The date(s) of the *audit report(s)*.
- b. If the Firm identified any *issuers* in response to Item 4.1.a., indicate, by checking the box corresponding to the appropriate range set out below, the total number of Firm personnel who exercised the authority to sign the Firm's name to an *audit report* during the reporting period. If the Firm checks the box indicating that the number is in the range of 1-9, provide the exact number.

1-9  
10-25  
26-50  
51-100  
101-200  
More than 200

Note: In responding to Item 4.1, careful attention should be paid to the definition of *audit report*, which is found in Rule 1001(a)(vi) of the *Board's Rules*, and which does not encompass reports prepared for entities that are not *issuers*, as that term is defined in Rule 1001(i)(iii). Careful attention should also be paid to the definition of *issuer*. The Firm should not, for example, overlook the fact that investment companies may be *issuers*, or that employee benefit plans that file reports on *Commission* Form 11-K are *issuers*.

Note: In responding to Item 4.1, do not list any *issuer* more than once. For each *issuer*, provide in Item 4.1.a.3 the *audit report* dates (as described in AU 530, *Dating of the Independent Auditor's Report*) of all such *audit reports* for that *issuer*, including each date of any dual-dated *audit report*.

Note: In responding to Item 4.1.a.3, it is not necessary to provide the date of any consent to an *issuer's* use of an *audit report* previously issued for that *issuer*, except that, if such consents constitute the only instances of the Firm issuing *audit reports* for a particular *issuer* during the reporting period, the Firm should include that *issuer* in Item 4.1 and include the dates of such consents in Item 4.1.a.3.

Item 4.2 *Audit Reports* With Respect to Which the Firm *Played a Substantial Role* during the Reporting Period

- a. If no *issuers* are identified in response to Item 4.1.a, but the Firm *played a substantial role in the preparation or furnishing of an audit report* that was issued during the reporting period, provide the following information concerning each *issuer* with respect to which the Firm did so—
1. The *issuer's* name;
  2. The *issuer's* CIK number, if any;
  3. The name of the *registered public accounting firm* that issued the *audit report(s)*;
  4. The end date(s) of the fiscal period(s) covered by the financial statements that were the subject of the *audit report(s)*; and
  5. A description of the substantial role played by the Firm with respect to the *audit report(s)*.

Note: If the Firm identifies any *issuer* in response to Item 4.1, the Firm need not respond to Item 4.2.

Note: In responding to Item 4.2, do not list any *issuer* more than once.

## PART V—OFFICES AND AFFILIATIONS

**In Part V, the Firm should provide information that is current as of the last day of the reporting period.**

### Item 5.1 Firm's Offices

List the physical address and, if different, the mailing address, of each of the Firm's offices.

### Item 5.2 *Audit*-related Memberships, Affiliations, or Similar Arrangements

- a. State whether the Firm has any:
1. Membership or affiliation in or with any network, arrangement, alliance, partnership or association that licenses or authorizes *audit* procedures or manuals or related materials, or the use of a name in connection with the provision of *audit services* or accounting services;
  2. Membership or affiliation in or with any network, arrangement, alliance, partnership or association that markets or sells *audit services* or through which joint *audits* are conducted; or
  3. Arrangement, whether by contract or otherwise, with another entity through or from which the Firm employs or leases personnel to perform *audit services*.
- b. If the Firm provides an affirmative response to Item 5.2.a, identify, by name and address, the entity with which the Firm has each such relationship, and provide a brief description of each such relationship.

Note: Item 5.2.b does not require information concerning every other entity that is part of the network, arrangement, alliance, partnership or association, but only information concerning the network, arrangement, alliance, partnership, or association itself, or the principal entity through which it operates.

**PART VI—PERSONNEL**

**In Part VI, the Firm should provide information that is current as of the last day of the reporting period.**

## Item 6.1 Number of Firm Personnel

Provide the following numerical totals—

- a. Total number of the Firm's *accountants*;
- b. Total number of the Firm's certified public accountants (include in this number all *accountants* employed by the Firm with comparable licenses from non-U.S. jurisdictions); and
- c. Total number of the Firm's personnel.

**PART VII—CERTAIN RELATIONSHIPS**

## Item 7.1 Individuals with Certain Disciplinary or Other Histories

- a. Other than a relationship required to be reported in Item 4.1 of Form 3, and only if the Firm has not previously identified the individual and the sanction or *Commission* order on Form 1, Form 2, or Form 3, state whether, as of the end of the reporting period, the Firm has any employee, partner, shareholder, principal, member, or owner who was the subject of a *Board* disciplinary sanction or a *Commission* order under Rule 102(e) of the *Commission's* Rules of Practice, entered within the five years preceding the end of the reporting period and without that sanction or order having been vacated on review or appeal, and who provided at least ten hours of *audit services* for any *issuer* during the reporting period.
- b. If the Firm provides an affirmative response to Item 7.1.a, provide—
  1. The name of each such individual;
  2. A description of the nature of the relationship;
  3. The date that the Firm entered into the relationship; and
  4. The date of the relevant order and an indication whether it was a *Board* order or a *Commission* order.

## Item 7.2 Entities with Certain Disciplinary or Other Histories

- a. Other than a relationship required to be reported in Item 4.2 of Form 3, and only if the Firm has not previously reported the information on Form 1, Form 2, or Form 3, state whether, as of the end of the reporting period, the Firm was owned or partly owned by an entity that was the subject of (a) a *Board* disciplinary sanction entered within the five years preceding the end of the reporting period, which has not been vacated on review or appeal, suspending or revoking that entity's registration or disapproving that entity's application for registration, or (b) a *Commission* order under Rule 102(e) of the *Commission's* Rules of Practice entered within the five years preceding the end of the reporting period, which has not been vacated on appeal, suspending or denying the privilege of appearing or practicing before the *Commission*.
- b. If the Firm provides an affirmative response to Item 7.2.a, provide—
  1. The name of each such entity;
  2. A description of the nature of the relationship;
  3. The date that the Firm entered into the relationship; and

4. The date of the relevant order and an indication whether it was a *Board* order or a *Commission* order.

Item 7.3 Certain Arrangements to Receive Consulting or Other Professional Services

- a. Other than a relationship required to be reported in Item 4.3 of Form 3, state whether the Firm received, or entered into a contractual or other arrangement to receive, from any individual or entity meeting the criteria described in Items 7.1.a. or 7.2.a, consulting or other professional services related to the Firm's *audit* practice or related to services the Firm provides to *issuer audit* clients.
- b. If the Firm provides an affirmative response to Item 7.3.a, provide—
  1. The name of each such individual or entity;
  2. A description of the nature of the relationship;
  3. The date that the Firm entered into the relationship;
  4. A description of the services provided or to be provided to the Firm by the individual or entity; and
  5. The date of the relevant order and an indication whether it was a *Board* order or a *Commission* order.

**PART VIII—ACQUISITION OF ANOTHER *PUBLIC ACCOUNTING FIRM* OR SUBSTANTIAL PORTIONS OF ANOTHER *PUBLIC ACCOUNTING FIRM'S* PERSONNEL**

**If the Firm became registered on or after [effective date of Rule 2201], the first annual report that the Firm files must provide this information for the period running from the date used by the Firm for purposes of General Instruction 9 of Form 1 (regardless of whether that date was before or after the beginning of the reporting period) through March 31 of the year in which the annual report is required to be filed.**

Item 8.1 Acquisition of Another *Public Accounting Firm* or Substantial Portions of Another *Public Accounting Firm's* Personnel

- a. State whether the Firm acquired another *public accounting firm*.
- b. If the Firm provides an affirmative response to Item 8.1.a, provide the name(s) of the *public accounting firm(s)* that the Firm acquired.
- c. State whether the Firm, without acquiring another *public accounting firm*, took on as employees, partners, shareholders, principals, members, or owners 75% or more of the persons who, as of the beginning of the reporting period, were the partners, shareholders, principals, members, or owners of another *public accounting firm*.
- d. If the Firm provides an affirmative response to Item 8.1.c, provide the name of the other *public accounting firm* and the number of the other *public accounting firm's* former partners, shareholders, principals, members, owners, and *accountants* that joined the Firm.

**PART IX—AFFIRMATION OF CONSENT****Item 9.1 Affirmation of Understanding of, and Compliance with, Consent Requirements**

Whether or not the Firm, in applying for registration with the *Board*, provided the signed statement required by Item 8.1 of Form 1, affirm that—

- a. The Firm has consented to cooperate in and comply with any request for testimony or the production of documents made by the *Board* in furtherance of its authority and responsibilities under the Sarbanes-Oxley Act of 2002;
- b. The Firm has secured from each of its *associated persons*, and agrees to enforce as a condition of each such person's continued employment by or other association with the Firm, a consent indicating that the *associated person* consents to cooperate in and comply with any request for testimony or the production of documents made by the *Board* in furtherance of its authority under the Sarbanes-Oxley Act of 2002, and that the *associated person* understands and agrees that such consent is a condition of his or her continued employment by or other association with the Firm; and
- c. The Firm understands and agrees that cooperation and compliance, as described in Item 9.1.a, and the securing and enforcing of consents from its *associated persons* as described in Item 9.1.b, is a condition to the continuing effectiveness of the registration of the Firm with the *Board*.

Note 1: The affirmation in Item 9.1.b shall not be understood to include an affirmation that the Firm has secured such consents from any *associated person* that is a *registered public accounting firm*.

Note 2: The affirmation in Item 9.1.b shall not be understood to include an affirmation that the Firm has secured such consents from any *associated person* that is a *foreign public accounting firm* in circumstances where that *associated person* asserts that non-U.S. law prohibits it from providing the consent, so long as the Firm possesses in its files documents relating to the *associated person's* assertion about non-U.S. law that would be sufficient to satisfy the requirements of subparagraphs (2) through (4) of Rule 2207(c) if that *associated person* were a *registered public accounting firm* filing a Form 2 and withholding this affirmation. This exception to the affirmation in Item 9.1.b does not relieve the Firm of its obligation to enforce cooperation and compliance with *Board* demands by any such *associated person* as a condition of continued association with the Firm.

Note 3: If the Firm is a *foreign registered public accounting firm*, the affirmations in Item 9.1 that relate to *associated persons* shall be understood to encompass every *accountant* who is a proprietor, partner, principal, shareholder, officer, or *audit manager* of the Firm and who provided at least ten hours of *audit services* for any *issuer* during the reporting period.

**PART X—CERTIFICATION OF THE FIRM****Item 10.1 Signature of Partner or Authorized Officer**

This Form must be signed on behalf of the Firm by an authorized partner or officer of the Firm including, in accordance with Rule 2204, both a signature that

appears in typed form within the electronic submission and a corresponding manual signature retained by the Firm. The signer must certify that—

- a. the signer is authorized to sign this Form on behalf of the Firm;
- b. the signer has reviewed this Form;
- c. based on the signer's knowledge, the Firm has filed a special report on Form 3 with respect to each event that occurred before the end of the reporting period and for which a special report on Form 3 is required under the *Board's rules*;
- d. based on the signer's knowledge, this Form does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading; and
- e. either—
  1. based on the signer's knowledge, the Firm has not failed to include in this Form any information or affirmation that is required by the instructions to this Form, or
  2. based on the signer's knowledge—
    - (A) the Firm is a *foreign registered public accounting firm* and has not failed to include in this Form any information or affirmation that is required by the instructions to this Form except for information or affirmations that the Firm asserts it cannot provide to the *Board* on this Form 2 without violating non-U.S. law;
    - (B) with respect to any such withheld information or affirmation, the Firm has satisfied the requirements of PCAOB Rule 2207(b) and has in its possession the materials required by PCAOB Rule 2207(c); and
    - (C) the Firm has indicated, in accordance with the instructions to this Form, each Item of this Form with respect to which the Firm has withheld any required information or affirmation.

The signature must be accompanied by the signer's title, the capacity in which the signer signed the Form, the date of signature, and the signer's business mailing address, business telephone number, business facsimile number, and business e-mail address.

## PART XI—EXHIBITS

To the extent applicable under the foregoing instructions or the *Board's rules*, each annual report must be accompanied by the following exhibits:

- Exhibit 3.2 Description of Methodology Used to Estimate Components of Calculation in Item 3.2 and Reasons for Using Estimates
- Exhibit 99.1 Request for Confidential Treatment
- Exhibit 99.3 Materials Required by Rule 2207(c)(2)–(4)—*Submit Only as an Exhibit to an Amended Form 2 in Response to a Request Made Pursuant to Rule 2207(d)*

## Form 3—Special Report Form

### GENERAL INSTRUCTIONS

1. Submission of this Report. Effective **[insert effective date of Rule 2203]**, a *registered public accounting firm* must use this Form to file special reports with the *Board* pursuant to Section 102(d) of the Act and Rule 2203 and to file any amendments to a special report. Unless otherwise directed by the *Board*, the Firm must file this Form, and all exhibits to this Form, electronically with the *Board* through the *Board's* Web-based system.
2. Defined Terms. The definitions in the *Board's rules* apply to this Form. Italicized terms in the instructions to this Form are defined in the *Board's rules*. In addition, as used in the instructions to this Form, the term "the Firm" means the *registered public accounting firm* that is filing this Form with the *Board*.
3. When this Report is Required and When It is Considered Filed. Upon the occurrence of any event specified in Part II of this Form, the Firm must report the event on this Form by following the instructions to this Form. With respect to events that occur on or after **[insert effective date of Rule 2203]** and while the Firm is registered, the Firm must file the Form no later than thirty days after the occurrence of the event reported. Certain additional requirements apply, but they vary depending on whether a firm was registered as of **[insert effective date of Rule 2203]**. A firm that becomes registered after **[insert effective date of Rule 2203]**, must, within thirty days of receiving notice of *Board* approval of its registration application, file this Form to report any reportable events that occurred in a specified period before approval of the firm's application for registration. *See* Rule 2203(a)(2). A firm that was registered as of **[insert effective date of Rule 2203]**, must, by **[insert date 30 days after effective date of Rule 2203]**, file this Form to report certain additional information that is current as of **[insert effective date of Rule 2203]**. *See* Rule 2203(a)(3) and General Instruction No. 4 below. A special report shall be deemed to be filed on the date that the Firm submits a Form 3 in accordance with Rule 2203 that includes the signed certification required in Part VIII of Form 3.
4. Required Filing to Bring Current Certain Information for Firms Registered as of **[insert effective date of Rule 2203]**. If the Firm is registered as of **[insert effective date of Rule 2203]**, the Firm must file a special report on this Form no later than **[insert date 30 days after effective date of Rule 2203]**, to report the information specified below, to the extent that it has not been reported on the Firm's Form 1 filing. The Firm must make this Form 3 filing to report the following information even if the Firm has previously informally disclosed the information to the *Board* or its staff—
  - a. Information responsive to Items 2.4 through 2.9 and Item 4.1 if (1) the proceeding is pending as of **[insert effective date of Rule 2203]**, and (2) the defendants or respondents as of that date include either the Firm or a person who is a partner, shareholder, principal, owner, member, or *audit* manager of the Firm as of that date;
  - b. Information responsive to Items 2.10 and 4.2 if (1) the conclusion of a proceeding as to any party specified there occurred after the date used by the firm for purposes of General Instruction 9 to

Form 1 and before **[insert effective date of Rule 2203]**, and (2) the proceeding resulted in any conviction of, judgment against, imposition of any liability or sanction on, or *Commission* Rule 102(e) order against the Firm or any person who is a partner, shareholder, principal, owner, member, or *audit* manager of the Firm as of **[insert effective date of Rule 2203]**;

- c. Information responsive to Items 2.11 and 4.3 if the Firm is the subject of a petition or proceeding described there as of **[insert effective date of Rule 2203]**;
  - d. Information responsive to Items 2.12 through 2.14 and Part V if (1) the relationship commenced after the date used by the firm for purposes of General Instruction 9 to Form 1, (2) the specified disciplinary sanction or *Commission* Rule 102(e) order continued to be in effect as of **[insert effective date of Rule 2203]**, and (3) the specified relationship continues to exist as of **[insert effective date of Rule 2203]**;
  - e. Information responsive to Items 2.15 and 6.1 if (1) the loss of authorization relates to a jurisdiction or authority identified in Item 1.7 of the Firm's Form 1 and, (2) as of **[insert effective date of Rule 2203]**, the Firm continues to lack the specified authorization in that jurisdiction;
  - f. Information responsive to Items 2.16 and 6.2 if the license or certification is in effect as of **[insert effective date of Rule 2203]**; and
  - g. Information responsive to Items 2.17 and 2.18 and Part VII that is current as of **[insert effective date of Rule 2203]** to the extent that it differs from the corresponding information provided on the Firm's Form 1.
5. Completing the Form. A firm filing this Form must always complete Parts I, II, and VIII of this Form. Parts III through VII should be completed to the extent applicable, as described more fully in the instructions to Part II of the Form.
  6. Amendments to this Report. Amendments shall not be filed to update information in a filed Form 3 that was correct at the time the Form was filed, but only to correct information that was incorrect at the time the Form was filed or to provide information that was omitted from the Form and was required to be provided at the time the Form was filed. When filing a Form 3 to amend an earlier filed Form 3, the Firm must supply not only the corrected or supplemental information, but must include in the amended Form 3 all information, affirmations, and certifications that were required to be included in the original Form 3. The Firm may access the originally filed Form 3 through the *Board's* Web-based system and make the appropriate amendments without needing to re-enter all other information.

Note: The *Board* will designate an amendment to a special report as a report on "Form 3/A."
  7. Rules Governing this Report. In addition to these instructions, the *rules* contained in Part 2 of Section 2 of the *Board's rules* govern this Form. Please read these *rules* and the instructions carefully before completing this Form.
  8. Requests for Confidential Treatment. The Firm may, by marking the Form in accordance with the instructions provided, request confidential treatment of any information submitted in Item 3.1.c, Part IV,

Part V, Item 6.1.d, Item 7.1.d, or Exhibit 99.3 of this Form that has not otherwise been publicly disclosed and that either contains information reasonably identified by the Firm as proprietary information or that is protected from public disclosure by applicable laws related to confidentiality of proprietary, personal, or other information. See Rule 2300. If the Firm requests confidential treatment, it must identify the information in Item 3.1.c, Part IV, Part V, Item 6.1.d, Item 7.1.d, or Exhibit 99.3 that it desires to keep confidential, and include, as Exhibit 99.1 to this Form, an exhibit that complies with the requirements of Rule 2300(c)(2). The Board will determine whether to grant confidential treatment requests on a case-by-case basis. If the Firm fails to include Exhibit 99.1, or includes an Exhibit 99.1 that fails to comply with Rule 2300(c)(2), the request for confidential treatment may be denied solely on the basis of that failure.

9. Assertions of Conflicts with Non-U.S. Law. If the Firm is a *foreign registered public accounting firm*, the Firm may, unless otherwise directed by the Board pursuant to Rule 2207(e), decline to provide certain information required by this Form if the Firm could not provide such information without violating non-U.S. law and the Firm proceeds in accordance with Rule 2207. The Firm may withhold responsive information on that basis from any Part of the Form other than Parts I, II, and VIII, and Items 7.1.a, 7.1.b, 7.1.c, and 7.2. If the firm withholds responsive information, the Firm must indicate, in accordance with the instructions in the relevant Part of the Form, the particular Items with respect to which the Firm has withheld responsive information. The Firm may not use the Form to make any general assertion that a particular requirement may conflict with non-U.S. law, but only to indicate that, on the basis of an asserted conflict, the Firm has in fact withheld from this Form required information.
10. Language. Information submitted as part of this Form, including any exhibit to this Form, must be in the English language.

## **PART I—IDENTITY OF THE FIRM**

### Item 1.1 Name of Firm

- a. State the legal name of the Firm.  
Note: If the Firm is filing this Form 3 to report that the Firm's legal name has changed, the name entered in Item 1.1.a should be the Firm's legal name before the name change that is being reported. The Firm's new name should be included in the response to Item 1.1.c.
- b. If different than its legal name, state the name or names under which the Firm issues *audit reports*.
- c. If the Firm is filing this Form 3 to report that the Firm's legal name has changed, state the new legal name of the Firm.

## **PART II—REASON FOR FILING THIS REPORT**

Indicate, by checking the relevant box(es) from among Items 2.1 through 2.18 below, the event(s) being reported on this Form. More than one event may be reported in the same Form 3 filing. For each event indicated below, proceed to the Parts and Items of this Form indicated parenthetically for the specific event being reported and provide the information therein described. Provide responses only to those Parts and Items of the Form specifically indicated for the event or events that the Firm identifies in this Part II as an event being reported on this Form. (For example, if the Form is being filed solely to report

that the Firm has changed its name, check the box for Item 2.17 in this Part of the Form, and complete only Item 7.1 and Part VIII of the Form.) If the Firm is filing this Form to amend a previous filing, the Firm also should complete Item 2.19.

Note: In Items 2.4 through 2.11 and Item 2.15, the reportable event is described in terms of whether the Firm "has become aware" of certain facts. For these purposes, the Firm is deemed to have become aware of the relevant facts on the date that any partner, shareholder, principal, owner, or member of the Firm first becomes aware of the facts.

### **Audit Reports**

- Item 2.1 The Firm has withdrawn an *audit report* on financial statements, or withdrawn its consent to the use of its name in a report, document, or written communication containing an *issuer's* financial statements, and the *issuer* has failed to comply with a *Commission* requirement to make a report concerning the matter pursuant to Item 4.02 of *Commission* Form 8-K. (Complete Item 3.1 and Part VIII.)
- Item 2.2 The Firm has issued *audit reports* with respect to more than 100 *issuers* in a calendar year immediately following a calendar year in which the Firm did not issue *audit reports* with respect to more than 100 *issuers*. (Complete Part VIII.)
- Item 2.3 The Firm has issued *audit reports* with respect to 100 or fewer *issuers* in a completed calendar year immediately following a calendar year in which the Firm issued *audit reports* with respect to more than 100 *issuers*. (Complete Part VIII.)

### **Certain Legal Proceedings**

- Item 2.4 The Firm has become aware that the Firm has become a defendant in a criminal proceeding prosecuted by a governmental criminal law enforcement authority. (Complete Item 4.1 and Part VIII.)
- Item 2.5 The Firm has become aware that, in a matter arising out of his or her conduct in the course of providing *audit services* or *other accounting services* to an *issuer*, a partner, shareholder, principal, owner, member, or *audit* manager of the Firm has become a defendant in a criminal proceeding prosecuted by a governmental criminal law enforcement authority. (Complete Item 4.1 and Part VIII.)
- Item 2.6 The Firm has become aware that a partner, shareholder, principal, owner, member, or *audit* manager of the Firm who provided at least ten hours of *audit services* for any *issuer* during the Firm's current fiscal year or its most recently completed fiscal year has become a defendant in a criminal proceeding prosecuted by a governmental criminal law enforcement authority and is charged with fraud, embezzlement, forgery, extortion, bribery, obstruction of justice, perjury, or false statements; or charged with any crime arising out of alleged conduct relating to accounting, auditing, securities, banking, commodities, taxation, consumer protection, or insurance. (Complete Item 4.1 and Part VIII.)
- Item 2.7 The Firm has become aware that, in a matter arising out of the Firm's conduct in the course of providing professional services for a client, the Firm has become a defendant or respondent in a civil or alternative dispute resolution proceeding initiated by a governmental entity or in an administrative or disciplinary proceeding

other than a *Board* disciplinary proceeding. (Complete Item 4.1 and Part VIII.)

- Item 2.8 The Firm has become aware that, in a matter arising out of his or her conduct in the course of providing *audit services* or *other accounting services* to an *issuer*, a partner, shareholder, principal, owner, member, or *audit* manager of the Firm has become a defendant or respondent in a civil or alternative dispute resolution proceeding initiated by a governmental entity or in an administrative or disciplinary proceeding other than a *Board* disciplinary proceeding. (Complete Item 4.1 and Part VIII.)
- Item 2.9 The Firm has become aware that, in a matter arising out of his or her conduct in the course of providing professional services for a client, a partner, shareholder, principal, owner, member, or *audit* manager of the Firm who provided at least ten hours of *audit services* for any *issuer* during the Firm's current fiscal year or its most recently completed fiscal year has become a defendant or respondent in a civil or alternative dispute resolution proceeding initiated by a governmental entity or in an administrative or disciplinary proceeding other than a *Board* disciplinary proceeding. (Complete Item 4.1 and Part VIII.)
- Item 2.10 The Firm has become aware that a proceeding meeting the criteria described in Items 2.4, 2.5, 2.6, 2.7, 2.8, or 2.9 above has been concluded as to the Firm or a partner, shareholder, principal, owner, member, or *audit* manager of the Firm (whether by dismissal, acceptance of pleas, through consents or settlement agreements, the entry of a final judgment, or otherwise). (Complete Item 4.2 and Part VIII.)
- Item 2.11 The Firm has become aware that the Firm, or the parent or a subsidiary of the Firm, has become the subject of a petition filed in a bankruptcy court, or has otherwise become the subject of a proceeding in which a court or governmental agency (or, in a non-U.S. jurisdiction, a person or entity performing a comparable function) has assumed jurisdiction over substantially all of the assets or business of the Firm or its parent or a subsidiary. (Complete Item 4.3 and Part VIII.)

### **Certain Relationships**

- Item 2.12 The Firm has taken on as an employee, partner, shareholder, principal, or member, or has otherwise become owned or partly owned by, a person who is currently the subject of (a) a *Board* disciplinary sanction suspending or barring the person from being an *associated person of a registered public accounting firm* or (b) a *Commission* order under Rule 102(e) of the *Commission's* Rules of Practice suspending or denying the privilege of appearing or practicing before the *Commission*. (Complete Item 5.1 and Part VIII.)
- Item 2.13 The Firm has become owned or partly owned by an entity that is currently the subject of (a) a *Board* disciplinary sanction suspending or revoking that entity's registration or disapproving that entity's application for registration, or (b) a *Commission* order under Rule 102(e) of the *Commission's* Rules of Practice suspending or denying the privilege of appearing or practicing before the *Commission*. (Complete Item 5.2 and Part VIII.)

- Item 2.14 The Firm has entered into a contractual or other arrangement to receive consulting or other professional services from a person or entity meeting any of the criteria described in Items 2.12 or 2.13 above. (Complete Item 5.3 and Part VIII.)

### **Licenses and Certifications**

- Item 2.15 The Firm has become aware that its authorization to engage in the business of auditing or accounting in a particular jurisdiction has ceased to be effective or has become subject to conditions or contingencies other than conditions or contingencies imposed on all firms engaged in the business of auditing or accounting in the jurisdiction. (Complete Item 6.1 and Part VIII.)
- Item 2.16 The Firm has obtained a license or certification authorizing the Firm to engage in the business of auditing or accounting and which has not been identified on any Form 1 or Form 3 previously filed by the Firm, or there has been a change in a license or certification number identified on a Form 1 or Form 3 previously filed by the Firm. (Complete Item 6.2 and Part VIII.)

### **Changes in the Firm or the Firm's Board Contact Person**

- Item 2.17 The Firm has changed its legal name while otherwise remaining the same legal entity that it was before the name change. (Complete Item 7.1 and Part VIII.)
- Item 2.18 There has been a change in the business mailing address, business telephone number, business facsimile number, or business e-mail of the person most recently designated by the Firm (on Form 2, Form 3, or Form 4) as the Firm's primary contact with the *Board*, or the Firm is designating a new person to serve as the primary contact. (Complete Item 7.2 and Part VIII.)

### **Amendment**

- Item 2.19 Amendments
- If this is an amendment to a report previously filed with the *Board*—
- a. Indicate, by checking the box corresponding to this item, that this is an amendment.
  - b. Identify the specific Item numbers of this Form (other than this Item 2.19) as to which the Firm's response has changed from that provided in the most recent Form 3 or amended Form 3 filed by the Firm with respect to the events reported on this Form.

## **PART III—WITHDRAWN AUDIT REPORTS**

### Item 3.1 Withdrawn *audit reports* and consents

If the Firm has withdrawn an *audit report* on financial statements, or withdrawn its consent to the use of its name in a report, document, or written communication containing an *issuer's* financial statements, and the *issuer* has failed to comply with a *Commission* requirement to make a report concerning the matter pursuant to Item 4.02 of *Commission* Form 8-K, provide—

- a. The *issuer's* name and CIK number, if any;
- b. The date(s) of the *audit report(s)* that the Firm has withdrawn, or to which the Firm's withdrawal of consent relates; and
- c. A description of the reason(s) the Firm has withdrawn the *audit report(s)* or the consent.

Note: The 30-day period in which the Firm must report the event does not begin to run unless and until the *issuer* fails to report on Form 8-K within the time required by the *Commission's* rules. The Firm must then report the event on Form 3 within 30 days of the expiration of the required Form 8-K filing deadline, unless, within that 30-day period, the *issuer* reports on a late-filed Form 8-K.

#### PART IV—CERTAIN PROCEEDINGS

##### Item 4.1 Criminal, Governmental, Administrative, or Disciplinary Proceedings

If the Firm has indicated in this Form 3 that any of the events described in Items 2.4, 2.5, 2.6, 2.7, 2.8 or 2.9 has occurred, provide the following information with respect to each such event—

- a. The name, filing date, and case or docket number of the proceeding, and the nature of the proceeding, *i.e.*, whether it is a criminal proceeding, a civil or alternative dispute resolution proceeding, or an administrative or disciplinary proceeding.
- b. The name of the court, tribunal, or body in or before which the proceeding was filed.
- c. An indication whether the Firm itself is a defendant or respondent in the proceeding and, if so, the statutes, rules, or legal duties that the firm is alleged to have violated, and a brief description of the firm's alleged conduct in violation of those statutes, rules, or legal duties.
- d. The names of every defendant or respondent who is a partner, shareholder, principal, owner, member, or *audit* manager of the Firm, or who was such either at the time the Firm received notice of the proceeding or at the time of the alleged conduct on which any claim or charge is based, and who provided at least ten hours of *audit services* for any *issuer* during the Firm's current fiscal year or its most recent fiscal year; and, as to each such defendant or respondent, the statutes, rules, or legal duties that he or she is alleged to have violated, and a brief description of his or her alleged conduct in violation of those statutes, rules, or legal duties.
- e. The name of any client that was the recipient of the professional services to which any claim or charge in the proceeding relates.

Note: For the purpose of this Part, administrative or disciplinary proceedings include those of the *Commission*; any other federal, *state*, or non-U.S. agency, board, or administrative or licensing authority; and any professional association or body. Investigations that have not resulted in the commencement of a proceeding need not be included.

##### Item 4.2 Concluded Criminal, Governmental, Administrative, or Disciplinary Proceedings

If any proceeding meeting the criteria described in Items 2.4, 2.5, 2.6, 2.7, 2.8 or 2.9, including any proceeding reported in Item 4.1, has been concluded as to the Firm or a partner, shareholder, principal, owner, member, or *audit* manager of the Firm (whether by dismissal, acceptance of pleas, through consents or settlement agreements, the entry of a final judgment, or otherwise), provide—

- a. The name, filing date, and case or docket number of the proceeding, and the nature of the proceeding, *i.e.*, whether it is a criminal proceeding, a civil or alternative dispute resolution proceeding, or an administrative or disciplinary proceeding;

- b. The name of the court, tribunal, or body in or before which the proceeding was filed; and
- c. A brief description of the terms of the conclusion of the proceeding as to the Firm or partner, shareholder, principal, owner, member, or *audit* manager.

#### Item 4.3 Bankruptcy or Receivership

If the Firm, or the parent or a subsidiary thereof, has become the subject of a petition filed in a bankruptcy court, or has otherwise become the subject of a proceeding in which a court or governmental agency (or, in a non-U.S. jurisdiction, a person or entity performing a comparable function) has assumed jurisdiction over substantially all of the assets or business of the Firm or its parent or a subsidiary, provide—

- a. the name of the proceeding;
- b. the name of the court or governmental body;
- c. the date of the filing or of the assumption of jurisdiction; and
- d. the identity of the receiver, fiscal agent or similar officer, if applicable, and the date of his or her appointment.

### PART V—CERTAIN RELATIONSHIPS

#### Item 5.1 New Relationship with Person Subject to Bar or Suspension

If the Firm has taken on as an employee, partner, shareholder, principal, or member, or has otherwise become owned or partly owned by, a person who is currently the subject of (a) a *Board* disciplinary sanction suspending or barring the person from being an *associated person of a registered public accounting firm* or (b) a *Commission* order under Rule 102(e) of the *Commission's* Rules of Practice suspending or denying the privilege of appearing or practicing before the *Commission*, provide—

- a. the name of the person;
- b. the nature of the person's relationship with the Firm; and
- c. the date on which the person's relationship with the Firm began.

#### Item 5.2 New Ownership Interest by Firm Subject to Bar or Suspension

If the Firm has become owned or partly owned by an entity that is currently the subject of (a) a *Board* disciplinary sanction suspending or revoking that entity's registration or disapproving that entity's application for registration, or (b) a *Commission* order under Rule 102(e) of the *Commission's* Rules of Practice suspending or denying the privilege of appearing or practicing before the *Commission*, provide—

- a. the name of the entity that has obtained an ownership interest in the Firm;
- b. the nature and extent of the ownership interest; and
- c. the date on which the ownership interest was obtained.

#### Item 5.3 Certain Arrangements to Receive Consulting or Other Professional Services

If the Firm has entered into a contractual or other arrangement to receive consulting or other professional services from a person or entity meeting any of the criteria described in Items 2.12 or 2.13 above, provide—

- a. the name of the person or entity;
- b. the date that the Firm entered into the contract or other arrangement; and

- c. a description of the services to be provided to the Firm by the person or entity.

#### **PART VI—LICENSES AND CERTIFICATIONS**

##### **Item 6.1 Loss of, or Limitations Imposed on, Authorization to Engage in the Business of Auditing or Accounting**

If the Firm's authorization to engage in the business of auditing or accounting in a particular jurisdiction has ceased to be effective or has become subject to conditions or contingencies other than conditions or contingencies imposed on all firms engaged in the business of auditing or accounting in the jurisdiction, provide—

- a. the name of the *state*, agency, board or other authority that had issued the license or certification related to such authorization;
- b. the number of the license or certification;
- c. the date that the authorization ceased to be effective or became subject to conditions or contingencies, and
- d. a brief description of the reason(s) for such action, including a description of the conditions or contingencies, if any.

##### **Item 6.2 New License or Certification**

If the Firm has obtained any license or certification authorizing the Firm to engage in the business of auditing or accounting, and which has not been identified on any Form 1 or Form 3 previously filed by the Firm, or there has been a change in any license or certification number identified on a Form 1 or Form 3 previously filed by the Firm, provide—

- a. the name of the issuing *state*, agency, board or other authority;
- b. the number of the license or certification;
- c. the date the license or certification took effect; and
- d. if the license or certification replaces another license or certification issued by the same authority, the number of the replaced license or certification.

Note: If the Firm is filing a Form 4 to report a change in its form of organization, change in jurisdiction, or a business combination, the Firm should report on Form 4, rather than Form 3, any related license change that takes effect before the submission of the Form 4.

#### **PART VII—CHANGES IN THE FIRM OR THE FIRM'S BOARD CONTACT PERSON**

##### **Item 7.1 Change in Name of Firm**

If the Firm is reporting a change in its legal name—

- a. State the new legal name of the Firm;
- b. State the legal name of the Firm immediately preceding the new legal name;
- c. State the effective date of the name change;
- d. Provide a brief description of the reason(s) for the change; and
- e. Affirm, by checking the box corresponding to this Item, that, other than the name change, the Firm is the same legal entity that it was before the name change.

Note: If, other than the name change, the Firm is not the same legal entity that it was before the name change, whether because of a change in the Firm's legal form of organization or because of other transactions, the registration status of the predecessor firm does not automatically attach to the Firm, and the Firm cannot report the event as a name change. If the Firm cannot make the affirmation required by Item 7.1.e, the Firm cannot execute the certification in Part VIII as to Item 7.1, and this Form cannot be deemed filed under Rule 2206.

In that event, the Firm should consider whether, pursuant to the provisions of Rule 2108, the Firm can make the representations required in a Form 4 filing to enable the predecessor firm's registration to attach to the Firm. If the Firm cannot or does not file with the *Board* a Form 4 making all necessary representations, the predecessor firm's registration does not attach to the Firm. In those circumstances, the Firm may not lawfully prepare or issue an *audit report* without first filing an application for registration on Form 1 and having that application approved by the *Board*.

Note: If the Firm is filing a Form 4 to report a change in its form of organization, change in jurisdiction, or a business combination, the Firm should report any related name change on Form 4 and not on Form 3.

#### Item 7.2 Change in Contact Information

If there has been a change in the business mailing address, business telephone number, business facsimile number, or business e-mail address of the person most recently designated by the Firm (on Form 2, Form 3, or Form 4) as the Firm's primary contact with the *Board*, or if the Firm is designating a new person to serve as the primary contact, provide the name and current business mailing address, business telephone number, business facsimile number, and business e-mail of the partner or authorized officer of the Firm who will serve as the Firm's primary contact with the *Board*.

### **PART VIII—CERTIFICATION OF THE FIRM**

#### Item 8.1 Signature of Partner or Authorized Officer

This Form must be signed on behalf of the Firm by an authorized partner or officer of the Firm including, in accordance with Rule 2204, both a signature that appears in typed form within the electronic submission and a corresponding manual signature retained by the Firm. The signer must certify that—

- a. the signer is authorized to sign this Form on behalf of the Firm;
- b. the signer has reviewed this Form;
- c. based on the signer's knowledge, this Form does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading; and
- d. either—
  1. based on the signer's knowledge, the Firm has not failed to include in this Form any information or affirmation that is required by the instructions to this Form, with respect to the event or events being reported on this Form, or
  2. based on the signer's knowledge—

- (A) the Firm is a *foreign registered public accounting firm* and has not failed to include in this Form any information or affirmation that is required by the instructions to this Form, with respect to the event or events being reported on this Form, except for information or affirmations that the Firm asserts it cannot provide to the *Board* on this Form 3 without violating non-U.S. law;
- (B) with respect to any such withheld information or affirmation, the Firm has made the efforts required by PCAOB Rule 2207(b) and has in its possession the materials required by PCAOB Rule 2207(c); and
- (C) the Firm has indicated, in accordance with the instructions to this Form, each Item of this Form with respect to which the Firm has withheld any required information.

The signature must be accompanied by the signer's title, the capacity in which the signer signed the Form, the date of signature, and the signer's business mailing address, business telephone number, business facsimile number, and business e-mail address.

#### **PART IX—EXHIBITS**

To the extent applicable under the foregoing instructions, each special report must be accompanied by the following exhibits:

Exhibit 99.1 Request for Confidential Treatment

Exhibit 99.3 Materials Required by Rule 2207(c)(2)-(4)—*Submit Only as an Exhibit to an Amended Form 3 in Response to a Request Made Pursuant to Rule 2207(d)*

---

## PCAOB Release No. 2009-004

# ***Auditing Standard No. 7, Engagement Quality Review, and Conforming Amendment to the Boards Interim Quality Control Standards***

PCAOB Release No. 2009-004

July 28, 2009

PCAOB Rulemaking  
Docket Matter No. 025

## **Summary**

After public comment, the Public Company Accounting Oversight Board (the "Board" or "PCAOB") is adopting an auditing standard, *Engagement Quality Review*, that will be applicable to all registered firms and will supersede the Board's interim concurring partner review requirement, and a conforming amendment to the Board's interim quality control standards.

## **Board Contacts**

Gregory Scates, Deputy Chief Auditor (202/207-9114; [scatesg@pcaobus.org](mailto:scatesg@pcaobus.org)) and Dima Andriyenko, Associate Chief Auditor (202/207-9130; [andriyenkod@pcaobus.org](mailto:andriyenkod@pcaobus.org))

\* \* \* \* \*

## **I. Introduction**

Section 103 of the Sarbanes-Oxley Act (the "Act") directs the Board, among other things, to set standards for public company audits, including a requirement or each registered public accounting firm to "provide a concurring or second partner review and approval of [each] audit report (and other related information), and concurring approval in its issuance . . ." A well-performed engagement quality review ("EQR") can serve as an important safeguard against erroneous or insufficiently supported audit opinions and, accordingly, can contribute to audit quality. In February 2008, the Board proposed to replace its interim requirement with a new EQR standard.<sup>1</sup> The Board's original proposal was developed in response, among other things, to feedback from some members of its Standing Advisory Group ("SAG") that the existing interim requirements<sup>2</sup>

---

<sup>1</sup> PCAOB Release No. 2008-002, Proposed Auditing Standard—*Engagement Quality Review and Conforming Amendment to the Board's Interim Quality Control Standards* (February 26, 2008) (the "original proposal").

<sup>2</sup> The Securities and Exchange Commission Practice Section ("SECPS") of the American Institute of Certified Public Accountants ("AICPA") Requirements of Membership Sections 1000.08(f); 1000.39, Appendix E.

(the "existing requirements") do not provide for a sufficiently thorough review to give investors assurance on the quality of engagements. The proposal was intended to enhance the quality of the EQR by strengthening the existing requirements.

Commenters recommended significant modifications to the original proposal, and, in response, the Board made changes designed to better tailor the standard to its purposes.<sup>3</sup> Because of the extent of those changes, the Board again sought public comment, this time on the standard as revised. The Board has considered those comments, as well as the input of the SAG, and the final standard ("AS No. 7" or the "EQR standard") has benefitted from the additional public input.<sup>4</sup>

The EQR standard the Board is adopting provides for a rigorous review that will serve as a meaningful check on the work performed by the engagement team. AS No. 7 should increase the likelihood that a registered public accounting firm will catch any significant engagement deficiencies before it issues its audit report. As a result, the Board recognizes that more work may be necessary under the EQR standard than was performed in some concurring reviews under the existing requirements.

At the same time, the Board has been sensitive to commenters' concerns and agrees that the EQR should not become, in effect, a second audit. Instead, the EQR should be—and, as described in AS No. 7, is—a review of work already performed by the engagement team. The EQR standard requires the engagement quality reviewer (or the "reviewer") to evaluate the significant judgments made and related conclusions reached by the engagement team in forming the overall conclusion on the engagement and in preparing the engagement report, and requires certain procedures designed to focus the reviewer on those judgments and conclusions.

The procedures required of the reviewer by AS No. 7 are different in nature from the procedures required of the engagement team. Unlike the engagement team, a reviewer does not perform substantive procedures or obtain sufficient evidence to support an opinion on the financial statements or internal control over financial reporting. If more audit work is necessary before the reviewer may provide concurring approval of issuance, the engagement team—not the reviewer—is responsible under PCAOB standards for performing the work. In contrast, the reviewer fulfills his or her responsibility to perform an effective review of the engagement under the EQR standard by holding discussions with the engagement team, reviewing documentation, and determining whether he or she can provide concurring approval of issuance.

## II. Overview of Auditing Standard No. 7

Overall, commenters preferred the repropoed standard to the original proposal, though some continued to believe that certain provisions were unclear and suggested certain changes to the standard. After considering commenters' feedback, the Board has made several modifications to the EQR standard to

---

<sup>3</sup> Comments on the original proposal and the Board's responses are described in PCAOB Release No. 2009-001, Proposed Auditing Standard—*Engagement Quality Review* (March 4, 2009) (the "reproposing release").

<sup>4</sup> The Board received 38 comments on the original proposal and 30 comments on the reproposal. The SAG discussed the repropoed standard on April 2, 2009. A transcript of that discussion is available on the Board's website at [http://pcaobus.org/Rules/Rulemaking/Docket%2025/2009-04-02\\_EQR\\_SAG\\_Transcript.pdf](http://pcaobus.org/Rules/Rulemaking/Docket%2025/2009-04-02_EQR_SAG_Transcript.pdf). The SAG also discussed EQR on June 22, 2004 and October 5, 2005. Archived webcasts are available on the Board's website at <http://pcaobus.org/News/Webcasts/Pages/default.aspx>.

provide additional clarity. This section describes the comments received, the Board's response, and changes made in AS No. 7.<sup>5</sup>

## A. Applicability of the EQR Requirement

Paragraph 1 of the repropoed standard required an EQR for audit engagements and reviews of interim financial information ("interim reviews"), but not for other engagements performed according to the standards of the PCAOB. For the most part, commenters believed that this provision was appropriate.<sup>6</sup> One commenter, however, suggested including the EQR requirements for interim reviews in AU section ("sec.") 722, *Interim Financial Information*, instead of including them as part of the EQR standard to "make it clear that the scope of the procedures performed remain under the umbrella of the objective of a review of interim financial information (which is much different than the scope and objective of an audit)." Because the requirements for the EQR of interim reviews in AS No. 7 are closely related to and described by reference to the requirements for the EQR of an audit, the Board believes it is more appropriate to locate both sets of requirements in the same standard. Accordingly, the Board is adopting the provisions regarding applicability of the EQR standard as repropoed.

## B. Statement of Objective

The repropoed standard included a statement of objective intended to focus reviewers on the overall purpose of the standard as they carry out the more specific EQR requirements. As repropoed, the objective of the engagement quality reviewer was "to perform an evaluation of the significant judgments made by the engagement team and the conclusions reached in forming the overall conclusion on the engagement and in preparing the engagement report, if a report is to be issued, in order to determine whether to provide concurring approval of issuance."

Most commenters agreed that the EQR standard should include a statement of objective. While some believed the objective was appropriate as repropoed, several suggested substituting the phrase "related conclusions reached" for "the conclusions reached" to indicate that the reviewer is required to evaluate conclusions relating to significant judgments, rather than all conclusions. In addition, some commenters suggested making the objective less vague, while others wanted the Board to broaden it or make it less procedural.

After considering these comments, the Board has, as suggested by commenters, revised the objective so that it refers to "significant judgments made by the engagement team<sup>7</sup> and the *related* conclusions reached . . ." (emphasis added). This change should help reviewers maintain their focus on areas of the engagement that are most likely to contain a significant engagement deficiency. With

---

<sup>5</sup> The Board received some comments related to its standard-setting process in general. The Board continuously endeavors to improve its processes, including its standard-setting process, and is considering these comments as it does so.

<sup>6</sup> One commenter did not believe that an EQR should be required for interim reviews because of concerns about the scope of the EQR for interim reviews. The section entitled *Specifically Required Procedures in the EQR of an Interim Review* of this release discusses the EQR requirements for interim reviews.

<sup>7</sup> Because the engagement partner has final responsibility for the engagement, he or she has final responsibility for the significant judgments made during the engagement, notwithstanding any involvement in or responsibility for those judgments by firm personnel outside of the engagement team, such as members of the firm's national office. Accordingly the "significant judgments made by the engagement team" include all of the significant judgments made during the engagement.

this revision, the Board believes the statement of objective establishes, at the appropriate level of detail, a framework for the performance of the EQR that is consistent with the specific requirements in AS No. 7. Corresponding changes have been made in paragraphs 9 and 14, which describe the scope of the EQR for audits and interim reviews, respectively. The reviewer achieves his or her objective by complying with the specific requirements of the standard.

### **C. Qualifications of the Engagement Quality Reviewer**

In order to provide for a high-quality EQR, the reproposed standard described the qualifications that any reviewer would be required to meet. These provisions were designed to provide assurance that the reviewer could effectively perform an EQR of the particular engagement under review. At the same time, the provisions recognized that smaller firms may have few partners—and, in the case of sole practitioners, no additional partners—available in-house to perform the EQR.

Accordingly, the reproposed standard required an engagement quality reviewer from within the firm issuing the engagement report to be a partner or another individual in an equivalent position, but also allowed a qualified individual from outside the firm to perform the EQR. In either event, the reproposed standard required the reviewer to be an associated person<sup>8</sup> of a registered public accounting firm.<sup>9</sup> The reproposed standard also included a general competence requirement and requirements related to the reviewer's independence, integrity, and objectivity.

#### ***In-House Reviewer: Partner or an Individual in an Equivalent Position***

The requirement in the reproposed standard for a reviewer from within the firm to be a partner or an individual in an equivalent position was intended to address concerns expressed by some commenters on the original proposal about the authority of the engagement quality reviewer relative to that of the engagement partner. Because the EQR is intended to be an objective second look at work performed by the engagement team, the reviewer should be able to withstand pressure from the engagement partner or other firm personnel, such as members of the firm's national office. As described in the reproposing release, the Board believed that concerns about authority will most often arise when the reviewer and the engagement partner work at the same firm. The Board also believed that a standard based on perceptions of relative authority within a firm would not be sufficiently clear to be workable. Accordingly, the Board attempted to address these concerns with a requirement that an in-house reviewer—but not one from outside the firm—be a partner or person in an equivalent position.

---

<sup>8</sup> For clarity, in paragraph 3 of AS No. 7, the Board added a reference to Rule1001(p)(i), which defines the term "associated person of a registered public accounting firm." A person not already associated with a registered firm can enter into a relationship with the firm issuing the report such that the person would become associated with that firm by performing the review. Specifically, a person not already associated with a firm would become associated with the firm issuing the report if *he or she* (rather than, or in addition to, his or her firm or other employer): (1) receives compensation from the firm issuing the report for performing the review or (2) performs the review as agent for the firm issuing the report. For example, if the firm issuing the report contracts directly with an employee of an unregistered accounting firm to perform the engagement quality review, that person would become associated with the firm issuing the report by virtue of that independent contractor relationship.

<sup>9</sup> A registered public accounting firm has an obligation to secure and enforce consents to cooperate with the Board from each associated person of the firm, see Section 102(b)(3) of the Act, including those who become associated with the firm by performing the review. The Board also may directly sanction any such person who fails to cooperate in an investigation or inspection. See Section 105(b)(3) of the Act and PCAOB Rules 5110 and 4006.

While some commenters supported the repropose requirement, others disagreed with it, generally because, in their view, being a partner or person in an equivalent position would not necessarily ensure that the reviewer possesses the qualities required to perform the EQR. These commenters noted that partners as well as non-partners may be subject to internal pressure within the firm to provide concurring approval of issuance. In addition, in one commenter's view, it would be burdensome for one-partner firms to hire an outside reviewer to comply with this requirement. Finally, some commenters also asked the Board to define the term "equivalent position."

While both partners and non-partners may experience pressure within the firm to provide concurring approval of issuance, the Board continues to believe that the repropose requirement is the most appropriate way to address this issue. Partnership is not a perfect proxy for authority, but a partner is more likely to possess sufficient authority to conduct the EQR than a non-partner. The Board continues to believe that a requirement based on perceptions of authority would not be workable. Accordingly, the Board is adopting this requirement substantially as repropose.<sup>10</sup> At a firm that is not organized as a partnership, "an individual in an equivalent position" is someone with the degree of authority and responsibility of a partner in a firm that is organized as a partnership.

### ***Qualified Reviewer from Outside the Firm***

As noted above, the repropose standard also allowed a qualified reviewer from outside the firm to conduct the review. In the repropose release, the Board expressed the view that allowing a sufficiently qualified professor or other individual not employed by an accounting firm to perform the EQR should not negatively affect audit quality and may mitigate the compliance burden on sole practitioners and smaller firms. The Board sought comment on whether a qualified accountant who is not employed by an accounting firm should be allowed to conduct the EQR.<sup>11</sup>

The majority of commenters on this topic did not oppose the repropose provision. Some commenters, however, cautioned that reviewers from outside an accounting firm may not necessarily have the required technical expertise or recent audit experience. One commenter believed that allowing the use of such outside reviewers could "hamper the existing independence rules,"<sup>12</sup> increase costs, and limit the potential growth of partners.

After considering these comments, the Board continues to believe that the EQR standard can—and should—allow firms the proposed flexibility in choosing a reviewer, provided that reviewer meets the competence and other qualification requirements. According to these requirements, as discussed below, any reviewer would have to have the level of knowledge and competence related to accounting, auditing, and financial reporting required to serve as the person who has overall responsibility for the engagement under review. Accordingly, while some persons from outside a firm might not have the required qualifications, those who do can effectively perform the EQR.<sup>13</sup>

---

<sup>10</sup> One commenter suggested that the phrasing of the repropose standard did not establish a requirement for the in-house reviewer to be a partner because it stated that the reviewer "may be" a partner, a person in an equivalent position, or an individual outside the firm. While the use of "may" in that context imposed a requirement, to avoid any confusion on this point the Board has rephrased the requirement in paragraph 3 of AS No. 7 to use the word "must."

<sup>11</sup> As noted in the repropose release, under the existing requirement a firm may seek a waiver to engage an outside experienced individual to perform the EQR. Because AS No. 7 allows a firm to use an outside reviewer, such a waiver is not necessary under AS No. 7.

<sup>12</sup> The comment did not explain how the independence rules would be hampered.

<sup>13</sup> Similarly, a reviewer does not meet all of the qualification requirements in AS No. 7 by virtue of his or her status as a partner or employee of an accounting firm.

The Board also does not agree that allowing the use of a reviewer from outside the firm issuing the report would negatively affect the application or enforcement of the independence rules. As the Board noted in the reproposing release, it will continue to consider anyone who performs the EQR to be an "audit partner" and a member of the "audit engagement team" for purposes of independence requirements.<sup>14</sup> In addition, because AS No. 7 would not require a firm to use an outside reviewer, allowing a firm to do so should not increase costs or limit the potential growth of partners. Any firm that is concerned that invoking the flexibility provided by the EQR standard would raise its costs or impede the development of its partners could, simply, decline to do so and use a reviewer from within the firm if one is available.

When considering an outside individual for the role of the engagement quality reviewer, the firm will likely need to make additional inquiries to obtain necessary information about the individual's qualifications. For example, while information about independence of the firm's partners is typically collected and evaluated as part of the periodic independence review, information about the independence of an outside reviewer will likely need to be requested and evaluated as part of the reviewer selection process. Firms also likely know more about the competence of their own partners than of an outside reviewer.

### ***General Competence Requirement***

As noted above, the reproposed standard, like the original proposal, included a requirement for the reviewer to "possess the level of knowledge and competence related to accounting, auditing, and financial reporting required to serve as the person who has overall responsibility for the same type of engagement." This provision was intended to set a minimum requirement for those who would perform the EQR. In response to comments on the original proposal, the reproposing release explained that this provision, by its terms, did not require the engagement quality reviewer's knowledge and competence to match those of the engagement partner, or for the reviewer to be a "clone" of the engagement partner.<sup>15</sup>

Some commenters reiterated their concerns that the engagement quality reviewer's skills would be expected to match those of the engagement partner, and that such a requirement could cause resource constraints for smaller firms. Other commenters suggested modifying the general competence provision by stating that the reviewer's competence should be established based on the facts and circumstances of the engagement, or describing the required qualifications from the reviewer's perspective, rather than by comparing them to the qualifications of the engagement partner. Finally, some commenters suggested including in the EQR standard a statement that the reviewer may obtain the required level of knowledge and competence through utilizing assistants.

The Board continues to believe that if a minimum level of knowledge and competence in accounting, auditing, and financial reporting is required to conduct an audit, it is similarly necessary to effectively review that audit.<sup>16</sup> The reviewer is

---

<sup>14</sup> See Rule 2-01(f) of Regulation S-X, 17 C.F.R. 210.2-01(f), for the definitions of "audit partner" and "audit engagement team."

<sup>15</sup> Specifically, the reproposing release noted:

The general competence provision merely sets a minimum requirement for those who would perform the EQR, but it does not require the reviewer's competence to match that of the engagement partner. In many cases, both individuals' competence will exceed the minimum level prescribed, but there is no requirement that they do so in tandem, or even at all.

<sup>16</sup> While a reviewer may use assistants in performing the EQR, the reviewer's own skills should meet the requirements of AS No. 7.

not required to possess other competencies, e.g., those related to communication or management skills, that the engagement partner may have.

Accordingly, the Board is adopting the general competence provision substantially as proposed. The Board is, however, modifying the requirement to clarify further that the determination of what constitutes the appropriate level of knowledge and competence should be based on the circumstances of the engagement, including the size and complexity of the business under audit or under interim review.<sup>17</sup> In AS No. 7, the Board replaced the phrase "the same type of engagement" with "the engagement." The new phrasing focuses the reviewer on the particular engagement under review, rather than that "type" of engagement.<sup>18</sup> Firms that do not have partners that meet this general competence requirement available to perform the EQR may engage an outside reviewer to perform an EQR.

### ***Independence, Integrity, and Objectivity***

Like the original proposal, the repropoed standard required the reviewer to be independent of the company, perform the review with integrity, and maintain objectivity. Comments on the repropoal focused on two provisions regarding objectivity—the prohibition against the reviewer supervising the engagement team and the two-year "cooling-off" period before the engagement partner could perform the EQR.

### ***Supervision of the Engagement Team***

The repropoed standard provided that to maintain objectivity the engagement quality reviewer should not, among other things, "supervise the engagement team with respect to the engagement subject to the engagement quality review." The phrase "subject to the engagement quality review" was intended to clarify that partners with leadership responsibilities in a firm, region, service, or industry practice are not, solely because of those responsibilities, precluded from reviewing any engagement performed by their subordinates in the firm. Some commenters believed that the phrase "subject to the engagement quality review" was not sufficient to clarify this point.

After considering these comments, the Board has decided that the express prohibition against "supervis[ing] the engagement team with respect to the engagement subject to the engagement quality review" is not necessary to effectuate the Board's intent. The remaining two criteria for maintaining objectivity in paragraph 7 of AS No. 7—not making decisions on behalf of the engagement team and not assuming any responsibilities of the engagement team—are sufficient to preclude those involved in the engagement from serving as the engagement quality reviewer.<sup>19</sup> For example, partners (including the engagement

---

<sup>17</sup> Footnote 18 on page 9 of the original release stated, "The determination of what constitutes the appropriate level of knowledge and competence should be based on the circumstances of the engagement, including the size or complexity of the business."

<sup>18</sup> In addition, to simplify the text of AS No. 7, the Board replaced the phrase "person with overall responsibility for the engagement" with the term "engagement partner." Footnote 3 of AS No. 7 explains that the term "engagement partner" has the same meaning as the phrases the "auditor with final responsibility for the audit," as described in AU sec. 311, *Planning and Supervision*, and the "practitioner-in-charge of an engagement," as described in PCAOB interim quality control standard QC sec. 40, *The Personnel Management Element of a Firm's System of Quality Control-Competencies Required by a Practitioner-in-Charge of an Attest Engagement*. Because all of these terms refer to the same person, this change does not alter the meaning of the EQR standard.

<sup>19</sup> AS No. 7 does not prohibit the engagement team from consulting with the reviewer, as long as the reviewer maintains his or her objectivity in accordance with paragraph 7. As noted in the repropoing release, such consultations may contribute to audit quality. In addition, one commenter

(continued)

partner and other partners on larger engagements), managers, and others who supervise engagement personnel on the audit under review would not qualify under the remaining criteria because they have assumed responsibilities of the engagement team. At the same time, removing the phrase "supervise the engagement team" from AS No. 7 should further clarify that those in leadership positions in the firm who did not make decisions for or assume responsibilities of the engagement team may perform the EQR.

### ***The Two-Year "Cooling-Off" Period***

The reproposed standard included a provision prohibiting an engagement partner from serving as the engagement quality reviewer for at least two years following his or her last year as the engagement partner.<sup>20</sup> The Board included the "cooling-off" period because it believed that it would be harder for an engagement partner who has had overall responsibility for the audit for at least a year to perform the review with the necessary level of objectivity. While a number of commenters expressed general support for a two-year "cooling-off" period, some believed that it could impose an undue hardship on smaller firms, and suggested a shorter "cooling-off" period.

After considering these comments, the Board continues to believe that a "cooling-off" period will be beneficial to audit quality and that a two-year period appropriately safeguards objectivity without imposing unnecessary hardship on most firms. At the same time, the Board recognizes that compliance with this requirement could be difficult for smaller firms with fewer personnel. In its independence rules, the Securities and Exchange Commission ("SEC") exempted certain smaller firms from the audit partner rotation requirements. Specifically, Rule 2-01(c)(6)(ii) of Regulation S-X provides an exemption for firms with fewer than five issuer audit clients and fewer than ten partners, provided the Board "conducts a review at least once every three years of each of the audit client engagements that would result in a lack of auditor independence under" the SEC partner rotation requirements. The Board believes that this exemption—including the provision regarding Board inspections—also describes an appropriate exemption from the "cooling-off" requirement in the EQR standard. Accordingly, firms that qualify for the exemption from the SEC partner rotation requirements will also be exempt from the "cooling-off" period under AS No. 7.

## **D. EQR Process**

The Board's goal in proposing an EQR standard was to strengthen the existing requirements for concurring reviews in order to promote a more meaningful review of the work performed by the engagement team. Accordingly, the original proposal described certain procedures that the reviewer was required to

---

*(footnote continued)*

asked the Board to clarify whether a reviewer may consult with the same personnel who previously consulted with the engagement team. The EQR standard does not prohibit the reviewer from holding discussions with such personnel. The reviewer may not, however, use personnel who previously consulted with the engagement team as assistants in performing the review unless they meet the objectivity and other qualification requirements of AS No. 7. To emphasize the requirement that assistants maintain objectivity, the Board added to paragraph 7 of AS No. 7 the phrase "and others who assist the reviewer."

<sup>20</sup> SEC independence rules allow engagement partners and concurring partners to serve for five consecutive years, after which they may not serve in either role for another period of five years. Within a five-year period, SEC independence rules do not impose a "cooling-off" period before the engagement partner can serve as the concurring partner. See Rule 2 - 01(c)(6)(i)(A) of Regulation S-X.

perform that were more specific than those in the existing requirements. In response to comments received on the original proposal, the Board clarified some of the specifically required procedures and included, in a separate section in the repropoed standard, tailored requirements for an EQR of an interim review.

In general, commenters believed that the repropoed standard described the requirements of the EQR more clearly than the original proposal. However, a number of commenters suggested additional modifications that, in their view, would further clarify the Board's intent and ensure consistency of the requirements with the statement of objective. As described below, after considering these comments, the Board has modified certain of these requirements.

### **Terminology Used to Describe the Required Procedures**

Several commenters noted that the specifically required procedures in paragraphs 9, 10, 14, and 15 of the repropoed standard were described using different, but in some cases similar, terms such as "determine," "evaluate," "identify," "read," and "review," which some commenters found confusing. In one commenter's view, the terms "determine," "identify," and "evaluate" may require the reviewer to perform procedures that are similar in scope to the procedures performed by the engagement partner. The commenters asked the Board to clarify the terminology in these sections of the EQR standard.

While the Board does not believe that this terminology required the reviewer to perform procedures that are appropriately performed by the engagement partner, it does agree that the terminology should not be confusing. Accordingly, the Board reduced the number of terms used in AS No. 7, so that the required procedures in paragraphs 9, 10, 14, and 15 are described using two terms, "evaluate" and "review"—with one exception. Because AU sec. 550, *Other Information in Documents Containing Audited Financial Statements*, requires the auditor to read other information in documents containing the financial statements to be filed with the SEC, paragraphs 10.g and 15.e of AS No. 7, like in the original and repropoed standards, also require the reviewer to read such other information and evaluate whether the engagement team has taken appropriate action with respect to any material inconsistencies with the financial statements or interim financial information, respectively, or material misstatements of fact of which the engagement quality reviewer is aware.

### **Review of Documentation**

A number of commenters viewed the statement in paragraphs 9 and 14 of the repropoed standard that "the reviewer should perform the procedures . . . by reviewing documentation" as too open-ended.<sup>21</sup> Commenters were concerned that this provision could be interpreted to require the review of all of the engagement documentation.

The Board did not intend to require—and the repropoed provision did not require—the reviewer to review all of the engagement documentation. Nevertheless, to clarify this point, the Board has added the phrase "to the extent necessary to satisfy the requirements" of paragraphs 10 and 11, in an EQR of an audit, and 15 and 16, in an EQR of an interim review. As a practical matter, the reviewer cannot comply with the requirements of the EQR standard without holding discussions with the engagement partner and reviewing documentation. AS No. 7 requires the reviewer to hold sufficient discussions with the engagement partner and other members of the engagement team and

---

<sup>21</sup> That statement was intended, along with other changes in the repropoed standard, to clarify that the EQR is a review of the engagement team's work rather than a second audit. See page 17 of the repropoing release.

review sufficient documentation to perform the required procedures with due professional care. What is sufficient will necessarily depend on the facts and circumstances of the particular engagement under review. Auditors often document their significant judgments and conclusions in various summary documents, which could serve as a starting point for the reviewer's evaluation of the engagement team's work.

Paragraph 11 of the repropoed standard required the reviewer, in an EQR of an audit, to evaluate whether the engagement documentation that he or she reviewed when performing the procedures required by paragraph 10 indicates that the engagement team responded appropriately to significant risks and supports the conclusions reached by the engagement team with respect to the matters reviewed. One commenter suggested adding a requirement to paragraph 11 to evaluate engagement documentation for compliance with the requirements of Auditing Standard No. 3, *Audit Documentation* ("AS No. 3"). The Board originally proposed such a requirement but, in response to comments, did not include it in the repropoed standard.<sup>22</sup> The Board continues to believe that the documentation review requirements of paragraph 11 of the repropoed standard are appropriate and is adopting them as repropoed.

In an EQR of an interim review, paragraph 16 of the repropoed standard required the reviewer to evaluate whether the engagement documentation that he or she reviewed "[i]ndicates that the engagement team responded appropriately to significant risks," and "[s]upports the conclusions reached by the engagement team with respect to the matters reviewed." Some commenters noted that the auditor is not required to identify significant risks in a review of interim financial information and suggested not including a corresponding requirement in the EQR standard. The Board agrees and has not included this requirement in AS No. 7.

### ***Specifically Required Procedures in the EQR of an Audit***

Like the original proposal, the repropoed standard required certain procedures designed to give the reviewer the necessary information to evaluate the engagement team's significant judgments and conclusions. In response to comments on the original proposal, the Board made changes to these provisions in the repropoed standard that were intended to clarify that the reviewer performs the EQR by reviewing the engagement team's work, rather than by auditing the company himself or herself. Some commenters suggested that the specifically required procedures in the repropoed standard needed additional clarification.

In the view of several commenters, the repropoed standard did not clearly articulate the requirement for the reviewer to focus on the significant judgments made and the related conclusions reached by the engagement team. These commenters believed that the repropoed standard might be interpreted as requiring the review of all of the engagement team's judgments and conclusions. In response, AS No. 7 refers to "significant judgments" instead of "judgments" in describing certain of the required procedures.

The Board also clarified the wording of paragraph 10.b of the repropoed standard, which required the reviewer to "evaluate the risk assessments and audit responses . . ." Some commenters expressed concern that this formulation required a review of audit responses for all areas of the audit. In response, AS No. 7 more specifically requires the reviewer to evaluate the engagement team's audit responses to significant risks identified by the engagement team and other significant risks identified by the engagement quality reviewer through

---

<sup>22</sup> Commenters suggested that such a requirement would duplicate the documentation review performed by the engagement partner.

performance of the procedures required by the EQR standard.<sup>23</sup> This change should help focus reviewers on areas of the audit that are more likely to contain a significant engagement deficiency.

Some commenters also expressed concern about the requirements in paragraphs 10.e and 10.f of the repropoed standard to determine whether appropriate matters have been communicated to the audit committee, management, and others; and to determine whether appropriate consultations have taken place on difficult or contentious matters. According to these commenters, a requirement to determine whether all of the communications or consultations have taken place rather than to evaluate the engagement team's communications and consultations was inconsistent with the objective of the EQR. In response, the Board replaced the phrase "determine if" with "based on the procedures required by this standard, evaluate whether." This change should tailor the specific requirements more closely to the overall objective. The Board also placed these paragraphs after the other required procedures in paragraph 10 to emphasize that the reviewer performs the evaluation required by these paragraphs based on the information obtained through the other procedures required by the EQR standard, and made a corresponding change in paragraph 15 for the EQR of an interim review.

### ***Specifically Required Procedures in the EQR of an Interim Review***

In response to comments on the original proposal, the Board included in the repropoed standard separate requirements for reviewing audits and interim reviews. The EQR requirements for interim reviews were based on the requirements for an EQR of an audit but were tailored to the different procedures performed in an interim review. A number of commenters were supportive of including separate requirements for the EQR of interim reviews in the repropoed standard. Some commenters, as discussed below, suggested modifications to those requirements.

Paragraph 15.a of the repropoed standard required the evaluation of engagement planning, including the consideration of the firm's recent engagement experience with the company and risks identified in connection with the firm's client acceptance and retention process; the company's business, recent significant activities, and related financial reporting issues and risks; and the nature of identified risks of material misstatement due to fraud. In one commenter's view, that paragraph might suggest that an interim review should include the same type of risk assessment as an audit. After considering this comment, the Board disagrees. Paragraph 15.a does not impose a requirement on the engagement team to identify risks as part of an interim review. Rather, it requires the reviewer to evaluate the engagement team's consideration of risks that have already been identified, e.g., during the preceding year's audit.

Additionally, three commenters recommended not requiring the EQR of an interim review to include an evaluation of judgments made about the severity and disposition of identified control deficiencies. In one commenter's view, such

---

<sup>23</sup> The term "significant risk" is defined in the Board's recently proposed auditing standard on identifying and assessing risks of material misstatement to mean a "risk of material misstatement that is important enough to require special audit consideration." PCAOB Release No. 2008-006, *Proposed Auditing Standards Related to the Auditor's Assessment of and Response to Risk and Conforming Amendments to PCAOB Standards* (October 21, 2008). The Board intends that definition to apply to the EQR standard as well. The Board included this definition in a note to paragraph 10.b of AS No. 7. If, at the conclusion of the above mentioned rulemaking, the Board adopts a definition of significant risk that is different from that proposed, the Board will make a conforming change to the EQR standard.

an evaluation would be inconsistent with the scope of an interim review. AU sec. 722.07, provides that the auditor:

should perform limited procedures quarterly to provide a basis for determining whether he or she has become aware of any material modifications that, in the auditor's judgment, should be made to the disclosures about changes in internal control over financial reporting in order for the certifications to be accurate and to comply with the requirements of Section 302 of the Act.

In response, the Board modified the requirement in paragraph 15.b in AS No. 7 to be more consistent with the requirements of AU sec. 722. Accordingly, AS No. 7 requires the reviewer, among other things, to evaluate significant judgments made about any material modifications that should be made to the disclosures about changes in internal control over financial reporting.

Paragraph 15.c of the repropoed standard required the reviewer, in the EQR of an interim review, to "[r]ead the interim financial information for all periods presented and for the immediately preceding interim period, management's disclosure for the period under review, if any, about changes in internal control over financial reporting, and the related engagement report, if a report is to be filed with the SEC." Some commenters suggested that the reviewer should be required to read the engagement report even when the issuer is not required to include the report in an SEC filing. The Board agrees and, accordingly, changed "to be filed with the SEC" to "to be issued."<sup>24</sup>

## E. Concurring Approval of Issuance

For an EQR of an audit, paragraph 12 of the repropoed standard provided that the reviewer "may provide concurring approval of issuance only if, after performing with due professional care the review required by this standard, he or she is not aware of a significant engagement deficiency." A note to the same paragraph describes a "significant engagement deficiency" as any of the four conditions described in the original proposal.<sup>25</sup> The repropoed requirements for providing concurring approval of issuance in an EQR of an interim review were the same, except that the first of these four conditions was modified in light of the differences between an interim review and an audit. Specifically, in an EQR of an interim review, the first condition was "the engagement team failed to perform interim review procedures necessary in the circumstances of the engagement" rather than "the engagement team failed to obtain sufficient appropriate evidence in accordance with the standards of the PCAOB."

Commenters generally believed that the concurring approval of issuance provision was appropriately described, though one recommended excluding the

---

<sup>24</sup> Additionally, one commenter recommended not requiring the reviewer to read interim financial information "for the immediately preceding interim period" because it was not clear, to this commenter, what one would review when performing the EQR for the first quarter. AU sec. 722.16 requires the accountant to apply analytical procedures to the interim financial information, which should include, among other things, comparing the quarterly interim financial information with comparable information for the immediately preceding interim period (i.e., the fourth quarter of the prior year, in a first quarter interim review). Because the Board believes the repropoed requirement is appropriately within the scope of an EQR for an interim review, it has retained it in AS No. 7.

<sup>25</sup> As included in the repropoed standard, these conditions were: (1) the engagement team failed to obtain sufficient appropriate evidence in accordance with the standards of the PCAOB; (2) the engagement team reached an inappropriate overall conclusion on the subject matter of the engagement; (3) the engagement report is not appropriate in the circumstances; or (4) the firm is not independent of its client.

reference to "due professional care" from the EQR standard because AU sec. 230, *Due Professional Care in the Performance of Work*, already imposes an overall requirement on auditors to exercise due professional care. Many commenters, however, were critical of the reproposing release's description of the reproposed requirement. A significant number of commenters objected to, or stated that they disagreed with, the statement in the reproposing release that the requirement to exercise due professional care imposes on the engagement quality reviewer essentially the same requirement as the "knows, or should know based on the requirements of this standard" formulation that was originally proposed. Some suggested that the Board is redefining the meaning of due professional care. One commenter stated that "[a] standard of 'knows, or should know' is akin to a strict liability requirement for engagement deficiencies," while another commenter suggested that the Board "clarify that in this context, 'due professional care' is not a negligence standard."

After considering the comments, the Board is adopting the concurring approval of issuance requirement as reproposed. While auditors are already required to exercise due professional care in discharging their responsibilities, comments, as noted above and in the reproposing release, have reflected some confusion about the applicable standard of care in an EQR. Accordingly, reference to due professional care in the requirement is appropriate.

The Board is not redefining due professional care in the context of the EQR standard. As the Board noted in the reproposing release, AU sec. 230 describes due professional care as "reasonable care and diligence" and makes clear that an auditor who acts negligently, i.e., without "reasonable care and diligence," breaches the duty to exercise due professional care.<sup>26</sup> Due professional care, as described in AU sec. 230, imposes neither a strict liability nor an actual knowledge standard. The Board intends the term to mean "reasonable care and diligence," as described in AU sec. 230.

The application of a negligence standard to the concurring approval of issuance provision means, as noted in the reproposing release, that "a reviewer cannot evade responsibility because, as a result of an inadequate review, he or she did not discover a problem that a reasonably careful and diligent review would have revealed."<sup>27</sup> For that reason, the provision requires the reviewer to perform the required review with due professional care as a prerequisite to providing concurring approval of issuance. A qualified reviewer who has done so will, necessarily, have discovered any significant engagement deficiencies that could reasonably have been discovered under the circumstances. Accordingly, under AS No. 7, such a reviewer may provide concurring approval of issuance if "he or she is not aware of a significant engagement deficiency." Because a reviewer who has not performed the required review with due professional care might not have discovered any significant engagement deficiencies that could reasonably have been discovered under the circumstance—i.e., those the reviewer reasonably should know about—such a reviewer may not, consistent with the standard, provide concurring approval of issuance.

---

<sup>26</sup> See AU sec. 230.03.

<sup>27</sup> Of course, to impose the more severe sanctions authorized under the Act, such as a permanent bar or permanent revocation of registration, the Board must establish "(A) intentional or knowing conduct, including reckless conduct, that results in violation of the applicable statutory, regulatory, or professional standard; or (B) repeated instances of negligent conduct, each resulting in a violation of the applicable statutory, regulatory, or professional standard." Section 105(c)(5) of the Act; see also Rules on Investigations and Adjudications, PCAOB Release No. 2003-015, Appendix 2 at A2-76 (September 29, 2003) (discussing Section 105(c)(5)).

## F. Documentation of the EQR

The reproposed standard required the EQR documentation to contain sufficient information to identify: who performed the review, the documents reviewed, whether and when concurring approval of issuance was provided or the reasons for not providing the approval, and the significant discussions held, including the details of such discussions. These provisions were intended to respond to comments expressing concern that the originally proposed documentation requirements were overly detailed and would result in duplication of the engagement team's work. Some commenters reiterated their concerns that some of the reproposed requirements were duplicative of requirements to document the engagement itself or overly burdensome.

The Board continues to believe that it is necessary to strengthen the documentation requirements in the interim standard to provide for an informative record of the work performed during the EQR. At the same time, the Board has reconsidered its approach to the documentation requirement in light of the comments received. As described below, the Board has added a general requirement that places the specific requirements in the context of the overall purpose of EQR documentation—to provide a record of how the reviewer carried out the review in accordance with the standard's requirements.

Specifically, paragraph 19 of AS No. 7 includes a requirement for the engagement documentation to contain sufficient information to enable an experienced auditor,<sup>28</sup> having no previous connection with the engagement, to understand the procedures performed by the engagement quality reviewer, and others who assisted the reviewer, to comply with the provisions of the standard.<sup>29</sup> This provision is similar to the audit documentation requirement in paragraph 6 of AS No. 3, and should clarify how the more specific requirements are meant to apply in particular circumstances.

For example, if a reviewer identified a significant engagement deficiency to be addressed by the engagement team, the engagement team should document its response to the identified deficiency in accordance with AS No. 3. Because AS No. 7 does not require duplication of documentation prepared by the engagement team, the engagement quality reviewer does not have to separately document the engagement team's response. Rather, the EQR documentation should contain sufficient information to enable an experienced auditor, having no previous connection with the engagement, to understand, e.g., the significant deficiency identified, how the reviewer communicated the deficiency to the engagement team, why such matter was important, and how the reviewer evaluated the engagement team's response. Similarly, if the reviewer participated in the discussion of the potential for material misstatement due to fraud,<sup>30</sup> and the engagement team documented the discussion in accordance with AS No. 3, AS No. 7 only requires the engagement quality reviewer or reviewer's assistants to prepare separate documentation if the documentation prepared by the engagement team does not contain sufficient information to enable an experienced auditor, having no previous connection with the engagement, to understand the procedures performed by the engagement quality reviewer, and others who assisted the reviewer, to comply with the provisions of AS No. 7.

---

<sup>28</sup> As described in paragraph 6 of AS No. 3, "[a]n experienced auditor has a reasonable understanding of audit activities and has studied the company's industry as well as the accounting and auditing issues relevant to the industry."

<sup>29</sup> Additionally, for clarity of presentation, the Board moved the requirement to include documentation of an EQR in the engagement documentation from paragraph 19 to a new paragraph 20 in AS No. 7.

<sup>30</sup> See paragraph 14 of AU sec. 316, *Consideration of Fraud in a Financial Statement Audit*.

In response to comments, the Board also considered whether modifications were necessary to the specific requirements. First, the Board received several comments related to the provisions of repropoed paragraph 19.b, which required the EQR documentation to contain information sufficient to identify the documents reviewed. One commenter believed that a reviewer "may feel compelled to engage in an unnecessary review of additional documents in order to compile a more 'complete' list." Conversely, another commenter believed that the reviewer would be discouraged "to inspect one or more documents than he or she otherwise might or should, thus reducing the quality of the EQR." Some commenters suggested clarifying how the documents should be identified as "reviewed" (i.e., electronically or manually), or suggested limiting the scope of paragraph 19.b to "significant documents."

After considering these comments, the Board has decided to include this requirement in AS No. 7. Identifying a document as reviewed by the engagement quality reviewer should not be unduly burdensome, and will provide an informative record. Such a record could provide registered firms, and the Board, with better information about the EQR, which can be used to evaluate and improve the EQR process. The Board believes it is unnecessary to require in the standard a particular document identification method, such as electronic or manual signature. Rather, this should be determined by each firm individually.

Second, a number of commenters believed that the requirement in paragraph 19.c to document details of significant discussions held by the reviewer, and others who assisted the reviewer, would not improve audit quality and that it would be costly to implement. These commenters suggested that the reviewer might not be able to determine whether a discussion is significant at the time a discussion is held and therefore feel compelled to document every discussion. In order to make clear that documentation of every discussion is neither required nor a prudent use of resources, the Board has not included an explicit requirement to document discussions in AS No. 7. As explained above, however, if documentation of a particular discussion is necessary "to enable an experienced auditor, having no previous connection with the engagement, to understand the procedures performed . . . to comply with the provisions of th[e] standard," such documentation is required under the general documentation requirement.

## **G. Effective Date**

In repropoing the standard, the Board intended to make a final standard effective for EQRs of interim reviews for fiscal years beginning after December 15, 2009 and for EQRs of audits for fiscal years ending on or after December 15, 2009. Several commenters were concerned that the proposed effective date would not allow for sufficient time to train the auditing firm's personnel and implement the new EQR requirements. These commenters recommended that the effective date of the EQR standard be linked to the beginning of an audit period to provide adequate time for registered firms to prepare for adoption. The Board agrees with the concerns expressed by the commenters and has decided to make AS No. 7 effective, subject to SEC approval, for both the EQR of audits and the EQR of interim reviews for fiscal years beginning on or after December 15, 2009.

## **H. Comparison with other EQR Standards**

Three commenters suggested that the Board provide a comparison between the EQR standard and standards of other standard-setters on this subject. One

commenter noted that because issuer clients often represent a minor part of a smaller firm's audit client base, the audit methodology of such a firm may be based on other standards as well as PCAOB standards. In response, the Board has described certain significant differences between the Board's EQR standard and the analogous standards of the International Auditing and Assurance Standards Board ("IAASB")<sup>31</sup> and the Auditing Standards Board ("ASB") of the AICPA<sup>32</sup> in Appendix 3. Each section of the appendix also includes references to the relevant paragraphs of AS No. 7.

Appendix 3 is provided for informational purposes only. It describes only certain provisions of AS No. 7, and is not a substitute for the EQR standard itself. The full text of AS No. 7 is included in Appendix 1 of this release. Compliance with AS No. 7 is required for registered public accounting firms. Compliance with the analogous ASB and IAASB standards is not sufficient to meet the requirements of AS No. 7.

\* \* \*

On the 28th day of July, in the year 2009, the foregoing was, in accordance with the bylaws of the Public Company Accounting Oversight Board,

ADOPTED BY THE BOARD.

## Appendix 1—Auditing Standard No. 7

### Engagement Quality Review

[Supersedes SECPS Requirements of Membership 1000.08(f).]

#### Applicability of Standard

1. An engagement quality review and concurring approval of issuance are required for each audit engagement and for each engagement to review interim financial information conducted pursuant to the standards of the Public Company Accounting Oversight Board ("PCAOB").

#### Objective

2. The objective of the engagement quality reviewer is to perform an evaluation of the significant judgments made by the engagement team and the related conclusions reached in forming the overall conclusion on the engagement and in preparing the engagement report, if a report is to be issued, in order to determine whether to provide concurring approval of issuance.<sup>1</sup>

#### Qualifications of an Engagement Quality Reviewer

3. The engagement quality reviewer must be an associated person of a registered public accounting firm. An engagement quality reviewer from the firm that issues the engagement report (or communicates an engagement conclusion, if no report is issued) must be a partner or another individual in an equivalent position. The engagement quality reviewer may also be an individual from outside the firm.<sup>2</sup>

4. As described below, an engagement quality reviewer must have competence, independence, integrity, and objectivity.

Note: The firm's quality control policies and procedures should include provisions to provide the firm with reasonable assurance that the engagement quality reviewer has sufficient competence, independence, integrity, and objectivity to perform the engagement quality review in accordance with the standards of the PCAOB.

---

<sup>1</sup> In the context of an audit, "engagement report" refers to the audit report (or reports if, in an integrated audit, the auditor issues separate reports on the financial statements and internal control over financial reporting). In the context of an engagement to review interim financial information, the term refers to the report on interim financial information. An engagement report might not be issued in connection with a review of interim financial information. See paragraph .03 of AU section ("sec.") 722, *Interim Financial Information*.

<sup>2</sup> An outside reviewer who is not already associated with a registered public accounting firm would become associated with the firm issuing the report if *he or she* (rather than, or in addition to, his or her firm or other employer): (1) receives compensation from the firm issuing the report for performing the review or (2) performs the review as agent for the firm issuing the report. See PCAOB Rule 1001(p)(i) for the definition of an associated person of a registered public accounting firm.

## Competence

5. The engagement quality reviewer must possess the level of knowledge and competence related to accounting, auditing, and financial reporting required to serve as the engagement partner on the engagement under review.<sup>3</sup>

## Independence, Integrity, and Objectivity

6. The engagement quality reviewer must be independent of the company, perform the engagement quality review with integrity, and maintain objectivity in performing the review.

Note: The reviewer may use assistants in performing the engagement quality review. Personnel assisting the engagement quality reviewer also must be independent, perform the assigned procedures with integrity, and maintain objectivity in performing the review.

7. To maintain objectivity, the engagement quality reviewer and others who assist the reviewer should not make decisions on behalf of the engagement team or assume any of the responsibilities of the engagement team. The engagement partner remains responsible for the engagement and its performance, notwithstanding the involvement of the engagement quality reviewer and others who assist the reviewer.

8. The person who served as the engagement partner during either of the two audits preceding the audit subject to the engagement quality review may not be the engagement quality reviewer. Registered firms that qualify for the exemption under Rule 2-01(c)(6)(ii) of Regulation S-X, 17 C.F.R. 210.2-01(c)(6)(ii), are exempt from the requirement in this paragraph.

## Engagement Quality Review for an Audit

### Engagement Quality Review Process

9. In an audit engagement, the engagement quality reviewer should evaluate the significant judgments made by the engagement team and the related conclusions reached in forming the overall conclusion on the engagement and in preparing the engagement report. To evaluate such judgments and conclusions, the engagement quality reviewer should, to the extent necessary to satisfy the requirements of paragraphs 10 and 11: (1) hold discussions with the engagement partner and other members of the engagement team, and (2) review documentation.

10. In an audit, the engagement quality reviewer should:

- a. Evaluate the significant judgments that relate to engagement planning, including—
  - The consideration of the firm's recent engagement experience with the company and risks identified in connection with the firm's client acceptance and retention process,

---

<sup>3</sup> The term "engagement partner" has the same meaning as the phrases "auditor with final responsibility for the audit" in AU sec. 311, *Planning and Supervision*, and "practitioner-in-charge of an engagement" in PCAOB interim quality control standard QC sec. 40, *The Personnel Management Element of a Firm's System of Quality Control-Competencies Required by a Practitioner-in-Charge of an Attest Engagement*. QC sec. 40 describes the competencies required of a practitioner-in-charge of an attest engagement.

- The consideration of the company's business, recent significant activities, and related financial reporting issues and risks, and
  - The judgments made about materiality and the effect of those judgments on the engagement strategy.
- b. Evaluate the engagement team's assessment of, and audit responses to—
- Significant risks identified by the engagement team, including fraud risks, and
  - Other significant risks identified by the engagement quality reviewer through performance of the procedures required by this standard.

Note: A *significant risk* is a risk of material misstatement that is important enough to require special audit consideration.

- c. Evaluate the significant judgments made about (1) the materiality and disposition of corrected and uncorrected identified misstatements and (2) the severity and disposition of identified control deficiencies.
- d. Review the engagement team's evaluation of the firm's independence in relation to the engagement.
- e. Review the engagement completion document<sup>4</sup> and confirm with the engagement partner that there are no significant unresolved matters.
- f. Review the financial statements, management's report on internal control, and the related engagement report.
- g. Read other information in documents containing the financial statements to be filed with the Securities and Exchange Commission ("SEC")<sup>5</sup> and evaluate whether the engagement team has taken appropriate action with respect to any material inconsistencies with the financial statements or material misstatements of fact of which the engagement quality reviewer is aware.
- h. Based on the procedures required by this standard, evaluate whether appropriate consultations have taken place on difficult or contentious matters. Review the documentation, including conclusions, of such consultations.
- i. Based on the procedures required by this standard, evaluate whether appropriate matters have been communicated, or identified for communication, to the audit committee, management, and other parties, such as regulatory bodies.

## Evaluation of Engagement Documentation

**11.** In an audit, the engagement quality reviewer should evaluate whether the engagement documentation that he or she reviewed when performing the procedures required by paragraph 10—

---

<sup>4</sup> Paragraph 13 of PCAOB Auditing Standard No. 3, *Audit Documentation*, requires the auditor to identify all significant findings or issues in an engagement completion document.

<sup>5</sup> See paragraphs .04–.06 of AU sec. 550, *Other Information in Documents Containing Audited Financial Statements*; AU sec. 711, *Filings Under Federal Securities Statutes*.

- a. Indicates that the engagement team responded appropriately to significant risks, and
- b. Supports the conclusions reached by the engagement team with respect to the matters reviewed.

## Concurring Approval of Issuance

12. In an audit, the engagement quality reviewer may provide concurring approval of issuance only if, after performing with due professional care<sup>6</sup> the review required by this standard, he or she is not aware of a significant engagement deficiency.

Note: A *significant engagement deficiency* in an audit exists when (1) the engagement team failed to obtain sufficient appropriate evidence in accordance with the standards of the PCAOB, (2) the engagement team reached an inappropriate overall conclusion on the subject matter of the engagement, (3) the engagement report is not appropriate in the circumstances, or (4) the firm is not independent of its client.

13. In an audit, the firm may grant permission to the client to use the engagement report only after the engagement quality reviewer provides concurring approval of issuance.<sup>7</sup>

## Engagement Quality Review for a Review of Interim Financial Information

### Engagement Quality Review Process

14. In an engagement to review interim financial information, the engagement quality reviewer should evaluate the significant judgments made by the engagement team and the related conclusions reached in forming the overall conclusion on the engagement and in preparing the engagement report, if a report is to be issued. To evaluate such judgments and conclusions, the engagement quality reviewer should, to the extent necessary to satisfy the requirements of paragraphs 15 and 16: (1) hold discussions with the engagement partner and other members of the engagement team, and (2) review documentation.

15. In a review of interim financial information, the engagement quality reviewer should:

- a. Evaluate the significant judgments that relate to engagement planning, including the consideration of—
  - The firm's recent engagement experience with the company and risks identified in connection with the firm's client acceptance and retention process,
  - The company's business, recent significant activities, and related financial reporting issues and risks, and

---

<sup>6</sup> See AU sec. 230, *Due Professional Care in the Performance of Work*.

<sup>7</sup> Concurring approval of issuance by the engagement quality reviewer also is required when reissuance of an engagement report requires the auditor to update his or her procedures for subsequent events. In that case, the engagement quality reviewer should update the engagement quality review by addressing those matters related to the subsequent events procedures.

- The nature of identified risks of material misstatement due to fraud.
- b. Evaluate the significant judgments made about (1) the materiality and disposition of corrected and uncorrected identified misstatements and (2) any material modifications that should be made to the disclosures about changes in internal control over financial reporting.
- c. Perform the procedures described in paragraphs 10.d and 10.e.
- d. Review the interim financial information for all periods presented and for the immediately preceding interim period, management's disclosure for the period under review, if any, about changes in internal control over financial reporting, and the related engagement report, if a report is to be issued.
- e. Read other information in documents containing interim financial information to be filed with the SEC<sup>8</sup> and evaluate whether the engagement team has taken appropriate action with respect to material inconsistencies with the interim financial information or material misstatements of fact of which the engagement quality reviewer is aware.
- f. Perform the procedures in paragraphs 10.h and 10.i

## Evaluation of Engagement Documentation

**16.** In a review of interim financial information, the engagement quality reviewer should evaluate whether the engagement documentation that he or she reviewed when performing the procedures required by paragraph 15 supports the conclusions reached by the engagement team with respect to the matters reviewed.

## Concurring Approval of Issuance

**17.** In a review of interim financial information, the engagement quality reviewer may provide concurring approval of issuance only if, after performing with due professional care the review required by this standard, he or she is not aware of a significant engagement deficiency.

*Note: A significant engagement deficiency in a review of interim financial information exists when (1) the engagement team failed to perform interim review procedures necessary in the circumstances of the engagement, (2) the engagement team reached an inappropriate overall conclusion on the subject matter of the engagement, (3) the engagement report is not appropriate in the circumstances, or (4) the firm is not independent of its client.*

**18.** In a review of interim financial information, the firm may grant permission to the client to use the engagement report (or communicate an engagement conclusion to its client, if no report is issued) only after the engagement quality reviewer provides concurring approval of issuance.

---

<sup>8</sup> See AU sec. 722.18f; AU sec. 711.

## Documentation of an Engagement Quality Review

**19.** Documentation of an engagement quality review should contain sufficient information to enable an experienced auditor, having no previous connection with the engagement, to understand the procedures performed by the engagement quality reviewer, and others who assisted the reviewer, to comply with the provisions of this standard, including information that identifies:

- a. The engagement quality reviewer, and others who assisted the reviewer,
- b. The documents reviewed by the engagement quality reviewer, and others who assisted the reviewer,
- c. The date the engagement quality reviewer provided concurring approval of issuance or, if no concurring approval of issuance was provided, the reasons for not providing the approval.

**20.** Documentation of an engagement quality review should be included in the engagement documentation.

**21.** The requirements related to retention of and subsequent changes to audit documentation in PCAOB Auditing Standard No. 3, *Audit Documentation*, apply with respect to the documentation of the engagement quality review.

## **Appendix 2—Conforming Amendment to PCAOB Interim Quality Control Standards**

### **QC sec. 20, "System of Quality Control for a CPA Firm's Accounting and Auditing Practice"**

QC section ("sec.") 20, "System of Quality Control for a CPA Firm's Accounting and Auditing Practice" of the Board's interim quality control standards is amended as follows—

The third sentence of paragraph .18 of QC sec. 20 is replaced with the following sentence:

These policies and procedures also should address engagement quality reviews pursuant to PCAOB Auditing Standard No. 7, *Engagement Quality Review*.

## Appendix 3—Analysis of Significant Differences between the Requirements of Auditing Standard No. 7, *Engagement Quality Review*, of the PCAOB and the Analogous Standards of the IAASB, and the Auditing Standards Board of the AICPA

### Introduction

This appendix includes an analysis of significant differences between Auditing Standard No. 7, *Engagement Quality Review* ("AS No. 7" or the "EQR standard") of the Public Company Accounting Oversight Board ("PCAOB"), and the analogous standards of the Auditing Standards Board ("ASB") of the American Institute of Certified Public Accountants ("AICPA"),<sup>1</sup> and the International Auditing and Assurance Standards Board ("IAASB").<sup>2</sup> This analysis may not represent the views of the ASB or IAASB regarding the interpretation of their standards.

Appendix 3 is provided for informational purposes only. It describes only certain provisions of AS No. 7, and is not a substitute for the standard itself. The full text of AS No. 7 is included in Appendix 1 of this release. Compliance with AS No. 7 is required for registered public accounting firms. Compliance with the analogous ASB and IAASB standards is not sufficient to meet the requirements of AS No. 7.

The Board has developed AS No. 7 to enhance the quality of the engagement quality review ("EQR") process by strengthening the provisions of the Board's interim standard.<sup>3</sup> Recently, the ASB and IAASB also updated their standards related to the EQR, and the Board considered information in the standards of the ASB and IAASB when developing its new EQR standard. As described in this appendix, AS No. 7 includes provisions that are similar in terminology and substance to those in the ASB and IAASB standards, and other provisions added as necessary by the Board. For example, the Board included certain provisions in AS No. 7 that are not included in the standards of the ASB or IAASB to: comply with the requirements of the Sarbanes-Oxley Act ("the Act"); respond to the feedback received on the interim standard from the Board's Standing Advisory Group ("SAG") and information obtained through PCAOB oversight of registered firms; and to ensure consistency of the provisions of AS No. 7 with the provisions and terminology of other relevant standards of the PCAOB.

Some of the provisions of the IAASB standards described in this appendix are included in the "Application and Other Explanatory Material" section of these standards. That section "does not in itself impose a requirement," but "is relevant to the proper application of the requirements of an ISA."<sup>4</sup> In contrast, the

<sup>2</sup> International Standard on Quality Control 1 ("ISQC 1"), *Quality Control for Firms that Perform Audits and Reviews of Financial Statements, and Other Assurance and Related Services Engagements*, and International Standard on Auditing 220 ("ISA 220"), *Quality Control for an Audit of Financial Statements*, issued in December 2008.

<sup>3</sup> The Securities and Exchange Commission Practice Section ("SECPS") of the AICPA Requirements of Membership Sections 1000.08(f); 1000.39, Appendix E.

<sup>4</sup> See paragraph A59 of ISA 200, *Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance with International Standards on Auditing*.

comparable provisions of AS No. 7 are included in the standard, and establish requirements.

## Applicability

### PCAOB

Section 103 of the Act requires the Board to adopt an EQR standard for audit engagements.<sup>5</sup> Because of the importance of interim financial information to investors, the Board has decided to include a requirement to perform an EQR for reviews of interim financial information performed in accordance with AU section ("sec.") 722, *Interim Financial Information*, ("interim reviews") in the EQR standard. Accordingly, AS No. 7 requires an EQR and concurring approval of issuance for each audit engagement and for each interim review engagement conducted pursuant to the standards of the PCAOB.<sup>6</sup>

### ASB

SQCS No. 7 does not require an EQR for any type of engagement. Accounting firms should determine whether an EQR is required for any engagement.<sup>7</sup>

### IAASB

ISQC 1 requires an EQR only for audits of financial statements of listed entities. Accounting firms should determine whether an EQR is required for any other engagements.<sup>8</sup>

## Qualifications of a Reviewer

### PCAOB

Associated Person—In order to obtain cooperation with the Board of the individuals that perform an EQR,<sup>9</sup> the Board included in AS No. 7 a requirement, according to which the engagement quality reviewer must be an associated person of a registered public accounting firm.<sup>10</sup>

A Reviewer from Outside the Firm—Similar to the standards of the ASB and IAASB, AS No. 7 allows a qualified individual from outside the firm to perform an EQR.<sup>11</sup>

Partner or Person in an Equivalent Position—Because the EQR is intended to be an objective "second look" at work performed by the engagement team, the reviewer should possess sufficient authority to be able to withstand pressure

---

<sup>5</sup> See Section 103(a)(2)(A)(ii) of the Act.

<sup>6</sup> See paragraph 1 of AS No. 7.

<sup>7</sup> See paragraphs 80-81 and 83 of SQCS No. 7.

<sup>8</sup> See paragraphs 35(a)-(b) of ISQC 1.

<sup>9</sup> A registered public accounting firm has an obligation to secure and enforce consents to cooperate with the Board from each associated person of the firm, see Section 102(b)(3) of the Act, including those who become associated with the firm by performing the review. The Board also may directly sanction any such person who fails to cooperate in an investigation or inspection. See Section 105(b)(3) of the Act and PCAOB Rules 5110 and 4006.

<sup>10</sup> See paragraph 3 of AS No. 7.

<sup>11</sup> See *id.*

from the engagement partner or other firm personnel, such as members of the firm's national office. The Board believes that concerns about authority will most often arise when the reviewer and the engagement partner are from the same firm. Therefore, the Board included in AS No. 7 the requirement that an in-house reviewer—but not one from outside the firm—be a partner or another individual in an equivalent position.<sup>12</sup>

**General Competence Requirement**—The Board included in AS No. 7 a requirement for the reviewer to possess the level of knowledge and competence related to accounting, auditing, and financial reporting required to serve as the engagement partner on the engagement under review.<sup>13</sup> Without such knowledge and competence, the reviewer would not be able to appropriately evaluate the significant judgments made and related conclusions reached by the engagement team in an audit or an interim review.

**Independence, Integrity, and Objectivity**—The reviewer must comply with all applicable independence requirements,<sup>14</sup> and perform the review with integrity and objectivity.<sup>15</sup> The engagement quality reviewer should be able to take a step back and conduct the review from the perspective of an outsider looking in.

Accordingly, AS No. 7 requires that the firm's quality control policies and procedures should include provisions to provide the firm with reasonable assurance that the engagement quality reviewer has sufficient competence, independence, integrity, and objectivity to perform the engagement quality review in accordance with the standards of the PCAOB.<sup>16</sup> As described later, the ASB and IAASB contain similar provisions, except the standards of IAASB do not include the direction on independence for the reviewer.

While AS No. 7 does not contain the direction included in the standards of ASB and IAASB that the firm's policies and procedures should establish the degree to which a reviewer can be consulted on the engagement without compromising his or her objectivity,<sup>17</sup> or provide for the replacement of the reviewer when the reviewer's ability to perform an objective review has been, or may be, impaired,<sup>18</sup> such direction is implicit in the requirement of AS No. 7 that a reviewer must maintain objectivity in performing the EQR.<sup>19</sup> Importantly, AS No. 7 provides direction on maintaining objectivity, according to which the engagement quality reviewer and others who assist the reviewer should not make decisions on behalf of the engagement team or assume any of the responsibilities of the engagement team.<sup>20</sup>

**"Cooling-off" period**—An engagement quality reviewer is expected to take a fresh, objective look at the engagement. The Board believes that it would be harder for an engagement partner, who has had overall responsibility for the

---

<sup>12</sup> See *id.*

<sup>13</sup> See paragraph 5 of AS No. 7. PCAOB interim quality control standards describe the competencies required of a person who has the overall responsibility for an engagement (or any practitioner-in-charge of an attest engagement). See QC sec. 40, *The Personnel Management Element of a Firm's System of Quality Control- Competencies Required by a Practitioner-in-Charge of an Attest Engagement*.

<sup>14</sup> See, e.g., Rule 2-01(c)(6) of Regulation S-X, 17 C.F.R. § 210.2-01(c)(6) (subjecting the engagement quality reviewer to the five-year partner rotation requirement).

<sup>15</sup> See ET sec. 102, *Integrity and Objectivity*, and ET sec. 191, *Ethics Rulings on Independence, Integrity, and Objectivity*.

<sup>16</sup> See paragraph 4 of AS No. 7.

<sup>17</sup> See paragraph 96 of SQCS No. 7; paragraph 39(b) of ISQC 1.

<sup>18</sup> See paragraph 97 of SQCS No. 7; paragraph 41 of ISQC 1.

<sup>19</sup> See paragraph 6 of AS No. 7.

<sup>20</sup> See paragraph 7 of AS No. 7.

audit for a year or more, to perform the EQR with the necessary level of objectivity. Accordingly, AS No. 7 includes a requirement, according to which the reviewer may not be the person who served as the engagement partner during either of the two audits preceding the audit subject to the EQR. (Registered firms that qualify for the exemption under Rule 2-01(c)(6)(ii) of Regulation S-X, 17 C.F.R. §210.2-01(c)(6)(ii), are exempt from this requirement.)<sup>21</sup>

### **ASB**

SQCS No. 7 requires an auditing firm to establish the engagement quality reviewer qualifications, including those related to experience, authority, and objectivity.<sup>22</sup> SQCS No. 7 describes the engagement quality reviewer as a partner, other person in the firm, qualified external person, or a team made up of such individuals, none of whom is part of the engagement team, with sufficient and appropriate experience and authority to perform the EQR.<sup>23</sup> According to SQCS No. 7, what constitutes sufficient and appropriate technical experience, and authority depends on the circumstances of the engagement.<sup>24</sup>

SQCS No. 7 does not include a "cooling-off" period, or a requirement for the reviewer to be an associated person of a registered public accounting firm.

Similar to AS No. 7, SQCS No. 7 requires that the firm establish policies and procedures designed to maintain the objectivity of the reviewer, and that such policies and procedures provide that the reviewer should satisfy the independence requirements relating to the engagements reviewed.<sup>25</sup> Unlike AS No. 7, SQCS No. 7 does not provide a specific direction on maintaining objectivity. Instead, SQCS No. 7 provides examples of policies and procedures for maintaining the objectivity of the reviewer.<sup>26</sup>

### **IAASB**

ISQC 1 requires an auditing firm to establish the engagement quality reviewer qualification requirements, including those related to experience, authority, and objectivity.<sup>27</sup> The engagement quality reviewer is described as a partner, other person in the firm, suitably qualified external person, or a team made up of such individuals, none of whom is part of the engagement team, with sufficient and appropriate experience and authority to objectively evaluate the significant judgments the engagement team made and the conclusions it reached in formulating the report.<sup>28</sup> The application materials in ISQC 1 state that what constitutes sufficient and appropriate technical expertise, experience and authority depends on the circumstances of the engagement.<sup>29</sup>

ISQC 1 and ISA 220 do not include reviewer independence or "cooling-off" requirements, or a requirement for the reviewer to be an associated person of a registered public accounting firm.

Similar to AS No. 7, ISQC 1 requires that the firm establish policies and procedures designed to maintain the objectivity of the reviewer.<sup>30</sup> Unlike AS No. 7,

---

<sup>21</sup> See paragraph 8 of AS No. 7.

<sup>22</sup> See paragraphs 92-94 of SQCS No. 7.

<sup>23</sup> See paragraph 5.e of SQCS No. 7.

<sup>24</sup> See paragraph 93 of SQCS No. 7.

<sup>25</sup> See paragraph 94 of SQCS No. 7.

<sup>26</sup> See paragraph 95 of SQCS No. 7.

<sup>27</sup> See paragraphs 39 and 40 of ISQC 1.

<sup>28</sup> See paragraph 12(e) of ISQC 1; paragraph 7(c) of ISA 220.

<sup>29</sup> See paragraph A47 of the Application and Other Explanatory Materials of ISQC 1.

<sup>30</sup> See paragraph 40 of ISQC 1.

the IAASB standards do not provide specific direction on maintaining objectivity. Instead, the application materials of ISQC 1 discuss policies and procedures for maintaining the objectivity of the reviewer.<sup>31</sup>

## Engagement Quality Review for an Audit

### Engagement Quality Review Process

#### PCAOB

Similar to the standards of the ASB and IAASB, AS No. 7 requires the reviewer to evaluate the significant judgments made and the related conclusions reached by the engagement team in forming the overall conclusion on the engagement and in preparing the engagement report; and to carry out the review through discussions with those performing the engagement and the review of documentation.<sup>32</sup>

Further, AS No. 7 specifically requires the reviewer, among other things, to evaluate:

- The significant judgments that relate to engagement planning;<sup>33</sup>
- The engagement team's assessment of and audit responses to significant risks, including fraud risks;<sup>34</sup> and
- The significant judgments made about identified misstatements and control deficiencies.<sup>35</sup>

Also, AS No. 7 contains a requirement, similar to a requirement for audits of listed entities in ISA 220, according to which the reviewer, based on the procedures required by the standard, should evaluate whether appropriate consultations have taken place on difficult or contentious matters, and review the documentation, including conclusions, of such consultations.<sup>36</sup>

According to PCAOB Rule 3520, *Auditor Independence*, "[a] registered public accounting firm and its associated persons must be independent of the firm's audit client throughout the audit and professional engagement period." Because of the importance of compliance with PCAOB and Securities and Exchange Commission ("SEC") independence requirements, AS No. 7 requires the reviewer to review the engagement team's evaluation of the firm's independence in relation to the engagement.<sup>37</sup>

In 2004, the Board adopted Auditing Standard No. 3, Audit Documentation ("AS No. 3"). According to paragraph 13 of AS No. 3, the auditor must identify all significant findings or issues in an engagement completion document. AS No. 7 requires the reviewer to review the engagement completion document and confirm with the person who has overall responsibility for the engagement that there are no significant unresolved matters.<sup>38</sup>

---

<sup>31</sup> See paragraph A49 of the Application and Other Explanatory Materials of ISQC 1.

<sup>32</sup> See paragraph 9 of AS No. 7.

<sup>33</sup> See paragraph 10.a of AS No. 7.

<sup>34</sup> See paragraph 10.b of AS No. 7.

<sup>35</sup> See paragraph 10.c of AS No. 7.

<sup>36</sup> See paragraph 10.h of AS No. 7.

<sup>37</sup> See paragraph 10.d of AS No. 7.

<sup>38</sup> See paragraph 10.e of AS No. 7.

Similar to the standards of the ASB and IAASB, AS No. 7 requires the reviewer to review the financial statements and the related engagement report.<sup>39</sup> Additionally, because an integrated audit includes an audit of internal control over financial reporting,<sup>40</sup> AS No. 7 requires the reviewer to review management's report on internal control.<sup>41</sup>

An issuer may publish various documents that contain information in addition to audited financial statements and the auditor's report thereon. The auditor is required to read the other information and consider whether such information, or the manner of its presentation, is materially inconsistent with information, or the manner of its presentation, appearing in the financial statements.<sup>42</sup> Accordingly, AS No. 7 requires the reviewer to read other information in documents containing the financial statements to be filed with the SEC and evaluate whether the engagement team has taken appropriate action with respect to any material inconsistencies with the financial statements or material misstatements of fact of which the engagement quality reviewer is aware.<sup>43</sup>

Finally, because of the importance to the audit process of effective communication between the auditor and those charged with governance, AS No. 7 requires the reviewer, based on the procedures required by the standard, to evaluate whether appropriate matters have been communicated, or identified for communication, to the audit committee, management, and other parties, such as regulatory bodies.<sup>44</sup>

### **ASB**

Similar to AS No. 7, SQCS No. 7 requires that the EQR procedures include an objective evaluation of the significant judgments made by the engagement team and the conclusions reached in formulating the report.<sup>45</sup> The EQR performed in accordance with SQCS No. 7 should include: reading the financial statements or other subject matter information and the report and considering whether the report is appropriate; review of selected documentation; and a discussion with the engagement partner regarding significant findings and issues.<sup>46</sup>

In addition to the required procedures summarized in the preceding paragraph, an EQR performed in accordance with SQCS No. 7 may include consideration of certain other matters, examples of which are provided in the standard. SQCS No. 7 also provides examples of significant judgments that could be made by the engagement team.<sup>47</sup>

### **IAASB**

The EQR procedures required by the standards of the IAASB are similar to those required by the ASB.<sup>48</sup> Additionally, for audits of listed entities, the IAASB standards require the reviewer to consider: the engagement team's evaluation of the firm's independence in relation to the engagement; and whether

---

<sup>39</sup> See paragraph 10.f of AS No. 7.

<sup>40</sup> PCAOB Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements* establishes requirements and provides direction that apply when an auditor is engaged to perform an audit of management's assessment of the effectiveness of internal control over financial reporting.

<sup>41</sup> See paragraph 10.f of AS No. 7.

<sup>42</sup> See AU sec. 550, *Other Information in Documents Containing Audited Financial Statements*.

<sup>43</sup> See paragraph 10.g of AS No. 7.

<sup>44</sup> See paragraph 10.i of AS No. 7.

<sup>45</sup> See paragraph 85 of SQCS No. 7.

<sup>46</sup> See paragraphs 86 and 87 of SQCS No. 7.

<sup>47</sup> See paragraphs 88 and 89 of SQCS No. 7.

<sup>48</sup> See paragraph 37 of ISQC 1; paragraph 20 of ISA 220.

appropriate consultation has taken place on matters involving differences of opinion or other difficult or contentious matters, and the conclusions arising from those consultations.<sup>49</sup>

## Evaluation of Engagement Documentation

### PCAOB

AS No. 7 includes a documentation review requirement that is similar to the requirement for audits of listed entities in the IAASB standards. According to AS No. 7, the reviewer should evaluate whether the engagement documentation that he or she reviewed when performing the required EQR procedures indicates that the engagement team responded appropriately to significant risks and supports the conclusions reached by the engagement team with respect to the matters reviewed.<sup>50</sup>

### ASB

Unlike AS No. 7, SQCS No. 7 does not require the reviewer to evaluate whether the engagement documentation satisfies certain criteria. Instead, SQCS No. 7 states that an EQR may include consideration of whether working papers selected for review reflect the work performed in relation to the significant judgments and support the conclusions reached.<sup>51</sup>

### IAASB

Similar to AS No. 7, the IAASB standards require, for audits of financial statements of listed entities, that the reviewer consider whether audit documentation selected for review reflects the work performed in relation to the significant judgments and supports the conclusions reached.<sup>52</sup>

## Concurring Approval of Issuance and Resolution of Differences of Opinion

### PCAOB

Under the Act,<sup>53</sup> the Board's standard on EQR must require concurring approval of issuance of each audit report. AS No. 7 states that the engagement quality reviewer may provide concurring approval of issuance only if, after performing with due professional care the review required by the standard, he or she is not aware of a significant engagement deficiency.<sup>54</sup> The firm may grant permission to the client to use the engagement report only after the engagement quality reviewer provides concurring approval of issuance.<sup>55</sup>

Unlike the standards of the ASB and IAASB, AS No. 7 does not include an explicit provision for addressing differences of opinion. Firms may develop their

---

<sup>49</sup> See paragraphs 38(a) and 38(b) of ISQC 1; paragraphs 21(a) and 21(b) of ISA 220.

<sup>50</sup> See paragraph 11 of AS No. 7.

<sup>51</sup> See paragraph 88 of SQCS No. 7.

<sup>52</sup> See paragraph 38(c) of ISQC 1; paragraph 21(c) of ISA 220.

<sup>53</sup> See Section 103(a)(2)(A)(ii) of the Act.

<sup>54</sup> According to paragraph 12 of AS No. 7, "A significant engagement deficiency in an audit exists when (1) the engagement team failed to obtain sufficient appropriate evidence in accordance with the standards of the PCAOB, (2) the engagement team reached an inappropriate overall conclusion on the subject matter of the engagement, (3) the engagement report is not appropriate in the circumstances, or (4) the firm is not independent of its client."

<sup>55</sup> See paragraph 13 of AS No. 7.

own procedures for resolving such differences. Ultimately, however, under the standard, the reviewer may not provide concurring approval of issuance if there remains a significant engagement deficiency. If no concurring approval is provided, AS No. 7 requires that the EQR documentation include information that identifies the reasons for not providing the approval.

### **ASB**

SQCS No. 7 does not include a requirement for the engagement quality reviewer to provide concurring approval of issuance. Instead, SQCS No. 7 requires the EQR be completed before the engagement report is released.<sup>56</sup> According to SQCS No. 7, when the engagement quality reviewer makes recommendations that the engagement partner does not accept and the matter is not resolved to the reviewer's satisfaction, the firm's procedures for dealing with differences of opinion apply.<sup>57</sup> The firm's policies and procedures should require that conclusions reached be documented and implemented, and the engagement report not be released until the matter, on which the difference of opinion has arisen, is resolved.<sup>58</sup>

### **IAASB**

The standards of the IAASB do not include a requirement for the engagement quality reviewer to provide concurring approval of issuance. Instead, the IAASB standards require that the engagement partner should not date the auditor's report until the completion of the EQR.<sup>59</sup> If differences of opinion arise between the engagement partner and the engagement quality reviewer, ISA 220 requires the engagement team to follow the firm's policies and procedures for dealing with and resolving differences of opinion.<sup>60</sup> ISQC 1 requires the firm to establish policies and procedures for dealing with and resolving differences of opinion between the engagement partner and the engagement quality reviewer. Such policies and procedures shall require that conclusions reached be documented and implemented, and the report not be dated until the matter is resolved.<sup>61</sup>

## **Documentation of an EQR**

### **PCAOB**

Because of deficiencies in the documentation of concurring reviews, the Board decided to strengthen the existing documentation requirements. AS No. 7 requires that documentation of an EQR should contain sufficient information to enable an experienced auditor, having no previous connection with the engagement, to understand the procedures performed by the engagement quality reviewer, and others who assisted the reviewer, to comply with the provisions of the standard, including information that identifies: the engagement quality reviewer, and others who assisted the reviewer; the documents reviewed by the engagement quality reviewer and others who assisted the reviewer; and the date the engagement quality reviewer provided concurring approval of issuance

---

<sup>56</sup> See paragraph 81 of SQCS No. 7.

<sup>57</sup> See paragraph 91 of SQCS No. 7.

<sup>58</sup> See paragraph 78 of SQCS No. 7.

<sup>59</sup> See paragraph 36 of ISQC 1; paragraph 19(c) of ISA 220.

<sup>60</sup> See paragraph 22 of ISA 220.

<sup>61</sup> See paragraphs 43-44 of ISQC 1.

or, if no concurring approval of issuance was provided, the reasons for not providing the approval.<sup>62</sup>

Unlike the standards of the ASB or the IAASB, AS No. 7 requires that the documentation of an EQR be included in the engagement documentation and provides requirements related to retention of and subsequent changes to the EQR documentation.<sup>63</sup>

### **ASB**

According to SQCS No. 7, the documentation of an EQR should state that the procedures required by the firm's policies on EQR have been performed, the EQR has been completed before the report is released, and the reviewer is not aware of any unresolved matters that would cause the reviewer to believe that the significant judgments the engagement team made and the conclusions they reached were not appropriate.<sup>64</sup>

SQCS No. 7 requires that the firm should: establish procedures designed to maintain the confidentiality, safe custody, integrity, accessibility, and retrievability of engagement documentation; and establish policies and procedures for the retention of engagement documentation for a period sufficient to meet the needs of the firm, professional standards, laws, and regulations.<sup>65</sup>

### **IAASB**

The engagement quality reviewer is required to document that the procedures required by the firm's policies on the EQR have been performed, the EQR has been completed on or before the date of the auditor's report, and the reviewer is not aware of any unresolved matters that would cause the reviewer to believe that the significant judgments the engagement team made and the conclusions they reached were not appropriate.<sup>66</sup>

ISQC 1 requires that the firm should establish policies and procedures related to the completion of the assembly of final engagement files; confidentiality, safe custody, integrity, accessibility and retrievability of engagement documentation; and retention of engagement documentation.<sup>67</sup>

## PCAOB Release No. 2010-004

# ***Auditing Standards Related to the Auditor's Assessment of and Response to Risk and Related Amendments to PCAOB Standards***

PCAOB Release No. 2010-004

August 5, 2010

PCAOB Rulemaking  
Docket Matter No. 026

## **Summary**

After public comment, the Public Company Accounting Oversight Board (the "Board" or "PCAOB") is adopting eight auditing standards related to the auditor's assessment of and response to risk that will supersede six of the Board's interim auditing standards and related amendments to PCAOB standards. The eight auditing standards and related amendments will be applicable to all registered firms conducting audits in accordance with PCAOB standards.

## **Board Contacts**

Keith Wilson, Deputy Chief Auditor (202/207-9134, wilsonk@pcaobus.org), Jessica Watts, Associate Chief Auditor (202/207-9376, wattsj@pcaobus.org), Hasnat Ahmad, Assistant Chief Auditor (202/2079349, ahmadh@pcaobus.org), Diane Jules, Assistant Chief Auditor (202/207-9111, julesd@pcaobus.org), and Hong Zhao, Assistant Chief Auditor (202/207-9355, zhaoh@pcaobus.org).

\* \* \* \* \*

## **I. Introduction**

The Board is adopting eight auditing standards and related amendments that benefit investors by establishing requirements that enhance the effectiveness of the auditor's assessment of and response to the risks of material misstatement in an audit.

In an audit performed in accordance with PCAOB standards, risk underlies the entire audit process, including the procedures that the auditor performs to support the opinion expressed in the auditor's report. Most of the Board's interim auditing standards relating to assessing and responding to risk in an audit of financial statements were developed in the 1980s.<sup>1</sup> Those standards described in general terms the auditor's responsibilities for assessing and responding to risk. They directed auditors to vary the amount of audit attention related to particular financial statement accounts based on the risks presented by them. The

---

<sup>1</sup> Examples of those standards include AU sec. 312, *Audit Risk and Materiality in Conducting an Audit*, and AU sec. 319, *Consideration of Internal Control in a Financial Statement Audit*.

standards also allowed the auditor to use tests of controls to reduce substantive testing.<sup>2</sup>

A number of factors and events led the Board to reexamine those standards and seek to improve them. These included the widespread use of risk-based audit methodologies; recommendations to the profession on ways in which auditors could improve risk assessment;<sup>3</sup> advice from the Board's Standing Advisory Group ("SAG");<sup>4</sup> adoption of Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*; and observations from the Board's oversight activities.

On October 21, 2008, the Board proposed a set of auditing standards to update the requirements for assessing and responding to risk in an audit ("the original proposed standards").<sup>5</sup> The original proposed standards were intended to improve the auditing standards and to benefit investors by establishing requirements that enhance the effectiveness of auditors' assessment of and response to risk through:

- Performing procedures that provide a reasonable basis for identifying and assessing risks of material misstatement, whether due to error or fraud
- Tailoring the audit to respond appropriately to the risks of material misstatement
- Making a comprehensive evaluation of the evidence obtained during the audit to form the opinion(s) in the auditor's report

The Board also sought to emphasize the auditor's responsibilities for consideration of fraud by incorporating requirements for identifying and responding to the risks of material misstatement due to fraud ("fraud risks") and evaluating audit results from the existing PCAOB standard, AU sec. 316, *Consideration of Fraud in a Financial Statement Audit*.<sup>6</sup> Incorporating these requirements makes clear that the auditor's responsibilities for assessing and responding to fraud risks are an integral part of the audit process rather than a separate, parallel process. It also benefits investors by prompting auditors to make a more thoughtful and thorough assessment of fraud risks and to develop appropriate audit responses.

Improvements in the standards related to risk assessment also should enhance integration of the audit of financial statements with the audit of internal control over financial reporting ("audit of internal control") by articulating a process for identifying and assessing risks of material misstatement that applies to both portions of the integrated audit when the auditor is performing an integrated audit.

Many commenters on the original proposed standards were supportive of the Board's efforts to update its risk assessment requirements and offered numerous suggestions for changing the original proposed standards. After considering

<sup>3</sup> See, e.g., Public Oversight Board, Panel on Audit Effectiveness ("PAE"), *Report and Recommendations* (August 31, 2000). For a summary of the PAE's recommendations related to risk assessment, see PCAOB Standing Advisory Group ("SAG") Meeting Briefing Paper, "Risk Assessment in Financial Statement Audits" (February 16, 2005), Appendix A, available at: [http://pcaobus.org/News/Events/Pages/02162005\\_SAGMeeting.aspx](http://pcaobus.org/News/Events/Pages/02162005_SAGMeeting.aspx).

<sup>4</sup> Webcasts of SAG meetings are available on the Board's Web site at: <http://pcaobus.org/News/Webcasts/Pages/default.aspx>.

<sup>5</sup> PCAOB Release No. 2008-006, *Proposed Auditing Standards Related to the Auditor's Assessment of and Response to Risk* (October 21, 2008).

<sup>6</sup> Paragraphs .14–.51 and paragraphs .68–.78 of AU sec. 316, *Consideration of Fraud in a Financial Statement Audit*.

all of the comments received on those standards, the Board made numerous refinements to the original proposed standards. Because the standards address many fundamental aspects of the audit process and are expected to serve as a foundation for future standards-setting, the Board repropose the standards for public comment on December 17, 2009 ("the repropose standards").<sup>7</sup>

The Board received 23 comment letters on the repropose standards.<sup>8</sup> The Board discussed the comments received with the SAG on April 8, 2010.<sup>9</sup> Most commenters were generally supportive of the repropose standards and the improvements made to those standards. Many commenters also offered suggestions to improve the standards, which the Board has carefully analyzed.

After consideration of the comments received, the Board has refined the standards to provide additional clarity. The Board has decided to adopt the following standards for assessing and responding to risk in an audit and the related amendments to PCAOB standards:

- Auditing Standard No. 8, *Audit Risk*
- Auditing Standard No. 9, *Audit Planning*
- Auditing Standard No. 10, *Supervision of the Audit Engagement*
- Auditing Standard No. 11, *Consideration of Materiality in Planning and Performing an Audit*
- Auditing Standard No. 12, *Identifying and Assessing Risks of Material Misstatement*
- Auditing Standard No. 13, *The Auditor's Responses to the Risks of Material Misstatement*
- Auditing Standard No. 14, *Evaluating Audit Results*
- Auditing Standard No. 15, *Audit Evidence*

Appendices 1–8 of this release present the auditing standards, and Appendix 9 presents the related amendments to PCAOB standards.

## II. Notable Areas of Change in the Standards

The changes made to the repropose standards reflect refinements rather than significant shifts in approach. This section describes the areas of change to the repropose standards that are most notable, e.g., because they affect multiple standards or multiple sections of an individual standard. Appendix 10 discusses these and other changes in more detail.

### A. Planning and Supervision Standards

The repropose standards included a standard covering both audit planning and supervision. Some commenters observed that audit planning and supervision should be covered in separate standards.

Audit planning and supervision, although related in some respects, are distinct activities that should be presented in separate standards. Accordingly,

---

<sup>7</sup> PCAOB Release No. 2009-007, *Proposed Auditing Standards Related to the Auditor's Assessment of and Response to Risk* (December 17, 2009).

<sup>8</sup> Comments on the original proposed standards and the repropose standards are available on the Board's Web site at: <http://pcaobus.org/Rules/Rulemaking/Pages/Docket026.aspx>.

<sup>9</sup> A transcript of the portion of the meeting that related to the repropose standards is available on the Board's Web site at: <http://pcaobus.org/Rules/Rulemaking/Pages/Docket026.aspx>.

the Board has divided the planning and supervision standard into separate standards for planning and for supervision. Presenting the requirements for planning and supervision in separate standards is a technical change that, by itself, does not affect the auditor's responsibilities for planning the audit or supervision of the work of engagement team members as described in the repropoed standards.

## B. Requirements for Multi-location Audits

The repropoed standard on audit planning and supervision included requirements regarding establishing the scope of testing of individual locations in multi-location engagements. The repropoed standard on consideration of materiality in planning and performing an audit included requirements for determining materiality of individual locations in multi-location audits. Some commenters requested clarification on the Board's expectations regarding how to apply those requirements in audits in which part of the work is performed by other auditors, specifically, auditors of financial statements of individual locations or business units that are included in the consolidated financial statements.

The multi-location requirements have been revised to take into account situations in which part of the work is performed by other auditors.<sup>10</sup> Appendix 10 discusses those revisions in more detail and explains the Board's expectations regarding how to apply the respective requirements in situations involving other auditors.

The repropoed standard on audit planning and supervision also included a statement, similar to a statement in Auditing Standard No. 5, that "The direction in paragraph 5 of Proposed Auditing Standard, *The Auditor's Responses to the Risks of Material Misstatement*, regarding incorporating an element of unpredictability in the auditing procedures means that the auditor should vary the nature, timing, and extent of audit procedures at locations or business units from year to year." Some commenters stated that the statement in the repropoed audit planning and supervision standard was unnecessarily prescriptive. After considering the comments received, the requirement regarding unpredictability was removed from the audit planning standard, and the discussion in Auditing Standard No. 13 regarding incorporating an element of unpredictability was expanded to include varying the testing in the selected locations.<sup>11</sup> However, this does not change the requirements in Auditing Standard No. 5 regarding incorporating unpredictability in testing controls at individual locations in audits of internal control.<sup>12</sup>

## C. Requirement for Performing Walkthroughs

In the original proposed standards, the standard on identifying and assessing risks of material misstatement referred auditors to Auditing Standard No. 5 for a discussion of the performance of walkthroughs. Some commenters on the original proposed standards stated that the proposed standard should include a discussion of walkthroughs rather than referring to Auditing Standard No. 5. The

---

<sup>10</sup> Paragraphs 11–14 of Auditing Standard No. 9, *Audit Planning*, and paragraph 10 of Auditing Standard No. 11, *Consideration of Materiality in Planning and Performing an Audit*.

<sup>11</sup> Paragraph 5 of Auditing Standard No. 13, *The Auditor's Responses to the Risks of Material Misstatement*.

<sup>12</sup> Paragraphs 61 and B13 of Auditing Standard No. 5.

reproposed standard on identifying and assessing risks of material misstatement included a discussion of the objectives for understanding likely sources of potential misstatements and of performing walkthroughs, which paralleled a discussion in Auditing Standard No. 5.<sup>13</sup> Some commenters expressed concerns that those new requirements would lead to unnecessary walkthroughs, particularly in audits of financial statements only.

The intention of including the discussion of walkthroughs was to describe how to perform walkthroughs, not to impose additional requirements regarding when to perform walkthroughs. The discussion has been revised to focus on how the auditor should perform walkthroughs, and the discussion of the objectives for understanding likely sources of potential misstatements has been removed.<sup>14</sup> Consequently, the objectives in paragraph 34 of Auditing Standard No. 5 for understanding potential sources of likely misstatement will continue to apply only to integrated audits.

## D. Requirements Regarding Financial Statement Disclosures

Because of the importance of disclosures to the fair presentation of financial statements and based on observations from the Board's oversight activities, the reproposed standards included additional requirements intended to increase the auditor's attention on the disclosures in the financial statements. For example, the reproposed standard on identifying and assessing risks of material misstatement included a new requirement related to developing an expectation about the necessary financial statement disclosures as part of obtaining an understanding of the company and its environment. Some commenters stated that the requirements should be clarified as applying to disclosures required by the applicable financial reporting framework. Also, the reproposed standard on evaluating audit results included expanded requirements for the auditor to evaluate whether the financial statements include the required disclosures. Some commenters stated that the standard should clarify that the requirements apply only to material disclosures.

After analyzing the comments, those two requirements have been revised to clarify that they refer to the fair presentation of the financial statements in conformity with the applicable financial reporting framework.<sup>15</sup>

## III. Additional Discussion of Standards and Comments

Some commenters on the reproposed standards stated that the Board should provide more information about its requirements, including how the requirements are expected to affect audits. Commenters requested information about how the Board's standards compare to the standards of other standards-setters. Some commenters also requested more explanation for certain requirements in the Board's reproposed standards.

Appendix 10 of this release has been expanded to provide additional background for certain requirements in the Board's standards and further discussion of the Board's responses to comments, including the basis for its conclusions regarding certain requirements.

---

<sup>13</sup> Paragraph 34 of Auditing Standard No. 5.

<sup>14</sup> Paragraphs 37–38 of Auditing Standard No. 12, *Identifying and Assessing Risks of Material Misstatement*.

<sup>15</sup> Paragraph 13 of Auditing Standard No. 12 and paragraph 31 of Auditing Standard No. 14, *Evaluating Audit Results*.

In analyzing comments on the appendix to the repropoed standards that compared the repropoed standards to the analogous standards of the International Auditing and Assurance Standards Board ("IAASB") and the Auditing Standards Board ("ASB") of the American Institute of Certified Public Accountants, the Board observed that a number of the explanations sought by commenters, e.g., the reasons for the differences in certain requirements, were discussed elsewhere in the release, e.g., in the appendix that provided additional discussion of comments.

Appendix 10 of this release discusses the principal rationale for the objectives and requirements in the standards being adopted today. Appendix 11 of this release discusses certain differences between the objectives and requirements of the PCAOB standards and the analogous standards of the IAASB and ASB. When a difference between the Board's standards and the analogous standards of the IAASB and ASB is noted, Appendix 11 contains a reference to the discussion of the Board's requirements in Appendix 10.

## IV. Effective Date

The release accompanying the repropoed standards stated that the Board expects that the standards would be effective for audits of fiscal years beginning on or after December 15, 2010, subject to approval by the Securities and Exchange Commission ("SEC"), and the Board requested comment on the proposed effective date. Several commenters stated that the Board should establish sufficient time for auditing firms to make changes to their methodologies and train their staff on the new risk assessment standards.

After considering the comments received and the timing of the adoption of the standards, the Board has determined that the accompanying standards and related amendments will be effective, subject to SEC approval, for audits of fiscal periods beginning on or after December 15, 2010. In its determination, the Board considered that many auditors already employ risk-based audit methodologies, which should facilitate the methodology changes and training necessary to implement the standards by the effective date.

\* \* \*

On the 5th day of August, in the year 2010, the foregoing was, in accordance with the bylaws of the Public Company Accounting Oversight Board,

ADOPTED BY THE BOARD.

/s/ J. Gordon Seymour

10. Additional Discussion of Auditing Standards, Amendments to PCAOB Standards, and Comments on Reproposed Standards
11. Comparison of the Objectives and Requirements of the Accompanying PCAOB Auditing Standards with the Analogous Standards of the International Auditing and Assurance Standards Board and the Auditing Standards Board of the American Institute of Certified Public Accountants

## Appendix 1—Auditing Standard No. 8

### Audit Risk

#### Introduction

1. This standard discusses the auditor's consideration of audit risk in an audit of financial statements as part of an integrated audit<sup>1</sup> or an audit of financial statements only.

#### Objective

2. The objective of the auditor is to conduct the audit of financial statements in a manner that reduces audit risk to an appropriately low level.

#### Audit Risk

3. To form an appropriate basis for expressing an opinion on the financial statements, the auditor must plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement<sup>2</sup> due to error or fraud. Reasonable assurance<sup>3</sup> is obtained by reducing audit risk to an appropriately low level through applying due professional care, including obtaining sufficient appropriate audit evidence.

4. In an audit of financial statements, audit risk is the risk that the auditor expresses an inappropriate audit opinion when the financial statements are materially misstated, i.e., the financial statements are not presented fairly in conformity with the applicable financial reporting framework. Audit risk is a function of the risk of material misstatement and detection risk.

Note: The auditor should look to the requirements of the Securities and Exchange Commission for the company under audit with respect to the accounting principles applicable to that company.

#### Risk of Material Misstatement

5. The risk of material misstatement refers to the risk that the financial statements are materially misstated. Auditing Standard No. 12, *Identifying and Assessing Risks of Material Misstatement*, indicates that the auditor should assess the risks of material misstatement at two levels: (1) at the financial statement level and (2) at the assertion<sup>4</sup> level.<sup>5</sup>

---

<sup>1</sup> When the auditor is performing an integrated audit of financial statements and internal control over financial reporting, the requirements in Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*, also apply. However, the risks of material misstatement of the financial statements are the same for both the audit of financial statements and the audit of internal control over financial reporting.

<sup>2</sup> Misstatement is defined in Appendix A of Auditing Standard No. 14, *Evaluating Audit Results*.

<sup>3</sup> See AU sec. 110, *Responsibilities and Functions of the Independent Auditor*, and paragraph .10 of AU sec. 230, *Due Professional Care in the Performance of Work*, for a further discussion of reasonable assurance.

<sup>4</sup> See Auditing Standard No. 15, *Audit Evidence*, for a description of financial statement assertions.

<sup>5</sup> Paragraph 59 of Auditing Standard No. 12.

6. Risks of material misstatement at the financial statement level relate pervasively to the financial statements as a whole and potentially affect many assertions. Risks of material misstatement at the financial statement level may be especially relevant to the auditor's consideration of the risk of material misstatement due to fraud. For example, an ineffective control environment, a lack of sufficient capital to continue operations, and declining conditions affecting the company's industry might create pressures or opportunities for management to manipulate the financial statements, leading to higher risk of material misstatement.

7. Risk of material misstatement at the assertion level consists of the following components:

- a. *Inherent risk*, which refers to the susceptibility of an assertion to a misstatement, due to error or fraud, that could be material, individually or in combination with other misstatements, before consideration of any related controls.
- b. *Control risk*, which is the risk that a misstatement due to error or fraud that could occur in an assertion and that could be material, individually or in combination with other misstatements, will not be prevented or detected on a timely basis by the company's internal control. Control risk is a function of the effectiveness of the design and operation of internal control.

8. Inherent risk and control risk are related to the company, its environment, and its internal control, and the auditor assesses those risks based on evidence he or she obtains. The auditor assesses inherent risk using information obtained from performing risk assessment procedures and considering the characteristics of the accounts and disclosures in the financial statements.<sup>6</sup> The auditor assesses control risk using evidence obtained from tests of controls (if the auditor plans to rely on those controls to assess control risk at less than maximum) and from other sources.<sup>7</sup>

## Detection Risk

9. In an audit of financial statements, detection risk is the risk that the procedures performed by the auditor will not detect a misstatement that exists and that could be material, individually or in combination with other misstatements. Detection risk is affected by (1) the effectiveness of the substantive procedures and (2) their application by the auditor, i.e., whether the procedures were performed with due professional care.

10. The auditor uses the assessed risk of material misstatement to determine the appropriate level of detection risk for a financial statement assertion. The higher the risk of material misstatement, the lower the level of detection risk needs to be in order to reduce audit risk to an appropriately low level.

11. The auditor reduces the level of detection risk through the nature, timing, and extent of the substantive procedures performed. As the appropriate level of detection risk decreases, the evidence from substantive procedures that the auditor should obtain increases.<sup>8</sup>

---

<sup>6</sup> Paragraph 59.a. of Auditing Standard No. 12.

<sup>7</sup> Paragraphs 32–34 of Auditing Standard No. 13, *The Auditor's Responses to the Risks of Material Misstatement*.

<sup>8</sup> Paragraph 37 of Auditing Standard No. 13.

## Appendix 2—Auditing Standard No. 9

### Audit Planning

#### Introduction

1. This standard establishes requirements regarding planning an audit.

#### Objective

2. The objective of the auditor is to plan the audit so that the audit is conducted effectively.

#### Responsibility of the Engagement Partner for Planning

3. The **engagement partner**<sup>1</sup> is responsible for the engagement and its performance. Accordingly, the engagement partner is responsible for planning the audit and may seek assistance from appropriate engagement team members in fulfilling this responsibility. Engagement team members who assist the engagement partner with audit planning also should comply with the relevant requirements in this standard.

#### Planning an Audit

4. The auditor should properly plan the audit. This standard describes the auditor's responsibilities for properly planning the audit.<sup>2</sup>

5. Planning the audit includes establishing the overall audit strategy for the engagement and developing an audit plan, which includes, in particular, planned risk assessment procedures and planned responses to the risks of material misstatement. Planning is not a discrete phase of an audit but, rather, a continual and iterative process that might begin shortly after (or in connection with) the completion of the previous audit and continues until the completion of the current audit.

#### Preliminary Engagement Activities

6. The auditor should perform the following activities at the beginning of the audit:

- a. Perform procedures regarding the continuance of the client relationship and the specific audit engagement,<sup>3</sup>
- b. Determine compliance with independence and ethics requirements, and

Note: The determination of compliance with independence and ethics requirements is not limited to preliminary engagement activities and should be reevaluated with changes in circumstances.

---

<sup>1</sup> Terms defined in Appendix A, *Definitions*, are set in **boldface type** the first time they appear.

<sup>2</sup> The term, "auditor," as used in this standard, encompasses both the engagement partner and the engagement team members who assist the engagement partner in planning the audit.

<sup>3</sup> Paragraphs .14–.16 of QC sec. 20, *System of Quality Control for a CPA Firm's Accounting and Auditing Practice*. AU sec. 161, *The Relationship of Generally Accepted Auditing Standards to Quality Control Standards*, explains how the quality control standards relate to the conduct of audits.

- c. Establish an understanding with the client regarding the services to be performed on the engagement.<sup>4</sup>

## Planning Activities

7. The nature and extent of planning activities that are necessary depend on the size and complexity of the company, the auditor's previous experience with the company, and changes in circumstances that occur during the audit. When developing the audit strategy and audit plan, as discussed in paragraphs 8–10, the auditor should evaluate whether the following matters are important to the company's financial statements and internal control over financial reporting and, if so, how they will affect the auditor's procedures:

- Knowledge of the company's internal control over financial reporting obtained during other engagements performed by the auditor;
- Matters affecting the industry in which the company operates, such as financial reporting practices, economic conditions, laws and regulations, and technological changes;
- Matters relating to the company's business, including its organization, operating characteristics, and capital structure;
- The extent of recent changes, if any, in the company, its operations, or its internal control over financial reporting;
- The auditor's preliminary judgments about materiality,<sup>5</sup> risk, and, in integrated audits, other factors relating to the determination of material weaknesses;
- Control deficiencies previously communicated to the audit committee<sup>6</sup> or management;
- Legal or regulatory matters of which the company is aware;
- The type and extent of available evidence related to the effectiveness of the company's internal control over financial reporting;
- Preliminary judgments about the effectiveness of internal control over financial reporting;
- Public information about the company relevant to the evaluation of the likelihood of material financial statement misstatements and the effectiveness of the company's internal control over financial reporting;
- Knowledge about risks related to the company evaluated as part of the auditor's client acceptance and retention evaluation; and
- The relative complexity of the company's operations.

Note: Many smaller companies have less complex operations. Additionally, some larger, complex companies may have less complex units or processes. Factors that might indicate less complex operations include: fewer business lines; less complex business processes and financial reporting systems; more centralized accounting functions; extensive involvement by senior management

---

<sup>4</sup> AU sec. 310, *Appointment of the Independent Auditor*.

<sup>5</sup> Auditing Standard No. 11, *Consideration of Materiality in Planning and Performing an Audit*.

<sup>6</sup> If no audit committee exists, all references to the audit committee in this standard apply to the entire board of directors of the company. See 15 U.S.C. §§78c(a)58 and 7201(a)(3).

in the day-to-day activities of the business; and fewer levels of management, each with a wide span of control.

## Audit Strategy

8. The auditor should establish an overall audit strategy that sets the scope, timing, and direction of the audit and guides the development of the audit plan.

9. In establishing the overall audit strategy, the auditor should take into account:

- a. The reporting objectives of the engagement and the nature of the communications required by PCAOB standards,<sup>7</sup>
- b. The factors that are significant in directing the activities of the engagement team,<sup>8</sup>
- c. The results of preliminary engagement activities<sup>9</sup> and the auditor's evaluation of the important matters in accordance with paragraph 7 of this standard, and
- d. The nature, timing, and extent of resources necessary to perform the engagement.<sup>10</sup>

## Audit Plan

10. The auditor should develop and document an audit plan that includes a description of:

- a. The planned nature, timing, and extent of the risk assessment procedures,<sup>11</sup>
- b. The planned nature, timing, and extent of tests of controls and substantive procedures;<sup>12</sup> and
- c. Other planned audit procedures required to be performed so that the engagement complies with PCAOB standards.

## Multi-location Engagements

11. In an audit of the financial statements of a company with operations in multiple locations or business units,<sup>13</sup> the auditor should determine the extent to which audit procedures should be performed at selected locations or business units to obtain sufficient appropriate evidence to obtain reasonable assurance

---

<sup>7</sup> See, e.g., AU sec. 310 and AU sec. 380, *Communication With Audit Committees*. Also, various laws or regulations require other matters to be communicated. (See, e.g., Rule 2-07 of Regulation S-X, 17 CFR 210.2-07; and Rule 10A-3 under the Securities Exchange Act of 1934, 17 CFR 240.10A-3.) The requirements of this standard do not modify communications required by those other laws or regulations.

<sup>8</sup> See, e.g., paragraph 6 of Auditing Standard No. 10, *Supervision of the Audit Engagement*.

<sup>9</sup> Paragraph 6 of this standard.

<sup>10</sup> See, e.g., paragraph .06 of AU sec. 230, *Due Professional Care in the Performance of Work*, paragraph 16 of this standard, and paragraph 5.a. of Auditing Standard No. 13, *The Auditor's Responses to the Risks of Material Misstatement*.

<sup>11</sup> Auditing Standard No. 12, *Identifying and Assessing Risks of Material Misstatement*.

<sup>12</sup> Auditing Standard No. 13 and Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.

<sup>13</sup> The term "business units" includes subsidiaries, divisions, branches, components, or investments.

about whether the consolidated financial statements are free of material misstatement. This includes determining the locations or business units at which to perform audit procedures, as well as the nature, timing, and extent of the procedures to be performed at those individual locations or business units. The auditor should assess the risks of material misstatement to the consolidated financial statements associated with the location or business unit and correlate the amount of audit attention devoted to the location or business unit with the degree of risk of material misstatement associated with that location or business unit.

**12.** Factors that are relevant to the assessment of the risks of material misstatement associated with a particular location or business unit and the determination of the necessary audit procedures include:

- a. The nature and amount of assets, liabilities, and transactions executed at the location or business unit, including, e.g., significant transactions executed at the location or business unit that are outside the normal course of business for the company, or that otherwise appear to be unusual given the auditor's understanding of the company and its environment;<sup>14</sup>
- b. The materiality of the location or business unit;<sup>15</sup>
- c. The specific risks associated with the location or business unit that present a reasonable possibility<sup>16</sup> of material misstatement to the company's consolidated financial statements;
- d. Whether the risks of material misstatement associated with the location or business unit apply to other locations or business units such that, in combination, they present a reasonable possibility of material misstatement to the company's consolidated financial statements;
- e. The degree of centralization of records or information processing;
- f. The effectiveness of the control environment, particularly with respect to management's control over the exercise of authority delegated to others and its ability to effectively supervise activities at the location or business unit; and
- g. The frequency, timing, and scope of monitoring activities by the company or others at the location or business unit.

Note: When performing an audit of internal control over financial reporting, refer to Appendix B, Special Topics, of Auditing Standard No. 5<sup>17</sup> for considerations when a company has multiple locations or business units.

**13.** In determining the locations or business units at which to perform audit procedures, the auditor may take into account relevant activities performed by internal audit, as described in AU sec. 322, *The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements*, or others, as described in Auditing Standard No. 5. AU sec. 322 and Auditing Standard No. 5 establish requirements regarding using the work of internal audit and others, respectively.

---

<sup>14</sup> Paragraph .66 of AU sec. 316, *Consideration of Fraud in a Financial Statement Audit*.

<sup>15</sup> Paragraph 10 of Auditing Standard No. 11 describes the consideration of materiality in planning and performing audit procedures at an individual location or business unit.

<sup>16</sup> There is a reasonable possibility of an event, as used in this standard, when the likelihood of the event is either "reasonably possible" or "probable," as those terms are used in the FASB Accounting Standards Codification, Contingencies Topic, paragraph 450-20-25-1.

<sup>17</sup> Paragraphs B10–B16 of Auditing Standard No. 5.

14. AU sec. 543, *Part of Audit Performed by Other Independent Auditors*, describes the auditor's responsibilities regarding using the work and reports of other independent auditors who audit the financial statements of one or more of the locations or business units that are included in the consolidated financial statements.<sup>18</sup> In those situations, the auditor should perform the procedures in paragraphs 11–13 of this standard to determine the locations or business units at which audit procedures should be performed.

## Changes During the Course of the Audit

15. The auditor should modify the overall audit strategy and the audit plan as necessary if circumstances change significantly during the course of the audit, including changes due to a revised assessment of the risks of material misstatement or the discovery of a previously unidentified risk of material misstatement.

## Persons with Specialized Skill or Knowledge

16. The auditor should determine whether specialized skill or knowledge is needed to perform appropriate risk assessments, plan or perform audit procedures, or evaluate audit results.

17. If a person with specialized skill or knowledge employed or engaged by the auditor participates in the audit, the auditor should have sufficient knowledge of the subject matter to be addressed by such a person to enable the auditor to:

- a. Communicate the objectives of that person's work;
- b. Determine whether that person's procedures meet the auditor's objectives; and
- c. Evaluate the results of that person's procedures as they relate to the nature, timing, and extent of other planned audit procedures and the effects on the auditor's report.

## Additional Considerations in Initial Audits

18. The auditor should undertake the following activities before starting an initial audit:

- a. Perform procedures regarding the acceptance of the client relationship and the specific audit engagement; and
- b. Communicate with the predecessor auditor in situations in which there has been a change of auditors in accordance with AU sec. 315, *Communications Between Predecessor and Successor Auditors*.

19. The purpose and objective of planning the audit are the same for an initial audit or a recurring audit engagement. However, for an initial audit, the auditor should determine the additional planning activities necessary to establish an appropriate audit strategy and audit plan, including determining the audit procedures necessary to obtain sufficient appropriate audit evidence regarding the opening balances.<sup>19</sup>

---

<sup>18</sup> For integrated audits, see also paragraphs C8–C11 of Auditing Standard No. 5.

<sup>19</sup> See also paragraph 3 of Auditing Standard No. 6, *Evaluating Consistency of Financial Statements*.

## Appendix A

### Definition

- A1. For purposes of this standard, the term listed below is defined as follows:
- A2. Engagement partner—The member of the engagement team with primary responsibility for the audit.

## Appendix 3—Auditing Standard No. 10

### Supervision of the Audit Engagement

#### Introduction

1. This standard establishes requirements regarding supervision of the audit engagement, including supervising the work of engagement team members.

#### Objective

2. The objective of the auditor is to supervise the audit engagement, including supervising the work of engagement team members so that the work is performed as directed and supports the conclusions reached.

#### Responsibility of the Engagement Partner for Supervision

3. The **engagement partner**<sup>1</sup> is responsible for the engagement and its performance. Accordingly, the engagement partner is responsible for proper supervision of the work of engagement team members and for compliance with PCAOB standards, including standards regarding using the work of specialists,<sup>2</sup> other auditors,<sup>3</sup> internal auditors,<sup>4</sup> and others who are involved in testing controls.<sup>5</sup> Paragraphs 5–6 of this standard describe the nature and extent of supervisory activities necessary for proper supervision of engagement team members.<sup>6</sup>

4. The engagement partner may seek assistance from appropriate engagement team members in fulfilling his or her responsibilities pursuant to this standard. Engagement team members who assist the engagement partner with supervision of the work of other engagement team members also should comply with the requirements in this standard with respect to the supervisory responsibilities assigned to them.

#### Supervision of Engagement Team Members

5. The engagement partner and, as applicable, other engagement team members performing supervisory activities, should:

---

<sup>1</sup> Terms defined in Appendix A, *Definitions*, are set in **boldface type** the first time they appear.

<sup>2</sup> AU sec. 336, *Using the Work of a Specialist*.

<sup>3</sup> AU sec. 543, *Part of Audit Performed by Other Independent Auditors*.

<sup>4</sup> AU sec. 322, *The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements*.

<sup>5</sup> Paragraphs 16–19 of Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.

<sup>6</sup> See also paragraph .06 of AU sec. 230, *Due Professional Care in the Performance of Work*.

- a. Inform engagement team members of their responsibilities,<sup>7</sup> including:
  - (1) The objectives of the procedures that they are to perform;
  - (2) The nature, timing, and extent of procedures they are to perform; and
  - (3) Matters that could affect the procedures to be performed or the evaluation of the results of those procedures, including relevant aspects of the company, its environment, and its internal control over financial reporting,<sup>8</sup> and possible accounting and auditing issues;
- b. Direct engagement team members to bring significant accounting and auditing issues arising during the audit to the attention of the engagement partner or other engagement team members performing supervisory activities so they can evaluate those issues and determine that appropriate actions are taken in accordance with PCAOB standards;<sup>9</sup>

Note: In applying due professional care in accordance with AU sec. 230, each engagement team member has a responsibility to bring to the attention of appropriate persons, disagreements or concerns the engagement team member might have with respect to accounting and auditing issues that he or she believes are of significance to the financial statements or the auditor's report regardless of how those disagreements or concerns may have arisen.
- c. Review the work of engagement team members to evaluate whether:
  - (1) The work was performed and documented;
  - (2) The objectives of the procedures were achieved; and
  - (3) The results of the work support the conclusions reached.<sup>10</sup>

**6.** To determine the extent of supervision necessary for engagement team members to perform their work as directed and form appropriate conclusions, the engagement partner and other engagement team members performing supervisory activities should take into account:

- a. The nature of the company, including its size and complexity;<sup>11</sup>
- b. The nature of the assigned work for each engagement team member, including:
  - (1) The procedures to be performed, and
  - (2) The controls or accounts and disclosures to be tested;
- c. The risks of material misstatement; and

---

<sup>7</sup> AU sec. 230.06 and paragraph 5 of Auditing Standard No. 13, *The Auditor's Responses to the Risks of Material Misstatement*, establish requirements regarding the appropriate assignment of engagement team members.

<sup>8</sup> Auditing Standard No. 12, *Identifying and Assessing Risks of Material Misstatement*, describes the auditor's responsibilities for obtaining an understanding of the company, its environment, and its internal control over financial reporting.

<sup>9</sup> See, e.g., paragraph 15 of Auditing Standard No. 9, *Audit Planning*, paragraph 74 of Auditing Standard No. 12, and paragraphs 20–23 and 35–36 of Auditing Standard No. 14, *Evaluating Audit Results*.

<sup>10</sup> Auditing Standard No. 14 describes the auditor's responsibilities for evaluating the results of the audit, and Auditing Standard No. 3, *Audit Documentation*, establishes requirements regarding audit documentation.

<sup>11</sup> Paragraph 10 of Auditing Standard No. 12.

- d. The knowledge, skill, and ability of each engagement team member.<sup>12</sup>

Note: In accordance with the requirements of paragraph 5 of Auditing Standard No. 13, *The Auditor's Responses to the Risks of Material Misstatement*, the extent of supervision of engagement team members should be commensurate with the risks of material misstatement.<sup>13</sup>

---

<sup>12</sup> See also paragraph 5.a. of Auditing Standard No. 13 and AU sec. 230.06.

<sup>13</sup> Paragraph 5.b. of Auditing Standard No. 13 indicates that the extent of supervision of engagement team members is part of the auditor's overall responses to the risks of material misstatement.

## Appendix A

### Definition

A1. For purposes of this standard, the term listed below is defined as follows:

A2. Engagement partner—The member of the engagement team with primary responsibility for the audit.

## Appendix 4—Auditing Standard No. 11

# Consideration of Materiality in Planning and Performing an Audit

## Introduction

1. This standard establishes requirements regarding the auditor's consideration of materiality in planning and performing an audit.<sup>1</sup>

## Materiality in the Context of an Audit

2. In interpreting the federal securities laws, the Supreme Court of the United States has held that a fact is material if there is "a substantial likelihood that the ...fact would have been viewed by the reasonable investor as having significantly altered the 'total mix' of information made available."<sup>2</sup> As the Supreme Court has noted, determinations of materiality require "delicate assessments of the inferences a 'reasonable shareholder' would draw from a given set of facts and the significance of those inferences to him ...."<sup>3</sup>

3. To obtain reasonable assurance about whether the financial statements are free of material misstatement, the auditor should plan and perform audit procedures to detect misstatements that, individually or in combination with other misstatements, would result in material misstatement of the financial statements. This includes being alert while planning and performing audit procedures for misstatements that could be material due to quantitative or qualitative factors. Also, the evaluation of uncorrected misstatements in accordance with Auditing Standard No. 14, *Evaluating Audit Results*, requires consideration of both qualitative and quantitative factors.<sup>4</sup> However, it ordinarily is not practical to design audit procedures to detect misstatements that are material based solely on qualitative factors.

4. For integrated audits, Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*, states, "In planning the audit of internal control over financial reporting, the auditor should use the same materiality considerations he or she would use in planning the audit of the company's annual financial statements."<sup>5</sup>

## Objective

5. The objective of the auditor is to apply the concept of materiality appropriately in planning and performing audit procedures.

---

<sup>1</sup> Auditing Standard No. 14 establishes requirements regarding the auditor's consideration of materiality in evaluating audit results.

<sup>2</sup> *TSC Industries v. Northway, Inc.*, 426 U.S. 438, 449 (1976). See also *Basic, Inc. v. Levinson*, 485 U.S. 224 (1988).

<sup>3</sup> *TSC Industries*, 426 U.S. at 450.

<sup>4</sup> Appendix B of Auditing Standard No. 14.

<sup>5</sup> Paragraph 20 of Auditing Standard No. 5.

## Considering Materiality in Planning and Performing an Audit

### Establishing a Materiality Level for the Financial Statements as a Whole

6. To plan the nature, timing, and extent of audit procedures, the auditor should establish a materiality level for the financial statements as a whole that is appropriate in light of the particular circumstances. This includes consideration of the company's earnings and other relevant factors. To determine the nature, timing, and extent of audit procedures, the materiality level for the financial statements as a whole needs to be expressed as a specified amount.

Note: If financial statements for the audit period are not available, the auditor may establish an initial materiality level based on estimated or preliminary financial statement amounts. In those situations, the auditor should take into account the effects of known or expected changes in the company's financial statements, including significant transactions or adjustments that are expected to be reflected in the financial statements at the end of the period.

### Establishing Materiality Levels for Particular Accounts or Disclosures

7. The auditor should evaluate whether, in light of the particular circumstances, there are certain accounts or disclosures for which there is a substantial likelihood that misstatements of lesser amounts than the materiality level established for the financial statements as a whole would influence the judgment of a reasonable investor. If so, the auditor should establish separate materiality levels for those accounts or disclosures to plan the nature, timing, and extent of audit procedures for those accounts or disclosures.

Note: Lesser amounts of misstatements could influence the judgment of a reasonable investor because of qualitative factors, e.g., because of the sensitivity of circumstances surrounding misstatements, such as conflicts of interest in related party transactions.

### Determining Tolerable Misstatement

8. The auditor should determine the amount or amounts of tolerable misstatement for purposes of assessing risks of material misstatement and planning and performing audit procedures at the account or disclosure level. The auditor should determine tolerable misstatement at an amount or amounts that reduce to an appropriately low level the probability that the total of uncorrected and undetected misstatements would result in material misstatement of the financial statements. Accordingly, tolerable misstatement should be less than the materiality level for the financial statements as a whole and, if applicable, the materiality level or levels for particular accounts or disclosures.

9. In determining tolerable misstatement and planning and performing audit procedures, the auditor should take into account the nature, cause (if known), and amount of misstatements that were accumulated in audits of the financial statements of prior periods.

## Considerations for Multi-location Engagements

10. For purposes of the audit of the consolidated financial statements of a company with multiple locations or business units, the auditor should determine tolerable misstatement for the individual locations or business units at an amount that reduces to an appropriately low level the probability that the total of uncorrected and undetected misstatements would result in material misstatement of the consolidated financial statements. Accordingly, tolerable misstatement at an individual location should be less than the materiality level for the financial statements as a whole.

## Considerations as the Audit Progresses

11. The auditor should reevaluate the established materiality level or levels and tolerable misstatement when, because of changes in the particular circumstances or additional information that comes to the auditor's attention, there is a substantial likelihood that misstatements of amounts that differ significantly from the materiality level or levels that were established initially would influence the judgment of a reasonable investor. Situations in which changes in circumstances or additional information that comes to the auditor's attention would require such reevaluation include:

- a. The materiality level or levels and tolerable misstatement were established initially based on estimated or preliminary financial statement amounts that differ significantly from actual amounts.
- b. Events or changes in conditions occurring after the materiality level or levels and tolerable misstatement were established initially are likely to affect investors' perceptions about the company's financial position, results of operations, or cash flows.

Note: Examples of such events or changes in conditions include (1) changes in laws, regulations, or the applicable financial reporting framework that affect investors' expectations about the measurement or disclosure of certain items and (2) significant new contractual arrangements that draw attention to a particular aspect of a company's business that is separately disclosed in the financial statements.

12. If the auditor's reevaluation results in a lower amount for the materiality level or levels or tolerable misstatement than initially established by the auditor, the auditor should (1) evaluate the effect, if any, of the lower amount or amounts on his or her risk assessments and audit procedures and (2) modify the nature, timing, and extent of audit procedures as necessary to obtain sufficient appropriate audit evidence.

Note: The reevaluation of the materiality level or levels and tolerable misstatement is also relevant to the auditor's evaluation of uncorrected misstatements in accordance with Auditing Standard No. 14.<sup>6</sup>

---

<sup>6</sup> Paragraph 17 of Auditing Standard No. 14.

## Appendix 5—Auditing Standard No. 12

### Identifying and Assessing Risks of Material Misstatement

#### Introduction

1. This standard establishes requirements regarding the process of identifying and assessing risks of material misstatement<sup>1</sup> of the financial statements.

2. Paragraphs 4–58 of this standard discuss the auditor's responsibilities for performing **risk assessment procedures**.<sup>2</sup> Paragraphs 59–73 of this standard discuss identifying and assessing the risks of material misstatement using information obtained from performing risk assessment procedures.

#### Objective

3. The objective of the auditor is to identify and appropriately assess the risks of material misstatement, thereby providing a basis for designing and implementing responses to the risks of material misstatement.

#### Performing Risk Assessment Procedures

4. The auditor should perform risk assessment procedures that are sufficient to provide a reasonable basis for identifying and assessing the risks of material misstatement, whether due to error or fraud,<sup>3</sup> and designing further audit procedures.<sup>4</sup>

5. Risks of material misstatement can arise from a variety of sources, including external factors, such as conditions in the company's industry and environment, and company-specific factors, such as the nature of the company, its activities, and internal control over financial reporting. For example, external or company-specific factors can affect the judgments involved in determining accounting estimates or create pressures to manipulate the financial statements to achieve certain financial targets. Also, risks of material misstatement may relate to, e.g., personnel who lack the necessary financial reporting competencies, information systems that fail to accurately capture business transactions, or financial reporting processes that are not adequately aligned with the requirements in the applicable financial reporting framework. Thus, the audit procedures that are necessary to identify and appropriately assess the risks of material misstatement include consideration of both external factors and company-specific factors. This standard discusses the following risk assessment procedures:

- a. Obtaining an understanding of the company and its environment (paragraphs 7–17);

---

<sup>1</sup> Paragraphs 5–8 of Auditing Standard No. 8, *Audit Risk*.

<sup>2</sup> Terms defined in Appendix A, *Definitions*, are set in **boldface type** the first time they appear.

<sup>3</sup> AU sec. 316, *Consideration of Fraud in a Financial Statement Audit*, discusses fraud, its characteristics, and the types of misstatements due to fraud that are relevant to the audit, i.e., misstatements arising from fraudulent financial reporting and misstatements arising from asset misappropriation.

<sup>4</sup> Auditing Standard No. 15, *Audit Evidence*, describes further audit procedures as consisting of tests of controls and substantive procedures.

- b. Obtaining an understanding of internal control over financial reporting (paragraphs 18–40);
- c. Considering information from the client acceptance and retention evaluation, audit planning activities, past audits, and other engagements performed for the company (paragraphs 41–45);
- d. Performing analytical procedures (paragraphs 46–48);
- e. Conducting a discussion among engagement team members regarding the risks of material misstatement (paragraphs 49–53); and
- f. Inquiring of the audit committee, management, and others within the company about the risks of material misstatement (paragraphs 54–58).

Note: This standard describes an approach to identifying and assessing risks of material misstatement that begins at the financial statement level and with the auditor's overall understanding of the company and its environment and works down to the significant accounts and disclosures and their relevant assertions.<sup>5</sup>

6. In an integrated audit, the risks of material misstatement of the financial statements are the same for both the audit of internal control over financial reporting and the audit of financial statements. The auditor's risk assessment procedures should apply to both the audit of internal control over financial reporting and the audit of financial statements.

## Obtaining an Understanding of the Company and Its Environment

7. The auditor should obtain an understanding of the company and its environment ("understanding of the company") to understand the events, conditions, and company activities that might reasonably be expected to have a significant effect on the risks of material misstatement. Obtaining an understanding of the company includes understanding:

- a. Relevant industry, regulatory, and other external factors;
- b. The nature of the company;
- c. The company's selection and application of accounting principles, including related disclosures;
- d. The **company's objectives and strategies** and those related **business risks** that might reasonably be expected to result in risks of material misstatement; and
- e. The company's measurement and analysis of its financial performance.

8. In obtaining an understanding of the company, the auditor should evaluate whether significant changes in the company from prior periods, including changes in its internal control over financial reporting, affect the risks of material misstatement.

---

<sup>5</sup> Paragraph 11 of Auditing Standard No. 15 discusses financial statement assertions.

## Industry, Regulatory, and Other External Factors

9. Obtaining an understanding of relevant industry, regulatory, and other external factors encompasses industry factors, including the competitive environment and technological developments; the regulatory environment, including the applicable financial reporting framework<sup>6</sup> and the legal and political environment;<sup>7</sup> and external factors, including general economic conditions.

## Nature of the Company

10. Obtaining an understanding of the nature of the company includes understanding:

- The company's organizational structure and management personnel;
- The sources of funding of the company's operations and investment activities, including the company's capital structure, noncapital funding (e.g., subordinated debt or dependencies on supplier financing), and other debt instruments;
- The company's significant investments, including equity method investments, joint ventures, and variable interest entities;
- The company's operating characteristics, including its size and complexity;

Note: The size and complexity of a company might affect the risks of misstatement and how the company addresses those risks.

- The sources of the company's earnings, including the relative profitability of key products and services; and
- Key supplier and customer relationships.

Note: The auditor should take into account the information gathered while obtaining an understanding of the nature of the company when determining the existence of related parties in accordance with AU sec. 334, *Related Parties*.

11. As part of obtaining an understanding of the company as required by paragraph 7, the auditor should consider performing the following procedures and the extent to which the procedures should be performed:

- Reading public information about the company relevant to the evaluation of the likelihood of material financial statement misstatements and, in an integrated audit, the effectiveness of the company's internal control over financial reporting, e.g., company-issued press releases, company-prepared presentation materials for analysts or investor groups, and analyst reports;
- Observing or reading transcripts of earnings calls and, to the extent publicly available, other meetings with investors or rating agencies;

---

<sup>6</sup> The auditor should look to the requirements of the Securities and Exchange Commission for the company under audit with respect to the accounting principles applicable to that company.

<sup>7</sup> AU sec. 317, *Illegal Acts by Clients*, discusses the auditor's consideration of laws and regulations relevant to the audit.

- Obtaining an understanding of compensation arrangements with senior management, including incentive compensation arrangements, changes or adjustments to those arrangements, and special bonuses; and
- Obtaining information about trading activity in the company's securities and holdings in the company's securities by significant holders to identify potentially significant unusual developments (e.g., from Forms 3, 4, 5, 13D, and 13G).

## **Selection and Application of Accounting Principles, Including Related Disclosures**

**12.** As part of obtaining an understanding of the company's selection and application of accounting principles, including related disclosures, the auditor should evaluate whether the company's selection and application of accounting principles are appropriate for its business and consistent with the applicable financial reporting framework and accounting principles used in the relevant industry. Also, to identify and assess risks of material misstatement related to omitted, incomplete, or inaccurate disclosures, the auditor should develop expectations about the disclosures that are necessary for the company's financial statements to be presented fairly in conformity with the applicable financial reporting framework.

**13.** The following matters, if present, are relevant to the necessary understanding of the company's selection and application of accounting principles, including related disclosures:

- Significant changes in the company's accounting principles, financial reporting policies, or disclosures and the reasons for such changes;
- The financial reporting competencies of personnel involved in selecting and applying significant new or complex accounting principles;
- The accounts or disclosures for which judgment is used in the application of significant accounting principles, especially in determining management's estimates and assumptions;
- The effect of significant accounting principles in controversial or emerging areas for which there is a lack of authoritative guidance or consensus;
- The methods the company uses to account for significant and unusual transactions; and
- Financial reporting standards and laws and regulations that are new to the company, including when and how the company will adopt such requirements.

## **Company Objectives, Strategies, and Related Business Risks**

**14.** The purpose of obtaining an understanding of the company's objectives, strategies, and related business risks is to identify business risks that could reasonably be expected to result in material misstatement of the financial statements.

Note: Some relevant business risks might be identified through other risk assessment procedures, such as obtaining an understanding of

the nature of the company and understanding industry, regulatory, and other external factors.

15. The following are examples of situations in which business risks might result in material misstatement of the financial statements:

- Industry developments (a potential related business risk might be, e.g., that the company does not have the personnel or expertise to deal with the changes in the industry.)
- New products and services (a potential related business risk might be, e.g., that the new product or service will not be successful.)
- Use of information technology ("IT") (a potential related business risk might be, e.g., that systems and processes are incompatible.)
- New accounting requirements (a potential related business risk might be, e.g., incomplete or improper implementation of a new accounting requirement.)
- Expansion of the business (a potential related business risk might be, e.g., that the demand for the company's products or services has not been accurately estimated.)
- The effects of implementing a strategy, particularly any effects that will lead to new accounting requirements (a potential related business risk might be, e.g., incomplete or improper implementation of the strategy.)
- Current and prospective financing requirements (a potential related business risk might be, e.g., the loss of financing due to the company's inability to meet financing requirements.)
- Regulatory requirements (a potential related business risk might be, e.g., that there is increased legal exposure.)

Note: Business risks could affect risks of material misstatement at the financial statement level, which would affect many accounts and disclosures in the financial statements. For example, a company's loss of financing or declining conditions affecting the company's industry could affect its ability to settle its obligations when due. This, in turn, could affect the risks of material misstatement related to, e.g., the classification of long-term liabilities or valuation of long-term assets, or it could result in substantial doubt about the company's ability to continue as a going concern. Other business risks could affect the risks of material misstatement for particular accounts, disclosures, or assertions. For example, an unsuccessful new product or service or failed business expansion might affect the risks of material misstatement related to the valuation of inventory and other related assets.

## Company Performance Measures

16. The purpose of obtaining an understanding of the company's performance measures is to identify performance measures, whether external or internal, that affect the risks of material misstatement.

17. The following are examples of performance measures that might affect the risks of material misstatement:

- Measures that form the basis for contractual commitments or incentive compensation arrangements;

- Measures used by external parties, such as analysts and rating agencies, to review the company's performance; and
- Measures the company uses to monitor its operations that highlight unexpected results or trends that prompt management to investigate their cause and take corrective action, including correction of misstatements.

Note: The first two examples represent performance measures that can affect the risks of material misstatement by creating incentives or pressures for management of the company to manipulate certain accounts or disclosures to achieve certain performance targets (or conceal a failure to achieve those targets). The third example represents performance measures that management might use to monitor risks affecting the financial statements.

Note: Smaller companies might have less formal processes to measure and review financial performance. In such cases, the auditor might identify relevant performance measures by considering the information that the company uses to manage the business.

## Obtaining an Understanding of Internal Control Over Financial Reporting

**18.** The auditor should obtain a sufficient understanding of each component<sup>8</sup> of internal control over financial reporting ("understanding of internal control") to (a) identify the types of potential misstatements, (b) assess the factors that affect the risks of material misstatement, and (c) design further audit procedures.

**19.** The nature, timing, and extent of procedures that are necessary to obtain an understanding of internal control depend on the size and complexity of the company;<sup>9</sup> the auditor's existing knowledge of the company's internal control over financial reporting; the nature of the company's controls, including the company's use of IT; the nature and extent of changes in systems and operations; and the nature of the company's documentation of its internal control over financial reporting.

Note: The auditor also might obtain an understanding of certain controls that are not part of internal control over financial reporting, e.g., controls over the completeness and accuracy of operating or other nonfinancial information used as audit evidence.<sup>10</sup>

**20.** Obtaining an understanding of internal control includes evaluating the design of controls that are relevant to the audit and determining whether the controls have been implemented.

Note: Procedures the auditor performs to obtain evidence about design effectiveness include inquiry of appropriate personnel, observation of the company's operations, and inspection of relevant documentation. Walkthroughs, as described

---

<sup>8</sup> Paragraphs 21–22 of this standard discuss components of internal control over financial reporting.

<sup>9</sup> Paragraph 13 of Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That is Integrated with An Audit of Financial Statements*, states, "The size and complexity of the company, its business processes, and business units, may affect the way in which the company achieves many of its control objectives. The size and complexity of the company also might affect the risks of misstatement and the controls necessary to address those risks."

<sup>10</sup> Paragraph 10 of Auditing Standard No. 15.

in paragraphs 37–38, that include these procedures ordinarily are sufficient to evaluate design effectiveness.

Note: Determining whether a control has been implemented means determining whether the control exists and whether the company is using it. The procedures to determine whether a control has been implemented may be performed in connection with the evaluation of its design. Procedures performed to determine whether a control has been implemented include inquiry of appropriate personnel, in combination with observation of the application of controls or inspection of documentation. Walkthroughs, as described in paragraphs 37–38, that include these procedures ordinarily are sufficient to determine whether a control has been implemented.

**21.** Internal control over financial reporting can be described as consisting of the following components:<sup>11</sup>

- The control environment,
- The company's risk assessment process,
- Information and communication,
- Control activities, and
- Monitoring of controls.

**22.** Management might use an internal control framework with components that differ from the components identified in the preceding paragraph when establishing and maintaining the company's internal control over financial reporting. In evaluating the design of controls and determining whether they have been implemented in an audit of financial statements only, the auditor may use the framework used by management or another suitable, recognized framework.<sup>12</sup> For integrated audits, Auditing Standard No. 5, states, "The auditor should use the same suitable, recognized control framework to perform his or her audit of internal control over financial reporting as management uses for its annual evaluation of the effectiveness of the company's internal control over financial reporting."<sup>13</sup> If the auditor uses a suitable, recognized internal control framework with components that differ from those listed in the preceding paragraph, the auditor should adapt the requirements in paragraphs 23–36 of this standard to conform to the components in the framework used.

## Control Environment

**23.** The auditor should obtain an understanding of the company's control environment, including the policies and actions of management, the board, and the audit committee concerning the company's control environment.

**24.** Obtaining an understanding of the control environment includes assessing:

- Whether management's philosophy and operating style promote effective internal control over financial reporting;
- Whether sound integrity and ethical values, particularly of top management, are developed and understood; and

---

<sup>11</sup> Different internal control frameworks use different terms and approaches to describe the components of internal control over financial reporting.

<sup>12</sup> See Securities Exchange Act Release No. 34-47986 (June 5, 2003) for a description of the characteristics of a suitable, recognized framework.

<sup>13</sup> Paragraph 5 of Auditing Standard No. 5.

- Whether the board or audit committee understands and exercises oversight responsibility over financial reporting and internal control.

Note: In an audit of financial statements only, this assessment may be based on the evidence obtained in understanding the control environment, in accordance with paragraph 23, and the other relevant knowledge possessed by the auditor. In an integrated audit of financial statements and internal control over financial reporting, Auditing Standard No. 5<sup>14</sup> describes the auditor's responsibility for evaluating the control environment.

**25.** If the auditor identifies a control deficiency<sup>15</sup> in the company's control environment, the auditor should evaluate the extent to which this control deficiency is indicative of a fraud risk factor, as discussed in paragraphs 65–66 of this standard.

## The Company's Risk Assessment Process

**26.** The auditor should obtain an understanding of management's process for:

- a. Identifying risks relevant to financial reporting objectives, including risks of material misstatement due to fraud ("fraud risks");
- b. Assessing the likelihood and significance of misstatements resulting from those risks; and
- c. Deciding about actions to address those risks.

**27.** Obtaining an understanding of the company's risk assessment process includes obtaining an understanding of the risks of material misstatement identified and assessed by management and the actions taken to address those risks.

## Information and Communication

**28. *Information System Relevant to Financial Reporting.*** The auditor should obtain an understanding of the information system, including the related business processes, relevant to financial reporting, including:

- a. The classes of transactions in the company's operations that are significant to the financial statements;
- b. The procedures, within both automated and manual systems, by which those transactions are initiated, authorized, processed, recorded, and reported;
- c. The related accounting records, supporting information, and specific accounts in the financial statements that are used to initiate, authorize, process, and record transactions;
- d. How the information system captures events and conditions, other than transactions,<sup>16</sup> that are significant to the financial statements; and
- e. The period-end financial reporting process.

---

<sup>14</sup> Paragraph 25 of Auditing Standard No. 5.

<sup>15</sup> Paragraph A3 of Auditing Standard No. 5.

<sup>16</sup> Examples of such events and conditions include depreciation and amortization and conditions affecting the recoverability of assets.

Note: Appendix B discusses additional considerations regarding manual and automated systems and controls.

**29.** The auditor also should obtain an understanding of how IT affects the company's flow of transactions. (See Appendix B.)

Note: The identification of risks and controls within IT is not a separate evaluation. Instead, it is an integral part of the approach used to identify significant accounts and disclosures and their relevant assertions and, when applicable, to select the controls to test, as well as to assess risk and allocate audit effort.

**30.** A company's business processes are the activities designed to:

- a. Develop, purchase, produce, sell and distribute a company's products or services;
- b. Record information, including accounting and financial reporting information; and
- c. Ensure compliance with laws and regulations relevant to the financial statements.

**31.** Obtaining an understanding of the company's business processes assists the auditor in obtaining an understanding of how transactions are initiated, authorized, processed, and recorded.

**32.** A company's period-end financial reporting process, as referred to in paragraph 28.e., includes the following:

- Procedures used to enter transaction totals into the general ledger;
- Procedures related to the selection and application of accounting principles;<sup>17</sup>
- Procedures used to initiate, authorize, record, and process journal entries in the general ledger;
- Procedures used to record recurring and nonrecurring adjustments to the annual financial statements (and quarterly financial statements, if applicable); and
- Procedures for preparing annual financial statements and related disclosures (and quarterly financial statements, if applicable).

**33.** *Communication.* The auditor should obtain an understanding of how the company communicates financial reporting roles and responsibilities and significant matters relating to financial reporting to relevant company personnel and others, including:

- Communications between management, the audit committee, and the board of directors; and
- Communications to external parties, including regulatory authorities and shareholders.

## Control Activities

**34.** The auditor should obtain an understanding of control activities that is sufficient to assess the factors that affect the risks of material misstatement and to design further audit procedures, as described in paragraph 18 of

---

<sup>17</sup> Paragraphs 12–13 of this standard.

this standard.<sup>18</sup> As the auditor obtains an understanding of the other components of internal control over financial reporting, he or she is also likely to obtain knowledge about some control activities. The auditor should use his or her knowledge about the presence or absence of control activities obtained from the understanding of the other components of internal control over financial reporting in determining the extent to which it is necessary to devote additional attention to obtaining an understanding of control activities to assess the factors that affect the risks of material misstatement and to design further audit procedures.

Note: A broader understanding of control activities is needed for relevant assertions for which the auditor plans to rely on controls. Also, in the audit of internal control over financial reporting, the auditor's understanding of control activities encompasses a broader range of accounts and disclosures than what is normally obtained in a financial statement audit.

## Monitoring of Controls

**35.** The auditor should obtain an understanding of the major types of activities that the company uses to monitor the effectiveness of its internal control over financial reporting and how the company initiates corrective actions related to its controls.<sup>19</sup>

**36.** An understanding of the company's monitoring activities includes understanding the source of the information used in the monitoring activities.

## Performing Walkthroughs

**37.** As discussed in paragraph 20, the auditor may perform walkthroughs as part of obtaining an understanding of internal control over financial reporting. For example, the auditor may perform walkthroughs in connection with understanding the flow of transactions in the information system relevant to financial reporting, evaluating the design of controls relevant to the audit, and determining whether those controls have been implemented. In performing a walkthrough, the auditor follows a transaction from origination through the company's processes, including information systems, until it is reflected in the company's financial records, using the same documents and IT that company personnel use. Walkthrough procedures usually include a combination of inquiry, observation, inspection of relevant documentation, and re-performance of controls.

Note: For integrated audits, Auditing Standard No. 5 establishes certain objectives that the auditor should achieve to further understand likely sources of potential misstatements and as part of selecting the controls to test. Auditing Standard No. 5 states that performing walkthroughs will frequently be the most effective way of achieving those objectives.<sup>20</sup>

**38.** In performing a walkthrough, at the points at which important processing procedures occur, the auditor questions the company's personnel about their understanding of what is required by the company's prescribed procedures

---

<sup>18</sup> Also see paragraph B5 of Appendix B of this standard.

<sup>19</sup> In some companies, internal auditors or others performing an equivalent function contribute to the monitoring of controls. AU sec. 322, *The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements*, establishes requirements regarding the auditor's consideration and use of the work of the internal audit function.

<sup>20</sup> See paragraphs 34–38 of Auditing Standard No. 5.

and controls. These probing questions, combined with the other walkthrough procedures, allow the auditor to gain a sufficient understanding of the process and to be able to identify important points at which a necessary control is missing or not designed effectively. Additionally, probing questions that go beyond a narrow focus on the single transaction used as the basis for the walkthrough allow the auditor to gain an understanding of the different types of significant transactions handled by the process.

## Relationship of Understanding of Internal Control to Tests of Controls

**39.** The objective of obtaining an understanding of internal control, as discussed in paragraph 18 of this standard, is different from testing controls for the purpose of assessing control risk<sup>21</sup> or for the purpose of expressing an opinion on internal control over financial reporting in the audit of internal control over financial reporting.<sup>22</sup> The auditor may obtain an understanding of internal control concurrently with performing tests of controls if he or she obtains sufficient appropriate evidence to achieve the objectives of both procedures. Also, the auditor should take into account the evidence obtained from understanding internal control when assessing control risk and, in the audit of internal control over financial reporting, forming an opinion about the effectiveness of internal control over financial reporting.

**40.** *Relationship of Understanding of Internal Control to Evaluating Entity-Level Controls in an Audit of Internal Control Over Financial Reporting.* Auditing Standard No. 5 states, "The auditor must test those entity-level controls that are important to the auditor's conclusion about whether the company has effective internal control over financial reporting."<sup>23</sup> The procedures performed to obtain an understanding of certain components of internal control in accordance with this standard, e.g., the control environment, the company's risk assessment process, information and communication, and monitoring of controls, might provide evidence that is relevant to the auditor's evaluation of entity-level controls.<sup>24</sup> The auditor should take into account the evidence obtained from understanding internal control when determining the nature, timing, and extent of procedures necessary to support the auditor's conclusions about the effectiveness of entity-level controls in the audit of internal control over financial reporting.

## Considering Information from the Client Acceptance and Retention Evaluation, Audit Planning Activities, Past Audits, and Other Engagements

**41.** *Client Acceptance and Retention and Audit Planning Activities.* The auditor should evaluate whether information obtained from the client acceptance and retention evaluation process or audit planning activities is relevant

---

<sup>21</sup> Paragraphs 16–35 of Auditing Standard No. 13, *The Auditor's Responses to the Risks of Material Misstatement*.

<sup>22</sup> Paragraph B1 of Auditing Standard No. 5.

<sup>23</sup> Paragraph 22 of Auditing Standard No. 5.

<sup>24</sup> The entity-level controls included in paragraph 24 of Auditing Standard No. 5 include controls related to the control environment; the company's risk assessment process; centralized processing and controls; controls over the period-end financial reporting process; and controls to monitor other controls.

to identifying risks of material misstatement. Risks of material misstatement identified during those activities should be assessed as discussed beginning in paragraph 59 of this standard.

**42. Past Audits.** In subsequent years, the auditor should incorporate knowledge obtained during past audits into the auditor's process for identifying risks of material misstatement, including when identifying significant ongoing matters that affect the risks of material misstatement or determining how changes in the company or its environment affect the risks of material misstatement, as discussed in paragraph 8 of this standard.

**43.** If the auditor plans to limit the nature, timing, or extent of his or her risk assessment procedures by relying on information from past audits, the auditor should evaluate whether the prior years' information remains relevant and reliable.

**44. Other Engagements.** When the auditor has performed a review of interim financial information in accordance with AU sec. 722, *Interim Financial Information*, the auditor should evaluate whether information obtained during the review is relevant to identifying risks of material misstatement in the year-end audit.

**45.** The auditor should obtain an understanding of the nature of the services that have been performed for the company by the auditor or affiliates of the firm<sup>25</sup> and should take into account relevant information obtained from those engagements in identifying risks of material misstatement.<sup>26</sup>

## Performing Analytical Procedures

**46.** The auditor should perform analytical procedures that are designed to:

- a. Enhance the auditor's understanding of the client's business and the significant transactions and events that have occurred since the prior year end; and
- b. Identify areas that might represent specific risks relevant to the audit, including the existence of unusual transactions and events, and amounts, ratios, and trends that warrant investigation.

**47.** In applying analytical procedures as risk assessment procedures, the auditor should perform analytical procedures relating to revenue with the objective of identifying unusual or unexpected relationships involving revenue accounts that might indicate a material misstatement, including material misstatement due to fraud. Also, when the auditor has performed a review of interim financial information in accordance with AU sec. 722, he or she should take into account the analytical procedures applied in that review when designing and applying analytical procedures as risk assessment procedures.

**48.** When performing an analytical procedure, the auditor should use his or her understanding of the company to develop expectations about plausible relationships among the data to be used in the procedure.<sup>27</sup> When comparison of those expectations with relationships derived from recorded amounts yields unusual or unexpected results, the auditor should take into account those results in identifying the risks of material misstatement.

---

<sup>25</sup> See PCAOB Rule 3501(a)(i), which defines "affiliate of the accounting firm."

<sup>26</sup> Paragraph 7 of Auditing Standard No. 9, *Audit Planning*.

<sup>27</sup> Analytical procedures consist of evaluations of financial information made by a study of plausible relationships among both financial and nonfinancial data.

Note: Analytical procedures performed as risk assessment procedures often use data that is preliminary or data that is aggregated at a high level, and, in those instances, such analytical procedures are not designed with the level of precision necessary for substantive analytical procedures.

## Conducting a Discussion among Engagement Team Members Regarding Risks of Material Misstatement

49. The key engagement team members should discuss (1) the company's selection and application of accounting principles, including related disclosure requirements, and (2) the susceptibility of the company's financial statements to material misstatement due to error or fraud.

Note: The key engagement team members should discuss the potential for material misstatement due to fraud either as part of the discussion regarding risks of material misstatement or in a separate discussion.<sup>28</sup>

Note: As discussed in paragraph 67, the financial statements might be susceptible to misstatement through omission of required disclosures or presentation of inaccurate or incomplete disclosures.

50. Key engagement team members include all engagement team members who have significant engagement responsibilities, including the engagement partner. The manner in which the discussion is conducted depends on the individuals involved and the circumstances of the engagement. For example, if the audit involves more than one location, there could be multiple discussions with team members in differing locations. The engagement partner or other key engagement team members should communicate the important matters from the discussion to engagement team members who are not involved in the discussion.

Note: If the audit is performed entirely by the engagement partner, that engagement partner, having personally conducted the planning of the audit, is responsible for evaluating the susceptibility of the company's financial statements to material misstatement.

51. Communication among the engagement team members about significant matters affecting the risks of material misstatement should continue throughout the audit, including when conditions change.<sup>29</sup>

## Discussion of the Potential for Material Misstatement Due to Fraud

52. The discussion among the key engagement team members about the potential for material misstatement due to fraud should occur with an attitude that includes a questioning mind, and the key engagement team members should set aside any prior beliefs they might have that management is honest and has integrity. The discussion among the key engagement team members should include:

- An exchange of ideas, or "brainstorming," among the key engagement team members, including the engagement partner, about how and where they believe the company's financial statements

---

<sup>28</sup> Paragraphs 52–53 of this standard.

<sup>29</sup> See also paragraph 29 of Auditing Standard No. 14, *Evaluating Audit Results*.

might be susceptible to material misstatement due to fraud, how management could perpetrate and conceal fraudulent financial reporting, and how assets of the company could be misappropriated, including (a) the susceptibility of the financial statements to material misstatement through related party transactions and (b) how fraud might be perpetrated or concealed by omitting or presenting incomplete or inaccurate disclosures;

- A consideration of the known external and internal factors affecting the company that might (a) create incentives or pressures for management and others to commit fraud, (b) provide the opportunity for fraud to be perpetrated, and (c) indicate a culture or environment that enables management to rationalize committing fraud;
- A consideration of the risk of management override; and
- A consideration of the potential audit responses to the susceptibility of the company's financial statements to material misstatement due to fraud.

**53.** The auditor should emphasize the following matters to all engagement team members:

- The need to maintain a questioning mind throughout the audit and to exercise professional skepticism in gathering and evaluating evidence, as described in AU sec. 316;<sup>30</sup>
- The need to be alert for information or other conditions (such as those matters presented in Appendix C of Auditing Standard No. 14) that might affect the assessment of fraud risks; and
- If information or other conditions indicate that a material misstatement due to fraud might have occurred, the need to probe the issues, acquire additional evidence as necessary, and consult with other team members and, if appropriate, others in the firm including specialists.<sup>31</sup>

## **Inquiring of the Audit Committee, Management, and Others within the Company about the Risks of Material Misstatement**

**54.** The auditor should inquire of the audit committee, or equivalent (or its chair), management, the internal audit function, and others within the company who might reasonably be expected to have information that is important to the identification and assessment of risks of material misstatement.

Note: The auditor's inquiries about risks of material misstatement should include inquiries regarding fraud risks.

**55.** The auditor should use his or her knowledge of the company and its environment, as well as information from other risk assessment procedures, to determine the nature of the inquiries about risks of material misstatement.

---

<sup>30</sup> AU sec. 316.13.

<sup>31</sup> Paragraphs 20–23 of Auditing Standard No. 14 establish further requirements for evaluating whether misstatements might be indicative of fraud and determining the necessary procedures to be performed in those situations.

## Inquiries Regarding Fraud Risks

56. The auditor's inquiries regarding fraud risks should include the following:
- a. Inquiries of management regarding:
    - (1) Whether management has knowledge of fraud, alleged fraud, or suspected fraud affecting the company;
    - (2) Management's process for identifying and responding to fraud risks in the company, including any specific fraud risks the company has identified or account balances or disclosures for which a fraud risk is likely to exist, and the nature, extent, and frequency of management's fraud risk assessment process;
    - (3) Controls that the company has established to address fraud risks the company has identified, or that otherwise help to prevent and detect fraud, including how management monitors those controls;
    - (4) For a company with multiple locations (a) the nature and extent of monitoring of operating locations or business segments and (b) whether there are particular operating locations or business segments for which a fraud risk might be more likely to exist;
    - (5) Whether and how management communicates to employees its views on business practices and ethical behavior;
    - (6) Whether management has received tips or complaints regarding the company's financial reporting (including those received through the audit committee's internal whistleblower program, if such program exists) and, if so, management's responses to such tips and complaints; and
    - (7) Whether management has reported to the audit committee on how the company's internal control serves to prevent and detect material misstatements due to fraud.
  - b. Inquiries of the audit committee, or equivalent, or its chair regarding:
    - (1) The audit committee's views about fraud risks in the company;
    - (2) Whether the audit committee has knowledge of fraud, alleged fraud, or suspected fraud affecting the company;
    - (3) Whether the audit committee is aware of tips or complaints regarding the company's financial reporting (including those received through the audit committee's internal whistleblower program, if such program exists) and, if so, the audit committee's responses to such tips and complaints; and
    - (4) How the audit committee exercises oversight of the company's assessment of fraud risks and the establishment of controls to address fraud risks.
  - c. If the company has an internal audit function, inquiries of appropriate internal audit personnel regarding:
    - (1) The internal auditors' views about fraud risks in the company;

- (2) Whether the internal auditors have knowledge of fraud, alleged fraud, or suspected fraud affecting the company;
- (3) Whether internal auditors have performed procedures to identify or detect fraud during the year, and whether management has satisfactorily responded to the findings resulting from those procedures; and
- (4) Whether internal auditors are aware of instances of management override of controls and the nature and circumstances of such overrides.

**57.** In addition to the inquiries outlined in the preceding paragraph, the auditor should inquire of others within the company about their views regarding fraud risks, including, in particular, whether they have knowledge of fraud, alleged fraud, or suspected fraud. The auditor should identify other individuals within the company to whom inquiries should be directed and determine the extent of such inquiries by considering whether others in the company might have additional knowledge about fraud, alleged fraud, or suspected fraud or might be able to corroborate fraud risks identified in discussions with management or the audit committee. Examples of other individuals within the company to whom inquiries might be directed include:

- Employees with varying levels of authority within the company, including, e.g., company personnel with whom the auditor comes into contact during the course of the audit (a) in obtaining an understanding of internal control, (b) in observing inventory or performing cutoff procedures, or (c) in obtaining explanations for significant differences identified when performing analytical procedures;
- Operating personnel not directly involved in the financial reporting process;
- Employees involved in initiating, recording, or processing complex or unusual transactions, e.g., a sales transaction with multiple elements or a significant related party transaction; and
- In-house legal counsel.

**58.** When evaluating management's responses to inquiries about fraud risks and determining when it is necessary to corroborate management's responses, the auditor should take into account the fact that management is often in the best position to commit fraud. Also, the auditor should obtain evidence to address inconsistencies in responses to the inquiries.

## Identifying and Assessing the Risks of Material Misstatement

**59.** The auditor should identify and assess the risks of material misstatement at the financial statement level and the assertion level. In identifying and assessing risks of material misstatement, the auditor should:

- a. Identify risks of misstatement using information obtained from performing risk assessment procedures (as discussed in paragraphs 4–58) and considering the characteristics of the accounts and disclosures in the financial statements.

Note: Factors relevant to identifying fraud risks are discussed in paragraphs 65–69 of this standard.

- b. Evaluate whether the identified risks relate pervasively to the financial statements as a whole and potentially affect many assertions.
- c. Evaluate the types of potential misstatements that could result from the identified risks and the accounts, disclosures, and assertions that could be affected.

Note: In identifying and assessing risks at the assertion level, the auditor should evaluate how risks at the financial statement level could affect risks of misstatement at the assertion level.

- d. Assess the likelihood of misstatement, including the possibility of multiple misstatements, and the magnitude of potential misstatement to assess the possibility that the risk could result in material misstatement of the financial statements.

Note: In assessing the likelihood and magnitude of potential misstatement, the auditor may take into account the planned degree of reliance on controls selected to test.<sup>32</sup>

- e. Identify significant accounts and disclosures<sup>33</sup> and their relevant assertions<sup>34</sup> (paragraphs 60–64 of this standard).

Note: The determination of whether an account or disclosure is significant or whether an assertion is a relevant assertion is based on inherent risk, without regard to the effect of controls.

- f. Determine whether any of the identified and assessed risks of material misstatement are **significant risks** (paragraphs 70–71 of this standard).

## Identifying Significant Accounts and Disclosures and Their Relevant Assertions

**60.** To identify significant accounts and disclosures and their relevant assertions in accordance with paragraph 59.e., the auditor should evaluate the qualitative and quantitative risk factors related to the financial statement line items and disclosures. Risk factors relevant to the identification of significant accounts and disclosures and their relevant assertions include:

- Size and composition of the account;
- Susceptibility to misstatement due to error or fraud;
- Volume of activity, complexity, and homogeneity of the individual transactions processed through the account or reflected in the disclosure;
- Nature of the account or disclosure;

---

<sup>32</sup> Paragraphs 16–35 of Auditing Standard No. 13.

<sup>33</sup> Paragraph A10 of Auditing Standard No. 5 states:

An account or disclosure is a significant account or disclosure if there is a reasonable possibility that the account or disclosure could contain a misstatement that, individually or when aggregated with others, has a material effect on the financial statements, considering the risks of both overstatement and understatement. The determination of whether an account or disclosure is significant is based on inherent risk, without regard to the effect of controls.

<sup>34</sup> Paragraph A9 of Auditing Standard No. 5 states:

A relevant assertion is a financial statement assertion that has a reasonable possibility of containing a misstatement or misstatements that would cause the financial statements to be materially misstated. The determination of whether an assertion is a relevant assertion is based on inherent risk, without regard to the effect of controls.

- Accounting and reporting complexities associated with the account or disclosure;
- Exposure to losses in the account;
- Possibility of significant contingent liabilities arising from the activities reflected in the account or disclosure;
- Existence of related party transactions in the account; and
- Changes from the prior period in account and disclosure characteristics.

**61.** As part of identifying significant accounts and disclosures and their relevant assertions, the auditor also should determine the likely sources of potential misstatements that would cause the financial statements to be materially misstated. The auditor might determine the likely sources of potential misstatements by asking himself or herself "what could go wrong?" within a given significant account or disclosure.

**62.** The risk factors that the auditor should evaluate in the identification of significant accounts and disclosures and their relevant assertions are the same in the audit of internal control over financial reporting as in the audit of the financial statements; accordingly, significant accounts and disclosures and their relevant assertions are the same for both audits.

Note: In the financial statement audit, the auditor might perform substantive auditing procedures on financial statement accounts, disclosures, and assertions that are not determined to be significant accounts and disclosures and relevant assertions.<sup>35</sup>

**63.** The components of a potential significant account or disclosure might be subject to significantly differing risks.

**64.** When a company has multiple locations or business units, the auditor should identify significant accounts and disclosures and their relevant assertions based on the consolidated financial statements.

## Factors Relevant to Identifying Fraud Risks

**65.** The auditor should evaluate whether the information gathered from the risk assessment procedures indicates that one or more fraud risk factors are present and should be taken into account in identifying and assessing fraud risks. Fraud risk factors are events or conditions that indicate (1) an incentive or pressure to perpetrate fraud, (2) an opportunity to carry out the fraud, or (3) an attitude or rationalization that justifies the fraudulent action. Fraud risk factors do not necessarily indicate the existence of fraud; however, they often are present in circumstances in which fraud exists. Examples of fraud risk factors related to fraudulent financial reporting and misappropriation of assets are listed in AU sec. 316.85. These illustrative risk factors are classified based on the three conditions discussed in this paragraph, which generally are present when fraud exists.

---

<sup>35</sup> The auditor might perform substantive auditing procedures because his or her assessment of the risk that undetected misstatement would cause the financial statements to be materially misstated is unacceptably high or as a means of introducing unpredictability in the procedures performed. See paragraphs 11, 14, and 25 of Auditing Standard No. 14, for further discussion about undetected misstatement. See paragraph 61 of Auditing Standard No. 5 and paragraph 5.c. of Auditing Standard No. 13, for further discussion about the unpredictability of auditing procedures.

Note: The factors listed in AU sec. 316.85 cover a broad range of situations and are only examples. Accordingly, the auditor might identify additional or different fraud risk factors.

**66.** All three conditions discussed in the preceding paragraph are not required to be observed or evident to conclude that a fraud risk exists. The auditor might conclude that a fraud risk exists even when only one of these three conditions is present.

**67.** *Consideration of the Risk of Omitted, Incomplete, or Inaccurate Disclosures.* The auditor's evaluation of fraud risk factors in accordance with paragraph 65 should include evaluation of how fraud could be perpetrated or concealed by presenting incomplete or inaccurate disclosures or by omitting disclosures that are necessary for the financial statements to be presented fairly in conformity with the applicable financial reporting framework.

**68.** *Presumption of Fraud Risk Involving Improper Revenue Recognition.* The auditor should presume that there is a fraud risk involving improper revenue recognition and evaluate which types of revenue, revenue transactions, or assertions may give rise to such risks.

**69.** *Consideration of the Risk of Management Override of Controls.* The auditor's identification of fraud risks should include the risk of management override of controls.

Note: Controls over management override are important to effective internal control over financial reporting for all companies, and may be particularly important at smaller companies because of the increased involvement of senior management in performing controls and in the period-end financial reporting process. For smaller companies, the controls that address the risk of management override might be different from those at a larger company. For example, a smaller company might rely on more detailed oversight by the audit committee that focuses on the risk of management override.

## Factors Relevant to Identifying Significant Risks

**70.** To determine whether an identified and assessed risk is a significant risk, the auditor should evaluate whether the risk requires special audit consideration because of the nature of the risk or the likelihood and potential magnitude of misstatement related to the risk.

Note: The determination of whether a risk of material misstatement is a significant risk is based on inherent risk, without regard to the effect of controls.

**71.** Factors that should be evaluated in determining which risks are significant risks include:

- a. The effect of the quantitative and qualitative risk factors discussed in paragraph 60 on the likelihood and potential magnitude of misstatements;
- b. Whether the risk is a fraud risk;  
Note: A fraud risk is a significant risk.
- c. Whether the risk is related to recent significant economic, accounting, or other developments;
- d. The complexity of transactions;
- e. Whether the risk involves significant transactions with related parties;

- f. The degree of complexity or judgment in the recognition or measurement of financial information related to the risk, especially those measurements involving a wide range of measurement uncertainty; and
- g. Whether the risk involves significant transactions that are outside the normal course of business for the company or that otherwise appear to be unusual due to their timing, size, or nature.

## Further Consideration of Controls

**72.** When the auditor has determined that a significant risk, including a fraud risk, exists, the auditor should evaluate the design of the company's controls that are intended to address fraud risks and other significant risks and determine whether those controls have been implemented, if the auditor has not already done so when obtaining an understanding of internal control, as described in paragraphs 18–40 of this standard.<sup>36</sup>

**73.** Controls that address fraud risks include (a) specific controls designed to mitigate specific risks of fraud, e.g., controls to address risks of intentional misstatement of specific accounts and (b) controls designed to prevent, deter, and detect fraud, e.g., controls to promote a culture of honesty and ethical behavior.<sup>37</sup> Such controls also include those that address the risk of management override of other controls.

## Revision of Risk Assessment

**74.** The auditor's assessment of the risks of material misstatement, including fraud risks, should continue throughout the audit. When the auditor obtains audit evidence during the course of the audit that contradicts the audit evidence on which the auditor originally based his or her risk assessment, the auditor should revise the risk assessment and modify planned audit procedures or perform additional procedures in response to the revised risk assessments.<sup>38</sup>

---

<sup>36</sup> Auditing Standard No. 13 discusses the auditor's response to fraud risks and other significant risks.

<sup>37</sup> AU sec. 316.88 and paragraph 14 of Auditing Standard No. 5 present examples of controls that address fraud risks.

<sup>38</sup> See also paragraph 46 of Auditing Standard No. 13.

## Appendix A

### Definitions

A1. For purposes of this standard, the terms listed below are defined as follows:

A2. **Business risks**—Risks that result from significant conditions, events, circumstances, actions, or inactions that could adversely affect a company's ability to achieve its objectives and execute its strategies. Business risks also might result from setting inappropriate objectives and strategies or from changes or complexity in the company's operations or management.

A3. **Company's objectives and strategies**—The overall plans for the company as established by management or the board of directors. Strategies are the approaches by which management intends to achieve its objectives.

A4. **Risk assessment procedures**—The procedures performed by the auditor to obtain information for identifying and assessing the risks of material misstatement in the financial statements whether due to error or fraud.

Note: Risk assessment procedures by themselves do not provide sufficient appropriate evidence on which to base an audit opinion.

A5. **Significant risk**—A risk of material misstatement that requires special audit consideration.

## Appendix B

### Consideration of Manual and Automated Systems and Controls

B1. While obtaining an understanding of the company's information system related to financial reporting, the auditor should obtain an understanding of how the company uses information technology ("IT") and how IT affects the financial statements.<sup>1</sup> The auditor also should obtain an understanding of the extent of manual controls and automated controls used by the company, including the IT general controls that are important to the effective operation of the automated controls. That information should be taken into account in assessing the risks of material misstatement.<sup>2</sup>

B2. Controls in a manual system might include procedures such as approvals and reviews of transactions, and reconciliations and follow-up of reconciling items.

B3. Alternatively, a company might use automated procedures to initiate, record, process, and report transactions, in which case records in electronic format would replace paper documents. When IT is used to initiate, record, process, and report transactions, the IT systems and programs may include controls related to the relevant assertions of significant accounts and disclosures or may be critical to the effective functioning of manual controls that depend on IT.

B4. The auditor should obtain an understanding of specific risks to a company's internal control over financial reporting resulting from IT. Examples of such risks include:

- Reliance on systems or programs that are inaccurately processing data, processing inaccurate data, or both;
- Unauthorized access to data that might result in destruction of data or improper changes to data, including the recording of unauthorized or nonexistent transactions or inaccurate recording of transactions (particular risks might arise when multiple users access a common database);
- The possibility of IT personnel gaining access privileges beyond those necessary to perform their assigned duties, thereby breaking down segregation of duties;
- Unauthorized changes to data in master files;
- Unauthorized changes to systems or programs;
- Failure to make necessary changes to systems or programs;
- Inappropriate manual intervention; and
- Potential loss of data or inability to access data as required.

B5. In obtaining an understanding of the company's control activities, the auditor should obtain an understanding of how the company has responded to risks arising from IT.

---

<sup>1</sup> See also AU sec. 324, *Service Organizations*, if the company uses a service organization for services that are part of the company's internal control over financial reporting.

<sup>2</sup> See also paragraphs 16–17 of Auditing Standard No. 9, *Audit Planning*.

B6. When a company uses manual elements in internal control systems and the auditor plans to rely on, and therefore test, those manual controls, the auditor should design procedures to test the consistency in the application of those manual controls.

## Appendix 6—Auditing Standard No. 13

# The Auditor's Responses to the Risks of Material Misstatement

## Introduction

1. This standard establishes requirements regarding designing and implementing appropriate responses to the risks of material misstatement.

## Objective

2. The objective of the auditor is to address the risks of material misstatement through appropriate overall audit responses and audit procedures.

## Responding to the Risks of Material Misstatement

3. To meet the objective in the preceding paragraph, the auditor must design and implement audit responses that address the risks of material misstatement that are identified and assessed in accordance with Auditing Standard No. 12, *Identifying and Assessing Risks of Material Misstatement*.

4. This standard discusses the following types of audit responses:
- Responses that have an overall effect on how the audit is conducted ("overall responses"), as described in paragraphs 5–7; and
  - Responses involving the nature, timing, and extent of the audit procedures to be performed, as described in paragraphs 8–46.

## Overall Responses

5. The auditor should design and implement overall responses to address the assessed risks of material misstatement as follows:

- Making appropriate assignments of significant engagement responsibilities.* The knowledge, skill, and ability of engagement team members with significant engagement responsibilities should be commensurate with the assessed risks of material misstatement.<sup>1</sup>
- Providing the extent of supervision that is appropriate for the circumstances, including, in particular, the assessed risks of material misstatement.* (See paragraphs 5–6 of Auditing Standard No. 10, *Supervision of the Audit Engagement*.)
- Incorporating elements of unpredictability in the selection of audit procedures to be performed.* As part of the auditor's response to the assessed risks of material misstatement, including the assessed risks of material misstatement due to fraud ("fraud risks"), the auditor should incorporate an element of unpredictability in the

---

<sup>1</sup> See also paragraph .06 of AU sec. 230, *Due Professional Care in the Performance of Work*.

selection of auditing procedures to be performed from year to year. Examples of ways to incorporate an element of unpredictability include:

- (1) Performing audit procedures related to accounts, disclosures, and assertions that would not otherwise be tested based on their amount or the auditor's assessment of risk;
  - (2) Varying the timing of the audit procedures;
  - (3) Selecting items for testing that have lower amounts or are otherwise outside customary selection parameters;
  - (4) Performing audit procedures on an unannounced basis; and
  - (5) In multi-location audits, varying the location or the nature, timing, and extent of audit procedures at related locations or business units from year to year.<sup>2</sup>
- d. *Evaluating the company's selection and application of significant accounting principles.* The auditor should evaluate whether the company's selection and application of significant accounting principles, particularly those related to subjective measurements and complex transactions,<sup>3</sup> are indicative of bias that could lead to material misstatement of the financial statements.

Note: Paragraph .11 of AU sec. 380, *Communication With Audit Committees*, discusses the auditor's judgments about the quality of a company's accounting principles.

**6.** The auditor also should determine whether it is necessary to make pervasive changes to the nature, timing, or extent of audit procedures to adequately address the assessed risks of material misstatement. Examples of such pervasive changes include modifying the audit strategy to:

- a. Increase the substantive testing of the valuation of numerous significant accounts at year end because of significantly deteriorating market conditions, and
- b. Obtain more persuasive audit evidence from substantive procedures due to the identification of pervasive weaknesses in the company's control environment.

**7.** Due professional care requires the auditor to exercise professional skepticism.<sup>4</sup> Professional skepticism is an attitude that includes a questioning mind and a critical assessment of the appropriateness and sufficiency of audit evidence. The auditor's responses to the assessed risks of material misstatement, particularly fraud risks, should involve the application of professional skepticism in gathering and evaluating audit evidence.<sup>5</sup> Examples of the application of professional skepticism in response to the assessed fraud risks are (a) modifying the planned audit procedures to obtain more reliable evidence regarding

---

<sup>2</sup> For integrated audits, paragraphs 61 and B13 of Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*, establish requirements for introducing unpredictability in testing of controls from year to year and in multi-location audits.

<sup>3</sup> Paragraphs 12–13 of Auditing Standard No. 12 discuss the auditor's responsibilities regarding obtaining an understanding of the company's selection and application of accounting principles. See also paragraphs .66–.67 of AU sec. 316, *Consideration of Fraud in a Financial Statement Audit*, and paragraphs .04 and .06 of AU sec. 411, *The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles*.

<sup>4</sup> AU secs. 230.07–.09.

<sup>5</sup> AU sec. 316.13.

relevant assertions and (b) obtaining sufficient appropriate evidence to corroborate management's explanations or representations concerning important matters, such as through third-party confirmation, use of a specialist engaged or employed by the auditor, or examination of documentation from independent sources.

## Responses Involving the Nature, Timing, and Extent of Audit Procedures

8. The auditor should design and perform audit procedures in a manner that addresses the assessed risks of material misstatement for each relevant assertion of each significant account and disclosure.

9. In designing the audit procedures to be performed, the auditor should:

- a. Obtain more persuasive audit evidence the higher the auditor's assessment of risk;
- b. Take into account the types of potential misstatements that could result from the identified risks and the likelihood and magnitude of potential misstatement;<sup>6</sup>
- c. In an integrated audit, design the testing of controls to accomplish the objectives of both audits simultaneously:
  - (1) To obtain sufficient evidence to support the auditor's control risk<sup>7</sup> assessments for purposes of the audit of financial statements;<sup>8</sup> and
  - (2) To obtain sufficient evidence to support the auditor's opinion on internal control over financial reporting as of year-end.

Note: Auditing Standard No. 5 establishes requirements for tests of controls in the audit of internal control over financial reporting.

10. The audit procedures performed in response to the assessed risks of material misstatement can be classified into two categories: (1) tests of controls and (2) substantive procedures.<sup>9</sup> Paragraphs 16–35 of this standard discuss tests of controls, and paragraphs 36–46 discuss substantive procedures.

Note: Paragraphs 16–17 of this standard discuss when tests of controls are necessary in a financial statement audit. Ordinarily, tests of controls are performed for relevant assertions for which the auditor chooses to rely on controls to modify his or her substantive procedures.

## Responses to Significant Risks

11. For significant risks, the auditor should perform substantive procedures, including tests of details, that are specifically responsive to the assessed risks.

---

<sup>6</sup> For example, potential misstatements regarding disclosures include omission of required disclosures or presentation of inaccurate or incomplete disclosures.

<sup>7</sup> See paragraph 7.b. of Auditing Standard No. 8, *Audit Risk*, for a definition of control risk.

<sup>8</sup> For purposes of this standard, the term "audit of financial statements" refers to the financial statement portion of the integrated audit and to the audit of financial statements only.

<sup>9</sup> Substantive procedures consist of (a) tests of details of accounts and disclosures and (b) substantive analytical procedures.

Note: Auditing Standard No. 12 discusses identification of significant risks<sup>10</sup> and states that fraud risks are significant risks.

## Responses to Fraud Risks

**12.** The audit procedures that are necessary to address the assessed fraud risks depend upon the types of risks and the relevant assertions that might be affected.

Note: If the auditor identifies deficiencies in controls that are intended to address assessed fraud risks, the auditor should take into account those deficiencies when designing his or her response to those fraud risks.

Note: Auditing Standard No. 5 establishes requirements for addressing assessed fraud risks in the audit of internal control over financial reporting.<sup>11</sup>

**13.** *Addressing Fraud Risks in the Audit of Financial Statements.* In the audit of financial statements, the auditor should perform substantive procedures, including tests of details, that are specifically responsive to the assessed fraud risks. If the auditor selects certain controls intended to address the assessed fraud risks for testing in accordance with paragraphs 16–17 of this standard, the auditor should perform tests of those controls.

**14.** The following are examples of ways in which planned audit procedures may be modified to address assessed fraud risks:

- a. Changing the *nature* of audit procedures to obtain evidence that is more reliable or to obtain additional corroborative information;
- b. Changing the *timing* of audit procedures to be closer to the end of the period or to the points during the period in which fraudulent transactions are more likely to occur; and
- c. Changing the *extent* of the procedures applied to obtain more evidence, e.g., by increasing sample sizes or applying computer-assisted audit techniques to all of the items in an account.

Note: AU secs. 316.54–.67 provide additional examples of responses to assessed fraud risks relating to fraudulent financial reporting (e.g., revenue recognition, inventory quantities, and management estimates) and misappropriation of assets in the audit of financial statements.

**15.** Also, AU sec. 316 indicates that the auditor should perform audit procedures to specifically address the risk of management override of controls including:

- a. Examining journal entries and other adjustments for evidence of possible material misstatement due to fraud (AU secs. 316.58–.62);
- b. Reviewing accounting estimates for biases that could result in material misstatement due to fraud (AU secs. 316.63–.65); and
- c. Evaluating the business rationale for significant unusual transactions (AU secs. 316.66–.67).

---

<sup>10</sup> See paragraph 71 of Auditing Standard No. 12 for factors that the auditor should evaluate in determining which risks are significant risks.

<sup>11</sup> Paragraphs 14–15 of Auditing Standard No. 5.

## Testing Controls

### Testing Controls in an Audit of Financial Statements

16. *Controls to be Tested.* If the auditor plans to assess control risk at less than the maximum by relying on controls,<sup>12</sup> and the nature, timing, and extent of planned substantive procedures are based on that lower assessment, the auditor must obtain evidence that the controls selected for testing are designed effectively and operated effectively during the entire **period of reliance**.<sup>13</sup> However, the auditor is not required to assess control risk at less than the maximum for *all* relevant assertions and, for a variety of reasons, the auditor may choose not to do so.

17. Also, tests of controls must be performed in the audit of financial statements for each relevant assertion for which substantive procedures alone cannot provide sufficient appropriate audit evidence and when necessary to support the auditor's reliance on the accuracy and completeness of financial information used in performing other audit procedures.<sup>14</sup>

Note: When a significant amount of information supporting one or more relevant assertions is electronically initiated, recorded, processed, or reported, it might be impossible to design effective substantive tests that, by themselves, would provide sufficient appropriate evidence regarding the assertions. For such assertions, significant audit evidence may be available only in electronic form. In such cases, the sufficiency and appropriateness of the audit evidence usually depend on the effectiveness of controls over their accuracy and completeness. Furthermore, the potential for improper initiation or alteration of information to occur and not be detected may be greater if information is initiated, recorded, processed, or reported only in electronic form and appropriate controls are not operating effectively.

18. *Evidence about the Effectiveness of Controls in the Audit of Financial Statements.* In designing and performing tests of controls for the audit of financial statements, the evidence necessary to support the auditor's control risk assessment depends on the degree of reliance the auditor plans to place on the effectiveness of a control. The auditor should obtain more persuasive audit evidence from tests of controls the greater the reliance the auditor places on the effectiveness of a control. The auditor also should obtain more persuasive evidence about the effectiveness of controls for each relevant assertion for which the audit approach consists primarily of tests of controls, including situations in which substantive procedures alone cannot provide sufficient appropriate audit evidence.

### Testing Design Effectiveness

19. The auditor should test the design effectiveness of the controls selected for testing by determining whether the company's controls, if they are operated as prescribed by persons possessing the necessary authority and competence

---

<sup>12</sup> Reliance on controls that is supported by sufficient and appropriate audit evidence allows the auditor to assess control risk at less than the maximum, which results in a lower assessed risk of material misstatement. In turn, this allows the auditor to modify the nature, timing, and extent of planned substantive procedures.

<sup>13</sup> Terms defined in Appendix A, *Definitions*, are set in **boldface type** the first time they appear.

<sup>14</sup> Paragraph 10 of Auditing Standard No. 15, *Audit Evidence*, and paragraph .16 of AU sec. 329, *Substantive Analytical Procedures*.

to perform the control effectively, satisfy the company's control objectives and can effectively prevent or detect error or fraud that could result in material misstatements in the financial statements.

Note: A smaller, less complex company might achieve its control objectives in a different manner from a larger, more complex organization. For example, a smaller, less complex company might have fewer employees in the accounting function, limiting opportunities to segregate duties and leading the company to implement alternative controls to achieve its control objectives. In such circumstances, the auditor should evaluate whether those alternative controls are effective.

**20.** Procedures the auditor performs to test design effectiveness include a mix of inquiry of appropriate personnel, observation of the company's operations, and inspection of relevant documentation. Walkthroughs that include these procedures ordinarily are sufficient to evaluate design effectiveness.<sup>15</sup>

## Testing Operating Effectiveness

**21.** The auditor should test the operating effectiveness of a control selected for testing by determining whether the control is operating as designed and whether the person performing the control possesses the necessary authority and competence to perform the control effectively.

**22.** Procedures the auditor performs to test operating effectiveness include a mix of inquiry of appropriate personnel, observation of the company's operations, inspection of relevant documentation, and re-performance of the control.

## Obtaining Evidence from Tests of Controls

**23.** The evidence provided by the auditor's tests of the effectiveness of controls depends upon the mix of the nature, timing, and extent of the auditor's procedures. Further, for an individual control, different combinations of the nature, timing, and extent of testing might provide sufficient evidence in relation to the degree of reliance in an audit of financial statements.

Note: To obtain evidence about whether a control is effective, the control must be tested directly; the effectiveness of a control cannot be inferred from the absence of misstatements detected by substantive procedures.

## Nature of Tests of Controls

**24.** Some types of tests, by their nature, produce greater evidence of the effectiveness of controls than other tests. The following tests that the auditor might perform are presented in the order of the evidence that they ordinarily would produce, from least to most: inquiry, observation, inspection of relevant documentation, and re-performance of a control.

Note: Inquiry alone does not provide sufficient evidence to support a conclusion about the effectiveness of a control.

**25.** The nature of the tests of controls that will provide appropriate evidence depends, to a large degree, on the nature of the control to be tested, including whether the operation of the control results in documentary evidence

---

<sup>15</sup> Paragraphs 37–38 of Auditing Standard No. 12 discuss performing a walkthrough.

of its operation. Documentary evidence of the operation of some controls, such as management's philosophy and operating style, might not exist.

Note: A smaller, less complex company or unit might have less formal documentation regarding the operation of its controls. In those situations, testing controls through inquiry combined with other procedures, such as observation of activities, inspection of less formal documentation, or re-performance of certain controls, might provide sufficient evidence about whether the control is effective.

## Extent of Tests of Controls

**26.** The more extensively a control is tested, the greater the evidence obtained from that test.

**27.** Matters that could affect the necessary extent of testing of a control in relation to the degree of reliance on a control include the following:

- The frequency of the performance of the control by the company during the audit period;
- The length of time during the audit period that the auditor is relying on the operating effectiveness of the control;
- The expected rate of deviation from a control;
- The relevance and reliability of the audit evidence to be obtained regarding the operating effectiveness of the control;
- The extent to which audit evidence is obtained from tests of other controls related to the assertion;
- The nature of the control, including, in particular, whether it is a manual control or an automated control; and
- For an automated control, the effectiveness of relevant information technology general controls.

Note: AU sec. 350, *Audit Sampling*, establishes requirements regarding the use of sampling in tests of controls.

## Timing of Tests of Controls

**28.** The timing of tests of controls relates to when the evidence about the operating effectiveness of the controls is obtained and the period of time to which it applies. Paragraph 16 of this standard indicates that the auditor must obtain evidence that the controls selected for testing are designed effectively and operated effectively during the entire period of reliance.

**29.** *Using Audit Evidence Obtained during an Interim Period.* When the auditor obtains evidence about the operating effectiveness of controls as of or through an interim date, he or she should determine what additional evidence is necessary concerning the operation of the controls for the remaining period of reliance.

**30.** The additional evidence that is necessary to update the results of testing from an interim date through the remaining period of reliance depends on the following factors:

- The possibility that there have been any significant changes in internal control over financial reporting subsequent to the interim date;

Note: If there have been significant changes to the control since the interim date, the auditor should obtain evidence about the effectiveness of the new or modified control;

- The inherent risk associated with the related account(s) or assertion(s);
- The specific control tested prior to year end, including the nature of the control and the risk that the control is no longer effective during the remaining period, and the results of the tests of the control;
- The planned degree of reliance on the control;
- The sufficiency of the evidence of effectiveness obtained at an interim date; and
- The length of the remaining period.

**31. *Using Audit Evidence Obtained in Past Audits.*** For audits of financial statements, the auditor should obtain evidence during the current year audit about the design and operating effectiveness of controls upon which the auditor relies. When controls on which the auditor plans to rely have been tested in past audits and the auditor plans to use evidence about the effectiveness of those controls that was obtained in prior years, the auditor should take into account the following factors to determine the evidence needed during the current year audit to support the auditor's control risk assessments:

- The nature and materiality of misstatements that the control is intended to prevent or detect;
- The inherent risk associated with the related account(s) or assertion(s);
- Whether there have been changes in the volume or nature of transactions that might adversely affect control design or operating effectiveness;
- Whether the account has a history of errors;
- The effectiveness of entity-level controls that the auditor has tested, especially controls that monitor other controls;
- The nature of the controls and the frequency with which they operate;
- The degree to which the control relies on the effectiveness of other controls (e.g., the control environment or information technology general controls);
- The competence of the personnel who perform the control or monitor its performance and whether there have been changes in key personnel who perform the control or monitor its performance;
- Whether the control relies on performance by an individual or is automated (i.e., an automated control would generally be expected to be lower risk if relevant information technology general controls are effective);<sup>16</sup>
- The complexity of the control and the significance of the judgments that must be made in connection with its operation;

---

<sup>16</sup> The auditor also may use a benchmarking strategy, when appropriate, for automated application controls in subsequent years' audits. Benchmarking is described further beginning at paragraph B28 of Auditing Standard No. 5.

- The planned degree of reliance on the control;
- The nature, timing, and extent of procedures performed in past audits;
- The results of the previous years' testing of the control;
- Whether there have been changes in the control or the process in which it operates since the previous audit; and
- For integrated audits, the evidence regarding the effectiveness of the controls obtained during the audit of internal control.

## Assessing Control Risk

**32.** The auditor should assess control risk for relevant assertions by evaluating the evidence obtained from all sources, including the auditor's testing of controls for the audit of internal control and the audit of financial statements, misstatements detected during the financial statement audit, and any identified control deficiencies.

**33.** Control risk should be assessed at the maximum level for relevant assertions (1) for which controls necessary to sufficiently address the assessed risk of material misstatement in those assertions are missing or ineffective or (2) when the auditor has not obtained sufficient appropriate evidence to support a control risk assessment below the maximum level.

**34.** When deficiencies affecting the controls on which the auditor intends to rely are detected, the auditor should evaluate the severity of the deficiencies and the effect on the auditor's control risk assessments. If the auditor plans to rely on controls relating to an assertion but the controls that the auditor tests are ineffective because of control deficiencies, the auditor should:

- a. Perform tests of other controls related to the same assertion as the ineffective controls, or
- b. Revise the control risk assessment and modify the planned substantive procedures as necessary in light of the increased assessment of risk.

Note: Auditing Standard No. 5 establishes requirements for evaluating the severity of a control deficiency and communicating identified control deficiencies to management and the audit committee in an integrated audit. AU sec. 325, *Communications About Control Deficiencies in an Audit of Financial Statements*, establishes requirements for communicating significant deficiencies and material weaknesses in an audit of financial statements only.

## Testing Controls in an Audit of Internal Control

**35.** Auditing Standard No. 5 states that the objective of the tests of controls in an audit of internal control is to obtain evidence about the effectiveness of controls to support the auditor's opinion on the company's internal control over financial reporting. The auditor's opinion relates to the effectiveness of the company's internal control over financial reporting as of a point in time and taken as a whole.<sup>17</sup> Auditing Standard No. 5 establishes requirements regarding the selection of controls to be tested and the necessary nature, timing,

---

<sup>17</sup> Paragraph B1 of Auditing Standard No. 5.

and extent of tests of controls in an audit of internal control over financial reporting.

## Substantive Procedures

**36.** The auditor should perform substantive procedures for each relevant assertion of each significant account and disclosure, regardless of the assessed level of control risk.

**37.** As the assessed risk of material misstatement increases, the evidence from substantive procedures that the auditor should obtain also increases. The evidence provided by the auditor's substantive procedures depends upon the mix of the nature, timing, and extent of those procedures. Further, for an individual assertion, different combinations of the nature, timing, and extent of testing might provide sufficient appropriate evidence to respond to the assessed risk of material misstatement.

**38.** Internal control over financial reporting has inherent limitations,<sup>18</sup> which, in turn, can affect the evidence that is needed from substantive procedures. For example, more evidence from substantive procedures ordinarily is needed for relevant assertions that have a higher susceptibility to management override or to lapses in judgment or breakdowns resulting from human failures.<sup>19</sup>

## Nature of Substantive Procedures

**39.** Substantive procedures generally provide persuasive evidence when they are designed and performed to obtain evidence that is relevant and reliable. Also, some types of substantive procedures, by their nature, produce more persuasive evidence than others. Inquiry alone does not provide sufficient appropriate evidence to support a conclusion about a relevant assertion.

Note: Auditing Standard No. 15 discusses certain types of substantive procedures and the relevance and reliability of audit evidence.

**40.** Taking into account the types of potential misstatements in the relevant assertions that could result from identified risks, as required by paragraph 9.b., can help the auditor determine the types and combination of substantive audit procedures that are necessary to detect material misstatements in the respective assertions.

**41.** *Substantive Procedures Related to the Period-end Financial Reporting Process.* The auditor's substantive procedures must include the following audit procedures related to the period-end financial reporting process:

- a. Reconciling the financial statements with the underlying accounting records; and
- b. Examining material adjustments made during the course of preparing the financial statements.

Note: AU secs. 316.58–62 establish requirements for examining journal entries and other adjustments for evidence of possible material misstatement due to fraud.

---

<sup>18</sup> Paragraph A5 of Auditing Standard No. 5.

<sup>19</sup> See, e.g., paragraph .14 of AU sec. 328, *Auditing Fair Value Measurements and Disclosures*.

## Extent of Substantive Procedures

42. The more extensively a substantive procedure is performed, the greater the evidence obtained from the procedure. The necessary extent of a substantive audit procedure depends on the materiality of the account or disclosure, the assessed risk of material misstatement, and the necessary degree of assurance from the procedure. However, increasing the extent of an audit procedure cannot adequately address an assessed risk of material misstatement unless the evidence to be obtained from the procedure is reliable and relevant.

## Timing of Substantive Procedures

43. Performing certain substantive procedures at interim dates may permit early consideration of matters affecting the year-end financial statements, e.g., testing material transactions involving higher risks of misstatement. However, performing substantive procedures at an interim date without performing procedures at a later date increases the risk that a material misstatement could exist in the year-end financial statements that would not be detected by the auditor. This risk increases as the period between the interim date and year end increases.

44. In determining whether it is appropriate to perform substantive procedures at an interim date, the auditor should take into account the following:

- a. The assessed risk of material misstatement, including:
  - (1) The auditor's assessment of control risk, as discussed in paragraphs 32–34;
  - (2) The existence of conditions or circumstances, if any, that create incentives or pressures on management to misstate the financial statements between the interim test date and the end of the period covered by the financial statements;
  - (3) The effects of known or expected changes in the company, its environment, or its internal control over financial reporting during the remaining period;
- b. The nature of the substantive procedures;
- c. The nature of the account or disclosure and relevant assertion; and
- d. The ability of the auditor to perform the necessary audit procedures to cover the remaining period.

45. When substantive procedures are performed at an interim date, the auditor should cover the remaining period by performing substantive procedures, or substantive procedures combined with tests of controls, that provide a reasonable basis for extending the audit conclusions from the interim date to the period end. Such procedures should include (a) comparing relevant information about the account balance at the interim date with comparable information at the end of the period to identify amounts that appear unusual and investigating such amounts and (b) performing audit procedures to test the remaining period.

46. If the auditor obtains evidence that contradicts the evidence on which the original risk assessments were based, including evidence of misstatements that he or she did not expect, the auditor should revise the related risk assessments and modify the planned nature, timing, or extent of substantive procedures covering the remaining period as necessary. Examples of such

modifications include extending or repeating at the period end the procedures performed at the interim date.

### Dual-purpose Tests

47. In some situations, the auditor might perform a substantive test of a transaction concurrently with a test of a control relevant to that transaction (a "**dual-purpose test**"). In those situations, the auditor should design the dual-purpose test to achieve the objectives of both the test of the control and the substantive test. Also, when performing a dual-purpose test, the auditor should evaluate the results of the test in forming conclusions about both the assertion and the effectiveness of the control being tested.<sup>20</sup>

---

<sup>20</sup> Paragraph .44 of AU sec. 350 discusses applying audit sampling in dual-purpose tests.

## Appendix A

### Definitions

A1. For purposes of this standard, the terms listed below are defined as follows:

A2. Dual-purpose test—Substantive test of a transaction and a test of a control relevant to that transaction that are performed concurrently, e.g., a substantive test of sales transactions performed concurrently with a test of controls over those transactions.

A3. Period of reliance—The period being covered by the company's financial statements, or the portion of that period, for which the auditor plans to rely on controls in order to modify the nature, timing, and extent of planned substantive procedures.

## Appendix 7—Auditing Standard No. 14

### Evaluating Audit Results

#### Introduction

1. This standard establishes requirements regarding the auditor's evaluation of audit results and determination of whether he or she has obtained sufficient appropriate audit evidence.

#### Objective

2. The objective of the auditor is to evaluate the results of the audit to determine whether the audit evidence obtained is sufficient and appropriate to support the opinion to be expressed in the auditor's report.

#### Evaluating the Results of the Audit of Financial Statements

3. In forming an opinion on whether the financial statements are presented fairly, in all material respects, in conformity with the applicable financial reporting framework, the auditor should take into account all relevant audit evidence, regardless of whether it appears to corroborate or to contradict the assertions in the financial statements.

4. In the audit of financial statements,<sup>1</sup> the auditor's evaluation of audit results should include evaluation of the following:

- a. The results of analytical procedures performed in the overall review of the financial statements ("overall review");
- b. **Misstatements** accumulated during the audit, including, in particular, **uncorrected misstatements**;<sup>2</sup>
- c. The qualitative aspects of the company's accounting practices;
- d. Conditions identified during the audit that relate to the assessment of the risk of material misstatement due to fraud ("fraud risk");
- e. The presentation of the financial statements, including the disclosures; and
- f. The sufficiency and appropriateness of the audit evidence obtained.

#### Performing Analytical Procedures in the Overall Review

5. In the overall review, the auditor should read the financial statements and disclosures and perform analytical procedures to (a) evaluate the auditor's conclusions formed regarding significant accounts and disclosures and (b) assist

---

<sup>1</sup> For purposes of this standard, the term "audit of financial statements" refers to the financial statement portion of the integrated audit and to the audit of financial statements only.

<sup>2</sup> Terms defined in Appendix A, *Definitions*, are set in **boldface type** the first time they appear.

in forming an opinion on whether the financial statements as a whole are free of material misstatement.

6. As part of the overall review, the auditor should evaluate whether:

- a. The evidence gathered in response to unusual or unexpected transactions, events, amounts, or relationships previously identified during the audit is sufficient; and
- b. Unusual or unexpected transactions, events, amounts, or relationships<sup>3</sup> indicate risks of material misstatement that were not identified previously, including, in particular, fraud risks.

Note: If the auditor discovers a previously unidentified risk of material misstatement or concludes that the evidence gathered is not adequate, he or she should modify his or her audit procedures or perform additional procedures as necessary in accordance with paragraph 36 of this standard.

7. The nature and extent of the analytical procedures performed during the overall review may be similar to the analytical procedures performed as risk assessment procedures. The auditor should perform analytical procedures relating to revenue through the end of the reporting period.<sup>4</sup>

8. The auditor should obtain corroboration for management's explanations regarding significant unusual or unexpected transactions, events, amounts, or relationships. If management's responses to the auditor's inquiries appear to be implausible, inconsistent with other audit evidence, imprecise, or not at a sufficient level of detail to be useful, the auditor should perform procedures to address the matter.

9. *Evaluating Whether Analytical Procedures Indicate a Previously Unrecognized Fraud Risk.* Whether an unusual or unexpected transaction, event, amount, or relationship indicates a fraud risk, as discussed in paragraph 6.b., depends on the relevant facts and circumstances, including the nature of the account or relationship among the data used in the analytical procedures. For example, certain unusual or unexpected transactions, events, amounts, or relationships could indicate a fraud risk if a component of the relationship involves accounts and disclosures that management has incentives or pressures to manipulate, e.g., significant unusual or unexpected relationships involving revenue and income.

## Accumulating and Evaluating Identified Misstatements

10. *Accumulating Identified Misstatements.* The auditor should accumulate misstatements identified during the audit, other than those that are clearly trivial.

Note: "Clearly trivial" is not another expression for "not material." Matters that are clearly trivial will be of a smaller order of magnitude than the materiality level established in accordance with Auditing Standard No. 11, *Consideration of Materiality in Planning and Performing an Audit*, and will be inconsequential, whether taken individually or in aggregate and whether judged by any criteria of size, nature, or circumstances. When there is any uncertainty about whether one or more items is clearly trivial, the matter is not considered trivial.

---

<sup>3</sup> Paragraphs 46–48 of Auditing Standard No. 12, *Identifying and Assessing Risks of Material Misstatement* and paragraph .03 of AU sec. 329, *Substantive Analytical Procedures*.

<sup>4</sup> Paragraph 47 of Auditing Standard No. 12 contains a requirement to perform analytical procedures relating to revenue as part of the risk assessment procedures.

**11.** The auditor may designate an amount below which misstatements are clearly trivial and do not need to be accumulated. In such cases, the amount should be set so that any misstatements below that amount would not be material to the financial statements, individually or in combination with other misstatements, considering the possibility of undetected misstatement.

**12.** The auditor's accumulation of misstatements should include the auditor's best estimate of the total misstatement in the accounts and disclosures that he or she has tested, not just the amount of misstatements specifically identified. This includes misstatements related to accounting estimates, as determined in accordance with paragraph 13 of this standard, and projected misstatements from substantive procedures that involve audit sampling, as determined in accordance with AU sec. 350, *Audit Sampling*.<sup>5</sup>

**13. *Misstatements Relating to Accounting Estimates.*** If the auditor concludes that the amount of an accounting estimate included in the financial statements is unreasonable or was not determined in conformity with the relevant requirements of the applicable financial reporting framework, he or she should treat the difference between that estimate and a reasonable estimate determined in conformity with the applicable accounting principles as a misstatement. If a range of reasonable estimates is supported by sufficient appropriate audit evidence and the recorded estimate is outside of the range of reasonable estimates, the auditor should treat the difference between the recorded accounting estimate and the closest reasonable estimate as a misstatement.

Note: If an accounting estimate is determined in conformity with the relevant requirements of the applicable financial reporting framework and the amount of the estimate is reasonable, a difference between an estimated amount best supported by the audit evidence and the recorded amount of the accounting estimate ordinarily would not be considered to be a misstatement. Paragraph 27 discusses evaluating accounting estimates for bias.

**14. *Considerations as the Audit Progresses.*** The auditor should determine whether the overall audit strategy and audit plan need to be modified if:

- a. The nature of accumulated misstatements and the circumstances of their occurrence indicate that other misstatements might exist that, in combination with accumulated misstatements, could be material; or
- b. The aggregate of misstatements accumulated during the audit approaches the materiality level or levels used in planning and performing the audit.<sup>6</sup>

Note: When the aggregate of accumulated misstatements approaches the materiality level or levels used in planning and performing the audit, there likely will be greater than an appropriately low level of risk that possible undetected misstatements, when combined with the aggregate of misstatements accumulated during the audit that remain uncorrected, could be material to the financial statements. If the auditor's assessment of this risk is unacceptably high, he or she should perform additional audit procedures or determine that management has adjusted the financial statements so that the risk that the financial statements are materially misstated has been reduced to an appropriately low level.

---

<sup>5</sup> AU sec. 350.26.

<sup>6</sup> Auditing Standard No. 11.

**15.** The auditor should communicate accumulated misstatements to management on a timely basis to provide management with an opportunity to correct them.

**16.** If management has examined an account or a disclosure in response to misstatements detected by the auditor and has made corrections to the account or disclosure, the auditor should evaluate management's work to determine whether the corrections have been recorded properly and whether uncorrected misstatements remain.

**17.** *Evaluation of the Effect of Uncorrected Misstatements.* The auditor should evaluate whether uncorrected misstatements are material, individually or in combination with other misstatements. In making this evaluation, the auditor should evaluate the misstatements in relation to the specific accounts and disclosures involved and to the financial statements as a whole, taking into account relevant quantitative and qualitative factors.<sup>7</sup> (See Appendix B.)

Note: In interpreting the federal securities laws, the Supreme Court of the United States has held that a fact is material if there is "a substantial likelihood that the ...fact would have been viewed by the reasonable investor as having significantly altered the 'total mix' of information made available."<sup>8</sup> As the Supreme Court has noted, determinations of materiality require "delicate assessments of the inferences a 'reasonable shareholder' would draw from a given set of facts and the significance of those inferences to him ...."<sup>9</sup>

Note: As a result of the interaction of quantitative and qualitative considerations in materiality judgments, uncorrected misstatements of relatively small amounts could have a material effect on the financial statements. For example, an illegal payment of an otherwise immaterial amount could be material if there is a reasonable possibility<sup>10</sup> that it could lead to a material contingent liability or a material loss of revenue.<sup>11</sup> Also, a misstatement made intentionally could be material for qualitative reasons, even if relatively small in amount.

Note: If the reevaluation of the established materiality level or levels, as set forth in Auditing Standard No. 11,<sup>12</sup> results in a lower amount for the materiality level or levels, the auditor should take into account that lower materiality level or levels in the evaluation of uncorrected misstatements.

**18.** The auditor's evaluation of uncorrected misstatements, as described in paragraph 17 of this standard, should include evaluation of the effects of uncorrected misstatements detected in prior years and misstatements detected in the current year that relate to prior years.

**19.** The auditor cannot assume that an instance of error or fraud is an isolated occurrence. Therefore, the auditor should evaluate the nature and effects of the individual misstatements accumulated during the audit on the assessed risks of material misstatement. This evaluation is important in determining

---

<sup>7</sup> If the financial statements contain material misstatements, AU sec. 508, *Reports on Audited Financial Statements*, indicates that the auditor should issue a qualified or an adverse opinion on the financial statements. AU sec. 508.35 discusses situations in which the financial statements are materially affected by a departure from the applicable financial reporting framework.

<sup>8</sup> *TSC Industries v. Northway, Inc.*, 426 U.S. 438, 449 (1976). See also *Basic, Inc. v. Levinson*, 485 U.S. 224 (1988).

<sup>9</sup> *TSC Industries*, 426 U.S. at 450.

<sup>10</sup> There is a reasonable possibility of an event, as used in this standard, when the likelihood of the event is either "reasonably possible" or "probable," as those terms are used in the FASB Accounting Standards Codification, Contingencies Topic, paragraph 450-20-25-1.

<sup>11</sup> AU sec. 317, *Illegal Acts by Clients*.

<sup>12</sup> Paragraphs 11–12 of Auditing Standard No. 11.

whether the risk assessments remain appropriate, as discussed in paragraph 36 of this standard.

**20.** *Evaluating Whether Misstatements Might Be Indicative of Fraud.* The auditor should evaluate whether identified misstatements<sup>13</sup> might be indicative of fraud and, in turn, how they affect the auditor's evaluation of materiality and the related audit responses. As indicated in AU sec. 316, *Consideration of Fraud in a Financial Statement Audit*, fraud is an intentional act that results in material misstatement of the financial statements.<sup>14</sup>

**21.** If the auditor believes that a misstatement is or might be intentional, and if the effect on the financial statements could be material or cannot be readily determined, the auditor should perform procedures to obtain additional audit evidence to determine whether fraud has occurred or is likely to have occurred and, if so, its effect on the financial statements and the auditor's report thereon.

**22.** For misstatements that the auditor believes are or might be intentional, the auditor should evaluate the implications on the integrity of management or employees and the possible effect on other aspects of the audit. If the misstatement involves higher-level management, it might be indicative of a more pervasive problem, such as an issue with the integrity of management, even if the amount of the misstatement is small. In such circumstances, the auditor should reevaluate the assessment of fraud risk and the effect of that assessment on (a) the nature, timing, and extent of the necessary tests of accounts or disclosures and (b) the assessment of the effectiveness of controls. The auditor also should evaluate whether the circumstances or conditions indicate possible collusion involving employees, management, or external parties and, if so, the effect of the collusion on the reliability of evidence obtained.

**23.** If the auditor becomes aware of information indicating that fraud or another illegal act has occurred or might have occurred, he or she also must determine his or her responsibilities under AU secs. 316.79–.82A, AU sec. 317, and Section 10A of the Securities Exchange Act of 1934, 15 U.S.C. §78j–1.

## Evaluating the Qualitative Aspects of the Company's Accounting Practices

**24.** When evaluating whether the financial statements as a whole are free of material misstatement, the auditor should evaluate the qualitative aspects of the company's accounting practices, including potential bias in management's judgments about the amounts and disclosures in the financial statements.

**25.** The following are examples of forms of management bias:

- a. The selective correction of misstatements brought to management's attention during the audit (e.g., correcting misstatements that have the effect of increasing reported earnings but not correcting misstatements that have the effect of decreasing reported earnings).

Note: To evaluate the potential effect of selective correction of misstatements, the auditor should obtain an understanding of the reasons that management decided not to correct misstatements communicated by the auditor in accordance with paragraph 15.

---

<sup>13</sup> Misstatements include omission and presentation of inaccurate or incomplete disclosures.

<sup>14</sup> AU sec. 316.05.

- b. The identification by management of additional adjusting entries that offset misstatements accumulated by the auditor. If such adjusting entries are identified, the auditor should perform procedures to determine why the underlying misstatements were not identified previously and evaluate the implications on the integrity of management and the auditor's risk assessments, including fraud risk assessments. The auditor also should perform additional procedures as necessary to address the risk of further undetected misstatement.
- c. Bias in the selection and application of accounting principles.<sup>15</sup>
- d. Bias in accounting estimates.<sup>16</sup>

**26.** If the auditor identifies bias in management's judgments about the amounts and disclosures in the financial statements, the auditor should evaluate whether the effect of that bias, together with the effect of uncorrected misstatements, results in material misstatement of the financial statements. Also, the auditor should evaluate whether the auditor's risk assessments, including, in particular, the assessment of fraud risks, and the related audit responses remain appropriate.

**27. *Evaluating Bias in Accounting Estimates.*** The auditor should evaluate whether the difference between estimates best supported by the audit evidence and estimates included in the financial statements, which are individually reasonable, indicate a possible bias on the part of the company's management. If each accounting estimate included in the financial statements was individually reasonable but the effect of the difference between each estimate and the estimate best supported by the audit evidence was to increase earnings or loss, the auditor should evaluate whether these circumstances indicate potential management bias in the estimates. Bias also can result from the cumulative effect of changes in multiple accounting estimates. If the estimates in the financial statements are grouped at one end of the range of reasonable estimates in the prior year and are grouped at the other end of the range of reasonable estimates in the current year, the auditor should evaluate whether management is using swings in estimates to achieve an expected or desired outcome, e.g., to offset higher or lower than expected earnings.

Note: AU secs. 316.64–.65 establish requirements regarding performing a retrospective review of accounting estimates and evaluating the potential for fraud risks.

## Evaluating Conditions Relating to the Assessment of Fraud Risks

**28.** When evaluating the results of the audit, the auditor should evaluate whether the accumulated results of auditing procedures<sup>17</sup> and other observations affect the assessment of the fraud risks made throughout the audit and whether the audit procedures need to be modified to respond to those risks. (See Appendix C.)

---

<sup>15</sup> Paragraph 5.d. of Auditing Standard No. 13, *The Auditor's Responses to the Risks of Material Misstatement*.

<sup>16</sup> Paragraph 27 of this standard.

<sup>17</sup> Such auditing procedures include, but are not limited to, procedures in the overall review (paragraph 9 of this standard), the evaluation of identified misstatements (paragraphs 20–23 of this standard), and the evaluation of the qualitative aspects of the company's accounting practices (paragraphs 24–27 of this standard).

**29.** As part of this evaluation, the engagement partner should determine whether there has been appropriate communication with the other engagement team members throughout the audit regarding information or conditions that are indicative of fraud risks.

Note: To accomplish this communication, the engagement partner might arrange another discussion among the engagement team members about fraud risks. (See paragraphs 49–51 of Auditing Standard No. 12.)

## Evaluating the Presentation of the Financial Statements, Including the Disclosures

**30.** The auditor must evaluate whether the financial statements are presented fairly, in all material respects, in conformity with the applicable financial reporting framework.

Note: AU sec. 411, *The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles*, establishes requirements for evaluating the presentation of the financial statements. Auditing Standard No. 6, *Evaluating Consistency of Financial Statements*, establishes requirements regarding evaluating the consistency of the accounting principles used in financial statements.

Note: The auditor should look to the requirements of the Securities and Exchange Commission for the company under audit with respect to the accounting principles applicable to that company.

**31.** As part of the evaluation of the presentation of the financial statements, the auditor should evaluate whether the financial statements contain the information essential for a fair presentation of the financial statements in conformity with the applicable financial reporting framework. Evaluation of the information disclosed in the financial statements includes consideration of the form, arrangement, and content of the financial statements (including the accompanying notes), encompassing matters such as the terminology used, the amount of detail given, the classification of items in the statements, and the bases of amounts set forth.

Note: According to AU sec. 508, if the financial statements, including the accompanying notes, fail to disclose information that is required by the applicable financial reporting framework, the auditor should express a qualified or adverse opinion and should provide the information in the report, if practicable, unless its omission from the report is recognized as appropriate by a specific auditing standard.<sup>18</sup>

## Evaluating the Sufficiency and Appropriateness of Audit Evidence

**32.** Auditing Standard No. 8, *Audit Risk*, states:

To form an appropriate basis for expressing an opinion on the financial statements, the auditor must plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement due to error or fraud. Reasonable assurance is obtained by reducing audit risk

---

<sup>18</sup> AU secs. 508.41–.44.

to an appropriately low level through applying due professional care, including obtaining sufficient appropriate audit evidence.<sup>19</sup>

**33.** As part of evaluating audit results, the auditor must conclude on whether sufficient appropriate audit evidence has been obtained to support his or her opinion on the financial statements.

**34.** Factors that are relevant to the conclusion on whether sufficient appropriate audit evidence has been obtained include the following:

- a. The significance of uncorrected misstatements and the likelihood of their having a material effect, individually or in combination, on the financial statements, considering the possibility of further undetected misstatement (paragraphs 14 and 17–19 of this standard).
- b. The results of audit procedures performed in the audit of financial statements, including whether the evidence obtained supports or contradicts management's assertions and whether such audit procedures identified specific instances of fraud (paragraphs 20–23 and 28–29 of this standard).
- c. The auditor's risk assessments (paragraph 36 of this standard).
- d. The results of audit procedures performed in the audit of internal control over financial reporting, if the audit is an integrated audit.
- e. The appropriateness (i.e., the relevance and reliability) of the audit evidence obtained.<sup>20</sup>

**35.** If the auditor has not obtained sufficient appropriate audit evidence about a relevant assertion or has substantial doubt about a relevant assertion, the auditor should perform procedures to obtain further audit evidence to address the matter. If the auditor is unable to obtain sufficient appropriate audit evidence to have a reasonable basis to conclude about whether the financial statements as a whole are free of material misstatement, AU sec. 508 indicates that the auditor should express a qualified opinion or a disclaimer of opinion.<sup>21</sup>

**36. *Evaluating the Appropriateness of Risk Assessments.*** As part of the evaluation of whether sufficient appropriate audit evidence has been obtained, the auditor should evaluate whether the assessments of the risks of material misstatement at the assertion level remain appropriate and whether the audit procedures need to be modified or additional procedures need to be performed as a result of any changes in the risk assessments. For example, the re-evaluation of the auditor's risk assessments could result in the identification of relevant assertions or significant risks that were not identified previously and for which the auditor should perform additional audit procedures.

Note: Auditing Standard No. 12 establishes requirements on revising the auditor's risk assessment.<sup>22</sup> Auditing Standard No. 13 discusses the auditor's responsibilities regarding the assessment of control risk and evaluation of control deficiencies in an audit of financial statements.<sup>23</sup>

---

<sup>19</sup> Paragraph 3 of Auditing Standard No. 8.

<sup>20</sup> Paragraphs 7–9 of Auditing Standard No. 15, *Audit Evidence*, discuss the relevance and reliability of audit evidence.

<sup>21</sup> AU sec. 508.22–.34 contains requirements regarding audit scope limitations.

<sup>22</sup> Paragraph 74 of Auditing Standard No. 12.

<sup>23</sup> Paragraphs 32–34 of Auditing Standard No. 13.

## Evaluating the Results of the Audit of Internal Control Over Financial Reporting

37. Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*, indicates that the auditor should form an opinion on the effectiveness of internal control over financial reporting by evaluating evidence obtained from all sources, including the auditor's testing of controls, misstatements detected during the financial statement audit, and any identified control deficiencies. Auditing Standard No. 5 describes the auditor's responsibilities regarding evaluating the results of the audit, including evaluating the identified control deficiencies.<sup>24</sup>

---

<sup>24</sup> Paragraphs 62–70 of Auditing Standard No. 5 discuss evaluating identified control deficiencies, and paragraphs 71–73 of Auditing Standard No. 5 discuss forming an opinion on the effectiveness of internal control over financial reporting.

## Appendix A

### Definitions

A1. For purposes of this standard, the terms listed below are defined as follows:

A2. **Misstatement**—A misstatement, if material individually or in combination with other misstatements, causes the financial statements not to be presented fairly in conformity with the applicable financial reporting framework.<sup>1</sup> A misstatement may relate to a difference between the amount, classification, presentation, or disclosure of a reported financial statement item and the amount, classification, presentation, or disclosure that should be reported in conformity with the applicable financial reporting framework. Misstatements can arise from error (i.e., unintentional misstatement) or fraud.<sup>2</sup>

A3. **Uncorrected misstatements**—Misstatements, other than those that are clearly trivial,<sup>3</sup> that management has not corrected.

---

<sup>1</sup> The auditor should look to the requirements of the Securities and Exchange Commission for the company under audit with respect to the accounting principles applicable to that company.

<sup>2</sup> Paragraph .02 of AU sec. 316, *Consideration of Fraud in a Financial Statement Audit*.

<sup>3</sup> Paragraph 10 of this standard states that, "[t]he auditor should accumulate misstatements identified during the audit, other than those that are clearly trivial."

## Appendix B

### Qualitative Factors Related to the Evaluation of the Materiality of Uncorrected Misstatements

B1. Paragraph 17 of this standard states:

The auditor should evaluate whether uncorrected misstatements are material, individually or in combination with other misstatements. In making this evaluation, the auditor should evaluate the misstatements in relation to the specific accounts and disclosures involved and to the financial statements as a whole, taking into account relevant quantitative and qualitative factors.<sup>1</sup>

Note: In interpreting the federal securities laws, the Supreme Court of the United States has held that a fact is material if there is "a substantial likelihood that the . . . fact would have been viewed by the reasonable investor as having significantly altered the 'total mix' of information made available."<sup>2</sup> As the Supreme Court has noted, determinations of materiality require "delicate assessments of the inferences a 'reasonable shareholder' would draw from a given set of facts and the significance of those inferences to him . . ."<sup>3</sup>

Note: As a result of the interaction of quantitative and qualitative considerations in materiality judgments, uncorrected misstatements of relatively small amounts could have a material effect on the financial statements. For example, an illegal payment of an otherwise immaterial amount could be material if there is a reasonable possibility<sup>4</sup> that it could lead to a material contingent liability or a material loss of revenue.<sup>5</sup> Also, a misstatement made intentionally could be material for qualitative reasons, even if relatively small in amount.

B2. Qualitative factors to consider in the auditor's evaluation of the materiality of uncorrected misstatements, if relevant, include the following:

- a. The potential effect of the misstatement on trends, especially trends in profitability.
- b. A misstatement that changes a loss into income or vice versa.
- c. The effect of the misstatement on segment information, for example, the significance of the matter to a particular segment important to the future profitability of the company, the pervasiveness of the matter on the segment information, and the impact of the matter on trends in segment information, all in relation to the financial statements taken as a whole.
- d. The potential effect of the misstatement on the company's compliance with loan covenants, other contractual agreements, and regulatory provisions.

---

<sup>1</sup> If the financial statements contain material misstatements, AU sec. 508, *Reports on Audited Financial Statements*, indicates that the auditor should issue a qualified or an adverse opinion on the financial statements. AU sec. 508.35 discusses situations in which the financial statements are materially affected by a departure from the applicable financial reporting framework.

<sup>2</sup> *TSC Industries v. Northway, Inc.*, 426 U.S. 438, 449 (1976). See also *Basic, Inc. v. Levinson*, 485 U.S. 224 (1988).

<sup>3</sup> *TSC Industries*, 426 U.S. at 450.

<sup>4</sup> There is a reasonable possibility of an event, as used in this standard, when the likelihood of the event is either "reasonably possible" or "probable," as those terms are used in the FASB Accounting Standards Codification, Contingencies Topic, paragraph 450-20-25-1.

<sup>5</sup> AU sec. 317, *Illegal Acts by Clients*.

- e. The existence of statutory or regulatory reporting requirements that affect materiality thresholds.
- f. A misstatement that has the effect of increasing management's compensation, for example, by satisfying the requirements for the award of bonuses or other forms of incentive compensation.
- g. The sensitivity of the circumstances surrounding the misstatement, for example, the implications of misstatements involving fraud and possible illegal acts, violations of contractual provisions, and conflicts of interest.
- h. The significance of the financial statement element affected by the misstatement, for example, a misstatement affecting recurring earnings as contrasted to one involving a non-recurring charge or credit, such as an extraordinary item.
- i. The effects of misclassifications, for example, misclassification between operating and non-operating income or recurring and non-recurring income items.
- j. The significance of the misstatement or disclosures relative to known user needs, for example:
  - The significance of earnings and earnings per share to public company investors.
  - The magnifying effects of a misstatement on the calculation of purchase price in a transfer of interests (buy/sell agreement).
  - The effect of misstatements of earnings when contrasted with expectations.
- k. The definitive character of the misstatement, for example, the precision of an error that is objectively determinable as contrasted with a misstatement that unavoidably involves a degree of subjectivity through estimation, allocation, or uncertainty.
- l. The motivation of management with respect to the misstatement, for example, (i) an indication of a possible pattern of bias by management when developing and accumulating accounting estimates or (ii) a misstatement precipitated by management's continued unwillingness to correct weaknesses in the financial reporting process.
- m. The existence of offsetting effects of individually significant but different misstatements.
- n. The likelihood that a misstatement that is currently immaterial may have a material effect in future periods because of a cumulative effect, for example, that builds over several periods.
- o. The cost of making the correction—it may not be cost-beneficial for the client to develop a system to calculate a basis to record the effect of an immaterial misstatement. On the other hand, if management appears to have developed a system to calculate an amount that represents an immaterial misstatement, it may reflect a motivation of management as noted in paragraph B2.1 above.
- p. The risk that possible additional undetected misstatements would affect the auditor's evaluation.

## Appendix C

### Matters That Might Affect the Assessment of Fraud Risks

C1. If the following matters are identified during the audit, the auditor should take into account these matters in the evaluation of the assessment of fraud risks, as discussed in paragraph 28 of this standard:

- a. Discrepancies in the accounting records, including:
  - (1) Transactions that are not recorded in a complete or timely manner or are improperly recorded as to amount, accounting period, classification, or company policy.
  - (2) Unsupported or unauthorized balances or transactions.
  - (3) Last-minute adjustments that significantly affect financial results.
  - (4) Evidence of employees' access to systems and records that is inconsistent with the access that is necessary to perform their authorized duties.
  - (5) Tips or complaints to the auditor about alleged fraud.
- b. Conflicting or missing evidence, including:
  - (1) Missing documents.
  - (2) Documents that appear to have been altered.<sup>1</sup>
  - (3) Unavailability of other than photocopied or electronically transmitted documents when documents in original form are expected to exist.
  - (4) Significant unexplained items in reconciliations.
  - (5) Inconsistent, vague, or implausible responses from management or employees arising from inquiries or analytical procedures.
  - (6) Unusual discrepancies between the company's records and confirmation responses.
  - (7) Missing inventory or physical assets of significant magnitude.
  - (8) Unavailable or missing electronic evidence that is inconsistent with the company's record retention practices or policies.
  - (9) Inability to produce evidence of key systems development and program change testing and implementation activities for current year system changes and deployments.
  - (10) Unusual balance sheet changes or changes in trends or important financial statement ratios or relationships, e.g., receivables growing faster than revenues.
  - (11) Large numbers of credit entries and other adjustments made to accounts receivable records.
  - (12) Unexplained or inadequately explained differences between the accounts receivable subsidiary ledger and the general ledger control account, or between the customer statement and the accounts receivable subsidiary ledger.

---

<sup>1</sup> Paragraph 9 of Auditing Standard No. 15, *Audit Evidence*.

- (13) Missing or nonexistent cancelled checks in circumstances in which cancelled checks are ordinarily returned to the company with the bank statement.
- (14) Fewer responses to confirmation requests than anticipated or a greater number of responses than anticipated.
- c. Problematic or unusual relationships between the auditor and management, including:
  - (1) Denial of access to records, facilities, certain employees, customers, vendors, or others from whom audit evidence might be sought, including:<sup>2</sup>
    - a. Unwillingness to facilitate auditor access to key electronic files for testing through the use of computer-assisted audit techniques.
    - b. Denial of access to key information technology operations staff and facilities, including security, operations, and systems development.
  - (2) Undue time pressures imposed by management to resolve complex or contentious issues.
  - (3) Management pressure on engagement team members, particularly in connection with the auditor's critical assessment of audit evidence or in the resolution of potential disagreements with management.
  - (4) Unusual delays by management in providing requested information.
  - (5) Management's unwillingness to add or revise disclosures in the financial statements to make them more complete and transparent.
  - (6) Management's unwillingness to appropriately address significant deficiencies in internal control on a timely basis.
- d. Other matters, including:
  - (1) Objections by management to the auditor meeting privately with the audit committee.
  - (2) Accounting policies that appear inconsistent with industry practices that are widely recognized and prevalent.
  - (3) Frequent changes in accounting estimates that do not appear to result from changing circumstances.
  - (4) Tolerance of violations of the company's code of conduct.

---

<sup>2</sup> Denial of access to information might constitute a limitation on the scope of the audit that requires the auditor to qualify or disclaim an opinion. (See Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*, and AU sec. 508, *Reports on Audited Financial Statements*.)

## Appendix 8—Auditing Standard No. 15

### Audit Evidence

#### Introduction

1. This standard explains what constitutes audit evidence and establishes requirements regarding designing and performing audit procedures to obtain sufficient appropriate audit evidence.

2. Audit evidence is all the information, whether obtained from audit procedures or other sources, that is used by the auditor in arriving at the conclusions on which the auditor's opinion is based. Audit evidence consists of both information that supports and corroborates management's assertions regarding the financial statements or internal control over financial reporting and information that contradicts such assertions.

#### Objective

3. The objective of the auditor is to plan and perform the audit to obtain appropriate audit evidence that is sufficient to support the opinion expressed in the auditor's report.<sup>1</sup>

#### Sufficient Appropriate Audit Evidence

4. The auditor must plan and perform audit procedures to obtain sufficient appropriate audit evidence to provide a reasonable basis for his or her opinion.

5. Sufficiency is the measure of the quantity of audit evidence. The quantity of audit evidence needed is affected by the following:

- *Risk of material misstatement (in the audit of financial statements) or the risk associated with the control (in the audit of internal control over financial reporting).* As the risk increases, the amount of evidence that the auditor should obtain also increases. For example, ordinarily more evidence is needed to respond to significant risks.<sup>2</sup>
- *Quality of the audit evidence obtained.* As the quality of the evidence increases, the need for additional corroborating evidence decreases. Obtaining more of the same type of audit evidence, however, cannot compensate for the poor quality of that evidence.

6. Appropriateness is the measure of the quality of audit evidence, i.e., its relevance and reliability. To be appropriate, audit evidence must be both relevant and reliable in providing support for the conclusions on which the auditor's opinion is based.

---

<sup>1</sup> Auditing Standard No. 14, *Evaluating Audit Results*, establishes requirements regarding evaluating whether sufficient appropriate evidence has been obtained. Auditing Standard No. 3, *Audit Documentation*, establishes requirements regarding documenting the procedures performed, evidence obtained, and conclusions reached in an audit.

<sup>2</sup> Paragraph A5 of Auditing Standard No. 12, *Identifying and Assessing Risks of Material Misstatement*.

## Relevance and Reliability

**7. *Relevance.*** The relevance of audit evidence refers to its relationship to the assertion or to the objective of the control being tested. The relevance of audit evidence depends on:

- a. The design of the audit procedure used to test the assertion or control, in particular whether it is designed to (1) test the assertion or control directly and (2) test for understatement or overstatement; and
- b. The timing of the audit procedure used to test the assertion or control.

**8. *Reliability.*** The reliability of evidence depends on the nature and source of the evidence and the circumstances under which it is obtained. For example, in general:

- Evidence obtained from a knowledgeable source that is independent of the company is more reliable than evidence obtained only from internal company sources.
- The reliability of information generated internally by the company is increased when the company's controls over that information are effective.
- Evidence obtained directly by the auditor is more reliable than evidence obtained indirectly.
- Evidence provided by original documents is more reliable than evidence provided by photocopies or facsimiles, or documents that have been filmed, digitized, or otherwise converted into electronic form, the reliability of which depends on the controls over the conversion and maintenance of those documents.

**9.** The auditor is not expected to be an expert in document authentication. However, if conditions indicate that a document may not be authentic or that the terms in a document have been modified but that the modifications have not been disclosed to the auditor, the auditor should modify the planned audit procedures or perform additional audit procedures to respond to those conditions and should evaluate the effect, if any, on the other aspects of the audit.

## Using Information Produced by the Company

**10.** When using information produced by the company as audit evidence, the auditor should evaluate whether the information is sufficient and appropriate for purposes of the audit by performing procedures to:<sup>3</sup>

- Test the accuracy and completeness of the information, or test the controls over the accuracy and completeness of that information; and
- Evaluate whether the information is sufficiently precise and detailed for purposes of the audit.

---

<sup>3</sup> When using the work of a specialist engaged or employed by management, *see* AU sec. 336, *Using the Work of a Specialist*. When using information produced by a service organization or a service auditor's report as audit evidence, *see* AU sec. 324, *Service Organizations*, and for integrated audits, *see* Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.

## Financial Statement Assertions

11. In representing that the financial statements are presented fairly in conformity with the applicable financial reporting framework, management implicitly or explicitly makes assertions regarding the recognition, measurement, presentation, and disclosure of the various elements of financial statements and related disclosures. Those assertions can be classified into the following categories:

- *Existence or occurrence*—Assets or liabilities of the company exist at a given date, and recorded transactions have occurred during a given period.
- *Completeness*—All transactions and accounts that should be presented in the financial statements are so included.
- *Valuation or allocation*—Asset, liability, equity, revenue, and expense components have been included in the financial statements at appropriate amounts.
- *Rights and obligations*—The company holds or controls rights to the assets, and liabilities are obligations of the company at a given date.
- *Presentation and disclosure*—The components of the financial statements are properly classified, described, and disclosed.

12. The auditor may base his or her work on financial statement assertions that differ from those in this standard if the assertions are sufficient for the auditor to identify the types of potential misstatements and to respond appropriately to the risks of material misstatement in each significant account and disclosure that has a reasonable possibility<sup>4</sup> of containing misstatements that would cause the financial statements to be materially misstated, individually or in combination with other misstatements.<sup>5</sup>

## Audit Procedures for Obtaining Audit Evidence

13. Audit procedures can be classified into the following categories:

- a. Risk assessment procedures,<sup>6</sup> and
- b. Further audit procedures,<sup>7</sup> which consist of:
  - (1) Tests of controls, and
  - (2) Substantive procedures, including tests of details and substantive analytical procedures.

14. Paragraphs 15–21 of this standard describe specific audit procedures. The purpose of an audit procedure determines whether it is a risk assessment procedure, test of controls, or substantive procedure.

---

<sup>4</sup> There is a reasonable possibility of an event, as used in this standard, when the likelihood of the event is either "reasonably possible" or "probable," as those terms are used in the FASB Accounting Standards Codification, Contingencies Topic, paragraph 450-20-25-1.

<sup>5</sup> For an integrated audit, also see paragraph 28 of Auditing Standard No. 5.

<sup>6</sup> Auditing Standard No. 12.

<sup>7</sup> Auditing Standard No. 13, *The Auditor's Responses to the Risks of Material Misstatement*.

## Inspection

15. Inspection involves examining records or documents, whether internal or external, in paper form, electronic form, or other media, or physically examining an asset. Inspection of records and documents provides audit evidence of varying degrees of reliability, depending on their nature and source and, in the case of internal records and documents, on the effectiveness of the controls over their production. An example of inspection used as a test of controls is inspection of records for evidence of authorization.

## Observation

16. Observation consists of looking at a process or procedure being performed by others, e.g., the auditor's observation of inventory counting by the company's personnel or the performance of control activities. Observation can provide audit evidence about the performance of a process or procedure, but the evidence is limited to the point in time at which the observation takes place and also is limited by the fact that the act of being observed may affect how the process or procedure is performed.<sup>8</sup>

## Inquiry

17. Inquiry consists of seeking information from knowledgeable persons in financial or nonfinancial roles within the company or outside the company. Inquiry may be performed throughout the audit in addition to other audit procedures. Inquiries may range from formal written inquiries to informal oral inquiries. Evaluating responses to inquiries is an integral part of the inquiry process.<sup>9</sup>

Note: Inquiry of company personnel, by itself, does not provide sufficient audit evidence to reduce audit risk to an appropriately low level for a relevant assertion or to support a conclusion about the effectiveness of a control.

## Confirmation

18. A confirmation response represents a particular form of audit evidence obtained by the auditor from a third party in accordance with PCAOB standards.<sup>10</sup>

## Recalculation

19. Recalculation consists of checking the mathematical accuracy of documents or records. Recalculation may be performed manually or electronically.

## Reperformance

20. Reperformance involves the independent execution of procedures or controls that were originally performed by company personnel.

---

<sup>8</sup> AU sec. 331, *Inventories*, establishes requirements regarding observation of the counting of inventory.

<sup>9</sup> AU sec. 333, *Management Representations*, establishes requirements regarding written management representations, including confirmation of management responses to oral inquiries.

<sup>10</sup> AU sec. 330, *The Confirmation Process*.

## Analytical Procedures

21. Analytical procedures consist of evaluations of financial information made by a study of plausible relationships among both financial and nonfinancial data. Analytical procedures also encompass the investigation of significant differences from expected amounts.<sup>11</sup>

## Selecting Items for Testing to Obtain Audit Evidence

22. Designing substantive tests of details and tests of controls includes determining the means of selecting items for testing from among the items included in an account or the occurrences of a control. The auditor should determine the means of selecting items for testing to obtain evidence that, in combination with other relevant evidence, is sufficient to meet the objective of the audit procedure. The alternative means of selecting items for testing are:

- Selecting all items;
- Selecting specific items; and
- Audit sampling.

23. The particular means or combination of means of selecting items for testing that is appropriate depends on the nature of the audit procedure, the characteristics of the control or the items in the account being tested, and the evidence necessary to meet the objective of the audit procedure.

## Selecting All Items

24. Selecting all items (100 percent examination) refers to testing the entire population of items in an account or the entire population of occurrences of a control (or an entire stratum within one of those populations). The following are examples of situations in which 100 percent examination might be applied:

- The population constitutes a small number of large value items;
- The audit procedure is designed to respond to a significant risk, and other means of selecting items for testing do not provide sufficient appropriate audit evidence; and
- The audit procedure can be automated effectively and applied to the entire population.

## Selecting Specific Items

25. Selecting specific items refers to testing all of the items in a population that have a specified characteristic, such as:

- *Key items.* The auditor may decide to select specific items within a population because they are important to accomplishing the objective of the audit procedure or exhibit some other characteristic, e.g., items that are suspicious, unusual, or particularly risk-prone or items that have a history of error.
- *All items over a certain amount.* The auditor may decide to examine items whose recorded values exceed a certain amount to verify a large proportion of the total amount of the items included in an account.

---

<sup>11</sup> AU sec. 329, *Substantive Analytical Procedures*, establishes requirements on performing analytical procedures as substantive procedures.

**26.** The auditor also might select specific items to obtain an understanding about matters such as the nature of the company or the nature of transactions.

**27.** The application of audit procedures to items that are selected as described in paragraphs 25–26 of this standard does not constitute audit sampling, and the results of those audit procedures cannot be projected to the entire population.<sup>12</sup>

## **Audit Sampling**

**28.** Audit sampling is the application of an audit procedure to less than 100 percent of the items within an account balance or class of transactions for the purpose of evaluating some characteristic of the balance or class.<sup>13</sup>

## **Inconsistency in, or Doubts about the Reliability of, Audit Evidence**

**29.** If audit evidence obtained from one source is inconsistent with that obtained from another, or if the auditor has doubts about the reliability of information to be used as audit evidence, the auditor should perform the audit procedures necessary to resolve the matter and should determine the effect, if any, on other aspects of the audit.

---

<sup>12</sup> If misstatements are identified in the selected items, see paragraphs 12–13 and paragraphs 17–19 of Auditing Standard No. 14.

<sup>13</sup> AU sec. 350, *Audit Sampling*, establishes requirements regarding audit sampling.

## Appendix 9—Amendments to PCAOB Standards

### Auditing Standards

#### **AU sec. 110, "Responsibilities and Functions of the Independent Auditor"**

Statement on Auditing Standards ("SAS") No. 1, "Codification of Auditing Standards and Procedures" section 110, "Responsibilities and Functions of the Independent Auditor" (AU sec. 110, "Responsibilities and Functions of the Independent Auditor"), as amended, is amended as follows:

Within footnote 1 to paragraph .02, the reference to section 312, *Audit Risk and Materiality in Conducting an Audit*, is replaced with a reference to Auditing Standard No. 11, *Consideration of Materiality in Planning and Performing an Audit*.

#### **AU sec. 150, "Generally Accepted Auditing Standards"**

SAS No. 95, "Generally Accepted Auditing Standards" (AU sec. 150, "Generally Accepted Auditing Standards"), as amended, is amended as follows:

- a. Within paragraph .02, in the third standard of field work, the word "competent" is replaced with the word "appropriate."
- b. Footnote 2 to paragraph .04 is deleted.

#### **AU sec. 210, "Training and Proficiency of the Independent Auditor"**

SAS No. 1, "Codification of Auditing Standards and Procedures" section 210, "Training and Proficiency of the Independent Auditor" (AU sec. 210, "Training and Proficiency of the Independent Auditor"), as amended, is amended as follows:

The last sentence of paragraph .03 is replaced with:

The engagement partner must exercise seasoned judgment in the varying degrees of his supervision and review of the work done and judgments exercised by his subordinates, who in turn must meet the responsibilities attaching to the varying gradations and functions of their work.

#### **AU sec. 230, "Due Professional Care in the Performance of Work"**

SAS No. 1, "Codification of Auditing Standards and Procedures" section 230, "Due Professional Care in the Performance of Work" (AU sec. 230, "Due Professional Care in the Performance of Work"), as amended, is amended as follows:

- a. The second and third sentences of paragraph .06 are replaced with:

The engagement partner should know, at a minimum, the relevant professional accounting and auditing standards and should be knowledgeable about the client. The engagement partner is responsible for the assignment of tasks to, and supervision of, the members of the engagement team.<sup>fn4</sup>

- b. Footnote 3 to paragraph .06 is deleted.
- c. Within footnote 4 to paragraph .06, the phrase "See section 311.11" is replaced with, "See Auditing Standard No. 10, *Supervision of the Audit Engagement*."
- d. Footnote 6 to paragraph .11 is deleted.
- e. In the first sentence of paragraph .11, the word "competent" is replaced with the word "appropriate."
- f. At the end of the fifth sentence of paragraph .12, the following parenthetical is added: "(See paragraph 9 of Auditing Standard No. 15, *Audit Evidence*.)"

### **AU sec. 310, "Appointment of the Independent Auditor"**

SAS No. 1, "Codification of Auditing Standards and Procedures" section 310, "Appointment of the Independent Auditor" (AU sec. 310, "Appointment of the Independent Auditor"), as amended, is amended as follows:

- a. Within footnote \*\* to the title of the standard, the sentence "(See section 313.)" is deleted.
- b. Paragraph .02 is replaced with:

Audit planning is discussed in Auditing Standard No. 9, *Audit Planning*, and supervision of engagement team members is discussed in Auditing Standard No. 10, *Supervision of the Audit Engagement*.
- c. In paragraph .03, the sentence "(See section 313)" is deleted.
- d. Within footnote 3 to paragraph .06, the reference to Section 312, *Audit Risk and Materiality in Conducting an Audit*, paragraph .04, is replaced with a reference to Paragraph A2 of Auditing Standard No. 14, *Evaluating Audit Results*.

### **AU sec. 311, "Planning and Supervision"**

SAS No. 22, "Planning and Supervision" (AU sec. 311, "Planning and Supervision"), as amended, is superseded.

### **AU sec. 9311, "Planning and Supervision: Auditing Interpretations of Section 311"**

AU sec. 9311, "Planning and Supervision: Auditing Interpretations of Section 311", as amended, is superseded.

### **AU sec. 312, "Audit Risk and Materiality in Conducting an Audit"**

SAS No. 47, "Audit Risk and Materiality in Conducting an Audit" (AU sec. 312, "Audit Risk and Materiality in Conducting an Audit"), as amended, is superseded.

## **AU sec. 9312, "Audit Risk and Materiality in Conducting an Audit: Auditing Interpretations of Section 312"**

AU sec. 9312, "Audit Risk and Materiality in Conducting an Audit: Auditing Interpretations of Section 312" is superseded.

## **AU sec. 313, "Substantive Tests Prior to the Balance Sheet Date"**

SAS No. 45, "Omnibus Statement on Auditing Standards—1983" (AU sec. 313, "Substantive Tests Prior to the Balance Sheet Date"), as amended, is superseded.

## **AU sec. 315, "Communications Between Predecessor and Successor Auditors"**

SAS No. 84, "Communications Between Predecessor and Successor Auditors" (AU sec. 315, "Communications Between Predecessor and Successor Auditors"), as amended, is amended as follows:

- a. In the first sentence of paragraph .12, the word "competent" is replaced with the word "appropriate."
- b. In the first sentence of paragraph .18, the word "competent" is replaced with the word "appropriate."

## **AU sec. 316, "Consideration of Fraud in a Financial Statement Audit"**

SAS No. 99, "Consideration of Fraud in a Financial Statement Audit" (AU sec. 316, "Consideration of Fraud in a Financial Statement Audit"), as amended, is amended as follows:

- a. The second sentence of paragraph .01 is replaced with:

This section establishes requirements and provides direction relevant to fulfilling that responsibility, as it relates to fraud, in an audit of financial statements.<sup>fn 2</sup>
- b. In footnote 1 to paragraph .01, delete the following information: (see section 312, *Audit Risk and Materiality in Conducting an Audit*," and the closing parenthesis at the end of that sentence.
- c. Footnote 2 to paragraph .01 is replaced with:

For purposes of this standard, the term "audit of financial statements" refers to the financial statement portion of the integrated audit and to the audit of financial statements only.
- d. The following paragraph .01A is added:

Auditing Standard No. 12, *Identifying and Assessing Risks of Material Misstatement*, establishes requirements regarding the process of identifying and assessing risks of material misstatement of the financial statements. Auditing Standard No. 13, *The Auditor's Responses to the Risks of Material Misstatement*, establishes requirements regarding designing and implementing appropriate responses to the risks of material misstatement. Auditing Standard No. 14, *Evaluating Audit Results*, establishes requirements regarding the auditor's evaluation of audit results and determination of whether he or she has obtained sufficient appropriate audit evidence.

## e. In paragraph .02:

- The third through the sixth bullet points are deleted.
- The seventh bullet point is replaced with:

*Responding to fraud risks.* This section discusses certain responses to fraud risks involving the nature, timing, and extent of audit procedures, including:

- Responses to assessed fraud risks relating to fraudulent financial reporting and misappropriation of assets (see paragraphs .52 through .56).
- Responses to specifically address the fraud risks arising from management override of internal controls (see paragraphs .57 through .67).

- The eighth bullet point is deleted.

## f. Paragraph .03 is deleted.

## g. Footnote 5 to paragraph .06 is replaced with:

The auditor should look to the requirements of the Securities and Exchange Commission for the company under audit with respect to accounting principles applicable to that company.

## h. In the third sentence of paragraph .13, the term "the risk of material misstatement due to fraud" is replaced with the term "fraud risks."

## i. Paragraphs .14 through .45 are deleted, along with the preceding heading, "Discussion Among Engagement Personnel Regarding the Risks of Material Misstatement Due to Fraud."

## j. Footnotes 8 through 19 related to paragraphs .14 through .45 are deleted.

## k. Paragraphs .46 through .50 are deleted. The heading preceding paragraph .46, "Responding to the Results of the Assessment," is replaced with the heading "Responding to Assessed Fraud Risks."

## l. Paragraph .51 is deleted. The heading preceding paragraph .51, "Responses Involving the Nature, Timing, and Extent of Procedures to Be Performed to Address the Identified Risks," is replaced with the heading "Responses Involving the Nature, Timing, and Extent of Procedures to Be Performed."

## m. Paragraph .52 is replaced with:

Paragraph 8 of Auditing Standard No. 13, *The Auditor's Responses to the Risks of Material Misstatement*, states that "[t]he auditor should design and perform audit procedures in a manner that addresses the assessed risks of material misstatement due to error or fraud for each relevant assertion of each significant account and disclosure." Paragraph 12 of Auditing Standard No. 13 states that "the audit procedures that are necessary to address the assessed fraud risks depend upon the types of risks and the relevant assertions that might be affected."

Note: Paragraph 71.b. of Auditing Standard No. 12, *Identifying and Assessing Risks of Material Misstatement*, states that a fraud risk

is a significant risk. Accordingly, the requirement for responding to significant risks also applies to fraud risks.

- n. In paragraph .53:
- The first sentence is replaced with:  
The following are examples of responses to assessed fraud risks involving the nature, timing, and extent of audit procedures:
  - The fifth bullet point is replaced with:  
Interviewing personnel involved in activities in areas in which a fraud risk has been identified to obtain their insights about the risk and how controls address the risk. (See paragraph 54 of Auditing Standard No. 12, *Identifying and Assessing Risks of Material Misstatement*)
  - In the sixth bullet point, the term "risk of material misstatement due to fraud" is replaced with the term "fraud risk."
- o. Footnote 20 to paragraph .53 is replaced with:  
AU sec. 329, *Substantive Analytical Procedures*, establishes requirements regarding performing analytical procedures as substantive tests.
- p. The heading preceding paragraph .54, "Additional Examples of Responses to Identified Risks of Misstatements Arising From Fraudulent Financial Reporting," is replaced with the heading "Additional Examples of Audit Procedures Performed to Respond to Assessed Fraud Risks Relating to Fraudulent Financial Reporting."
- q. The first sentence in paragraph .54 is replaced with:  
The following are additional examples of audit procedures that might be performed in response to assessed fraud risks relating to fraudulent financial reporting:
- r. In paragraph .54:
- In the last sentence of the first bullet point, the term "risk of material misstatement due to fraud" is replaced with the term "fraud risk."
  - In the first sentence of the second bullet point, the term "risk of material misstatement due to fraud" is replaced with the term "fraud risk."
  - In the first sentence of the third bullet point and the accompanying paragraph to the third bullet point, the term "risk of material misstatement due to fraud" is replaced with the term "fraud risk."
- s. Footnotes 21 and 22 to paragraph .54 are amended as follows:
- The text of footnote 21 is replaced with "AU sec. 330, *The Confirmation Process*, establishes requirements regarding the confirmation process in audits of financial statements."

- The text of footnote 22 is replaced with "AU sec. 336, *Using the Work of a Specialist*, establishes requirements for an auditor who uses the work of a specialist in performing an audit of financial statements."
- t. The heading preceding paragraph .55, "Examples of Responses to Identified Risks of Misstatements Arising From Misappropriations of Assets," is replaced with the heading "Examples of Audit Procedures Performed to Respond to Fraud Risks Relating to Misappropriations of Assets."
- u. In the first sentence of paragraph .55, the term "risk of material misstatement due to fraud" is replaced with the term "fraud risk."
- v. In paragraph .56:
  - The first and second sentences are replaced with:

The audit procedures performed in response to a fraud risk relating to misappropriation of assets usually will be directed toward certain account balances. Although some of the audit procedures noted in paragraphs .53 and .54 and in paragraphs 8 through 15 of Auditing Standard No. 13, *The Auditor's Responses to the Risks of Material Misstatement*, may apply in such circumstances, such as the procedures directed at inventory quantities, the scope of the work should be linked to the specific information about the misappropriation risk that has been identified.
  - In the third sentence, the words "design and" are added before the words "operating effectiveness."
- w. The heading preceding paragraph .57, "Responses to Further Address the Risk of Management Override of Controls," is replaced with the heading "Audit Procedures Performed to Specifically Address the Risk of Management Override of Controls."
- x. The third sentence of paragraph .57 is replaced with:

Accordingly, as part of the auditor's responses that address fraud risks, the procedures described in paragraphs .58 through .67 should be performed to specifically address the risk of management override of controls.
- y. Footnote 23 to paragraph .58 is replaced with:

See paragraphs 28 through 32 of Auditing Standard No. 12, *Identifying and Assessing Risks of Material Misstatement*.
- z. In paragraph .61:
  - In the first sentence of the first bullet point, the term "the risk of material misstatement due to fraud" is replaced with the term "fraud risk."
  - In the second bullet point, the last two sentences are replaced with the following:

Effective controls over the preparation and posting of journal entries and adjustments may affect the extent of substantive testing necessary, provided that the auditor has tested the controls. However, even though controls might

be implemented and operating effectively, the auditor's substantive procedures for testing journal entries and other adjustments should include the identification and substantive testing of specific items.

- In item (f) of the fifth bullet point, the term "risk of material misstatement due to fraud" is replaced with the term "fraud risk."
- The last sentence of the fifth bullet point is replaced with:  
In audits of entities that have multiple locations or business units, the auditor should determine whether to select journal entries from locations based on factors set forth in paragraphs 11 through 14 of Auditing Standard No. 9, *Audit Planning*.

aa. The last sentence of paragraph .63 is replaced with:

Paragraphs 24 through 27 of Auditing Standard No. 14, *Evaluating Audit Results*, discuss the auditor's responsibilities for assessing bias in accounting estimates and the effect of bias on the financial statements.

bb. Paragraphs .68 through .78 are deleted, along with the preceding heading "Evaluating Audit Evidence."

cc. Footnotes 26 through 36 related to paragraphs .68 through .78 are deleted.

dd. In the first sentence of paragraph .80, the term "risks of material misstatement due to fraud" is replaced with the term "fraud risks."

ee. The last sentence of paragraph .80 is replaced with:

The auditor also should evaluate whether the absence of or deficiencies in controls that address fraud risks or otherwise help prevent, deter, and detect fraud (see paragraphs 72–73 of Auditing Standard No. 12, *Identifying and Assessing Risks of Material Misstatement*) represent significant deficiencies or material weaknesses that should be communicated to senior management and the audit committee.

ff. The first sentence of paragraph .81 is replaced with:

The auditor also should consider communicating other fraud risks, if any, identified by the auditor.

gg. In paragraph .83:

- The reference in the first bullet point to paragraphs .14 through .17 is replaced with a reference to paragraphs 52 and 53 of Auditing Standard No. 12, *Identifying and Assessing Risks of Material Misstatement*.
- The term "risks of material misstatement due to fraud" in the first sentence of the second bullet point is replaced with the term "fraud risks." The reference in the second bullet point to paragraphs .19 through .34 is replaced with references to paragraph 47, paragraphs 56 through 58, and paragraphs 65 through 69 of Auditing Standard No. 12, *Identifying and Assessing Risks of Material Misstatement*.

- The third bullet point is replaced with:

The fraud risks that were identified at the financial statement and assertion levels (see paragraphs 59 through 69 of Auditing Standard No. 12, *Identifying and Assessing Risks of Material Misstatement*), and the linkage of those risks to the auditor's response (see paragraphs 5 through 15 of Auditing Standard No. 13, *The Auditor's Responses to the Risks of Material Misstatement*).
  - Within the fourth bullet point, the term "risk of material misstatement due to fraud" in the first sentence is replaced with the term "fraud risk," and the reference to paragraph .41 is replaced with a reference to paragraph 68 of Auditing Standard No. 12, *Identifying and Assessing Risks of Material Misstatement*.
  - The fifth bullet point is replaced with:

The results of the procedures performed to address the assessed fraud risks, including those procedures performed to further address the risk of management override of controls (See paragraph 15 of Auditing Standard No. 13, *The Auditor's Responses to the Risks of Material Misstatements*.)
  - The reference in the sixth bullet point to paragraphs .68 through .73 is replaced with a reference to paragraphs 5 through 9 of Auditing Standard No. 14, *Evaluating Audit Results*.
- hh. Paragraph .84 and the heading preceding this paragraph, "Effective Date," are deleted.
- ii. The first sentence of paragraph .85 is replaced with:
- This appendix contains examples of risk factors discussed in paragraphs 65 through 69 of Auditing Standard No. 12, *Identifying and Assessing Risks of Material Misstatement*.

### **AU sec. 317, "Illegal Acts by Clients"**

SAS No. 54, "Illegal Acts by Clients" (AU sec. 317, "Illegal Acts by Clients") is amended as follows:

- a. The last sentence of paragraph .13 is replaced with:
- For example, an illegal payment of an otherwise immaterial amount could be material if there is a reasonable possibility that it could lead to a material contingent liability or a material loss of revenue.
- b. In paragraph .19, the word "competent" is replaced with the word "appropriate."

### **AU sec. 319, "Consideration of Internal Control in a Financial Statement Audit"**

SAS No. 55, "Consideration of Internal Control in a Financial Statement Audit" (AU sec. 319, "Consideration of Internal Control in a Financial Statement Audit"), as amended, is superseded.

## **AU sec. 322, "The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements"**

SAS No. 65, "The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements" (AU sec. 322, "The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements"), as amended, is amended as follows:

- a. In the first sentence of paragraph .02, the word "competent" is replaced with the word "appropriate."
- b. Footnote 3 to paragraph .04, is replaced with:

Auditing Standard No. 12, *Identifying and Assessing Risks of Material Misstatement*, describes the procedures the auditor performs to obtain an understanding of internal control over financial reporting.
- c. In the first sentence of paragraph .18, the word "competent" is replaced with the word "appropriate."
- d. Within footnote 5 to paragraph .18, the reference to section 326, *Evidential Matter*, paragraph .19c. is replaced with a reference to paragraph 8 of Auditing Standard No. 15, *Audit Evidence*.
- e. Within footnote 8 to paragraph .27, the reference to section 311, *Planning and Supervision*, paragraphs .11 through .14 is replaced with a reference to Auditing Standard No. 10, *Supervision of the Audit Engagement*.

## **AU sec. 324, "Service Organizations"**

SAS No. 70, "Service Organizations" (AU sec. 324, "Service Organizations"), as amended, is amended as follows:

- a. In the first sentence of paragraph .07, the reference to Section 319, *Consideration of Internal Control in a Financial Statement Audit*, is replaced with a reference to Auditing Standard No. 12, *Identifying and Assessing Risks of Material Misstatement*.
- b. In the first sentence of paragraph .16, the reference to section 319.90 through .99 is replaced with a reference to paragraph 18 and paragraphs 29 through 31 of Auditing Standard No. 13, *The Auditor's Responses to the Risks of Material Misstatement*.
- c. In the second sentence of paragraph .23, the reference to section 312, *Audit Risk and Materiality in Conducting an Audit*, is replaced with a reference to Auditing Standard No. 14, *Evaluating Audit Results*.

## **AU sec. 326, "Evidential Matter"**

SAS No. 31, "Evidential Matter" (AU sec. 326, "Evidential Matter"), as amended, is superseded.

## **AU sec. 9326, "Evidential Matter: Auditing Interpretations of Section 326"**

AU sec. 9326, "Evidential Matter: Auditing Interpretations of Section 326," as amended, is amended as follows:

- a. Paragraphs .01–.05 are deleted, along with the preceding heading "1. Evidential Matter for an Audit of Interim Financial Statements."
- b. The reference in paragraph .10 to Section 326, *Evidential Matter*, paragraph .25, is replaced with a reference to Paragraph 35 of Auditing Standard No. 14, *Evaluating Audit Results*.
- c. In the first and second sentences of paragraph .10, the word "competent" is replaced with the word "appropriate."
- d. In the second sentence of paragraph .12, the word "competent" is replaced with the word "appropriate."
- e. The last two sentences of paragraph .12 are deleted.
- f. In the first sentence of paragraph .13, the word "competent" is replaced with the word "appropriate."
- g. In paragraph .17, the word "competent" is replaced with the word "appropriate."
- h. In the second sentence of paragraph .21, the word "competent" is replaced with the word "appropriate."
- i. In the fourth sentence of paragraph .22, the word "competent" is replaced with the word "appropriate."
- j. In paragraph .23, the word "competent" is replaced with the word "appropriate."
- k. Paragraphs .24–.41 are deleted, along with the headings "3. The Auditor's Consideration of the Completeness Assertion" and "4. Applying Auditing Procedures to Segment Disclosures in Financial Statements."

## **AU sec. 328, "Auditing Fair Value Measurements and Disclosures"**

SAS No. 101, "Auditing Fair Value Measurements and Disclosures" (AU sec. 328, "Auditing Fair Value Measurements and Disclosures"), as amended, is amended as follows:

- a. In the first sentence of paragraph .03, the word "competent" is replaced with the word "appropriate."
- b. The phrase in paragraph .11 "Section 319, *Consideration of Internal Control in a Financial Statement Audit*, as amended," is replaced with "Auditing Standard No. 12, *Identifying and Assessing Risks of Material Misstatement*,"
- c. The reference in paragraph .14 to Section 319 is replaced with a reference to Paragraph A5, second note of Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.
- d. In the second sentence of paragraph .14, the reference "(see section 316, *Consideration of Fraud in a Financial Statement Audit*" is deleted.
- e. Within paragraph .25, in the second sentence of the second bullet point and in the first sentence in the third bullet point, the word "competent" is replaced with the word "appropriate."
- f. In the second sentence of paragraph .32, the word "competent" is replaced with the word "appropriate."

- g. In the first sentence of paragraph .42, the word "competent" is replaced with the word "appropriate."
- h. In footnote 8 to paragraph .43, the reference to section 431, *Adequacy of Disclosure in Financial Statements*, is replaced with a reference to "paragraph 31 of Auditing Standard No. 14, *Evaluating Audit Results*."
- i. In the second sentence of paragraph .44, the word "competent" is replaced with the word "appropriate."
- j. The reference in paragraph .47 to section 312, *Audit Risk and Materiality in Conducting an Audit*, paragraphs .36 through .41, is replaced with a reference to paragraphs 12 through 18 and 24 through 27 of Auditing Standard No. 14, *Evaluating Audit Results*.

### **AU sec. 329, "Analytical Procedures"**

SAS No. 56, "Analytical Procedures" (AU sec. 329, "Analytical Procedures"), as amended, is amended as follows:

- a. The title of the standard, "Analytical Procedures," is replaced with the title, "Substantive Analytical Procedures."
- b. The text of paragraph .01 is replaced with:

This section establishes requirements regarding the use of substantive analytical procedures in an audit.

Note: Auditing Standard No. 12, *Identifying and Assessing Risks of Material Misstatement*, establishes requirements regarding performing analytical procedures as a risk assessment procedure in identifying and assessing risks of material misstatement.

Note: Auditing Standard No. 14, *Evaluating Audit Results*, establishes requirements regarding performing analytical procedures as part of the overall review stage of the audit.

- c. The last sentence of paragraph .03 is deleted.
- d. The text of paragraph .04 is replaced with:
 

Analytical procedures are used as a substantive test to obtain evidential matter about particular assertions related to account balances or classes of transactions. In some cases, analytical procedures can be more effective or efficient than tests of details for achieving particular substantive testing objectives.
- e. Paragraphs .06–.08 and the preceding heading, "Analytical Procedures in Planning the Audit," are deleted.
- f. At the end of paragraph .09, the following new sentence is added:
 

(See paragraph 11 of Auditing Standard No. 13, *The Auditor's Responses to the Risks of Material Misstatement*.)
- g. Within footnote 1 to paragraph .09, the reference to section 326, *Evidential Matter*, is replaced with a reference to Auditing Standard No. 15, *Audit Evidence*.
- h. Footnote 2 to paragraph .20 is deleted.
- i. In paragraph .21:
  - In the fourth sentence, the word "likely" is deleted.

- The reference to section 316, *Consideration of Fraud in a Financial Statement Audit*, is replaced with a reference to Auditing Standard No. 14, *Evaluating Audit Results*.
- j. Footnote 3 to paragraph .21 is deleted.
- k. Paragraph .23 and the preceding heading, "Analytical Procedures Used in the Overall Review," and paragraph .24 and the preceding heading, "Effective Date," are deleted.

### **AU sec. 330, "The Confirmation Process"**

SAS No. 67, "The Confirmation Process" (AU sec. 330, "The Confirmation Process"), is amended as follows:

- a. The references in paragraph .02 to section 312, *Audit Risk and Materiality in Conducting an Audit*, and section 313, *Substantive Tests Prior to the Balance-Sheet Date*, are replaced with a reference to Auditing Standard No. 13, *The Auditor's Responses to the Risks of Material Misstatement*.
- b. The reference in paragraph .05 to Section 312 is replaced with a reference to Auditing Standard No. 8, *Audit Risk*.
- c. The second sentence of paragraph .06 is replaced with:

See paragraph 8 of Auditing Standard No. 15, *Audit Evidence*, which discusses the reliability of audit evidence.
- d. In the first sentence of paragraph .11, the word "competent" is replaced with the word "appropriate."
- e. In the third sentence of paragraph .11, the reference to Section 326 is replaced with a reference to Auditing Standard No. 15, *Audit Evidence*.
- f. In the first sentence of paragraph .24, the word "competence" is replaced with the word "appropriateness."
- g. In the last sentence of paragraph .27, the word "competent" is replaced with the word "appropriate."

### **AU sec. 332, "Auditing Derivative Instruments, Hedging Activities, and Investments in Securities"**

SAS No. 92, "Auditing Derivative Instruments, Hedging Activities, and Investment in Securities" (AU sec. 332, "Auditing Derivative Instruments, Hedging Activities, and Investments in Securities"), as amended, is amended as follows:

- a. The reference in paragraph .01 to section 326, *Evidential Matter*, paragraphs .03–.08, is replaced with a reference to paragraphs 11 and 12 of Auditing Standard No. 15, *Audit Evidence*.
- b. Paragraph .06 is replaced with:

Auditing Standard No. 9, *Audit Planning*, discusses the auditor's responsibilities for consideration of the use of persons with specialized skill or knowledge. Auditing Standard No. 10, *Supervision of the Audit Engagement*, discusses the auditor's responsibilities for supervision of specialists who are employed by the auditor. AU sec. 336, *Using the Work of a Specialist*, discusses the auditor's responsibilities for using the work of a specialist engaged by the auditor.

- c. The first and second sentences of paragraph .07 are deleted. The third sentence is replaced with:

The auditor should design and perform audit procedures regarding relevant assertions of derivatives and investments in securities that are based on and that address the risks of material misstatement in those assertions.

- d. The reference in paragraph .09 to Section 319, *Consideration of Internal Control in a Financial Statement Audit*, is replaced with a reference to Auditing Standard No. 12, *Identifying and Assessing Risks of Material Misstatement*.
- e. The fourth sentence of paragraph .11 is replaced with "Paragraphs 28 through 32 and B1 through B6 of Auditing Standard No. 12, *Identifying and Assessing Risks of Material Misstatement*, discuss the information system, including related business processes, relevant to financial reporting."
- f. In paragraph .15, the reference to section 319 is replaced with a reference to Auditing Standard No. 12, *Identifying and Assessing Risks of Material Misstatement*.
- g. The last sentence of paragraph .35 is replaced with:
- In addition, paragraphs 24 through 27 of Auditing Standard No. 14, *Evaluating Audit Results*, describe the auditor's responsibilities for assessing bias in accounting estimates.
- h. In paragraph .43, subparagraph a., the word "competent" is replaced with the word "appropriate."
- i. In paragraph .51, the last sentence is replaced with:
- (See paragraph 31 of Auditing Standard No. 14, *Evaluating Audit Results*.)
- j. In paragraph .57, subparagraph c., the word "competent" is replaced with the word "appropriate."

### **AU sec. 333, "Management Representations"**

SAS No. 85, "Management Representations" (AU sec. 333, "Management Representations"), as amended, is amended as follows:

- a. Footnote 4 to paragraph .06 is replaced with:
- Auditing Standard No. 14, *Evaluating Audit Results*, indicates that a misstatement can arise from error or fraud and also discusses the auditor's responsibilities for evaluating accumulated misstatements.
- b. Within footnote 6 to paragraph .06, the reference to Section 312 is replaced with a reference to Paragraph 11 of Auditing Standard No. 14, *Evaluating Audit Results*.
- c. Within footnote 7 to paragraph .06, the reference to section 316, *Consideration of Fraud in a Financial Statement Audit*, paragraphs .38 through .40, is replaced with a reference to section 316, *Consideration of Fraud in a Financial Statement Audit*, paragraphs .79 through .82.

**AU sec. 334, "Related Parties"**

SAS No. 45, "Related Parties" (AU sec. 334 "Related Parties"), is amended as follows:

- a. In the second sentence of paragraph .09, the word "competent" is replaced with the word "appropriate."
- b. In the first sentence of paragraph .11, the word "competent" is replaced with the word "appropriate."
- c. In footnote 8 to paragraph .11, the reference to section 431, *Ad-equacy of Disclosure in Financial Statements*, is replaced with a reference to paragraph 31 of Auditing Standard No. 14, *Evaluat-ing Audit Results*.

**AU sec. 9334, "Related Parties: Auditing Interpretations of Section 334"**

AU sec. 9334, "Related Parties: Auditing Interpretations of Section 334," is amended as follows:

Within footnote 4 to paragraph .17, the reference to section 312, *Audit Risk and Materiality in Conducting an Audit*, is replaced with a reference to Auditing Standard No. 8, *Audit Risk*.

**AU sec. 336, "Using the Work of a Specialist"**

SAS No. 73, "Using the Work of a Specialist" (AU sec. 336, "Using the Work of a Specialist"), is amended as follows:

- a. Footnote 1 to paragraph .01 is replaced with the following:

Because income taxes and information technology are specialized areas of accounting and auditing, this section does not apply to situations in which an income tax specialist or information technology specialist participates in the audit. Auditing Standard No. 10, *Sup-ervision of the Audit Engagement*, applies in those situations.
- b. Paragraph .05 is replaced with the following:

This section does not apply to situations in which a specialist employed by the auditor's firm participates in the audit. Auditing Stan- dard No. 10, *Supervision of the Audit Engagement*, applies in those situations.
- c. In the last sentence of paragraph .06, the word "competent" is replaced with the word "appropriate."
- d. In the first and last sentences of paragraph .13, the word "compe- tent" is replaced with the word "appropriate."

**AU sec. 9336, "Using the Work of a Specialist: Auditing Interpretations of Section 336"**

AU sec. 9336, "Using the Work of a Specialist: Auditing Interpretations of Sec- tion 336," is amended as follows:

- a. In the second sentence of paragraph .04, the word "competent" is replaced with the word "appropriate."

- b. In paragraph .05, the word "competent" is replaced with the word "appropriate."
- c. In the second sentence of paragraph .11, the word "competent" is replaced with the word "appropriate."
- d. The penultimate sentence of paragraph .15, is replaced with:

Paragraph 6 of Auditing Standard No. 15, *Audit Evidence*, states, "[t]o be appropriate, audit evidence must be both relevant and reliable in providing support for the conclusions on which the auditor's opinion is based."

### **AU sec. 341, "The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern"**

SAS No. 59, "The Auditor's Consideration of an Entity's Ability to Continue as Going Concern" (AU sec. 341, "The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern"), as amended, is amended as follows:

The reference in paragraph .02 to section 326, *Evidential Matter*, is replaced with a reference to Auditing Standard No. 15, *Audit Evidence*.

### **AU sec. 342, "Auditing Accounting Estimates"**

SAS No. 57, "Auditing Accounting Estimates" (AU sec. 342, "Auditing Accounting Estimates"), as amended, is amended as follows:

- a. In the first sentence of paragraph .01, the word "competent" is replaced with the word "appropriate."
- b. In the first sentence of paragraph .07, the word "competent" is replaced with the word "appropriate."
- c. The text of footnote 3 to paragraph .07 is replaced with:

See paragraph 31 of Auditing Standard No. 14, *Evaluating Audit Results*.

- d. The reference in paragraph .08 subparagraph b.1. to section 311, *Planning and Supervision*, is replaced with a reference to Auditing Standard No. 12, *Identifying and Assessing Risks of Material Misstatement*.
- e. Paragraph .14, is replaced with:

Paragraphs 24 through 27 of Auditing Standard No. 14, *Evaluating Audit Results*, discuss the auditor's responsibilities for assessing bias and evaluating accounting estimates in relationship to the financial statements taken as a whole.

### **AU sec. 9342, "Auditing Accounting Estimates: Auditing Interpretations of Section 342"**

AU sec. 9342, "Auditing Accounting Estimates: Auditing Interpretations of Section 342," is amended as follows:

In the second sentence of paragraph .02, the word "competent" is replaced with the word "appropriate."

**AU sec. 350, "Audit Sampling"**

SAS No. 39, "Audit Sampling" (AU sec. 350, "Audit Sampling"), as amended, is amended as follows:

- a. Within footnote 2 to paragraph .02, the reference to section 312, *Audit Risk and Materiality in Conducting an Audit*, is replaced with a reference to Auditing Standard No. 14, *Evaluating Audit Results*.
- b. The last sentence of paragraph .03 is replaced with:

Either approach to audit sampling can provide sufficient evidential matter when applied properly. This section applies to both nonstatistical and statistical sampling.
- c. Paragraph .04 is deleted.
- d. In paragraph .06:
  - The first sentence is deleted.
  - In the last sentence, the word "competence" is replaced with the word "appropriateness."
  - The following note is added to the paragraph:

Note: Auditing Standard No. 15, *Audit Evidence*, discusses the appropriateness of audit evidence, and Auditing Standard No. 14, *Evaluating Audit Results*, discusses the auditor's responsibilities for evaluating the sufficiency and appropriateness of audit evidence.
- e. Paragraph .08 is deleted.
- f. In paragraph .09:
  - The sentence in paragraph .09 referring to section 313, which is in parentheses, is deleted.
  - The following note is added to the paragraph:

Note: Auditing Standard No. 8, *Audit Risk*, describes audit risk and its components in a financial statement audit—the risk of material misstatement (consisting of inherent risk and control risk) and detection risk.
- g. In paragraph .11:
  - The phrase "(see section 311, *Planning and Supervision*)" is deleted.
  - The sentence "(See section 313.)" is deleted.
- h. The second sentence of paragraph .15 is replaced with:

See Auditing Standard No. 9, *Audit Planning*.
- i. In the first bullet in paragraph .16, the phrase "(see section 326, *Evidential Matter*)" is deleted.
- j. In the second bullet of paragraph .16, the phrase "Preliminary judgments about materiality levels" is replaced with the phrase "Tolerable misstatement. (See paragraphs .18–.18A.)"

- k. Paragraph .18 is replaced with:

Evaluation in monetary terms of the results of a sample for a substantive test of details contributes directly to the auditor's purpose, since such an evaluation can be related to his or her judgment of the monetary amount of misstatements that would be material. When planning a sample for a substantive test of details, the auditor should consider how much monetary misstatement in the related account balance or class of transactions may exist, in combination with other misstatements, without causing the financial statements to be materially misstated. This maximum monetary misstatement for the account balance or class of transactions is called *tolerable misstatement*.

- l. Paragraph .18A is added:

Paragraphs 8–9 of Auditing Standard No. 11, *Consideration of Materiality in Planning and Performing an Audit*, describe the auditor's responsibilities for determining tolerable misstatement at the account or disclosure level. When the population to be sampled constitutes a portion of an account balance or transaction class, the auditor should determine tolerable misstatement for the population to be sampled for purposes of designing the sampling plan. Tolerable misstatement for the population to be sampled ordinarily should be less than tolerable misstatement for the account balance or transaction class to allow for the possibility that misstatement in the portion of the account or transaction class not subject to audit sampling, individually or in combination with other misstatements, would cause the financial statements to be materially misstated.

- m. Paragraph .20 is deleted.

- n. The first sentence of paragraph .21 is replaced with the following sentence:

The sufficiency of tests of details for a particular account balance or class of transactions is related to the individual importance of the items examined as well as to the potential for material misstatement.

- o. Paragraph .23 is replaced with:

To determine the number of items to be selected in a sample for a particular substantive test of details, the auditor should take into account tolerable misstatement for the population; the allowable risk of incorrect acceptance (based on the assessments of inherent risk, control risk, and the detection risk related to the substantive analytical procedures or other relevant substantive tests); and the characteristics of the population, including the expected size and frequency of misstatements.

- p. Paragraph .23A is added:

Table 1 of the Appendix describes the effects of the factors discussed in the preceding paragraph on sample sizes in a statistical or nonstatistical sampling approach. When circumstances are similar, the effect on sample size of those factors should be similar regardless of whether a statistical or nonstatistical approach is used. Thus, when a nonstatistical sampling approach is applied properly, the resulting sample size ordinarily will be comparable to, or larger than, the sample size resulting from an efficient and effectively designed statistical sample.

- q. The last sentence of paragraph .25 is replaced with:

The auditor also should evaluate whether the reasons for his or her inability to examine the items have (a) implications in relation to his or her risk assessments (including the assessment of fraud risk), (b) implications regarding the integrity of management or employees, and (c) possible effects on other aspects of the audit.

- r. Footnote 6 to paragraph .26 is replaced with:

Paragraphs 10 through 23 of Auditing Standard No. 14, *Evaluating Audit Results*, discuss the auditor's consideration of differences between the accounting records and the underlying facts and circumstances.

- s. Within footnote 7 to paragraph .32, the phrase "(see section 319.85)" is deleted. In the first sentence of the footnote, the phrase "often plans" is replaced with the phrase "may plan." The last sentence of the footnote, which is in brackets, is deleted.

- t. The last sentence of paragraph .38 is replaced with:

When circumstances are similar, the effect on sample size of those factors should be similar regardless of whether a statistical or non-statistical approach is used. Thus, when a nonstatistical sampling approach is applied properly, the resulting sample size ordinarily will be comparable to, or larger than, the sample size resulting from an efficient and effectively designed statistical sample.

- u. The fifth sentence of paragraph .39 is replaced with:

Paragraphs 44 through 46 of Auditing Standard No. 13, *The Auditor's Responses to the Risks of Material Misstatement*, describe the auditor's responsibilities for performing procedures between the interim date of testing and period end.

- v. In paragraph .39, the last sentence, which is in brackets, is deleted.

- w. In paragraph .44:

- The first sentence is replaced with:

In some circumstances, the auditor may design a sample that will be used for dual purposes: as a test of control and as a substantive test.

- The third sentence is replaced with:

For example, an auditor designing a test of a control over entries in the voucher register may design a related substantive test at a risk level that is based on an expectation of reliance on the control.

- The fifth sentence is replaced with:

In evaluating such tests, deviations from the control that was tested and monetary misstatements should be evaluated separately using the risk levels applicable for the respective purposes.

- The following Note is added to the paragraph:

Note: Paragraph 47 of Auditing Standard No. 13, *The Auditor's Responses to the Risks of Material Misstatement*,

provides additional discussion of the auditor's responsibilities for performing dual-purpose tests.

- x. The reference in paragraph .45 to paragraph .04 is changed to a reference to paragraph .03.
- y. In item 2 of paragraph .48, the last sentence is deleted.
- z. Within footnote 1 to item 4 in paragraph .48, the sentence "(See section 313.)" is deleted.
- aa. The sentence in item 6 of paragraph .48 "(See section 313.)" is deleted.

### **AU sec. 9350, "Audit Sampling: Auditing Interpretations of Section 350"**

AU sec. 9350, "Audit Sampling: Auditing Interpretations of Section 350," is superseded.

### **AU sec. 380, "Communication With Audit Committees"**

SAS No. 61, "Communication With Audit Committees" (AU sec. 380, "Communication With Audit Committees"), as amended, is amended as follows:

In footnote 5 to paragraph .10, the reference to section 316A.38–.40 is replaced with a reference to AU secs. 316.79–.82; the reference to section 316A is replaced with a reference to section 316.

### **AU sec. 411, "The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles"**

SAS No. 69, "The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles" (AU sec. 411, "The Meaning of Present Fairly in Conformity with Generally Accepted Accounting Principles"), as amended, is amended as follows:

- a. In paragraph .04, the reference in (c) to section 431 is replaced with a reference to paragraph 31 of Auditing Standard No. 14, *Evaluating Audit Results*; in (d), the reference to section 431 is replaced with a reference to paragraph 31 of Auditing Standard No. 14.
- b. The reference in footnote 1 to paragraph .04 to 312.10 is replaced with a reference to Auditing Standard No. 11, *Consideration of Materiality in Planning and Performing an Audit*.

### **AU sec. 431, "Adequacy of Disclosure in Financial Statements"**

SAS No. 32, "Adequacy of Disclosure in Financial Statements" (AU sec. 431, "Adequacy of Disclosure in Financial Statements"), as amended, is superseded.

### **AU sec. 508, "Reports on Audited Financial Statements"**

SAS No. 58, "Reports on Audited Financial Statements" (AU sec. 508, "Reports on Audited Financial Statements"), as amended, is amended as follows:

- a. In paragraph 18C, the phrase "and in AU sec. 431" is deleted.

- b. In subparagraph .20.a., the word "competent" is replaced with the word "appropriate."
- c. In the second sentence of paragraph .22, the word "competent" is replaced with the word "appropriate."
- d. In the third sentence of paragraph .24, the word "competent" is replaced with the word "appropriate."
- e. In footnote 15 to paragraph .38, the first sentence is replaced with:

In this context, practicable means that the information is reasonably obtainable from management's accounts and records and that providing the information in the report does not require the auditor to assume the position of a preparer of financial information.
- f. The references in paragraph .49 to section 312, *Audit Risk and Materiality*, and to section 342, *Auditing Accounting Estimates*, are replaced with a reference to paragraph 13 of Auditing Standard No. 14, *Evaluating Audit Results*.
- g. In the first sentence of paragraph .63, the word "competent" is replaced with the word "appropriate."
- h. In paragraph .66, the second sentence is replaced with:

(See paragraph 31 of Auditing Standard No. 14, *Evaluating Audit Results*.)

### **AU sec. 9508, "Reports on Audited Financial Statements: Auditing Interpretations of Section 508"**

AU sec. 9508, "Reports on Audited Financial Statements: Auditing Interpretations of Section 508," is amended as follows:

In paragraph .02, the word "competent" is replaced with the word "appropriate."

### **AU sec. 530, "Dating of the Independent Auditor's Report"**

SAS No. 1, "Codification of Auditing Standards and Procedures," section 530, "Dating of the Independent Auditor's Report" (AU sec. 530, "Dating of the Independent Auditor's Report"), as amended, is amended as follows:

- a. In the first sentence of paragraph .01, the word "competent" is replaced with the word "appropriate."
- b. In the second note to paragraph .01, the word "competent" is replaced with the word "appropriate."
- c. In the first sentence of paragraph .05, the word "competent" is replaced with the word "appropriate."

### **AU sec. 543, "Part of Audit Performed by Other Independent Auditors"**

SAS No. 1, "Codification of Auditing Standards and Procedures," section 543 "Part of Audit Performed by Other Independent Auditors" (AU sec. 543, "Part of Audit Performed by Other Independent Auditors"), as amended, is amended as follows:

- a. The following note is added as the second note to paragraph .01:

Note: For situations in which the auditor engages an accounting firm or individual accountants to participate in the audit engagement and AU sec. 543 does not apply, the auditor should supervise them in accordance with the requirements of Auditing Standard No. 10, *Supervision of the Audit Engagement*.

- b. Within paragraph .12:
  - Subparagraph b. is replaced with:  
A list of significant risks, the auditor's responses, and the results of the auditor's related procedures.
  - Subparagraph f. is replaced with:  
A schedule of accumulated misstatements, including a description of the nature and cause of each accumulated misstatement, and an evaluation of uncorrected misstatements, including the quantitative and qualitative factors the auditor considered to be relevant to the evaluation.

### **AU sec. 9543, "Part of Audit Performed by Other Independent Auditors: Auditing Interpretations of Section 543"**

AU sec. 9543, "Part of Audit Performed by Other Independent Auditors: Auditing Interpretations of Section 543," as amended, is amended as follows:

- a. Paragraph .16 is replaced with:
 

*Interpretation*—The principal auditor's response should ordinarily be made by the engagement partner. The engagement partner should take those steps that he or she considers reasonable under the circumstances to be informed of known matters pertinent to the other auditor's inquiry. For example, the engagement partner may inquire of engagement team members responsible for various aspects of the engagement or he or she may direct engagement team members to bring to his or her attention any significant matters of which they become aware during the audit. The principal auditor is not required to perform any procedures directed toward identifying matters that would not affect his or her audit or his or her report.
- b. Footnote 4 to paragraph .16 is deleted.

### **AU sec. 722, "Interim Financial Information"**

SAS No. 100, "Interim Financial Information" (AU sec. 722, "Interim Financial Information"), as amended, is amended as follows:

- a. Within footnote 7 to paragraph .11, the first sentence is replaced with:
 

Paragraphs 10 through 23 of Auditing Standard No. 14, *Evaluating Audit Results*, require the auditor to accumulate and evaluate the misstatements identified during the audit.
- b. The reference in paragraph .13 to section 319, *Consideration of Internal Control in a Financial Statement Audit*, is replaced with a reference to Auditing Standard No. 12, *Identifying and Assessing Risks of Material Misstatement*.
- c. Within the last sentence of paragraph .16, the title of section 329, "Analytical Procedures," is replaced with the title "Substantive Analytical Procedures."

- d. Footnote 20 to paragraph .26 is deleted.
- e. The reference in paragraph .56, subparagraph C5, to section 319 is replaced with a reference to section 316.

### **Auditing Standard No. 3, *Audit Documentation***

Auditing Standard No. 3, *Audit Documentation*, as amended, is amended as follows:

- a. Within paragraph 3, subparagraph b. is replaced with:

Supervisory personnel who review documentation prepared by other members of the engagement team.
- b. Paragraph 9A is added:

Documentation of risk assessment procedures and responses to risks of misstatement should include (1) a summary of the identified risks of misstatement and the auditor's assessment of risks of material misstatement at the financial statement and assertion levels and (2) the auditor's responses to the risks of material misstatement, including linkage of the responses to those risks.
- c. Within paragraph 12:
  - Within subparagraph a: (1) a footnote reference 2A is added at the end of the first sentence:

See paragraphs 12–13 of Auditing Standard No. 12, *Identifying and Assessing Risks of Material Misstatement*, and paragraphs .66–.67 of AU sec. 316, *Consideration of Fraud in a Financial Statement Audit*.
  - and (2) the second sentence of subparagraph a. is deleted.
  - Subparagraph b. is replaced with:

Results of auditing procedures that indicate a need for significant modification of planned auditing procedures, the existence of material misstatements (including omissions in the financial statements), and the existence of significant deficiencies or material weaknesses in internal control over financial reporting.
  - Subparagraph c. is replaced with:

Accumulated misstatements and evaluation of uncorrected misstatements, including the quantitative and qualitative factors the auditor considered to be relevant to the evaluation.
  - Footnote 2B is added to subparagraph c.:

See paragraphs 10–23 of Auditing Standard No. 14, *Evaluating Audit Results*.
  - Subparagraph d. is replaced with:

Disagreements among members of the engagement team or with others consulted on the engagement about final conclusions reached on significant accounting or auditing matters, including the basis for the final resolution of those disagreements. If an engagement team member

disagrees with the final conclusions reached, he or she should document that disagreement.

- Subparagraph f. is replaced with:  
Significant changes in the auditor's risk assessments, including risks that were not identified previously, and the modifications to audit procedures or additional audit procedures performed in response to those changes.
- Footnote 2C is added to subparagraph f.:  
See paragraph 74 of Auditing Standard No. 12, *Identifying and Assessing Risks of Material Misstatement*, and paragraph 36 of Auditing Standard No. 14, *Evaluating Audit Results*.
- Subparagraph f-1. is added:  
Risks of material misstatement that are determined to be significant risks and the results of the auditing procedures performed in response to those risks.

d. Within paragraph 19:

- Subparagraph b. is replaced with:  
A list of significant risks, the auditor's responses, and the results of the auditor's related procedures.
- Subparagraph f. is replaced with:  
A schedule of accumulated misstatements, including a description of the nature and cause of each accumulated misstatement, and an evaluation of uncorrected misstatements, including the quantitative and qualitative factors the auditor considered to be relevant to the evaluation.

e. Paragraph 21 and the preceding heading, "Effective Date," are deleted.

### **Auditing Standard No. 4, Reporting on Whether a Previously Reported Material Weakness Continues to Exist**

Auditing Standard No. 4, *Reporting on Whether a Previously Reported Material Weakness Continues to Exist*, as amended, is amended as follows:

In the first sentence of paragraph 18, the word "competent" is replaced with the word "appropriate."

### **Auditing Standard No. 5, An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements**

Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*, is amended as follows:

- a. In the second sentence of paragraph 3, the word "competent" is replaced with the word "appropriate."
- b. In the first sentence of paragraph 9, the phrase "any assistants" is replaced with the phrase "the engagement team members."

- c. Within footnote 10 to paragraph 14, the reference to paragraphs .19–.42 of AU sec. 316, *Consideration of Fraud in a Financial Statement Audit*, is replaced with a reference to Auditing Standard No. 12, *Identifying and Assessing Risks of Material Misstatement*.
- d. The reference in paragraph 15 to AU sec. 316.44 and .45 is replaced with a reference to paragraphs 65–69 of Auditing Standard No. 12, *Identifying and Assessing Risks of Material Misstatement*.
- e. Within footnote 11 to paragraph 20, the reference to AU sec. 312, *Audit Risk and Materiality in Conducting an Audit*, is replaced with a reference to Auditing Standard No. 11, *Consideration of Materiality in Planning and Performing an Audit*.
- f. Within footnote 12 to paragraph 28, the reference to AU sec. 326, *Evidential Matter*, is replaced with a reference to Auditing Standard No. 15, *Audit Evidence*.
- g. Within footnote 13 to the note to paragraph 31, the reference to AU sec. 312.39 is replaced with a reference to paragraph 14 of Auditing Standard No. 14, *Evaluating Auditing Results*. The reference to AU sec. 316.50 is replaced with a reference to paragraph 5 of Auditing Standard No. 13, *The Auditor's Responses to the Risks of Material Misstatement*.
- h. The references in paragraph 36 to paragraphs .16–.20, .30–.32, and .77–.79 of AU sec. 319, *Consideration of Internal Control in a Financial Statement Audit*, are replaced with references to paragraph 29 and Appendix B of Auditing Standard No. 12, *Identifying and Assessing Risks of Material Misstatement*.
- i. In the first sentence of paragraph 51, the word "competent" is replaced with the word "appropriate."
- j. In the first sentence of paragraph 89, the word "competent" is replaced with the word "appropriate."
- k. Within the note to paragraph C6 in Appendix C, the word "competent" is replaced with the word "appropriate."

### **Auditing Standard No. 6, Evaluating Consistency of Financial Statements**

Auditing Standard No. 6, *Evaluating Consistency of Financial Statements*, is amended as follows:

- a. Footnote 3 to paragraph 4 is deleted.
- b. In paragraph 10, the reference to AU sec. 431, *Adequacy of Disclosure in Financial Statements*, is replaced with a reference to paragraph 31 of Auditing Standard No. 14, *Evaluating Audit Results*.

### **Auditing Standard No. 7, Engagement Quality Review**

Auditing Standard No. 7, *Engagement Quality Review*, is amended as follows:

- a. Footnote 3 to paragraph 5 is replaced with:

The term "engagement partner" has the same meaning as the "practitioner-in-charge of an engagement" in PCAOB interim quality control standard QC sec. 40, *The Personnel Management Element of a Firm's System of Quality Control-Competencies Required by a*

*Practitioner-in-Charge of an Attest Engagement.* QC sec. 40 describes the competencies required of a practitioner-in-charge of an attest engagement.

- b. In paragraph 10, the note following subparagraph b. is replaced with:

Note: A *significant risk* is a risk of material misstatement that requires special audit consideration.

## Ethics Standards

### ET sec. 102, "Integrity and Objectivity"

ET sec. 102, "Integrity and Objectivity," is amended as follows:

Footnote 1 to paragraph .05 is replaced with: See paragraph 5.b. of Auditing Standard No. 10, *Supervision of the Audit Engagement*, and paragraph 12.d. of Auditing Standard No. 3, *Audit Documentation*.

## Appendix 10—Additional Discussion of Auditing Standards, Amendments to PCAOB Standards, and Comments on Reproposed Standards

This appendix discusses each of the auditing standards in Appendices 1–8 ("the risk assessment standards") and the related amendments to PCAOB standards in Appendix 9. In particular, this appendix provides additional background information for certain requirements in the standards. It discusses the Board's responses to comments on the standards repropose on December 17, 2009 ("the repropose standards"), including the basis for the Board's conclusions regarding certain requirements.

### I. Discussion of Comments That Relate to Many of the Repropose Standards

The following paragraphs discuss matters raised by commenters that relate to many of the repropose standards. At the end of this appendix is a discussion of other topics raised by commenters on matters other than the risk assessment standards or the related amendments.

#### A. Consideration of Fraud in the Audit

Section I of the release discusses the Board's objectives regarding incorporating into its risk assessment standards the requirements for identifying and responding to risks of material misstatement due to fraud ("fraud risks") and evaluating audit results from AU sec. 316, *Consideration of Fraud in a Financial Statement Audit*.<sup>1</sup>

The number of comments received on this approach to incorporate the requirements from AU sec. 316 declined significantly from the original proposed standards.<sup>2</sup> The views of commenters continue to be mixed. One commenter supported the approach, and two commenters expressed concerns about the approach.

The risk assessment standards continue to include relevant requirements from AU sec. 316. The Board has observed from its oversight activities instances in which auditors have performed the procedures required in AU sec. 316 mechanically, without using the procedures to develop insights on fraud risk or to modify the audit plan to address that risk. The Board also has observed instances in which firms have failed to respond appropriately to identified fraud risks.

These observations suggest that some auditors may improperly view the consideration of fraud as an isolated, mechanical process rather than an integral part of audits under PCAOB standards. Integrating the requirements from AU sec. 316 into the risk assessment standards emphasizes to auditors that assessing and responding to fraud risks is an integral part of an audit in accordance with PCAOB standards, rather than a separate consideration. Such integration also

---

<sup>1</sup> The risk assessment standards incorporate paragraphs .14–.51 and .68–.78 of AU sec. 316. Accordingly, those paragraphs are removed from AU sec. 316 by means of a related amendment. See Appendix 9.

<sup>2</sup> As discussed in Section I of this release, the risk assessment standards were originally proposed on October 21, 2008. See PCAOB Release No. 2008-006, *Propose Auditing Standards Related to the Auditor's Assessment of and Response to Risk*.

should prompt auditors to make a more thoughtful and thorough assessment of the risks affecting the financial statements, including fraud risks, and to develop appropriate audit responses. Furthermore, AU sec. 316, as amended, will continue to provide relevant information on determining the necessary procedures for considering fraud in a financial statement audit. (See section X.F.2. of this appendix for more discussion about AU sec. 316.)

## **B. Organization and Style of Standards (Including the Use of Notes and Appendices)**

In response to comments on the original proposed standards, the Board presented the repropoed standards using an organization and style that is intended to be a template for future standards of the Board. The organization and style includes an objective for each standard, which provides additional context for understanding the requirements in the standard, and a separate appendix for definitions of terms used in each standard.

Commenters generally supported the organization and style of the repropoed standards, and some commenters suggested that existing PCAOB standards be revised to implement this organization and style. As stated in the release accompanying the repropoed standards, the organization and style used in the repropoed standards draws from previously issued standards of the Board, e.g., Auditing Standard No. 7, *Engagement Quality Review*. Also, the Board will apply this template in the course of its other standards-setting activities.

Commenters expressed concerns about including requirements in appendices and notes to the standard. Consistent with standards previously issued by the Board, the notes and appendices in the risk assessment standards are integral parts of the standards and carry the same authoritative weight as the other portions of the standards.

## **C. Use of Terms**

PCAOB Rule 3101, *Certain Terms Used in Auditing and Related Professional Practice Standards*, sets forth the terminology that the Board uses to describe the degree of responsibility that the auditing and related professional practice standards impose on auditors. The original proposed standards used terms in the requirements in a manner that was consistent with Rule 3101.

Some comments received on the original proposed standards suggested revisions to the terms used in the requirements or asked for clarification about certain terms or phrases, e.g., "take into account." The repropoed standards reflected numerous revisions to the terms used in the standards, and the risk assessment standards reflect further refinements. For example, the standards use "should consider" only when referring to a requirement to consider performing an action or procedure, which is consistent with Rule 3101.

As explained in the release accompanying the repropoed standards, the phrase "take into account" has been used previously in PCAOB standards in reference to information or matters that the auditor should think about or give attention to in performing an audit procedure or reaching a conclusion.<sup>3</sup> Accordingly, the results of the auditor's thinking on the relevant matters should be reflected

---

<sup>3</sup> AU sec. 316.45 and paragraphs 14, 44, 59, and B12 of Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.

in the performance and documentation of the respective audit procedure performed or conclusion reached. The accompanying standards continue to use "take into account" in the same way.

Some commenters asked about the meaning of certain terms, e.g., "assess," "evaluate," or "determine." Those commenters also stated that the Board should use those terms consistently throughout its standards. The Board has reviewed the use of each of those terms and has revised the standards as necessary to apply those terms more consistently. Subsequent sections of this appendix discuss specific revisions to the individual standards.

One commenter expressed concerns about statements that involve the use of present tense in the repropoed standards. As with standards that the Board previously issued, the present tense is used in the risk assessment standards for statements that are factual or definitional, e.g., to provide additional explanation of a required auditing procedure.<sup>4</sup> Subsequent sections of this appendix discuss specific instances of the use of present tense in the risk assessment standards.

## D. Requirements and the Application of Judgment

Some commenters on the original proposed standards stated that the original proposed standards contained requirements that were "too prescriptive," limiting the auditor's ability to "use professional judgment or scale the audit," e.g., because of the number of requirements in the standards and because the standards did not explicitly refer to professional judgment in the requirements. In the release accompanying the repropoed standards, the Board discussed the importance of professional judgment in fulfilling the requirements of the standards. After examining each requirement, the Board revised certain provisions in the repropoed standards to streamline the presentation of those requirements.

Although the Board received fewer comments on the repropoed standard related to this topic, two commenters continue to express concerns about whether the repropoed standards made adequate allowance for the auditor to use professional judgment in assessing and responding to risk in an audit.

PCAOB standards recognize that the auditor uses judgment in planning and performing audit procedures and evaluating the evidence obtained from those procedures.<sup>5</sup> As under other PCAOB standards, auditors need to exercise judgment in fulfilling the requirements of the risk assessment standards in the particular circumstances. Making references to judgment in selected portions of the standards, however, could be misinterpreted as indicating that judgment is required only in certain aspects of the audit. Instead of referring to judgment selectively, the risk assessment standards set forth principles for meeting the requirements of the standards and allow the auditor to determine the most appropriate way to comply with the requirements in the circumstances.

---

<sup>4</sup> See, e.g., paragraph 21 of Auditing Standard No. 5 for an example of the use of the present tense for this purpose.

<sup>5</sup> See, e.g., paragraph .11 of AU sec. 230, *Due Professional Care in the Performance of Work*.

## II. Auditing Standard No. 8—Audit Risk

### A. Background

Auditing Standard No. 8 discusses audit risk and the relationships among the various components of audit risk in an audit of financial statements. The standard applies to integrated audits and to audits of financial statements only.

### B. Objective

The reproposed standard stated that the objective of the auditor is to conduct the audit of financial statements in a manner that reduces audit risk to an appropriately low level. This objective provided important context for understanding how the concept of audit risk is applied in an audit.

One commenter observed that the reproposed standards sometimes used the phrase, "appropriately low level" and occasionally used the phrase "acceptably low level," and that commenter suggested revising the standards to use "acceptably low level" in each instance. The Board continues to believe the term "appropriately low level" is more suitable because it is aligned more closely with the degree of assurance described in the auditor's opinion, i.e., the auditor conducts the audit to reduce audit risk to an appropriately low level in order to express an opinion with reasonable assurance. In contrast, the term "acceptably low" is less clear and could be misinterpreted. The risk assessment standards have been revised to use the phrase "appropriately low level," as applicable.

### C. Due Professional Care and Sufficient Appropriate Audit Evidence

The reproposed standard stated that, to form an appropriate basis for expressing an opinion on the financial statements, the auditor must plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement due to error or fraud. It also stated that reasonable assurance is obtained by reducing audit risk to an appropriately low level through applying due professional care, including obtaining sufficient appropriate audit evidence.<sup>6</sup>

A commenter suggested that due professional care is a responsibility throughout the audit, similar to professional skepticism and judgment, and need not be repeated throughout the Board's standards. The Board agrees that due professional care is a responsibility throughout the audit. On the other hand, existing PCAOB standards state that due professional care allows the auditor to obtain reasonable assurance,<sup>7</sup> and the statement in Auditing Standard No. 8 acknowledges that principle.

### D. Audit Risk and Risk of Material Misstatement

Some commenters on the original proposed standard requested more explanation about risks at the overall financial statement level, e.g., by providing examples of such risks. The reproposed standard elaborated further on risks at the financial statement level.<sup>8</sup>

---

<sup>6</sup> Paragraph 3 of Auditing Standard No. 8.

<sup>7</sup> AU sec. 230.10.

<sup>8</sup> Paragraph 6 of Auditing Standard No. 8.

Commenters on the repropoed standard asked for more explanation regarding how financial statement level risks can result in material misstatement of the financial statements. The examples of financial statement level risks in Auditing Standard No. 8 have been expanded to illustrate how those risks can result in material misstatement of the financial statements.<sup>9</sup>

Some individual commenters offered suggestions for refining or clarifying the discussion of the risk of material misstatement and its components. For example, one commenter suggested that the description of the risk of material misstatement should state that the risk exists "prior to the audit" to more clearly indicate that it is the company's risk. The Board agrees that the risk of material misstatement exists irrespective of the audit, while the risk of not detecting material misstatement is the auditor's risk. However, the suggested phrase could be misinterpreted, e.g., as implying that the auditor need not consider the risk of misstatements occurring during the audit.

The repropoed standard included a statement that inherent risk and control risk are the company's risks; they exist independently of the audit. One commenter suggested that the statement was not informative and suggested revising the standard to state that inherent risk and control risk are functions of the company's characteristics, but influence the auditor's actions. The Board agrees that more discussion of the auditor's consideration of inherent risk and control risk is appropriate. Thus, Auditing Standard No. 8 has been expanded to discuss the sources of evidence the auditor uses when assessing inherent risk and control risk.<sup>10</sup> Also, the description of control risk in Auditing Standard No. 8 has been aligned with the discussion of internal control concepts in Auditing Standard No. 5.

One commenter expressed a concern that descriptions of inherent risk, control risk, and detection risk that included the phrase "that could be material, individually or in combination with other misstatements," may be misinterpreted by the auditor as a requirement to consider whether the combination of dissimilar risks will result in a material misstatement. The commenter suggested changing "combination" to "aggregate." However, the standard does not discuss the combination of risks but, rather, the risk of a misstatement that could be material, individually or in combination with other misstatements, which is consistent with the description of the auditor's evaluation of uncorrected misstatements in Auditing Standard No. 14, *Evaluating Audit Results*. Thus, the term "combination" was retained as proposed.

## E. Detection Risk

The repropoed standard indicated that detection risk is reduced by performing substantive procedures. Some commenters stated that the discussion of detection risk should be modified to indicate that auditors can reduce detection risk through procedures other than substantive procedures (e.g., risk assessment procedures and tests of controls). A commenter also suggested changing the sentence in the standard to refer to "audit procedures" instead of "substantive procedures."

The Board acknowledges that auditors might obtain evidence of misstatements through procedures other than substantive procedures. However, that does not diminish the auditor's responsibility to plan and perform substantive procedures for significant accounts and disclosures that are sufficient to provide

---

<sup>9</sup> Ibid.

<sup>10</sup> Paragraph 8 of Auditing Standard No. 8.

reasonable assurance of detecting misstatements that would result in material misstatement of the financial statements. Changing "substantive procedures" to "audit procedures," as suggested by the commenter, is not consistent with AU sec. 319, *Consideration of Internal Control in a Financial Statement Audit*, and could be misunderstood by auditors, resulting in inadequate substantive procedures.<sup>11</sup> To provide further clarification, Auditing Standard No. 8 has been revised to describe the role of risk assessment procedures and tests of controls in assessing the risk of material misstatement, which, in turn, affects the appropriate level of detection risk.<sup>12</sup>

Some commenters expressed concerns that the repropoed standard did not adequately link the concepts of inherent risk and control risk to detection risk. They stated that a discussion on the relationship of these concepts is necessary for the auditor to determine the acceptable level of detection risk for the financial statement assertions, which, in turn, is used to determine the nature, timing, and extent of substantive procedures. The following discussion, which is adapted from AU sec. 319, was added to paragraph 10 of Auditing Standard No. 8: "The auditor uses the assessed risk of material misstatement to determine the appropriate level of detection risk for a financial statement assertion. The higher the risk of material misstatement, the lower the level of detection risk needs to be in order to reduce audit risk to an appropriately low level."<sup>13</sup>

## F. Integrated Audit Considerations

Auditing Standard No. 8 applies both to audits of financial statements only and to the financial statement audit portion of integrated audits. Audit risk in the audit of financial statements relates to whether the auditor expresses an inappropriate audit opinion when the financial statements are materially misstated, while audit risk in an audit of internal control over financial reporting ("audit of internal control") relates to whether the auditor expresses an inappropriate audit opinion when one or more material weaknesses exist. The two forms of audit risk are related, however, and Auditing Standard No. 12, *Identifying and Assessing Risks of Material Misstatement*, indicates that the risk assessment procedures apply to both the audit of financial statements and the audit of internal control.

Some commenters suggested revisions to the first paragraph and the first footnote of the repropoed standard to clarify how the concepts of audit risk in this standard apply to audits of financial statements only and to integrated audits. The first paragraph has been revised to indicate that Auditing Standard No. 8 applies to either an audit of financial statements only or to an integrated audit. The first footnote also has been revised to clarify that, in integrated audits, the risks of material misstatement are the same for both the audit of financial statements and the audit of internal control.

---

<sup>11</sup> AU secs. 319.81–82, AU sec. 319, along with AU sec. 311, *Planning and Supervision*, AU sec. 312, *Audit Risk and Materiality in Conducting an Audit*, AU sec. 313, *Substantive Tests Prior to the Balance Sheet Date*, AU sec. 326, *Evidential Matter*, and AU sec. 431, *Adequacy of Disclosure in Financial Statements*, are superseded by the risk assessment standards.

<sup>12</sup> Paragraphs 8–9 of Auditing Standard No. 8.

<sup>13</sup> Paragraph 10 of Auditing Standard No. 8.

### III. Auditing Standard No. 9—Audit Planning

#### A. Background

Auditing Standard No. 9 describes the auditor's responsibilities for planning an integrated audit or an audit of financial statements only.

#### B. Planning and Supervision

The original proposed standard and the repropoed standard discussed both audit planning and supervision, similar to AU sec. 311. Some commenters observed that audit planning and supervision should be covered in separate standards.

The Board agrees that audit planning and supervision of engagement team members are distinct activities that should be covered in separate standards. Accordingly, the Board has divided the requirements of the repropoed planning and supervision standard into separate standards. Dividing the requirements for planning and supervision into separate standards does not affect the auditor's responsibilities for planning the audit or supervising the work of engagement team members.

#### C. Responsibilities of the Engagement Partner

AU sec. 311 stated, "The auditor with final responsibility for the audit may delegate portions of the planning and supervision of the audit to other firm personnel." Auditing Standard No. 9 uses the term "engagement partner" instead of "auditor with final responsibility for the audit" and states more directly that the engagement partner is responsible for properly planning the audit. The standard also allows the engagement partner to seek assistance from appropriate engagement team members in fulfilling his or her planning responsibilities. Because the requirements in Auditing Standard No. 9 apply to the engagement partner and engagement team members who assist the engagement partner in planning the audit, the standard uses the term "auditor," and a footnote was added to clarify that the requirements in the standard apply to the engagement partner and other engagement team members who participate in planning the audit.

#### D. Preliminary Engagement Activities

The repropoed standard included a note in paragraph 6 stating that the decision regarding continuance of the client relationship and the determination of compliance with independence and ethics requirements were not limited to preliminary engagement activities and should be reevaluated with changes in circumstances. One commenter expressed concern that the note did not describe the changes in circumstances for which it would be appropriate for the auditor to reevaluate these decisions. The acceptance and continuance of the client relationship are discussed in QC sec. 20, *System of Quality Control for a CPA Firm's Accounting and Auditing Practice*. Other PCAOB standards discuss certain circumstances that warrant reevaluating the client relationship.<sup>14</sup> Auditors also may reevaluate their engagement acceptance decision for other reasons. However, because auditors must comply with independence and ethics requirements

---

<sup>14</sup> See, e.g., paragraphs .18–.21 of AU sec. 317, *Illegal Acts by Clients*.

throughout the audit, the note was moved in Auditing Standard No. 9 to modify paragraph 6.b. and revised to state that determination of compliance with independence and ethics requirements is not limited to preliminary engagement activities and should be reevaluated upon changes in circumstances.

## E. Planning Activities

The repropoed standard stated that, as part of establishing the audit strategy and audit plan, the auditor should evaluate whether certain matters specified in the standard are important to the company's financial statements and internal control over financial reporting ("internal control") and, if so, how those matters would affect the auditor's procedures. The requirement in the repropoed standard was the same as in paragraph 9 of Auditing Standard No. 5, thus extending its application to an audit of financial statements.

Evaluation of the matters listed in paragraph 7 of Auditing Standard No. 9 can lead auditors to develop more effective audit strategies and audit plans. For example, evaluation of those matters can highlight areas that might warrant additional attention during the auditor's risk assessment procedures, which, in turn, could affect the audit procedures performed in response to the risks of material misstatement. Also, evaluation of the internal control related matters can help the auditor develop an appropriate audit strategy, e.g., in determining accounts for which reliance on controls might be appropriate in the audit of financial statements.

Some commenters suggested changes to the requirement, including deleting some of the matters discussed in the requirement, moving other matters elsewhere within the standard, or making specific revisions to the language of the standard. Also, some commenters suggested using "should consider" instead of "should evaluate."

The Board considered the suggested changes to the standard and determined that those changes would not substantially improve the standard. Also, it is important for the language in this requirement to be identical to the language in Auditing Standard No. 5 to emphasize that this required procedure is to be performed only once in an integrated audit, with the results of the procedure to be applied in planning both the financial statement audit and the audit of internal control. Also, reframing the requirement from "should evaluate" to "should consider" would weaken the requirement. Therefore, Auditing Standard No. 9 retains the wording from the repropoed standard.

## F. Audit Strategy and Audit Plan

Auditing Standard No. 9 requires the auditor to take into account certain matters when establishing the overall audit strategy, including the reporting objectives of the engagement and the nature of the communications required by PCAOB standards; the factors that are significant in directing the activities of the engagement team; the results of preliminary engagement activities and the auditor's evaluation of certain important matters; and the nature, timing, and extent of resources necessary to perform the engagement.<sup>15</sup> These matters generally relate to information that auditors obtain through other required procedures. One commenter suggested that this requirement should discuss the need for specialists. Auditing Standard No. 9 was revised to include a reference to paragraph 16 regarding the requirement for the auditor to determine whether specialized skill or knowledge is needed to perform the engagement.

---

<sup>15</sup> Paragraph 9 of Auditing Standard No. 9.

The repropoed standard required the auditor to develop and document an audit plan that includes the planned nature, timing, and extent of the risk assessment procedures. One commenter suggested that it was unnecessary to document the timing of the risk assessment procedures because risk assessment is an ongoing process that occurs throughout the execution of the audit. Auditing Standard No. 9 retains the requirement to document the timing of the risk assessment procedures. Identifying and appropriately assessing the risks of material misstatement provide a basis for designing and implementing responses to the risks of material misstatement, so the timing of the risk assessment procedures is important to determine the timing of other audit procedures.

The repropoed standard also required the auditor to develop and document the planned nature, timing, and extent of tests of controls and substantive procedures. One commenter suggested that the requirement should specify that the audit plan include planned tests at the "relevant assertion level." Auditing Standard No. 9 retains the requirement as repropoed. Audit procedures are not performed only at the assertion level, e.g., certain general audit procedures and tests of certain entity-level controls in the audit of internal control over financial reporting. Therefore, it is not appropriate to update the standard with the suggested language.

## G. Requirements for Multi-location Engagements

Auditing Standard No. 9 establishes requirements that apply to audits of companies with operations in multiple locations or business units. Auditing Standard No. 9 requires the auditor to determine the extent to which audit procedures should be performed at selected locations or business units to obtain sufficient appropriate evidence to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. This includes determining the locations or business units at which to perform audit procedures, as well as the nature, timing, and extent of the procedures to be performed at those individual locations or business units. The auditor is required to assess the risks of material misstatement to the consolidated financial statements associated with the location or business unit and correlate the amount of audit attention devoted to the location or business unit with the degree of risk of material misstatement associated with that location or business unit. Auditing Standard No. 9 also lists factors that are relevant to the assessment of the risks of material misstatement associated with a particular location or business unit and the determination of the necessary audit procedures. These requirements are risk-focused and aligned with the requirements in Auditing Standard No. 5.

An example was added to one of the factors in Auditing Standard No. 9 to highlight that the auditor's consideration of risks associated with a location or business unit includes whether significant unusual transactions are executed at that location or business unit, e.g., whether certain transactions were conducted at the location or business unit to achieve a particular accounting result. AU sec. 316 already requires the auditor to perform procedures regarding significant unusual transactions.

The repropoed standard included a statement similar to Auditing Standard No. 5, that "The direction in paragraph 5 of Proposed Auditing Standard, *The Auditor's Responses to the Risks of Material Misstatement*, regarding incorporating an element of unpredictability in the auditing procedures means that the auditor should vary the nature, timing, and extent of audit procedures at locations or business units from year to year." Some commenters stated that

the statement in the repropoed standard was unnecessarily prescriptive. After considering the comments received, the requirement regarding unpredictability was removed from the audit planning standard, and the requirements in Auditing Standard No. 13, *The Auditor's Responses to the Risks of Material Misstatement*, regarding incorporating an element of unpredictability were expanded to include discussion of varying the testing in the selected locations.<sup>16</sup> However, this does not change the requirements in Auditing Standard No. 5 regarding incorporating unpredictability in testing controls at individual locations in audits of internal control.<sup>17</sup>

The repropoed standard included a requirement for the auditor to determine the extent to which auditing procedures should be performed at selected locations or business units to obtain sufficient appropriate evidence to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatements. One commenter was concerned that the use of the term "consolidated financial statements" is inconsistent with the terminology used elsewhere in the standards and that the financial statements of companies with multiple divisions might not meet the definition of consolidated. The use of "consolidated financial statements" is consistent with the term used in Auditing Standard No. 5. The use of the term "consolidated" applies to situations in which the company has multiple locations or business units. Auditing Standard No. 9 retains the language as repropoed.

Some commenters requested clarification on how the requirements are expected to be applied in audits in which part of the work is performed by other auditors of financial statements of individual locations or business units that are included in the consolidated financial statements. A paragraph was added to Auditing Standard No. 9 to clarify that the auditor should apply the requirements in paragraphs 11–13 to determine the locations or business units for testing when the auditor plans to use the work and reports of other independent auditors who have audited the financial statements of one or more of the locations or business units (including subsidiaries, divisions, branches, components, or investments) that are included in the consolidated financial statements. AU sec. 543, *Part of Audit Performed by Other Independent Auditors*, describes the auditor's responsibilities when the auditor uses the work and reports of other independent auditors.<sup>18</sup>

## H. Persons with Specialized Skill or Knowledge

Auditing Standard No. 9 indicates that the auditor should determine whether specialized skill or knowledge is needed to perform appropriate risk assessments, plan or perform audit procedures, or evaluate audit results. The responsibility has been extended from a similar requirement in AU sec. 311 regarding considering whether specialized information technology ("IT") skill or knowledge is needed in an audit. The requirement was extended to specialized skill or knowledge in areas besides IT, e.g., valuation specialists, actuarial specialists, income tax specialists, and forensic specialists, because of the prevalent use of such individuals by auditors.

The repropoed standard included a note that described the term "specialized skill or knowledge" as persons engaged or employed by the auditor who have specialized skill or knowledge. Some commenters suggested that this note be removed because paragraph 17 included a similar description. The note was

---

<sup>16</sup> Paragraph 5 of Auditing Standard No. 13.

<sup>17</sup> Paragraphs 61 and B13 of Auditing Standard No. 5.

<sup>18</sup> Paragraph 14 of Auditing Standard No. 9.

removed from Auditing Standard No. 9 because it was unnecessary and redundant.

One commenter suggested revising the standard to require the auditor to consider using a fraud specialist. The suggested requirement to consider using a fraud specialist was not added to Auditing Standard No. 9 because the requirement in the repropoed standard already covers fraud specialists, and the types of specialized skill or knowledge that might be needed on a particular audit depend on the particular circumstances and the skill and knowledge of the engagement team.

Some commenters suggested that the requirements relating to the involvement of specialists be reframed as "assisting" the auditor. Such a formulation is too narrow to describe the range of involvement of specialists, which could include providing assistance to the auditor or actually performing audit procedures.

Paragraph 17 of Auditing Standard No. 9 describes the required level of knowledge of the subject matter in terms of the general types of procedures that the auditor should be able to perform with regard to the person with specialized skill or knowledge. Paragraph 17, by itself, does not impose procedural requirements for working with persons with specialized skill or knowledge because those responsibilities already are described in either the supervision provisions of Auditing Standard No. 10, *Supervision of the Audit Engagement*, or AU sec. 336, *Using the Work of a Specialist*, as applicable.

## **IV. Auditing Standard No. 10—Supervision of the Audit Engagement**

### **A. Background**

Auditing Standard No. 10 sets forth requirements for supervising the audit engagement, including supervising the work of engagement team members.

Auditing Standard No. 10 retains the basic requirements regarding supervision from AU sec. 311, with changes to align the requirements more closely with the other risk assessment standards. Auditing Standard No. 10 does not change the responsibilities for supervision from those in the supervision section of the repropoed standard on audit planning and supervision. However, the language in the standard has been revised in certain respects to describe more directly the supervisory responsibilities of the engagement partner and engagement team members who assist the engagement partner in supervision. As discussed later in this section, the Board has separate standards-setting projects regarding specialists and principal auditors, which will likely result in changes to the auditor's responsibilities regarding the auditor's use of specialists and use of other auditors, and, in turn, may result in changes to Auditing Standard No. 10.

### **B. Planning and Supervision**

As discussed in section III.B., the original proposed standard and the repropoed standard included requirements for both audit planning and supervision, similar to AU sec. 311. Some commenters observed that audit planning and supervision should be covered in separate standards.

The Board agrees that audit planning and supervision of engagement team members are distinct activities that should be covered in separate standards. Accordingly, the Board has divided the requirements of the planning and supervision standard into separate standards. Dividing the requirements for planning and supervision into separate standards does not affect the auditor's responsibilities for planning the audit or supervising the work of engagement team members.

### **C. Objective**

When the requirements for planning and supervision were divided into separate standards, the objective for supervision of the work of engagement team members was adapted from the elements of proper supervision in the repropoed standard. Auditing Standard No. 10 states, "The objective of the auditor is to supervise the audit engagement, including supervising the work of engagement team members so that the work is performed as directed and supports the conclusions reached." The revised objective does not alter the supervision responsibilities included in the original proposed standard or the repropoed standard.

### **D. Responsibilities of the Engagement Partner**

AU sec. 311 stated, "The auditor with final responsibility for the audit may delegate portions of the planning and supervision of the audit to other firm personnel." Auditing Standard No. 10 uses the term "engagement partner" instead of "auditor with final responsibility for the audit."

Auditing Standard No. 10 states that the engagement partner is responsible for the engagement and its performance. Accordingly, the engagement partner is responsible for proper supervision of the work of engagement team members and for compliance with PCAOB standards, including standards regarding using the work of specialists,<sup>19</sup> other auditors,<sup>20</sup> internal auditors,<sup>21</sup> and others who are involved in testing controls.<sup>22</sup> As discussed previously, as the Board considers changes to the auditor's responsibilities regarding the auditor's use of specialists and use of other auditors, it also may consider changes to Auditing Standard No. 10.

Auditing Standard No. 10 allows the engagement partner to seek assistance from appropriate engagement team members in fulfilling his or her responsibilities pursuant to the standard. Engagement team members who assist the engagement partner in supervision should comply with the relevant requirements of Auditing Standard No. 10. The requirements in PCAOB standards for assignment of responsibilities to engagement team members also apply to assignments that involve assisting the engagement partner with his or her responsibilities pursuant to the standard.<sup>23</sup>

## E. Supervision of the Work of Engagement Team Members

Previously adopted PCAOB standards use either the term "engagement team members" or the term "assistants." Auditing Standard No. 10 uses "engagement team members," which is consistent with the other risk assessment standards. The Board is amending other PCAOB standards to conform to this terminology.

Auditing Standard No. 10 describes the required supervisory activities that should be performed by the engagement partner and, as applicable, by other engagement team members with supervisory responsibilities.<sup>24</sup> Those activities include informing engagement team members of their responsibilities and information relevant to those responsibilities, directing engagement team members to bring significant accounting and auditing issues arising during the audit to the attention of the engagement partner or other engagement team members performing supervisory activities, and reviewing the work of engagement team members as described in the standard.

Auditing Standard No. 10 describes the factors that should be taken into account in determining the necessary extent of supervision, i.e., the extent of supervision necessary so that the work of engagement team members is performed as directed and appropriate conclusions are formed based on the results of their work.<sup>25</sup> Factors that affect the necessary extent of supervision include the risks of material misstatement, the nature of work assigned to the engagement team member, and the nature of the company, which includes the organizational structure of the company and its size and complexity. The extent of supervision of the work of an individual engagement team member increases or decreases, but cannot be eliminated, based on those factors. For example, the extent of supervision should be commensurate with the risks of material

<sup>24</sup> Paragraph 5 of Auditing Standard No. 10.

<sup>25</sup> Paragraph 6 of Auditing Standard No. 10.

misstatement, which means, among other things, that the higher risk areas of the audit require more supervisory attention from the engagement partner.

One commenter suggested that the standard provide examples of "levels of supervision in relation to review," such as face-to-face review when reviewing higher risk areas. Auditing Standard No. 10 does not prescribe a particular method of review, so the engagement partner can determine the most effective way to comply with the requirements regarding the necessary nature of supervisory activities and necessary extent of supervision.

## **F. Persons with Specialized Skill or Knowledge and Other Auditors, Accounting Firms, and Individual Accountants**

Auditing Standard No. 10 states that the engagement partner is responsible for, among other things, compliance with PCAOB standards regarding using of the work of specialists and refers to AU sec. 336. AU sec. 336 applies to situations in which the auditor engages a specialist in an area other than accounting or auditing and uses the work of that specialist as audit evidence.<sup>26</sup> Paragraphs 5–6 of Auditing Standard No. 10 describe the nature and extent of the supervisory activities necessary for proper supervision of a person with specialized skill or knowledge who participates in the audit and is either (a) employed by the auditor or (b) engaged by the auditor to provide services in a specialized area of accounting or auditing. AU sec. 336 has been amended to clarify when the auditor should look to the supervisory requirements in Auditing Standard No. 10 instead of AU sec. 336.

AU sec. 543 describes the principal auditor's<sup>27</sup> responsibilities for using the work and reports of other independent auditors who have audited the financial statements of one or more subsidiaries, divisions, branches, components, or investments included in the financial statements presented. The principal auditor should look to the requirements in AU sec. 543<sup>28</sup> in those situations. For situations in which the auditor engages an accounting firm or individual accountants to participate in the audit engagement and AU sec. 543 does not apply,<sup>29</sup> the auditor should supervise them in accordance with the requirements of Auditing Standard No. 10. AU sec. 543 has been amended to emphasize those points.

It should be noted, however, that the Board has separate standards-setting projects regarding specialists and principal auditors, which will include comprehensive reviews of AU sec. 336 and AU sec. 543, respectively, in light of, among other things, observations from the Board's inspection activities. Those projects will likely result in changes to the auditor's responsibilities regarding the auditor's use of specialists and use of other auditors, and, in turn, may result in changes to Auditing Standard No. 10.

## **G. Differences of Opinion within an Engagement Team**

The original proposed standard included a requirement, adapted from AU sec. 311.14, that the engagement partner and other engagement team members

---

<sup>26</sup> AU sec. 336 also applies to situations in which the auditor uses the work of a specialist engaged or employed by management. The discussion in this section of the release focuses on the auditor's use of specialists who are employed or engaged by the auditor.

<sup>27</sup> AU sec. 543 uses the term "principal auditor" to refer to the auditor who issues the audit report on the financial statements presented.

<sup>28</sup> For integrated audits, see also paragraphs C8–C11 of Auditing Standard No. 5.

<sup>29</sup> Examples of situations that are not covered by AU sec. 543 include loan staff arrangements.

should make themselves aware of the procedures to be followed when differences of opinion concerning accounting and auditing issues exist among the engagement team members. Since the intention of including this provision was to require adequate documentation of disagreements, this paragraph was removed from the repropoed standard, and the documentation requirements from the original proposed standard were incorporated into an amendment to Auditing Standard No. 3, *Audit Documentation*.<sup>30</sup> The documentation requirements regarding disagreements among members of the engagement team or with others consulted on the engagement about final conclusions reached on significant accounting or auditing matters include documenting the basis for the final resolution of those disagreements. If an engagement team member disagrees with the final conclusions reached, he or she should document that disagreement.

One commenter indicated concern that the requirement for the engagement partner and other engagement team members to be aware of how disagreements should be handled has been removed. The commenter indicated that disagreements are a sensitive area and that it is important that engagement team members are aware of how disagreements should be handled. In connection with the requirement to direct engagement team members to bring significant accounting and auditing issues to the attention of the engagement partner or other engagement team members performing supervisory activities, Auditing Standard No. 10 also states that each engagement team member has a responsibility to bring to the attention of appropriate persons, disagreements or concerns the engagement team member might have with respect to accounting and auditing issues that he or she believes are of significance to the financial statements or the auditor's report regardless of how those disagreements or concerns may have arisen.<sup>31</sup>

---

<sup>30</sup> Paragraph 12.d. of Auditing Standard No. 3.

<sup>31</sup> Note to paragraph 5.b. of Auditing Standard No. 10.

## V. Auditing Standard No. 11 – Consideration of Materiality in Planning and Performing an Audit

### A. Background

Auditing Standard No. 11 discusses the auditor's responsibilities for applying the concept of materiality, as described by the courts in interpreting the federal securities laws, in planning the audit and determining the scope of the audit procedures. The standard applies to integrated audits and audits of financial statements only.

### B. Materiality in the Context of an Audit

Auditing Standard No. 11 discusses the concept of materiality that is applicable to audits performed in accordance with PCAOB standards, which is the articulation of materiality used by the courts in interpreting the federal securities laws.<sup>32</sup> The Supreme Court of the United States has held that a fact is material if there is "a substantial likelihood that the . . . fact would have been viewed by the reasonable investor as having significantly altered the 'total mix' of information made available."<sup>33</sup>

Some commenters questioned the use of the court's articulation in the proposed standard and suggested that this articulation might be difficult for auditors to apply. Also, some commenters asked whether the use of this articulation of materiality, in contrast to the quotation from a FASB Concept Statement<sup>34</sup> used in AU sec. 312 was intended to result in a change in audit practice.

Although the discussion of materiality in the accounting literature might help auditors understand how accounting standards-setters view materiality in the context of preparation and presentation of financial statements, the concept of materiality that is relevant for audits to which PCAOB standards apply is the concept used by the courts in interpreting the federal securities laws. Because the auditor has a responsibility to plan and perform audit procedures to detect misstatements that, individually or in combination with other misstatements, would result in material misstatement of the financial statements, it is important for the auditor to plan and perform his or her audit procedures based on the applicable concept of materiality. Accordingly, Auditing Standard No. 11 uses the concept of materiality articulated by the courts.

Because the courts' articulation of the concept of materiality is not new, using that articulation in Auditing Standard No. 11 is not intended to result in changes in practice for most auditors. Auditing Standard No. 11 emphasizes that an auditor's consideration of materiality should reflect matters that would affect the judgment of a reasonable investor.

<sup>32</sup> Paragraph 2 of Auditing Standard No. 11.

<sup>33</sup> See *TSC Industries v. Northway, Inc.*, 426 U.S. 438, 449 (1976). See also *Basic, Inc. v. Levinson*, 485 U.S. 224 (1988).

<sup>34</sup> Financial Accounting Standards Board Statement of Financial Accounting Concepts No. 2, *Qualitative Characteristics of Accounting Information*. FASB Concepts Statements are not included in FASB's Codification of Accounting Standards.

## C. Establishing a Materiality Level for the Financial Statements as a Whole

Auditing Standard No. 11 requires the auditor to establish an appropriate materiality level for the financial statements as a whole.<sup>35</sup> This materiality level should be established in light of the particular circumstances based on factors that could influence the judgment of a reasonable investor. The standard states that this requirement includes consideration of the company's earnings and other relevant factors. This statement is intended to emphasize that a company's net earnings are often an important factor in the total mix of information available to a reasonable investor, but Auditing Standard No. 11 does not require the use of earnings as the basis for the established materiality level in all cases. Other factors besides earnings might be more relevant depending on the particular circumstances, e.g., based on a company's industry or situations in which the company's earnings were near zero. Auditors are expected to consider the factors that would be relevant to the judgment of a reasonable investor.

## D. Qualitative Considerations

The concept of materiality involves consideration of both quantitative and qualitative factors.<sup>36</sup> Under Auditing Standard No. 11, qualitative considerations can affect the auditor's establishment of materiality levels in the following ways:

- Establishing a materiality level for the financial statements as a whole that is appropriate in light of the particular circumstances. This involves matters such as consideration of the elements of the financial statements that are more important to a reasonable investor and the level of misstatements that would influence the judgment of a reasonable investor.
- Establishing lower levels of materiality for certain accounts or disclosures when, in light of the particular circumstances, there are certain accounts or disclosures for which there is a substantial likelihood that misstatements of lesser amounts than the materiality level established for the financial statements as a whole would influence the judgment of a reasonable investor. The requirement in the standard<sup>37</sup> is consistent with the principle of considering the judgment of a reasonable investor when establishing materiality levels because it recognizes that, in certain circumstances, misstatements in some accounts might have more significant consequences than in other accounts. The following are examples of such circumstances:
  - Laws, regulations, or the applicable financial reporting framework affect investors' expectations about the measurement or disclosure of certain items, e.g., related party transactions and compensation of senior management.
  - Significant attention has been focused on a particular aspect of a company's business that is separately disclosed in the financial statements, e.g., a recent business acquisition.

---

<sup>35</sup> Paragraph 6 of Auditing Standard No. 11.

<sup>36</sup> Paragraph 3 of Auditing Standard No. 11.

<sup>37</sup> Paragraph 7 of Auditing Standard No. 11.

- Certain disclosures are particularly important to investors in the industry in which the company operates.

Auditing Standard No. 11 does not allow the auditor to establish a materiality level for an account or disclosure at an amount that exceeds the materiality level for the financial statements as a whole.

The repropoed standard included a statement, adapted from AU sec. 312, that ordinarily it is not practical to design audit procedures to detect misstatements that are material based solely on qualitative factors.<sup>38</sup> One commenter suggested removing the word "ordinarily" from the statement because, in the commenter's view, it is not practical to design audit procedures to detect misstatements that are material based solely on qualitative factors. Auditing Standard No. 11 retains the statement as proposed. This statement reflects the principle that judgments about whether a particular misstatement is material involve consideration of the particular circumstances, including the nature of the misstatement and its effect on the financial statements. Also, if an auditor is aware of potential misstatements that would be material based on qualitative factors, he or she has a responsibility to design audit procedures to detect such misstatements.

## E. Tolerable Misstatement

The repropoed standard required the auditor to determine tolerable misstatement for purposes of assessing risks of material misstatement and planning and performing audit procedures at the account or disclosure level.<sup>39</sup> Tolerable misstatement is a concept used in determining the scope of audit procedures. AU sec. 350, *Audit Sampling*, indicates that tolerable misstatement is the maximum amount of misstatement in an account or a class of transactions that may exist without causing the financial statements to be materially misstated.<sup>40</sup> Tolerable misstatement is required to be set at an amount less than the materiality level for the financial statements as a whole and for particular accounts or disclosures, if lower materiality levels were established for particular accounts or disclosures.

Some commenters suggested replacing the term "tolerable misstatement" in the repropoed standard with the term "performance materiality," which is the term used in the International Standards on Auditing ("ISAs").

The Board decided to retain the term "tolerable misstatement" in its standards. The concept of tolerable misstatement is already understood by auditors, and the Board is not seeking to change the concept as described in PCAOB standards. Because the term "performance materiality" uses the word "materiality," it could be misunderstood, e.g., by nonauditors, as having a meaning other than that intended in the standard. The concept of materiality that applies to financial statements of companies that are audited in accordance with PCAOB standards is rooted in case law and reflects a reasonable investor's perspective. In contrast, tolerable misstatement is a concept used in audit scoping decisions at the account level, considering potential uncorrected and undetected misstatement.

One commenter stated that the requirement to establish tolerable misstatement eliminated the need to establish a lower level of materiality for particular accounts or disclosures. However, the two concepts are designed for different

---

<sup>38</sup> AU sec. 312.20.

<sup>39</sup> Paragraphs 8–9 of Auditing Standard No. 11.

<sup>40</sup> AU sec. 350.18.

purposes. The requirement to establish a lower materiality level is intended to address the need for a lower threshold when, in light of the particular circumstances, misstatements of lesser amounts have a substantial likelihood of influencing the judgment of a reasonable investor. As mentioned previously, tolerable misstatement is a concept used in audit scoping decisions at the account level, considering potential uncorrected and undetected misstatement.

The reproposed standard also required the auditor to take into account the nature, cause (if known), and amount of misstatements that were accumulated in audits of financial statements of prior periods. One commenter suggested that the Board should clarify its intent regarding this requirement and provide additional guidance regarding its application. Tolerable misstatement is affected by the expected level of misstatement in the account or disclosure, and the nature, cause, and amount of misstatements from prior periods are relevant to developing expectations about the level of misstatement. Generally, as the expected level of misstatement increases, the amount of tolerable misstatement decreases.

## **F. Consideration of Materiality for Multi-location Engagements**

The reproposed standard included requirements for establishing materiality levels in multi-location engagements. The reproposed standard stated that when the auditor plans to perform procedures at selected locations or business units, the auditor should establish the materiality level for the individual locations or business units at an amount that reduces to an appropriately low level the probability that the total of uncorrected and undetected misstatements would result in material misstatement of the consolidated financial statements. The reproposed standard also stated that the materiality level for the selected locations or business units generally should be lower than the materiality level for the consolidated financial statements. Those requirements were an application of the fundamental principles to audits of consolidated financial statements of companies with multiple locations or business units.

Some commenters suggested removing the word "generally" as it could be misinterpreted as permitting the use of the materiality level for the consolidated financial statements as a whole for planning and performing audit procedures at the individual location or business unit level. Other commenters questioned how the requirements would be applied when a principal auditor makes reference to the report of another auditor in the auditor's report on consolidated financial statements in accordance with AU sec. 543.

After considering the comments, the Board has made certain clarifying revisions to the requirements for multi-location engagements.<sup>41</sup> First, the language in the standard has been revised to use term "tolerable misstatement" for an individual location to more clearly distinguish that term from the materiality level for the financial statements as a whole. In addition, the requirements were revised to state that tolerable misstatement for a location or business unit should be less than the materiality level for the financial statements as a whole. The word "generally" was removed from the requirements to reduce the risk of misinterpretation of the provision. Also, the phrase "to be used in performing audit procedures" has been removed from the requirement to determine tolerable misstatement for the individual locations or business units to avoid a misinterpretation about the principal auditor's responsibilities for situations in which the principal auditor makes reference to the report of the other auditor in accordance with AU sec. 543. Auditing Standard No. 11 requires the

---

<sup>41</sup> Paragraph 10 of Auditing Standard No. 11.

principal auditor to determine tolerable misstatement for the location or business unit audited by the other auditor, but the principal auditor is not expected to impose that determination of tolerable misstatement on the other auditor. Rather, tolerable misstatement for the location or business unit audited by the other auditor would be relevant to certain requirements under AU sec. 543<sup>42</sup> and in determining an appropriate amount of tolerable misstatement for the remaining locations or business units included in the consolidated financial statements.

## **G. Reevaluating the Materiality Level and Tolerable Misstatement**

The reproposed standard stated that the established materiality level and tolerable misstatement should be reevaluated if changes in the particular circumstances or additional information comes to the auditor's attention that are likely to influence the judgment of a reasonable investor. In addition, the reproposed standard provided examples of situations that would require such reevaluation, and additional examples were discussed in the release accompanying the reproposed standards.

Some commenters suggested that the examples in the release should be included in the reproposed standard. The examples in Auditing Standard No. 11 have been revised to clarify the types of situations that would require reevaluation of the established materiality level and tolerable misstatement.

The reevaluation required by Auditing Standard No. 11 is important because if that reevaluation results in a lower materiality level or levels and tolerable misstatement than the auditor's initial determination, the standard states that the auditor should (1) evaluate the effect, if any, of the lower amount or amounts on his or her risk assessments and audit procedures and (2) modify the nature, timing, and extent of audit procedures as necessary to obtain sufficient appropriate audit evidence.<sup>43</sup>

Auditing Standard No. 11 does not allow the auditor to modify the established level or levels of materiality and tolerable misstatement solely because they are approximately equal to or are exceeded by the amount of uncorrected misstatements. Such a practice is inconsistent with the requirement to reevaluate the established materiality level or levels or tolerable misstatement if changes in the particular circumstances or additional information come to the auditor's attention that are likely to affect the judgments of a reasonable investor. Rather, Auditing Standard No. 14 establishes requirements for evaluating uncorrected misstatements<sup>44</sup> and describes the auditor's responsibilities in situations in which uncorrected misstatements approach established materiality level or levels used in planning and performing an audit.<sup>45</sup>

---

<sup>42</sup> For example, AU sec. 543.10 states that the auditor should adopt measures to assure the coordination of the principal auditor's activities with those of the other auditor in order to achieve a proper review of matters affecting the consolidating or combining of accounts in the financial statements.

<sup>43</sup> Paragraph 12 of Auditing Standard No. 11.

<sup>44</sup> Paragraphs 17–23 of Auditing Standard No. 14.

<sup>45</sup> Paragraph 14.b. of Auditing Standard No. 14.

## **VI. Auditing Standard No. 12—Identifying and Assessing Risks of Material Misstatement**

### **A. Background**

Auditing Standard No. 12 describes the auditor's responsibilities for the process of identifying and assessing risks of material misstatement in an audit of financial statements only and in an integrated audit. This process includes (1) performing information-gathering procedures, known as risk assessment procedures, and (2) identifying and assessing the risks of material misstatement using information obtained from the risk assessment procedures.

As discussed in the release accompanying the repropoed standards, the requirements in this standard are intended to improve the auditor's risk assessments and ability to focus on areas of increased risk in audits of financial statements only and in integrated audits. The effectiveness of a risk-based audit depends on whether the auditor identifies the risks of material misstatement and has an appropriate basis for assessing those risks. Inappropriate identification or assessment of risks of material misstatements can lead to overlooking relevant risks to the financial statements, e.g., business conditions that affect asset quality or create pressures to manipulate the financial statements, or assessing risks too low without having an appropriate basis for the assessment. In turn, these situations can lead to misdirected or inadequate audit work.

Auditing Standard No. 12 employs a top-down approach to risk assessment. Such an approach begins at the financial statement level and with the auditor's overall understanding of the company and its environment and works down to the significant accounts and disclosures and their relevant assertions. Also, the requirements for performing risk assessment procedures are designed to be scalable to companies of varying size and complexity.

In an integrated audit, the risks of material misstatement affect both the audit of financial statements and the audit of internal control, so the risk assessment process described in Auditing Standard No. 12 is for a single process that applies to both the audit of financial statements and the audit of internal control. Auditing Standard No. 12 seeks to enhance the integration of the audit of financial statements with the audit of internal control by aligning these risk assessment standards with Auditing Standard No. 5. Accordingly, Auditing Standard No. 12 reflects certain foundational risk assessment principles from Auditing Standard No. 5 that also apply to audits of financial statements. On the other hand, the provisions of this standard also are designed to be tailored for audits of financial statements only, e.g., the requirements relating to the understanding of internal control over financial reporting.

### **B. Objective**

Some commenters recommended that the Board revise the objective in the repropoed standard to indicate that the auditor's identification and assessment of risks are through understanding of the company and its environment. The objective in Auditing Standard No. 12 was retained from the repropoed standard. The revision suggested by the commenters is too narrow because Auditing Standard No. 12 requires other risk assessment procedures beyond obtaining an understanding of the company and its environment.

## C. Performing Risk Assessment Procedures

The overarching requirement for risk assessment procedures in Auditing Standard No. 12 is that the auditor should perform risk assessment procedures that are sufficient to provide a reasonable basis for the identification and assessment of the risks of material misstatement, whether due to error or fraud, and to design further audit procedures.<sup>46</sup> Auditing Standard No. 12 discusses the auditor's responsibilities for determining and performing the risk assessment procedures necessary to satisfy that overarching requirement.<sup>47</sup>

Risks of material misstatement may exist at the financial statement level or at the assertion level. Risks of material misstatement also can arise from a variety of sources, including external factors, such as conditions in the company's industry and environment, and company-specific factors, such as the nature of the company, its activities, and internal control over financial reporting. Since the risks of material misstatement come from various sources, the auditor's risk assessment procedures need to encompass both external factors and company-specific factors. Auditing Standard No. 12 requires the following risk assessment procedures:

- Obtaining an understanding of the company and its environment;<sup>48</sup>
- Obtaining an understanding of the company's internal control over financial reporting;<sup>49</sup>
- Considering information from the client acceptance and retention evaluation, audit planning activities, past audits, and other engagements performed for the company;<sup>50</sup>
- Performing analytical procedures;<sup>51</sup>
- Conducting a discussion among engagement team members regarding the risks of material misstatement;<sup>52</sup> and
- Inquiring of the audit committee, management, and others within the company about the risks of material misstatement.<sup>53</sup>

The repropoed standard required the auditor to perform risk assessment procedures that are designed to help the auditor identify the areas of greater risk, appropriately assess those risks, and design and perform further audit procedures to address risks of material misstatements in the financial statements, whether due to error or fraud. One commenter suggested adding the phrase "and to design further audit procedures focused on the areas of greatest risk" to the end of the sentence in paragraph 4. The suggested language is not included in Auditing Standard No. 12 because that principle is already addressed in Auditing Standard No. 13.

---

<sup>46</sup> Paragraph 4 of Auditing Standard No. 12. The phrase "design further audit procedures" applies to substantive procedures and to tests of controls in the audit of financial statements and the audit of internal control over financial reporting.

<sup>47</sup> Paragraphs 5–58 of Auditing Standard No. 12.

<sup>48</sup> Paragraphs 7–17 of Auditing Standard No. 12.

<sup>49</sup> Paragraphs 18–40 of Auditing Standard No. 12.

<sup>50</sup> Paragraphs 41–45 of Auditing Standard No. 12.

<sup>51</sup> Paragraphs 46–48 of Auditing Standard No. 12.

<sup>52</sup> Paragraphs 49–53 of Auditing Standard No. 12.

<sup>53</sup> Paragraphs 54–58 of Auditing Standard No. 12.

One commenter on the repropoed standard asked for more discussion of the connection between the components of audit risk and the risk assessment process. That discussion has been added to Auditing Standard No. 8.<sup>54</sup>

## D. Obtaining an Understanding of the Company and its Environment

Like the repropoed standard, Auditing Standard No. 12 requires the auditor to obtain an understanding of the company and its environment to understand the events, conditions, and company activities that might reasonably be expected to have a significant effect on the risks of material misstatement ("obtaining an understanding of the company").<sup>55</sup> These requirements are an expansion of requirements that were in AU sec. 311 regarding obtaining knowledge of matters that relate to the nature of the entity's business, its organization, and its operating characteristics as part of audit planning.<sup>56</sup> The expanded requirements are intended to focus the auditor on the degree of "knowledge of the company" that is necessary for a risk-based audit and to explain how knowledge of the company informs the auditor's identification and assessment of risk.

Auditing Standard No. 12 requires that the understanding of the company and its environment include understanding the following:

- Relevant industry, regulatory, and other external factors;
- The nature of the company;
- The company's selection and application of accounting principles, including related disclosures;
- The company's objectives and strategies and those related business risks that might reasonably be expected to result in risks of material misstatement; and
- The company's measurement and analysis of its financial performance.<sup>57</sup>

Auditing Standard No. 12 requires the auditor to evaluate whether significant changes in the company from prior periods, including changes in its internal control over financial reporting, affect the risks of material misstatement.<sup>58</sup> This requirement builds on the requirement in paragraph 7 of Auditing Standard No. 9 to evaluate whether, among other things, the extent of recent changes, if any, in the company, its operations, or its internal control over financial reporting is important to the company's financial statements and internal control over financial reporting and, if so, how those changes will affect the auditor's procedures. PCAOB standards have recognized that many risks of material misstatement arise due to changes in the company. For example, AU sec. 319 listed the following examples of circumstances that can result in risks or changes to existing risks: changes in operating environment; new personnel; new or revamped information systems; rapid growth; new technology; new business models, products, or activities; corporate restructurings; expanded foreign operations; and new accounting pronouncements.<sup>59</sup>

---

<sup>54</sup> Paragraphs 8–11 of Auditing Standard No. 8.

<sup>55</sup> Paragraph 7 of Auditing Standard No. 12.

<sup>56</sup> AU secs. 311.06–.09.

<sup>57</sup> Paragraph 7 of Auditing Standard No. 12.

<sup>58</sup> Paragraph 8 of Auditing Standard No. 12.

<sup>59</sup> AU sec. 319.38.

Paragraphs 9–17 of Auditing Standard No. 12 explain more fully the necessary understanding of the preceding aspects of the company and its environment, e.g., what it means to obtain an understanding of the nature of the company. The discussion of relevant industry, regulatory, and other external factors is adapted from AU sec. 311. The discussion of the nature of the company is also adapted from AU sec. 311 and has been updated to reflect certain changes in business practices since AU sec. 311 was originally issued (e.g., to encompass alternative investments and financing arrangements and to recognize the development of new business models).

One commenter said that the requirement to obtain an understanding of the company and its environment should be revised because none of the aspects of the company and its environment listed in paragraph 7 is an event, condition, or company activity. However, the understanding of those aspects should lead the auditor to obtain an understanding of relevant events, conditions, and company activities. For example, obtaining an understanding of relevant industry, regulatory, and external factors helps an auditor understand the external conditions in which the company operates that represent risks of material misstatement at the financial statement level.

The repropoed standard contained a note about how the size and complexity of the company can affect the risks of misstatement and the controls necessary to address those risks. This note was intended to be a reminder to auditors that both size and complexity affect risks. One commenter stated that complexity rather than size is likely to heighten risk. Auditing Standard No. 12 retains the note as repropoed.<sup>60</sup> The size and complexity of the company can affect the risks of misstatement and the controls necessary to address those risks. Scaling the audit is most effective as a natural extension of the risk-based approach and applies to all audits, and the requirements in Auditing Standard No. 12 are intended to be scalable to companies of varying size and complexity. Auditing Standard No. 12 contains certain notes regarding scaling the audit based on a company's size and complexity.

### **1. Additional Procedures to Obtain an Understanding of the Company and its Environment**

The repropoed standard presented a list of procedures that the auditor should consider performing as part of obtaining an understanding of the company and its environment. These procedures include reading public information about the company, observing or reading transcripts of earnings calls, obtaining an understanding of compensation arrangements with senior management, and obtaining information about significant unusual developments regarding trading activity in the company's securities. The auditor's decisions about whether to perform one or more of the additional procedures and the extent of those procedures depend on whether the matters addressed in those procedures are important to the company's internal control or financial statements and whether such procedures are necessary to meet the overall requirements for obtaining an understanding of the company and performing risk assessment procedures.

Members of the Board's Standing Advisory Group ("SAG") suggested that these matters could provide valuable information for identifying risks of material misstatement, e.g., to obtain information about business risks relevant to financial reporting or to identify incentives or pressures on management to manipulate financial results.<sup>61</sup> Also, the Public Oversight Board, *Panel on Audit*

---

<sup>60</sup> First note to paragraph 10 of Auditing Standard No. 12.

<sup>61</sup> February 16, 2005. Webcasts of SAG meetings are available on the Board's website at: [http://www.pcaobus.org/News\\_and\\_Events/Webcasts](http://www.pcaobus.org/News_and_Events/Webcasts).

*Effectiveness, Report and Recommendations* ("PAE Report"), recommended that auditors consider published analysts' reports and forecasts when gaining an understanding of the company's business and industry, assessing risks, and evaluating identified misstatements.<sup>62</sup>

Commenters requested clarification of the Board's expectations regarding these procedures and expressed concern that the broad language used to describe some of the procedures might lead auditors to expend considerable efforts to decide and document whether to perform certain procedures. This requirement is not intended to require auditors to make a specific determination about each bit of data to which a procedure might be applied, e.g., to document each individual item of publicly available information to decide whether it should be reviewed.

Instead, the intention is for auditors to consider whether and to what extent such procedures should be performed to achieve the objectives in paragraphs 4 and 7 of Auditing Standard No. 12. For example, observing the company's earnings calls and other meetings with investors are likely to provide important information about the measurement and review of the company's financial performance, particularly the performance measures monitored by investors and analysts. Likewise, an understanding of compensation arrangements with senior management often can provide important information about incentives or pressures on management to manipulate the financial statements.

Auditing Standard No. 12 was revised to clarify that considering whether to perform the procedures listed in paragraph 11 also includes consideration of the extent of the procedures.

## **2. Selection and Application of Accounting Principles, Including Related Disclosures**

PCAOB standards require auditors to obtain an understanding of the accounting practices common to the industry and to evaluate the quality of a company's accounting principles as part of his or her response to fraud risks and in determining matters to be communicated to the audit committee.<sup>63</sup> Auditing Standard No. 12 imposes a responsibility to obtain an understanding of the applicable financial reporting framework and to evaluate whether the company's selection and application of accounting principles are consistent with the applicable accounting framework and the accounting principles used in the relevant industry.<sup>64</sup> Such procedures can provide important information for identifying relevant matters such as (1) accounts that are susceptible to misstatement, e.g., if an account balance is determined using accounting principles that are inconsistent with the applicable financial reporting framework or (2) more general conditions that affect risks of material misstatement, e.g., if the company's selection or application of accounting principles is more aggressive than prevailing practices in the relevant industry.

In connection with obtaining an understanding of the applicable financial reporting framework and evaluating the company's selection and application of accounting principles, including related disclosures, Auditing Standard No. 12 requires the auditor to develop expectations about the disclosures that are necessary for the company's financial statements to be presented fairly in conformity with the applicable financial reporting framework.<sup>65</sup> The language in this

---

<sup>62</sup> Public Oversight Board, *Panel on Audit Effectiveness, Report and Recommendations* (August 31, 2000), p. 58.

<sup>63</sup> See AU sec. 316 and AU sec. 380, *Communication With Audit Committees*.

<sup>64</sup> Paragraph 12 of Auditing Standard No. 12.

<sup>65</sup> *Ibid*.

requirement was revised to clarify that the auditor should develop an expectation about the disclosures as part of the risk assessment procedures and that the expectations should be based on the disclosures necessary for the fair presentation of the financial statements in conformity with the applicable financial reporting framework.

Auditing Standard No. 12 also presents a list of matters that, if present, are relevant to the necessary understanding of the company's selection and application of accounting principles.<sup>66</sup> The amount of auditor attention devoted to an individual matter would depend on its importance in meeting the overall requirements for obtaining an understanding of the company and performing risk assessment procedures.<sup>67</sup>

### **3. Company Objectives, Strategies, and Related Business Risks**

The reproposed standard required the auditor to obtain an understanding of the company's objectives, strategies, and related business risks in order to identify those business risks that could reasonably be expected to result in material misstatement of the financial statements. The *PAE Report* recommended that auditors be required to obtain an understanding of the company's business risks.<sup>68</sup>

Commenters on the reproposed standard requested additional discussion about business risks, including going concern risks, fraud risks, and how business risks can result in misstatements of the financial statements. Additional discussion has been added to Auditing Standard No. 8 and Auditing Standard No. 12.<sup>69</sup>

Auditing Standard No. 12 discusses how business risks can lead to misstatements and provides examples of business risks that may result in a risk of material misstatement of the financial statements.<sup>70</sup> However, the list of examples is meant to be illustrative rather than a checklist of factors to consider. Auditors would need to consider the business risks that are relevant to the particular company and industry. For example, in today's economic environment, business risks might include financing risks (e.g., access to necessary financing) or product risks (e.g., investments in certain financial products).

### **4. The Company's Measurement and Analysis of its Financial Performance**

The risk assessment procedures in the reproposed standard included obtaining an understanding of the company's performance measures. The purpose of obtaining that understanding is to identify those performance measures, whether external or internal, that affect the risks of material misstatement. For example, understanding performance measures can help the auditor identify accounts or disclosures that might be susceptible to manipulation to achieve certain performance targets (or to conceal failures to achieve those targets) or to understand how management uses performance measures to monitor risks affecting the financial statements.

Commenters requested clarification regarding the examples of performance measures. A note was added to Auditing Standard No. 12 to explain the significance of the individual examples.<sup>71</sup>

<sup>71</sup> Paragraph 17 of Auditing Standard No. 12.

## E. Obtaining an Understanding of Internal Control Over Financial Reporting

Auditing Standard No. 12 describes the auditor's responsibilities for obtaining an understanding of internal control over financial reporting ("understanding of internal control"). Auditing Standard No. 12 requires the auditor to obtain a sufficient understanding of each component of internal control over financial reporting to (a) identify the types of potential misstatements, (b) assess the factors that affect the risks of material misstatement, and (c) design further audit procedures.<sup>72</sup> These requirements are, in substance, equivalent to those in AU sec. 319, but the formulation in the proposed standard is aligned more clearly with Auditing Standard No. 5. Like the requirements in AU sec. 319, the requirements in Auditing Standard No. 12 indicate that although the auditor's primary focus is on internal control over financial reporting, the auditor may obtain an understanding of controls related to operations or compliance objectives if they pertain to data that the auditor plans to use in applying auditing procedures.<sup>73</sup>

Auditing Standard No. 12 sets forth certain principles regarding the sufficiency of the auditor's understanding of internal control. The size and complexity of the company; the auditor's existing knowledge of the company's internal control; the nature of the company's internal controls, including the company's use of IT; the nature and extent of changes in systems and operations; and the nature of the company's documentation of its internal control over financial reporting affect the nature, timing, and extent of procedures necessary to obtain an understanding of internal control. For example, the auditor's procedures to obtain an understanding of internal control would be more extensive when the auditor plans to test controls more extensively (e.g., in an integrated audit), the company's internal control is more complex, or the company's controls have changed significantly.

The reproposed standard stated that the auditor's understanding of internal control includes evaluating the design of controls and determining whether the controls are implemented. Commenters observed that the reproposed standard stated that walkthroughs that include the necessary procedures ordinarily are sufficient to evaluate design effectiveness, but the reproposed standard did not make a similar statement about the use of walkthroughs to determine whether controls have been implemented. Auditing Standard No. 12 has been revised to include a statement that walkthroughs that include the procedures described in the standard ordinarily are sufficient to determine whether a control has been implemented.<sup>74</sup> Under Auditing Standard No. 12, as under AU sec. 319,<sup>75</sup> the amount of audit attention devoted to design and operating effectiveness will vary based on the auditor's plan for testing controls. For example, if the auditor plans to test controls, more attention should be devoted to controls that the auditor plans to test.

### ***1. Obtaining an Understanding of Individual Components of Internal Control Over Financial Reporting***

To describe the auditor's responsibilities for obtaining an understanding of internal control, it was necessary to describe the components of internal control over financial reporting. The components described in Auditing Standard No. 12

---

<sup>72</sup> Paragraph 18 of Auditing Standard No. 12.

<sup>73</sup> Paragraph 19 of Auditing Standard No. 12.

<sup>74</sup> Paragraph 20 of Auditing Standard No. 12.

<sup>75</sup> AU sec. 319.58.

are similar to those in AU sec. 319.<sup>76</sup> Auditing Standard No. 12 also states that auditors may use other suitable, recognized frameworks<sup>77</sup> in accordance with the provisions of the standard. If the auditor uses a suitable, recognized internal control framework with components that differ from those in the standard, the auditor should adapt the requirements in the standard for the components in the framework used.<sup>78</sup>

## 2. Control Environment

Auditing Standard No. 12 requires the auditor to assess the following matters as part of obtaining an understanding of the control environment:

- Whether management's philosophy and operating style promote effective internal control over financial reporting;
- Whether sound integrity and ethical values, particularly of top management, are developed and understood; and
- Whether the board or audit committee understands and exercises oversight responsibility over financial reporting and internal control.<sup>79</sup>

Although this requirement is aligned with a similar requirement in Auditing Standard No. 5 for evaluating the control environment, the auditor's process for assessing the control environment in an audit of financial statements only is not expected to be the same as that required when expressing an opinion on internal control over financial reporting. For audits of financial statements only, Auditing Standard No. 12 allows the auditor to base his or her assessment on evidence obtained as part of obtaining an understanding of the control environment and other relevant knowledge possessed by the auditor.<sup>80</sup>

Because of the importance of an effective control environment to address fraud risks, Auditing Standard No. 12 states that if the auditor identifies a control deficiency in the company's control environment, the auditor should evaluate the extent to which this control deficiency is indicative of a fraud risk factor.<sup>81</sup>

## 3. The Company's Risk Assessment Process

Auditing Standard No. 12 requires the auditor to obtain an understanding of management's risk assessment process for (a) identifying risks relevant to financial reporting objectives, including risks of material misstatement due to fraud, (b) assessing the likelihood and significance of misstatements resulting from those risks, and (c) deciding about actions to address those risks.<sup>82</sup> The standard also requires the auditor to obtain an understanding of the risks of material misstatement identified and assessed by management and the actions taken to address those risks.<sup>83</sup> Compliance with these requirements will help make sure that the auditor's risk assessments are appropriately informed by management's risk assessments and the controls that management put in place to address the risks.

<sup>76</sup> Paragraph 21 of Auditing Standard No. 12.

<sup>77</sup> See Securities Exchange Act Release No. 34-47986 (June 5, 2003) for a description of the characteristics of a suitable, recognized framework.

<sup>78</sup> Paragraph 22 of Auditing Standard No. 12.

<sup>79</sup> Paragraph 24 of Auditing Standard No. 12.

<sup>80</sup> *Ibid.*

<sup>81</sup> Paragraph 25 of Auditing Standard No. 12.

<sup>82</sup> Paragraph 26 of Auditing Standard No. 12.

<sup>83</sup> Paragraph 27 of Auditing Standard No. 12.

#### 4. Information and Communication

The reproposed standard required the auditor to obtain an understanding of the information system, including the related business processes, relevant to financial reporting. One commenter suggested removing the requirement to understand the company's business processes. The requirement was retained as reproposed.<sup>84</sup> Obtaining an understanding of the company's business processes assists the auditor in obtaining an understanding of how transactions are initiated, authorized, processed, and recorded. Also, the requirement to understand business processes is a recommendation in the *PAE Report*.<sup>85</sup> Auditing Standard No. 12 describes the necessary understanding of business processes to help auditors identify those business processes that are relevant to financial reporting.<sup>86</sup>

Auditing Standard No. 12 also contains requirements for understanding the period-end financial reporting process<sup>87</sup> and describes important elements of that process.<sup>88</sup> Because the period-end financial reporting process is a common source of potential misstatements, it is important for the auditor to have an adequate understanding of the aspects of the period-end financial reporting process in all audits, including audits of financial statements only. Auditing Standard No. 12 requires the auditor only to obtain an understanding<sup>89</sup> of the process, as compared to Auditing Standard No. 5, which requires the auditor also to evaluate that process in the audit of internal control.

To appropriately highlight the importance of IT risks in determining the scope of the audit, the standard requires the auditor to obtain an understanding of how IT affects the company's flow of transactions. The standard also contains a note that states that the identification of risks and controls within IT is not a separate evaluation. Instead, it is an integral part of the approach used to identify significant accounts and disclosures and their relevant assertions and, when applicable, to select the controls to test, as well as to assess risk and allocate audit effort.

Regarding the auditor's understanding of communication, one commenter suggested that the standard clarify that the auditor should understand how the company communicates financial reporting roles and responsibilities and significant matters relating to financial reporting. The requirement in Auditing Standard No. 12 has been revised to clarify that point.<sup>90</sup>

#### 5. Control Activities

The reproposed standard required the auditor to obtain an understanding of control activities that is sufficient to assess the factors that affect the risks of material misstatement and to design further audit procedures. As under AU sec. 319, a more extensive understanding of control activities is needed in areas in which the auditor plans to test controls. Thus, for purposes of evaluating the effectiveness of internal control over financial reporting in an integrated audit, the auditor's understanding of control activities encompasses a broader range

---

<sup>84</sup> Paragraph 28 of Auditing Standard No. 12.

<sup>85</sup> *PAE Report*, p. 15.

<sup>86</sup> Paragraphs 28–32 of Auditing Standard No. 12.

<sup>87</sup> AU sec. 319.49 used the term "financial reporting process used to prepare the entity's financial statements," but Auditing Standard No. 12 uses the same term as used in Auditing Standard No. 5.

<sup>88</sup> Paragraphs 28 and 32 of Auditing Standard No. 12.

<sup>89</sup> Paragraph 20 of Auditing Standard No. 12 discusses procedures that the auditor performs to obtain an understanding of internal control.

<sup>90</sup> Paragraph 33 of Auditing Standard No. 12.

of accounts and disclosures than that which is normally obtained in an audit of financial statements only.

Some commenters expressed concern that the language in the requirement could be misinterpreted as requiring the auditor to obtain an understanding of all controls, even in an audit of financial statements only in which the auditor does not plan to test controls. A few commenters suggested framing the requirement in terms of understanding control activities relevant to the audit.

The Board did not intend to expand the auditor's responsibilities for obtaining an understanding of control activities beyond what is required in AU sec. 319. The discussion in Auditing Standard No. 12 on obtaining an understanding of control activities has been revised, primarily using language adapted from AU sec. 319, to clarify that the substance of the requirement has not changed.<sup>91</sup>

## **6. Performing Walkthroughs**

The original proposed standard referred auditors to Auditing Standard No. 5 for a discussion of the performance of walkthroughs. Some commenters on the original proposed standard stated that the standard should include a discussion of walkthroughs rather than referring to Auditing Standard No. 5. The re-proposed standard included a discussion of performing walkthroughs as part of meeting certain specified objectives, which paralleled a requirement in Auditing Standard No. 5<sup>92</sup> regarding understanding likely sources of potential misstatements. Some commenters expressed concerns that the discussion would lead to unnecessary walkthroughs, particularly in audits of financial statements only.

The intention of including the discussion of walkthroughs was to explain how to perform walkthroughs rather than to impose requirements regarding when walkthroughs should be performed. The standard has been revised to focus on how the auditor should perform walkthroughs, e.g., in connection with understanding the flow of transactions in the information system relevant to financial reporting, evaluating the design of controls relevant to the audit, and determining whether those controls have been implemented.<sup>93</sup> The discussion of the objectives for understanding likely sources of potential misstatements has been removed from Auditing Standard No. 12, so those objectives would continue to apply only to integrated audits.

## **7. Relationship of Understanding of Internal Control to Tests of Controls**

Auditing Standard No. 12, like the re-proposed standard, contains a discussion about the relationship between obtaining an understanding of controls and testing controls, including entity-level controls.<sup>94</sup> The requirements in Auditing Standard No. 12 clarify that the objective of obtaining an understanding of internal control as a risk assessment procedure is different from testing controls for the purpose of assessing control risk<sup>95</sup> or for the purpose of expressing an opinion on internal control over financial reporting in the audit of internal control.<sup>96</sup> The standard allows the auditor the flexibility of obtaining an understanding of internal control concurrently with performing tests of controls if he or she obtains sufficient appropriate evidence to achieve the objectives of both procedures.<sup>97</sup>

<sup>94</sup> Paragraph 39 of Auditing Standard No. 12.

<sup>95</sup> Paragraphs 16–31 of Auditing Standard No. 13.

<sup>96</sup> Paragraph B1 of Auditing Standard No. 5.

<sup>97</sup> Paragraph 39 of Auditing Standard No. 12.

## F. Information Obtained from Past Audits and Other Engagements

### 1. Information from Past Audits

The reproposed standard included a requirement for the auditor to incorporate knowledge obtained during past audits into the auditor's process for identifying risks of material misstatement. One commenter asked for clarification of the meaning of the term "incorporate." Two commenters stated that the most important issue is to determine whether information from past audits is still relevant.

The term "incorporate" is not new and should be familiar to most auditors. For example, it has been used in AU sec. 316 regarding the requirement to incorporate an element of unpredictability in the audit in response to fraud risks. The requirement in the reproposed standard was similar to a requirement in Auditing Standard No. 5 to incorporate knowledge obtained during past audits in subsequent year audits of internal control.<sup>98</sup> Accordingly the term has been retained in Auditing Standard No. 12.

Auditing Standard No. 12 also states that if the auditor plans to limit the nature, timing, or extent of his or her risk assessment procedures by relying on information from past audits, the auditor should evaluate whether the prior-years' information remains relevant and reliable.<sup>99</sup>

### 2. Information from Other Engagements

The reproposed standard included a requirement for the auditor to take into account relevant information obtained through other engagements performed by the auditor for the company<sup>100</sup> This requirement was intended to focus on the responsibility to take relevant information into account in identifying and assessing risks rather than to prescribe a particular method for obtaining that information.

Some commenters suggested that the requirement should be limited to consideration of other engagements performed by the engagement partner. The suggested change would weaken the standard. Limiting the consideration of information to engagements performed for the company by the engagement partner is too narrow because it omits other important information sources that are available to the engagement team. Also, limiting the consideration to engagements performed by the engagement partner is inconsistent with prior PCAOB standards. For example, AU sec. 311.04 stated that procedures the auditor may consider in planning an audit usually involve discussions with other firm personnel, and includes the following example "Discussing matters that may affect the audit with firm personnel responsible for non-audit services to the entity." Also, paragraph 03 of AU sec. 9311, *Planning and Supervision: Auditing Interpretations of Section 311*, stated:

The auditor should consider the nature of non-audit services that have been performed. He should assess whether the services involve matters that might be expected to affect the entity's financial statements or the performance of the audit, for example, tax planning or recommendations on a cost accounting

---

<sup>98</sup> Paragraph 57 of Auditing Standard No. 5.

<sup>99</sup> Paragraph 43 of Auditing Standard No. 12.

<sup>100</sup> PCAOB Rule 1001, *Definitions of Terms Employed in Rules*, states that, when used in rules of the PCAOB, unless the context otherwise requires, "[t]he term 'auditor' means both public accounting firms registered with the Public Company Accounting Oversight Board and associated persons thereof."

system. If the auditor decides that the performance of the non-audit services or the information likely to have been gained from it may have implications for his audit, he should discuss the matter with personnel who rendered the services and consider how the expected conduct and scope of his audit may be affected. In some cases, the auditor may find it useful to review the pertinent portions of the work papers prepared for the non-audit engagement as an aid in determining the nature of the services rendered or the possible audit implications.

Other commenters suggested that the requirement be revised to use more of the language from AU sec. 9311. The requirement in Auditing Standard No. 12<sup>101</sup> has been revised as follows:

The auditor should obtain an understanding of the nature of the services that have been performed for the company by the auditor or affiliates of the firm<sup>102</sup> and should take into account relevant information obtained from those engagements in identifying risks of material misstatement.<sup>103</sup>

One commenter stated that audit firms will need to develop very costly reporting systems to enable them to convey relevant information about nonassurance engagements to audit engagement teams. Existing PCAOB and SEC rules already require firms to track and report nonaudit services provided to the company. Complying with these requirements would mean that the audit firms have a mechanism in place to track these services. For example, PCAOB Rules 3524<sup>104</sup> and 3526<sup>105</sup> require the auditor to describe to the company's audit committee, among other things, the scope of and the potential effect on independence of other services provided by the firm. It is expected that the system used to capture, track, and monitor these services for compliance with these PCAOB independence rules would also be applicable to comply with the requirements of Auditing Standard No. 12.

## G. Performing Analytical Procedures

The repropoed standard retained requirements from AU sec. 329, *Analytical Procedures*, to perform analytical procedures during the planning phase of the audit.<sup>106</sup> Such analytical procedures are, in essence, risk assessment procedures, so the respective requirements and direction have been incorporated into Auditing Standard No. 12.<sup>107</sup> One commenter stated that it is unclear whether the PCAOB intends a change in practice regarding the execution of analytical procedures performed as risk assessment procedures, e.g., because the requirements in the repropoed standard discussed developing expectations and comparing them to recorded amounts. AU sec. 329, states that analytical procedures involve developing expectations and comparing those expectations to recorded amounts.<sup>108</sup>

Auditing Standard No. 12 states that analytical procedures performed as risk assessment procedures often use data that is preliminary or data that is aggregated at a high level and that in those instances such analytical procedures

---

<sup>101</sup> Paragraph 45 of Auditing Standard No. 12.

<sup>102</sup> PCAOB Rule 3501, *Definitions of Terms Employed in Section 3, Part 5 of the Rules*.

<sup>103</sup> Paragraph 7 of Auditing Standard No. 9.

<sup>104</sup> PCAOB Rule 3524, *Audit Committee Pre-approval of Certain Tax Services*.

<sup>105</sup> PCAOB Rule 3526, *Communication With Audit Committees Concerning Independence*.

<sup>106</sup> AU secs. 329.06-.08.

<sup>107</sup> Paragraphs 46-48 of Auditing Standard No. 12.

<sup>108</sup> AU sec. 329.05.

are not designed with the level of precision necessary for substantive analytical procedures.<sup>109</sup> In those situations, the auditor's expectations in performing analytical procedures as risk assessment procedures do not require the same degree of precision as substantive analytical procedures.

## H. Conducting a Discussion among Engagement Team Members Regarding Risks of Material Misstatement

Like the repropoed standard, Auditing Standard No. 12 includes a requirement that key engagement team members discuss (1) the company's selection and application of accounting principles, including related disclosure requirements and (2) the susceptibility of the company's financial statements to material misstatement due to error or fraud.<sup>110</sup> The standard explains that key engagement team members include the engagement partner and all engagement team members who have significant engagement responsibilities.<sup>111</sup> The term "significant engagement responsibilities" should be familiar to auditors because it is already used in AU sec. 316 regarding the appropriate assignment of engagement team members in the overall responses to fraud risks.

One commenter stated that the requirement for participation in the discussion among engagement team members on the repropoed standard should be revised to use the language in ISA 315, *Identifying and Assessing the Risks of Material Misstatement through Understanding the Entity and its Environment*, so that the engagement partner makes the determination of what needs to be reported to whom on a "need to know" basis.

The language in Auditing Standard No. 12 was retained as repropoed. The Board believes that the discussion among engagement team members is an important part of the auditor's risk assessment procedures. Through its oversight activities, the Board has observed deficiencies relating to discussions among engagement team members regarding fraud risks, including instances in which key engagement team members did not participate.<sup>112</sup>

### 1. Discussion of the Potential for Material Misstatement Due to Fraud

A number of comments were received regarding the requirements for discussing the risks of material misstatement due to fraud.

One commenter suggested that the standard should require the auditor to consider using a fraud specialist. The Board believes that this point is already covered by the requirement in Auditing Standard No. 9 to evaluate whether a person with specialized skill or knowledge is needed to assess risks.<sup>113</sup>

One commenter suggested that the requirement to discuss how the financial statements could be materially misstated through omitting or presenting incomplete disclosures also should include the possibility of presenting inaccurate disclosures. The requirement has been revised to include that topic.<sup>114</sup> Another commenter stated that the standard should provide more "guidance" about how fraud risks relate to disclosures. The manner in which management might intentionally omit disclosures or present inaccurate or incomplete disclosures to

---

<sup>109</sup> Paragraph 48 of Auditing Standard No. 12.

<sup>110</sup> Paragraph 49 of Auditing Standard No. 12.

<sup>111</sup> Paragraph 50 of Auditing Standard No. 12.

<sup>112</sup> PCAOB Release 2007-001, *Observations on Auditors' Implementation of PCAOB Standards Relating to Auditors' Responsibilities with Respect to Fraud* (January 22, 2007).

<sup>113</sup> Paragraphs 16–17 of Auditing Standard No. 12.

<sup>114</sup> Paragraph 52 of Auditing Standard No. 12.

commit or conceal intentional misstatement of the financial statements necessarily depends on the circumstances, including the incentives or pressures and the opportunities to manipulate the financial statements. The discussion of fraud risks required by the standard should prompt engagement team members to consider ways in which omissions or inaccuracies in disclosures might be involved with fraudulent financial reporting.

Another commenter stated that the requirement for the auditor to emphasize certain matters regarding fraud to the engagement team members during the fraud risk discussion does not assign the responsibility to a specific person. The requirement focuses on the communication of important matters rather than on the person communicating the matters. Since the engagement partner has the overall responsibility for the audit engagement, the engagement partner is likely to be the most appropriate person to make the communications. However, Auditing Standard No. 12 allows the communications to be made by another engagement team member, when appropriate.

## **2. Communication Among Engagement Team Members**

Auditing Standard No. 12 states that communication among the engagement team members about significant matters affecting the risks of material misstatement should continue throughout the audit, including when conditions change. This requirement carries forward and builds upon a requirement in AU sec. 316.<sup>115</sup>

## **I. Inquiring of the Audit Committee, Management, and Others within the Company about the Risks of Material Misstatement**

Like the repropoed standard, Auditing Standard No. 12 requires the auditor to make inquiries of the audit committee, or equivalent (or its chair), management, the internal audit function, and others within the company who might reasonably be expected to have information that is important to the identification and assessment of risks of material misstatement.<sup>116</sup> The requirement to inquire of others who "might reasonably be expected to have information" is similar to a requirement in AU sec. 316 for making inquiries of others about the existence or suspicion of fraud, and it establishes a principle to guide the auditor in determining those other persons to whom the inquiries should be addressed.<sup>117</sup>

### **1. Inquiries Regarding Fraud Risks**

The repropoed standard also required the auditor to make inquiries of the audit committee (or its chair), management, the internal audit function, and others within the company about the risks of fraud. Commenters suggested that the requirements for identifying other individuals within the company to whom inquiries should be directed should include determining the extent of such inquiries. Auditing Standard No. 12 reflects the suggested revision to that requirement because inquiries of other individuals should be designed to obtain information relevant to identifying and assessing fraud risks.<sup>118</sup>

The repropoed standard included a requirement to take into account the fact that management is often in the best position to commit fraud when evaluating

---

<sup>115</sup> AU sec. 316.18.

<sup>116</sup> Paragraph 54 of Auditing Standard No. 12.

<sup>117</sup> AU sec. 316.24.

<sup>118</sup> Paragraph 57 of Auditing Standard No. 12.

management's responses to inquiries about fraud risks and determining when it is necessary to corroborate management's responses. One commenter stated that the requirement was unclear and the use of the term "take into account" did not seem consistent with the Board's explanation in the release accompanying the repropoed standards. This requirement has been revised to clarify the requirement and to use "take into account" in a manner that is consistent with the other PCAOB standards.<sup>119</sup>

Auditing Standard No. 12 requires that the auditor use his or her knowledge of the company and its environment, as well as information from other risk assessment procedures, to determine the nature of the inquiries about risks of material misstatement. This requirement carries forward and builds upon a requirement in AU sec. 316.<sup>120</sup>

Auditing Standard No. 12 includes an additional required inquiry of the internal auditor about whether he or she is aware of instances of management override of controls and the nature and circumstances of such overrides. Also, Auditing Standard No. 12 requires the auditor to make inquiries of management and the audit committee, or equivalent regarding tips or complaints about the company's financial reporting.<sup>121</sup> These required inquiries were added in light of research indicating that many incidents of fraud are uncovered through tips.<sup>122</sup> These inquiries can provide important evidence about fraud risks.

Auditing Standard No. 12 requires the auditor, when evaluating management's responses to inquiries about fraud risks and determining when it is necessary to corroborate management's responses, to take into account the fact that management is often in the best position to commit fraud. The standard also requires the auditor to obtain evidence to address inconsistencies in responses to inquiries. This requirement carries forward and builds upon a requirement in AU sec. 316.<sup>123</sup>

## J. Identifying and Assessing the Risks of Material Misstatement

Auditing Standard No. 12 sets forth a process for identifying and assessing the risks of material misstatement using the information obtained from the risk assessment procedures and other relevant knowledge possessed by the auditor.<sup>124</sup> This process involves:

- a. Identifying risks of misstatement using information obtained from risk assessment procedures and considering the characteristics of the accounts and disclosures in the financial statements.
- b. Evaluating whether the identified risks relate pervasively to the financial statements as a whole and potentially affect many assertions.

---

<sup>119</sup> Paragraph 58 of Auditing Standard No. 12.

<sup>120</sup> AU sec. 316.24.

<sup>121</sup> Paragraph 56 of Auditing Standard No. 12.

<sup>122</sup> See, e.g., Association of Certified Fraud Examiners, *2008 Report to the Nation on Occupational Fraud & Abuse* (2008).

<sup>123</sup> AU sec. 316.27.

<sup>124</sup> Under Auditing Standard No. 12, the auditor has a responsibility to perform risk assessment procedures that provide an appropriate basis for his or her risk assessment. Auditing Standard No. 12 does not include the provision in the prior interim standards that allowed the auditor to assess risk at the maximum solely for efficiency reasons. Rather, the auditor needs to have a sufficient understanding of the company and its environment, including its internal control, in order to determine the risks of material misstatement and, in turn, to design effective tests of controls and substantive procedures.

- c. Evaluating the types of potential misstatements that could result from the identified risks and the accounts, disclosures, and assertions that could be affected. This includes evaluating how risks at the financial statement level could affect risks at the assertion level.
- d. Assessing the likelihood of misstatement, including the possibility of multiple misstatements, and the magnitude of potential misstatement to assess the possibility that the risk could result in material misstatement of the financial statements. In making this assessment, the auditor may take into account the planned degree of reliance on controls that the auditor plans to test, if the auditor performs tests of controls in accordance with PCAOB standards.
- e. Identifying significant accounts and disclosures and their relevant assertions.
- f. Determining whether any of the identified and assessed risks of material misstatement are significant risks.<sup>125</sup>

One commenter suggested that the word "material" should be inserted before the word "misstatement" in paragraph 56.a. of the repropoed standard. No change was made to Auditing Standard No. 12 because inserting the word "material" would inappropriately narrow the auditor's focus on only material risks too early in the process of identifying and assessing risks of misstatement, i.e., before assessing the likelihood and magnitude of potential misstatements related to the risks.

Commenters suggested that the standard should clarify that the likelihood and magnitude of potential misstatements should be considered in determining which risks are significant risks. Auditing Standard No. 12 includes an additional requirement that states, "To determine whether an identified and assessed risk is a significant risk, the auditor should evaluate whether the risk requires special audit consideration because of the nature of the risk or the likelihood and potential magnitude of misstatement related to the risk."<sup>126</sup> Also, the list of factors that should be evaluated in determining which risks are significant risks was expanded to include "the effect of the quantitative and qualitative risk factors discussed in paragraph 60 of the standard [on identifying significant accounts and disclosures and their relevant assertions] on the likelihood and potential magnitude of misstatements."<sup>127</sup> Including this new factor highlights the relationship between the identification of significant accounts and disclosures and their relevant assertions and the identification of significant risks. Specifically, risk factors that form the basis for identifying significant accounts and disclosures and their relevant assertions also inform the identification of significant risks, and significant risks affect one or more relevant assertions of significant accounts or disclosures.

Another commenter on the repropoed standard suggested that the term "likelihood" be defined more in terms of reasonable possibility as that term is used in Auditing Standard No. 5. However, that change would be inconsistent with the requirement to assess the likelihood of misstatements, i.e., the possibility that the risk would result in misstatement of the financial statements.

One commenter indicated that the requirement in the note to paragraph 59.c. of the repropoed standard "inappropriately infers that the auditor should,

---

<sup>125</sup> Paragraph 59 of Auditing Standard No. 12.

<sup>126</sup> Paragraph 70 of Auditing Standard No. 12.

<sup>127</sup> Paragraph 71 of Auditing Standard No. 12.

and can, associate the risks at the financial statement level with particular assertions in order to assess risks at the assertion level." Auditing Standard No. 8 states that risks of material misstatement at the financial statement level have a pervasive effect on the financial statements as a whole and potentially affect many assertions, and the standard provides examples of how risks at the financial statement level can result in misstatements.<sup>128</sup> It is important for the auditor to take into account risks of material misstatement at the financial statement level in order to evaluate types of misstatements that could occur.

Under PCAOB standards, significant accounts and disclosures and their relevant assertions are identified based upon their risk characteristics. Thus, the auditor needs to identify and assess the risks in order to identify the relevant assertions of significant accounts and disclosures in accordance with PCAOB standards. For example, Auditing Standard No. 5 requires the auditor to identify significant accounts and disclosures and their relevant assertions in integrated audits.<sup>129</sup> Also, AU sec. 319 required the auditor to perform substantive procedures for the relevant assertions of significant accounts and disclosures for all audits of financial statements, which implicitly required the auditor to identify those accounts, disclosures, and assertions.<sup>130</sup> Auditing Standard No. 12 imposes a more explicit requirement on the auditor to identify significant accounts and disclosures and their relevant assertions in all audits.

### ***1. Factors Relevant to Identifying Fraud Risks***

Auditing Standard No. 12 requires that the auditor evaluate whether the information gathered from the risk assessment procedures indicates that one or more fraud risk factors are present and should be taken into account in identifying and assessing fraud risks.<sup>131</sup> The repropoed standard included a paragraph that stated that the auditor should not assume that all of the fraud risk factors discussed in must be observed to conclude that a fraud risk exists. Commenters suggested that the language was not clear as to the action that auditors would need to take to "not assume." The paragraph has been revised to clarify that all of the conditions are not required to be observed or evident to conclude that a fraud risk exists.<sup>132</sup>

### ***2. Consideration of the Risk of Omitted or Incomplete Disclosures***

The repropoed standard stated that the auditor's evaluation of fraud risk factors should include an evaluation of how fraud could be perpetrated or concealed by omitting required disclosures or by presenting incomplete disclosures. One commenter stated that the requirement should also include consideration of the possibility of presenting inaccurate disclosures. Other commenters stated that the requirement should be revised to refer to disclosures required by the applicable financial reporting framework. The requirement has been revised to encompass inaccurate disclosures and to refer to disclosures required for the fair presentation of the financial statements in conformity with the applicable financial reporting framework.<sup>133</sup>

---

<sup>128</sup> Paragraph 6 of Auditing Standard No. 8.

<sup>129</sup> Paragraph 28 of Auditing Standard No. 5.

<sup>130</sup> *Ibid.*

<sup>131</sup> Paragraph 65 of Auditing Standard No. 12.

<sup>132</sup> Paragraph 66 of Auditing Standard No. 12.

<sup>133</sup> Paragraph 67 of Auditing Standard No. 12.

### 3. *Presumption of Fraud Risk Involving Improper Revenue Recognition*

Like the reposed standard, Auditing Standard No. 12 contains a requirement that the auditor should presume that there is a fraud risk involving improper revenue recognition and evaluate which types of revenue, revenue transactions, or assertions may give rise to such risks.<sup>134</sup> One commenter recommended rewording this paragraph to state that while revenue recognition should be presumed to be a higher level of risk, there are exceptions. The requirement was retained as stated in the reposed standard because a significant number of financial reporting frauds relate to revenue recognition.<sup>135</sup>

### K. *Definition of Significant Risk*

The reposed standard defined significant risk as a risk of material misstatement that requires special audit consideration. Some commenters stated that the definition of "significant risk" in the reposed standard should be revised to indicate that significant risks are "identified risks" and that they are determined using the "auditor's judgment" or risks that the auditor "determines." Adding a reference to the auditor's determination or auditor's judgment is unnecessary because those points are inherent in the requirements for identifying significant risks, e.g., in the required evaluation of the likelihood and potential magnitude of misstatements related to the risk. Similarly, the reference to "identified risks" is unnecessary because it is already mentioned in the requirement for determining significant risks. Accordingly, the definition of significant risk included in the reposed standard is retained.

## VII. Auditing Standard No. 13—The Auditor's Responses to the Risks of Material Misstatement

### A. Background

Auditing Standard No. 13 establishes requirements for responding to the risks of material misstatement, including responses regarding the general conduct of the audit and responses involving audit procedures. Auditing Standard No. 13 applies to integrated audits and audits of financial statements only.

### B. Linking Assessed Risks and Auditor's Responses

The reproposed standard included a requirement for the auditor to design and implement appropriate responses to the "assessed risks of material misstatement" to address comments received on the original proposed standard for improving the linkage between the auditor's responses and the identification and assessment of risks of material misstatement. Acknowledging the improvements in the reproposed standard, some commenters continued to suggest that the objective also should state that the auditor is to address the assessed risks of material misstatement.

In the Board's view, obtaining sufficient appropriate evidence to support the auditor's opinion requires the auditor to adequately respond to the risks of material misstatement. Accordingly, the title and objective of the standard continue to refer to responding to the risks of material misstatement. However, the Board recognizes that the appropriate identification and assessment of the risks of material misstatement in accordance with Auditing Standard No. 12 enable the auditor to effectively respond to the risks of material misstatement. Auditing Standard No. 13 continues to impose on auditors an unconditional responsibility to design and implement responses that address the risks of material misstatement identified and assessed in accordance with Auditing Standard No. 12.<sup>136</sup> As with the reproposed standard, noncompliance with the requirements in Auditing Standard No. 12 that leads to a failure to identify or appropriately assess a risk of material misstatement also could result in a failure to appropriately respond to the risk of material misstatement in accordance with this standard.<sup>137</sup>

### C. Overall Responses to Risks

The reproposed standard included a requirement for the auditor to respond to the risks of material misstatement through overall responses and responses involving the nature, timing, and extent of audit procedures. Overall responses relate to the general conduct of the audit, e.g., appropriately assigning and properly supervising engagement team members, incorporating an element of unpredictability into the audit, evaluating the company's selection and application of significant accounting principles, and making pervasive changes to the audit. Such responses are required by AU sec. 316 in response to fraud risks, but the reproposed standard extended the requirement to apply to risks of material misstatement due to error or fraud. These responses, by their nature,

---

<sup>136</sup> Paragraph 3 of Auditing Standard No. 13.

<sup>137</sup> Failure to address a risk of material misstatement also might indicate a failure to comply with Auditing Standard No. 12.

are appropriate for addressing risks of material misstatement due to error or fraud.

Some commenters expressed concerns regarding the expansion of the requirement for incorporating an element of unpredictability to apply to risks of material misstatement other than fraud risks.

In the Board's view, although incorporating an element of unpredictability is intended primarily to address fraud risks, it also can enable the auditor to detect errors or control deficiencies that could otherwise remain undetected. In addition, the requirement to incorporate an element of unpredictability when testing controls already exists in Auditing Standard No. 5. Auditing Standard No. 13 continues to indicate that the auditor should incorporate an element of unpredictability as part of the response to the risks of material misstatement, including fraud risks.<sup>138</sup>

One commenter requested clarification regarding the differences between the first and third examples used to illustrate ways to incorporate an element of unpredictability in paragraph 5.c. of the reproposed standard. The first example in Auditing Standard No. 13 is intended to illustrate that the auditor may decide to perform audit procedures for a particular account, disclosure, or assertion even though the auditor's risk assessment did not identify specific risks associated with those accounts.<sup>139</sup> The third example is intended to illustrate that when sampling a particular financial statement amount, the auditor may consider selecting items with amounts lower than the threshold that the auditor had used in the past, or expanding the selection to other sections of the population that the auditor had not tested in the past.<sup>140</sup>

The reproposed standard required the auditor to evaluate whether it is necessary to make pervasive changes to the audit to adequately address the assessed risks of material misstatement. The reproposed standard did not require that pervasive changes be made in every audit. Instead, it required the auditor to evaluate whether pervasive changes that affect many aspects of the audit are needed to address the assessed risks of material misstatement. Commenters questioned the use of the term "pervasive" in the requirement. Auditing Standard No. 13 provides additional explanation of the types of circumstances in which pervasive changes might be necessary.<sup>141</sup>

Existing PCAOB standards require the auditor to apply professional skepticism as part of due care,<sup>142</sup> and Auditing Standard No. 13 states that the auditor's response to fraud risks involves the application of professional skepticism in gathering and evaluating audit evidence.<sup>143</sup> The requirement is intended to emphasize the importance of professional skepticism in responding to risks of material misstatement without limiting its application to the auditor's responses.

One commenter expressed concern that the reproposed standard did not explicitly require the auditor to implement overall responses to risks at the financial statement level. Such an explicit requirement would inappropriately limit the auditor's overall responses to risks at the financial statement level. Many of the overall responses also apply to risks at the assertion level, e.g., assigning more

---

<sup>138</sup> Paragraph 5.c. of Auditing Standard No. 13.

<sup>139</sup> Paragraph 5.c. (1) of Auditing Standard No. 13.

<sup>142</sup> AU secs. 230.07–.09.

<sup>143</sup> Paragraph 7 of Auditing Standard No. 13.

experienced personnel or applying a greater extent of supervision to accounts or disclosures with higher risk.

## **D. Responses Involving the Nature, Timing, and Extent of Audit Procedures**

The reproposed standard required the auditor to design and perform audit procedures in a manner that addresses the assessed risks of material misstatement for each relevant assertion of each significant account and disclosure. Auditing Standard No. 13 retained this requirement as reproposed. The requirement emphasizes that the auditor should focus on each relevant assertion of each significant account and disclosure and the risks of material misstatement associated with the relevant assertion when designing and performing audit procedures.

The reproposed standard also included requirements for the auditor to design the testing of controls to accomplish the objectives of both the audit of financial statements and the audit of internal control in an integrated audit. This requirement is aligned with Auditing Standard No. 5. One commenter suggested that the requirement be removed because it relates only to integrated audits. The requirement was retained as reproposed because Auditing Standard No. 13 applies to integrated audits as well as audits of financial statements only, and tests of controls are a necessary response in the audit of internal control.<sup>144</sup>

## **E. Tests of Controls in an Audit of Internal Control**

Auditing Standard No. 13 includes requirements for performing tests of controls in the audit of financial statements.<sup>145</sup>

In an integrated audit, the tests of controls performed in the audit of internal control are part of the auditor's responses to the risks of material misstatement, as indicated in paragraph 9–10 of Auditing Standard No. 13.<sup>146</sup> To help facilitate the integration of tests of controls in an integrated audit, the standard continues to use language similar to that of Auditing Standard No. 5 when describing analogous terms and concepts relating to the testing of controls.

## **F. Tests of Controls and Control Risk Assessment in the Audit of Financial Statements**

### ***1. Requirements on When to Test Controls***

AU sec. 319 required auditors to obtain evidence about the design effectiveness and operating effectiveness of controls (a) when the auditor plans to rely on selected controls to reduce his or her substantive procedures and (b) in those limited circumstances in which the auditor cannot obtain sufficient appropriate evidence through substantive procedures alone.<sup>147</sup> Thus, except in those limited circumstances, AU sec. 319 provided auditors with flexibility to decide when or whether to test controls.

---

<sup>144</sup> Paragraph 9.c. of Auditing Standard No. 13.

<sup>145</sup> Paragraphs 16–35 of Auditing Standard No. 13.

<sup>146</sup> Paragraph 39 of Auditing Standard No. 5 states, "The auditor should test those controls that are important to the auditor's conclusion about whether the company's controls sufficiently address the assessed risk of misstatement to each relevant assertion."

<sup>147</sup> AU sec. 319.66.

Auditing Standard No. 13 does not change the requirements in AU sec. 319 regarding when testing controls is necessary in audits of financial statements only.<sup>148</sup> In those audits, auditors continue to have the same flexibility in deciding when or whether to test controls to reduce their substantive procedures.<sup>149</sup> Auditing Standard No. 13 includes additional statements that emphasize the flexibility that auditors have in making these decisions and provides additional examples, adapted from AU sec. 319.68, of situations in which auditors cannot obtain sufficient appropriate audit evidence through substantive procedures alone.<sup>150</sup>

## **2. Period of Reliance**

Auditing Standard No. 13 states that when the auditor relies on controls to assess control risk at less than the maximum, the auditor must obtain evidence that the controls selected for testing are designed effectively and operated effectively during the entire period of reliance.<sup>151</sup> The concept of the period of reliance was introduced in Auditing Standard No. 5 and discussed further in the PCAOB staff guidance, *Staff Views: An Audit of Internal Control Over Financial Reporting That Is Integrated with an Audit of Financial Statements—Guidance for Auditors of Smaller Public Companies*. Auditing Standard No. 13 provides a definition of "period of reliance" that parallels the language in paragraph B4 of Auditing Standard No. 5.<sup>152</sup>

## **3. Evidence about the Effectiveness of Controls**

Auditing Standard No. 13 describes the principle, adapted from AU sec. 319,<sup>153</sup> that the evidence necessary to support the auditor's control risk assessment depends on the degree of reliance the auditor plans to place on the effectiveness of a control. In applying that principle, Auditing Standard No. 13 requires the auditor to obtain more persuasive audit evidence from tests of controls the greater the reliance the auditor places on the effectiveness of a control. In addition, Auditing Standard No. 13 requires the auditor to obtain more persuasive evidence about the effectiveness of controls for each relevant assertion for which the audit approach consists primarily of tests of controls, including situations in which substantive procedures alone cannot provide sufficient appropriate audit evidence.<sup>154</sup>

## **4. Testing Operating Effectiveness**

Auditing Standard No. 13 requires the auditor to determine, among other things, whether the person performing the control possesses the necessary authority and competence to perform the control effectively.<sup>155</sup> This requirement is intended to call to the auditor's attention that whether he or she possesses the appropriate level of authority and the knowledge and skills necessary to perform the control function is essential to whether a person can effectively perform the control. Thus, the auditor is required to make such determination before he or she can conclude about the effectiveness of the control.

---

<sup>148</sup> Certain clarifying revisions were made to the discussion of relying on controls to modify the auditor's substantive procedures, in response to comments on the repropoed standard. See footnote 12 to paragraph 16 of Auditing Standard No. 13.

<sup>149</sup> Paragraph 16 of Auditing Standard No. 13.

<sup>150</sup> Paragraph 17 of Auditing Standard No. 13.

<sup>151</sup> Paragraph 16 of Auditing Standard No. 13.

<sup>152</sup> Paragraph A.3 of Auditing Standard No. 13.

<sup>153</sup> AU sec. 319.90.

<sup>154</sup> Paragraph 18 of Auditing Standard No. 13.

<sup>155</sup> Paragraph 21 of Auditing Standard No. 13.

### **5. Timing of Tests of Controls—Evidence Obtained during an Interim Period**

The reproposed standard stated that the auditor must obtain evidence about the effectiveness of controls selected for testing for the entire period of reliance. When the auditor tests controls during an interim period, additional evidence that is necessary concerning the operation of those controls for the remaining period of reliance depends on a series of factors listed in the reproposed standard, including, among other factors, the possibility of significant changes in internal control over financial reporting occurring subsequent to the interim date.

One commenter suggested adding "control environment" to the list of factors that could affect the auditor's determination of what additional evidence is necessary. The control environment has an important, but indirect, effect on the likelihood that a misstatement will be prevented or detected on a timely basis. Also, unlike monitoring controls, the control environment is not designed to identify possible breakdowns in other controls. Accordingly, the control environment, by itself, does not reduce the amount of evidence needed concerning controls over specific relevant assertions for the remaining period. The control environment is not included in the list of factors in Auditing Standard No. 13.

Another commenter suggested adding a requirement for the auditor to obtain, when applicable, audit evidence about subsequent changes to the controls tested during the interim period. A note has been added to Auditing Standard No. 13 requiring the auditor to obtain evidence about such subsequent changes, if significant.<sup>156</sup>

### **6. Timing of Tests of Controls—Evidence from Past Audits**

Auditing Standard No. 13 states that the auditor should obtain evidence during the current year audit about the design and operating effectiveness of controls upon which the auditor relies.<sup>157</sup> This requirement is based on the principle that auditors should support their control risk assessments each year with current evidence. However, when the auditor has tested the controls in the past and plans to rely on the same controls for the current year audit, the amount of evidence needed will vary based on the relevant factors listed in the standard.<sup>158</sup> These additional factors generally relate to the degree of reliance on the control, the risk that the control will fail to operate as designed, and the nature and amount of evidence that the auditor has already obtained regarding the effectiveness of the controls. These requirements are consistent with Auditing Standard No. 5. Also, the standard allows the auditor to use a benchmarking strategy, when appropriate, for automated application controls for subsequent years' audits, as do the provisions of Auditing Standard No. 5. However, the standard does not permit testing controls once every third year because the standard requires evidence regarding the effectiveness of controls to be obtained each year.

Some commenters expressed concern that the requirements in the reproposed standard for determining the amount of evidence needed in the current year could be interpreted as requiring the auditor to consider each factor listed for each of the controls that the auditor tested in the past, regardless of whether or not the auditor plans to rely on those controls for purposes of the current year audit. The requirement was intended to apply when the auditor tested the controls in the past audits and plans to rely on those controls and use evidence

---

<sup>156</sup> Paragraph 30 of Auditing Standard No. 13.

<sup>157</sup> Paragraph 31 of Auditing Standard No. 13.

<sup>158</sup> *Ibid.*

about the effectiveness of those controls obtained in prior years for purposes of the current year audit. That requirement is clarified in Auditing Standard No. 13.<sup>159</sup>

### **7. Assessing Control Risk**

Auditing Standard No. 13 requires the auditor to assess control risk for relevant assertions.<sup>160</sup> This requirement is not new. AU sec. 319 established requirements for the auditor to assess control risk, and Auditing Standard No. 5 discusses control risk assessment in the financial statement audit portion of the integrated audit.<sup>161</sup>

Auditing Standard No. 13 requires the auditor to assess the control risk at the maximum level for relevant assertions when the controls necessary to sufficiently address the assessed risk of material misstatement in those assertions are missing or ineffective or when the auditor has not obtained sufficient appropriate evidence to support a control risk assessment below the maximum level.<sup>162</sup>

One commenter expressed a concern that the repropoed standard seemed to indicate that no reduction of the control risk assessment should occur based on understanding the design effectiveness of controls. The commenter suggested that a control that does not exist or is not designed effectively should have a different impact on the auditor's testing than a control that is designed effectively but not tested by the auditor.

The risk assessment standards already address the points raised by the commenter regarding the effect of control deficiencies on the auditor's testing. Auditing Standard No. 12 requires the auditor to obtain an understanding of the design of the company's controls as part of his or her risk assessment procedures.<sup>163</sup> If the auditor identifies design deficiencies in the company's controls, the auditor would take that into account in identifying and assessing the risks of material misstatement, and Auditing Standard No. 13 requires the auditor to implement responses to address those risks of material misstatement. When deficiencies are detected during the auditor's testing of controls that the auditor plans to rely on, Auditing Standard No. 13 requires the auditor to (1) perform tests of other controls related to the same assertion as the ineffective controls, or (2) revise the control risk assessment and modify the planned substantive procedures as necessary in light of the increased assessment of risk.<sup>164</sup>

Another commenter suggested that the repropoed standard provide more direction about evaluating control deviations by adding a paragraph from Auditing Standard No. 5 regarding evaluating control deficiencies. The referenced paragraph does not apply specifically to assessing control risk in a financial statement audit, and Auditing Standard No. 13 requires the auditor to evaluate the evidence from all sources, including the results of test of controls, when assessing control risk for relevant assertions.<sup>165</sup>

---

<sup>159</sup> Ibid.

<sup>162</sup> Paragraph 33 of Auditing Standard No. 13.

<sup>163</sup> Paragraph 20 of Auditing Standard No. 12.

<sup>164</sup> Paragraph 34 of Auditing Standard No. 13.

<sup>165</sup> Paragraph 32 of Auditing Standard No. 13.

## G. Substantive Procedures

Auditing Standard No. 13 requires the auditor to perform substantive procedures for each relevant assertion of each significant account and disclosure, regardless of the assessed level of control risk.<sup>166</sup> By definition, a relevant assertion of a significant account and disclosure has a reasonable possibility of containing a misstatement or misstatements that would cause the financial statements to be materially misstated.<sup>167</sup> The requirement to obtain evidence from substantive procedures for each relevant assertion of each significant account and disclosure reflects the principle that the auditors need to implement appropriate responses to address the assessed risks of material misstatement.

Existing PCAOB standards indicate that some risks of material misstatement might require more evidence from substantive procedures because of certain inherent limitations of internal control.<sup>168</sup> For example, more evidence from substantive procedures ordinarily is needed for relevant assertions that have a higher susceptibility to management override or to lapses in judgment or breakdowns resulting from human failures. Observations from the Board's oversight activities have underscored the importance of this principle. Auditing Standard No. 13 includes this principle because it is particularly relevant to the determination of the nature, timing, and extent of substantive procedures. It is also consistent with the principles regarding detection risk discussed in Auditing Standard No. 8

## H. Timing of Substantive Procedures

The repropoed standard included a requirement for the auditor to take into account certain factors in determining whether it is appropriate to perform substantive procedures at an interim date. One commenter suggested that another point be added to the standard to require the auditor to review "the internal control changes that have been made to date and the nature and extent of monitoring such changes by the client staff." Auditing Standard No. 13 requires the auditor to consider the effect of known or expected changes in the company, its environment, and its internal control over financial reporting during the remaining period on its risk assessments when determining whether to perform substantive procedures at an interim date.<sup>169</sup> This additional requirement recognizes that both changes in controls and other changes to the company and its environment can affect the risks of material misstatement and, thus, the effectiveness of interim substantive procedures. For example, significant changes in industry or market conditions near year end could increase the risk of material misstatement regarding the valuation of assets at year end, which, in turn, would require significant audit attention during the remaining period.

The repropoed standard stated that when an auditor performs substantive procedures as of an interim date, the auditor should perform substantive procedures, or substantive procedures combined with tests of controls, that provide a reasonable basis for extending the audit conclusions from the interim date to the period end. The repropoed standard also required that the auditor perform certain procedures that were adapted from AU sec. 313.

Some commenters suggested that the Board remove the mandatory procedures in the repropoed standard, arguing that the procedures should be determined

---

<sup>166</sup> Paragraph 36 of Auditing Standard No. 13.

<sup>167</sup> Paragraph A9 of Auditing Standard No. 5.

<sup>168</sup> See, e.g., paragraph .14 of AU sec. 328, *Auditing Fair Value Measurements and Disclosures*.

<sup>169</sup> Paragraph 44.a.(3) of Auditing Standard No. 13.

by the auditor based on professional judgment. Removing those requirements as suggested by the commenters would weaken PCAOB standards. Observations from the Board's oversight activities have included instances in which inadequate audit work was performed when extending the conclusion reached at the interim date to the end of the period covered by the financial statements. Therefore, retaining the mandatory procedures in this standard continues to be appropriate.<sup>170</sup>

## I. Substantive Procedures Responsive to Significant Risks

Like the original proposed standard, the repropoed standard stated that the auditor should perform substantive procedures, including tests of details, that are specifically responsive to the significant risks. AU sec. 329 indicates that tests of details should be performed in response to significant risks.<sup>171</sup>

One commenter continued to express concern about imposing a presumptively mandatory responsibility for auditors to perform tests of details in response to significant risks. Auditing Standard No. 13 retains the requirement as repropoed.<sup>172</sup> The nature and importance of significant risks warrant a high level of assurance from substantive procedures to adequately address the risk. Also, analytical procedures alone are not well suited to detecting certain types of misstatements related to significant risks, including, in particular, fraud risks. For example, when fraud risks are present, management might be able to override controls to allow adjustments that result in artificial changes to the financial statement relationships being analyzed, causing the auditor to draw erroneous conclusions.

## J. Dual-purpose Test

Auditing Standard No. 13 recognized that, in certain situations, the auditor might perform a substantive test of a transaction concurrently with a test of a control relevant to that transaction, i.e., a dual-purpose test. The auditor is required to design the dual-purpose test to achieve the objectives of both the test of the control and the substantive test. In addition, the auditor is required to evaluate the results of the test in forming conclusions about both the assertion and the effectiveness of the control being tested.<sup>173</sup> The standard refers the auditors to the relevant requirements in AU sec. 350, *Audit Sampling*, for determining the proper sample size in a dual-purpose test.

---

<sup>170</sup> Paragraph 45 of Auditing Standard No. 13.

<sup>171</sup> AU sec. 329.09.

<sup>172</sup> Paragraph 11 of Auditing Standard No. 13.

<sup>173</sup> Paragraph 47 of Auditing Standard No. 13.

## VIII. Auditing Standard No. 14—Evaluating Audit Results

### A. Background

Auditing Standard No. 14 describes the auditor's responsibilities regarding the process of evaluating the results of the audit and determining whether sufficient appropriate audit evidence has been obtained in order to form the opinion to be expressed in the auditor's report. This standard consolidates into one auditing standard the requirements that were previously included in five separate auditing standards.<sup>174</sup> The standard highlights matters that are important to the auditor's conclusions about the financial statements and the effectiveness of internal control.

### B. Definition of Misstatement

The proposed standard defined the term "misstatement" as follows:

A misstatement, if material individually or in combination with other misstatements, causes the financial statements not to be presented fairly in conformity with the applicable financial reporting framework.<sup>175</sup> A misstatement may relate to a difference between the amount, classification, presentation, or disclosure of a reported financial statement item and the amount, classification, presentation, or disclosure that should be reported in conformity with the applicable financial reporting framework. Misstatements can arise from error (i.e., unintentional misstatement) or fraud.

Some commenters indicated that the definition applied to "material misstatement" rather than "misstatement" and suggested revisions to the definition, e.g., moving the second sentence to the beginning of the definition.

Auditing Standard No. 14 carries forward the definition of "misstatement" as proposed.<sup>176</sup> This definition is not a definition of the term "material misstatement." Rather, the definition emphasizes that misstatements prevent financial statements from being fairly presented in conformity with the applicable financial reporting framework, as discussed in AU sec. 411, *The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles*. The phrase used in the definition, "if material individually or in combination with other misstatements," is equivalent to the phrase "In the absence of materiality considerations," which was used in the description of the term "misstatement" in an auditing interpretation of AU sec. 312.<sup>177</sup> The second sentence of the definition in Auditing Standard No. 14 describes the most common types of misstatements.<sup>178</sup>

---

<sup>174</sup> AU sec. 312, regarding evaluating audit results, including uncorrected misstatements; AU sec. 316, regarding fraud considerations that are relevant to evaluating audit results; AU sec. 329, regarding performing the overall review; AU sec. 326, regarding determining whether sufficient appropriate audit evidence has been obtained; and AU sec. 431, regarding the evaluation of disclosures.

<sup>175</sup> The auditor should look to the requirements of the Securities and Exchange Commission for the company under audit with respect to accounting principles applicable to that company.

<sup>176</sup> Paragraph A2 of Appendix A to Auditing Standard No. 14.

<sup>177</sup> Paragraph .02 of AU sec. 9312, *Audit Risk and Materiality in Conducting an Audit: Auditing Interpretations of Section 312*, which is superseded by the risk assessment standards, stated "In the absence of materiality considerations, a misstatement causes the financial statements not to be in conformity with generally accepted accounting principles."

<sup>178</sup> See also paragraph A2 of Auditing Standard No. 14.

### C. Performing Analytical Procedures in the Overall Review

Auditing Standard No. 14 adapted the requirements that were previously included in AU secs. 316 and 329 to read the financial statements and disclosures and perform analytical procedures in the overall review. The standard imposes on auditors a responsibility to read the financial statements and disclosures and perform analytical procedures to (a) evaluate the auditor's conclusions formed regarding significant accounts and disclosures and (b) assist in forming an opinion on whether the financial statements as a whole are free of material misstatement.<sup>179</sup> In particular, Auditing Standard No. 14 requires the auditor to evaluate whether (a) evidence gathered in response to unusual or unexpected transactions, events, amounts, or relationships previously identified during the audit is sufficient and (b) unusual or unexpected transactions, events, amounts, or relationships indicate risks of material misstatement that were not identified previously.<sup>180</sup> Performing analytical procedures in the overall review assists the auditor in assessing the conclusions reached and in evaluating the overall financial statement presentation.

Auditing Standard No. 14 adapted a requirement, which previously existed in AU sec. 316, for the auditor to perform analytical procedures relating to revenue through the end of the period.<sup>181</sup> These procedures are intended to identify unusual or unexpected relationships involving revenue accounts that might indicate a material misstatement, including a material misstatement due to fraud. Performing analytical procedures relating to revenue is important in light of the generally higher risk of financial statement fraud involving revenue accounts.

Auditing Standard No. 14 requires the auditor to corroborate management's explanations regarding significant unusual or unexpected transactions, events, amounts, or relationships. The standard also states that if management's responses to the auditor's inquiries appear to be implausible, inconsistent with other audit evidence, imprecise, or not at a sufficient level of detail to be useful, the auditor should perform procedures to address the matter.<sup>182</sup> Auditing Standard No. 15, *Audit Evidence*, states that inquiry of company personnel, by itself, does not provide sufficient audit evidence to reduce audit risk to an appropriately low level.<sup>183</sup> Therefore, obtaining corroboration of management's responses is important in obtaining sufficient appropriate audit evidence.

### D. Clearly Trivial

Auditing Standard No. 14 requires the auditor to accumulate misstatements identified during the audit, other than those that are clearly trivial.<sup>184</sup> Like AU sec. 312, the standard allows the auditor to set a threshold for accumulating misstatements, provided that the threshold is set at a de minimis level that could not result in material misstatement of the financial statements, individually or in combination with other misstatements, after considering the possibility of further undetected misstatement.<sup>185</sup> The specific limitation on setting a threshold for accumulating misstatements is important to assure a

<sup>181</sup> Paragraph 7 of Auditing Standard No. 14.

<sup>182</sup> Paragraph 8 of Auditing Standard No. 14.

<sup>183</sup> Paragraph 17 of Auditing Standard No. 15.

<sup>184</sup> Paragraph 10 of Auditing Standard No. 14.

<sup>185</sup> Paragraph 11 of Auditing Standard No. 14.

proper evaluation of the effect of uncorrected misstatements on the financial statements.

## E. Accumulating Misstatements

The reproposed standard required the auditor to accumulate identified misstatements other than those that are clearly trivial. The reproposed standard also required the auditor to use his or her best estimate of the total misstatement in the accounts and disclosures that the auditor has tested, not just the amount of misstatements specifically identified. This includes misstatements related to accounting estimates and projected misstatements from substantive procedures that involve audit sampling.<sup>186</sup>

Commenters suggested that the standard should use terms such as "known and likely misstatement" or other terms to categorize the misstatements. Auditing Standard No. 14 uses the term "identified misstatement" to refer to misstatements that are identified during the audit and the term "accumulated misstatements" to refer to misstatements that are more than clearly trivial and, thus, should be accumulated by the auditor. Because Auditing Standard No. 14 requires the auditor to use his or her best estimate of the misstatements (which is how AU sec. 312 described "likely misstatements"), it is not necessary to use the term "known and likely misstatements."

## F. Correction of Misstatements

Auditing Standard No. 14 requires that if management made corrections to accounts or disclosures in response to misstatements detected by the auditor, the auditor should evaluate management's work to determine whether the corrections have been recorded properly and to determine whether uncorrected misstatements remain.<sup>187</sup> The standard imposes on auditors a responsibility to determine whether misstatements identified by the auditor and communicated to management are correctly recorded in the accounting records.

## G. Considerations When Accumulated Misstatements Approach the Materiality Level or Levels Used in Planning and Performing Audit Procedures

Auditing Standard No. 14 requires the auditor to determine whether the overall strategy needs to be revised when the aggregate of misstatements accumulated during the audit approaches the materiality level or levels used in planning and performing the audit. When the aggregate of misstatements approaches the materiality level or levels used in planning and performing an audit, there likely will be greater than an appropriately low level of risk that possible undetected misstatements, combined with uncorrected misstatements accumulated during the audit, could be material to the financial statements. If the auditor assesses this risk to be unacceptably high, he or she should perform additional audit procedures or determine that management has adjusted the financial statements so that the risk that the financial statements are materially misstated has been reduced to an appropriately low level.<sup>188</sup>

---

<sup>186</sup> Paragraphs 10–12 of Auditing Standard No. 14.

<sup>187</sup> Paragraph 16 of Auditing Standard No. 14.

<sup>188</sup> Paragraph 14 of Auditing Standard No. 14.

The repropoed standard stated that when the aggregate of accumulated misstatements approaches the materiality used in planning and performing the audit, the auditor should perform additional procedures or determine that management has adjusted the financial statements so that the risk of material misstatement has been reduced to an appropriately low level. One commenter suggested that it is not clear what the additional procedures are and that more work is not always the answer. The additional procedures that are necessary depend upon, among other things, the procedures performed by the auditor to date and the nature of the misstatements that were detected.

## H. Requirement to Reevaluate the Materiality Level

Auditing Standard No. 11 includes a requirement to reevaluate the established materiality level or levels in certain circumstances. Auditing Standard No. 14 states that if the reevaluation of the materiality level or levels established in accordance with Auditing Standard No. 11 results in a lower amount for the materiality level or levels, the auditor should take into account that lower materiality level in the evaluation of uncorrected misstatements.<sup>189</sup> The requirements are intended to prevent the auditor from incorrectly concluding that uncorrected misstatements are immaterial because he or she used outdated financial statement information. However, the standard does not allow the auditor to establish a higher level or levels of materiality when uncorrected misstatements exceed the initially established level or levels of materiality.

Reevaluating the established materiality level or levels prior to evaluating the effect of uncorrected misstatements will cause audit results to be evaluated based on the latest financial information.

## I. Evaluating Uncorrected Misstatements

The repropoed standard stated that the auditor should evaluate the uncorrected misstatements in relation to accounts and disclosures and to the financial statements as a whole, taking into account relevant quantitative and qualitative factors. The repropoed standard retained the provisions regarding qualitative factors that were included in an auditing interpretation to AU sec. 312,<sup>190</sup> with some minor revisions to align the factors more closely to the terminology in the repropoed standard and to omit qualitative factors that apply only to non-issuers. A commenter indicated that the term "profitability," which is included in the qualitative factors in Appendix B, is not defined, and the commenter suggested including examples of profitability in the repropoed standard. Although this term is not explicitly defined in Auditing Standard No. 14, it should be familiar to auditors because the related auditing interpretation was issued in 2000. Auditing Standard No. 14 carries forward the requirements and the related list of qualitative factors that are substantially the same as those in the auditing interpretation.<sup>191</sup>

Auditing Standard No. 14 requires an evaluation of the effects of both uncorrected misstatements detected in prior years and misstatements detected in the current year that relate to prior years.<sup>192</sup> The standard does not address

---

<sup>189</sup> Paragraph 17 of Auditing Standard No. 14.

<sup>190</sup> AU secs. 9312.15–17.

<sup>191</sup> AU sec. 9312 and paragraph 17 and Appendix B of Auditing Standard No. 14.

<sup>192</sup> Paragraph 18 of Auditing Standard No. 14.

how to evaluate the effects of prior period misstatements because that is an accounting and financial reporting matter. For example, the SEC staff has provided guidance in SEC Staff Accounting Bulletin ("SAB") Topic 1.N, *Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements*, on the effects of prior year misstatements when quantifying misstatements in the current year financial statements. This SAB provides the SEC staff's views regarding evaluating the quantitative and qualitative factors regarding the materiality of uncorrected misstatements and evaluating the effects of prior year misstatements.

Auditing Standard No. 14 states that the auditor cannot assume that an instance of error or fraud is an isolated occurrence and that the auditor should evaluate the nature and effects of the individual misstatements accumulated during the audit on the assessed risks of material misstatement.<sup>193</sup> This procedure is important to inform the auditor's conclusions about whether the auditor's risk assessments remain appropriate and whether he or she has obtained sufficient appropriate evidence to support his or her opinion.

The repropoed standard included a requirement to evaluate the nature and effects of the individual misstatements accumulated during the audit on the assessed risks of material misstatement. A commenter suggested that this evaluation should be performed at the time the misstatement is identified. In the Board's view, it is not necessary to prescribe the timing for the evaluation of the nature and effects of misstatements on the risk assessments. However, performing this evaluation during the course of the audit could allow the auditor to make the necessary modifications to his or her planned audit procedures on a more timely basis.

The repropoed standard required the auditor to evaluate whether identified misstatements might be indicative of fraud and, in turn, how they affect the auditor's evaluation of materiality and the related audit responses. This requirement is adapted from AU sec. 316.<sup>194</sup> One commenter suggested that when there is an indicator of fraud, the requirement should make clear that clearly trivial misstatements may need to be evaluated to determine if they should be included in the accumulated misstatements. Like AU sec. 316, the requirement in the repropoed standard was phrased in terms of identified misstatements rather than accumulated misstatements because fraud of relatively small amounts can be material to the financial statements.

Auditing Standard No. 14 retains the requirement as repropoed.<sup>195</sup> If an auditor detects a misstatement, he or she should evaluate whether the misstatement is indicative of fraud when deciding whether a misstatement is clearly trivial and thus does not warrant being included with accumulated misstatements. Additionally, in situations in which the auditor believes that a misstatement is or might be intentional and the effect on the financial statements could be material or cannot be readily determined, Auditing Standard No. 14 requires that the auditor perform procedures to obtain additional audit evidence to determine whether the fraud has occurred or is likely to have occurred. If the fraud has occurred or is likely to have occurred, the auditor is required to determine its effect on the financial statements and the auditor's report thereon.

---

<sup>193</sup> Paragraph 19 of Auditing Standard No. 14.

<sup>194</sup> AU sec. 316.75.

<sup>195</sup> Paragraph 20 of Auditing Standard No. 14.

## J. Communication of Accumulated Misstatements to Management

The repropose standard required the auditor to communicate accumulated misstatements to management on a timely basis to provide management with an opportunity to correct them. The repropose standard also required the auditor to obtain an understanding of the reasons that management decided not to correct misstatements communicated by the auditor.

Some commenters suggested that the standard should specifically require the auditor to request management to correct the misstatements.

Auditing Standard No. 14 retains the requirement as repropose.<sup>196</sup> It is not necessary to specifically require the auditor to request that management correct the misstatements because management has its own legal responsibilities in relation to the preparation and maintenance of the company's books, records, and financial statements. Section 13(i) of the Securities and Exchange Act of 1934, 15 U.S.C. §78m(i), requires the financial statements filed with the SEC to reflect all material correcting adjustments identified by the auditor.

## K. Communication of Illegal Acts

Auditing Standard No. 14 requires the auditor to determine his or her responsibility under AU secs. 316.79–.82A, AU sec. 317, and Section 10A of the Securities and Exchange Act of 1934, 15 U.S.C. §78j-1, if the auditor becomes aware of information indicating that fraud or another illegal act has occurred or might have occurred.<sup>197</sup>

## L. Evaluating the Qualitative Aspects of the Company's Accounting Practices

Auditing Standard No. 14 requires the auditor to evaluate the qualitative aspects of the company's accounting practices, including potential bias in management's judgments regarding the amounts and disclosures in the financial statements.<sup>198</sup>

Auditing Standard No. 14 also states that if the auditor identifies bias in management's judgments about the amounts and disclosures in the financial statements, the auditor should evaluate whether the effect of that bias, together with the effect of uncorrected misstatements, results in material misstatement of the financial statements. Also, the standard states that the auditor should evaluate whether the auditor's risk assessments, including, in particular, the assessment of fraud risks, and the related audit responses remain appropriate.<sup>199</sup>

The repropose standard included an example of management bias, which was based on observations from the Board's oversight activities. This example indicated that when management identifies adjusting entries that offset misstatements identified by the auditor, the auditor should perform procedures to determine why the underlying misstatement was not identified previously. The auditor also should evaluate the implications on the integrity of management, and the auditor's risk assessments, including fraud risk assessments, and

---

<sup>196</sup> Paragraphs 15 and 25 of Auditing Standard No. 14.

<sup>197</sup> Paragraph 23 of Auditing Standard No. 14.

<sup>198</sup> Paragraph 24 of Auditing Standard No. 14.

<sup>199</sup> Paragraph 26 of Auditing Standard No. 14.

perform additional procedures as necessary to address the risk of further undetected misstatements. A commenter suggested using the phrase "identified misstatements other than those that are ... clearly trivial" instead of "identified misstatements." The requirement has been revised to refer to misstatements accumulated by the auditor as required by paragraph 10 of Auditing Standard No. 14.<sup>200</sup>

## M. Assessment of Fraud Risks

The reproposed standard required the auditor to evaluate whether the accumulated results of auditing procedures and other observations affect the auditor's assessment of fraud risks made throughout the audit and whether the audit procedures need to be modified to respond to those risks.<sup>201</sup> The reproposed standard included a reference to Appendix C, which listed matters that might affect the assessment of fraud risks. Appendix C stated that if the matters listed in the appendix are identified during the audit, the auditor should determine whether the assessment of fraud risks remains appropriate or needs to be revised. This requirement was included because the evaluation provides additional insight regarding the fraud risks and the potential need to perform additional procedures to support the opinion to be expressed in the auditor's report.

Some commenters indicated that the requirement in Appendix C seems to indicate that the auditor is required to determine if each item identified during the audit individually affects the assessment of fraud risks, which appears to be inconsistent with paragraph 28. Those commenters suggested revisions to the first sentence of Appendix C. After considering these comments, the first sentence of Appendix C has been revised to state that if the matters listed in the appendix are identified during the audit, the auditor should take into account these matters in the evaluation of the assessment of fraud risks, as discussed in paragraph 28.<sup>202</sup>

One commenter suggested including in Appendix C specific procedures that the auditor could perform to evaluate fraud risk, such as evaluating journal entries with round numbers or amounts slightly below a specified threshold. This type of procedure could be appropriate for selecting journal entries for testing, but it is different in nature from the matters listed in Appendix C.

Auditing Standard No. 14 includes a requirement for the engagement partner to determine whether there has been appropriate communication with the other engagement team members throughout the audit regarding information or conditions that are indicative of fraud risks.<sup>203</sup> This requirement is adapted from the existing PCAOB standards.<sup>204</sup>

## N. Evaluating Financial Statement Disclosures

The reproposed standard included a requirement, adapted from AU sec. 431, for the auditor to evaluate whether the financial statements contain the required disclosures and, if the required disclosures are not included in the financial statements, to express a qualified or adverse opinion in accordance with AU

---

<sup>200</sup> Paragraph 25 of Auditing Standard No. 14.

<sup>201</sup> Paragraph 28 of Auditing Standard No. 14.

<sup>202</sup> Paragraph C1 of Appendix C to Auditing Standard No. 14.

<sup>203</sup> Paragraph 29 of Auditing Standard No. 14.

<sup>204</sup> AU sec. 316.18.

sec. 508, *Reports on Audited Financial Statements*. The reproposed standard also stated that evaluation of disclosures includes consideration of the form, arrangement, and content of the financial statements (including the accompanying notes), encompassing matters such as the terminology used, the amount of detail given, the classification of items in the statements, and the bases of amounts set forth. These requirements were included in the reproposed standard because of the importance of disclosures to the fair presentation of financial statements.

Some commenters stated that the requirements regarding evaluation of disclosures should be qualified based on materiality considerations. Auditing Standard No. 14 states that the auditor should evaluate whether the financial statements contain the information essential for a fair presentation of the financial statements in conformity with the applicable financial reporting framework, which is aligned with an analogous requirement in AU sec. 508.41.<sup>205</sup> AU sec. 411 discusses the concept of materiality regarding the auditor's opinion that financial statements are presented fairly.<sup>206</sup>

Another commenter questioned whether the statement that "Evaluation of disclosures includes consideration of the form, arrangement, and content of the financial statements (including the accompanying notes), encompassing matters such as the terminology used, the amount of detail given, the classification of items in the statements, and the bases of amounts set forth" is a requirement. The statement in the reproposed standard, which is retained in Auditing Standard No. 14, explains that the scope of the auditor's required evaluation of the information disclosed in the financial statements includes matters such as the form, arrangement, and content of the financial statements.<sup>207</sup>

## O. Evaluating the Sufficiency and Appropriateness of Audit Evidence

The reproposed standard required the auditor to conclude on whether sufficient appropriate audit evidence has been obtained to support his or her opinion on the financial statements. The reproposed standard also presented a list of factors that are relevant to the auditor's conclusion on whether sufficient appropriate audit evidence has been obtained. Consideration of the listed factors is essential to reaching an informed conclusion about whether sufficient appropriate audit evidence has been obtained. Accordingly, both the requirement and the list of factors contained in the reproposed standard have been retained.<sup>208</sup>

A commenter suggested that corrected adjustments also should be considered in concluding whether sufficient appropriate audit evidence has been obtained. Auditing Standard No. 14 already requires the auditor to evaluate the results of audit procedures in evaluating whether sufficient appropriate evidence has been obtained, and this would include misstatements identified by the auditor, regardless of whether they were corrected by management.<sup>209</sup>

The reproposed standard expanded the requirements regarding situations in which the auditor has not obtained sufficient appropriate audit evidence to include situations in which the auditor has substantial doubt about a relevant

---

<sup>205</sup> Paragraph 31 of Auditing Standard No. 14.

<sup>206</sup> AU sec. 411.04.

<sup>207</sup> Paragraph 31 of Auditing Standard No. 14.

<sup>208</sup> Paragraphs 33–34 of Auditing Standard No. 14.

<sup>209</sup> Paragraph 34 of Auditing Standard No. 14.

assertion. This additional provision was adapted from AU sec. 326. A commenter suggested that the requirement be revised to state that the auditor should attempt to obtain additional evidence if the auditor has not obtained sufficient appropriate evidence about a relevant assertion. The requirement has been retained as stated in the repropoed standard because it covers situations in which the evidence is inadequate and situations in which the auditor has concerns about whether an assertion is misstated.<sup>210</sup>

## **P. Evaluating the Results of the Audit of Internal Control**

The repropoed standard included a section relating to evaluating audit results in the audit of internal control, which references Auditing Standard No. 5 for the requirements on evaluating the results of the audit of internal control.<sup>211</sup> A commenter suggested removing this paragraph from the repropoed standard. Auditing Standard No. 14 retains this paragraph, although it does not impose additional requirements. Including this paragraph emphasizes that, in integrated audits, the evaluation of audit results is an integrated process that affects both audits.

---

<sup>210</sup> Paragraph 35 of Auditing Standard No. 14.

<sup>211</sup> Paragraph 37 of Auditing Standard No. 14.

## IX. Auditing Standard No. 15—Audit Evidence

### A. Background

Auditing Standard No. 15 explains what constitutes audit evidence, establishes requirements regarding designing and performing audit procedures to obtain sufficient appropriate audit evidence to support the opinion in the auditor's report, and discusses methods for selecting items for testing.

### B. Nature of Audit Evidence

The repropoed standard stated that audit evidence is all the information, whether obtained from audit procedures or other sources, that is used by the auditor in arriving at the conclusions on which the auditor's opinion is based. Audit evidence consists of both information that supports and corroborates management's assertions regarding the financial statements or internal control over financial reporting and any information that contradicts such assertions.

One commenter indicated that the meaning of the phrase "and any information that contradicts such assertions" was unclear. The commenter suggested that the Board clarify whether the requirement meant the auditor should look for such contradictory information, or if the requirement should apply only when such information comes to the auditor's attention.

PCAOB standards require the auditor to plan and perform the audit to obtain sufficient appropriate evidence to support an opinion about whether the financial statements are free of material misstatement and, in the audit of internal control, whether material weaknesses exist.<sup>212</sup> Thus, the auditor is required to perform the audit procedures necessary to test the accounts and controls, regardless of whether the results of those procedures support or contradict the assertions. The requirement in Auditing Standard No. 15 means that when contradictory evidence is obtained, the auditor should evaluate it when forming a conclusion on the financial statements and, in integrated audits, on internal control over financial reporting. To clarify the requirement, Auditing Standard No. 15 omits the word "any."<sup>213</sup>

### C. Objective

The objective in the repropoed standard acknowledged the auditor's responsibility to plan and perform the audit to obtain sufficient appropriate audit evidence to support the opinion expressed in the auditor's report. Commenters suggested revising the wording in paragraph 4 of the repropoed standard to be consistent with the objective in paragraph 3 of the repropoed standard. The requirement in paragraph 4 of Auditing Standard No. 15 has been revised to be consistent with the objective of the standard.

### D. Sufficient Appropriate Audit Evidence

The repropoed standard explained the meaning of the words "sufficient" and "appropriate" as used in the phrase "sufficient appropriate audit evidence." Commenters suggested that the Board provide formal definitions for terms like

---

<sup>212</sup> Paragraph 3 of Auditing Standard No. 8 and paragraph 3 of Auditing Standard No. 5, respectively.

<sup>213</sup> Paragraph 2 of Auditing Standard No. 15.

"sufficiency" and "appropriate" so the terms can be easily located within the standards. Adding definitions is unnecessary because Auditing Standard No. 15 already describes the terms "sufficiency" and "appropriateness" and explains the relevant characteristics of each.<sup>214</sup>

Commenters stated that the term "persuasive" was used in the repropoed standard, *The Auditor's Responses to the Risks of Material Misstatement*, and recommended that the Board clarify in the repropoed audit evidence standard the manner in which the persuasiveness of evidence affects the evaluation of audit evidence. The concept of "persuasiveness of evidence" is discussed in Auditing Standard No. 13.<sup>215</sup>

## E. Relevance and Reliability

The repropoed standard contained a discussion about the relevance and reliability of audit evidence. The repropoed standard stated that the audit evidence must be both relevant and reliable to support the auditor's conclusions about the subject of the audit procedure. The repropoed standard stated that "[e]vidence provided by original documents is more reliable than evidence provided by photocopies or facsimiles, or documents that have been filmed, digitized, or otherwise converted into electronic form, the reliability of which depends on the controls over the conversion and maintenance of those documents."

One commenter suggested that the standard be revised to indicate that electronic information, subject to proper controls, is in many ways more reliable than physical documentation. The language from the repropoed standard was retained in Auditing Standard No. 15.<sup>216</sup> Although evidence sometimes is available only in electronic form and the reliability of electronic evidence depends on the controls over that information, an authentic original document generally is more reliable than an electronic form of that document.

The repropoed standard stated that the relevance of audit evidence refers to its relationship to the assertion or to the objective of the control being tested. The relevance of audit evidence depends on (a) the design of the audit procedure used to test the assertion or control, and (b) the timing of the audit procedure used to test the assertion or control. One commenter recommended the description of the term "relevance" should be expanded to include the following statements:

Relevance deals with the logical connection with, or bearing upon, the purpose of the audit procedure and, when appropriate, the assertion under consideration. The relevance of information to be used as audit evidence may be affected by the direction of testing.

Auditing Standard No. 15 retains the description included in the repropoed standard because it is clearer than the suggested revision.<sup>217</sup>

The repropoed standard indicated that "[t]he auditor is not expected to be an expert in document authentication. However, if conditions indicate that a document may not be authentic or that the terms in a document have been modified but that the modifications have not been disclosed to the auditor, the auditor should modify the planned audit procedures or perform additional audit procedures to respond to those conditions and should evaluate the effect, if any, on the other aspects of the audit."

---

<sup>214</sup> Paragraphs 5–6 of Auditing Standard No. 15.

<sup>215</sup> Paragraph 39 of Auditing Standard No. 13.

<sup>216</sup> Paragraph 8 of Auditing Standard No. 15.

<sup>217</sup> Paragraph 7 of Auditing Standard No. 15.

One commenter suggested that the requirement for the auditor to modify the planned audit procedures or perform additional audit procedures in response to concerns about the authenticity of documents should be linked to professional skepticism. The commenter also stated that many modifications are routine. The requirement was not meant to require the auditor to perform unlimited procedures but, rather, to perform the procedures necessary to address the issue in the circumstances. Auditing Standard No. 15 retains this requirement as repropoed.<sup>218</sup> Although professional skepticism is important in these situations, it is not the only factor that determines the procedures necessary to address the matter.

## F. Financial Statement Assertions

In representing that the financial statements are presented fairly in conformity with the applicable financial reporting framework, management implicitly or explicitly makes assertions regarding the recognition, measurement, presentation, and disclosure of the various elements of financial statements and related disclosures. Financial statement assertions are an important consideration for audits performed in accordance with PCAOB standards. For example, AU sec. 319 required auditors to perform substantive procedures for relevant assertions in audits of financial statements. Auditing Standard No. 5 requires auditors to obtain evidence about the design and operating effectiveness of controls over relevant assertions in audits of internal control.

The repropoed standard retained the five categories of financial statement assertions in AU sec. 326 and Auditing Standard No. 5. Two commenters suggested that the Board use different descriptions for financial statement assertions. One commenter suggested using other standard-setters' descriptions of financial statement assertions. The other commenter suggested using a different description of assertions. Auditing Standard No. 15 retains the categories of assertions as repropoed.<sup>219</sup> Like Auditing Standard No. 5,<sup>220</sup> Auditing Standard No. 15 allows auditors the flexibility to use categories of assertions that differ from the assertions listed in the standard under specified conditions.<sup>221</sup>

## G. Inquiry

The repropoed standard stated that inquiry of company personnel, by itself, does not provide sufficient audit evidence to reduce audit risk to an appropriately low level for a relevant assertion or to support a conclusion about the effectiveness of a control. One commenter suggested that the note to paragraph 17 of the repropoed standard be revised to include "design and operating effectiveness of a control" and that the auditor should perform audit procedures in addition to the use of inquiry to obtain sufficient appropriate audit evidence. Auditing Standard No. 15 retains the language from the repropoed standard. The phrase "effectiveness of a control" encompasses both design and operating effectiveness. It is not considered necessary to add that the auditor should perform additional procedures, since Auditing Standard No. 15 states that inquiry, by itself, does not provide sufficient audit evidence.<sup>222</sup>

---

<sup>218</sup> Paragraph 9 of Auditing Standard No. 15.

<sup>219</sup> Paragraph 11 of Auditing Standard No. 15.

<sup>220</sup> See the note to paragraph 28 of Auditing Standard No. 5.

<sup>221</sup> Paragraph 12 of Auditing Standard No. 15.

<sup>222</sup> Paragraph 17 of Auditing Standard No. 15.

## H. Confirmation

The reproposed standard stated that a confirmation represents audit evidence obtained by the auditor as a direct response to the auditor from a third party. Some commenters suggested that the reproposed standard clarify that a confirmation be written. Auditing Standard No. 15 has been revised to state that a confirmation response represents a particular form of audit evidence obtained by the auditor from a third party in accordance with PCAOB standards.<sup>223</sup> The Board has a separate standards-setting project on confirmations that, among other things, will address the use of written confirmation or other alternative forms of confirmation.<sup>224</sup>

## I. Analytical Procedures

The reproposed standard described analytical procedures as an audit procedure for obtaining evidence. One commenter suggested adding "scanning" as part of analytical procedures. Scanning is a means for selecting items for testing, not a separate audit procedure. The description of analytical procedures in Auditing Standard No. 15 is retained as reproposed.<sup>225</sup>

## J. Selecting Items for Testing to Obtain Audit Evidence

Auditing Standard No. 15 contains a section on selecting items for testing that is adapted from an auditing interpretation of AU sec. 350.<sup>226</sup> The standard also states that the auditor should determine the means of selecting items for testing to obtain evidence that, in combination with other relevant evidence, is sufficient to meet the objective of the audit procedure.<sup>227</sup>

The reproposed standard defined audit sampling as the application of an audit procedure to less than 100 percent of the occurrences of a control or items comprising an account for the purpose of evaluating some characteristic of the control or account. One commenter stated that the definition in the standard should be conformed to AU sec. 350. Auditing Standard No. 15 reflects revisions that align the standard with AU sec. 350.

## K. Other Changes

As noted in the reproposing release, certain topics that were included in AU sec. 326 were not carried forward to the reproposed standard and Auditing Standard No. 15. AU sec. 326 discussed the use of audit objectives, and an appendix to that standard illustrated how auditors might use assertions to develop audit objectives and substantive tests of inventory. Such a discussion is not necessary because the auditing standards do not require auditors to establish audit objectives to link assertions to substantive procedures. However, omission of this discussion would not preclude auditors from using audit objectives in designing their audit procedures.

<sup>225</sup> Paragraph 21 of Auditing Standard No. 15.

<sup>226</sup> AU sec. 9350, *Audit Sampling: Auditing Interpretations of AU sec. 350*.

<sup>227</sup> Paragraph 22 of Auditing Standard No. 15.

## X. Amendments to PCAOB Standards

### A. Amendments to Auditing Standard No. 3

In the release accompanying the original proposed standards, the Board sought comment on the need for specific documentation requirements regarding the risk assessment procedures. Responses from commenters were mixed. Some commenters supported adding specific documentation requirements, other commenters stated that the requirements in Auditing Standard No. 3, *Audit Documentation*, were adequate, and one commenter was ambivalent.

After consideration of these comments and additional analysis, the amendments accompanying the repropoed standards included certain amendments to Auditing Standard No. 3 to (a) specify certain required documentation regarding the auditor's risk assessments and related responses, (b) align certain terms and provisions of Auditing Standard No. 3 with the risk assessment standards, and (c) incorporate the principles for documentation of disagreements among engagement team members. For example, the amendments indicated that the auditor's documentation should include the following:

1. A summary of the identified risks of misstatement and the auditor's assessment of risks of material misstatement at the financial statement and assertion levels; and
2. The auditor's responses to the risks of material misstatement, including linkage of the responses to those risks.

Also, the requirements regarding documentation of significant findings or issues and related matters were expanded to require documentation regarding the significant risks identified and the results of the auditing procedures performed in response to those risks.

A commenter indicated that the additional documentation requirement will result in "unnecessary linkage" and "a matrix-like mentality" to the audit documentation. The documentation requirements are intended to enhance the auditor's ability to link identified and assessed risks to appropriate responses and could help reviewers understand the areas of greatest risk and the auditor's responses to those risks. In addition to these documentation requirements, the auditor would continue to be responsible for preparing documentation as required by other provisions of Auditing Standard No. 3, e.g., to demonstrate that the engagement complied with the standards of the PCAOB.<sup>228</sup>

Some commenters suggested placing the documentation requirements in the respective risk assessment standards rather than amending Auditing Standard No. 3. The risk assessment standards are foundational standards; therefore, the required documentation related to the risk assessment standards is included in Auditing Standard No. 3.<sup>229</sup> Future decisions about the placement of new documentation requirements will be made during the course of the respective standards-setting projects.

### B. Amendments to Auditing Standard No. 4

The amendment to Auditing Standard No. 4, *Reporting on Whether a Previously Reported Material Weakness Continues to Exist*, is limited to changing

---

<sup>228</sup> Paragraph 5.a. of Auditing Standard No. 3.

<sup>229</sup> Paragraphs 9, 12, and 19 of Auditing Standard No. 3, as amended.

the word "competent" to "appropriate" when that word is used in reference to audit evidence.

## C. Amendments to Auditing Standard No. 5

The amendments to Auditing Standard No. 5 that accompanied the repropoed standards were limited to changing the phrase "any assistants" to "the members of the engagement team," changing the word "competent" to "appropriate" when that word is used in reference to audit evidence, and updating references to auditing standards that are being superseded or amended. These amendments are retained as repropoed.

One commenter suggested a series of additional amendments to Auditing Standard No. 5, which primarily involved removing certain paragraphs from Auditing Standard No. 5 that relate to risk assessment procedures or other requirements that are included in the risk assessment standards. The Board is not removing the requirements regarding risk assessment procedures from Auditing Standard No. 5 because those requirements are important to understanding the other provisions of Auditing Standard No. 5 for performing an audit of internal control.

## D. Amendments to Auditing Standard No. 6

The amendments to Auditing Standard No. 6, *Evaluating Consistency of Financial Statements*, are limited to removing a footnote stating that the term "error" as used in Statement of Financial Accounting Standards No. 154, *Accounting Changes and Error Corrections* ("SFAS No. 154"), is equivalent to "misstatement" as used in the auditing standards and updating a reference to a standard that is being superseded. This technical change is made because the footnote regarding misstatements in Auditing Standard No. 6 refers to SFAS No. 154, whereas the definition of "misstatement" in Auditing Standard No. 14 on evaluating audit results is neutral regarding the financial reporting framework. However, this technical change does not alter the fact that an error under accounting standards generally accepted in the United States is a misstatement under Auditing Standard No. 14.

## E. Amendments to Auditing Standard No. 7

The amendments to Auditing Standard No. 7, *Engagement Quality Review*, update footnote 3 and the note to paragraph 10 to replace a reference to an interim standard that is superseded and to update the definitions of the terms "engagement partner" and "significant risk" to conform to the definitions in the risk assessment standards.

## F. Amendments to Interim Auditing Standards

### 1. Superseded Sections

The risk assessment standards supersede the following sections of PCAOB interim auditing standards:

- AU sec. 311, *Planning and Supervision*
- AU sec. 312, *Audit Risk and Materiality in Conducting an Audit*
- AU sec. 313, *Substantive Tests Prior to the Balance Sheet Date*

- AU sec. 319, *Consideration of Internal Control in a Financial Statement Audit*
- AU sec. 326, *Evidential Matter*
- AU sec. 431, *Adequacy of Disclosure in Financial Statements*

Similarly, the auditing interpretations of AU secs. 311, 312, and 350 have been incorporated into the risk assessment standards and thus are superseded. The auditing interpretations of AU sec. 326, except for Interpretation No. 2 (AU secs. 9326.06–.23), also are superseded.<sup>230</sup>

## **2. AU sec. 316, Consideration of Fraud in a Financial Statement Audit**

The relevant requirements regarding identifying and assessing fraud risks, principally AU secs. 316.14–.45; responding to fraud risks, principally AU secs. 316.46–.50; and evaluating audit results, principally AU secs. 316.68–.78, have been incorporated into Auditing Standard Nos. 12, 13, and 14, respectively. The remaining portions of AU sec. 316 describe important principles regarding the auditor's responsibility with respect to fraud and more detailed requirements regarding the auditor's responses to fraud risks. Topics covered in the remaining portions of AU sec. 316, as amended, include the following:

- A description of fraud and its characteristics,
- The importance of exercising professional skepticism,
- Examples of fraud risk factors,
- Examples of audit procedures performed to respond to fraud risks involving fraudulent financial reporting and misappropriation of assets, and
- Requirements regarding procedures to further address the risk of material misstatement due to fraud involving management override of controls, including examining journal entries and other adjustments for evidence of possible material misstatement due to fraud; reviewing accounting estimates for biases that could result in material misstatement due to fraud; and evaluating the business rationale for significant unusual transactions.

## **3. AU sec. 329, Analytical Procedures**

The discussion in AU sec. 329 regarding analytical procedures performed during audit planning, principally AU secs. 329.03 and 329.06–.08, is incorporated into Auditing Standard No. 12. Similarly, the requirements regarding analytical procedures in the overall review, principally AU secs. 329.23–.24, are incorporated into Auditing Standard No. 14. The remaining portion of AU sec. 329 relates to analytical procedures performed as substantive procedures. Therefore, AU sec. 329 is retitled, *Substantive Analytical Procedures*, which more accurately reflects the content of the amended standard.

A standard that focuses solely on substantive analytical procedures highlights more clearly the requirements that apply to analytical procedures performed for that purpose, including, the higher degree of precision in substantive analytical procedures needed to provide the necessary level of assurance. The Board has observed instances in which auditors performed substantive procedures to

---

<sup>230</sup> Interpretation No. 2 relates in part to AU sec. 336 and AU sec. 337, *Inquiry of a Client's Lawyer Concerning Litigation, Claims, and Assessments*, and it will be evaluated in connection with standards-setting projects related to those standards.

test accounts without meeting the requirements in AU sec. 329 for substantive analytical procedures.<sup>231</sup>

#### **4. AU sec. 336, Using the Work of a Specialist**

The text of footnote 1 to paragraph .01 and of paragraph .05 were amended to clarify that AU sec. 336 does not apply to situations in which persons who participate in the audit have specialized skills or knowledge in accounting or auditing (e.g., IT specialists and income tax specialists) and to specialists employed by the firm. Auditing Standard No. 10 applies to those situations. Those clarifications were previously included in the repropoed standard on audit planning and supervision.

#### **5. AU sec. 350, Audit Sampling**

The discussion in AU sec. 350 regarding audit risk and tolerable misstatement has been amended to align more closely with the terminology used in the risk assessment standards.

The repropoed standards included amendments to AU secs. 350.23 and 350.38, which explained more specifically the principles in the standard for determining sample sizes when nonstatistical sampling approaches are used. Some commenters expressed concern that the repropoed amendments would have required auditors who use nonstatistical sampling methods to compute sample sizes under both statistical and nonstatistical methods to demonstrate that the sample size under the nonstatistical method equaled or exceeded the sample size determined using a statistical method.

Commenters suggested that the standard should state that it is not necessary to compute sample sizes using statistical methods. Including such a sentence in the standard might be misunderstood by auditors and weaken the requirement of the amended standard. The repropoed amendments do not require auditors to compute sample sizes using statistical methods in all instances to demonstrate compliance with the requirements. For example, the use of a nonstatistical sampling methodology that is adapted appropriately from a statistical sampling method also could demonstrate compliance. However, calculating a sample size that is not based on the relevant factors in AU sec. 350 is not in compliance with the standard. Accordingly, the amendments are retained as repropoed.

#### **6. AU sec. 543, Part of Audit Performed by Other Independent Auditors, and interpretations**

A note was added to paragraph .01 to clarify that Auditing Standard No. 10 applies to situations not covered by AU sec. 543 in which the auditor engages other accounting firms or other accountants to participate in the audit. Paragraph .12 was amended to align AU sec. 543 with related amendments to Auditing Standard No. 3. Footnote 4 to paragraph .16 of AU sec. 9543, *Part of Audit Performed by Other Independent Auditors: Auditing Interpretations of Section 543*, is deleted because it refers to an interim standard that is being superseded.

#### **7. Other Amendments to the Interim Auditing Standards**

For the following interim auditing standards, the amendments are limited to conforming terminology to the risk assessment standards and updating references to auditing standards that are being superseded or amended:

---

<sup>231</sup> See, e.g., PCAOB Release 2007-010, *Report on the PCAOB's 2004, 2005, and 2006 Inspections of Domestic Triennially Inspected Firms* (October 22, 2007).

- AU sec. 110, *Responsibilities and Functions of the Independent Auditor*
- AU sec. 150, *Generally Accepted Auditing Standards*
- AU sec. 210, *Training and Proficiency of the Independent Auditor*
- AU sec. 230, *Due Professional Care in the Performance of Work*
- AU sec. 310, *Appointment of the Independent Auditor*
- AU sec. 315, *Communications Between Predecessor and Successor Auditors*
- AU sec. 317, *Illegal Acts by Clients*
- AU sec. 322, *The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements.*
- AU sec. 324, *Service Organizations*
- AU sec. 328, *Auditing Fair Value Measurements and Disclosures*
- AU sec. 330, *The Confirmation Process*
- AU sec. 332, *Auditing Derivative Instruments, Hedging Activities, and Investments in Securities*
- AU sec. 333, *Management Representations*
- AU sec. 334, *Related Parties*, and AU sec. 9334, *Related Parties: Auditing Interpretations of Section 334*
- AU sec. 9336, *Using the Work of a Specialist: Auditing Interpretations of Section 336*
- AU sec. 341, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*
- AU sec. 342, *Auditing Accounting Estimates*, and AU sec. 9342, *Auditing Accounting Estimates: Auditing Interpretations of Section 342*
- AU sec. 380, *Communication With Audit Committees*
- AU sec. 411, *The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles*
- AU sec. 508, *Reports on Audited Financial Statements*, and AU sec. 9508, *Reports on Audited Financial Statements: Auditing Interpretations of Section 508*
- AU sec. 530, *Dating of the Independent Auditor's Report*
- AU sec. 722, *Interim Financial Information*

## **G. Amendments to Interim Ethics Standards**

In the interim ethics standards, ET sec. 102, *Integrity and Objectivity*, the amendments are limited to updating references to auditing standards that are being superseded or amended.

## **XI. Other Topics Not Related to the Reproposed Standards**

The comment letters on the reproposed standards included certain comments that relate to standards-setting matters other than the reproposed standards. The following paragraphs discuss those comments.

### **A. Comparison with the Standards of the International Auditing and Assurance Standards Board and the Auditing Standards Board of the American Institute of Certified Public Accountants**

In developing its original proposed standards, the Board took into account, among other things, the risk assessment standards of the International Auditing and Assurance Standards Board ("IAASB") and the Auditing Standards Board of the American Institute of Certified Public Accountants ("ASB"). The release accompanying the reproposed standards included a comparison of the objectives and requirements of the reproposed standards to the analogous standards of the IAASB and ASB.

Some commenters requested additional details about differences between the reproposed standards and the IAASB or ASB standards or clarifications regarding specific requirements in the reproposed standards for which the language was not identical to IAASB or ASB standards.

In analyzing comments on the appendix to the reproposed standards that compared the reproposed standards to the analogous standards of the IAASB and ASB, the Board observed that a number of the explanations sought by commenters, e.g., the reasons for the differences in certain requirements were discussed elsewhere in the release accompanying the reproposed standards, e.g., in Appendix 9 to that release, which is analogous to this appendix (Appendix 10) to this release.

This appendix provides the principal discussion of the rationale for the objectives and requirements in the Board's standards. Appendix 11 of this release discusses certain differences between the objectives and requirements of the PCAOB standards and the analogous standards of the IAASB and ASB. When a difference between the Board's standards and the analogous standards of the IAASB and ASB is noted, Appendix 11 contains a reference to the discussion of the Board's requirements in this appendix (Appendix 10).

### **B. Standards-setting Process**

Some commenters suggested changes to the Board's standards-setting process. These comments primarily relate to the extent to which the Board uses the standards of the IAASB and ASB in its standards-setting and the use of external task forces in drafting standards.

In previous releases on its proposed risk assessment standards, the Board has stated that it has sought to eliminate unnecessary differences with the risk assessment standards and those of other standards-setters. However, because the Board's standards must be consistent with the Board's statutory mandate,<sup>232</sup> differences will continue to exist between the Board's standards and the standards of the IAASB and ASB e.g., when the Board decides to retain an existing

---

<sup>232</sup> E.g., Section 101 of the Sarbanes-Oxley Act of 2002 (the "Act"), 15 U.S.C. §7211.

requirement in PCAOB standards that is not included in IAASB or ASB standards. Also, certain differences are often necessary for the Board's standards to be consistent with relevant provisions of the federal securities laws or other existing standards or rules of the Board. Also, the Board's standards-setting activities are informed by and developed to some degree, in response to observations from its oversight activities.

The Board has a number of means available to seek additional comments from external parties regarding its standards-setting activities, including meetings with its Standing Advisory Group ("SAG"), issuing concept releases or repropounding standards or rules, and conducting public roundtables. Although these are not the only means available to the Board, they have been used because they offer the Board the ability to obtain comments from a diverse group of interested parties through a public process.

The Board continually endeavors to improve its processes, including its standards-setting process, and considers comments from the public as it does so. For example, the Board has undertaken certain steps to enhance the transparency of its standards-setting process, including maintaining on its Web site its standards-setting agenda and discussing the status of projects in public meetings with the SAG. This release has also been expanded to provide additional discussion of and explanation for the Board's conclusions regarding the risk assessment standards. Some commenters acknowledged the Board's efforts to increase the transparency of its process.

### **C. Other Standards-setting Projects**

Commenters on the repropounded standards also recommended a number of additional standards-setting or standards-related projects for the Board. Examples of such projects included creating a codification of the Board's standards; creating a glossary of terms used in the Board's standards, issuing a concept release for the review of the Board's interim standards, developing a standard describing the overall objectives of the audit, similar to ISA 200, *Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance with International Standards on Auditing*, and developing guidance related to how the Board would evaluate the reasonableness of judgments based on PCAOB auditing standards.

The Board continually assesses its standards-setting and related projects based upon the need for improvements in standards or additional guidance in response to current developments, observations from the Board's oversight activities, comments received from the public, and other factors. As mentioned previously, the Board's standards-setting agenda is maintained on the Board's website. The Board is considering these comments as it assesses its agenda.

## Appendix 11 – Comparison of the Objectives and Requirements of the Accompanying PCAOB Auditing Standards with the Analogous Standards of the IAASB and the Auditing Standards Board of the AICPA

This appendix discusses certain differences between the objectives and requirements of the PCAOB auditing standards accompanying this release and the analogous standards of the International Auditing and Assurance Standards Board ("IAASB") and the analogous clarified or proposed standards of the Auditing Standards Board ("ASB") of the American Institute of Certified Public Accountants ("AICPA"). This analysis does not cover the application and explanatory material in the IAASB standards or the ASB standards.<sup>1</sup>

This appendix is provided for informational purposes only. It is not a substitute for the PCAOB auditing standards themselves, which are presented in Appendices 1–8 of this release and discussed further in Appendix 10.

Appendix 10 to this release provides the principal discussion of the rationale for the objectives and requirements in the Board's standards. Thus, this appendix includes cross-references to the relevant explanation of the PCAOB requirements.

This analysis may not represent the views of the IAASB or ASB regarding their standards.

### Auditing Standard No. 8—Audit Risk

Analogous discussions of the components of audit risk are included in the IAASB's International Standard on Auditing ("ISA") 200, *Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance with International Standards on Auditing* and the ASB's clarified Statement on Auditing Standards ("SAS"), *Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance with Generally Accepted Auditing Standards*, respectively.

#### 1. Audit Risk and Reasonable Assurance

##### PCAOB

Auditing Standard No. 8 states that to form an appropriate basis for expressing an opinion on the financial statements, the auditor must plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement due to error or fraud. Reasonable assurance

---

<sup>1</sup> Paragraph A59 of ISA 200 states that the Application and Other Explanatory Material section of the ISAs "does not in itself impose a requirement," but "is relevant to the proper application of the requirements of an ISA." Paragraph A63 of the SAS, *Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance with International Standards on Auditing*, states that although application and other explanatory material "does not in itself impose a requirement, it is relevant to the proper application of the requirements of an AU section."

is obtained by reducing audit risk to an appropriately low level through applying due professional care, including obtaining sufficient appropriate audit evidence.<sup>2</sup>

Auditing Standard No. 8 uses the phrase "appropriately low level" because the term "appropriately" is aligned more closely with the concept of reasonable assurance whereas "acceptable level" might be misunderstood as allowing auditors to vary the audit efforts based upon their personal tolerance for risk. Appendix 10 provides additional discussion regarding the use of the phrase "appropriately low level."<sup>3</sup>

Auditing Standard No. 8 also clarifies that obtaining sufficient appropriate audit evidence is part of applying due professional care. Appendix 10 provides additional discussion regarding due professional care and sufficient appropriate audit evidence.<sup>4</sup>

### **IAASB and ASB**

The ISA states:

To obtain reasonable assurance, the auditor shall obtain sufficient appropriate audit evidence to reduce audit risk to an acceptably low level and thereby enable the auditor to draw reasonable conclusions on which to base the auditor's opinion.

The SAS includes a requirement similar to the ISA's requirement.

## **2. Detection Risk and Substantive Procedures**

### **PCAOB**

Auditing Standard No. 8 states that as the appropriate level of detection risk decreases, the evidence from substantive procedures that the auditor should obtain increases. This requirement was adapted from AU sec. 319, *Consideration of Internal Control in a Financial Statement Audit*,<sup>5</sup> and it parallels a requirement in Auditing Standard No. 13, *The Auditor's Responses to the Risks of Material Misstatement*.<sup>6</sup> Appendix 10 provides additional discussion regarding detection risk.<sup>7</sup>

### **IAASB and ASB**

The ISA and the SAS do not include an analogous requirement.

## **Auditing Standard No. 9—Audit Planning**

In this section, the analogous IAASB and ASB standards are, unless indicated otherwise, ISA 300, *Planning an Audit of Financial Statements*, and the clarified SAS, *Planning an Audit*, respectively.

---

<sup>2</sup> AU sec. 110, *Responsibilities and Functions of the Independent Auditor*, and AU sec. 230, *Due Professional Care in the Performance of Work*, provide further discussion of reasonable assurance.

<sup>3</sup> Section II.B. of Appendix 10.

<sup>4</sup> Section II.C. of Appendix 10.

<sup>5</sup> AU sec. 319 is superseded by the risk assessment standards.

<sup>6</sup> Paragraph 37 of Auditing Standard No. 13.

<sup>7</sup> Section II.E. of Appendix 10.

## 1. Planning an Audit

### **PCAOB**

Auditing Standard No. 9 contains a requirement to properly plan the audit. This requirement is consistent with the first standard of fieldwork in AU sec. 150, *Generally Accepted Auditing Standards*.

### **IAASB and ASB**

The ISA and the SAS do not include an analogous requirement, although planning the audit is referenced in the objectives of the standards.

## 2. Audit Strategy and Audit Plan

### **PCAOB**

Auditing Standard No. 9 requires the auditor to establish an overall audit strategy that sets the scope, timing, and direction of the audit and guides the development of the audit plan. When developing the audit strategy and audit plan, the standard requires the auditor to evaluate whether certain matters specified in the standard are important to the company's financial statements and internal control over financial reporting and, if so, how they will affect the auditor's procedures. As discussed in Appendix 10, these matters are adapted from Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*, and are important for both the audit of financial statements and an audit of internal control over financial reporting ("audit of internal control").<sup>8</sup>

In establishing the overall audit strategy, Auditing Standard No. 9 also requires the auditor to take into account certain matters, such as the reporting objectives and the factors that are significant in directing the activities of the engagement team, results of preliminary engagement activities and the auditor's evaluation of the important matters in accordance with paragraph 7, and the nature, timing, and extent of resources necessary to perform the engagement. Appendix 10 discusses this requirement with more detail.<sup>9</sup>

Auditing Standard No. 9 requires the auditor to develop and document an audit plan that includes a description of the planned nature, timing, and extent of risk assessment procedures; tests of controls, substantive procedures, and other audit procedures. The audit plan required by Auditing Standard No. 9 encompasses all of the audit procedures to be performed, i.e., it is not limited to procedures at the assertion level. Appendix 10 provides additional discussion regarding developing the audit strategy and audit plan.<sup>10</sup>

### **IAASB and ASB**

The ISA and the SAS require the auditor to establish an overall audit strategy that sets the scope, timing, and direction of the audit and guides the development of the audit plan. Those standards do not have a requirement analogous to the Auditing Standard No. 9 requirement to evaluate specific matters in developing the audit strategy and audit plan.

---

<sup>8</sup> Section III.E. of Appendix 10.

<sup>9</sup> Section III.F. of Appendix 10.

<sup>10</sup> Ibid.

The ISA states:

In establishing the overall audit strategy, the auditor shall:

- (a) Identify the characteristics of the engagement that define its scope;
- (b) Ascertain the reporting objectives of the engagement to plan the timing of the audit and the nature of the communications required;
- (c) Consider the factors that, in the auditor's professional judgment, are significant in directing the engagement team's efforts;
- (d) Consider the results of preliminary engagement activities and, where applicable, whether knowledge gained on other engagements performed by the engagement partner for the entity is relevant; and
- (e) Ascertain the nature, timing and extent of resources necessary to perform the engagement.

The SAS includes a requirement similar to the ISA's requirement.

Both the ISA and the SAS require the auditor to develop an audit plan that shall include a description of the nature, timing, and extent of planned further auditor procedures at the assertion level.

### 3. Multi-location Engagements

#### **PCAOB**

Auditing Standard No. 9 states that the auditor should determine the extent to which auditing procedures should be performed at selected locations or business units to obtain sufficient appropriate evidence to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. This includes determining the locations or business units at which to perform audit procedures, as well as the nature, timing, and extent of the audit procedures to be performed at those individual locations or business units. The auditor should assess the risks of material misstatement to the consolidated financial statements associated with the location or business unit and correlate the amount of audit attention devoted to the location or business unit with the degree of risk of material misstatement associated with that location or business unit. Auditing Standard No. 9 also provides a list of factors that are relevant to the assessment of the risks of material misstatement associated with a particular location or business unit and the determination of the necessary audit procedures.

The provisions in Auditing Standard No. 9 are applicable to all multi-location audits. Appendix 10 discusses the basis for the requirements and explains how the requirements should be applied in audits in which part of the work is performed by other auditors of financial statements of individual locations or business units that are included in the consolidated financial statements.<sup>11</sup>

#### **IAASB and ASB**

ISA 600, *Special Considerations—Audits of Group Financial Statements (Including the Work of Component Auditors)*, and the proposed SAS, *Audits of*

---

<sup>11</sup> Section III.G. of Appendix 10.

*Group Financial Statements (Including the Work of Component Auditors)*, apply to group audits. Under ISA 600, group audits are defined as the audit of group financial statements, which are financial statements that include the financial information of more than one component, and the component auditor is an auditor who, at the request of the group engagement team, performs work on financial information related to a component for the group audit.

ISA 600 and the proposed SAS describe the scope of audit procedures to be performed at individual components, depending upon, among other things, whether the components are significant components as described in the respective standards.

## Auditing Standard No. 10—Supervision of the Audit Engagement

In this section, unless indicated otherwise, the analogous IAASB standards are ISA 300, *Planning an Audit of Financial Statements*, and ISA 220, *Quality Control for an Audit of Financial Statements*, (collectively referred to in this section as "the ISAs"); and the analogous ASB standards are the clarified SAS, *Planning an Audit*, and the proposed SAS, *Quality Control for an Audit of Financial Statements*, (collectively referred to in this section as "the SASs").

### 1. Supervision

#### **PCAOB**

Auditing Standard No. 10 states that the engagement partner is responsible for supervising other engagement team members and may seek assistance from appropriate engagement team members. Auditing Standard No. 10 also requires the engagement partner, and engagement team members who assist the engagement partner in supervision, to properly supervise the members of the engagement team, describes the necessary elements of proper supervision, and describes the factors that affect the necessary extent of supervision. These requirements are adapted from AU sec. 311, *Planning and Supervision*.<sup>12</sup> Appendix 10 provides additional discussion regarding these requirements.<sup>13</sup>

The requirements in the ISAs and the SASs do not describe the elements of supervision or factors that affect supervision.

#### **IAASB and ASB**

The ISAs and the SASs require the auditor to plan the nature, timing, and extent of direction and supervision of engagement team members and review their work. The ISAs and SASs require the engagement partner to "take responsibility for the direction, supervision and performance of the audit engagement in compliance with professional standards and applicable legal and regulatory requirements and for the auditor's report being appropriate in the circumstances."

---

<sup>12</sup> AU sec. 311 is superseded by Auditing Standard No. 9 and Auditing Standard No. 10.

<sup>13</sup> Section IV.D. of Appendix 10.

## 2. Supervision of Engagement Team Members

### **PCAOB**

Auditing Standard No. 10 requires the engagement partner and other engagement team members performing supervisory activities to: (a) inform engagement team members of their responsibilities, including the objectives of the procedures that they are to perform; the nature, timing and extent of procedures they are to perform; and matters that could affect the procedures to be performed or the evaluation of the results of those procedures, (b) direct engagement team members to bring significant accounting and auditing issues arising during the audit to the attention of the engagement partner or other engagement team members performing supervising activities, and (c) review the work of engagement team members to evaluate whether the work was performed, the objectives of the procedures were achieved, and the results of the work support the conclusions. Appendix 10 provides additional discussion regarding this requirement.<sup>14</sup>

### **IAASB**

The ISAs state:

The engagement partner shall take responsibility for:

- (a) The direction, supervision and performance of the audit engagement in compliance with professional standards and applicable legal and regulatory and legal requirements; and
- (b) The auditor's report being appropriate in the circumstances.

The engagement partner shall take responsibility for reviews being performed in accordance with the firm's review policies and procedures.

On or before the date of the auditor's report, the engagement partner shall, through a review of the audit documentation and discussion with the engagement team, be satisfied that sufficient appropriate audit evidence has been obtained to support the conclusions reached and for the auditor's report to be issued.

The auditor shall plan the nature, timing and extent of direction and supervision of engagement team members and the review of their work.

### **ASB**

The SAS includes requirements similar to the ISAs' requirements.

## 3. Extent of Supervision

### **PCAOB**

To determine the extent of supervision necessary for engagement team members to perform their work as directed and form appropriate conclusions, Auditing Standard No. 10 requires the engagement partner and other engagement team members performing supervisory activities to take into account the nature of company, the nature of the assigned work for each team member, the

---

<sup>14</sup> Section IV.E. of Appendix 10.

risks of material misstatement, and the knowledge, skill, and ability of each engagement team member. Appendix 10 provides additional discussion regarding this requirement.<sup>15</sup>

### **IAASB and ASB**

The ISAs and SASs do not have an analogous requirement for the auditor to determine the extent of supervision necessary for engagement team members.

## **Auditing Standard No. 11 – Consideration of Materiality in Planning and Performing an Audit**

In this section, the analogous IAASB and ASB standards are ISA 320, *Materiality in Planning and Performing an Audit*, and the clarified SAS, *Materiality in Planning and Performing an Audit*, and the proposed SAS, *Audits of Group Financial Statements (Including the Work of Component Auditors)*, respectively.

### **1. Definition of Materiality**

#### **PCAOB**

Auditing Standard No. 11 requires the auditor to establish a materiality level for the financial statements as a whole that is appropriate in light of the particular circumstances, including consideration of the company's earnings and other relevant factors. The requirement in Auditing Standard No. 11 is based on the concept of materiality that is articulated by the courts in interpreting the federal securities laws. Appendix 10 discusses the concept of materiality used in Auditing Standard No. 11.<sup>16</sup>

#### **IAASB and ASB**

The ISA states, "When establishing the overall audit strategy, the auditor shall determine materiality for the financial statements as a whole."

The SAS has a requirement similar to the ISA's requirement.

### **2. Materiality in the Context of an Audit**

#### **PCAOB**

Auditing Standard No. 11 requires the auditor to plan and perform audit procedures to detect misstatements that, individually or in combination with other misstatements, would result in material misstatement of the financial statements in order to obtain reasonable assurance about whether the financial statements are free of material misstatement. Appendix 10 discusses the concept of materiality in the context of an audit.<sup>17</sup>

---

<sup>15</sup> Ibid.

<sup>16</sup> Section V.B. of Appendix 10.

<sup>17</sup> Ibid.

**IAASB**

ISA 200 states:

In conducting an audit of financial statements, the overall objectives of the auditor are:

- a. To obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, thereby enabling the auditor to express an opinion on whether the financial statements are prepared, in all material respects, in accordance with an applicable financial reporting framework; and
- b. To report on the financial statements, and communicate as required by the ISAs, in accordance with the auditor's findings.

**ASB**

The SAS includes an objective similar to the ISA's objective.

### 3. Tolerable Misstatement and Performance Materiality

**PCAOB**

Auditing Standard No. 11 requires the auditor to determine tolerable misstatement for purposes of assessing risks of material misstatement and planning and performing audit procedures at the account or disclosure level. Auditing Standard No. 11 uses the term "tolerable misstatement," which is also used in other PCAOB standards.<sup>18</sup> Appendix 10 discusses the use of the term "tolerable misstatement" in more detail.<sup>19</sup>

**IAASB and ASB**

The ISA and SAS require the auditor to determine "performance materiality" for purposes of assessing the risks of material misstatement and determining the nature, timing, and extent of further audit procedures.

### 4. Determining Tolerable Misstatement

**PCAOB**

Auditing Standard No. 11 contains a requirement to take into account the nature, cause (if known), and amount of misstatements that were accumulated in audits of the financial statements of prior periods when determining tolerable misstatement and planning and performing audit procedures. This requirement is adapted from AU sec. 312, *Audit Risk and Materiality in Conducting an Audit*. Appendix 10 provides further discussion regarding this requirement.<sup>20</sup>

**IAASB and ASB**

The ISA and SAS do not have an analogous requirement.

---

<sup>18</sup> Paragraph .18 of AU sec. 350, *Audit Sampling*.

<sup>19</sup> Section V.E. of Appendix 10.

<sup>20</sup> *Ibid.*

## 5. Multi-location Determination of Tolerable Misstatement

### PCAOB

In multi-location engagements, Auditing Standard No. 11 requires the auditor to determine tolerable misstatement for the individual locations or business units at an amount that reduces to an appropriately low level the probability that the total of uncorrected and undetected misstatements would result in material misstatement of the consolidated financial statements. The standard also requires the tolerable misstatement at an individual location to be less than the established materiality level for the financial statements as a whole. Appendix 10 provides further discussion regarding consideration of materiality for multi-location engagements.<sup>21</sup>

### IAASB

ISA 600 requires the group engagement team to determine, among other things, component materiality. The ISA states:

Component materiality for those components where component auditors will perform an audit or a review for purposes of the group audit. To reduce to an appropriately low level the probability that the aggregate of uncorrected and undetected misstatements in the group financial statements exceeds materiality for the group financial statements as a whole, component materiality shall be lower than materiality for the group financial statements as a whole.

### ASB

Proposed SAS, *Audits of Group Financial Statements (Including the Work of Component Auditors)*, requires the group engagement team to determine among other things, component materiality. The proposed SAS states:

Component materiality for those components on which an audit or other specified audit procedures will be performed. To reduce the risk that the aggregate of detected and undetected misstatements in the group financial statements exceeds the materiality for the group financial statements as a whole, component materiality should be lower than the materiality for the group financial statements as a whole.

## 6. Reevaluating Materiality and Tolerable Misstatement

### PCAOB

Auditing Standard No. 11 requires the auditor to reevaluate the established materiality level or levels and tolerable misstatement when there is a substantial likelihood that misstatements of amounts that differ significantly from the materiality level or levels that were established initially would influence the judgment of a reasonable investor. The requirement reflects the perspective of a reasonable investor, whereas the analogous requirements in the ISA and SAS reflect an auditor's perspective. Appendix 10 provides additional discussion regarding materiality from the perspective of a reasonable investor<sup>22</sup> and the reevaluation of materiality.<sup>23</sup>

---

<sup>21</sup> Section V.F. of Appendix 10.

<sup>22</sup> Section V.B. of Appendix 10.

<sup>23</sup> Section V.G. of Appendix 10.

## **IAASB and ASB**

The ISA and the SAS require the auditor to "revise materiality for the financial statements as a whole (and, if applicable, the materiality level or levels for particular classes of transactions, account balances, or disclosures) in the event of becoming aware of information during the audit that would have caused the auditor to have determined a different amount (or amounts) initially."

## **Auditing Standard No. 12—Identifying and Assessing Risks of Material Misstatement**

In this section, the analogous IAASB standards are ISA 315, *Identifying and Assessing the Risks of Material Misstatement Through Understanding the Entity and Its Environment*, and ISA 240, *The Auditor's Responsibilities Relating to Fraud In An Audit of Financial Statements* (collectively referred to in this section as "the ISAs"). The analogous ASB standards are the clarified SAS, *Understanding the Entity and its Environment and Assessing the Risks of Material Misstatements* (Redrafted) and proposed SAS, *Consideration of Fraud in a Financial Statement Audit* (Redrafted) (collectively referred to in this section as "the SASs").<sup>24</sup>

### **1. Objective**

#### **PCAOB**

The objective of Auditing Standard No. 12 is to identify and appropriately assess the risks of material misstatement, thereby providing a basis for designing and implementing responses to the risks of material misstatement. Auditing Standard No. 12 requires the auditor to perform other risk assessment procedures in addition to obtaining an understanding of the company and its environment. Appendix 10 provides additional discussion regarding the objective of the standard.<sup>25</sup>

#### **IAASB and ASB**

The ISAs state:

The objective of the auditor is to identify and assess the risks of material misstatement, whether due to fraud or error, at the financial statement and assertion levels, through understanding the entity and its environment, including the entity's internal control, thereby providing a basis for designing and implementing responses to the assessed risks of material misstatement.

The SASs include an objective similar to the ISAs' objective.

### **2. Performing Risk Assessment Procedures**

#### **PCAOB**

Auditing Standard No. 12 states that the auditor should perform risk assessment procedures that are sufficient to provide a reasonable basis for identifying and assessing the risks of material misstatement, whether due to error or

---

<sup>24</sup> In June 2010, the ASB adopted as a final standard the SAS, *Consideration of Fraud in a Financial Statement Audit* (Redrafted). However, the ASB has not yet published this standard.

<sup>25</sup> Section VI.B. of Appendix 10.

fraud, and designing further audit procedures. The requirement establishes a principle for determining the sufficiency of the necessary risk assessment procedures, and it also links the risk assessment procedures to the design of the tests of controls and substantive procedures to be performed to respond to the risks. Appendix 10 provides additional discussion regarding performing risk assessment procedures.<sup>26</sup>

### ***IAASB and ASB***

The ISAs state:

The auditor shall perform risk assessment procedures to provide a basis for the identification and assessment of risks of material misstatement at the financial statement and assertion levels.

The SASs include a requirement similar to the ISAs' requirement.

## **3. Obtaining an Understanding of the Company and Its Environment**

### ***PCAOB***

Auditing Standard No. 12 includes a requirement to evaluate, while obtaining an understanding of the company, whether significant changes in the company from prior periods, including changes in its internal control over financial reporting, affect the risks of material misstatement. Appendix 10 provides additional discussion regarding obtaining an understanding of the company and its environment.<sup>27</sup>

### ***IAASB and ASB***

The ISAs and SASs do not include an analogous requirement.

## **4. Additional Procedures to Understand the Company**

### ***PCAOB***

Auditing Standard No. 12 requires the auditor to consider performing certain procedures as part of obtaining an understanding of the company as required by paragraph 7 of the standard. These procedures include reading public information about the company, observing or reading transcripts of earnings calls, obtaining an understanding of compensation arrangements with senior management, and obtaining information about trading activity in the company's securities and holdings in the company's securities by significant holders. Appendix 10 provides additional discussion regarding this requirement.<sup>28</sup>

### ***IAASB and ASB***

The ISAs and SASs do not include an analogous requirement.

---

<sup>26</sup> Section VI.C. of Appendix 10.

<sup>27</sup> Section VI.D. of Appendix 10.

<sup>28</sup> Ibid.

## 5. Selection and Application of Accounting Principles, Including Related Disclosures

### **PCAOB**

Auditing Standard No. 12 requires the auditor to develop expectations about the disclosures that are necessary for the company's financial statements to be presented fairly in conformity with the applicable financial reporting framework to identify and assess the risks of material misstatement related to omitted, incomplete, or inaccurate disclosures.<sup>29</sup> The standard also requires engagement team members to discuss how fraud might be perpetrated or concealed by omitting or presenting incomplete or inaccurate disclosures.<sup>30</sup> Additionally Auditing Standard No. 12 requires the auditor's evaluation of fraud risk factors to include how fraud could be perpetrated or concealed by presenting incomplete or inaccurate disclosures or by omitting disclosures that are necessary for the financial statements to be presented fairly in conformity with the applicable financial reporting framework.<sup>31</sup> Appendix 10 provides additional discussion regarding these requirements.<sup>32</sup>

### **IAASB and ASB**

The ISAs and SASs do include analogous requirements regarding the disclosures that are necessary for the company's financial statements to be presented fairly in conformity with the applicable financial reporting framework.

## 6. Obtaining an Understanding of Internal Control Over Financial Reporting

### **PCAOB**

Auditing Standard No. 12 requires the auditor to obtain a sufficient understanding of each component of internal control over financial reporting to (a) identify the types of potential misstatements; (b) assess the factors that affect the risks of material misstatement; and (c) design further auditor procedures. This requirement relates to the sufficiency of the required understanding of internal control over financial reporting. Appendix 10 provides additional discussion of this requirement.<sup>33</sup>

### **IAASB and ASB**

The ISAs state:

The auditor shall obtain an understanding of internal control relevant to the audit. Although most controls relevant to the audit are likely to relate to financial reporting, not all controls that relate to financial reporting are relevant to the audit. It is a matter of the auditor's professional judgment whether a control, individually or in combination with others, is relevant to the audit.

The SASs include requirements similar to the ISAs' requirements.

---

<sup>29</sup> Paragraph 12 of Auditing Standard No. 12.

<sup>30</sup> Paragraph 52 of Auditing Standard No. 12.

<sup>31</sup> Paragraph 67 of Auditing Standard No. 12.

<sup>32</sup> Section VI.D, H, and J respectively of Appendix 10.

<sup>33</sup> Section VI.E. of Appendix 10.

## 7. Control Environment

### **PCAOB**

Auditing Standard No. 12 requires the auditor to assess the following matters as part of obtaining an understanding of the control environment:

- Whether management's philosophy and operating style promote effective internal control over financial reporting;
- Whether sound integrity and ethical values, particularly of top management, are developed and understood; and
- Whether the board or audit committee understands and exercises oversight responsibility over financial reporting and internal control.

This requirement is aligned with a similar requirement in Auditing Standard No. 5. Appendix 10 provides additional discussion regarding this requirement.<sup>34</sup>

Paragraph 25 of Auditing Standard No. 12 states that "[i]f the auditor identifies a control deficiency in the company's control environment, the auditor should evaluate the extent to which this control deficiency is indicative of a fraud risk factor." Appendix 10 provides additional discussion regarding the auditor's evaluation of an identified control deficiency in the control environment.<sup>35</sup>

### **IAASB and ASB**

The ISAs state:

The auditor shall obtain an understanding of the control environment. As part of obtaining this understanding, the auditor shall evaluate whether:

- (a) Management, with the oversight of those charged with governance, has created and maintained a culture of honesty and ethical behavior; and
- (b) The strengths in the control environment elements collectively provide an appropriate foundation for the other components of internal control, and whether those other components are not undermined by deficiencies in the control environment.

The SASs include requirements similar to the ISAs' requirements.

The ISAs and SASs do not have a requirement analogous to paragraph 25 of Auditing Standard No. 12.

## 8. The Company's Risk Assessment Process

### **PCAOB**

Auditing Standard No. 12 states that:

The auditor should obtain an understanding of management's process for:

- (a) Identifying risks relevant to financial reporting objectives, including risks of material misstatement due to fraud ("fraud risks"),

---

<sup>34</sup> Section VI.E.2. of Appendix 10.

<sup>35</sup> Ibid.

- (b) Assessing the likelihood and significance of misstatements resulting from those risks, and
- (c) Deciding about actions to address those risks.

The standard also states that obtaining an understanding of the company's risk assessment process includes obtaining an understanding of the risks of material misstatement identified and assessed by management and the actions taken to address those risks.

Those requirements focus on the matters that are important to the auditor's understanding of the company's internal control and on the auditor's risk assessments. Although the auditor can be informed by the company's risk assessment process, the auditor is still required to perform risk assessment procedures that are sufficient for identifying and assessing the risks of material misstatement rather than relying on the company's process.

Appendix 10 provides additional discussion regarding the company's risk assessment process.<sup>36</sup>

### **IAASB and ASB**

The ISAs state:

The auditor shall obtain an understanding of whether the entity has a process for (a) Identifying business risks relevant to financial reporting objectives; (b) Estimating the significance of the risks; (c) Assessing the likelihood of their occurrence; and (d) Deciding about actions to address those risks.

If the entity has established such a process (referred to hereafter as the "entity's risk assessment process"), the auditor shall obtain an understanding of it, and the results thereof. If the auditor identifies risks of material misstatement that management failed to identify, the auditor shall evaluate whether there was an underlying risk of a kind that the auditor expects would have been identified by the entity's risk assessment process. If there is such a risk, the auditor shall obtain an understanding of why that process failed to identify it, and evaluate whether the process is appropriate to its circumstances or determine if there is a significant deficiency in internal control with regard to the entity's risk assessment process.

If the entity has not established such a process or has an ad hoc process, the auditor shall discuss with management whether business risks relevant to financial reporting objectives have been identified and how they have been addressed. The auditor shall evaluate whether the absence of a documented risk assessment process is appropriate in the circumstances, or determine whether it represents a significant deficiency in internal control.

The SASs include requirements similar to the ISAs' requirements.

## **9. Information and Communication**

### **PCAOB**

Auditing Standard No. 12 requires the auditor to obtain an understanding of how IT affects the company's flow of transactions. The standard also states that the identification of risks and controls within IT is not a separate evaluation. Instead, it is an integral part of the approach used to identify significant accounts and disclosures and their relevant assertions and, when applicable, to

---

<sup>36</sup> Section VI.E.3. of Appendix 10.

select the controls to test, as well as to assess risk and allocate audit effort. Appendix 10 provides additional discussion of this requirement.<sup>37</sup>

### **IAASB and ASB**

The ISAs and SASs do not include analogous requirements.

## **10. Control Activities**

### **PCAOB**

Auditing Standard No. 12 requires the auditor to obtain an understanding of control activities that is sufficient to assess the factors that affect the risks of material misstatement and to design further audit procedures. Auditing Standard No. 12 requires the auditor to use his or her knowledge about the presence or absence of control activities obtained from the understanding of the other components of internal control over financial reporting in determining the extent to which it is necessary to devote additional attention to obtaining an understanding of control activities to assess the factors that affect the risks of material misstatement and to design further audit procedures. Appendix 10 provides additional discussion of this requirement.<sup>38</sup>

### **IAASB**

The ISAs state:

The auditor shall obtain an understanding of control activities relevant to the audit, being those the auditor judges it necessary to understand in order to assess the risks of material misstatement at the assertion level and design further audit procedures responsive to assessed risks. An audit does not require an understanding of all the control activities related to each significant class of transactions, account balance, and disclosure in the financial statements or to every assertion relevant to them.

### **ASB**

The SASs state:

The auditor should obtain an understanding of control activities relevant to the audit, which are those control activities the auditor judges it necessary to understand in order to assess the risks of material misstatement at the assertion level and design further audit procedures responsive to assessed risks. An audit does not require an understanding of all the control activities related to each significant class of transactions, account balance, and disclosure in the financial statements or to every assertion relevant to them. However, the auditor should obtain an understanding of the process of reconciling detailed records to the general ledger for material account balances.

## **11. Relationship of Understanding of Internal Control to Tests of Controls**

### **PCAOB**

Auditing Standard No. 12 requires the auditor to take into account the evidence obtained from understanding internal control when assessing control

---

<sup>37</sup> Section VI.E.4 of Appendix 10.

<sup>38</sup> Section VI.E.5. of Appendix 10.

risk and, in the audit of internal control, forming conclusions about the effectiveness of controls. Auditing Standard No. 12 also requires the auditor to take into account the evidence obtained from understanding internal control when determining the nature, timing, and extent of procedures necessary to support the auditor's conclusions about the effectiveness of entity-level controls in the audit of internal control. Appendix 10 provides additional discussion of these requirements.<sup>39</sup>

### **IAASB and ASB**

The ISAs and SASs do not include analogous requirements.

## **12. Considering Information from the Client Acceptance and Retention Evaluation, Audit Planning Activities, Past Audits, and Other Engagements**

### **PCAOB**

Auditing Standard No. 12 requires the auditor to evaluate whether information obtained during a review of interim financial information in accordance with AU sec. 722, *Interim Financial Information*, is relevant to identifying risks of material misstatement in the year-end audit. The ISAs and SASs do not include an analogous requirement.

Auditing Standard No. 12 also states that the auditor should obtain an understanding of the nature of the services that have been performed for the company by the auditor or affiliates of the firm<sup>40</sup> and should take into account relevant information obtained from those engagements in identifying risks of material misstatement. The requirement in Auditing Standard No. 12 applies to services performed by the firm and affiliates of the firm and is not limited to services performed by the engagement partner. Appendix 10 provides additional discussion regarding these requirements.<sup>41</sup>

### **IAASB and ASB**

The ISAs state, "[i]f the engagement partner has performed other engagements for the entity, the engagement partner shall consider whether information obtained is relevant to identifying risks of material misstatement."

The SASs include a requirement similar to the ISAs' requirement.

## **13. Performing Analytical Procedures**

### **PCAOB**

Auditing Standard No. 12 contains a series of requirements regarding performing analytical procedures as risk assessment procedures. These requirements were adapted from AU sec. 329, *Analytical Procedures*. Auditing Standard No. 12 requires the auditor to:

- Perform analytical procedures that are designed to (a) enhance the auditor's understanding of the client's business and the significant transactions and events that have occurred since the prior

---

<sup>39</sup> Section VI.E.7. of Appendix 10.

<sup>40</sup> PCAOB Rule 3501, *Definitions of Terms Employed in Section 3, Part 5 of the Rules*.

<sup>41</sup> Section VI.F.2. of Appendix 10.

year end; and (b) identify areas that might represent specific risks relevant to the audit, including the existence of unusual transactions and events, and amounts, ratios, and trends that warrant investigation.

- Perform analytical procedures regarding revenue as risk assessment procedures with the objective of identifying unusual or unexpected relationships involving revenue accounts that might indicate a material misstatement, including material misstatement due to fraud.
- Take into account analytical procedures performed in accordance with AU sec. 722 when designing and applying analytical procedures as risk assessment procedures. This requirement is unique to PCAOB standards.
- Use his or her understanding of the company to develop expectations about plausible relationships among the data to be used in the procedure.<sup>42</sup>
- Take into account unusual or unexpected differences from the auditor's expectations that are identified while performing analytical procedures as risk assessment procedures.

Appendix 10 provides additional discussion of these requirements.<sup>43</sup>

### **IAASB**

The ISAs state:

The risk assessment procedures shall include...[a]nalytical procedures...

The auditor shall evaluate whether unusual or unexpected relationships that have been identified in performing analytical procedures, including those related to revenue accounts, may indicate risks of material misstatement due to fraud.

### **ASB**

The SASs state:

The risk assessment procedures should include...[a]nalytical procedures...

Based on analytical procedures performed as part of risk assessment procedures and as part of substantive procedures, the auditor should evaluate whether unusual or unexpected relationships that have been identified indicate risks of material misstatements due to fraud. To the extent not already included, the analytical procedures and evaluation thereof should include procedures relating to revenue accounts.

## **14. Communication among Engagement Team Members**

### **PCAOB**

Auditing Standard No. 12 requires that the communication among the engagement team members about significant matters affecting the risks of material

---

<sup>42</sup> Analytical procedures consist of evaluations of financial information made by a study of plausible relationships among both financial and nonfinancial data.

<sup>43</sup> Section VI.G. of Appendix 10.

misstatement should continue throughout the audit, including when conditions change. Appendix 10 provides additional discussion of this requirement.<sup>44</sup>

### **IAASB and ASB**

The ISAs and SASs do not include analogous requirements.

## **15. Discussion of the Potential for Material Misstatement Due to Fraud**

### **PCAOB**

Auditing Standard No. 12 requires a discussion among the key engagement team members of specified matters regarding fraud, including how and where the company's financial statements might be susceptible to material misstatement due to fraud, known fraud risk factors, the risk of management override of controls, and possible responses to fraud risks.

Auditing Standard No. 12 requires all key engagement team members to participate in the discussion. Auditing Standard No. 12 also states that key engagement team members include the engagement partner and other engagement team members with significant engagement responsibilities.

Auditing Standard No. 12 also includes a requirement to emphasize certain matters to all engagement team members, including the need to maintain a questioning mind throughout the audit and to exercise professional skepticism in gathering and evaluating evidence, to be alert for information or other conditions that might affect the assessment of fraud risks, and actions to be taken if information or other conditions indicate that a material misstatement due to fraud might have occurred.

Appendix 10 provides additional discussion of these requirements.<sup>45</sup>

### **IAASB**

The ISAs state:

The engagement partner and other key engagement team members shall discuss the susceptibility of the entity's financial statements to material misstatement, and the application of the applicable financial reporting framework to the entity's facts and circumstances. The engagement partner shall determine which matters are to be communicated to engagement team members not involved in the discussion.

...This discussion shall place particular emphasis on how and where the entity's financial statements may be susceptible to material misstatement due to fraud, including how fraud might occur.

### **ASB**

The SASs have requirements similar to the ISAs' requirements. However, the SASs also include a requirement that the discussion regarding fraud include an exchange among engagement team members about how and where the entity's financial statements might be susceptible to material misstatement due to fraud, how management could perpetrate and conceal fraudulent financial reporting, and how assets of the entity could be misappropriated. The SASs also include a requirement to emphasize certain matters to all engagement team

---

<sup>44</sup> Section VI.H.2. of Appendix 10.

<sup>45</sup> Section VI.H. of Appendix 10.

members, but those matters identified are less extensive than those required by PCAOB standards.

## **16. Inquiring of the Audit Committee, Management, and Others within the Company about the Risks of Material Misstatement**

### ***PCAOB***

Auditing Standard No. 12 requires the auditor to make specified inquiries of management and the audit committee regarding tips or complaints about the company's financial reporting. Appendix 10 provides additional discussion of this requirement.<sup>46</sup>

### ***IAASB and ASB***

The ISAs and the SASs do not specify the nature of the required inquiries, except for certain inquiries regarding fraud, which are less extensive than those required by PCAOB standards.

## **17. Nature of Inquiries**

### ***PCAOB***

Auditing Standard No. 12 requires the auditor to use his or her knowledge of the company and its environment, as well as information from other risk assessment procedures, to determine the nature of inquiries about risks of material misstatement. Appendix 10 provides additional discussion of this requirement.<sup>47</sup>

### ***IAASB and ASB***

The ISAs and SASs do not include analogous requirements.

## **18. Evaluating Management Responses to Inquiries**

### ***PCAOB***

Auditing Standard No. 12 requires the auditor to take into account the fact that management is often in the best position to commit fraud when evaluating management's responses to inquiries about fraud risks. Auditing Standard No. 12 also requires the auditor to obtain evidence to address inconsistencies in response to the inquiries. Appendix 10 provides additional discussion of these requirements.<sup>48</sup>

### ***IAASB and ASB***

The ISAs and SASs do not include analogous requirements.

---

<sup>46</sup> Section VI.I. of Appendix 10.

<sup>47</sup> Ibid.

<sup>48</sup> Ibid.

## 19. Identifying and Assessing the Risks of Material Misstatement

### **PCAOB**

Auditing Standard No. 12 requires the auditor to evaluate how risks at the financial statement level could affect risks of material misstatement at the assertion level. Appendix 10 provides additional discussion of this requirement.<sup>49</sup>

### **IAASB and ASB**

The ISAs and the proposed SAS do not include an analogous requirement.

## 20. Identifying Significant Accounts and Disclosures and Their Relevant Assertions

### **PCAOB**

Auditing Standard No. 12 requires the auditor to identify significant accounts and disclosures and their relevant assertions in identifying and assessing risks of material misstatement. PCAOB standards require auditors to perform substantive procedures for relevant assertions of significant accounts and disclosures in the audit of financial statements and tests of controls over relevant assertions of significant accounts and disclosures in the audit of internal control. Appendix 10 provides additional discussion regarding identifying significant accounts and disclosures and relevant assertions.<sup>50</sup>

### **IAASB and ASB**

The ISAs and SASs do not have an analogous requirement.

## 21. Significant Risks

### **PCAOB**

Auditing Standard No. 12 defines significant risk as a "risk of material misstatement that requires special audit consideration." This definition is different from the ISAs' definition because it omits two qualifying phrases, "an identified and assessed" and "in the auditor's judgment." Appendix 10 provides additional discussion regarding the definition of significant risks.<sup>51</sup>

### **IAASB and ASB**

The ISAs and SASs define significant risk as "an identified and assessed risk of material misstatement that, in the auditor's judgment, requires special audit consideration."

## Auditing Standard No. 13—The Auditor's Responses to the Risks of Material Misstatement

In this section, the analogous IAASB standards are ISA 330, *The Auditor's Responses to Assessed Risks*, and ISA 240, *The Auditor's Responsibilities Relating*

---

<sup>49</sup> Section VI.J. of Appendix 10.

<sup>50</sup> Ibid.

<sup>51</sup> Section VI.K. of Appendix 10.

to *Fraud in an Audit of Financial Statements* (collectively referred to in this section as "the ISAs"). The analogous ASB standards are the clarified SAS, *Performing Audit Procedures in Response to Assessed Risks and Evaluating the Audit Evidence Obtained* (Redrafted), and the proposed SAS, *Consideration of Fraud in a Financial Statement Audit* (Redrafted) (collectively referred to in this section as "the SASs").

## 1. Objective

### **PCAOB**

The objective of the auditor in Auditing Standard No. 13 is "to address the risks of material misstatement through appropriate overall audit responses and audit procedures." The objective in the proposed standard emphasizes the auditor's responsibility for responding to the risks of material misstatements. Appendix 10 provides additional discussion regarding the objective of the standard.<sup>52</sup>

### **IAASB and ASB**

The objective in the ISAs and the SASs is to obtain sufficient appropriate audit evidence regarding the assessed risks of material misstatement, through designing and implementing appropriate responses to those risks.

## 2. Overall Responses to Risks

### **PCAOB**

Auditing Standard No. 13 requires the auditor to design and implement certain overall responses (e.g., making appropriate assignments of specific engagement responsibilities, providing an appropriate extent of supervision, incorporating elements of unpredictability in selecting auditing procedures, and evaluating the company's selection and application of significant accounting principles) to address risks of material misstatement. These responses are not limited to addressing risks at the financial statement level. They are also intended to address risks at the significant account or disclosure level due to the nature of these specific overall responses. Appendix 10 provides additional discussion of this requirement.<sup>53</sup>

### **IAASB and ASB**

The ISAs and the SASs include requirements to design and implement overall responses to address the assessed risks of material misstatement at the financial statement level and requirements for particular types of responses to the risks of material misstatement due to fraud at the financial statement level.

## 3. Determination of the Need for Pervasive Changes

### **PCAOB**

Auditing Standard No. 13 requires the auditor to determine whether it is necessary to make pervasive changes to the nature, timing, or extent of audit

---

<sup>52</sup> Section VII.B. of Appendix 10.

<sup>53</sup> Section VII.C. of Appendix 10.

procedures to adequately address the assessed risk of material misstatement. Examples of such pervasive changes include modifying the audit strategy to increase the substantive testing of the valuation of numerous significant accounts at year end because of significantly deteriorating market conditions and to obtain more pervasive audit evidence from substantive procedures due to the identification of pervasive weaknesses in the company's control environment. Appendix 10 provides detailed discussions regarding making pervasive changes as an overall response to risks of material misstatement.<sup>54</sup>

### **IAASB and ASB**

The ISAs and SASs do not include analogous requirements.

## **4. Application of Professional Skepticism**

### **PCAOB**

Auditing Standard No. 13 states that due professional care requires the auditor to exercise professional skepticism, requires that the auditor apply professional skepticism in gathering and evaluating audit evidence in response to risks of material misstatement, and provides examples of the appropriate application of professional skepticism. Appendix 10 provides additional discussion regarding application of professional skepticism.<sup>55</sup>

### **IAASB and ASB**

The ISAs state

...the auditor shall maintain an attitude of professional skepticism throughout the audit, recognizing the possibility that a material misstatement due to fraud could exist, notwithstanding the auditor's past experience of the honesty and integrity of the entity's management and those charged with governance.

The SASs include a requirement similar to the ISAs' requirement.

## **5. Evidence about the Effectiveness of Controls**

### **PCAOB**

In discussing testing controls in an audit of financial statements, Auditing Standard No. 13 establishes the principle that the evidence necessary to support the auditor's control risk assessment depends on the degree of reliance the auditor plans to place on the effectiveness of a control. The greater the reliance on a control, the more persuasive evidence the auditor is required to obtain from the tests of controls.

In addition, the standard requires the auditor to obtain more persuasive evidence about the effectiveness of controls for each relevant assertion for which the audit approach consists primarily of tests of controls. Appendix 10 provides additional discussions of these requirements.<sup>56</sup>

---

<sup>54</sup> Ibid.

<sup>55</sup> Ibid.

<sup>56</sup> Section VII.F.3. of Appendix 10.

**IAASB and ASB**

The ISAs and the SASs include a requirement for the auditor to obtain more persuasive audit evidence the greater the reliance he or she plans to place on the effectiveness of a control, but they do not have an analogous requirement regarding situations in which the audit approach consists primarily of tests of controls.

**6. Testing the Operating Effectiveness of a Control****PCAOB**

Auditing Standard No. 13 requires the auditor to determine whether the control selected for testing is operating as designed and whether the person performing the control possesses the necessary authority and competence to perform the control effectively. The standard also discusses the procedures the auditor performs in testing operating effectiveness. To help facilitate the tests of controls in an integrated audit, the standard continues to use language similar to that of Auditing Standard No. 5 when describing analogous terms and concepts relating to the testing of controls. Appendix 10 provides additional discussion regarding this requirement.<sup>57</sup>

**IAASB**

The ISAs do not include an analogous requirement to determine whether the person performing the control possesses the necessary authority and competence to perform the control effectively.

**ASB**

The SASs state:

In designing and performing tests of controls, the auditor should:

- a.* perform other audit procedures in combination with inquiry to obtain audit evidence about the operating effectiveness of the controls, including ...by whom or by what means they were applied, including, when applicable, whether the person performing the control possesses the necessary authority and competence to perform the control effectively.

**7. Tests of Controls in an Integrated Audit****PCAOB**

Auditing Standard No. 13 requires the auditor to perform tests of controls in integrated audits to meet the objectives of both the audit of financial statements and the audit of internal control. Appendix 10 provides additional discussion of this requirement.<sup>58</sup>

**IAASB and ASB**

The ISAs and the SASs do not include an analogous requirement.

---

<sup>57</sup> Section VII.F.4. of Appendix 10.

<sup>58</sup> Section VII.D. of Appendix 10.

## 8. Rotational Testing of Controls

### **PCAOB**

Auditing Standard No. 13 requires the auditor to obtain evidence during the current year audit about the design and operating effectiveness of controls upon which the auditor relies. Appendix 10 provides additional discussion of this requirement.<sup>59</sup>

### **IAASB and ASB**

The ISAs and the SASs include requirements that apply to the use of evidence about controls obtained in prior audits and allow rotational testing of controls under certain conditions set forth in those standards.

## 9. Assessing Control Risk

### **PCAOB**

Auditing Standard No. 13 requires the auditor to assess control risk for relevant assertions by evaluating the evidence from all sources, including the auditor's testing of controls for the audit of internal control and the audit of financial statements, misstatements detected during the financial statement audit, and any identified control deficiencies. The standard also requires that control risk be assessed at the maximum level for relevant assertions (1) for which controls necessary to sufficiently address the assessed risk of material misstatement in those assertions are missing or ineffective or (2) when the auditor has not obtained sufficient appropriate audit evidence to support a control risk assessment below the maximum level. Appendix 10 provides additional discussion of these requirements.<sup>60</sup>

### **IAASB and ASB**

The ISAs and the SASs include requirements regarding evaluating the operating effectiveness of controls and identified control deviations, but those standards do not require a specific assessment of control risk.

## 10. Substantive Procedures

### **PCAOB**

Auditing Standard No. 13 requires the auditor to perform substantive procedures for each relevant assertion of each significant account and disclosure, regardless of the assessed level of control risk. This requirement reflects the principle that the auditor needs to implement appropriate responses to address assessed risks of material misstatement. Appendix 10 provides additional discussion of this requirement.<sup>61</sup>

### **IAASB**

The ISAs state, "Irrespective of the assessed risks of material misstatement, the auditor shall design and perform substantive procedures for each material class of transactions, account balance, and disclosure."

---

<sup>59</sup> Section VII.F.6. of Appendix 10.

<sup>60</sup> Section VII.F.7. of Appendix 10.

<sup>61</sup> Section VII.G. of Appendix 10.

**ASB**

The SASs state, "Irrespective of the assessed risks of material misstatement, the auditor should design and perform substantive procedures for all relevant assertions related to each material class of transactions, account balance, and disclosure."

The requirements in the ISAs and the SASs focus on the accounts and disclosures that are material, regardless of whether they are associated with identified risks of material misstatement.

## 11. Consideration of Confirmations

**PCAOB**

Auditing Standard No. 13 requires the auditor to perform substantive procedures for each relevant assertion of each significant account and disclosure. The standard also discusses how to determine the types and combination of substantive audit procedures necessary to detect material misstatements in relevant assertions.

AU sec. 330, *The Confirmation Process*, establishes requirements regarding the use of confirmation procedures.<sup>62</sup> The risk assessment standards discuss the auditor's responsibilities for designing and performing the substantive procedures necessary to address the risks of material misstatement.

**IAASB and ASB**

ISA 330 specifically requires the auditor to consider whether external confirmation procedures are to be performed as substantive audit procedures. The ASB has proposed to amend the SASs to require the auditor to consider whether external confirmation procedures are to be performed as substantive audit procedures and to require the use of external confirmation procedures for material accounts receivable.

## 12. Determining Whether to Perform Interim Substantive Procedures

**PCAOB**

Auditing Standard No. 13 requires the auditor to take into account a series of factors when determining whether it is appropriate to perform substantive procedures at an interim date. Appendix 10 provides additional discussion regarding timing of substantive procedures.<sup>63</sup>

**IAASB and ASB**

The ISAs and the SASs do not include an analogous requirement for the auditor to take into account the factors listed in Auditing Standard No. 13 when determining whether it is appropriate to perform substantive procedures at an interim date.

---

<sup>62</sup> The Board has a separate standards-setting project on confirmations.

<sup>63</sup> Section VII.H. of Appendix 10.

## 13. Substantive Procedures Covering the Remaining Period

### **PCAOB**

Auditing Standard No. 13 states, "When substantive procedures are performed at an interim date, the auditor should cover the remaining period by performing substantive procedures, or substantive procedures combined with tests of controls, that provide a reasonable basis for extending the audit conclusions from the interim date to the period end." The standard contains a specific requirement to compare relevant information about the account balance at the interim date with comparable information at the end of the period to identify amounts that appear unusual. Appendix 10 provides additional discussion of this requirement.<sup>64</sup>

### **IAASB and ASB**

The ISAs and the SASs include requirements to cover the period between the interim testing date and year end by performing substantive procedures, combined with tests of controls for the intervening period, or by performing further substantive procedures only if the auditor determines that doing so would be sufficient. The ISAs and SASs do not include an analogous requirement regarding the specific procedures to be performed.

## 14. Response to Significant Risks

### **PCAOB**

Auditing Standard No. 13 requires the auditor to perform substantive procedures, including tests of details, that are specifically responsive to significant risks. Appendix 10 provides additional discussion of this requirement.<sup>65</sup>

### **IAASB and ASB**

The ISAs state:

If the auditor has determined that an assessed risk of material misstatement at the assertion level is a significant risk, the auditor shall perform substantive procedures that are specifically responsive to that risk. When the approach to a significant risk consists only of substantive procedures, those procedures shall include tests of details.

The SASs include requirements similar the ISAs' requirements.

## 15. Dual-purpose Tests

### **PCAOB**

Auditing Standard No. 13 states that, when dual-purpose tests are performed, the auditor should design the dual-purpose test to achieve the objectives of both the test of the control and the substantive test. Also, when performing a dual-purpose test, the auditor should evaluate the results of the test in forming conclusions about both the assertion and the effectiveness of the control being tested. Appendix 10 provides additional discussion of this requirement.<sup>66</sup>

---

<sup>64</sup> Ibid.

<sup>65</sup> Section VII.I. of Appendix 10.

<sup>66</sup> Section VII.J. of Appendix 10.

**IAASB and ASB**

The ISAs and the SASs do not include analogous requirements.

**Auditing Standard No. 14—Evaluating Audit Results**

In this section, the analogous IAASB standards are ISA 450, *Evaluation of Misstatements Identified During the Audit*, ISA 330, *The Auditor's Responses to Assessed Risks*, ISA 520, *Analytical Procedures*, ISA 240, *The Auditor's Responsibilities Relating to Fraud in an Audit of Financial Statements*, ISA 540, *Auditing Accounting Estimates Including Fair Value Accounting Estimates, and Related Disclosures*, and ISA 700, *Forming an Opinion and Reporting on Financial Statements* (collectively referred to in this section as "the ISAs"). The analogous ASB standards are clarified SAS *Evaluation of Misstatements Identified During the Audit*, *Performing Audit Procedures in Response to Assessed Risks and Evaluating the Audit Evidence Obtained (Redrafted)*, *Understanding the Entity and its Environment and Assessing the Risks of Material Misstatement (Redrafted)*, and proposed SAS *Consideration of Fraud in a Financial Statement Audit (Redrafted)*, *Analytical Procedures (Redrafted)*, and *Forming an Opinion and Reporting on Financial Statements* (collectively referred to in this section as "the SASs").

**1. Performing Analytical Procedures in the Overall Review****PCAOB**

In the overall review, Auditing Standard No. 14 contains specific requirements for the auditor to read the financial statements and disclosures and perform analytical procedures to (a) evaluate the auditor's conclusions formed regarding significant accounts and disclosures and (b) assist in forming an opinion on whether the financial statements as a whole are free of material misstatement. These requirements were adapted from existing requirements in PCAOB standards.<sup>67</sup> The conclusions formed from the results of the overall review of the audit are intended to inform the auditor's conclusions regarding significant accounts and disclosures and the opinion on the financial statements. Appendix 10 provides additional discussion of these requirements.<sup>68</sup>

**IAASB**

The ISAs state:

The auditor shall design and perform analytical procedures near the end of the audit that assist the auditor when forming an overall conclusion as to whether the financial statements are consistent with the auditor's understanding of the entity.

**ASB**

The SASs state:

The auditor should design and perform analytical procedures near the end of the audit that are intended to corroborate audit evidence obtained during the audit of financial statements to assist the auditor in drawing reasonable conclusions on which to base the auditor's opinion.

---

<sup>67</sup> AU sec. 329.23.

<sup>68</sup> Section VIII.C. of Appendix 10.

## 2. Evaluating Evidence from Analytical Procedures

### **PCAOB**

Auditing Standard No. 14 contains a requirement, which was adapted from an existing requirement in PCAOB standards,<sup>69</sup> for the auditor, as part of the overall review to evaluate whether (a) the evidence gathered in response to unusual or unexpected transactions, events, amounts or relationships previously identified during the audit is sufficient and (b) unusual or unexpected transactions, events, amounts, or relationships indicate risks of material misstatement that were not identified previously, including, in particular, fraud risks. Auditing Standard No. 14 also specifically requires the auditor to evaluate whether the evidence gathered during the audit is sufficient as part of the overall review.

Also, the requirements in Auditing Standard No. 14 relate to risks of material misstatement due to error or fraud, whereas the requirements in the ISAs and SASs are limited to fraud risks. Appendix 10 provides additional discussion of these requirements in Auditing Standard No. 14.<sup>70</sup>

### **IAASB**

The ISAs state:

The auditor shall evaluate whether analytical procedures that are performed near the end of the audit, when forming an overall conclusion as to whether the financial statements as a whole are consistent with the auditor's understanding of the entity and its environment, indicate a previously unrecognized risk of material misstatement due to fraud.

### **ASB**

The SASs state:

The auditor should evaluate whether the accumulated results of auditing procedures, including analytical procedures, that are performed during the audit, in the overall review stage, or in both stages, when forming an overall conclusion concerning whether the financial statements as a whole are consistent with the auditor's understanding of the entity and its environment, indicate a previously unrecognized risk of material misstatement due to fraud.

## 3. Analytical Procedures Regarding Revenue

### **PCAOB**

Auditing Standard No. 14 includes a requirement, adapted from an existing requirement in AU sec. 316, for the auditor to perform analytical procedures relating to revenue through the end of the period. These procedures are intended to identify unusual or unexpected relationships involving revenue accounts that might indicate a material misstatement, including material misstatement due to fraud. Appendix 10 provides additional discussion of this requirement.<sup>71</sup>

### **IAASB**

The ISAs state:

---

<sup>69</sup> AU sec. 329.23.

<sup>70</sup> Section VIII.C. of Appendix 10.

<sup>71</sup> *Ibid.*

The auditor shall evaluate whether unusual or unexpected relationships that have been identified in performing analytical procedures, including those related to revenue accounts, may indicate risks of material misstatement due to fraud.

The ISAs do not specifically require the auditor to perform analytical procedures related to revenue through the end of the period.

### **ASB**

The SASs require the auditor to perform analytical procedures related to revenue.

## **4. Corroborating Management Explanations**

### **PCAOB**

Auditing Standard No. 14 requires the auditor to corroborate management's explanations regarding significant unusual or unexpected transactions, events, amounts, or relationships. Auditing Standard No. 14 also states that if management's responses to the auditor's inquiries appear to be implausible, inconsistent with other audit evidence, imprecise, or not at a sufficient level of detail to be useful, the auditor should perform procedures to address the matter. Unlike the ISAs, Auditing Standard No. 14 specifically requires the auditor to corroborate management's explanations regarding significant matters. Appendix 10 provides additional discussion regarding corroborating management's explanations.<sup>72</sup>

### **IAASB and ASB**

The ISAs and the SASs require the auditor to investigate the identified fluctuations or relationships that are inconsistent with other relevant information or that differ from expected values by a significant amount by (a) inquiring of management and obtaining appropriate audit evidence relevant to management's responses and (b) performing other audit procedures as necessary in the circumstances. The ISAs and the SASs also include a requirement to investigate inconsistent responses to inquiries from management and those charged with governance.

## **5. Communication of Accumulated Misstatements**

### **PCAOB**

Auditing Standard No. 14 requires the auditor to communicate accumulated misstatements to management on a timely basis to provide management with an opportunity to correct them. Unlike the ISAs and the SASs, Auditing Standard No. 14 does not require the auditor to request management to correct the misstatements. Instead, PCAOB standards focus on communicating the misstatements to management, performing procedures to determine whether management corrected them, understanding the reasons why management might not have corrected the misstatements, and evaluating the effect of uncorrected misstatements on the financial statements and the audit. Appendix 10 provides additional discussion of this requirement.<sup>73</sup>

---

<sup>72</sup> Ibid.

<sup>73</sup> Section VIII.J. of Appendix 10.

**IAASB and ASB**

The ISAs and the SASs include requirements to communicate on a timely basis all misstatements accumulated during the audit to an appropriate level of management and to request that management correct those misstatements.

**6. Correction of Misstatements****PCAOB**

Auditing Standard No. 14 requires that if management has made corrections to accounts or disclosures in response to misstatements detected by the auditor, the auditor should evaluate management's work to determine whether the corrections have been appropriately recorded and determine whether uncorrected misstatements remain. Appendix 10 provides additional discussion of this requirement.<sup>74</sup>

**IAASB and ASB**

The ISAs and the SASs contain a requirement to perform additional audit procedures to determine whether misstatements remain, if at the auditor's request management has examined a class of transactions, account balance or disclosure and corrected misstatements that were detected.

The ISAs do not require the auditor to evaluate whether the misstatements that were communicated by the auditor to management have been appropriately corrected by management.

**7. Evaluating Misstatements—Effect on Risk Assessments****PCAOB**

Auditing Standard No. 14 contains a requirement to evaluate the nature and the effects of individual misstatements accumulated during the audit on the assessed risks of material misstatement in determining whether the risk assessments remain appropriate. Appendix 10 provides additional discussion of this requirement.<sup>75</sup>

**IAASB and ASB**

The ISAs and the SASs do not include an analogous requirement.

**8. Evaluating Whether Misstatements Might Be Indicative of Fraud****PCAOB**

Auditing Standard No. 14 requires the auditor to perform procedures to obtain additional audit evidence to determine whether fraud has occurred or is likely to have occurred, and, if so, its effect on the financial statements and the auditor's report if the auditor believes that a misstatement is or might be intentional, and

---

<sup>74</sup> Section VIII.F. of Appendix 10.

<sup>75</sup> Section VIII.I. of Appendix 10.

if the effect on the financial statement cannot be readily determined. Appendix 10 provides additional discussions of this requirement.<sup>76</sup>

### **IAASB and ASB**

The ISAs require the auditor to evaluate the implications for the audit if the auditor confirms that or is unable to conclude whether financial statements are materially misstated as a result of fraud. The ISA does not explicitly require the auditor to perform audit procedures to obtain additional audit evidence to determine the effect of the misstatement on the financial statements.

The SASs include a requirement similar to the ISAs' requirement.

## **9. Communications Regarding Fraud**

### **PCAOB**

Auditing Standard No. 14 requires the auditor to determine his or her responsibility under AU secs. 316.79–.82A, AU sec. 317, *Illegal Acts by Clients*, and Section 10A of the Securities and Exchange Act of 1934, 15 U.S.C. §78j-1, if the auditor becomes aware of information indicating that fraud or another illegal act has occurred or might have occurred. AU sec. 316 requires that whenever the auditor has determined that there is evidence that fraud may exist, the auditor should bring that matter to the attention of an appropriate level of management.<sup>77</sup> Appendix 10 provides additional discussion of this requirement.<sup>78</sup>

### **IAASB and ASB**

The ISAs state that if the auditor has identified a fraud or has obtained information that indicates that a fraud may exist, the auditor shall communicate these matters on a timely basis to the appropriate level of management.

The SASs include a requirement similar to the ISAs' requirement.

## **10. Evaluating the Qualitative Aspects of the Company's Accounting Practices**

### **PCAOB**

Auditing Standard No. 14 states that if the auditor identifies bias in management's judgments about the amounts and disclosures in the financial statements, the auditor should evaluate whether the effect of that bias, together with the effect of uncorrected misstatements, results in material misstatement of the financial statements. The standard also contains a requirement for the auditor to evaluate whether the auditor's risk assessments, including the assessment of fraud risks, and the related responses remain appropriate. Appendix 10 provides additional discussion of these requirements.<sup>79</sup>

### **IAASB and ASB**

The ISAs and the SASs contain a requirement for the auditor to evaluate whether the financial statements are prepared, in all material respects, in

---

<sup>76</sup> Ibid.

<sup>77</sup> AU sec. 316.79.

<sup>78</sup> Section VIII.K. of Appendix 10.

<sup>79</sup> Section VIII.L. of Appendix 10.

accordance with the requirements of the applicable financial reporting framework. This evaluation shall include consideration of the qualitative aspects of the entity's accounting practices, including indicators of possible bias in management's judgments.

## 11. Management's Identification of Offsetting Adjusting Entries

### **PCAOB**

If management identifies adjusting entries that offset misstatements accumulated by the auditor, Auditing Standard No. 14 requires the auditor to perform procedures to determine why the misstatements were not identified previously and to evaluate the implications on the integrity of management and the auditor's risk assessments, including fraud risk assessments. Auditing Standard No. 14 also requires the auditor to perform additional procedures as necessary to address the risk of further undetected misstatements. Appendix 10 provides additional discussion of these requirements.<sup>80</sup>

### **IAASB and ASB**

The ISAs and SASs do not include analogous requirements.

## 12. Evaluating Conditions Relating to Assessment of Fraud Risks

### **PCAOB**

Auditing Standard No. 14 requires the engagement partner to determine whether there has been appropriate communication with other engagement team members throughout the audit regarding information or conditions that are indicative of fraud risks. Appendix 10 provides additional discussion of this requirement.<sup>81</sup>

### **IAASB**

The ISAs require a discussion among the engagement team members and a determination by the engagement partner of matters to be communicated to those team members not involved in the discussion.

### **ASB**

The SASs contain a requirement for the engagement partner to ascertain that appropriate communication exists about the need for the discussion of fraud risks among team members throughout the audit.

## Auditing Standard No. 15—Audit Evidence

In this section, the analogous IAASB and ASB standards are ISA 500, *Audit Evidence*, and the clarified SAS, *Audit Evidence (Redrafted)*, respectively.

---

<sup>80</sup> Ibid.

<sup>81</sup> Section VIII.M. of Appendix 10.

## 1. Objective and Overarching Requirement

### **PCAOB**

The objective of the auditor in Auditing Standard No. 15 is to plan and perform the audit to obtain appropriate audit evidence that is sufficient to support the opinion expressed in the auditor's report. The objective of the standard, together with the related requirement regarding audit evidence, articulates the linkage between the auditor's responsibility to obtain sufficient appropriate audit evidence and to support his or her opinion. Appendix 10 provides additional discussion regarding the objective of the standard.<sup>82</sup>

### **IAASB and ASB**

The ISA states:

The objective of the auditor is to design and perform audit procedures in such a way as to enable the auditor to obtain sufficient appropriate audit evidence to be able to draw reasonable conclusions on which to base the auditor's opinion.

The ISA also states:

The auditor shall design and perform audit procedures that are appropriate in the circumstances for the purpose of obtaining sufficient appropriate audit evidence.

The SAS includes an objective and a requirement similar to the ISA's objective and requirement.

## 2. Document Authentication

### **PCAOB**

Auditing Standard No. 15 states that the auditor is not expected to be an expert in document authentication. However, if conditions indicate that a document may not be authentic or that the terms in a document have been modified but that the modifications have not been disclosed to the auditor, the auditor is required to modify the planned audit procedures or perform additional audit procedures to respond to those conditions and to evaluate the effect, if any, on the other aspects of the audit. Auditing Standard No. 15 omits protective language, such as "[u]nless the auditor has reason to believe the contrary, the auditor may accept records and document as genuine" that would weaken the requirement. Appendix 10 provides additional discussion regarding this requirement.<sup>83</sup>

### **IAASB and ASB**

The ISA states:

Unless the auditor has reason to believe the contrary, the auditor may accept records and documents as genuine. If conditions identified during the audit cause the auditor to believe that a document may not be authentic or that terms in a document have been modified but not disclosed to the auditor, the auditor shall investigate further.

The SAS includes a requirement similar to the ISA's requirement.

---

<sup>82</sup> Section IX.C. of Appendix 10.

<sup>83</sup> Section IX.E. of Appendix 10.

### 3. Selecting Items for Testing to Obtain Audit Evidence

#### **PCAOB**

Auditing Standard No. 15 states that the auditor should determine the means of selecting items for testing to obtain evidence that, in combination with other relevant evidence, is sufficient to meet the objective of the audit procedure. This requirement links the selection of items for testing to the sufficiency of the audit evidence. Appendix 10 provides additional discussion of this requirement.<sup>84</sup>

#### **IAASB and ASB**

The ISA states:

When designing tests of controls and tests of details, the auditor shall determine means of selecting items for testing that are effective in meeting the purpose of the audit procedure.

The SAS includes a requirement similar to the ISA's requirement.

---

---

<sup>84</sup> Section IX.J. of Appendix 10.

## PCAOB Release No. 2011-001

# ***Temporary Rule for an Interim Program of Inspection Related to Audits of Brokers and Dealers***

PCAOB Release No. 2011-001  
June 14, 2011

PCAOB Rulemaking  
Docket Matter No. 32

### **Summary**

After public comment, the Public Company Accounting Oversight Board, pursuant to its authority under recent amendments to the Sarbanes-Oxley Act of 2002, is adopting a temporary rule to establish an interim inspection program related to audits of brokers and dealers. The temporary rule will serve two principal purposes. It will allow the Board to assess registered public accounting firms' current compliance with laws, rules, and standards in performing audits with respect to brokers and dealers. It will also inform the Board's decisions about significant elements of a permanent inspection program, including whether to differentiate among classes of brokers and dealers, whether to exempt any categories of public accounting firms, and what minimum inspection frequency schedules to establish. The amendments will take effect upon approval by the Securities and Exchange Commission pursuant to Section 107 of the Sarbanes-Oxley Act of 2002.

### **Board Contacts**

Michael Stevenson, Deputy General Counsel (202/207-9054, [stevenson@pcaobus.org](mailto:stevenson@pcaobus.org)); Jennifer G. Williams, Assistant General Counsel (202/591-4173, [williamsjg@pcaobus.org](mailto:williamsjg@pcaobus.org)).

\* \* \* \* \*

### **I. Introduction**

The Sarbanes-Oxley Act of 2002 ("the Act"), as originally enacted, made it unlawful for public accounting firms that were not registered with the Public Company Accounting Oversight Board ("PCAOB" or "the Board") to prepare or issue, or to participate in the preparation or issuance of, any audit report with respect to any issuer (generally defined to encompass most public companies the securities of which trade in U.S. capital markets<sup>1</sup>). The Act also authorized

---

<sup>1</sup> As defined in Section 2(a)(7) of the Act, "issuer" means an issuer (as defined in Section 3 of the Securities Exchange Act of 1934 ("Exchange Act")) the securities of which are registered under Section 12 of the Exchange Act, or that is required to file reports under Section 15(d) of the Exchange Act, or that files or has filed a registration statement that has not yet become effective under the Securities Act of 1933 and that it has not withdrawn.

and charged the Board to carry out a range of oversight responsibilities related to issuer audits. Those responsibilities include conducting a program of inspections of registered public accounting firms in connection with their performance of audits, issuance of audit reports, and related matters involving issuers.<sup>2</sup> The Board has been conducting such a program for several years.<sup>3</sup>

On July 21, 2010, the Dodd-Frank Wall Street Reform and Consumer Protection Act<sup>4</sup> amended various provisions of the Act ("the Dodd-Frank amendments"). Among other things, the Dodd-Frank amendments gave the Board oversight authority with respect to audits of brokers and dealers that are registered with the Securities and Exchange Commission ("Commission"). Specifically, the Dodd-Frank amendments provide the Board with authority to carry out the same oversight responsibilities it has carried out with respect to issuer audits—standards-setting, inspections, and investigations and disciplinary proceedings—in connection with registered public accounting firms' audits of brokers and dealers.<sup>5</sup> The legislative history notes that this new authority "enables the PCAOB to use its inspection and disciplinary processes to identify auditors that lack expertise or fail to exercise care in broker and dealer audits, identify and address deficiencies in their practices, and, where appropriate, suspend or bar them from conducting such audits."<sup>6</sup>

The Dodd-Frank amendments do not prescribe a specific program of inspection of registered public accounting firms that provide audit reports for a broker or dealer. Rather, the Dodd-Frank amendments authorize the Board to establish such a program by rule,<sup>7</sup> and leave to the Board important questions concerning the elements of the program. Among other things, Section 104(a)(2) of the Act (1) provides that, in establishing the program, the Board may allow for differentiation among classes of brokers and dealers; (2) requires that the Board consider whether differing inspection schedules would be appropriate with respect to auditors that issue audit reports only for brokers or dealers that do not receive, handle, or hold customer securities or cash or are not members of the Securities Investor Protection Corporation ("SIPC"); and (3) provides that if the Board exempts any public accounting firm from such an inspection program, the firm would not be required to register with the Board.

In a release issued on December 14, 2010, the Board explained that it intended to take a careful and informed approach to those questions in establishing a permanent program that appropriately protects the public interest and the interests of investors, including consideration of potential costs and regulatory

---

<sup>2</sup> See Section 104(a)(1) of the Act (originally Section 104(a) of the Act).

<sup>3</sup> Information about the Board's inspection program related to audits of issuers, including rules, general reports, and the public portions of reports on inspections of individual firms, is available at <http://pcaobus.org/Inspections/Pages/default.aspx>.

<sup>4</sup> Pub. L. No. 111-203, 124 Stat. 1376 (July 21, 2010).

<sup>5</sup> For purposes of the Board's authority, "audit" includes an examination of financial statements, reports, documents, procedures, controls, or notices of any issuer, broker, or dealer, and an "audit report" is a document, report, notice, or other record, prepared following an audit, in which an auditor sets forth an opinion regarding the financial statement, report, notice, or other document, procedures or controls, or asserts that no opinion can be expressed. For the precise definitions of "audit" and "audit report," see Sections 110(1)-(2) of the Act, as amended.

<sup>6</sup> S. Rep. No. 176, 111th Cong., 2d Sess. (April 30, 2010) at 154. The Dodd-Frank amendments to Section 102(a) of the Act also expanded the Act's registration requirement by making it unlawful for any person that is not a registered public accounting firm to prepare or issue, or to participate in the preparation or issuance of, any audit report with respect to any broker or dealer. Even before the Dodd-Frank amendments, however, Section 17(e)(1)(A) of the Exchange Act, as amended in 2002, required that the balance sheets and income statements filed with the Commission by registered brokers or dealers be certified by a public accounting firm registered with the PCAOB.

<sup>7</sup> Section 104(a)(2)(A) of the Act, as amended.

burdens that would be imposed on different categories of registered public accounting firms and classes of brokers and dealers. The Board also explained that it did not intend to make the necessary judgments without first gathering and assessing relevant information, but that it did not intend to postpone all use of its new inspection authority until after those judgments were made. Accordingly, the Board proposed for public comment a temporary rule for an interim program of inspection that would allow the Board to begin inspections of relevant audits and auditors and provide a source of information to help guide decisions about the scope and elements of a permanent program.<sup>8</sup>

The Board received twelve written comment letters on the proposed rule,<sup>9</sup> including two from members of Congress,<sup>10</sup> three from registered public accounting firms,<sup>11</sup> three from professional associations of public accountants (or affiliates of such associations),<sup>12</sup> and three from other professional associations or advocacy organizations for the financial services industry.<sup>13</sup> After considering all comments submitted, the Board is today adopting temporary rule 4020T (and adding related notes to certain definitions in Rule 1001) largely as proposed.<sup>14</sup>

## II. The Interim Inspection Program

The interim program will have two purposes. First, it will enable the Board to begin the work of assessing the degree of compliance of registered public accounting firms and their associated persons with the Act, the Board's rules, the Commission's rules, and professional standards in connection with the performance of audits, issuance of audit reports, and related matters involving

---

<sup>8</sup> PCAOB Release No. 2010-008, Proposed Temporary Rule for an Interim Program of Inspection Related to Audits of Brokers and Dealers (December 14, 2010) (the "proposing release") (available on the PCAOB web site at <http://pcaobus.org/Rules/Rulemaking/Pages/Docket032.aspx>).

<sup>9</sup> The comment letters are available on the PCAOB web site at <http://pcaobus.org/Rules/Rulemaking/Pages/Docket032.aspx>.

<sup>10</sup> Letter from the Hon. Spencer Bachus, Chairman, Committee on Financial Services, and the Hon. Scott Garrett, Chairman, Subcommittee on Capital Markets and Government Sponsored Enterprises (May 27, 2011) ("the Bachus-Garrett letter"); letter from the Hon. John Campbell, the Hon. Michael K. Conaway, the Hon. Bill Flores, the Hon. Lynn Jenkins, the Hon. Steven Palazzo, the Hon. Collin C. Peterson, the Hon. Jim Renacci, and the Hon. Brad Sherman, Members of the United States House of Representatives (February 14, 2011) ("the letter from Certain Members of Congress").

<sup>11</sup> Letters from McGladrey & Pullen, LLP (February 9, 2011), KPMG LLP (February 10, 2011), and Grant Thornton LLP (February 14, 2011).

<sup>12</sup> Letters from the Accounting Principles and Auditing Standards Committee of the California Society of Certified Public Accountants (February 8, 2011), the American Institute of Certified Public Accountants (February 15, 2011), and the Center for Audit Quality (February 15, 2011).

<sup>13</sup> Letters from the National Association of Independent Broker Dealers (February 9, 2011), the Third Party Marketers Association (February 10, 2011), and the Financial Services Institute (February 15, 2011).

<sup>14</sup> The version of Rule 4020T adopted today differs from the proposed version in three respects. First, the proposed version included definitions of "broker" and "dealer" that are omitted from the final version of Rule 4020T because they are being added to the generally applicable definitions in PCAOB Rule 1001 as part of rule amendments separately adopted today in connection with allocating the Board's accounting support fee among issuers, brokers, and dealers. Second, for reasons described below, the version of Rule 4020T adopted today includes a provision incorporating PCAOB Rule 4007, on procedures concerning draft inspection reports, PCAOB Rule 4008, on procedures concerning final inspection reports, and PCAOB Rule 4009, on firms' responses to quality control criticisms, which were not included in the proposed version of the rule. Third, to conform paragraph (c) of the rule to the Act and to paragraph (a)(1) of the rule, the phrase "and related matters involving brokers and dealers" has been added to paragraph (c).

brokers and dealers.<sup>15</sup> Second, it will inform the Board's eventual determinations about the elements of a permanent program, including whether and how to differentiate among classes of brokers and dealers, whether to exempt any category of public accounting firm, and the establishment of minimum inspection frequency schedules.<sup>16</sup>

## A. Scope of the Interim Program

The temporary rule that the Board proposed did not reflect any exercise of the Board's authority to differentiate among classes of brokers and dealers or to exempt any category of public accounting firm. The proposing release explained that judgments about what, if any, differentiation and exemptions were appropriate for a permanent program would be informed by, among other things, observations in the course of the interim program.

The Board received a number of comments addressing the inclusive scope of the proposed interim program.<sup>17</sup> Some commenters supported the proposed scope, while nevertheless suggesting that the Board focus its interim inspection efforts on audits of certain categories of brokers and dealers, such as those that have possession and control of customer cash and securities or act as clearing, carrying, or custodial brokers.<sup>18</sup> One of those commenters also suggested that the Board consider, in connection with a permanent program, whether the public interest would be best served by focusing on those that carry accounts and maintain customer cash and securities.<sup>19</sup>

Other commenters disagreed with the proposed approach. They argued, and some submitted data intended to support the argument, that certain categories of brokers and dealers pose little or no risk to the investing public. They suggested that the Board could identify those categories by focusing on factors such as whether the broker or dealer has custody of, or meaningful access to, client assets, or whether it is exclusively an introducing broker or dealer. These commenters suggested that the Board either should exempt the auditors of low-risk categories of firms from the Board's authority without delay<sup>20</sup> or should collect

---

<sup>15</sup> This description of the scope of matters assessed in an inspection was included in the proposed rule and is included in Rule 4020T(a)(1) adopted today. The language tracks Section 104(a)(1) of the Act describing the scope of matters to be assessed in the Board's inspections of issuer auditors. The inclusion of that same scope language in Rule 4020T follows from Section 104(a)(2)'s provision that a Board program of inspections of auditors of brokers and dealers be "in accordance with" Section 104(a)(1). Two commenters suggested that the Board clarify the meaning of "related matters involving brokers and dealers" so that registered firms can fully understand the Board's expectations relative to the performance of audits. *See* letters of KPMG LLP and Center for Audit Quality. The effect of the phrase, however, is not to authorize inspecting against arbitrary, unstated expectations but, rather, is to authorize inspecting for compliance with the Act, rules, and standards to the extent any such provisions apply in contexts related to audits of brokers and dealers.

<sup>16</sup> The temporary rule for an interim inspection program will take effect once the Commission approves the final temporary rule. Before later adopting any final rules for a permanent program of inspection, the Board would seek public comment on proposed rules for such a program. Final rules for a permanent program would take effect only if separately approved by the Commission, a process that typically includes a separate round of public notice and comment.

<sup>17</sup> *See* Bachus-Garrett letter, letters from Certain Members of Congress, the American Institute of Certified Public Accountants, California Society of Certified Public Accountants, Center for Audit Quality, Chris Barnard (January 27, 2011), Grant Thornton LLP, KPMG LLP, National Association of Independent Broker Dealers, Third Party Marketers Association, and Financial Services Institute.

<sup>18</sup> *See* letters from the Center for Audit Quality, Chris Barnard, Grant Thornton LLP, and KPMG LLP.

<sup>19</sup> *See* letter from KPMG LLP.

<sup>20</sup> *See* letters from the American Institute of Certified Public Accountants, National Association of Independent Brokers and Dealers, and Third Party Marketers Association.

and study currently available data on the question before subjecting auditors of all brokers and dealers to an inspection program.<sup>21</sup> One commenter expressed concern that PCAOB regulation would significantly increase the cost of an audit to these entities, potentially forcing some of them out of business, with no corresponding contribution to meaningful protection of investors.<sup>22</sup> Other commenters similarly expressed concern that the costs of compliance with PCAOB regulation may negatively impact auditors of introducing brokers and dealers, which are typically small businesses.<sup>23</sup>

After considering these comments, the Board has decided to adopt a temporary rule for an interim program of the same scope as proposed. The inclusive scope of the interim program should not be construed as either foreshadowing the likely scope of a permanent program or suggesting that every broker or dealer auditor will be inspected as part of the interim program. The Board expects to be able to gather the information necessary to inform its consideration of a permanent program without having to inspect most firms during the interim program. The Board anticipates carefully considering whether there should be exemptions from the permanent program based on some of the characteristics highlighted by commenters and mentioned above and possibly other factors. For example, the Board expects to give consideration to whether a broker's or dealer's meaningful access to client assets is a relevant factor in determining the investor protection and public interest benefits of PCAOB oversight of the auditor of that broker or dealer. The Board continues to believe, however, that information gathered during the course of the interim program will be relevant to making appropriate judgments about that question and other significant elements of a permanent inspection program. While data of the type submitted by commenters who favor immediate exemptions will also be relevant to those judgments, the Board is not at the present time prepared to conclude that such data is the only type of information that will be relevant or that an analysis of all such data necessarily compels the exemptions urged by these commenters.

## B. Nature and Focus of Procedures in the Interim Program

The substantive focus of inspection procedures under the temporary rule will be on compliance with applicable Board and Commission rules and professional standards. At this time, the standards that apply to audits of brokers and dealers have not changed from what they were before the Dodd-Frank amendments. The Commission has provided transitional guidance on this point, stating that "references in Commission rules and staff guidance and in the federal securities laws to GAAS [Generally Accepted Auditing Standards] or to specific standards under GAAS, as they relate to non-issuer brokers or dealers, should continue to be understood to mean auditing standards generally accepted in the United States of America, plus any applicable rules of the Commission."<sup>24</sup>

The Board recognizes that the applicable standards refer to the role of interpretive publications, including auditing guidance in Audit and Accounting Guides

---

<sup>21</sup> See letters from Certain Members of Congress and the Financial Services Institute.

<sup>22</sup> See letter from the Financial Services Institute.

<sup>23</sup> See Bachus-Garrett letter; letter from Certain Members of Congress.

<sup>24</sup> Exchange Act Rel. No. 62991 (September 24, 2010). The release includes a footnote, immediately following the phrase "auditing standards generally accepted in the United States of America" quoted above, that reads "Audit and attestation standards established by the AICPA." The release also notes that "[m]any parts of Commission rules and staff guidance related to obligations of brokers and dealers refer to GAAS and contain requirements for audits to be conducted in accordance with GAAS." *Id.* at 2 n.5 (citing, e.g., Rule 17a-5(g)(1) under the Exchange Act).

published by the American Institute of Certified Public Accountants ("AICPA"), and that the AICPA publishes an Audit and Accounting Guide on Brokers and Dealers in Securities. The standards state that such publications "are not auditing standards" but are "recommendations on the application of the [auditing standards] in specific circumstances, including engagements for entities in specialized industries."<sup>25</sup> The standards also provide, however, that the auditor "should be aware of and consider" applicable interpretive publications and that an auditor who does not apply the applicable interpretive guidance "should be prepared to explain how he or she complied with the [auditing standards] addressed by" the guidance.<sup>26</sup>

In assessing compliance during an interim inspection program, the Board will take appropriate account of the interpretive guidance and the fact that the current standards encourage reliance on the guidance. The Board anticipates that an important benefit of an interim inspection program will be to afford the Board a broad view of what actual practice has been in light of the guidance.

In addition, the Board expects that the rules and standards governing broker-dealer audits will evolve during the interim inspection program. The requirement today for brokers and dealers to include audited financial statements in the annual reports they make with the Commission derives from Commission Rule 17a-5 under the Exchange Act, *Reports to be Made by Certain Brokers and Dealers* ("Rule 17a-5"). That rule requires, among other things, that the audit include a review of the accounting system, a review of the internal accounting control and procedures for safeguarding securities, and all procedures necessary to enable the auditor to express an opinion on the following:

- the statements of financial condition, results of operations, and cash flows;
- the computation of net capital pursuant to Rule 15c3-1 under the Exchange Act;
- the computation for determination of reserve requirements pursuant to Exhibit A to Rule 15c3-3 under the Exchange Act; and
- information relating to the possession or control requirements under Rule 15c3-3.<sup>27</sup>

The Commission has announced its intention to propose amendments to update Rule 17a-5.<sup>28</sup>

The Board also has authority to establish, subject to approval by the Commission, professional standards and rules applicable to audits of brokers and dealers. The Board intends to adopt such standards, and related rules,<sup>29</sup> informed at least in part by information gathered early in the interim inspection program. In particular, the Board is evaluating whether to issue or amend auditing or

<sup>25</sup> Statement on Auditing Standards No. 98, AU § 150.05.

<sup>26</sup> Statement on Auditing Standards No. 95, AU § 150.06.

<sup>27</sup> See generally Letter of November 18, 2010, from Robert W. Cook, Director, Commission's Division of Trading and Markets, and James L. Kroeker, Chief Accountant, Commission's Office of the Chief Accountant, to AICPA Stockbrokerage and Investment Banking Expert Panel (available on the Commission's web site at <http://sec.gov/news/whatsnew/wn111810.shtml>).

<sup>28</sup> See Exchange Act Rel. No. 62991 (September 24, 2010).

<sup>29</sup> Current Board rules applicable to the conduct of audits are typically framed in terms of audits of issuers, either specifically or by incorporating other terms that are defined by reference to issuers. This should not be understood generally to mean, however, that none of the Board's current rules apply to registered public accounting firms that audit brokers or dealers. For example, firms that are registered with the Board solely because they audit brokers or dealers have the same obligations as issuer auditors to comply with Board rules on annual and special reporting (Rules 2200-2207).

attestation standards to provide specific procedures regarding the regulatory reports required under SEC Rule 17a-5, such as, among other things, the reports on internal accounting controls and on the procedures for safeguarding customer funds and securities, and the computation of net capital.<sup>30</sup> The Board anticipates that relevant PCAOB standards and rule amendments, if approved by the Commission to supplant the currently applicable standards, will eventually take effect for audits that will be subject to review as part of, though near the end of, the interim inspection program.

## C. Processes Relating to Inspectors' Firm-Specific Observations

As with any Board inspection, the inspection procedures will involve PCAOB inspectors identifying audit deficiencies and bringing them to the firm's attention with the expectation that the firm will address the deficiencies and take steps to avoid future such deficiencies. The Board may report to the Commission and to certain other authorities (including the Financial Industry Regulatory Authority ("FINRA")) information suggesting violations of law or rules, including by brokers and dealers.<sup>31</sup> In addition, if appropriate, information obtained through the interim program may lead the Board to commence an investigation or disciplinary proceeding concerning the conduct of a registered public accounting firm or associated persons of such firms.<sup>32</sup>

A few commenters requested clarification on how the Board will bring deficiencies to the firm's attention and what the Board's expectations would be for the firm to address the issues.<sup>33</sup> Two of those commenters suggested that the Board address that point in the text of the rule.<sup>34</sup>

The details of the process are subject to variation in light of circumstances in any inspection, but, in general, the Board anticipates that communications with firms will follow a course similar to that in inspections of auditors of issuers. That process is not the subject of a rule in the context of issuer audits, nor is it covered by Rule 4020T adopted today.

PCAOB inspectors may at any time discuss issues with the audit engagement team or other representatives of the firm. When PCAOB inspectors identify what appears to them to be a potentially significant issue, they typically describe their observations in a written comment provided to the firm. The firm then has an opportunity to respond in writing and describe its perspective on

---

<sup>30</sup> See *Broker-Dealer Audit Considerations* (PCAOB Staff Briefing Paper for the Board's Standing Advisory Group) (July 15, 2010) at 4 (available on the Board's web site at [http://pcaobus.org/News/Events/Pages/07152010\\_SAGMeeting.aspx](http://pcaobus.org/News/Events/Pages/07152010_SAGMeeting.aspx)).

<sup>31</sup> See Section 104(c) of the Act and PCAOB Rule 4004; see also Sections 104(b)(4)(B)(ii) and 105(b)(5)(B)(ii)(V) of the Act.

<sup>32</sup> In connection with this point, Rule 4020T(b) provides that the terms "audit," "audit report," and "professional standards," when used in the Board's rules on investigation and adjudications or in Rule 3502 on contributing to violations, have the meaning provided in the amended definitions in Section 110 of the Act, rather than the meaning provided in the original definitions in the Act and PCAOB Rule 1001. This makes clear that the Board's enforcement rules—which encompass, among other things, "the provisions of the securities laws relating to the preparation and issuance of audit reports and the obligations and liabilities of accountants with respect thereto"—encompass the obligations of auditors with respect to audit reports for brokers and dealers, such as those obligations are set out in Rule 17a-5. The Board intends separately to propose comprehensive conforming amendments to align all of its existing rules, including the definitions of terms, with the Dodd-Frank amendments.

<sup>33</sup> See letters from the Center for Audit Quality, McGladrey & Pullen, LLP, and KPMG LLP.

<sup>34</sup> See letters from the Center for Audit Quality and McGladrey & Pullen, LLP.

any aspect of the inspection observation. Firm responses to written comments are carefully considered and, depending upon the circumstances, may result in further dialogue to clarify issues.

In the issuer audit inspection context, this process culminates in a draft inspection report provided to the firm, followed by a final inspection report. In the absence of unusual circumstances, however, the interim program process will not include firm-specific inspection reports. Instead, in cases where a firm has provided written responses, inspection staff will provide the firm with feedback describing the inspection staff's views after having considered the response. The formality of that feedback may vary with the circumstances; but in any case in which the firm has provided a written response to a comment the firm will have an opportunity to discuss with the inspection team the inspection team's view of the issues in light of the firm's response.<sup>35</sup>

The proposing release included references to the possibility of firm-specific inspection reports during the interim program.<sup>36</sup> Commenters sought clarification on what they saw as a tension between references to that possibility and the statement in the proposing release that the Board would expect results of inspection procedures performed under the interim program to be included in firm-specific reports, if at all, only after rules for a permanent program take effect.

The Board intends for inspection procedures performed on a firm as part of the interim program to constitute a foundational portion of the first inspection of the firm's audit practice related to brokers and dealers, which would be completed after a permanent program is established. This means that, for firms that audit brokers or dealers but not issuers, the Board does not expect to issue a firm-specific inspection report unless and until a permanent program replaces the interim program, the firm is included in the scope of the permanent program, and the firm has been inspected under the permanent program.<sup>37</sup> Unusual circumstances, however, could give rise to exceptions. As a precaution in light of that possibility, the Board has incorporated in the final version of Rule 4020T the provisions of PCAOB Rule 4007, Procedures Concerning Draft Inspection

---

<sup>35</sup> As in the case of inspection observations that appear in inspection reports, the Board would expect a firm to respond to such notice of an apparent audit deficiency by assessing the firm's present ability to support its previously expressed opinion (including performing additional procedures if necessary) and taking appropriate action in accordance with standards and rules if the firm determines that it cannot support its previously expressed opinion. To the extent that inspection observations suggest potential defects in a firm's system of quality control, the Board expects that a firm would take the initiative to improve its quality control policies and procedures, even in the absence of a firm-specific inspection report (and the corresponding inapplicability of PCAOB Rule 4009).

<sup>36</sup> The proposing release stated that nothing in the temporary rule "would necessarily preclude the Board from issuing a firm-specific inspection report on, or including, inspection observations from the interim program before a permanent program takes effect." Proposing release at 11, n.21. The proposing release also noted that inspection procedures performed in the interim program would be carried out in accordance with, and subject to, the provisions of Section 104 of the Act, including provisions concerning a firm's opportunities to respond to a draft inspection report and to seek Commission review of certain matters in a final inspection. *See* proposing release at 6, n.10.

<sup>37</sup> While the interim program is in place, a Board inspection of a firm that performs audit work for issuers and for brokers or dealers would include the full, regular inspection—including the firm-specific inspection report—of the firm's issuer practice. Such an inspection could also include inspection procedures under the interim program with respect to the firm's broker and dealer practice. As with firms that audit brokers or dealers but not issuers, the Board, absent unusual circumstances, would not incorporate any evaluation of the firm's broker and dealer practice into the public portion of a firm-specific report before the report on the first inspection of the firm that occurs after a permanent program takes effect and would not include observations from the interim program procedures in the nonpublic portion of any such report.

Reports, PCAOB Rule 4008, Procedures Concerning Final Inspection Reports, and PCAOB Rule 4009, Firm Response to Quality Control Defects.<sup>38</sup>

Commenters expressed concern about including observations from the interim inspection program in a firm-specific inspection report that may be issued years later, after the permanent program is established and after the relevant standards and rules, as well as the firm's practices, may have changed. The commenters urged the Board to reconsider including observations from interim program procedures in the first firm-specific report.<sup>39</sup> These commenters also requested clarification on whether the eventual report would present cumulative findings or deficiencies observed.

During the interim program, the Board will be obtaining a broad view of practice related to audits of brokers and dealers under current standards and interpretive guidance, and at the same time the standards and rules applicable to the audits will be evolving. Having both that broad view and the new standards as a foundation will be helpful to making consistent and meaningful evaluations of the types of quality control issues that, going forward, firms need to address in their practices related to audits of brokers and dealers. It is possible that observations from interim program procedures will be relevant to the Board's inspection-related dialogue with a particular firm—though not necessarily with every firm—even after standards and rules have changed, and it may be appropriate for aspects of those observations to be included in the first inspection report that addresses the firm's audit practice related to audits of brokers and dealers. The Board does not contemplate that firms' first reports will routinely serve as historical records of all observations from interim program procedures. Depending on the circumstances, however, aspects of some observations may retain their relevance to an assessment of audit quality issues at a particular firm even at the time of the first report, and those aspects may be discussed in a report. If that occurs, the Board intends that the report will make clear the timing of the original inspection observation at issue.

## D. General Reports During the Inspection Period

The temporary rule provides that the Board will publish a report on the interim program no less frequently than every twelve months, beginning twelve months after the date the rule takes effect and continuing until rules for a permanent program take effect. Each report will describe the progress of the interim program and any significant observations that either may bear on the Board's consideration of a permanent program or the publication of which may otherwise be appropriate to protect the interests of investors or to further the public interest. As is typical of Board inspection reports, consistent with restrictions imposed by the Act,<sup>40</sup> the reports will not identify brokers or dealers the audits of which are the subject of observations described in the report. As is also typical of general Board reports collecting observations from numerous inspections, the reports will not identify the registered public accounting firm or firms to which the observations relate.

---

<sup>38</sup> Rule 4007 was not incorporated in the version of Rule 4020T that the Board proposed, and commenters noted the discrepancy between the omission of a provision incorporating Rule 4007 and the proposing release's references to the possibility of firm-specific inspection reports. To fully address that discrepancy, the Board has also incorporated Rules 4008 and 4009 in the final version of Rule 4020T.

<sup>39</sup> See letters from the Center for Audit Quality, McGladrey & Pullen, LLP, and KPMG LLP.

<sup>40</sup> See Section 105(b)(5)(A) of the Act; See Statement Concerning the Issuance of Inspection Reports, PCAOB Release No. 104-2004-001 (August 26, 2004) ("Statement Concerning Inspection Reports") at 4-6.

Commenters supported the Board's proposal to publish a report at least annually on the progress of the interim inspection program.<sup>41</sup> Some commenters suggested that the Board include in the report sufficient details on the nature and types of brokers and dealers inspected and group the inspection observations based on these classifications to help public accounting firms understand the specific issues identified in the report.<sup>42</sup> The Board will take those suggestions into consideration when preparing the progress reports.

## E. Voluntary Cooperation

When Rule 4020T takes effect, cooperation with Board inspection procedures under the interim program will be mandatory for registered firms and their associated persons. The proposing release also noted, however, that even before the rule takes effect, the Board might conduct relevant procedures with the voluntary cooperation of certain firms. Two commenters inquired about the Board's expectations for voluntary cooperation.<sup>43</sup> Specifically, commenters sought clarification on whether the procedures with which the Board may request voluntary cooperation would include actual inspections of audits of brokers and dealers or be limited in scope. These commenters also requested information on the timing of the voluntary cooperation and the identity of registered public accounting firms expected to cooperate voluntarily.

The proposing release was not alluding to any expectation for particular firms to cooperate voluntarily, or to a view that there is a particular scope of procedures to which firms should voluntarily consent. The Board's ongoing inspections of auditors of issuers include inspections of some firms that audit brokers and dealers in addition to issuers. During regular inspections of any such firm's issuer audit practice before Rule 4020T takes effect, inspection staff may discuss with the firm the possibility of the firm submitting voluntarily to inspection procedures concerning its audit practice related to brokers and dealers. The Board does not contemplate discussing the possibility of voluntary cooperation with any firm that the Board is not otherwise inspecting because of the firm's issuer audit practice.

## F. Duration of the Interim Program

If the Commission approves Rule 4020T, the Board anticipates carrying out procedures under the interim program until rules for a permanent program take effect. The Board anticipates being in a position to propose rules for a permanent program by 2013.

On the 14th day of June, in the year 2011, the foregoing was, in accordance with the bylaws of the Public Company Accounting Oversight Board,

ADOPTED BY THE BOARD.

## Appendix—Amendments to Board Rules

The Board amends Section 1 of its rules by adding notes following Rules 1001(a)(v), 1001(a)(vi), and 1001(p)(vi), and Section 4 of its rules by adding Rule 4020T. The text of the notes and Rule is set out below.

### RULES OF THE BOARD

#### SECTION 1. GENERAL PROVISIONS

\* \* \*

#### Rule 1001. Definitions of Terms Employed in Rules

\* \* \*

##### (a)(v) Audit

\* \* \*

Note: Effective [insert effective date of Rule 4020T], pursuant to Rule 4020T, when used in Rule 3502, Section 5 of the Rules of the Board, or the definition of "disciplinary proceeding" in Rule 1001(d)(i), the term "audit" has the meaning provided in Section 110 of the Act.

##### (a)(vi) Audit Report

\* \* \*

Note: Effective [insert effective date of Rule 4020T], pursuant to Rule 4020T, when used in Rule 3502, Section 5 of the Rules of the Board, or the definition of "disciplinary proceeding" in Rule 1001(d)(i), the term "audit report" has the meaning provided in Section 110 of the Act.

\* \* \*

##### (p)(vi) Professional Standards

\* \* \*

Note: Effective [insert effective date of Rule 4020T], pursuant to Rule 4020T, when used in Rule 3502, Section 5 of the Rules of the Board, or the definition of "disciplinary proceeding" in Rule 1001(d)(i), the term "professional standards" has the meaning provided in Section 110 of the Act.

\* \* \*

#### SECTION 4. INSPECTIONS

\* \* \*

#### Rule 4020T. Interim Inspection Program Related to Audits of Brokers and Dealers

##### (a) Purposes of Interim Inspection Program

This rule provides for an interim program of inspection in connection with audits of brokers and dealers in order, among other things—

- (1) to assess the degree of compliance of registered public accounting firms and their associated persons with the Act, the Board's rules, the Commission's rules, and professional standards in connection with the performance of audits, issuance of audit reports, and related matters involving brokers and dealers;

- (2) to inform the Board's consideration, in connection with establishing a permanent program of inspection to assess the matters described in paragraph (1), of—
  - (i) whether to differentiate among classes of brokers and dealers;
  - (ii) whether to exempt any category of public accounting firms; and
  - (iii) the establishment of minimum inspection frequency schedules.

**(b) Definitions**

When used in this rule, the term "interim program," means the interim program of inspection described in paragraph (c). When used in this rule, Rule 3502, Section 5 of the Rules of the Board, or the definition of "disciplinary proceeding" in Rule 1001(d)(i), the terms "audit," "audit report," and "professional standards" have the meaning provided in Section 110 of the Act.

**(c) Interim Program of Inspection**

On an interim basis, the Board shall conduct a program of inspection, for the purposes described in paragraph (a), that may include inspection procedures to assess the policies, practices, and procedures of any registered public accounting firm related to the performance of audits or the issuance of audit reports for any broker or dealer after July 21, 2010 and related matters involving brokers and dealers. The provisions of Rules 4000(b), 4000(c), 4004, 4006, 4007, 4008, 4009 and 4010 shall apply to the interim program.

**(d) Reporting**

No less frequently than every twelve months, beginning twelve months after the date this rule takes effect and continuing until rules for a permanent program of inspection in connection with audits of brokers and dealers take effect, the Board will publish a report that describes the progress of the interim program, including data about the number of registered public accounting firms and the number of broker or dealer audits that have been subjected to inspection procedures and any significant observations from those procedures.

## PCAOB Release No. 2011-002

# ***Board Funding: Final Rules for Allocation of the Board's Accounting Support Fee Among Issuers, Brokers, and Dealers, and Other Amendments to the Board's Funding Rule***

PCAOB Release No. 2011-002

June 14, 2011

PCAOB Rulemaking

Docket Matter No. 033

## **Summary**

After public comment, the Public Company Accounting Oversight Board ("PCAOB" or the "Board") is adopting amendments to its funding rules to provide for the equitable allocation and assessment among brokers and dealers of an appropriate portion of the accounting support fee established under the Sarbanes-Oxley Act of 2002, as amended by the Dodd-Frank Wall Street Reform and Consumer Protection Act. The amendments also make certain revisions to the Board's existing rules for the allocation and assessment among issuers of an appropriate portion of the accounting support fee. The funding rules are in Section 7 of the PCAOB Rules and related definitions are in PCAOB Rule 1001. Certain issuers, brokers, dealers, and registered accounting firms are affected by the amendments to the Board's funding rules. The amendments will take effect upon approval by the U.S. Securities and Exchange Commission ("SEC" or "Commission").

## **Board Contacts**

Robert E. Burns, Associate General Counsel (202/207-9153, [burnsr@pcaobus.org](mailto:burnsr@pcaobus.org)); Nina Mojiri-Azad, Assistant General Counsel (202/207-9035, [mojiriazadn@pcaobus.org](mailto:mojiriazadn@pcaobus.org)); or Annie Braswell, Manager of Accounting (202/207-9223, [braswella@pcaobus.org](mailto:braswella@pcaobus.org)).

\* \* \* \* \*

## **I. Introduction**

Section 109 of the Sarbanes-Oxley Act of 2002 (the "Sarbanes-Oxley Act"), as originally enacted, provided that funds to cover the Board's annual budget (less registration and annual fees paid by public accounting firms<sup>1</sup>) would be

---

<sup>1</sup> Section 102(f) of the Sarbanes-Oxley Act, states that registered public accounting firms shall pay fees sufficient for the Board to recover the costs of processing and reviewing registration applications and annual reports.

collected from issuers<sup>2</sup> based on each issuer's relative average, monthly equity market capitalization.<sup>3</sup> The amount due from issuers was referred to as the Board's "accounting support fee."

Section 982 of the Dodd-Frank Wall Street Reform and Consumer Protection Act<sup>4</sup> (the "Dodd-Frank Act") granted the Board oversight of the audits of brokers and dealers registered with the Commission.<sup>5</sup> To provide funds for the Board's oversight of those audits, the Dodd-Frank Act amended Section 109 of the Sarbanes-Oxley Act to require that the Board allocate a portion of the accounting support fee among brokers and dealers, or classes of brokers and dealers, based on their relative "net capital (before or after any adjustments)."<sup>6</sup>

Accordingly, on December 14, 2010, the Board published for public comment proposed amendments to its funding rules to provide for a portion of the accounting support fee to be allocated among brokers and dealers with average, quarterly tentative net capital of greater than \$5 million.<sup>7</sup>

In addition to the proposals related to brokers and dealers, the Board proposed amendments to its funding rules with respect to the allocation of the accounting support fee among issuers. The Board proposed amendments to revise the basis for calculating an issuer's market capitalization to include the market capitalization of all classes of the issuer's voting and non-voting common equity. The Board also proposed to increase the average, monthly market capitalization thresholds in the funding rules for classes of equity issuers and investment companies. Further, based on eight years' experience administering the funding process, the Board proposed technical amendments to the funding rules.

The Board sought comment on all aspects of the proposed rules. The Board received eight comments in total, consisting of four comments from accounting firms, two from associations of accountants or auditors, one from an organization representing independent broker-dealers, and one from a small broker and dealer. Generally, commenters supported the amendments. Accordingly, the rules are being adopted as proposed. Comments from auditing firms and an organization of auditing firms, however, raised issues with one funding rule related to procedures designed to assure collection of the accounting support fee from issuers, brokers, and dealers. For the reasons discussed below, that rule also is being adopted as proposed.

The appendix to this release presents the amendments as incorporated into the Board's rules.

---

<sup>2</sup> Section 2(a)(7) of the Sarbanes-Oxley Act and PCAOB rules define "issuer" to mean an issuer (as defined in Section 3 of the Securities Exchange Act of 1934 ("Exchange Act")), the securities of which are registered under Section 12 of the Exchange Act, or that is required to file reports under Section 15(d) of the Exchange Act, or that files or has filed a registration statement that has not yet become effective under the Securities Act of 1933, and that it has not withdrawn. *See* PCAOB Rule 1001(i)(iii).

<sup>6</sup> Sections 109(d)(2) and 109(h) of the Sarbanes-Oxley Act, which state, in part, that amounts due from brokers and dealers "shall be in proportion to the net capital of the broker or dealer (before or after any adjustments)."

<sup>7</sup> PCAOB Release No. 2010-009, *Board Funding: Proposal for Allocation of the Board's Accounting Support Fee Among Issuers, Brokers, and Dealers, and Other Amendments to the Board's Funding Rules* (December 14, 2010); PCAOB Rulemaking Docket Matter No. 033 (the "proposing release").

## II. Brokers and Dealers

As amended by the Dodd-Frank Act, Section 109 of the Sarbanes-Oxley Act requires that the rules of the Board provide for the equitable allocation, assessment, and collection by the Board of the accounting support fee among issuers, brokers, and dealers, and allow "for differentiation among classes of issuers, brokers, and dealers, as appropriate."<sup>8</sup> This section further provides that "[t]he amount due from a broker or dealer shall be in proportion to the net capital of the broker or dealer (before or after any adjustments), compared to the total net capital of all brokers and dealers (before or after any adjustments), in accordance with rules issued by the Board."<sup>9</sup>

Accordingly, the Board is adopting amendments to its funding rules to allocate a portion of the accounting support fee among brokers and dealers,<sup>10</sup> to establish classes of brokers and dealers for funding purposes, to describe the methods for allocating the appropriate portion of the accounting support fee to each broker and dealer within each class, and to address the collection of the assessed share of the broker-dealer accounting support fee from brokers and dealers.

Pursuant to Section 109(d)(3) of the Sarbanes-Oxley Act, as amended by the Dodd-Frank Act, the PCAOB is to begin the allocation, assessment, and collection of the accounting support fee from brokers and dealers to fund the first full fiscal year beginning after the date of the enactment of the Dodd-Frank Act, which is the Board's 2011 fiscal year. Accordingly, the amendments to its funding rules for brokers and dealers are effective, subject to approval by the SEC, for the allocation, assessment, and collection of the accounting support fee for brokers and dealers in 2011.<sup>11</sup>

### A. The Broker-Dealer Accounting Support Fee

The Report of the Senate Committee on Banking, Housing, and Urban Affairs that accompanied the legislation that would become the Dodd-Frank Act stated:

The Committee expects that the PCAOB will reasonably estimate the amounts required to fund the portions of its programs devoted to the oversight of audits of brokers and dealers, as contrasted to the oversight of audits of issuers, in deciding the total amounts to be allocated to, assessed, and collected from all brokers and dealers. . . . Cost accounting for each program is not required.<sup>12</sup>

In accordance with this expectation, the Board each year will reasonably estimate amounts required to fund the portions of the Board's programs devoted to the oversight of audits of issuers and the amounts required to fund the portions of its programs devoted to the oversight of the audits of brokers and dealers. At the time the Board establishes a total accounting support fee, it also will

---

<sup>8</sup> Section 109(d)(2) of the Sarbanes-Oxley Act. Pursuant to Section 109(e) of the Sarbanes-Oxley Act, the Financial Accounting Standards Board ("FASB") accounting support fee is to be allocated among issuers. Brokers and dealers therefore will not be allocated a portion of the FASB annual accounting support fee.

<sup>9</sup> Section 109(h)(3) of the Sarbanes-Oxley Act.

<sup>10</sup> The PCAOB is amending its rules to add definitions of "broker" and "dealer" consistent with the definitions that the Dodd-Frank Act added to Section 110 of the Sarbanes-Oxley Act. These definitions incorporate the definition of "broker" in Section 3(a)(4) of the Exchange Act and "dealer" in Section 3(a)(5) of the Exchange Act, but only include those brokers or dealers that are required to file a balance sheet, income statement, or other financial statement certified by a registered public accounting firm. See Sections 110(3) and (4) of the Sarbanes-Oxley Act.

<sup>11</sup> The Board expects that the initial allocation, assessment, and collection of the accounting support fee for brokers and dealers will take place during the fall of 2011.

<sup>12</sup> S. Rep. No. 176, 111th Cong., 2d Sess. (April 30, 2010) at 154.

allocate the respective portions of the total accounting support fee among issuers (the "issuer accounting support fee") and among brokers and dealers (the "broker-dealer accounting support fee"). In accordance with Section 109(b) of the Sarbanes-Oxley Act, the Board's budget, which includes the total accounting support fee and the portion of the total accounting support fee to be allocated to issuers and the portion to be allocated to brokers and dealers, is subject to the Commission's approval.

## B. Classes of Brokers and Dealers

The Board is establishing classes of brokers and dealers for funding purposes to allow for the equitable distribution of the accounting support fee. Establishing classes allows the Board to allocate the broker-dealer accounting support fee to those brokers and dealers whose audits, due to their relative size and complexity, may require more Board time and resources during an inspection than other audits of brokers and dealers with relatively small and less complex operations.

Further, because Section 109 requires that allocations be based on a broker's or dealer's net capital "before or after any adjustments," the Board is basing the classes of brokers and dealers on the average "tentative net capital" reported at the end of the calendar quarters during the previous calendar year. "Tentative net capital" is defined in the Board's rules to have the same meaning that the term has in Rule 15c3-1(c)(15) under the Exchange Act.<sup>13</sup> This definition generally provides that the "tentative net capital" of a broker or dealer is its net capital before deducting certain securities haircuts and changes in inventory used in calculating the broker's or dealer's net capital. Because the investment decisions made by a broker or dealer can influence the amount of these deductions and thus influence the net capital calculation, "tentative net capital" may be a more consistent basis for allocation of the broker-dealer accounting support fee. Both net capital and tentative net capital amounts are reported by brokers and dealers on their quarterly FOCUS reports filed on Form X-17A-5.<sup>14</sup>

In considering the effect of this measurement criterion at the proposal phase, the Board reviewed the tentative net capital of 4,656 brokers and dealers as of the third and fourth quarters of 2009 and the first and second quarters of 2010.<sup>15</sup> Registered brokers and dealers had average, quarterly tentative net capital amounts for the four quarters ranging up to approximately \$15.8 billion. Thirty-three brokers and dealers, however, held approximately 80.1% of the total average, quarterly tentative net capital maintained by all 4,656 brokers and dealers. In addition, only 120 brokers and dealers each had average, quarterly tentative net capital in excess of \$100 million, 452 brokers and dealers each had average, quarterly tentative net capital in excess of \$10 million, and 638 brokers and dealers had average, quarterly tentative net capital in excess of \$5 million. The Board has reviewed the tentative net capital of 4,750 brokers and dealers as of the four calendar quarters of 2010 and noted no significant differences with amounts reviewed during the proposal phase of this project.

---

<sup>13</sup> "Tentative net capital" is the net capital of a broker or dealer before certain adjustments. See Rule 15c3-1(c)(15) under the Exchange Act.

<sup>14</sup> See generally, Rule 17a-5 under the Exchange Act. The tentative net capital and net capital amounts may be reported in Part I, II, and IIA of the FOCUS report and are unaudited.

<sup>15</sup> The data used by the Board for these purposes represents data for brokers and dealers that (i) are members of Financial Industry Regulatory Authority ("FINRA") and have designated FINRA as their designated examining authority ("DEA"); or (ii) are members of FINRA and have designated another self-regulatory organization as their DEA but file FOCUS information with FINRA on a voluntary basis.

Approximately 86.3% of the brokers and dealers included in the statistics reviewed by the staff have average, quarterly tentative net capital of less than \$5 million. At the same time, the total average, quarterly tentative net capital for all brokers and dealers in that group was approximately 1.1% of the total average, quarterly tentative net capital for all brokers and dealers. Conversely, approximately 13.7% of all brokers and dealers have approximately 98.9% of the total average, quarterly tentative net capital.

Based on the above analysis, which illustrates the significant number of brokers and dealers with average, quarterly tentative net capital of less than \$5 million, the Board is establishing two classes of brokers and dealers for purposes of the accounting support fee: (1) those with average, quarterly tentative net capital greater than \$5 million and (2) those with average, quarterly tentative net capital less than or equal to \$5 million or not filing audited financial statements pursuant to a Commission rule or other action of the Commission or its staff (sometimes referred to as a "\$5 million threshold" in this release).<sup>16</sup> The average would be based on the tentative net capital as of the end of the calendar quarters of the calendar year immediately prior to the Board's calculation of the broker-dealer accounting support fee.<sup>17</sup>

### C. Allocation of the Broker-Dealer Accounting Support Fee

Consistent with Section 109 of the Sarbanes-Oxley Act, the PCAOB funding rules being adopted today allocate to brokers and dealers in the class with average, quarterly tentative net capital greater than \$5 million a share of the broker-dealer accounting support fee based on a ratio where the numerator is the average, quarterly tentative net capital of the broker or dealer for the calendar quarters of the immediately prior calendar year and the denominator is the sum of the average, quarterly tentative net capital of all the brokers and dealers in this class.

Under the funding rules being adopted today, brokers and dealers with average, quarterly tentative net capital equal to or less than \$5 million will be allocated a share of the broker-dealer accounting support fee equal to zero.<sup>18</sup> The Board chose the \$5 million tentative net capital threshold because it was concerned

---

<sup>16</sup> Brokers or dealers with larger tentative net capital amounts may be "clearing" or "carrying" brokers and dealers rather than "introducing" brokers and dealers. Because of the nature of their businesses, audits of the compliance reports for clearing or carrying brokers and dealers may require more testing and documentation than audits of introducing brokers and dealers. PCAOB inspections of audits of brokers' and dealers' financial statements and examinations of reports regarding compliance with Commission and regulatory requirements of brokers and dealers with larger amounts of tentative net capital, consequently, may require more Board resources.

<sup>17</sup> Brokers and dealers generally file quarterly reports within 17 business days after the end of the calendar quarter. *See*, for example, Rules 17a-5(a)(2)(ii) and (iii) under the Exchange Act.

<sup>18</sup> Assigning a broker or dealer a share of the accounting support fee equal to zero when its average, quarterly tentative net capital is equal to or less than \$5 million does not affect the Board's oversight of the audits of that broker or dealer. The Dodd-Frank Act amendments to the Sarbanes-Oxley Act state that if the Board establishes a program of inspection for audits of brokers and dealers, it shall consider whether differing inspection schedules are appropriate for auditors of brokers or dealers that do not receive, hold, or handle customer securities, and that the Board may exempt certain auditors from its inspection program and, consequently, from registration with the Board. *See* Section 104(a)(2) of the Sarbanes-Oxley Act. Any Board decisions in these matters would be made only after additional rulemakings specific to the Board's inspection and registration programs for auditors of brokers and dealers and would be subject to Commission approval. If the Board decides at a later time that auditors of certain groups of brokers or dealers are exempt from the Board's inspection program and, therefore, eligible to withdraw from registration with the PCAOB, no share or portion of any accounting support fee paid by any broker or dealer would be refundable.

that, due to the concentration of the industry's aggregate tentative net capital among relatively few brokers and dealers, the allocation of the broker-dealer accounting support fee below the \$5 million threshold could impose a relatively costly administrative burden on many smaller brokers and dealers. At the same time, based on the Board's analysis, allocating a share of the broker-dealer accounting support fee equal to zero to such small entities should have a negligible effect on the share of the broker-dealer accounting support fee allocated to the larger brokers and dealers.

For example, based on the data for the third and fourth quarters of 2009 and the first and second quarters of 2010, assuming a broker-dealer accounting support fee of \$15 million,<sup>19</sup> if no average, quarterly tentative net capital threshold was applied, 1,557 brokers and dealers would be allocated a share of the broker-dealer accounting support fee of \$100 or more.<sup>20</sup> The aggregate share of the broker-dealer accounting support fee allocated to brokers and dealers with average, quarterly tentative net capital of \$5 million or less, however, would be \$141,700, representing 0.9% of the assumed \$15 million broker-dealer accounting support fee.

Under the \$5 million threshold, assuming a broker-dealer accounting support fee of \$15 million, approximately 638 brokers and dealers would be allocated a share of the broker-dealer accounting support fee. Under this threshold, 919 fewer brokers and dealers are allocated a share of the broker-dealer accounting support fee. In addition, under the \$5 million threshold, the share of the broker-dealer accounting support fee assessed to brokers and dealers with average, quarterly tentative net capital less than \$45 million (but above the \$5 million threshold) would be the same as under the no threshold scenario discussed above.<sup>21</sup> The share of the broker-dealer accounting support fee assessed to brokers and dealers with average, quarterly tentative net capital greater than \$45 million under the \$5 million threshold would increase by less than 2.0% of the assessed share of the fee under the no threshold scenario.

Because the accounting support fee will be divided into an issuer accounting support fee and a broker-dealer accounting support fee, it is possible that affiliated entities may be allocated separate shares of both the issuer and broker-dealer accounting support fees. For example, if an issuer has one or more broker or dealer subsidiaries, the issuer may be allocated a share of the issuer accounting support fee and each broker or dealer subsidiary may be allocated a share of the broker-dealer accounting support fee. The allocations are designed to support oversight programs tailored to the audits of different types of entities. The issuer is responsible for payment of the allocated share of the issuer accounting support fee and each broker-dealer subsidiary is responsible for payment of its allocated share of the broker-dealer accounting support fee.

---

<sup>19</sup> On November 23, 2010, the Board approved its 2011 budget, which included a total accounting support fee of approximately \$202.3 million. The allocated portion of the total accounting support fee to brokers and dealers, which is referred to as the broker-dealer accounting support fee, was approximately \$14.4 million for 2011. There is no assurance that future broker-dealer accounting support fees will be the same as the 2011 broker-dealer accounting support fee.

<sup>20</sup> The allocated share for each of the remaining 3,099 brokers and dealers would be less than \$50 and, therefore, under the Board's rules rounded down to zero. See PCAOB Rule 7103(a).

<sup>21</sup> The allocated share of the broker-dealer accounting support fee for 48 out of 441 brokers and dealers with average, quarterly tentative net capital between \$5 million and \$45 million may increase by \$100 because the additional allocated amount would result in the unrounded allocated share being \$50 more than a multiple of \$100 and, therefore, under the Board's rules rounded up to the nearest \$100. See PCAOB Rule 7103(a). For a more detailed discussion of the Board's analysis, see the proposing release.

## D. Collection

The Board is adopting amendments to its rules regarding the assessment and collection of the accounting support fee to include appropriate references to brokers and dealers.

Currently, if a share of the accounting support fee allocated to an issuer is past-due<sup>22</sup> and the issuer has not filed a petition with the Board seeking correction of its assigned share, then, with certain exceptions, no registered public accounting firm is permitted to sign an unqualified audit opinion with respect to that issuer's financial statements or to sign a consent to the use of prior audit opinions for that issuer. The same concept is being extended to brokers and dealers in that no registered public accounting firm is permitted to sign an audit report or a document, report, notice, or other record concerning procedures or controls for a broker or dealer if its share of the broker-dealer accounting support fee is past-due and no petition for correction has been filed. In addition, for issuers with one or more broker or dealer subsidiaries, if the share of the accounting support fee allocated either to the issuer or any of its broker or dealer subsidiaries is past due and no petition for correction has been filed with respect to that share, no registered public accounting firm may sign an audit report for that issuer.

As explained in the proposing release, to avoid unnecessarily preventing issuers from timely access to the capital markets, the funding rules contain a limited exception to this prohibition on the signing of audit reports and the issuance of consents. The exception was originally adopted because an issuer may have a past-due share of the accounting support fee at a time when, in order to access or preserve its ability to access the capital markets in a timely manner, the issuer needs to submit a report to, or make a filing with, the Commission and the issuer must include an auditor's opinion or consent in that report or filing. If circumstances cause an issuer to rely upon the exception, however, the funding rules have required the issuer to submit an electronic notice to the Board no later than the next business day after the filing is made with the Commission.<sup>23</sup> The rule limits the use of the exception to a single 15 business day period beginning on the earlier of the date of the filing with the Commission or the date of the notice to the Board.

The Board is extending this exception so that it will be available when brokers and dealers, including brokers or dealers that are subsidiaries of issuers, have an outstanding past-due share of the accounting support fee. Under the rules being adopted today, therefore, if the conditions of the rule are met, a registered public accounting firm may sign an unqualified audit opinion or provide a consent to the use of a previously issued audit report with respect to the financial statements of not only an issuer but also a broker or dealer even though the issuer, broker, dealer, or a broker or dealer subsidiary of an issuer, has outstanding a past-due share of the accounting support fee and has not filed a petition for correction. For example, if a broker subsidiary of an issuer has an outstanding past-due share of the broker-dealer accounting support fee, and the broker

---

<sup>22</sup> Pursuant to PCAOB Rule 7104(a), payment is due 30 days after the notice setting forth the allocated share of the accounting support fee to the issuer is sent. Under the Board's current rules, the "notice" referenced in Rule 7104(a) relates to the document sent by the Board setting forth an entity's share of the accounting support fee under Section 109 of the Sarbanes-Oxley Act and the Board's funding rules. The Board is adopting amendments to replace the term "notice" with "invoice" in its funding rules so as not to cause any confusion with the definition of "audit" and "audit report," which both now contain a reference to "notice."

<sup>23</sup> See PCAOB Release No. 2003-02, Amended SEC Filing Form 19b-4 (June 30, 2003). As discussed elsewhere in this release, the Board is amending this rule to require that the notice be filed by the registered public accounting firm instead of the issuer.

subsidiary needs an audit report in order to submit a report to, or make a filing with, the Commission, then, provided the specific conditions in Rule 7104(b) are met, the subsidiary's registered public accounting firm is permitted to sign an unqualified audit opinion with respect to that broker subsidiary's financial statements or issue a consent to include an audit report issued previously.

Under the terms of the rule, however, the exception may be invoked only once with respect to any share of the accounting support fee that a broker or dealer is assessed in a given year.<sup>24</sup> Accordingly, using the example above, the exception could not be invoked again with respect to the outstanding broker-dealer accounting support fee balance if the broker's issuer parent later needs an audit report in order to submit a report to, or make a filing with, the Commission. The outstanding broker-dealer accounting support fee balance would have to be paid before the issuer parent's registered public accounting firm signs an unqualified audit opinion or issues a consent to include an audit report issued previously with respect to that issuer's financial statements. After the broker-dealer accounting support fee is paid, however, the issuer parent could invoke the exception with respect to an outstanding, past-due share of the issuer's accounting support fee.

A note added to the funding rules states that for the purposes of the prohibition on signing unqualified audit reports for issuers, brokers, and dealers with past-due shares of the accounting support fee, the term "audit" means an examination of the financial statements, reports, documents, procedures, controls, and notices of any issuer, broker, or dealer by a registered accounting firm for the purpose of expressing an opinion on the financial statements or providing an audit report. "Audit report" in these circumstances means a document, report, notice, or other record prepared following an audit performed for purposes of compliance by an issuer, broker, or dealer with the requirements of the securities laws and in which the auditor either (i) sets forth an opinion of the firm regarding the financial statement, report, notice, or other document, procedures, or controls, or (ii) asserts that no such opinion can be expressed.<sup>25</sup> These are the same definitions found in new Section 110 of the Sarbanes-Oxley Act. These definitions recognize that auditors today not only examine entities' financial statements but, for larger issuers, auditors also examine internal control over financial reporting, and, for brokers and dealers, auditors further issue mandated reports under Rule 17a-5 and other applicable regulations.

In addition, consistent with the provisions in the funding rules applicable to issuers, the revised funding rules provide that if the Board does not receive payment within 30 days of a broker or dealer being notified of its share of the accounting support fee, the payment will be deemed past due and interest will accrue at a rate of 6% per year. If payment is not received by the 90th day after the original notice was sent, the Board may report the nonpayment to the Commission or the broker's or dealer's designated examining authority, which may pursue appropriate disciplinary action in accordance with its rules.<sup>26</sup> Section 109(h)(1) of the Sarbanes-Oxley Act, as amended by the Dodd-Frank Act, provides that "[e]ach broker or dealer shall pay to the Board the annual accounting support fee allocated to such broker or dealer under this section."

---

<sup>24</sup> See PCAOB Rule 7104(b), which states "[t]his exception to paragraph (b)(1) of this Rule . . . may not be invoked for more than one such period with respect to any share of the accounting support fee that the issuer, broker, or dealer is assessed under Rule 7103."

<sup>25</sup> In connection with other rulemaking projects, the Board may consider amending its rules to apply more broadly the definitions of "audit" and "audit report" in Section 110 of the Sarbanes-Oxley Act. If such rulemaking occurs, the Board may revisit the need for this Note in the funding rules.

<sup>26</sup> For issuers, nonpayment of PCAOB accounting support fee would continue to be a violation of Section 13(b)(2)(C) of the Exchange Act.

## E. Public Comment Process and Board Responses

In response to the proposed rules, the Board received three comment letters that addressed establishing classes of brokers and dealers and allocating the broker-dealer accounting support fee. Commenters supported these rules and, in particular, the proposal to have portions of the fee paid only by brokers and dealers with at least \$5 million in tentative net capital.<sup>27</sup>

Additional commenters raised issues regarding re-designated Rule 7104(b), *Determination of Payment of Accounting Support Fees by Registered Accounting Firm*. This rule is designed to encourage payment of the accounting support by issuers, brokers, and dealers by prohibiting auditors from signing certain audit opinions and consents to the use of prior opinions unless the appropriate fee has been paid to the PCAOB. An exception to this prohibition, however, is available under specific circumstances. If under the circumstances described in Rule 7104(b) a registered public accounting firm signs an unqualified audit opinion or issues a consent to include an audit report issued previously, that firm must submit a notice to the Board that it and the issuer, broker, or dealer are relying on the exception.<sup>28</sup> The commenters questioned whether the rule is necessary, opposed shifting the requirement to submit the notice from the issuer (or broker or dealer)<sup>29</sup> to the auditor,<sup>30</sup> and one commenter requested that Note 1 to this rule include the word "solely" to indicate that an auditor may determine that the fee has been paid solely by obtaining a representation from management to that effect.<sup>31</sup>

The Board adopted the predecessor to new Rule 7104(b) in 2003 as part of the original funding rules. As stated in the adopting release for the funding rules in 2003, the collection measures in the rules are intended to ensure the reliability of the independent funding source the Sarbanes-Oxley Act provides for the Board and to promote fairness to all entities allocated a share of the accounting support fee.<sup>32</sup> This rule may be part of the reason collection of the accounting support fee has worked as intended and the Board has experienced a high collection rate of the accounting support fee. Accordingly, subject to Commission approval, the rule will continue to be part of the Board's funding rules.

Some commenters opposed shifting to auditors the requirement to submit a notice to the Board that the exception in Rule 7104(b) has been used and that an auditor opinion or consent has been signed and filed with the Commission despite non-payment of the accounting support fee. These commenters indicated that the issuer, and potentially the broker or dealer, should make this submission because (1) it is the issuer (or broker or dealer) that is delinquent with its share of the fee, (2) it is the issuer (or broker or dealer) that is filing its documents with the Commission, and (3) a process already has been established with issuers under the existing rule.<sup>33</sup> One commenter noted statements in the proposing release expressing that it is the issuer's circumstances that cause

---

<sup>27</sup> Letters from the National Association of Independent Broker Dealers, Terminus Securities LLC, and the California Society of Certified Public Accountants.

<sup>28</sup> See note 23, *supra*.

<sup>29</sup> The original PCAOB rule applied only to issuers. The amended rule applies to issuers, brokers, and dealers.

<sup>30</sup> See the letters from the Center for Audit Quality; Deloitte & Touche LLP; KPMG LLP; McGladrey & Pullen, LLP; and PricewaterhouseCoopers LLP.

<sup>31</sup> See the letter from Deloitte & Touche LLP.

<sup>32</sup> See Board Funding: Establishment of Accounting Support Fee, PCAOB Release No. 2003-003 (April 18, 2003).

<sup>33</sup> See the letters from the Center for Audit Quality; Deloitte & Touche LLP; KPMG LLP; McGladrey & Pullen, LLP; and PricewaterhouseCoopers LLP.

the use of the exception and that submission of the notice is not a condition for reliance on the exception and does not affect the validity of the auditor's opinion or consent. The commenter indicated that given those statements, it is not appropriate to shift the burden for the notice to the auditor.<sup>34</sup>

Shifting the responsibility to the auditor to make the submission, however, better aligns the rule with the Board's general oversight authority over registered public accounting firms. Furthermore, over the past eight years, the Board has received only a few notices under this rule. A cursory review of SEC filings by issuers with outstanding accounting support fee balances, however, provides anecdotal evidence that more notices should have been filed. Such omissions to file might be due to issuers being relatively unfamiliar with PCAOB rules or unaware of the potential consequences of not complying with a PCAOB rule. Auditors should be more familiar with the Board's rules. Also, placing the obligation on auditors to file such notices may make application of the rule more readily subject to the Board's review. Accordingly, the rule is being adopted as proposed.

Finally, one commenter asked that the word "solely" be added to Note 1 to proposed Rule 7104(b) in order to make clear that to satisfy the obligation to determine that the fee has been paid by the issuer, broker, or dealer, the auditor only has to receive a management representation to that effect.<sup>35</sup> While the Board has said that it is sufficient if an auditor determines an issuer's payment of the accounting support fee by obtaining a management representation of payment,<sup>36</sup> auditors also may determine such payments through other means. For example, an auditor also may determine an issuer's payment of the accounting support fee by checking the "List of Issuers with No Outstanding Past-Due Share of the Accounting Support Fee" that is posted on the Board's website.<sup>37</sup> Adding the word "solely" to the Note could result in some firms mistakenly believing that the Board prefers management representations over other equivalent means of determining such payments. The rule, therefore, is being adopted as proposed.

### III. Issuers

The Board also is adopting amendments to its existing rules for the allocation, assessment, and collection of the issuer accounting support fee. The amendments to the issuer funding rules are effective, subject to approval by the Commission, for the allocation, assessment, and collection of the 2012 accounting support fee for issuers.<sup>38</sup>

#### A. Definitions of Market Capitalization and Common Equity

The Board's rules historically have defined the terms "issuer market capitalization" and "market capitalization of an issuer" to be the aggregate market value of all classes of an issuer's common stock that trade in the United States.

---

<sup>34</sup> See the letter from McGladrey & Pullen, LLP.

<sup>35</sup> See the letter from Deloitte & Touche LLP.

<sup>36</sup> See Question 26 of the Frequently Asked Questions—The Accounting Support Fee and the Funding Process, dated April 22, 2011. The Frequently Asked Questions are located at <http://pcaobus.org/About/Ops/Pages/SupportFeeFAQ.aspx>.

<sup>37</sup> The list is located at [http://pcaobus.org/About/Ops/Documents/Support%20Fee/Issuers\\_Paid.pdf](http://pcaobus.org/About/Ops/Documents/Support%20Fee/Issuers_Paid.pdf).

<sup>38</sup> The Board's allocation, assessment, and collection of the accounting support fee for issuers typically takes place during the first half of the Board's fiscal year.

Determining an issuer's market capitalization based on its outstanding common stock, however, has led to interpretive issues, such as whether an entity's "common stock" includes limited partnership units or interests, securities convertible into common stock, rights or options to purchase common stock, and other categories of securities.

To reduce issues regarding the meaning of "common stock" in the Board's rules, the Board is amending the definition of "issuer market capitalization" and "market capitalization of an issuer" to replace the reference to "common stock" with a reference to "voting and non-voting common equity." As amended, references in the Board's rules to an issuer's "market capitalization" are to the issuer's aggregate market value of all classes of voting and non-voting common equity traded in the United States.<sup>39</sup>

The definition of "common equity" being adopted by the Board tracks the definition in Rule 12b-2 under the Exchange Act. As applied by the Board for funding purposes, the amount of common equity considered in deriving an issuer's market capitalization is based on any class of common stock or equivalent interest, any beneficial interest in a trust or a limited partnership interest, and any other security that the Commission, by rule, deems to treat as common equity.

## **B. Classes of Issuers**

The Board also is adopting amendments to the descriptions of the existing classes of issuers. The funding rules adopted by the Board in 2003 identified four classes of issuers: (1) equity issuers whose average, monthly market capitalization during the preceding calendar year is greater than \$25 million, (2) investment company issuers (and entities that have elected to be regulated as business development companies) whose average, monthly market capitalization during the preceding calendar year is greater than \$250 million, (3) issuers that, as of the date the accounting support fee is calculated (i) do not have to file financial statements pursuant to Commission rule or other action of the staff of the Commission, (ii) are employee stock purchase, savings, and similar plans, or (iii) are subject to the jurisdiction of a bankruptcy court and satisfy the modified reporting requirements of Commission Staff Legal Bulletin No. 2 ("SLB No. 2"), and (4) all other issuers.

The Board is amending the description of the classes of issuers in two significant ways. First, the Board is raising the average, monthly market capitalization threshold for the first two classes of issuers. Second, the Board is changing the description of issuers that are subject to the jurisdiction of a bankruptcy court and satisfy the modified reporting requirements of SLB No. 2.

### **1. Change in Average, Monthly Market Capitalization Threshold**

The Board is adopting amendments that raise the average, monthly market capitalization threshold during the preceding calendar year for the first class of issuers from \$25 million to \$75 million. Equity issuers with a market capitalization between \$25 million and \$75 million, therefore, are moving from the first class to the fourth class and will be allocated a share of the accounting support fee equal to zero. The Board notes that the aggregate issuer accounting support fee collected from equity issuers with average, monthly market capitalizations between \$25 million and \$75 million during the past seven years has been a relatively small part (less than 0.4%) of the Board's total accounting

---

<sup>39</sup> See PCAOB Rule 1001(i)(1).

support fee from equity issuers.<sup>40</sup> At the same time, approximately 1,100 equity issuers, representing approximately 22.6% of all equity issuers assessed a fee in 2010, have average, monthly market capitalization within that range.<sup>41</sup> In addition, not allocating a share of the issuer accounting support fee to these issuers appears to have a negligible effect on the amounts allocated to other issuers.

The Board similarly is raising the average, monthly market capitalization threshold for the second class of issuers consisting of investment company issuers (and business development companies) currently subject to allocation of the support fee from \$250 million to \$500 million.<sup>42</sup> Investment companies (including business development companies) with average, monthly market capitalizations between \$250 million and \$500 million, therefore, are moving from the second class to the fourth class and will be allocated a share of the accounting support fee equal to zero. The Board notes that the aggregate fees collected from investment company issuers (including business development companies) with average, monthly market capitalizations between \$250 million and \$500 million during the past seven years have been a relatively small part (approximately 5.1%) of the Board's total accounting support fee from investment companies.<sup>43</sup> At the same time, approximately 1,450 investment companies, representing approximately 33.4% of all investment companies assessed a share of the issuer accounting support fee in 2010, have average, monthly market capitalization within that range.<sup>44</sup> In addition, as discussed below, not allocating a share of the

---

<sup>40</sup> The Board's use and calculation of \$75 million in market capitalization for funding purposes should not be confused with the criteria to determine whether an issuer is deemed an "accelerated filer," as defined by Rule 12b-2 under the Exchange Act. Under that rule, an issuer is an accelerated filer if, among other things, it has an aggregate worldwide market value of the voting and non-voting common equity held by non-affiliates (i.e., public float) of \$75 million or more as of the end of the issuer's second quarter. *See* Release No. 33-8128 (September 5, 2002).

<sup>41</sup> The aggregate FASB accounting support fee collected on behalf of FASB from equity issuers with average, monthly market capitalizations between \$25 million and \$75 million for the 2010 accounting support fee was a relatively small part (less than 0.4%) of the FASB accounting support fee from equity issuers despite the fact that approximately 1,100 equity issuers, representing approximately 22.6% of all equity issuers assessed a fee, have average, monthly market capitalization within that range.

<sup>42</sup> Under the Board's original funding rules, market capitalization for an investment company issuer whose shares are not traded on a national exchange or quoted on NASDAQ was the investment company's net asset value. As noted in the proposing release, since the Board's adoption of its funding rules in 2003, NASDAQ Stock Market LLC has become a national securities exchange under Commission rules. In light of this change, the Board proposed to revise PCAOB Rule 1001(i)(i)(2) by replacing the reference to NASDAQ with a reference to the "OTC Bulletin Board." After further consideration, however, the Board does not believe the proposed reference in the rule to the "OTC Bulletin Board" is necessary and believes it is preferable for its rules not to refer to any particular market that is currently in operation. Accordingly, PCAOB Rule 1001(i)(i)(2) is being amended today to replace the phrase "quoted on NASDAQ" with the phrase "whose share price is not otherwise publicly available." This is consistent with the current requirement contained in Rule 7101(a)(2), which references the public availability of the share price in describing investment company issuers eligible to be assessed a share of the issuer accounting support fee. Therefore, starting in 2012, the market capitalization for an issuer that is an investment company whose shares are not traded on a national exchange or whose share price is not otherwise publically available, will be the investment company's net asset value.

<sup>43</sup> Approximately 7.9% of the 2010 accounting support fee was allocated to investment companies. Under the Board's funding rules, when allocating the issuer accounting support fee to investment companies, 10% of the investment company issuer's actual average monthly market capitalization or net asset value is used in the calculation. Accordingly, the amount of the issuer accounting support fee allocated to investment companies over the past seven years has represented a relatively small portion (average of approximately 6.2%) of the total issuer accounting support fee assessed.

<sup>44</sup> The aggregate fees collected on behalf of FASB from investment company issuers (including business development companies) with average, monthly market capitalizations between \$250 million and \$500 million for the 2010 accounting support fee was a relatively small part (approximately 5.3%)

*(continued)*

issuer accounting support fee to these investment companies appears to have a negligible effect on the amounts allocated to other investment companies.

Raising the threshold for the first class of issuers from \$25 million in average, monthly market capitalization to \$75 million and raising the threshold for the second class of issuers from \$250 million in average, monthly market capitalization to \$500 million should have a negligible effect on the amounts allocated to issuers under Section 109 of the Sarbanes-Oxley Act.<sup>45</sup>

Generally, equity issuers with average, monthly market capitalization of approximately \$600 million or greater are likely to see an increase in their allocated share of the issuer accounting support fee.<sup>46</sup> Each entity's allocated share of the fee increases, however, by approximately 1% or less. For investment company issuers, on average, the allocated share of the accounting support fee increases for entities with average, monthly market capitalization of approximately \$4 billion or greater, with the entity's allocated share of the fee increasing by approximately 2% or less.<sup>47</sup> Accordingly, the amendments to the average, monthly market capitalization for class one and two issuers should not result in a significant increase in any issuer's assessed share of the accounting support fee.<sup>48</sup> The Board has reviewed the impact of increasing the threshold for equity company issuers and investment company issuers using the information from the allocation, assessment, and collection of the 2011 accounting support fee for issuers and noted no significant differences with amounts reviewed during the proposal phase of this project.

## **2. Modified Reporting Requirements of SLB No. 2**

The Board also is amending the description of the class of issuers that are not assessed a share of the accounting support fee because they are in bankruptcy. As noted above, under the Board's funding rules adopted in 2003, issuers that are under the jurisdiction of a bankruptcy court and "satisfy the modified reporting requirements of Commission Staff Legal Bulletin No. 2" are in the third class and are assigned a share of the accounting support fee equal to zero.<sup>49</sup>

SLB No. 2 states that an issuer under the jurisdiction of a bankruptcy court may request that the Commission's Division of Corporation Finance ("Division")

---

*(footnote continued)*

of the FASB accounting support fee from investment companies despite the fact that approximately 1,450 investment companies, representing approximately 33.4% of all investment companies assessed a share of the FASB accounting support fee in 2010, have average, monthly market capitalization within that range.

<sup>45</sup> The changes to the thresholds for the first and second classes of issuers are also applicable to the allocation of the FASB accounting support fee, which pursuant to Section 109(e) of the Sarbanes-Oxley Act is allocated among issuers only.

<sup>46</sup> The allocated share of the issuer accounting support fee for 465 out of 1,190 equity issuers with average, monthly market capitalization between \$75 million and \$600 million may increase by \$100 because the additional allocated amount could result in the unrounded allocated share being \$50 more than a multiple of \$100 and, therefore, under the Board's rules, rounded up to the nearest \$100. See PCAOB Rule 7103(a).

<sup>47</sup> The allocated share of the issuer accounting support fee for 327 out of 2,367 investment companies with average, monthly market capitalization between \$500 million and \$4 billion may increase by \$100 because the additional allocated amount could result in the unrounded allocated share being \$50 more than a multiple of \$100 and, therefore, under the Board's rules rounded up to the nearest \$100. See PCAOB Rule 7103(a).

<sup>48</sup> For a detailed discussion of the Board's analysis, see the proposing release.

<sup>49</sup> SEC Staff Legal Bulletin No. 2 (CF) (April 15, 1997), available at <http://sec.gov/interp/legal/slbcf2.txt>, reflects the views of the Commission's Division of Corporation Finance that companies under the jurisdiction of a bankruptcy court are not relieved of their reporting obligations under the securities laws but, upon the satisfaction of certain conditions, may file reports that "differ in form or content" from the reports required under the Exchange Act.

provide a "no-action" letter indicating that the Division will not recommend enforcement action if the issuer files with the Commission modified reports in lieu of the reports required under the Exchange Act. SLB No. 2 describes the information and assertions that should be in a request for a "no-action" letter, including information related to the issuer's financial condition, prior compliance with Exchange Act filing requirements, the timing of the announcement by the issuer of its bankruptcy filing, the issuer's ability to continue to file Exchange Act reports, and a description of the current market for and trading in the issuer's securities.<sup>50</sup>

Although acceptance of modified reports is at the discretion of the Commission staff, there is no requirement in SLB No. 2 or elsewhere that an issuer in bankruptcy ask the Division for a "no-action" letter prior to filing modified reports. Such "no-action" requests are voluntary. An issuer in bankruptcy may choose to file modified reports without providing the Division with the information and assertions in SLB No. 2.<sup>51</sup> Because the Board's funding rules, however, are based on whether an issuer has "satisf[ie]d" the modified reporting requirements" of SLB No. 2, when the issuer has not requested or not received a "no-action" letter from the Division, the PCAOB staff has been placed in the position of having to evaluate available public information to determine whether the conditions in SLB No. 2 are satisfied. To address such situations, PCAOB staff generally has requested that issuers provide an analysis demonstrating its compliance with the conditions set forth in SLB No. 2 and/or an opinion of counsel that the issuer meets the conditions set forth in SLB No. 2.<sup>52</sup>

The Board is amending its rules to require that in order to be assigned a share of the accounting support fee equal to zero, an issuer that is subject to the jurisdiction of a bankruptcy court and asserts that it falls within the third class of issuers provide an opinion of counsel that the issuer satisfied the modified reporting requirements of Commission Staff Legal Bulletin No. 2 as of the date that the issuer accounting support fee is calculated. This amendment is consistent with the staff's past practices as noted above. The impact of this amendment is believed to be negligible on the amounts allocated and assessed to issuers under Section 109 of the Sarbanes-Oxley Act.<sup>53</sup>

## C. Public Comment Process and Board Responses

One commenter supported the Board's proposals to amend the basis for calculating the issuer's market capitalization to include the market capitalization of all classes of an issuer's voting and non-voting common equity and to increase the average monthly market capitalization thresholds in the funding rules for classes of equity issuers and investment companies.<sup>54</sup> The Board did not receive any comments on the proposed description of the class of issuers that are not assessed a share of the accounting support fee because they are in bankruptcy.

As noted above, additional commenters raised issues regarding re-designated Rule 7104(b), *Determination of Payment of Accounting Support Fees by Registered Accounting Firm*. This rule is designed to encourage payment of the

---

<sup>50</sup> Id.

<sup>51</sup> The Commission may deem such a filing to be deficient and not to satisfy the issuer's obligations under the Exchange Act and Commission rules and forms.

<sup>52</sup> See Question 15 of the Frequently Asked Questions—The Accounting Support Fee and the Funding Process, dated April 22, 2011. The Frequently Asked Questions are located at <http://pcaobus.org/About/Ops/Pages/SupportFeeFAQ.aspx>.

<sup>53</sup> For the 2008-2010 accounting support fees, 26 equity issuers that were allocated a share of the accounting support fee had filed for bankruptcy.

<sup>54</sup> See the letter from the California Society of Certified Public Accountants.

accounting support fee by issuers, brokers, and dealers by prohibiting auditors from signing certain audit opinions and consents to the use of prior opinions unless the appropriate fee has been paid to the PCAOB. An exception to this prohibition, however, is available under specific circumstances and conditions, including the submission of a notice to the Board that the auditor and the issuer, broker or dealer are relying on the exception.<sup>55</sup> The commenters questioned whether the rule is necessary, opposed shifting the requirement to submit the notice from the issuer (or broker or dealer)<sup>56</sup> to the auditor,<sup>57</sup> and one commenter requested that Note 1 to this rule include the word "solely" to indicate that an auditor may determine that the fee has been paid solely by obtaining a representation from management to that effect.<sup>58</sup> For the reasons discussed above in part II.E. of this release, the rule is being adopted as proposed.

## IV. Other amendments to the Board's Funding Rules

The Board also is adopting certain technical changes to its funding rules. The most significant of these changes are listed below.

- Rule 7100—The Board is making certain changes to Rule 7100 to reflect that the Board establishes a total accounting support fee each year as part of its budget process.<sup>59</sup> In addition, the amendment to Rule 7100 reflects the Board's obligation under Section 109 of the Sarbanes-Oxley Act to equitably allocate the total accounting support fee between issuers, as a group, and brokers and dealers, as a group.
- Notes to Rule 7101—The Board is adopting technical changes to the notes to Rules 7101(a)(1) and (2) to clarify how an entity's monthly market capitalization is calculated and that such calculation includes market capitalization information for all classes of the issuer's voting and non-voting common equity, consistent with the amendments to the definition of "issuer market capitalization" discussed above.
- Rule 7103(c)—The Board is extending the time frame within which any issuer, broker, or dealer may petition the Board for correction of the class in which it has been placed or its allocated share of the accounting support fee. Under the amended rules, an issuer, broker, or dealer would have 60 days, rather than 30 days, after an invoice is sent to submit a petition for correction. In addition,

---

<sup>55</sup> See note 23, *supra*.

<sup>56</sup> The original PCAOB rule applied only to issuers. The amended rule applies to issuers, brokers, and dealers.

<sup>57</sup> See the letters from the Center for Audit Quality; Deloitte & Touche LLP; KPMG LLP; McGladrey & Pullen, LLP; and PricewaterhouseCoopers LLP.

<sup>58</sup> See the letter from Deloitte & Touche LLP.

<sup>59</sup> The PCAOB Budget is approved by the Board in the preceding calendar year and must be approved by the Commission. PCAOB Rule 7101(a) refers to the date the issuer accounting supporting fee is calculated. This date is referred to as the "calculation date." As discussed in Question 4 of the Frequently Asked Questions—The Accounting Support Fee and the Funding Process, the issuer calculation date represents the date as of which the allocation of the issuer accounting support fee is determined for equity issuers and investment company issuers. The Frequently Asked Questions are located at <http://pcaobus.org/About/Ops/Pages/SupportFeeFAQ.aspx>. See also Rule 7102(a), as amended, which contains a similar reference to the date the broker-dealer accounting support fee is calculated. Under the amendments to the funding rules, this date is referred to as the "broker-dealer calculation date."

the Board is codifying its existing practice of considering petitions received after the deadline when there is good cause to do so.<sup>60</sup>

- Rule 7104(b)—The Board is adopting amendments to replace the word "Confirmation" with "Determination" in the caption for Rule 7104(b) and to delete the reference in Note 1 to the rule to obtaining a confirmation from the Board that no past due share of the accounting support fee is outstanding. This amendment clarifies that registered public accounting firms are not required to confirm with the Board whether an issuer broker, or dealer has any outstanding past due share of the accounting support fee prior to signing an unqualified audit opinion, consenting to including an audit report issued previously, or signing a document, report, notice, or other record concerning procedures or controls of any issuer, broker, or dealer required under the securities laws. Confirmation with the Board is one of a number of procedures that a registered public accounting firm may use in determining whether an issuer, broker, or dealer has any outstanding past-due share of the accounting support fee.<sup>61</sup>

The Board did not receive any comments on these technical amendments,<sup>62</sup> and they are being adopted as proposed.

## V. Effective Date

Pursuant to Section 109(d)(3) of the Sarbanes-Oxley Act, as amended by the Dodd-Frank Act, the PCAOB is required to begin the allocation, assessment, and collection of the accounting support fee from brokers and dealers to fund the first full fiscal year beginning after the date of the enactment of the Dodd-Frank Act, which is the Board's 2011 fiscal year. Accordingly, the amendments to the Board's funding rules are effective, subject to approval by the SEC, for the allocation, assessment, and collection of the 2011 broker-dealer accounting support fee for brokers and dealers and its 2012 issuer accounting support fee for issuers.

On the 14th day of June, in the year 2011, the foregoing was, in accordance with the bylaws of the Public Company Accounting Oversight Board,

ADOPTED BY THE BOARD  
/s/ J. Gordon Seymour  
J. Gordon Seymour  
Secretary  
June 14, 2011

---

<sup>60</sup> See Question 6 in the Frequently Asked Questions—The Accounting Support Fee and the Funding Process. The Frequently Asked Questions are located at <http://pcaobus.org/About/Ops/Pages/SupportFeeFAQ.aspx>.

<sup>61</sup> See Questions 22-26 in the Frequently Asked Questions—The Accounting Support Fee and the Funding Process. The Frequently Asked Questions are located at <http://pcaobus.org/About/Ops/Pages/SupportFeeFAQ.aspx>.

<sup>62</sup> As noted above, commenters raised issues with respect to other aspects of Rule 7104(b), including the procedures an auditor may use to determine whether an issuer, broker, or dealer has an outstanding past-due share of the accounting support fee. See parts II.E. and III.C. of this release.

## Appendix—Amendments to Board Rules

The relevant portions of Sections 1 and 7 of the Board's rules are amended as set out below. Language deleted by these amendments is struck through. Language that is added is underlined.

### RULES OF THE BOARD

#### Section 1. GENERAL PROVISIONS

##### Rule 1001. Definitions of Terms Employed in Rules.

\* \* \*

##### **(a)(i) ~~Accounting Support Fee~~ [Reserved]**

~~The term "Accounting Support Fee" means the fee described in Rule 7100 Sarbanes-Oxley Act of 2002, as amended.~~

##### **(a)(iii) Act**

The term "Act" means the Sarbanes-Oxley Act of 2002, as amended.

\* \* \*

##### **(b)(iii) Broker**

The term "broker" means a broker (as defined in Section 3(a)(4) of the Exchange Act), that is required to file a balance sheet, income statement, or other financial statement under Section 17(e)(1)(A) of that Act, where such balance sheet, income statement, or financial statement is required to be certified by a registered public accounting firm.

##### **(b)(iv) Broker-Dealer Accounting Support Fee**

The term "broker-dealer accounting support fee" means the portion of the accounting support fee established by the Board that is to be allocated among brokers and dealers pursuant to the rules of the Board.

\* \* \*

##### **(c)(iii) Common Equity**

The term "common equity" means any class of common stock or an equivalent interest, including but not limited to a unit of beneficial interest in a trust or a limited partnership interest.

\* \* \*

##### **(d)(iii) Dealer**

The term "dealer" means a dealer (as defined in Section 3(a)(5) of the Exchange Act), that is required to file a balance sheet, income statement, or other financial statement under Section 17(e)(1)(A) of that Act, where such balance sheet, income statement, or financial statement is required to be certified by a registered public accounting firm.

\* \* \*

##### **(i)(i) Issuer Market Capitalization**

The terms "issuer market capitalization" and "market capitalization of an issuer" mean—

- (1) Except as provided in paragraph (i)(i)(2) of this rule, the aggregate market value of all classes of an issuer's voting and non-voting common ~~common~~ stock ~~equity~~ that trade in the United States; or

(2) With respect to an issuer: (i) that is registered under Section 8 of the Investment Company Act or has elected to be regulated as a business development company pursuant to Section 54 of the Investment Company Act, and (ii) whose securities are not traded on a national securities exchange or whose quoted on Nasdaq share price is not otherwise publicly available, the issuer's net asset value.

**(i)(v) Issuer Accounting Support Fee**

The term "issuer accounting support fee" means the portion of the accounting support fee established by the Board that is to be allocated among issuers pursuant to the rules of the Board.

\* \* \*

**(in)(vi) Notice Invoice**

The term "~~notice invoice~~" means the document sent by the Board to an issuer, ~~broker, or dealer~~, pursuant to Rule 7103~~2~~, setting forth such issuer's, ~~broker's, or dealer's~~ share of the accounting support fee under Section 109 of the Act and Rules 7101, ~~and~~ 7102, and 7103.

\* \* \*

**(s)(v) Self-Regulatory Organization**

The term "self-regulatory organization" means any national securities exchange, registered securities association, or registered clearing agency, or (solely for purposes of Sections 19(b), 19(c), and 23(b) of the Exchange Act) the Municipal Securities Rulemaking Board established by Section 15B of the Exchange Act.

\* \* \*

**(t)(ii) Tentative Net Capital**

The term "tentative net capital" has the same meaning as such term is defined under Rule 15c3-1(c)(15) under the Exchange Act.

**(t)(iii) Total Accounting Support Fee**

The term "total accounting support fee" means the fee described in Rule 7100.

\* \* \*

**SECTION 7. FUNDING**

\* \* \*

**Rule 7100. Accounting Support Fees.**

The Board shall ~~calculate~~ establish a total accounting support fee each year in accordance with the Act. The total accounting support fee shall be equitably allocated between issuers (the "issuer accounting support fee") and brokers and dealers- (the "broker-dealer accounting support fee"). The accounting support fee shall equal the budget of the Board, as approved by the Commission, less the sum of all registration fees and annual fees received during the preceding calendar year from public accounting firms, pursuant to Section 102(f) of the Act and the Rules of the Board. The accounting support fees shall then be equitably allocated among issuers, in accordance with Rule 7101(b), and among brokers and dealers, in accordance with Rule 7102(b).

**Rule 7101. Allocation of Issuer Accounting Support Fee.****(a) Classes of Issuers**

For purposes of allocating the issuer accounting support fee, those entities that are issuers as of the date the issuer accounting support fee is calculated ~~under Rule 7100~~ shall be divided into four classes:

**(1) Equity Issuers**

All issuers whose average, monthly issuer market capitalization is greater than \$75 million during the ~~preceding~~ calendar year preceding the date the issuer accounting support fee is calculated ~~is greater than \$25 million~~, other than those described in paragraphs (a)(2) and (a)(3) of this Rule, and whose share price on a monthly, or more frequent, basis is publicly available.

Note: ~~The Average, m~~monthly issuer market capitalization will be based on closing ~~stock share prices~~ of all classes of the issuer's voting and non-voting common equity on the closest trading day on or before the last day of each calendar month ~~measured during which trading in the common equity occurred.~~

**(2) Investment Company Issuers**

All issuers (i) who, as of the date the accounting support fee is calculated ~~under Rule 7100~~, are registered under Section 8 of the Investment Company Act or have elected to be regulated as business development companies pursuant to Section 54 of the Investment Company Act, other than those described in paragraph (a)(3), (ii) whose average, monthly issuer market capitalization is greater than \$500 million during the ~~preceding~~ calendar year preceding the date the issuer accounting support fee is calculated ~~is greater than \$250 million~~, and (iii) whose share price (or net asset value) on a monthly, or more frequent, basis is publicly ~~available~~.

Note: ~~Average~~The, monthly issuer market capitalization will be based on closing ~~stock share prices~~ of all classes of the issuer's voting and non-voting common equity on the closest trading day on or before the last day of each calendar month ~~measured during which trading in the common equity occurred.~~

**(3) Issuers Permitted Not to File Audited Financial Statements and Bankrupt Issuers that File Modified Reports**

All issuers that, as of the date the issuer accounting support fee is calculated ~~under Rule 7100~~, (i) have a basis, under the federal securities laws, a Commission rule, or pursuant to other action of the Commission or its staff, not to file audited financial statements with the Commission, (ii) are employee stock purchase, savings, and similar plans, interests in which constitute securities registered under the Securities Act, or (iii) are subject to the jurisdiction of a bankruptcy court and satisfy have provided an opinion of counsel that the issuer satisfies the modified reporting requirements of Commission Staff Legal Bulletin No. 2.

Note: ~~As of April 16, 2003,~~ Issuers within paragraph (a)(3)(i) of this Rule include (A) asset-backed issuers, (B) unit investment trusts, as defined in Section 4(2) of the Investment Company Act, that have not filed or updated a registration statement that became effective during the ~~preceding~~ calendar year preceding the date the issuer accounting support fee is calculated, and (C) Small Business Investment Companies registered on Form N-5 under the Investment Company Act, that have not filed or updated a registration statement that became effective during the calendar year preceding the date the issuer accounting support fee is calculated ~~preceding year~~.

**(4) All Other Public Company Issuers**

All issuers other than those described in paragraphs (a)(1), (a)(2), or (a)(3) of this Rule.

**(b) Allocation of Issuer Accounting Support Fee Among Issuers**

The issuer accounting support fee shall be allocated among the classes in paragraph (a) of this Rule as follows:

**(1) Equity and Investment Company Issuers**

Each issuer described in paragraph (a)(1) and (a)(2) of this Rule shall be allocated a share of the issuer accounting support fee in an amount equal to the issuer accounting support fee multiplied by a fraction—

(i) the numerator of which is the average, monthly market capitalization of the issuer during the ~~preceding~~ calendar year preceding the date the issuer accounting support fee is calculated, except that for issuers described in paragraph (a)(2) of this Rule, the numerator is one-tenth of the average, monthly issuer market capitalization of the issuer; and

(ii) the denominator of which is the sum of the average, monthly market capitalizations of the issuers described in paragraph (a)(1) of this Rule and one-tenth of the average, monthly market capitalizations of the issuers described in paragraph (a)(2) of this Rule.

**(2) All Other Classes**

Each issuer described in paragraphs (a)(3) and (a)(4) of this Rule shall be allocated a share of the issuer accounting support fee equal to \$0.

**(c) Adjustments**

After the issuer accounting support fee is calculated ~~under Rule 7100~~ and allocated under this Rule, any adjustment to the share allocated to an issuer shall not affect the share allocated to any other issuer.

**Rule 7102. Allocation of Broker-Dealer Accounting Support Fee****(a) Classes of Brokers and Dealers**

For purposes of allocating the broker-dealer accounting support fee, those entities that are brokers or dealers as of the date the broker-dealer accounting support fee is calculated shall be divided into two classes:

**(1) Brokers and Dealers with Average, Quarterly Tentative Net Capital Greater than \$5 million**

All brokers and dealers whose average, quarterly tentative net capital is greater than \$5 million during the calendar year preceding the date the broker-dealer accounting support fee is calculated, other than those described in paragraphs (a)(2) of this Rule.

Note: Average, quarterly tentative net capital will be based on the tentative net capital reported by the broker or dealer in the calendar quarterly reports filed pursuant to Commission rules during the calendar year preceding the date the broker-dealer accounting support fee is calculated.

**(2) Brokers and Dealers Permitted Not to File Audited Financial Statements and Brokers and Dealers Not Described in Paragraph (a)(1) of This Rule**

All brokers and dealers that, as of the date the broker-dealer accounting support fee is calculated, (i) have a basis, under the federal securities laws, a Commission rule, or pursuant to other action of the Commission or its staff, not to file audited financial statements or (ii) are not described in paragraph (a)(1) of this Rule.

**(b) Allocation of Broker-Dealer Accounting Support Fee**

The broker-dealer accounting support fee shall be allocated among the classes in paragraph (a) of this Rule as follows:

**(1) Brokers and Dealers with Average, Quarterly Tentative Net Capital Greater than \$5 million**

Each broker and dealer described in paragraph (a)(1) of this Rule shall be allocated a share of the broker-dealer accounting support fee in an amount equal to the broker-dealer accounting support fee multiplied by a fraction—

(i) the numerator of which is the average, quarterly tentative net capital of the broker or dealer during the calendar year preceding the date the broker-dealer accounting support fee is calculated; and

(ii) the denominator of which is the sum of the average, quarterly tentative net capital of the brokers and dealers described in paragraph (a)(1) of this Rule.

**(2) All Other Brokers and Dealers**

Each broker and dealer described in paragraph (a)(2) of this Rule shall be allocated a share of the broker-dealer accounting support fee equal to \$0.

**(c) Adjustments**

After the broker-dealer accounting support fee is calculated and allocated under this Rule, any adjustment to the share allocated to a broker or dealer shall not affect the share allocated to any other broker or dealer.

**Rule 71032. Assessment of Accounting Support Fees.**

**(a) Amount of Assessment**

Each issuer and each broker and dealer is required to pay its share of the accounting support fee, as allocated under Rules 7101 and 7102, rounded to the nearest hundred \$100.

Note: If the allocated ~~an issuer's~~ share of the accounting support fee to an issuer, broker, or dealer is less than \$50, ~~that issuer~~ the assessed share of the accounting support fee will ~~not be assessed zero~~. If the issuer's allocated share of the accounting support fee is ~~exactly~~ \$50 or \$50 more than ~~a~~ the closest multiple of \$100, then the assessed share will be rounded up to the nearest \$100.

**(b) Notice of Assessment**

The Board will use its best efforts to send an ~~notice~~ invoice to each issuer, broker, and dealer, either electronically or by first-class mail, at the address shown in ~~on such issuer's~~ the most recent periodic report filed with the Commission by the issuer, or with the designated self-regulatory organization by the broker or dealer, at the address ~~submitted to~~ contained in the Commission's EDGAR system or the broker's or dealer's designated self-regulatory organization, or at such other address as the issuer, broker, or dealer provides to the Board.

The Board's failure to send an issuer, broker, or dealer an notice invoice, or the issuer's failure to receive an notice invoice sent by the Board, shall not constitute a waiver of the Board's right to assess the issuer, broker, or dealer ~~such issuer~~ for its share of the accounting support fee or of the issuer's, broker's, or dealer's responsibility to pay its share of the accounting support fee.

**(c) Petition for Correction**

Any issuer, broker, or dealer who disagrees with the class in which it has been placed, or with the calculation by which its share of the accounting support fee was determined, may petition the Board for a correction of the share of the accounting support fee it was allocated. Any such petition shall include an explanation of the nature of the claimed mistake in classification or calculation in writing and must be filed with the Board, on or before the ~~60~~<sup>60</sup>th day after the notice invoice is sent, or within such longer period as the Board allows for good cause shown. After a review of such a petition, the Board will determine whether the allocation is consistent with Section 109 of the Act and the Board's rules thereunder and provide the issuer a written explanation of its decision. The provisions of Rule 7104~~3~~ shall be suspended while such a petition is pending before the Board.

**Rule 7104~~3~~. Collection of Accounting Support Fees.**

**(a) Accounting Support Fee Payment Due Date**

Unless the Board directs otherwise, payment shall be due on the 30th day after the notice invoice is sent. Beginning on the 31st day, payment shall be deemed past due and interest shall accrue at a rate of 6 percent per annum.

**(b) ~~Confirmation Determination~~ of Payment of Accounting Support Fees by Registered Accounting Firm**

(1) Except as provided in paragraph (b)(2) of this Rule, no registered public accounting firm shall:

- (i) sign an unqualified audit opinion with respect to an issuer's, broker's, or dealer's financial statements, ~~or~~
- (ii) issue a consent to include an audit ~~opinion~~ report issued previously, or
- (iii) sign a document, report, notice, or other record concerning procedures or controls of any issuer, broker, or dealer required under the securities laws

unless the registered public accounting firm has ascertained that the issuer (including any broker or dealer subsidiary of the issuer), broker, or dealer has outstanding no past-due share of the issuer accounting support fee or broker-dealer accounting support fee, whichever is applicable, or has a petition pursuant to Rule 7103~~2~~<sup>2</sup>(c) pending.

(2) A registered public accounting firm may:

- (i) sign an unqualified audit opinion with respect to an issuer's, broker's, or dealer's financial statements, ~~or~~
- (ii) issue a consent to include an audit ~~opinion~~ report issued previously, or
- (iii) sign a document, report, notice, or other record concerning procedures or controls of any issuer, broker, or dealer required under the securities laws

even though the issuer (including any broker or dealer subsidiary of the issuer), broker, or dealer has outstanding a past-due share of the accounting support fee and has not filed a petition under Rule 7103~~2~~<sup>2</sup>(c), if the issuer, broker, or dealer needs the audit report or consent in order to submit a report to, or make a filing with, the Commission or, in the case of an issuer only, to issue securities.

The issuer, registered public accounting firm shall submit to the Board a notice of the signing of the opinion or issuance of the consent not later than the next business day after the filing is made with the Commission. This exception to paragraph (b)(1) of this Rule shall not continue longer than 15 business days after the earlier of the date of the notice's submission or the filing of the report with the Commission, and may not be invoked for more than one such period with respect to any share of the accounting support fee that the issuer, broker, or dealer is assessed under Rule 7103~~2~~.

Note 1: A registered public accounting firm may ascertain that an issuer, broker, or dealer has no outstanding past-due share of the accounting support fee by obtaining a representation from the issuer, broker, or dealer ~~or a confirmation from the Board that no past-due share of the accounting support fee is outstanding.~~

Note 2: A notice pursuant to paragraph (b)(2) of this Rule must be submitted electronically by email to rule7104~~3~~stay@pcaobus.org.

Note 3: For purposes of Rule 7104, the term "audit" means an examination of the financial statements, reports, documents, procedures, controls, or notices of any issuer, broker, or dealer by an independent public accounting firm in accordance with the rules of the Board or the Commission, for the purpose of expressing an opinion on the financial statements or providing an audit report. For purposes of Rule 7104, the term "audit report" means a document, report, notice, or other record (1) prepared following an audit performed for purposes of compliance by an issuer, broker, or dealer with the requirements of the securities laws; and (2) in which a public accounting firm either (i) sets forth the opinion of that firm regarding a financial statement, report, notice, or other document, procedures, or controls; or (ii) asserts no such opinion can be expressed.

**(c) ~~Reports to the Commission of Non-payment of an Accounting Support Fee~~**

(1) If an issuer has not paid its share of the issuer accounting support fee by the 60th day after the notice invoice was sent, and the issuer does not have a petition pursuant to Rule 7102~~3~~(c) pending, the Board may send a second notice invoice to such issuer by certified mail. If the Board has sent such a second notice invoice and has not been paid by the 90th day after the original notice invoice was sent, the Board may report the issuer's nonpayment to the Commission.

Note: Section 13(b)(2) of the Exchange Act provides, in part, that: "Every issuer which has a class of securities registered pursuant to section 12 of this title and every issuer which is required to file reports pursuant to section 15(d) of this title shall—\* \* \* (C) notwithstanding any other provision of law, pay the allocable share of such issuer of a reasonable accounting support fee or fees, determined in accordance with Section 109 of the Sarbanes-Oxley Act of 2002."

(2) If a broker or dealer has not paid its share of the broker-dealer accounting support fee by the 60th day after the invoice was sent, and the broker or dealer does not have a petition pursuant to Rule 7103(c) pending, the Board may send a second invoice to such broker or dealer by certified mail. If the Board has sent such a second invoice and has not been paid by the 90th day after the original invoice was sent, the Board may report the broker's or dealer's nonpayment to the Commission and/or the broker's or dealer's designated self-regulatory organization.

Note: Section 109(h)(1) of the Act provides that "[e]ach broker or dealer shall pay to the Board the annual accounting support fee allocated to such broker or dealer under this section."

**~~(d) Excess Fees~~**

~~If in any Board fiscal year, the Board receives fees in excess of the budget for that fiscal year, the Board shall hold those excess fees in escrow. Such escrowed excess fees shall be released to the Board at the beginning of the next fiscal year and shall reduce the Board's accounting support fee in that next fiscal year.~~

**Rule 71054. Service as Designated Collection Agent.**

If the Board is designated to serve as collection agent for an accounting support fee of a standard-setting body designated by the Commission pursuant to Section 19(b) of the Securities Act, the assessment and collection of the accounting support fee shall be governed by Rules 7103 and ~~2~~ and 71043 as if the accounting support fee of the standard-setting body were the issuer accounting support fee of the Board.

**Rule 7106. ~~(d) Excess Fees Funds.~~**

If in any Board fiscal year, the Board receives ~~fees~~ funds in excess of the budget ~~of the Board~~ for that fiscal year, as approved by the Commission, the Board shall hold those excess ~~fees~~ funds in escrow. Such escrowed excess ~~fees~~ funds shall be released to the Board at the beginning of the next fiscal year and shall reduce the Board's total accounting support fee in that next fiscal year.

---

## PCAOB Release No. 2012-004

# ***Auditing Standard No. 16, Communications with Audit Committees; Related Amendments to PCAOB Standards; and Transitional Amendments to AU Sec. 380***

PCAOB Release No. 2012-004  
August 15, 2012  
PCAOB Rulemaking  
Docket Matter No. 030

### **Summary**

The Public Company Accounting Oversight Board ("PCAOB" or the "Board") is adopting (i) Auditing Standard No. 16, *Communications with Audit Committees*, that would supersede the Board's interim standards AU sec. 380, *Communication With Audit Committees*, and AU sec. 310, *Appointment of the Independent Auditor*, (ii) transitional amendments to AU sec. 380, and (iii) related amendments to PCAOB standards.

### **Board Contacts**

Jennifer Rand, Deputy Chief Auditor (202/207-9206, randj@pcaobus.org), Jessica Watts, Associate Chief Auditor (202/207-9376, wattsj@pcaobus.org), and Hasnat Ahmad, Assistant Chief Auditor (202/207-9349, ahmadh@pcaobus.org).

\* \* \* \* \*

### **I. Introduction**

With the passage of the Sarbanes-Oxley Act of 2002 (the "Act") and the establishment of the PCAOB, Congress acknowledged that auditors play an important role in protecting the interests of investors by preparing and issuing informative, accurate, and independent audit reports.<sup>1</sup> The audit committee<sup>2</sup> also plays an important role in protecting the interests of investors by assisting the board of directors in fulfilling its responsibility to a company's shareholders and others to oversee the integrity of a company's accounting and financial reporting processes and audits. The audit committee, among other things, serves

---

<sup>1</sup> See Section 101(a) of the Act, 15 U.S.C. §7211(a); Senate Report No. 107-206, at 5-6 (July 3, 2002).

<sup>2</sup> The term "audit committee," as defined in Auditing Standard No. 16, is a committee (or equivalent body) established by and among the board of directors of a company for the purpose of overseeing the accounting and financial reporting processes of the company and audits of the financial statements of the company; if no such committee exists with respect to a company, the entire board of directors of the company. For audits of nonissuers, if no such committee or board of directors (or equivalent body) exists with respect to the company, the person(s) who oversee the accounting and financial reporting processes of the company and audits of the financial statements of the company.

as the board of director's principal interface with the company's auditors and facilitates communications between the company's board of directors, its management, and its independent auditors on significant accounting issues and policies. The roles of auditors and audit committees are critical to the efficiency and integrity of the capital markets.

Both the auditor and the audit committee benefit from a meaningful exchange of information regarding significant risks of material misstatement in the financial statements and other matters that may affect the integrity of the company's financial reports. Communications between the auditor and the audit committee allow the audit committee to be well-informed about accounting and disclosure matters, including the auditor's evaluation of matters that are significant to the financial statements, and to be better able to carry out its oversight role. Communications with the audit committee provide auditors with a forum separate from management to discuss matters about the audit and the company's financial reporting process.

The Board is adopting Auditing Standard No. 16, *Communications with Audit Committees* (the "standard"), and related amendments to improve the audit by enhancing communications between auditors and audit committees. Auditing Standard No. 16 will replace interim standards AU sec. 380, *Communication With Audit Committees* ("AU sec. 380"), and AU sec. 310, *Appointment of the Independent Auditor* ("AU sec. 310"). Adoption of the standard is in the public interest because the standard establishes requirements that enhance the relevance, timeliness, and quality of the communications between the auditor and the audit committee. The enhanced relevance, timeliness, and quality of communications should facilitate audit committees' financial reporting oversight, fostering improved financial reporting, thereby benefitting investors.

Auditing Standard No. 16 is aligned with the requirements of the Act. For many public companies, the Act served to strengthen and expand the role of the audit committee in the financial reporting process. For example, the Act requires that audit committee members of listed companies be independent and that audit committees be responsible for the appointment, compensation, and oversight of the work of the external auditor for the purpose of preparing or issuing an audit report or related work.<sup>3</sup> These requirements place the audit committee at the center of the relationship between management of a public company and its auditor.

Auditing Standard No. 16 is intended to improve the audit<sup>4</sup> by fostering constructive dialogue between the auditor and the audit committee about significant audit and financial statement matters. The standard requires the auditor to communicate certain matters regarding the audit and the financial statements to the audit committee, which should assist the audit committee in fulfilling its oversight responsibilities regarding the financial reporting process. Effective two-way communication between the auditor and the audit committee on such relevant matters also will benefit the auditor in performing an effective audit.

Auditing Standard No. 16 encourages effective two-way communication between the auditor and the audit committee throughout the audit to assist both parties in understanding matters relevant to the audit. Communications that are tailored to the circumstances and informative, rather than "boiler-plate" or

---

<sup>3</sup> See Section 301 of the Act and Section 10A(m)(2) of the Securities Exchange Act of 1934 ("Exchange Act"), 15 U.S.C. §78j-1(m)(2).

<sup>4</sup> For purposes of this release and standard, an audit is either an audit of internal control over financial reporting that is integrated with an audit of financial statements or an audit of financial statements only.

standardized, will enable the auditor and the audit committee to engage in a dialogue that is more likely to benefit both the audit committee, in conducting its oversight responsibilities, and the auditor, in conducting an effective audit. Effective communication between the auditor and the audit committee may involve many forms of communication, such as presentations, charts, written reports, or robust discussions.

AU sec. 380, which became effective in January 1989, indicated that audit committee communications are incidental to the audit and are not required to occur prior to the issuance of the auditor's report. In contrast, Auditing Standard No. 16 recognizes the importance of the auditor's communications with the audit committee in today's business and regulatory environment; therefore, Auditing Standard No. 16 requires the auditor to communicate the audit strategy and results of the audit to the audit committee in a timely manner and prior to the issuance of the auditor's report to provide an opportunity for the audit committee and the auditor to take appropriate action to address the matters communicated.

Timely communications with the audit committee help the auditor improve the audit by, among other things (i) informing the audit committee, which has responsibility for the oversight of financial reporting, about significant matters related to the audit and the financial statements, (ii) enabling the auditor to obtain the audit committee's insights and information about transactions and events, (iii) enabling the auditor to learn about complaints regarding accounting or auditing matters, and (iv) assisting the auditor in gaining a better understanding of the company and its control environment.

Auditing Standard No. 16 generally links the new communication requirements to the results of related audit performance requirements in other PCAOB standards, or the conduct of the audit. The standard does not otherwise impose new performance requirements, other than communications. Because other PCAOB standards already require the auditor to perform procedures underlying the communications required in Auditing Standard No. 16, and the standard primarily requires communication of the results of the auditor's procedures, the Board does not anticipate a significant increase in cost as a result of the implementation of the standard.

Some of the matters to be communicated under Auditing Standard No. 16 relate specifically to matters involving management's preparation of the company's financial statements. In many companies, management might communicate these matters or take the lead on communicating these matters to the audit committee. The PCAOB does not have the authority to require management to communicate to the audit committee. Additionally, certain communications by the auditor are mandated by federal securities laws and Securities and Exchange Commission ("SEC") rules.<sup>5</sup> Therefore, Auditing Standard No. 16 establishes required communications by the auditor to the audit committee but, at the same time, clearly recognizes and acknowledges that management might communicate to the audit committee certain matters related to the company's financial statements. In such circumstances, the auditor does not need to communicate those matters at the same level of detail as management, as long as certain conditions are met, as specified in the standard.

Auditing Standard No. 16 is scalable for audits of companies of various sizes and complexities. A company's size and complexity might affect the risks of misstatements, the audit strategy, and other significant matters that warrant

---

<sup>5</sup> See e.g., Section 10A(k) of the Exchange Act, 15 U.S.C. §78j-1(k); SEC Rule 2-07 of Regulation S-X ("SEC Rule 2-07"), 17 C.F.R. §210.2-07; and Rule 10A-3 under the Exchange Act, 17 C.F.R. §240.10A-3.

the attention of the audit committee. Based on the specific company's circumstances, the standard requires communications only to the extent that the matters are relevant to the audit of the financial statements of the company or of internal control over financial reporting. For example, an auditor of a smaller, less complex company with fewer difficult auditing or financial reporting issues may have fewer matters to communicate than the auditor of a larger, more complex company.

## II. Background

On March 29, 2010, the Board proposed a standard, *Communications with Audit Committees* (the "original proposed standard"), to improve the audit by enhancing the relevance and effectiveness of the communications between the auditor and the audit committee.<sup>6</sup> The original proposed standard was informed by, among other things, the increased use of risk-based audit methodologies, the emphasis on judgments and estimates in the financial reporting frameworks and discussions with the Board's Standing Advisory Group ("SAG").<sup>7</sup>

The Board received 35 comment letters on the original proposed standard.<sup>8</sup> Most commenters were supportive of the original proposed standard, although several commenters suggested that additional outreach to stakeholders might be beneficial. The comments were discussed with the SAG on July 15, 2010.<sup>9</sup> Additionally, on September 21, 2010, the Board held a roundtable<sup>10</sup> to obtain insight from additional stakeholders, including investors, audit committee members, auditors, and preparers.<sup>11</sup> The roundtable discussion explored many key issues that commenters had raised in response to the original proposed standard regarding:

- i. Communications beneficial to audit committees;
- ii. Accounting policies, practices, and estimates;
- iii. Effective two-way communication between the auditor and the audit committee;
- iv. Balance between written and oral communications;
- v. Audit committee responsibilities in the engagement letter;
- vi. Management communications; and
- vii. Uncorrected misstatements.

To provide all interested parties with an opportunity for additional comments on the topics discussed at the roundtable, the Board reopened the public comment period on the original proposed standard. The Board received nine additional comment letters during this extended comment period.<sup>12</sup>

---

<sup>6</sup> *Proposed Auditing Standard Related to Communications with Audit Committees and Related Amendments to Certain PCAOB Auditing Standards*, PCAOB Release No. 2010-001 (March 29, 2010).

<sup>7</sup> The SAG discussed the audit committee communications standard at a number of its meetings, including meetings on: June 21-22, 2004, June 8, 2005, October 5-6, 2005, and October 14-15, 2009.

<sup>8</sup> Comments on the original proposed standard are available at <http://pcaobus.org/Rules/Rulemaking/Pages/Docket030Comments.aspx>.

<sup>9</sup> A transcript of the portion of the meeting related to the original proposed standard is available at [http://pcaobus.org/Rules/Rulemaking/Docket030/Communications\\_with\\_Audit\\_Committees.pdf](http://pcaobus.org/Rules/Rulemaking/Docket030/Communications_with_Audit_Committees.pdf).

<sup>10</sup> A listing of the roundtable participants is available at [http://pcaobus.org/News/Releases/Pages/09162010\\_RoundtableParticipants.aspx](http://pcaobus.org/News/Releases/Pages/09162010_RoundtableParticipants.aspx).

<sup>11</sup> A transcript of the roundtable is available at [http://pcaobus.org/Rules/Rulemaking/Docket030/Roundtable\\_Transcript.pdf](http://pcaobus.org/Rules/Rulemaking/Docket030/Roundtable_Transcript.pdf).

<sup>12</sup> Comments on the original proposed standard are available at <http://pcaobus.org/Rules/Rulemaking/Pages/Docket030Comments.aspx>.

The original proposed standard was revised in response to comments received in comment letters and at the roundtable, and discussions with the SAG. The Board repropose the standard for public comment on December 20, 2011 (the "reproposed standard") to seek comment on:<sup>13</sup>

- The revisions to the original proposed standard to align many of the audit committee communication requirements with the auditor performance requirements included in the risk assessment standards, which were adopted subsequent to the issuance of the original proposed standard;
- The applicability of the proposed standard to the audits of brokers and dealers; and
- The addition of the requirement to communicate significant unusual transactions to the audit committee and to communicate the auditor's understanding of the business rationale for such transactions.

The Board received 39 comment letters in response to the reproposed standard.<sup>14</sup> Commenters to the reproposed standard generally were supportive of the changes made to the original proposed standard to enhance the communications between the auditor and the audit committee. Commenters indicated that the changes made enhanced the quality of information exchanged between the auditor and the audit committee. Commenters also indicated that fuller and more relevant communications between the auditor and the audit committee would enable the audit committee to effectively fulfill its oversight responsibilities regarding the financial reporting process, and allow the auditor to perform a more informed, and thus more efficient and effective, audit.

Commenters on the reproposed standard specifically commented on, among other things, the following matters:

- The definition of audit committee in relation to nonissuers without an audit committee or board of directors;
- Management's communication of significant unusual transactions;
- The communication of the auditor's evaluation of the company's ability to continue as a going concern; and
- The application of the standard to the audits of brokers and dealers.

The Board took all comments received during this standard-setting project into consideration in revising the standard. The definition of audit committee was retained substantially in the form as reproposed, with additional clarification provided in Appendix 4 of this release. Auditing Standard No. 16 was revised to acknowledge that management might communicate certain matters related to significant unusual transactions and that the auditor would not have to communicate such matters at the same level of detail as long as certain criteria within the standard are met. Additionally, communication requirements related to the auditor's evaluation of the company's ability to continue as a going

---

<sup>13</sup> *Proposed Auditing Standard Related to Communications with Audit Committees; Related Amendments to PCAOB Standards; and Transitional Amendments to AU sec. 380*, PCAOB Release No. 2011-008 (Dec. 20, 2011).

<sup>14</sup> Comments on the reproposed standard are available at <http://pcaobus.org/Rules/Rulemaking/Pages/Docket030Comments.aspx>.

concern were revised to align the communications more precisely with the auditor's procedures related to such evaluation. Section IV below discusses the application of Auditing Standard No. 16 to the audits of brokers and dealers. Significant comments received regarding the repropoed standard are addressed in detail in Appendix 4 of this release.

### III. Overview of Auditing Standard No. 16

Auditing Standard No. 16 provides a definition of audit committee, retains or enhances existing communication requirements, incorporates certain SEC auditor communication requirements to audit committees, and adds new communication requirements that are generally linked to performance requirements in other PCAOB standards.

For audits of issuers, Auditing Standard No. 16 incorporates the Act's definition of audit committee as a committee (or equivalent body) established by and among the board of directors of a company for the purpose of overseeing the accounting and financial reporting processes of the company and audits of the financial statements of the company; if no such committee exists with respect to the company, then the audit committee is the entire board of directors of the company. For audits of nonissuers, the definition of audit committee contained in Auditing Standard No. 16 provides that if no audit committee or board of directors (or equivalent body) exists with respect to the company, then the audit committee is the person(s) who oversee the accounting and financial reporting processes of the company and audits of the financial statements of the company.

AU sec. 310 requires the auditor to establish an understanding with the client regarding the services to be performed. Auditing Standard No. 16 requires the auditor to establish the understanding of the terms of the audit engagement with the audit committee. This requirement aligns the auditing standard with the provision of the Act that requires the audit committee of listed companies to be responsible for the appointment of the external auditor.<sup>15</sup>

Additionally, Auditing Standard No. 16 requires the auditor to record the terms of the engagement in an engagement letter and to have the engagement letter executed by the appropriate party or parties on behalf of the company and determine that the audit committee has acknowledged and agreed to the terms. These requirements are an expansion of the requirement in AU sec. 310 for the auditor to document the understanding in the working papers, preferably through a written communication with the client.

Auditing Standard No. 16 retains many of the communication requirements in AU sec. 380 and also incorporates the SEC communication requirements.<sup>16</sup> The standard improves the current communication requirements of AU sec. 380 by requiring the communications with the audit committee to occur before the issuance of the audit report. Additionally, the standard enhances certain existing auditor communication requirements by requiring the auditor to communicate:

- Certain matters regarding the company's accounting policies, practices, and estimates;
- The auditor's evaluation of the quality of the company's financial reporting;
- Information related to significant unusual transactions, including the business rationale for such transactions; and

---

<sup>15</sup> See Section 301 of the Act, and Sections 10A(m)(2) of the Exchange Act, 15 U.S.C. §78j-1(m)(2).

<sup>16</sup> See Section 10A(k) of the Exchange Act, 15 U.S.C. §78j-1(k) and SEC Rule 2-07(a)(1)-(3).

- The auditor's views regarding significant accounting or auditing matters when the auditor is aware that management consulted with other accountants about such matters and the auditor has identified a concern regarding these matters.

Auditing Standard No. 16 expands the inquiries of the audit committee required by Auditing Standard No. 12, *Identifying and Assessing Risks of Material Misstatement*, which requires the auditor to inquire of the audit committee regarding the matters important to the identification and assessment of risks of material misstatement and fraud risks. The additional inquiries in Auditing Standard No. 16 address whether the audit committee is aware of matters relevant to the audit, including, but not limited to, violations or possible violations of laws or regulations.

Additionally, Auditing Standard No. 16 adds new communication requirements that provide the audit committee with additional information about significant aspects of the audit. These communications are generally linked to the results of the audit procedures or the conduct of the audit. Under Auditing Standard No. 16 the auditor would be required to communicate:

- An overview of the overall audit strategy, including timing of the audit, significant risks the auditor identified, and significant changes to the planned audit strategy or identified risks;
- Information about the nature and extent of specialized skill or knowledge needed in the audit, the extent of the planned use of internal auditors, company personnel or other third parties, and other independent public accounting firms, or other persons not employed by the auditor that are involved in the audit;
- The basis for the auditor's determination that he or she can serve as principal auditor, if significant parts of the audit will be performed by other auditors;
- Situations in which the auditor identified a concern regarding management's anticipated application of accounting pronouncements that have been issued but are not yet effective and might have a significant effect on future financial reporting;
- Difficult or contentious matters for which the auditor consulted outside the engagement team;
- The auditor's evaluation of going concern;
- Departure from the auditor's standard report; and
- Other matters arising from the audit that are significant to the oversight of the company's financial reporting process, including complaints or concerns regarding accounting or auditing matters that have come to the auditor's attention during the audit.

In addition to the communication requirements included in Auditing Standard No. 16, other PCAOB standards and rules that require the auditor to communicate specific matters to the audit committee are referenced in Appendix B to Auditing Standard No. 16.

While the standard establishes certain requirements regarding auditor communications to the audit committee, Auditing Standard No. 16 does not preclude the auditor from providing additional information to the audit committee. Nor does the standard preclude the auditor from responding to audit committee requests for additional information from the auditor.

## IV. Audits of Brokers and Dealers

Section 982 of the Dodd-Frank Wall Street Reform and Consumer Protection Act ("Dodd-Frank Act")<sup>17</sup> gave the Board oversight of the audits of brokers and dealers registered with the SEC. In September 2010, the Commission issued interpretive guidance clarifying that the references in Commission rules and staff guidance and in the federal securities laws to generally accepted auditing standards ("GAAS") or to specific standards under GAAS, as they relate to nonissuer brokers or dealers, should continue to be understood to mean the auditing and attestation standards established by the American Institute of Certified Public Accountants ("AICPA"), but noted that it intended to revisit this interpretation in connection with a SEC rulemaking project to update the audit and attestation requirements for brokers and dealers in light of the Dodd-Frank Act.<sup>18</sup> On June 15, 2011, the SEC proposed to amend its rules, including SEC Rule 17a-5 under the Exchange Act, to require, among other things, that audits of brokers' and dealers' financial statements and examinations of reports regarding compliance with SEC requirements be performed in accordance with the standards of the PCAOB.<sup>19</sup>

If the SEC adopts its proposed amendments to SEC Rule 17a-5 or provides other direction that auditors of brokers and dealers are to comply with PCAOB professional standards, the Board's auditing, attestation, quality control, and, where applicable, independence standards would then apply to audits of brokers and dealers as required by Section 17 of the Exchange Act and SEC Rule 17a-5.<sup>20</sup>

Further, if the SEC adopts its proposed amendments to SEC Rule 17a-5 or provides other direction that auditors of brokers and dealers are to comply with PCAOB standards, prior to the effective date of Auditing Standard No. 16,<sup>21</sup> the Board's interim standard, AU sec. 380, would be in effect for audits of brokers and dealers conducted for periods prior to the effective date of Auditing Standard No. 16. The Board's interim standard, AU sec. 380, which was last amended in 1999, indicates that it is not applicable to the audit of a broker or dealer if the broker or dealer does not have an audit committee<sup>22</sup> or is registered with the SEC only because of Section 15(a) of the Exchange Act.<sup>23</sup> Conversely, the auditor communication requirements under GAAS, which are contained in Statement on Auditing Standards ("SAS") 114, *The Auditor's Communication With Those Charged With Governance*, which was issued by the Auditing Standards Board ("ASB") of the AICPA in 2006, are applicable to audits of all brokers

---

<sup>17</sup> Pub. L. No. 111-203, 124 Stat. 1376 (July 21, 2010).

<sup>18</sup> SEC, *Commission Guidance Regarding Auditing, Attestation, and Related Professional Practice Standards Related to Brokers and Dealers*, Exchange Act Release No. 62991 (Sept. 24, 2010).

<sup>19</sup> SEC, *Broker-Dealer Reports*, Exchange Act Release No. 64676 (June 15, 2011).

<sup>20</sup> 17 C.F.R. § 240.17a-5.

<sup>21</sup> As noted in Section VII of this release, the Board anticipates that Auditing Standard No. 16 will be effective, subject to SEC approval, for audits of fiscal years beginning on or after December 15, 2012.

<sup>22</sup> AU sec. 380.01 states that the communications required by AU sec. 380 are applicable to entities that either have an audit committee or that have otherwise formally designated oversight of the financial reporting process to a group equivalent to an audit committee (such as a finance committee or budget committee).

<sup>23</sup> See AU sec. 380.01, which states that the communications required by the standard "are applicable to . . . all Securities and Exchange Commission (SEC) engagements." As noted in footnote 2 to AU sec. 380.01, the audits of brokers and dealers do not fall within an SEC engagement as defined in AU sec. 380 if the broker or dealer is registered only because of Section 15(a) of the Exchange Act.

and dealers.<sup>24</sup> Because of this difference in the applicability of the auditor communication standards to the audits of brokers and dealers, there could be a gap in required audit committee communications if the SEC amendments to SEC Rule 17a-5 are adopted and become effective prior to the effective date of Auditing Standard No. 16. To eliminate this gap, the Board is amending AU sec. 380 to delete the current exception for audits of brokers and dealers that do not have an audit committee or are registered with the SEC only because of Section 15(a) of the Exchange Act. The transitional amendment, which is contained in Appendix 2 to this release, would eliminate the above-referenced gap in audit committee communications by making the communication requirements in AU sec. 380 applicable to audits of issuers and brokers and dealers, as those terms are defined in the Act, prior to the effective date of Auditing Standard No. 16.

If PCAOB standards are applicable to audits of brokers and dealers prior to the effective date of Auditing Standard No. 16, the communication requirements under Auditing Standard No. 16 would be applicable to the audits of brokers and dealers upon the effective date of the standard.

## V. Emerging Growth Companies

Pursuant to Section 104 of the Jumpstart Our Business Startups Act ("JOBS Act"), any rules adopted by the Board subsequent to April 5, 2012, do not apply to the audits of emerging growth companies ("EGCs") (as defined in Section 3(a)(80) of the Exchange Act) unless the SEC "determines that the application of such additional requirements is necessary or appropriate in the public interest, after considering the protection of investors, and whether the action will promote efficiency, competition, and capital formation."<sup>25</sup> Auditing Standard No. 16 is the first auditing standard adopted by the Board subsequent to enactment of the JOBS Act and accordingly is subject to a separate determination by the SEC regarding its applicability to audits of EGCs.

Pursuant to Section 107(b) of the Act, the Board will file Auditing Standard No. 16 for approval by the SEC. The Board will also request that the SEC approve the application of Auditing Standard No. 16, and the related amendments, to the audits of EGCs.

## VI. Appendices

Appendix 1 to this release contains the text of Auditing Standard No. 16, *Communications with Audit Committees*, which has three appendices:

- (1) Appendix A—Definitions,
- (2) Appendix B—Communications with Audit Committees Required by Other PCAOB Rules and Standards, and
- (3) Appendix C—Matters Included in the Audit Engagement Letter.

Appendix 2 to this release contains the transitional amendments to AU sec. 380. Appendix 3 to this release contains amendments to other existing PCAOB

---

<sup>24</sup> See paragraph 1 of SAS 114 which states "[t]his statement . . . establishes standards and provides guidance on the auditor's communication with those charged with governance in relation to an audit of financial statements," and section 5.129 of the *AICPA Audit & Accounting Guide: Brokers and Dealers in Securities* (July 2010), which states, in part: "AU section 380, *The Auditor's Communication with Those Charged with Governance* . . . has been updated for the issuance of SAS No. 114 . . . AU 380 is applicable to all broker-dealers being audited under GAAS, regardless of their governance structure or size."

<sup>25</sup> Pub. L. No. 112-106, 126 STAT. 306 (April 5, 2012). See Section 103(a)(3)(C) of the Act, 15 U.S.C. §7213 (a)(3)(C), as added by Section 104 of the JOBS Act.

standards. Appendix 4 provides additional discussion of Auditing Standard No. 16, the amendments to other PCAOB standards, and comments received on the repropoed standard. Appendix 5 to this release discusses certain significant differences between the objectives and requirements of Auditing Standard No. 16 and the analogous standards of the International Auditing and Assurance Standards Board ("IAASB") and the Auditing Standards Board of the AICPA. In developing the standard, the Board considered the requirements of the relevant standards of the IAASB and the ASB.

## VII. Effective Date

The Board anticipates that the transitional amendments to AU sec. 380 included in Appendix 2 would be effective, subject to SEC approval, for the periods that PCAOB standards become applicable to audits of brokers and dealers, as designated by the SEC upon adoption of its amendments to SEC Rule 17a-5, if such periods precede the effective date of Auditing Standard No. 16.

The Board anticipates that Auditing Standard No. 16 and related amendments, included in Appendices 1 and 3, respectively, will be effective, subject to SEC approval, for audits of fiscal years beginning on or after December 15, 2012.

On the 15th day of August, in the year 2012, the foregoing was, in accordance with the bylaws of the Public Company Accounting Oversight Board,

ADOPTED BY THE BOARD.

/s/ Phoebe W. Brown

Phoebe W. Brown

## Appendix 1—Auditing Standard No. 16

### Communications with Audit Committees

#### Introduction

1. This standard requires the auditor to communicate with the company's **audit committee**<sup>1</sup> regarding certain matters related to the conduct of an audit<sup>2</sup> and to obtain certain information from the audit committee relevant to the audit. This standard also requires the auditor to establish an understanding of the terms of the audit engagement with the audit committee and to record that understanding in an engagement letter.

2. Other Public Company Accounting Oversight Board ("PCAOB") rules and standards identify additional matters to be communicated to a company's audit committee (see Appendix B). Various laws or regulations also require the auditor to communicate certain matters to the audit committee.<sup>3</sup> The communication requirements of this standard do not modify or replace communications to the audit committee required by such other PCAOB rules and standards, and other laws or regulations. Nothing in this standard precludes the auditor from communicating other matters to the audit committee.

#### Objectives

3. The objectives of the auditor are to:

- a. Communicate to the audit committee the responsibilities of the auditor in relation to the audit and establish an understanding of the terms of the audit engagement with the audit committee;
- b. Obtain information from the audit committee relevant to the audit;
- c. Communicate to the audit committee an overview of the overall audit strategy and timing of the audit; and
- d. Provide the audit committee with timely observations arising from the audit that are significant to the financial reporting process.

Note: "Communicate to," as used in this standard, is meant to encourage effective two-way communication between the auditor and the audit committee throughout the audit to assist in understanding matters relevant to the audit.

#### Appointment and Retention

##### Significant Issues Discussed with Management in Connection with the Auditor's Appointment or Retention

4. The auditor should discuss with the audit committee any significant issues that the auditor discussed with management in connection with the

---

<sup>1</sup> Terms defined in Appendix A, *Definitions*, are set in **boldface type** the first time they appear.

<sup>2</sup> For purposes of this standard, an audit is either an audit of internal control over financial reporting that is integrated with an audit of financial statements or an audit of financial statements only.

<sup>3</sup> See *e.g.*, Section 10A(k) of the Securities Exchange Act of 1934 ("Exchange Act"), 15 U.S.C. §78j-1(k); Rule 2-07 of Regulation S-X, 17 C.F.R. §210.2-07; and Rule 10A-3 under the Exchange Act, 17 C.F.R. §240.10A-3.

appointment or retention of the auditor, including significant discussions regarding the application of accounting principles and auditing standards.

## Establish an Understanding of the Terms of the Audit

5. The auditor should establish an understanding of the terms of the audit engagement with the audit committee. This understanding includes communicating to the audit committee the following:

- a. The objective of the audit;
- b. The responsibilities of the auditor; and
- c. The responsibilities of management.

6. The auditor should record the understanding of the terms of the audit engagement in an engagement letter and provide the engagement letter to the audit committee annually. The auditor should have the engagement letter executed by the appropriate party or parties on behalf of the company.<sup>4</sup> If the appropriate party or parties are other than the audit committee, or its chair on behalf of the audit committee, the auditor should determine that the audit committee has acknowledged and agreed to the terms of the engagement.

Note: Appendix C describes matters that the auditor should include in the engagement letter about the terms of the audit engagement.

7. If the auditor cannot establish an understanding of the terms of the audit engagement with the audit committee, the auditor should decline to accept, continue, or perform the engagement.

## Obtaining Information and Communicating the Audit Strategy

### Obtaining Information Relevant to the Audit

8. The auditor should inquire of the audit committee about whether it is aware of matters relevant to the audit,<sup>5</sup> including, but not limited to, violations or possible violations of laws or regulations.<sup>6</sup>

### Overall Audit Strategy, Timing of the Audit, and Significant Risks

9. The auditor should communicate to the audit committee an overview of the overall audit strategy, including the timing of the audit,<sup>7</sup> and discuss with

---

<sup>4</sup> Absent evidence to the contrary, the auditor may rely on the company's identification of the appropriate party or parties to execute the engagement letter.

<sup>5</sup> In addition to this inquiry, paragraphs 5.f. and 54-57 of Auditing Standard No. 12, *Identifying and Assessing Risks of Material Misstatement*, describe the auditor's inquiries of the audit committee, or equivalent (or its chair) regarding the audit committee's knowledge of the risks of material misstatement, including fraud risks. These inquiries include, among other things, whether the audit committee is aware of tips or complaints regarding the company's financial reporting.

<sup>6</sup> See AU sec. 317, *Illegal Acts by Clients*, for a description of the auditor's responsibilities when a possible illegal act is detected. For audits of issuers, see also Section 10A(b) of the Exchange Act, 15 U.S.C. §78j-1(b), and Rule 10A-1 under the Exchange Act, 17 C.F.R. §240.10A-1.

<sup>7</sup> See paragraphs 8-9 of Auditing Standard No. 9, *Audit Planning*, for a description of the auditor's responsibilities for establishing an overall audit strategy.

the audit committee the significant risks identified during the auditor's risk assessment procedures.<sup>8</sup>

Note: This overview is intended to provide information about the audit, but not specific details that would compromise the effectiveness of the audit procedures.

**10.** As part of communicating the overall audit strategy, the auditor should communicate the following matters to the audit committee, if applicable:

- a. The nature and extent of specialized skill or knowledge needed to perform the planned audit procedures or evaluate the audit results related to significant risks;<sup>9</sup>
- b. The extent to which the auditor plans to use the work of the company's internal auditors in an audit of financial statements;<sup>10</sup>
- c. The extent to which the auditor plans to use the work of internal auditors, company personnel (in addition to internal auditors), and third parties working under the direction of management or the audit committee when performing an audit of internal control over financial reporting;<sup>11</sup>
- d. The names, locations, and planned responsibilities<sup>12</sup> of other independent public accounting firms or other persons, who are not employed by the auditor, that perform audit procedures in the current period audit; and

Note: The term "other independent public accounting firms" in the context of this communication includes firms that perform audit procedures in the current period audit regardless of whether they otherwise have any relationship with the auditor.

- e. The basis for the auditor's determination that the auditor can serve as principal auditor, if significant parts of the audit are to be performed by other auditors.<sup>13</sup>

**11.** The auditor should communicate to the audit committee significant changes to the planned audit strategy or the significant risks initially identified and the reasons for such changes.<sup>14</sup>

---

<sup>8</sup> Auditing Standard No. 12 requires the auditor to determine whether identified and assessed risks are significant risks. A significant risk is defined as a risk of material misstatement that requires special audit consideration.

<sup>9</sup> See paragraph 16 of Auditing Standard No. 9 for the requirement for the auditor to determine whether specialized skill or knowledge is needed to perform appropriate risk assessments, plan or perform audit procedures, or evaluate audit results.

<sup>10</sup> See AU sec. 322, *The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements*, which describes the auditor's responsibilities related to the work of internal auditors.

<sup>11</sup> See paragraphs 16-19 of Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*, which describe the auditor's responsibilities related to using the work of others in an audit of internal control over financial reporting.

<sup>12</sup> See paragraphs 8-14 of Auditing Standard No. 9, which discuss the auditor's responsibilities for determining the audit strategy, audit plan, and extent to which audit procedures should be performed at selected locations or business units involving multi-location engagements.

<sup>13</sup> See AU sec. 543, *Part of Audit Performed by Other Independent Auditors*, which discusses the professional judgments the auditor makes in deciding whether the auditor may serve as principal auditor.

<sup>14</sup> See paragraph 15 of Auditing Standard No. 9, which discusses changes in audit strategy and the audit plan during the course of the audit.

## Results of the Audit

### Accounting Policies and Practices, Estimates, and Significant Unusual Transactions

12. The auditor should communicate to the audit committee the following matters:

- a. Significant accounting policies and practices.<sup>15</sup>
  - (1) Management's initial selection of, or changes in, significant accounting policies or the application of such policies in the current period; and
  - (2) The effect on financial statements or disclosures of significant accounting policies in (i) controversial areas or (ii) areas for which there is a lack of authoritative guidance or consensus, or diversity in practice.
- b. **Critical accounting policies and practices.** All critical accounting policies and practices to be used, including:<sup>16</sup>
  - (1) The reasons certain policies and practices are considered critical; and
  - (2) How current and anticipated future events might affect the determination of whether certain policies and practices are considered critical.

Note: Critical accounting policies and practices, as defined in Appendix A, are a company's accounting policies and practices that are both most important to the portrayal of the company's financial condition and results, and require management's most difficult, subjective, or complex judgments, often as a result of the need to make estimates about the effects of matters that are inherently uncertain. Critical accounting policies and practices are tailored to specific events in the current year, and the accounting policies and practices that are considered critical might change from year to year.

- c. **Critical accounting estimates.**
  - (1) A description of the process management used to develop critical accounting estimates;<sup>17</sup>
  - (2) Management's significant assumptions used in critical accounting estimates that have a high degree of subjectivity,<sup>18</sup> and

---

<sup>15</sup> See, e.g., Financial Accounting Standards Board Accounting Standards Codification, Topic 235, Notes to Financial Statements, paragraph 235-10-50-1, which requires the entity to disclose a description of all significant accounting policies as an integral part of the financial statements, and paragraph 235-10-50-3, which describes what should be disclosed.

<sup>16</sup> See also Section 10A(k) of the Exchange Act, 15 U.S.C. §78j-1(k), and Rule 2-07(a)(1) of Regulation S-X, 17 C.F.R. §210.2-07(a)(1).

<sup>17</sup> See AU sec. 342, *Auditing Accounting Estimates*, which discusses the auditor's responsibilities to obtain and evaluate sufficient appropriate audit evidence to support significant accounting estimates in an audit of financial statements.

<sup>18</sup> *Id.*

- (3) Any significant changes management made to the processes used to develop critical accounting estimates or significant assumptions, a description of management's reasons for the changes, and the effects of the changes on the financial statements.<sup>19</sup>
- d. Significant unusual transactions.
  - (1) Significant transactions that are outside the normal course of business for the company or that otherwise appear to be unusual due to their timing, size, or nature,<sup>20</sup> and
  - (2) The policies and practices management used to account for significant unusual transactions.

Note: As part of its communications to the audit committee, management might communicate some or all of the matters in paragraph 12. If management communicates any of these matters, the auditor does not need to communicate them at the same level of detail as management, as long as the auditor (1) participated in management's discussion with the audit committee, (2) affirmatively confirmed to the audit committee that management has adequately communicated these matters, and (3) with respect to critical accounting policies and practices, identified for the audit committee those accounting policies and practices that the auditor considers critical. The auditor should communicate any omitted or inadequately described matters to the audit committee.

## Auditor's Evaluation of the Quality of the Company's Financial Reporting

13. The auditor should communicate to the audit committee the following matters:

- a. Qualitative aspects of significant accounting policies and practices.
  - (1) The results of the auditor's evaluation of, and conclusions about, the qualitative aspects of the company's significant accounting policies and practices, including situations in which the auditor identified bias in management's judgments about the amounts and disclosures in the financial statements;<sup>21</sup> and
  - (2) The results of the auditor's evaluation of the differences between (i) estimates best supported by the audit evidence and (ii) estimates included in the financial statements, which are individually reasonable, that indicate a possible bias on the part of the company's management.<sup>22</sup>
- b. Assessment of critical accounting policies and practices. The auditor's assessment of management's disclosures related to the critical accounting policies and practices, along with any significant

---

<sup>19</sup> *Id.*

<sup>20</sup> See paragraph 71.g. of Auditing Standard No. 12.

<sup>21</sup> See paragraphs 24-27 of Auditing Standard No. 14, *Evaluating Audit Results*, which describe the auditor's responsibilities related to evaluating the qualitative aspects of the company's accounting practices.

<sup>22</sup> See paragraph 27 of Auditing Standard No. 14.

modifications to the disclosure of those policies and practices proposed by the auditor that management did not make.

- c. Conclusions regarding critical accounting estimates. The basis for the auditor's conclusions regarding the reasonableness of the critical accounting estimates.<sup>23</sup>
- d. Significant unusual transactions. The auditor's understanding of the business rationale for significant unusual transactions.<sup>24</sup>
- e. Financial statement presentation. The results of the auditor's evaluation of whether the presentation of the financial statements and the related disclosures are in conformity with the applicable financial reporting framework, including the auditor's consideration of the form, arrangement, and content of the financial statements (including the accompanying notes), encompassing matters such as the terminology used, the amount of detail given, the classification of items, and the bases of amounts set forth.<sup>25</sup>
- f. New accounting pronouncements. Situations in which, as a result of the auditor's procedures, the auditor identified a concern regarding management's anticipated application of accounting pronouncements that have been issued but are not yet effective and might have a significant effect on future financial reporting.
- g. Alternative accounting treatments. All alternative treatments permissible under the applicable financial reporting framework for policies and practices related to material items that have been discussed with management, including the ramifications of the use of such alternative disclosures and treatments and the treatment preferred by the auditor.<sup>26</sup>

## Other Information in Documents Containing Audited Financial Statements

14. When other information is presented in documents containing audited financial statements, the auditor should communicate to the audit committee the auditor's responsibility under PCAOB rules and standards for such information, any related procedures performed, and the results of such procedures.<sup>27</sup>

## Difficult or Contentious Matters for which the Auditor Consulted

15. The auditor should communicate to the audit committee matters that are difficult or contentious for which the auditor consulted outside the

---

<sup>23</sup> See AU sec. 342, which discusses the auditor's responsibilities to obtain and evaluate sufficient appropriate audit evidence to support significant accounting estimates in an audit of financial statements.

<sup>24</sup> See paragraph .66 of AU sec. 316, *Consideration of Fraud in a Financial Statement Audit*.

<sup>25</sup> See paragraphs 30-31 of Auditing Standard No. 14, which describe the auditor's responsibilities related to the evaluation of whether the financial statements are presented fairly, in all material respects, in conformity with the applicable financial reporting framework. Other PCAOB standards, such as AU sec. 334, *Related Parties*, and AU sec. 341, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*, describe the auditor's responsibilities related to evaluation of specific disclosures in financial statements.

<sup>26</sup> See also Section 10A(k) of the Exchange Act, 15 U.S.C. §78j-1(k), and Rule 2-07(a)(2) of Regulation S-X, 17 C.F.R. §210.2-07(a)(2).

<sup>27</sup> See, e.g., AU sec. 550, *Other Information in Documents Containing Audited Financial Statements*. In addition to AU sec. 550, discussion of the auditor's consideration of other information is included in AU sec. 558, *Required Supplementary Information*, and AU sec. 711, *Filings Under Federal Securities Statutes*.

engagement team and that the auditor reasonably determined are relevant to the audit committee's oversight of the financial reporting process.

## Management Consultation with Other Accountants

16. When the auditor is aware that management consulted with other accountants about significant auditing or accounting matters and the auditor has identified a concern regarding such matters, the auditor should communicate to the audit committee his or her views about such matters that were the subject of such consultation.

## Going Concern

17. The auditor should communicate to the audit committee, when applicable, the following matters relating to the auditor's evaluation of the company's ability to continue as a going concern:<sup>28</sup>

- a. If the auditor believes there is substantial doubt about the company's ability to continue as a going concern for a reasonable period of time, the conditions and events that the auditor identified that, when considered in the aggregate, indicate that there is substantial doubt;<sup>29</sup>
- b. If the auditor concludes, after consideration of management's plans, that substantial doubt about the company's ability to continue as a going concern is alleviated, the basis for the auditor's conclusion, including elements the auditor identified within management's plans that are significant to overcoming the adverse effects of the conditions and events;<sup>30</sup>
- c. If the auditor concludes, after consideration of management's plans, that substantial doubt about the company's ability to continue as a going concern for a reasonable period of time remains:<sup>31</sup>
  - (1) The effects, if any, on the financial statements and the adequacy of the related disclosure;<sup>32</sup> and
  - (2) The effects on the auditor's report.<sup>33</sup>

---

<sup>28</sup> See AU sec. 341 for the requirements regarding an auditor's responsibility to evaluate whether there is substantial doubt about a company's ability to continue as a going concern for a reasonable period of time, not to exceed one year beyond the date of the financial statements being audited. Additionally, AU secs. 341.03a-c provide the auditor with an overview of the requirements for evaluating whether there is substantial doubt about the company's ability to continue as a going concern for a reasonable period of time.

<sup>29</sup> See AU sec. 341.06, which provides examples of such conditions and events and AU sec. 341.07, which discusses the auditor's procedures if the auditor believes there is substantial doubt about the company's ability to continue as a going concern for a reasonable period of time.

<sup>30</sup> See AU sec. 341.08, which discusses the auditor's responsibilities related to the auditor's evaluation of management's plans.

<sup>31</sup> See AU sec. 341.12, which describes the effects on the auditor's report. See also AU sec. 341.03c, which discusses the auditor's evaluation of factors that indicate there is substantial doubt about the company's ability to continue as a going concern.

<sup>32</sup> See AU sec. 341.10, which discusses the possible effects on the financial statements and the adequacy of the related disclosure.

<sup>33</sup> See AU secs. 341.12-.16, which discuss the auditor's consideration of the effects on the auditor's report when the auditor concludes that substantial doubt exists about the company's ability to continue as a going concern for a reasonable period of time.

## Uncorrected and Corrected Misstatements

18. The auditor should provide the audit committee with the schedule of uncorrected misstatements related to accounts and disclosures<sup>34</sup> that the auditor presented to management.<sup>35</sup> The auditor should discuss with the audit committee, or determine that management has adequately discussed with the audit committee, the basis for the determination that the uncorrected misstatements were immaterial, including the qualitative factors<sup>36</sup> considered. The auditor also should communicate that uncorrected misstatements or matters underlying those uncorrected misstatements could potentially cause future-period financial statements to be materially misstated, even if the auditor has concluded that the uncorrected misstatements are immaterial to the financial statements under audit.

19. The auditor should communicate to the audit committee those corrected misstatements, other than those that are clearly trivial,<sup>37</sup> related to accounts and disclosures that might not have been detected except through the auditing procedures performed, and discuss with the audit committee the implications that such corrected misstatements might have on the company's financial reporting process.

## Material Written Communications

20. The auditor should communicate to the audit committee other material written communications between the auditor and management.<sup>38</sup>

## Departure from the Auditor's Standard Report

21. The auditor should communicate to the audit committee the following matters related to the auditor's report:

- a. When the auditor expects to modify the opinion in the auditor's report, the reasons for the modification, and the wording of the report; and
- b. When the auditor expects to include explanatory language or an explanatory paragraph in the auditor's report, the reasons for the explanatory language or paragraph, and the wording of the explanatory language or paragraph.

## Disagreements with Management

22. The auditor should communicate to the audit committee any disagreements with management about matters, whether or not satisfactorily resolved,

---

<sup>34</sup> Footnote 13 to paragraph 20 of Auditing Standard No. 14 indicates that misstatements include omission and presentation of inaccurate or incomplete disclosures.

<sup>35</sup> See Section 13(i) of the Exchange Act, 15 U.S.C. §78m(i), which states, in part, that financial statements prepared in accordance with generally accepted accounting principles and filed with the Securities and Exchange Commission "shall reflect all material correcting adjustments that have been identified by a registered public accounting firm . . ."

<sup>36</sup> Appendix B of Auditing Standard No. 14 discusses the qualitative factors related to the evaluation of the materiality of uncorrected misstatements.

<sup>37</sup> See paragraph 10 of Auditing Standard No. 14, which requires the auditor to accumulate misstatements identified during the audit, other than those that are clearly trivial.

<sup>38</sup> See also Section 10A(k) of the Exchange Act, 15 U.S.C. §78j-1(k) and Rule 2-07(a)(3) of Regulation S-X, 17 C.F.R. §210.2-07 (a)(3).

that individually or in the aggregate could be significant to the company's financial statements or the auditor's report. Disagreements with management do not include differences of opinion based on incomplete facts or preliminary information that are later resolved by the auditor obtaining additional relevant facts or information prior to the issuance of the auditor's report.

## Difficulties Encountered in Performing the Audit

**23.** The auditor should communicate to the audit committee any significant difficulties encountered during the audit. Significant difficulties encountered during the audit include, but are not limited to:

- a. Significant delays by management, the unavailability of company personnel, or an unwillingness by management to provide information needed for the auditor to perform his or her audit procedures;
- b. An unreasonably brief time within which to complete the audit;
- c. Unexpected extensive effort required by the auditor to obtain sufficient appropriate audit evidence;
- d. Unreasonable management restrictions encountered by the auditor on the conduct of the audit; and
- e. Management's unwillingness to make or extend its assessment of the company's ability to continue as a going concern when requested by the auditor.

Note: Difficulties encountered by the auditor during the audit could represent a scope limitation,<sup>39</sup> which may result in the auditor modifying the auditor's opinion or withdrawing from the engagement.

## Other Matters

**24.** The auditor should communicate to the audit committee other matters arising from the audit that are significant to the oversight of the company's financial reporting process. This communication includes, among other matters, complaints or concerns regarding accounting or auditing matters that have come to the auditor's attention during the audit and the results of the auditor's procedures regarding such matters.<sup>40</sup>

## Form and Documentation of Communications

**25.** The auditor should communicate to the audit committee the matters in this standard, either orally or in writing,<sup>41</sup> unless otherwise specified in this standard. The auditor must document the communications in the work papers, whether such communications took place orally or in writing.<sup>42</sup>

---

<sup>39</sup> See paragraphs .22-.32 of AU sec. 508, *Reports on Audited Financial Statements*, for a discussion of scope limitations.

<sup>40</sup> AU secs. 316.79-.81 and AU sec. 317.17 include specific communication requirements relating to fraud or illegal acts, respectively.

<sup>41</sup> See paragraphs .07-.11 of AU sec. 532, *Restricting the Use of an Auditor's Report*, which apply to certain written reports on matters coming to the auditor's attention during the course of the audit.

<sup>42</sup> Consistent with the requirements of Auditing Standard No. 3, *Audit Documentation*, the audit documentation should be in sufficient detail to enable an experienced auditor, having no previous connection with the engagement, to understand the communications made to comply with the provisions of this standard.

Note: If, as part of its communications to the audit committee, management communicated some or all of the matters identified in paragraphs 12 or 18 and, as a result, the auditor did not communicate these matters at the same level of detail as management, the auditor must include a copy of or a summary of management's communications provided to the audit committee in the audit documentation.

## Timing

**26.** All audit committee communications required by this standard should be made in a timely manner and prior to the issuance of the auditor's report.<sup>43</sup> The appropriate timing of a particular communication to the audit committee depends on factors such as the significance of the matters to be communicated and corrective or follow-up action needed, unless other timing requirements are specified by PCAOB rules or standards or the securities laws.

Note: An auditor may communicate to only the audit committee chair if done in order to communicate matters in a timely manner during the audit. The auditor, however, should communicate such matters to the audit committee prior to the issuance of the auditor's report.

---

<sup>43</sup> Consistent with Rule 2-07 of Regulation S-X, 17 C.F.R. § 210.2-07, in the case of a registered investment company, audit committee communication should occur annually, and if the annual communication is not within 90 days prior to the filing of the auditor's report, the auditor should provide an update in the 90-day period prior to the filing of the auditor's report, of any changes to the previously reported information.

## Appendix A

### Definitions

A1. For purposes of this standard, the terms listed below are defined as follows:

A2. **Audit committee**—A committee (or equivalent body) established by and among the board of directors of a company for the purpose of overseeing the accounting and financial reporting processes of the company and audits of the financial statements of the company; if no such committee exists with respect to the company, the entire board of directors of the company.

For audits of nonissuers, if no such committee or board of directors (or equivalent body) exists with respect to the company, the person(s) who oversee the accounting and financial reporting processes of the company and audits of the financial statements of the company.

A3. **Critical accounting estimate**—An accounting estimate where (a) the nature of the estimate is material due to the levels of subjectivity and judgment necessary to account for highly uncertain matters or the susceptibility of such matters to change and (b) the impact of the estimate on financial condition or operating performance is material.

A4. **Critical accounting policies and practices**—A company's accounting policies and practices that are both most important to the portrayal of the company's financial condition and results, and require management's most difficult, subjective, or complex judgments, often as a result of the need to make estimates about the effects of matters that are inherently uncertain.

## Appendix B

### Communications with Audit Committees Required by Other PCAOB Rules and Standards

This appendix identifies other PCAOB rules and standards related to the audit that require communication of specific matters between the auditor and the audit committee.

- Auditing Standard No. 4, *Reporting on Whether a Previously Reported Material Weakness Continues to Exist*, paragraphs 60, 62, and 64
- Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*, paragraphs 78-81, 91, C7, and C14
- Auditing Standard No. 12, *Identifying and Assessing Risks of Material Misstatement*, paragraphs 5.f. and 54-57
- PCAOB Rule 3524, *Audit Committee Pre-approval of Certain Tax Services*
- PCAOB Rule 3525, *Audit Committee Pre-approval of Non-audit Services Related to Internal Control Over Financial Reporting*
- PCAOB Rule 3526, *Communication with Audit Committees Concerning Independence*
- AU sec. 316, *Consideration of Fraud in a Financial Statement Audit*, paragraphs .79-.81
- AU sec. 317, *Illegal Acts by Clients*, paragraphs .08, .17, and .20
- AU sec. 325, *Communications About Control Deficiencies in an Audit of Financial Statements*, paragraphs 4-7 and 9
- AU sec. 328, *Auditing Fair Value Measurements and Disclosures*, paragraph .50
- AU sec. 333, *Management Representations*, paragraph .05
- AU sec. 550, *Other Information in Documents Containing Audited Financial Statements*, paragraphs .04 and .06
- AU sec. 711, *Filings Under Federal Securities Statutes*, paragraph .13
- AU sec. 722, *Interim Financial Information*, paragraphs .08-.09, .30-.31, and .33-.36

## Appendix C

### Matters Included in the Audit Engagement Letter

C1. The auditor should include the following matters in the engagement letter.<sup>1</sup> The auditor's description of these matters will vary depending on whether the auditor is engaged in a financial statement audit or in an audit of internal control over financial reporting that is integrated with an audit of financial statements ("integrated audit").

- a. The objective of the audit is:
  1. Integrated audit: The expression of an opinion on both the effectiveness of internal control over financial reporting and the financial statements.
  2. Audit of financial statements: The expression of an opinion on the financial statements.
- b. Auditor's responsibilities:
  1. The auditor is responsible for conducting the audit in accordance with the standards of the Public Company Accounting Oversight Board. Those standards require that the auditor:
    - a. Integrated audit: Plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether caused by error or fraud, and whether effective internal control over financial reporting was maintained in all material respects. Accordingly, there is some risk that a material misstatement of the financial statements or a material weakness in internal control over financial reporting would remain undetected. Although not absolute assurance, reasonable assurance is a high level of assurance.

Also, an integrated audit is not designed to detect error or fraud that is immaterial to the financial statements or deficiencies in internal control over financial reporting that, individually or in combination, are less severe than a material weakness. If, for any reason, the auditor is unable to complete the audit or is unable to form or has not formed an opinion, he or she may decline to express an opinion or decline to issue a report as a result of the engagement.
    - b. Audit of financial statements: Plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether caused by error or

---

<sup>1</sup> Certain matters should not be included in an engagement letter; for example, under Securities and Exchange Commission, *Section 602.02.f.i. of the Codification of Financial Reporting Policies*, indemnification provisions are not permissible for audits of issuers.

fraud. Accordingly, there is some risk that a material misstatement would remain undetected. Although not absolute assurance, reasonable assurance is a high level of assurance. Also, a financial statement audit is not designed to detect error or fraud that is immaterial to the financial statements. If, for any reason, the auditor is unable to complete the audit or is unable to form or has not formed an opinion, he or she may decline to express an opinion or decline to issue a report as a result of the engagement.

2. An audit includes:

- a. Integrated audit: In fulfillment of the responsibilities noted above, the auditor communicates:
  1. To the audit committee and management: all material weaknesses in internal control over financial reporting identified during the audit, in writing.
  2. To the audit committee: all significant deficiencies identified during the audit, in writing, and informs the audit committee when the auditor has informed management of all internal control deficiencies.
  3. To management: all internal control deficiencies identified during the audit and not previously communicated in writing by the auditor or by others, including internal auditors or others within the company.
  4. To the board of directors: any conclusion that the audit committee's oversight of the company's external financial reporting and internal control over financial reporting is ineffective, in writing.
- b. Audit of financial statements: Obtaining an understanding of internal control sufficient to plan the audit and to determine the nature, timing, and extent of audit procedures to be performed.<sup>2</sup> An audit of financial statements is not designed to provide assurance on internal control or to identify internal control deficiencies. However, the auditor is responsible for communicating:
  1. To the audit committee and management: all significant deficiencies and material weaknesses identified during the audit, in writing.
  2. To the board of directors: if the auditor becomes aware that the oversight of

---

<sup>2</sup> AU sec. 325, *Communications About Control Deficiencies in an Audit of Financial Statements*, provides direction on control deficiencies identified in an audit of financial statements.

the company's external financial reporting and internal control over financial reporting by the audit committee is ineffective, that conclusion, in writing.

c. Management's responsibilities:

1. Management is responsible for the company's financial statements, including disclosures.
2. Management is responsible for establishing and maintaining effective internal control over financial reporting.
3. Management is responsible for identifying and ensuring that the company complies with the laws and regulations applicable to its activities.
4. Management is responsible for making all financial records and relevant information available to the auditor.
5. At the conclusion of the engagement, management will provide the auditor with a letter that confirms certain representations made during the audit.
6. Management is responsible for adjusting the financial statements to correct material misstatements relating to accounts or disclosures and for affirming to the auditor in the representation letter that the effects of any uncorrected misstatements aggregated by the auditor are immaterial, both individually and in the aggregate, to the financial statements taken as a whole.

C2. In connection with a review of interim financial information, to confirm and document the understanding, the auditor should either: (a) document in the audit engagement letter the nature and objectives of the engagement to review interim financial information and the responsibilities of management and the auditor or (b) issue a separate engagement letter that addresses such matters.<sup>3</sup>

---

<sup>3</sup> Paragraphs .08-.09 of AU sec. 722, *Interim Financial Information*, discuss the auditor's responsibilities related to establishing an understanding with the audit committee in connection with a review of the company's interim financial information.

## Appendix 2

### Transitional Amendments to AU sec. 380, Communication With Audit Committees

#### Auditing Standard

##### **AU sec. 380, "Communication With Audit Committees"**

SAS No. 61, "Communication With Audit Committees" (AU sec. 380, "Communication With Audit Committees"), as amended, is amended as follows:

- a. The last sentence of paragraph .01 is replaced with:

The communications required by this section are applicable to the audits of (i) issuers and (ii) brokers and dealers, as those terms are defined in the Sarbanes-Oxley Act of 2002, as amended.<sup>2</sup>

- b. Footnote 2 to paragraph .01 is replaced with:

*See* Sections 2(a)(7), 110(3), and 110(4) of the Sarbanes-Oxley Act of 2002.

## Appendix 3

### Amendments to PCAOB Standards

#### Auditing Standards

##### **Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements***

Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*, as amended, is amended as follows:

- a. The following sentence is added at the end of paragraph 80:

This communication should be made in a timely manner and prior to the issuance of the auditor's report on internal control over financial reporting.

- b. The following sentence is added after the first sentence of paragraph 81:

The auditor should communicate this information to the audit committee in a timely manner and prior to the issuance of the auditor's report on internal control over financial reporting.

##### **Auditing Standard No. 9, *Audit Planning***

Auditing Standard No. 9, *Audit Planning*, is amended as follows:

- a. Paragraph 6.c. is replaced with:

Establish an understanding of the terms of the audit engagement with the audit committee in accordance with Auditing Standard No. 16, *Communications with Audit Committees*.

- b. Footnote 4 to paragraph 6 is deleted.
- c. In footnote 7 to paragraph 9.a., the references to AU sec. 310 and AU sec. 380, *Communication with Audit Committees*, are replaced with a reference to Auditing Standard No. 16, *Communications with Audit Committees*.

##### **Auditing Standard No. 13, *The Auditor's Responses to the Risks of Material Misstatement***

Auditing Standard No. 13, *The Auditor's Responses to the Risks of Material Misstatement*, is amended as follows:

The note to paragraph 5.d. is deleted.

##### **AU sec. 310, "Appointment of the Independent Auditor"**

SAS No. 1, "Codification of Auditing Standards and Procedures" section 310, "Appointment of the Independent Auditor" (AU sec. 310, "Appointment of the Independent Auditor"), as amended, is superseded.

## **AU sec. 316, "Consideration of Fraud in a Financial Statement Audit"**

SAS No. 99, "Consideration of Fraud in a Financial Statement Audit" (AU sec. 316, "Consideration of Fraud in a Financial Statement Audit"), as amended, is amended as follows:

- a. The third sentence of paragraph .79 is replaced with:

Fraud involving senior management and fraud (whether caused by senior management or other employees) that causes a material misstatement of the financial statements should be reported directly to the audit committee in a timely manner and prior to the issuance of the auditor's report.
- b. The second sentence of paragraph .81 is replaced with:

Such a communication may be a part of an overall communication to the audit committee of business and financial statement risks affecting the entity and/or in conjunction with the auditor communication about the qualitative aspects of the entity's accounting policies and practices (see paragraphs 12–13 of Auditing Standard No. 16, *Communications with Audit Committees*). The auditor should communicate these matters to the audit committee in a timely manner and prior to the issuance of the auditor's report.
- c. Within footnote 10 to paragraph .88, the reference to section 380, *Communication With Audit Committees*, is replaced with a reference to Auditing Standard No. 16, *Communications with Audit Committees*.

## **AU sec. 317, "Illegal Acts by Clients"**

SAS No. 54, "Illegal Acts by Clients" (AU sec. 317, "Illegal Acts by Clients"), as amended, is amended as follows:

- a. The fourth sentence of paragraph .08 is replaced with:

The auditor should make inquiries of management and the audit committee<sup>1</sup> concerning the client's compliance with laws and regulations and knowledge of violations or possible violations of laws or regulations.
- b. Footnote 1 is added to paragraph .08 after the term "audit committee":

For this standard, audit committee is defined as a committee (or equivalent body) established by and among the board of directors of an entity for the purpose of overseeing the accounting and financial reporting processes of the entity and audits of the financial statements of the entity; if no such committee exists with respect to the entity, the entire board of directors of the entity. For audits of nonissuers, if no such committee or board of directors (or equivalent body) exists with respect to the entity, the person(s) who oversee the accounting and financial reporting processes of the entity and audits of the financial statements of the entity.
- c. The first sentence of paragraph .17 is replaced with:

The auditor should assure himself that the audit committee is adequately informed as soon as practicable and prior to the issuance

of the auditor's report with respect to illegal acts that come to the auditor's attention.

- d. Footnote 1 to paragraph .17 is deleted.

### **AU sec. 328, "Auditing Fair Value Measurements and Disclosures"**

SAS No. 101, "Auditing Fair Value Measurements and Disclosures" (AU sec. 328, "Auditing Fair Value Measurements and Disclosures"), as amended, is amended as follows:

Paragraph .50 is replaced with:

Paragraphs 12-13 of Auditing Standard No. 16, *Communications with Audit Committees*, require the auditor to communicate to the audit committee matters related to critical accounting estimates, which may include fair value measurements.

### **AU sec. 333, "Management Representations"**

SAS No. 85, "Management Representations" (AU sec. 333, "Management Representations"), as amended, is amended as follows:

The following sentence is added as the last sentence of paragraph .05:

The auditor should provide a copy of the representation letter to the audit committee if management has not already provided the representation letter to the audit committee.

### **AU sec. 341, "The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern"**

SAS No. 59, "The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern" (AU sec. 341, "The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern"), as amended, is amended as follows:

Paragraph .17A is added, along with the heading preceding this paragraph:

Communications with Audit Committees

Paragraph 17 of Auditing Standard No. 16, *Communications with Audit Committees*, describes matters an auditor is required to communicate to the audit committee related to the auditor's evaluation of a company's ability to continue as a going concern for a reasonable period of time.

### **AU sec. 380, "Communication With Audit Committees"**

SAS No. 61, "Communication With Audit Committees" (AU sec. 380, "Communication With Audit Committees"), as amended, is superseded.

### **AU sec. 9380, "Communication With Audit Committees: Auditing Interpretations of Section 380"**

AU sec. 9380, "Communication With Audit Committees: Auditing Interpretations of Section 380," is superseded.

### **AU sec. 532, "Restricting the Use of an Auditor's Report"**

SAS No. 87, "Restricting the Use of an Auditor's Report (AU sec. 532, "Restricting the Use of an Auditor's Report"), as amended, is amended as follows:

In the second bullet point of paragraph .07, the reference to Section 380, *Communication With Audit Committees*, is replaced with a reference to Auditing Standard No. 16, *Communications with Audit Committees*.

### **AU sec. 550, "Other Information in Documents Containing Audited Financial Statements"**

SAS No. 8, "Other Information in Documents Containing Audited Financial Statements" (AU sec. 550, "Other Information in Documents Containing Audited Financial Statements"), as amended, is amended as follows:

- a. The sixth sentence of paragraph .04 is replaced with:

If the other information is not revised to eliminate the material inconsistency, he should communicate the material inconsistency to the audit committee and consider other actions, such as revising his report to include an explanatory paragraph describing the material inconsistency, withholding the use of his report in the document, and withdrawing from the engagement.

- b. The second sentence of paragraph .06 is replaced with:

He should communicate the material misstatement of fact to the client and the audit committee, in writing, and consider consulting his legal counsel as to further appropriate action in the circumstances.

### **AU sec. 711, "Filings Under Federal Securities Statutes"**

SAS No. 37, "Filings Under Federal Securities Statutes" (AU sec. 711, "Filings Under Federal Securities Statutes"), as amended, is amended as follows:

The last sentence of paragraph .13 is replaced with:

In either case, the accountant should communicate the matter to the audit committee and also consider withholding his consent to the use of his report on the audited financial statements in the registration statement.

### **AU sec. 722, "Interim Financial Information"**

SAS No. 100, "Interim Financial Information" (AU sec. 722, "Interim Financial Information"), as amended, is amended as follows:

- a. The heading preceding paragraph .08, "Establishing an Understanding With the Client" is replaced with the heading, "Establishing an Understanding with the Audit Committee."
- b. Paragraph .08 is replaced with:

The accountant should establish an understanding of the terms of an engagement to review interim financial information with the audit committee or others with equivalent authority and responsibility (hereafter referred to as the audit committee).<sup>6</sup> This understanding includes the objective of the review of interim financial information, the responsibilities of the accountant, and the responsibilities

of management. Such an understanding reduces the risk that either the accountant or the audit committee may misinterpret the needs or expectations of the other party. The accountant should record this understanding of the terms of the engagement in an engagement letter and should provide the engagement letter to the audit committee. The accountant should have the engagement letter executed by the appropriate party or parties on behalf of the company. If the appropriate party or parties are other than the audit committee, or its chair on behalf of the audit committee, the accountant should determine that the audit committee has acknowledged and agreed to the terms of the engagement. If the accountant believes he or she cannot establish an understanding of the terms of an engagement to review interim financial information with the audit committee, the accountant should decline to accept, continue, or perform the engagement.

- c. Footnote 6 to paragraph .08 is replaced with:

*See paragraph .16 of QC sec. 20, System of Quality Control for a CPA Firm's Accounting and Auditing Practice.*

- d. In the first sentence of paragraph .09, the word "client" is replaced with the words "audit committee."

- e. Paragraph .30 is replaced with:

If management does not respond appropriately to the accountant's communication within a reasonable period of time, the accountant should communicate these matters to the audit committee as soon as practicable and prior to the registrant filing its periodic report with the SEC. The communications to the audit committee should be made and documented in accordance with paragraph 25 of Auditing Standard No. 16, *Communications with Audit Committees*.

- f. The following sentence is added at the end of paragraph .33:

The accountant should communicate significant deficiencies or material weaknesses of which the accountant has become aware to the audit committee or those responsible for oversight of the company's financial reporting in a timely manner and prior to the registrant filing its periodic report with the SEC.

- g. Paragraph .34 is replaced with:

When conducting a review of interim financial information, the accountant also should determine whether any of the matters described in Auditing Standard No. 16, *Communications with Audit Committees*, as they relate to interim financial information, have been identified. If such matters have been identified, the accountant should communicate them to the audit committee in a timely manner and prior to the registrant filing its periodic report with the SEC. For example, the accountant should communicate a description of the process management used to develop the critical accounting estimates; a change in a significant accounting policy affecting the interim financial information; misstatements that, either individually or in the aggregate, could have a significant effect on the entity's financial reporting process; and uncorrected misstatements aggregated by the accountant that management determined to be immaterial, both individually and in the aggregate, to the interim financial statements taken as a whole.<sup>23</sup> As part of its communications to the audit committee, management might communicate some or all of the matters related to the company's accounting policies, practices, estimates, and significant unusual transactions described in paragraph 12 of

Auditing Standard No. 16, *Communications with the Audit Committees*. If management communicates any of these matters, the accountant does not need to communicate them at the same level of detail as management, as long as the accountant (1) participated in management's discussion with the audit committee, (2) affirmatively confirmed to the audit committee that management has adequately communicated these matters, and (3) with respect to critical accounting policies and practices, identified for the audit committee those accounting policies and practices that the accountant considers critical. The accountant should communicate any omitted or inadequately described matters to the audit committee.

- h. Footnote 23 to paragraph .34 is replaced with:

The schedule of uncorrected misstatements related to accounts and disclosures provided to the audit committee should be the same schedule that was included in or attached to the management representation letter that is described in paragraph .24(k) of this section.

- i. The last two sentences of paragraph .35 are replaced with:

Therefore, any communication the accountant may make about the entity's accounting policies, practices, estimates, and significant unusual transactions as applied to its interim financial reporting, generally would be limited to the effect of significant events, transactions, and changes in accounting estimates that the accountant considered when conducting the review of interim financial information. Further, interim review procedures do not provide assurance that the accountant will become aware of all matters that might affect the accountant's judgments about the qualitative aspects of the entity's accounting policies and practices that would be identified as a result of an audit.

- j. Paragraph .36 is replaced with:

If the accountant has identified matters to be communicated to the audit committee, the accountant should communicate such matters to the audit committee, or at least its chair, in a timely manner and prior to the registrant filing its periodic report with the SEC. The communications to the audit committee should be made and documented in accordance with paragraph 25 of Auditing Standard No. 16, *Communications with Audit Committees*.

## Appendix 4

### Additional Discussion of Auditing Standard No. 16, Related Amendments to PCAOB Standards, and Comments on the Reproposed Standard

This appendix discusses Auditing Standard No. 16, *Communications with Audit Committees* (the "standard"), presented in Appendix 1, and the related amendments to PCAOB standards in Appendix 3.<sup>1</sup> In particular, this appendix provides additional background information for certain requirements in the standard and related amendments.

The standard was originally proposed on March 29, 2010<sup>2</sup> (the "original proposed standard"), a roundtable was held on September 21, 2010,<sup>3</sup> and the standard was repropoed on December 20, 2011<sup>4</sup> (the "reproposed standard"). This appendix also discusses the Board's responses to significant issues raised by the comments on the repropoed standard, as well as the basis for the Board's conclusions regarding certain requirements.

#### I. Definition of Audit Committee (Paragraph A-2 of Auditing Standard No. 16)

Auditing Standard No. 16 defines an audit committee as a committee (or equivalent body) established by and among the board of directors of a company for the purpose of overseeing the accounting and financial reporting processes of the company and audits of the financial statements of the company; if no such committee exists with respect to the company, the entire board of directors of the company. This definition largely incorporates the definition of "audit committee" from the Sarbanes-Oxley Act of 2002 (the "Act").<sup>5</sup> The parenthetical phrase "or equivalent body" after the term "committee" clarifies that entities with bodies performing a function similar to that of an audit committee would fit within this category.

The standard modifies the Act's version of the definition of an audit committee as it relates to audits of nonissuers. Specifically, for audits of nonissuers, Auditing Standard No. 16 states that, if no such committee or board of directors (or equivalent body) exists with respect to the company, the audit committee would be considered the person(s) who oversee the accounting and financial reporting processes of the company and audits of the financial statements of the company. This modification was made to recognize that some nonissuers, including brokers and dealers, may have governance structures that do not include boards of directors or audit committees. In those cases, the auditor would identify those

---

<sup>1</sup> The transitional amendments to AU sec. 380, *Communication With Audit Committees* ("AU sec. 380"), in Appendix 2 are discussed on pages 12-14 of the release.

<sup>2</sup> *Proposed Auditing Standard Related to Communications with Audit Committees and Related Amendments to Certain PCAOB Auditing Standards*, PCAOB Release No. 2010-001 (March 29, 2010).

<sup>3</sup> A transcript of the roundtable is available at [http://pcaobus.org/Rules/Rulemaking/Docket030/Roundtable\\_Transcript.pdf](http://pcaobus.org/Rules/Rulemaking/Docket030/Roundtable_Transcript.pdf).

<sup>4</sup> *Proposed Auditing Standard Related to Communications with Audit Committees; Related Amendments to PCAOB Standards; and Transitional Amendments to AU sec. 380*, PCAOB Release No. 2011-008 (Dec. 20, 2011).

<sup>5</sup> Section 2(a)(3) of the Act, 15 U.S.C. § 7201.

persons at the nonissuer company who oversee the company's accounting and financial reporting processes and audits. This modification is meant to indicate that senior persons in an oversight role in such circumstances would be the recipients of the auditor communications.

Using the definition of "audit committee," the auditor would identify the bodies or persons that oversee the company's accounting, auditing, and financial reporting processes to find the appropriate recipient of the communications under the standard.<sup>6</sup> For issuers, the definition is the same as the definition included in the Act.<sup>7</sup> For nonissuers, the definition contains three categories of bodies or persons. The first two categories (audit committee and the entire board of directors of the company) are the same as those included in the definition of audit committee for an issuer. The third category covers situations in which the company does not have an audit committee, board of directors, or equivalent body, such as certain non-public brokers and dealers. The parenthetical phrase "or equivalent body" after the term "board of directors" clarifies that entities with bodies performing a function similar to that of a corporate board of directors would fit within this category.

The repropoed standard required the auditor to communicate to those persons designated to oversee the financial reporting processes of the company in situations in which a nonissuer does not have an audit committee, board of directors, or equivalent body. Some commenters indicated that, for certain nonissuers, the person designated to oversee the accounting and financial reporting processes of the company could be the chief financial officer, in which case the communication would be made to the person preparing the financial statements. Therefore, commenters suggested that the auditor should make relevant communications to the chief executive officer, or equivalent officer of the company.

The definition was revised to focus on the person(s) identified by the auditor as responsible for overseeing the accounting and financial reporting processes of the company. However, the definition was not revised to exclude from the definition of audit committee those persons with oversight responsibility who also have management responsibilities for the preparation of the financial statements of the company. As adopted, for nonissuers with no existing audit committee or board of directors (or equivalent body), the auditor would be expected to identify senior persons at the company who have decision-making authority and responsibility to oversee the accounting and financial reporting processes of the company and audits of the financial statements, and to make the required communications to those persons. For example, in an owner managed entity, the person with oversight of financial reporting within the company could be the owner. Under a limited partnership, the person with oversight of financial reporting within the company could be the managing or general partner responsible for preparation of the financial statements and oversight of the partnership's audits.

Nevertheless, if all persons identified by the auditor as having responsibility for oversight of the company's accounting and financial reporting processes and audits also have management responsibilities for the preparation of the financial statements, then the auditor could also make the communications specified in the standard to other individuals at the company. For example the auditor

---

<sup>6</sup> The Board's proposed definition is not intended to conflict with or affect any requirements, or the application of any requirements, under federal law, state law, foreign law, or an entity's governing documents regarding the establishment, approval, or ratification of board of directors or audit committees, or the delegation of responsibilities of such a committee or board.

<sup>7</sup> Section 2(a)(3) of the Act, 15 U.S.C. § 7201.

might identify that the chief executive officer has oversight responsibility for the company's accounting and financial reporting processes; therefore, in those circumstances communications to the chief executive would be in compliance with the audit committee definition in Auditing Standard No. 16. Additionally, the auditor might identify others in charge of the company's operations and performance, who may benefit from the communications.

Some commenters suggested that the standard should clarify to whom the auditor should communicate when the company is a subsidiary of another entity. Auditing Standard No. 16 does not require communication outside the governance structure of the audited entity because the standard designates the appropriate party to receive the auditor communications within the audited entity. If directed by the audit client, or if the auditor otherwise deems it appropriate, the auditor could also communicate to a parent company audit committee or equivalent body.

## **II. Objectives (Paragraph 3 of Auditing Standard No. 16)**

Auditing Standard No. 16 states that the objectives of the auditor are to (a) communicate to the audit committee the responsibilities of the auditor in relation to the audit and establish an understanding of the terms of the audit engagement with the audit committee; (b) obtain information from the audit committee relevant to the audit; (c) communicate to the audit committee an overview of the overall audit strategy and timing of the audit; and (d) provide the audit committee with timely observations arising from the audit that are significant to the financial reporting process. The objectives of the standard are intended to highlight the overall context for the requirements in the standard.

## **III. Significant Issues Discussed with Management in Connection with the Auditor's Appointment or Retention (Paragraph 4 of Auditing Standard No. 16)**

Auditing Standard No. 16 requires the auditor to discuss with the audit committee any significant issues that the auditor discussed with management in connection with the appointment or retention of the auditor, including significant discussions regarding the application of accounting principles and auditing standards. This requirement was retained from AU sec. 380.<sup>8</sup>

This requirement is included in the standard because the audit committee might ask management for its views concerning the appointment or retention of the auditor. Management's views might be influenced by the interaction between the auditor and management and the auditor's evaluations and conclusions regarding the application of accounting principles or auditing standards.

Some commenters suggested that these discussions should include a robust fee discussion or a discussion about the results of the auditor's considerations during the client acceptance and continuance process, such as the auditor's views of the entity's accounting and financial reporting practices or management's integrity. The standard was not revised to include such additional matters because the requirement in the standard specifically addresses the auditor's discussions with management related to accounting and auditing matters in

---

<sup>8</sup> AU sec. 380.15.

connection with the appointment or retention of the auditor. However, Auditing Standard No. 16 requires the auditor to communicate any matters arising from the audit to the audit committee that the auditor believes are significant to the audit committee's oversight of the company's financial reporting process.<sup>9</sup>

#### **IV. Establish an Understanding of the Terms of the Audit (Paragraphs 5-7 of Auditing Standard No. 16)**

Auditing Standard No. 16 includes a specific requirement for the auditor to establish an understanding of the terms of the audit engagement with the audit committee. Having a mutually clear understanding of the terms of the engagement, including the objectives of the audit, the responsibilities of the auditor, and the responsibilities of management in connection with the audit, should benefit both the auditor and the audit committee.

The requirement in Auditing Standard No. 16 is similar to the requirement in AU sec. 310, *Appointment of the Independent Auditor* ("AU sec 310"), which requires the auditor to establish an understanding with the client regarding the services to be performed. However, Auditing Standard No. 16 more specifically requires that the understanding be with the audit committee due to the audit committee's financial reporting and audit oversight role, rather than with the "client," which could be understood to mean others besides the audit committee in certain circumstances.

Auditing Standard No. 16 also requires the auditor to record the understanding of the terms of the audit engagement in an engagement letter. Appendix C of Auditing Standard No. 16 describes matters that should be included in an engagement letter, including the objective of the audit and the responsibilities of the auditor and management. This is an expansion of the requirement in AU sec. 310, which requires the auditor to document the understanding of the engagement in the working papers, preferably through a written communication with the client.

Some commenters indicated that the engagement letter should describe the responsibilities of the audit committee related to the audit. The Board considered this suggestion and did not change the standard to include the responsibilities of the audit committee, as those responsibilities are governed by the rules of other organizations, such as the Securities and Exchange Commission ("SEC") and the national securities exchanges.<sup>10</sup> However, the standard does not prohibit the auditor from including other matters in the engagement letter, as agreed upon by the auditor and the audit committee, so long as those matters are not in violation of other standards or rules, for example, independence requirements.

Auditing Standard No. 16 requires the auditor to provide the engagement letter to the audit committee annually. Additionally, the auditor should have the engagement letter executed by the appropriate party or parties on behalf of the company.<sup>11</sup> The standard also states that if the appropriate party or parties are other than the audit committee, or its chair on behalf of the audit committee, the auditor also should determine that the audit committee has acknowledged

<sup>9</sup> Paragraph 24 of Auditing Standard No. 16.

<sup>10</sup> See, e.g., New York Stock Exchange, Listed Company Manual at Section 303A.07, Audit Committee Additional Requirements.

<sup>11</sup> Absent evidence to the contrary, the auditor may rely on the company's identification of the appropriate party or parties to execute the engagement letter.

and agreed to the terms of the engagement. This acknowledgment may be obtained in a variety of ways, such as obtaining the audit committee members' signatures, or its chair's signature on behalf of the audit committee, or obtaining another form of acknowledgement and agreement by the audit committee regarding the terms of the audit engagement. Obtaining this acknowledgement reduces the risk that either the auditor or the audit committee might misinterpret the needs or expectations of the other party. An acknowledgement by the audit committee, the signatures of the audit committee members, or the signature of its chair on behalf of the audit committee on the engagement letter is not intended to conflict with or affect any requirements, or the application of any requirements, under federal law, state law, foreign law, applicable exchange requirements, or the company's governing documents, regarding the authority or lack of authority of the audit committee to enter into any contract or agreement with the auditor.

Several commenters suggested that the standard should specify that the engagement letter should be executed by management in addition to the audit committee or by management alone, along with a representation that it has the authority to do so on behalf of the audit committee. The Board considered these comments and decided that, absent evidence to the contrary, the auditor may rely on the company's identification of the appropriate party or parties to execute the engagement letter. Therefore, the standard does not specify the party that should execute the engagement letter on behalf of the company.

Some commenters suggested that the standard should indicate that the audit committee's acknowledgement can be either written or oral. Other commenters suggested that the audit committee's acknowledgement should be written, either evidenced by a signature on the engagement letter or in the audit committee's minutes, to avoid the potential for subsequent misunderstandings of whether the audit committee's acknowledgement has been obtained.

The Board considered these comments and determined that the audit committee's acknowledgement may be provided in writing, such as a signed engagement letter or through the minutes of the audit committee meeting, or orally. The primary focus of this requirement is that the auditor receives acknowledgment and agreement from the audit committee rather than the method the audit committee uses to provide that acknowledgement; therefore, a change to the standard was not warranted. The repropoed standard did not specify the form of acknowledgment and, therefore, the standard was not revised. However, the auditor could request that the audit committee acknowledge the terms of the audit engagement in writing. If the audit committee's acknowledgement is received orally, in accordance with paragraph 25 of Auditing Standard No. 16, the auditor is required to document the acknowledgement in the auditor's work papers.

## **V. Obtaining Information Relevant to the Audit (Paragraph 8 of Auditing Standard No. 16)**

Auditing Standard No. 16 includes a requirement for the auditor to inquire of the audit committee about whether it is aware of matters relevant to the audit, including, but not limited to, violations or possible violations of laws or regulations. This inquiry contributes to a two-way dialogue between the auditor and the audit committee concerning matters relevant to the audit. This inquiry would complement the requirement for the auditor to make inquiries of the audit committee (or its chair) about risks of material misstatement, including inquiries related to fraud risks, in accordance with Auditing Standard No. 12,

*Identifying and Assessing Risks of Material Misstatement.*<sup>12</sup> This requirement is included in the standard because, in addition to the inquiries required as part of the risk assessment procedures, audit committees may be aware of other matters relevant to the auditor in performing audit procedures.

Auditing Standard No. 16 does not include the reference to "complaints or concerns received by the audit committee regarding financial reporting matters" previously included in the reposed standard. This change is not intended to signal a change in the scope of this communication between the audit committee and the auditor. Rather, the Board notes that such inquiry by the auditor of the audit committee is already included in paragraph 56.b(3) of Auditing Standard No. 12, which requires the auditor to inquire of the audit committee about tips or complaints regarding the company's financial reporting.<sup>13</sup> Since the inquiry in the reposed standard was similar to the inquiries in Auditing Standard No. 12, Auditing Standard No. 16 was revised to remove the inquiry regarding complaints or concerns.

Auditing Standard No. 16 does not provide specific timing for these inquiries to be made. Depending on the circumstances of the audit, it may be appropriate for the auditor to conduct such inquiries of the audit committee at the outset of the audit and/or at other various stages of the audit. For example, the auditor may want to conduct these inquiries early in the audit to consider any information received from the audit committee in designing the nature, timing, and extent of audit procedures. In other circumstances, as the audit progresses, an auditor may want to inquire of the audit committee as to whether any additional matters or concerns relevant to the audit have come to the attention of the audit committee not previously discussed with the auditor.

The reposed standard required the auditor to inquire of the audit committee about "whether it is aware of matters that might be relevant to the audit." One commenter raised concerns about this provision of the reposed standard as being "too broad and overreaching," which could obscure information that is truly relevant to the audit. Other commenters suggested that the inquiries of the audit committee should be expanded to include other matters, such as the audit committee's awareness of significant changes in company conditions or activities.

After considering the comments received on the scope of the information to be communicated under this provision, the term "might be" was excluded from this paragraph of the standard. The deletion of the term "might be" is appropriate to avoid an overly broad interpretation of the standard to require discussion of matters that may not be directly connected to the audit.

Although the Board did not revise the requirement to list all the matters of which the auditor could inquire in this provision, the requirement in the standard is not meant to be limited only to matters that are related to violations or possible violations of laws. The Board did not consider it practical to revise the requirement in an attempt to list all the matters of which the auditor could inquire in this provision. Such matters can and should vary from audit to audit. Rather, the inclusion of such matters was meant to serve only as an example of a matter that the auditor should discuss with the audit committee.

The same commenter who objected to the breadth of the inquiry also raised concerns related to the audit committee providing information to the auditor

---

<sup>12</sup> See paragraph 5.f. and 54-57 of Auditing Standard No. 12.

<sup>13</sup> Auditing Standard No. 12 also includes inquiries regarding the audit committee's views about fraud risks, its knowledge of fraud, and the audit committee's response to tips or complaints regarding the company's financial reporting, and how the audit committee exercises oversight of the company's assessment of fraud risks. See paragraphs 56.b(1)-(4) of Auditing Standard No. 12.

about violations or possible violations of laws or regulations and complaints or concerns received regarding financial reporting matters contained in the repropo- s ed standard. The commenter indicated that the audit committee's communi- cation of such information could cause the information to lose its confidentiality status with potential significant harmful consequences to the company, such as reducing the candor and chilling communications between management, em- ployees, and the audit committee. The commenter also indicated that if the audit committee discloses information covered by privileged attorney-client commu- nications or attorney work product to the auditor as part of this communication, the company may face a risk that a court may later deem the company to have waived the protection of such privilege or work product doctrine.

The Board did not change the requirement to exclude inquiries regarding viola- tions or possible violations of laws or regulations that are relevant to the audit. Limiting the scope of information that the audit committee might provide to the auditor could severely affect the auditor's ability to conduct an effective audit.

The purpose of this requirement is to enable the auditor to have the information necessary to conduct the audit to support the auditor's opinion on the company's financial statements. Due to the audit committee's oversight responsibilities, it is appropriate for the auditor to ask the audit committee for information relevant to the audit, including matters related to violations or possible viola- tions of laws or regulations. Without such inquiry, the auditor may not have information that could influence the performance of the audit.

The same commenter also indicated that if the audit committee provides infor- mation relevant to the audit, the audit committee's role would change funda- mentally from overseeing the accounting and financial reporting process of the company and audits of financial statements to becoming the original source of information for the auditor and guarantor of the accuracy and completeness of the financial statements, a role that historically has been that of management. It is possible, that in some situations, the communication from the audit com- mittee is the first instance in which a matter is brought to the attention of the auditor. For example, in some situations the audit committee may have unique insight into management's performance. By providing the opportunity for the audit committee to discuss information with the auditor, the standard enables the auditor to obtain the audit committee's perspective on matters which may be different from management's perspective.

## **VI. Overall Audit Strategy, Timing of the Audit, and Significant Risks (Paragraphs 9-11 of Auditing Standard No. 16)**

Auditing Standard No. 16 includes a requirement for the auditor to communi- cate to the audit committee an overview of the overall audit strategy, including the timing of the audit, and to discuss with the audit committee the significant risks<sup>14</sup> identified during the auditor's risk assessment procedures. Under this requirement, the auditor communicates to the audit committee the results of audit procedures performed in accordance with other PCAOB standards, such as Auditing Standard No. 9, *Audit Planning*, which requires the auditor to es- tablish an overall audit strategy that sets the scope, timing, and direction of the audit and guides the development of the audit plan. As part of the auditor's

---

<sup>14</sup> See paragraph A5 of Auditing Standard No. 12, which defines significant risk as a risk of material misstatement that requires special audit consideration.

risk assessment process, the auditor is required to identify and assess the risk of material misstatement, including significant risks.<sup>15</sup>

The timing of communications related to the audit strategy may vary from audit to audit based on the facts and circumstances. However, early communication of these matters might enable the audit committee to understand the auditor's views regarding risk and thereby provide an opportunity for the audit committee to communicate insights regarding additional risks that the auditor did not identify and allow the auditor to more effectively incorporate the additional risks into the audit strategy.

Some commenters indicated that the requirement for the auditor to communicate the audit strategy might result in the audit committee second guessing the auditor's strategy and the scope of the audit. These commenters suggested that the standard should emphasize that the auditor should not disclose details about the audit strategy that would allow management or the audit committee to take steps that could reduce the effectiveness of the audit strategy. Another commenter suggested the standard should require the auditor to provide specific details about the type and timing of procedures. Auditing Standard No. 16 includes a note, which indicates that the overview of the audit strategy is intended to provide information about the audit, but not specific details that would compromise the effectiveness of the audit procedures. Communicating certain details might reduce the effectiveness of those audit procedures. The Board considers that the language in Auditing Standard No. 16 strikes the appropriate balance; therefore, the standard was not revised.

Some commenters suggested that significant risks should be communicated throughout the audit rather than communicating just those significant risks identified during the auditor's risk assessment procedures. It is not the intent of the standard for the auditor to communicate only the significant risks that are identified during the auditor's risk assessment procedures. Paragraph 11 of Auditing Standard No. 16 requires the auditor to communicate significant changes to the planned audit strategy or the significant risks initially identified and the reasons for such changes.

A commenter suggested that the communication of risks be expanded to include business risks and the auditor's views of the company's internal controls, in addition to the significant risks of material misstatement to the financial statements. As part of obtaining an understanding of the company and its environment, Auditing Standard No. 12 requires the auditor to obtain an understanding of the company's objectives, strategies, and related business risks that could reasonably be expected to result in risks of material misstatement.<sup>16</sup> Under Auditing Standard No. 16, the auditor is required to communicate significant risks to the audit committee. If the auditor determines that a business risk results in a significant risk of material misstatement, the auditor should communicate the significant risk to the audit committee. Additionally, under Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*, and AU sec. 325, *Communications About Control Deficiencies in an Audit of Financial Statements*, the auditor is required to communicate to the audit committee material weaknesses and significant deficiencies in internal control over financial reporting identified during the audit.<sup>17</sup> Therefore, the standard was not revised.

Auditing Standard No. 16 also requires communications regarding others involved in the audit, such as persons with specialized skill or knowledge, internal

---

<sup>15</sup> See paragraphs 59, 70, and 71 of the Auditing Standard No. 12.

<sup>16</sup> See paragraph 14 of Auditing Standard No. 12.

<sup>17</sup> See paragraphs 78 and 80 of Auditing Standard No. 5 and paragraph 4 of AU sec. 325.

audit, and other firms or persons performing audit procedures. Communications of others involved in the audit might be important for an audit committee to understand as part of the audit committee's oversight of the financial reporting process.

### **A. Specialized Skill or Knowledge (Paragraph 10.a. of Auditing Standard No. 16)**

Auditing Standard No. 16 includes a requirement for the auditor to communicate to the audit committee the nature and extent of specialized skill or knowledge needed to perform the planned audit procedures or evaluate the audit results related to significant risks. This requirement is designed for the auditor to communicate the determination the auditor is required to make as part of developing the audit strategy in Auditing Standard No. 9.<sup>18</sup> Many audit firms have employees with specialized skill or knowledge that the engagement team can utilize. However, other firms might not have such in-house expertise. The focus of this requirement is on the communication about the need for specialized skill or knowledge, regardless of whether the specialist is from within the firm or outside the firm.

### **B. Internal Audit (Paragraphs 10.b. and 10.c. of Auditing Standard No. 16)**

Auditing Standard No. 16 requires the auditor to communicate to the audit committee the extent to which the auditor plans to use the work of the company's internal auditors in an audit of financial statements, including when internal audit provides direct assistance to the auditor. In addition, Auditing Standard No. 16 requires the auditor to communicate the extent to which the auditor plans to use the work of internal auditors, company personnel (in addition to internal auditors), and third parties working under the direction of management or the audit committee when performing an audit of internal control over financial reporting.

Auditing Standard No. 9 requires the auditor to establish an overall audit strategy that sets the scope, timing, and direction of the audit and guides the development of the audit plan, including the nature, timing, and extent of resources necessary to perform the engagement.<sup>19</sup> Other standards, including AU sec. 322, *The Auditor's Consideration of the Internal Audit Function in an Audit of Financial Statements*, and Auditing Standard No. 5, provide additional requirements and impose limits on the use of internal audit staff. The requirement in Auditing Standard No. 16 is to communicate to the audit committee the extent to which the auditor plans to use the work of the company's internal auditors and others as determined in the audit plan.

### **C. Other Firms or Persons Performing Audit Procedures (Paragraph 10.d. of Auditing Standard No. 16)**

Auditing Standard No. 16 requires the auditor to communicate to the audit committee the names, locations, and planned responsibilities of other independent public accounting firms or other persons, who are not employed

---

<sup>18</sup> See paragraph 16 of Auditing Standard No. 9 for the requirement for the auditor to determine whether specialized skill or knowledge is needed to perform appropriate risk assessments, plan or perform audit procedures, or evaluate audit results.

<sup>19</sup> See paragraphs 8-9 of Auditing Standard No. 9.

by the auditor, that perform audit procedures in the current period audit. The standard includes a note stating the term "other independent public accounting firms" includes firms that perform audit procedures in the current period audit regardless of whether they otherwise have any relationship with the auditor.

In planning and performing the audit, the auditor determines whether to use other auditors or other persons to perform audit procedures at individual client locations, business units, or to perform work related to specific audit areas or procedures. Those other auditors might be affiliated firms, non-affiliated firms, or other persons not employed by the auditor.

The note to Auditing Standard No. 16 was revised from the repropose standard to clarify that the communication regarding other independent public accounting firms is not based on the type of relationship the auditor otherwise has with the other firms. Rather, the requirement for the auditor to communicate the names, locations, and planned responsibilities of other independent public accounting firms and other persons is to provide information to the audit committee regarding the parties involved in the audit. This requirement also might facilitate a discussion of how the work of other parties would affect the audit.

The repropose standard also required the auditor to communicate to the audit committee the "planned roles" of others involved in the audit and the "scope of audit procedures." One commenter suggested that the requirement to communicate the "scope of audit procedures" should be clarified in the standard. Another commenter suggested that the communication should be expanded to be more robust when other participants are used to audit foreign components of a company. Auditing Standard No. 10, *Supervision of the Audit Engagement*, requires the auditor to inform engagement team members of their responsibilities<sup>20</sup> and AU sec. 543, *Part of Audit Performed by Other Independent Auditors*, discusses situations in which the auditor uses the work and reports of other independent auditors who have audited financial statements of one or more subsidiaries, divisions, branches, components or investments included in the financial statements.<sup>21</sup> To align with these requirements, the standard was revised to require the auditor to communicate only the "planned responsibilities" of other participants involved in the audit, the requirements to communicate the "planned roles" of others involved in the audit and the "scope of audit procedures" were removed from the standard, and the standard was not expanded to include other considerations.

Many commenters suggested that the standard provide a threshold for determining when to make communications regarding others involved in the audit, such as when another auditor performs procedures related to a percentage of the company's total assets or addresses significant risks. Others suggested that the communication include only non-affiliated accounting firms. The standard was not revised because audit committees have oversight of the entire audit engagement, which includes work performed by other auditors. The audit committee should be aware of all the participants in the audit. This communication regarding other participants in the audit would enable the audit committee to inquire or otherwise determine, for example, whether the other participants are registered with the Board and are subject to PCAOB inspections and whether they have disciplinary history with the Board or other regulators.

This communication requirement is intended to be scalable. For example, the amount of detail the auditor generally would communicate to the audit committee regarding the participation of other auditors would be greater for

---

<sup>20</sup> See paragraph 5.a. of Auditing Standard No. 10.

<sup>21</sup> See AU sec. 543.01.

participants that perform a significant portion of the audit or that perform procedures related to significant risks.

## **D. Principal Auditor (Paragraph 10.e. of Auditing Standard No. 16)**

Auditing Standard No. 16 requires the auditor to communicate to the audit committee the basis for the auditor's determination that the auditor can serve as principal auditor, if significant parts of the audit are to be performed by other auditors. This communication requirement is based on the auditor's determination that the auditor can serve as the principal auditor in accordance with AU sec. 543. This communication would enable the audit committee to evaluate the extent of work performed by the principal auditor in relation to work performed by other auditors.

The repropoed standard included a note to describe situations where such communications would be required. The Board determined that this note was not necessary because AU sec. 543, governs the determination of whether the auditor can serve as the principal auditor.

## **VII. Accounting Policies and Practices, Estimates, and Significant Unusual Transactions (Paragraph 12 of Auditing Standard No. 16)**

Auditing Standard No. 16 requires the auditor to communicate to the audit committee certain matters related to the company's accounting policies and practices, estimates, and significant unusual transactions. However, the standard recognizes that management also might make communications to the audit committee regarding these matters and that the auditor might not need to communicate the information at the same level of detail as management as long as the auditor meets certain criteria specified in the standard. In such circumstances, the auditor should communicate any omitted or inadequately described matters to the audit committee.

### **A. Accounting Policies and Practices (Paragraphs 12.a. and 12.b. of Auditing Standard No. 16)**

Auditing Standard No. 16 requires the auditor to communicate to the audit committee certain information regarding the company's significant accounting policies and practices and also critical accounting policies and practices.

The standard uses the terms "significant accounting policies and practices" and "critical accounting policies and practices." The Financial Accounting Standards Board's ("FASB") Accounting Standards Codification ("ASC") and the International Accounting Standards Board ("IASB"), require that companies disclose a description of all significant accounting policies as an integral part of the financial statements.<sup>22</sup> For example, the FASB ASC recognizes that an

---

<sup>22</sup> See FASB ASC, Topic 235, Notes to Financial Statements, section 235-10-50. As part of this disclosure, the entity is required to disclose accounting policies and to describe the accounting principles followed by the entity and the methods of applying those principles that materially affect the determination of financial position, cash flows, or results of operations. Additionally, see paragraph 117 of International Accounting Standard 1, *Presentation of Financial Statements*, which requires the entity to disclose the summary of significant accounting policies, including the measurement basis used in preparing the financial statements and other accounting policies that are relevant to understanding the financial statements.

entity's description of its significant accounting policies is an integral part of the financial statements.<sup>23</sup> Additionally, the term "significant accounting policies and practices" is consistent with the term used in AU sec. 380 and understood in practice and, therefore, has not been separately defined.

The definition of "critical accounting policies and practices" in Auditing Standard No. 16 is based on the SEC's description of the term "critical accounting policies and practices" as a company's accounting policies and practices that are both most important to the portrayal of the company's financial condition and results and require management's most difficult, subjective, or complex judgments, often as a result of the need to make estimates about the effects of matters that are inherently uncertain.<sup>24</sup> The selection of significant accounting policies and practices involves a broader range of transactions and events over time, while the selection of critical accounting policies and practices is tailored to specific events in the current year. Therefore, critical accounting policies and practices might be viewed as a subset of significant accounting policies and practices.

### **1. Significant Accounting Policies and Practices (Paragraph 12.a. of Auditing Standard No. 16)**

Auditing Standard No. 16 generally retains the requirements from AU sec. 380 related to communication of the company's significant accounting policies and practices, including:

- Management's initial selection of, or changes in, significant accounting policies or the application of such policies in the current period; and
- The effect on financial statements or disclosures of significant accounting policies in (i) controversial areas or (ii) areas for which there is a lack of authoritative guidance or consensus, or diversity in practice.

Auditing Standard No. 16 requires the auditor to communicate to the audit committee certain matters related to significant accounting policies and practices, whereas, AU sec. 380 required the auditor only to determine that the audit committee was "informed." This change in wording is intended to indicate that the auditor should make these communications, rather than determine that the audit committee was informed, as required in AU sec. 380. However, the note to paragraph 12 of Auditing Standard No. 16 acknowledges that such communications may be made by management, and if the auditor meets certain conditions, these communications need not be duplicated by the auditor.

Some commenters suggested that it was unclear whether the communication of the initial selection of, or changes in, significant accounting policies or the application of such policies in the current period would require communication annually if there is no change. Another commenter indicated that the auditor may not be in a position to provide information on areas for which there is diversity in practice because the auditor may not be knowledgeable of accounting practices used by other entities.

Auditing Standard No. 16 was not revised in response to these comments. The standard indicates that the auditor should communicate to the audit committee the initial selection in the current period of significant accounting policies. The standard also indicates that the auditor should communicate to the audit

---

<sup>23</sup> See FASB ASC paragraphs 235-10-50-1 through 235-10-50-6.

<sup>24</sup> See SEC, *Strengthening the Commission's Requirements Regarding Auditor Independence*, Securities Act Release No. 8183 (Jan. 28, 2003).

committee changes in those policies or changes in the application of those policies in the current period if they differ from those policies that management previously utilized or how they were previously applied.

Additionally, the auditor's responsibility to communicate the effect of significant accounting policies includes (i) controversial areas or (ii) areas for which there is lack of authoritative guidance or consensus, or diversity in practice. The auditor should be aware of diversity in practice related to significant accounting policies and practices used by the company because Auditing Standard No. 12 requires the auditor to evaluate whether the company's selection of and application of accounting principles are appropriate for its business and consistent with the applicable financial reporting framework and accounting principles used in the relevant industry.<sup>25</sup> Based on this evaluation, the auditor should be in a position to make such communication.

## **2. Critical Accounting Policies and Practices (Paragraph 12.b. of Auditing Standard No. 16)**

Auditing Standard No. 16 incorporates the Securities Exchange Act of 1934's ("Exchange Act") requirement for the auditor to communicate to the audit committee all critical accounting policies and practices to be used.<sup>26</sup> Auditing Standard No. 16 also requires the auditor to communicate the reasons certain accounting policies and practices are considered critical and how current and anticipated future events might affect the determination of whether certain policies and practices are considered critical.<sup>27</sup>

Some commenters recommended deleting the requirement for the auditor to communicate how anticipated future events might affect the determination of whether certain policies and practices are considered critical since the auditor cannot predict the future. The standard retains the SEC requirement regarding communication of anticipated future events related to critical accounting policies and practices, as this is a component of the required communication the SEC identified in adopting SEC Rule 2-07.<sup>28</sup> The standard notes that critical accounting policies and practices are tailored to specific events in the current year and that the accounting policies and practices that are considered critical might change from year to year. For example, a significant merger or acquisition may result in the related accounting policy being considered critical in the current year in which the related transaction occurs, but not in subsequent years. Auditing Standard No. 16 is aligned with the SEC requirement, therefore the standard was not revised.

## **B. Critical Accounting Estimates (Paragraph 12.c. of Auditing Standard No. 16)**

Auditing Standard No. 16 requires the auditor to communicate the following matters related to critical accounting estimates:

---

<sup>25</sup> Paragraph 12 of Auditing Standard No. 12.

<sup>26</sup> Section 10A(k) of the Exchange Act, 15 U.S.C. § 78j-1(k), requires the auditor to report this information to the audit committee. *See also* SEC Rule 2-07 of Regulation S-X ("SEC Rule 2-07"), 17 C.F.R. §210.2-07.

<sup>27</sup> *See* Securities Act Release No. 8183, which describes the SEC's expectations regarding the discussion related to critical accounting policies and practices. In this release, the SEC indicated that it anticipated that the discussion of accounting policies and practices would include how current and anticipated future events might affect the determination of whether certain policies and practices are considered critical.

<sup>28</sup> *Id.*

- (1) A description of the process management used to develop critical accounting estimates;
- (2) Management's significant assumptions used in critical accounting estimates that have a high degree of subjectivity; and
- (3) Any significant changes management made to the processes used to develop critical accounting estimates or significant assumptions, a description of management's reasons for the changes, and the effects of the changes on the financial statements.

As the term "critical accounting estimate" implies, the communication is not designed to encompass a long list of accounting estimates resulting from the application of accounting policies that cover a substantial number of line items in the company's financial statements. Rather, Auditing Standard No. 16 defines the term "critical accounting estimate" as an accounting estimate where (a) the nature of the estimate is material due to the levels of subjectivity and judgment necessary to account for highly uncertain matters or the susceptibility of such matters to change and (b) the impact of the estimate on financial condition or operating performance is material.

The definition of "critical accounting estimate" is based on SEC interpretive guidance in connection with management's discussion and analysis ("MD&A") of the company's financial condition and results of operations.<sup>29</sup> The alignment of the term critical accounting estimates in PCAOB standards with the same term in the SEC's interpretive guidance allows auditors to use the same concept under SEC requirements and PCAOB standards when communicating matters to the audit committee. The term critical accounting estimate is used to help focus the communication to the audit committee on those estimates that might be subject to a higher risk of material misstatement, such as certain fair value estimates. The definition of a critical accounting estimate is intended to replace the term "particularly sensitive" in AU sec. 380.<sup>30</sup>

The requirement to communicate the process management used to develop critical accounting estimates is adapted from the requirement in AU sec. 380 related to particularly sensitive accounting estimates.<sup>31</sup> Additionally, the communication requirements are designed to communicate the results of the auditor's performance requirements under AU sec. 342, *Auditing Accounting Estimates*, which requires the auditor to evaluate the reasonableness of accounting estimates. In evaluating the reasonableness of the accounting estimate, AU sec. 342 also requires the auditor to obtain an understanding of how management developed the estimate.<sup>32</sup> AU sec. 342 also states that in evaluating the reasonableness of an estimate, the auditor normally concentrates on key factors and assumptions that are (a) significant to the accounting estimate, (b) sensitive to variations, (c) deviations from historical patterns, and (d) subjective and susceptible to misstatement and bias.<sup>33</sup>

One commenter suggested that the communication requirement also include how management subsequently monitors critical accounting estimates and, when critical accounting estimates involve a range of possible outcomes, how the recorded estimates relate to the range and how various selections within

---

<sup>29</sup> See SEC, *Interpretation: Commission Guidance Regarding Management's Discussion and Analysis of Financial Condition and Results of Operations*, Securities Act Release No. 8350 (Dec. 19, 2003).

<sup>30</sup> See AU sec. 380.08, which stated in part, "[c]ertain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ markedly from management's current judgments."

<sup>31</sup> AU sec. 380.08.

<sup>32</sup> See AU sec. 342.10.

<sup>33</sup> See AU Sec. 342.09.

the range would affect the company's financial statements. Although these requirements are not included in Auditing Standard No. 16, the Board notes that the SEC has stated that management should disclose the company's critical accounting estimates in MD&A.<sup>34</sup> According to the related SEC release, management's discussion should present, among other matters, the company's analysis of the uncertainties involved in applying a principle at a given time or the variability that is reasonably likely to result from its application over time and analyze an estimate's specific sensitivity to change based on other outcomes that are reasonably likely to occur and would have a material effect.<sup>35</sup> The commenter's concerns, therefore, may be addressed through a company's MD&A disclosures.

AU sec. 550, *Other Information in Documents Containing Audited Financial Statements*, requires the auditor to read the other information, such as MD&A in documents containing audited financial statements, and consider whether the information, or the manner of its presentation, is materially inconsistent with information in the financial statements or is a material misstatement of fact.<sup>36</sup> Auditing Standard No. 16 includes a requirement for the auditor to communicate to the audit committee the results of such procedures (see Section IX of this appendix, "Other Information in Documents Containing Audited Financial Statements," for further discussion). Accordingly, no change was made to the standard.

### **C. Significant Unusual Transactions (Paragraph 12.d. of Auditing Standard No. 16)**

Auditing Standard No. 16 includes requirements for the auditor to communicate to the audit committee (1) significant transactions that are outside the normal course of business for the company or that otherwise appear to be unusual due to their timing, size, or nature;<sup>37</sup> and (2) the policies and practices management used to account for significant unusual transactions. Communication of significant unusual transactions would enable the audit committee to gain the auditor's insight into those transactions and to take any appropriate action.

The requirement in the standard for the auditor to communicate the policies and practices management used to account for significant unusual transactions is similar to the requirement in AU sec. 380.<sup>38</sup> Under Auditing Standard No. 16, such communication also would include the identification of significant unusual transactions.

The proposed standard required the auditor to communicate significant unusual transactions, of which the auditor is aware, that are outside the normal course of business for the company or otherwise appear to be unusual due to their timing, size, or nature. Many commenters indicated that management also might communicate matters related to significant unusual transactions to the audit committee and that the standard should acknowledge that management might make the communications related to significant unusual transactions. The standard was revised to recognize that management might make these communications to the audit committee and that, in those situations, the auditor might not need to communicate the information at the same level of detail as

---

<sup>37</sup> See paragraph 71.g. of Auditing Standard No. 12.

<sup>38</sup> AU sec. 380.07.

management as long as certain criteria specified in the standard are met. However, the auditor should communicate any omitted or inadequately described matters to the audit committee.

Additionally, some commenters suggested that the communication should be limited to significant unusual transactions that are considered significant risks. While a significant unusual transaction might also be considered a significant risk, this communication provides the audit committee with additional information regarding the significant unusual transactions and the policies and practices management used to account for such transactions, even if such transactions do not constitute significant risks. Significant unusual transactions, at times, have been considered to be a contributing factor in attempts to mislead investors about a company's financial condition. Therefore, providing the audit committee with information regarding significant unusual transactions could benefit the audit committee in its oversight of the financial reporting process.

Some commenters suggested that the standard include a definition of the term "significant unusual transactions." Auditing Standard No. 16 describes significant unusual transactions as significant transactions that are outside the normal course of business for the company or that otherwise appear to be unusual due to their timing, size, or nature, which is consistent with the description of this term in other PCAOB standards, such as Auditing Standard No. 12.<sup>39</sup> Therefore, the standard was not revised to further define significant unusual transactions.

#### **D. Consideration of Communications Made by Management (Note to Paragraph 12 of Auditing Standard No. 16)**

Auditing Standard No. 16 retains the substance of the communication requirements in AU sec. 380 regarding accounting policies, practices, and estimates. The requirement in the standard for the auditor to communicate critical accounting policies and practices is consistent with Section 10A(k) of the Exchange Act, which requires auditors of issuers to report all critical accounting policies and practices to the issuer's audit committee.<sup>40</sup> In addition, Auditing Standard No. 16 includes a new requirement related to the communication of significant unusual transactions.

Many commenters suggested that the standard should recognize that management has the primary responsibility for reporting to the audit committee and that the auditor's responsibility should be to confirm that management has appropriately communicated. No change was made in response to this comment because, similar to AU sec. 380, Auditing Standard No. 16 acknowledges that management also may be communicating certain matters related to the financial reporting process to the audit committee. The Board recognizes that management as well as the auditor might discuss accounting policies, practices, estimates, and significant unusual transactions with the audit committee and that it would not be cost-effective or practical for the audit committee to listen to essentially the same presentation twice. Therefore, Auditing Standard No. 16 indicates that, in situations in which management communicates matters in paragraph 12, the auditor's communication requirement under the standard would be met if the auditor: (1) participates in management's discussion with the audit committee,<sup>41</sup> (2) affirmatively confirms to the audit committee that

---

<sup>39</sup> Paragraph 71.g. of Auditing Standard No. 12.

<sup>40</sup> See also SEC Rule 2-07.

<sup>41</sup> The auditor's participation in management's discussion with the audit committee could be satisfied in person or via audio or video conference.

management has adequately communicated these matters, and (3) with respect to critical accounting policies and practices, identifies for the audit committee those accounting policies and practices that the auditor considers critical. In addition, the auditor should communicate any omitted or inadequately described matters to the audit committee.

In situations in which management makes those communications to the audit committee, in order to satisfy the communication requirement in Auditing Standard No. 16, the auditor would be required to participate during discussions between management and the audit committee regarding accounting policies, practices, estimates, and significant unusual transactions, which may include discussions of the importance of critical accounting policies, practices or estimates, or the difficult, subjective, or complex nature of the judgment involved in significant unusual transactions, or the selection or application of accounting policies, practices, or estimates. If the auditor identifies the accounting policies and practices that the auditor considers critical to the portrayal of the company's financial condition and results and affirmatively confirms that management has adequately communicated the accounting policies, practices, estimates, and significant unusual transactions to the audit committee in a meeting in which the auditor participated the auditor would be deemed to satisfy the requirement for the auditor to report all critical accounting policies and practices to the audit committee, without the need for the auditor to repeat management's presentation on the same topic.

Conversely, if the auditor (1) did not participate in management's meeting with the audit committee in which communication regarding accounting policies, practices, estimates, and significant unusual transactions occurred, (2) did not affirmatively confirm that accounting policies, practices, estimates, and significant unusual transactions had been discussed adequately by management, or (3) with respect to critical accounting policies and practices, did not identify those accounting policies and practices that the auditor considers critical, then the auditor would be required to communicate to the audit committee the matters described in paragraph 12 of Auditing Standard No. 16, regardless of any management communication regarding those matters.

## **VIII. Auditor's Evaluation of the Quality of the Company's Financial Reporting (Paragraph 13 of Auditing Standard No. 16)**

Auditing Standard No. 16 requires the auditor to communicate certain matters to the audit committee regarding the auditor's views of the audit and the financial statements as described below.

### **A. Qualitative Aspects of Significant Accounting Policies and Practices (Paragraph 13.a. of Auditing Standard No. 16)**

Auditing Standard No. 16 requires the auditor to communicate the results of the auditor's evaluation of, and conclusions about, the qualitative aspects of the company's significant accounting policies and practices, including situations in which the auditor identified bias in management's judgments about the amounts and disclosures in the financial statements. This requirement is similar to certain communication requirements that have been superseded. AU sec. 380 required the auditor to discuss with the audit committee the auditor's judgments about the quality, not just the acceptability, of the company's

accounting principles.<sup>42</sup> Additionally, AU sec. 9312, *Audit Risk and Materiality in Conducting an Audit: Auditing Interpretations of Section 312*, required the auditor to consider whether matters related to management bias should be communicated to the audit committee.<sup>43</sup>

The requirement in Auditing Standard No. 16 is designed for the auditor to communicate the results of the auditor's procedures under Auditing Standard No. 14, *Evaluating Audit Results*, which requires the auditor to, among other things, evaluate the qualitative aspects of the company's accounting practices,<sup>44</sup> including potential bias in management's judgments about the amounts and disclosures in the financial statements.<sup>45</sup>

Additionally, Auditing Standard No. 16 requires the auditor to communicate to the audit committee the results of the auditor's evaluation of the differences between (i) estimates best supported by audit evidence and (ii) estimates included in the financial statements, which are individually reasonable, that indicate a possible bias on the part of the company's management. This communication is designed for the auditor to discuss the results of the auditor's evaluation of these matters as required under Auditing Standard No. 14.<sup>46</sup> Linking the communication requirements with performance requirements in Auditing Standard No. 14 provides context regarding the matters to be communicated.

Some commenters suggested that the standard should retain the requirement in AU sec. 380 for the auditor to discuss with the audit committee the auditor's judgments about the quality, not just the acceptability, of the entity's accounting principles. Auditing Standard No. 16 modifies the requirement from AU sec. 380 by requiring the auditor to communicate to the audit committee the results of the auditor's evaluation of, and conclusions about, the qualitative aspects of the company's significant accounting policies and practices, while linking the communication requirement to the performance requirement in Auditing Standard No. 14. Therefore, no change was made in response to these comments.

## **B. Assessment of Critical Accounting Policies and Practices (Paragraph 13.b. of Auditing Standard No. 16)**

Auditing Standard No. 16 requires the auditor to communicate to the audit committee the auditor's assessment of management's disclosures related to the critical accounting policies and practices, along with any significant modifications to the disclosures of those policies and practices proposed by the auditor that management did not make. This requirement is based on the Exchange Act's requirement that the auditor report to the audit committee all critical accounting policies and practices.<sup>47</sup> In the release adopting the SEC's related rule, the SEC indicated that it anticipated that the auditor's communications to the audit committee regarding critical accounting policies would include an assessment of management's disclosures along with any significant proposed modifications by the auditor that were not included in those disclosures.<sup>48</sup>

---

<sup>42</sup> AU sec. 380.11.

<sup>43</sup> Following the original proposal of this standard, AU sec. 9312 was superseded when the Board adopted the risk assessment standards. The performance requirement of AU sec. 9312, however, was substantially included in the risk assessment standards.

<sup>44</sup> See paragraphs 24-27 of Auditing Standard No. 14.

<sup>45</sup> *Id.*

<sup>46</sup> See paragraph 27 of Auditing Standard No. 14.

<sup>47</sup> See Section 10A(k) of the Exchange Act, 15 U.S.C. §78j-1(k); and SEC Rule 2-07.

<sup>48</sup> See Securities Act Release No. 8183.

### **C. Conclusions Regarding Critical Accounting Estimates (Paragraph 13.c. of Auditing Standard No. 16)**

Auditing Standard No. 16 requires the auditor to communicate the basis for the auditor's conclusions regarding the reasonableness of the critical accounting estimates. This requirement is similar to a requirement in AU sec. 380.<sup>49</sup> This requirement is designed to require the auditor to communicate the results of the auditor's procedures regarding critical accounting estimates under PCAOB standards, such as AU sec. 342.<sup>50</sup> Communicating these results will provide the audit committee with the auditor's assessment of the critical accounting estimates based on the auditor's procedures.

### **D. Significant Unusual Transactions (Paragraph 13.d. of Auditing Standard No. 16)**

Auditing Standard No. 16 requires the auditor to communicate to the audit committee the auditor's understanding of the business rationale for significant unusual transactions. This communication requirement is aligned with the performance requirement in AU sec. 316, *Consideration of Fraud in a Financial Statement Audit*, which requires the auditor to gain an understanding of the business rationale regarding significant transactions that are outside the normal course of business or that otherwise appear unusual.<sup>51</sup> This communication would provide the audit committee with an opportunity to receive the auditor's perspective of such transactions.

In a separate rulemaking project, the Board has proposed amendments to AU sec. 316 that would require the auditor to design and perform procedures to obtain an understanding of the business purpose (or lack thereof) of each significant unusual transaction and evaluate whether the business purpose (or the lack thereof) indicates that the significant unusual transaction may have been entered into to engage in fraudulent financial reporting or conceal misappropriation of assets.<sup>52</sup> If, at the conclusion of that rulemaking project, the Board adopts the proposed amendments to AU sec. 316, the Board will consider, as appropriate, amending Auditing Standard No. 16 to align the communication with any new performance requirements.

### **E. Financial Statement Presentation (Paragraph 13.e. of Auditing Standard No. 16)**

Similar to AU sec. 380.11, Auditing Standard No. 16 requires the auditor to communicate to the audit committee the results of the auditor's evaluation of whether the presentation of the financial statements and the related disclosures are in conformity with the applicable financial reporting framework, including the auditor's consideration of the form, arrangement, and content of the financial statements (including the accompanying notes), encompassing matters such as the terminology used, the amount of detail given, the classification of items, and the bases of amounts set forth. This communication requirement

---

<sup>49</sup> See AU sec. 380.08.

<sup>50</sup> See AU secs. 342.04, 09-10.

<sup>51</sup> See AU sec. 316.66.

<sup>52</sup> *Proposed Auditing Standard - Related Parties, Proposed Amendments to Certain PCAOB Auditing Standards Regarding Significant Unusual Transactions, and Other Proposed Amendments to PCAOB Auditing Standards*, PCAOB Release No. 2012-001 (Feb. 28, 2012).

relates to the auditor's evaluation of whether the financial statements are presented fairly, in all material respects, in conformity with the applicable financial reporting framework, as required by Auditing Standard No. 14.<sup>53</sup>

Some commenters suggested that the standard should retain the requirement in AU sec. 380 for the auditor to discuss with the audit committee the auditor's views about the clarity and completeness of the company's financial statements and disclosures. However, commenters on the original proposed standard indicated it was not clear what was meant by the clarity and completeness of the company's financial statements and related disclosures. Commenters also expressed concern as to what should be included in the communications to the audit committee. The communication requirement in Auditing Standard No. 16 avoids possible confusion regarding the meaning of the phrase "clarity and completeness" by linking it to the auditor performance requirements included in Auditing Standard No. 14 for the auditor to evaluate the presentation of the financial statements, including disclosures. The performance requirements in Auditing Standard No. 14<sup>54</sup> provide context regarding the matters to be communicated under Auditing Standard No. 16.

## **F. New Accounting Pronouncements (Paragraph 13.f. of Auditing Standard No. 16)**

Auditing Standard No. 16 requires the auditor to communicate to the audit committee situations in which, as a result of the auditor's procedures, the auditor identified a concern regarding management's anticipated application of accounting pronouncements that have been issued but are not yet effective and might have a significant effect on future financial reporting. This requirement is based on the situations in which, as a result of the auditor's procedures, the auditor has identified a concern regarding the anticipated application of a new accounting pronouncement. Auditing Standard No. 16 does not require the auditor to perform additional procedures to identify such concerns.

Some commenters noted that management generally discloses in the financial statements the potential effects of adoption of new accounting standards and that this auditor communication to the audit committee should be related to the auditor's evaluation of management's disclosures related to new accounting pronouncements. The intent of the required communication to the audit committee is not meant to provide an additional evaluation of management's disclosures. Rather, the intent is to inform the audit committee when the auditor "has identified a concern" regarding the planned implementation of a new accounting pronouncement or whether management has devoted adequate resources to prepare its accounting and disclosure processes, and other financial reporting systems, for the timely implementation of the new accounting pronouncement. This communication might inform the audit committee's oversight of the company's financial reporting process. Requiring the discussion of such matters is intended to allow the audit committee to properly consider the auditor's concerns regarding future financial statements. Accordingly, no change to the standard was made.

---

<sup>53</sup> See paragraphs 30-31 of Auditing Standard No. 14, which describe the auditor's responsibility relating to the evaluation of whether the financial statements are presented fairly, in all material respects, in conformity with the applicable financial reporting framework.

<sup>54</sup> *Id.*

## **G. Alternative Accounting Treatments (Paragraph 13.g. of Auditing Standard No. 16)**

Auditing Standard No. 16 requires the auditor to communicate all alternative treatments permissible under the applicable financial reporting framework for policies and practices related to material items that have been discussed with management, including the ramifications of the use of such alternative disclosures and treatments, and the treatment preferred by the auditor. This requirement is consistent with Section 10A(k) of the Exchange Act and with SEC Rule 2-07, which requires the auditor to report to the audit committee all alternative treatments that are related to material items, were discussed with management, and are permissible under the applicable financial reporting framework.<sup>55</sup>

## **IX. Other Information in Documents Containing Audited Financial Statements (Paragraph 14 of Auditing Standard No. 16)**

Auditing Standard No. 16 retains the requirement from AU sec. 380.12 for the auditor to communicate to the audit committee the auditor's responsibility under PCAOB rules and standards for other information presented in documents containing audited financial statements, any related procedures performed, and the results of such procedures. Such other information would include documents described in AU sec. 550, AU sec. 558, *Required Supplementary Information*, and AU sec. 711, *Filings Under Federal Securities Statutes*.

The auditor's responsibility under AU sec. 550 requires the auditor to read the other information and consider whether such information, or the manner of its presentation, is materially inconsistent with information, or the manner of its presentation, in the financial statements.<sup>56</sup> One commenter suggested that Auditing Standard No. 16 should also include a requirement to communicate any identified material inconsistencies or misstatements of facts, including the auditor's response to such matters.

Auditing Standard No. 16 requires the auditor to communicate the results of the auditor's procedures related to other information in documents containing audited financial statements, which would require the auditor to communicate identified inconsistencies or misstatements of facts to the audit committee. The Board is amending AU sec. 550 to require the auditor to communicate to the audit committee the material inconsistency between the other information and the financial statements in situations in which the information is not revised to eliminate the material inconsistency. The Board also is amending AU sec. 550 to require the auditor to communicate to the client and the audit committee, in writing, a material misstatement of fact in the other information. Thus, it was not necessary to revise the standard in response to commenters. Appendix 3 of the release provides the amendments to PCAOB standards as a result of the adoption of Auditing Standard No. 16.

---

<sup>55</sup> See SEC Rule 2-07, Section 10A(k) of the Exchange Act, 15 U.S.C. §78j-1(k), and Securities Act Release No. 8183.

<sup>56</sup> See generally, AU secs. 550.04-.07, which require that the auditor read the information and consider whether it is materially inconsistent with information in the financial statements or whether it contains any material misstatements of fact.

## **X. Difficult or Contentious Matters for which the Auditor Consulted (Paragraph 15 of Auditing Standard No. 16)**

Auditing Standard No. 16 requires the auditor to communicate to the audit committee matters that are difficult or contentious for which the auditor consulted outside the engagement team and that the auditor reasonably determined are relevant to the audit committee's oversight of the financial reporting process. The required communications of difficult or contentious matters are based on the results of the procedures the auditor performed regarding such matters during the course of the audit and do not require the performance of new or additional procedures.

Many matters that arise during an audit can be complex or unusual, and the auditor might consult on such matters with the firm's national office, industry specialists, or external parties. Difficult or contentious issues can arise in various stages of the audit, including in the auditor's evaluation of management's judgments, estimates, accounting policies, or assessment of identified control deficiencies. Difficult or contentious issues generally are the critical matters that concern the auditor when he or she is making the final assessment of whether the financial statements are presented fairly.

A difficult issue might not always be synonymous with a contentious issue. Rather, a difficult issue might be a matter that requires consultation. A contentious issue might be a matter that not only requires consultation but also leads to significant points of disagreement, debate, or deliberation between the auditor and management. Audit committees might better appreciate the importance of difficult or contentious matters if they are aware that such consultations took place.

During the course of the audit difficult or contentious issues might arise for which the auditor did not consult, but which the auditor believes are relevant to the audit committee's oversight of the financial reporting process. Auditing Standard No. 16 does not preclude the auditor from communicating to the audit committee difficult or contentious matters for which the auditor did not consult outside the engagement team.

Some commenters suggested that the standard should define difficult or contentious matters. The term "difficult or contentious matter" is used in Auditing Standard No. 7, *Engagement Quality Review*. Therefore, the term "difficult or contentious matter" is not defined in this standard.

Some commenters suggested that the standard should exclude the discussions between the auditor and the engagement quality reviewer from communications to the audit committee regarding consultation outside the engagement team on difficult or contentious matters. The communication to the audit committee in Auditing Standard No. 16 focuses on the difficult or contentious matters on which the auditor consulted, not on the parties involved in the consultation. Therefore, the standard was not revised.

## **XI. Management Consultation with Other Accountants (Paragraph 16 of Auditing Standard No. 16)**

When the auditor is aware that management consulted with other accountants about significant auditing or accounting matters and the auditor has identified a concern regarding such matters, Auditing Standard No. 16 requires the auditor to communicate to the audit committee the auditor's views about such

matters that were the subject of such consultation. This requirement is similar to a requirement in AU sec. 380.<sup>57</sup> Communicating matters that were the subject of consultations only when the auditor has identified a concern about those matters should allow the audit committee to focus its efforts on important accounting and auditing issues.

Some commenters suggested that communicating management consultations with other accountants should be management's responsibility and that the standard should clarify that the auditor should comment only on what management has communicated regarding such consultations. The standard does not impose a communication requirement on management. The requirement in Auditing Standard No. 16 is specifically related to the auditor's responsibilities when management has consulted with other accountants and only when the auditor has a concern regarding the accounting and auditing matters that were the subject of management's consultations. Therefore, Auditing Standard No. 16 was not revised.

As part of the comment process, the Board asked whether the requirement to communicate about consultations should be expanded to include consultations on accounting or auditing matters with non-accountants, such as consulting firms or law firms. Some commenters suggested that communication regarding management's consultations with non-accountants should be required, while others suggested that communication about these consultations should be made at the auditor's discretion depending on the facts or circumstances and the significance of the consultation to the financial statements. However, many commenters indicated that this communication should not be expanded to include consultations with non-accountants, as the auditors would not be in position to know about all management consultations with non-accountants. Some commenters indicated that this requirement could result in the auditor expending significant effort to identify and evaluate management's consultations with non-accountants. After consideration of these comments, the standard was not revised to require the auditor to communicate management's consultation with non-accountants.

## **XII. Going Concern (Paragraph 17 of Auditing Standard No. 16)**

Auditing Standard No. 16 requires the auditor to communicate to the audit committee certain matters related to the auditor's evaluation of the company's ability to continue as a going concern. The communication requirements in Auditing Standard No. 16 are based on the auditor's performance requirements under AU sec. 341, *The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern*, which requires the auditor to evaluate whether there is substantial doubt about the company's ability to continue as a going concern for a reasonable period of time.<sup>58</sup> The auditor's communication to the audit committee regarding the auditor's evaluation of the company's ability to continue as a going concern can serve to further inform the audit committee, in certain circumstances, regarding difficult conditions and events that the company is encountering.

---

<sup>57</sup> AU sec. 380.14.

<sup>58</sup> See AU sec. 341.06, which provides examples of such conditions and events and AU sec. 341.07, which discusses the auditor's procedures if the auditor believes there is substantial doubt about the company's ability to continue as a going concern for a reasonable period of time.

Auditing Standard No. 16 requires the auditor to communicate the conditions and events the auditor identified that, when considered in the aggregate, lead the auditor to believe that there is substantial doubt about the company's ability to continue as a going concern for a reasonable period of time. Information about such conditions and events is obtained from the application of auditing procedures planned and performed to achieve audit objectives that are related to management's assertions in the financial statements.<sup>59</sup> Examples of such conditions and events include, but are not limited to, negative trends, other indications of possible financial difficulties, internal matters, or external matters that have occurred.<sup>60</sup>

Under AU sec. 341, if after considering the identified conditions and events, in the aggregate, the auditor believes that there is substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time, the auditor should consider management's plans for dealing with the adverse effects of the conditions and events.<sup>61</sup> Additionally, the auditor should obtain information about the plans and consider whether it is likely that the adverse effects will be mitigated for a reasonable period of time, and that such plans can be effectively implemented.<sup>62</sup> Auditing Standard No. 16 requires that if the auditor concludes, after consideration of management's plans, that substantial doubt about the company's ability to continue as a going concern is alleviated, the auditor should communicate to the audit committee the basis for the auditor's conclusion, including elements the auditor identified within management's plans that are significant to overcoming the adverse effects of the conditions and events.<sup>63</sup>

Under AU sec. 341, if the auditor concludes that substantial doubt about the company's ability to continue as a going concern for a reasonable period of time remains, the audit report should include an explanatory paragraph to reflect the auditor's conclusion that there is substantial doubt about the company's ability to continue as a going concern for a reasonable period of time.<sup>64</sup> Additionally, Auditing Standard No. 16 requires that if the auditor concludes that substantial doubt about the company's ability to continue as a going concern for a reasonable period of time remains,<sup>65</sup> the auditor should communicate to the audit committee: (1) the effects, if any, on the financial statements and the adequacy of the related disclosure,<sup>66</sup> and (2) the effects on the auditor's report.<sup>67</sup>

The repropoed standard required the auditor to communicate the conditions and events the auditor identified that, when considered in the aggregate, indicate that there "could be" substantial doubt about the company's ability to continue as a going concern for a reasonable period of time. Some commenters

---

<sup>59</sup> See AU sec. 341.02.

<sup>60</sup> See AU sec. 341.06, which provides examples of such conditions and events.

<sup>61</sup> See AU sec. 341.07, which discusses the auditor's procedures if the auditor believes there is substantial doubt about the company's ability to continue as a going concern for a reasonable period of time.

<sup>62</sup> See AU sec. 341.03b.

<sup>63</sup> See AU sec. 341.08, which discusses the auditor's responsibilities related to the auditor's evaluation of management's plans.

<sup>64</sup> See AU sec. 341.12.

<sup>65</sup> See AU sec. 341.03c, which discusses the auditor's evaluation of factors that indicate there is substantial doubt about the company's ability to continue as a going concern.

<sup>66</sup> See AU sec. 341.10, which discusses the possible effects on the financial statements and the adequacy of the related disclosure.

<sup>67</sup> See AU secs. 341.12-.16, which discuss the auditor's consideration of the effects on the auditor's report when the auditor concludes that substantial doubt exists about the company's ability to continue as a going concern for a reasonable period of time.

suggested that the threshold for communication to the audit committee should be when the auditor believes there "is" substantial doubt about the company's ability to continue as a going concern, rather than when there "could be" substantial doubt. Those commenters suggested that threshold because, under AU sec. 341, the auditor is required to consider management's plans for addressing the adverse effects of the events and conditions when the auditor believes there "is" substantial doubt.

Auditing Standard No. 16 was revised to require the threshold for the auditor's initial communication to the audit committee to be when the auditor "believes there is" substantial doubt about the company's ability to continue as a going concern. This aligns more closely the communication requirement about the conditions and events with the other communication requirements in paragraph 17 of Auditing Standard No. 16. Under paragraph 17 of Auditing Standard No. 16 the auditor is required to communicate conditions and events, along with the auditor's conclusion regarding whether either management's plans alleviate the adverse effects of the conditions and events (item b) or substantial doubt remains (item c).

### **XIII. Uncorrected and Corrected Misstatements (Paragraphs 18-19 of Auditing Standard No. 16)**

Auditing Standard No. 16 requires the auditor to provide the audit committee with the schedule of uncorrected misstatements<sup>68</sup> relating to accounts and disclosures that was presented to management. Several commenters indicated that audit committees would not find value in information presented at the same level of detail as presented to management, and that the auditor, therefore, should provide a summary of misstatements to the audit committee.

The Board decided to retain the requirement because presenting a schedule that shows only a summary of the uncorrected misstatements rather than the individual misstatements might not be informative for the audit committee. In addition, the requirement in Auditing Standard No. 16 is not a significant change from AU sec. 380.10, which required the presentation to the audit committee of a schedule of uncorrected misstatements.

The schedule of uncorrected misstatements required by Auditing Standard No. 16 is similar to the summary of uncorrected misstatements included in or attached to the management representation letter.<sup>69</sup> Additionally, the Exchange Act and SEC Rule 2-07 require the auditor to provide to the audit committee other material written communications between the auditor and management, which would include the schedule of unadjusted audit differences and a listing of adjustments and reclassifications not recorded, if any.<sup>70</sup>

Auditing Standard No. 14 requires the auditor to accumulate misstatements identified during the audit, other than those that are clearly trivial, and to communicate those to management on a timely basis.<sup>71</sup> According to Auditing Standard No. 14, a misstatement may relate to a difference between the amount, classification, presentation, or disclosure of a reported financial statement item

---

<sup>68</sup> Footnote 13 to paragraph 20 of Auditing Standard No. 14 indicates that misstatements include both omissions and the presentation of inaccurate or incomplete disclosures.

<sup>69</sup> See paragraph .06g of AU sec. 333, *Management Representation*.

<sup>70</sup> See Section 10A(k)(3) of the Exchange Act, 15 U.S.C. §78j-1(k)(3), SEC Rule 2-07(a)(3) and Securities Act Release No. 8183.

<sup>71</sup> See paragraphs 10 and 15 of Auditing Standard No. 14.

and the amount, classification, presentation, or disclosure that should be reported in conformity with the applicable financial reporting framework.<sup>72</sup> The requirement in Auditing Standard No. 16 to communicate misstatements related to accounts and disclosures relates only to those misstatements that the auditor has accumulated throughout the audit that are not clearly trivial and have been reported to management.

Auditing Standard No. 16 also requires the auditor to discuss with the audit committee, or determine that management has adequately discussed with the audit committee, the basis for the determination that the uncorrected misstatements were immaterial, including the qualitative factors<sup>73</sup> considered. In addition, the auditor also should communicate to the audit committee that uncorrected misstatements or matters underlying those uncorrected misstatements could potentially cause future-period financial statements to be materially misstated, even if the auditor has concluded that the uncorrected misstatements are immaterial to the financial statements under audit.

Auditing Standard No. 16 also requires the auditor to communicate those corrected misstatements, other than those that are clearly trivial, related to accounts and disclosures that might not have been detected except through the auditing procedures performed and discuss with the audit committee the implications that such corrected misstatements might have on the financial reporting process.

One commenter suggested that the standard should require the auditor to communicate management's adjusting entries recorded at the end of the period or other entries to reconcile accounts. The release accompanying the original proposed standard included a question that asked whether all corrected misstatements, including those detected by management, should be communicated to the audit committee. Many commenters responding to the question were not supportive of the auditor communicating misstatements detected by management or management's period-end adjusting entries, because the auditor may not have knowledge of all such adjustments due to the nature of a company's financial statement close process and the timing of the auditor's procedures. Commenters suggested that such a requirement would likely result in the auditor expending significant effort to identify misstatements or adjusting entries that the company's internal controls previously identified in the financial close process. Accordingly, the standard does not include a requirement for the auditor to communicate misstatements detected by management.

Some commenters suggested that the standard should be revised to require the auditor to communicate only corrected misstatements that individually or in the aggregate could be significant to the company's financial statements. As noted previously, Auditing Standard No. 14 requires the auditor to accumulate misstatements identified during the audit, other than those that are clearly trivial. The misstatements the auditor accumulated and management corrected are those that are other than clearly trivial and could be significant to the company's financial statements, either quantitatively or qualitatively. Auditing Standard No. 16 also requires the auditor to communicate those corrected misstatements that might not have been detected except through the auditing procedures performed. The intent of this requirement is to inform the audit committee of misstatements, which might have certain implications

---

<sup>72</sup> See paragraph A2 of Auditing Standard No. 14.

<sup>73</sup> See Appendix B of Auditing Standard No. 14, which discusses the qualitative factors related to the evaluation of the materiality of uncorrected misstatements.

on the company's financial reporting process, that were detected only through audit procedures. Therefore, Auditing Standard No. 16 was not revised.

Another commenter suggested that the standard should specifically require the auditor to request management to correct the uncorrected misstatements. The Board did not make this change because management has its own legal responsibilities in relation to the preparation and maintenance of the company's books, records, and financial statements. Section 13(i) of the Exchange Act requires the financial statements filed with the SEC to reflect all material correcting adjustments identified by the auditor.<sup>74</sup>

## **XIV. Material Written Communication (Paragraph 20 of Auditing Standard No. 16)**

Auditing Standard No. 16 incorporates the Exchange Act's requirement for the auditor to communicate other material written communications between the auditor and management to the audit committee.<sup>75</sup> This requirement is intended to capture other possible material written communications that might occur but are not addressed by requirements in the standard or by other PCAOB standards, such as the management representation letter.<sup>76</sup>

## **XV. Departure from the Auditor's Standard Report (Paragraph 21 of Auditing Standard No. 16)**

Auditing Standard No. 16 includes a requirement for the auditor to communicate to the audit committee when the auditor expects to modify the opinion in the auditor's report or include explanatory language or an explanatory paragraph in the auditor's report.<sup>77</sup> The auditor is required to communicate the reasons for and the wording of the modification, explanatory language, or explanatory paragraph. The requirement is intended to provide the basis for a discussion between the auditor and the audit committee in those circumstances in which the auditor expects to add explanatory language or modify the opinion in the auditor's standard report.

As part of overseeing the audit and the financial reporting process, it might be important for the audit committee to understand the reasons an auditor adds explanatory language or modifies the opinion in the auditor's standard report. Such communication enables the audit committee to be aware of the nature of any specific matters that the auditor expects to highlight in the auditor's report. In addition, these communications provide the audit committee with an opportunity to obtain further clarification from the auditor about the modification. This communication also provides the audit committee with an opportunity to provide the auditor with further information and explanations regarding the matters that are expected to be included in the auditor's report.

---

<sup>74</sup> Section 13(i) of the Exchange Act, 15 U.S.C. § 78j-1(m)(i).

<sup>75</sup> Section 10A(k)(3) of the Exchange Act, 15 U.S.C. § 78j-1(k)(3), requires the auditor to report this information to the audit committee; *see also* SEC Rule 2-07.

<sup>76</sup> *See* Securities Act Release No. 8183 for a discussion of the substance of other material written communications.

<sup>77</sup> *See* paragraphs .11-.74 and .76 of AU sec. 508, *Reports on Audited Financial Statements*.

## **XVI. Disagreements with Management (Paragraph 22 of Auditing Standard No. 16)**

Auditing Standard No. 16 includes a requirement for the auditor to communicate to the audit committee any disagreements with management about matters, whether or not satisfactorily resolved, that individually or in the aggregate could be significant to the company's financial statements or the auditor's report. This requirement is retained from AU sec. 380.13.

Examples of disagreements might include disagreements with management about the application of accounting principles to the company's specific transactions and events and the basis for management's judgments about accounting estimates. Disagreements might also arise regarding the scope of the audit, disclosures to be made in the company's financial statements, or the wording of the auditor's report. For purposes of Auditing Standard No. 16, disagreements do not include differences of opinion based on incomplete facts or preliminary information that are later resolved by the auditor obtaining additional, relevant facts or information prior to the issuance of the auditor's report.

One commenter suggested that disagreements that are satisfactorily resolved should not be communicated to the audit committee unless the auditor determines that these matters warrant the audit committee's attention. As noted previously, this communication requirement is not new. As part of conducting the oversight of the audit and the financial reporting process, it might be important for the audit committee to know the areas of tension between the auditor and management regarding matters that could be significant to the company's financial statements, such as accounting principles and practices, financial statement disclosures, auditing scope or procedures, or similar matters. Accordingly, no change was made in response to this comment. Additionally, SEC Form 8-K requires that a registrant report certain disagreements between management and the auditor, whether or not such disagreements are satisfactorily resolved, when there is a change in the auditor.<sup>78</sup> The requirement in Auditing Standard No. 16 provides the audit committee with information regarding important matters that might need to be reported subsequently in an SEC filing.

## **XVII. Difficulties Encountered in Performing the Audit (Paragraph 23 of Auditing Standard No. 16)**

Auditing Standard No. 16 includes the requirement from AU sec. 380.16 for the auditor to communicate to the audit committee any significant difficulties encountered during the audit. Significant difficulties encountered during the audit include, but are not limited to:

- Significant delays by management, the unavailability of company personnel, or an unwillingness by management to provide information needed for the auditor to perform his or her audit procedures;
- An unreasonably brief time within which to complete the audit;

---

<sup>78</sup> See e.g., Exchange Act Form 8-K, Item 4.01. See also Item 304(a)(1)(iv) of Regulation S-K, 17 C.F.R. §229.304(a)(1)(iv), and Instructions 4 and 5 to that item, which require disclosure of disagreements, or differences of opinion, at the "decision-making level," that, if not resolved to the auditor's satisfaction, would have caused the auditor to make reference to the subject matter of the disagreement in connection with his or her report.

- Unexpected extensive effort required by the auditor to obtain sufficient appropriate audit evidence;
- Unreasonable management restrictions encountered by the auditor on the conduct of the audit; and
- Management's unwillingness to make or extend its assessment of the company's ability to continue as a going concern when requested by the auditor.

## **XVIII. Other Matters (Paragraph 24 of Auditing Standard No. 16)**

Auditing Standard No. 16 requires the auditor to communicate to the audit committee other matters arising from the audit that are significant to the oversight of the company's financial reporting process. This communication includes, among other matters, complaints or concerns regarding accounting or auditing matters that have come to the auditor's attention during the audit and the results of the auditor's procedures regarding such matters. Communication of the other matters is based on the results of audit procedures or the conduct of the audit and does not require the auditor to perform new or additional procedures beyond the communication itself.

The Act requires that audit committees of listed companies establish procedures for the receipt, retention, and treatment of complaints received by the company regarding accounting, internal accounting control, or auditing matters, and for the confidential, anonymous submission by employees of the company of concerns regarding questionable accounting or auditing matters.<sup>79</sup>

Auditing Standard No. 12 requires the auditor to inquire of the audit committee regarding tips or complaints received by the audit committee regarding financial reporting matters. The auditor might become aware of complaints or concerns regarding financial reporting matters that were not received through the audit committee's process, and, therefore, are unknown to the audit committee. The audit committee might be better able to exercise its oversight activities if the auditor informed the audit committee of these matters. Paragraph 24 of Auditing Standard No. 16 requires the auditor to communicate these matters to the audit committee.

AU sec. 380 required the auditor to ensure that the audit committee receives additional information regarding the scope and results of the audit that may assist the audit committee in overseeing the financial reporting and disclosure process. Auditing Standard No. 16 enhances the requirement in AU sec. 380 for the auditor to communicate to the audit committee the results of the audit procedures regarding the accounting or auditing matters that have been the subject of complaints or concerns.

The standard acknowledges that there might be other matters known to the auditor that may be beneficial to the audit committee's oversight of the financial reporting process. This communication could provide the audit committee with an opportunity to better understand management's intentions regarding such matters.

Several commenters suggested that Auditing Standard No. 16 should require the auditor to communicate to the audit committee the results of PCAOB inspection findings and any necessary remediation by the audit firm. With respect

---

<sup>79</sup> See Section 301 of the Act, and Section 10A(m)(4) of the Exchange Act, 15 U.S.C. §78j-1(m)(4).

to inspections, the Act restricts what the Board may publicly disclose,<sup>80</sup> and the Act makes no exception for disclosure to an audit committee even if a Board inspection has reviewed an audit of the financial statements overseen by that audit committee. The Board cannot compel a firm to disclose nonpublic inspection information to an audit committee. This need not prevent an audit committee from discussing inspection results with its auditor. The Board encourages firms to communicate effectively with audit committees about inspection matters. The Act does not restrict a firm from disclosing to an audit committee nonpublic information regarding PCAOB inspections (including quality control deficiencies and the firm's remediation of those deficiencies) or PCAOB disciplinary matters.<sup>81</sup>

## **XIX. Form and Documentation of Communications (Paragraph 25 of Auditing Standard No. 16)**

Auditing Standard No. 16 retains from AU sec. 380 the ability for auditors to communicate to the audit committee either orally or in writing, unless otherwise specified in the standard. Some commenters suggested that the standard should require all communications to be in writing, while other commenters indicated that the standard should continue to provide flexibility in the manner of communication.

Auditing Standard No. 16 was not revised to require all communications to be in writing. The Board's intention is to promote effective two-way communication between the auditor and the audit committee, whether through presentations, written reports, or interactive discussions. Written communications might provide the auditor with a basis to lead an active two-way discussion with the audit committee.

In addition, the form of communication may depend on the nature of the matter to be communicated. For example, written information often makes it easier for the audit committee to understand highly complex information (for example, information about critical accounting estimates). However, having a dialogue on key matters often is an important factor in effective communications between the auditor and the audit committee.

Auditing Standard No. 16 also requires the auditor to document the communications in the work papers, whether such communication took place orally or in writing. The standard further requires the auditor to include a copy of or a summary of management's communications provided to the audit committee in the audit documentation if, as part of its communications to the audit committee, management communicated some or all of the matters identified in paragraphs 12 or 18 and, as a result, the auditor did not communicate these matters at the same level of detail as management.

## **XX. Timing (Paragraph 26 of Auditing Standard No. 16)**

The Board considers communications with audit committees to be an integral part of the audit process. AU sec. 380 stated that audit committee communications are incidental to the audit and are not required to occur before the

---

<sup>80</sup> See Section 104(g)(2) of the Act (providing that the Board shall make inspection reports available to the public in appropriate detail "subject to," among other things, the broad disclosure restrictions of Section 105(b)(5)(A)).

<sup>81</sup> See *Information for Audit Committees About the PCAOB Inspection Process*, PCAOB Release No. 2012-003 (Aug. 1, 2012).

issuance of the auditor's report on the entity's financial statements so long as the communications occur on a timely basis.<sup>82</sup> Auditing Standard No. 16 requires the auditor to communicate the matters required by the standard in a timely manner and prior to the issuance of the auditor's report. This requirement aligns the timing of communications with SEC Rule 2-07, which requires the auditor to communicate matters to the audit committee prior to the filing of the auditor's report with the SEC.<sup>83</sup> The appropriate timing of a particular communication to the audit committee depends on factors such as the significance of the matters to be communicated and corrective or follow-up actions needed, unless other timing requirements are specified by PCAOB rules or standards or the securities laws.

The reproposed standard specified that all communications be made in a timely manner and prior to the issuance of the auditor's report, unless other timing requirements are specified by PCAOB rules or standards or the rules or regulations of the SEC. One commenter suggested that the "rules and regulations of the SEC" should be modified to the "federal securities laws," since timing of certain communications to the audit committee also is specified in securities laws. The standard was updated to reference "securities laws."<sup>84</sup>

Commenters generally agreed that audit committee communications should occur in a timely manner and prior to the issuance of the auditor's report. Some commenters suggested that the standard should specify the timing of the communication about certain matters, such as during planning or prior to the earnings release.

Auditing Standard No. 16 does not emphasize the specific timing of certain communications because the appropriate timing might vary depending on the circumstances. As noted in the standard, the appropriate timing of a particular communication to the audit committee depends on factors such as the significance of the matters to be communicated and any corrective or follow-up action needed, unless other timing requirements are specified by PCAOB rules or standards or the securities laws. However, in all events, the timing of the communication should be prior to the issuance of the auditor's report.

Providing communications required by Auditing Standard No. 16 to the audit committee in a timely manner and prior to the issuance of the auditor's report will allow the audit committee and the auditor the opportunity to take any action they may deem appropriate to address the matters communicated prior to the issuance of the auditor's report.

The reproposed standard noted that an auditor may communicate to only the audit committee chair if done in order to communicate matters in a timely manner during the audit; however, the auditor should communicate such matters to the full audit committee prior to the issuance of the auditor's report. Several commenters suggested that the auditor's responsibility to subsequently communicate to the "full" audit committee was an unnecessary burden and that the word "full" should be deleted to allow the auditor to communicate to the audit committee when a quorum is present. The standard was revised accordingly to eliminate the word "full."

---

<sup>82</sup> AU sec. 380.04.

<sup>83</sup> See SEC Rule 2-07.

<sup>84</sup> The term "securities laws" is defined in section 2(a)(15) of the Act, 15 U.S.C. § 7201, to mean the provisions of law referred to section 3(a)(47) of the Exchange Act, 15 U.S.C. § 78c(a)(47), as amended by the Act, and includes the rules, regulations, and orders issued by the SEC thereunder.

## XXI. Adequacy of the Two-Way Communication Process

The original proposed standard included a requirement for the auditor to evaluate whether the two-way communication between the auditor and the audit committee was adequate to support the objectives of the audit. The requirement was included to emphasize that effective two-way communication is beneficial to achieving the objectives of the audit.

Many commenters on the original proposed standard noted that an evaluation of the adequacy of the two-way communications can only be effective if both parties are involved in the evaluation. These commenters also suggested that if only the auditor evaluates the effectiveness based on his or her understanding of what was communicated, that evaluation would not provide information about the audit committee's understanding of that communication. In response to commenters, the Board removed this requirement in the repropoed standard.

Some commenters on the repropoed standard indicated that the Board should reinstate the requirement for the auditor to evaluate the adequacy of the two-way communication between the auditor and the audit committee to encourage the auditor to determine whether there is effective two-way communication. Additionally, some commenters suggested that the standard should be revised to change certain requirements for the auditor to communicate "with" the audit committee instead of "to" the audit committee in situations in which two-way discussion would be appropriate for the auditor to obtain information on particular matters relevant to the audit.

The note in paragraph 3 of Auditing Standard No. 16 states that the requirement for the auditor to "communicate to" the audit committee is meant to encourage effective two-way communication between the auditor and the audit committee throughout the audit to assist in understanding matters relevant to the audit. The importance of effective two-way communications remains in the standard; therefore, no change was considered necessary.

In addition, as part of understanding the company's control environment in Auditing Standard No. 12, the auditor assesses whether the board or audit committee understands and exercises oversight responsibility over financial reporting and internal control.<sup>85</sup> Other PCAOB standards require that, in an audit of financial statements, if the auditor becomes aware, or in an integrated audit, if the auditor concludes that the oversight of the company's external financial reporting and internal control over financial reporting by the company's audit committee is ineffective, the auditor must communicate that information in writing to the board of directors.<sup>86</sup> Not including a requirement for the auditor to evaluate the adequacy of a two-way communication in this standard does not change the auditor's responsibility for assessing the audit committee's effectiveness under existing PCAOB standards.

## XXII. Audits of Brokers and Dealers

The release accompanying the repropoed standard posed a question about whether the standard should apply to the audits of all brokers and dealers. Many commenters supported the requirement for the standard to apply to the audits of all brokers and dealers. However, some commenters suggested that it may not be practicable to communicate the matters in the standard because they may not be applicable to all brokers and dealers due to the varying size and

---

<sup>85</sup> See paragraphs 23-24 of Auditing Standard No. 12.

<sup>86</sup> See paragraph 79 of Auditing Standard No. 5 and paragraph 5 of AU sec. 325.

nature of the brokers and dealers as well as the difference in their governance structures. Some commenters suggested that these brokers and dealers may not have an audit committee, board of directors, or equivalent body, or that the individual designated to oversee the financial reporting process and audits of the company might be the same person preparing the financial statements. They suggested, therefore, that the standard should apply only to certain types of brokers and dealers, such as carrying brokers or dealers. Other commenters suggested that the standard should not be applicable to the audits of brokers and dealers.

The Board acknowledges that there are smaller, less complex brokers and dealers that do not have an audit committee, board of directors, or equivalent body, but that communicating matters about the audit and the financial statements to those overseeing the financial reporting process is important. The governance structure of brokers and dealers does not change the value of the information regarding the audit or the company's financial statements.

Therefore, as discussed in Section I of this appendix, the definition of audit committee was revised for audits of nonissuers to recognize that if no such committee or board of directors (or equivalent body) exists with respect to the company, the communication should be made to the person(s) who oversee the accounting and financial reporting processes of the company and audits of the financial statements of the company.

The release accompanying the repropoed standard posed a question about whether there are any communication requirements specific to the audits of all brokers and dealers that should be added to the standard. Some commenters suggested that the standard should require additional communication to the audit committee related to the additional attestation reporting to be required for brokers and dealers as proposed in pending SEC amendments to its Rule 17a-5.<sup>87</sup> Once the amendments to Rule 17a-5 are adopted in final form, the Board may consider adding requirements for communication to the audit committee pertaining to such matters.

## XXIII. Amendments to PCAOB Standards

With the adoption of Auditing Standard No. 16, the Board adopted related communication requirements to other PCAOB standards. These amendments were made to the following standards, among others:

- Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*;
- AU sec. 316, *Consideration of Fraud in a Financial Statement Audit*;
- AU sec. 317, *Illegal Acts by Clients*;
- AU sec. 550, *Other Information in Documents Containing Audited Financial Statements*; and
- AU sec. 722, *Interim Financial Information*.

The Board is amending AU sec. 722 to be consistent with Auditing Standard No. 16. Some commenters suggested that the amendments to AU sec. 722 should clarify that the accountant ("accountant" is the term used in AU sec. 722) is not

---

<sup>87</sup> SEC, *Commission Guidance Regarding Auditing, Attestation, and Related Professional Practice Standards Related to Brokers and Dealers*, Exchange Act Release No. 62991 (Sept. 24, 2010).

required to repeat communications that were made as part of the annual audit. Other commenters suggested that the amendments to AU sec. 722 should become effective for interim periods following the first annual period in which Auditing Standard No. 16 becomes effective and that, otherwise, implementing the amendments prior to the first annual communication under Auditing Standard No. 16 would likely result in unnecessarily expanding the communication requirements related to the auditor's review of interim information.

The objective of a review of interim financial information pursuant to AU sec. 722 is to provide the accountant with a basis for communicating whether the accountant is aware of any material modifications that should be made to the interim financial information for it to conform with generally accepted accounting principles.<sup>88</sup> Procedures for conducting a review of interim financial information generally are limited to analytical procedures, inquiries, and other procedures that address significant accounting and disclosure matters relating to the interim financial information to be reported.<sup>89</sup> A review may bring to the accountant's attention significant matters affecting the interim financial information, but it does not provide assurance that the accountant will become aware of all significant matters that would be identified in an audit.<sup>90</sup>

AU sec. 722.18 requires the accountant to make inquiries of members of management who have responsibility for financial and accounting matters, including but not limited to, matters concerning unusual or complex situations that may have an effect on the interim financial information. Examples of situations about which the accountant would ordinarily inquire of management include, among other things, significant, unusual, or infrequently occurring transactions; application of new accounting principles; changes in accounting principles or the methods of applying them; and trends and developments affecting accounting estimates.<sup>91</sup>

An amendment to AU sec. 722 states that when conducting a review of interim financial information, the accountant also should determine whether any of the matters described in Auditing Standard No. 16, as they relate to interim financial information, have been identified.<sup>92</sup> This requirement is similar to the current requirement for the accountant to refer to AU sec. 380 for matters to communicate to the audit committee when conducting an interim review.<sup>93</sup>

Additionally, the amendments to AU sec. 722 recognize that management might communicate some or all of the matters related to the company's accounting policies, practices, estimates, and significant unusual transactions described in paragraph 12 of Auditing Standard No. 16. If management communicates any of these matters, the accountant does not need to communicate them at the same level of detail as management, as long as certain criteria are met. However, any omitted or inadequately described matters should be communicated to the audit committee.

The amendment to AU sec. 722.35 also indicates that any communication the accountant may make about the entity's accounting policies, practices, estimates, and significant unusual transactions as applied to its interim financial reporting generally would be limited to the effect of significant events, transactions,

---

<sup>88</sup> AU sec. 722.07.

<sup>89</sup> AU sec. 722.15.

<sup>90</sup> AU sec. 722.07.

<sup>91</sup> AU sec. 722.55.

<sup>92</sup> Amendment to AU sec. 722.34.

<sup>93</sup> *Id.*

and changes in accounting estimates that the accountant considered when conducting the review of interim financial information. The amendments to AU sec. 722 do not require that the communications to the audit committee repeat the annual communications but, rather, that the communication be related to the accountant's findings while performing the interim review procedures.

The Board determined not to defer the effective date for quarterly reviews as suggested by some commenters. Deferral of the effective date would result in AU sec. 380 continuing to apply to communications relevant to quarterly reviews, while Auditing Standard No. 16 simultaneously would require communications relating to the annual audit. Auditing Standard No. 16 requires timely communications of matters in connection with the annual audit to be made throughout the year under audit. These communications would, therefore, be made at or near the time that related communications are required in connection with quarterly reviews. Applying Auditing Standard No. 16 for the annual audit and AU sec. 380 for quarterly reviews could cause some degree of complexity because auditors would be required to apply two different standards when communicating important information to the audit committee. Therefore, the Board is making Auditing Standard No. 16 effective for quarterly reviews of fiscal years beginning on or after December 15, 2012.

In addition to avoiding having two co-existing and differing standards, implementing Auditing Standard No. 16 in the first quarter of 2013 should benefit audit committees by providing for the communication of significant information during the most current period. Also, and as discussed above, the objective of a review of interim financial information differs significantly from that of an audit, and any communication the accountant would make pertaining to interim financial reporting would be limited, as discussed in AU sec. 722, to matters the accountant considered when conducting the review of interim financial information.

The proposed amendments to other PCAOB standards accompanying the proposed standard included an amendment to AU sec. 551, *Reporting on Information Accompanying the Basic Financial Statements in Auditor-Submitted Documents*. This amendment would have required the auditor to communicate to the audit committee material misstatements if the client did not agree to revise the accompanying information. This amendment was removed from the amendments accompanying Auditing Standard No. 16 because the Board has proposed to supersede AU sec. 551 as part of its standard-setting project related to auditing supplemental information.<sup>94</sup>

QC sec. 20, *System of Quality Control for a CPA Firm's Accounting and Auditing Practice*, states that to minimize the risk of misunderstandings regarding the nature, scope, and limitations of services to be performed, policies and procedures should provide for obtaining an understanding with the client regarding those services.<sup>95</sup> To align with Auditing Standard No. 16, the repropoed standard proposed an amendment to QC sec. 20 to change "client" to "audit committee." One commenter indicated that QC sec. 20 applies to attest engagements as well as to audit engagements. This commenter suggested that instead of replacing "client" with "audit committee," a clarifying footnote be added to the word "client" to indicate that with respect to a financial statement audit

---

<sup>94</sup> See *Proposed Auditing Standard, Auditing Supplemental Information Accompanying Audited Financial Statements and Related Amendments to PCAOB Standards*. PCAOB Release No. 2011-005 (July 12, 2011).

<sup>95</sup> QC sec. 20.16.

or an audit of internal control over financial reporting, the auditor is required to establish an understanding of the terms of the audit engagement with the audit committee. The Board considered this comment and decided not to amend QC sec. 20 at this time. Changes to the Board's quality control standards will be considered as part of the Board's quality control standard-setting project.

## Appendix 5

# Comparison of the Objectives and Requirements of Auditing Standard No. 16, *Communications with Audit Committees*, to the Analogous Standards of the International Auditing and Assurance Standards Board and the Auditing Standards Board of the American Institute of Certified Public Accountants

## Introduction

This appendix compares certain significant differences between the objectives and requirements of Auditing Standard No. 16, *Communications with Audit Committees*, and the analogous standards of the International Auditing and Assurance Standards Board ("IAASB") and the Auditing Standards Board ("ASB") of the American Institute of Certified Public Accountants.

The analogous IAASB standards are:

- International Standard on Auditing ("ISA") 210, *Agreeing the Terms*
- ISA 260, *Communication with Those Charged with Governance*.

The analogous ASB standards<sup>1</sup> are:

- AU-C Section 210, *Terms of Engagement*, and
- AU-C Section 260, *The Auditor's Communication With Those Charged with Governance*.

Other standards of the IAASB and the ASB, respectively, were considered in this comparison to the extent that they include comparable requirements, including:

- ISA 240, *The Auditor's Responsibilities Relating to Fraud in an Audit of Financial Statements*,
- ISA 450, *Evaluation of Misstatements Identified during the Audit*,
- ISA 570, *Going Concern*,
- ISA 600, *Special Considerations—Audits of Group Financial Statements (Including the Work of Component Auditors)*,
- ISA 720, *The Auditor's Responsibilities Relating to Other Information in Documents Containing Audited Financial Statements*,
- AU-C Section 240, *Consideration of Fraud in a Financial Statement Audit*,
- AU-C Section 450, *Evaluation of Misstatements Identified During the Audit*,

---

<sup>1</sup> In October 2011, the ASB issued Statement on Auditing Standards ("SAS") No. 122, *Statements on Auditing Standards: Clarification and Recodification*, which contains the Preface to Codification of Statements on Auditing Standards, *Principles Underlying an Audit Conducted in Accordance with Generally Accepted Auditing Standards*, and 39 clarified SASs. SAS 122 identifies the section within the AICPA codification with "AU-C" section numbers. See <http://www.aicpa.org/RESEARCH/STANDARDS/AUDITATTEST/Pages/audit%20and%20attest%20standards.aspx>.

- AU-C Section 600, *Using the Work of Others—Special Considerations—Audits of Group Financial Statements (Including the Work of Component Auditors)*,
- SAS 118, *Other Information in Documents Containing Audited Financial Statements*, and
- SAS 126, *The Auditor's Consideration of An Entity's Ability to Continue as a Going Concern* (Redrafted).

The information presented does not cover the application and explanatory material in the IAASB standards or ASB standards.<sup>2</sup>

This appendix is provided for informational purposes only. It is not a summary of or a substitute for Auditing Standard No. 16 itself, which is presented in Appendix 1 of this release. This comparison may not represent the views of the IAASB or ASB regarding the interpretation of their standards.

## Objectives

### PCAOB

Auditing Standard No. 16 supersedes AU sec. 310, *Appointment of the Independent Auditor*, and AU sec. 380, *Communication With Audit Committees*. Given the responsibility of many audit committees for the appointment and retention of the auditor, Auditing Standard No. 16 combines the requirements from the Board's standards, AU secs. 310 and 380, into one auditing standard.

Auditing Standard No. 16 includes four objectives for the auditor, which reflect both the appointment and retention of the auditor as well as the overall communication responsibilities. The objectives of the auditor are to:

- a. Communicate to the audit committee the responsibilities of the auditor in relation to the audit and establish an understanding of the terms of the audit engagement with the audit committee;
- b. Obtain information from the audit committee relevant to the audit;
- c. Communicate to the audit committee an overview of the overall audit strategy and timing of the audit; and
- d. Provide the audit committee with timely observations arising from the audit that are significant to the financial reporting process.

### IAASB and ASB

ISA 210 and AU-C Section 210 both include an objective to establish whether the preconditions for an audit are present. Auditing Standard No. 16 does not include this objective, because some of the related requirements in the ISA

---

<sup>2</sup> Paragraph A59 of ISA 200, *Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance with International Standards on Auditing*, indicates that the application and other explanatory material section of the ISAs "does not in itself impose a requirement," but "is relevant to the proper application of the requirements of an ISA." Paragraph A63 of AU-C Section 200, *Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance with Generally Accepted Auditing Standards*, states that although application and other explanatory material "does not in itself impose a requirement, it is relevant to the proper application of the requirements of an AUC section."

and SAS are not applicable to audits performed under PCAOB standards, such as determining whether the financial reporting framework is acceptable. For audits performed under PCAOB standards, the auditor should look to the requirements of the Securities and Exchange Commission for the company under audit with respect to the accounting principles applicable to that company.

Both ISA 260 and AU-C Section 260 include an objective for the auditor to promote effective two-way communication between the auditor and those charged with governance. Although Auditing Standard No. 16 does not include a similar objective, the standard encourages effective two-way communication between the auditor and the audit committee. As stated in Auditing Standard No. 16, "communicate to," is meant to encourage effective two-way communication between the auditor and the audit committee throughout the audit to assist in understanding matters relevant to the audit.

## **Appointment and Retention**

### **Significant Issues Discussed with Management In Connection with the Auditor's Appointment or Retention**

#### ***PCAOB***

Auditing Standard No. 16 requires the auditor to discuss with the audit committee any significant issues that the auditor discussed with management in connection with the appointment or retention of the auditor, including significant discussions regarding the application of accounting principles and auditing standards.

#### ***IAASB and ASB***

ISA 210 and AU-C Section 210 do not include a similar requirement.

## **Establish an Understanding of the Terms of the Audit**

#### ***PCAOB***

Auditing Standard No. 16 requires the auditor to establish an understanding of the terms of the audit engagement with the audit committee. This understanding includes communicating to the audit committee the objective of the audit, the responsibilities of the auditor, and the responsibilities of management. Paragraph 6 of Auditing Standard No. 16 requires the auditor to record the understanding of the terms in an engagement letter and provide the engagement letter to the audit committee annually. In addition, paragraph 6 of Auditing Standard No. 16 includes a requirement for the auditor to have the engagement letter executed by the appropriate party or parties on behalf of the company. If the appropriate party or parties are other than the audit committee, or its chair on behalf of the audit committee, the auditor should determine that the audit committee has acknowledged and agreed to the terms of the engagement.

Additionally, Auditing Standard No. 16 requires the auditor to decline to accept, continue, or perform the engagement if the auditor cannot establish an understanding of the terms of the audit engagement with the audit committee.

**IAASB and ASB**

ISA 210 and AU-C Section 210 require the auditor to agree on the terms of the audit engagement with management and, where appropriate, those charged with governance.

ISA 210 and AU-C Section 210 require the engagement letter to be in writing, although there is no requirement that the engagement letter be given to the audit committee or that it be signed by the audit committee, or its chair on behalf of the audit committee, or that it otherwise be acknowledged by the audit committee. Additionally, ISA 210 states that for recurring audits, the auditor shall assess whether circumstances require the terms of the audit engagement to be revised and whether there is a need to remind the entity of the existing terms of the audit engagement. Accordingly, ISA 210 permits the auditor to not send a new audit engagement letter or other written agreement each period.

AU-C Section 210 requires the auditor to assess whether circumstances require the terms of the audit engagement to be revised. If the auditor concludes that the terms of the preceding engagement need not be revised for the current engagement, the auditor should remind management of the terms of the engagement, and the reminder should be documented.

Both ISA 210 and AU-C Section 210 also establish requirements for the auditor to determine whether the preconditions for an audit exist. Auditing Standard No. 16 does not include similar requirements, as these requirements were either not applicable to audits performed under PCAOB standards or were addressed through the requirements in Auditing Standard No. 16 for establishing an understanding of the terms of the audit engagement with the audit committee.

ISA 210 requires the auditor to determine whether there are any conflicts between the financial reporting standards and additional requirements supplemented by law or regulation. AU-C Section 210 does not include similar requirements. Auditing Standard No. 16 also does not include similar requirements as they are not relevant to the audits performed under PCAOB standards.

ISA 210 and AU-C Section 210 also include requirements regarding limitation of scope prior to audit engagement acceptance, other factors affecting audit engagement acceptance, and acceptance of a change in the terms of the audit engagement. Auditing Standard No. 16 does not include such requirements as they are not applicable to audits performed under PCAOB standards.

AU-C Section 210 also includes requirements regarding initial audits and re-audits. Auditing Standard No. 16 does not include similar requirements, although similar requirements are included in the Board's standard, AU sec. 315, *Communications Between Predecessor and Successor Auditors*.

Additionally, ISA 260 and AU-C Section 260 include a requirement for the auditor to communicate with those charged with governance the form, timing, and expected general content of communications. Auditing Standard No. 16 does not include this requirement; however, Auditing Standard No. 16 does not preclude the auditor from communicating these matters to the audit committee.

## **Obtaining Information and Communicating the Audit Strategy**

### **Obtaining Information Relevant to the Audit**

#### **PCAOB**

Auditing Standard No. 16 requires the auditor to inquire of the audit committee about whether it is aware of matters relevant to the audit, including, but not

limited to, violations or possible violations of laws or regulations. This requirement complements the requirement in Auditing Standard No. 12, *Identifying and Assessing Risks of Material Misstatement*, for the auditor to make inquiries of the audit committee, or equivalent (or its chair) about risks of material misstatement, including inquiries related to fraud risks.<sup>3</sup>

### **IAASB and ASB**

ISA 260 and the AU-C Section 260 do not contain a similar requirement for the auditor to inquire of matters that might be relevant to the audit, including, but not limited to, knowledge of violations or possible violations of laws or regulations. However, ISA 240 and AU-C Section 240 require the auditor to make inquiries of those charged with governance to determine whether they have knowledge of any actual, suspected, or alleged fraud affecting the entity.

## **Overall Audit Strategy, Significant Risks, and Timing of the Audit**

### **PCAOB**

Auditing Standard No. 16 requires the auditor to communicate to the audit committee an overview of the overall audit strategy, including the timing of the audit, and discuss with the audit committee the significant risks identified during the auditor's risk assessment procedures. As part of communicating the overall audit strategy, paragraph 10 of Auditing Standard No. 16 requires the auditor to communicate the following matters to the audit committee, if applicable:

- a. The nature and extent of specialized skill or knowledge needed to perform the planned audit procedures or evaluate the audit results related to significant risks;
- b. The extent to which the auditor plans to use the work of the company's internal auditors in an audit of financial statements; c. The extent to which the auditor plans to use the work of internal auditors, company personnel (in addition to internal auditors), and third parties working under the direction of management or the audit committee when performing an audit of internal control over financial reporting;
- d. The names, locations, and planned responsibilities of other independent public accounting firms or other persons, who are not employed by the auditor, that perform audit procedures in the current period audit; and
- e. The basis for the auditor's determination that the auditor can serve as principal auditor, if significant parts of the audit are to be performed by other auditors.

In addition, Auditing Standard No. 16 requires the auditor to communicate to the audit committee significant changes to the planned audit strategy or the significant risks initially identified and the reasons for such changes.

### **IAASB and ASB**

ISA 260 and AU-C Section 260 require the auditor to communicate an overview of the planned scope and timing of the audit. However, ISA 260 and AU-C Section 260 do not require the auditor to communicate significant changes to the planned scope and timing of the audit. Further, ISA 260 and AU-C Section 260

---

<sup>3</sup> Paragraphs 5.f. and 54-57 of Auditing Standard No. 12.

do not include requirements for the auditor to communicate information about specialized skill or knowledge needed to perform the planned audit procedures or evaluate the audit results related to significant risks, the auditor's use of the work of internal auditors, or the auditor's use of the work of other company personnel and third parties working under the direction of management or the audit committee.

ISA 260 and AU-C Section 260 do not include requirements for the auditor to communicate information about the names, locations, and planned responsibilities of other independent public accounting firms or other persons, who are not employed by the auditor, that perform audit procedures in the current period audit.

However, ISA 600 and AU-C Section 260, include requirements for the auditor to communicate certain matters to those charged with governance including: an overview of the type of work to be performed on the financial information of the components; an overview of the nature of the group engagement team's planned involvement in the work to be performed by the component auditors on the financial information of significant components; instances where the group engagement team's evaluation of the work of a component auditor gave rise to a concern about the quality of that auditor's work; any limitation on the group audit; and fraud or suspected fraud involving group management, component management, employees who have significant roles in group-wide controls or other where the fraud resulted in a material misstatement of the group financial statements. In addition, AU-C Section 260 also includes a requirement for the auditor to communicate the basis for the decision to make reference to the audit of a component auditor in the auditor's report on the group financial statements.

## Results of the Audit

### Accounting Policies and Practices, Estimates, and Significant Unusual Transactions

#### **PCAOB**

Auditing Standard No. 16 requires the auditor to communicate certain matters relating to accounting policies and practices, estimates, and significant unusual transactions. However, Auditing Standard No. 16 acknowledges that if management communicates matters related to accounting policies and practices, estimates, and significant unusual transactions to the audit committee, the auditor does not need to communicate these matters at the same level of detail as management as long as the auditor (1) participated in management's discussion with the audit committee, (2) affirmatively confirmed to the audit committee that management has adequately communicated these matters, and (3) with respect to critical accounting policies and practices, identified for the audit committee those accounting policies and practices that the auditor considers critical. In addition, the auditor is required to communicate any omitted or inadequately described matters to the audit committee.

Matters to be communicated include:

- a. Significant accounting policies and practices—(1) management's initial selection of, or changes in, significant accounting policies or the application of such policies in the current period; and (2) the effect on financial statements or disclosures of significant accounting policies in (i) controversial areas or (ii) areas for which

there is a lack of authoritative guidance or consensus, or diversity in practice.

- b. All critical accounting policies and practices to be used, including: (1) the reasons certain policies and practices are considered critical; and (2) how current and anticipated future events might affect the determination of whether certain policies and practices are considered critical.
- c. Critical accounting estimates—(1) a description of the process management used to develop critical accounting estimates; (2) management's significant assumptions used in critical accounting estimates that have a high degree of subjectivity; and (3) any significant changes management made to the processes used to develop critical accounting estimates or significant assumptions, a description of management's reasons for the changes, and the effects of the changes on the financial statements.
- d. Significant unusual transactions—(1) significant transactions that are outside the normal course of business for the company or that otherwise appear to be unusual due to their timing, size, or nature; and (2) the policies and practices management used to account for significant unusual transactions.

### **IAASB**

ISA 260 requires the auditor to communicate the auditor's views about significant qualitative aspects of the entity's accounting practices, including accounting policies, accounting estimates and financial statement disclosures.

### **ASB**

AU-C Section 260 requires the auditor to communicate the auditor's views about qualitative aspects of the entity's significant accounting practices, including accounting policies, accounting estimates, and financial statement disclosures. AU-C Section 260 also provides that, when applicable, the auditor should determine that those charged with governance are informed about the process used by management in formulating particularly sensitive accounting estimates, including fair value estimates, and about the basis for the auditor's conclusions regarding the reasonableness of those estimates.

The ISAs and the AU-Cs do not include a similar requirement for communicating significant unusual transactions.

## **Auditor's Evaluation of the Quality of the Company's Financial Reporting**

### **PCAOB**

Auditing Standard No. 16 requires the auditor to communicate the following matters to the audit committee:

- a. Qualitative aspects of significant accounting policies and practices.
  - 1) The results of the auditor's evaluation of, and conclusions about, the qualitative aspects of the company's significant accounting policies and practices, including situations in which the auditor identified bias in management's judgments about the amounts and disclosures in the financial statements; and

- 2) The results of the auditor's evaluation of the differences between (i) estimates best supported by the audit evidence and (ii) estimates included in the financial statements, which are individually reasonable, that indicate a possible bias on the part of the company's management.
- b. Assessment of critical accounting policies and practices. The auditor's assessment of management's disclosures related to the critical accounting policies and practices, along with any significant modifications to the disclosure of those policies and practices proposed by the auditor that management did not make.
- c. Conclusions regarding critical accounting estimates. The basis for the auditor's conclusions regarding the reasonableness of the critical accounting estimates.
- d. Significant unusual transactions. The auditor's understanding of the business rationale for significant unusual transactions.
- e. Financial statement presentation. The results of the auditor's evaluation of whether the presentation of the financial statements and related disclosures are in conformity with the applicable financial reporting framework, including the auditor's consideration of the form, arrangement, and content of the financial statements (including the accompanying notes), encompassing matters such as the terminology used, the amount of detail given, the classification of items, and the bases of amounts set forth.
- f. New accounting pronouncements. Situations in which, as a result of the auditor's procedures, the auditor identified a concern regarding management's anticipated application of accounting pronouncements that have been issued but are not yet effective and might have a significant effect on future financial reporting.
- g. Alternative accounting treatments. All alternative treatments permissible under the applicable financial reporting framework for policies and practices related to material items that have been discussed with management, including the ramifications of the use of such alternative disclosures and treatments and the treatment preferred by the auditor.

### **IAASB**

ISA 260 requires the auditor to communicate the auditor's views about significant qualitative aspects of the entity's accounting practices, including accounting policies, accounting estimates, and financial statement disclosures. The ISA provides that, when applicable, the auditor shall explain to those charged with governance why the auditor considers a significant accounting practice, that is acceptable under the applicable financial reporting framework, not to be most appropriate to the particular circumstances of the entity.

The ISAs do not include a similar requirement for communicating the auditor's understanding of the business rationale for significant unusual transactions.

### **ASB**

AU-C Section 260 requires the auditor to communicate the auditor's views about qualitative aspects of the entity's significant accounting practices, including accounting policies, accounting estimates, and financial statement disclosures. When applicable the auditor should:

- a. Explain to those charged with governance why the auditor considers a significant accounting practice that is acceptable under

the applicable financial reporting framework not to be most appropriate to the particular circumstances of the entity, and

- b. Determine that those charged with governance are informed about the process used by management in formulating particularly sensitive accounting estimates, including fair value estimates, and about the basis for the auditor's conclusions regarding the reasonableness of those estimates.

The AU-Cs do not include a similar requirement for communicating the auditor's understanding of the business rationale for significant unusual transactions.

## Other Information in Documents Containing Audited Financial Statements

### PCAOB

When other information is presented in documents containing audited financial statements, Auditing Standard No. 16 requires the auditor to communicate to the audit committee the auditor's responsibility under PCAOB rules and standards for such information, any related procedures performed, and the results of such procedures.

AU sec. 550, *Other Information in Documents Containing Audited Financial Statements*, requires that if the auditor identifies a material inconsistency in the other information presented in documents containing audited financial statements, and the other information is not revised by management to eliminate the material inconsistency, the auditor should communicate the material inconsistency to the audit committee. The auditor should also consider other actions, such as revising the audit report to include an explanatory paragraph describing the material inconsistency, as described in paragraph .11 of AU sec. 508, *Reports on Audited Financial Statements*, withholding the use of the report in the document, and withdrawing from the engagement. The auditor should also communicate a material misstatement of fact to the client and the audit committee, if the material misstatement of fact is not corrected.

### IAASB

ISA 720 requires that if the auditor identifies a material inconsistency in the other information in documents containing audited financial statements and revision of the other information is necessary and management refuses to make the revision, then the auditor shall communicate this matter to those charged with governance and (a) include in the auditor's report an Other Matter(s) paragraph describing the material inconsistency in accordance with ISA 706, *Emphasis of Matter Paragraphs and Other Matter Paragraphs in the Independent Auditor's Report*; or (b) withhold the auditor's report; or (c) withdraw from the engagement, where withdrawal is possible under applicable law or regulation. ISA 720 also requires the auditor to notify those charged with governance of the auditor's concern regarding the other information and take any further appropriate action if there is a material misstatement of fact in the other information which management refuses to correct.

### ASB

SAS 118 contains similar requirements to those in Auditing Standard No. 16.

## **Difficult or Contentious Matters for which the Auditor Consulted**

### **PCAOB**

Auditing Standard No. 16 requires the auditor to communicate to the audit committee matters that are difficult or contentious for which the auditor consulted outside the engagement team and that the auditor reasonably determined are relevant to the audit committee's oversight of the financial reporting process.

### **IAASB and ASB**

ISA 260 and AU-C Section 260 do not include a similar requirement.

## **Management Consultation with Other Accountants**

### **PCAOB**

When the auditor is aware that management consulted with other accountants about significant auditing or accounting matters and the auditor has identified a concern regarding such matters, Auditing Standard No. 16 requires the auditor to communicate to the audit committee his or her views about such matters that were the subject of such consultation.

### **IAASB**

ISA 260 does not include a similar requirement.

### **ASB**

AU-C Section 260 requires the auditor to communicate to those charged with governance the auditor's views about matters that were the subject of management's consultations with other accountants on accounting or auditing matters when the auditor is aware that such consultations occurred.

## **Going Concern**

### **PCAOB**

Paragraph 17 of Auditing Standard No. 16 includes a requirement for the auditor to communicate to the audit committee, when applicable, certain matters relating to the auditor's evaluation of the company's ability to continue as a going concern. These matters include (a) If the auditor believes there is substantial doubt about the company's ability to continue as a going concern for a reasonable period of time, the conditions and events that the auditor identified that, when considered in the aggregate, indicate that there is substantial doubt; (b) If the auditor concludes, after consideration of management's plans, that substantial doubt about the company's ability to continue as a going concern is alleviated, the basis for the auditor's conclusion, including elements the auditor identified within management's plans that are significant to overcoming the adverse effects of the conditions and events; (c) if the auditor concludes, after consideration of management's plans, that substantial doubt about the company's ability to continue as a going concern for a reasonable period of time remains, the effects, if any, on the financial statements and the adequacy of the related disclosure and the effects on the auditor's report.

**IAASB**

ISA 570 requires the auditor to communicate events or conditions identified that may cast significant doubt on the entity's ability to continue as a going concern. This communication includes whether the events or conditions constitute a material uncertainty; whether the use of the going concern assumption is appropriate in the preparation and presentation of the financial statements; and the adequacy of related disclosures in the financial statements.

**ASB**

SAS 126 requires the auditor to communicate with those charged with governance the nature of the conditions or events identified, the possible effects on the financial statements and the adequacy of related disclosures in the financial statements, and the effects on the auditor's report if, after considering identified conditions or events in the aggregate and after considering management's plans, the auditor concludes that substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time remains.

**Uncorrected and Corrected Misstatements****PCAOB**

Auditing Standard No. 16 requires the auditor to provide the audit committee with the schedule of uncorrected misstatements related to accounts and disclosures that the auditor presented to management. Auditing Standard No. 16 also requires the auditor to discuss with the audit committee, or determine that management has adequately discussed with the audit committee, the basis for the determination that the uncorrected misstatements were immaterial, including the qualitative factors considered. Additionally, Auditing Standard No. 16 requires the auditor to communicate that uncorrected misstatements or matters underlying those uncorrected misstatements could potentially cause future-period financial statements to be materially misstated. Auditing Standard No. 16 also requires the auditor to communicate to the audit committee those corrected misstatements, other than those that are clearly trivial, related to accounts and disclosures that might not have been detected except through the auditing procedures performed, and discuss with the audit committee the implications that such corrected misstatements might have on the company's financial reporting process.

**IAASB and ASB**

ISA 450 and AU-C Section 260 include requirements for the auditor to communicate uncorrected misstatements and the effect that they, individually or in aggregate, may have on the opinion in the auditor's report. The auditor's communication shall identify the material uncorrected misstatements individually. Additionally, under ISA 450 and the AU-C Section 260, the auditor is required to communicate the effect of uncorrected misstatements related to prior periods on the relevant classes of transactions, account balances or disclosures, and the financial statements as a whole.

ISA 450 and AU-C Section 450 require the auditor to request that uncorrected misstatements be corrected. Auditing Standard No. 16 does not require the auditor to make this request, because under SEC rules the financial statements are required to reflect all material correcting adjustments identified by the auditor.

ISA 450 does not include a requirement for the auditor to communicate corrected misstatements to those charged with governance. AU-C Section 260 requires the auditor to communicate material, corrected misstatements that were brought to the attention of management as a result of audit procedures.

## Material Written Communication

### **PCAOB**

Auditing Standard No. 16 requires the auditor to communicate to the audit committee other material written communications between the auditor and management.

### **IAASB and ASB**

ISA 260 and AU-C Section 260 require the auditor to communicate to those charged with governance written representations the auditor is requesting.

## Disagreements with Management

### **PCAOB**

Auditing Standard No. 16 includes a requirement for the auditor to communicate to the audit committee any disagreements with management about matters, whether or not satisfactorily resolved, that individually or in the aggregate could be significant to the company's financial statements or the auditor's report. Auditing Standard No. 16 also states that disagreements with management do not include differences of opinion based on incomplete facts or preliminary information that are later resolved by the auditor obtaining additional relevant facts or information prior to the issuance of the auditor's report.

### **IAASB**

The ISAs do not include a similar requirement.

### **ASB**

AU-C Section 260 requires the auditor to communicate disagreements with management, if any.

## Other Matters

### **PCAOB**

Auditing Standard No. 16 includes a requirement for the auditor to communicate to the audit committee other matters arising from the audit that are significant to the oversight of the financial reporting process. This communication includes, among other matters, complaints or concerns regarding accounting or auditing matters that have come to the auditor's attention during the audit and the results of the auditor's procedures regarding such matters.

### **IAASB and ASB**

ISA 260 and AU-C Section 260 include a similar requirement for the auditor to communicate other matters to those charged with governance that, in the auditor's professional judgment, are significant and relevant to the oversight of the financial reporting process.

## Form and Documentation of Communications

### **PCAOB**

Auditing Standard No. 16 requires the auditor to communicate the matters in the standard to the audit committee, either orally or in writing, unless otherwise specified in Auditing Standard No. 16. In addition, the standard also requires the auditor to document the communications in the work papers whether such communications took place orally or in writing. Auditing Standard No. 16 also requires the auditor to include a copy of or a summary of management's communication provided to the audit committee in the audit documentation, if as part of its communications to the audit committee, management communicated some or all of the matters related to accounting policies and practices, estimates, significant unusual transactions, or uncorrected misstatements to the audit committee, and, as a result, the auditor did not communicate these matters at the same level of detail as management.

### **IAASB**

ISA 260 requires the auditor to communicate in writing with those charged with governance regarding significant findings from the audit if, in the auditor's professional judgment, oral communication would not be adequate. Written communication need not include all matters that arose during the course of the audit.

### **ASB**

AU-C Section 260 requires the auditor to communicate in writing with those charged with governance significant findings or issues from the audit if, in the auditor's professional judgment, oral communication would not be adequate. This communication need not include matters that arose during the course of the audit that were communicated with those charged with governance and satisfactorily resolved.

## Timing

### **PCAOB**

Auditing Standard No. 16 requires the communications to the audit committee to be made in a timely manner and prior to the issuance of the auditor's report.<sup>4</sup>

### **IAASB and ASB**

ISA 260 and AU-C Section 260 require that the auditor should communicate with those charged with governance on a timely basis.

---

<sup>4</sup> Auditing Standard No. 16 includes the following exception for registered investment companies—Consistent with SEC Rule 2-07 of Regulation S-X, 17 C.F.R. §210.2-07, in the case of a registered investment company, audit committee communication should occur annually, and if the annual communication is not within 90 days prior to the filing of the auditor's report, the auditor should provide an update, in the 90-day period prior to the filing of the auditor's report, of any changes to the previously reported information.

## PCAOB Release No. 2013-007

# ***Standards for Attestation Engagements Related to Broker and Dealer Compliance or Exemption Reports Required by the U.S. Securities and Exchange Commission and Related Amendments to PCAOB Standards***

PCAOB Release No. 2013-007  
October 10, 2013

PCAOB Rulemaking  
Docket Matter No. 035

## **Summary**

After public comment, the Public Company Accounting Oversight Board ("PCAOB" or the "Board") is adopting two new attestation standards, *Examination Engagements Regarding Compliance Reports of Brokers and Dealers*, and *Review Engagements Regarding Exemption Reports of Brokers and Dealers*. The Board is also adopting related amendments to certain PCAOB standards. The attestation standards and related amendments will be applicable to all registered firms conducting attestation engagements related to broker and dealer compliance or exemption reports required by the U.S. Securities and Exchange Commission ("SEC" or "Commission").

## **Board Contacts**

Keith Wilson, Deputy Chief Auditor (202/207-9134, [wilsonk@pcaobus.org](mailto:wilsonk@pcaobus.org)), Barbara Vanich, Associate Chief Auditor (202/207-9363, [vanichb@pcaobus.org](mailto:vanichb@pcaobus.org)), and Nicholas Grillo, Assistant Chief Auditor (202/207-9104, [grillon@pcaobus.org](mailto:grillon@pcaobus.org)).

## **I. Introduction**

On July 30, 2013, the SEC adopted amendments to Rule 17a-5<sup>1</sup> under the Securities Exchange Act of 1934 ("Exchange Act") to strengthen and clarify broker and dealer annual financial reporting requirements and also facilitate the ability of the PCAOB to implement the oversight of independent public

---

<sup>1</sup> See Rule 17a-5, 17 C.F.R. § 240.17a-5 ("SEC Rule 17a-5") and SEC Exchange Act Release No. 34-70073, *Broker-Dealer Reports* (July 30, 2013), 78 Federal Register 51910 (August 21, 2013) ("SEC Release"), available at <http://www.sec.gov/rules/final/2013/34-70073.pdf>.

accountants of brokers<sup>2</sup> and dealers<sup>3</sup> provided by Section 982 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (the "Dodd-Frank Act").<sup>4</sup>

The Board is adopting two attestation standards, *Examination Engagements Regarding Compliance Reports of Brokers and Dealers* (the "examination standard") and *Review Engagements Regarding Exemption Reports of Brokers and Dealers* (the "review standard") (collectively, the "attestation standards"). These attestation standards will apply to examination engagements regarding compliance reports of brokers and dealers ("examination engagements") and review engagements regarding exemption reports of brokers and dealers ("review engagements"), pursuant to requirements contained in SEC Rule 17a-5.<sup>5</sup> Pursuant to SEC Rule 17a-5, the audits of brokers and dealers, including the attestation engagements covered by this release, are required to be performed under PCAOB standards.<sup>6</sup> Before these amendments to SEC Rule 17a-5, audits of brokers and dealers were required to be performed under generally accepted auditing standards ("GAAS") established by the American Institute of Certified Public Accountants ("AICPA"). The attestation standards will be effective, subject to approval by the SEC, for examination engagements and review engagements for fiscal years ending on or after June 1, 2014. This effective date would coincide with the effective date for the corresponding amendments to SEC Rule 17a-5.

## II. Background

Sections 17(a) and (e) of the Exchange Act and SEC Rule 17a-5 together generally require a broker or dealer to, among other things, file an annual report<sup>7</sup> with the SEC and the broker's or dealer's designated examining authority ("DEA").<sup>8</sup> SEC Rule 17a-5 requires the annual report to contain, among other things:

- a. A financial report consisting of audited financial statements and supporting schedules;<sup>9</sup> and
- b. A compliance report or an exemption report.<sup>10</sup>

<sup>2</sup> According to PCAOB Rule 1001(b)(iii), the term "broker" means a broker (as defined in Section 3(a)(4) of the Exchange Act) that is required to file a balance sheet, income statement, or other financial statement under Section 17(e)(1)(A) of that Act, where such balance sheet, income statement, or financial statement is required to be certified by a registered public accounting firm.

<sup>3</sup> According to PCAOB Rule 1001(d)(iii), the term "dealer" means a dealer (as defined in Section 3(a)(5) of the Exchange Act) that is required to file a balance sheet, income statement, or other financial statement under Section 17(e)(1)(A) of that Act, where such balance sheet, income statement, or financial statement is required to be certified by a registered public accounting firm.

<sup>4</sup> Pub. L. No. 111-203, 124 Stat. 1376 (2010).

<sup>5</sup> See paragraphs (g)(2)(i) and (ii) of SEC Rule 17a-5.

<sup>6</sup> See paragraph (g) of SEC Rule 17a-5.

<sup>7</sup> Paragraph (d) of SEC Rule 17a-5 contains general requirements for annual reports to be filed by SEC-registered brokers and dealers. Paragraphs (d)(1)(iii) and (iv) of SEC Rule 17a-5 provide certain limited exceptions to the requirement to file an annual report.

<sup>8</sup> Under SEC Rule 17d-1, 17 C.F.R. § 240.17d-1, a registered broker or dealer that is a member of more than one securities self-regulatory organization may be assigned a "designated examining authority" or "DEA" that is responsible for examining the broker or dealer for compliance with SEC financial responsibility rules. An example of a securities self-regulatory organization that is a designated examining authority is the Financial Industry Regulatory Authority.

<sup>9</sup> See paragraph (d)(2) of SEC Rule 17a-5. Auditing Standard No. 17, *Auditing Supplemental Information Accompanying Audited Financial Statements* (PCAOB Release No. 2013-008) (October 10, 2013), applies to the audit procedures performed and the audit report on supporting schedules.

<sup>10</sup> See paragraphs (d)(3) and (4) of SEC Rule 17a-5. The attestation standard in Appendix 1 of this release applies to an examination of certain statements made by the broker or dealer in the compliance report. The attestation standard in Appendix 2 of this release applies to a review of the statements made by the broker or dealer in the exemption report.

The requirements for the compliance report and the exemption report are new requirements that are the result of the Commission's amendments to SEC Rule 17a-5. According to the SEC, these reports contain information regarding broker and dealer compliance with key SEC financial responsibility rules<sup>11</sup> that enhance the ability of the SEC to oversee the financial responsibility practices of registered brokers and dealers and, in particular, the safekeeping of customer assets.

Generally, SEC Rule 17a-5 provides that brokers or dealers that did not claim an exemption from SEC Rule 15c3-3 throughout the most recent fiscal year must prepare and file the compliance report. A broker or dealer must prepare and file the exemption report if the broker or dealer did claim that it was exempt from SEC Rule 15c3-3 throughout the most recent fiscal year.

Brokers and dealers also must generally file reports prepared by a PCAOB registered independent public accountant covering the financial report and the compliance report or exemption report, as applicable.<sup>12</sup>

The auditor's examination report or review report would replace the prior requirement in SEC Rule 17a-5 that the auditor report on material inadequacies identified in the broker's or dealer's accounting system, internal accounting controls, procedures of the broker or dealer for safeguarding securities, and certain practices and procedures related to customer protection and securities.

### III. Considerations in Adopting the Attestation Standards

The Board is adopting the attestation standards to establish requirements aligned with the auditor's responsibilities under SEC Rule 17a-5.<sup>13</sup> Specifically, the attestation standards establish requirements for examining certain statements in a broker's or dealer's compliance report and reviewing a broker's or dealer's statements in an exemption report. The Board is also adopting related amendments to certain PCAOB standards, including amendments regarding documentation and amendments to require engagement quality reviews of the examination and the review engagements.<sup>14</sup>

The attestation standards for the examination and review engagements, included in appendices 1 and 2 of this release, represent stand-alone standards that are based on existing concepts and principles in the existing

---

<sup>11</sup> The SEC Release used the term "financial responsibility rules" to refer to: 17 C.F.R. § 240.15c3-1 ("SEC Rule 15c3-1" or the "net capital rule"); 17 C.F.R. § 240.15c3-3 ("SEC Rule 15c3-3"); 17 C.F.R. § 240.17a-13 ("SEC Rule 17a-13"); and any rule of the DEA of the broker or dealer that requires account statements to be sent to the customers of the broker or dealer (an "account statement rule"). See the SEC Release at 8-9. The terms "financial responsibility rules" and "account statement rule" have the same meaning in these standards as they have in the SEC Release.

<sup>12</sup> See paragraph (d)(1)(i)(C) of SEC Rule 17a-5.

<sup>13</sup> See paragraphs (g) and (h) of SEC Rule 17a-5.

<sup>14</sup> In addition, on February 28, 2012, the Board proposed to update certain of its rules to conform to the Dodd-Frank Act amendments to the Sarbanes-Oxley Act of 2002. See *Proposed Amendments to Conform the Board's Rules and Forms to the Dodd-Frank Act and Make Certain Updates and Clarifications*, PCAOB Release No. 2012-002 (February 28, 2012). Among other things, these proposed amendments would amend the Board's rules to require that registered firms comply with the Board's interim standards in broker or dealer engagements. See proposed amendments to Rule 1001(a)(v), Rule 1001(a)(vi), Rule 3200T, and Rule 3300T, Rule 3400T, Rule 3500T, and Rule 3600T. The Board expects to act on these proposed amendments in a separate rulemaking in the near future.

attestation standards but are tailored for the specific requirements under SEC Rule 17a-5.<sup>15</sup>

In general, both standards set forth a framework of specific procedures that are required for auditors to opine or conclude on a broker's or dealer's statements—referred to in the standards as "assertions"<sup>16</sup>—in compliance reports and exemption reports required by SEC Rule 17a-5, respectively.<sup>17</sup>

Furthermore, both of the attestation standards emphasize coordination between the examination engagement or review engagement, the audit of the broker's or dealer's financial statements and audit procedures performed on the supporting schedules (referred to in this release as "supplemental information"). This emphasis on coordination, when properly executed, can promote overall audit effectiveness and avoid redundancy in the work performed. For example, auditors can take into account, when appropriate, evidence obtained while planning and performing the audit of the financial statements and the audit procedures performed on supplemental information in planning and performing the attestation engagement.

This emphasis on coordination is also a key aspect of Auditing Standard No. 17, *Auditing Supplemental Information Accompanying Audited Financial Statements* (the "auditing standard"),<sup>18</sup> which the Board is separately adopting. Auditing Standard No. 17 will apply when the auditor of the financial statements is engaged to perform audit procedures and report on supplemental information accompanying audited financial statements in accordance with PCAOB standards, including supporting schedules prepared pursuant to SEC Rule 17a-5.<sup>19</sup> The auditing standard also includes requirements for the procedures on the supplemental information to be planned and performed in conjunction with the audit of the financial statements, and for the audits of brokers and dealers to be coordinated with the attestation engagements related to compliance or exemption reports.<sup>20</sup>

In the Board's view, the attestation standards further the public interest and promote investor protection because they are tailored to the corresponding requirements of SEC Rule 17a-5, which are designed to provide safeguards with respect to broker and dealer custody of customer securities and funds. For example, the specific requirements in the examination standard for evaluating Internal Control Over Compliance<sup>21</sup> can help auditors to identify deficiencies in a broker's or dealer's internal controls for safeguarding customer securities and funds or maintaining necessary capital or reserves. Similarly, the specific

---

<sup>15</sup> The requirements in the examination standard are generally consistent with the requirements of AT sec. 101, *Attest Engagements*, and AT sec. 601, *Compliance Attestation*. Similarly, the requirements in the review standard are generally consistent with AT sec. 101. However, when an auditor performs an engagement pursuant to the examination standard or a review pursuant to the review standard, AT sec. 101 and AT sec. 601 would not apply.

<sup>16</sup> These standards use the term "assertion" to refer to the broker's or dealer's individual statements that are covered by the examination and review. In the examination standard, the term "assertion" also distinguishes the portion of the statements in the broker's or dealer's compliance report that are covered by the examination.

<sup>17</sup> See paragraphs (i)(3)(iii)(A) and (B) of SEC Rule 17a-5 for the specific requirement for an opinion or conclusion to be expressed in the auditor's report.

<sup>18</sup> See Auditing Standard No. 17, *Auditing Supplemental Information Accompanying Audited Financial Statements*, PCAOB Release No. 2013-008 (October 10, 2013).

<sup>19</sup> See paragraph (d)(2) of SEC Rule 17a-5.

<sup>20</sup> See the note to paragraph 3.c. of Auditing Standard No. 17.

<sup>21</sup> Consistent with SEC Rule 17a-5, the examination standard defines "Internal Control Over Compliance" as "internal controls that have the objective of providing the broker or dealer with reasonable assurance that non-compliance with the [financial responsibility rules], will be prevented or detected on a timely basis." See paragraph (d)(3)(ii) of SEC Rule 17a-5.

requirements in the review standard should focus auditors on whether the broker or dealer appropriately meets the exemption provisions in paragraph (k) of SEC Rule 15c3-3.

Also, the SEC Release states that SEC enforcement actions alleging fraudulent conduct by brokers and dealers highlight the need for enhancements to the rules governing broker and dealer custody of customer assets, including increased focus on compliance and internal compliance controls by brokers and dealers and their auditors.<sup>22</sup> The attestation standards include requirements related to the auditor's consideration of fraud risks, including the risk of misappropriation of customer assets. The new standard includes requirements for testing controls of the broker or dealer for safeguarding customer assets and funds and for performing procedures to obtain evidence about the existence of customer funds and securities held for customers.

Furthermore, PCAOB inspections staff in their inspections of broker and dealer audits have identified auditing deficiencies in 57 of 60 audits that were conducted under GAAS and the prior SEC Rule 17a-5.<sup>23</sup> The attestation standards—tailored for the new audit and reporting requirements under SEC Rule 17a-5—establish an approach specific to examining compliance reports and reviewing exemption reports that should provide greater clarity as to the procedures that should be used and facilitate consistent compliance for auditors of SEC registered brokers and dealers.

The financial responsibility rules serve an important investor protection function by requiring brokers and dealers to maintain minimum levels of net capital and take steps to safeguard customer securities and cash.<sup>24</sup> As described in the SEC Release, the new requirements for engagement of accountants should result in higher levels of compliance with the financial responsibility rules by increasing the focus of carrying brokers and dealers and their independent public accountants on specific statements made in compliance reports and increasing the focus of non-carrying brokers and dealers and their independent public accountants regarding whether the broker or dealer meets applicable exemption provisions.<sup>25</sup> Moreover, in the Board's view, the involvement of auditors, under the attestation standards and PCAOB oversight, should enhance the quality of the compliance information provided to the SEC and used in its regulatory oversight, which is important to the protection of investors who entrust their cash and securities with brokers and dealers.

## A. Consideration of Comments Received

In developing the attestation standards, the Board also considered comments received. On July 12, 2011, the Board proposed two attestation standards, *Examination Engagements Regarding Compliance Reports of Brokers and Dealers* ("proposed examination standard"), and *Review Engagements Regarding Exemption Reports of Brokers and Dealers* ("proposed review standard") (collectively, the "proposed attestation standards") and related amendments to PCAOB standards. The proposed attestation standards were developed to align the standards of the PCAOB with the SEC's 2011 proposed amendments to SEC

---

<sup>22</sup> See the SEC Release at 206-207.

<sup>23</sup> See *Second Report on the Progress of the Interim Inspection Program Related to Audits of Brokers and Dealers*, PCAOB Release No. 2013-006 (August 19, 2013) at 6.

<sup>24</sup> See the SEC Release at 255.

<sup>25</sup> See the SEC Release at 238.

Rule 17a-5 ("SEC Proposed Rule 17a-5"),<sup>26</sup> which included requirements for brokers and dealers to engage auditors to perform either a compliance examination engagement or review engagement, whichever would be required pursuant to the SEC's proposed amendments.

The Board received eleven comment letters on the proposed attestation standards. Commenters generally were supportive of the Board's efforts to draft attestation standards applicable to brokers and dealers and the Board's efforts to align the attestation standards with the Commission's proposed amendments to SEC Rule 17a-5. Commenters provided observations and comments on certain requirements and other specific aspects of the attestation standards and related amendments to PCAOB standards. Many of the significant comments, which dealt with the meaning of the term "material non-compliance" in the context of the auditor's examination of the broker's or dealer's assertions in the compliance report, are no longer applicable because of subsequent changes made by the SEC in its adoption of final amendments to SEC Rule 17a-5. The Board did, however, revise the attestation standards in response to certain of the comments received. Also, the Board made revisions to the standards in view of the final requirements contained in the SEC's amendments. Such changes are intended to align the Board's attestation standards with the SEC's requirements. Section IV below summarizes the key points and changes made to the attestation standards. Appendix 4 discusses the significant comments received on the proposed attestation standards in greater detail, as well as the revisions to the attestation standards.

## **IV. Overview of the Attestation Standards**

### **A. Attestation Standard No. 1, *Examination Engagements Regarding Compliance Reports of Brokers and Dealers***

The examination standard, which is presented in Appendix 1, establishes requirements for the auditor with respect to the auditor's examination regarding a broker's or dealer's compliance report. Consistent with SEC Rule 17a-5, the examination standard requires auditors to obtain sufficient appropriate evidence to opine on a broker's or dealer's statements in its compliance report as to whether:

- The Internal Control Over Compliance of the broker or dealer was effective during the most recent fiscal year;
- The Internal Control Over Compliance of the broker or dealer was effective as of the end of the most recent fiscal year;
- The broker or dealer was in compliance with the net capital rule and 17 C.F.R. § 240.15c3-3(e) (the "reserve requirements rule") as of the end of the most recent fiscal year; and
- The information the broker or dealer used to state whether it was in compliance with the net capital rule and reserve requirements

---

<sup>26</sup> See SEC Exchange Act Release No. 34-64676, *Broker-Dealer Reports* (June 15, 2011), 76 Federal Register 37572 (June 27, 2011).

rule was derived from the books and records of the broker or dealer.<sup>27</sup>

The examination standard provides requirements for auditors that:

- Focus the auditor on the matters that are most important to the auditor's conclusions regarding the broker's or dealer's assertions;
- Incorporate consideration of fraud risks, including the risk of misappropriation of customer assets;
- Are designed to be scalable based on the broker's or dealer's size and complexity;
- Coordinate the examination engagement with the audit of the financial statements and the audit procedures performed on supplemental information; and
- Describe how to report on an examination engagement, in connection with the requirements of SEC Rule 17a-5.

The examination standard retains the requirement that the auditor obtain reasonable assurance to support the auditor's opinion. In particular, the examination standard requires the auditor to obtain reasonable assurance in order to opine on whether the broker's or dealer's assertions are fairly stated, in all material respects. This replaces the requirement to obtain reasonable assurance in prior SEC Rule 17a-5, which stated that "[t]he scope of the audit and review of the accounting system, the internal control and procedures for safeguarding securities shall be sufficient to provide reasonable assurance that any material inadequacies existing at the date of the examination in (a) the accounting system; (b) the internal accounting controls; (c) procedures for safeguarding securities; and (d) the practices and procedures whose review is specified [in SEC Rule 17a-5] would be disclosed."<sup>28</sup>

The examination standard reflects changes from the proposed standard to align with SEC Rule 17a-5 and in light of comments received. Significant revisions include the following:

- The auditor's reporting requirements were revised to align with the statements of the broker or dealer pursuant to SEC Rule 17a-5;
- The requirements for auditor testing of controls over compliance were revised to cover internal controls over compliance both as of the end of the fiscal year and during the fiscal year, as provided by SEC Rule 17a-5; and
- The requirements for auditors to test for compliance were revised in view of the changes to SEC Rule 17a-5 to focus specifically on

---

<sup>27</sup> See paragraphs (d)(3)(i)(A)(2),(3),(4), and (5), (g)(2)(i), and (i)(3)(iii)(A) of SEC Rule 17a-5. The scope of the auditor's examination does not encompass the statement as to whether the broker or dealer has established and maintained Internal Control Over Compliance required by paragraph (d)(3)(i)(A)(1) of SEC Rule 17a-5.

<sup>28</sup> Prior to the amendments, SEC Rule 17a-5 provided that "[a]dditionally, as specific objectives, the audit shall include reviews of the practices and procedures followed by the client: (i) In making the periodic computations of aggregate indebtedness and net capital under 17 C.F.R. § 240.17a-3(a)(11) and the reserve required by 17 C.F.R. § 240.15c3-3(e); (ii) In making the quarterly securities examinations, counts, verifications and comparisons and the recordation of differences required by 17 C.F.R. § 240.17a-13; (iii) In complying with the requirement for prompt payment for securities of section 4(c) of Regulation T (§ 220.4(c) of chapter II of title 12) of the Board of Governors of the Federal Reserve System; and (iv) In obtaining and maintaining physical possession or control of all fully paid and excess margin securities of customers as required by 17 C.F.R. § 240.15c3-3. Such review shall include a determination as to the adequacy of the procedures described in the records required to be maintained pursuant to 17 C.F.R. § 240.15c3-3(d)(4)."

testing compliance with the net capital rule and reserve requirements rule.

Appendix 4 discusses further the revisions reflected in the examination standard.

## **B. Attestation Standard No. 2, Review Engagements Regarding Exemption Reports of Brokers and Dealers**

The review standard, which is presented in Appendix 2, establishes requirements for the auditor with respect to the auditor's review regarding the broker's or dealer's exemption report. Consistent with SEC Rule 17a-5, the review standard establishes requirements that apply when an auditor is engaged to perform a review of the broker's or dealer's statements in an exemption report.<sup>29</sup>

Like the examination standard, the review standard establishes requirements that are designed specifically for the review required by SEC Rule 17a-5.<sup>30</sup> The review standard establishes requirements for making inquiries and performing other procedures that are commensurate with the auditor's responsibility to obtain moderate assurance<sup>31</sup> regarding whether one or more conditions exist that would cause one or more of the broker's or dealer's assertions not to be fairly stated, in all material respects. The broker's or dealer's exemption report includes the following assertions:

- A statement that identifies the provisions in paragraph (k) of SEC Rule 15c3-3 (the "exemption provisions") under which the broker or dealer claimed an exemption from SEC Rule 15c3-3 (the "identified exemption provisions");
- A statement that the broker or dealer (1) met the identified exemption provisions throughout the most recent fiscal year without exception or (2) met the identified exemption provisions throughout the most recent fiscal year except as described in the exemption report; and
- If applicable, a statement that identifies each exception during the most recent fiscal year in meeting the identified exemption provisions (an "exception") and that briefly describes the nature of each exception and the approximate date(s) on which the exceptions existed.<sup>32</sup>

The auditor's review report regarding a broker's or dealer's exemption report replaces the statement provided by auditors under the prior SEC rules. Before the amendments, SEC Rule 17a-5 provided that the auditor engaged by the broker or dealer must "ascertain that the conditions of the exemption were being complied with as of the examination date and that no facts came to the independent public accountant's attention to indicate that the exemption had not been complied with during the period since the independent public accountant's last examination."

---

<sup>29</sup> See paragraphs (d)(4) and (g)(2)(ii) of SEC Rule 17a-5.

<sup>30</sup> *Id.*

<sup>31</sup> Obtaining moderate assurance in a review engagement is consistent with both existing PCAOB standards and the SEC Release. AT sec. 101.55 describes a review as an attest engagement designed to provide a moderate level of assurance. See the SEC Release at 88, which states that a "moderate level of assurance [is] contemplated by the required review."

<sup>32</sup> See paragraph (d)(4) of SEC Rule 17a-5.

The procedures required by the review standard include evaluating relevant evidence obtained from the audit of the financial statements and the audit procedures performed on supplemental information and are designed to enable the auditor to scale the review engagement based on the broker's or dealer's size and complexity. The review standard also establishes requirements for the content of the review report.

The review standard reflects changes from the proposed standard to align the standard with SEC Rule 17a-5 and in light of comments received. Significant revisions include the following:

- The requirements of the standard were revised to include consideration of disclosure of exceptions to the exemption provisions, as provided by SEC Rule 17a-5; and
- The auditor's reporting requirements were revised to align with the statements of the broker or dealer pursuant to SEC Rule 17a-5.

## V. Economic Considerations, including Audits of Emerging Growth Companies

### A. Economic Considerations

This release, and the related appendices, provide additional detail regarding the background and need for the new attestation standards; significant comments received; and alternatives considered. As discussed below, the Board also considered the economic consequences of the new standards.<sup>33</sup>

As noted above, in developing the attestation standards, the Board's objective was to consider the SEC's amendments to SEC Rule 17a-5 and evaluate whether its standards were appropriate for the SEC's requirements for examinations of compliance reports and reviews of exemption reports.

As part of its process, the Board also considered the SEC's economic analysis related to its amendments to SEC Rule 17a-5. The SEC's analysis considers the economic effects, including the benefits and costs, of the new examinations of compliance reports and reviews of exemption reports that are now required by the SEC to be filed by registered brokers and dealers pursuant to SEC Rule 17a-5 and includes considerations relating to efficiency, competition, and capital formation.<sup>34</sup>

The SEC's economic analysis considered the Board's proposed attestation standards. As described in the SEC Release, after considering the views of commenters relating to anticipated costs, including with respect to the Board's proposed attestation standards, the SEC concluded that, while the total costs associated with the new compliance and review requirements would depend on the final PCAOB standards for attestation engagements, "as the PCAOB's proposed standards were tailored to the proposed amendments, nothing in those standards causes the Commission to change its estimates of the costs associated with these requirements, or to question that the benefits will justify the

---

<sup>33</sup> The Board did not specifically request comments that attempted to quantify costs related to the attestation standards, but the Board did request comment on the appropriateness of the standards and received comments that pertained to audit effort and related costs that it considered. The discussion in this section reflects the Board's qualitative assessment of the standards.

<sup>34</sup> See the SEC Release, which discusses costs and benefits of the requirements for examined compliance reports and reviewed exemption reports at 226-245.

costs."<sup>35</sup> The Board notes that, as adopted, the new attestation standards are aligned with SEC Rule 17a-5, and most of the differences between the proposed standards and the attestation standards in this release result from changes to conform to the SEC's final amendments to SEC Rule 17a-5.

In addition to considering the SEC's requirements and economic analysis, the Board also took into account other related economic considerations as discussed below.

## 1. Economic Baseline

The SEC made the determination to require brokers and dealers to include in their annual reports either a compliance report that is examined by an auditor or an exemption report that is reviewed by an auditor.

Therefore, the SEC Release contains a discussion of the economic baseline in its economic analysis. Aspects of the SEC's discussion of the baseline that are relevant to the attestation standards include:

- Before the SEC's amendments, Rule 17a-5 required that the audit under GAAS include a "review" of the broker's or dealer's accounting system, internal accounting control, and procedures for safeguarding securities.<sup>36</sup> The scope of the auditor's work was required to be sufficient to provide reasonable assurance that any material inadequacies<sup>37</sup> existing as of the date of the examination would be disclosed.
- Before the SEC's amendments, if the broker or dealer was exempt from the reserve requirements rule, the auditor was required to ascertain that the conditions of the exemption were being complied with as of the examination date and that no facts came to the auditor's attention to indicate that the exemption had not been complied with during the period since the last examination.

Under the SEC's amendments, audits of brokers and dealers are now required to be conducted in accordance with PCAOB standards, the material inadequacy report has been replaced with an examination of the compliance report, and the requirement to ascertain compliance with the exemption conditions has been replaced with a review of the exemption report.

## 2. Consideration of Alternatives and Additional Considerations

In general, the Board sought to evaluate whether its attestation standards were appropriate for performing and reporting on the newly required examinations and reviews. The SEC is a key user of the new reports, which serve to facilitate

---

<sup>35</sup> See the SEC Release at 241.

<sup>36</sup> See the SEC Release at 70.

<sup>37</sup> Prior to the SEC's amendments, paragraph (g)(3) of Rule 17a-5 described a "material inadequacy" in a broker's or dealer's accounting system, internal accounting controls, procedures for safeguarding securities, and practices and procedures to include "any condition which has contributed substantially to or, if appropriate corrective action is not taken, could reasonably be expected to: (i) inhibit a broker-dealer from promptly completing securities transactions or promptly discharging its responsibilities to customers, other broker-dealers or creditors; (ii) result in material financial loss; (iii) result in material misstatements of the broker-dealer's financial statements; or (iv) result in violations of the Commission's recordkeeping or financial responsibility rules to an extent that could reasonably be expected to result in the conditions described in [(i) through (iii)] above." See the SEC Release at 70, footnote 287.

the SEC's compliance oversight function. Accordingly, the Board's standards for those engagements needed to reflect a compliance focus and needed to be aligned with the requirements in SEC Rule 17a-5.

The Board considered two principal alternatives: (1) issuing guidance on applying existing PCAOB attestation standards to the new examination and review engagements, or (2) developing standards tailored to the requirements of SEC Rule 17a-5. In considering the first alternative, the Board observed that auditors performing examinations of compliance reports would need to look to a patchwork of requirements in existing attestation standards, including AT sec. 101 and AT sec. 601, and apply them to the new examination of the compliance report and review of the exemption report. This could lead to more inconsistencies in compliance with the SEC's rule as compared to a tailored standard that sets forth the necessary procedures for complying with the SEC's rule.

The Board preliminarily determined that a broker and dealer specific approach to examining compliance reports and reviewing exemption reports that is tailored to the SEC's rule would promote consistent audit practices and compliance with the SEC's rule because auditors could more readily determine the procedures necessary to meet the requirements for reasonable assurance in the examination and moderate assurance in the review. The greater clarity also can help facilitate more efficient use of audit resources, which can help mitigate the associated costs. Since the Board's initial proposal, the high level of auditing deficiencies observed by PCAOB inspections of audits of brokers and dealers under pre-existing standards have underscored the Board's initial concerns about the need for standards that facilitate more consistent compliance with the SEC's rule.<sup>38</sup>

In developing the new standards, the Board took into account economic considerations, including taking note of commenters' views on the proposed attestation standards. The Board's approach is intended to focus and streamline the auditor's work in order to promote overall audit effectiveness and avoid duplicative procedures. The Board sought to ease the transition to the new standards and help lessen the effect of associated costs by:

- Building on principles and concepts in existing attestation standards, such as the general requirements in AT sec. 101, and the risk-based principles for testing controls as set forth in Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*, and Auditing Standard No. 13, *The Auditor's Responses to the Risks of Material Misstatement*;
- Focusing the auditor's attention on the most important matters related to the objective of the examination or review, as applicable, including addressing the risk of misappropriation of customer assets;
- Requiring coordination of the attestation standards with the audit of the financial statements and audit procedures on the

---

<sup>38</sup> See PCAOB Release 2013-006, which reports that PCAOB inspection staff identified auditing deficiencies in 57 of the 60 audits of brokers and dealers selected for inspection and that deficiencies in compliance with audit requirements for brokers and dealers under the Exchange Act that were among the most frequently noted by PCAOB inspection staff included deficiencies in audit procedures related to net capital and customer reserve supporting schedules, compliance with the conditions of the exemption claimed by the broker or dealer, and the accountant's supplemental report on material inadequacies. See PCAOB Release 2013-006, Executive Summary, at ii.

supplemental information, to enhance the effectiveness of the coordinated work and avoid unnecessary duplication of work;<sup>39</sup> and

- Establishing risk-based approaches for the examination and review that are scalable—that is, the required audit effort is commensurate with the broker's or dealer's size and complexity<sup>40</sup>—and that facilitate consistent compliance with SEC Rule 17a-5.

The Board also considered commenters' views. Commenters on the Board's proposed attestation standards generally agreed that the proposed standards were appropriately tailored for the SEC's proposed amendments to Rule 17a-5. Notably, when the attestation standards were proposed, the PCAOB requested comment on whether the standards were appropriately scalable based on the size and complexity of the broker or dealer. Some commenters specifically agreed that the standards are scalable, and no commenters asserted that the standards are not scalable. Additionally, several comments on the proposed standards were no longer relevant because of changes the SEC made when it adopted the amendments.

Some commenters on the proposed standards expressed concerns about costs associated with extending the requirements for engagement quality reviews to encompass the attestation engagements covered by these standards. In light of the importance of the attestation engagements to investor protection and the high level of deficiencies observed by PCAOB inspection staff in areas that would be covered by the attestation engagements, the Board believes that engagement quality reviews can enhance the consistency of compliance with the SEC's rule. An effective engagement quality review can increase the likelihood of identifying significant engagement deficiencies before the examination report or review report is issued. Additionally, the Board took note of the fact that, in a February 2011 AICPA Peer Review Alert, the AICPA designated audits of carrying brokers or dealers as a "must select" for peer review, recognizing the significant public interest in audits of such firms.<sup>41</sup>

Regarding the incremental costs of engagement quality reviews, because engagement quality reviews are required for audits of financial statements under PCAOB standards, the requirements for auditors to coordinate their audits of the financial statements and attestation engagements should facilitate the engagement quality review of the attestation engagement and help mitigate incremental costs. Furthermore, the Board anticipates that incremental costs for an engagement quality review of an attest engagement will vary with the nature of the attest engagement. For example, the required effort for an engagement quality review of a review engagement generally would be less than for an examination engagement, and the required effort for an examination of a smaller, less complex broker or dealer generally would be less than for a larger, more complex broker or dealer.

---

<sup>39</sup> By its terms, SEC Rule 17a-5 requires the financial statement audit and the compliance examination or review to be performed by the same auditor. See paragraph (g) of SEC Rule 17a-5.

<sup>40</sup> This view is also analogous to the SEC's view for preparation of the compliance report discussed in the SEC Release. In the SEC Release, the SEC observed that the controls necessary for a carrying broker or dealer that engages in limited custodial activities generally should be less complex than the controls necessary for a carrying broker or dealer that engages in more extensive custodial activities, so a carrying broker or dealer with limited custodial activities should have to expend less effort to make the statements in the compliance report regarding Internal Control Over Compliance. See the SEC Release at 229. Similarly, the necessary audit effort related to test controls should be less for brokers and dealers with limited custodial activities.

<sup>41</sup> See AICPA Peer Review Alert 11-01 (February 2011).

## B. Applicability to Audits of Emerging Growth Companies

The Board is adopting the attestation standards pursuant to its authority under the Sarbanes-Oxley Act of 2002 ("Sarbanes-Oxley" or the "Act").<sup>42</sup>

Before rules adopted by the Board can take effect, they must be approved by the SEC. Pursuant to Section 107(b)(3) of Sarbanes-Oxley, the SEC shall approve a proposed rule if it finds that the rule is "consistent with the requirements of [the] Act and the securities laws, or is necessary or appropriate in the public interest or for the protection of investors."

Additionally, Section 104 of the Jumpstart Our Business Startups Act ("JOBS Act")<sup>43</sup> amended Sarbanes-Oxley to provide that any additional rules adopted by the PCAOB after April 5, 2012 do not apply to audits of emerging growth companies ("EGCs")<sup>44</sup> unless the SEC "determines that the application of such additional requirements is necessary or appropriate in the public interest, after considering the protection of investors, and whether the action will promote efficiency, competition, and capital formation".<sup>45</sup>

As previously discussed, the attestation standards will apply solely in connection with audits of registered brokers and dealers pursuant to SEC Rule 17a-5. PCAOB staff has discussed the applicability of the JOBS Act to this rulemaking with the SEC staff. The PCAOB is not aware of any EGCs that are also registered brokers or dealers.<sup>46</sup> Moreover, the reporting regimes for registered brokers and dealers under SEC Rule 17a-5 are separate and distinct from those for companies subject to reporting requirements pursuant to Section 13 and 15 of the Exchange Act or for a Securities Act registration statement. The Board defers to the SEC on the applicability of the JOBS Act to this rulemaking and stands ready to assist the SEC with any additional analysis that may become necessary.

## VI. Effective Date

The attestation standards will be effective, subject to approval by the SEC, for examination engagements and review engagements for fiscal years ending on or after June 1, 2014. This effective date coincides with the effective date for the corresponding amendments to SEC Rule 17a-5.<sup>47</sup>

\* \* \*

---

<sup>42</sup> Pub. L. 107-204, 116 Stat. 745 (2002). Under Section 101 of the Act, the mission of the PCAOB is to oversee the audit of companies that are subject to the securities laws, and related matters, in order to protect the interests of investors and further the public interest in the preparation of informative, accurate, and independent audit reports. Section 103 of the Act authorizes the Board to adopt auditing standards for use by registered public accounting firms in the preparation and issuance of audit reports "as required by [the] Act or the rules of the Commission, or as may be necessary or appropriate in the public interest or for the protection of investors."

<sup>43</sup> Pub. L. No. 112-106, 126 Stat. 306 (2012).

<sup>44</sup> Section 3(a)(80) of the Exchange Act defines the term "emerging growth company."

<sup>45</sup> See Section 103(a)(3)(C) of Sarbanes-Oxley (15 U.S.C. § 7213(a)(3)), as amended by Section 104 of the JOBS Act, Pub. L. No. 112-106 (2012).

<sup>46</sup> PCAOB staff has reviewed the reported industry classifications in the most recent filings of those companies and read SEC filings of self-identified EGCs as necessary to ascertain whether any EGCs were brokers or dealers. For those companies for which audited financial statements were available and based on information included in the most recent audited financial statements filed as of May 15, 2013, PCAOB staff has observed that none of the EGCs is a broker or dealer.

<sup>47</sup> See the SEC Release at 2.

On the 10th day of October, in the year 2013, the foregoing was, in accordance with the bylaws of the Public Company Accounting Oversight Board,

Appendix 4—Additional Discussion of the Attestation Standards

## Appendix 1—Attestation Standard No. 1

### Examination Engagements Regarding Compliance Reports of Brokers and Dealers

#### Introduction

1. This standard establishes requirements that apply when an auditor is engaged to perform an examination<sup>1</sup> of certain statements made by a broker<sup>2</sup> or dealer<sup>3</sup> in a compliance report ("compliance report") prepared pursuant to Securities and Exchange Act of 1934 ("Exchange Act") Rule 17a-5, 17 C.F.R. § 240.17a-5 ("SEC Rule 17a-5") of the U.S. Securities and Exchange Commission ("SEC").<sup>4</sup>

2. SEC Rule 17a-5 requires a broker's or dealer's compliance report to include the following statements (hereinafter referred to as "assertions") by the broker or dealer as to whether:<sup>5</sup>

- a. The **Internal Control Over Compliance**<sup>6</sup> of the broker or dealer was effective during the most recent fiscal year;
- b. The Internal Control Over Compliance of the broker or dealer was effective as of the end of the most recent fiscal year;<sup>7</sup>
- c. The broker or dealer was in compliance with 17 C.F.R. §§ 240.15c3-1 (the "net capital rule") and 240.15c3-3(e) (the "reserve requirements rule") as of the end of the most recent fiscal year; and
- d. The information the broker or dealer used to state whether it was in compliance with the net capital rule and the reserve requirements rule was derived from the books and records of the broker or dealer.

---

<sup>1</sup> See paragraphs (d)(1)(i)(C) and (g)(2)(i) of SEC Rule 17a-5, which require that certain brokers or dealers file with the SEC a report prepared by an independent accountant based on an examination of the compliance report, if the broker or dealer is required to file a compliance report with the SEC.

<sup>2</sup> According to PCAOB Rule 1001(b)(iii), the term "broker" means a broker (as defined in Section 3(a)(4) of the Exchange Act) that is required to file a balance sheet, income statement, or other financial statement under Section 17(e)(1)(A) of that Act, where such balance sheet, income statement, or financial statement is required to be certified by a registered public accounting firm.

<sup>3</sup> According to PCAOB Rule 1001(d)(iii), the term "dealer" means a dealer (as defined in Section 3(a)(5) of the Exchange Act) that is required to file a balance sheet, income statement, or other financial statement under Section 17(e)(1)(A) of that Act, where such balance sheet, income statement, or financial statement is required to be certified by a registered public accounting firm.

<sup>4</sup> See paragraph (g)(2)(i) of SEC Rule 17a-5.

<sup>5</sup> The scope of the auditor's examination does not encompass the statement required by paragraph (d)(3)(i)(A)(1) of SEC Rule 17a-5, which is a statement as to whether the broker or dealer has established and maintained Internal Control Over Compliance as that term is defined in paragraph (d)(3)(ii) of SEC Rule 17a-5. See paragraphs (d)(3) and (g)(2)(i) of SEC Rule 17a-5.

<sup>6</sup> Terms defined in Appendix A, *Definitions*, are set in **boldface type** the first time they appear. The definitions of the terms in Appendix A are consistent with paragraphs (d)(3)(ii) and (iii) of SEC Rule 17a-5.

<sup>7</sup> See paragraph (d)(3)(iii) of SEC Rule 17a-5, which provides that "a broker or dealer is not permitted to conclude that its Internal Control Over Compliance was effective during the most recent fiscal year if there were one or more material weaknesses in its Internal Control Over Compliance during the most recent fiscal year. The broker or dealer is not permitted to conclude that its Internal Control Over Compliance was effective as of the end of the most recent fiscal year if there were one or more material weaknesses in its Internal Control Over Compliance as of the end of the most recent fiscal year."

## Objective

3. When performing an examination of the assertions made by a broker or dealer in a compliance report (an "examination engagement"), the auditor's objective is to express an opinion regarding whether the assertions made by the broker or dealer in its compliance report are fairly stated, in all material respects.

4. To express an opinion on the assertions made by a broker or dealer in a compliance report, the auditor must plan and perform the examination engagement to obtain appropriate evidence that is sufficient<sup>8</sup> to obtain reasonable assurance<sup>9</sup> about whether (1) one or more **Material Weaknesses** existed during the most recent fiscal year specified in the broker's or dealer's assertion; (2) one or more Material Weaknesses existed as of the end of the most recent fiscal year specified in the broker's or dealer's assertion; and (3) one or more instances of non-compliance with the net capital rule or the reserve requirements rule existed as of the end of the most recent fiscal year specified in the broker's or dealer's assertion.

Note: Because the broker's or dealer's assertions include assertions regarding Internal Control Over Compliance and its compliance with both the net capital rule and the reserve requirements rule, the auditor's examination should evaluate (a) the effectiveness of Internal Control Over Compliance with each financial responsibility rule<sup>10</sup> during, and as of the end of, the most recent fiscal year, and (b) compliance with the net capital rule and with the reserve requirements rule as of the end of the most recent fiscal year.

Note: The auditor is not required to express an opinion on the process the broker or dealer used to arrive at the conclusions stated in the broker's or dealer's assertions.

5. The auditor also must plan and perform the examination engagement to obtain appropriate evidence that is sufficient to obtain reasonable assurance to support the auditor's opinion regarding whether the assertion by the broker or dealer that the information used to assert compliance with the net capital rule and the reserve requirements rule was derived from the books and records of the broker or dealer, is fairly stated, in all material respects.

## Performing the Examination Engagement

### General Requirements

6. An auditor who performs an examination engagement pursuant to this standard must:

- a. Have adequate technical proficiency in attestation engagements;
- b. Obtain an understanding of the financial responsibility rules and other rules and regulations that are relevant to the broker's or dealer's assertions;

---

<sup>8</sup> See the description of "sufficiency" and "appropriateness" in Auditing Standard No. 15, *Audit Evidence*.

<sup>9</sup> Although not absolute assurance, reasonable assurance is a high level of assurance.

<sup>10</sup> The term "financial responsibility rules" refers to: 17 C.F.R. § 240.15c3-1 ("SEC Rule 15c3-1" or the "net capital rule"); 17 C.F.R. § 240.15c3-3 ("SEC Rule 15c3-3"); 17 C.F.R. § 240.17a-13 ("SEC Rule 17a-13"); and any rule of the designated examining authority ("DEA") of the broker or dealer that requires account statements to be sent to the customers of the broker or dealer. The financial responsibility rules are the same as the rules cited in paragraph (d)(3)(ii) of SEC Rule 17a-5.

- c. Determine the auditor's compliance with independence and ethics requirements; and
- d. Exercise due professional care, which includes application of professional skepticism, in planning and performing the examination and the preparation of the report.

Note: Due professional care imposes a responsibility on each engagement team member to comply with this standard. The exercise of due professional care requires critical review at every level of supervision of the work done and the judgment exercised by those assisting in the engagement, including preparing the report.<sup>11</sup>

Note: Auditing Standard No. 3, *Audit Documentation*, establishes the documentation requirements for examination engagements performed pursuant to this standard.

7. The engagement partner is responsible for the examination engagement and performance of the examination procedures. Accordingly, the engagement partner is responsible for proper planning of the examination engagement, proper supervision of the work of engagement team members, and compliance with the requirements of this standard. The engagement partner may seek assistance from appropriate engagement team members in fulfilling these responsibilities.

Note: For purposes of this standard, the term "engagement partner" means the member of the engagement team with primary responsibility for the examination engagement.

Note: Proper planning includes establishing an overall strategy for the examination engagement and developing a plan for the engagement, which includes, in particular, the nature, timing, and extent of procedures necessary to obtain reasonable assurance. Proper supervision includes supervising the work of engagement team members so that the work is performed as directed and supports the conclusions reached.

## Relationship Between the Examination Engagement and the Audit of the Financial Statements and the Audit Procedures Performed on Supplemental Information

8. The examination engagement should be coordinated with the audit of the financial statements and the audit procedures performed on supplemental information of the broker or dealer.<sup>12</sup> In planning and performing procedures for, and evaluating the results of the procedures performed in, the examination engagement, the auditor should take into account relevant evidence from the audit of the financial statements and the audit procedures performed on the supplemental information. However, the objectives of the financial statement

---

<sup>11</sup> The auditor's responsibility to exercise due professional care is consistent with the description in paragraphs .40-.41 of AT sec. 101, *Attest Engagements*.

<sup>12</sup> Under the definition of supplemental information included in Auditing Standard No. 17, *Auditing Supplemental Information Accompanying Audited Financial Statements*, supplemental information includes the supporting schedules described in paragraph (d)(2) of SEC Rule 17a-5, which are required to be filed with the SEC, DEA, and the Securities Investor Protection Corporation ("SIPC") by brokers and dealers. Such supporting schedules include a Computation of Net Capital Under SEC Rule 15c3-1, a Computation for Determination of the Reserve Requirements under Exhibit A of SEC Rule 15c3-3, and Information Relating to Possession or Control Requirements Under SEC Rule 15c3-3.

audit and the examination engagement are not the same, so the auditor must plan and perform the work to meet the objectives of both engagements.

## Planning the Examination Engagement

9. The auditor should plan the examination engagement to perform procedures that are sufficient to provide a reasonable basis for determining whether the broker's or dealer's assertions are fairly stated, in all material respects. In planning the examination engagement, the auditor should:

- a. Evaluate the nature of instances of non-compliance with the financial responsibility rules and **Deficiencies in Internal Control Over Compliance** identified during previous examination engagements;
- b. Obtain an understanding of the broker's or dealer's processes, including relevant controls, regarding compliance with the financial responsibility rules<sup>13</sup>;

Note: The nature, timing, and extent of procedures that are necessary to obtain an understanding of the broker's or dealer's processes, including relevant controls, regarding compliance with the financial responsibility rules depend on the size and complexity of the broker or dealer; the auditor's existing knowledge of the broker's or dealer's processes and controls; the degree to which the broker's or dealer's compliance depends on the completeness and accuracy of the broker's or dealer's internally-generated data; the nature and extent of changes in systems and operations, if any; and the nature of the broker's or dealer's documentation of its processes and controls.

Note: Obtaining an understanding of the broker's or dealer's processes, including relevant controls, includes evaluating the design of controls that are relevant to the examination and determining whether the controls have been implemented.

- c. Obtain an understanding of instances of non-compliance with the financial responsibility rules and Deficiencies in Internal Control Over Compliance identified by management during the most recent fiscal year;
- d. Assess the risks associated with related parties,<sup>14</sup> including related parties that are investment advisors or entities with which the broker or dealer has a custodial or clearing relationship, that are relevant to compliance and controls over compliance;
- e. Obtain an understanding of management's competence regarding the relevant rules and regulations;
- f. Read the Financial and Operational Combined Uniform Single Reports ("FOCUS Reports")<sup>15</sup> filed by the broker or dealer and obtain an understanding of the reasons for resubmissions, if any;

---

<sup>13</sup> Appendix B of this standard discusses considerations for brokers and dealers with multiple divisions or branches.

<sup>14</sup> The auditor should look to the definition in the applicable financial reporting framework with respect to the term "related parties."

<sup>15</sup> The FOCUS Reports are: Form X-17A-5 Schedule I; Form X-17A-5 Part II; Form X-17A-5 Part IIa; Form X-17A-5 Part IIb; and Form X-17A-5 Part III.

- g. Read reports of internal auditors, others who perform an equivalent function, compliance functions, and other auditors that are relevant to the broker's or dealer's assertions;
- h. Inquire of management, and, if applicable, other individuals at the broker or dealer who have relevant knowledge regarding regulatory examinations and correspondence between the SEC or the broker's or dealer's DEA and the broker or dealer that are relevant to the broker's or dealer's assertions;
- i. Read correspondence and notifications regarding non-compliance that the broker or dealer has sent to or received from the SEC or the broker's or dealer's DEA that are relevant to the broker's or dealer's assertions, and, when necessary in the circumstances, make inquiries of the regulatory agencies; and
- j. Obtain an understanding of the nature and frequency of customer complaints that are relevant to compliance with the financial responsibility rules.

**10.** In addition, in planning the examination engagement, the auditor should assess the risk of fraud, including the risk of misappropriation of customer assets, relevant to compliance with the net capital rule and the reserve requirements rule and the effectiveness of the broker's or dealer's Internal Control Over Compliance.

## Testing Controls over Compliance

**11.** The auditor must test those controls that are important to the auditor's conclusion about whether the broker or dealer maintained effective Internal Control Over Compliance for each financial responsibility rule during the fiscal year and as of the end of the fiscal year. The auditor must obtain evidence that the controls over compliance selected for testing are designed effectively and operated effectively during the fiscal year and as of the fiscal year end.

**12.** For each control selected for testing, the evidence necessary to persuade the auditor that the control is effective depends upon the risk associated with the control. The risk associated with a control consists of the risk that the control might not be effective and, if not effective, the risk that a Material Weakness would result. As the risk associated with the control being tested increases, the persuasiveness of the evidence that the auditor should obtain also increases.

Note: Although the auditor must obtain evidence about the effectiveness of the selected controls for each financial responsibility rule, the auditor is not responsible for obtaining sufficient evidence to support an opinion about the effectiveness of each individual control.

**13.** Factors that affect the risk associated with a control include:

- The nature of the financial responsibility rule;
- The risk associated with non-compliance with the financial responsibility rule and the significance of potential non-compliance;
- Changes in the broker's or dealer's policies or procedures or personnel that might adversely affect control design or operating effectiveness;
- The broker's or dealer's history of instances of non-compliance with the financial responsibility rule that the control is intended to prevent or detect;

- The existence and effectiveness of controls that monitor other controls;
- The risk of management override of controls over compliance;
- The nature of the control and the frequency with which it operates;
- The degree to which the control relies on the effectiveness of other controls (e.g., the control environment or information technology general controls);
- The competence of the personnel who perform the control or monitor its performance and whether there have been changes in key personnel who perform the control or monitor its performance;
- The extent of use of part-time personnel to perform controls over compliance;
- Whether the control relies on performance by an individual or is automated (i.e., an automated control would generally be expected to be lower risk if relevant information technology general controls are effective); and
- The complexity of the control and the significance of the judgments made in connection with its operation.

#### *Testing Design Effectiveness*

**14.** The auditor should test the design effectiveness of the selected controls by determining whether the broker's or dealer's controls, if they are operating as prescribed by persons possessing the necessary authority and competence to perform the control effectively, can effectively prevent or detect instances of non-compliance with the financial responsibility rules on a timely basis.

Note: If a broker or dealer makes changes to its policies and procedures or key personnel during the fiscal year, the auditor should obtain evidence regarding the design effectiveness of the selected controls before and after the change.

**15.** Procedures the auditor performs to obtain evidence about design effectiveness include inquiry of appropriate personnel, observation of the broker's or dealer's operations, and inspection of relevant documentation. Walkthroughs that include these procedures ordinarily are sufficient to evaluate design effectiveness.

#### *Testing Operating Effectiveness*

**16.** The auditor should test the operating effectiveness of the selected controls by determining whether each selected control is operating as designed and whether the person performing the control possesses the necessary authority and competence to perform the control effectively.

Note: The auditor should obtain evidence regarding the operating effectiveness of the selected controls throughout the entire year and as of the end of the fiscal year.

**17.** Procedures the auditor performs to test operating effectiveness include a mix of inquiry of appropriate personnel, observation of the broker's or dealer's operations, inspection of relevant documentation, and re-performance of the control.

**18.** The evidence provided by the auditor's tests of the effectiveness of controls depends upon the mix of the nature, timing, and extent of the auditor's

procedures. Further, for an individual control, different combinations of the nature, timing, and extent of testing might provide sufficient evidence in relation to the risk associated with the control.

Note: Generally, a conclusion that a control is not operating effectively can be supported by less evidence than is necessary to support a conclusion that a control is operating effectively.

#### *Using Evidence Obtained in Past Examination Engagements*

**19.** The auditor should obtain evidence during the current fiscal year about the design and operating effectiveness of controls selected for testing. If controls selected for testing in the current year were tested in past examination engagements, and if the auditor plans to use evidence about the effectiveness of those controls that was obtained in prior years, the auditor should take into account the factors discussed in paragraph 13 and the following factors to determine the evidence needed during the current fiscal year examination:

- The nature, timing, and extent of procedures performed in previous examination engagements;
- The results of the previous years' testing of the control; and
- Changes in the control or the process in which the control operates since the previous examination engagement.

#### *Using Tests of Controls that are Modified During the Year*

**20.** A broker or dealer might implement changes to controls over compliance to make them more effective or efficient or to address control deficiencies. The auditor should obtain an understanding of the reason for the change and obtain evidence regarding the design and operating effectiveness of the new and superseded controls. The nature, timing, and extent of the testing of new and superseded controls depend on the evidence needed to support the auditor's conclusions about the effectiveness of Internal Control Over Compliance during and as of the end of the fiscal year.

## **Performing Compliance Tests**

**21.** The auditor must perform procedures ("compliance tests") that are sufficient to support the auditor's conclusions regarding whether the broker or dealer was in compliance with the net capital rule and reserve requirements rule as of the end of its most recent fiscal year. This includes performing the following procedures on the schedules<sup>16</sup> the broker or dealer used to determine compliance with the net capital rule and the reserve requirements rule as of its fiscal year end:

- a. Evaluate whether the amounts in the schedules were determined in accordance with the net capital rule or reserve requirements rule, as applicable;
- b. Test the accuracy and completeness of the information in the schedules;
- c. Determine whether the broker or dealer maintained the required level of net capital in accordance with the net capital rule;

---

<sup>16</sup> The term "schedules" used in this paragraph refers to the computations of the broker or dealer, in whatever form, that are performed to determine the broker's or dealer's compliance with the net capital rule and the reserve requirements rule.

- d. Determine whether the broker or dealer maintained a special reserve bank account for the exclusive benefit of customers and deposited funds in at least the required amount in accordance with the reserve requirements rule;
- e. Determine whether the information in the schedules was derived from the books and records of the broker or dealer; and
- f. Determine whether the broker or dealer made the notifications, if any, required by the net capital rule and reserve requirements rule as of the end of the most recent fiscal year.

Note: Procedures performed as part of the audit of the financial statements and audit procedures performed on supplemental information also might provide evidence regarding the broker's or dealer's compliance with the net capital rule and the reserve requirements rule.

**22.** The auditor should plan and perform compliance tests that are responsive to the risks, including fraud risks, associated with non-compliance with the net capital rule and the reserve requirements rule. As the risk associated with non-compliance with the net capital rule or the reserve requirements rule increases, the persuasiveness of the evidence that the auditor should obtain from compliance tests also increases. The evidence provided by the auditor's compliance tests depends upon the mix of the nature, timing, and extent of those procedures. Inquiry alone does not provide sufficient appropriate evidence to support the auditor's conclusions about the broker's or dealer's compliance with the net capital rule or the reserve requirements rule.

**23.** In conjunction with performing the compliance tests pursuant to paragraphs 21 and 22, the auditor must perform procedures to obtain evidence about the existence of customer funds or securities held for customers.

Note: Examples of procedures that provide evidence about the existence of customer assets include: (1) counting customer securities or observing and testing the broker's or dealer's procedures for physical inspection and (2) confirming customer security positions directly with depositories and clearing organizations. Procedures performed in the audit of the financial statements and the audit procedures performed on supplemental information to test the existence of assets held for customers also may provide evidence that is relevant to the requirement in this paragraph.

#### *Effect of Tests of Internal Controls on Compliance Tests*

**24.** The auditor should take into account the results of the auditor's tests of controls over compliance with the net capital rule and the reserve requirements rule in determining the necessary nature, timing, and extent of compliance tests. If the test results indicate that the controls are effective, less evidence is needed from compliance tests. If the test results indicate that the controls are ineffective, the auditor should revise the planned compliance tests as necessary to obtain more persuasive evidence regarding compliance.

## **Evaluating the Results of the Examination Procedures**

**25.** In forming an opinion on whether the assertions made by the broker or dealer in the compliance report are fairly stated, in all material respects, the auditor should evaluate all evidence obtained, regardless of whether the evidence corroborates or contradicts the broker's or dealer's assertions.

**26.** The auditor should evaluate:

- a. Identified instances of non-compliance with the net capital rule and the reserve requirements rule to determine whether any instance of noncompliance existed as of the end of the most recent fiscal year;
- b. Identified instances in which the information used to assert compliance with the net capital rule or the reserve requirements rule was not derived from the broker's or dealer's books and records to determine whether they are material, individually or in combination; and
- c. Identified Deficiencies in Internal Control Over Compliance to determine whether the deficiencies, individually or in combination, are Material Weaknesses.

Note: A Material Weakness can exist even when no instances of non-compliance exist. However, instances of non-compliance might indicate the existence of one or more Deficiencies in Internal Control Over Compliance.

Note: The auditor cannot assume that an identified instance of non-compliance or an identified Deficiency in Internal Control Over Compliance is an isolated occurrence. The auditor should evaluate the effect of any instance of noncompliance or identified control deficiency on the auditor's assessment of the risks associated with controls and noncompliance.

Note: The auditor also should evaluate the effect on the audit of the financial statements and audit procedures performed on supplemental information of any noncompliance, Material Weaknesses, or instances in which the information used to assert compliance with the net capital rule or reserve requirements rule was not derived, in all material respects, from the broker's or dealer's books and records.

**27.** The auditor should evaluate whether he or she has obtained sufficient appropriate evidence to support the conclusions to be presented in the examination report taking into account the risks associated with controls and non-compliance, the results of the examination procedures performed, and the appropriateness (i.e., the relevance and reliability) of the evidence obtained.

**28.** If the auditor has not obtained sufficient appropriate evidence about an assertion or has substantial doubt about an assertion, the auditor should perform procedures to obtain further evidence to address the matter.

**29.** If the auditor is unable to obtain sufficient appropriate evidence about an assertion, the auditor should express a disclaimer of opinion.<sup>17</sup>

## Subsequent Events

**30.** For the period from the end of the period specified in the broker's or dealer's assertions to the date of the auditor's examination report (the "subsequent period"), the auditor should perform procedures to identify subsequent events relevant to the auditor's conclusions about the assertions made by the

---

<sup>17</sup> See Appendix C of this standard, "Examination Report Modifications," which describes the situations in which the auditor should modify his or her examination report and the specific modifications to be made to the auditor's examination report. The requirement in paragraph 29 does not preclude the auditor from withdrawing from the examination engagement.

broker or dealer in the compliance report. Such procedures should include, but are not limited to:

- a. Reading relevant reports of internal auditors, others who perform an equivalent function, compliance functions, and other auditors, and correspondence that the broker or dealer has sent to or received from the SEC or the broker's or dealer's DEA during the subsequent period that is relevant to the broker's or dealer's assertions; and
- b. Evaluating information obtained through other engagements performed by the auditor for the broker or dealer, including subsequent events procedures performed in the audit of the financial statements and the audit procedures performed on supplemental information.

**31.** The auditor should evaluate the results of the procedures described in the previous paragraph to determine whether the results corroborate or contradict the broker's or dealer's assertions.

### Obtaining a Representation Letter

**32.** The auditor should obtain written representations from management of the broker or dealer:

- a. Acknowledging management's responsibility for establishing and maintaining a system of internal control with the objective of providing the broker or dealer with reasonable assurance that any instances of noncompliance with the financial responsibility rules will be prevented or detected on a timely basis;
- b. Stating the broker's or dealer's assertions included in the compliance report are the responsibility of management;
- c. Stating that management has made available to the auditor all records and other information relevant to the broker's or dealer's assertions, including all known matters contradicting the assertions, and all communications from regulatory agencies, internal auditors, others who perform an equivalent function, compliance functions, and other auditors, that are relevant to the broker's or dealer's assertions, received through the date of the auditor's report; and
- d. Stating whether there were, subsequent to the period addressed in the broker's or dealer's assertions, any known events or other factors that might significantly affect the broker's or dealer's assertions.

**33.** The failure to obtain written representations from management, including management's refusal to furnish them, constitutes a limitation on the scope of the engagement, as described in Appendix C of this standard.

### Communication Requirements

**34.** The auditor should communicate to management all identified Deficiencies in Internal Control Over Compliance.

**35.** The auditor should communicate to management and the audit committee<sup>18</sup> identified instances of non-compliance with the financial responsibility rules, identified Material Weaknesses, and identified instances in which information used to determine compliance with the net capital rule or the reserve requirements rule was not derived, in all material respects, from the broker's or dealer's books and records.

Note: The auditor also must comply with the requirements of paragraph (h) of SEC Rule 17a-5, which contains notification requirements that apply to auditors of brokers and dealers.

## Reporting on the Examination Engagement

**36.** The auditor's examination report must include the following elements, modified as necessary in the circumstances and manner discussed in Appendix C:

- a. A title that includes the word *independent*;
- b. An identification of the compliance report and the broker's or dealer's assertions regarding the effectiveness of Internal Control Over Compliance during the fiscal year and as of the fiscal year end, compliance with the net capital rule and the reserve requirements rule as of the fiscal year end, and whether the information used to assert compliance with those rules was derived from the broker's or dealer's books and records;
- c. A statement that management of the broker or dealer is responsible for establishing and maintaining a system of internal control that has the objective of providing the broker or dealer with reasonable assurance that any instances of non-compliance with the financial responsibility rules will be prevented or detected on a timely basis;
- d. A statement that the auditor's responsibility is to express an opinion on the broker's or dealer's assertions based on his or her examination;
- e. A statement that the examination was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States);
- f. A statement that the standards of the Public Company Accounting Oversight Board require that the auditor plan and perform the examination engagement to obtain reasonable assurance about whether the broker's or dealer's Internal Control Over Compliance was effective during and as of the end of the most recent fiscal year, whether the broker or dealer complied with the net capital rule and the reserve requirements rule as of the end of the most recent fiscal year, and whether the information used to assert compliance with the net capital rule and the reserve requirements rule was derived from the books and records of the broker or dealer;
- g. A statement that an examination engagement includes evaluating the design and operating effectiveness of Internal Control Over Compliance; testing and evaluating the broker's or dealer's

---

<sup>18</sup> For purposes of this standard, the term "audit committee" has the same definition as that in Auditing Standard No. 16, *Communications with Audit Committees*.

compliance with the net capital rule and the reserve requirements rule; determining whether the information used to assert compliance with the net capital rule and reserve requirements rule was derived from the broker's or dealer's books and records; and performing such other procedures as the auditor considered necessary in the circumstances;

- h. A statement that the auditor believes the examination provides a reasonable basis for his or her opinion;<sup>19</sup>
- i. The auditor's opinion on whether the assertions made by the broker or dealer in the compliance report are fairly stated, in all material respects;
- j. The manual signature of the auditor's firm;
- k. The city and state (or city and country, in the case of non-U.S. auditors) from which the auditor's examination report has been issued; and
- l. The date of the examination report.

**37.** The following example examination report expressing an unqualified opinion on the assertions made by a broker or dealer in a compliance report illustrates the report elements described in this section.

Report of Independent Registered Public Accounting Firm

*[Introductory paragraph]*

We have examined W Broker's statements, included in the accompanying *[title of the compliance report]*, that (1) W Broker's internal control over compliance was effective during the most recent fiscal year ended [date]; (2) W Broker's internal control over compliance was effective as of [date]; (3) W Broker was in compliance with 17 C.F.R. §§ 240.15c3-1 and 240.15c3-3(e) as of [date]; and (4) the information used to state that W Broker was in compliance with 17 C.F.R. §§ 240.15c3-1 and 240.15c3-3(e) was derived from W Broker's books and records. W Broker's management is responsible for establishing and maintaining a system of internal control over compliance that has the objective of providing W Broker with reasonable assurance that non-compliance with 17 C.F.R. § 240.15c3-1, 17 C.F.R. § 240.15c3-3, 17 C.F.R. § 240.17a-13, or Rule [fill in name/number] of [fill in DEA] that requires account statements to be sent to the customers of W Broker will be prevented or detected on a timely basis. Our responsibility is to express an opinion on W Broker's statements based on our examination.

*[Scope paragraph]*

We conducted our examination in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the examination to obtain reasonable assurance about whether W Broker's internal control over compliance was effective as of and during the most recent fiscal year ended [date]; W Broker complied with 17 C.F.R. §§ 240.15c3-1 and 240.15c3-3(e) as of [date]; and the information used to assert compliance with 17 C.F.R. §§ 240.15c3-1 and 240.15c3-3(e) as of [date] was derived from W Broker's books and records. Our examination includes testing and evaluating the design and operating effectiveness of internal control over compliance, testing and evaluating W Broker's compliance with

---

<sup>19</sup> When management has made an interpretation of the financial responsibility rules and the auditor has determined that it is necessary to emphasize this interpretation in the auditor's report, the auditor may include a paragraph stating the description and the source of the interpretation made directly following the scope paragraph.

17 C.F.R. §§ 240.15c3-1 and 240.15c3-3(e), determining whether the information used to assert compliance with 240.15c3-1 and 240.15c3-3(e) was derived from W Broker's books and records, and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

*[Opinion paragraph]*

In our opinion, W Broker's statements referred to above are fairly stated, in all material respects.

*[Signature]*

*[City and State or Country]*

*[Date]*

### **Examination Report Date**

**38.** The auditor should date the examination report no earlier than the date on which the auditor obtains sufficient appropriate evidence to support his or her opinion.

Note: Because of the coordination between the examination engagement, the audit of the financial statements and the audit procedures performed on supplemental information, the date of the examination report should not be earlier than the date of the auditor's report on the financial statements and supplemental information.

## Appendix A

### Definitions

**A1.** For purposes of this standard, the terms listed below are defined as follows:

**A2.** Deficiency in Internal Control Over Compliance—A Deficiency in Internal Control Over Compliance exists when the design or operation of a control does not allow the management or employees of the broker or dealer, in the normal course of performing their assigned functions, to prevent or detect on a timely basis non-compliance with 17 C.F.R. § 240.15c3-1, § 240.15c3-3, § 240.17a-13 or any rule of the designated examining authority of the broker or dealer that requires account statements to be sent to the customers of the broker or dealer.<sup>1</sup>

**A3.** Internal Control Over Compliance—Internal controls that have the objective of providing the broker or dealer with reasonable assurance that non-compliance with 17 C.F.R. § 240.15c3-1, § 240.15c3-3, § 240.17a-13, or any rule of the designated examining authority of the broker or dealer that requires account statements to be sent to the customers of the broker or dealer, will be prevented or detected on a timely basis.<sup>2</sup>

**A4.** Material Weakness—A Material Weakness is a deficiency, or a combination of deficiencies, in Internal Control Over Compliance such that there is a reasonable possibility that non-compliance with 17 C.F.R. § 240.15c3-1 or 17 C.F.R. § 240.15c3-3(e) will not be prevented or detected on a timely basis or that non-compliance to a material extent with 17 C.F.R. § 240.15c3-3, except for paragraph (e), 17 C.F.R. § 240.17a-13, or any rule of the designated examining authority of the broker or dealer that requires account statements to be sent to the customers of the broker or dealer will not be prevented or detected on a timely basis.<sup>3</sup>

---

<sup>1</sup> The definition of "Deficiencies in Internal Control Over Compliance" is consistent with the same term in paragraph (d)(3)(iii) of SEC Rule 17a-5.

<sup>2</sup> The definition of "Internal Control Over Compliance" is consistent with the same term in paragraph (d)(3)(ii) of SEC Rule 17a-5.

<sup>3</sup> The definition of a "Material Weakness" is consistent with the same term in paragraph (d)(3)(iii) of SEC Rule 17a-5.

## Appendix B

### Considerations for Brokers and Dealers with Multiple Divisions or Branches

**B1.** When the broker or dealer has multiple divisions or branches, the auditor should determine the extent to which he or she should perform examination procedures at selected divisions or branches to obtain sufficient appropriate evidence to support the conclusions expressed in the auditor's examination report. This includes determining the divisions or branches at which to perform examination procedures, as well as the nature, timing, and extent of the procedures to be performed at those individual divisions or branches. In determining the extent of the examination procedures to be performed, the auditor should take into account:

- a. The degree to which the financial responsibility rules relate to activities at the division or branch level;
- b. The nature and significance of the related assets, transactions, or activities at the division or branch to the financial responsibility rules;
- c. The degree of centralization of records or information processing relevant to the financial responsibility rules; and
- d. The degree and effectiveness of management supervision and monitoring of the relevant activities of the division or branch.

## Appendix C

### Examination Report Modifications

**C1.** The auditor should modify his or her examination report if any of the following conditions exist:

- a. There is non-compliance with the net capital rule or the reserve requirements rule as of the end of the most recent fiscal year, one or more Material Weaknesses in Internal Control Over Compliance during or as of the end of the most recent fiscal year, or the information used to assert compliance with the net capital rule or the reserve requirements rule was not derived, in all material respects, from the books and records of the broker or dealer (paragraphs C2-C3).
- b. There is a restriction on the scope of the examination engagement (paragraphs C4-C8).
- c. There is information other than the assertions and descriptions required under paragraph (d)(3)(i) of SEC Rule 17a-5 contained in the compliance report (paragraphs C9-C10).

### Non-Compliance, Material Weakness, or Instance in which Information Used to Assert Compliance was not Derived from the Broker's or Dealer's Books and Records

**C2.** If (1) one or more instances of non-compliance with the net capital rule or the reserve requirements rule exist as of the end of the fiscal year; (2) one or more Material Weaknesses in Internal Control Over Compliance exist during or as of the end of the fiscal year; or (3) the information used to assert compliance with the net capital rule or the reserve requirements rule was not derived, in all material respects, from the books and records of the broker or dealer, the auditor must express an adverse opinion directly on the subject matter of the respective assertions, rather than on the assertions themselves, unless there is a restriction on the scope of the examination engagement.

Note: The requirement in this paragraph to express an adverse opinion applies regardless of whether the non-compliance, Material Weakness, or other matters preventing the unqualified opinion were identified by management or by the auditor.

**C3.** When expressing such an adverse opinion, the auditor's examination report should include, as applicable:

- a. A statement that non-compliance with the net capital rule or the reserve requirements rule has been identified and an identification of each instance of non-compliance described in the broker's or dealer's compliance report as of the end of the most recent fiscal year.
- b. A statement that one or more Material Weaknesses in Internal Control Over Compliance have been identified during the fiscal year and an identification of each Material Weakness described in the compliance report.
- c. A statement that one or more Material Weaknesses in Internal Control Over Compliance have been identified as of the end of

the fiscal year and an identification of each Material Weakness described in the compliance report.

- d. A statement that one or more instances in which the information used to assert compliance with the net capital rule or the reserve requirements rule was not derived, in all material respects, from the broker's or dealer's books and records have been identified.

Note: If a description of all identified instances of noncompliance with the net capital rule or the reserve requirements rule and all identified Material Weaknesses has not been included in the broker's or dealer's compliance report, the examination report must be modified to describe those instances of non-compliance or Material Weaknesses that the auditor has identified but that are not described in the broker's or dealer's compliance report.<sup>1</sup>

## Scope Limitations

**C4.** The auditor can express an opinion on whether the assertions made by a broker or dealer in a compliance report are fairly stated, in all material respects, only if the auditor has been able to apply the procedures necessary in the circumstances. If there are restrictions on the scope of the examination engagement, the auditor should withdraw from the engagement or disclaim an opinion. A disclaimer of opinion should state that the auditor does not express an opinion on the assertions made by the broker or dealer in the compliance report.

**C5.** When disclaiming an opinion because of a scope limitation, the auditor should state that the scope of the examination engagement was not sufficient for the auditor to express an opinion and, in a separate paragraph or paragraphs, the substantive reasons for the disclaimer, including the procedures that were deemed necessary by the auditor that have been omitted and the reason for their omission. The auditor should not identify the procedures that were performed nor include the statements describing the characteristics of an examination engagement.

**C6.** When the auditor plans to disclaim an opinion and the limited procedures performed by the auditor caused the auditor to conclude that: (1) one or more instances of non-compliance with the net capital rule or the reserve requirements rule existed as of the end of the fiscal year; (2) one or more Material Weaknesses in Internal Control Over Compliance existed during or as of the end of the most recent fiscal year; or (3) the information used to assert compliance with the net capital rule or the reserve requirements rule was not derived, in all material respects, from the books and records of the broker or dealer, the auditor's report also must include the matters described in paragraph C3, as applicable.

**C7.** The auditor may issue a report disclaiming an opinion on the assertions made by a broker or dealer in a compliance report as soon as the auditor concludes that a scope limitation will prevent the auditor from obtaining the reasonable assurance necessary to express an opinion. The auditor is not required to perform any additional work before issuing a disclaimer when the auditor concludes that he or she will not be able to obtain sufficient evidence to express an opinion.

---

<sup>1</sup> Paragraphs (d)(3)(i)(B) and (C) of SEC Rule 17a-5 require the broker's or dealer's compliance report to contain a description of each material weakness in Internal Control Over Compliance during the most recent fiscal year and any instance of non-compliance with the net capital rule or the reserve requirements rule as of the end of the most recent fiscal year.

Note: In this case, in following the direction in paragraph 38 of this standard regarding dating the auditor's examination report, the report date is the date on which the auditor concludes that he or she will not be able to obtain sufficient evidence to express an opinion.

**C8.** If the auditor concludes that he or she cannot express an opinion because of a limitation on the scope of the examination engagement, the auditor should communicate on a timely basis, in writing, to management and the audit committee that the examination engagement cannot be satisfactorily completed.

### Other Information in the Compliance Report

**C9.** If the compliance report contains other information besides the statements and descriptions required by SEC Rule 17a-5,<sup>2</sup> the auditor should disclaim an opinion on the other information.

**C10.** If the auditor believes that the other information in the compliance report contains a material misstatement of fact, he or she should discuss the matter with management of the broker or dealer. If, after discussing the matter with management, the auditor concludes that a material misstatement of fact remains, the auditor should notify management and the audit committee of the auditor's views concerning the information.<sup>3</sup>

---

<sup>2</sup> See paragraph (d)(3)(i) of SEC Rule 17a-5.

<sup>3</sup> See also AU sec. 317, *Illegal Acts by Clients*, which describes the auditor's responsibilities in a financial statement audit regarding illegal acts.

## Appendix 2—Attestation Standard No. 2

### Review Engagements Regarding Exemption Reports of Brokers and Dealers

#### Introduction

1. This standard establishes requirements that apply when an auditor is engaged to perform a review<sup>1</sup> of the statements made by a broker<sup>2</sup> or dealer<sup>3</sup> in an exemption report ("exemption report") prepared pursuant to Securities and Exchange Act of 1934 ("Exchange Act") Rule 17a-5, 17 C.F.R. § 240.17a-5 ("SEC Rule 17a-5") of the U.S. Securities and Exchange Commission ("SEC").<sup>4</sup>

2. SEC Rule 17a-5 requires a broker's or dealer's exemption report to contain the following statements by the broker or dealer:

- a. A statement that identifies the provisions in paragraph (k) of SEC Rule 15c3-3<sup>5</sup> (the "exemption provisions") under which the broker or dealer claimed an exemption from SEC Rule 15c3-3 (the "identified exemption provisions");
- b. A statement that the broker or dealer (1) met the identified exemption provisions throughout the most recent fiscal year without exception or (2) met the identified exemption provisions throughout the most recent fiscal year except as described in the exemption report; and
- c. If applicable, a statement that identifies each exception during the most recent fiscal year in meeting the identified exemption provisions (an "exception") and that briefly describes the nature of each exception and the approximate date(s) on which the exception existed.<sup>6</sup>

#### Objective

3. When performing a review of the statements (hereinafter referred to as "assertions") made by a broker or dealer in an exemption report (a "review engagement"), the auditor's objective is to state whether, based upon the results of the review procedures, the auditor is aware of any material modifications that should be made to the broker's or dealer's assertions for the assertions to be fairly stated, in all material respects.

---

<sup>1</sup> See paragraphs (d)(1)(i)(C) and (g)(2)(ii) of SEC Rule 17a-5, which require that certain brokers or dealers file with the SEC a report prepared by an independent accountant based on a review of the statements in the exemption report, if the broker or dealer is required to file an exemption report with the SEC.

<sup>2</sup> According to PCAOB Rule 1001(b)(iii), the term "broker" means a broker (as defined in Section 3(a)(4) of the Exchange Act) that is required to file a balance sheet, income statement, or other financial statement under Section 17(e)(1)(A) of that Act, where such balance sheet, income statement, or financial statement is required to be certified by a registered public accounting firm.

<sup>3</sup> According to PCAOB Rule 1001(d)(iii), the term "dealer" means a dealer (as defined in Section 3(a)(5) of the Exchange Act) that is required to file a balance sheet, income statement, or other financial statement under Section 17(e)(1)(A) of that Act, where such balance sheet, income statement, or financial statement is required to be certified by a registered public accounting firm.

<sup>4</sup> See paragraph (g)(2)(ii) of SEC Rule 17a-5.

<sup>5</sup> See 17 C.F.R. § 240.15c3-3 ("SEC Rule 15c3-3").

<sup>6</sup> See paragraph (d)(4) of SEC Rule 17a-5.

4. The auditor must plan and perform the review engagement to obtain appropriate evidence that is sufficient to obtain moderate assurance<sup>7</sup> about whether one or more conditions exist that would cause one or more of the broker's or dealer's assertions not to be fairly stated, in all material respects. Such conditions include:

- a. The broker's or dealer's assertion that identifies the provisions in paragraph (k) of SEC Rule 15c3-3 under which the broker or dealer claimed an exemption for SEC Rule 15c3-3 is inaccurate;
- b. The broker or dealer asserts that it met the identified exemption provisions in paragraph (k) of SEC Rule 15c3-3 without exception when the auditor is aware of exceptions in meeting the exemption provisions; or
- c. The broker's or dealer's assertion that identifies and describes each exception during the most recent fiscal year in meeting the identified exemption provisions in paragraph (k) of SEC Rule 15c3-3 is inaccurate or incomplete.

## Performing the Review Engagement

### General Requirements

5. An auditor who performs a review engagement must:

- a. Have adequate technical proficiency in attestation engagements;
- b. Obtain an understanding of the exemption conditions and other rules and regulations that are relevant to the broker's or dealer's assertions;
- c. Determine the auditor's compliance with independence and ethics requirements; and
- d. Exercise due professional care, which includes application of professional skepticism, in planning and performing the review and preparation of the report.

Note: Due professional care imposes a responsibility on each engagement team member to comply with this standard. The exercise of due professional care requires critical review at every level of supervision of the work done and the judgment exercised by those assisting in the engagement, including preparing the report.<sup>8</sup>

Note: Auditing Standard No. 3, *Audit Documentation*, establishes the documentation requirements for review engagements performed pursuant to this standard.

6. The engagement partner is responsible for the review engagement and performance of the review procedures. Accordingly, the engagement partner is responsible for proper planning of the review engagement, proper supervision

---

<sup>7</sup> Moderate assurance is obtained by performing with due professional care the inquiries and other procedures required by this standard in order to reach a conclusion about whether there is a need to modify the broker's or dealer's assertions regarding the exemption provisions for the assertions to be fairly stated, in all material respects. Further, this standard is consistent with the concept of moderate assurance as described in paragraph .55 of AT sec. 101, *Attest Engagements*.

<sup>8</sup> The auditor's responsibility to exercise due professional care is consistent with the description in paragraphs .40-.41 of AT sec. 101.

of the work of engagement team members, and compliance with the requirements of this standard. The engagement partner may seek assistance from appropriate engagement team members in fulfilling these responsibilities.

Note: For purposes of this standard, the term "engagement partner" means the member of the engagement team with primary responsibility for the review engagement.

Note: Proper planning includes determining the nature, timing, and extent of procedures necessary to obtain moderate assurance. Proper supervision includes supervising the work of engagement team members so that the work is performed as directed and supports the conclusions reached.

## Relationship Between the Review Engagement and the Audit of Financial Statements and the Audit Procedures Performed on Supplemental Information

7. The review engagement should be coordinated with the audit of the financial statements and the audit procedures performed on supplemental information of the broker or dealer.<sup>9</sup> In planning and performing procedures for, and evaluating the results of the procedures performed in, the review engagement, the auditor should take into account relevant evidence from the audit of the financial statements and the procedures performed on the supplemental information. However, the objectives of the financial statement audit and the review engagement are not the same, so the auditor must plan and perform the work to meet the objectives of both engagements.

## Review Procedures

8. A review engagement includes the following procedures:

- a. Reading the exemption report to determine the exemption provisions under which the broker or dealer asserts its exemption and the identified exceptions to the exemption provisions;
- b. Performing inquiries and other review procedures set forth in this standard; and
- c. Evaluating whether the evidence indicates that there should be modifications to the broker's or dealer's assertions based on the results of the procedures performed.

9. The nature, timing, and extent of the necessary inquiries and other review procedures depend on:

- a. The following risk factors:
  - (1) The broker's or dealer's history of instances of non-compliance with the exemption provisions;

---

<sup>9</sup> Under the definition of supplemental information included in Auditing Standard No. 17, *Auditing Supplemental Information Accompanying Audited Financial Statements*, supplemental information includes the supporting schedules described in paragraph (d)(2) of SEC Rule 17a-5, which are required to be filed by brokers and dealers with the SEC and the broker's and dealer's designated examining authority ("DEA") and the Securities Investor Protection Corporation ("SIPC"). Such supporting schedules consist of, as applicable, a Computation of Net Capital Under Rule 15c3-1, a Computation for Determination of the Reserve Requirements under Exhibit A of SEC Rule 15c3-3, and Information Relating to Possession or Control Requirements Under SEC Rule 15c3-3.

- (2) Changes in the broker's or dealer's procedures, controls, or the environment in which the controls operate since the prior year;
  - (3) Changes in the broker's or dealer's operations that are relevant to compliance with the exemption provisions;
  - (4) Competence of the personnel who are responsible for compliance with the exemption provisions or who perform important controls over compliance, and whether there have been changes in those personnel during the period of the review;
  - (5) The risk of fraud, including the risk of misappropriation of customer assets, relevant to the exemption provisions;
  - (6) Potential non-compliance associated with related parties,<sup>10</sup> including related parties that are investment advisors or entities with which the broker or dealer has a custodial or clearing relationship;
  - (7) The degree to which the broker's or dealer's processes that relate to the exemption provisions are performed, monitored, or controlled in a centralized or decentralized environment; and
- b. Evidence about the broker's or dealer's compliance with the exemption provisions or about the effectiveness of controls over compliance with the exemption provisions obtained from the audit of the financial statements and the audit procedures performed on supplemental information.

**10.** The auditor should perform procedures to identify exceptions to the exemption provisions, including the following:

- a. If the broker or dealer identified exceptions to the exemption provisions during the year under review, the auditor should read the broker's or dealer's documentation regarding the exceptions to the exemption provisions and compare it to the information included in the exemption report.
- b. Inquire of management, and, if applicable, other individuals at the broker or dealer who have relevant knowledge regarding:
  - (1) Whether the broker or dealer was in compliance with the exemption provisions throughout the year under review or whether exceptions have been identified.
  - (2) Regulatory examinations and correspondence between the SEC or the broker's or dealer's DEA and the broker or dealer that are relevant to compliance with the exemption provisions.

Note: If the broker or dealer has sent or received correspondence with the SEC or the broker's or dealer's DEA that is relevant to compliance with the exemption provisions, the auditor should read such correspondence and, when necessary in the circumstances, make inquiries of the regulatory agencies.

---

<sup>10</sup> The auditor should look to the definition in the applicable financial reporting framework with respect to the term "related parties."

- (3) Subsequent events through the date of the auditor's review report that might have a material effect on the broker's or dealer's assertions.
- c. Inquire of individuals at the broker or dealer who have relevant knowledge of controls relevant to the broker's or dealer's compliance with the exemption provisions regarding:
    - (1) The controls that are in place to maintain compliance with the exemption provisions, including the nature of the controls and their frequency of operation.

Note: The auditor should take into account procedures performed during the audit of the financial statements and the audit procedures performed on supplemental information in obtaining an understanding of controls or other activities relevant to the broker's or dealer's compliance with the exemption provisions.
    - (2) Whether the individual is aware of:
      - i. Any exceptions to the exemption provisions and, if so, the nature, frequency, timing, and cause (if known) of the exceptions to the exemption provisions, during the year under review.
      - ii. Any deficiencies in controls over compliance with the exemption provisions and, if so, the nature, frequency, and cause (if known) of the control deficiencies during the year under review.
  - d. Inquire of individuals who are responsible for monitoring compliance with the exemption provisions or the controls over compliance regarding:
    - (1) The nature and frequency of the monitoring activities.
    - (2) The results of those monitoring activities, including the nature, frequency, timing, and cause (if known) of any exceptions to the exemption provisions or deficiencies in controls over compliance.
    - (3) The nature and frequency of customer complaints that are relevant to the broker's or dealer's compliance with the exemption provisions.
  - e. Read reports of internal auditors, others who perform an equivalent function, compliance functions, and other auditors that are relevant to the broker's or dealer's compliance with the exemption provisions.
  - f. Read regulatory filings of the broker or dealer that are relevant to the broker's or dealer's compliance with the exemption provisions.
  - g. Evaluate whether the evidence obtained and the results of the procedures performed in the audit of the financial statements and the audit procedures performed on supplemental information corroborate or contradict the broker's or dealer's assertions regarding compliance with the exemption provisions.

Note: Examples of procedures performed during the audit of the financial statements that might provide evidence relevant to the broker's or dealer's compliance with the exemption provisions include: (i) testing related to customer trades; (ii) testing of specially designated cash accounts; (iii) testing investment inventory or transactions related to the broker's or dealer's trading for its own

account; and (iv) reading the clearing agreement in connection with testing trade fee or commission revenue or expenses.

- h. Perform other procedures as necessary in the circumstances to obtain moderate assurance regarding whether a material modification should be made to the broker's or dealer's assertions for the assertions to be fairly stated, in all material respects.

## Evaluating the Results of the Review Procedures

11. The auditor should evaluate whether information has come to the auditor's attention that causes the auditor to believe that one or more of the broker's or dealer's assertions are not fairly stated, in all material respects.<sup>11</sup> If a broker's or dealer's assertion is not fairly stated, in all material respects, the auditor should:

- a. Modify the review report, as discussed in paragraph 19 of this standard; and
- b. Evaluate the effect of the matter on the audit of the financial statements and the audit procedures performed on supplemental information.

12. If information coming to the auditor's attention indicates that one or more exceptions to the exemption provisions occurred during the year under review or might exist at year-end, other than exceptions disclosed in the exemption report, that might cause one or more of the broker's or dealer's assertions not to be fairly stated, in all material respects, or if the auditor has substantial doubt about one or more of the broker's or dealer's assertions, the auditor should perform additional procedures as necessary to address the matter.

## Obtaining a Representation Letter

13. The auditor should obtain written representations from management of the broker or dealer:

- a. Acknowledging management's responsibility for compliance with the identified exemption provisions throughout the fiscal year;
- b. Stating the broker's or dealer's assertions and that they are the responsibility of management;
- c. Stating that management has made available to the auditor all records and other information relevant to the broker's or dealer's assertions, including all communications from regulatory agencies, internal auditors, others who perform an equivalent function, compliance functions, and other auditors concerning possible exceptions to the exemption provisions, received through the date of the auditor's review report; and
- d. Stating whether there were, subsequent to the period addressed in the broker's or dealer's assertions, any known events or other factors that might significantly affect the broker's or dealer's compliance with the identified exemption provisions.

14. The failure to obtain written representations from management, including management's refusal to furnish them, constitutes a limitation on the scope of the review engagement as described in paragraph 20 of this standard.

---

<sup>11</sup> See paragraph 4 of this standard, which provides examples of conditions that would cause one or more of the broker's or dealer's assertions not to be fairly stated, in all material respects.

## Communication Requirements

**15.** The auditor should communicate to management and to the audit committee<sup>12</sup> any exceptions to the exemption provisions identified by the auditor and information that causes the broker's or dealer's assertions about the exemption provisions not to be fairly stated, in all material respects.

Note: The auditor must also comply with the requirements of paragraph (h) of SEC Rule 17a-5, which contains notification requirements that apply to auditors of brokers and dealers.

## Reporting on the Review Engagement

**16.** The auditor's review report must include the following elements, modified as necessary in the circumstances and manner discussed in paragraphs 19-20:

1. A title that includes the word *independent*;
2. An identification of the exemption report and the broker's or dealer's assertions;
3. A statement that management of the broker or dealer is responsible for compliance with the identified exemption provisions throughout the fiscal year and for its assertions;
4. A statement that the review was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and, accordingly, included inquiries and other required procedures to obtain evidence about the broker's or dealer's compliance with the exemption provisions;
5. A statement that a review is substantially less in scope than an examination, the objective of which is the expression of an opinion on management's assertions, and accordingly, no such opinion is expressed;
6. A statement about whether the auditor is aware of any material modifications that should be made to the assertions for them to be fairly stated, in all material respects;
7. The manual signature of the auditor's firm;
8. The city and state (or city and country, in the case of non-U.S. auditors) from which the auditor's review report has been issued; and
9. The date of the review report.

**17.** The following example report illustrates the report elements described in this section.

### Report of Independent Registered Public Accounting Firm

*[Introductory paragraph—no exceptions to the exemption provisions included in the broker's or dealer's assertion]*

We have reviewed management's statements, included in the accompanying *[title of the exemption report]*, in which (1) Z Broker identified the following provisions of 17 C.F.R. § 15c3-3(k) under which Z Broker claimed an exemption from 17 C.F.R. § 240.15c3-3: (*fill in which exemption provision—(1), (2)(i)*,

---

<sup>12</sup> For purposes of this standard, the term "audit committee" has the same definition as that in Auditing Standard No. 16, *Communications with Audit Committees*.

(2)(ii), or (3)) (the "exemption provisions") and (2) Z Broker stated that Z Broker met the identified exemption provisions throughout the most recent fiscal year without exception. Z Broker's management is responsible for compliance with the exemption provisions and its statements.

*[Introductory paragraph—exceptions to the exemption provisions included in the broker's or dealer's assertion]*

We have reviewed management's statements, included in the accompanying [title of the exemption report], in which (1) Z Broker identified the following provisions of 17 C.F.R. § 15c3-3(k) under which Z Broker claimed an exemption from 17 C.F.R. § 240.15c3-3: ([fill in which exemption provision—(1), (2)(i), (2)(ii), or (3)]) (the "exemption provisions") and (2) Z Broker stated that Z Broker met the identified exemption provisions throughout the most recent fiscal year except as described in its exemption report. Z Broker's management is responsible for compliance with the exemption provisions and its statements.

*[Scope paragraph]*

Our review was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and, accordingly, included inquiries and other required procedures to obtain evidence about Z Broker's compliance with the exemption provisions. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on management's statements. Accordingly, we do not express such an opinion.

*[Review results paragraph]*

Based on our review, we are not aware of any material modifications that should be made to management's statements referred to above for them to be fairly stated, in all material respects, based on the provisions set forth in paragraph (k)([fill-in which exemption provision—(1), (2)(i), (2)(ii), or (3)]) of Rule 15c3-3 under the Securities Exchange Act of 1934.

*[Signature]*

*[City and State or Country]*

*[Date]*

## Review Report Date

**18.** The auditor should date the review report no earlier than the date on which the auditor has completed his or her review procedures.

Note: Because of the coordination between the review engagement and the audit of the financial statements and the audit procedures performed on supplemental information, the date of the review report should not be earlier than the date of the auditor's report on the financial statements and supplemental information.

## Modifications of the Report

**19.** If one or more of the broker's or dealer's assertions are not fairly stated, in all material respects, the auditor must modify the review report to describe the reasons the assertions are not fairly stated, in all material respects. If a broker's or dealer's assertion is not fairly stated, in all material respects, because of one or more omitted exceptions, the auditor's review report should disclose each omitted exception.

**20. *Scope Limitations.*** If the auditor cannot perform the procedures required by this standard or other procedures that the auditor deems necessary in the circumstances, the review is incomplete because of the scope limitation. An incomplete review is not a sufficient basis for stating a conclusion regarding the broker's or dealer's assertions. In those circumstances, the auditor should withdraw from the engagement or should modify the review report to:

- a. Describe the scope limitation and any review procedures deemed necessary by the auditor that have been omitted and the reason for their omission;
- b. State that the auditor does not express any form of assurance on the broker's or dealer's assertions; and, if applicable,
- c. Describe any circumstances that cause one or more of the broker's or dealer's assertions not to be fairly stated, in all material respects.

## Appendix 3

### Amendments to PCAOB Standards

#### Auditing Standards

##### Auditing Standard No. 3, "Audit Documentation"

Auditing Standard No. 3, "Audit Documentation," as amended, is amended as follows:

- a. The following is added at the end of footnote 2 in paragraph 6:  
In an engagement conducted pursuant to Attestation Standard No. 1, *Examination Engagements Regarding Compliance Reports of Brokers and Dealers*, or Attestation Standard No. 2, *Review Engagements Regarding Exemption Reports of Brokers and Dealers*, the relevant assertions are the assertions expressed by management or the responsible party regarding the subject matter of the attestation engagement. The documentation requirements in this standard regarding assertions apply to the aspects of the subject matter to which the assertions relate.
- b. The following note is added at the end of paragraph 12:  
Note: In an engagement conducted pursuant to Attestation Standard No. 1, *Examination Engagements Regarding Compliance Reports of Brokers and Dealers*, or Attestation Standard No. 2, *Review Engagements Regarding Exemption Reports of Brokers and Dealers*, significant findings or issues include, when applicable: (a) the assessment of, and the responses to, risks requiring special consideration by the auditor; (b) significant matters involving systems, processes, and controls to ensure the appropriateness of the subject matter and management's related assertions; and (c) the evaluation of identified instances of nonconformity with the evaluation criteria (e.g., errors, instances of non-compliance, or control deficiencies).
- c. The following note is added as the second note to paragraph 13:  
Note: When conducting an attestation engagement pursuant to Attestation Standard No. 1, *Examination Engagements Regarding Compliance Reports of Brokers and Dealers*, or Attestation Standard No. 2, *Review Engagements Regarding Exemption Reports of Brokers and Dealers*, the auditor may include the documentation of significant findings or issues related to the attestation engagement in the engagement completion document prepared in connection with the audit of the financial statements.

##### Auditing Standard No. 7, "Engagement Quality Review"

Auditing Standard No. 7, "Engagement Quality Review," is amended as follows:

- a. Paragraph 1 is replaced with:  
An engagement quality review and concurring approval of issuance are required for the following engagements conducted pursuant to the standards of the Public Company Accounting Oversight Board ("PCAOB"): (a) an audit engagement; (b) a review interim financial information; and (c) an attestation engagement performed pursuant to Attestation Standard No. 1, *Examination*

*Engagements Regarding Compliance Reports of Brokers and Dealers, or Attestation Standard No. 2, Review Engagements Regarding Exemption Reports of Brokers and Dealers.*

- b. Paragraph 18A. is added:

**Engagement Quality Review for an Attestation Engagement Performed Pursuant to Attestation Standard No. 1, Examination Engagements Regarding Compliance Reports of Brokers and Dealers, or Attestation Standard No. 2, Review Engagements Regarding Exemption Reports of Brokers and Dealers**

In an attestation engagement performed pursuant to Attestation Standard No. 1, *Examination Engagements Regarding Compliance Reports of Brokers and Dealers*, or Attestation Standard No. 2, *Review Engagements Regarding Exemption Reports of Brokers and Dealers*, the engagement quality reviewer should evaluate the significant judgments made by the engagement team and the related conclusions reached in forming the overall conclusion on the attestation engagement and in preparing the engagement report. To evaluate such judgments and conclusions, the engagement quality reviewer should, taking into account the procedures performed in the engagement quality review of the financial statement audit, (1) hold discussions with the engagement partner and other members of the engagement team, (2) read the engagement report and the document containing management's assertions, and (3) review the engagement completion document and other relevant documentation.

- c. Paragraph 18B. is added:

In an attestation engagement performed pursuant to Attestation Standard No. 1, *Examination Engagements Regarding Compliance Reports of Brokers and Dealers*, or Attestation Standard No. 2, *Review Engagements Regarding Exemption Reports of Brokers and Dealers*, the engagement quality reviewer may provide concurring approval of issuance only if, after performing with due professional care the review required by this standard, he or she is not aware of a significant engagement deficiency.

- d. The following note is added after paragraph 18B.:

Note: A *significant engagement deficiency* in an attestation engagement performed pursuant to Attestation Standard No. 1, *Examination Engagements Regarding Compliance Reports of Brokers and Dealers*, or Attestation Standard No. 2, *Review Engagements Regarding Exemption Reports of Brokers and Dealers*, exists when (1) the engagement team failed to perform attestation procedures necessary in the circumstances of the engagement, (2) the engagement team reached an inappropriate overall conclusion on the subject matter of the engagement, (3) the engagement report is not appropriate in the circumstances, or (4) the firm is not independent of its client.

- e. Paragraph 18C. is added:

In an attestation engagement performed pursuant to Attestation Standard No. 1, *Examination Engagements Regarding Compliance Reports of Brokers and Dealers*, or Attestation Standard No. 2, *Review Engagements Regarding Exemption Reports of Brokers and Dealers*, the firm may grant permission to the client to use the

engagement report only after the engagement quality reviewer provides concurring approval of issuance.

Auditing Standard No. 16, "Communications with Audit Committees"

Auditing Standard No. 16, "Communications with Audit Committees," is amended as follows:

- a. The following bullets are inserted after the third bullet in Appendix B:
  - Attestation Standard No. 1, *Examination Engagements Regarding Compliance Reports of Brokers and Dealers*, paragraphs 34 and 35.
  - Attestation Standard No. 2, *Review Engagements Regarding Exemption Reports of Brokers and Dealers*, paragraph 15.

## Attestation Standards

AT sec. 101, "Attestation Engagements"

AT sec. 101, "Attestation Engagements," as amended, is amended as follows:

- a. The following is added at the end of paragraph .04:
  - g. Engagements in which a practitioner is engaged to perform an examination of certain statements of a broker or dealer in a compliance report that is prepared pursuant to SEC Rule 17a-5. Such engagements must be conducted pursuant to Attestation Standard No. 1, *Examination Engagements Regarding Compliance Reports of Brokers and Dealers*.
  - h. Engagements in which a practitioner is engaged to perform a review of statements of a broker or dealer in an exemption report that is prepared pursuant to SEC Rule 17a-5. Such engagements must be conducted pursuant to Attestation Standard No. 2, *Review Engagements Regarding Exemption Reports of Brokers and Dealers*.

AT sec. 601, "Compliance Attestation"

AT sec. 601, "Compliance Attestation," is amended as follows:

- a. Within paragraph .02, subparagraph e. is replaced with:

Apply to examination engagements of brokers and dealers covered by Attestation Standard No. 1, *Examination Engagements Regarding Compliance Reports of Brokers and Dealers*.
- b. Footnote 2 to paragraph .02.e. is deleted.
- c. The last sentence of paragraph .06 is deleted.
- d. Paragraph .07 is replaced with:

When a practitioner is engaged to perform a review of statements made by a broker or dealer in an exemption report that is prepared pursuant to SEC Rule 17a-5, the practitioner must conduct the review engagement pursuant to Attestation Standard No. 2, *Review Engagements Regarding Exemption Reports of Brokers and Dealers*.

## Appendix 4

### Additional Discussion of the Attestation Standards

This appendix provides background information and additional detail regarding the attestation standards, *Examination Engagements Regarding Compliance Reports of Brokers and Dealers* (the "examination standard"), which is presented in Appendix 1, and *Review Engagements Regarding Exemption Reports of Brokers and Dealers* (the "review standard"), which is presented in Appendix 2 (collectively, the "attestation standards"). Additionally, this appendix discusses related amendments made to PCAOB standards, which are presented in Appendix 3.

Briefly, the attestation standards apply to examination engagements regarding compliance reports of brokers and dealers ("examination engagements") and review engagements regarding exemption reports of brokers<sup>1</sup> and dealers<sup>2</sup> ("review engagements") pursuant to U.S. Securities and Exchange Commission ("SEC" or "Commission") requirements contained in Rule 17 C.F.R. § 240.17a-5, *Reports to be made by certain brokers and dealers* ("SEC Rule 17a-5").<sup>3</sup>

In particular, this appendix discusses significant comments received and revisions made by the Board to the attestation standards and the related amendments in response to comments and to align the attestation standards with SEC Rule 17a-5.

#### I. Attestation Standard No. 1, *Examination Engagements Regarding Compliance Reports of Brokers and Dealers*

As discussed more fully below, the examination standard has been designed specifically for an auditor's examination of certain statements made by a broker or dealer in a compliance report required by SEC Rule 17a-5. As a result of amendments to SEC Rule 17a-5, certain brokers and dealers (e.g., those that maintain custody of customer funds) must file a compliance report with the Commission making statements regarding compliance with and controls over certain financial responsibility rules.<sup>4</sup> Specifically, SEC Rule 17a-5 also requires the broker or dealer to engage an independent public accountant registered with

---

<sup>1</sup> According to PCAOB Rule 1001(b)(iii), the term "broker" means a broker (as defined in Section 3(a)(4) of the Securities Exchange Act of 1934 ("Exchange Act")) that is required to file a balance sheet, income statement, or other financial statement under Section 17(e)(1)(A) of that Act, where such balance sheet, income statement, or financial statement is required to be certified by a registered public accounting firm.

<sup>2</sup> According to PCAOB Rule 1001(d)(iii), the term "dealer" means a dealer (as defined in Section 3(a)(5) of the Exchange Act) that is required to file a balance sheet, income statement, or other financial statement under Section 17(e)(1)(A) of that Act, where such balance sheet, income statement, or financial statement is required to be certified by a registered public accounting firm.

<sup>3</sup> See paragraphs (f)(1), (g)(2)(i) and (ii) of SEC Rule 17a-5. See also SEC Exchange Act Release No. 34-70073, *Broker-Dealer Reports* (July 30, 2013), 78 Federal Register 51910 (August 21, 2013) ("SEC Release"), for a complete description of the amendments to SEC Rule 17a-5.

<sup>4</sup> The examination standard and the SEC Release use the term "financial responsibility rules" to refer to 17 C.F.R. § 240.15c3-1 ("SEC Rule 15c3-1" or the "net capital rule"); 17 C.F.R. § 240.15c3-3 ("SEC Rule 15c3-3"); and 17 C.F.R. § 240.17a-13 ("SEC Rule 17a-13"); and any rule of the designated examining authority ("DEA") of the broker or dealer that requires account statements to be sent to the customers of the broker or dealer (an "account statement rule"). See the SEC Release at 8-9.

the PCAOB to examine, and independently report on, certain statements made by the broker or dealer in the compliance report.<sup>5</sup>

According to the Commission, the amendments to SEC Rule 17a-5 strengthen audit requirements for brokers and dealers as well as provide additional safeguards with respect to brokers' and dealers' custody of customers' assets.<sup>6</sup> Previously, audits of brokers and dealers were subject to generally accepted auditing standards ("GAAS") established by the American Institute of Certified Public Accountants ("AICPA"). The examination standard the Board is adopting has been designed to align with the requirements of SEC Rule 17a-5. The examination standard includes specific procedures for auditors performing examinations of certain statements required in a compliance report prepared by brokers and dealers as required under SEC Rule 17a-5. In the Board's view, this approach is consistent with the objectives of SEC oversight and is warranted in view of the importance of brokers' and dealers' compliance with the financial responsibility rules and to the protection of investors. In developing the standard, the Board has emphasized coordination with the financial statement audit and audit procedures performed on supplemental information. This approach should enhance overall audit effectiveness and also help avoid unnecessary duplication of work.

The following discussion provides background regarding the attestation standards, including significant comments received on the proposed standards and changes made to the standards.

## A. SEC Rule 17a-5 and Related Changes

SEC Rule 17a-5 requires a broker's or dealer's compliance report to include the following statements by the broker or dealer as to whether:<sup>7</sup>

- a. The Internal Control Over Compliance of the broker or dealer was effective during the most recent fiscal year;
- b. The Internal Control Over Compliance of the broker or dealer was effective as of the end of the most recent fiscal year;
- c. The broker or dealer was in compliance with the net capital rule and 17 C.F.R. § 240.15c3-3(e) (the "reserve requirements rule") as of the end of the most recent fiscal year; and
- d. The information the broker or dealer used to state whether it was in compliance with the net capital rule and the reserve requirements rule was derived from the books and records of the broker or dealer.

As noted above, SEC Rule 17a-5 also requires the broker or dealer to engage an independent public accountant registered with the PCAOB to examine, and independently report on, certain statements made by a broker or dealer in the compliance report. Neither the SEC Rule nor the examination standard require the auditor to opine on the broker's or dealer's process for arriving at the conclusions in the statements made in the compliance report.<sup>8</sup> Thus, the

---

<sup>5</sup> See paragraph (g)(2)(i) of SEC Rule 17a-5.

<sup>6</sup> See generally the SEC Release at 206-209.

<sup>7</sup> See paragraph (d)(3)(i)(A) of SEC Rule 17a-5. SEC Rule 17a-5 also requires the compliance report to contain a statement as to whether the broker or dealer has established and maintained Internal Control Over Compliance. However, the auditor is not required by SEC Rule 17a-5 to examine and report on that statement.

<sup>8</sup> See the SEC Release at 38 and the second note to paragraph 5 of the examination standard.

auditor need not opine on the evaluation procedures that a broker or dealer may have performed in order make the statements in the compliance report.

As amended by the Commission, SEC Rule 17a-5 includes modifications from the SEC's proposed amendments,<sup>9</sup> including changes that are reflected in the examination standard. Amendments made to SEC Rule 17a-5 included narrowing the scope of the compliance assertion,<sup>10</sup> eliminating the concepts of "material noncompliance" and "compliance in all material respects;" and requiring the auditor to opine on Internal Control Over Compliance as of the end of the fiscal year, as well as during the fiscal year.<sup>11</sup>

The Commission's narrowing of the scope of the compliance assertion and changes to the evaluation of Internal Control Over Compliance affected the scope of the examination procedures required to be performed by the auditor and the auditor's report, and therefore resulted in conforming changes to the final examination standard. These and other modifications to the examination standard are discussed further below.

### *1. Changes to the Examination Standard to Align with SEC Rule 17a-5*

The proposed examination standard was designed specifically for the examination of the compliance report required by the proposed amendments to SEC Rule 17a-5. As noted earlier, the examination standard reflects conforming changes based on the Commission's revision of its amendments to SEC Rule 17a-5 in the following areas: narrowing the scope of the compliance assertion; eliminating the concepts of "material non-compliance" and "compliance in all material respects;" and requiring the auditor to opine on Internal Control Over Compliance as of the end of the fiscal year, as well as during the fiscal year.

### *2. Changes to the Scope of the Compliance Assertion*

The SEC's Adopting Release states:

[T]he final rule [SEC Rule 17a-5] requires a statement as to whether the broker-dealer was in compliance with Rule 15c3-1 and paragraph (e) of Rule 15c3-3 as of the end of the most recent fiscal year and, if applicable, a description of any instances of non-compliance with these rules as of the fiscal year end. This is a modification from the proposed assertion that the broker-dealer is in compliance with the financial responsibility rules in all material respects and proposed description of any material noncompliance with the financial responsibility rules. Thus, the final rule reflects two changes from the proposal: (1) elimination of the concepts of "material non-compliance" and "compliance in all material respects" for the purposes of reporting in the compliance report; and (2) a narrowing of these statements and requirements from compliance with all of the financial responsibility rules to compliance with Rule 15c3-1 and paragraph (e) of Rule 15c3-3.<sup>12</sup>

---

<sup>9</sup> See SEC Exchange Act Release No. 34-64676, *Broker-Dealer Reports* (June 15, 2011), 76 Federal Register 37572 (June 27, 2011) ("SEC Proposing Release").

<sup>10</sup> These standards use the term "assertion" to refer to the broker's or dealer's statements that are covered by the examination and review. In the examination standard, the term "assertion" also distinguishes the portion of the statements in the broker's or dealer's compliance report that are covered by the examination.

<sup>11</sup> See paragraph (d)(3)(ii) of SEC Rule 17a-5, which states that the term "Internal Control Over Compliance" means internal controls that have the objective of providing the broker or dealer with reasonable assurance that non-compliance with §§240.15c3-1, 240.15c3-3, 240.17a-13, or any rule of the designated examining authority of the broker or dealer that requires account statements to be sent to the customers of the broker or dealer will be prevented or detected on a timely basis.

<sup>12</sup> See the SEC Release at 32.

The narrowing of the scope of the broker's or dealer's assertion to include only compliance with the net capital rule and reserve requirements rule resulted in several changes to the performance and reporting requirements in the examination standard. As the final rule limits the broker's or dealer's assertion regarding compliance to SEC Rule 15c3-1 and paragraph (e) of SEC Rule 15c3-3, the examination standard requires tests of compliance tailored to compliance with the net capital rule and the reserve requirements rule.

Because the broker's or dealer's assertion relates to compliance with the net capital rule rather than compliance "in all material respects," the concept of material non-compliance has been removed from the provisions of the examination standard regarding testing compliance. Also, the auditor cannot opine that a broker's or dealer's assertion that it is in compliance with the net capital rule and reserve requirements rule is fairly stated, in all material respects, if one or more instances of non-compliance with either the net capital rule or reserve requirements rule exist as of the end of the most recent fiscal year.

The specific performance and reporting requirements are discussed in more detail later in this release.

### *3. Materiality Considerations*

As discussed previously, the SEC's elimination of the concepts of "material non-compliance" and "compliance in all material respects" from the provisions of SEC Rule 17a-5 related to asserting compliance has been carried over to the examination standard, which no longer refers to "material non-compliance" or the "risk of material non-compliance." However, most of the procedures set forth in the proposal for assessing the risks of material non-compliance have been retained in paragraph 9 of the examination standard as planning procedures because they remain relevant for determining the necessary nature, timing, and extent of procedures to be performed in the examination.

Also, consistent with SEC Rule 17a-5, the examination standard retains the concept of a Material Weakness in Internal Control Over Compliance, and the requirements regarding performing procedures to determine whether Material Weaknesses exist in Internal Control Over Compliance.

The concept of materiality also remains relevant when evaluating whether the information the broker or dealer used to assert compliance with the net capital rule and reserve requirements rule is derived from the broker's or dealer's books and records, is fairly stated, in all material respects. The concept of materiality as applied to this assertion is discussed further in the section on evaluating results later in this release.

The Board received a number of comments on the proposed examination standard that are no longer applicable given the narrowing of the scope of the compliance assertion. These comments included requests for additional guidance related to the determination of material non-compliance and requests for specific examples regarding the consideration of qualitative and quantitative factors in the context of each of the rules included in the compliance assertion, as well as matters within each of those rules that the PCAOB considers to be most significant to compliance.

### *4. Evaluating Internal Control Over Compliance During the Fiscal Year and as of the End of the Fiscal Year*

The SEC Release states that SEC Rule 17a-5 requires that the compliance report contain, among other things, statements as to whether (1) the broker or dealer has established and maintained Internal Control Over Compliance, (2) the Internal Control Over Compliance of the broker or dealer was effective

during the most recent fiscal year, and (3) the Internal Control Over Compliance of the broker or dealer was effective as of the end of the most recent fiscal year.<sup>13</sup>

To align with SEC Rule 17a-5, the examination standard requires the auditor to express an opinion regarding whether the specified assertions made by the broker or dealer in its compliance report are fairly stated, in all material respects, including whether the broker's or dealer's Internal Control Over Compliance was effective during *and* as of the end of the most recent fiscal year. This change from the proposed SEC Rule 17a-5 resulted in conforming changes to the examination standard relating to the requirements for testing controls and the scope of the examination report. For example, the examination standard addresses the effect of changes in controls on the auditor's testing.

Further, Appendix A to the examination standard defines certain terms used in the examination standard, including "Internal Control Over Compliance," "Deficiency in Internal Control Over Compliance," and "Material Weakness." The definitions of these terms in the examination standard are consistent with the definitions of these terms in SEC Rule 17a-5.

## **B. Performing the Examination Engagement (paragraphs 6–33 of Appendix 1)**

### *1. General Requirements (paragraphs 6–7 of Appendix 1)*

The examination standard retains the general requirements as proposed. These requirements are consistent with AT sec. 101, *Attest Engagements*. Briefly, paragraph 6 of the examination standard sets forth general requirements for an auditor performing an engagement pursuant to the examination standard. Paragraph 6 requires that an auditor: have adequate technical proficiency in attestation engagements; obtain an understanding of the financial responsibility rules and other rules and regulations that are relevant to the broker's or dealer's assertions; determine the auditor's compliance with independence and ethics requirements;<sup>14</sup> and exercise due professional care.

Some commenters stated that the general requirements in the examination engagement were sufficiently clear as proposed. One commenter recommended that the examination standard specify the level of understanding of the financial responsibility rules that auditors are expected to have. The commenter also recommended deleting the reference to "other rules and regulations that are relevant to the broker's or dealer's assertions," asserting that the requirement is too broad to allow auditors to identify suitable criteria and express an opinion on management's assertion. Additionally, that commenter recommended that the examination standard specify how the auditor's understanding of the financial responsibility rules should be documented.

The requirement for the auditor to obtain an understanding of the financial responsibility rules is similar to an existing requirement in AT sec. 101, which includes a requirement for the engagement to be performed by an auditor "having adequate knowledge of the subject matter."<sup>15</sup> In addition, understanding the requirements in other rules and regulations is important to enable the auditor to form conclusions on the broker's or dealer's assertions, as well as aiding the

---

<sup>13</sup> See the SEC Release at 29-30.

<sup>14</sup> Determining the auditor's compliance with independence and ethics requirements includes determining that the auditor complied with relevant requirements of the PCAOB and the SEC. Paragraph (f)(1) of SEC Rule 17a-5 requires the auditor to be independent in accordance with 17 C.F.R. § 210.2-01.

<sup>15</sup> See AT sec. 101.21.

auditor's own compliance with the requirements in the examination standard and SEC Rule 17a-5. For example, paragraph (h) of SEC Rule 17a-5 requires a broker or dealer to provide notification to the Commission and other securities regulators when the auditor notifies the broker or dealer that the auditor has determined that the broker or dealer is not in compliance with SEC Rule 15c3-1 as required by SEC Rule 17a-11, *Notification Provisions for Brokers and Dealers*. In addition to the financial responsibility rules, it is of course important that the auditor understands the requirements of SEC Rule 17a-5, including the notification requirements when an instance of non-compliance is identified. As such, the requirement was retained substantially as proposed.

With respect to documentation, the attestation engagements are subject to the requirements of Auditing Standard No. 3, *Audit Documentation*, which applies to engagements conducted pursuant to the standards of the PCAOB. Auditing Standard No. 3 states that as audit documentation is the written record that provides the support for the representations in the auditor's report, it should demonstrate that the engagement complied with the standards of the PCAOB.<sup>16</sup> Further, as there are potentially a variety of ways for the auditor to document their understanding of the financial responsibility rules and other rules and regulations, the examination standard does not prescribe any specific manner to do so. A note has been added to paragraph 6 of the examination standard to remind auditors of their responsibility to comply with Auditing Standard No. 3.

The proposed examination standard included a footnote which stated that "due professional care" referred to in that paragraph was the same term in paragraph .40 of AT sec. 101. One commenter stated that while the commenter did not disagree with the meaning of "due professional care," referencing AT sec. 101 from the examination standard may be confusing, especially as AT sec. 101 would not be applicable to engagements in which the examination standard is applicable. In the examination standard, a note has been added to state that due professional care imposes a responsibility on each engagement team member to comply with the examination standard and that the exercise of due professional care requires critical review at every level of supervision of the work done and the judgment exercised by those assisting in the engagement, including the preparation of the report. A footnote to that note states that the auditor's responsibility to exercise due professional care is consistent with the description in paragraphs .40-.41 of AT sec. 101.

The Board did not receive other significant comments on the general requirements of the proposed examination standard. As such, the general requirements are being adopted substantially as proposed.

## *2. Relationship Between the Examination Engagement and the Audit of the Financial Statements and Audit Procedures Performed on Supplemental Information (paragraph 8 of Appendix 1)*

By its terms, SEC Rule 17a-5 requires the financial statement audit and the compliance examination to be performed by the same auditor.<sup>17</sup> Accordingly, the examination standard includes a requirement for the auditor to coordinate the examination engagement with the audit of the financial statements and the audit procedures performed on supplemental information. The emphasis on appropriately coordinating the examination engagement with the audit of the financial statements and the audit procedures performed on supplemental

---

<sup>16</sup> See paragraph 4 of Auditing Standard No. 3.

<sup>17</sup> See paragraph (g) of SEC Rule 17a-5.

information should promote overall audit effectiveness and avoid redundancy in the auditor's work.

For example, the examination standard includes a requirement for the auditor to take into account evidence from the audit of the financial statements in planning and performing procedures for the examination engagement and in evaluating the results of the procedures performed in the examination. This enables the auditor to plan, perform, and evaluate the results of the examination engagement concurrent with the audit of the financial statements because the examination standard is structured similarly to, and contains many of the same concepts included in, auditing standards related to the auditor's assessment of and response to risk.<sup>18</sup>

The proposing release requested comments on other ways the Board could promote coordination of the examination engagement with the audit of the financial statements and the audit procedures performed on supplemental information. Commenters generally stated that requirements regarding the coordination of the examination engagement with the audit of the financial statements were appropriate.

One commenter stated that the Board should require the auditor of the financial statements to perform the examination engagement and issue the examination report. As noted previously, SEC Rule 17a-5 includes this requirement.<sup>19</sup> Thus, the attestation standards do not include specific requirements for performing the examination or review if the auditor did not audit the financial statements.

Another commenter stated that it is inappropriate to require that the auditor plan and perform the work to meet the objectives of both the examination engagement and the financial statement audit, and that the auditor's obligation under the examination standard is to meet the objectives of the examination engagement. The language in the standard was retained as proposed. The auditor should plan and perform the work to meet the objectives of both the examination engagement as well as the financial statement audit. Existing auditing standards require the auditor to properly plan and perform the financial statement audit.<sup>20</sup> Since the objectives are not identical, the auditor must plan and perform the work to achieve the objectives of both engagements. Further, the examination standard does require the auditor to take into account the evidence obtained and the results of procedures performed during the audit of the financial statements and the audit procedures performed on the supplemental information in planning and performing procedures for the examination engagement and in evaluating the results of the procedures performed in the examination engagement.

### *3. Consideration of Fraud (paragraph 10 of Appendix 1)*

The auditor's consideration of fraud is an important part of the examination engagement. Fraud risks particularly relevant to a broker's or dealer's non-compliance with the financial responsibility rules include the risk of misappropriation of customer funds or securities held for customers and intentional manipulation of the books and records to conceal material misappropriations or other non-compliance. The SEC Release notes that the amendments to SEC Rule 17a-5, which include requiring the examination and review engagements, are designed to provide additional safeguards with respect to broker and dealer custody of customer securities and funds.<sup>21</sup>

---

<sup>18</sup> See generally, Auditing Standards Nos. 8-15.

<sup>19</sup> See paragraph (g) of SEC Rule 17a-5.

<sup>20</sup> See Auditing Standard No. 9, *Audit Planning*.

<sup>21</sup> See the SEC Release at 206.

Paragraph 10 of the examination standard includes a requirement for the auditor to assess the risk of fraud, and specifically refers to the risk of misappropriation of customer assets, which is relevant to compliance with the net capital rule and the reserve requirements rule, as well as the broker's or dealer's Internal Control Over Compliance.

The requirement to coordinate the examination engagement with the audit of the financial statements and audit procedures performed on supplemental information is also important for the proper assessment of fraud risk in the examination engagement. The auditor's assessment of fraud risk in the examination engagement will be informed to a substantial degree by the procedures performed and the fraud risk assessments in the audit of the financial statements and audit procedures performed on supplemental information. Many of the fraud risk factors identified in the financial statement audit regarding (1) incentives or pressures to misappropriate assets or commit fraudulent financial reporting, and (2) attitudes and rationalizations that justify such fraudulent actions,<sup>22</sup> are relevant when identifying and assessing risks of misappropriation of customer assets or intentional manipulation of the books and records to conceal misappropriation of customer assets or non-compliance with the financial responsibility rules. Also, weaknesses in controls regarding safeguarding of assets or stock records can result in opportunities for misappropriation of customer assets or non-compliance. In addition, the evaluation of misstatements for indications of fraud or matters identified during the audit that might affect the assessment of fraud risks in the audit of the financial statements also might affect the assessment of fraud risks in the examination engagement.<sup>23</sup>

Paragraph 9.d. of the examination standard includes a requirement for the auditor to assess the risks associated with related parties, including related parties that are investment advisors or entities with which the broker or dealer has a custodial or clearing relationship, that are relevant to compliance and controls over compliance. Given the nature of the transactions with related parties that are investment advisors or entities with which the broker or dealer has a custodial or clearing relationship, they are particularly relevant to the auditor's consideration of the risks associated with related parties in the examination engagement and in considering both the broker's or dealer's assertions related to Internal Control Over Compliance, as well as to the broker's or dealer's assertion related to compliance with the net capital rule and the reserve requirements rule.

Likewise, paragraph 9.j. of the examination standard includes a requirement for the auditor to obtain an understanding of the nature and frequency of customer complaints that are relevant to compliance with the financial responsibility rules, which can provide evidence relevant to the assessment of fraud risks, especially if there is a high incidence of customer complaints, thematic issues in the complaints that indicate the potential for misappropriation of customer assets, or specific allegations of fraud or misfeasance by the broker's or dealer's customers.

Other paragraphs in the examination standard address the auditor's responsibilities for responding to fraud risks. For example, paragraph 22 of the examination standard retains an important requirement from the proposed examination standard for the auditor to perform compliance tests that are responsive

---

<sup>22</sup> See paragraphs 65-66 of Auditing Standard No. 12, *Identifying and Assessing Risks of Material Misstatement*, and paragraph 85 of AU sec. 316, *Consideration of Fraud in a Financial Statement Audit*.

<sup>23</sup> See paragraphs 19-22, 28-29 and Appendix C of Auditing Standard No. 14, *Evaluating Audit Results*.

to risks, including fraud risks. Also, paragraph 23 of the examination standard retains from the proposal the requirement for the auditor to perform procedures to obtain evidence about the existence of customer funds or securities held for customers. This is an important responsibility in an audit of a broker or dealer that has access to customer assets. It affects compliance with the net capital rule and the reserve requirements rule, and it has the potential to result in contingent liability to the broker or dealer that requires recognition or disclosure in the financial statements.

Because the examination standard requires the auditor to perform tests that are responsive to fraud risks, the nature, timing, and extent of procedures to obtain evidence about the existence of assets held for customers should be commensurate with the risk of misappropriation of customer assets. Determining the necessary procedures involves considering relevant risk factors, including, but not limited to, the amount of cash and securities held for customers and the results of testing and evaluation of the relevant controls. Examples of procedures that provide evidence about the existence of customer assets include (1) counting customer securities or observing and testing the broker's or dealer's procedures for physical inspection and (2) confirming customer security positions directly with depositories and clearing organizations. Procedures performed in the audit of the financial statements and the audit procedures performed on supplemental information to test the existence of assets held for customers also provide relevant evidence in the examination engagement.

The Board requested comment regarding whether specific requirements should be added to either of the proposed attestation standards to further enhance protection of customer assets. One commenter stated that generally the attestation standards are adequate to enhance protection of customer assets. Another commenter stated that the principles in the examination standard for performing compliance tests are sufficiently clear.

One commenter recommended that the Board clarify the extent and timing of procedures included as examples in paragraph 26 of the proposed examination standard regarding procedures that provide evidence about the existence of customer assets. The examination standard requires the auditor to perform procedures to obtain evidence of customer funds or securities held for customers, but the standard does not prescribe specific procedures for the auditor to perform to obtain such evidence. The procedures included in the note to paragraph 23 of the examination standard are examples of procedures that the auditor might perform to obtain such evidence. The necessary extent and timing of those procedures depends on, among other things, the complexity of the operations of the broker's or dealer's business, the nature of carrying and clearing arrangements, and the design and effectiveness of controls related to the existence assertion. As such, the examination standard has not been changed to reflect this comment.

#### *4. Testing Controls over Compliance (paragraphs 11–20 of Appendix 1)*

SEC Rule 17a-5 requires the broker's or dealer's compliance report to include an assertion regarding the effectiveness of Internal Control Over Compliance during the most recent fiscal year and as of the end of the fiscal year.<sup>24</sup> Accordingly, the examination standard requires the auditor to obtain evidence about the design and operating effectiveness of relevant controls over compliance throughout the fiscal year and as of the end of the fiscal year.

---

<sup>24</sup> See paragraphs (d)(3)(i)(A)(2) and (3) of SEC Rule 17a-5, which requires the broker or dealer to assert on the effectiveness of its Internal Control Over Compliance with the financial responsibility rules throughout the fiscal year and as of the end of the most recent fiscal year.

The examination standard requires the auditor to test those controls that are important to the auditor's conclusion about whether the broker or dealer maintained effective Internal Control Over Compliance for each financial responsibility rule during the fiscal year and as of the end of the fiscal year. The examination standard also requires the auditor to obtain evidence that the controls over compliance selected for testing are designed effectively and operated effectively during the fiscal year and as of the fiscal year end.<sup>25</sup>

As the broker's or dealer's assertion regarding Internal Control Over Compliance relates to each financial responsibility rule individually, the auditor should obtain evidence about the effectiveness of the selected controls for each financial responsibility rule. However, when testing controls over compliance, the auditor's objective is not to support an opinion about the effectiveness of each individual control, rather, the objective is to form an opinion about whether the broker's or dealer's assertions regarding Internal Control Over Compliance are fairly stated, in all material respects. This allows the auditor to focus his or her effort on the controls that are important to each of the financial responsibility rules and to vary the level of evidence obtained regarding the effectiveness of individual controls selected for testing based on the risk associated with the individual control.

One commenter recommended that the examination standard include guidance regarding the identification of controls important to the auditor's conclusion about whether the broker or dealer maintained effective internal controls over compliance for each financial responsibility rule. As the financial responsibility rules outline the requirements necessary to be in compliance, the auditor can identify the controls for testing by understanding the controls the broker or dealer has implemented to assure compliance with the respective requirements.

Additionally, the examination standard identifies certain factors that affect the risk associated with a control. One factor included in paragraph 13 is the broker's or dealer's history of instances of non-compliance with the financial responsibilities rules that the control is intended to prevent or detect. A recent history of non-compliance generally indicates higher risk associated with the control. Factors that affect the risk associated with a control include, but are not limited to, those described in paragraph 13 of the examination standard.

Another factor included in paragraph 13 includes the extent of use of part-time personnel. Some commenters stated that they did not agree that the use of part-time personnel is a factor that affects the risk associated with a control. Those commenters stated that this risk factor is incorporated in another risk factor regarding the competence of the personnel who perform the control or monitor its performance. One commenter stated that, in their opinion, it would be more appropriate to evaluate the competence and objectivity of personnel executing the controls and their knowledge of the financial responsibility rules.

In considering these comments, the Board took into account the SEC's June 2007 compliance alert,<sup>26</sup> which noted that SEC examinations found that many part-time financial and operational principals did not actually supervise or create and maintain various books and records. In light of risks illustrated in the SEC compliance alert, the use of part-time personnel has been retained

---

<sup>25</sup> See paragraphs (d)(3)(i)(A)(2) and (3) of SEC Rule 17a-5, which requires the broker or dealer to assert on the effectiveness of its Internal Control Over Compliance throughout the fiscal year and as of the broker's or dealer's fiscal year end. See also paragraphs (d)(3)(i)(B) and (C) of SEC Rule 17a-5, which require the broker or dealer to describe each material weakness in Internal Control Over Compliance and any instance of non-compliance with the net capital rule or reserve requirements rule.

<sup>26</sup> See Compliance Alert, June 2007, available at <http://www.sec.gov/about/offices/ocie/complialert.htm>.

in the examination standard as a risk factor for the auditor to consider when testing internal controls over compliance. The auditor's understanding of the role and responsibilities of the part-time personnel is important to evaluating the associated risks.

Paragraphs 14-18 of the examination standard provide requirements for the auditor to test the design and operating effectiveness of the selected controls over compliance. These requirements for testing design and operating effectiveness of controls over compliance are analogous to the requirements for testing controls in Auditing Standard No. 13, *The Auditor's Responses to the Risks of Material Misstatement*.

Under the examination standard, the auditor should obtain evidence about the effectiveness of controls each year. Similar to testing controls in a financial statement audit, the examination standard provides factors for the auditor to take into account if the auditor plans to use evidence obtained in prior years in determining the extent of testing in the current year.

One commenter recommended that paragraph 16 of the proposed examination standard, which stated "[a]s the risk associated with the control being tested increases, the evidence that the auditor should obtain also increases," be replaced with paragraph 18 of Auditing Standard No. 13, which states that [t]he auditor should obtain more persuasive audit evidence. . . . The suggested revision is consistent with the intent of the requirement, so it has been included in paragraph 12 of the examination standard. This change will focus the auditor on the persuasiveness of audit evidence, rather than quantity, and avoid unnecessary differences between the examination standard and the auditing standards. Similar changes are reflected in paragraphs 22 and 24 of the examination standard.

Paragraphs 19 and 20 of the examination standard describe the auditor's use of evidence obtained in past examination engagements and using tests of controls that are modified during the year. One commenter suggested that as changes to controls occur throughout the period, the examination standard should require the auditor to determine with management what types of changes could materially affect control effectiveness. That commenter stated that the auditor should then test and evaluate management's documentation of the changes to controls and perform procedures to test the broker's or dealer's implementation of that change. SEC Rule 17a-5 requires that the broker or dealer assert that its controls were effective during the most recent fiscal year. As stated in the examination standard, to evaluate controls over compliance throughout the period, the auditor should obtain evidence regarding the design effectiveness of the selected controls before and after the change. Further, the examination standard also requires that, if a broker or dealer makes changes to its policies and procedures or key personnel during the fiscal year, the auditor should obtain an understanding of the reason for the change and obtain evidence regarding the design and operating effectiveness of the superseded and new controls before and after the change.

One commenter stated that the phrase within paragraph 20 of the proposed examination standard which stated, "whether each control is operating as designed" might be confusing and recommended revising the paragraph to state "each control selected for testing." The suggested revision is consistent with the intent of the requirement, so it has been included in paragraph 16 of the examination standard.

##### *5. Performing Compliance Tests (paragraphs 21–24 of Appendix 1)*

Paragraphs 21-24 set forth requirements for performing tests of compliance with the net capital rule and reserve requirements rule.

With respect to compliance tests, the auditor's objective is to form a conclusion about whether the broker's or dealer's assertion regarding compliance with the net capital rule and the reserve requirements rule is fairly stated, in all material respects. To satisfy this objective, the examination standard requires the auditor to perform procedures that are sufficient to support the auditor's conclusions regarding whether the broker or dealer was in compliance with the net capital rule and reserve requirements rule as of the end of its most recent fiscal year.

The examination standard requires the auditor to perform specific procedures on the schedules the broker or dealer used to determine compliance with the net capital rule and the reserve requirements rule as of the end of its fiscal year, including:

- a. Evaluating whether the amounts in the schedule were determined in accordance with the net capital rule or reserve requirements rule, as applicable;
- b. Testing the accuracy and completeness of the information in the schedule;
- c. Determining whether the broker or dealer maintained the required level of net capital in accordance with the net capital rule;
- d. Determining whether the broker or dealer maintained a special reserve bank account for the exclusive benefit of customers and deposited funds in at least the required amount in accordance with the reserve requirements rule;
- e. Determining whether the information in the schedule was derived from the books and records of the broker or dealer; and
- f. Determining whether the broker or dealer made the notifications, if any, required by the net capital rule and reserve requirements rule as of the end of the most recent fiscal year.

Paragraph 21.e. of the examination standard requires the auditor to perform procedures to determine whether the information used to assert compliance with the net capital rule and the reserve requirements rule was derived from the broker's or dealer's books and records. Proper coordination of these procedures with the audit of the financial statements and audit procedures performed on supplemental information should allow the auditor to avoid redundancy in the auditor's work and increase the effectiveness of the procedures performed. For example, Auditing Standard No. 17, *Auditing Supplemental Information Accompanying Audited Financial Statements*, includes a requirement for the auditor to determine that the supplemental information reconciles to the underlying accounting and other records or to the financial statements themselves, as applicable. Such supplemental information includes the supporting schedules that brokers or dealers are required to include in their financial reports pursuant to SEC Rule 17a-5.<sup>27</sup>

To test compliance pursuant to paragraph 21, the auditor will need to design his or her procedures to test the provisions of the net capital rule and reserve requirements rule that have a bearing on the broker's or dealer's compliance with that rule. For example, the current requirements in the net capital rule generally include:

- a. The requirement to maintain minimum net capital and tentative net capital, as applicable, at all times.<sup>28</sup>

---

<sup>27</sup> See paragraph (d)(2) of SEC Rule 17a-5.

<sup>28</sup> See paragraph (a) of 17 C.F.R. § 240.15c3-1.

- b. The requirement for certain brokers or dealers not to let a specified amount of certain accounts it carries exceed a specified threshold for more than five business days.<sup>29</sup>
- c. The requirement for brokers or dealers carrying accounts of listed options specialists not to let the amount of certain deductions required under Appendix A of the net capital rule to exceed a specified threshold for more than three business days.<sup>30</sup>
- d. The notification requirement relating to paragraph (c)(2)(x)(C) of the net capital rule.<sup>31</sup>
- e. The requirement for brokers or dealers carrying accounts of listed options specialists to liquidate accounts when a liquidating deficit exists which includes a notice requirement.<sup>32</sup>
- f. The requirement that the total of outstanding principal amounts of satisfactory subordination agreements cannot exceed 70% of the broker's or dealer's debt-equity total for a period in excess of 90 days.<sup>33</sup>
- g. The notification requirements relating to withdrawals of equity capital.<sup>34</sup>
- h. The limitations on withdrawal of equity capital.<sup>35</sup>
- i. The requirements regarding temporary restrictions on net capital withdrawals.<sup>36</sup>

Other provisions of the rule also may apply depending on the particular activities or elections of the broker or dealer. Auditors should look to the requirements of the individual rules in order to test compliance.<sup>37</sup>

The requirements for testing compliance with the net capital rule and the reserve requirements rule should facilitate the coordination of the examination engagement and the audit procedures performed on supplemental information. The compliance procedures, if properly planned and performed, should provide substantial evidence to satisfy the requirements of Auditing Standard No. 17.

As discussed earlier, in view of the amendments to SEC Rule 17a-5 adopted by the Commission, the examination standard was revised to more closely align the auditor's performance requirements with the scope of the compliance assertion in SEC Rule 17a-5. It is appropriate to include specific procedures the auditor should perform on the schedules the broker or dealer used to determine compliance with the net capital rule and the reserve requirements rule as of the end of its fiscal year.

In addition to those procedures that the auditor would perform on the broker's or dealer's schedules when planning and performing compliance tests, the auditor should take into account the evidence obtained from procedures performed as part of the audit of the financial statements and the audit procedures performed

---

<sup>29</sup> See paragraph (a)(6)(v) of 17 C.F.R. § 240.15c3-1.

<sup>30</sup> See paragraph (c)(2)(x)(C) of 17 C.F.R. § 240.15c3-1.

<sup>31</sup> See paragraph (c)(2)(x)(C)(1) of 17 C.F.R. § 240.15c3-1.

<sup>32</sup> See paragraph (c)(2)(x)(D) of 17 C.F.R. § 240.15c3-1.

<sup>33</sup> See paragraph (d) of 17 C.F.R. § 240.15c3-1.

<sup>34</sup> See paragraph (e)(1) of 17 C.F.R. § 240.15c3-1.

<sup>35</sup> See paragraph (e)(2) of 17 C.F.R. § 240.15c3-1.

<sup>36</sup> See paragraph (e)(3) of 17 C.F.R. § 240.15c3-1.

<sup>37</sup> See paragraph 6.b. of the examination standard, which requires the auditor to obtain an understanding of the financial responsibility rules and other rules and regulations that are relevant to the broker's or dealer's assertions.

on supplemental information. For example, certain audit procedures performed to test the valuation and classification of the broker's or dealer's investments as of the end of the fiscal year may provide relevant evidence regarding the broker's or dealer's compliance with the net capital rule. Further, when testing the broker's or dealer's cash and cash equivalents, certain audit procedures may provide evidence regarding the existence of special reserve bank accounts for the exclusive benefit of customers, as well as evidence about the deposits to, and withdrawals from, those bank accounts. Such evidence may be relevant to the broker's or dealer's compliance with the reserve requirements rule. However, as the objectives of the audit and the examination engagement are not the same, the auditor must plan and perform the work to meet the objectives of both engagements.

*6. Evaluating the Results of the Examination Procedures (paragraphs 25–29 of Appendix 1)*

Paragraph 25 of the examination standard states that in forming an opinion on whether the assertions made by the broker or dealer in the compliance report are fairly stated, in all material respects, the auditor should evaluate all evidence obtained, regardless of whether the evidence corroborates or contradicts the broker's or dealer's assertions. Paragraph 26 of the examination standard provides that the auditor should evaluate: (1) identified instances of non-compliance<sup>38</sup> with the net capital rule and reserve requirements rule, to determine whether any instances of non-compliance existed as of the end of the most recent fiscal year; (2) identified instances in which the information used to assert compliance with the net capital rule or the reserve requirements rule was not derived from the broker's or dealer's books and records to determine whether they are material, individually or in combination; and (3) identified Deficiencies in Internal Control Over Compliance to determine whether the deficiencies, individually or in combination, are Material Weaknesses. Identified instances of noncompliance might be an indication of a Deficiency in Internal Control Over Compliance.

The auditor's evaluation of the materiality of instances in which the information used to assert compliance with the net capital rule or the reserve requirements rule was not derived from the broker's or dealer's books and records is based on relevant quantitative and qualitative factors, including, in particular, the importance of the information not derived from the books and records to the broker's or dealer's compliance with the corresponding requirement in the net capital rule or the reserve requirements rule. For example, when a broker or dealer asserts that the information used to state whether it was in compliance with the net capital rule was derived from its books and records, and the auditor identifies an amount not derived from a broker's or dealer's books and records, the broker or dealer may still be able to support its assertion that it maintained the required net capital using information that was derived from the books and records of the broker or dealer. However, such an instance might be an indication of a Deficiency in Internal Control Over Compliance.

Paragraph 28 of the examination standard applies when the auditor has not obtained sufficient appropriate evidence about an assertion or has substantial doubt about an assertion. Pursuant to paragraph 28, the auditor in those

---

<sup>38</sup> In evaluating the results of compliance testing, an error in a broker's or dealer's computation used to determine compliance with a provision of the net capital rule or reserve requirements rule is not an instance of non-compliance if, after giving consideration to the effect of the error, the broker or dealer still met the requirements of that provision, e.g., maintained at least the required minimum level or net capital or at least the minimum level on deposit in the special reserve account. However, such an instance might be an indication of a Deficiency in Internal Control Over Compliance that requires evaluation pursuant to this standard.

situations is required to perform additional procedures to address the matter. Performing the examination with due professional care requires an auditor conducting an examination to take appropriate actions when becoming aware of non-compliance or Material Weaknesses not included in the broker's or dealer's assertions or when substantial doubt remains. This requirement is similar to the requirement in paragraph 35 of Auditing Standard No. 14, which states that if the auditor has not obtained sufficient appropriate audit evidence about a relevant assertion or has substantial doubt about a relevant assertion, the auditor should perform procedures to obtain further audit evidence to address the matter.

#### *7. Obtaining a Representation Letter (paragraphs 32–33 of Appendix 1)*

The examination standard includes a requirement for the auditor to obtain written representations from management of the broker or dealer. The failure to obtain written representations from management, including management's refusal to furnish them, constitutes a limitation on the scope of the examination engagement. See Section I.D. of this appendix, "Reporting on the Examination Engagement," for further discussion regarding scope limitations.

Overall, commenters were supportive of the requirement for the auditor to obtain representations from management and stated that obtaining representations from management is a necessary part of the auditor's ability to support the auditor's opinion. One commenter recommended that the auditor obtain a written representation from the broker or dealer that acknowledges the broker's or dealer's responsibility for the assertions in the compliance report. This recommendation has been incorporated into paragraph 32.b. of the examination standard.

Commenters suggested additional representations that the auditor should obtain from management during an examination engagement, including representations regarding management's responsibility for compliance with the financial responsibility rules, that management has performed an evaluation of compliance, that management did not use the auditor's procedures performed during the audit of the financial statements or procedures performed on supplemental information as part of the basis for management's assertions and that management has disclosed to the auditor all known instances of non-compliance and fraud. While many of these additional representations might be appropriate based on the facts and circumstances of the examination engagement, the examination standard was not modified to include them as they are either duplicative of management's assertions or not necessary to meet the requirements of the standard. However, the examination standard does not preclude the auditor from obtaining additional representations from management in situations in which the auditor believes additional representations are appropriate.

### **C. Communication Requirements (paragraphs 34–35 of Appendix 1)**

The examination standard requires the auditor to communicate certain matters to management and the audit committee. These requirements reflect changes from the proposed communication requirements to conform to SEC Rule 17a-5. In addition, rather than defining the term "audit committee," the examination standard states that the term "audit committee" has the same definition as that in Auditing Standard No. 16, *Communication with Audit Committees*.

One commenter stated that communication requirements in the proposed examination standard are sufficient. Another commenter requested that the

Board clarify the meaning of "identified" as used in paragraph 36 of the proposed examination standard. That commenter questioned whether an "identified" instance of noncompliance referred to the moment the auditor becomes aware of the its existence or only after the auditor concludes it represented a significant deficiency. The language in the standard was retained as proposed. In the context of the examination standard, the term "identified instance of non-compliance" is meant to clarify that the communication requirement applies to instances of non-compliance identified by the auditor.<sup>39</sup> A note has been included to paragraph 35 of the examination standard reminding auditors of their obligation to comply with the requirements of paragraph (h) of SEC Rule 17a-5.

#### **D. Reporting on the Examination Engagement (paragraphs 36–38 of Appendix 1)**

The examination standard requires the auditor to issue a single report that expresses an opinion on whether the assertions made by a broker or dealer in a compliance report are fairly stated, in all material respects, when expressing an unqualified opinion. Paragraph 36 of the standard includes basic report elements, while paragraph 37 includes an illustrative report.

The reporting requirements in the examination standard have been revised to align with the compliance report that is required by SEC Rule 17a-5. This includes reporting on the broker's or dealer's assertions regarding the effectiveness of Internal Control Over Compliance during and as of the end of the most recent fiscal year, compliance with the net capital rule and the reserve requirements rule, and whether the information used to assert compliance with those rules was derived from the broker's or dealer's books and records.

##### *1. Legal Determinations, Discussion of Inherent Limitation of the Examination, Discussion of Interpretations of Rules and Regulations, and Restrictions on the Use of the Examination Report*

One commenter stated that the report clearly communicates the auditor's responsibilities. Other commenters suggested that the examination standard should address additional reporting matters, such as including a caveat about legal determinations, discussion of inherent limitations of the examination, discussion of interpretations of rules and regulations, and restrictions on the use of the examination report.

##### Legal Determinations

Some commenters stated that the auditor's examination report should be modified to include language indicating that the auditor's examination does not provide for a legal determination of a broker's or dealers compliance with financial responsibility rules. When the auditor is engaged to perform an examination, it is necessary for the auditor to read and make judgments regarding the application of the regulatory requirements, as applicable to the engagement. The auditor's report issued pursuant to the examination standard does not provide a legal determination, nor does it purport to provide a legal determination, of a broker's or dealer's compliance with the net capital rule or the reserve requirements rule. However, such a report may be useful to legal counsel or others in making such determinations. In the context of an examination, the auditor expresses an opinion on whether the assertions made by a broker or dealer in

---

<sup>39</sup> See also the discussion of the notification requirements in the SEC Release at 101-107.

a compliance report are fairly stated, in all material respects. Accordingly, the Board did not add the suggested language to the examination standard.

#### Inherent Limitations of the Examination

Some commenters stated that the examination report should be revised to include language discussing the inherent limitations of the examination, similar to language contained in other PCAOB auditing standards. Those commenters recommended including a statement similar to the statement contained in the audit report on internal control over financial reporting, which states that because of inherent limitations, internal control over financial reporting may not prevent or detect misstatements.<sup>40</sup>

The examination standard does not prescribe reporting language regarding the inherent limitations of the examination. Such language might be confusing to users who interpret such a statement as a limitation on the opinion expressed in the auditor's examination report, rather than the nature of internal controls over compliance. Also, an inherent limitation statement about internal control over financial reporting, which is management's responsibility and the subject of the audit, is different from a limitation statement about the auditor's examination itself.

#### Interpretations of Rules and Regulations

Several commenters stated that evaluating a broker's or dealer's compliance with regulatory requirements may be based upon interpretations of regulations or rules established by the Commission and/or DEAs. Commenters recommended that the examination standard permit the inclusion of a statement within the examination report stating the description and the source of interpretations made by the brokers and dealer's management. After considering these comments, a footnote has been added to paragraph 36.h. of the examination standard. The statement in the footnote is consistent with the existing requirements of paragraph .59 of AT sec. 601, *Compliance Attestation*, which allows the auditor to include a paragraph stating the description and the source of interpretations made by the entity's management immediately after the scope paragraph of the auditor's report. The following is an example of such a paragraph:

We have been informed that, under X Broker's interpretation of [identify the compliance requirement, e.g. SEC Rule 15c3-1], [explain the source and nature of the relevant interpretation].

One commenter recommended that the auditor's examination report should include a statement that the assertions are the responsibility of the broker or dealer. The examination standard does not include this language because the first sentence in the auditor's examination report clarifies that the assertions are the responsibility of the broker or dealer.

#### Restriction of Use of the Examination Report

The proposed examination standard did not include provisions for restricting the use of the examination report to specified parties. Some commenters stated that audit firms previously have often restricted the use of reports required by SEC Rule 17a-5 to the board of directors, management, the Commission, and other regulatory agencies that rely on SEC Rule 17a-5. Some commenters stated that a restriction on the use of an auditor's examination or review report is

---

<sup>40</sup> Paragraph 85.j. of Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*.

appropriate, given that general users of these reports may not have a sufficient understanding of the subject matter to which they relate, such as the financial responsibility rules.

SEC Rule 17a-5 specifies the required reports, assertions, and the compliance requirements related to these engagements. The reports pursuant to this rule are generally filed only with the Commission, the broker's or dealer's DEA, and the Securities Investor Protection Corporation ("SIPC"). Accordingly, these criteria are suitable and available for purposes of these engagements.

As the reporting criteria have been established by the Commission and those reporting criteria are publicly available, including language restricting the auditor's examination report in the examination standard is unnecessary. As such, no additional language is included in the examination standard.

### *2. Examination Report Date (Paragraph 38 of Appendix 1)*

Under paragraph 38 of the examination standard, the auditor should date the examination report no earlier than the date on which the auditor obtains sufficient appropriate evidence to support his or her opinion. Because of the coordination between the examination engagement, the audit of the financial statements and the audit procedures performed on supplemental information, the date of the examination report should not be earlier than the date of the auditor's report on the financial statements and supplemental information. The Board did not receive comments on the proposed dating of the report. As such, these requirements are adopted as proposed.

### *3. Examination Report Modifications (Appendix C of Appendix 1)*

The examination standard includes an appendix ("Appendix C") that builds on existing concepts described in AT sec. 101 regarding report modifications and adapts them as appropriate to the requirements of the examination engagement.

Under the examination standard, if one or more instances of non-compliance with the net capital rule or the reserve requirements rule exist as of the end of the most recent fiscal year, one or more Material Weaknesses in Internal Control Over Compliance exist during or as of the end of the most recent fiscal year, or the information used to assert compliance with the net capital rule or the reserve requirements rule was not derived, in all material respects, from the books and records of the broker or dealer, the auditor must express an adverse opinion directly on the subject matter of the respective assertions, rather than on the assertions themselves, unless there is a restriction on the scope of the examination engagement.<sup>41</sup> For example, if the broker or dealer is not in compliance with the net capital rule, the auditor's report would include an adverse opinion on compliance and would identify the instance of non-compliance regardless of whether it was described in the broker's or dealer's compliance report.

This requirement is different from AT sec. 101, which states that "[r]eservations about the subject matter . . . can result in either a qualified or an adverse opinion, depending on the materiality of the departure from the criteria against which the subject matter . . . was evaluated."<sup>42</sup> Qualified opinions are not appropriate because any instance of non-compliance as of the end of the fiscal

---

<sup>41</sup> The requirement to express an adverse opinion applies regardless of whether the instance of non-compliance, material weakness, or other matters preventing an unqualified opinion were identified by management or the auditor.

<sup>42</sup> See AT sec. 101.76.

year, any Material Weakness in Internal Control Over Compliance during or as of the end of the fiscal year, or any instance in which the information used to assert compliance with the net capital rule and the reserve requirements rule was not derived, in all material respects, from the broker's or dealer's books and records, is by definition material and, as such, must result in an adverse opinion.

The examination standard describes specific matters that the auditor should include in the examination report when expressing an adverse opinion. For example, when expressing an adverse opinion because one or more Material Weaknesses exist, the auditor's examination report must include a statement that one or more Material Weaknesses have been identified and an identification of the description of the Material Weaknesses in the compliance report.

The requirement to express an adverse opinion applies only to the subject matter for the respective assertion. It does not require an adverse opinion on the subject matter of all assertions in every instance. For example, if a Material Weakness was identified during the year but not at year end, and there were no instances of non-compliance or instances in which the information used to assert compliance with the net capital rule and the reserve requirements rule was not derived, in all material respects, from the broker's or dealer's books and records, the examination report should include an adverse opinion on Internal Control Over Compliance during the year and an unqualified opinion on the other three assertions.

Several commenters recommended that the examination standard include examples of modified examination reports. Appendix C to the examination standard describes examination report modifications. Additional report examples may be considered, if guidance is issued in the future.

Further, paragraph C6 of the examination standard states that, when the auditor plans to disclaim an opinion and the limited procedures performed by the auditor caused the auditor to make certain conclusions, the auditor's report also must include the matters described in paragraph C3 of the examination standard. Those conclusions include that: (1) one or more instances of non-compliance with the net capital rule or the reserve requirements rule existed as of the end of the fiscal year, (2) one or more Material Weaknesses existed during or as of the end of the most recent fiscal year, or (3) the information used to assert compliance with the net capital rule or the reserve requirements rule was not derived, in all material respects, from the books and records of the broker or dealer.

The examination standard states that the auditor may issue a report disclaiming an opinion on the assertions made by a broker or dealer in a compliance report as soon as the auditor concludes that a scope limitation will prevent the auditor from obtaining the reasonable assurance necessary to express an opinion. The auditor is not required to perform any additional work before issuing a disclaimer when the auditor concludes that he or she will not be able to obtain sufficient evidence to express an opinion.

In addition, unlike AT sec. 101, if the auditor concludes that he or she cannot express an opinion because there has been a limitation on the scope of the examination engagement, under the examination standard, the auditor should communicate on a timely basis, in writing, to management and the audit committee that the examination engagement cannot be satisfactorily completed.

Some commenters stated that when the auditor expresses an adverse opinion, the auditor should report directly on the subject matter for all assertions, rather than the respective assertion necessitating the adverse opinion. As discussed,

the examination standard aligns with the requirements of SEC Rule 17a-5, which requires the auditor to report on the respective management assertion.

Under the examination standard, if the broker's or dealer's compliance report contains other information in addition to the statements and descriptions, if applicable, required by SEC Rule 17a-5,<sup>43</sup> the auditor should disclaim an opinion on the other information. For example, if the broker's or dealer's compliance report states that an identified Material Weakness no longer exists because controls have been implemented after the end of the fiscal year that address the Material Weakness, the auditor should disclaim an opinion on this information.

One commenter recommended that the examination standard address instances when there is a misstatement of fact in management's assertion, particularly when management's assertion is improperly presented. SEC Rule 17a-5 establishes the assertions brokers and dealers are required to make regarding compliance with the financial responsibility rules. The auditor's responsibility is to express an opinion on management's assertions. SEC Rule 17a-5 specifically describes the content of the statements to be made by the broker or dealer.<sup>44</sup> Further, a misstatement of fact by the broker or dealer in its assertion would likely result in an adverse opinion on one or more of the broker's or dealer's assertions. As the examination standard provides requirements relating to adverse opinions, no further changes were made based on this comment. Furthermore, as stated in the proposing release, if the auditor believes that additional information in the compliance report contains a material misstatement of fact, the auditor should discuss the matter with management of the broker or dealer. If, after discussing the matter with management, the auditor concludes that a material misstatement of fact remains, the auditor should notify management and the audit committee of the auditor's views concerning the information.

## **E. Appendix B. Considerations for Brokers and Dealers with Multiple Divisions or Branches**

When a broker or dealer conducts its operations through multiple divisions and branch offices, the examination standard includes, in Appendix B, a requirement for the auditor to determine the extent to which examination procedures should be performed at selected divisions or branches to obtain sufficient appropriate evidence to support the conclusions expressed in the auditor's examination report. This includes determining the divisions or branches at which to perform examination procedures, as well as the nature, timing, and extent of the procedures to be performed at those individual divisions or branches. The same requirements were included in the body of the proposed examination standard.

One commenter recommended certain additional factors that should be taken into account when determining the extent of the examination procedures to be performed at divisions or branches, including judgments about materiality of the division or branch and the similarity of operations over compliance for different divisions or branches. These factors were considered during the development of the examination standard. The requirement in the examination standard for the auditor to take into account the degree to which the financial responsibility rules relate to activities at the division or branch level is broader than judgments based solely on the materiality of a specific division.

---

<sup>43</sup> See paragraphs (d)(3) and (g)(2) of SEC Rule 17a-5.

<sup>44</sup> See paragraph (d)(3) of SEC Rule 17a-5.

Adding another factor regarding materiality within paragraph 13 of the examination standard might limit an auditor's consideration of the procedures to be performed to only quantitative factors rather than risks related to non-compliance. As such, this factor has not been included in the examination standard.

One commenter recommended including the similarity of operations over compliance for different divisions or branches as a factor within the examination standard. Similar to the discussion in the preceding paragraph, the requirement in the examination standard for the auditor to take into account the degree to which the financial responsibility rules relate to activities at the division or branch level includes considerations regarding the similarity of operations over compliance for different divisions or branches. Including this factor within paragraph 13 of the examination standard might limit the auditor's consideration of the procedures to be performed to identified differences between different divisions or branches, rather than assessing the risk that different divisions or branches with similar operations over compliance might have instances of non-compliance.

## F. Other Comments

### 1. *Use of the Work of Other Auditors*

Some commenters stated that situations could exist in which the auditor that is engaged to perform an examination engagement might use the work of other auditors. Those commenters stated that the examination standard should include a reference to AU sec. 543, *Part of Audit Performed by Other Independent Auditors*. Other commenters stated that references to the Board's auditing standards were inappropriate within the attestation standards. By its terms, AU sec. 543 applies when one auditor uses the work and reports of another auditor of the financial statements of a component. As this situation does not apply to a compliance examination engagement, the standard does not refer to AU sec. 543. Nonetheless, auditors can use the work of other auditors if such work is performed under their supervision.

### 2. *Interaction with an Audit of Internal Control Over Financial Reporting*

Some commenters stated that additional guidance relating to the relationship between internal control over financial reporting and Internal Control Over Compliance would be beneficial. Those commenters stated that while SEC Proposed Rule 17a-5 is clear that the attestation reports do not extend to internal control over financial reporting, there may be certain controls over financial reporting that could overlap with Internal Control Over Compliance with the financial responsibility rules.

Several commenters stated that the Board should coordinate with the SEC to provide further guidance regarding the relationship between the evaluation of Deficiencies in Internal Control Over Compliance and the evaluation of Material Weaknesses and significant deficiencies in internal control over financial reporting. The SEC Release contains relevant discussion regarding the interaction between Internal Control Over Compliance and internal control over financial reporting.<sup>45</sup>

---

<sup>45</sup> See the SEC Release at 38, which notes, among other things, that internal control over financial reporting is focused on the reliability of financial reporting and preparation of financial statements in accordance with generally accepted accounting principles, whereas the compliance report should focus on oversight of net capital, custody arrangements, and protection of customer assets, and, therefore should be focused on compliance with the financial responsibility rules.

## II. Attestation Standard No. 2, Review Engagements Regarding Exemption Reports of Brokers and Dealers

As previously described, the review standard has been designed specifically for an auditor's review of statements made by a broker or dealer in an exemption report required by the Commission's amendments to SEC Rule 17a-5.

Briefly, certain brokers and dealers claim exemption from the Commission's requirements contained in SEC Rule 15c3-3, the SEC rule relating to the custody of customer funds, pursuant to exemption provisions contained in paragraph (k) of SEC Rule 15c3-3 (the "exemption provisions"). In the exemption report, the broker or dealer identifies (i) the exemption provision of paragraph (k) of SEC Rule 15c3-3 under which the broker or dealer claimed exemption from the SEC's custody requirements (the "identified exemption provisions"), and (ii) states that the broker or dealer met the exemption provisions throughout the most recent fiscal year without exception or, if applicable, states that exceptions to the identified exemption provisions were identified, including a description of any such exceptions and the approximate date on which the exception existed. SEC Rule 17a-5 requires the broker or dealer to engage an independent public accountant registered with the PCAOB to review, and independently report on, the statements in the broker's or dealer's exemption report.

Because brokers and dealers claiming an exemption from SEC Rule 15c3-3 requirements under paragraph (k) of that rule might have access to customer funds, a review engagement focusing on the identification of exceptions to the exemption provisions claimed by brokers and dealers is important to the protection of investors. Notably, a recent PCAOB report on the progress of its interim inspection program of broker and dealer audits noted that in a significant number of audits of brokers and dealers that claimed an exemption from SEC Rule 15c3-3, auditors did not perform sufficient procedures to ascertain that the broker or dealer complied with the conditions of the exemption.<sup>46</sup> The review standard includes specific procedures for auditors performing compliance reviews of a broker's or dealer's assertions in an exemption report with an emphasis on coordination with the auditor's work on the financial statement audit and the audit procedures performed relating to supplemental information. This approach should enhance overall audit effectiveness and also help avoid unnecessary duplication of work.

The following discussion provides background regarding the review standard, including significant comments received on the proposed review standard and changes made to the standard.

### A. Overview of SEC Rule 17a-5 and Related Changes

As amended by the Commission, SEC Rule 17a-5 includes modifications from the SEC's proposed amendments, including a number of changes that focus the auditor more directly on the exemption provisions claimed by the broker or dealer and the identification of any exceptions. These modifications resulted in corresponding changes to the review standard. Principally, the changes involve:

- The introduction of certain terms, including "exemption provisions," and "exceptions;"
- Changes to the broker's or dealer's assertions, as set forth in SEC Rule 17a-5, to include more detailed information regarding the

---

<sup>46</sup> See *Second Report on the Progress of the Interim Inspection Program Related to Audits of Brokers and Dealers*, PCAOB Release No. 2013-006 (August 19, 2013), at 9.

exemption provision claimed asserted by the broker or dealer and any exceptions identified; and

- Changes to the auditor's reporting requirements, and the example report, including requirements for auditors to modify their reports in situations in which the broker or dealer fails to disclose an exception in the exemption report.

As noted above, the review standard was designed specifically to implement the auditor's requirements in SEC Rule 17a-5. The review standard establishes requirements that apply when an auditor is engaged to perform an exemption review of the statements made by a broker or dealer in an exemption report prepared pursuant to SEC Rule 17a-5.

Paragraph 2 states that SEC Rule 17a-5 requires a broker's or dealer's exemption report to contain the following statements<sup>47</sup> by the broker or dealer:

- a. A statement that identifies the exemption provisions under which the broker or dealer claimed an exemption from SEC Rule 15c3-3;
- b. A statement that the broker or dealer (1) met the identified exemption provisions throughout the most recent fiscal year without exception or (2) met the identified exemption provisions throughout the most recent fiscal year except as described in the exemption report; and
- c. If applicable, a statement that identifies each exception during the most recent fiscal year in meeting the identified exemption provisions (an "exception") and that briefly describes the nature of each exception and the approximate dates on which the exception existed.

The changes reflected in SEC Rule 17a-5 to include exceptions to the exemption provisions in the exemption report did not result in significant changes to the procedural requirements in the proposed review standard. The review standard, similar to the proposed review standard, requires the auditor to state a conclusion regarding whether, based upon the results of the review procedures, the auditor is aware of any material modifications that should be made to the broker's or dealer's assertions for the assertions to be fairly stated, in all material respects.<sup>48</sup> To state such a conclusion, the auditor must plan and perform the review engagement to obtain appropriate evidence that is sufficient to obtain moderate assurance about whether one or more conditions exist that would cause one or more of the broker's or dealer's assertions not to be fairly stated, in all material respects.

### 1. Moderate Assurance

The requirement that the auditor obtain moderate assurance<sup>49</sup> to support his or her opinion has not been changed from the Board's proposal. The approach taken in the review standard is in contrast to the examination standard, in which the auditor obtains reasonable assurance to support his or her opinion

---

<sup>47</sup> See paragraph (d)(4) of SEC Rule 17a-5.

<sup>48</sup> The review standard largely carries forward the requirement from prior SEC Rule 17a-5 that the independent public accountant engaged by the broker or dealer "must ascertain that the conditions of the exemption were being complied with as of the examination date and that no facts came to the independent public accountant's attention to indicate that the exemption had not been complied with during the period since the last examination." See the SEC Release at 72.

<sup>49</sup> Obtaining moderate assurance in a review engagement is consistent with both existing PCAOB standards and the SEC Release. AT sec. 101.55 describes a review as an attest engagement designed to provide a moderate level of assurance. See the SEC Release at 88, which states that a "moderate level of assurance [is] contemplated by the required review."

on the broker's or dealer's assertions. In the review engagement contemplated by the review standard, the auditor must obtain moderate assurance regarding the broker's or dealer's assertions.

Review engagements typically involve the performance of inquiries and analytical procedures,<sup>50</sup> and the auditor's conclusions typically are expressed in the report in the form of negative assurance.<sup>51</sup>

The proposing release noted that, in a review engagement covered by the proposed review standard, analytical procedures are not feasible for evaluating compliance with the exemption conditions, as the conditions are based on activities of the broker or dealer rather than on financial statement amounts. Thus, the review standard establishes specific procedural requirements that are commensurate with the responsibility to obtain moderate assurance. This approach is consistent with AT sec 101.55-.56 which states that ". . . there will be circumstances in which inquiry and analytical procedures . . . cannot be performed . . . In [this] circumstance, the practitioner should perform other procedures that he or she believes can provide him or her with a level of assurance equivalent to that which inquiries and analytical procedures would have provided."

Commenters generally stated that the requirements in the review standard were appropriate for obtaining moderate assurance. Further, some commenters stated that the term "moderate assurance" as used in the review standard is consistent with how the term "moderate assurance" is presently used in practice and with how auditors are currently performing engagements to obtain moderate assurance.

One commenter stated that the review standard could clarify that the auditor plans and performs the review engagement in the context of obtaining a moderate level of assurance. In considering this comment, the Board noted that the objective of the review standard states ". . . the auditor must plan and perform the review engagement to obtain appropriate evidence that is sufficient to obtain moderate assurance. . . ." As such, additional clarification is not necessary.

One commenter stated that an "agreed-upon procedures" engagement would be more appropriate than a review engagement for a broker's or dealer's assertion that it is exempt from SEC Rule 15c3-3. SEC Rule 17a-5 requires a broker or dealer that claimed exemption from the requirements of SEC Rule 15c3-3 to file a report from their independent public accountants that includes the results of a review of the broker's or dealer's assertions. As adopted, the review standard establishes requirements that are designed specifically to provide auditors with a standard for performing the review required by SEC Rule 17a-5.

## **B. Performing the Review Engagement (Paragraphs 5–14 of Appendix 2)**

### *1. General Requirements (paragraphs 5–6 of Appendix 2)*

Paragraphs 5 and 6 of the review standard set forth general requirements for an auditor performing the review standard. The Board did not receive significant

---

<sup>50</sup> AT sec. 101.55 states that "[i]n an attest engagement designed to provide a moderate level of assurance (referred to as a review), the objective is to accumulate sufficient evidence to restrict attestation risk to a moderate level. To accomplish this, the types of procedures performed generally are limited to inquiries and analytical procedures (rather than also including search and verification procedures)."

<sup>51</sup> See AT sec. 101.68.

comments on the general requirements of the proposed review standard. As such, the general requirements are being adopted largely as proposed.

Paragraph 5 of the review standard requires that an auditor performing a review engagement have adequate technical proficiency in attestation engagements, obtain an understanding of the exemption conditions and other rules and regulations that are relevant to the broker's or dealer's assertion, determine the auditor's compliance with independence and ethics requirements,<sup>52</sup> and exercise due professional care.

The proposed review standard included a footnote which stated that "due professional care" referred to in that paragraph was the same term in paragraph .40 of AT sec. 101. One commenter stated that while they did not disagree with the meaning of "due professional care," they believe that referencing AT sec. 101 from the review standard may be confusing, especially as AT sec. 101 would not be applicable to engagements in which the review standard is applicable. In response, a note has been added to state that due professional care imposes a responsibility on each engagement team member to comply with the review standard and that the exercise of due professional care requires critical review at every level of supervision of the work done and the judgment exercised by those assisting in the engagement, including the preparation of the report. A footnote to that note states that the auditor's responsibility to exercise due professional care is consistent with the description in paragraphs .40-.41 of AT sec. 101.

With respect to documentation, the review engagement is subject to the requirements of Auditing Standard No. 3, which applies to engagements conducted pursuant to the standards of the PCAOB. Auditing Standard No. 3 states that as audit documentation is the written record that provides the support for the representations in the auditor's report, it should demonstrate that the engagement complied with the standards of the PCAOB.<sup>53</sup> A note has been added to paragraph 5 of the review standard to remind auditors of their responsibility to comply with Auditing Standard No. 3.

## *2. Review Procedures (Paragraphs 8-10 of Appendix 2)*

The review standard requires the auditor to perform procedures consistent with a review engagement; however, the procedures have been tailored for the exemption report required by SEC Rule 17a-5.

### Nature, Timing, and Extent of Procedures (Paragraph 9 of Appendix 2)

Under the proposed review standard, the nature, timing, and extent of the review procedures were dependent on certain risk factors and evidence about the broker's or dealer's compliance with the exemption conditions or about the effectiveness of controls over the exemption conditions obtained from the audit of the financial statements and the audit procedures performed on supplemental information. For example, one risk factor is potential non-compliance associated with related parties. Risks associated with related parties that are investment advisors or with which the broker or dealer has a custodial or clearing relationship may be especially relevant to the exemption provisions.

Evidence about the broker's or dealer's compliance with the exemption provisions or about the effectiveness of controls over the exemption provisions

---

<sup>52</sup> Determining the auditor's compliance with independence and ethics requirements includes determining whether the auditor complied with relevant requirements of the PCAOB and the SEC. Paragraph (f)(1) of SEC Rule 17a-5 requires the auditor to be independent in accordance with 17 C.F.R. § 210.2-01.

<sup>53</sup> See paragraph 4 of Auditing Standard No. 3.

obtained from the audit of the financial statements and the audit procedures performed on supplemental information also affect the nature, timing, and extent of the necessary inquiries and other review procedures. For example, if the broker or dealer claims an exemption under Rule 15c3-3(k)(1), the auditor, among other things, needs to obtain evidence that the broker's or dealer's transactions are limited to those in redeemable securities of investment companies or of interests or participations in an insurance company separate account.<sup>54</sup> Audit procedures regarding the broker's or dealer's investment inventory or investment transactions related to the broker's or dealer's trading for its own account, including confirmation of investment inventory with the custodian and testing investment transactions, can provide evidence relevant to the broker's or dealer's compliance with these exemption conditions.

As another example, if the broker or dealer claims exemption under section (k)(1) of Rule 15c3-3, the auditor needs to obtain evidence about whether the broker or dealer promptly transmits all funds and delivers all securities received in connection with his activities as a broker or dealer, and does not otherwise hold funds or securities for, or owe money or securities to, customers.<sup>55</sup> Audit procedures regarding customer trade and transaction activities can provide evidence relevant to these exemption provisions.

Other procedures performed during the audit that are relevant to the broker's or dealer's compliance with the exemption provisions include testing of specially designated cash accounts and reading clearing agreements between the broker or dealer and clearing brokers and dealers in connection with testing trade fee or commission revenues and expenses.<sup>56</sup>

One commenter recommended incorporating the discussion in the proposing release relating to the risk of fraud into the review standard to provide further guidance. The proposing release stated that in considering the risk of fraud relevant to the exemption conditions, the auditor also considers whether the broker or dealer has misrepresented its activities, for example, the broker or dealer claims to be operating as a non-carrying broker or dealer but, based on other evidence appears to hold customer funds or securities. The Board

---

<sup>54</sup> Paragraph (k)(1) of SEC Rule 15c3-3, states that "the provisions of [Rule 15c3-3] shall not be applicable to a broker or dealer meeting all of the following conditions:

- (i) His dealer transactions (as principal for his own account) are limited to the purchase, sale, and redemption of redeemable securities of registered investment companies or of interests or participations in an insurance company separate account, whether or not registered as an investment company; except that a broker or dealer transacting business as a sole proprietor may also effect occasional transactions in other securities for his own account with or through another registered broker or dealer;
- (ii) His transactions as broker (agent) are limited to: (a) The sale and redemption of redeemable securities of registered investment companies or of interests or participations in an insurance company separate account, whether or not registered as an investment company; (b) the solicitation of share accounts for savings and loan associations insured by an instrumentality of the United States; and (c) the sale of securities for the account of a customer to obtain funds for immediate reinvestment in redeemable securities of registered investment companies; and
- (iii) He promptly transmits all funds and delivers all securities received in connection with his activities as a broker or dealer, and does not otherwise hold funds or securities for, or owe money or securities to, customers.
- (iv) Notwithstanding the foregoing, this section shall not apply to any insurance company which is a registered broker [or] dealer, and which otherwise meets all of the conditions in paragraphs (k)(1) (i), (ii), and (iii) of this section, solely by reason of its participation in transactions that are a part of the business of insurance, including the purchasing, selling, or holding of securities for or on behalf of such company's general and separate accounts."

<sup>55</sup> See paragraph (k)(1)(iii) of SEC Rule 15c3-3.

<sup>56</sup> Refer to Section I.B.2., "Relationship Between the Examination Engagement and the Audit of the Financial Statements and Audit Procedures Performed on Supplemental Information," of this Appendix for further discussion.

considered this comment and determined, as it has done in other projects, to include performance requirements in the standard and to provide additional discussion and examples in an appendix to the release. Therefore, the release discussion regarding the risk of fraud has not been incorporated into the review standard. The request for guidance regarding the risk of fraud may be taken into account if additional guidance is issued.

The Board did not receive extensive comment on these requirements. Two commenters stated that the factors are appropriate. In general, these requirements are being adopted substantially as proposed.

#### Review Procedures (Paragraph 10 of Appendix 2)

Paragraph 10 of the review standard sets forth the required procedures for the review engagement. Specifically, the procedures required by the standard are consistent with a review engagement, including making inquiries of management and relevant personnel of the broker or dealer; reading relevant reports from internal auditors or regulatory correspondence; evaluating evidence from the audit of the financial statements and the audit procedures performed on supplemental information; and performing additional procedures for identified exceptions.

While the review standard requires the auditor to perform procedures consistent with a review engagement, the procedures in the standard have been modified in a number of ways to reflect changes made to SEC Rule 17a-5, including to reflect terms used in SEC Rule 17a-5. The following discussion highlights some of the key aspects of, comments on, and changes made to, the required review procedures.

Commenters generally supported the requirements as proposed. However, one commenter stated the proposed review standard does not clearly describe the procedures or the extent of evidence necessary to obtain moderate assurance. Another commenter stated that the language in paragraph 10.h. of the proposed review standard, "perform other procedures as necessary in the circumstances to obtain moderate assurance," is an overly broad requirement.

As previously discussed, obtaining moderate assurance in a review engagement is consistent with both existing PCAOB standards and the SEC Release. AT sec. 101.55 describes a review as an attest engagement designed to provide a moderate level of assurance. The SEC Release states that a "moderate level of assurance [is] contemplated by the required review."<sup>57</sup> The procedures required by the review standard have been designed to assist the auditor in obtaining moderate assurance in a review engagement. These procedures largely focus on making inquiries and reading information relevant to the broker's or dealer's assertions. In the Board's view, such procedures are consistent with AT sec. 101.56, given that analytical procedures would not provide relevant evidence in light of the broker's or dealer's assertions required by SEC Rule 17a-5. For example, paragraph 10.g. of the review standard states that in performing the review engagement, the auditor should evaluate whether the evidence obtained and the results of the procedures performed in the audit of the financial statements and the audit procedures performed on supplemental information corroborate or contradict information in the broker's or dealer's assertions. Further, paragraph 10.h. of the review standard has been revised to state that in performing the review engagement, the auditor should perform other procedures as necessary in the circumstances to obtain moderate assurance regarding whether a material modification should be made to the broker's or dealer's assertions for the assertions to be fairly stated, in all material respects.

---

<sup>57</sup> See the SEC Release at 88.

One commenter stated that, while the review procedures and the matters affecting their nature, timing, and extent are, for the most part, appropriate for an engagement to obtain a moderate level of assurance, they did have certain specific recommendations, including clarifying the note in paragraph 10.g. of the review standard to explicitly indicate that the examples of procedures are those that may be performed during the audit of the financial statements. The Board considered this comment and agrees that such a revision would clarify that the note is referring to examples of procedures performed during the audit of the financial statements that might provide relevant evidence to the review engagement. As such, the note to paragraph 10.g. of the review standard has been revised.

In addition, if the broker or dealer has sent to or received correspondence from the SEC or the broker's or dealer's DEA that is relevant to compliance with the exemption conditions, the review standard includes a requirement for the auditor to read such correspondence and, when necessary in the circumstances, make inquiries of the regulatory agencies. These procedures can provide the auditor with relevant information about a broker's or dealer's compliance with the exemption provisions. Under the circumstances when a need arises to make inquiries of the regulatory agencies, the Board acknowledges that auditors may need authorization from the broker or dealer before contacting the regulatory authority.

One commenter suggested that the Board provide guidance related to the interaction between auditors and a company's regulatory examiners consistent with the *AICPA Audit and Accounting Guide for Depository and Lending Institutions: Banks and Savings Institutions, Credit Unions, Finance Companies and Mortgage Companies*. The guidance in that publication is specific to the interaction between the auditor and federal bank examiners, and might differ from the DEAs of the broker or dealer. As such, additional requirements in this area have not been included in the review standard.

### *3. Evaluating the Results of the Review Procedures (paragraphs 11–12 of Appendix 2)*

Under paragraph 11 of the review standard, the auditor should evaluate whether information has come to the auditor's attention that cause one or more of the broker's or dealer's assertions not to be fairly stated, in all material respects. For example, a broker's or dealer's failure to disclose an exception in the exemption report would cause the assertion not to be fairly stated, in all material respects, which would require modification of the review report. This paragraph has been modified to align with the amendments to SEC Rule 17a-5.

Additionally, the proposed standard required the auditor to perform additional procedures if information came to the auditor's attention that indicated that one or more instances of non-compliance might exist that might cause the broker's or dealer's assertion not to be fairly stated or if the auditor had substantial doubt about the assertion. The review standard has been revised to align with the requirements in SEC Rule 17a-5.

One commenter requested clarification of the relationship between paragraphs 10.h. and 12 of the review standard. Those two requirements address different situations, as discussed below.

As previously noted, paragraph 10.h. of the review standard requires auditors to perform other procedures as necessary in the circumstances to obtain moderate assurance. This applies when the auditor determines the nature, timing, and extent of review procedures to be performed, such as in planning the review.

Paragraph 12 of the review standard applies when information comes to the auditor's attention during the engagement indicating that the broker's or dealer's assertions might not be fairly stated or if the auditor has substantial doubt about the assertion. Pursuant to paragraph 12, the auditor in those situations is required to perform additional procedures to address the matter. Performing the review with due professional care requires an auditor conducting a review to take appropriate actions when becoming aware of exceptions to the exemption provisions not included in the broker's or dealer's assertion or when substantial doubt remains. The phrase "substantial doubt" has the same meaning as the phrase "substantial doubt" in paragraph 35 of Auditing Standard No. 14, which states that if the auditor has not obtained sufficient appropriate audit evidence about a relevant assertion or has substantial doubt about a relevant assertion, the auditor should perform procedures to obtain further audit evidence to address the matter. In the context of a review engagement, these additional procedures could include, but are not limited to, making additional inquiries, reading documents, or performing search and verification procedures, as necessary.<sup>58</sup>

One commenter recommended incorporating the examples in the preceding paragraph, e.g., making additional inquiries, reading documents, or performing search and verification procedures, as necessary, and the discussion in AT sec. 101.56, into the review standard. That discussion and the examples have not been included in the review standard as they are provided to illustrate the nature of procedures that might be appropriate in such circumstances. Including these as examples in the review standard might limit auditors' consideration of additional procedures to only these procedures, when other procedures, not discussed in this release, might be appropriate.

#### *4. Obtaining a Representation Letter (paragraphs 13–14 of Appendix 2)*

The review standard includes a requirement for the auditor to obtain written representations from management of the broker or dealer that relate to the review engagement. The purpose of such representations is to provide the auditor with necessary information for, and context regarding, the engagement. The auditor should not rely inappropriately on management's representations.

The review standard also provides that the failure to obtain written representations from management, including management's refusal to furnish them, constitutes a limitation on the scope of the review engagement. If a limitation on the scope of the review engagement exists, the auditor should withdraw from the engagement or should modify the review report.<sup>59</sup> Additionally, the review standard also includes a list of written representations that the auditor should obtain from management.

Commenters stated that obtaining representations from management is a necessary part of the auditor's ability to express an opinion. One commenter recommended that the list of required written representations include a representation from management that acknowledges its responsibility for the assertions in the exemption report. The suggested additional representation has been included in the review standard.

Further, in the review standard, several of the representations were updated to align with the language in SEC Rule 17a-5.

---

<sup>58</sup> See, e.g., AT sec. 101.56.

<sup>59</sup> See paragraph 20 of the review standard for auditor requirements when a scope limitation exists.

### **C. Communication Requirements (paragraph 15 of Appendix 2)**

The review standard requires the auditor to communicate to management and to the audit committee any exceptions to the exemption provisions identified by the auditor or information that causes the broker's or dealer's assertions about its exemption provisions not to be fairly stated, in all material respects. In addition, rather than defining the term audit committee, the review standard states that the term "audit committee" has the same definition as that in Auditing Standard No. 16.

The Board did not receive significant comments on the communication requirements included in the proposed review standard. However, the communication requirements in the standard have been modified to align closely with SEC Rule 17a-5. Additionally, a note has been added to paragraph 15 of the review standard reminding auditors of their obligation to comply with the requirements of paragraph (h) of SEC Rule 17a-5.<sup>60</sup>

### **D. Reporting on the Review Engagement (paragraphs 16–18 of Appendix 2)**

The review standard includes requirements for the auditor's review report to include certain elements that are important for a reader of the review report to understand regarding the auditor's responsibilities. This includes a statement that the review was conducted in accordance with the standards of the PCAOB and, accordingly, includes inquiries and other required procedures to obtain evidence about the broker's or dealer's compliance with the exemption provisions. These are largely the same elements as in the proposed standard.

The review standard includes an example of the auditor's standard review report when the broker or dealer asserted that it met the identified exemption provisions throughout the most recent fiscal year without exception and an example of the auditor's standard review report when the broker or dealer includes exceptions to the exemption provisions in the exemption report. A change was made to the review results paragraph in the example review report to align the reporting language more closely to the corresponding reporting element, which was not modified from the proposed review standard.

Some commenters stated concerns similar to those for the examination report regarding the use of the review report as a legal determination, interpretation of rules and regulations, restrictions on use of the review report, and limitations of an engagement to obtain moderate assurance. When the auditor is engaged to perform a review engagement, it is necessary for the auditor to read and make judgments regarding the application of regulatory requirements, as applicable to the engagement. The review report issued pursuant to the review standard does not provide a legal determination, nor does it purport to provide a legal determination, of a broker's or dealer's compliance exemption provision. However, such a report may be useful to legal counsel or others in making such determinations.

### **E. Modifications of the Report (paragraphs 19–20 of Appendix 2)**

The review standard requires that if one or more of the broker's or dealer's assertions are not fairly stated, in all material respects, the auditor must modify the review report to describe the reasons why the assertions are not fairly

---

<sup>60</sup> See also the discussion of the notification requirements in the SEC Release at 101-107.

stated, in all material respects. If the broker's or dealer's assertion is not fairly stated because of one of more omitted exceptions, the auditor's review report should disclose each omitted exception.

Paragraph 20 of the review standard sets forth circumstances involving scope limitations. Under the review standard, if the auditor cannot perform the procedures required by the review standard or other procedures that the auditor deems necessary in the circumstances, the review is incomplete because of the scope limitation. An incomplete review is not a sufficient basis for stating a conclusion regarding the broker's or dealer's assertions. In the case of a scope limitation, the auditor should withdraw from the engagement or should modify the review report to:

- a. Describe the scope limitation and any review procedures deemed
- b. necessary by the auditor that have been omitted and the reason for their omission;
- c. State that the auditor does not express any form of assurance on the broker's or dealer's assertions; and, if applicable,
- d. Describe the circumstances which cause one or more of the broker's or dealer's assertions not to be fairly stated, in all material respects.

One commenter stated that auditors should use judgment in drafting an appropriate modification to the review report. Other commenters stated that the attestation standards should contain examples of report modifications. The standard sets forth the necessary reporting elements for modified reports. Additional report examples may be considered if guidance is issued in the future.

One commenter questioned the appropriateness of the requirement in paragraph 20 of the proposed review standard for the auditor to describe the omitted procedures and the reason for their omission. The commenter stated that as the reason for the omission of the review procedures is required in the description of the scope limitation itself, describing the omitted review procedures might overshadow the scope limitation. The commenter recommended that it would be more appropriate to generally describe the effect of the scope limitation on the engagement, without providing a list of omitted procedures that may have been considered necessary. Including in the review report a description of the scope limitation, the omitted procedures, and the reason for their omission are important elements of a modified review report given the nature of the procedures and the specificity of the exemption provisions. The discussion of the omitted procedures generally would provide the reader with additional information beyond the description of the scope limitation. As such, this recommendation has not been incorporated into the review standard.

The same commenter also recommended that the review standard address the auditor's responsibility as it relates to report modifications when management's assertion is improperly presented or contains additional information. That commenter suggested that, in such circumstances, an explanatory paragraph should be included in the auditor's report. Paragraph 19 of the review standard requires the auditor to modify the review report to describe the reasons the assertions are not fairly stated, in all material respects, if one or more of the broker's or dealer's assertions are not fairly stated. This would include circumstances in which management's assertion is improperly presented, and other PCAOB standards address additional information.<sup>61</sup>

---

<sup>61</sup> See, e.g., AU sec. 550, *Other Information in Documents Containing Audited Financial Statements*.

## III. Amendments

### A. Auditing Standard No. 3

The Board is adopting certain amendments to Auditing Standard No. 3, *Audit Documentation*, to clarify that its requirements apply to examination engagements and review engagements. Auditing Standard No. 3 establishes general requirements for documentation the auditor should prepare and retain in connection with engagements conducted pursuant to standards of the PCAOB, including the attestation standards of the PCAOB. The Board is amending Auditing Standard No. 3 to help auditors properly apply the relevant requirements in Auditing Standard No. 3 to attestation engagements, including the attestation engagements covered by the attestation standards. For example, paragraph 6 of Auditing Standard No. 3 includes a requirement for the auditor to document procedures performed, evidence obtained, and conclusions reached with respect to relevant financial statement assertions. An amendment to footnote 2 of paragraph 6 clarifies that, with respect to an engagement conducted pursuant to the attestation standards of the PCAOB, the relevant assertions are the assertions expressed by management or the responsible party regarding the subject matter of the attestation engagement.

In addition, paragraph 12 of Auditing Standard No. 3 includes requirements regarding significant findings or issues and provides certain examples of significant findings or issues. Further, paragraph 13 of Auditing Standard No. 3 requires the auditor to identify all significant findings or issues in an engagement completion document.

The Board did not receive comments requiring revision to the amendments to Auditing Standard No. 3. As such, the amendments are adopted largely as proposed.

### B. Auditing Standard No. 7

The Board is adopting certain amendments to Auditing Standard No. 7, *Engagement Quality Review*, to extend the requirements for an engagement quality review and concurring approval of issuance for the examination engagements and review engagements of brokers and dealers covered by these attestation standards. The proposal also included amendments that set forth certain procedures to be applied in an engagement quality review of the examination and review under these attestation standards.

Commenters expressed a range of views. Some commenters generally supported the engagement quality review requirement for these attestation engagements as well as the required procedures. One commenter did not support requiring an engagement quality review for either an examination engagement or a review. Other commenters did not support engagement quality reviews for review engagements. Some commenters stated that additional guidance is necessary to implement the proposed amendments.

Other commenters stated that as the audit and attestation standards have been separate bodies of literature, audit and attest standards should be kept separate. Those comments stated that to promote compliance with PCAOB standards, they believe that the Board should continue to maintain this structure. They also believe that the use of an amendment to adopt such significant changes in the literature may not sufficiently take into account a broader consideration of the affected engagements. For those firms that do not audit brokers or dealers, such changes also may go unnoticed.

The Board considered the comments received regarding the amendments to Auditing Standard No. 7 and is adopting the amendments as proposed for both a compliance examination and a compliance review.

Given the importance of the attestation engagements to investor protection and the high level of deficiencies observed by PCAOB inspection staff in areas that would be covered by the attestation engagements,<sup>62</sup> the Board believes that engagement quality reviews can enhance the consistency of compliance with the SEC's rule. An effective engagement quality review can increase the likelihood of identifying significant engagement deficiencies before the examination or review report is issued. Additionally, the Board took note of the fact that, in a February 2011 AICPA Peer Review Alert, the AICPA designated audits of carrying brokers or dealers as a "must select" for peer review, recognizing the significant public interest in audits of such firms.<sup>63</sup>

Also, the emphasis in the attestation engagements regarding the coordination of the attestation engagement with the financial statement audit should reduce the audit effort required to complete the engagement quality review. To emphasize the coordination of the attestation engagement with the financial statement audit in performing an engagement quality review, the proposed amendment to paragraph 18A of Auditing Standard No. 7 was modified to reflect that to evaluate significant judgments made by the engagement team and the related conclusions reached in forming the overall conclusion on the attestation engagement and in preparing the engagement report, the engagement quality review should take into account the procedures performed in the engagement quality review of the financial statement audit. The knowledge that the engagement quality reviewer gains from the engagement quality review of the audit and the specific steps in paragraph 18A should enable the engagement quality reviewer to identify whether there are any significant engagement deficiencies, or any indications of potential significant engagement deficiencies that warrant further investigation.

## IV. Other Areas of Comment

The Board requested comment from interested parties on all aspects of the proposal. Several commenters included additional recommendations that have not yet been discussed. Those suggestions are discussed below.

### A. Scalability of the Attestation Standards

The Board requested comment regarding whether the proposed attestation standards are tailored appropriately for examinations and reviews related to compliance and exemption reports of brokers and dealers. Commenters who responded to the question generally agreed that the proposed attestation standards are tailored appropriately for examinations and reviews related to compliance and exemption reports of brokers and dealers. One commenter stated that they generally support the proposals and noted that the proposed standards had been clearly aligned with the SEC's proposed rule amendments.

---

<sup>62</sup> See PCAOB Release 2013-006, which reports that PCAOB inspection staff identified auditing deficiencies in 57 of the 60 audits of brokers and dealers selected for inspection and that deficiencies in compliance with audit requirements for brokers and dealers under the Exchange Act that were among the most frequently noted by PCAOB inspection staff included deficiencies in audit procedures related to net capital and customer reserve supporting schedules, compliance with the conditions of the exemption claimed by the broker or dealer, and the accountant's supplemental report on material inadequacies. See PCAOB Release 2013-006, Executive Summary, at ii.

<sup>63</sup> See AICPA Peer Review Alert 11-01 (February 2011).

The Board also requested comment regarding whether the proposed attestation standards were appropriately scalable based on the size and complexity of the broker or dealer. Some commenters stated that the standards are proportionate and appropriately scalable based on the size and complexity of the broker or dealer, noting that paragraphs 11 and 12 of Appendix 1 are particularly helpful. Some commenters recommended that the Board provide additional guidance, including specific examples, regarding the application of scalability to these examination engagements. Other commenters expressed concern that without such guidance, application of the audit scalability concept could vary greatly across the audit profession. The requests for guidance may be taken into account if additional staff guidance is issued.

## B. Commodity Futures Trading Commission Rules

One commenter stated that for brokers and dealers that are also registered as a Futures Commission Merchant with the Commodity Futures Trading Commission ("CFTC"), it will be necessary for the PCAOB to recognize and address the requirements related to CFTC Rule 1.16 for the auditor to report on compliance therewith. The Commission stated in the SEC Release that its staff "is in discussions with the CFTC staff concerning ways to align the reporting and audit requirements for dually-registered broker-dealers/Futures Commissions Merchants with the goal of coordinating these requirements."<sup>64</sup>

## C. Independence

Several commenters recommended that the discussion in the proposing release stating that auditors of non-issuer brokers and dealers are not subject to PCAOB Rules 3521 through Rule 3526 be included in the attestation standards. On February 28, 2012, the Board proposed amendments to require that registered firms that audit brokers and dealers comply with certain of the Board's professional practice standards including the Board's Rules relating to independence.<sup>65</sup> The Board will consider relevant comments applicable to the Board's independence rules in connection with adopting final amendments.

## D. Period of the Examination and Review

Some commenters stated that brokers and dealers should be allowed to assert compliance with the financial responsibility rules if it can identify deficiencies, implement effective controls, and test their operating effectiveness prior to year-end, and if the auditor also can adequately test the operating effectiveness of the remediated controls. SEC Rule 17a-5 requires the broker or dealer to assert that Internal Control Over Compliance was effective during the most recent fiscal year and as of the end of the most recent fiscal year. While this would require a broker or dealer to identify in its report Material Weaknesses in internal control that occurred during the most recent fiscal year, if those Material Weaknesses are remediated, it would allow the broker or dealer to assert that Internal Control Over Compliance was effective as of the end of the most recent fiscal year.

---

<sup>64</sup> See the SEC Release at 8.

<sup>65</sup> See *Proposed Amendments to Conform PCAOB Rules and Forms to the Dodd-Frank Act and Make Certain Updates and Clarifications*, PCAOB Release No. 2012-002 (February 28, 2012).

Some commenters requested clarification about the time period for the assertion regarding exemption from the requirements of SEC Rule 15c3-3 and indicate that they believe a point-in-time assertion would be sufficient. SEC Rule 17a-5 requires the broker or dealer to assert that it met, or met with exception, the identified exemption provisions in paragraph (k) of SEC Rule 15c3-3 throughout the most recent fiscal year end. The review standard has been updated to reflect this time period.

## **E. Providing Additional Guidance and Including Examples from the Proposing Release in the Examination Standard**

Several commenters recommended incorporating the additional discussion and examples included in Appendix 4 of the proposing release into the standard. The examples are not included in the attestation standards. Those examples were illustrative and did not impose requirements or define engagement requirements. Additional report examples may be considered, if guidance is issued in the future.

## **V. Other Considerations**

### **A. Agreed-Upon Procedures Engagements**

SEC Rule 17a-5 largely carries forward the requirement that the broker or dealer file with SIPC a supplemental report that includes an accountant's report on applying agreed-upon procedures based on the performance of the procedures outlined in SEC Rule 17a-5.<sup>66</sup>

These attestation standards do not affect the requirements for those agreed upon procedures engagements. Auditors should continue to look to AT sec. 101, AT sec. 201, *Agreed-Upon Procedures*, and AT sec. 601,<sup>67</sup> for the requirements applicable to those engagements.

### **B. Relationship to the Interim Attestation Standards**

In general terms, the requirements in the examination standard are consistent with the requirements of AT sec. 101 and AT sec. 601. However, when an auditor performs an engagement pursuant to the examination standard, AT sec. 101 and AT sec. 601 would not apply. For this reason, the examination standard includes, for example, a section on general requirements that are consistent with those in AT sec. 101.

The examination standard focuses specifically on performing an examination of the statements made by a broker or dealer in a compliance report and allows auditors to perform such engagements without looking to multiple attestation standards. In addition, the emphasis in the examination standard on appropriately coordinating the examination engagement with the audit of the financial statements and supplemental information should avoid unnecessary redundancy in the auditor's work.

---

<sup>66</sup> See paragraph (e)(4)(ii) of SEC Rule 17a-5.

<sup>67</sup> See paragraphs .16-.29 of AT sec. 601.

## VI. Effective Date

The attestation standards will be effective, subject to approval by the SEC, for examination engagements and review engagements of fiscal years ending on or after June 1, 2014. This effective date coincides with the effective date for the corresponding amendments to SEC Rule 17a-5.<sup>68</sup>

## PCAOB Release No. 2013-008

# ***Auditing Standard No. 17, Auditing Supplemental Information Accompanying Audited Financial Statements, and Related Amendments to PCAOB Standards***

PCAOB Release No. 2013-008

October 10, 2013

PCAOB Rulemaking

Docket Matter No. 036

### **Summary**

After public comment, the Public Company Accounting Oversight Board ("PCAOB" or the "Board") is adopting Auditing Standard No. 17, *Auditing Supplemental Information Accompanying Audited Financial Statements*, which will supersede the Board's auditing standard, AU sec. 551, *Reporting on Information Accompanying the Basic Financial Statements in Auditor-Submitted Documents*. The Board is also adopting related amendments to certain PCAOB auditing standards.

### **Board Contacts**

Keith Wilson, Deputy Chief Auditor (202/207-9134, wilsonk@pcaobus.org), Barbara Vanich, Associate Chief Auditor (202/207-9363, vanichb@pcaobus.org), and Nicholas Grillo, Assistant Chief Auditor (202/207-9104, grillon@pcaobus.org).

\* \* \* \* \*

### **I. Introduction**

The Board is adopting Auditing Standard No. 17, *Auditing Supplemental Information Accompanying Audited Financial Statements* (the "standard"). The standard sets forth the auditor's responsibilities when the auditor of the financial statements is engaged to perform audit procedures and report on whether supplemental information accompanying the financial statements is fairly stated, in all material respects, in relation to the financial statements as a whole. The standard supersedes AU sec. 551, *Reporting on Information Accompanying the Basic Financial Statements in Auditor-Submitted Documents*. The Board also is amending certain other related PCAOB auditing standards.

Supplemental information is often in the form of schedules accompanying the financial statements. The Board's existing standard, AU sec. 551, describes the auditor's reporting responsibilities regarding supplemental information accompanying audited financial statements in auditor-submitted documents and does not specify the audit procedures to be applied to test supplemental

information. In contrast, Auditing Standard No. 17 contains audit procedures that are designed to support the auditor's reporting requirements, including procedures to test the supplemental information accompanying the financial statements.

Briefly, the standard requires auditors to perform certain audit procedures when engaged to audit and report on supplemental information accompanying financial statements. Supplemental information is required by regulators, including the Securities and Exchange Commission ("SEC" or "Commission"),<sup>1</sup> who have determined the information is important in carrying out their regulatory oversight. The standard includes auditor performance requirements to (1) determine that the supplemental information reconciles to the underlying accounting and other records or to the financial statements, as applicable; (2) test the completeness and accuracy of the supplemental information, to the extent that it was not tested as part of the audit of the financial statements; and (3) evaluate whether the supplemental information, including its form and content, complies with relevant regulatory requirements or other applicable criteria, if any. The standard has been designed to promote coordination between the work performed on the supplemental information and the work performed on the financial statement audit. This approach should enhance audit effectiveness as well as avoid duplication of audit procedures.

In the Board's view, Auditing Standard No. 17 should provide regulators with greater confidence in the quality and consistency of supplemental information accompanying audited financial statements of brokers,<sup>2</sup> dealers,<sup>3</sup> and others.<sup>4</sup> Supplemental information is often required by regulators for their oversight purposes. For example, the supplemental information brokers and dealers are required to include in their annual reports relates to their compliance with certain SEC rules regarding maintaining minimum net capital and reserves,<sup>5</sup> specifically those governing the safeguarding of customer securities and funds in their filings with the Commission. Also, supplemental information includes schedules included in annual reports filed by employee stock purchase, savings, and similar plans on Form 11-K ("11-K filers"), *For Annual Reports Of Employee Stock Purchase, Savings and Similar Plans Pursuant To Section 15(D) Of The Securities Exchange Act Of 1934*,<sup>6</sup> when those entities elect to file plan financial

---

<sup>1</sup> Rule 17a-5 under the Securities Exchange Act of 1934 ("Exchange Act") requires brokers and dealers registered with the SEC to submit financial reports to the SEC that include audited financial statements as well as certain required supporting schedules ("SEC Rule 17a-5"). See 17 C.F.R. § 240.17a-5. On July 30, 2013, the SEC adopted amendments to SEC Rule 17a-5 to strengthen and clarify broker and dealer financial reporting requirements and also require that broker and dealer audits be conducted in accordance with PCAOB standards. See SEC Exchange Act Release No. 34-70073, *Broker-Dealer Reports* (July 30, 2013), 78 Federal Register 51910 (August 21, 2013) ("SEC Release").

<sup>2</sup> According to PCAOB Rule 1001(b)(iii), the term "broker" means a broker (as defined in Section 3(a)(4) of the Exchange Act) that is required to file a balance sheet, income statement, or other financial statement under Section 17(e)(1)(A) of that Act, where such balance sheet, income statement, or financial statement is required to be certified by a registered public accounting firm.

<sup>3</sup> According to PCAOB Rule 1001(d)(iii), the term "dealer" means a dealer (as defined in Section 3(a)(5) of the Exchange Act) that is required to file a balance sheet, income statement, or other financial statement under Section 17(e)(1)(A) of that Act, where such balance sheet, income statement, or financial statement is required to be certified by a registered public accounting firm.

<sup>4</sup> For example, certain employee benefit plans that are subject to the Employee Retirement Income Security Act of 1974 ("ERISA") file an annual report with the Commission on Form 11-K, which includes the plan's financial statements and schedules prepared in accordance with the financial reporting requirements of ERISA. See 17 C.F.R. § 240.15d-21, 17 C.F.R. § 249.311 and item 4 of the "Required Information" section of SEC Form 11-K "For Annual Reports Of Employee Stock Purchase, Savings And Similar Plans Pursuant To Section 15(D) Of The Securities Exchange Act Of 1934."

<sup>5</sup> See paragraph (d)(2) of SEC Rule 17a-5.

<sup>6</sup> See 29 C.F.R. § 2520.103-1.

statements and schedules prepared in accordance with the financial reporting requirements of the Employee Retirement Income Security Act of 1974.<sup>7</sup>

## II. Background

On July 12, 2011, the Board proposed a new standard, *Auditing Supplemental Information Accompanying Audited Financial Statements* (the "proposed standard"), to improve the quality of audit procedures performed and related reports on supplemental information, including supplemental information that is included in SEC filings.

The Board received eleven comment letters on the proposed standard. Most commenters were supportive of the Board's effort to improve the auditing standards in this area. Also, comments were provided on certain requirements or other specific aspects of the proposed standard. For example, a number of comments related to the specific wording of the opinion the auditor would express regarding the supplemental information. While commenters generally supported the Board's efforts to retain the "in relation to" opinion from AU sec. 551, some commenters stated that some of the language in the proposed standard implied that the auditor was required to perform a stand-alone audit of the supplemental information. Some commenters also stated that the required language in the auditor's report, in effect, expressed two opinions—one on whether the supplemental information was fairly stated and a second on whether the form and content of the information presented complied with applicable regulatory requirements.

The Board made certain revisions to the standard to address these issues raised by commenters. For example, revisions were made to the language of the standard to clarify that the auditor is required to perform certain procedures regarding the supplemental information rather than a stand-alone audit of that information. Also, the reporting requirements were revised to clarify that the evaluation of compliance with regulatory requirements is a required part of forming an opinion on whether the supplemental information is fairly stated.

Additionally, some commenters stated that the definition of "supplemental information" in the proposed standard was too restrictive and did not encompass some types of supplemental information that currently are reported on by auditors of issuers. Accordingly, the definition in the standard has been revised to take into account those other types of supplemental information by removing the references to SEC filings. However, by its terms, Auditing Standard No. 17 applies only to situations in which an auditor is engaged to perform audit procedures and report on supplemental information that accompanies financial statements audited pursuant to PCAOB standards. The standard does not, by itself, impose an obligation to audit such supplemental information. Rather, such obligations for auditor reporting on supplemental information generally are based on the rules of regulatory agencies requiring supplemental information, such as SEC Rule 17a-5.<sup>8</sup> Also, the standard does not apply if the auditor who is engaged to audit and report on supplemental information did not audit

---

<sup>7</sup> See 17 C.F.R. § 240.15d-21, 17 C.F.R. § 249.311, and item 4 of the "Required Information" section of SEC Form 11-K "For Annual Reports Of Employee Stock Purchase, Savings And Similar Plans Pursuant To Section 15(D) Of The Securities Exchange Act Of 1934."

<sup>8</sup> ERISA Section 103(a)(3)(A) requires a plan administrator to engage an independent auditor to conduct an examination of the plan's financial statements and required schedules in accordance with generally accepted auditing standards (GAAS). See 29 C.F.R. § 2520.103-1. An employee benefit plan that has a reporting obligation under Section 15(d) of the Exchange Act also must file its annual report on Form 11-K with the Commission and engage an auditor to conduct an examination of the plan's financial statements and schedules under PCAOB standards.

the financial statements. In those situations, the auditor of the supplemental information should look to the requirements in AU sec. 623, *Special Reports*.

Appendix 3 discusses comments received on the proposed standard in greater detail.

### III. Considerations in Adopting Auditing Standard No. 17

A number of developments led the Board to re-examine its requirements regarding supplemental information. Primarily, Section 982 of the Dodd-Frank Wall Street Reform and Consumer Protection Act<sup>9</sup> (the "Dodd-Frank Act") gave the Board oversight of audits of brokers and dealers registered with the SEC. Under SEC Rule 17a-5, brokers and dealers are required to submit to the SEC financial reports containing certain schedules, including supporting schedules regarding (i) the computation of net capital; (ii) the computation for determination of reserve requirements; and (iii) information related to the broker's or dealer's possession or control of its clients' assets.<sup>10</sup> These schedules provide important information that can support and assist the Commission and other broker or dealer "designated examining authorities"<sup>11</sup> in their oversight of financial responsibility practices of brokers and dealers. In addition, as described in the SEC's release, one of the SEC's motivations for its amendments to SEC Rule 17a-5 to require that audits of brokers and dealers—including the examination of the financial statements and supplemental schedules in the financial report—be conducted in accordance with PCAOB standards was to "better ensure alignment between broker-dealer audits and the regulatory policy objectives reflected in the Commission's financial responsibility rules."<sup>12</sup>

On July 30, 2013, the Commission adopted amendments to SEC Rule 17a-5 to require, among other things, that an auditor engaged by the broker or dealer provide an audit report based on an auditor's examination of the broker's or dealer's financial report, which consists of the financial statements and supporting schedules, in accordance with the standards of the PCAOB.<sup>13</sup> However, the PCAOB's existing audit standards do not contemplate the SEC's requirements for an auditor's report on the examination of the financial statements and supporting schedules of a broker or dealer. As noted earlier, the Board's existing standard, AU sec. 551, describes the auditor's reporting responsibilities regarding supplemental information accompanying audited financial statements in terms of *auditor-submitted* documents and, additionally, does not specify audit procedures to be applied to test the supplemental information that is provided to the regulator. Accordingly, the Board decided to adopt Auditing Standard No. 17 and align its standard for performing auditing procedures and reporting on supplemental information with the SEC's requirements. Due to the importance of the required supplemental information for regulatory purposes, the Board

---

<sup>9</sup> Pub. L. No. 111-203, 124 Stat. 1376 (July 21, 2010).

<sup>10</sup> See paragraph (d)(2) of SEC Rule 17a-5.

<sup>11</sup> Under SEC Rule 17d-1, *Examination for Compliance with Applicable Financial Responsibility Rules*, a registered broker or dealer that is a member of more than one securities self-regulatory organization may be assigned a "designated examining authority" or "DEA" that is responsible for examining the broker or dealer for compliance with SEC financial responsibility rules. An example of a securities self-regulatory organization that is a DEA is the Financial Industry Regulatory Authority.

<sup>12</sup> See the SEC Release at 208.

<sup>13</sup> See paragraphs (f)(1) and (g)(1) of SEC Rule 17a-5. See also paragraph (d)(1)(i)(C) of SEC Rule 17a-5, which requires that the auditor's report on the examination of the financial report of the broker or dealer be filed with the Commission.

also determined to include audit procedures designed to support the auditor's reporting requirements, including procedures for testing the supplemental information accompanying the financial statements.

Additionally, the amendments to SEC Rule 17a-5 also require certain brokers and dealers to include in their annual reports a compliance report that addresses, among other things, the broker's or dealer's compliance with the SEC rules requiring a broker or dealer to maintain a minimum level of net capital and a reserve of funds or qualified securities in an amount at least equal to the value of the amount of net funds owed to customers of the respective broker or dealer.<sup>14</sup> In conjunction with these recent amendments, the Board also is adopting new standards for attestation engagements (the "attestation standards") that relate to brokers' and dealers' compliance reports required in SEC Rule 17a-5.<sup>15</sup> The requirements in the attestation standards are closely related to the audit requirements in this standard regarding supporting schedules for brokers and dealers. Among other things, the attestation standards emphasize the importance of coordinating the work in the compliance attestation engagement with the audit of the financial statements and audit procedures performed on the schedules required under SEC Rule 17a-5.<sup>16</sup>

In addition to the schedules required by SEC Rule 17a-5, Auditing Standard No. 17 covers supplemental information required to be presented pursuant to the rules and regulations of a regulatory authority when that information is reported on in relation to financial statements that are audited in accordance with PCAOB standards. For example, Auditing Standard No. 17 covers the schedules in Form 11-K of an 11-K filer that elects to file plan financial statements and schedules prepared in accordance with the financial reporting requirements of ERISA ("covered 11-K filer").<sup>17</sup>

In the Board's view, Auditing Standard No. 17 promotes investor protection because of the importance of supplemental information in meeting regulatory objectives regarding audits of financial statements of brokers, dealers, and others. Because such information is often critical to the effectiveness of regulatory oversight, Auditing Standard No. 17 requires the performance of audit procedures to test the supplemental information to support the auditor's report on the supplemental information. The standard also requires the auditor to evaluate whether the supplemental information complies with applicable regulatory requirements, which should help facilitate consistent compliance with regulatory requirements and give regulators greater confidence about the reliability of the supplemental information provided for regulatory oversight activities that are important to investor protection.

For example, in the context of oversight of brokers and dealers, the requirements in the standard for testing and evaluating supplemental information could improve the quality of the supporting schedules that regulators rely on when considering whether the broker or dealer maintains adequate safeguards over customer funds and securities. Also, strengthening and clarifying the auditing requirements for applying procedures and reporting on supplemental information could facilitate consistent compliance with SEC Rule 17a-5.

---

<sup>14</sup> See paragraphs (f)(1), (g)(2)(i) and (ii) of SEC Rule 17a-5. The net capital rule is 17 C.F.R. § 240.15c3-1, and the reserve requirements rule is paragraph (e) of 17 C.F.R. § 240.15c3-3.

<sup>15</sup> See *Standards for Attestation Engagements Related to Broker and Dealer Compliance or Exemption Reports Required by the U.S. Securities and Exchange Commission and Related Amendments to PCAOB Standards*, PCAOB Release No. 2013-007 (October 10, 2013).

<sup>16</sup> *Id.*

<sup>17</sup> The new standard would not apply to 11-K filers that do not make that election because the SEC-required schedules for those 11-K filers are part of the audited financial statements.

For 11-K filers, the requirements in the standard for testing and evaluating supplemental information may increase the quality of information available to investors, especially the plans' participants.

Auditing Standard No. 17 also requires the auditor to coordinate the auditor's work with the financial statement audit. To the extent that the supplemental information relates to information in the financial statements, the enhanced audit attention to the supplemental information could enhance the confidence of regulators and other users in the reliability of the financial statements and supplemental information.

## IV. Overview of Auditing Standard No. 17

Auditing Standard No. 17 is being adopted by the Board substantially as proposed. However, certain revisions have been made by the Board to address issues raised by commenters. The following discussion provides a high-level overview of the standard. Appendix 3 provides a more detailed discussion of the standard, significant comments received, and changes made.

*Scope of the Standard.* The standard applies when the auditor of the company's financial statements is engaged to perform audit procedures and report on supplemental information that accompanies financial statements audited pursuant to PCAOB standards.<sup>18</sup> Such supplemental information includes:

- Supporting schedules that brokers and dealers are required to file pursuant to SEC Rule 17a-5;<sup>19</sup>
- Supplemental information (i) required to be presented pursuant to the rules and regulations of a regulatory authority and (ii) covered by an independent public accountant's report on that information in relation to financial statements that are audited in accordance with PCAOB standards; or
- Information that is (i) ancillary to the audited financial statements, (ii) derived from the company's accounting books and records, and (iii) covered by an independent public accountant's report on that information in relation to the financial statements that are audited in accordance with PCAOB standards.

Thus, the standard covers supplemental information required by regulatory authorities and supplemental information that is voluntarily provided, when the auditor is engaged to report on that information in relation to the financial statements as a whole and the financial statements are audited in accordance with PCAOB standards.

*"In Relation To" Opinion.* Historically, when auditors reported on supplemental information, they often expressed their opinions on the supplemental information "in relation to" the basic financial statements taken as a whole.<sup>20</sup> Audit procedures regarding that supplemental information generally have been performed in conjunction with the audit of the financial statements. The auditor's report on supplemental information under AU sec. 551 is rooted in the concept that the supplemental information is fairly presented "in relation to" the financial statements as a whole. The standard retains the existing "in relation to"

---

<sup>18</sup> Similar to AU sec. 551, the standard does not apply to unaudited supplementary information, such as the information required by Item 302 of Regulation S-K, 17 C.F.R. § 229.302.

<sup>19</sup> See paragraph (d)(2) of SEC Rule 17a-5.

<sup>20</sup> See AU sec. 551.12.

language in the auditor's report; however, it also updates the report to describe the auditor's responsibilities for the supplemental information.<sup>21</sup>

*Performance and Reporting Requirements.* The standard establishes procedural and reporting responsibilities for the auditor regarding supplemental information accompanying financial statements. The standard establishes:

- Requirements that the auditor perform audit procedures to test the supplemental information;
- Requirements that the auditor evaluate the supplemental information, which include evaluating (1) whether the supplemental information, including its form and content, is fairly stated, in all material respects, in relation to the financial statements as a whole, and (2) whether the supplemental information is presented in conformity, in all material respects, with the relevant regulatory requirements or other applicable criteria;
- Requirements that promote enhanced coordination between the work performed on the supplemental information with work performed on the financial statement audit and, if applicable, other engagements, such as a compliance attestation engagement for brokers and dealers; and
- Reporting requirements that clearly articulate the auditor's responsibilities when reporting on supplemental information.

The standard will not apply to schedules prepared pursuant to Regulation S-X, 17 C.F.R. § 210 because those schedules are deemed by SEC rule to be part of the financial statements.<sup>22</sup>

## V. Economic Considerations, including for Audits of Emerging Growth Companies

### A. Economic Considerations

This release, and the related appendices, provide additional detail regarding the background and need for the new standard, Auditing Standard No. 17; significant comments received and alternatives considered; and key differences between the new standard and AU sec. 551. As discussed below, the Board also considered the economic consequences of Auditing Standard No. 17.

At the outset, the Board's objective was to determine that it had an auditing standard appropriate for reporting on the supplemental information required by SEC Rule 17a-5. The Board determined that it was necessary to develop a new auditing standard for supplemental information because the Board's existing standard, AU sec. 551, applies to supplemental information in auditor-submitted documents and does not establish requirements for performing procedures to support the opinion to be expressed on the supplemental information, including procedures for evaluating compliance with corresponding regulatory requirements, if any.

---

<sup>21</sup> Appendix 3 discusses the auditor's "in relation to" opinion in more detail.

<sup>22</sup> See Section 1-01(b) of Regulation S-X, 17 C.F.R. § 210.1-01(b), which states in part, "the term financial statements ... shall be deemed to include all notes to the statements and all related schedules." See also Appendix 3 of this release.

In developing Auditing Standard No. 17, the Board sought to develop a new auditing standard that takes into account the SEC's requirements for supplemental information in SEC Rule 17a-5. As part of its process, the Board also considered the SEC's economic analysis for its amendments to SEC Rule 17a-5, which included considerations relating to efficiency, competition, and capital formation. Notably, the SEC's analysis considers the economic effects, including the costs and benefits, of the required use of PCAOB standards, and discusses the impact of such change on audits of financial statements and supporting schedules that are required by the SEC to be filed by registered brokers and dealers pursuant to SEC Rule 17a-5.<sup>23</sup>

In addition to considering the SEC's requirements and economic analysis, the Board also took into account other related economic considerations, including comments received on the proposed standard, as discussed further below.<sup>24</sup>

## 1. Economic Baseline

Regulators such as the SEC make the determination regarding whether an entity must file supplemental information and whether auditors are required to report on that information.

To the Board's knowledge, the only entities that are required to file supplemental information to which the standard would apply are (1) brokers and dealers pursuant to SEC Rule 17a-5<sup>25</sup> and (2) covered 11-K filers.

Accordingly, the Board's consideration of the economic consequences of Auditing Standard No. 17 takes into account how the new standard differs from the pre-existing auditing standards applicable to supplemental information required in audits of brokers and dealers and covered 11-K filers.

For brokers and dealers, as discussed previously, the SEC's amendments to Rule 17a-5 require audits of brokers and dealers to be conducted in accordance with PCAOB standards. This includes the examination of the financial report, which consists of the financial statements and supporting schedules. Before the SEC's amendments to Rule 17a-5, audits of brokers and dealers were performed under generally accepted auditing standards ("GAAS"), established by the American Institute of Certified Public Accountants ("AICPA"). Specifically, AU-C Section 725-C, *Supplementary Information in Relation to the Financial Statements as a Whole*, addressed the auditor's responsibilities when auditors were engaged to report on supplemental information in relation to audited financial statements.

For covered 11-K filers, auditors generally use the reporting language in AU sec. 551 in preparing their auditor's reports on the supplemental information under PCAOB standards.

Both GAAS and AU sec. 551 use an "in relation to" approach to reporting. That is, the auditor's report on the supplemental information generally presents an

---

<sup>23</sup> See the SEC Release at 220-226. Notably, after analysis of the views of commenters on the costs of the SEC's proposal to replace GAAS with PCAOB standards with respect to audits of brokers and dealers, the SEC concluded that the Commission "does not expect that a requirement that an audit of financial statements and supporting schedules be conducted in accordance with the standards of the PCAOB instead of with GAAS will result in substantial changes for broker-dealer audit programs and therefore the Commission does not anticipate that this change will result in significant costs to broker-dealers in the form of increased audit fees."

<sup>24</sup> The Board did not specifically request comments that attempted to quantify costs related to the auditing standard, but the Board did request comment on the appropriateness of the standard and received comments that pertained to audit effort and related costs that it considered. The discussion in this section reflects the Board's qualitative assessment of the standard.

<sup>25</sup> See paragraphs (d)(1)(i)(A) and (d)(2) of SEC Rule 17a-5.

opinion on whether the supplemental information is fairly stated in all material respects "in relation to" the audited financial statements taken as a whole. When reporting using the "in relation to" approach, the materiality considerations generally are the same as those used in forming an opinion on the basic financial statements taken as a whole.<sup>26</sup> However, GAAS includes requirements for audit procedures to be applied to the supplemental information, whereas AU sec. 551 generally does not specify audit procedures.

## 2. Consideration of Alternatives of Audit Approach

In developing Auditing Standard No. 17, the PCAOB sought to adopt a standard that is tailored to the circumstances under which supplemental information is required in SEC filings of brokers and dealers and covered 11-K filers.

Two principal alternatives were considered in developing the new standard<sup>27</sup>—

- A stand-alone audit of the supplemental information
- An "in relation to" approach

As adopted, Auditing Standard No. 17 builds on existing auditing standards by retaining the "in relation to" approach for reporting on supplemental information "in relation to" the financial statements as a whole. The PCAOB assessed the alternative, which would have required the supplemental information to be audited on a stand-alone basis. In the Board's view, the stand-alone alternative could require substantial additional audit effort because the materiality considerations would be substantially lower than in an "in relation to" approach.<sup>28</sup> The Board does not believe that this additional audit effort would enhance the quality of supplemental information significantly over properly performed testing and evaluation under the "in relation to" approach. In the Board's view, the use of the "in relation to" approach—together with the required coordination with the work on the financial statement audit—can accomplish the objectives of the financial statement audit and audit procedures on the supplemental information with more efficient use of resources than the alternative stand-alone approach.

Commenters on the proposed standard generally supported the use of the "in relation to" approach and generally observed that the "in relation to" audit opinion meets the needs of users in a cost-effective manner. Nothing in the comments received indicates that an "in relation to" opinion on supplemental information is inadequate for users of that information.

## 3. Additional Considerations

As discussed in more detail in Appendix 3, Auditing Standard No. 17 differs from AU sec. 551 in the following key respects:

- Auditing Standard No. 17 specifies audit procedures to be applied to test supplemental information, while AU sec. 551 generally does not specify audit procedures. Furthermore, those audit procedures include consideration of the regulatory requirements for supplemental information, for example, requirements to evaluate

---

<sup>26</sup> See e.g., AU sec. 551.08, which provides that the "measurement of materiality" under that standard is the same as that used in forming an opinion on the financial statements.

<sup>27</sup> The preceding section discusses the Board's decision to adopt a new standard rather than retain AU sec. 551.

<sup>28</sup> In a stand-alone audit, the auditor would apply materiality considerations for the supplemental information by itself, which typically would be substantially lower than the materiality level for the financial statements as a whole. See e.g., paragraph .13 of AU sec 623.

whether the supplemental information complies with the applicable regulatory requirements.

- The new audit procedures are risk-based so that the required level of testing of the supplemental information is commensurate with the risks of material misstatement.
- Auditing Standard No. 17 requires that the audit procedures on the supplemental information be "planned and performed" "in conjunction with" the auditor's work on the financial statement audit and, if applicable, other engagements.

In developing Auditing Standard No. 17, the Board has taken note of observations from its oversight activities regarding the inconsistencies and deficiencies in auditing practices regarding the application of auditing procedures to supplemental information. For example, a 2013 PCAOB inspection report on audits of brokers and dealers, which were performed under GAAS, indicated that PCAOB inspections staff in their inspections of broker and dealer audits identified auditing deficiencies in 57 of 60 audits and that deficiencies in auditing procedures regarding supporting schedules were among the most frequently noted deficiencies in compliance with audit requirements.<sup>29</sup>

The Board believes that strengthening and clarifying the requirements for supplemental information—and tailoring the required procedures for the supplemental information required by regulatory authorities—will promote consistent auditor performance to support audit reports on supplemental information. Similarly, the risk-based approach set forth in the standard should direct auditors to devote more audit attention to the areas of greatest risk to material misstatement of the supplemental information. The auditor's enhanced focus on the supplemental information should help give regulators greater confidence about the reliability of the supplemental information used in their regulatory oversight, which is important to investor protection. For example, as noted previously, in the context of oversight of brokers and dealers, the audit performance requirements in the standard could improve the quality of supplemental information that regulators rely on when considering whether the broker or dealer maintains adequate safeguards over customer funds and securities.

The Board also has taken into account cost considerations in developing Auditing Standard No. 17. As discussed previously, the use of the "in relation to" approach can accomplish the objectives of the financial statement audit and audit procedures on the supplemental information with more efficient use of resources than the alternative stand-alone approach. Also, the risk-based approach helps avoid unnecessary procedures by focusing audit attention on areas of higher risk. Furthermore, the required coordination of the audit procedures on the supplemental information with the audit of the financial statements—and other engagements, when applicable—helps avoid unnecessary duplication of audit procedures. These measures can facilitate the transition to the new standard and help lessen the effects of the associated costs.

Auditing Standard No. 17 has some commonalities with GAAS, for example, the "in relation to" approach and the requirement to apply audit procedures to

---

<sup>29</sup> See *Second Report on the Progress of the Interim Inspection Program Related to Audits of Brokers and Dealers*, PCAOB Release No. 2013-006 (August 19, 2013), which reports that PCAOB inspection staff identified auditing deficiencies in 57 of the 60 audits of brokers and dealers selected for inspection and that deficiencies in compliance with audit requirements for brokers and dealers under the Exchange Act that were among the most frequently noted by PCAOB inspection staff included deficiencies in audit procedures related to net capital and customer reserve supporting schedules, compliance with the conditions of the exemption claimed by the broker or dealer, and the accountant's supplemental report on material inadequacies. See PCAOB Release 2013-006, Executive Summary, at ii.

the supplemental information. This should help facilitate the transition from GAAS to Auditing Standard No. 17 generally and lessen the associated costs for 11-K filers that are audited under both GAAS and PCAOB standards.

The PCAOB acknowledges that the new standard will create some additional compliance costs for affected market participants. These costs include the one-time implementation costs for registered firms to update their audit methodologies to reflect the new standard and train their personnel. However, because, as mentioned above, the new standard builds on concepts in existing standards and has commonalities with GAAS, the PCAOB does not anticipate that changes associated with initial implementation will result in significant costs to auditors (or to brokers and dealers or covered 11-K filers in the form of increased audit fees).

Further compliance costs, which are associated with audit effort, may depend on auditors' existing auditing practices under pre-existing auditing standards and the size and complexity of the entity being audited.

The Board has taken note of the views of commenters on the proposed standard in assessing economic considerations. Some auditors who commented on the Board's proposal indicated that the procedures required by the proposed auditing standard were similar to their current practices. Comments from other auditors suggested that they did not perform specific procedures to test supplemental information. To the extent that auditors already are testing supplemental information, the PCAOB does not anticipate significant incremental costs associated with compliance with Auditing Standard No. 17. Those incremental costs might be somewhat higher for auditors that have not been performing specific tests of supplemental information.<sup>30</sup>

Auditing Standard No. 17 is designed to be scalable based on an entity's size and complexity. Specifically, the audit effort under the standard likely will be greater for entities that have more supplemental information or more complex supplemental information. For example, audit effort generally would be greater for larger, more complex brokers or dealers that carry securities for customers than for smaller, less complex brokers that neither carry nor clear securities. Similarly, audit effort generally would be greater for larger, more complex covered 11-K filers that have more investments and reportable transactions subject to regulatory reporting requirements.

## B. Applicability to Audits of Emerging Growth Companies

The Board is adopting Auditing Standard No. 17 pursuant to its authority under the Sarbanes-Oxley Act of 2002 ("Sarbanes-Oxley" or the "Act").<sup>31</sup>

---

<sup>30</sup> The auditors whose comments suggested that they did not perform specific procedures on supplemental information did not address in their letters their current practices for complying with GAAS, which requires audit procedures for supplemental information. To the extent that those auditors apply audit procedures to supplemental information in audits under GAAS, the Board anticipates that the costs of transitioning to Auditing Standard No. 17 would not be significant.

<sup>31</sup> Pub. L. No. 107-204, 116 Stat. 745 (2002). Under Section 101 of the Act, the mission of the PCAOB is to oversee the audit of companies that are subject to the securities laws, and related matters, in order to protect the interests of investors and further the public interest in the preparation of informative, accurate, and independent audit reports. Section 103 of the Act authorizes the Board to adopt auditing standards for use by registered public accounting firms in the preparation and issuance of audit reports "as required by [the] Act or the rules of the Commission, or as may be necessary or appropriate in the public interest or for the protection of investors."

Before rules adopted by the Board can take effect, they must be approved by the SEC. Pursuant to Section 107(b)(3) of Sarbanes-Oxley, the SEC shall approve a proposed rule if it finds that the rule is "consistent with the requirements of [the] Act and the securities laws, or is necessary or appropriate in the public interest or for the protection of investors."

Additionally, Section 104 of the Jumpstart Our Business Startups Act ("JOBS Act")<sup>32</sup> amended Sarbanes-Oxley to provide that any additional rules adopted by the PCAOB after April 5, 2012 do not apply to audits of emerging growth companies ("EGCs")<sup>33</sup> unless the SEC "determines that the application of such additional requirements is necessary or appropriate in the public interest, after considering the protection of investors, and whether the action will promote efficiency, competition, and capital formation."<sup>34</sup>

The following discussion is intended to provide information that may assist the SEC in any determination it may make regarding whether to apply the new standard to audits of EGCs.

As noted above, Auditing Standard No. 17:

- Strengthens and clarifies the audit requirements regarding supplemental information to promote consistent audit performance and compliance with regulatory requirements, which can enhance the quality of information that is used in regulatory oversight for investor protection and, with respect to covered 11-K filers, increase the quality of information available to investors;
- Helps lessen the effects of the costs associated with the new auditing standard by retaining the "in relation to" approach, setting forth a risk-based approach for the required audit procedures, and requiring coordination with the financial statement audit to avoid redundancy in testing; and
- Is designed to be scalable based on the size and complexity of the entity.

The PCAOB has begun monitoring implementation of the JOBS Act to better understand the characteristics of EGCs and inform the Board's considerations regarding whether it should recommend to the SEC that it apply the new standard and related amendments to audits of EGCs. Based on the PCAOB's research of self-identified EGCs, a substantial majority of EGCs are smaller reporting companies that began reporting under the Exchange Act in 2012 or later.<sup>35</sup>

---

<sup>32</sup> Pub. L. No. 112-106, 126 Stat. 306 (2012).

<sup>33</sup> Section 3(a)(80) of the Exchange Act defines the term "emerging growth company." An issuer generally qualifies as an EGC if it has total annual gross revenue of less than \$1 billion during its most recently completed fiscal year (and its first sale of common equity securities pursuant to an effective Securities Act registration statement did not occur on or before December 8, 2011.) See JOBS Act Section 101(a), (b), and (d). Once an issuer is an EGC, it retains its EGC status until the earliest of: (i) the first year after it has total annual gross revenue of \$1 billion or more (as indexed for inflation every five years by the SEC); (ii) the end of the fiscal year after the fifth anniversary of its first sale of common equity securities under an effective Securities Act registration statement; (iii) the date on which the company issues more than \$1 billion in nonconvertible debt during the prior three-year period; or (iv) the date on which it is deemed to be a "large accelerated filer" under the Exchange Act (generally, an entity that has been public for at least one year and has an equity float of at least \$700 million).

<sup>34</sup> See Section 103(a)(3)(C) of Sarbanes-Oxley (15 U.S.C. 213(a)(3)), as added by Section 104 of the JOBS Act, Pub. L. No. 112-106 (April 5, 2012).

<sup>35</sup> See Appendix 7 of *The Auditor's Report on an Audit of Financial Statements When the Auditor Expresses an Unqualified Opinion, Reports on Audited Financial Statements, and The Auditor's*

(continued)

Currently, the PCAOB is not aware of EGCs for which auditors would be required to apply this standard. PCAOB staff has performed research on filings of self-identified EGCs. Text searches were used to identify any issuers with audit reports that opine on supplemental information required by Rule 17a-5, and PCAOB staff read the most recent filings of those companies. For those companies for which audited financial statements were available and based on information included in the most recent audited financial statements filed as of May 15, 2013, PCAOB staff has observed that none of the EGCs is a broker or dealer or an 11-K filer. The staff observed one SEC filing containing supplemental information for which an auditor expressed an opinion. Based on the nature of the supplemental information filed, it appears that the issuer included the supplemental information voluntarily rather than pursuant to a requirement specified by rule.

As noted previously, to the Board's knowledge, the only entities that are required to file supplemental information to which Auditing Standard No. 17 will apply are (1) brokers and dealers pursuant to SEC Rule 17a-5 and (2) covered 11-K filers. PCAOB staff has discussed the applicability of the JOBS Act to this rulemaking with the SEC staff. The reporting regimes for registered brokers and dealers under SEC Rule 17a-5 and the reporting regime for employee benefit plans that must comply with financial reporting requirements under both ERISA and the SEC are separate and distinct from those for companies subject to reporting requirements pursuant to Section 13 and 15 of the Exchange Act or for a Securities Act registration statement. The Board defers to the SEC on the applicability of the JOBS Act to this rulemaking for these entities and stands ready to assist the SEC with any additional analysis that may become necessary.

In the event that the standard would be applied to an EGC, the Board has no reason to believe that the economic effects on those EGCs would be different from those described previously for brokers, dealers, and covered 11-K filers. Accordingly, and pursuant to the foregoing discussions, the PCAOB requests that the Commission, to the extent necessary, determine that it is necessary or appropriate in the public interest, after considering the protection of investors and whether the action will promote efficiency, competition, and capital formation, to apply these amendments to audits of EGCs.

## VI. Effective Date

Auditing Standard No. 17 will be effective, subject to approval by the SEC, for audit procedures and reports on supplemental information that accompanies financial statements for fiscal years ending on or after June 1, 2014. This effective date coincides with the effective date for the corresponding amendments to SEC Rule 17a-5.<sup>36</sup>

## Appendix 1 – Auditing Standard No. 17

### Auditing Supplemental Information Accompanying Audited Financial Statements

#### Introduction

1. This standard sets forth the auditor's responsibilities when the auditor of the company's financial statements is engaged to perform audit procedures and report on **supplemental information**<sup>1</sup> that accompanies financial statements<sup>2</sup> audited pursuant to Public Company Accounting Oversight Board ("PCAOB") standards.

#### Objective

2. The objective of the auditor of the financial statements, when engaged to perform audit procedures and report on supplemental information that accompanies audited financial statements, is to obtain sufficient appropriate audit evidence to express an opinion on whether the supplemental information is fairly stated, in all material respects, in relation to the financial statements as a whole.

#### Performing Audit Procedures on Supplemental Information Accompanying Audited Financial Statements

3. The auditor should perform audit procedures to obtain appropriate audit evidence that is sufficient to support the auditor's opinion regarding whether the supplemental information is fairly stated, in all material respects, in relation to the financial statements as a whole. The nature, timing, and extent of audit procedures necessary to obtain sufficient appropriate audit evidence and to report on the supplemental information depends on, among other things:

- a. The risk of material misstatement of the supplemental information;
- b. The materiality considerations relevant to the information presented;

Note: When planning and performing the audit procedures to report on supplemental information, the auditor generally should use the same materiality considerations as those used in planning and performing the audit of the financial statements.<sup>3</sup> However, if applicable regulatory requirements specify a lower materiality level to be applied to certain supplemental information, the

---

<sup>1</sup> Terms defined in Appendix A, Definitions, are set in **boldface type** the first time they appear.

<sup>2</sup> For purposes of this standard, supplemental information "accompanies financial statements" when it is (1) presented in the same document as the audited financial statements, (2) presented in a document in which the audited financial statements are incorporated by reference, or (3) incorporated by reference in a document containing the audited financial statements.

<sup>3</sup> Auditing Standard No. 11, *Consideration of Materiality in Planning and Performing an Audit*, establishes requirements regarding the auditor's consideration of materiality in planning and performing an audit.

auditor should use those prescribed threshold requirements in planning and performing audit procedures for the supplemental information.

- c. The evidence obtained from the audit of the financial statements and, if applicable, other engagements by the auditor or affiliates of the firm,<sup>4</sup> for the period presented; and

Note: The procedures performed regarding the supplemental information should be planned and performed in conjunction with the audit of the financial statements. For audits of brokers and dealers, the procedures should be coordinated with the attestation engagements related to compliance or exemption reports required by the U.S. Securities and Exchange Commission ("SEC").<sup>5</sup> The auditor should take into account relevant evidence from the audit of the financial statements and, for audits of brokers or dealers, the attestation engagements, in planning and performing audit procedures related to the supplemental information and in evaluating the results of the audit procedures to form the opinion on the supplemental information.

- d. Whether a qualified opinion, an adverse opinion, or a disclaimer of opinion was issued on the financial statements.

4. In performing the audit procedures on supplemental information, the auditor should:

- a. Obtain an understanding of the purpose of the supplemental information and the criteria management used to prepare the supplemental information, including relevant regulatory requirements;
- b. Obtain an understanding of the methods of preparing the supplemental information, evaluate the appropriateness of those methods, and determine whether those methods have changed from the methods used in the prior period and, if the methods have changed, determine the reasons for and evaluate the appropriateness of such changes;
- c. Inquire of management about any significant assumptions or interpretations underlying the measurement or presentation of the supplemental information;
- d. Determine that the supplemental information reconciles to the underlying accounting and other records or to the financial statements, as applicable;
- e. Perform procedures to test the completeness and accuracy of the information presented in the supplemental information to the extent that it was not tested as part of the audit of financial statements; and
- f. Evaluate whether the supplemental information, including its form and content, complies with relevant regulatory requirements or other applicable criteria, if any.

---

<sup>4</sup> The term "affiliates of the firm" as used in this standard has the same meaning as the term "affiliates of the accounting firm" as defined in PCAOB Rule 3501.

<sup>5</sup> See Attestation Standard No. 1, *Examination Engagements Regarding Compliance Reports of Brokers and Dealers*, and Attestation Standard No. 2, *Review Engagements Regarding Exemption Reports of Brokers and Dealers*.

## Management Representations

5. The auditor should obtain written representations from management, including:
- a. A statement that management acknowledges its responsibility for the fair presentation of the supplemental information and, if applicable, the form and content of that supplemental information, in conformity with relevant regulatory requirements or other applicable criteria;
  - b. A statement that management believes the supplemental information, including its form and content, is fairly stated, in all material respects;
  - c. A statement that the methods of measurement or presentation have not changed from those used in the prior period or, if the methods of measurement or presentation have changed, the reasons for such changes and why those changes are appropriate;
  - d. If the form and content of the supplemental information is prescribed by regulatory requirements or other applicable criteria, a statement that the supplemental information complies, in all material respects, with the regulatory requirements or other applicable criteria, and identification of those requirements or other applicable criteria; and
  - e. A description of any significant assumptions or interpretations underlying the measurement or presentation of the supplemental information, and a statement that management believes that such assumptions or interpretations are appropriate.

## Evaluation of Audit Results

6. To form an opinion on the supplemental information, the auditor should evaluate whether the supplemental information, including its form and content, is fairly stated, in all material respects, in relation to the financial statements as a whole, including whether the supplemental information is presented in conformity, in all material respects, with the relevant regulatory requirements or other applicable criteria.

7. The auditor should accumulate misstatements regarding the supplemental information identified during performance of audit procedures on the supplemental information and in the audit of the financial statements.<sup>6</sup> The auditor should communicate accumulated misstatements regarding the supplemental information to management on a timely basis to provide management with an opportunity to correct them.

8. The auditor should evaluate whether uncorrected misstatements related to the supplemental information are material, either individually or in combination with other misstatements, taking into account relevant quantitative and qualitative factors.

---

<sup>6</sup> See paragraph 10 of Auditing Standard No. 14, *Evaluating Audit Results*, which discusses the auditor's responsibilities regarding the accumulation of misstatements in an audit of financial statements.

Note: The auditor should evaluate the effect of uncorrected misstatements related to the supplemental information in evaluating the results of the financial statement audit.<sup>7</sup>

9. The auditor should evaluate the effect of any modifications to the audit report on the financial statements when forming an opinion on the supplemental information:

- a. When the auditor expresses a qualified opinion on the financial statements and the basis for the qualification also applies to the supplemental information, the auditor should describe the effects of the qualification on the supplemental information in the report on supplemental information and should express a qualified opinion on the supplemental information.
- b. When the auditor expresses an adverse opinion, or disclaims an opinion on the financial statements, the auditor should express an adverse opinion, or disclaim an opinion, on the supplemental information, whichever is appropriate.

## Reporting

10. The auditor's report on supplemental information accompanying audited financial statements should include the following:

- a. Identification of the supplemental information.  
Note: Identification may be by descriptive title of the supplemental information or reference to the page number and document where the supplemental information is located.
- b. A statement that the supplemental information is the responsibility of management.
- c. A statement that the supplemental information has been subjected to audit procedures performed in conjunction with the audit of the financial statements.  
Note: If the financial statements are presented in a separate document from the supplemental information or otherwise are not readily identifiable to the user of the supplemental information, the auditor's report on supplemental information should identify the document containing the company's financial statements.
- d. A statement that the audit procedures performed included determining whether the supplemental information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information.
- e. A statement that in forming the auditor's opinion, the auditor evaluated whether supplemental information, including its form and content, complies, in all material respects, with the specified regulatory requirements or other criteria, if applicable.
- f. A statement, if applicable, that the supplemental information is presented on a basis that differs from the financial statements and is not prescribed by regulatory requirements. When such a

---

<sup>7</sup> See paragraph 17 of Auditing Standard No. 14, which discusses evaluation of uncorrected misstatements in the financial statement audit.

statement is made, the report should describe the basis for the supplemental information presentation.

- g. An opinion on whether the supplemental information is fairly stated, in all material respects, in relation to the financial statements as a whole, or a disclaimer of opinion.

**11.** Unless prescribed by regulatory requirements, the auditor may either include the auditor's report on the supplemental information in the auditor's report on the financial statements or issue a separate report on the supplemental information. If the auditor issues a separate report on the supplemental information, that report should identify the auditor's report on the financial statements.

**12.** The date of the auditor's report on the supplemental information in relation to the financial statements as a whole should not be earlier than:

- a. The date of the auditor's report on the financial statements from which the supplemental information was derived, and
- b. The date on which the auditor obtained sufficient appropriate audit evidence to support the auditor's opinion on the supplemental information in relation to the financial statements as a whole.<sup>8</sup>

**13.** The following is an example of an auditor's report on supplemental information when included in the auditor's report on the financial statements:

The [identify supplemental information] has been subjected to audit procedures performed in conjunction with the audit of [Company's] financial statements. The [supplemental information] is the responsibility of the Company's management. Our audit procedures included determining whether the [supplemental information] reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the [supplemental information]. In forming our opinion on the [supplemental information], we evaluated whether the [supplemental information], including its form and content, is presented in conformity with [specify the relevant regulatory requirement or other criteria, if any]. In our opinion, the [identify supplemental information] is fairly stated, in all material respects, in relation to the financial statements as a whole.

**14.** If the auditor determines that the supplemental information is materially misstated in relation to the financial statements as a whole, the auditor should describe the material misstatement in the auditor's report on the supplemental information and express a qualified or adverse opinion on the supplemental information.

**15.** If the auditor is unable to obtain sufficient appropriate audit evidence to support an opinion on the supplemental information, the auditor should disclaim an opinion on the supplemental information. In those situations, the auditor's report on the supplemental information should describe the reason for the disclaimer and state that the auditor is unable to and does not express an opinion on the supplemental information.

---

<sup>8</sup> AU sec. 561, *Subsequent Discovery of Facts Existing at the Date of the Auditor's Report*, sets forth procedures to be followed by the auditor who, subsequent to the date of the report upon audited financial statements becomes aware that facts may have existed at that date that might have affected the report had he or she then been aware of such facts. AU sec. 561 applies to situations in which the auditor identifies a material misstatement of the financial statements while performing audit procedures on supplemental information after the date of the auditor's report on the financial statements.

Note: If the supplemental information consists of two or more schedules, and the auditor is able to obtain sufficient appropriate audit evidence to support an opinion on some but not all schedules, the auditor may express an opinion on only those schedules for which he or she obtained sufficient appropriate evidence but should disclaim an opinion on the other schedules.

## Appendix A

### Definitions

A1. For purposes of this standard, the term listed below is defined as follows:

A2. Supplemental Information—Refers to the following information when it accompanies audited financial statements:

- a. Supporting schedules that brokers and dealers are required to file pursuant to Rule 17a-5 under the Securities Exchange Act of 1934;<sup>1</sup>
- b. Supplemental information (i) required to be presented pursuant to the rules and regulations of a regulatory authority and (ii) covered by an independent public accountant's report on that information in relation to financial statements that are audited in accordance with PCAOB standards; or
- c. Information that is (i) ancillary to the audited financial statements, (ii) derived from the company's accounting books and records, and (iii) covered by an independent public accountant's report on that information in relation to the financial statements that are audited in accordance with PCAOB standards.

## Appendix 2

### Amendments to PCAOB Standards

#### Auditing Standard No. 16, "Communications with Audit Committees"

Auditing Standard No. 16, *Communications with Audit Committees*, is amended as follows:

- a. The second sentence of footnote 27 to paragraph 14 is replaced with:  
In addition to AU sec. 550, discussion of the auditor's consideration of other information is included in Auditing Standard No. 17, *Auditing Supplemental Information Accompanying Audited Financial Statements*, AU sec. 558, *Required Supplementary Information*, and AU sec. 711, *Filings Under Federal Securities Statutes*.

#### AU sec. 9342, "Auditing Accounting Estimates: Auditing Interpretations of Section 342"

AU sec. 9342, "Auditing Accounting Estimates: Auditing Interpretations of Section 342," as amended, is amended as follows:

- a. The second sentence of paragraph .07 is replaced with:  
When the audited disclosures do not constitute a complete balance sheet presentation and are included in a supplemental schedule or exhibit, the auditor should look to the requirements in Auditing Standard No. 17, *Auditing Supplemental Information Accompanying Audited Financial Statements*.
- b. The second sentence of paragraph .08 is replaced with:  
If the unaudited voluntary disclosures are located on the face of the financial statements or in the footnotes, the voluntary disclosures should be labeled "unaudited." If the unaudited information is presented in a supplemental schedule, the voluntary disclosures should be labeled "unaudited" and the auditor should disclaim an opinion on the unaudited information.
- c. In the second flowchart in paragraph .10, "Auditing Guidance for Fair Value Information, Required and Voluntary Information," the box text that states:  
The voluntary disclosures should be labeled "unaudited" and the auditor should disclaim an opinion on the unaudited information as discussed in section 551.13.  
is replaced with:  
The voluntary disclosures should be labeled "unaudited" and the auditor should disclaim an opinion on the unaudited information.
- d. In the second flowchart in paragraph .10, "Auditing Guidance for Fair Value Information, Required and Voluntary Information," the box text that states:

The auditor should add an additional paragraph to the report as discussed in section 551.12

is replaced with:

The auditor should add an additional paragraph to the report. See paragraph 10 of Auditing Standard No. 17, *Auditing Supplemental Information Accompanying Audited Financial Statements*.

### **AU sec. 530, "Dating of the Independent Auditor's Report"**

SAS No. 1, "Codification of Auditing Standards and Procedures," section 530, "Dating of the Independent Auditor's Report" (AU sec. 530, "*Dating of the Independent Auditor's Report*"), as amended, is amended as follows:

Within paragraph .06 at the end of the paragraph, the sentence, "(See Section 551.)" is deleted.

### **AU sec. 550, "Other Information in Documents Containing Audited Financial Statements"**

SAS No. 8, "Other Information in Documents Containing Audited Financial Statements" (AU sec. 550, "*Other Information in Documents Containing Audited Financial Statements*"), as amended, is amended as follows:

a. Within paragraph .03

- At the end of the paragraph, the sentence "(see sections 551\* and 623\*\*)" is replaced with:

(See Auditing Standard No. 17, *Auditing Supplemental Information Accompanying Audited Financial Statements*, and AU sec. 623\*\*).

- Footnote \* to paragraph .03 is deleted.

b. Paragraph .07 is deleted.

### **AU sec. 551, "Reporting on Information Accompanying the Basic Financial Statements in Auditor-Submitted Documents"**

SAS No. 29, "Reporting on Information Accompanying the Basic Financial Statements in Auditor-Submitted Documents" (AU sec. 551, "*Reporting on Information Accompanying the Basic Financial Statements in Auditor-Submitted Documents*") as amended, is superseded.

### **AU sec. 552, "Reporting on Condensed Financial Statements and Selected Financial Data"**

SAS No. 42, "Reporting on Condensed Financial Statements and Selected Financial Data" (AU sec. 552, "*Reporting on Condensed Financial Statements and Selected Financial Data*"), as amended, is amended as follows:

The second sentence in paragraph .01 is replaced with:

Auditing Standard No. 17, *Auditing Supplemental Information Accompanying Audited Financial Statements*, sets forth the auditor's responsibilities when the auditor of the company's financial statements is engaged to perform audit procedures and report on supplemental information that accompanies financial

statements audited pursuant to Public Company Accounting Oversight Board standards.

### **AU sec. 558, "Required Supplementary Information"**

SAS No. 52, "Required Supplementary Information" (AU sec. 558, "*Required Supplementary Information*"), as amended, is amended as follows:

- a. Footnote 3 to paragraph .03 is deleted.
- b. The second sentence of paragraph .05 is replaced with:  
*Auditing Standard No. 17, Auditing Supplemental Information Accompanying Audited Financial Statements*, sets forth the auditor's responsibilities when the auditor of the company's financial statements is engaged to perform audit procedures and report on supplemental information that accompanies financial statements audited pursuant to Public Company Accounting Oversight Board standards.
- c. Footnote 7 to paragraph .08 is replaced with:  
*Auditing Standard No. 17, Auditing Supplemental Information Accompanying Audited Financial Statements*, sets forth the auditor's responsibilities when the auditor of the company's financial statements is engaged to perform audit procedures and report on supplemental information that accompanies financial statements audited pursuant to Public Company Accounting Oversight Board standards.

## Appendix 3

### Additional Discussion of Auditing Standard No. 17

This appendix provides background information and additional detail regarding Auditing Standard No. 17, *Auditing Supplemental Information Accompanying Audited Financial Statements* (the "standard"), which is presented in Appendix 1.

In particular, this appendix discusses significant comments received and revisions made by the Board to the standard to respond to comments. This appendix further describes how the standard will change the requirements from existing PCAOB auditing standards, specifically, AU sec. 551, *Reporting on Information Accompanying the Basic Financial Statements in Auditor-Submitted Documents*.

#### I. Applicability of the Standard and Definition of Supplemental Information (Appendix A—Definitions)

Auditing Standard No. 17 applies when the auditor of the company's financial statements is engaged to perform audit procedures and report on supplemental information that accompanies financial statements audited pursuant to PCAOB standards.

As discussed in the release, the Securities and Exchange Commission ("SEC" or "Commission") and other regulators may require regulated entities, such as brokers and dealers, to file supplemental information with their annual financial reports for regulatory purposes.<sup>1</sup> In other cases, companies may voluntarily provide supplemental information that is derived from, or ancillary to, the company's financial statements audited pursuant to PCAOB standards.

The proposed standard included a definition of the types of supplemental information to which this standard would apply. In response to questions in the proposing release, several commenters stated that the proposed definition was appropriate, while other commenters expressed concern that, as the proposed definition was expressly tailored to supplemental information included in certain SEC filings by brokers and dealers, the definition did not describe all types of supplemental information that auditors of issuers, brokers, and dealers might be engaged to report on.

In particular, several commenters expressed concern that the proposed definition would exclude certain types of supplemental information because that information is not included in SEC filings. One commenter noted that information that is ancillary to financial statements and not otherwise required to be presented pursuant to the rules and regulations of the SEC or another relevant regulatory body, may also be reported on, but not included in an SEC filing. Another commenter gave examples of situations when issuers engage auditors to report on supplemental information that would be excluded under the proposed standard's definition of supplemental information, including subsidiary-specific

---

<sup>1</sup> Rule 17a-5 under the Securities Exchange Act of 1934 ("Exchange Act") requires brokers and dealers registered with the SEC to submit financial reports to the SEC that include audited financial statements as well as certain required supporting schedules ("SEC Rule 17a-5"). See 17 C.F.R. § 240.17a-5. Paragraph (d)(2) of SEC Rule 17a-5 specifically addresses the supporting schedules. See also SEC Exchange Act Release No. 34-70073, *Broker-Dealer Reports* (July 30, 2013), 78 Federal Register 51910 (August 21, 2013) ("SEC Release").

data or information used to calculate financial ratios related to a loan covenant or other contractual provision.

After consideration of these comments, the definition of supplemental information has been revised to remove the references to SEC filings. Auditing Standard No. 17 covers the following types of supplemental information:

- a. Supporting schedules that brokers and dealers are required to file pursuant to SEC Rule 17a-5;<sup>2</sup>
- b. Supplemental information (i) required to be presented pursuant to the rules and regulations of a regulatory authority and (ii) covered by an independent public accountant's report on that information in relation to financial statements that are audited in accordance with PCAOB standards; or
- c. Information that is (i) ancillary to the audited financial statements, (ii) derived from the company's accounting books and records, and (iii) covered by an independent public accountant's report on that information in relation to the financial statements that are audited in accordance with PCAOB standards.

As mentioned previously, the standard covers supplemental information required by regulatory authorities and supplemental information that is voluntarily provided, when the auditor is engaged to report on that information in relation to the financial statements as a whole and the financial statements are audited in accordance with PCAOB standards. However, the standard itself does not impose an obligation to audit such supplemental information.

By its terms, the standard would not apply to unaudited supplemental information. For example, the standard would not apply to the information required by the accounting standards or Item 302 of SEC Regulation S-K, 17 C.F.R. § 229.302. Similarly, auditors should continue to look to the requirements of AU sec. 558, *Required Supplementary Information*, regarding unaudited information about oil and gas producing activities required by Item 302(b) of Regulation S-K 17 C.F.R. § 229.302(b) and Financial Accounting Standards Board's Accounting Standards Codification, Topic 932, Extractive Industries—Oil and Gas, section 932-50-2. Likewise, auditors should continue to look to the requirements of AU sec. 722, *Interim Financial Information*, regarding selected quarterly financial data required by Item 302(a) of Regulation S-K. Additionally, auditors should continue to look to AU sec. 550, *Other Information in Documents Containing Audited Financial Statements*, including Management's Discussion and Analysis of Financial Condition and Results of Operations, unless the auditor is engaged to examine and report on that information.

Further, the standard does not apply if the auditor who is engaged to audit and report on supplemental information did not audit the financial statements. In those situations, the auditor would not have the knowledge of the company's financial statements or the evidence regarding the accounts and disclosures in the financial statements necessary to express an opinion regarding whether the supplemental information is fairly stated, in all material respects, in relation to the financial statements as a whole. Accordingly, in those instances, the auditor of the supplemental information should look to the requirements in AU sec. 623, *Special Reports*.

Some commenters suggested that the standard would not apply to supplemental information prepared after the financial statement audit because of the

---

<sup>2</sup> See paragraph (d)(2) of SEC Rule 17a-5.

requirement in the proposed standard, and related statement in the auditor's report, that the audit procedures on the supplemental information be performed in conjunction with the audit of the financial statements. Auditing Standard No. 17 applies when the auditor of the company's financial statements is engaged to perform audit procedures and report on supplemental information that accompanies audited financial statements, regardless of the timing of the preparation of the supplemental information.

To address issues regarding timing, a footnote was added to paragraph 1 of the standard to clarify that supplemental information "accompanies financial statements" when it is (1) presented in the same document as the audited financial statements, (2) presented in a document in which the audited financial statements are incorporated by reference, or (3) incorporated by reference in a document containing the audited financial statements.

Additionally, the note to paragraph 3.c. of the standard includes the phrase "in conjunction with." That phrase is meant to indicate that the auditor of the financial statements is in a position to take into account other information available as a result of the financial statement audit, but Auditing Standard No. 17 does not require that the two engagements be performed simultaneously. The note to paragraph 3.c. explains the auditor's responsibilities for performing audit procedures on the supplemental information "in conjunction with" the audit of the financial statements. That note states that the auditor should take into account relevant evidence from the audit of the financial statements and the attestation engagements<sup>3</sup> in planning and performing audit procedures related to the supplemental information and in evaluating the results of the audit procedures to form the opinion on the supplemental information. As such, the language in the standard was retained largely as proposed.

## A. Exclusion of Schedules Required by SEC Regulation S-X

Some commenters expressed concern with the definition of supplemental information because of the discussion in the proposing release,<sup>4</sup> which stated that the standard would not apply to schedules prepared pursuant to SEC Regulation S-X.<sup>5</sup> One commenter noted that diversity in practice suggests that these schedules may be considered supplementary and not part of the basic financial statements covered by the standard auditor's opinion. The views of these commenters are not consistent with SEC requirements. Section 1-01(b) of SEC Regulation S-X<sup>6</sup> states "the term financial statements as used...shall be deemed to include all notes to the statements and all related schedules". Thus, it is clear that the schedules required by SEC Regulation S-X are part of the financial statements. As such, no changes were made to the standard.<sup>7</sup>

---

<sup>3</sup> See *Standards for Attestation Engagements Related to Broker and Dealer Compliance or Exemption Reports Required by the U.S. Securities and Exchange Commission and Related Amendments to PCAOB Standards*, PCAOB Release No. 2013-007 (October 10, 2013).

<sup>4</sup> See Section I.A.1 of Proposed Auditing Standard, *Auditing Supplemental Information Accompanying Audited Financial Statements and Related Amendments to PCAOB Standards*, PCAOB Release No. 2011-005 (July 12, 2011).

<sup>5</sup> See Section 1-01(b) of SEC Regulation S-X, 17 C.F.R. § 210.1-01(b).

<sup>6</sup> See e.g., Rules 5-04, 6-10, 6A-05, 7-05, and Article 12 of Regulation S-X, 17 C.F.R. § 210.5-04, 6-10, 6A-05, 7-05, and 12.

<sup>7</sup> The schedules required by SEC Regulation S-X should be referred to in the introductory paragraph and in the opinion of the standard auditor's report set forth in AU sec. 508, *Reports on Audited Financial Statements*.

## II. "In Relation to" the Financial Statements as a Whole (Paragraphs 1 and 2)

As stated in the proposing release, the auditor's report on supplemental information in the standard includes an expression of an opinion on whether the supplemental information is fairly stated, in all material respects, in relation to the financial statements as a whole. In order to express an opinion on the supplemental information the auditor performs the procedures set forth in the standard, to the extent not performed in the course of the audit. The concept of expressing an opinion on the supplemental information "in relation to" the financial statements as a whole carries over from the Board's existing standard for supplemental information, AU sec. 551.

The proposing release requested comment regarding whether to change from the AU sec. 551 "in relation to" approach to reporting on supplemental information to a stand-alone reporting approach. Overall, commenters supported the decision to retain the "in relation to" approach. One commenter stated that it was an appropriate degree of responsibility for supplemental information. Another commenter stated that the level of assurance provided by this type of engagement meets the needs of users in a cost-effective manner.

After consideration of the comments received, the Board determined that the "in relation to" approach remains appropriate for reporting on supplemental information accompanying audited financial statements. Nothing in the comments received indicates that an "in relation to" opinion on supplemental information is inadequate for financial statement users or that the additional cost for stand-alone assurance is warranted for all engagements involving supplemental information. The Board also considered that existing standards, specifically AU sec. 623, establish requirements in those limited situations in which auditors are engaged to audit supplemental information on a stand-alone basis.

Some commenters expressed concern that use of the word "audit" in the introduction and objective paragraphs of the proposed standard implied that the standard requires the auditor to issue a stand-alone audit opinion on supplemental information and that the reference to audit goes beyond the meaning of "in relation to."

The standard does not require the auditor to issue a stand-alone audit opinion on the supplemental information. However, the standard emphasizes that the auditor should perform procedures to obtain sufficient appropriate audit evidence to support his or her opinion that the supplemental information is fairly stated, in all material respects, "in relation to" the financial statements as a whole. To avoid misperceptions, the wording in paragraphs 1 and 2 of the standard has been revised to state, ". . . when the auditor of the company's financial statements is engaged to perform audit procedures and report on supplemental information. . . ." Further, several of the amendments in appendix 2 were revised to reflect this wording.

## III. Materiality (Paragraph 3)

The proposed standard included a requirement for the auditor, in the performance of audit procedures on supplemental information, to use the same materiality considerations as those used in planning and performing the audit of the financial statements. Auditing Standard No. 11, *Consideration of Materiality in Planning and Performing an Audit*, describes the auditor's responsibilities for considering materiality in planning and performing an audit of the

financial statements. Commenters generally supported using the same materiality considerations for supplemental information as those used in the financial statement audit. In general, auditors that are engaged to express an opinion on supplemental information "in relation to" the financial statements as a whole use the same materiality considerations for the audit of the supplemental information as those used in planning and performing the audit of the financial statements.

One commenter recommended that the standard acknowledge instances in which regulatory requirements may prescribe a materiality level for audit procedures over supplemental information that differs from the materiality level used in the audit of the financial statements. As auditors might encounter instances in which this occurs, a note has been added to paragraph 3.b. of the standard stating that "if applicable regulatory requirements specify a lower materiality level to be applied to certain supplemental information, the auditor should use those prescribed threshold requirements in planning and performing audit procedures for the supplemental information." For example, if the supplemental information consisted of a list of transactions over a threshold specified by a regulatory agency, the auditor should use that prescribed threshold in planning and performing the audit procedures to be applied to the supplemental information. This is consistent with the requirement in Auditing Standard No. 11 to use a lower materiality level for accounts and disclosures for which there is a substantial likelihood that misstatements of lesser amounts than the materiality level established for the financial statements as a whole would influence the judgment of a reasonable investor.<sup>8</sup>

Another commenter expressed concern that paragraph 3 of the proposed standard, which requires the auditor to base the nature, timing, and extent of audit procedures on, among other things, the materiality of the information presented, implied that the auditor will undertake a second audit, separate from the audit of the financial statements. Paragraph 3 of the standard does not require the auditor to perform a second audit. The note to paragraph 3.b. specifically provides that the auditor should use the same materiality considerations for the supplemental information as that for the audit of the financial statements. In general, the objective of using the same materiality considerations from the financial statement audit is consistent with the principle of reporting on the supplemental information in relation to the financial statements as a whole. As such, paragraph 3 was retained substantially as proposed. If the auditor is engaged to audit and report on a stand-alone basis (i.e., not "in relation to"), separate and apart from the audit of the financial statement, the auditor should look to the requirements in AU sec. 623. A stand-alone audit of supplemental information under AU sec. 623 is usually more extensive than applying audit procedures and reporting on supplemental information in relation to the financial statements taken as a whole.<sup>9</sup>

## **IV. Performing Audit Procedures on Supplemental Information Accompanying Audited Financial Statements (Paragraphs 3 and 4)**

Similar to AU sec. 551, the standard auditor's report on supplemental information pursuant to Auditing Standard No. 17 includes an opinion on whether

---

<sup>8</sup> See paragraph 7 of Auditing Standard No. 11.

<sup>9</sup> See AU sec. 623.13.

the supplemental information is fairly stated, in all material respects, in relation to the financial statements as a whole. As with any audit opinion, it is necessary for the auditor to obtain reasonable assurance so the auditor has a reasonable basis for that opinion.<sup>10</sup> Accordingly, Auditing Standard No. 17 includes a requirement for the auditor to perform audit procedures to obtain appropriate audit evidence that is sufficient to support the auditor's opinion on the supplemental information in relation to the financial statements as a whole.

At the same time, Auditing Standard No. 17 recognizes that the circumstances in which the auditor expresses an opinion on supplemental information differ from those of a stand-alone audit. That is, the opinion under Auditing Standard No. 17 is expressed in relation to the financial statements as a whole, and the auditor's procedures on the financial statements ordinarily provide substantial evidence that is relevant to the supplemental information. Thus, the standard provides that the nature, timing, and extent of audit procedures necessary to obtain sufficient appropriate audit evidence and to report on the supplemental information depend on, among other things:

- The risk of material misstatement of the supplemental information;
- The materiality considerations relevant to the information presented;
- The evidence obtained from the audit of the financial statements and, if applicable, other engagements by the auditor or affiliates of the accounting firm for the period presented; and
- Whether a qualified opinion, an adverse opinion, or a disclaimer of opinion was issued on the financial statements.

Further, the standard states that the procedures performed regarding the supplemental information should be planned and performed in conjunction with the audit of the financial statements and, for audits of brokers and dealers, the procedures should be coordinated with the attestation engagements related to compliance or exemption reports required by the SEC.<sup>11</sup> One commenter stated that this requirement implies that the auditor would be required to separately consider and document audit planning considerations relative to supplemental information.

While the standard requires the auditor to assess the risk of material misstatement of the supplemental information as part of determining the nature, timing, and extent of audit procedures, the standard allows this assessment to be performed with, and informed by, the planning and performance of procedures relating to the financial statement audit. The auditor's knowledge obtained from the audit of financial statements and any related engagements (such as an attestation engagement) should generally provide necessary knowledge for the auditor to assess the risk of material misstatement regarding the supplemental information.

---

<sup>10</sup> This also is consistent with the requirements of SEC Rule 17a-5, which requires the auditor to perform an examination of the broker's or dealer's financial report, which consists of the financial statements and supplemental schedules. See paragraph (g) of SEC Rule 17a-5. See also the SEC Release at 74, which discusses the SEC's intention that the auditor obtain reasonable assurance regarding the financial statements and supporting schedules of brokers and dealers.

<sup>11</sup> For example, a compliance examination performed pursuant to Attestation Standard No. 1, *Examination Engagements Regarding Compliance Reports of Brokers and Dealers*, includes compliance tests relating to the schedules the broker or dealer used to determine compliance with the SEC's net capital rule, 17 C.F.R. § 240.15c3-1, and the reserve requirements rule, paragraph (e) of 17 C.F.R. § 240.15c3-3.

For example, evidence regarding the completeness and accuracy of the supplemental information that brokers and dealers are required to file pursuant to SEC Rule 17a-5 may be obtained from procedures performed during an attestation engagement regarding compliance for a broker or dealer and include procedures regarding safeguarding securities or compliance with certain SEC rules.

In addition, paragraph 4 of the standard includes requirements for the auditor to perform the following procedures on supplemental information:

- a. Obtain an understanding of the purpose of the supplemental information and the criteria management used to prepare the supplemental information, including relevant regulatory requirements;
- b. Obtain an understanding of the methods of preparing the supplemental information, evaluate the appropriateness of those methods, and determine whether those methods have changed from the methods used in the prior period and, if the methods have changed, determine the reasons for and evaluate the appropriateness of such changes;
- c. Inquire of management about any significant assumptions or interpretations underlying the measurement or presentation of the supplemental information;
- d. Determine that the supplemental information reconciles to the underlying accounting and other records or to the financial statements, as applicable;
- e. Perform procedures to test the completeness and accuracy of information presented in the supplemental information to the extent that it was not tested as part of the audit of financial statements; and
- f. Evaluate whether the supplemental information, including its form and content, complies with relevant regulatory requirements or other applicable criteria, if any.

Some commenters stated that certain of the required procedures in the proposed standard exceeded those procedures necessary to support an auditor's "in relation to" opinion on supplemental information. Commenters stated that the required procedures in paragraph 4.d. and 4.e. expand the scope of the auditor's responsibility as compared to the existing requirements in AU sec. 551 with respect to information that was not derived from the underlying accounting records. One commenter further stated that information not derived from the underlying accounting records, by its nature, is not subject to internal control over financial reporting and likely would not have been subjected to the auditor's procedures in the audit of the financial statements.

In many instances, supplemental information reported on under PCAOB standards is required by regulators that have determined that the information required is important to carrying out their regulatory authority, and users of that information can reasonably expect that an auditor's report on supplemental information means that the supplemental information has been subjected to audit procedures. This is consistent with AU sec. 551.07, which states that the auditor may "choose to modify or redirect certain of the procedures to be applied in the audit of the basic financial statements so that [the auditor] may express an opinion on the accompanying information" under that standard. If, as some commenters suggested, the auditor's procedures are limited to solely those

procedures performed in the financial statement audit, it is possible that few or no audit procedures might be applied directly to the supplemental information in some engagements, and the auditor would have little or no basis for his or her opinion.

One commenter suggested a revision to the proposed requirement regarding the auditor's responsibility for understanding and evaluating the methods used by management to prepare the supplemental information. The commenter recommended that the auditor should evaluate the appropriateness of the methods used by management to prepare the supplemental information, as well as any changes to those methods. Such a suggestion can be viewed as a necessary step in evaluating whether the supplemental information is fairly stated, so the standard has been revised to specifically include that procedure.

One commenter suggested that consultation with legal counsel or other experts may be necessary. The standard does not prohibit such consultations. Other commenters suggested that additional procedures be included in the standard, such as a requirement for the auditor to consider the complexity of the methodology used to prepare supplemental information, particularly in those situations in which complex analytical or sampling techniques have been employed in the preparation of underlying data. These suggestions did not warrant changes to the standard because the suggested examples are factors that affect the risk of material misstatement of the supplemental information, which the standard already addresses in paragraph 3.

## **V. Management Representations (Paragraph 5)**

The proposed standard included a requirement for the auditor to obtain written representations from management. Commenters generally supported the language as proposed. One commenter recommended that the standard include an additional requirement for auditors to obtain a representation that management acknowledge its responsibility for the fair presentation of the supplemental information, including its form and content, in accordance with regulatory requirements or other applicable criteria. This additional requirement has been incorporated into the standard.

One commenter suggested that the standard specifically address management representations with respect to supplemental information arising after the auditor has been engaged to perform the financial statement audit. As discussed previously, the auditor's and management's responsibilities relating to supplemental information are not affected by timing considerations, such as whether or not the audit procedures required for the supplemental information were considered when the auditor was first engaged to audit the financial statements; therefore, no changes were made to the standard to address such circumstances. Further, the standard does not prohibit auditors from obtaining additional representations from management in the case in which the auditor believes additional management representations would be appropriate under the circumstances.

## **VI. Evaluation of Audit Results (Paragraphs 6–9)**

The proposed standard included a requirement for the auditor to evaluate whether the supplemental information, including its form and content, is fairly stated, in all material respects, in relation to the financial statements as a whole, including whether the supplemental information is presented in conformity, in all material respects, with the relevant regulatory requirements

or other applicable criteria. The evaluation should encompass, among other things, whether the information: is complete and accurate, is consistent with the audited financial statements, and complies with relevant regulatory requirements, if applicable.

Commenters generally agreed that the auditor's evaluation of form and content is important to the auditor's evaluation as to whether the supplemental information is fairly stated. One commenter suggested that modification be made to paragraph 6 so that the evaluation of audit results is in the context of the auditor's responsibility to form an opinion on the supplemental information. This recommendation has been reflected in the standard because it provides additional context that helps to clarify the auditor's responsibilities in this area.

Paragraph 9 of the proposed standard included a requirement for the auditor to consider the effect of any modifications to the audit report on the financial statements when evaluating whether the supplemental information is fairly stated, in all material respects, in relation to the financial statements as a whole. One commenter stated that the auditor should be prohibited from expressing an "in relation to" opinion on the supplemental information when an adverse or disclaimer of opinion has been issued. Other commenters suggested that additional guidance would be necessary regarding the effect of modification of the auditor's report on the financial statements on the auditor's report on supplemental information. Some commenters suggested that the standard be revised to follow the requirements in the existing standard more closely regarding when the auditor has issued an adverse opinion or disclaims an opinion on the financial statements.

After consideration of the comments received, the standard was revised to include updated and expanded direction on reporting in these situations. Specifically, paragraph 9 of the standard has been revised to state that the auditor should evaluate the effect of any modifications to the audit report on the financial statements when forming an opinion on supplemental information. The standard provides that:

- a. When the auditor expresses a qualified opinion on the financial statements and the basis for the qualification also applies to the supplemental information, the auditor should describe the effects of the qualification on the supplemental information in the report on supplemental information and should express a qualified opinion on the supplemental information.
- b. When the auditor expresses an adverse opinion, or disclaims an opinion on the financial statements, the auditor should express an adverse opinion, or disclaim an opinion, on the supplemental information, whichever is appropriate.

## VII. Reporting (Paragraphs 10–15)

The proposed standard included requirements regarding reporting on supplemental information that described the auditor's responsibilities when reporting on the types of supplemental information covered by the proposed standard.

The standard does not retain from AU sec. 551 the statement that the supplemental information "is presented for purposes of additional analysis and is not a required part of the basic financial statements." One commenter supported retaining this wording in the standard. However, such a statement could be misunderstood by users as indicating that the supplemental information is supplied on a voluntary basis even when governed by rules regarding content or presentation. In fact, supplemental information presented by brokers, dealers,

and others often is presented in conjunction with audited financial statements to comply with rules of regulatory agencies that generally specify the form and content of the information to be provided.

Further, the standard does not retain from AU sec. 551 the statement that "the audit has been performed for the purpose of forming an opinion on the basic financial statements taken as a whole." One commenter supported including this wording in the standard. However, such a statement could confuse users regarding the relationship between the audit of financial statements and the auditor's "in relation to" opinion on supplemental information given that audit procedures have been performed on the supplemental information that serve to support the auditor's "in relation to" opinion.

The reporting language in the standard is intended to clearly communicate the auditor's responsibilities regarding evaluating the supplemental information. For example, the standard requires the auditor's report to state that the supplemental information has been subjected to audit procedures performed in conjunction with the audit of the financial statements. Also, the standard includes a requirement for the auditor to describe the audit procedures on the supplemental information. This approach differs from the report language provided in AU sec. 551, which provides that the auditor's report should state that the supplemental information has been subjected to the auditing procedures that were applied in the audit of the basic financial statements.

Consistent with AU sec. 551, paragraph 11 of the standard states that, unless prescribed by regulatory requirements,<sup>12</sup> the auditor may either include the auditor's report on the supplemental information in the auditor's report on the financial statements or issue a separate report on the supplemental information. If the auditor issues a separate report on the supplemental information, the standard provides that the auditor's report on the supplemental information should identify the auditor's report on the financial statements.

The standard also includes an example of the auditor's report on supplemental information when included with the auditor's report on the financial statements.

One commenter suggested that the reporting elements include a statement that the supplemental information is the responsibility of management and that such a revision would serve to clarify the auditor's responsibility in this area. This recommendation has been incorporated into the list of required elements in the auditor's report on supplemental information. Some commenters expressed concern that report language in paragraph 13 of the proposed standard, ". . . and accordingly, its form and content comply, in all material respects, with the relevant regulatory requirements," could be viewed as a separate opinion regarding compliance or as conveying more responsibility for form and content than appropriate.

Because the intention of the proposed standard was not to require a stand-alone opinion on the supplemental information or on compliance, the standard includes revised report elements intended to emphasize that the auditor's evaluation of form and content is part of determining whether the supplemental information is fairly stated, in all material respects, in relation to the audited financial statements rather than a separate opinion on compliance. The revisions are also responsive to commenters who were generally supportive that evaluating form and content is important to the auditor's determination of whether

---

<sup>12</sup> For example, paragraph (g)(1) of SEC Rule 17a-5 requires the auditor to prepare an auditor's report on the broker's or dealer's financial report, which covers both the financial statements and supporting schedules.

supplemental information is fairly stated in relation to the audited financial statements.

The standard states that if the auditor is unable to obtain sufficient appropriate audit evidence to support an opinion on the supplemental information, the auditor should disclaim an opinion on the supplemental information. In those situations, the auditor's report on the supplemental information should describe the reason for the disclaimer and state that the auditor is unable to and does not express an opinion on the supplemental information.

If the supplemental information consists of two or more schedules and the auditor is able to obtain sufficient appropriate audit evidence to support an opinion on some but not all schedules, the auditor may express an opinion on only those schedules for which he or she obtained sufficient appropriate evidence but should disclaim an opinion on the other schedules. The standard provides the elements that should be included in the auditor's report on supplemental information, many of which are the same as those included in the proposed standard.

Other commenters expressed concern that the reporting requirements in the proposed standard would require a registered public accounting firm to make a legal determination regarding a company's compliance with relevant regulatory rules. The auditor's report issued pursuant to the standard does not provide, or purport to provide, a legal determination of a broker's or dealer's compliance with the net capital rule or the reserve requirements rule or any other legal determination. However, such a report may be useful to legal counsel or others in making such determinations.

One commenter suggested including a reference to AU sec. 561, *Subsequent Discovery of Facts Existing at the Date of the Auditor's Report*, in the proposed standard. The commenter suggested that this standard might be applicable in situations in which the date of the auditor's report on supplemental information is subsequent to the date of the auditor's report on the financial statements. Such a revision would serve to remind auditors of their responsibilities under AU sec. 561. A footnote to paragraph 12.b. was added to address this topic.

## Appendix 4

# Comparison of the Requirements of Auditing Standard No. 17 with the Analogous Standard of the Auditing Standards Board of the American Institute of Certified Public Accountants

## Introduction

This appendix discusses certain noteworthy differences between requirements of Auditing Standard No. 17, *Auditing Supplemental Information Accompanying Audited Financial Statements*, and the analogous standard of the Auditing Standards Board ("ASB") of the American Institute of Certified Public Accountants ("AICPA"). The analogous standard of the AICPA is Statement on Auditing Standards, *Supplementary Information in Relation to the Financial Statements as a Whole* ("AU-C Section 725").<sup>1</sup> This comparison does not cover the application and explanatory material in the ASB standard.<sup>2</sup> The International Auditing and Assurance Standards Board does not have an analogous standard.

This appendix is provided for informational purposes only. It is not a summary of or substitute for the auditing standard in Appendix 1 or the amendments in Appendix 2. This comparison may not represent the views of the ASB regarding its standard.

## Conditions in Order to Opine on Supplemental Information

### PCAOB

Auditing Standard No. 17 does not include conditions in order to opine on supplemental information. Such conditions are not considered necessary in the standard because the supplemental information covered by Auditing Standard No. 17 is generally required by the SEC or other regulatory bodies.

### ASB

AU-C Section 725 states that, in order to opine on whether the supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole, the auditor should determine that: (a) the supplementary information was derived from, and relates directly to, the underlying

---

<sup>1</sup> These AU-C Sections are contained in Statement on Auditing Standards No. 122, *Statement on Auditing Standards: Clarification and Recodification* ("SAS No. 122"). In October 2011, the ASB adopted SAS No. 122, which contains 39 clarified SASs with "AU-C" section numbers for each clarified SAS. The "AU-C" is a temporary identifier to avoid confusion with references to existing "AU" sections in AICPA Professional Standards.

<sup>2</sup> Paragraph A64 of the AU-C 200, *Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance with Generally Accepted Auditing Standards*, states that although such guidance "does not in itself impose a requirement, it is relevant to the proper application of the requirements of an AU-C section."

accounting and other records used to prepare the financial statements; (b) the supplementary information relates to the same period as the financial statements; and (c) the auditor issued an audit report on the financial statements that contained neither an adverse opinion nor a disclaimer of opinion. Although Auditing Standard No. 17 does not contain such explicit conditions, the scope of Auditing Standard No. 17 is similar to AU-C Section 725 in that both standards apply only when the auditor of the financial statements is engaged to perform audit procedures and report on supplemental information accompanying audited financial statements.

AU-C Section 725 also states that the auditor should determine that the supplementary information will accompany the entity's audited financial statements or that such audited financial statements will be made readily available by the entity. Auditing Standard No. 17 does not require that the supplementary information accompany the entity's audited financial statements, or that such audited financial statements will be made readily available by the entity. Rather, rules of the SEC and other regulatory agencies specify the requirements for filing or furnishing supplemental information, and whether that supplemental information is to be made publically available.

## Performing Audit Procedures on Supplemental Information Accompanying Audited Financial Statements

### PCAOB

Paragraph 4 of Auditing Standard No. 17 requires that the auditor perform the following procedures:

- Obtain an understanding of the purpose of the supplemental information and the criteria management used to prepare the supplemental information, including relevant regulatory requirements;
- Obtain an understanding of the methods of preparing the supplemental information, evaluate the appropriateness of those methods, and determine whether those methods have changed from the methods used in the prior period and, if the methods have changed, determine the reasons for and evaluate the appropriateness of such changes;
- Inquire of management about any significant assumptions or interpretations underlying the measurement or presentation of the supplemental information;
- Determine that the supplemental information reconciles to the underlying accounting and other records or to the financial statements, as applicable;
- Perform procedures to test the completeness and accuracy of the information presented in the supplemental information to the extent that it was not tested as part of the audit of financial statements; and
- Evaluate whether the supplemental information, including its form and content, complies with relevant regulatory requirements or other applicable criteria, if any.

Additionally, a note to paragraph 3.b. of Auditing Standard No. 17 includes a requirement that when planning and performing the audit procedures to report on supplemental information, the auditor generally should use the same materiality considerations as those used in planning and performing the audit of the financial statements. Additionally, that note further states that if applicable regulatory requirements specify a lower materiality level to be applied to certain supplemental information, the auditor should use those prescribed threshold requirements in planning and performing audit procedures for the supplemental information.

## ASB

AU-C Section 725 requires that, in addition to the procedures performed during the audit of the financial statements, in order to opine on whether supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole, the auditor should perform certain procedures using the same materiality level used in the audit of the financial statements.

AU-C Section 725 specifically requires the auditor to inquire of management about the purpose of the supplementary information and the criteria used by management to prepare the supplementary information, such as an applicable financial reporting framework, criteria established by a regulator, a contractual agreement, or other requirements, and to determine whether the form and content of the supplementary information complies with the applicable criteria.

Paragraph 4.a. of Auditing Standard No. 17 includes a requirement for the auditor to obtain an understanding of the purpose of the supplemental information and the criteria management used to prepare the supplemental information, including relevant regulatory requirements.

AU-C Section 725 requires the auditor to obtain an understanding about the methods of preparing the supplementary information and to determine whether the methods of preparing the supplementary information have changed from those used in the prior period and, if the methods have changed, the reasons for such changes.

Paragraph 4.b. of Auditing Standard No. 17 includes requirements that the auditor obtain an understanding of the methods of preparing the supplemental information, evaluate the appropriateness of those methods, and determine whether those methods have changed from the methods used in the prior period, and, if the methods have changed, determine the reasons for and evaluate the appropriateness of such changes. This last requirement can be important in determining whether the form and content of the information complies with relevant regulatory requirements.

AU-C Section 725 requires the auditor to compare and reconcile the supplementary information to the underlying accounting and other records used in preparing the financial statements or to the financial statements themselves. Paragraph 4.d. of Auditing Standard No. 17 includes a requirement for the auditor to determine that the supplemental information reconciles to the underlying accounting and other records or to the financial statements rather than only to those records used in preparing the financial statements. Certain schedules may be required by the SEC or other regulators that are prepared from information not directly used to prepare financial statements.

## Management's Representations

### PCAOB

Paragraph 5 of Auditing Standard No. 17 includes a requirement for the auditor to obtain from management certain written representations regarding the supplemental information.

### ASB

AU-C Section 725 requires the auditor to obtain similar representations from management.

AU-C Section 725 states that the auditor should obtain from management representations that when the supplementary information is not presented with the audited financial statements, management will make the audited financial statements readily available to the intended users of the supplementary information no later than the date of issuance by the entity of the supplementary information and the auditor's report thereon. Auditing Standard No. 17 does not require the auditor to obtain that representation because rules of the SEC and other regulatory agencies specify the requirements for furnishing supplemental information. Further, Auditing Standard No. 177 does not include a requirement that the auditor's report on the supplemental information be included in any document that contains supplemental information for the same reason, so a similar requirement in Auditing Standard No. 17 is not appropriate.

## Evaluation of Audit Results

### PCAOB

Paragraph 6 of Auditing Standard No. 17 includes a requirement that to form an opinion on the supplemental information, the auditor should evaluate whether the supplemental information, including its form and content, is fairly stated, in all material respects, in relation to the financial statements as a whole, including whether the supplemental information is presented in conformity, in all material respects with the relevant regulatory requirements or other applicable criteria.

Paragraph 7 of Auditing Standard No. 17 includes a requirement for the auditor to accumulate misstatements regarding supplemental information identified during performance of audit procedures on the supplemental information and in the audit of the financial statements and to communicate the accumulated misstatements regarding the supplemental information to management on a timely basis to provide management with an opportunity to correct them.

Paragraph 8 of Auditing Standard No. 17 includes a requirement for the auditor to evaluate whether uncorrected misstatements related to the supplemental information are material, either individually or in combination with other misstatements, taking into account relevant quantitative and qualitative factors.

### ASB

AU-C Section 725 requires the auditor to evaluate the appropriateness and completeness of the supplementary information, considering the results of the procedures performed and other knowledge obtained during the audit of the financial statements.

## Reporting

### PCAOB

Paragraph 10 of Auditing Standard No. 17 includes a requirement for the auditor to include certain elements in the auditor's report, including identification of the supplemental information, a statement that the supplemental information is the responsibility of management, a statement that the supplemental information has been subjected to audit procedures performed in conjunction with the audit of the financial statements, and a description of certain audit procedures performed.

Paragraph 10 of Auditing Standard No. 17 also includes a requirement that, if the form and content of the supplemental information are prescribed by regulatory requirements or other applicable criteria, the auditor's report should include a statement that, in forming the auditor's opinion on whether the supplemental information was fairly stated, the auditor evaluated whether supplemental information, including its form and content, complies, in all material respects, with the specified regulatory requirements or other criteria.

Additionally, paragraph 10 of Auditing Standard No. 17 includes a requirement that if the supplemental information is presented on a basis that differs from the financial statements and that basis is not prescribed by regulatory requirements, the report should state that and describe the basis for the presentation.

### ASB

AU-C Section 725 requires the auditor to include in an explanatory paragraph or separate report on supplementary information a statement that the audit was conducted for the purpose of forming an opinion on the financial statements as a whole.

Auditing Standard No. 17 does not include similar language.

---

## PCAOB Release No. 2013-010

# *Amendments to Conform the Board's Rules and Forms to the Dodd-Frank Act and Make Certain Updates and Clarifications*

PCAOB Release No. 2013-010

December 4, 2013

PCAOB Rulemaking  
Docket Matter No. 039

## Summary

After public comment, and in conformance with the Dodd-Frank Wall Street Reform and Consumer Protection Act, the Public Company Accounting Oversight Board ("PCAOB" or "Board") is adopting amendments to tailor certain of its rules to the audits and auditors of brokers and dealers. The amendments include references to audits and auditors of brokers and dealers in relevant Board rules, and call for relevant broker and dealer audit client information on the Board's registration, withdrawal, and reporting forms. The amendments also require that registered firms that audit brokers and dealers comply with certain of the Board's professional practice standards, update a number of Board rules and forms in light of administrative experience, and make certain updates to the Board's Ethics Code.

## Board Contacts

Nancy Doty, Associate General Counsel (202/207-9290, dotyn@pcaobus.org); or Vincent Meehan, Assistant General Counsel (202/591-4208, meehanv@pcaobus.org).

## Compliance Dates

If approved by the U.S. Securities and Exchange Commission ("SEC" or "Commission"), the amendments to the PCAOB's rules, SECPS membership requirements, and Ethics Code will take effect on June 1, 2014. The amendments to Forms 1, 1-WD, 3, and 4 will take effect July 1, 2014. The amendments to Form 2 will take effect April 1, 2015.

\* \* \* \* \*

## I. Introduction

On July 21, 2010, the Dodd-Frank Wall Street Reform and Consumer Protection Act<sup>1</sup> amended various provisions of the Sarbanes-Oxley Act of 2002 ("the

---

<sup>1</sup> Pub. L. No. 111-203, 124 Stat. 1376 (the "Dodd-Frank Act").

Dodd-Frank amendments") and, among other things, gave the PCAOB oversight authority with respect to audits of brokers and dealers that are registered with the SEC.<sup>2</sup> The Dodd-Frank amendments provided the Board with authority to carry out the same types of oversight programs for audits of brokers and dealers that it has carried out with respect to audits of issuers.<sup>3</sup> The legislative history notes that this new authority "permits [the Board] to write standards for, inspect, investigate, and bring disciplinary actions arising out of, any audit of a registered broker or dealer."<sup>4</sup>

On February 28, 2012, the PCAOB proposed to update its rules to conform them to the Dodd-Frank amendments and to make certain other updates and clarifications.<sup>5</sup> The Board received 13 comment letters: 10 from registered public accounting firms (representing a range of large, medium, and small-sized firms), two from accounting-auditing professional associations, and one from an actuary. Commenters generally supported the goal of amending the Board's rules to conform them to the Dodd-Frank Act and to make certain other amendments in light of the Board's administrative experience.<sup>6</sup> Commenters said the proposals were generally consistent with the "goal of enhancing audit quality for the audits of brokers and dealers,"<sup>7</sup> and would "provide added clarity regarding the applicability of the Board's rules and standards to brokers and dealers."<sup>8</sup>

Commenters also raised a number of concerns, focusing especially on the Board's proposals to:

- apply Rule 3523 (Tax Services for Persons in Financial Reporting Oversight Roles) to the audits of brokers and dealers;

---

<sup>2</sup> Section 110 of the Sarbanes-Oxley Act of 2002 ("Sarbanes-Oxley" or the "Act"), which was added by the Dodd-Frank amendments, incorporates the definitions of "broker" in Section 3(a)(4) of the Securities Exchange Act of 1934 ("Exchange Act") and "dealer" in Section 3(a)(5) of the Exchange Act, but includes only those brokers or dealers that are required to file a balance sheet, income statement, or other financial statement under Section 17(e)(1)(A) of the Exchange Act certified by a registered public accounting firm. See Section 110(3) and (4) of the Act.

<sup>3</sup> As defined in Section 2(a)(7) of the Act, "issuer" means an issuer (as defined in Section 3 of the Exchange Act) the securities of which are registered under Section 12 of the Exchange Act, or that is required to file reports under Section 15(d) of the Exchange Act, or that files or has filed a registration statement that has not yet become effective under the Securities Act of 1933 and that it has not withdrawn.

<sup>4</sup> S. Rep. No. 111-176, at 154 (2010). The Dodd-Frank amendments to Section 102(a) of the Act also expanded the Act's registration requirement by making it unlawful for any person that is not a registered public accounting firm to prepare or issue, or to participate in the preparation or issuance of, any audit report with respect to any broker or dealer. Even before the Dodd-Frank amendments, Section 17(e)(1)(A) of the Exchange Act, as amended by Sarbanes-Oxley in 2002, required that the balance sheets and income statements filed with the Commission by registered brokers or dealers be certified by a public accounting firm registered with the PCAOB. Before the Dodd-Frank amendments, however, the Sarbanes-Oxley Act did not give the PCAOB the authority to inspect, set standards for, or engage in investigation and enforcement actions with respect to registered firms that audit brokers and dealers. In July 2013, the SEC adopted amendments to SEC Rule 17a-5 to, among other things, require that broker and dealer audits be conducted in accordance with PCAOB standards and the PCAOB's attestation standards regarding broker and dealer examinations and reviews. See SEC, *Broker-Dealer Reports*, Exchange Act Release No. 70073 (July 30, 2013), 78 FR 51910 (Aug. 21, 2013).

<sup>5</sup> See *Proposed Amendments to Conform the Board's Rules and Forms to the Dodd-Frank Act and Make Certain Updates and Clarifications*, PCAOB Release No. 2012-002 (Feb. 28, 2012). The comment period closed on April 30, 2012.

<sup>6</sup> See Letter of the Center for Audit Quality (Apr. 30, 2012) ("CAQ Comment Letter"); Letter of Deloitte & Touche LLP (Apr. 26, 2012) ("D&T Comment Letter"); Letter of Ernst & Young LLP (Apr. 30, 2012) ("EY Comment Letter"); Letter of KPMG LLP (Apr. 27, 2012) ("KPMG Comment Letter"); Letter of McGladrey & Pullen, LLP (Apr. 27, 2012) ("McGladrey Comment Letter"); Letter of PricewaterhouseCoopers LLP (Apr. 30, 2012) ("PWC Comment Letter").

<sup>7</sup> Letter of Crowe Horwath LLP (Apr. 23, 2012) ("Crowe Horwath Comment Letter").

<sup>8</sup> Letter of Grant Thornton LLP (Apr. 30, 2012) ("Grant Thornton Comment Letter").

- amend Rule 5109 (Rights of Witnesses in Inquiries and Investigations) and Rule 5422 (Availability of Documents for Inspection and Copying); and
- require Form 3 special reporting for withdrawn broker and dealer audit reports (proposed Form 3, Item 3.2) and issuer auditor changes (proposed Form 3, Item 3.3).

As described in more detail below, the Board, after considering comments, is adopting the proposed amendments with modifications to address certain of the commenters' concerns.

The amendments the PCAOB is adopting today include specific references to audits and auditors of brokers and dealers in the Board's rules. The amendments also conform the Board's rules to the Dodd-Frank amendments that (1) clarified the definition of "person associated with a public accounting firm,"<sup>9</sup> (2) permitted the Board to share certain information with foreign auditor oversight authorities,<sup>10</sup> and (3) clarified that the Board's sanctioning authority is not limited to persons who are supervisory personnel at the time a failure to supervise sanction is imposed.<sup>11</sup> Certain rules in each section of the Board's rules, except the funding rules,<sup>12</sup> and the rules related to assistance to non-U.S. authorities in inspections and investigations, are affected by these conforming amendments.<sup>13</sup> These sections are:

Section 1—General Provisions

Section 2—Registration and Reporting

Section 3—Professional Standards (including Auditor Independence)

Section 4—Inspections

Section 5—Investigations and Adjudications

Ethics Code

Beyond these conforming amendments, the PCAOB is adopting three additional categories of amendments that tailor certain of the Board's rules to the audits of brokers and dealers; call for relevant broker and dealer audit client information on the Board's forms; and amend a number of rules in light of the Board's experience administering and enforcing these rules.

First, the PCAOB is tailoring the Board's professional practice standards to the audits of brokers and dealers. As amended, Rule 3521 (Contingent Fees) and Rule 3522 (Tax Transactions) apply to the audits of brokers and dealers to the same extent that they previously applied to the audits of issuers. In contrast, Rule 3523 (Tax Services for Persons in Financial Reporting Oversight Roles), Rule 3524 (Audit Committee Pre-approval of Certain Tax Services), and Rule 3525 (Audit Committee Pre-approval of Non-audit Services Related to Internal Control Over Financial Reporting) will remain limited to services provided to issuer audit clients. The Board also is adding a definition of "audit committee"

---

<sup>9</sup> See Section 2(a)(9)(C) of the Act.

<sup>10</sup> See Section 105(b)(5)(C) of the Act.

<sup>11</sup> See Section 105(c)(6)(A) of the Act.

<sup>12</sup> The Board's funding rules were addressed in a separate PCAOB rulemaking. See *Final Rules for Allocation of the Board's Accounting Support Fee Among Issuers, Brokers, and Dealers, and Other Amendments to the Board's Funding Rules*, PCAOB Release No. 2011-002 (June 14, 2011). While the Board is not substantively amending the funding rules, the Board is making technical amendments to Rules 7103 and 7104. See *infra* note 17.

<sup>13</sup> The Board is not amending the rules in Section 6, which state that the Board may provide assistance to non-U.S. authorities in an inspection or investigation of a registered public accounting firm, because these rules apply to registered firms that audit brokers and dealers without amendment.

so that Rule 3526 (Communication with Audit Committees Concerning Independence) applies to brokers and dealers that may not have organizational structures that include audit committees.

Second, the Board is amending its registration, withdrawal, and reporting forms (Forms 1, 1-WD, 2, 3, and 4), and the general instructions to these forms, to call for relevant broker and dealer audit client information. This information includes, among other things, information identifying each audit report issued by registered firms for broker and dealer audit clients during their annual reporting periods.

Finally, the Board is amending a number of rule provisions and form items in light of administrative experience and to make a number of updates to address events that have occurred since the last time the rules were updated. These amendments, for example, conform Rule 4009 (Firm Response to Quality Control Defects) to a rule adopted by the Commission in July 2010, and eliminate a hard-copy submission requirement from Form 1-WD that the Board believes is unnecessary.

Appendix 1 discusses economic considerations, including the impact the amendments will have on audits of emerging growth companies. Appendix 2 to this release provides the amendments as incorporated into the Board's rules and standards. Appendix 3 provides the amendments to the Board's forms.

## II. Section 1—General Provisions

Rule 1001, in Section 1 of the Board's rules, contains definitions of terms used in the Board's rules. Today's amendments conform definitions in this section to the definitions of terms in the Dodd-Frank amendments, including by amending the terms "audit services" and "other accounting services" to implement Section 102(b)(2)(B) of the Act.<sup>14</sup> The amendments also add the new statutory term "foreign auditor oversight authority" to Rule 1001.<sup>15</sup> Although commenters did not generally address the proposed amendments to Rule 1001, one commenter indicated its general support for these proposals, saying they conform to the provisions of the Dodd-Frank Act.<sup>16</sup>

**"Audit" and "Audit Report" (Rule 1001(a)(v) and (a)(vi)).** The PCAOB is amending the definitions of "audit" and "audit report" to conform these terms to the statutory definitions the Dodd-Frank amendments added to Section 110 of the Act.<sup>17</sup> The amended definitions expand the terms to include not only

---

<sup>14</sup> As part of a separate rulemaking related to the Board's funding rules, the Board adopted amendments to Rule 1001 that added definitions of, among other Rule 1001 terms, "broker," "dealer," and "self-regulatory organization," which are consistent with the definitions in the Dodd-Frank amendments. See PCAOB Release No. 2011-002.

<sup>15</sup> In addition, the Board is reserving Rule 1001(n)(i), and renumbering the definitions of "party" in Rule 1001(p)(iii) and "secretary" in Rule 1001(s)(iii) to correct technical errors in Rule 1001's numbering. In 2011, the Board removed the term "notice" from Rule 1001 without reserving subparagraph (n)(i). See PCAOB Release No. 2011-002, at n.22. Also, prior rule amendments inadvertently resulted in several unrelated definitions being assigned the same subparagraph numbers.

<sup>16</sup> See Grant Thornton Comment Letter.

<sup>17</sup> The Board is also removing the notes accompanying the definitions of "audit" and "audit report." The Board added these notes in 2011 to make clear that the Board's enforcement rules encompass the obligations of auditors with respect to the audits of brokers and dealers. See *Temporary Rule for an Interim Program of Inspection Related to Audits of Brokers and Dealers*, PCAOB Release No. 2011-001, at n.32 (June 14, 2011); *Proposed Temporary Rule for an Interim Program of Inspection Related to Audits of Brokers and Dealers*, PCAOB Release No. 2010-008, at n.19 (Dec. 14, 2010). Today's amendments make these notes unnecessary. Similarly, the amendments to the definitions of "audit" and "audit report" make note three accompanying Rule 7104(b) unnecessary, and the Board is removing this note. The Board is also making a technical correction to Rule 7103(c), which should have consistently referred to brokers and dealers, as well as issuers.

audits of financial statements under PCAOB auditing standards but also examinations of reports, notices, other documents, procedures or controls under PCAOB attestation standards. The Board did not receive comment on the proposed amendments to the definitions of "audit" or "audit report," and the Board is adopting the amendments to these definitions as proposed. The amended definitions recognize that brokers and dealers are required under SEC rules to file reports prepared and issued by auditors based on an examination of, among other things, broker and dealer financial statements and supporting schedules that provide information regarding a broker-dealer's net capital, reserves, and other items.<sup>18</sup> The terms "audit" and "audit report" in the context of SEC Rule 17a-5 apply to reports prepared on a broker's or dealer's financial statements and supporting schedules, compliance report, and exemption report, as well as a supplemental report regarding Securities Investor Protection Corporation ("SIPC") annual general assessment reconciliation or exclusion from SIPC membership, as applicable.<sup>19</sup>

**"Audit Services" and "Other Accounting Services" (Rule 1001(a)(vii) and (o)(i)).** To implement the Dodd-Frank amendments to Section 102(b)(2)(B) of the Act, the Board is amending the terms "audit services" and "other accounting services" to include services provided by auditors to broker and dealer audit clients. Commenters did not address the proposed amendments to the definitions of "audit services" or "other accounting services" and the PCAOB is adopting these definitions as proposed. Because firms provide different services to broker and dealer audit clients than they provide to issuer audit clients, the Board's definitions are tailored to each category of audit client. As discussed in more detail in Section VII below, these amendments will be used in the context of collecting certain fee information on broker and dealer audit clients on Form 1.<sup>20</sup> In the event that a firm has both issuer and broker and dealer audit clients, the fee information will be collected separately for issuer and for broker and dealer audit clients. (The Board, as discussed below, is not imposing an annual reporting requirement with respect to fees for services provided to broker and dealer audit clients on Form 2.)<sup>21</sup>

The Rule 1001 term "audit services," in the context of broker or dealer audit clients, includes professional services related to the audit of a broker's or dealer's financial statements and supporting schedules, as described in SEC Rule 17a-5(d)(2),<sup>22</sup> as well as the report on a broker's or dealer's compliance report, as described in SEC Rule 17a-5(d)(3), a report on a broker's or dealer's exemption report, as described in SEC Rule 17a-5(d)(4), and a report on the broker's or dealer's supplemental report on SIPC annual general assessment reconciliation or exclusion from SIPC membership, as described in SEC Rule 17a-5(e)(4).

To the extent a firm's services and particular fees may overlap these fee categories, the firm must attribute the fees it billed to just one of the fee categories. Applicants must include such fees within the most appropriate category under

---

<sup>18</sup> See generally, SEC Rule 17a-5 under the Exchange Act (17 C.F.R. § 240.17a-5).

<sup>19</sup> See SEC Rule 17a-5(e)(4) and (g). In July 2013, the SEC adopted amendments to SEC Rule 17a-5 to, among other things, strengthen and clarify broker and dealer audit and reporting requirements and require that broker and dealer audits be conducted in accordance with PCAOB standards. See *Broker-Dealer Reports*, Exchange Act Release No. 70073.

<sup>20</sup> See *infra* notes 151-155 and accompanying text.

<sup>21</sup> See *infra* note 177 and accompanying text.

<sup>22</sup> "Audit services" covers professional services rendered for the audit of a broker's or dealer's financial statements and supporting schedules regarding computation and information required under SEC Rules 15c3-1 and 15c3-3. The definition of "non-audit services" remains unchanged. See Rule 1001(n)(ii).

the circumstances. As discussed in more detail below, the Board understands that firms with broker and dealer audit clients have not necessarily maintained billing records in a way that would make precise reporting according to the fee categories always possible. For this reason, the Board expects that estimates will be required to attribute particular billed fees to one of the fee categories on Form 1.<sup>23</sup>

**“Foreign Auditor Oversight Authority” (Rule 1001(f)(iii)).** As proposed, the Board is amending Rule 1001 to include the definition of “foreign auditor oversight authority” to track the definition in Section 2(a)(17) of the Act. The Board did not receive comment on the proposed definition of foreign auditor oversight authority. This definition supports the Board’s authority to share confidential information with its counterparts in other countries.

**“Person Associated with a Public Accounting Firm (and Related Terms)” (Rule 1001(p)(i)).** The PCAOB, as proposed, is amending Rule 1001(p)(i), which defines “person associated with a public accounting firm” (and related terms), consistent with amended Section 2(a)(9) of the Act. The Board is also adding a note to Rule 1001(p)(i) highlighting a related amendment to Section 2(a)(9). The note explains that Section 2(a)(9) has been amended to make clear that, for purposes of the Board’s investigations and disciplinary proceedings, the defined terms include any person associated, seeking to become associated, or formerly associated with a public accounting firm. The note also explains that Section 2(a)(9) makes clear that the Board’s authority to conduct an investigation of any such person applies only with respect to conduct or omissions that occurred while the person was associated or seeking to become associated with a firm, and that the Board’s authority to commence disciplinary proceedings or impose sanctions against any such person applies only with respect to conduct or omissions occurring during such a period or failures to cooperate with investigative demands for testimony, documents, or other information relating to such a period. The legislative history of the Dodd-Frank amendments explains that Congress enacted the revised definition of associated person “to make it clear that [the Board] may sanction or discipline persons who engage in misconduct while associated with a regulated or supervised entity even if they are no longer associated with that entity.”<sup>24</sup>

Commenters asked for guidance regarding the meaning of “seeking to become associated” (as added by the Dodd-Frank Act).<sup>25</sup> The Board believes that inclusion of the phrase “seeking to become associated” in the Act provides the Board with investigative and disciplinary authority over, for example, conduct connected with the preparation and filing with the Board of Form 1 (including the form’s contents and all attachments, exhibits, and correspondence related to the form) and other applications for registration with the Board.

The PCAOB is also amending a provision that the Board included in the definition in its rules but is not included in the statutory definition. Before the Board adopted Rule 1001(p)(i) in 2003, a number of commenters suggested that the definition should be limited to only a public accounting firm’s employees. In response, the Board adopted a provision providing that the persons associated with a particular public accounting firm do not include those persons the firm reasonably believes are persons primarily associated with another

---

<sup>23</sup> See *infra* text accompanying note 156.

<sup>24</sup> H.R. Rep. No. 111-687, at 79 (Dec. 16, 2010) (accompanying H.R. 3817, the Investor Protection Act of 2009).

<sup>25</sup> See CAQ Comment Letter; D&T Comment Letter; Grant Thornton Comment Letter; KPMG Comment Letter.

registered public accounting firm.<sup>26</sup> Experience in administering the rule after its adoption has shown that, in contexts other than registration and reporting, this provision, which is not a part of the statutory definition, may create uncertainty and lead to results inconsistent with the statutory definition. By its terms, the statutory definition has application without regard to the belief of a firm. Accordingly, the Board is adding language to Rule 1001(p)(i) to limit the reasonable belief provision to the context of registration and reporting forms that are completed on behalf of a firm pursuant to Section 2 of the Board's rules, thus making clear that this provision does not otherwise operate to amend the statutory definition. The Board did not receive comment on this aspect of the proposed amendments to the associated person definition and is adopting it as proposed.

The Board also is amending Rule 1001(p)(i) by inserting the words "or entity" after the words "independent contractor," and "or otherwise" after "participates as agent." The phrases "or entity" and "or otherwise" are included in the definition of "Person Associated with a Public Accounting Firm" in Section 2(a)(9) of the Act. Two commenters suggested that these amendments may raise interpretive and implementation questions.<sup>27</sup> The primary purpose of many definitions adopted in 2003 was to narrow terms to allow auditing firms to complete initial registration forms with some certainty and in a relatively short period of time. These rules, however, did not limit or contract the Board's authority under the Act. Now that most firms are registered, it is appropriate for the definition in the Board's rules to reflect the full statutory meaning of the term. As with other provisions of the Act, the Board's interpretation of this defined term will be determined based on specific facts and circumstances.

**"Play a Substantial Role in the Preparation or Furnishing of an Audit Report" (Rule 1001(p)(ii)).** As proposed, the PCAOB is inserting "broker or dealer" throughout this definition to make it clear that the definition extends to audit reports prepared for brokers or dealers, as well as issuers. The Board is also amending this definition to correct an error, by replacing the word "accountant" with "auditor," which is the more appropriate term.<sup>28</sup> The Board did not receive comment on the proposed amendments to the substantial role definition.

**"Professional Standards" (Rule 1001(p)(vi)).** The Board is amending the definition of "professional standards" to conform to the definition of this term in Section 110 of the Act.<sup>29</sup> Under the amended rule, the definition of professional standards is extended to include accounting principles, auditing standards, attestation standards, quality control standards, ethics standards and independence standards relating to the audit reports for brokers and dealers, as well as issuers. The Board did not receive comment on the proposed amendments to the definition of professional standards and is adopting the definition as proposed.

See generally, comment letters available at <http://pcaobus.org/Rules/Rulemaking/Pages/Docket001Comments.aspx>.

<sup>27</sup> See D&T Comment Letter and EY Comment Letter.

<sup>28</sup> "Accountant" is defined in Rule 1001(a)(ii) as a natural person who is a CPA, or who holds an accounting degree, or who holds a license or certification authorizing him or her to engage in auditing or accounting, or who holds a degree other than accounting and participates in audits. "Auditor" is defined in Rule 1001(a)(xii) to mean both public accounting firms registered with the Board and associated persons thereof. The Board is also correcting this error in the notes accompanying Form 1, Items 2.1 and 2.2.

<sup>29</sup> The amendments also remove, as unnecessary, the note accompanying the definition of "professional standards."

**“Suspension” (Rule 1001(s)(iv)).** As proposed, the PCAOB is amending the definition of “suspension” to make it clear that when the Board imposes a suspension on a registered public accounting firm, the firm is prohibited from preparing or issuing, or participating in the preparation or issuance of, any audit report, including audit reports issued for brokers or dealers. The Board did not receive comment on the proposed amendments to the definition of suspension.

### III. Section 2—Registration and Reporting Rules

This section of the PCAOB's rules sets out the requirements for public accounting firms to register with the Board. It also contains provisions for annual and special reporting, the payment of annual fees, and procedures to withdraw from registration with the Board. In addition, Section 2 contains rules governing a firm's request for confidential treatment of information submitted in registration and reporting forms, as well as requests to omit certain information on grounds that providing the information would violate certain non-U.S. laws.

Most of the amendments the Board is making to this section are to add “broker” and “dealer” to those rules that formerly applied only to auditors of issuers. Commenters did not address the Board's proposed amendments to the rules in Section 2, and the Board is adopting the amendments, which are briefly described below, as proposed.

**Application for Registration (Rule 2100).** Section 102(a) of the Act and Rule 2100 require the registration of all public accounting firms that prepare or issue audit reports, or play a substantial role in preparing or furnishing an audit report, with respect to issuers. The Dodd-Frank amendments extended this requirement to auditors of brokers and dealers.<sup>30</sup> The Board is revising Rule 2100 to implement these amendments with respect to registration.

**Standard for Approval (Rule 2106(a)).** Rule 2106(a) sets out the standard for the Board to consider in determining whether to approve a firm's application for registration. The rule is based on Section 101(a) of the Act. The Dodd-Frank amendments broadened Section 101(a) to cover broker and dealer audits, as well as issuer audits. To ensure that Rule 2106(a) continues to track Section 101(a) of the Act, as amended by the Dodd-Frank Act, the Board is revising this rule to remove its last clause.

**Board Action (Rule 2107(d)).** The Board may order that withdrawal of a firm's registration be delayed for a period of up to eighteen months under Rule 2107(d), if it determines that withdrawal is inconsistent with the Board's responsibilities to conduct inspections or investigations. Specifically, Rule 2107(d)(1) refers to “inspections to assess the degree of compliance of each registered public accounting firm and associated persons of that firm with . . . related matters involving issuers.” The Board is amending this provision to encompass brokers and dealers to reflect the Board's expanded authority under the Dodd-Frank amendments.

### IV. Section 3—Professional Standards

Section 3 of the PCAOB's rules establish auditing and related professional practice standards, including attestation, quality control, ethics, and independence standards applicable to registered public accounting firms and their associated persons. In light of the enactment of the Dodd-Frank Act, the Board proposed

---

<sup>30</sup> Section 17(e)(1)(A) of the Exchange Act requires every registered broker and dealer to file with the Commission a balance sheet and income statement certified by a registered public accounting firm.

specific amendments to make Section 3 applicable to audits of brokers and dealers.

Under Section 17 of the Exchange Act and SEC Rule 17a-5 thereunder, brokers or dealers are generally required, among other things, to file with the Commission and with the broker's or dealer's designated examining authority ("DEA") an annual report containing audited financial statements, supporting schedules, supplemental reports, and independent public accountant reports, as applicable.<sup>31</sup> Under the amendments to SEC Rule 17a-5, effective for fiscal years ending on or after June 1, 2014, "independent public accountant" reports must be prepared in accordance with the standards of the PCAOB.<sup>32</sup>

As discussed above, in July 2010, the Dodd-Frank amendments gave the Board authority to establish, subject to Commission approval, auditing and related attestation, quality control, ethics, and independence standards to be used by registered public accounting firms in the preparation and issuance of the audit reports included in broker and dealer filings with the Commission. In September 2010, the Commission issued interpretive guidance clarifying that the "references in Commission rules and staff guidance and in the federal securities laws to generally accepted auditing standards ("GAAS") or to specific standards under GAAS, as they relate to non-issuer brokers or dealers, should continue to be understood to mean" the auditing and attestation standards established by the American Institute of Certified Public Accountants (the "AICPA"), but noted that it intended to revisit this interpretation in connection with a Commission rulemaking project to update the audit and attestation requirements for brokers and dealers in light of the Dodd-Frank Act.<sup>33</sup> In June 2011, the Commission proposed to amend SEC Rule 17a-5 to mandate that the rule's required reports be prepared in accordance with the standards of the PCAOB.<sup>34</sup> Finally, in July 2013, the SEC adopted amendments to SEC Rule 17a-5, directing that auditors of brokers and dealers are to comply with PCAOB standards effective for fiscal years ending on or after June 1, 2014.<sup>35</sup> As a result, the Board's auditing, attestation, quality control, and independence standards apply to audit, attest, and other engagements for brokers and dealers required by Section 17 of the Exchange Act and SEC Rule 17a-5.<sup>36</sup>

## A. General Requirements

Rule 3100 requires registered firms and their associated persons to comply with all applicable auditing and related professional practice standards and Rule 3101 explains the meaning of certain terms used in those standards (such as "must" and "should") that describe the responsibility a PCAOB standard imposes on auditors. Rules 3100 and 3101 are applicable to audits of brokers and dealers required by Section 17 of the Exchange Act and SEC Rule 17a-5.

---

<sup>31</sup> See Section 17(a) and (e) of the Exchange Act and SEC Rule 17a-5(d).

<sup>32</sup> See SEC Rule 17a-5(g), as amended.

<sup>33</sup> SEC, *Commission Guidance Regarding Auditing, Attestation, and Related Professional Practice Standards Related to Brokers and Dealers*, Exchange Act Release No. 62991 (Sep. 24, 2010).

<sup>34</sup> SEC, *Broker-Dealer Reports*, Exchange Act Release No. 64676 (June 15, 2011), 76 FR 57572 (June 27, 2011).

<sup>35</sup> *Broker-Dealer Reports*, Exchange Act Release No. 70073.

<sup>36</sup> In related releases issued recently, the PCAOB adopted standards that are tailored to the SEC's requirements under SEC Rule 17a-5. See *Standards for Attestation Engagements Related to Broker and Dealer Compliance and Exemption Reports Required by the U.S. Securities and Exchange Commission and Related Amendments to PCAOB Standards*, PCAOB Release No. 2013-007 (Oct. 10, 2013), and *Auditing Standard on Auditing Supplemental Information Accompanying Audited Financial Statements*, PCAOB Release No. 2013-008 (Oct. 10, 2013). These standards must be approved by the SEC.

Rules 3200T, 3300T and 3400T generally require registered firms and their associated persons to comply with the AICPA's auditing, attestation, and quality control standards as in existence on April 16, 2003, to the extent not superseded or amended by the Board. Rules 3200T and 3300T, as well as standards adopted by the Board and approved by the Commission, apply to audit, attest, and other engagements for brokers and dealers required under Section 17 of the Exchange Act and SEC Rule 17a-5.

To clarify that Rule 3300T regarding interim attestation standards applies to broker or dealer engagements, the Board is removing the words "for issuers" from the phrase in the rule "audit reports for issuers."<sup>37</sup> As a result, Rule 3300T applies, and the interim standards, as applicable and to the extent not superseded or amended by the Board, must be followed in connection with engagements related to the preparation or issuance of audit reports for brokers and dealers.<sup>38</sup>

Rule 3400T requires, among other things, that certain registered firms—firms that were members of the former SEC Practice Section ("SECPS") of the AICPA—must comply with certain of the SECPS membership requirements that existed as of April 16, 2003, to the extent not superseded or amended by the Board.<sup>39</sup> Under the amendments, the SECPS membership requirements apply to the auditors of brokers and dealers that were members of the SECPS in 2003. This approach is consistent with the previous rule (which applied the SECPS membership requirements only to those registered firms that are former members of the SECPS).

One commenter suggested that Rule 3400T itself should state that the SECPS membership requirements apply to auditors of brokers and dealers that were members of the SECPS in 2003.<sup>40</sup> In response to this comment, the Board has added a note to Rule 3400T to clarify that the SECPS membership requirements only apply to those firms that were members of the SECPS in 2003.

Another commenter expressed concern that applying the former SECPS membership requirements only to firms that were SECPS members in 2003 could result in an unbalanced and disparate application of the Board's requirements.<sup>41</sup> Prior to the Act's enactment, public accounting firms that were members of the SECPS voluntarily committed to satisfying a number of quality control-related requirements, including the quality control requirements the Board is adopting today. The Board notes that only two of the five SECPS membership requirements adopted by the Board apply to audits of brokers or dealers. These two requirements relate to continuing professional education requirements for

---

<sup>37</sup> As noted above, the Board is amending the definition of "audit reports" in Rule 1001 to include auditor examinations of and reports concerning not only financial statements but also reports, notices, other documents, procedures or controls, such as the auditor reports provided in connection with audits of brokers and dealers pursuant to SEC Rule 17a-5. See *supra* notes 17-19 and accompanying text.

<sup>38</sup> In related releases issued recently, the PCAOB adopted standards to align its standards more closely with auditor responsibilities under SEC Rule 17a-5. AT 1 and AT 2 apply specifically to the examination of a broker's or dealer's compliance report and review of a broker's or dealer's exemption report, as required by SEC Rule 17a-5. See *supra* note 36.

<sup>39</sup> See Rule 3400T(b); *Establishment of Interim Professional Auditing Standards*, PCAOB Release No. 2003-006, at n.15 and accompanying text (Apr. 18, 2003). These standards address, among other topics, training and education, internal communication of broad principles that influence the firm's quality control policies and procedures, notifications to regulators of dismissals and resignations from audit engagements, obligations with respect to foreign correspondent firms or other members of an international firm, and compliance with auditor independence requirements. Some of these membership requirements do not apply to broker or dealer audit clients. See *infra* note 42.

<sup>40</sup> See EY Comment Letter.

<sup>41</sup> See Grant Thornton Comment Letter (suggesting that the Board defer the application of the SECPS membership requirements to auditors of brokers and dealers until the Board has fully considered the application of those requirements to all firms).

audit firm personnel and the firm communicating through a written statement to its professional personnel the firm's broad policies and procedures related to accounting principles, client relationships, and services provided.<sup>42</sup> The Board notes that all firms (including those that were members of the SECPS in 2003) are required to comply with state and professionally mandated continuing professional education requirements that satisfy most, if not all, of these education requirements, and expects that firms distribute such information to their professional personnel to effectively manage their firms. Application of these requirements to audits of brokers and dealers is therefore not expected to result in a significant burden on auditors of brokers or dealers that were members of the SECPS in 2003. The Board intends to address the quality control standards more generally in the future, and to consider whether the substance of any or all of the SECPS membership requirements should be applied to all registered firms.<sup>43</sup>

Although some commenters supported the proposals to amend the Board's general requirements governing the applicability of the Board's auditing and related professional practice standards to apply to audits of brokers and dealers,<sup>44</sup> others believed that the Board's quality control, ethics, and independence rules should not apply to the audit and attestation engagements of "introducing" or "non-carrying" brokers and dealers, asserting that these brokers and dealers are usually smaller entities that present little if any investment risk to investors or the capital markets.<sup>45</sup> Other commenters said that requiring auditors of brokers and dealers to follow PCAOB quality control, ethics, and independence standards is not warranted until decisions with respect to a final, permanent inspection program's scope are reached.<sup>46</sup>

As noted elsewhere, the SEC in July 2013 determined that all audit reports filed with the SEC and DEAs by brokers and dealers must be prepared in accordance with PCAOB standards.<sup>47</sup> A final decision regarding the scope of the Board's inspection program will be made at a later date. The Board believes postponing the adoption of amendments to its rules would not be consistent with the SEC's determination under Section 17(e)(2) of the Exchange Act to require that audits and attestations of broker and dealer reports filed under SEC Rule 17a-5 be made in accordance with standards of the PCAOB. The Board is not persuaded that removing doubt about which rules and standards apply to these audits should be delayed pending determinations on the scope of the Board's final inspection program.

The Board also is amending the rules in Section 3 to remove outdated and currently irrelevant provisions. For example, the Board is deleting the notes

---

<sup>42</sup> See *AICPA SEC Practice Section Reference Manual*, § 1000.08(d) and § 1000.08(l). In addition, three SECPS membership requirements adopted by the Board do not apply to audits of non-public brokers or dealers because they depend in part on the definition of "SEC registrant" in SECPS Membership Section 1000.38, which specifically excludes brokers or dealers that are registered with the Commission "only because of section 15 paragraph a of the [Securities Exchange Act of 1934]." See SECPS Member Section 1000.46 Appendix L, at n.3. These three requirements include notification to the Commission of resignations and dismissals from engagements with SEC registrants, audit obligations with respect to correspondent firms or other members of an international association of firms, and certain quality control procedures regarding compliance with auditor independence rules. See *AICPA SEC Practice Section Reference Manual*, § 1000.08(m), § 1000.08(n)(1), and § 1000.08(o).

<sup>43</sup> See Office of the Chief Auditor, Standard-Setting Agenda, at 6 (Sep. 30, 2013).

<sup>44</sup> See Grant Thornton Comment Letter; Rothstein Kass Comment Letter.

<sup>45</sup> See Letter of the AICPA (Apr. 30, 2012) ("AICPA Comment Letter"); Crowe Horwath Comment Letter; KPMG Comment Letter.

<sup>46</sup> See AICPA Comment Letter; Letter of WeiserMazars LLP (Apr. 30, 2012) ("WeiserMazars Comment Letter").

<sup>47</sup> See SEC Rule 17a-5(g); see also *Broker-Dealer Reports*, Exchange Act Release No. 70073, at nn.330-347 and accompanying text.

to Rules 3200T, 3300T and 3400T that addressed the application of standards during the period from the adoption of the Act to the date in 2003 when firms initially were required to register with the Board. The Board also is deleting Rule 3101(c), which provided relief from certain documentation requirements before November 2004. The Board is deleting Rule 3201T, which was a temporary and transitional rule regarding the application of Auditing Standard No. ("AS") 2 and by its terms expired on July 15, 2005. The Board is amending Rule 3400T to remove the note that addressed application of the SECPS membership requirement for concurring partner reviews, which was superseded by Auditing Standard No. 7, Engagement Quality Review.<sup>48</sup> Finally, the Board is amending the note to Rule 3700(c) to clarify that nominations to Board advisory groups may be submitted by any person or organization, including a broker or dealer.

**Section 1000.08(m) of the SECPS Membership Requirements.** After soliciting comment, the PCAOB is adopting an amendment to the SECPS membership requirement addressing circumstances where a former SECPS member firm has been the auditor for an SEC Registrant (as defined in Appendix D, SECPS § 1000.38) that is required to file current reports on Form 8-K and has resigned, declined to stand for reelection, or been dismissed.<sup>49</sup> To make firm notices of these events more meaningful, the Board is requiring that registered firms (that are former members of the SECPS) notify the Commission's Office of the Chief Accountant of the cessation of an auditor's relationship with an issuer audit client only if the issuer has not reported the end of the relationship to the SEC in a timely filed Form 8-K.<sup>50</sup> Previously, these firm notices were required irrespective of whether or not the registrant reported the fact that the relationship ceased in a timely filed Form 8-K. As amended, if, by the end of the fifth business day after an issuer client-auditor relationship has ended the issuer has not reported the cessation of the relationship to the SEC in a timely filed Form 8-K, then a former SECPS member firm must simultaneously send a written report of this fact to the former client and e-mail the report to the SEC's Office of the Chief Accountant.<sup>51</sup>

The amendment to Section 1000.08(m) of the SECPS Membership Requirements only applies to SEC Registrants that are required to file current reports on Form 8-K. For SEC Registrants that do not file current reports on Form 8-K—including foreign private issuers required to make reports on Form 6-K and investment companies required to file reports under Rule 30b1-1 of the Investment Company Act (other than business development companies)—the SECPS

---

<sup>48</sup> A number of commenters pointed out that the proposal to remove subparagraph (1) from Rule 3400T(b)'s reference to § 1000.08(n) would have broadened the applicability of that requirement. See CAQ Comment Letter; Crowe Horwath Comment Letter; Grant Thornton Comment Letter; and KPMG Comment Letter. This consequence was not intended, and the Board is not adopting this proposal. See Rule 3400T(b).

<sup>49</sup> See *AICPA SEC Practice Section Reference Manual*, § 1000.08(m)(1). If an issuer audit client has a change in its principal auditor (or an auditor upon whom the issuer's principal auditor expressed reliance in its report regarding a significant subsidiary), within the last two fiscal years or any subsequent interim period up to and including the date of change, the issuer must provide the required information in Item 4.01 of Form 8-K within four business days of the change. See Item 304(a) of Regulation S-K; Item 4.01 of Form 8-K.

<sup>50</sup> See SECPS § 1000.08(m)(1). SECPS § 1000.08(m) does not apply to the termination of engagements with broker or dealer audit clients. See Appendix D, SECPS § 1000.38(1)(b). Also, under Rule 3400T, the former SECPS membership requirements, including SECPS § 1000.08(m), only apply to firms that were SECPS members in 2003.

<sup>51</sup> SECPS § 1000.08(m) also applies to situations where a firm (that is a former member of the SECPS) believes it no longer has a relationship with a former issuer audit client. In situations where a former issuer audit client has "gone dark" or declared bankruptcy, for example, and therefore the firm believes that the client-auditor relationship has ceased, SECPS § 1000.08(m) requires the firm to notify the former client and the SEC's Office of the Chief Accountant of the end of the issuer client-auditor relationship.

reporting requirement remains unchanged.<sup>52</sup> Notices for former clients that do not file current reports on Form 8-K are due by the end of the fifth business day following the end of the firm's determination that the client-auditor relationship has ended, irrespective of whether or not the registrant has reported the change in auditors in a timely filed report. The PCAOB is also updating Appendix I of SECPS Section 1000.43 to reflect the SEC's updated contact information and preference for e-mail notifications.<sup>53</sup>

Commenters generally supported reporting circumstances where a former SECPS member firm has resigned, declined to stand for re-election, or been dismissed from an issuer engagement under Section 1000.08(m) only if the issuer has not reported the end of the relationship in a timely filed report (exception reporting).<sup>54</sup> But one commenter suggested that Section 1000.08(m) should be eliminated entirely,<sup>55</sup> and one other commenter said Section 1000.08(m) reporting is "working, helpful, and appropriate" and should not be amended.<sup>56</sup> After considering these comments, the PCAOB has determined that more focused Section 1000.08(m) reporting will enhance the SEC's ability to monitor the cessation of auditors' relationships with issuers that are required to file reports on Form 8-K. The Board, as discussed in more detail below, has also determined to adopt amendments requiring all registered firms to report the cessation of issuer relationships with Form 8-K filers on Form 3.<sup>57</sup>

## B. Auditor Independence

Registered public accounting firms must follow not only the Commission's auditor independence requirements<sup>58</sup> but also, to the extent applicable, the ethics and auditor independence requirements in Rules 3520 through 3526.<sup>59</sup>

In 2003, the Board adopted Rules 3500T and 3600T, which require registered public accounting firms to adhere to ethics and independence standards described in the AICPA's Code of Professional Conduct Rules 102 and 101 and the interpretations and rulings thereunder, as in existence on April 16, 2003 to the extent not superseded or amended by the Board, and to certain standards and interpretations of the Independence Standards Board.

To simplify the Board's rules, and to conform to Section 103(a)(1) of the Act as revised by the Dodd-Frank amendments, the Board is merging Rule 3600T into Rule 3500T. The merger of these rules results in the specific auditor independence rules following the incorporation of the interim independence rules

---

<sup>52</sup> See SECPS § 1000.08(m)(2). Foreign private issuers are required to report issuer auditor changes on Item 16F of Form 20-F and investment companies (other than business development companies) are required to report auditor changes on item 77K of Form N-SAR.

<sup>53</sup> The SEC staff strongly encourages e-mailing the SECPS report notification to SECPSletters@sec.gov. See Appendix I, SECPS § 1000.43. See also <http://www.sec.gov/about/offices/oca/10a1notices.htm> ("The Office of the Chief Accountant strongly encourages sending the SECPS report notification to [SECPSletters@sec.gov](mailto:SECPSletters@sec.gov). The staff will accept the date the email is received as the notification date.")

<sup>54</sup> Crowe Horwath Comment Letter; EY Comment Letter; Grant Thornton Comment Letter; McGladrey Comment Letter; PWC Comment Letter.

<sup>55</sup> KPMG Comment Letter.

<sup>56</sup> D&T Comment Letter.

<sup>57</sup> See *infra* notes 183-195 and accompanying text.

<sup>58</sup> See SEC Regulation S-X, Rule 2-01.

<sup>59</sup> Among other things, the Dodd-Frank amendments clarified the Board's authority under Section 103 of the Act to establish auditor independence standards to be used by registered public accounting firms in the preparation and issuance of audit reports, as required by the Act, SEC rules, or "as may be necessary or appropriate in the public interest or for the protection of investors." See Section 103(a)(1) of the Act.

without having to renumber the existing PCAOB auditor independence rules.<sup>60</sup> The Board also is making a technical amendment to Rule 3600T(b) to delete a reference to Independence Standards Board Standard No. 1, which was superseded by Rule 3526.<sup>61</sup>

Subsequent to the adoption of Rules 3500T and 3600T, the Board added definitions and general rules related to ethics and auditor independence, rules that prohibit contingent fee arrangements for any services a registered public accounting firm may provide to its audit clients, rules that restrict certain types of tax services that may be provided to audit clients and to persons in a "financial reporting oversight role" at an issuer audit client, rules related to issuer audit committee pre-approval of tax services and services related to internal control over financial reporting, and rules related to communications with issuers' audit committees concerning auditor independence.<sup>62</sup> The areas covered by these rules, and the Board's application of each rule to audits of brokers and dealers, are discussed below.<sup>63</sup>

**Definitions (Rule 3501).** This rule contains definitions of nine terms used in the Board's auditor independence rules.

The Board is adding a definition of "audit committee" to Rule 3501 in order to facilitate the application of Rule 3526, *Communications with Audit Committees Concerning Independence*, to brokers and dealers.<sup>64</sup> The definition generally tracks the definition of "audit committees" in section 2(a)(3) of the Act. The Act essentially defines the "audit committee" to be the committee of the board of directors established to oversee the accounting and financial reporting processes of the issuer, and if there is no such committee then the full board of directors. Because the Board recognizes that some brokers and dealers may not have governance structures that include boards of directors or audit committees, the amended definition includes a provision indicating that for non-issuers, if no audit committee or board of directors (or equivalent body) exists, the term means those persons who oversee the accounting and financial reporting processes of the entity and the audits of the entity's financial statements.<sup>65</sup> As a result, if a broker or dealer audit client (or potential client) does not have an audit committee or a board of directors, the auditor must provide Rule 3526

---

<sup>60</sup> Regarding the note following proposed Rule 3500T, one commenter indicated that it would be better for the Board to say that the Board's independence rules "supplement" the SEC's standards, rather than the proposed formulation (that the Board's rules "do not supersede" the SEC's independence rules). See EY Comment Letter. The proposed note, however, was substantially the same as a note that had followed Rule 3600T. In the proposed note, following the statement that the Board's rules "do not supersede" the SEC's auditor independence rule, the statement was made that "to the extent that a provision of the Commission's rule is more restrictive—or less restrictive—than the Board's Interim Independence Standards, a registered public accounting firm must comply with the more restrictive rule." The note means that the less restrictive rule still applies but satisfying the more restrictive rule is deemed to satisfy the less restrictive rule. Changing "do not supersede" to "supplement" would not enhance this understanding of the note. Accordingly, the Board has determined not to make the change suggested by the commenter, and is adopting the note as proposed.

<sup>61</sup> PCAOB Release No. 2008-003, at 4.

<sup>62</sup> See, e.g., PCAOB Release Nos. 2003-011; 2005-014; 2005-20; 2007-005A; and 2008-003.

<sup>63</sup> Regardless of the application of the Board's independence rules, auditors of brokers and dealers must follow the Commission's auditor independence rules as stated in SEC Rule 17a-5(f)(1).

<sup>64</sup> See Rule 3501(a)(v).

<sup>65</sup> The Board adopted essentially the same definition of "audit committee" in its audit committee communications standard. See *Auditing Standard No. 16, Communications with Audit Committees*, PCAOB Release No. 2012-004 (Aug. 15, 2012). Instead of adopting "essentially the same" definition of audit committees as the audit committee communication standard, KPMG stated that the Board should consider using the same definition. The difference between the definitions is that audit committee communication definition uses the term "company" and the definition in Rule 3501 uses the word "entity." In both instances, the defined term is intended to encompass the audit committee of the audit client, regardless of the client's legal form of organization.

communications to persons overseeing the broker's or dealer's accounting and financial reporting processes and its audits.

The amended definition does not mean that the broker or dealer audit client or potential client has to formally designate persons who oversee the client's accounting and financial reporting processes and audits. Instead, auditors are expected to use their judgment to identify senior persons at the client or potential client that have decision-making authority and responsibility for these functions. For an owner-managed entity, for example, the person overseeing the accounting and financial reporting processes, and audits, could be the owner. Under a limited partnership, that person could be the managing or general partner responsible for preparation of the financial statements and oversight of the partnership's audits.

One commenter supported amending the definition of "audit committee" to accommodate those brokers and dealers who do not have a formal audit committee in place.<sup>66</sup> Another commenter said the definition should be aligned with the definition of audit committee in ISA 260 and AICPA AU Section 260, which refers to "the person(s) with responsibility for overseeing the strategic direction of the entity and obligations related to the accountability of the entity."<sup>67</sup> A third commenter recommended adding the words "and controlling" to the accounting and financial reporting processes identified in the proposed audit committee definition to more fully relate to brokers and dealers.<sup>68</sup>

After consideration of the comments, the Board, as proposed, is adopting essentially the same "audit committee" definition used in its standard on communications with audit committees (AS 16). One of the purposes of defining "audit committee" in Rule 3501 is to facilitate auditor communications with audit committees regarding auditor independence issues and having consistent definitions of the term "audit committee" should promote the efficient implementation of the Board's two standards. In light of the AS 16 audit committee definition, adding the concept of "controlling" to the definition, or conforming the definition to international standards, would add unnecessary complexity to the Board's rules.

Although the Board is not amending the other definitions in Rule 3501, the meaning of certain definitions is altered because the Board's rules and standards are now applicable to the audits of brokers and dealers. For example, Rule 3501(a)(iv) defines "audit client" to mean "the entity whose financial statements or other information is being audited, reviewed, or attested and affiliates of the audit client." The "entity" referenced in this definition includes a broker or dealer, as well as an issuer.<sup>69</sup> No comments were received regarding how changes in the definitions in the Board's rules may alter the applicability of the definitions in Rule 3501 to audits of brokers or dealers.

**Overall Framework (Rules 3502 and 3520).** Rule 3502 establishes a standard of ethical behavior for the conduct of persons associated with registered public accounting firms, indicating that these persons shall not take or omit to take an action knowing, or recklessly not knowing, that the act or omission would directly and substantially contribute to a violation by the firm of the Act, the rules of the Board, or provisions of the securities laws or professional

---

<sup>66</sup> See Rothstein Kass Comment Letter.

<sup>67</sup> See EY Comment Letter. Under that definition, EY said communication would likely be made to the CEO or another officer of the broker or dealer.

<sup>68</sup> See Letter of Chris Barnard, Actuary (Apr. 26, 2012).

<sup>69</sup> Auditors of brokers and dealers must generally comply with the independence requirements of SEC Rule 2-01 of Regulation S-X. See SEC Rule 17a-5(f)(1); see also *Broker-Dealer Reports*, Exchange Act Release No. 70073, at nn.383- 391 and accompanying text.

standards. This basic ethics rule applies, without amendment, to all associated persons in all registered public accounting firms.

Rule 3520 sets forth the fundamental ethical obligation for the accounting firm and its associated persons to be independent of the firm's audit client throughout the audit and professional engagement period. With the change in the definition of "audit client" described above, this rule applies to auditors of brokers and dealers as well as to auditors of issuers. To remove any doubt that this rule applies to auditors of brokers and dealers as well as to auditors of issuers, and to make other technical changes, the Board, as proposed, is removing the reference to "an issuer" from note 1 of this rule. The Board did not receive comment on the proposed amendments to Rule 3520.

**Contingent Fees (Rule 3521).** This rule, which is consistent with the SEC's auditor independence rules,<sup>70</sup> states that a registered public accounting firm is not independent if it provides any service or product to the audit client for a contingent fee or a commission, or receives from the audit client, directly or indirectly, a contingent fee or commission. With the expanded interpretation of "audit client" as noted above, this rule applies to audits of brokers and dealers as well as to audits of issuers. Because the SEC rule on contingent fees currently is applicable to audits of brokers and dealers, making the PCAOB rule similarly applicable to those audits should not affect practice in this area.

One commenter supported the proposed amendments to Rule 3521, stating that expanding Rule 3521 to include broker and dealer audit clients to make the rule consistent with current SEC auditor independence rules should have no effect in the broker-dealer practice area and is appropriate.<sup>71</sup> No commenters opposed the proposed application of Rule 3521. The Board has determined to have this rule apply to audits of brokers and dealers.

**Tax Transactions (Rule 3522).** Under this rule, registered public accounting firms are prohibited from providing any non-audit service to their audit clients related to the marketing, planning, or opining in favor of the tax treatment of transactions that are "confidential transactions"<sup>72</sup> under the Internal Revenue Service's regulations or transactions that would be considered "aggressive tax position transactions."<sup>73</sup>

The Board adopted Rule 3522 in 2005 following a report by the Permanent Subcommittee on Investigations of the Senate Committee on Governmental Affairs (the "Subcommittee") which noted that some of the nation's largest accounting firms in the past had sold generic tax products to multiple corporate and individual clients despite evidence that some of those products were potentially abusive or illegal.<sup>74</sup> In addition, the Internal Revenue Service ("IRS") and the

---

<sup>70</sup> See SEC Rule 2-01(c)(5) of Regulation S-X.

<sup>71</sup> See WeiserMazars Comment Letter.

<sup>72</sup> Rule 3501(c)(i) defines a "confidential transaction" to be a transaction that is offered to a taxpayer under conditions of confidentiality and for which the taxpayer has paid an advisor a fee.

<sup>73</sup> Rule 3522(b) describes an "aggressive tax position transaction" as a transaction initially recommended, directly or indirectly, by the registered public accounting firm with a significant purpose of tax avoidance, unless the proposed tax treatment is at least more likely than not to be allowable under applicable tax laws.

<sup>74</sup> See Permanent Subcommittee on Investigations of the Committee on Homeland Security and Governmental Affairs, *The Role of Professional Firms in the U.S. Tax Shelter Industry*, S. Rep. No. 109-54, at 6 (2005). This report was based on a Subcommittee investigation that included hearings, in November 2003, in which the Subcommittee elicited testimony that described certain potentially abusive tax shelter products marketed through cold-call selling techniques by accounting firms and others. See also *U.S. Tax Shelter Industry: The Role of Accountants, Lawyers, and Financial Professionals: Hearings Before the Permanent Subcommittee on Investigations of the Senate Committee on Governmental Affairs*, 108th Cong. (2003).

U.S. Department of Justice brought a number of cases against accounting firms in connection with those firms' marketing of tax shelter products and, specifically, those firms' alleged failures to register, or comply with list maintenance requirements relating to, their tax shelter products. In addition, the IRS proposed a settlement initiative for executives and companies that participated in certain abusive tax avoidance transactions, at times with the assistance of the companies' auditors.<sup>75</sup> At the time the initiative was announced, the IRS Commissioner said that "[t]hese transactions raise[d] questions not only about compliance with the tax laws, but also, in some instances, about corporate governance and auditor independence."<sup>76</sup>

The Government Accountability Office ("GAO") also noted concerns about auditors' involvement in marketing abusive tax shelters to public companies. The GAO reported that 61 Fortune 500 companies obtained tax shelter services from their external auditors during the period 1998 through 2003.<sup>77</sup> The GAO also noted that the IRS considered some of these "transactions abusive, with tax benefits subject to disallowance under existing law, and other transactions possibly to have some traits of abuse."<sup>78</sup>

With the change in meaning of the term "audit client," as described above, Rule 3522 applies to audits of brokers and dealers. The Board did not receive comment on the proposed application of Rule 3522 to audits of brokers and dealers. Accordingly, the amendments the Board is making today result in a prohibition on a registered public accounting firm providing any non-audit service related to the marketing, planning or opining in favor of a tax treatment of a "confidential transaction" or an "aggressive tax position transaction" to a broker or dealer audit client.

**Tax Services for Persons in Financial Reporting Oversight Roles (Rule 3523).** The Board is amending Rule 3523 to apply only to issuer audit clients. Rule 3523 does not apply in audits of brokers or dealers unless the broker or dealer is an issuer or an affiliate of an issuer under Rule 3501(a)(ii).<sup>79</sup>

Rule 3523 prohibits auditors from providing any tax service to any person who performs a financial reporting oversight role at an issuer audit client, or an immediate family member of such an individual, unless the person is in that role solely because (a) he or she is a member of the board of directors or a similar management or governing body, (b) the person has a relationship with an affiliated entity that is immaterial to the audit client's consolidated financial statements or that has its financial statements audited by another auditor, or (c) the person was hired or promoted into the financial reporting oversight role and the tax engagement was in process before the hiring or promotion and will be completed within 180 days after the hiring or promotion.<sup>80</sup> The rule addresses the concern that performing tax services for certain individuals involved in the

<sup>75</sup> Announcement 2005-19, 2005-11 I.R.B.1.

<sup>76</sup> IRS News Release, Settlement Offer Extended for Executive Stock Option Scheme, IR 2005-17 (Feb. 22, 2005), available at <http://www.irs.gov/uac/Settlement-Offer-Extended-for-Executive-Stock-Option-Scheme>. The Commissioner also said, "We believe a new climate under Sarbanes-Oxley, together with the tougher independence standards for auditors recently proposed by the Public Company Accounting Oversight Board make this sort of thing less likely going forward." *Id.*

<sup>77</sup> See GAO, *Tax Shelters: Provided by External Auditors*, GAO-05-171 (2005).

<sup>78</sup> *Id.*

<sup>79</sup> If a non-issuer broker or dealer is an affiliate of an issuer audit client, then the broker or dealer will be treated in the same manner that any other affiliate of the issuer would be treated when analyzing the auditor's independence from the issuer.

<sup>80</sup> PCAOB Release No. 2005-014, at 34-39.

financial reporting processes of an issuer audit client creates an appearance of a mutuality of interest between the auditor and those individuals.<sup>81</sup>

Although the Board proposed that Rule 3523 similarly apply to the audits of non-issuer brokers and dealers, it noted that the auditor independence implications of an auditor providing such tax services to an officer of a broker or dealer may not be the same as those associated with an auditor providing tax services to an officer of a public company, and it solicited comment on whether Rule 3523 should continue to be limited to issuer audit clients.

Commenters generally stated that Rule 3523 should be limited to issuers or subsidiaries of issuers,<sup>82</sup> saying the investing public does not trade on the financial results of brokers and dealers and that the SEC staff has recognized this difference by noting that non-issuer brokers and dealers are not required to comply with certain provisions of SEC Rule 2-01 of Regulation S-X.<sup>83</sup> Commenters also said the threat that these services would create the appearance of a mutuality of interests between the auditor and the individuals in a financial reporting oversight role is significantly greater for a public company, where the interests of investors and management's interests typically diverge to a greater degree than in a private company.<sup>84</sup> Finally, commenters said that applying Rule 3523 to audits of brokers and dealers could unnecessarily increase costs for brokers and dealers, many of which are small businesses, where the owner, manager, and person providing financial reporting oversight is the same person.<sup>85</sup> Similarly, some commenters indicated that compliance with the proposal might require some brokers or dealers, that may be organized as limited partnerships or sole proprietorships, to hire a second audit firm to provide personal tax services, creating inefficiencies.<sup>86</sup>

In response to these comments, the PCAOB has further considered the proposed application of Rule 3523 to audits of non-issuer brokers and dealers. The Board is not at this time extending the requirements of Rule 3523 (and the costs associated with these requirements) to audits of non-issuer brokers and dealers. Rule 3523's prohibition on providing tax services to a person in a financial reporting oversight role is therefore limited to issuer audit clients. As more information is gathered on broker and dealer audits through the PCAOB's inspections and other oversight functions, the Board will continue to consider whether providing such tax services for persons in financial reporting oversight roles could impair independence and could revisit its decision to limit Rule 3523's application to issuer audits.

#### **Audit Committee Pre-approval of Certain Tax Services (Rule 3524).**

The Board adopted Rule 3524 to implement and strengthen the requirement

---

<sup>81</sup> *Id.* at 34-35. In 2008, the Board amended this rule to limit its application to the "professional engagement period," which begins when the auditor either signs the initial engagement letter or begins audit procedures, whichever is earlier, and ends when either the company or the auditor notifies the Commission that the company is no longer that auditor's audit client. See PCAOB Release No. 2008-003, at 15. The rule previously had applied not only to the professional engagement period but also during the "audit period," which is the period covered by any financial statements being audited or reviewed. See PCAOB Release No. 2005-14, at 14-15.

<sup>82</sup> See CAQ Comment Letter; Grant Thornton Comment Letter; McGladrey Comment Letter; KPMG Comment Letter; Letter of Peterson Sullivan LLP (Apr. 30, 2012); Rothstein Kass Comment Letter.

<sup>83</sup> See Crowe Horwath Comment Letter.

<sup>84</sup> See McGladrey Comment Letter; Rothstein Kass Comment Letter.

in Sections 10A(h) and 10A(i) of the Exchange Act, as amended by Section 202 of Sarbanes-Oxley, that all non-audit services for an issuer audit client "shall be preapproved by the audit committee of the issuer."<sup>87</sup> The Dodd-Frank amendments, however, did not extend the Exchange Act's issuer-audit committee preapproval requirements to non-audit services provided to non-issuer brokers and dealers. In addition, the SEC's independence rules over audit committee administration are applicable only to issuers. As a result, the Board is not extending the preapproval requirements in Rule 3524 to broker or dealer audit clients.<sup>88</sup> Commenters agreed that Rule 3524 should not be extended to the audits of brokers and dealers.<sup>89</sup>

**Audit Committee Pre-approval of Non-audit Services Related to Internal Control Over Financial Reporting (Rule 3525).** The Board adopted Rule 3525 in connection with the adoption of Auditing Standard No. 5, *An Audit of Internal Control Over Financial Reporting That is Integrated with An Audit of Financial Statements*, in 2007.<sup>90</sup> The prior auditing standard, Auditing Standard No. 2, had required audit committee pre-approval of internal control related non-audit services.<sup>91</sup> With the adoption of Auditing Standard No. 5, this requirement was moved to Rule 3525.

Rule 3525 was adopted to facilitate implementation of the audit committee pre-approval requirements in Section 10A of the Exchange Act and the internal control reporting requirements in Section 404 Sarbanes-Oxley. As noted above, the Dodd-Frank amendments did not extend the audit committee pre-approval requirements in Exchange Act Sections 10A(h) and 10A(i) to brokers or dealers. Similarly, the Dodd-Frank amendments did not extend the Sarbanes-Oxley Act Section 404 internal control reporting requirements to brokers or dealers, and the Commission has not extended similar requirements to brokers or dealers. Accordingly, the Board has determined that the application of Rule 3525 should remain limited to services provided to issuer audit clients. Commenters agreed that Rule 3525 should not be extended to audits of non-issuer brokers and dealers.<sup>92</sup>

**Communication with Audit Committees Concerning Independence (Rule 3526).** The Board adopted Rule 3526 to ensure that those making the decisions to hire, compensate, and oversee the work of the auditor have information about the auditor's independence that could assist them in performing those responsibilities.<sup>93</sup> This rule requires that prior to being engaged and at least annually thereafter, an auditor describe in writing to the audit committee all relationships between the registered public accounting firm and audit client that may reasonably be thought to bear on the firm's independence from the audit client, discuss with the audit committee the potential effects of those relationships on independence, affirm annually that the public accounting firm

---

<sup>87</sup> PCAOB Release No. 2005-014, at 40, quoting Section 10A(i)(1)(A) of the Exchange Act.

<sup>88</sup> Audits of SEC registered brokers and dealers, however, remain subject to the SEC auditor independence rules, including prohibitions on the auditor providing certain non-audit services to audit clients. See SEC Rule 2-01(c)(4) of Regulation S-X.

<sup>89</sup> See Grant Thornton Comment Letter; McGladrey Comment Letter; Rothstein Kass Comment Letter.

<sup>90</sup> See PCAOB Release No. 2007-005A, at 14-15 and Appendix 2.

<sup>91</sup> AS 2.33.

<sup>92</sup> See Grant Thornton Comment Letter; McGladrey Comment Letter; Rothstein Kass Comment Letter.

<sup>93</sup> PCAOB Release No. 2008-003, at 3-4.

is in compliance with Rule 3520, and document the substance of the discussion with the audit committee.<sup>94</sup>

SEC Rule 17a-5 generally requires that brokers or dealers registered with the Commission pursuant to Section 15 of the Exchange Act file with the Commission annual reports consisting of a financial report and either a compliance report or an exemption report that are prepared by the broker or dealer, as well as certain reports that are prepared by an independent public accountant covering the financial report and the compliance report or the exemption report.<sup>95</sup> The accountant must be independent in accordance with the Commission's independence rules in Regulation S-X.<sup>96</sup> It is as important that those persons discharging the responsibilities to engage, compensate and oversee an independent auditor at a broker or dealer, as it is for an issuer's audit committee, to be advised by the auditor of any relationships that reasonably may be thought to bear on the auditor's independence. The Board, therefore, is making Rule 3526 applicable to audits of brokers and dealers.

The Board recognizes, however, that brokers and dealers may have organizational structures that do not include audit committees. The Board is therefore adding a definition of "audit committee" to Rule 3501 that makes Rule 3526 applicable to broker and dealer audit clients.<sup>97</sup> This definition, as discussed above, provides that if a broker or dealer does not have an audit committee or board of directors (or equivalent body) then the required communications should be made to the individuals overseeing the accounting and financial reporting processes of the broker or dealer and audits of the financial statements of the broker or dealer.<sup>98</sup>

One commenter recommended that in a situation in which those charged with governance and management are the same individuals, the Board should consider providing some flexibility by allowing auditor judgment in determining the nature of the communications that should occur in these circumstances.<sup>99</sup> Under Rule 3526, an auditor of a non-issuer broker or dealer with no existing audit committee or board of directors (or equivalent body) is expected to identify senior persons at the broker or dealer who have decision-making authority and responsibility to oversee the accounting and financial reporting processes of the broker or dealer and audits of the financial statements, and make the required communications to those persons. For example, in an owner-managed broker, the person with oversight of financial reporting within the broker could be the owner, and the Rule 3526 communications, therefore, would be made to the owner. When making Rule 3526 communications to the owner, the auditor need not repeat written communications provided to the owner throughout the audit process as long as the auditor has met all of the requirements of Rule 3526, including describing in writing all relationships that reasonably may be

---

<sup>94</sup> Rule 3526 requires that the registered public accounting firm describe, in writing, all relationships between the registered public accounting firm, or any affiliates of the firm, and the existing or potential audit client or persons at the audit client in a "financial reporting oversight role" that reasonably may be thought to bear on the auditor's independence.

<sup>95</sup> SEC Rule 17a-5(d).

<sup>96</sup> SEC Rule 17a-5(f)(1). The Commission's independence requirements include SEC Rule 2-01 and related interpretations.

<sup>97</sup> One commenter indicated that although auditors currently document their independence under GAAS, including brokers and dealers in Rule 3526 would be beneficial as it would require more documented evidence of auditor independence. *See WeiserMazars Comment Letter.*

<sup>98</sup> *See generally*, Section 301 of Sarbanes-Oxley, directing the Commission to adopt rules requiring listed companies' audit committees to "be directly responsible for the appointment, compensation, and oversight of the work of any registered public accounting firm employed by that issuer. . . ." *See also* Exchange Act Section 10A(m)(2) and SEC Rule 10A-3(b)(2).

<sup>99</sup> *See Grant Thornton Comment Letter.*

thought to bear on independence, discussing the potential effects of those relationships on the auditor's independence, and providing a written affirmation of the firm's independence. In addition, the auditor may identify others in charge of the broker's or dealer's operations and performance who may benefit from the Rule 3526 communications and make the communications to those individuals as well as the owner.

**Compliance dates for Rules 3521 through 3526.** Commenters indicated that certain of the proposed amendments, if adopted, would benefit from transition periods. For example, one commenter suggested that certain services should be allowed to continue provided that the services are completed on or before the later of October 31 of the calendar year in which the SEC approves the Board's rules, or 10 days after the date the SEC approves the rules.<sup>100</sup> The requests from commenters for a prolonged transition period for the Board's independence rules focused on the time needed for brokers and dealers to change either auditors or tax consultants in the event of the application of Rule 3523 to broker and dealer audit engagements. Because the Board has determined not to apply Rules 3523, 3524, or 3525 to audits of non-issuer brokers and dealers, an extended transition period should not be necessary. These amendments will take effect on June 1, 2014.

## V. Section 4—Inspections

The rules in this section set out the procedures for the Board's inspections of registered public accounting firms. The Board has adopted a temporary rule, Rule 4020T, which sets out an interim inspection program for auditors of brokers and dealers.<sup>101</sup> After it has gained knowledge and experience through the interim program and other sources, the Board in a subsequent rulemaking proceeding will propose rules for a permanent inspection program for these firms.

The Board is making two technical amendments to the rules in this section. The first is to revise Rule 4009 to conform to Rule 140 of the Commission's Regulation P ("Rule 140"),<sup>102</sup> which went into effect on September 7, 2010, and the second is to revise Rule 4020T(b) to conform to the amendments that the Board is making to the definitions of "audit," "audit report," and "professional standards" in Rule 1001.

**Firm Response to Quality Control Defects (Rule 4009).** Rule 4009 sets out the procedures relating to a firm's submission to the Board to demonstrate how the firm has addressed criticisms of, or potential defects in, the firm's system of quality control that are described in an inspection report. If the Board determines that the firm has satisfactorily addressed a criticism or defect, the portion of the inspection report discussing that issue remains nonpublic. If the Board determines that the firm has not addressed a criticism or defect to the Board's satisfaction, however, the portion of the report discussing that issue will be made public. Section 104(h) of the Act allows the firm to request interim Commission review if the firm disagrees with the Board's determination that the firm has not satisfactorily addressed a quality control criticism or defect.

When a firm seeks Commission review of a negative remediation determination by the Board, Rule 4009(d)(3) provides that "unless otherwise directed by Commission order or *rule*," (emphasis added) the quality control findings shall

---

<sup>100</sup> See D&T Comment Letter.

<sup>101</sup> PCAOB Release No. 2011-001.

<sup>102</sup> 17 C.F.R. § 202.140.

be made public by the Board 30 days after the firm formally requests Commission review. In July 2010, the Commission adopted Rule 140, which provides that a firm's timely request for Commission review of a negative remediation determination operates as a stay of publication by the Board of the portions of the report at issue unless and until the Commission either denies the review request or otherwise determines.<sup>103</sup> The Board is making an amendment to Rule 4009(d)(3) to conform to Rule 140's stay of publication provision. Commenters did not address the Board's proposed amendments to Rule 4009, and the Board is adopting the amendments as proposed.

**Interim Inspection Program Related to Audits of Brokers and Dealers (Rule 4020T).** On June 14, 2011, the Board adopted Rule 4020T, establishing an interim inspection program relating to audits of brokers and dealers.<sup>104</sup> Rule 4020T(b) provided that the definitions of "audit," "audit report," and "professional standards" contained in the Dodd-Frank Amendments applied to Rule 4020T, Rule 3502, Section 5 of the rules, and to the definition of "disciplinary proceeding" in Rule 1001(d)(i). Because this rulemaking makes these definitions permanently applicable to all of the Board's rules, the Board is deleting the second sentence of Rule 4020T(b).<sup>105</sup> Commenters did not address the Board's proposed amendments to Rule 4020T and the Board is adopting the amendments as proposed.

## VI. Section 5—Investigations and Adjudications

Section 5 of the Board's rules governs the process of PCAOB investigations and disciplinary proceedings. The Board is amending certain rules in this section to conform to the Dodd-Frank amendments. For many of these rules, this is simply a matter of adding "broker" and "dealer" to rules in addition to "issuer," to reflect the Board's jurisdiction over auditors of brokers and dealers pursuant to the Dodd-Frank amendments. The Board is also amending a number of the rules in this section in light of its experience administering and enforcing these rules.<sup>106</sup>

Many of the rules in this section are affected by the amendments the Board is making to the definitions in Rule 1001. In particular, the changes to the definitions of "audit," "audit report," and "professional standards" make clear that the Board's enforcement rules—which encompass, among other things, the provisions of the securities laws relating to the preparation and issuance of audit reports and the obligations and liabilities of accountants with respect thereto—encompass the obligations of auditors with respect to audit reports for brokers and dealers, such as those obligations set out in Rule 17a-5. The Board's Temporary Rule for an Interim Inspection Program for the Audits of Brokers and Dealers extended the definition of these three terms to the rules in this section. This rulemaking makes these changes part of the Board's permanent rules.

In addition, the revisions to the definition of "Person Associated With a Public Accounting Firm" in Rule 1001 apply to all uses of the term in this section, making it clear that the term "associated persons" includes formerly associated persons concerning conduct that occurred while they were associated with a

---

<sup>103</sup> See SEC Rule 140(c)(5), (d), and (e)(4).

<sup>104</sup> See PCAOB Release No. 2011-001.

<sup>105</sup> As discussed above, the Board is also removing the notes accompanying the definitions of "audit," "audit report," and "professional standards" in Rule 1001. See *supra* notes 17, 29.

<sup>106</sup> The Board is also making a number of technical amendments, such as updating cross-references, to Rules 5205, 5407, and 5462.

registered public accounting firm, as well as persons seeking to become associated with a registered public accounting firm. As stated above, this amendment reflects the Dodd-Frank amendments' clarification of the Board's jurisdiction over these individuals.

Some commenters said the proposed amendments regarding investigations and adjudications were not clear, and because in some cases they are unrelated to the Dodd-Frank amendments, the Board should consider a separate rulemaking effort to consider these amendments, which could also include suggestions for changes to the rules in Section 5 based on the experience of persons that have been the subject of inquiries and investigations, and better explain the rationales and potential impacts of these proposed amendments.<sup>107</sup> The Board does not agree that a separate rulemaking is necessary to address the proposed amendments to Section 5 that are not related to the Dodd-Frank amendments. Many of the proposed amendments to the rules in Section 5 were technical and the Board did not receive specific comment on them from any commenter. Commenters have had an opportunity through this rulemaking to comment on all aspects of the proposed rules. After considering the comments, including some suggestions for making amendments to the rules in Section 5 based on commenters' experiences, the Board is adopting the proposed amendments with modifications to address commenters' concerns, as discussed below.

## A. Inquiries and Investigations

**Testimony of Registered Public Accounting Firms and Associated Persons in Investigations (Rule 5102).** Adopted pursuant to Section 105(b)(2)(A) of the Act, Rule 5102 establishes Board procedures related to obtaining and recording the testimony of any registered public accounting firm or any associated person of such a firm with respect to any matter that the Board considers relevant or material to an investigation. Rule 5102(c)(4) provides that a registered firm that is required to provide testimony in a Board examination shall designate one or more persons to testify on its behalf and "may set forth, for each individual designated, the matters on which the individual will testify." As proposed, the Board is changing the phrase "may set forth" to "shall set forth" to ensure that, when a firm designates more than one individual to testify on its behalf, the firm provides appropriate notice as to the subject matter of each individual's testimony. The Board did not receive comment on the proposed amendments to Rule 5102.

**Requests for Testimony or Production of Documents from Persons Not Associated With Registered Public Accounting Firms (Rule 5105).** Rule 5105, adopted under Section 105(b)(2)(C) of the Act, provides that the Board, and the staff of the Board designated in a formal order, may issue an accounting board request for the testimony of any person, including any client of a registered public accounting firm, provided certain procedural requirements are satisfied. If not a natural person, the person to be examined must designate a representative or representatives to testify on the person's behalf.<sup>108</sup> The Board is amending Rule 5105, as proposed, to make the rule's provisions applicable to brokers and dealers. The amendments to Rule 5105 also require that entities set forth the matters on which their designated representatives will testify.<sup>109</sup> This amendment tracks the amendment to Rule 5102(c)(4), discussed above,

---

<sup>107</sup> See CAQ Comment Letter; KPMG Comment Letter; PWC Comment Letter.

<sup>108</sup> See Rule 5105(a)(2).

<sup>109</sup> See Rule 5105(a)(2). The Board is changing the phrase "may set forth" in Rule 5105(a)(2) to "shall set forth."

and ensures that the Board receives appropriate notice of the subject matter of each designee's testimony. The Board did not receive comment on the proposed amendments to Rule 5105.

**Confidentiality of Investigatory Records (Rule 5108).** Rule 5108(a) reflects the Board's authority, under Section 105(b)(5) of the Act, to make confidential materials relating to informal inquiries and formal investigations available to the Commission and, "when determined by the Board to be necessary to accomplish the purposes of the Act or to protect investors," to certain other regulatory authorities. The specified regulatory authorities include the Attorney General of the United States; the appropriate Federal functional regulator and the Director of the Federal Housing Finance Agency,<sup>110</sup> with respect to an audit report for an institution subject to the jurisdiction of such regulator; State attorneys general in connection with any criminal investigation; and any appropriate State regulatory authority. The Dodd-Frank amendments added two more categories of regulatory authorities to the list in Section 105(b)(5): self-regulatory organizations and foreign auditor oversight authorities. As proposed, the Board is making conforming amendments to Rule 5108. The Board's authority to disclose confidential information (either from investigations or inspections) to self-regulatory organizations and foreign audit oversight authorities is provided by the Act and does not depend upon these rule amendments taking effect.<sup>111</sup>

*Self-regulatory organization.* The Board is adopting Rule 5108(e) to conform to the Dodd-Frank amendments that permit the Board to share confidential information with "a self-regulatory organization, with respect to an audit report for a broker or dealer that is under the jurisdiction of such self-regulatory organization."<sup>112</sup>

*Foreign auditor oversight authority.* The Board is adopting Rule 5108(f) to conform to the Dodd-Frank amendments that allow greater Board cooperation with certain foreign regulators. The Dodd-Frank amendments allow the Board to share confidential information with "foreign auditor oversight authorities," as the Board defined in Rule 1001.<sup>113</sup> Rule 5108(f) tracks the Dodd-Frank amendments that allow the Board to share documents with a foreign auditor oversight authority concerning a public accounting firm with respect to which it has been empowered by a foreign government to inspect or otherwise enforce laws, under certain circumstances. Specifically, the foreign auditor oversight authority must provide (1) assurances of confidentiality requested by the Board; (2) a description of its applicable information systems and controls; and (3) a description of the laws and regulations of the foreign government of the foreign auditor oversight authority that are relevant to information access. In addition to making a determination under Rule 5108(a)(2) that sharing the information

---

<sup>110</sup> Section 1161(h) of the Housing and Economic Recovery Act of 2008, Pub. L. No. 110-289, 122 Stat. 2654, 2781 (2008), amended Sarbanes-Oxley to authorize the PCAOB to share information gathered in Board inspections and investigations with the Director of the Federal Housing Finance Agency (with respect to audits of institutions within the Federal Housing Finance Agency's jurisdiction). The PCAOB is adopting amendments to conform to Section 1161(h) of the Housing and Economic Recovery Act. See Rule 5108(a)(2)(b).

<sup>111</sup> See Section 105(b)(5)(B) and (C) of the Act. The PCAOB is adopting these rule amendments to maintain consistency between Sections 105(b)(5) of the Act and Rule 5108(a), which the Board originally adopted "principally for purposes of notice concerning how the Board will comply with the requirements of Section 105(b)(5) (e.g., by keeping the relevant documents confidential) and that the Board will make appropriate use of its authority to share confidential materials with certain other regulatory authorities." See *Rules on Investigations and Adjudications*, PCAOB Release No. 2003-015, at A2-40 (Sep. 29, 2003).

<sup>112</sup> The term "self-regulatory organization" ("SRO") was adopted as a part of the Board's funding rules release. See PCAOB Release No. 2011-002.

<sup>113</sup> See Rule 1001(f)(iii).

with the foreign auditor oversight authority is necessary to accomplish the purposes of the Act or to protect investors, the Board must also determine that it is appropriate to share such information.<sup>114</sup>

One commenter suggested that because SROs are private entities the Board should take additional steps to ensure that SROs preserve the confidentiality and privilege of any information that is transmitted to SROs, for example by requiring, by rule, that SROs enter into a memorandum of understanding with the Board before receiving confidential and privileged information from the Board.<sup>115</sup> Unlike foreign auditor oversight authorities, Congress did not impose a requirement that the Board seek assurances of confidentiality from SROs or take other steps to determine that it is appropriate to share confidential information with SROs.<sup>116</sup> Instead, the Act itself instructs SROs to "maintain such information as confidential and privileged."<sup>117</sup> The Board does not believe amending Rule 5108 is necessary to maintain the confidential and privileged status of this information. The Board takes steps to ensure that recipients of this information are aware of the statutory restrictions on information sharing. In the event that the Board discovers that an SRO makes disclosures that the Board believes are inconsistent with the Act, the Act and Rule 5108 allow the Board the flexibility to decline to supply information to that SRO or to require appropriate assurances of confidentiality.<sup>118</sup>

**Statements of Position (Rule 5109).** Rule 5109(d) allows a registered firm or associated person that has become involved in an informal inquiry or formal investigation to submit a written statement to the Board setting forth their position on the subject matter of the investigation. The Board proposed to add an explanatory note to Rule 5109(d), that would have indicated that, in considering factual assertions in a statement of position, the Board will consider whether those factual assertions are supported by evidence, such as evidence in the investigative record, or by an affidavit or declaration by an individual with knowledge of the asserted facts. The proposed note was designed to encourage associated persons and registered firms to provide the Board with appropriate information that would further assist the Board in evaluating statements of position.

Several commenters said the proposed explanatory note could suggest that arguments made in statements of position that were not supported by formal affidavits or declarations would be discounted by the Board, which they said would place disproportionate weight on formal evidentiary submissions at an early stage of an inquiry or investigation and potentially harm the Board's process of obtaining evidence.<sup>119</sup> Two commenters said that the proposing release did not provide a clear rationale for this proposed amendment.<sup>120</sup>

In light of the concerns expressed by commenters, the Board is not adopting the proposed explanatory note. The Board did not intend to suggest that formal evidentiary submissions would be required, or that the Division of Enforcement

---

<sup>114</sup> See Section 105(b)(5)(C) of the Act.

<sup>115</sup> See D&T Comment Letter. With respect to foreign auditor oversight authorities, D&T supported inclusion of the statutory safeguards to protect against a breach of confidentiality by the foreign authority.

<sup>116</sup> Compare Section 105(b)(5)(C)(ii) of the Act, with Section 105(b)(5)(B)(ii) of the Act.

<sup>117</sup> See Section 105(b)(5)(B) of the Act.

<sup>118</sup> For these same reasons, the Board does not believe this commenter's similar suggested revisions to Rule 5112 or Rule 5420 are necessary and declines to make them.

<sup>119</sup> See D&T Comment Letter; Grant Thornton Comment Letter; KPMG Comment Letter; PWC Comment Letter.

<sup>120</sup> See KPMG Comment Letter; PWC Comment Letter.

and Investigation's ("DEI" or "Division") burden of proof would shift as a result of the proposal. The purpose of the Rule 5109(d) process is to assist the Board in its decision-making by providing prospective respondents with a meaningful opportunity to focus the Board's attention on significant issues concerning prospective respondents' characterization of their own conduct, and on the legal and policy issues implicated by the staff's recommendation.<sup>121</sup> Submissions made under Rule 5109(d) also help the Board's Enforcement staff in determining whether to pursue a recommendation that the Board institute disciplinary proceedings against a prospective respondent. The process is not designed to become a miniature adjudication that is subject to formal evidentiary submission requirements.

Practice today varies across Rule 5109(d) submissions and sometimes within a submission. Some submissions are amply supported; others are unsupported or only partially supported. Additionally, in some instances, assertions in a submission appear to contradict evidence in the investigative record. The Board's goal in proposing the explanatory note was simply to make prospective respondents aware (or remind them) that if their statements of position assert new facts, or make factual assertions that contradict evidence already in the investigative record, those assertions are likely to be given more weight by the Division and the Board if they are supported by evidence. Supportive evidence could include evidence that is already in the investigative record. A proposed respondent could also, for example, submit an affidavit, declaration, or similar statement signed by an individual who claims to have knowledge of the asserted facts.

**Board Referrals of Investigations (Rule 5112).** Rule 5112(b) provides that the Board may refer any investigation to the Commission, and to any other Federal functional regulator. The Dodd-Frank amendments gave the Board authority to refer any investigation to a self-regulatory organization when the investigation concerns an audit report for a broker or dealer that is under the jurisdiction of such organization. The Board is adding subparagraph (2) to Rule 5112(b) to conform to these amendments.<sup>122</sup> Other than the comment discussed above in connection with Rule 5108(a), the Board did not receive comment on the proposed amendment to Rule 5112 and is adopting it as proposed.<sup>123</sup>

## B. Disciplinary Proceedings

**Commencement of Disciplinary Proceedings (Rule 5200(a)(2)).** The Board is amending Rule 5200(a)(2) to replace the phrase "the supervisory personnel of such a firm," with "any person who is, or at the time of the alleged failure reasonably to supervise was, a supervisory person of such firm." This amendment conforms the rule to the Dodd-Frank amendments to Section 105(c)(6) of the Act concerning the imposition of sanctions for failure to supervise. The Board did not receive comment on the proposed amendments to Rule 5200(a)(2) and the Board is adopting the amendments as proposed.

**Proceedings Instituted Solely Pursuant to Rule 5200(a)(3).** Under Rule 5200(a)(3), the Board may institute disciplinary proceedings when "it appears to the Board that a hearing is warranted pursuant to Rule 5110." Rule 5110 states that the Board may institute a proceeding pursuant to Rule 5200(a)(3) for noncooperation with a Board investigation. A number of provisions in the Board

---

<sup>121</sup> See PCAOB Release No. 2003-015, at A2-47 through A2-49.

<sup>122</sup> The PCAOB is also adopting amendments to conform to Section 1161(h) of the Housing and Economic Recovery Act. See Rule 5112(b)(3).

<sup>123</sup> See *supra* note 118.

rules are intended to expedite disciplinary proceedings of this type. Based on its experience with these rules in practice, the Board is making amendments so that these special procedures do not automatically apply in cases involving both non-cooperation and other charges.

First, the Board is eliminating the Rule 5201(b)(3)(ii) requirement that the Board specify a hearing date in every order instituting proceedings ("OIP") for alleged noncooperation with an investigation. Rule 5200(b)(12) requires a hearing officer to obtain Board approval before changing any hearing date set by Board order. These two rules combine to restrict the hearing officer's discretion in a way that is not necessary in every noncooperation case. The Board retains the discretion to include hearing dates or deadlines in any OIP.

Second, the Board is amending the following rules by adding the word "solely" to make it clear that certain shorter deadlines and more abbreviated procedural requirements apply only to proceedings brought exclusively for alleged noncooperation: Rules 5110(b); 5201(b)(3) (and deleting 5201(b)(3)(ii)); 5204(b)(Note), 5421(b), 5422(a)(2), 5422(d), 5445(b), and 5460(a)(2)(ii). Rule 5421(b), for example, prescribes the time frame in which parties must answer allegations contained in Board OIPs. The rule requires parties to file answers to Board allegations within 20 days for proceedings brought pursuant to Rule 5200(a)(1), Rule 5200(a)(2), or Rule 5500, and within five days for proceedings brought under Rule 5200(a)(3). Rule 5421(b) does not expressly address, however, which time frame applies to proceedings brought under both Rule 5200(a)(1) and Rule 5200(a)(3), for example. The amendments clarify that the rule's shorter time frame applies only to proceedings brought under, and only under, Rule 5200(a)(3). Put another way, the amendments clarify that Rule 5421(b)'s expedited time frame does not apply to a proceeding brought under both Rule 5200(a)(1) and Rule 5200(a)(3).

One commenter expressed concern that the proposed amendments that would clarify that special expedited procedures only apply to non-cooperation charges could have the effect of allowing a disagreement over what conduct constitutes non-cooperation to take too long to resolve, creating uncertainty.<sup>124</sup> The Board's amendments clarify the circumstances under which the Board's special and expedited non-cooperation procedures apply,<sup>125</sup> but do not amend the grounds under which non-cooperation proceedings may be instituted<sup>126</sup> or the substance of the expedited procedures.<sup>127</sup> The time involved in resolving disagreements over what conduct constitutes non-cooperation should therefore not be affected by these amendments.

**Burden of Proof (Rule 5204).** Rule 5204(a) provides that in any disciplinary proceeding instituted pursuant to Rule 5200(a), the interested division "shall bear the burden of proving an alleged violation or failure to supervise by a preponderance of the evidence." As proposed, the Board is adding a second sentence to Rule 5204 that makes it clear that respondents who raise affirmative defenses bear the burden of proving those affirmative defenses, also by a preponderance of the evidence. The addition is consistent with the general rule that the burden of proving an affirmative defense rests with the party asserting the defense. *See, e.g., Taylor v. Sturgell*, 553 U.S. 880, 907 (2008).

The amendments to Rule 5204 only become relevant if the interested division has met its burden of proving an alleged violation by a preponderance of the

---

<sup>124</sup> See PWC Comment Letter.

<sup>125</sup> See Rule 5110(b).

<sup>126</sup> See Rule 5110(a).

<sup>127</sup> See Rules 5201(b)(3), 5300(b), 5302(d), 5421(b), 5422(a)(2), 5422(d), 5445(b), and 5460(a)(2)(ii).

evidence. Thus, the amendments clarify that once the interested division has proved an alleged violation by a preponderance of the evidence, if the respondent raises an affirmative defense to the violation, the respondent bears the burden of proving the affirmative defense by a preponderance of the evidence. The Board did not receive comment on the proposed amendments to Rule 5204 and is adopting these amendments as proposed.

**Civil Money Penalties (Rule 5300).** Rule 5300(a) lists the sanctions the Board may impose if it finds a registered firm or associated person has committed a violation of the Act, rules of the Board, the relevant securities laws, or professional standards. Under Rule 5300(a)(4), the Board may impose civil money penalties for each such violation. This rule, which became effective in 2004, listed specific maximum amounts for penalties against natural persons and entities. As required by the Debt Collection Improvement Act of 1996,<sup>128</sup> the SEC adjusts the maximum amounts of certain penalties under the Act for inflation at least once every four years.<sup>129</sup> As proposed, the Board is revising Rule 5300(a)(4) to recognize the penalty inflation adjustments, as published in the Code of Federal Regulations at 17 C.F.R. § 201 Subpart E. In addition, the Board is adding an explanatory note at the end of Rule 5300, indicating that the maximum penalty amounts vary depending on the date that the violation occurs, per 17 C.F.R. § 201 Subpart E.<sup>130</sup>

**Leave to Participate to Request a Stay (Rule 5420).** Under Rule 5420, an authorized representative of the SEC, the United States Department of Justice or any United States Attorney's Office, an appropriate state regulatory authority, or any criminal prosecutorial authority of a state or political subdivision of a state may seek leave to participate in a pending Board or disciplinary proceeding to request a stay to protect an ongoing investigation or proceeding. Consistent with the Dodd-Frank amendments, the Board is expanding the list of entities that may seek a stay pursuant to Rule 5420 to include self-regulatory organizations, as defined by Rule 1001(s)(v). This amendment permits a self-regulatory organization to seek a stay of a hearing that is in the public interest or for the protection of investors. Other than the comment discussed above in connection with Rule 5108(a), the Board did not receive comment on the proposed amendments to Rule 5420 and is adopting these amendments as proposed.<sup>131</sup>

**Documents That May be Withheld From Production (Rule 5422).** After disciplinary proceedings have been instituted, Rule 5422(a) provides that DEI generally must make available for inspection and copying various documents prepared or obtained by the Division "in connection with the investigation prior to the institution of the proceedings." Rule 5422(b) lists categories of documents that the Division may decline to make available for inspection and copying, subject to an overriding obligation not to withhold material exculpatory evidence. The PCAOB has determined to amend Rule 5422(b) in two respects.

---

<sup>128</sup> Pub. L. 104–134, 110 Stat. 1321–373 (codified at 28 U.S.C. § 2461 note).

<sup>129</sup> See SEC, *Adjustments to Civil Monetary Penalty Amounts*, Securities Act Release No. 8530 (Feb. 4, 2005); SEC, *Adjustments to Civil Monetary Penalty Amounts*, Securities Act Release No. 9009 (Feb. 25, 2009); SEC, *Adjustments to Civil Monetary Penalty Amounts*, Securities Act Release No. 9387 (Feb. 27, 2013).

<sup>130</sup> One commenter said that while it did not have a particular objection to the proposed amendment to Rule 5300, it was not apparent how the SEC can amend the civil penalties established by Congress in the Act for the PCAOB, because the Federal Civil Penalties Inflation Adjustment Act of 1990 ("FCPIAA") applies only to "agencies" of the federal government, and the PCAOB is not a federal agency. See EY Comment Letter. The FCPIAA encompasses the civil monetary penalties that may be imposed by the Board because penalties assessed by the PCAOB are "enforced" by the SEC for purposes of the FCPIAA. See Securities Act Release No. 9009, at n.5.

<sup>131</sup> See *supra* note 118.

First, under amended Rule 5422(b)(1)(i), DEI need not make available for inspection and copying any document prepared by a person retained by the PCAOB or the PCAOB's staff to provide services in connection with a PCAOB investigation, disciplinary proceeding, or hearing on disapproval of registration. Documents may be withheld under Rule 5422(b)(1)(i) only if the document has not been disclosed to any person other than Board members, Board staff, or persons retained by the Board or Board staff to provide services in connection with a PCAOB investigation, disciplinary proceeding, or hearing on disapproval of registration. Withholding such documents does not trigger any procedural requirements under Rule 5422(c).

Commenters generally expressed concern that there is no parallel provision in the SEC's comparable rule, which sets forth when the SEC's Division of Enforcement may withhold a document including when a document "is an internal memorandum, note or writing prepared by a Commission employee" or "is otherwise attorney work product and will not be offered in evidence."<sup>132</sup> Commenters also contended that this change is not warranted without a more thorough explanation.<sup>133</sup> The PCAOB further considered this proposal in light of the comments and determined to adopt it as proposed in most respects.<sup>134</sup>

This amendment corrects an anomaly in the prior version of Rule 5422(b)(1)(i), under which a document prepared by the Board or its staff and provided to a retained person would not be subject to disclosure under this subsection, but a document prepared by a retained person and provided to the Board or its staff was not covered by this subsection. The Board believes the applicability of Rule 5422(b)(1)(i) should not turn on whether a document was initially prepared by the Board, its staff, or a person retained by the Board or its staff. Retained persons are required to execute confidentiality agreements as a condition of their retention. Additionally, revising Rule 5422(b)(1)(i) to encompass documents prepared by a retained person is consistent with the general rule that firms and associated persons are not required to produce to the Division documents prepared by consultants they have retained to provide services in connection with an investigation or disciplinary proceeding.

The Board is also not persuaded that the lack of a similar specific provision in the SEC Rules of Practice counsels against amending Rule 5422(b)(1)(i), since the analogous SEC Rule, Rule 230, *Enforcement and Disciplinary Proceedings: Availability of Documents for Inspection and Copying*, is structured differently from PCAOB Rule 5422. For example, under PCAOB Rule 5422(b), as currently written, the Division may withhold from production, pursuant to the "work product doctrine," certain documents prepared by persons retained by the Board or the Board's staff in connection with an investigation. DEI, however, is required under Rule 5422(c) to provide a respondent with a log of such documents withheld. In contrast, under SEC Rule 230(c), the Commission's Division of Enforcement is not required to prepare a log of documents that it has withheld from production, including documents withheld pursuant to the work product doctrine (and work product documents prepared by retained persons), unless a hearing officer so requires. Thus, in certain respects, the amendment

---

<sup>132</sup> See CAQ Comment Letter; D&T Comment Letter; EY Comment Letter; Grant Thornton Comment Letter; KPMG Comment Letter.

<sup>133</sup> See CAQ Comment Letter; EY Comment Letter; KPMG Comment Letter; PWC Comment Letter.

<sup>134</sup> Commenters also generally asserted that the addition of the words "obtained from" in proposed Rule 5422(b)(1)(i) was ambiguous and could have implications on the efficiency and fairness of PCAOB proceedings. See CAQ Comment Letter; D&T Comment Letter; EY Comment Letter; and KPMG Comment Letter. After considering these comments, the Board has determined that this proposed amendment is not necessary and is not revising Rule 5422(b)(1)(i) to add the "obtained from" language.

to Rule 5422(b)(1)(i), which effectively removes the logging requirement for documents prepared by persons retained by the Board or the Board's staff in connection with an investigation, brings the Board's rules more in line with the Commission's rules.

The PCAOB's second amendment, to Rule 5422(b)(1)(ii), allows DEI to not make available for inspection and copying any document "accessed from generally available public sources, such as legal research or other subscription databases, databases of securities filings, databases of periodicals, and public web sites, except to the extent that DEI intends to introduce such documents as evidence." Documents may be withheld under Rule 5422(b)(1)(ii) only if DEI does not intend to introduce them as evidence. Withholding such documents does not trigger any procedural requirements under Rule 5422(c).

Some commenters asserted that documents "accessed from generally available public sources" could result in relevant materials not being produced, including documents DEI may consider supportive of its claims or that are exculpatory of a respondent.<sup>135</sup> The Board does not agree that exculpatory materials can be withheld under this new subsection and is adopting this amendment as proposed. Rule 5422(b)(2) makes clear that material exculpatory evidence must always be produced even if it could otherwise be withheld under Rule 5422(b)(1).<sup>136</sup> The PCAOB is adopting this amendment as proposed because it is concerned that the previous version of Rule 5422 could be misread to require DEI to log any legal research or general background research done during the investigation. This amendment is not intended to relieve DEI of the obligation to make available any document DEI knows of and intends to introduce as evidence, and it does not allow DEI to withhold a document that contains material exculpatory evidence.

**Prior Sworn Statements of Nonparty Witnesses in Lieu of Live Testimony (Rule 5426).** Rule 5426 allows a party to make a motion with the Hearing Officer to introduce "a prior, sworn statement of a nonparty witness otherwise admissible in the proceeding, in lieu of live testimony." The title and subsequent provisions of the rule do not, however, repeat the rule's limitation to nonparty witnesses. The Board is adding "nonparty" before "witnesses" in the title of Rule 5426, and before "witness" in the fourth sentence of the rule, in order to make it clear that the rule does not apply to prior sworn statements of parties to the proceeding. The Board did not receive comment on the proposed amendments to Rule 5426 and is adopting these amendments as proposed.

**Motions for Summary Disposition (Rule 5427).** Rule 5427 provides that the interested division or respondent may file motions for summary disposition of the proceedings. The Board is adding "any or all allegations of the order instituting proceedings with" to both Rules 5427(a) and (b) to make it clear that a motion for partial summary disposition may be made by the interested division and the respondents to disciplinary proceedings. This language tracks Rule 250 of the Commission's Rules of Practice. The Board did not receive comment on the proposed amendments to Rule 5427 and is adopting these amendments as proposed.

**Evidence: Objections and Offers of Proof (Rule 5442).** Rule 5442 addresses objections to the admission or exclusion of evidence in a disciplinary proceeding. The Board is making a technical amendment to Rule 5442(a)(2)

---

<sup>135</sup> See CAQ Comment Letter; D&T Comment Letter; Grant Thornton Comment Letter; KPMG Comment Letter.

<sup>136</sup> The Board also is not persuaded that there is a risk that DEI would withhold evidence supportive of its claim under Rule 5422(b)(1)(ii), since that subsection requires DEI to produce documents it intends to introduce as evidence even if the documents were obtained from a generally available public source.

to clarify that exceptions to the hearing officer's admission or exclusion of evidence will not be deemed waived on appeal to the Board, if they are raised in proposed findings and conclusions filed in a post-hearing brief or other submission pursuant to Rule 5445. The Board did not receive comment on the proposed amendments to Rule 5442 and is adopting these amendments as proposed.

**Board Review of Determinations of Hearing Officers (Rule 5460).** Rule 5460 sets out the procedures for the Board's review of hearing officer initial decisions, either on appeal of a party to a hearing or on the Board's own initiative. Under Rule 5460(a)(2), a party may obtain Board review of an initial decision by filing a timely petition for review. To be timely, a petition must be filed within 10 days of an initial decision in a proceeding commenced under Rule 5200(a)(3) for noncooperation, and within 30 days of an initial decision in other proceedings. To conform with the clarification to Rule 5200(a)(3) discussed above, the Board is adding the word "solely" to Rule 5460(a)(2)(ii), to make it clear that the 10-day time period applies only to proceedings instituted exclusively pursuant to Rule 5200(a)(3).

The Board is also adding a note to Rule 5460(a) that sets out how the Board will determine when service of an initial decision has occurred, and by extension, when petitions for review are due. For any party that has entered a notice of appearance and filed an electronic mailing address with the Board, pursuant to Rule 5401(c), the Board deems service to have occurred on the date that the Secretary has transmitted the initial decision by electronic mail to the e-mail address on file.

Finally, Rule 5460(e) provides that the Board may summarily affirm an initial decision, based upon a petition for review. The Board is deleting the phrase "and any response thereto" from this provision because no Board rule permits a response to a petition for review. The Board did not receive comment on the proposed amendments to Rule 5460 and is adopting these amendments as proposed.

**Presence of accounting experts during investigative testimony.** In response to a general request for comments about other potential changes to the rules in Section 5, several commenters said accounting experts should be allowed to assist counsel during testimony in appropriate circumstances under Rule 5102(c)(3).<sup>137</sup> These commenters asserted that the SEC has permitted this form of assistance since 1985, "with no apparent interference in the SEC's fact-finding process,"<sup>138</sup> and said that DEI's "functional ban" on technical assistance results in: possible prejudice to counsel and witnesses during questioning, an inhibiting effect on DEI's fullest exposition and consideration of the issues, and the appearance that DEI has an unfair tactical advantage over the witness in the investigative process.<sup>139</sup>

One commenter said that the Board should think of firm monitoring as a good idea that facilitates supervisors' ability to determine whether the firm should adjust the witness's work assignments, provide training, or take other steps to address shortcomings.<sup>140</sup> And commenters suggested that the Board should amend its rules to expressly provide that witnesses' counsel be permitted the assistance of a technical consultant during the taking of testimony, except in circumstances in which DEI staff determines that it would obstruct the investigation.<sup>141</sup>

<sup>138</sup> See CAQ Comment Letter; EY Comment Letter; KPMG Comment Letter.

<sup>139</sup> See CAQ Comment Letter; KPMG Comment Letter.

<sup>140</sup> See EY Comment Letter.

<sup>141</sup> See CAQ Comment Letter; EY Comment Letter; KPMG Comment Letter.

The existing Rule 5102 gives the Board and the Board's staff discretion to allow an accounting expert to be present during investigative testimony in appropriate circumstances. The Board will consider the comments on this issue, as well as all other relevant factors, in determining how the staff should continue to exercise that discretion going forward.

## VII. Registration and Reporting Forms

The Board is amending PCAOB Forms 1, 1-WD, 2, 3, and 4, the Board's registration, withdrawal, and reporting forms. The amendments revise the forms to call for relevant information relating to a firm's audits of brokers and dealers. That information includes, among other things, information about audit reports issued by registered firms for broker and dealer audit clients. The amendments also make a number of changes to the forms in light of administrative experience. Commenters generally supported the proposed form amendments,<sup>142</sup> and the Board is largely adopting the amendments as proposed.

**Form 1: Application for Registration.** Under Section 102(b) of the Act and Rule 2101, public accounting firms applying to the Board for registration must complete and file Form 1.<sup>143</sup> The Board is amending Form 1 to conform with the Dodd-Frank amendments by adding "broker" and "dealer" to the Form in appropriate places.<sup>144</sup> In addition, the amendments require that applicants disclose identifying information concerning all brokers or dealers for which the applicant has prepared or issued audit reports during the previous calendar year,<sup>145</sup> and for which the applicant prepared, or expects to prepare or issue, audit reports during the current calendar year.<sup>146</sup> The amendments also require applicants to disclose the fees they billed to broker and dealer audit clients.<sup>147</sup> The amendments also require applicants to provide information about any limitations currently in effect, whether Board-ordered, Commission-ordered, or court-ordered, on association with a registered public accounting firm or on appearing or practicing before the Commission.<sup>148</sup> The Board did not receive comment on the proposed amendments to Form 1 and is adopting these amendments as proposed.

*Part III amendments.* As required by Section 102(b)(2)(A) and (B) of the Act, and consistent with the issuer client information currently required in Part II of Form 1, Part III of Form 1 requires disclosures about the applicant's broker or dealer audit clients, including the client's name, business address, CRD number,<sup>149</sup> CIK number,<sup>150</sup> the date of the audit report, and disclosures about

<sup>142</sup> See EY Comment Letter; KPMG Comment Letter; PWC Comment Letter.

<sup>143</sup> See Registration System for Public Accounting Firms, PCAOB Release No. 2003-007 (May 6, 2003).

<sup>144</sup> See, e.g., amended Form 1, Items 5.1, 5.2, 7.1, and 8.1. The amendments also make a technical change to General Instruction 6 of Form 1, to more closely conform the instruction to Rule 2300, as adopted in 2008. See *Rules on Periodic Reporting by Registered Public Accounting Firms*, PCAOB Release No. 2008-004, at n.27 and accompanying text (June 10, 2008).

<sup>145</sup> Form 1, Item 3.1.

<sup>146</sup> Form 1, Item 3.2 and Item 3.3.

<sup>147</sup> Form 1, Item 3.1.c-e and Item 3.2.c-e.

<sup>148</sup> Form 1, Item 5.1.c-d.

<sup>149</sup> A broker's or dealer's Central Registration Depository ("CRD") number is a number assigned by FINRA's CRD system, a computer system that maintains registration information regarding brokers and dealers and their registered personnel.

<sup>150</sup> The Commission issues Central Index Key ("CIK") numbers as unique publicly available identifiers and Electronic Data Gathering, Analysis, and Retrieval System ("EDGAR") access codes. For consistency, and to more easily identify issuers, the Board is also amending Form 1, Items 2.1 through 2.4 to require issuers' CIK numbers.

the fees billed to broker or dealer audit clients by the applicant. The disclosures are divided into four items that closely track the items in Part II of Form 1 relating to issuer audit clients. Item 3.1 covers broker and dealer clients for which the applicant prepared an audit report during the previous year. Item 3.2 covers broker and dealer clients for which the applicant prepared an audit report during the current year. Item 3.3 covers broker and dealer clients for which the applicant expects to prepare an audit report during the current year. Item 3.4 covers broker and dealer clients for which the applicant played or expects to play a substantial role in the audit during the preceding or current calendar year if the applicant did not prepare or issue and does not expect to prepare or issue audit reports.

Items 3.1 and 3.2 require the same information: the broker's or dealer's name, business address, CRD number, CIK number, the date of the audit report, and the total amount of fees billed for audit services, other accounting services, and non-audit services.<sup>151</sup> Because Item 3.3 refers to a future period, it only requires the broker's or dealer's name, business address, and CRD and CIK numbers.<sup>152</sup> Item 3.4 requires disclosure of the broker's or dealer's name, business address, CRD number, CIK number, the name of the public accounting firm that issued or is expected to issue the audit report, the date or expected date of the audit report, and the type of substantial role played by the applicant with respect to the audit report.

The Board understands that the fee information in Items 3.1 and 3.2 may not have been collected historically, and that public accounting firms may have to put systems in place to track information in these categories. While the Board understands that many, if not all, broker or dealer clients are not subject to the Commission's existing requirements for issuers to disclose fee information, or Items 2.1 and 2.2 of Form 1, where similar fee disclosure is currently required for issuer audit clients, the Dodd-Frank amendments to Section 102(b)(2)(B) of the Act specifically require applicants to include disclosure of the annual fees received by the firm for "audit services, other accounting services, and non-audit services" for each broker or dealer audit client.<sup>153</sup>

The Board expects that the Form 1 fee disclosure requirements for broker and dealer audit clients will not affect most registered public accounting firms. First, all current auditors of broker and dealer clients should already be registered with the Board,<sup>154</sup> and so will already have filed Form 1. Also, going forward the Board expects that most new firms will not have prepared audit reports for broker or dealer clients during the preceding or current calendar year, without having been previously registered with the Board, and therefore Items 3.1

---

<sup>151</sup> As discussed above, the Board is amending the terms "audit services" and "other accounting services" to apply to broker and dealer audit clients. *See supra* note 20 and accompanying text.

<sup>152</sup> As proposed, the note to Item 3.3 stated that an applicant may "presume" it is expected to prepare or issue an audit report for a broker or dealer in certain circumstances, while the notes to proposed Items 2.4 and 3.4(d) used the term "conclude" in the same context. The Board agrees with two commenters that using the term "conclude" consistently is preferable, and has adopted this change. *See* CAQ Comment Letter; KPMG Comment Letter.

<sup>153</sup> As noted below, the Board is not imposing an annual reporting requirement with respect to fees for services provided for broker and dealer audit clients. *See* text accompanying and following note 177.

<sup>154</sup> The Dodd-Frank amendments to Section 102(a) of the Act expanded the Act's registration requirement by making it unlawful for any person that is not a registered public accounting firm to prepare or issue, or to participate in the preparation or issuance of, any audit report with respect to any broker or dealer. Even before the Dodd-Frank amendments, however, Section 17(e)(1)(A) of the Exchange Act, as amended in 2002, required that the balance sheets and income statements filed with the Commission by registered brokers or dealers be certified by a public accounting firm registered with the PCAOB. *See supra* note 4.

and 3.2 will generally not apply to them.<sup>155</sup> Finally, because the Board recognizes that firms with broker and dealer audit clients have not necessarily been maintaining billing records in a way that readily facilitates precise reporting according to the fee categories in the Act (as the Board has defined them), the Board is adopting a note to these items that provides that estimated amounts may be used in responding to these Items in Form 1, to the extent that these fees have not previously been disclosed or otherwise known to an applicant.<sup>156</sup>

*Part V amendments.* Item 5.1 of Form 1 requires applicants to disclose information about certain types of criminal, civil, administrative, or disciplinary proceedings pending against, or resolved in the preceding five years against, the applicant or any associated person of the applicant. At the time that the PCAOB adopted Form 1, there was no history of disciplinary sanctions imposed by the Board. Now that there is a history of Board-imposed bars and suspensions dating back to 2005, the Board is adding to Form 1 a requirement that the applicant disclose whether individuals in the firm, or contractors of the firm, are subject to any currently effective Board-imposed bar or suspension on being an associated person of a registered public accounting firm. The implication of collecting this information on Form 1 is not that a firm's relationship with such a person would, in and of itself, result in rejection of the firm's application, but in some circumstances it may be relevant information that would cause the Board to evaluate whether approving the application is consistent with the Board's responsibility to protect investors and further the public interest.<sup>157</sup> In the same vein, the Board also is requiring information about currently effective prohibitions on appearing or practicing before the Commission, whether resulting from a Commission order denying or suspending that privilege or from a court-ordered injunction against such appearance or practice.<sup>158</sup> The amendments add new Items 5.1.c, 5.1.d, and 5.1.e to Form 1.

*Part VI amendments.* The Board is also amending Part VI of Form 1, which requires an applicant to identify instances in which the applicant's issuer audit clients disclosed disagreements with the applicant in Commission filings. As required by Section 102(b)(2)(G) of the Act,<sup>159</sup> the Board is requiring that an applicant also disclose whether, in the preceding or current calendar year, a broker or dealer audit client disclosed issues with the applicant relating to any matter of accounting principles or practices, financial statement disclosure, auditing

---

<sup>155</sup> While Items 3.1 and 3.2 will generally not affect new applicants, some applicants may expect to issue an audit report for a broker or dealer in the current calendar year and may have provided tax services or other non-audit services to a broker or dealer client prior to providing audit services to the broker or dealer client. These applicants are required to comply with the amended fee disclosure requirements in Items 3.1 and 3.2 as to these previously provided tax and other accounting services.

<sup>156</sup> This means, for example, that if a firm has not tracked fees billed to broker and dealer audit clients according to the fee categories as defined by the Board's rules, estimated amounts may be used in responding to these items.

<sup>157</sup> Among other factors, the PCAOB will consider the nature of the allegations underlying the proceeding, and the position at the firm of the associated person. Form 1 permits firms to address these factors, as well as any other relevant points, in any discussion it provides concerning the disclosure.

<sup>158</sup> Because currently effective denials or suspensions may have been ordered at any time, not just within the five years preceding an application, the amended language refers to Commission orders without limiting them to orders issued pursuant to current Rule 102(e) of the Commission's Rules of Practice. The amended language also encompasses court-ordered injunctions against appearing or practicing before the SEC, some of which have been issued in the past and remain in effect. Although the vast majority of SEC practice denials or suspensions are administrative, some are court-ordered. A corresponding language change is also being made for Form 3, as described below.

<sup>159</sup> Section 102(b)(2)(G) of the Act specifically requires that an applicant submit as part of its application for registration "copies of any periodic or annual disclosure filed by an issuer, broker, or dealer with the Commission during the immediately preceding calendar year which discloses accounting disagreements between such issuer, broker, or dealer and the firm in connection with an audit report furnished or prepared by the firm for such issuer, broker, or dealer."

scope or procedure, or compliance with applicable rules of the Commission in a notice filed with the Commission pursuant to SEC Rule 17a-5(f)(3)(v)(B).<sup>160</sup> For each such instance in the preceding or current calendar year, an applicant is required to disclose the name of the broker or dealer client, the broker's or dealer's CRD and CIK numbers, the date of the filing containing the notice, and to submit, as exhibits, copies of identified filings.<sup>161</sup>

**Form 1-WD: Request to Withdraw from Registration.** Under Rule 2107, a registered public accounting firm may at any time submit to the Board a request for leave to withdraw its registration. A request to withdraw must be submitted on Form 1-WD. The general instructions to Form 1-WD require registered public accounting firms seeking to withdraw from Board registration to submit an original hard copy of Form 1-WD to the Board, in addition to submitting the form to the Board electronically.<sup>162</sup> To facilitate the process of withdrawal for firms that no longer wish to be registered with the Board, and permit the withdrawal of a number of firms that have submitted the form electronically (but have not submitted original hard copies of the form), the Board is amending Form 1-WD's general instructions to eliminate the requirement that the form's original hard copy be submitted to the Board. Under the amended instructions, firms are only required to submit Form 1-WD to the Board electronically.<sup>163</sup> The Board did not receive comment on the proposed amendments to Form 1-WD and is adopting these amendments as proposed.

**Form 2: Annual Report.** Under Section 102(d) of the Act and Rule 2200, registered public accounting firms must file annual reports with the Board on Form 2.<sup>164</sup> The Board is amending Form 2 to call for relevant information concerning a firm's audits of brokers and dealers.<sup>165</sup>

*Part III amendments.* Part III of Form 2 requires registered firms to annually disclose information about their issuer-related practice. The amendments require that registered firms indicate whether they issued any audit reports with respect to any broker or dealer during the annual reporting period;<sup>166</sup> and, if they did not issue any such audit reports, to indicate whether they played a substantial role in the preparation or furnishing of an audit report with respect to a broker or dealer.<sup>167</sup>

The Board is also revising Part III of Form 2 to reflect the Dodd-Frank amendment to the Act requiring certain foreign public accounting firms to designate to the Commission or the Board an agent in the United States upon whom may be served any request by the Commission or the Board under Section 106 of the Act or upon whom may be served any process, pleading, or other papers

---

<sup>160</sup> Form 1, Item 6.4. See SEC Rule 17a-5(f)(3)(v)(B).

<sup>161</sup> Form 1, Items 6.5 and 6.6. The amendments require an applicant to identify instances in which the applicant's broker or dealer audit clients disclosed issues with the applicant in such broker's or dealer's SEC Rule 17a-5 filings with the Commission. Therefore, if a broker or dealer did not disclose an issue in a SEC Rule 17a-5 filing with the Commission, the applicant does not need to disclose such issue in Form 1.

<sup>162</sup> See Form 1-WD, General Instruction 4.

<sup>163</sup> These amendments apply to firms that previously submitted an original hard copy of Form 1-WD without submitting the form electronically.

<sup>164</sup> See *Rules on Periodic Reporting by Registered Public Accounting Firms*, PCAOB Release No. 2008-004 (June 10, 2008).

<sup>165</sup> See, e.g., Form 2, Items 3.1, 7.1, and 7.3. The amendments also make a technical change to General Instruction 7 of Form 2, to more closely conform the instruction to Rule 2300, as adopted in 2008. See *supra* note 144.

<sup>166</sup> Form 2, Item 3.1.d.

<sup>167</sup> Form 2, Item 3.1.e.

in any action to enforce Section 106 of the Act.<sup>168</sup> This statutory provision applies to any foreign public accounting firm that (i) performs material services upon which another registered public accounting firm relies in the conduct of an audit or interim review, (ii) issues an audit report, (iii) performs audit work, or (iv) performs interim reviews. Under the amendments, a foreign registered firm that has already made this designation to the Commission or Board is required to check a box annually indicating that the firm has done so and identify the name and address of the designated agent.<sup>169</sup> A foreign registered firm that has not already made a Section 106(d)(2) designation is required to indicate annually whether or not it has performed any of the activities specified by Section 106(d)(2) since enactment of the Dodd-Frank Act.<sup>170</sup> Any foreign public accounting firm that has not already made a required Section 106(d)(2) designation to the Commission or Board must do so immediately.<sup>171</sup>

One commenter said that the proposed identification of the name and address of the designated agent did not fairly reflect the Dodd-Frank amendments to Section 106 of the Act and would serve no legitimate purpose of the Commission, the Board, or the public readers of Form 2, because Section 106 confers no rights on persons beyond the SEC and PCAOB.<sup>172</sup> The Board expects that these amendments will facilitate the Board's and SEC's ability to track foreign firm designations and will remind firms that their Section 106(d)(2) designations should be kept current. The Act only addresses requests by the Commission or the Board, and these form amendments are intended only to impose a new reporting requirement, not to confer rights on anyone.

Another commenter said proposed Item 3.3 would only be appropriate if the Board permitted foreign firms to decline to provide such information if such firms were unable to do so without violating non-U.S. law, asserting conflicts with non-U.S. law.<sup>173</sup> The Board declines to accept this argument, as it would defeat the purpose of the Dodd-Frank amendment to Section 106(d)(2) of the Act.

*Part IV amendments.* Part IV of Form 2 requires firms to disclose information relating to the audit reports the firm issued for each issuer during the reporting period, as well as audit reports issued during the period that the firm did not issue, but played a substantial role in preparing or furnishing. The amendments require that public accounting firms disclose in their annual reports certain information concerning each audit report the firm issued for a broker or dealer during the reporting period.<sup>174</sup> Also, if the firm did not issue any broker or dealer audit reports during the reporting period, the amendments require the firm to disclose the names and identifying information for each broker or dealer audit report the firm played a substantial role in preparing or furnishing in the reporting period.<sup>175</sup>

---

<sup>168</sup> See Section 106(d)(2) of the Act.

<sup>169</sup> Form 2, Item 3.3.a.

<sup>170</sup> Form 2, Item 3.3.b.

<sup>171</sup> To make a Section 106(d)(2) designation to the Board, firms should submit their designations by e-mail to the PCAOB's Office of the Secretary ([Secretary@pcaobus.org](mailto:Secretary@pcaobus.org)) and to note "106(d)(2) Designation" in the subject line of the e-mail.

<sup>172</sup> See KPMG Comment Letter.

<sup>173</sup> See Grant Thornton Comment Letter.

<sup>174</sup> Form 2, Item 4.3.a.

<sup>175</sup> Form 2, Item 4.4. The Board is also amending Form 2, Item 4.1, so that in those circumstances in which the firm must report the date of the firm's issuance of a consent to a previously-issued report (i.e., when a firm's reports for a particular issuer during the reporting period are limited to such consents), the firm must indicate that the date corresponds to such a consent.

Item 4.3 requires a public accounting firm to disclose in its annual report each audit report the firm issued for a broker or dealer during the reporting period. This amendment requires that the firm provide the broker's or dealer's name, CRD number, CIK number, and the date of the audit report(s).<sup>176</sup> In response to the Board's comment request on this issue, commenters generally said that firms should not be required to report audit fee information for broker and dealer audit clients on an ongoing basis on Form 2, saying the PCAOB currently has access to fee information for registered firms and the public interest would not be served by making this information publicly available.<sup>177</sup> The Board agrees and is not imposing an annual reporting requirement with respect to fees for services provided to broker and dealer audit clients under Form 2.

If a registered public accounting firm did not issue any broker or dealer audit reports during the reporting period, but played a substantial role in the preparation or furnishing of an audit report for a broker or dealer, Item 4.4 requires that registered public accounting firm to disclose, with respect to each such broker or dealer, the broker's or dealer's name, CRD number, CIK number, the name of the registered public accounting firm that issued the audit report(s), and a description of the role played by the firm with respect to the audit report(s). This information conforms to the information previously required for issuer clients in Item 4.2.a.<sup>178</sup>

*Part VII amendments.* Part VII of Form 2 requires firms to report information about certain types of relationships with individuals and entities that have specified disciplinary and other histories. Under the amendments, firms have to report new relationships with individuals and entities that were the subject of a Board order imposing a disciplinary sanction or a Commission Rule 102(e) order entered within the five years preceding the end of the reporting period, and who provided at least ten hours of audit services for any broker or dealer during the reporting period.<sup>179</sup> Finally, the Board is amending Items 7.1, 7.2, and 7.3 to correct certain cross-references.

**Form 3: Special Report Form.** Under Rule 2203, registered public accounting firms must report certain information to the Board as a special report filed on Form 3. The amendments revise Form 3 to call for relevant information concerning firms' audits of brokers and dealers.<sup>180</sup> The amendments also revise Form 3 to require firms to report circumstances where a former issuer audit client does not comply with Item 4.01 of *Commission* Form 8-K.<sup>181</sup>

*Withdrawn broker and dealer audit reports.* Among other events that trigger an obligation to file a special report, firms are required to file Form 3 if they

---

<sup>176</sup> Under the amendments, if a firm were to issue more than one audit report for a broker or dealer audit client during a reporting period, each audit report for that broker or dealer would be reported separately.

<sup>177</sup> See CAQ Comment Letter; Crowe Horwath Comment Letter; EY Comment Letter; KPMG Comment Letter; McGladrey Comment Letter.

<sup>178</sup> Note 1 to Form 2, Item 4.4 clarifies that if a firm identifies a broker or dealer in response to 4.3, the firm does not have to respond to Item 4.4.

<sup>179</sup> Form 2, Items 7.1.a and 7.3.a. Consistent with the previous Form 2 reporting requirements, the amendments capture only relationships that (i) exist as of the end of the reporting period, (ii) are with individuals or entities whose relevant disciplinary sanction or Rule 102(e) order was entered within the five years preceding the end of the reporting period, and (iii) have not previously been reported on Forms 1, 2, or 3. Other than the comment discussed *supra* in note 148, the Board did not receive comment on these proposed amendments and is adopting them as proposed.

<sup>180</sup> See, e.g., Form 3, Items 2.5, 2.6, 2.8, 2.9, and 4.1. The amendments also make a technical change to General Instruction 8 of Form 3 to more closely conform the instruction to Rule 2300. See *supra* note 144.

<sup>181</sup> Form 3, Items 2.1-C and 3.2.

have withdrawn an audit report on an issuer's financial statements, and the issuer failed to comply with Commission reporting requirements (Item 4.02 of SEC Form 8-K) concerning the matter.<sup>182</sup> The proposed amendments would have extended the obligation to report withdrawn audit reports on Form 3 to firms' broker and dealer audit clients.<sup>183</sup>

Commenters generally agreed that it is important for the PCAOB and financial statement users to be aware of instances in which an audit report has been withdrawn, but said that the Board should coordinate with the SEC (or FINRA) in this area, and suggested that the SEC establish a process, comparable to the one in place for issuers, that would require a broker or dealer to report to the SEC when an auditor has withdrawn an audit report or consent for a broker or dealer, and the Board would require auditor reporting only where the broker or dealer has not notified the SEC in accordance with its obligations.<sup>184</sup> One commenter argued that unlike the requirements for issuers, the proposal would require that withdrawn audit reports be disclosed directly by the auditor potentially causing the auditor to disclose the company's private information while jeopardizing the auditor's ethical responsibilities related to confidentiality.<sup>185</sup> Until a coordinated reporting process is developed, some commenters suggested that AU 561, *Subsequent Discovery of Facts Existing at the Date of the Auditor's Report*, provides a framework for registered public accounting firms to notify users if an audit report is withdrawn.<sup>186</sup>

The Board does not believe it is necessary at this time to require Form 3 reporting of withdrawn broker and dealer audit reports because the requirement would go beyond current SEC notification requirements. The Board may revisit such a proposal in the future once more information is gathered through its inspections and other oversight functions. Firms should note that AU 561 applies to broker and dealer audits. Consistent with that standard, under certain circumstances the auditor should, among other things, notify the regulatory agencies having jurisdiction over the broker and dealer audit client that the auditor's report should no longer be relied upon.<sup>187</sup>

*Issuer auditor changes.* The Board is adopting amendments to address circumstances where an issuer audit client encounters a change in its principal auditor (or an auditor upon whom the issuer's principal auditor expressed reliance in its report regarding a significant subsidiary) and the issuer does not comply with the Commission's four business day reporting requirement concerning the change in auditors pursuant to Item 4.01 of Form 8-K.<sup>188</sup>

Two commenters supported this proposed reporting requirement.<sup>189</sup> Two commenters suggested that the proposed Form 3 reporting requirement appeared redundant to Section 1000.08(m) of the SECPS membership requirements and encouraged the Board to develop a single solution for reporting auditor

---

<sup>182</sup> Form 3, Items 2.1 and 3.1.

<sup>183</sup> Proposed Form 3, Items 2.1-BD and 3.2.

<sup>184</sup> See CAQ Comment Letter; D&T Comment Letter; Grant Thornton Comment Letter; KPMG Comment Letter; McGladrey Comment Letter; PWC Comment Letter.

<sup>185</sup> See Grant Thornton Comment Letter.

<sup>186</sup> See CAQ Comment Letter; KPMG Comment Letter; PWC Comment Letter.

<sup>187</sup> See AU § 561.08(b).

<sup>188</sup> If an issuer audit client has a change in its principal auditor (or an auditor upon whom the issuer's principal auditor expressed reliance in its report regarding a significant subsidiary) within 24 months prior to or in any period subsequent to the date of the most recent financial statements, the issuer must provide the required information in Item 4.01 of Form 8-K within four business days of the change. See Item 304(a) of Regulation S-K; Item 4.01 of Form 8-K.

<sup>189</sup> See EY Comment Letter; KPMG Comment Letter.

changes.<sup>190</sup> Commenters were also concerned about the scope of the proposed Form 3 reporting, some of which commenters suggested would be difficult for the auditor to know or would not be relevant in circumstances where the auditor resigns or does not stand for reappointment.<sup>191</sup> Finally, one commenter said requiring auditors to make a Form 3 filing in these circumstances would inappropriately put auditors in the position of publicly reporting information that has not yet been reported by the issuer.<sup>192</sup>

The PCAOB has further considered this proposal in light of the comments and determined to adopt these proposed amendments largely as proposed. To ensure that the Board and public are made aware of these events, the Board is amending the instructions to Form 3 to require firms to file a special report with the Board if a client-auditor relationship has ended and the issuer has not reported the change in auditors on a Form 8-K.<sup>193</sup> Specifically, if a firm resigns, declines to stand for re-appointment, or is dismissed from an issuer audit engagement, and the issuer does not comply with Item 4.01 of Form 8-K, the firm within 30 days must report on Form 3 the issuer's name and CIK number, if any, whether the firm resigned, declined to stand for re-election or was dismissed, and the date thereof.<sup>194</sup>

Together, the amendments to the SECPS membership requirements and Form 3 establish a reporting system that begins, for firms that are former members of the SECPS, with a required non-public filing with the SEC's Office of the Chief Accountant within five business days,<sup>195</sup> and, if the former audit client is still not in compliance within 30 days, requires auditors to make an abbreviated public filing on Form 3 with the PCAOB.<sup>196</sup> The Board sees value both in streamlining the SECPS membership requirement for Form 8-K filers and also, after a period of time, requiring that the Board and the public receive notice of these changes if the issuer still has not satisfied its reporting obligations under Item 4.01 of Form 8-K.

Because Form 3 filings are public, and the Board does not anticipate needing as much information as was proposed, the Board is requiring that a Form 3 filing only report the issuer's name and CIK number, whether the firm resigned, declined to stand for re-election or was dismissed, and the date thereof.<sup>197</sup> The

---

<sup>190</sup> See CAQ Comment Letter; KPMG Comment Letter (recommending that the SECPS requirement be eliminated).

<sup>191</sup> See CAQ Comment Letter; Crowe Horwath Comment Letter; KPMG Comment Letter; McGladrey Comment Letter; PWC Comment Letter.

<sup>192</sup> See D&T Comment Letter (suggesting, as an alternative, that the PCAOB be copied, on a confidential basis, on the five-day SECPS letter so that the Board could be timely informed of issuer auditor changes).

<sup>193</sup> Form 3, Item 3.2 is only triggered by an issuer's failure to comply with Item 4.01 of SEC Form 8-K. This reporting requirement does not apply to foreign private issuers (that are required to report issuer auditor changes on Item 16F of Form 20-F) or investment companies other than business development companies (that are required to report auditor changes on Item 77K of Form N-SAR).

<sup>194</sup> See Form 3, Item 2.1-C and Item 3.3. If the issuer comes into compliance with an SEC requirement to make a report concerning the matter pursuant to Item 4.01 of Form 8-K during this 30-day period, the firm would not be required to report the change in auditors on Form 3.

<sup>195</sup> See *supra* notes 49-57 and accompanying text.

<sup>196</sup> Firms that are not former members of the SECPS are only required to report these events on Form 3.

<sup>197</sup> As proposed, the Form 3 reporting would have also included whether: (i) the firm's audit report(s) for either of the past two years contained an adverse opinion or a disclaimer of opinion, or was qualified or modified as to uncertainty, audit scope, or accounting principles; (ii) the former audit client's audit committee (or equivalent body), or board of directors (or equivalent body) recommended or approved the change; and (iii) there were any disagreements with the former client in the two most recent fiscal years and any subsequent interim period on any matter of accounting principles

(continued)

PCAOB is not persuaded that requiring auditors to report information in these circumstances ahead of their former clients poses a serious problem. This Form 3 reporting requirement is only triggered in circumstances where a former audit client is delinquent in publicly reporting the information mandated by Item 4.01 of Form 8-K.

*Relationships with persons subject to a bar or suspension.* Form 3 also requires firms to disclose information about new relationships with persons or entities that are effectively restricted from providing auditing services. Specifically, a firm is required to file a Form 3 special report if it enters into certain specified relationships with individuals or entities that are currently subject to (1) a Board disciplinary sanction suspending or barring an individual from being an associated person or a registered public accounting firm, or (2) a Commission order under Rule 102(e) of the Commission's Rules of Practice suspending or denying the privilege of appearing or practicing before the Commission.<sup>198</sup> Consistent with the changes to Item 5.1 of Form 1, the Board is revising this reporting criteria to encompass persons currently subject to any Commission order denying the privilege of, or any court-ordered injunction prohibiting, appearance or practice before the Commission.<sup>199</sup>

**Form 4: Succeeding to Registration Status of Predecessor.** Under Rules 2108 and 2109, a registered public accounting firm can, in certain circumstances, succeed to the registration status of a predecessor registered firm by filing Form 4. As proposed, the Board is amending Form 4 to conform with the Dodd-Frank amendments by adding a new "yes" or "no" question to Item 3.2 of Form 4. The amendments require a firm seeking to succeed to the registration status of a predecessor firm to indicate whether any firm involved in the transaction underlying the succession issued an audit report with respect to a broker or dealer audit client for financial statements with years ending after December 31, 2008 while not registered with the Board, and did not thereafter have an application for registration approved by the Board.<sup>200</sup> The Board did not receive comment on the proposed amendments to Form 4.

**Effective date.** One firm suggested that the effective date of the Form 2 amendments should provide sufficient time for firms to collect the necessary information related to brokers and dealers prior to the June 30 annual report filing deadline.<sup>201</sup> The Board's staff is reprogramming the Board's Web-based Registration, Reporting, and Special Reporting system. The amendments to Form 2 will take effect April 1, 2015. The Board expects that this will provide firms with sufficient time to collect necessary information. The amendments to Forms 1, 1-WD, 3, and 4 will take effect July 1, 2014.

---

*(footnote continued)*

or practices, financial statement disclosure, or auditing scope or procedure, which, if not resolved, would have caused the firm to make reference to the subject matter of the disagreements in connection with its audit report(s). Because the Board will be able to assess these additional categories of information, if necessary, through the inspections process or other means, the Board is not adopting these proposals.

<sup>198</sup> Form 3, Items 2.12 and 2.13, and Items 5.1 and 5.2.

<sup>199</sup> Form 3, Items 2.12 and 2.13, and Items 5.1 and 5.2. Other than the comment discussed *supra* in note 148, the Board did not receive comment on these proposed amendments and is adopting them as proposed.

<sup>200</sup> See Form 4, Item 3.2.e.3. The amendments clarify that succession is allowed where a firm was sanctioned for a registration violation but subsequently was allowed to register with the PCAOB. A conforming change is also being made to Form 4, Item 3.2.e.2. Separately, the amendments also make a technical change to General Instruction 8 of Form 4 to more closely conform the instruction to Rule 2300. See *supra* note 144.

<sup>201</sup> See Grant Thornton Comment Letter.

## VIII. Ethics Code

The Board is amending six of the Ethics Code's provisions: EC2, "Definitions;" EC4, "Financial and Employment Interests;" EC5, "Investments;" EC7, "Gifts, Reimbursements, Honoraria and Other Things of Value;" EC8, "Disqualification;" and EC12, "Post-Employment Restrictions." Several of these amendments conform the Ethics Code with the Board's authority under the Dodd-Frank amendments by adding the words "broker" and "dealer" to the Ethics Code in appropriate places. Other amendments are more technical in nature, reflecting the Board's experience in applying the Ethics Code. The Board did not receive comment on its proposed amendments to the Ethics Code and is adopting these amendments as proposed.

The Board is amending the note accompanying the definition of "practice" in EC2(f).<sup>202</sup> As part of its "revolving-door restrictions," the Ethics Code restricts Board members and professional staff from "practicing" before the Board, and the Commission with respect to Board-related matters, for one year following termination of employment or Board membership.<sup>203</sup> The note accompanying the definition of "practice" clarifies that participating in the financial reporting process as the officer or director of an issuer, or participating in an audit of an issuer's financial statements does not, in and of itself, constitute practice before the Board or the Commission. The amendments extend the note to former Board members and professional staff participating in the financial reporting process for, or in an audit of, a broker or dealer.<sup>204</sup>

EC5(d) requires that Board members and professional staff annually disclose their holdings in securities of issuers, including exchange-traded options and futures. The Board is making technical amendments to EC5(d) to clarify that disclosure should be made to the Ethics Officer, and, to permit flexibility, the amendments allow the Ethics Officer to prescribe a different date for annual disclosure.

Under EC7(b), Board members and professional staff are generally prohibited from accepting payment for or reimbursement of official travel-related expenses from any organization. This prohibition is subject to an exception for travel-related expenses that are in direct connection with an employee's participation in an educational forum that is principally sponsored by certain tax-exempt entities.<sup>205</sup> These tax-exempt entities, however, may not be principally funded from one or more public accounting firms or issuers. The Board's amendments include brokers and dealers among the categories of entities that may not principally fund these tax-exempt entities.

EC8(a) provides that if a Board member or professional staff becomes, or reasonably should become, aware of facts which would lead a reasonable person to believe that he or she (or his or her spouse, spousal equivalent, and dependents) may have "a financial interest or other similar relationship" which might affect (or reasonably create the appearance of affecting) his or her independence

---

<sup>202</sup> EC2(f) defines the term "practice" to mean knowingly acting as an agent or attorney for, or otherwise representing any other person in any formal or informal appearance before the Board or Commission, or making any oral or written communication on behalf of any other person to, and with an intent to influence, the Board or Commission.

<sup>203</sup> EC12(b)(1). Additionally, former Board members and professional staff may not "switch sides" and work on a particular matter after leaving the Board that they personally and substantially participated in while at the Board. EC12(b)(2).

<sup>204</sup> The Board is also making a technical amendment to the note accompanying the definition of "honoraria" in EC2(e) to clarify that meals provided to all conference participants are not considered "honoraria" that Board members and professional staff are prohibited from accepting under EC7(a).

<sup>205</sup> See EC7(b)(2)(C).

or objectivity, then he or she must, at the earliest possible date, disclose such circumstances and facts and recuse himself or herself from further Board functions or activities involving or affecting the financial interest or relationship. Because the phrase "or other similar relationship" has not provided sufficient clarity, the Board is replacing it with "or personal interest." Thus, under the amendments, EC8's disclosure and recusal provisions apply to "a financial or personal interest" a reasonable person would believe might affect (or reasonably create the appearance of affecting) his or her independence or objectivity.

Under EC12(a), Board members and professional staff may not negotiate prospective employment with a registered public accounting firm or issuer without first disclosing the identity of the prospective employer and recusing himself or herself from all matters directly affecting that prospective employer. Because the Dodd-Frank amendments gave the Board oversight over auditors of brokers and dealers, the Board is amending EC12(a) to require Board members and professional staff to disclose employment negotiations with brokers or dealers, in addition to registered accounting firms and issuers.

On the 4th day of December, in the year 2013, the foregoing was, in accordance with the bylaws of the Public Company Accounting Oversight Board,

- (3) Amendments to PCAOB Forms

# Appendix 1—Economic Considerations, Including Audits of Emerging Growth Companies

## I. Introduction

Congress in 2010 enacted the Dodd-Frank Wall Street Reform and Consumer Protection Act ("Dodd-Frank").<sup>1</sup> Dodd-Frank, in relevant part, amends the Sarbanes-Oxley Act of 2002 ("Sarbanes-Oxley" or the "Act") to expand the PCAOB's authority to include oversight of audits of SEC-registered brokers and dealers.<sup>2</sup> Dodd-Frank also: amends the Sarbanes-Oxley definition of "person associated with a public accounting firm;"<sup>3</sup> authorizes the Board to share information gathered in PCAOB inspections and investigations with self-regulatory organizations (with respect to public accounting firms within their jurisdiction)<sup>4</sup> and "foreign auditor oversight authorities" (with respect to public accounting firms within their jurisdiction);<sup>5</sup> clarifies the Board's authority to promulgate independence standards;<sup>6</sup> and expands the audit information to be produced and exchanged by foreign public accounting firms.<sup>7</sup>

The PCAOB is adopting amendments to its rules and ethics code to conform to the Dodd-Frank amendments to Sarbanes-Oxley. In addition, the PCAOB is: conforming its rules to the audits and auditors of brokers and dealers; amending its registration, withdrawal, and reporting forms, and the general instructions to these forms, to call for relevant broker and dealer audit client information; and amending a number of rules and forms in light of administrative experience and to make certain updates to address recent events.

As described in the release, the amendments:

- conform the terms defined in Rule 1001—including the definitions of "audit," "audit report," "audit services," "other accounting services," "foreign auditor oversight authority," "person associated with a public accounting firm (and related terms)," "play a substantial role in the preparation or furnishing of an audit report," "professional standards," and "suspension"—to the Dodd-Frank definitions and clarify that these terms extend to brokers and dealers;
- extend Section 2's registration and reporting rules (Rules 2100, 2106, and 2107) to audits of brokers and dealers;
- make Section 3's rules establishing auditing, attestation, and quality control standards (Rule 3200T, 3300T, and 3400T) applicable to audits of brokers and dealers.
- make Section 3's auditing and related professional practice standards rules applicable to audits of brokers and dealers (except Rules 3523, 3524, and 3525, which remain limited to services provided to issuer audit clients);

<sup>4</sup> See Dodd-Frank, § 982(i)-(j).

<sup>5</sup> See Dodd-Frank, § 981.

<sup>6</sup> See Dodd-Frank, § 982(d)(1).

<sup>7</sup> See Dodd-Frank, § 929J.

- require reporting of issuer auditor changes under Section 1000.08(m) of the SECPS membership requirements only if the issuer auditor client has not reported the change in a timely filed SEC Form 8-K;
- make technical amendments to Section 4's rules on Board inspections;
- conform Section 5's rules governing investigations and disciplinary proceedings to the Dodd-Frank amendments and amend a number of these rules in light of administrative experience;
- make technical amendments to Section 7's funding rules;
- call for information relating to audits of brokers and dealers on Forms 1, 1- WD, 2, 3, and 4 (and make a number of amendments to the forms in light of administrative experience); and
- update the Ethics Code to conform to the Dodd-Frank amendments and make a few clarifications.

The PCAOB is sensitive to the compliance burden incurred by auditors and other market participants due to its regulatory requirements and has attempted in a variety of ways to minimize burdens on affected entities while also satisfying the objectives of Congress and the SEC. These include the Board's efforts to tailor its ethics and auditor independence requirements, in Rules 3520 through 3526, to the organizational structure of brokers and dealers, and, in particular, not at this time extending to broker and dealer audits Rule 3523's prohibition on providing tax services to persons in financial reporting oversight roles. A number of other cost-minimization measures are discussed below.

In its proposal, the PCAOB invited commenters to submit comment on all aspects of the proposed amendments. Several commenters addressed the economic consequences of the proposed amendments in qualitative terms. These comments are addressed below.

## II. Economic Consequences

As discussed in the release, the PCAOB's objective in adopting today's amendments is to conform its rules, forms, and ethics code to the Dodd-Frank amendments to Sarbanes-Oxley and the SEC's amendments to Rule 17a-5. In amending the PCAOB's rules, forms, and ethics code the PCAOB has endeavored to achieve Congress's and the SEC's objectives in a cost-effective manner.

To the extent that these amendments reflect the statutory requirements of Dodd-Frank, the PCAOB's action is technical and non-substantive. It will not result in economic consequences beyond those resulting from Congress's determinations. Similarly, to the extent that these amendments reflect the SEC's Rule 17a-5 determinations, the PCAOB's action is housekeeping that will not result in separate economic consequences. However, to the extent that the amendments reflect the PCAOB's own determinations regarding implementation of Dodd-Frank's provisions or the SEC's Rule 17a-5 determinations, these determinations may result in additional economic consequences. These additional economic consequences (resulting from the PCAOB's own determinations) are separately considered below.

The baseline the Board uses to analyze the economic consequences of these amendments is the determinations made by Congress in 2010 to amend Sarbanes-Oxley and by the SEC in July 2013 to require that audits of brokers and dealers are to be conducted in accordance with the standards of the

PCAOB. To conform to the determinations made by Congress and the SEC, the PCAOB's rules, forms, and ethics code are being amended to reflect the amendments to Sarbanes-Oxley and Rule 17a-5.<sup>8</sup>

### A. Amendments involving no PCAOB discretion

Because Congress amended Sarbanes-Oxley and the SEC amended Rule 17a-5, the PCAOB's action to amend its rules, forms, and ethics code to conform to these amendments is technical and non-substantive. They do not reflect an exercise of PCAOB discretion. Instead, the PCAOB is adopting these amendments to implement statutory directives and the regulatory directives of the SEC. The PCAOB does not expect that these conforming amendments will result in any economic consequences, beyond reflecting the actions of Congress and the SEC.

To reflect the Dodd-Frank amendments, the Board is making technical conforming revisions, and including references to audits and auditors of brokers and dealers, in rules, ethics code provisions, and Form 1 parts that formerly applied only to issuers. These amendments include the revisions to: (1) the Rule 1001 definitions of "audit," "audit report," "foreign auditor oversight authority," "other accounting services," "person associated with a public accounting firm," "play a substantial role in the preparation or furnishing of an audit report," "professional standards," and "suspension;" (2) the Board's registration and reporting rules (Rule 2100, Rule 2106, and Rule 2107); (3) certain of the Board's rules governing investigations and adjudications (Rule 5105, Rule 5108,<sup>9</sup> Rule 5112, Rule 5200, Rule 5204, and Rule 5420); (4) certain provisions of the Board's ethics code (EC2(f), EC7(b), and EC12(a)); and (5) Parts III, V, VI, VII, and X of Form 1. These amendments simply reflect the amended statutory and regulatory provisions. They are not expected to result in any economic consequences, beyond reflecting the actions of Congress and the SEC.

Other technical amendments and non-substantive updates include the revisions to: (1) the Rule 1001 definitions of "party" and "secretary;" (2) Rules 3101, 3201T, and 3600T; (3) the Board's inspections rules (Rule 4009, Rule 4020T); (4) certain of the Board's rules governing investigations and adjudications (Rule 5102, Rule 5105, Rule 5110, Rule 5201, Rule 5205, Rule 5300, Rule 5407, Rule 5421, Rule 5426, Rule 5427, Rule 5442, Rule 5445, Rule 5460, and Rule 5462); (5) Rules 7103 and 7104 of the Board's funding rules; (6) certain provisions of the Board's ethics code (EC2(e), EC5(d), EC8(a)); and (7) certain Form 1 items (general instruction 6, Item 2.1(e), Item 2.2(e)), a Form 1-WD item (general instruction 7), certain Form 3 items (general instruction 8, Item 2.12, Item 2.13, Item 5.1, Item 5.2), and certain Form 4 items (general instruction 9, Item 3.2.e.1-2). To the extent these amendments are being made to conform to the determinations of Congress and the SEC, they will reflect the actions of Congress and the SEC; the other amendments are not expected to result in separate economic consequences.

---

<sup>8</sup> The SEC included an economic analysis of its amendments to Rule 17a-5 in the release issued in July 2013. See *Broker-Dealer Reports*, Exchange Act Release No. 70073, at nn. 724-870 and accompanying text.

<sup>9</sup> Separately, Section 1161(h) of the Housing and Economic Recovery Act of 2008, Pub. L. No. 110-289, 122 Stat. 2654, 2781 (2008) amended Sarbanes-Oxley to authorize the PCAOB to share information gathered in Board inspections and investigations with the Director of the Federal Housing Finance Agency (with respect to audits of institutions within the Federal Housing Finance Agency's jurisdiction). The PCAOB is adopting amendments to conform to Section 1161(h) of the Housing and Economic Recovery Act. See Rule 5108(a)(2)(b).

## B. Amendments involving some PCAOB discretion

In certain respects Congress and the SEC left to the PCAOB the determination of which Board rules, forms, and ethics code provisions should apply to broker and dealer audits and how the Board should implement other Dodd-Frank provisions. These amendments in part reflect the PCAOB's own determinations and, to some extent, entail economic consequences beyond those resulting from Congress's statutory directives or the SEC's Rule 17a-5 determinations.

These amendments: (1) make the Rule 1001 definitions of "audit services" and "other accounting services" applicable to broker and dealer audits; (2) require that auditors of brokers and dealers comply with the PCAOB's rules establishing auditing, attestation, and quality control standards (Rules 3200T, 3300T, and 3400T); (3) require that broker and dealer auditors adhere to certain of the PCAOB's ethics and auditor independence rules (Rules 3500T, 3501, 3502, 3520, 3521, 3522, and 3526) but not to others (Rules 3523, 3524, and 3525); and (4) tailor certain Form 1, Form 2, Form 3 and Form 4 items to call for relevant broker and dealer audit client information and implement the Dodd-Frank amendments (Items 3.1 and 3.2 of Form 1, Items 3.1, 3.2, 3.3, 4.3, 4.4, 7.1, and 7.3 of Form 2, Items 2.5, 2.6, 2.8, 2.9, and 4.1 of Form 3, and Item 3.2.e.3 of Form 4).

The PCAOB is also amending some rules and form items in light of administrative experience and to make a number of updates to address recent events. These amendments include the revisions to: (1) Rule 5422; (2) Section 1000.08(m) of the SEC Practice Section Requirements of Membership; (3) Items 2.1, 2.2, and 2.4 of Form 1, and General Instruction 4 of Form 1-WD; and (4) Items 2.1-C and 3.2 of Form 3. The PCAOB considers the economic consequences of these amendments below.

**Rule 1001 amendments.** The PCAOB is amending the Rule 1001 definitions of "audit services" and "other accounting services" to encompass the professional services auditors provide to broker and dealer audit clients. Pursuant to Section 102(b)(2)(B) of Sarbanes-Oxley, public accounting firms applying for PCAOB registration will use these definitions, along with the definition of "non-audit services" (which is not being amended), to attribute the annual fees they received from each broker and dealer audit client to one of the defined categories of services on Items 3.1 and 3.2 of Form 1. Commenters did not address the proposed amendments to the definitions of "audit services" and "other accounting services," and the PCAOB is adopting the amendments as proposed. The PCAOB does not expect that these amendments will result in cost-related implications apart from the related Form 1 amendments discussed below.

**Section 3 amendments.** The amendments also generally make Rules 3200T, 3300T, and 3400T, the PCAOB's rules establishing auditing, attestation, and quality control standards, applicable to audits of brokers and dealers. Several commenters opposed the proposed application of the PCAOB's rules and standards—focusing particularly on the Board's quality control, ethics, and independence standards—to audits of "introducing" or "non-carrying" brokers and dealers.<sup>10</sup> One commenter asserted that requiring auditors of brokers and dealers to follow PCAOB quality control, ethics, and independence standards is not warranted until the PCAOB decides the scope and elements of its permanent inspection program for broker and dealer audits.<sup>11</sup> Additionally, one

---

<sup>10</sup> See AICPA Comment Letter; Crowe Horwath Comment Letter; KPMG Comment Letter; Rothstein Kass Comment Letter; WeiserMazars Comment Letter.

<sup>11</sup> See AICPA Comment Letter.

commenter suggested that Rule 3400T's application of the requirements of the SEC Practice Section ("SECPS") of the American Institute of Certified Public Accountants only to the auditors of brokers and dealers that were members of the SECPS in 2003 could result in an unbalanced and disparate application of the Board's requirements.<sup>12</sup>

In response to these comments, the PCAOB has further considered the application of the PCAOB's rules establishing auditing, attestation, and quality control standards to auditors of brokers and dealers. As explained in the release, the SEC has decided that all audit reports filed with the SEC and designated examining authorities by brokers and dealers must be prepared in accordance with PCAOB standards. A final Board decision regarding the scope of the Board's inspection program will be made at a later date. The Board is not delaying adoption of the amendments to its rules. The PCAOB has also determined to make operative the two SECPS requirements that are applicable to broker and dealer engagements only to firms that were members of the SECPS in 2003.

The benefit of these amendments is that they will clarify the applicability of these rules to audits of brokers and dealers. The amendments will promote investor protection by clarifying that registered firms must comply with the PCAOB's rules establishing auditing, attestation, and quality control standards in audits of SEC-registered brokers and dealers. Consistent compliance with PCAOB standards for these audits will facilitate the Board's regulatory oversight over broker and dealer audits, and, among other things, facilitate the PCAOB's development and implementation of a permanent inspection program for these audits. The amendments will also facilitate the SEC's regulatory oversight of auditors, brokers, and dealers (because the SEC has direct oversight authority over the PCAOB, including the authority to approve or disapprove the Board's rules and standards).

The PCAOB has determined that these amendments will create some additional compliance costs for affected market participants. These costs include the one-time implementation costs for registered firms to update their broker and dealer audit methodologies to reflect PCAOB standards and train their personnel. These costs are attributable to SEC Rule 17a-5. Thus, the PCAOB does not anticipate that its conforming rule changes will result in significant costs to auditors (or to brokers and dealers in the form of increased audit fees).

Similarly, the Board notes that only two of the five SECPS membership requirements adopted by the PCAOB apply to the audits of brokers and dealers. These two requirements relate to continuing professional education requirements for audit firm personnel and the firm communicating through a written statement to its professional personnel the firm's broad policies and procedures related to accounting principles, client relationships, and services provided. The Board notes that all firms (including those that were members of the SECPS in 2003) are required to comply with state and professionally mandated continuing professional education requirements that satisfy most, if not all, of these education requirements, and expects that firms distribute such information to their professional personnel to effectively manage their firms.<sup>13</sup> The PCAOB therefore estimates that application of these requirements to audits of brokers and dealers that were members of the SECPS in 2003 will not result in a significant compliance burden on auditors of brokers and dealers.

---

<sup>12</sup> See Grant Thornton Comment Letter.

<sup>13</sup> State CPE requirements range from a minimum of 0 hours (in one state) to a maximum of 120 hours every three years (in 45 states), and the PCAOB is requiring 120 hours every three years (with a minimum of at least 20 hours every year).

The amendments also require that broker and dealer auditors adhere to certain of the PCAOB's ethics and auditor independence rules (Rules 3500T, 3501, 3502, 3520, 3521, 3522 and 3526) but not to others (Rules 3523, 3524, and 3525).

PCAOB Rule	Applies to B-D Audits
Overall Framework (Rules 3502 and 3520)	Yes
Contingent Fees (Rule 3521)	Yes
Tax Transactions (Rule 3522)	Yes
Tax Services for Persons in Financial Reporting Oversight Roles (Rule 3523)	No
Audit Committee Pre-approval of Certain Tax Services (Rule 3524)	No
Audit Committee Pre-approval of Non-audit Services Related to Internal Control Over Financial Reporting (Rule 3525)	No
Communication with Audit Committees Concerning Independence (Rule 3526)	Yes

These rules establish a standard of ethical behavior for the conduct of persons associated with registered firms (Rules 3502 and 3520). They also prohibit broker and dealer auditors from: (1) entering into a contingent fee or commission arrangement (Rule 3521); or (2) providing any non-audit service related to transactions that are "confidential transactions" or "aggressive tax positions" under Internal Revenue Service regulations (Rule 3522). The PCAOB is also adding a definition of "audit committee" to Rule 3501 so that Rule 3526 (Communication with Audit Committees Concerning Independence) applies to brokers and dealers that may not have organizational structures that include audit committees. No commenters opposed or suggested that these ethics and auditor independence rules not apply to audits of brokers and dealers. The PCAOB is not prohibiting firms from providing tax services to persons in financial reporting oversight roles (Rule 3523) in part due to commenter concerns about additional cost-related implications for auditors and brokers and dealers.

The PCAOB believes applying Rules 3500T, 3501, 3502, 3520, 3521, 3522 and 3526 to audits of brokers and dealers is consistent with investor protection. The amendments will promote investor protection by clarifying that auditors of brokers and dealers are required to adhere to certain of the PCAOB's ethics and independence rules. These rules, among other things, prohibit auditors from entering into contingent fees or commission arrangements or providing non-audit services related to aggressive tax positions to broker and dealer audit clients. Although these amendments will result in some new compliance costs on auditors of brokers and dealers, the Board does not anticipate that these costs will be significant. These costs will relate primarily to the one-time costs to update the firm's policies and procedures and training for these ethics and independence rules. Firms will also have recurring monitoring costs related to these amendments.

**Form amendments.** The amendments also tailor certain Form 1, Form 2, Form 3, and Form 4 items to call for relevant broker and dealer audit client information and reflect the Dodd-Frank amendments (Items 3.1 and 3.2 of Form 1, Items 3.1, 3.3, 4.3, 4.4, 7.1, and 7.3 of Form 2, Items 2.5, 2.6, 2.8, 2.9, and 4.1 of Form 3, and Item 3.2.e.3 of Form 4). This information will further the

PCAOB's understanding of the market for broker and dealer audit services and enable the Board to make regulatory decisions (like how to allocate its inspections program resources) that will protect the interests of investors. This information may also help inform investors and the market generally about auditors' broker and dealer audit practice.

*Form 1.* In addition to the conforming amendments to Form 1, which were discussed earlier, the PCAOB is adding Items 3.1 and 3.2 to Form 1 to require general identifying information about the applicant's broker or dealer audit practice. Items 3.1 and 3.2 require the name of the broker or dealer, its business address, CRD number, and CIK number, as well as the date of the audit report, and the total amount of fees billed for audit services, other accounting services, and non-audit services (as defined by the PCAOB). The PCAOB expects that the Form 1 disclosure requirements for broker and dealer audit clients will not affect most registered firms, which have already filed Form 1. Going forward, the PCAOB expects that most new firms will not have prepared audit reports for broker or dealer clients during the preceding or current calendar year (without having been previously registered). The PCAOB is also taking steps to minimize the compliance burden associated with these amendments. Recognizing that firms with broker and dealer audit clients have not necessarily been maintaining billing records in a way that readily facilitates precise reporting according to the fee categories in Sarbanes-Oxley (as the PCAOB has defined them), the PCAOB is adopting a note that provides that estimated amounts may be used in responding to these Form 1 items, to the extent that these fees have not previously been disclosed or otherwise known to an applicant. Commenters did not address these Form 1 items. The PCAOB expects these amendments will result in small additional compliance costs related to reporting this information for a small number of applicant firms. The PCAOB is adopting these amendments as proposed.

*Form 2.* The amendments to Form 2 require that firms annually disclose general information about their broker and dealer audit practice. Specifically, the amendments require that firms indicate whether they issued any audit reports with respect to any broker or dealer during the annual reporting period, and, if they did not issue any such audit reports, to indicate whether they played a substantial role in the preparation or furnishing of an audit report with respect to a broker or dealer (Item 3.1). The amendments also require firms to disclose information concerning each audit report the firm issued for a broker or dealer audit client during the reporting period (Item 4.3). If the firm did not issue any broker or dealer audit reports during the reporting period, the amendments require the firm to disclose the names and identifying information for each broker or dealer audit report the firm played a substantial role in preparing or furnishing in the reporting period (Item 4.4). Firms are also required to report information about certain types of relationships with individuals and entities that have specified disciplinary and other histories involving brokers or dealers (Items 7.1 and 7.3). Commenters generally asserted that firms should not be required to report audit fee information for broker and dealer audit clients on an ongoing basis on Form 2.<sup>14</sup> The PCAOB has determined to mitigate firm costs by not imposing an annual reporting requirement with respect to fees for services provided to broker and dealer audit clients. The PCAOB did not receive other comments on these Form 2 amendments and is adopting them as proposed.

The amendments to Form 2 also reflect the Dodd-Frank amendment requiring certain foreign public accounting firms to designate to the SEC or PCAOB an

---

<sup>14</sup> See CAQ Comment Letter; Crowe Horwath Comment Letter; EY Comment Letter; KPMG Comment Letter; McGladrey Comment Letter.

agent in the United States upon whom may be served any request by the SEC or PCAOB under Section 106 of Sarbanes-Oxley or upon whom may be served any process, pleading, or other papers in any action to enforce Section 106 of Sarbanes-Oxley (Item 3.3). One commenter said proposed Item 3.3 could result in confusion and efforts by persons other than the SEC or PCAOB to serve subpoenas or process on foreign firms' designated agents.<sup>15</sup> The PCAOB has determined to adopt Item 3.3 as proposed. This amendment imposes only a new reporting requirement and does not confer rights on anyone.

The PCAOB believes the Form 2 amendments strike an appropriate balance between the Board's need for general identifying information to assist the Board in overseeing registered firms' broker and dealer audit practices, and facilitate the PCAOB's and SEC's ability to track foreign firm designations, and the time and resources firms will need to spend compiling, preparing, and reporting this information. These reporting requirements will contribute to investor protection by providing additional information upon which the PCAOB can base future program adjustments to ensure efficient deployment of the PCAOB's resources. This information may also help inform investors and the market generally about auditors' broker and dealer audit practice. These reporting requirements will also result in cost-related implications for auditors of brokers and dealers and foreign registered firms. Specifically, one-time costs that relate primarily to updating their records to facilitate annual reporting of their broker and dealer audit practice to the PCAOB and reporting their Section 106 designee. Recurring costs will include the costs of compiling and reviewing information responsive to these additional items in their annual reports. Over time, the PCAOB expects that firms will develop certain efficiencies in filing their annual reports, allowing these costs to decrease to some extent.

*Form 3.* The amendments to Form 3 require firms to report information about certain types of relationships with individuals and entities that have specified disciplinary and other histories involving auditors of brokers or dealers (Items 2.5, 2.6, 2.8, 2.9, and 4.1). The PCAOB did not receive comment on these Form 3 amendments and has determined to adopt them as proposed. The PCAOB believes the Form 3 amendments will contribute to investor protection by providing the PCAOB and the public with general information about disciplinary and other histories involving auditors of brokers and dealers. These reporting requirements are expected to result in small compliance costs for firms related to monitoring and compiling this information.

*Form 4.* The amendments to Form 4 require a firm succeeding to the registration status of a predecessor firm to indicate whether the firm issued an audit report with respect to a broker or dealer audit client for financial statements with years ending after December 31, 2008 while not registered with the PCAOB and has never had an application for registration approved by the Board (Item 3.2.e.3). The PCAOB did not receive comment on this Form 4 amendment and has determined to adopt it as proposed. The PCAOB believes the Form 4 amendment will contribute to investor protection by providing the PCAOB with useful information. This reporting requirement is expected to result in small compliance costs related to reporting this information for a small number of firms.

**Amendments made in light of administrative experience.** Under the amendments to Rule 5422 the Division of Enforcement and Investigations ("DEI") need not make available for inspection and copying any document prepared by persons retained by the PCAOB or the PCAOB's staff to provide services in connection with a PCAOB investigation, disciplinary proceeding, or hearing on disapproval of registration. The amendments also permit DEI

---

<sup>15</sup> See KPMG Comment Letter.

to withhold documents accessed from generally available public sources except to the extent that DEI intends to introduce such documents as evidence. Commenters were concerned that there is no parallel provision in the SEC's comparable rule, and that they could enable DEI to withhold exculpatory documents. Because the SEC's rule is structured differently, and the PCAOB does not agree that the amendments permit DEI to withhold exculpatory documents, the PCAOB has determined to adopt the amendments as proposed in most respects. The amendments to Rule 5422 are designed to correct an anomaly in DEI's document production requirements. These amendments will facilitate the PCAOB's efficient deployment of its enforcement program's resources. The PCAOB does not expect that the amendments to Rule 5422 will result in increased compliance burdens for registered firms or other market participants.

The Board is also amending Section 1000.08(m) of the SECPS membership requirements requiring that registered firms (that are former members of the SECPS) notify the Commission's Office of the Chief Accountant of the end of an auditor's relationship with an issuer audit client (including an EGC audit client) only if the issuer has not timely filed Form 8-K.<sup>16</sup> Previously, these notices were required irrespective of whether the issuer audit client reported the change in auditors in a timely filed Form 8-K. This amendment is designed to streamline the SECPS reporting requirement and to make firm notices more meaningful.<sup>17</sup> The PCAOB is also updating Appendix I of SECPS Section 1000.43 to reflect the SEC's updated contact information and preference for e-mail notifications.<sup>18</sup>

Commenters generally supported reporting issuer auditor changes under Section 1000.08(m) only if the issuer audit client has not reported the change in auditors in a timely filed SEC form (exception reporting).<sup>19</sup> But one commenter suggested that Section 1000.08(m) should be eliminated entirely,<sup>20</sup> and one other commenter said Section 1000.08(m) reporting is "working, helpful, and appropriate" and should not be amended.<sup>21</sup> After considering these comments, the PCAOB has determined that more focused Section 1000.08(m) reporting for SEC Registrants that are required to file current reports on Form 8-K should enhance the SEC's ability to monitor issuer auditor changes. The amendments to Section 1000.08(m) of the SECPS membership requirements are designed to make firms' SECPS notices more meaningful. These amendments will contribute to the SEC's oversight of issuer auditor changes.

Requiring that issuer auditor changes be reported only on an exception basis for Form 8-K filers will also mean that auditors will be required to make fewer SECPS reports to the SEC, eliminating duplicative reporting of issuer

---

<sup>16</sup> See SECPS sec. 1000.08(m)(1). As amended, if by the end of the fifth business day after a client-auditor relationship has ended, and the issuer has not reported the change in auditors in a timely filed Form 8-K, then a former SECPS member firm must simultaneously send a written report of this fact to the former client and to the SEC's Office of the Chief Accountant.

<sup>17</sup> For SEC Registrants that do not file current reports on Form 8-K, Section 1000.08(m) remains unchanged. Notices for these former clients are due by the end of the fifth business day following the end of the firm's determination that the client-auditor relationship has ended, irrespective of whether or not the registrant has reported the change in auditors in a timely filed report. See SECPS sec. 1000.08(m)(2).

<sup>18</sup> The SEC staff strongly encourages e-mailing the SECPS report notification to [SECPSletters@sec.gov](mailto:SECPSletters@sec.gov). See Appendix I, SECPS sec. 1000.43. See also <http://www.sec.gov/about/offices/oca/10a1notices.htm> ("The Office of the Chief Accountant strongly encourages sending the SECPS report notification to [SECPSletters@sec.gov](mailto:SECPSletters@sec.gov). The staff will accept the date the email is received as the notification date.")

<sup>19</sup> Crowe Horwath Comment Letter; EY Comment Letter; Grant Thornton Comment Letter; McGladrey Comment Letter; PWC Comment Letter.

<sup>20</sup> KPMG Comment Letter.

<sup>21</sup> D&T Comment Letter.

auditor changes in most cases. At the same time, the PCAOB understands that there will be some incremental costs associated with the amendment to Section 1000.08(m). Auditors that are former SECPS members will bear some additional expense in monitoring whether their former audit clients reported the change in auditors in a timely filed Form 8-K. Given that former SECPS member firms are already required to make these reports, and that moving this reporting requirement to an exception basis is a fairly subtle change, the Board anticipates that these additional expenses will be minimal.

Finally, the PCAOB is amending Form 1 to require issuer CIK numbers<sup>22</sup> (in Items 2.1, 2.2, and 2.4), amending Form 1-WD to eliminate the requirement that "original hard copies" of requests for leave to withdraw from Board registration be submitted (General Instruction 4), and amending Form 3 to require firms to report circumstances where a former issuer audit client does not comply with Item 4.01 of Commission Form 8-K (Item 3.2). The PCAOB did not receive comment on these proposed amendments to Forms 1 and 1-WD and has determined to adopt them as proposed. Requiring applicants to provide issuer CIK numbers on Form 1 will increase reporting costs slightly for a small number of applicants, but it will enable the PCAOB to more easily identify issuers (as well as reducing search costs for investors, the SEC, and others). The Form 1-WD requirement will reduce compliance burdens for withdrawing firms by eliminating an unnecessary filing requirement.

The Board also received comment on these proposed amendments to Form 3. Two commenters supported this proposed reporting requirement.<sup>23</sup> Two commenters suggested that the proposed Form 3 reporting requirement appeared redundant to Section 1000.08(m) of the SECPS membership requirements and encouraged the Board to develop a single solution for reporting auditor changes.<sup>24</sup> Commenters were also concerned about the scope of the proposed Form 3 reporting, some of which commenters suggested would be difficult for the auditor to know or would not be relevant in circumstances where the auditor resigns or does not stand for reappointment.<sup>25</sup> Finally, one commenter said requiring auditors to make a Form 3 filing in these circumstances would inappropriately put auditors in the position of publicly reporting information that has not yet been reported by the issuer.<sup>26</sup>

The PCAOB has further considered this proposal in light of the comments and determined to adopt these proposed amendments to Form 3 largely as proposed. To ensure that the Board and public are made aware of these events, the Board is amending the instructions to Form 3 to require firms to file a special report with the Board if a client-auditor relationship has ended and the issuer has not reported the change in auditors on a Form 8-K.<sup>27</sup> Specifically, if a firm resigns, declines to stand for re-appointment, or is dismissed from an issuer

---

<sup>22</sup> CIK numbers are unique, publicly-available identifiers and access codes issued by the SEC's Electronic Data Gathering, Analysis, and Retrieval System.

<sup>23</sup> See EY Comment Letter; KPMG Comment Letter.

<sup>24</sup> See CAQ Comment Letter; KPMG Comment Letter (recommending that the SECPS requirement be eliminated).

<sup>25</sup> See CAQ Comment Letter; Crowe Horwath Comment Letter; KPMG Comment Letter; McGladrey Comment Letter; PWC Comment Letter.

<sup>26</sup> See D&T Comment Letter (suggesting, as an alternative, that the PCAOB be copied, on a confidential basis, on the five-day SECPS letter so that the Board could be timely informed of issuer auditor changes).

<sup>27</sup> Form 3, Item 3.2 is only triggered by an issuer's failure to comply with Item 4.01 of SEC Form 8-K. This reporting requirement does not apply to foreign private issuers (that are required to report issuer auditor changes on Item 16F of Form 20-F) or investment companies other than business development companies (that are required to report auditor changes on Item 77K of Form N-SAR).

audit engagement, and the issuer does not comply with Item 4.01 of Form 8-K, the firm within 30 days must report on Form 3 the issuer's name and CIK number, if any, whether the firm resigned, declined to stand for re-election or was dismissed, and the date thereof.<sup>28</sup> The Form 3 requirement will ensure that the Board and public are made aware of issuer auditor changes. This reporting requirement is expected to result in small compliance costs for firms related to monitoring and reporting this information.

### III. Applicability to Audits of Emerging Growth Companies

#### A. Statutory background

The Board is adopting these amendments pursuant to its authority under Sarbanes-Oxley.<sup>29</sup> Before rules adopted by the Board can take effect, they must be approved by the SEC. Pursuant to Section 107(b)(3) of Sarbanes-Oxley, the SEC shall approve a proposed rule if it finds that the rule is "consistent with the requirements of [the] Act and the securities laws, or is necessary or appropriate in the public interest or for the protection of investors."

Section 104 of the Jumpstart Our Business Startups Act ("JOBS Act") amended Sarbanes-Oxley to provide that any additional rules adopted by the PCAOB after April 5, 2012 do not apply to audits of emerging growth companies ("EGCs")<sup>30</sup> unless the SEC "determines that the application of such additional requirements is necessary or appropriate in the public interest, after considering the protection of investors, and whether the action will promote efficiency, competition, and capital formation."<sup>31</sup> Thus, the Board's amendments are subject to a separate SEC determination regarding their applicability to audits of EGCs.

To assist the SEC in determining whether the Board's amendments should apply to audits of EGCs, this appendix sets forth the PCAOB's assessment of the economic consequences of these amendments. It also considers the potential

---

<sup>28</sup> See Form 3, Item 2.1-C and Item 3.3. If the issuer comes into compliance with an SEC requirement to make a report concerning the matter pursuant to Item 4.01 of Form 8-K during this 30-day period, the firm would not be required to report the change in auditors on Form 3.

<sup>29</sup> Under Section 101 of the Act, the mission of the PCAOB is to oversee the audits of companies that are subject to the securities laws, and related matters, in order to protect the interests of investors and further the public interest in the preparation of informative, accurate, and independent audit reports. Section 101(g) authorizes the Board to adopt rules to provide for "the exercise of its authority, and the performance of its responsibilities under [the] Act." Section 103 of the Act authorizes the Board to adopt auditing standards for use by registered public accounting firms in the preparation and issuance of audit reports "as required by [the] Act or the rules of the Commission, or as may be necessary or appropriate in the public interest or for the protection of investors."

<sup>30</sup> Section 3(a)(80) of the Exchange Act defines the term "emerging growth company." An issuer generally qualifies as an EGC if it has total annual gross revenue of less than \$1 billion during its most recently completed fiscal year (and its first sale of common equity securities pursuant to an effective Securities Act registration statement did not occur on or before December 8, 2011.) See JOBS Act Section 101(a), (b), and (d). Once an issuer is an EGC, it retains its EGC status until the earliest of: (i) the first year after it has total annual gross revenue of \$1 billion or more (as indexed for inflation every five years by the SEC); (ii) the end of the fiscal year after the fifth anniversary of its first sale of common equity securities under an effective Securities Act registration statement; (iii) the date on which the company issues more than \$1 billion in non-convertible debt during the prior three-year period; or (iv) the date on which it is deemed to be a "large accelerated filer" under the Exchange Act (generally, an entity that has been public for at least one year and has an equity float of at least \$700 million).

<sup>31</sup> See Section 103(a)(3)(C) of Sarbanes-Oxley (15 U.S.C. § 7213(a)(3)), as added by Section 104 of the JOBS Act, Pub. L. No. 112-106 (Apr. 5, 2012).

impact the amendments would have on audits of EGCs, including consideration of efficiency, competition, and capital formation.

## B. Characteristics of self-identified EGCs

The PCAOB has been monitoring implementation of the JOBS Act in order to better understand the characteristics of EGCs and inform the Board's considerations regarding whether it should request that the SEC apply the amendments to audits of EGCs. To assist the SEC, the Board is providing the following information regarding EGCs that it has compiled from public sources.<sup>32</sup>

As of October 1, 2013, based on the PCAOB's research, 1,144 SEC registrants have identified themselves as EGCs in SEC filings. These entities operate in diverse industries. The five most common Standard Industrial Classification ("SIC") codes applicable to these entities are: blank check companies, pharmaceutical preparations, real estate investment trusts, prepackaged software services, and computer processing/data preparation services.

A majority of the entities that have identified themselves as EGCs have begun reporting information under the securities laws. Of these entities, approximately:

- 22% identified themselves in registration statements and were not reporting under the Exchange Act as of October 1, 2013.
- 61% of entities that have identified themselves as EGCs began reporting under the Exchange Act in 2012 or later.
- 17% of these entities have been reporting under the Exchange Act since 2011 or earlier.

Approximately 24% of these entities have securities listed on a U.S. national securities exchange as of October 1, 2013. Approximately 64% of the entities that have identified themselves as EGCs and filed an Exchange Act filing indicated that they were smaller reporting companies.<sup>33</sup>

Audited financial statements were available for nearly all of the entities that have identified themselves as EGCs.<sup>34</sup> For those entities for which audited financial statements were available, based on information included in the most recent audited financial statements filed as of May 15, 2013:

- The reported assets for those entities ranged from zero to approximately \$18.2 billion. The average and median reported assets of the entities were approximately \$182.4 million and approximately \$0.3 million, respectively.<sup>35</sup>

---

<sup>32</sup> To obtain data regarding EGCs, the PCAOB's Office of Research and Analysis has reviewed registration statements and Exchange Act reports filed with the SEC with filing dates between April 5, 2012, and October 1, 2013, for disclosures by entities related to their EGC status. Any filings subsequent to October 1, 2013 are not included in this analysis. For example, a filing made after this date suggesting an entity deregistered and is no longer an EGC is not included in this analysis. The PCAOB has not validated these entities' self-identification as EGCs. The information presented also does not include data for entities that have filed confidential registration statements and have not subsequently made a public filing.

<sup>33</sup> Companies generally qualify to be smaller reporting companies, and have scaled disclosure requirements, if they have less than \$75 million in public equity float. Companies without a calculable public equity float qualify as smaller reporting companies if their revenues were below \$50 million in the previous year.

<sup>34</sup> Audited financial statements were available for 1,134 of the 1,144 self-identified EGCs.

<sup>35</sup> For purposes of comparison, the PCAOB compared the data compiled with respect to the 898 entities with companies listed in the Russell 3000 Index in order to compare the EGC population with the broader issuer population. The Russell 3000 was chosen for comparative purposes because it is

*(continued)*

- The reported revenue for these entities ranged from zero to approximately \$962.9 million. The average and median reported revenue of these entities was approximately \$60.2 million and \$2 thousand, respectively.
- The average and median reported assets among entities that reported revenue greater than zero was approximately \$360.8 million and \$69.3 million, respectively. The average and median reported revenue among entities that reported revenue greater than zero was approximately \$118.7 million and \$22.1 million, respectively.
- Approximately 48% of the entities that filed audited financial statements identified themselves as "development stage entities" in their financial statements.<sup>36</sup>
- Approximately 38% were audited by firms that are annually inspected by the PCAOB (i.e., firms that have issued audit reports for more than 100 public company audit clients in a given year) or are affiliates of annually-inspected firms. Approximately 62% were audited by triennially-inspected firms (i.e., firms that have issued audit reports for 100 or fewer public company audit clients in a given year) that are not affiliates of annually-inspected firms.

### **C. Efficiency, competition, and capital formation considerations for EGCs**

In this section the PCAOB considers whether the action discussed above will promote efficiency, competition, and capital formation in audits of EGCs. PCAOB staff has discussed the applicability of the JOBS Act to this rulemaking with the SEC staff. The PCAOB is not aware of any EGCs that are also registered brokers or dealers. Moreover, the reporting regimes for registered brokers and dealers under SEC Rule 17a-5 are separate and distinct from those for companies subject to reporting requirements pursuant to Section 13 and 15 of the Exchange Act or for a Securities Act registration statement. The Board defers to the SEC on the applicability of the JOBS Act to brokers and dealers.

#### **1. Amendments involving no PCAOB discretion**

As described above, the conforming amendments are technical and non-substantive and are not expected to result in economic consequences independent from the directives of Congress and the SEC. The PCAOB expects that these amendments will not have efficiency, competition, or capital formation effects for audits of EGCs.

---

*(footnote continued)*

intended to measure the performance of the largest 3000 U.S. companies representing approximately 98% of the investable U.S. equity market (as marketed on the Russell website). The average and median reported assets of issuers in the Russell 3000 was approximately \$12.1 billion and approximately \$1.5 billion, respectively. The average and median reported revenue from the most recent audited financial statements filed as of May 15, 2013 of issuers in the Russell 3000 was approximately \$4.6 billion and \$717.2 million, respectively.

<sup>36</sup> According to FASB standards, development stage entities are entities devoting substantially all of their efforts to establishing a new business and for which either of the following conditions exists: (a) planned principal operations have not commenced or (b) planned principal operations have commenced, but there has been no significant revenue from operations. See FASB Accounting Standards Codification, Subtopic 915-10, Development Stage Entities—Overall.

## **2. Amendments involving some PCAOB discretion**

To the extent these amendments apply to EGCs, the PCAOB has no reason to think the economic consequences for EGCs would differ significantly from those for the general population discussed above. The compliance costs associated with these new rule and reporting requirements are relatively fixed and may have a somewhat disproportionate impact on smaller registered firms. These costs may be passed on to firms' audit clients, including smaller and newer public companies like EGCs. But the PCAOB has endeavored to minimize the cost-related implications of these amendments to the extent possible, and estimates that the cost-related implications of the amendments for issuers, brokers, and dealers will not be significant. Similarly, the PCAOB estimates that the amendments will not result in significant efficiency, competition, or capital formation effects for EGCs.

With respect to the amendments affecting broker and dealer audits, brokers and dealers enhance the efficiency and liquidity of the financial markets by playing the intermediary role of connecting retail and institutional investors to investments. The adoption of the form amendments will increase, to some extent, the total amount of information available about brokers and dealers. In addition, to the extent that the additional PCAOB independence rules further enhance auditor independence, the quality of the financial reporting of brokers and dealers may improve. Enhanced financial disclosures of brokers and dealers help reduce information asymmetry between managers and customers, and reduce the adverse selection risk for market participants. To the extent they do so, the PCAOB believes the amendments will promote market efficiency, competitiveness, and capital formation by informing investors and other market participants of the broker and dealer audit practices of registered firms and promoting consistent compliance with the PCAOB's rules and standards.

Furthermore, the new information provided in the newly mandated form items can make the audit market more competitive to some extent. It enables auditors to learn more about their competitors, and can help brokers and dealers make more informed decisions in selecting auditors. Brokers and dealers serve an important financial intermediary role, so increased competitiveness in the audit market for brokers and dealers can, in theory, trickle down to the capital market. Finally, improving the financial reporting of brokers and dealers facilitates financial transactions of companies, including those of EGCs, which typically rely on smaller brokers and dealers.

## **IV. Conclusion**

The PCAOB requests that the Commission determine that it is necessary or appropriate in the public interest, after considering the protection of investors and whether the action will promote efficiency, competition, and capital formation, to apply these amendments to audits of emerging growth companies. The PCAOB will assist the SEC in considering any comments the Commission receives on these matters during the public comment process.

\* \* \* \* \*

## Appendix 2—Amendments to Board Rules, Interim Quality Control Standards, and Ethics Code

The Board is amending Sections 1, 2, 3, 4, 5, and 7 of its Rules, Sections 1000.08(m) and 1000.43, Appendix I of the Interim Quality Control Standards, and its Ethics Code and as set out below. Language deleted by these amendments is struck through. Language that is added is underlined.

### RULES OF THE BOARD

#### SECTION 1. GENERAL PROVISIONS

##### Rule 1001. Definitions of Terms Employed in Rules.

When used in the Rules, unless the context otherwise requires:

\* \* \* \* \*

##### (a)(v) Audit

The term "audit" means an examination of the financial statements, reports, documents, procedures, controls, or notices of any issuer, broker, or dealer by an independent public accounting firm in accordance with the rules of the Board or the Commission ~~(or, for the period preceding the adoption of applicable Rules of the Board under Section 103 of the Act, in accordance with then applicable generally accepted auditing standards for such purposes)~~, for the purpose of expressing an opinion on the financial such statements or providing an audit report.

~~Note: Effective [insert effective date of Rule 4020T], pursuant to Rule 4020T, when used in Rule 3502, Section 5 of the Rules of the Board, or the definition of "disciplinary proceeding" in Rule 1001(d)(i), the term "audit" has the meaning provided in Section 110 of the Act.~~

##### (a)(vi) Audit Report

The term "audit report" means a document, report, notice, or other record—

- (1) prepared following an audit performed for purposes of compliance by an issuer, broker, or dealer with the requirements of the securities laws; and
- (2) in which a public accounting firm either—
  - (i) sets forth the opinion of that firm regarding a financial statement, report, notice, or other document, procedures, or controls; or
  - (ii) asserts that no such opinion can be expressed.

~~Note: Effective [insert effective date of Rule 4020T], pursuant to Rule 4020T, when used in Rule 3502, Section 5 of the Rules of the Board, or the definition of "disciplinary proceeding" in Rule 1001(d)(i), the term "audit report" has the meaning provided in Section 110 of the Act.~~

##### (a)(vii) Audit Services

(1) With respect to issuers, t The term "audit services" means professional services rendered for the audit of an issuer's annual financial statements, and (if applicable) for the reviews of an issuer's financial statements included in the issuer's quarterly reports or services that are normally provided by the accountant in connection with statutory and regulatory filings or engagements for those fiscal years; t

(2) With respect to brokers and dealers, the term "audit services" means professional services rendered for the audit of a broker's or dealer's annual financial statements, supporting schedules, supplemental reports, and for the report on either a broker's or dealer's compliance report or exemption report, as described in Rule 17a-5(g) under the Exchange Act.

\* \* \*

**(f)(iii) Foreign Auditor Oversight Authority**

The term "foreign auditor oversight authority" means any governmental body or other entity empowered by a foreign government to conduct inspections of public accounting firms or otherwise to administer or enforce laws related to the regulation of public accounting firms.

\* \* \*

**(n)(i) [Reserved]**

\* \* \*

**(o)(i) Other Accounting Services**

The term "other accounting services" means assurance and related services that are reasonably related to the performance of the audit or review of the ~~issuer's~~ client's financial statements, other than audit services.

\* \* \*

**(p)(i) Person Associated With a Public Accounting Firm (and Related Terms)**

The terms "person associated with a public accounting firm" (or with a "registered public accounting firm" or "applicant") and "associated person of a public accounting firm" (or of a "registered public accounting firm" or "applicant") mean any individual proprietor, partner, shareholder, principal, accountant, or professional employee of a public accounting firm, or any independent contractor or entity that, in connection with the preparation or issuance of any audit report—

- (1) shares in the profits of, or receives compensation in any other form from, that firm; or
- (2) participates as agent or otherwise on behalf of such accounting firm in any activity of that firm;

provided, however, that these terms do not include a person engaged only in clerical or ministerial tasks, or, for purposes of completing a registration application on Form 1, Part IX of an annual report on Form 2, or Part IV of a Form 4 filed to succeed to the registration status of a predecessor, these terms do not include ~~or~~ a person whom the public accounting firm reasonably believes is a person primarily associated with another registered public accounting firm.

Note: Section 2(a)(9)(C) of the Act provides that, for purposes of, among other things, Section 105 of the Act, and the Board's rules thereunder, the terms defined in Rule 1001(p)(i) shall include any person associated, seeking to become associated, or formerly associated with a public accounting firm, except that:

- (1) the authority to conduct an investigation of such person under Section 105(b) of the Act shall apply only with respect to any act or practice, or omission to act, by the person while such person was associated or seeking to become associated with a registered public accounting firm; and

- (2) the authority to commence a disciplinary proceeding under Section 105(c)(1) of the Act, or impose sanctions against such person under Section 105(c)(4) of the Act, shall apply only with respect to:
- (i) conduct occurring while such person was associated or seeking to become associated with a registered public accounting firm; or
  - (ii) non-cooperation, as described in Section 105(b)(3) of the Act, with respect to a demand in a Board investigation for testimony, documents, or other information relating to a period when such person was associated or seeking to become associated with a registered public accounting firm.

**(p)(ii) Play a Substantial Role in the Preparation or Furnishing of an Audit Report**

The phrase "play a substantial role in the preparation or furnishing of an audit report" means—

- (1) to perform material services that a public accounting firm uses or relies on in issuing all or part of its audit report ~~with respect to any issuer~~, or
- (2) to perform the majority of the audit procedures with respect to a subsidiary or component of any issuer, broker, or dealer, the assets or revenues of which constitute 20% or more of the consolidated assets or revenues of such issuer, broker, or dealer necessary for the principal auditor accountant to issue an audit report ~~on the issuer~~.

Note 1: For purposes of paragraph (1) of this definition, the term "material services" means services, for which the engagement hours or fees constitute 20% or more of the total engagement hours or fees, respectively, provided by the principal ~~auditor accountant~~ in connection with the issuance of all or part of its audit report ~~with respect to any issuer~~. The term does not include non-audit services provided to non-audit clients.

Note 2: For purposes of paragraph (2) of this definition, the phrase "subsidiary or component" is meant to include any subsidiary, division, branch, office or other component of an issuer, broker, or dealer, regardless of its form of organization and/or control relationship with the issuer, broker, or dealer.

Note 3: For purposes of determining "20% or more of the consolidated assets or revenues" under paragraph (2) of this Rule, this determination should be made at the beginning of the issuer's, broker's, or dealer's fiscal year using prior year information and should be made only once during the issuer's, broker's, or dealer's fiscal year.

\* \* \*

**(p)(iii)(v) Party**

The term "party" means the interested division, any person named as a respondent in an order instituting proceedings or notice of a hearing, any applicant named in the caption of any order, or any person seeking Board review of a decision.

\* \* \*

**(p)(vi) Professional Standards**

The term "professional standards" means—

(A) accounting principles that are—

- (i) established by the standard setting body described in section 19(b) of the Securities Act of 1933, ~~as amended by the Act~~, or prescribed by the Commission under section 19(a) of the Securities Act of 1933 or section 13(b) of the Securities Exchange Act of 1934; and
- (ii) relevant to audit reports for particular issuers, brokers, or dealers, or dealt with in the quality control system of a particular registered public accounting firm; and

(B) auditing standards, standards for attestation engagements, quality control policies and procedures, ethical and competency standards, and independence standards (including rules implementing Title II of the Act) that the Board or the Commission determines—

- (i) relate to the preparation or issuance of audit reports for issuers, brokers, or dealers; and
- (ii) are established or adopted by the Board under section 103(a) of the Act, or are promulgated as rules of the Commission.

~~Note: Effective [insert effective date of Rule 4020T], pursuant to Rule 4020T, when used in Rule 3502, Section 5 of the Rules of the Board, or the definition of "disciplinary proceeding" in Rule 1001(d)(i), the term "professional standards" has the meaning provided in Section 110 of the Act.~~

\* \* \*

**(s)(~~iii~~)(vi) Secretary**

The term "Secretary" means the Secretary of the Board.

**(s)(iv) Suspension**

The term "suspension" means a temporary disciplinary sanction, which lapses by its own terms, prohibiting—

- (1) a registered public accounting firm from preparing or issuing, or participating in the preparation or issuance of, any audit report ~~with respect to any issuer~~; or
- (2) a person from being associated with a registered public accounting firm.

\* \* \* \* \*

**SECTION 2.****REGISTRATION AND REPORTING****Part 1—Registration of Public Accounting Firms****Rule 2100. Registration Requirements for Public Accounting Firms.**

~~Effective October 22, 2003 (or, for foreign public accounting firms, July 19, 2004), E~~ each public accounting firm that—

- (a) prepares or issues any audit report with respect to any issuer, broker, or dealer; or
- (b) plays a substantial role in the preparation or furnishing of an audit report with respect to any issuer, broker, or dealer

must be registered with the Board.

Note 1: As set forth in Section 106(a)(1) of the Act, registration with the Board pursuant to this Rule will not by itself provide a basis for subjecting a foreign

public accounting firm to the jurisdiction of the U.S. federal or State courts, other than with respect to controversies between such firms and the Board.

Note 2: The issuance of a consent to include an audit report for a prior period by a public accounting firm, which does not currently have and does not expect to have an engagement with an issuer, broker, or dealer to prepare or issue, or to play a substantial role in the preparation or furnishing of an audit report with respect to any issuer, broker, or dealer will not by itself require a public accounting firm to register under Rule 2100.

### **Rule 2106. Action on Applications for Registration.**

#### **(a) Standard for Approval.**

After reviewing the application for registration, any additional information provided by the applicant, and any other information obtained by the Board, the Board will determine whether approval of the application for registration is consistent with the Board's responsibilities under the Act to protect the interests of investors and to further the public interest in the preparation of informative, accurate, and independent audit reports ~~for companies the securities of which are sold to, and held by and for, public investors.~~

\* \* \* \* \*

### **Rule 2107. Withdrawal from Registration**

\* \* \*

#### **(d) Board Action**

Within 60 days of Board receipt of a completed Form 1-WD, the Board may order that withdrawal of registration be delayed for a period of up to eighteen months from the date of such receipt if the Board determines that such withdrawal would be inconsistent with the Board's responsibilities under the Act, including its responsibilities to conduct—

(1) inspections to assess the degree of compliance of each registered public accounting firm and associated persons of that firm with the Act, the rules of the Board, the rules of the Commission, or professional standards, in connection with its performance of audits, issuance of audit reports, and related matters involving issuers, brokers, or dealers; or

\* \* \* \* \*

## **SECTION 3. AUDITING AND RELATED PROFESSIONAL PRACTICE STANDARDS**

### **Part 1—General Requirements**

#### **Rule 3101. Certain Terms Used in Auditing and Related Professional Practice Standards**

\* \* \*

~~(e) The documentation requirement in paragraph (a)(2) is effective for audits of financial statements or other engagements with respect to fiscal years ending on or after November 15, 2004.~~

#### **Rule 3200T. Interim Auditing Standards.**

In connection with the preparation or issuance of any audit report, a registered public accounting firm, and its associated persons, shall comply with generally accepted auditing standards, as described in the AICPA Auditing Standards Board's Statement of Auditing Standards No. 95, as in existence on April 16, 2003 (Codification of Statements on Auditing Standards, AU § 150 (AICPA 2002)), to the extent not superseded or amended by the Board.

~~Note: Under Section 102(a) of the Act, public accounting firms are not required to be registered with the Board until 180 days after the date of the determination of the Commission under section 101(d) that the Board has the capacity to carry out the requirements of Title I of the Act (the "mandatory registration date"). The Board intends that, during the period preceding the mandatory registration date, the Interim Auditing Standards apply to public accounting firms that would be required to be registered after the mandatory registration date and to associated persons of those firms, as if those firms were registered public accounting firms.~~

~~**Rule 3201T. Temporary Transitional Provision for PCAOB Auditing Standard No. 2, "An Audit of Internal Control Over Financial Reporting Performed in Conjunction With an Audit of Financial Statements."**~~

~~(a) Notwithstanding Auditing Standard No. 2, in connection with the audit of an issuer that does not file *Management's annual report on internal control over financial reporting* in reliance on SEC Release No. 34-50754, Order Under Section 36 of the Securities Exchange Act of 1934 Granting an Exemption from Specified Provisions of Exchange Act Rules 13a-1 and 15d-1 (November 30, 2004), a registered public accounting firm and its associated persons need not:~~

~~(1) Date the auditor's report on management's assessment of the effectiveness of internal control over financial reporting with the same date as the auditor's report on the issuer's financial statements, provided that the date of the auditor's report on management's assessment of the effectiveness of internal control over financial reporting is later than the date of the auditor's report on the issuer's financial statements; or~~

~~(2) Add a paragraph to the auditor's separate report on the financial statements of an issuer that refers to a separate report on management's assessment of the effectiveness of internal control over financial reporting.~~

~~(b) This temporary rule will expire on July 15, 2005.~~

**Rule 3300T. Interim Attestation Standards.**

In connection with an engagement (i) described in the AICPA's Auditing Standards Board's Statement on Standards for Attestation Engagements No. 10 (Codification of Statements on Auditing Standards, AT § 101.01 (AICPA 2002)) and (ii) related to the preparation or issuance of audit reports for issuers, a registered public accounting firm, and its associated persons, shall comply with the AICPA Auditing Standards Board's Statements on Standards for Attestation Engagements, and related interpretations and Statements of Position, as in existence on April 16, 2003, to the extent not superseded or amended by the Board.

~~Note: The Board intends that, during the period preceding the mandatory registration date, the Interim Attestation Standards apply to public accounting firms that would be required to be registered after the mandatory registration date and to associated persons of those firms, as if those firms were registered public accounting firms.~~

**Rule 3400T. Interim Quality Control Standards.**

A registered public accounting firm, and its associated persons, shall comply with quality control standards, as described in—

(a) the AICPA's Auditing Standards Board's Statements on Quality Control Standards, as in existence on April 16, 2003 (AICPA Professional Standards, QC §§ 20-40 (AICPA 2002)), to the extent not superseded or amended by the Board; and

(b) the AICPA SEC Practice Section's Requirements of Membership (d), ~~(f)(first sentence)~~, (l), (m), (n)(1) and (o), as in existence on April 16, 2003 (AICPA SEC Practice Section Manual § 1000.08(d), ~~(f)~~, (j), (m), (n)(1) and (o)), to the extent not superseded or amended by the Board.

Note: The AICPA SEC Practice Section's Requirements of Membership only apply to those registered public accounting firms that were members of the AICPA SEC Practice Section on April 16, 2003.

~~Note: The second sentence of requirement (f) of the AICPA SEC Practice Section's Requirements of Membership provided for the AICPA's peer review committee to "authorize alternative procedures" when the requirement for a concurring review could not be met because of the size of the firm. This provision is not adopted as part of the Board's Interim Quality Control Standards. After the effective date of the Interim Quality Control Standards, requests for authorization of alternative procedures to a concurring review may, however, be directed to the Board.~~

~~Note: The Board intends that, during the period preceding the mandatory registration date, the Interim Quality Control Standards apply to public accounting firms that would be required to be registered after the mandatory registration date and to associated persons of those firms, as if those firms were registered public accounting firms.~~

## **Part 5—Ethics and Independence**

### **Rule 3500T. Interim Ethics and Independence Standards.**

(a) In connection with the preparation or issuance of any audit report, a registered public accounting firm, and its associated persons, shall comply with ethics standards, as described in the AICPA's Code of Professional Conduct Rule 102, and interpretations and rulings thereunder, as in existence on April 16, 2003 (AICPA Professional Standards, ET §§ 102 and 191 (AICPA 2002)), to the extent not superseded or amended by the Board.

~~Note: The Board intends that, during the period preceding the mandatory registration date, the Interim Ethics Standards apply to public accounting firms that would be required to be registered after the mandatory registration date and to associated persons of those firms, as if those firms were registered public accounting firms.~~

(b) In connection with the preparation or issuance of any audit report, a registered public accounting firm, and its associated persons, shall comply with independence standards—

(1) as described in the AICPA's Code of Professional Conduct Rule 101, and interpretations and rulings thereunder, as in existence on April 16, 2003 (AICPA Professional Standards, ET §§ 101 and 191 (AICPA 2002)), to the extent not superseded or amended by the Board; and

(2) Standards Nos. 2 and 3, and Interpretation 99-1 of the Independence Standards Board, to the extent not superseded or amended by the Board.

Note: The Board's Interim Independence Standards do not supersede the Commission's auditor independence rules. See Rule 2-01 of Reg. S-X, 17 C.F.R. § 210.2-01. Therefore, to the extent that a provision of the Commission's rule is more restrictive—or less restrictive—than the Board's Interim Independence Standards, a registered public accounting firm must comply with the more restrictive rule.

### **Rule 3501. Definitions of Terms Employed in Section 3, Part 5 of the Rules**

When used in Section 3, Part 5 of the Rules, unless the context otherwise requires:

\* \* \*

#### **(a)(v) Audit Committee**

The term "audit committee" means a committee (or equivalent body) established by and among the board of directors of an entity for the purpose of overseeing the accounting and financial reporting processes of the entity and audits of the financial statements of the entity; if no such committee exists with respect to the entity, the entire board of directors of the entity. For audits of non-issuers, if no such committee or board of directors (or equivalent body) exists with respect to the entity, "audit committee" means the person(s) who oversee(s) the accounting and financial reporting processes of the entity and audits of the financial statements of the entity.

\* \* \*

#### **(i)(ii) Investment Company Complex**

(1) The term "investment company complex" includes—

\* \* \*

(iii) Any investment company or entity that would be an investment company but for the exclusions provided by section 3(c) of the Investment Company Act of 1940 (15 U.S.C. § 80a-3(c)) that has an investment adviser or sponsor included in this definition by either paragraph (i) or (ii) of this definition.

\* \* \* \* \*

### **Subpart 1—Independence**

#### **Rule 3520. Auditor Independence**

A registered public accounting firm and its associated persons must be independent of the firm's audit client throughout the audit and professional engagement period.

Note 1: Under Rule 3520, a registered public accounting firm or associated person's independence obligation with respect to an audit client ~~that is an issuer~~ encompasses not only an obligation to satisfy the independence criteria applicable to the engagement set out in the rules and standards of the PCAOB, but also an obligation to satisfy all other independence criteria applicable to the engagement, including the independence criteria set out in the rules and regulations of the Commission under the federal securities laws.

Note 2: Rule 3520 applies only to those associated persons of a registered public accounting firm required to be independent of the firm's audit client by standards, rules or regulations of the Board or Commission or other applicable independence criteria.

#### **Rule 3523. Tax Services for Persons in Financial Reporting Oversight Roles**

A registered public accounting firm is not independent of an issuer ~~its~~ audit client if the firm, or any affiliate of the firm, during the professional engagement period provides any tax service to a person in a financial reporting oversight role at the issuer audit client, or an immediate family member of such person, unless

- (a) the person is in a financial reporting oversight role at the issuer audit client only because he or she serves as a member of the board of directors or similar management or governing body of the audit client;
- (b) the person is in a financial reporting oversight role at the issuer audit client only because of the person's relationship to an affiliate of the entity being audited—
- (1) whose financial statements are not material to the consolidated financial statements of the entity being audited; or
  - (2) whose financial statements are audited by an auditor other than the firm or an associated person of the firm; or
- (c) the person was not in a financial reporting oversight role at the issuer audit client before a hiring, promotion, or other change in employment event and the tax services are—
- (1) provided pursuant to an engagement in process before the hiring, promotion, or other change in employment event; and
  - (2) completed on or before 180 days after the hiring or promotion event.

Note: In an engagement for an issuer audit client whose financial statements for the first time will be required to be audited pursuant to the standards of the PCAOB, the provision of tax services to a person covered by Rule 3523 before the earlier of the date that the firm: (1) signed an initial engagement letter or other agreement to perform an audit pursuant to the standards of the PCAOB, or (2) began procedures to do so, does not impair a registered public accounting firm's independence under Rule 3523.

#### **Rule 3524. Audit Committee Pre-approval of Certain Tax Services**

In connection with seeking audit committee pre-approval to perform for an issuer audit client any permissible tax service, a registered public accounting firm shall—

\* \* \* \* \*

#### **Rule 3525. Audit Committee Pre-approval of Non-audit Services Related to Internal Control Over Financial Reporting**

In connection with seeking audit committee pre-approval to perform for an issuer audit client any permissible non-audit service related to internal control over financial reporting, a registered public accounting firm shall—

\* \* \* \* \*

#### **~~Rule 3600T. Interim Independence Standards.~~**

~~In connection with the preparation or issuance of any audit report, a registered public accounting firm, and its associated persons, shall comply with independence standards—~~

- ~~(a) as described in the AICPA's Code of Professional Conduct Rule 101, and interpretations and rulings thereunder, as in existence on April 16, 2003 (AICPA Professional Standards, ET §§ 101 and 191 (AICPA 2002)), to the extent not superseded or amended by the Board; and~~
- ~~(b) Standards Nos. 1, 2, and 3, and Interpretations 99-1, 00-1, and 00-2, of the Independence Standards Board, to the extent not superseded or amended by the Board.~~

~~Note: The Board's Interim Independence Standards do not supersede the Commission's auditor independence rules. See, e.g., Rule 2.01 of Reg. S-X, 17 C.F.R. 240.2-01. Therefore, to the extent that a provision of the Commission's rule is more restrictive or less restrictive than the Board's~~

~~Interim Independence Standards, a registered public accounting firm must comply with the more restrictive rule.~~

~~Note: The Board intends that, during the period preceding the mandatory registration date, the Interim Independence Standards apply to public accounting firms that would be required to be registered after the mandatory registration date and to associated persons of those firms, as if those firms were registered public accounting firms.~~

## Part 7—Establishment of Professional Standards

### Rule 3700. Advisory Groups.

\* \* \*

#### (c) Selection of Members of Advisory Groups.

Members of advisory groups will be selected by the Board, in its sole discretion, based upon nominations, including self-nominations, received from any person or organization.

Note: The Board will announce, from time to time, periods during which it will receive nominations to an advisory group. During those periods, nominations may be submitted by any person or organization, including, but not limited to, any investor, any accounting firm, any issuer, broker, dealer, and any institution of higher learning.

\* \* \* \* \*

## SECTION 4. INSPECTIONS

### Rule 4009. Firm Response to Quality Control Defects

\* \* \*

(d) The portions of the Board's inspection report that deal with criticisms of or potential defects in quality control systems that the firm has not addressed to the satisfaction of the Board shall be made public by the Board—

- (1) upon the expiration of the 12-month period described in paragraph (a) of this rule if the firm fails to make any submission pursuant to paragraph (a); or
- (2) upon the expiration of the period in which the firm may seek Commission review of any board determination made under paragraph (c) of this rule, if the firm does not seek Commission review of the Board determination; or
- (3) in the event the firm requests Commission review of the determination, upon completion of the Commission's processes related to that request unless otherwise directed by the Commission unless otherwise directed by Commission order or rule, 30 days after the firm formally requests Commission review pursuant to Section 104(h)(1)(B) of the Act.

### Rule 4020T. Interim Inspection Program Related to Audits of Brokers and Dealers

\* \* \*

#### (b) Definitions

When used in this rule, the term "interim program," means the interim program of inspection described in paragraph (c). ~~When used in this rule, Rule 3502, Section 5 of the Rules of the Board, or the definition of "disciplinary proceeding" in Rule 1001(d)(i), the terms "audit," "audit report," and "professional standards" have the meaning provided in Section 110 of the Act.~~

\* \* \* \* \*

**SECTION 5. INVESTIGATIONS AND ADJUDICATIONS****Part 1—Inquiries and Investigations****Rule 5102. Testimony of Registered Public Accounting Firms and Associated Persons in Investigations**

\* \* \*

**(c) Conduct of Examination**

\* \* \*

**(4) Examinations of Registered Public Accounting Firms**

A registered public accounting firm subject to an accounting board demand shall designate one or more individuals who consent to testify on its behalf, and shall ~~may~~ set forth, for each individual designated, the matters on which the individual will testify. The individuals so designated shall testify as to matters known or reasonably available to the registered public accounting firm.

\* \* \* \* \*

**Rule 5105. Requests for Testimony or Production of Documents from Persons Not Associated With Registered Public Accounting Firms****(a) Testimony**

The Board, and the staff of the Board designated in an order of formal investigation, may issue an accounting board request for the testimony of any person, including any client of a registered public accounting firm, that the Board considers relevant or material to an investigation.

**(1) Requests for Testimony**

An accounting board request for testimony pursuant to subparagraph (a) of this Rule shall—

\* \* \*

(iii) if the person to be examined is an issuer, broker, dealer, partnership, ~~an~~ association, ~~a~~ governmental agency, or other organized entity, provide a description with reasonable particularity of the matters on which examination is requested.

**(2) Conduct of Examination and Transcript**

An examination requested pursuant to this Rule shall be conducted consistent with Rules 5102(c) and a transcript shall be prepared consistent with Rule 5102(d). If the person to be examined is an issuer, broker, dealer, ~~or a~~ partnership, ~~or~~ association, or governmental agency, the person to be examined shall designate one or more individuals who consent to testify on its behalf and ~~may~~ shall set forth, for each individual designated, the matters on which the individual will testify. The individuals so designated shall testify as to matters known or reasonably available to the organization.

**(b) Documents**

The Board, and the staff of the Board designated in an order of formal investigation, may issue an accounting board request to any person, including any issuer, broker, or dealer for the production of any document that is relevant or material to an investigation, with appropriate notice, subject to the needs of the investigation. A request issued pursuant to this Rule shall set forth a reasonable time and place for production, subject to the needs of the investigation.

\* \* \* \* \*

**Rule 5108. Confidentiality of Investigatory Records**

(a) Informal inquiries and formal investigations, and any documents, testimony or other information prepared or received by or specifically for the Board or the staff of the Board in connection with such inquiries and investigations, shall be confidential in the hands of the Board, unless and until presented in connection with a public proceeding or released in accordance with Section 105(c) of the Act, and the Board's Rules thereunder; provided, however, that the Board may make such information available—

- (1) to the Commission; and
- (2) in the discretion of the Board, when determined by the Board to be necessary to accomplish the purposes of the Act or to protect investors, to the following—
  - (a) the Attorney General of the United States;
  - (b) the appropriate Federal functional regulator (as defined in section 509 of the Gramm-Leach-Bliley Act), other than the Commission, and the Director of the Federal Housing Finance Agency, with respect to an audit report for an institution subject to the jurisdiction of such regulator;
  - (c) State attorneys general in connection with any criminal investigation; ~~and~~
  - (d) any appropriate State regulatory authority;
  - (e) a self-regulatory organization, with respect to an audit report for a broker or dealer that is under the jurisdiction of such self-regulatory organization;and
  - (f) any foreign auditor oversight authority, concerning a public accounting firm with respect to which it has been empowered by a foreign government to inspect or otherwise enforce laws, if:
    - (i) the foreign auditor oversight authority provides:
      - (A) such assurances of confidentiality as the Board may request;
      - (B) a description of the applicable information systems and controls of the foreign auditor oversight authority; and
      - (C) a description of the laws and regulations of the foreign government of the foreign auditor oversight authority that are relevant to information access; and
    - (ii) the Board determines that it is appropriate to share such information

\* \* \* \*

**Rule 5110. Noncooperation with an Investigation**

\* \* \*

**(b) Special and Expedited Procedures**

Disciplinary proceedings instituted solely pursuant to Rule 5200(a)(3) for non-cooperation with an investigation shall be subject to special and expedited procedures as described in Rules 5201(b)(3), 5300(b), 5302(d), 5421(b), 5422(a)(2), 5422(d), 5445(b), and 5460(a)(2)(ii).

**Rule 5112. Coordination and Referral of Investigations**

\* \* \*

**(b) Board Referrals of Investigations**

The Board may refer any investigation:

- (1) to the Commission; ~~and,~~

(2) to a self-regulatory organization, in the case of an investigation that concerns an audit report for a broker or dealer that is under the jurisdiction of such self-regulatory organization; and

(3) in the case of an investigation that concerns an audit report for an institution that is subject to the jurisdiction of any other Federal functional regulator (as defined in section 509 of the Gramm-Leach-Bliley Act) or the Director of the Federal Housing Finance Agency, to such regulator.

\* \* \* \* \*

## Part 2—Disciplinary Proceedings

### Rule 5200. Commencement of Disciplinary Proceedings

#### (a) Grounds for Commencement of Disciplinary Proceedings

The Board may commence a disciplinary proceeding when—

\* \* \*

(2) it appears to the Board, as the result of an investigation or otherwise, that a hearing is warranted to determine whether a registered public accounting firm, or any person who is, or at the time of the alleged failure reasonably to supervise was, a supervisory person of such firm, ~~the supervisory personnel of such a firm,~~ has failed reasonably to supervise an associated person, either as required by the Rules of the Board relating to auditing or quality control standards, or otherwise, with a view to preventing violations of this Act, the Rules of the Board, the provisions of the securities laws relating to the preparation and issuance of audit reports and the obligations and liabilities of accountants with respect thereto, including the rules of the Commission under the Act, or professional standards, and that such associated person has committed ~~a~~ violation of the Act, or of any of ~~such~~ rules, laws, or standards;

\* \* \* \* \*

#### Rule 5201. Notification of Commencement of Disciplinary Proceedings

\* \* \*

#### (b) Content of Order Instituting Proceedings

An order instituting proceedings issued pursuant to subparagraph (a) shall include a short and plain statement of the matters of fact and law to be considered and determined with respect to each person charged, including—

\* \* \*

(3) in the case of a proceeding instituted solely pursuant to Rule 5200(a)(3), ~~(i) the conduct alleged to constitute the failure to cooperate with an investigation; and (ii) a hearing date.~~

\* \* \* \* \*

### Rule 5204. Determinations in Disciplinary Proceedings

#### (a) Burden of Proof

In any disciplinary proceeding instituted pursuant to Rule 5200(a)(1), Rule 5200(a)(2), or Rule 5200(a)(3), the interested division shall bear the burden of proving an alleged violation or failure to supervise by a preponderance of the evidence. A respondent raising an affirmative defense shall bear the burden of proving that affirmative defense by a preponderance of the evidence.

#### (b) Initial Decision of a Hearing Officer

\* \* \*

Note: Unless the Board has directed otherwise, the Board expects hearing officers in proceedings instituted pursuant to Rule 5200(a)(1) or Rule 5200(a)(2) to

prepare initial decisions within 60 days after the deadline for filing post-hearing briefs or other submissions; the Board expects hearing officers in proceedings instituted solely pursuant to Rule 5200(a)(3) to prepare initial decisions within 30 days after the deadline for filing post-hearing briefs; and the Board expects hearing officers in proceedings pursuant to Rule 5500 to prepare initial decisions within 45 days after the deadline for filing post-hearing briefs or other submissions.

\* \* \*

### **Rule 5205. Settlement of Disciplinary Proceedings Without a Determination After Hearing**

\* \* \*

#### **(c) Consideration of Offers of Settlement**

\* \* \*

Note: In a hearing on disapproval of registration, an offer of settlement will be considered and handled by the Director of Registration and Inspections in accordance with Rule 5205 ~~6~~ as if the Director of Registration and Inspections were the Director of Enforcement and Investigations.

### **Part 3—Disciplinary Sanctions**

#### **Rule 5300. Sanctions**

##### **(a) Sanctions in Proceedings Instituted Pursuant to Rule 5200(a)(1) or Rule 5200(a)(2)**

\* \* \*

If the Board finds, based on all of the facts and circumstances, that a registered public accounting firm or associated person thereof has engaged in any act or practice, or omitted to act, in violation of the Act, the Rules of the Board, the provisions of the securities laws relating to the preparation and issuance of audit reports and the obligations and liabilities of accountants with respect thereto, including the rules of the Commission issued under the Act, or professional standards, the Board may impose such disciplinary or remedial sanctions as it determines appropriate, subject to the applicable limitations under Section 105(c)(5) of the Act, including—

(4) a civil money penalty for each such violation, in an amount not to exceed the maximum amount authorized by Sections 105(c)(4)(D)(i) and 105(c)(4)(D)(ii) of the Act, including penalty inflation adjustments published in the Code of Federal Regulations at 17 C.F.R. § 201 Subpart E; equal to—

(i) ~~not more than \$100,000 for a natural person or \$2,000,000 for any other person; and~~

(ii) ~~in any case to which Section 105(c)(5) of the Act applies, not more than \$750,000 for a natural person or \$15,000,000 for any other person;~~

\* \* \*

##### **(b) Sanctions in Proceedings Instituted Pursuant to Rule 5200(a)(3)**

\* \* \*

Note 1: Rule 5300 does not preclude the imposition of any sanction, on consent, in the context of a settlement, notwithstanding that the sanction is not listed in the Rule.

Note 2: The maximum penalty amounts authorized by the Act are periodically adjusted for inflation by the Commission, pursuant to the Federal Civil Penalties Inflation Adjustment Act of 1990, as amended by the Debt Collection Improvement Act of 1996, and vary depending upon the date the violation

occurs. The maximum penalty amounts are published at 17 C.F.R. § 201 Subpart E.

## **Part 4—Rules of Board Procedure**

### **GENERAL**

#### **Rule 5407. Filing of Papers: Signature Requirement and Effect**

Following the issuance of an order instituting proceedings, ~~every filing~~ of a party who represents himself or herself shall sign his or her individual name and state the date and his or her address and telephone number on every filing. Every filing of a ~~A~~ party represented by counsel shall be signed by at least one counsel of record in his or her name and shall state that counsel's business address and telephone number.

\* \* \* \* \*

### **PREHEARING RULES**

#### **Rule 5420. Stay Requests**

##### **(a) Leave to Participate to Request a Stay**

The Board or the hearing officer may grant leave to participate on a limited basis only to an authorized representative of the Commission, an authorized representative of the United States Department of Justice, an authorized representative of a United States Attorney, an appropriate state regulatory authority, an appropriate self-regulatory organization, or an authorized representative of any criminal prosecutorial authority of any State or any other political subdivision of a State for the purpose of requesting a stay during the pendency of a Commission investigation or proceeding, a criminal investigation or prosecution, a self-regulatory organization, or a state regulatory proceeding, arising out of the same or similar facts that are at issue in the pending Board or disciplinary proceeding. Motions for leave to participate shall be in writing, shall set forth the nature and extent of the movant's interest in the proceeding, and, except where good cause for late filing is shown, shall be filed not later than 20 days prior to the date fixed for the commencement of the hearing. A stay granted pursuant to this Rule may be granted for such a period and upon such conditions as the Board or the hearing officer deems appropriate.

##### **(b) Stay to Protect Ongoing Commission Investigation**

Upon a showing that a stay requested pursuant to this Rule is necessary to protect an ongoing Commission investigation, the motion for the stay shall be granted.

##### **(c) Other Stays**

Upon a showing that such a stay is in the public interest or for the protection of investors, the motion for the stay shall be favored.

#### **Rule 5421. Answer to Allegations**

\* \* \*

##### **(b) When to File**

Unless additional time is granted by the hearing officer or the Board, a party filing an answer as provided in paragraph (a) of this Rule shall do so within 20 days after service upon the party of an order instituting proceedings pursuant to Rule 5200(a)(1), Rule 5200(a)(2), or Rule 5500, and within 5 days after service upon the party of an order instituting proceedings solely pursuant to Rule 5200(a)(3). If the order instituting proceedings is amended, the Board or the hearing officer may require that an amended answer be filed and, if such an answer is required, shall specify a date for the filing thereof.

\* \* \* \* \*

**Rule 5422. Availability of Documents for Inspection and Copying****(a) Documents to be Available for Inspection and Copying**

\* \* \*

(2) Proceedings Commenced Solely Pursuant to Rule 5200(a)(3)

\* \* \*

**(b) Documents That May Be Withheld**

(1) The interested division may decline to make available for inspection and copying—

(i) any document prepared by, a member of the Board or of the Board's staff, or persons retained by the Board or Board staff to provide services in connection with the investigation, disciplinary proceeding, or hearing on disapproval of registration, provided that the document that has not been disclosed to any person other than Board members, Board staff, or persons retained by the Board or Board staff as described above to provide services in connection with the investigation, disciplinary proceeding, or hearing on disapproval of registration;

(ii) any document accessed from generally available public sources, such as legal research or other subscription databases, databases of securities filings, databases of periodicals, and public web sites, except to the extent that the interested division intends to introduce such documents as evidence;

(iii) any other document that is privileged, including any other document protected by the attorney work product doctrine;

(iv) ~~ii~~ any document that would disclose the identity of a confidential source; and

(iv) any other document that the staff identifies for the hearing officer's consideration as to whether the document may be withheld as not relevant to the subject matter of the proceeding or otherwise for good cause shown.

\* \* \*

**(c) Procedures Concerning Withheld Documents**

(1) The interested division shall, at the time it makes documents available to a respondent under this rule, provide the respondent with a log of documents withheld pursuant to paragraph (b)(1)(iii) of this Rule. The log shall provide the same information that a person would be required to supply to the Board under Rule 5106 in connection with a privilege assertion. On a motion by any respondent, a hearing officer may, in his or her discretion, require the interested division to submit any document listed on the log for inspection by the hearing officer in camera. A hearing officer may order that any such document be made available to a respondent for inspection and copying only if the hearing officer determines that the document is not a document described in paragraph (b)(1)(iii).

(2) The interested division shall, at the time it makes documents available to a respondent under this rule, provide the hearing officer and each respondent with a list of documents withheld pursuant to paragraph (b)(1)(iv) ~~ii~~ or (b)(1)(iv) of this Rule and a brief description of the reason for withholding each document. The list provided to the respondent may be redacted as necessary to protect interests related to the interested division's reason for withholding the document. The hearing officer may require the interested division to submit any such document for inspection by the hearing officer in camera. The hearing officer may order that any such document be made available to the respondent for inspection and copying only if the hearing officer determines that—

(i) with respect to any document withheld pursuant to paragraph (b)(1)(iv ~~ii~~)—

(A) producing the document would not have the effect of identifying a confidential source; or

(B) the document contains material, exculpatory evidence, provided, however, that to the extent such evidence can be disclosed without disclosing the identity of a confidential source, such identity shall not be disclosed.

(ii) with respect to any document withheld pursuant to paragraph (b)(1)(~~iv~~)—

(A) the document is relevant to the subject matter of the proceeding and no good cause exists for withholding it; or

(B) the document contains material, exculpatory evidence.

**(d) Timing of Inspection and Copying**

Unless otherwise ordered by the Board or the hearing officer, the interested division shall make documents available for inspection and copying to any respondent who is not in default under Rule 5409 no later than 14 days after the institution of proceedings pursuant to Rule 5200(a)(1), Rule 5200(a)(2), or Rule 5500, and no later than 7 days after proceedings have been instituted solely pursuant to Rule 5200(a)(3).

\* \* \* \* \*

**Rule 5426. Prior Sworn Statements of Nonparty Witnesses in Lieu of Live Testimony**

At a hearing, any person wishing to introduce a prior, sworn statement of a nonparty witness otherwise admissible in the proceeding, in lieu of live testimony may make a motion setting forth the reasons therefor. If only part of a statement is offered in evidence, the hearing officer may require that all relevant portions of the statement be introduced. If all of a statement is offered in evidence, the hearing officer may require that portions not relevant to the proceeding be excluded. A motion to introduce a prior sworn statement of a nonparty witness in lieu of live testimony may be granted if—

\* \* \* \* \*

**Rule 5427. Motion for Summary Disposition**

**(a) For Interested Division**

After a party has filed an answer and documents have been made available to that respondent for inspection and copying pursuant to Rule 5422, or after service of a motion for summary disposition by the respondent, the interested division may make a motion for summary disposition of any or all allegations of the order instituting proceedings ~~the proceedings~~ with respect to that respondent.

**(b) For Respondent**

A respondent party may at any time make a motion for summary disposition of any or all allegations of the order instituting proceedings ~~the proceeding~~ with respect to that respondent.

**(c) Pre-motion Conference Required**

A party seeking summary disposition shall request and attend a pre-motion conference with the hearing officer before filing its motion for summary disposition.

**(1) Due-date for Filing**

At the pre-motion conference, the hearing officer will schedule a due-date for the submission of the motion for summary disposition and may, but is not required to, schedule a due-date for the submission of a response to the motion for summary disposition judgment.

**(2) Review and Decide Procedure**

If the hearing officer has not scheduled a due-date for a response to the motion for summary disposition judgment, upon review of the motion the hearing officer may decide to deny the motion or to require a response to the motion. A hearing officer shall not grant a motion for summary disposition until after the due-date for filing a response to the motion has passed.

\* \* \* \* \*

**Rule 5442. Evidence: Objections and Offers of Proof****(a) Objections**

Objections to the admission or exclusion of evidence must be made on the record and shall be in short form, stating the grounds relied upon. Exceptions to any ruling thereon by the hearing officer need not be noted at the time of the ruling. Such exceptions will be deemed waived on appeal to the Board, however, unless raised—

- (1) pursuant to interlocutory review in accordance with Rule 5461;
- (2) in a proposed finding or conclusion filed in a post-hearing brief or other submission filed pursuant to Rule 5445; or
- (3) in a petition for Board review of an initial decision filed in accordance with Rule 5460.

\* \* \* \* \*

**Rule 5445. Post-hearing Briefs and Other Submissions**

\* \* \*

(b) In any proceeding instituted solely pursuant to Rule 5200(a)(3), the hearing officer may, in his or her discretion, render an initial decision without allowing for post-hearing briefs or other submissions, or may allow for such briefs or other submissions according to an expedited schedule.

**APPEALS TO THE BOARD****Rule 5460. Board Review of Determinations of Hearing Officers****(a) Petition for Review of Initial Decision by Hearing Officers**

Any party to a hearing may obtain Board review of an initial decision by filing a petition for review that—

- (1) sets forth specific findings and conclusions of the initial decision as to which exception is taken, together with the supporting reasons for each exception; and
- (2) is filed—
  - (i) in a proceeding instituted pursuant to Rule 5200(a)(1), Rule 5200(a)(2), or Rule 5500, within 30 days after service of the initial decision on the petitioner or within 10 days after the filing of a petition for review by another party, whichever is later; or
  - (ii) in a proceeding instituted solely pursuant to Rule 5200(a)(3), within 10 days after service of the initial decision on the petitioner.

\* \* \*

**(e) Summary Affirmance**

The Board may summarily affirm an initial decision based upon the petition for review ~~and any response thereto~~, without further briefing, if it finds that no issue raised in the petition for review warrants further consideration by the Board.

Note: For purposes of Rule 5460(a), with respect to any party that has entered an appearance and provided an electronic mail address as required by Rule 5401, service of the initial decision is deemed to occur on the date the Secretary transmits the initial decision to that electronic mail address.

**Rule 5462. Briefs Filed with the Board****(a) Briefing Schedule Order**

Upon a timely and valid petition for review, or upon its own timely motion to review an initial decision, other than review ordered pursuant to Rule 5469, the Board shall issue a briefing schedule order directing the parties to file opening briefs and specifying particular issues, if any, as to which briefing should be limited or directed. Unless otherwise provided, opening briefs shall be filed within 40 days of the date of the briefing schedule order. Opposition briefs shall be filed within 30 days after the date opening briefs are due. Reply briefs may be filed within 14 days after the date opposition briefs are due. No briefs in addition to those specified in the briefing schedule order may be filed except with leave of the Board. The briefing schedule order shall be issued—

- (1) at the time the Board orders review on its own initiative pursuant to Rule 5460(b), or orders interlocutory review on its own motion pursuant to Rule 5461(a) ~~or~~; or
- (2) within 21 days, or such longer time as provided by the Board, after—
  - (i) the last day permitted for filing a petition for review pursuant to Rule 5460(a) ~~204(d)~~;
  - (ii) certification of a ruling for interlocutory review pursuant to Rule 5461(b).

\* \* \* \* \*

**SECTION 7. FUNDING****Rule 7103. Assessment of Accounting Support Fees.**

\* \* \*

**(c) Petition for Correction**

Any issuer, broker, or dealer who disagrees with the class in which it has been placed, or with the calculation by which its share of the accounting support fee was determined, may petition the Board for a correction of the share of the accounting support fee it was allocated. Any such petition shall include an explanation of the nature of the claimed mistake in classification or calculation in writing and must be filed with the Board, on or before the 60th day after the invoice is sent, or within such longer period as the Board allows for good cause shown. After a review of such a petition, the Board will determine whether the allocation is consistent with Section 109 of the Act and the Board's rules thereunder and provide the issuer, broker, or dealer a written explanation of its decision. The provisions of Rule 7104 shall be suspended while such a petition is pending before the Board.

\* \* \* \* \*

**Rule 7104. Collection of Accounting Support Fees.**

\* \* \*

**(b) Determination of Payment of Accounting Support Fees by Registered Accounting Firm**

\* \* \*

~~Note 3: For purposes of Rule 7104, the term "audit" means an examination of the financial statements, reports, documents, procedures, controls, or notices of any issuer, broker, or dealer by an independent public accounting firm in accordance with the rules of the Board or the Commission, for the purpose of expressing an opinion on the financial statements or providing an audit report. For purposes of Rule 7104, the term "audit report" means a document, report, notice, or other record (1) prepared following an audit performed for purposes of compliance by an issuer, broker, or dealer with the requirements of the securities laws; and (2) in which a public accounting firm either (i) sets forth the opinion of that firm regarding a financial statement, report, notice, or other document, procedures, or controls; or (ii) asserts no such opinion can be expressed.~~

\* \* \* \* \*

**QUALITY CONTROL—INTERIM STANDARDS****SEC Practice Section (SECPS) - Requirements of Membership****SECPS § 1000.08(m)—Notification of the Commission of Resignations and Dismissals from Audit Engagements for Commission Registrants**

(1) When the member firm has been the auditor for an SEC registrant (as defined in Appendix D, SECPS § 1000.38) that is required to file current reports on Form 8-K and has resigned, declined to stand for re-election or been dismissed, report the fact that the client-auditor relationship has ceased directly in writing to the former SEC client, with a simultaneous copy to the Office of the Chief Accountant of the Securities and Exchange Commission, unless the former client reports the change in auditors in a timely filed Form 8-K.<sup>fn4</sup> Such report shall be sent to the former SEC client and to the Office of the Chief Accountant by the end of the fifth business day following the member firm's determination that the client-auditor relationship has ended, if the issuer has not reported the change in auditors to the SEC in a timely filed Form 8-K.

(2) When the member firm has been the auditor for an SEC registrant (as defined in Appendix D, SECPS § 1000.38) that is not required to file current reports on Form 8-K and has resigned, declined to stand for re-election or been dismissed, report the fact that the client-auditor relationship has ceased directly in writing to the former SEC client, with a simultaneous copy to the Office of the Chief Accountant of the Securities and Exchange Commission.<sup>fn5</sup> Such report shall be sent to the former SEC client and to the Office of the Chief Accountant by the end of the fifth business day following the member firm's determination that the client-auditor relationship has ended, irrespective of whether or not the registrant has reported the change in auditors in a timely filed ~~Form 8-K~~ report.

Fn4 See Appendix I, SECPS § 1000.43, for standard form of such report.

Fn5 See Appendix I, SECPS § 1000.43, for standard form of such report.

**.43 APPENDIX I—STANDARD FORM OF LETTER CONFIRMING THE CESSATION OF THE CLIENT-AUDITOR RELATIONSHIP**

(Date)

Mr. John Doe  
 Chief Financial Officer  
 XYZ Corporation  
 Anytown, USA

Dear Mr. Doe:

This is to confirm that the client-auditor relationship between XYZ Corporation (Commission File Number X-XXXX) and Able Baker & Co. has ceased.

Sincerely,

Able Baker &amp; Co.

CC: Office of the Chief Accountant  
 SECPS Letter File  
 Securities and Exchange Commission  
 SECPSletters@sec.gov  
~~Mail Stop 9-5~~  
 100 F Street, NE  
~~450 Fifth Street, N.W.~~  
 Washington, D.C. 20549

NOTE: The SEC has indicated that member firms may satisfy the SECPS notification requirements by e-mailing ~~faxing~~ a copy of the SECPS letter to the SEC-Office of the Chief Accountant (~~202-942-9656; Attn: SECPS Letter File/Mail Stop 9-5~~ SECPSletters@sec.gov). A copy of the ~~fax log~~ e-mail should be retained by the sender as documentation of timely filing ~~and a back-up copy of the letter should be sent by regular mail to the SEC.~~ The SEC strongly encourages sending the notification letter by ~~fax and will accept the date of the fax as the notification date~~ e-mail to SECPSletters@sec.gov. The SEC staff will accept the date the e-mail is received as the notification date. ~~If a fax e-mail transmission is not available, alternatively, by order of preference, the SECPS notification letter may be sent to the SEC via (1) fax to (202) 772-9252, (2) U.S. Postal Service overnight delivery, (23) commercial overnight courier, or (24) certified mail, "return receipt requested."~~

The exact name of the registrant, and the Commission File Number as it appears on the cover page of the Form 10-K, ~~and the complete SEC address, as shown above,~~ should be used in the e-mail letter and on the envelop. If the cessation of the client-auditor relationship affects multiple SEC registrants (e.g., a parent with publicly-registered subsidiaries, series of mutual funds), the exact name of each registrant and each Commission File Number should be set forth in the SECPS ~~letter~~ e-mail.

\* \* \* \* \*

**ETHICS CODE****EC2. Definitions**

\* \* \*

## (e) Honoraria

The term "honoraria" means anything with more than a nominal value, whether provided in cash or otherwise, and which is provided in exchange for a speech, panel participation, publication or lecture. Neither the waiver of conference fees nor acceptance of a modest speakers-only meal constitutes "honoraria." ~~Note:~~ Items and meals which are provided to all conference participants, ~~including~~

~~speakers, are not provided "in exchange for" a speech and thus not considered to be "honoraria."~~

(f) Practice

The term "practice" means—

- (1) knowingly acting as an agent or attorney for, or otherwise representing any other person in any formal or informal appearance before the Board or Commission with respect to Board-related matters; or
- (2) making any oral or written communication on behalf of any other person to, and with the intent to influence, the Board or Commission with respect to Board-related matters.

Note: For purposes of this definition, participating in the financial reporting process as the officer or director of an issuer, broker, or dealer or participating in an audit of the financial statements of an issuer, broker, or dealer does not, in and of itself, constitute practice before the Board or the Commission.

\* \* \*

**EC5. Investments**

\* \* \*

(d) Board members and professional staff shall ~~annually~~ disclose their holdings, and the holdings of their spouses, spousal equivalents, and dependents, in securities of issuers (including exchange-traded options and futures) to the Ethics Officer.

- (1) ~~For initial disclosures, statements shall be filed with the Ethics Officer w~~ Within the first 60 days of commencement of service with the Board; ~~and, or 60 days from the effective date of this Code, whichever is later.~~
- (2) On an annual basis, on May 1 or another date that may be prescribed by the Ethics Officer. Subsequent disclosures shall be filed with the Ethics Officer on May 1, commencing the first year following the initial disclosure.
- (3) Disclosure statements by Board Members shall be made available to the public.
- (4) Disclosure statements by professional staff shall remain confidential.

\* \* \*

**EC7. Gifts, Reimbursements, Honoraria and Other Things of Value**

\* \* \*

(b) No Board member or staff shall accept payment for or reimbursement of official travel-related expenses from any organization, except—

- (1) for travel that is in direct connection with the employee's participation in an educational forum; and
- (2) the educational forum is principally sponsored by and the travel-related expenses are paid or reimbursed by—
  - (A) a federal, state or local governmental body, or an association of such bodies,
  - (B) an accredited institution of higher learning,

- (C) an organization exempt from taxation under 501(c)(3) of the Internal Revenue Code, provided such organization is not principally funded from one or more public accounting firms, or issuers, brokers, or dealers, or
- (D) institutions equivalent to those in EC 7(b)(2)(A)—(C) outside the United States.

### **EC8. Disqualification**

(a) If a Board member or professional staff becomes, or reasonably should become, aware of facts which would lead a reasonable person to believe that he or she, or his or her spouse, spousal equivalent, or dependents, may have a financial or personal interest ~~or other similar relationship~~ which might affect or reasonably create the appearance of affecting his or her independence or objectivity with respect to the Board's function or activities, then he or she shall, at the earliest possible date—

- (1) disclose such circumstances and facts, as set forth in subsection (b); and
- (2) recuse himself or herself from further Board functions or activities involving or affecting the financial ~~interest~~ or personal interest relationship.

\* \* \*

### **EC12. Post-Employment Restrictions**

(a) Negotiating Prospective Employment

- (1) Board members and professional staff may not negotiate prospective employment with a public accounting firm, ~~or issuer, broker, or dealer~~, without first disclosing (pursuant to the procedures in Section EC8(b)) the identity of the prospective employer and recusing himself or herself from all Board matters directly affecting that prospective employer.
- (2) For purposes of this section, "negotiating prospective employment" means participating in an employment interview; discussing an offer of employment; or accepting an offer of employment, even if the precise terms are still to be developed. Submitting a resume or job application to a group of employers or receiving an unsolicited inquiry of interest that is rejected, do not alone constitute "negotiating prospective employment."

## Appendix 3—Amendments to Board Forms

The Board is amending Form 1, Form 1-WD, Form 2, Form 3, and Form 4 as set out below. Language deleted by these amendments is struck through. Language that is added is underlined.

### FORMS

#### FORM 1—APPLICATION FOR REGISTRATION

##### GENERAL INSTRUCTIONS

1. The definitions in the *Board's rules* apply to this form. Italicized terms in the instructions to this form are defined in the *Board's rules*. See Rule 1001.
2. Any *public accounting firm* applying to the *Board* for registration pursuant to Section 102 of the *Act* must file this form with the *Board*. See Rule 2101.
3. In addition to these instructions, the *rules* contained in Section 2 of the *Board's rules* govern applications for registration. Please read these *rules* and the instructions carefully before completing this form.
4. Unless otherwise directed by the *Board*, applicants must submit this form, and all exhibits to the form, to the *Board* electronically by completing the Web-based version of Form 1. Form 1 is available on the Board's Web site at: <http://www.pcaobus.org/Registration/index.aspx>. See Rule 2101.
5. This form must be accompanied by a registration fee in accordance with Section 102(f) of the *Act*. The amount of the required fee is available at <http://www.pcaobus.org/Registration/index.aspx>. An application for registration will not be deemed received by the *Board* until the registration fee has been paid. See Rule 2102.
6. An applicant may request confidential treatment of any portion of its application for registration that has not otherwise been publicly disclosed and that either contains information reasonably identified by the applicant as proprietary information or that is protected from public disclosure by applicable laws related to confidentiality of proprietary, personal, or other information. An applicant that requests confidential treatment must identify the portion of the application that it desires to keep confidential, and include, as Exhibit 99.1 to the application for registration, a representation that, to the applicant's knowledge, the information for which confidential treatment is requested has not otherwise been publicly disclosed, and a detailed explanation as to why, based on the facts and circumstances of the particular case, of the grounds on which the information is considered proprietary or a detailed explanation of the basis for asserting that the information is protected by law from disclosure by applicable laws related to the confidentiality of proprietary, personal, or other information public disclosure and a copy of the specific provision of law that the applicant claims protects the information from public disclosure. If the Firm fails to include Exhibit 99.1, or includes an Exhibit 99.1 that fails to comply with Rule 2300(c)(2), the request for confidential treatment may be denied solely on the basis of that failure. The *Board* will normally grant confidential treatment requests for information concerning non-public disciplinary

proceedings. The *Board* will determine whether or not to grant other confidential treatment requests on a case-by-case basis. See Rule 2300(c).

7. If an applicant is prohibited by the law(s) of a non-U.S. jurisdiction from submitting to the *Board* information requested by all or a part of an Item to this form, the applicant shall so indicate by making a notation under the relevant item number of the form and furnishing, as Exhibit 99.2 to the application for registration, the following information: (i) a copy of the relevant portion of the conflicting non-U.S. law, (ii) a legal opinion that submitting the information would cause the applicant to violate the conflicting non-U.S. law; and (iii) an explanation of the applicant's efforts to seek consents or waivers to eliminate the conflict, if the withheld information could be provided to the *Board* with a consent or waiver, and a representation that the applicant was unable to obtain such consents or waivers to eliminate the conflict.
8. Where this form requires disclosure of a sum of money, such amount must be stated in U.S. dollars and rounded to the nearest thousand. If such amount was received or paid in a currency other than U.S. dollars, the amount must be converted to U.S. dollars.
9. Where this form requires non-historical (i.e., current) information, applicants may submit the information as of a date not earlier than 90 days prior to submission of the application. Such information will be deemed current for purposes of this form.
10. Information submitted as part of this form, including any exhibit to this form, must be in the English language.

## **PART I—IDENTITY OF THE APPLICANT**

### **Item 1.1 Name of Applicant**

State the legal name of the applicant; if different, also state the name or names under which the applicant (or any predecessor for which the applicant is the successor in interest with respect to the entity's liabilities) issues *audit reports*, or has issued any *audit report* during the five years prior to the date of this application.

### **Item 1.2 Applicant Contact Information**

State the physical address (and, if different, mailing address) of the applicant's headquarters office. State the telephone number and facsimile number of the applicant's headquarters office. If available, state the Website address of the applicant.

### **Item 1.3 Primary Contact and Signatories**

State the name, title, physical business address (and, if different, business mailing address), telephone number, fax number, and e-mail address of a partner or authorized officer of the applicant who will serve as the applicant's primary contact with the *Board* regarding this application. Provide the same information for every person whose signature appears in Part VIII or Part IX of this form, if any of those persons are different from the primary contact.

### **Item 1.4 Applicant's Form of Organization**

State the applicant's legal form (e.g., proprietorship, partnership, limited liability partnership) and the jurisdiction (e.g., the *state* of the United States or comparable non-U.S. jurisdiction) under the law of which the applicant is organized or exists. **Item 1.5 Applicant's Offices** If the applicant has more than one

office, furnish, as Exhibit 1.5, the physical address (and, if different, mailing address) of each of the applicant's offices.

#### Item 1.6 *Associated Entities* of Applicant

State the name and physical address (and, if different, mailing address) of all *associated entities* of the applicant that engage in the practice of public accounting or preparing or issuing *audit reports*, or comparable reports prepared for clients that are not *issuers*. Do not include any person listed in Item 7.1.

#### Item 1.7 Applicant's Licenses

List every license or certification number issued to the applicant authorizing it to engage in the business of auditing or accounting. For each such license or certification number, furnish the name of the issuing *state*, agency, board, or other authority.

### **PART II—LISTING OF APPLICANT'S PUBLIC COMPANY AUDIT CLIENTS AND RELATED FEES**

#### Item 2.1 *Issuers* for Which Applicant Prepared *Audit Reports* During the Preceding Calendar Year

List the names of all *issuers* for which the applicant prepared or issued any *audit report* dated during the calendar year preceding the calendar year in which this application is filed. In addition to the *issuer's* name, this list must include, with respect to each *issuer* —

- a. The *issuer's* business address (as shown on its most recent filing with the *Commission*), and CIK number.
- b. The date of the *audit report*.
- c. The total amount of fees billed for *audit services* for the *issuer's* fiscal year for which the *audit report* was issued.
- d. The total amount of fees billed for *other accounting services* for the *issuer's* fiscal year for which the *audit report* was issued.
- e. The total amount of fees billed for *non-audit services* for the *issuer's* fiscal year for which the *audit report* was issued.

Note: Only fees billed by the principal ~~auditor~~ accountant (i.e., the *public accounting firm* that issued the *audit report*) need be disclosed in response to this Item. To the extent not previously disclosed or known by the applicant, estimated amounts may be used in responding to this Item. For investment company *issuers*, the fees disclosed in response to paragraphs (c)–(e) of this Item should include all fees for services rendered to the *issuer*, to the *issuer's* investment adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser), and to any entity controlling, controlled by, or under common control with, the adviser that provides ongoing services to the *issuer*.

#### Item 2.2 *Issuers* for Which Applicant Prepared *Audit Reports* During the Current Calendar Year

List the names of all *issuers* for which the applicant prepared or issued any *audit report* dated during the current calendar year. (Do not include *audit reports* the applicant expects to prepare or issue during this calendar year, but that have not yet been issued. These are called for in Item 2.3 below.) In addition to the *issuer's* name, include, with respect to each *issuer*—

- a. The *issuer's* business address (as shown on its most recent filing with the *Commission*), and CIK number.
- b. The date of the *audit report*.

- c. The total amount of fees billed for *audit services* for the *issuer's* fiscal year for which the *audit report* was issued.
- d. The total amount of fees billed for *other accounting services* for the *issuer's* fiscal year for which the *audit report* was issued.
- e. The total amount of fees billed for *non-audit services* for the *issuer's* fiscal year for which the *audit report* was issued.

Note: Only fees billed by the principal ~~auditor~~ accountant (i.e., the *public accounting firm* that issued the *audit report*) need be disclosed in response to this Item. To the extent not previously disclosed or known by the applicant, estimated amounts may be used in responding to this Item. For investment company issuers, the fees disclosed in response to paragraphs (c)–(e) of this Item should include all fees for services rendered to the *issuer*, to the *issuer's* investment adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser), and to any entity controlling, controlled by, or under common control with, the adviser that provides ongoing services to the *issuer*.

### Item 2.3 Issuers for Which Applicant Expects to Prepare Audit Reports During the Current Calendar Year

List the names of all *issuers* for which the applicant expects to prepare or issue any *audit report* dated during the calendar year in which this application is filed. In addition to the *issuer's* name, include, with respect to each *issuer*, the *issuer's* business address (as shown on its most recent filing with the *Commission*), and CIK number.

Note: An applicant may presume that it is expected to prepare or issue an *audit report* for an *issuer* (i) if it has been engaged to do so, or (ii) if it issued an *audit report* during the preceding calendar year for an *issuer*, absent an indication from the *issuer* that it no longer intends to engage the applicant.

### Item 2.4 Issuers for Which Applicant Played, or Expects to Play, a Substantial Role in Audit

For applicants that did not prepare or issue an *audit report* dated during the preceding or current calendar year, and that do not expect to prepare or issue an *audit report* dated during the current calendar year, list the names of all *issuers* for which the applicant *played, or expects to play, a substantial role in the preparation or furnishing of an audit report* dated during the preceding or current calendar year. In addition to the *issuer's* name, this list must include, with respect to each *issuer*—

- a. The *issuer's* business address (as shown on its most recent filing with the *Commission*), and CIK number.
- b. The name of the *public accounting firm* that issued, or is expected to issue, the *audit report*.
- c. The date of the *audit report*, if it has been issued.
- d. The type of substantial role played by the applicant with respect to the *audit report*.

Note: Applicants that disclosed the name of an *issuer* in response to any of Items 2.1–2.3 need not respond to this Item. In responding to the part of this Item that asks about *issuers* for which the applicant expects to *play a substantial role in the preparation or furnishing of an audit report*, an applicant may ~~presume~~ conclude that it is *expected to play a substantial role in the preparation or furnishing of an audit report* for an *issuer* (i) if it has been engaged to do so, or (ii) if it *played a substantial role in the preparation and furnishing of an audit*

*report* during the preceding calendar year, absent an indication from the *issuer* or principal accounting firm that it no longer intends to engage the applicant.

**PART III — [RESERVED] PART III—LISTING OF APPLICANT'S BROKER OR DEALER AUDIT CLIENTS AND RELATED FEES**

**Item 3.1 *Brokers and Dealers* for Which Applicant Prepared *Audit Reports* During the Preceding Calendar Year**

List the names of all *brokers* and *dealers* for which the applicant prepared or issued any *audit report* dated during the calendar year preceding the calendar year in which this application is filed. In addition to the *broker's* or *dealer's* name, this list must include, with respect to each *broker* or *dealer*—

- a. The *broker's* or *dealer's* business address, and the *broker's* or *dealer's* CRD number, and CIK number, if any.
- b. The date of the *audit report*.
- c. The total amount of fees billed for *audit services* for the *broker's* or *dealer's* fiscal year for which the *audit report* was issued.
- d. The total amount of fees billed for *other accounting services* for the *broker's* or *dealer's* fiscal year for which the *audit report* was issued.
- e. The total amount of fees billed for *non-audit services* for the *broker's* or *dealer's* fiscal year for which the *audit report* was issued.

Note: Only fees billed by the principal auditor (i.e., the *public accounting firm* that issued the *audit report*) need be disclosed in response to this Item. To the extent not previously disclosed or known by the applicant, estimated amounts may be used in responding to this Item.

**Item 3.2 *Brokers and Dealers* for Which Applicant Prepared *Audit Reports* During the Current Calendar Year**

List the names of all *brokers* or *dealers* for which the applicant prepared or issued any *audit report* dated during the current calendar year. (Do not include *audit reports* the applicant expects to prepare or issue during this calendar year, but that have not yet been issued. These are called for in Item 3.3 below.) In addition to the *broker's* or *dealer's* name, include, with respect to each *broker* or *dealer*—

- a. The *broker's* or *dealer's* business address, and the *broker's* or *dealer's* CRD number, and CIK number, if any.
- b. The date of the *audit report*.
- c. The total amount of fees billed for *audit services* for the *broker's* or *dealer's* fiscal year for which the *audit report* was issued.
- d. The total amount of fees billed for *other accounting services* for the *broker's* or *dealer's* fiscal year for which the *audit report* was issued.
- e. The total amount of fees billed for *non-audit services* for the *broker's* or *dealer's* fiscal year for which the *audit report* was issued.

Note: Only fees billed by the principal auditor (i.e., the *public accounting firm* that issued the *audit report*) need be disclosed in response to this Item. To the extent not previously disclosed or known by the applicant, estimated amounts may be used in responding to this Item.

**Item 3.3 *Brokers and Dealers* for Which Applicant Expects to Prepare *Audit Reports* During the Current Calendar Year**

List the names of all *brokers* and *dealers* for which the applicant expects to prepare or issue any *audit report* dated during the calendar year in which

this application is filed. In addition to the *broker's or dealer's name*, include, with respect to each *broker or dealer*, the *broker's or dealer's business address*, and the *broker's or dealer's CRD number*, and *CIK number*, if any.

Note: An applicant may conclude that it is expected to prepare or issue an *audit report* for a *broker or dealer* (i) if it has been engaged to do so, or (ii) if it issued an *audit report* during the preceding calendar year for a *broker or dealer*, absent an indication from the *broker or dealer* that it no longer intends to engage the applicant.

**Item 3.4 *Brokers and Dealers for Which Applicant Played, or Expects to Play, a Substantial Role in Audit***

For applicants that did not prepare or issue an *audit report* dated during the preceding or current calendar year, and that do not expect to prepare or issue an *audit report* dated during the current calendar year, list the names of all *brokers and dealers* for which the applicant *played, or expects to play, a substantial role in the preparation or furnishing of an audit report* dated during the preceding or current calendar year. In addition to the *broker's or dealer's name*, this list must include, with respect to each *broker or dealer*—

- a. The *broker's or dealer's business address*, and the *broker's or dealer's CRD number*, and *CIK number*, if any.
- b. The name of the *public accounting firm* that issued, or is expected to issue, the *audit report*.
- c. The date of the *audit report*, if it has been issued.
- d. The type of substantial role played by the applicant with respect to the *audit report*.

Note: Applicants that disclosed the name of a *broker or dealer* in response to any of Items 3.1—3.3 need not respond to this Item. In responding to the part of this Item that asks about *brokers and dealers* for which the applicant expects to *play a substantial role in the preparation or furnishing of an audit report*, an applicant may conclude that it is *expected to play a substantial role in the preparation or furnishing of an audit report* for a *broker or dealer* (i) if it has been engaged to do so, or (ii) if it *played a substantial role in the preparation and furnishing of an audit report* during the preceding calendar year, absent an indication from the *broker or dealer* or principal accounting firm that it no longer intends to engage the applicant.

**PART IV—STATEMENT OF APPLICANT'S QUALITY CONTROL POLICIES**

**Item 4.1 Applicant's Quality Control Policies**

Furnish, as Exhibit 4.1, a narrative, summary description, in a clear, concise and understandable format, of the quality control policies of the applicant for its accounting and auditing practices, including procedures used to monitor compliance with independence requirements.

**PART V—LISTING OF CERTAIN PROCEEDINGS INVOLVING THE APPLICANT**

**Item 5.1 Certain Criminal, Civil and Administrative Proceedings**

a. Indicate whether or not the applicant or any *associated person* of the applicant is a defendant or respondent—

1. in any pending criminal proceeding, or was a defendant in any such proceeding in which a judgment was rendered against the applicant or such person, whether by plea or after trial, during the previous five years;

2. in any pending civil or alternative dispute resolution proceeding initiated by a governmental entity (including a non-U.S. jurisdiction) arising out of the applicant's or such person's conduct in connection with an *audit report*, or a comparable report prepared for a client that is not an *issuer, broker, or dealer*, or was a defendant or respondent in any such proceeding in which a judgment or award was rendered against the applicant or such person, whether by consent or otherwise, during the previous five years;

3. in any pending administrative or disciplinary proceeding arising out of the applicant's or such person's conduct in connection with an *audit report*, or a comparable report prepared for a client that is not an *issuer, broker, or dealer* or was a respondent in any such proceeding in which a finding of violation was rendered, or a sanction entered, against the applicant or such person, whether by consent or otherwise, during the previous five years. Administrative or disciplinary proceedings include those of the *Commission*; the *Board*; any other federal, *state*, or non-U.S. agency, board, or administrative or licensing authority; and any professional association or body. Investigations that have not resulted in the commencement of a proceeding need not be included;

Note: *Foreign public accounting firm* applicants need only disclose such proceedings for the applicant and any proprietor, partner, principal, shareholder, officer, or manager of the applicant who provided at least ten hours of *audit services* for any *issuer, broker, or dealer* during the last calendar year.

b. In the event of an affirmative response to Item 5.1.a, furnish the following information with respect to each such proceeding:

1. The name, filing date, and case or docket number of the proceeding.
2. The name and address of the court, tribunal, or body in which such proceeding was filed.
3. The names of all defendants or respondents in such proceeding who are also the applicant, any person listed in Part VII, or any *person associated with the applicant* at the time that the events in question occurred.
4. The name of the *issuer, broker, or dealer* or other client that was the subject of the *audit report* or comparable report.
5. With respect to each person named in Item 5.1.b.3, the statutes, rules, or other requirements such person was found to have violated (or, in the case of a pending proceeding, is charged with having violated).
6. With respect to each person named in Item 5.1.b.3, the outcome of the proceeding, including any sentence or sanction imposed. (If no judgment or award has yet been rendered, enter the word "pending.")

c. Indicate whether or not any employee, partner, shareholder, principal, member, or owner of the applicant, or any person or entity with which the applicant has a contractual or other arrangement to receive consulting or other professional services, is currently subject to a *Board* disciplinary sanction suspending or barring the person from being an *associated person of a registered public accounting firm*.

d. Indicate whether or not the applicant or any employee, partner, shareholder, principal, member, or owner of the applicant, or any person or entity with which the applicant has a contractual or other arrangement to receive consulting or other professional services, is currently subject to a (1) *Commission* order suspending or denying the privilege of appearing or practicing before the *Commission*, or (2) court-ordered injunction prohibiting appearance or practice before the *Commission*.

e. In the event of an affirmative response to Item 5.1.c or Item 5.1.d, furnish the following with respect to each such person:

1. The name of the person (including the applicant) subject to the order or sanction.
2. If other than the applicant, a description of the person's job title and duties performed for the applicant.
3. The date of the relevant order and an indication whether it was a Board order, a Commission order, or a court order.
4. If a court order, the name of the court and the name and case or docket number of the proceeding.

#### Item 5.2 Pending Private Civil Actions

a. Indicate whether or not the applicant or any *associated person* of the applicant is a defendant or respondent in any pending civil proceeding or alternative dispute resolution proceeding initiated by a non-governmental entity involving conduct in connection with an *audit report*, or a comparable report prepared for a client that is not an *issuer, broker, or dealer*.

b. In the event of an affirmative response to Item 5.2.a, furnish the following information with respect to each such proceeding:

1. The name, filing date, and case or docket number of the proceeding.
2. The name and address of the court, tribunal or body in which such proceeding was filed.
3. The names of all defendants or respondents in such proceeding who are also the applicant, any person listed in Part VII, or any *person associated with the applicant* at the time that the events in question occurred.
4. The name of the *issuer, broker, or dealer*, or other client that was the subject of the *audit report* or comparable report.
5. With respect to each person named in Item 5.2.b.3, the statutes, rules, or other requirements such person is alleged to have violated.

Note: *Foreign public accounting firm* applicants need only disclose such proceedings for the applicant and any proprietor, partner, principal, shareholder, officer, or manager of the applicant who provided at least ten hours of *audit services* for any *issuer, broker, or dealer* during the last calendar year.

#### Item 5.3 Applicant's Discretionary Statement Regarding Proceedings Involving the Applicant's Audit Practice

With respect to any case or proceeding listed in response to Items 5.1 or 5.2, the applicant may, at its discretion, furnish, as Exhibit 5.3, a statement or statements describing the proceeding and the reasons that, in the applicant's view, such proceeding should not be a basis for the denial of its application for registration.

### **PART VI—LISTING OF FILINGS DISCLOSING ACCOUNTING DISAGREEMENTS WITH PUBLIC COMPANY AUDIT CLIENTS AND ISSUES WITH BROKER OR DEALER AUDIT CLIENTS**

#### Item 6.1 Existence of Disagreements With *Issuers*

a. Indicate whether or not the applicant has been the former accountant with respect to any disclosure of a disagreement with an *issuer* made by such *issuer* during the current or preceding calendar year in a filing with the *Commission* pursuant to Item 304(a)(1)(iv) of Regulation S-K, 17 C.F.R. 229.304(a)(1)(iv).

b. Indicate whether or not the applicant has been the former accountant with respect to any filing made by an *issuer* during the current or preceding calendar year with the *Commission* containing a letter submitted by the applicant to the *Commission* pursuant to Item 304(a)(3) of Regulation S-K, 17 C.F.R. 229.304(a)(3), in which the applicant stated that it disagreed with a statement of the issuer in response to Item 304(a).

#### Item 6.2 Listing of Disagreements With *Issuers*

In the event of an affirmative response to Items 6.1.a or 6.1.b, furnish the following information with respect to each such filing:

- a. The name of the *issuer*.
- b. The name and date of the filing containing the disclosure of the disagreement or the applicant's letter.

#### Item 6.3 Copies of Filings

Furnish, as Exhibit 6.3, a copy of every filing described in Item 6.2.

#### Item 6.4 Existence of Issues With *Brokers* or *Dealers*

Indicate whether or not the applicant has been the former accountant with respect to a notice of any issues relating to any matter of accounting principles or practices, financial statement disclosure, auditing scope or procedure, or compliance with applicable rules of the *Commission* made by a *broker* or *dealer* during the current or preceding calendar year in a filing with the *Commission* pursuant to Rule 17a-5(f)(3)(v)(B), 17 C.F.R. § 240.17a-5(f)(3)(v)(B).

#### Item 6.5 Listing of Issues With *Brokers* or *Dealers*

In the event of an affirmative response to Item 6.4, furnish the following information with respect to each such filing:

- a. The name of the *broker* or *dealer*, and the *broker's* or *dealer's* CRD number, and CIK number, if any.
- b. The name and date of the filing containing the notice.

#### Item 6.6 Copies of Filings

Furnish, as Exhibit 6.6, a copy of every filing described in Item 6.5.

### **PART VII—ROSTER OF ASSOCIATED ACCOUNTANTS**

#### Item 7.1 Listing of *Accountants* Associated with Applicants

List the names of all *accountants* associated with the applicant who participate in or contribute to the preparation of *audit reports*. For each such person, list every license or certification number (if any) authorizing him or her to engage in the business of auditing or accounting. For each such license or certification number, furnish the name of the issuing *state*, agency, board, or other authority.

Note: For purposes of this Item, applicants that are not *foreign public accounting firms* must list all *accountants* who are *persons associated with the applicant* and who provided at least ten hours of *audit services* for any *issuer, broker, or dealer* during the last calendar year. Applicants that are *foreign public accounting firms* must list all *accountants* who are a proprietor, partner, principal, shareholder, officer, or manager of the applicant and who provided at least ten hours of *audit services* for any *issuer, broker, or dealer* during the last calendar year.

#### Item 7.2 Number of Firm Personnel State the—

- a. Total number of *accountants* employed by the applicant.

- b. Total number of certified public accountants, or *accountants* with comparable licenses from non-U.S. jurisdictions, employed by the applicant.
- c. Total number of personnel employed by the applicant.

### PART VIII—CONSENTS OF APPLICANT

Item 8.1 Consent to Cooperate with the *Board* and Statement of Acceptance of Registration Condition

Furnish, as Exhibit 8.1, a statement, signed on behalf of the applicant by an authorized partner or officer of the applicant in accordance with Rule 2104, in the following form—

- a. [Name of applicant] consents to cooperate in and comply with any request for testimony or the production of documents made by the Public Company Accounting Oversight Board in furtherance of its authority and responsibilities under the Sarbanes- Oxley Act of 2002.
- b. [Name of applicant] agrees to secure and enforce similar consents from each of its *associated persons* as a condition of their continued employment by or other association with the firm.
- c. [Name of applicant] understands and agrees that cooperation and compliance, as described in the firm's consent in paragraph (a), and the securing and enforcement of such consents from its *associated persons* in accordance with paragraph (b), shall be a condition to the continuing effectiveness of the registration of the firm with the Public Company Accounting Oversight Board.

Note 1: Other than the insertion of the name of the applicant in paragraphs (a), (b), and (c) of this Item, Exhibit 8.1 must be in the exact words contained in this instruction. The consents required by paragraph (b) of this Item must be in the exact words of Note 2 below and must be secured by the applicant not later than 45 days after submitting this application or, for persons who become *associated persons* of the firm subsequent to the submission of this application, at the time of the person's association with the firm.

Consents required by paragraph (b) of this Item are not required to be furnished as an exhibit to this form.

Note 2: Other than the insertion of the name of the *associated person*, the consents required by paragraph (b) of this Item must state: [Name of *associated person*] consents to cooperate in and comply with any request for testimony or the production of documents made by the Public Company Accounting Oversight Board in furtherance of its authority and responsibilities under the Sarbanes-Oxley Act of 2002. [Name of *associated person*] understands and agrees that this consent is a condition of their continued employment by or other association with [name of applicant].

Note 3: For applicants that are *foreign public accounting firms*, the term "*associated persons*" as used in this Item means all *accountants* who are a proprietor, partner, principal, shareholder, officer, or manager of the applicant and who provided at least ten hours of *audit services* for any *issuer*, broker, or dealer during the last calendar year.

### PART IX—SIGNATURE OF APPLICANT

Item 9.1 Signature of Partner or Authorized Officer

The application must be signed on behalf of the applicant by an authorized partner or officer of the applicant in accordance with Rule 2104. The signer must certify that he or she has reviewed the application; that the application is, based on the signer's knowledge, complete and does not contain any untrue statement of a material fact or omit to state a material fact necessary to make

the statements made, in light of the circumstances under which such statements were made, not misleading, and that the signer is authorized to execute the application on behalf of the applicant. The signature must be accompanied by the name of the signer, the capacity in which the signer signed the application, and the date of signature.

## **PART X—EXHIBITS**

To the extent applicable under the foregoing instructions, each application must be accompanied by the following exhibits:

Exhibit 1.5 Listing of Offices

Exhibit 4.1 Statement of Quality Control Policies

Exhibit 5.3 Discretionary Statements Regarding Proceedings Involving Audit Practice

Exhibit 6.3 Securities and Exchange Commission Filings Disclosing Accounting Disagreements With Public Company Audit Clients

Exhibit 6.6 Securities and Exchange Commission Filings Disclosing Issues With Brokers or Dealers

Exhibit 8.1 Consent of Applicant for Registration

Exhibit 99.1 Request for Confidential Treatment

Exhibit 99.2 Evidence of Conflicting Non-U.S. Law

Note: Where an exhibit consists of more than one document, each document must be numbered consecutively (e.g., Exhibit 4.1.1, Exhibit 4.1.2, Exhibit 4.1.3, etc.), and the applicant must provide a list of the title or description of each document comprising the exhibit.

## **FORM 1-WD**

### **REQUEST FOR LEAVE TO WITHDRAW FROM REGISTRATION**

#### GENERAL INSTRUCTIONS

1. The definitions in the *Board's* rules apply to this form. Italicized terms in the instructions to this form are defined in the *Board's* rules. See Rule 1001.
2. Any *registered public accounting firm* seeking to withdraw from registration with the *Board* must file this form with the *Board*.
3. In addition to these instructions, the *Board's* Rule 2107 governs applications for leave to withdraw from registration. Please read Rule 2107 and the instructions carefully before completing this form.
4. Unless otherwise directed by the *Board*, a *registered public accounting firm* seeking to withdraw from registration must submit this form to the *Board* electronically by completing the Web-based version of Form 1-WD. The date of such submission shall be deemed the date of *Board* receipt of the Form. ~~The registered public accounting firm must also submit an original hard copy of the form with manual signatures in Item 3.1 and Item 5.1, with such signatures dated not later than the date of electronic submission.~~
5. Pursuant to Rule 2107, any Form 1-WD filed with the *Board* shall be non-public. A registered public accounting firm may submit with Form 1-WD a request for *Board* notification in the event that the *Board* is requested by subpoena or other legal process to disclose the Form 1-WD. The *Board* will make reasonable attempts to honor any such request, although the *Board* will make public the fact that the firm has requested to withdraw from registration.
6. Information submitted as part of this form must be in the English language.

**PART I—IDENTITY OF THE REGISTERED PUBLIC ACCOUNTING FIRM**

## Item 1.1 Name of the Firm Requesting Leave to Withdraw

State the legal name of the firm requesting leave to withdraw; if different, also state the name or names under which the firm (or any predecessor) issues *audit reports*, or has issued any *audit report* during the period of the firm's registration with the *Board*.

## Item 1.2 Firm Contact Information

State the physical address (and, if different, mailing address) of the firm's headquarters office. State the telephone number and facsimile number of the firm's headquarters office.

## Item 1.3 Primary Contact and Signatories

State the name, title, physical business address (and, if different, business mailing address), telephone number, facsimile number, and e-mail address of a partner or authorized officer of the firm who will serve as the firm's primary contact with the *Board* regarding this application. Provide the same information for every person whose signature appears in Part III or Part V of the form, if any of those persons are different from the primary contact.

**PART II—DESCRIPTION OF ONGOING REGULATORY OR LAW ENFORCEMENT PROCEEDINGS**

## Item 2.1 Description of Ongoing Regulatory or Law Enforcement Proceedings

Identify all ongoing federal, state, or local investigative, disciplinary, regulatory, criminal, or other law enforcement proceedings that are known to the firm, including to any of the firm's partners or officers, and that address in whole or in part (1) conduct of the firm or (2) *audit*-related conduct of any of the firm's associated persons. For each such proceeding, state—

- a. The identity of the federal, state, or local authority conducting the proceeding;
- b. The caption or other identifying information of the proceeding;
- c. The date that the firm or a partner or officer of the firm first became aware of the proceeding;
- d. The firm's understanding of the current status of the proceeding; and
- e. The conduct of the firm and the firm's associated persons that the proceeding addresses.

**PART III—CERTIFICATION OF NONPARTICIPATION IN AUDITS**Item 3.1 Statement of Nonparticipation in *Audits*

Furnish a statement, dated and signed on behalf of the firm by an authorized partner or officer of the firm, in the following form—

On behalf of [name of firm], I certify that [name of firm] is not currently, and will not during the pendency of its request for leave to withdraw be, engaged in the preparation or issuance of, or playing a substantial role in the preparation or furnishing of, an audit report, other than to issue a consent to the use of an audit report for a prior period.

Note: Other than the insertion of the name of the firm the statement must be in the exact words contained in this instruction.

**Part IV—REASONS FOR SEEKING LEAVE TO WITHDRAW (Optional)**

## Item 4.1 Description of Reasons for Seeking Leave to Withdraw

Describe, if you choose to do so, the reason or reasons that the firm seeks leave to withdraw from registration.

**PART V—SIGNATURE OF FIRM SEEKING LEAVE TO WITHDRAW**

## Item 5.1 Signature of Authorized Partner or Officer

The request for leave to withdraw from registration must be signed on behalf of the firm by an authorized partner or officer of the firm. The signer must certify that he or she has reviewed the application; that the application is, based on the signer's knowledge, complete and does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statement made, in light of the circumstances under which such statements were made, not misleading, and that the signer is authorized to execute the application on behalf of the firm. The signature must be accompanied by the title of the signer and the date of the signature.

**FORM 2—ANNUAL REPORT FORM**GENERAL INSTRUCTIONS

1. Submission of this Report. A *registered public accounting firm* must use this Form to file with the *Board* the annual report required by Section 102(d) of the *Act* and Rule 2200 and to file any amendments to an annual report. Unless otherwise directed by the *Board*, the Firm must file this Form, and all exhibits to this Form, electronically with the *Board* through the *Board's* Web-based system.
2. Defined Terms. The definitions in the *Board's rules* apply to this Form. Italicized terms in the instructions to this Form are defined in the *Board's rules*. In addition, as used in the instructions to this Form, the term "the Firm" means the *registered public accounting firm* that is filing this Form with the *Board*.
3. When Report is Considered Filed. Annual reports on this Form are required to be filed each year on or before June 30, subject to the qualification in Rule 2201 concerning any firm that has its application for registration approved by the *Board* in the period between and including April 1 and June 30. An annual report is considered filed when the Firm has submitted to the *Board* a Form 2 in accordance with Rule 2200 that includes the signed certification required in Part X of Form 2.
4. Period Covered by this Report. Annual reports on this Form shall cover a 12-month period from April 1 to March 31, subject to the qualification in Part VIII of Form 2 relating to the first annual report filed by a firm that becomes registered after December 31, 2009. In the instructions to this Form, this is the period referred to as the "reporting period."
5. Amendments to this Report. Amendments shall not be filed to update information in a filed Form 2 that was correct at the time the Form was filed, but only to correct information that was incorrect at the time the Form was filed or to provide information that was omitted from the Form and was required to be provided at the time the Form was filed. When filing a Form 2 to amend an earlier filed Form 2, the Firm must supply not only the corrected or supplemental information, but must include in the amended

Form 2 all information, affirmations, and certifications that were required to be included in the original Form 2. The Firm may access the originally filed Form 2 through the *Board's* Web-based system and make the appropriate amendments without needing to re-enter all other information.

Note: The *Board* will designate an amendment to an annual report as a report on "Form 2/A."

6. *Rules Governing this Report.* In addition to these instructions, the *rules* contained in Part 2 of Section 2 of the *Board's rules* govern this Form. Please read these *rules* and the instructions carefully before completing this Form.
7. *Requests for Confidential Treatment.* The Firm may, by marking the Form in accordance with the instructions provided, request confidential treatment of any information submitted in Part VI, Part VII, or Exhibit 99.3 of this Form that has not otherwise been publicly disclosed and that either contains information reasonably identified by the Firm as proprietary information or that is protected from public disclosure by applicable laws related to confidentiality of proprietary, personal, or other information. *See* Rule 2300. *Foreign registered public accounting firms* may also request confidential treatment for Item 3.2 and Exhibit 3.2, though U.S. firms may not do so. If the Firm requests confidential treatment, it must identify the information in Part VI, Part VII, or Exhibit 99.3 (or, for a *foreign registered public accounting firm*, Item 3.2 and Exhibit 3.2) that it desires to keep confidential, and include, as Exhibit 99.1 to this Form, an exhibit that complies a representation that, to the Firm's knowledge, the information for which confidential treatment is requested has not otherwise been publicly disclosed, and a detailed explanation of the grounds on which the information is considered proprietary or a detailed explanation of the basis for asserting that the information is protected by law from public disclosure and a copy of the specific provision of law that the Firm claims protects the information from public disclosure. If the Firm fails to include Exhibit 99.1, or includes an Exhibit 99.1 that fails to comply with the requirements of Rule 2300(c)(2)-, the request for confidential treatment may be denied solely on the basis of the failure. The Board will normally grant confidential treatment requests for information concerning non-public disciplinary proceedings. The Board will determine whether or not to grant other confidential treatment requests on a case-by-case basis. If the Firm fails to include Exhibit 99.1, or includes an Exhibit 99.1 that fails to comply with Rule 2300(c)(2), the request for confidential treatment may be denied solely on the basis of that failure. See Rule 2300(c).
8. *Assertions of Conflicts with Non-U.S. Law.* If the Firm is a *foreign registered public accounting firm*, the Firm may, unless otherwise directed by the *Board* pursuant to Rule 2207(e), decline to provide certain information and affirmations required by this Form if the Firm could not provide such information or affirmations without violating non-U.S. law and the Firm proceeds in accordance with Rule 2207. The Firm may withhold responsive information and affirmations on that basis from any Part of the Form other than Parts I, II, and X and Items 3.1.a, 3.1.b, 3.1.d, and 4.1. If the firm

withholds responsive information or affirmations, the Firm must indicate, in accordance with the instructions in the relevant Part of the Form, the particular Items with respect to which the Firm has withheld responsive information or a required affirmation. The Firm may not use the Form to make any general assertion that a particular requirement may conflict with non-U.S. law, but only to indicate that, on the basis of an asserted conflict, the Firm has in fact withheld from this Form required information or a required affirmation.

9. Language. Information submitted as part of this Form, including any exhibit to this Form, must be in the English language.

### **PART I—IDENTITY OF THE FIRM AND CONTACT PERSONS**

In Part I, the Firm should provide information that is current as of the date of the certification in Part X.

#### **Item 1.1 Name of the Firm**

- a. State the legal name of the Firm.
- b. If different than its legal name, state the name or names under which the Firm issues *audit reports*, or issued any *audit report* during the reporting period.
- c. If the Firm's legal name at the beginning of the reporting period was different than the name provided under Item 1.1.a, state that legal name and any other legal name the Firm had during the reporting period. Include the legal name of any *registered public accounting firm* that merged into, or was acquired by, the Firm during the reporting period.

#### **Item 1.2 Contact Information of the Firm**

- a. State the physical address (and, if different, mailing address) of the Firm's headquarters office.
- b. State the telephone number and facsimile number of the Firm's headquarters office. If available, state the Website address of the Firm.

#### **Item 1.3 Primary Contact with the *Board***

State the name, business title, physical business address (and, if different, business mailing address), business telephone number, business facsimile number, and business e-mail address of a partner or authorized officer of the Firm who will serve as the Firm's primary contact with the *Board*, including for purposes of the annual report filed on this Form and any special reports filed on Form 3.

### **PART II—GENERAL INFORMATION CONCERNING THIS REPORT**

#### **Item 2.1 Reporting Period**

State the reporting period covered by this report.

Note: The reporting period, which the Firm should enter in Item 2.1, is the period beginning on April 1 of the year before the year in which the annual report is required to be filed and ending March 31 of the year in which the annual report is required to be filed. That is the period referred to where this Form refers to the "reporting period." Note, however, the special instruction at the beginning of Part VIII concerning the first annual report filed by certain firms.

#### **Item 2.2 Amendments**

If this is an amendment to a report previously filed with the *Board*—

- a. Indicate, by checking the box corresponding to this item, that this is an amendment.

b. Identify the specific Item numbers of this Form (other than this Item 2.2) as to which the Firm's response has changed from that provided in the most recent Form 2 or amended Form 2 filed by the Firm with respect to the reporting period.

### PART III—GENERAL INFORMATION CONCERNING THE FIRM

#### Item 3.1 The Firm's Practice Related to the Registration Requirement

a. Indicate whether the Firm issued any *audit report* with respect to an *issuer* during the reporting period.

b. In the event of an affirmative response to Item 3.1.a, indicate whether the *issuers* with respect to which the Firm issued *audit reports* during the reporting period were limited to employee benefit plans that file reports with the *Commission* on Form 11-K.

c. In the event of a negative response to Item 3.1.a, indicate whether the Firm *played a substantial role in the preparation or furnishing of an audit report* with respect to an *issuer* during the reporting period.

d. Indicate whether the Firm issued any *audit report* with respect to any *broker* or *dealer* during the reporting period.

~~e. In the event of a negative response to both Items Item 3.1.a and 3.1.c, indicate whether, d, indicate whether the Firm *played a substantial role in the preparation or furnishing of an audit report* with respect to a *broker* or *dealer* during the reporting period, the Firm issued any document with respect to financial statements of a non issuer broker dealer in which the Firm either set forth an opinion on the financial statements or asserted that no such opinion can be expressed.~~

#### Item 3.2 Fees Billed to *Issuer Audit* Clients

a. Of the total fees billed by the Firm to all clients for services that were rendered in the reporting period, state the percentage (which may be rounded, but no less specifically than to the nearest five percent) attributable to fees billed to *issuer audit* clients for—

1. *Audit services*;
2. *Other accounting services*;
3. *Tax services*; and
4. *Non-audit services*.

b. Indicate, by checking the appropriate box, which of the following two methods the Firm used to calculate the percentages reported in Item 3.2.a—

1. The Firm used as a denominator the total fees billed to all clients for services rendered during the reporting period and used as numerators (for each of the four categories) total fees billed to *issuer audit* clients for the relevant services rendered during the reporting period.
2. The Firm used as a denominator the total fees billed to all clients in the Firm's fiscal year that ended during the reporting period and used as numerators (for each of the four categories) total *issuer audit* client fees as determined by reference to the fee amounts disclosed to the *Commission* by those clients for each client's fiscal year that ended during the reporting period (including, for clients who have not made the required *Commission* filings, the fee amounts required to be disclosed).

c. If the Firm has used a reasonable method to estimate the components of the calculations described in Item 3.2.b, rather than using the specific data, check

this box and attach Exhibit 3.2 briefly describing the reasons for doing so and the methodology used in making those estimates.

Note: In responding to Item 3.2, careful attention should be paid to the definitions of the italicized terms, which are found in *Board Rules* 1001(i)(iii) (*issuer*), 1001(a)(v) (*audit*), 1001(a)(vii) (*audit services*), 1001(o)(i) (*other accounting services*), 1001(t)(i) (*tax services*), and 1001(n)(ii) (*non-audit services*). The definitions of the four categories of services correspond to the *Commission's* descriptions of the services for which an *issuer* must disclose fees paid to its auditor. Compare the descriptions of services in Item 9(e) of *Commission* Schedule 14A (17 C.F.R. § 240.14a-101) under the headings "Audit Fees," "Audit-Related Fees," "Tax Fees," and "All Other Fees" with, respectively, the *Board's* definitions of *Audit Services*, *Other Accounting Services*, *Tax Services*, and *Non-Audit Services*.

**Item 3.3 *Foreign Registered Public Accounting Firm's Designation of U.S. Agent***

- a. If the Firm is a foreign registered public accounting firm that has designated to the Commission or Board an agent in the United States upon whom the Commission or the Board may serve any request to the Firm under Section 106 of the Act or any process, pleading, or other papers in any action against the Firm to enforce Section 106 of the Act, check here and enter the name and address of the designated agent.
- b. If the Firm is a foreign registered public accounting firm and did not check the box for Item 3.3.a, indicate by checking "yes" or "no" whether the Firm has, since July 21, 2010, (1) performed material services upon which another registered public accounting firm relied in the conduct of an audit or interim review, (2) issued an audit report, (3) performed audit work, or (4) performed interim reviews.

Note: If the Firm checks "yes" for Item 3.3.b, the Firm must immediately provide to the Commission or the Board the designation required by Section 106(d)(2) of the Act.

Note: If the Firm checks "no" for Item 3.3.b, and the Firm later performs any of the activities identified in Section 106(d)(2) of the Act, the Firm must immediately provide to the Commission or the Board the designation required by Section 106(d)(2) of the Act.

Note: If the Firm has previously designated an agent for service to the Commission or Board, the Firm must immediately communicate any change in the name or address of the agent to the Commission or Board.

**PART IV—AUDIT CLIENTS AND AUDIT REPORTS**

**Item 4.1 *Audit Reports Issued by the Firm for Issuers***

a. Provide the following information concerning each *issuer* for which the Firm issued any *audit report(s)* during the reporting period—

1. The *issuer's* name;
2. The *issuer's* CIK number, if any; and
3. The date(s) of the *audit report(s)*.

b. If the Firm identified any *issuers* in response to Item 4.1.a., indicate, by checking the box corresponding to the appropriate range set out below, the total number of Firm personnel who exercised the authority to sign the Firm's name to an *audit report*, for an *issuer*, during the reporting period. If the Firm

checks the box indicating that the number is in the range of 1-9, provide the exact number.

- 1-9
- 10-25
- 26-50
- 51-100
- 101-200
- More than 200

Note: In responding to Item 4.1, ~~careful attention should be paid to the definition of *audit report*~~, which is found in Rule 1001(a)(vi) of the *Board's Rules*, and which does not encompass reports prepared for entities that are not *issuers*, as that term is defined in Rule 1001(i)(iii). Careful 4.1(a), careful attention should ~~also~~ be paid to the definition of *issuer*. The Firm should not, for example, overlook the fact that investment companies may be *issuers*, or that employee benefit plans that file reports on *Commission Form 11-K* are *issuers*.

Note: In responding to Item 4.1, do not list any *issuer* more than once. For each *issuer* provide in Item 4.1.a.3 the *audit report* dates (as described in AU 530, *Dating of the Independent Auditor's Report*) of all such *audit reports* for that *issuer*, including each date of any dual-dated *audit report*.

Note: In responding to Item 4.1.a.3, it is not necessary to provide the date of any consent to an *issuer's* use of an *audit report* previously issued for that *issuer*,

except that, if such consents constitute the only instances of the Firm issuing *audit reports* for a particular *issuer* during the reporting period, the Firm should include that *issuer* in Item 4.1 and include the dates of such consents and indicate whether the dates provided correspond to the issuance of a consent to the use of a previously-issued *audit report* in Item 4.1.a.3.

Item 4.2 *Issuer Audit Reports With Respect to Which the Firm Played a Substantial Role* during the Reporting Period

a. If no *issuers* are identified in response to Item 4.1.a, but the Firm *played a substantial role in the preparation or furnishing of an audit report for an issuer* that was issued during the reporting period, provide the following information concerning each *issuer* with respect to which the Firm did so—

1. The *issuer's* name;
2. The *issuer's* CIK number, if any;
3. The name of the *registered public accounting firm* that issued the *audit report(s)*;
4. The end date(s) of the fiscal period(s) covered by the financial statements that were the subject of the *audit report(s)*; and
5. A description of the substantial role played by the Firm with respect to the *audit report(s)*.

Note: If the Firm identifies any *issuer* in response to Item 4.1, the Firm need not respond to Item 4.2.

Note: In responding to Item 4.2, do not list any *issuer* more than once.

Item 4.3 *Audit Reports Issued by the Firm for Brokers or Dealers*

a. Provide the following information concerning each *audit report* issued for a *broker* or *dealer* during the reporting period—

1. The *broker's* or *dealer's* name;

2. The broker's or dealer's CRD number, and CIK number, if any; and
3. The date of the audit report(s).

b. If the Firm identified any brokers or dealers in response to Item 4.3.a., indicate, by checking the box corresponding to the appropriate range set out below, the total number of Firm personnel who exercised the authority to sign the Firm's name to an audit report, for a broker or dealer, during the reporting period. If the Firm checks the box indicating that the number is in the range of 1-9, provide the exact number.

- 1-9
- 10-25
- 26-50
- 51-100
- 101-200
- More than 200

Note: For each audit report provide in Item 4.3.a.3 the audit report dates (as described in AU 530, Dating of the Independent Auditor's Report) including each date of any dual-dated audit report.

**Item 4.4 Broker or Dealer Audit Reports With Respect to Which the Firm Played a Substantial Role during the Reporting Period**

If no brokers or dealers are identified in response to Item 4.3.a, but the Firm played a substantial role in the preparation or furnishing of an audit report for a broker or dealer that was issued during the reporting period, provide the following information concerning each broker or dealer with respect to which the Firm did so—

- a. The broker's or dealer's name;
- b. The broker's or dealer's CRD number, and CIK number, if any;
- c. The name of the registered public accounting firm that issued the audit report(s);
- d. The end date(s) of the fiscal period(s) covered by the financial statements that were the subject of the audit report(s); and
- e. A description of the substantial role played by the Firm with respect to the audit report(s).

Note: If the Firm identifies any broker or dealer in response to Item 4.3, the Firm need not respond to Item 4.4.

Note: In responding to Item 4.4, do not list any broker or dealer more than once.

**PART V—OFFICES AND AFFILIATIONS**

In Part V, the Firm should provide information that is current as of the last day of the reporting period.

**Item 5.1 Firm's Offices**

List the physical address and, if different, the mailing address, of each of the Firm's offices.

**Item 5.2 Audit-related Memberships, Affiliations, or Similar Arrangements**

- a. State whether the Firm has any:
  1. Membership or affiliation in or with any network, arrangement, alliance, partnership or association that licenses or authorizes audit procedures or manuals or related materials, or the use of

a name in connection with the provision of *audit services* or accounting services;

2. Membership or affiliation in or with any network, arrangement, alliance, partnership or association that markets or sells *audit services* or through which joint *audits* are conducted; or
3. Arrangement, whether by contract or otherwise, with another entity through or from which the Firm employs or leases personnel to perform *audit services*.

b. If the Firm provides an affirmative response to Item 5.2.a, identify, by name and address, the entity with which the Firm has each such relationship, and provide a brief description of each such relationship.

Note: Item 5.2.b does not require information concerning every other entity that is part of the network, arrangement, alliance, partnership or association, but only information concerning the network, arrangement, alliance, partnership, or association itself, or the principal entity through which it operates.

## PART VI—PERSONNEL

In Part VI, the Firm should provide information that is current as of the last day of the reporting period.

### Item 6.1 Number of Firm Personnel

Provide the following numerical totals—Total number of the Firm's *accountants*;

Total number of the Firm's certified public accountants (include in this number all *accountants* employed by the Firm with comparable licenses from non-U.S. jurisdictions); and

Total number of the Firm's personnel.

## PART VII—CERTAIN RELATIONSHIPS

### Item 7.1 Individuals with Certain Disciplinary or Other Histories

a. Other than a relationship required to be reported in Item ~~4.15.1~~ of Form 3, and only if the Firm has not previously identified the individual and the sanction or *Commission* order on Form 1, Form 2, or Form 3, state whether, as of the end of the reporting period, the Firm has any employee, partner, shareholder, principal, member, or owner who was the subject of a *Board* disciplinary sanction or a *Commission* order under Rule 102(e) of the *Commission's* Rules of Practice, entered within the five years preceding the end of the reporting period and without that sanction or order having been vacated on review or appeal, and who provided at least ten hours of *audit services* for any *issuer, broker, or dealer* during the reporting period.

b. If the Firm provides an affirmative response to Item 7.1.a, provide—

1. The name of each such individual;
2. A description of the nature of the relationship;
3. The date that the Firm entered into the relationship; and
4. The date of the relevant order and an indication whether it was a *Board* order or a *Commission* order.

### Item 7.2 Entities with Certain Disciplinary or Other Histories

a. Other than a relationship required to be reported in Item ~~4.25.2~~ of Form 3, and only if the Firm has not previously reported the information on Form 1, Form 2, or Form 3, state whether, as of the end of the reporting period, the Firm was owned or partly owned by an entity that was the subject of (a) a *Board*

disciplinary sanction entered within the five years preceding the end of the reporting period, which has not been vacated on review or appeal, suspending or revoking that entity's registration or disapproving that entity's application for registration, or (b) a *Commission* order under Rule 102(e) of the *Commission's* Rules of Practice entered within the five years preceding the end of the reporting period, which has not been vacated on appeal, suspending or denying the privilege of appearing or practicing before the *Commission*.

b. If the Firm provides an affirmative response to Item 7.2.a, provide—

1. The name of each such entity;
2. A description of the nature of the relationship;
3. The date that the Firm entered into the relationship; and
4. The date of the relevant order and an indication whether it was a *Board* order or a *Commission* order.

#### Item 7.3 Certain Arrangements to Receive Consulting or Other Professional Services

a. Other than a relationship required to be reported in Item ~~4.35.3~~ 4.35.3 of Form 3, state whether the Firm received, or entered into a contractual or other arrangement to receive, from any individual or entity meeting the criteria described in Items 7.1.a. or 7.2.a, consulting or other professional services related to the Firm's *audit* practice or related to services the Firm provides to *issuer*, *broker*, or *dealer audit* clients.

b. If the Firm provides an affirmative response to Item 7.3.a, provide—

1. The name of each such individual or entity;
2. A description of the nature of the relationship;
3. The date that the Firm entered into the relationship;
4. A description of the services provided or to be provided to the Firm by the individual or entity; and
5. The date of the relevant order and an indication whether it was a *Board* order or a *Commission* order.

### **PART VIII—ACQUISITION OF ANOTHER *PUBLIC ACCOUNTING FIRM* OR SUBSTANTIAL PORTIONS OF ANOTHER *PUBLIC ACCOUNTING FIRM'S* PERSONNEL**

If the Firm became registered on or after December 31, 2009, the first annual report that the Firm files must provide this information for the period running from the date used by the Firm for purposes of General Instruction 9 of Form 1 (regardless of whether that date was before or after the beginning of the reporting period) through March 31 of the year in which the annual report is required to be filed.

#### Item 8.1 Acquisition of Another *Public Accounting Firm* or Substantial Portions of Another *Public Accounting Firm's* Personnel

a. State whether the Firm acquired another *public accounting firm*.

b. If the Firm provides an affirmative response to Item 8.1.a, provide the name(s) of the *public accounting firm(s)* that the Firm acquired.

c. State whether the Firm, without acquiring another *public accounting firm*, took on as employees, partners, shareholders, principals, members, or owners 75% or more of the persons who, as of the beginning of the reporting period, were the partners, shareholders, principals, members, or owners of another *public accounting firm*.

d. If the Firm provides an affirmative response to Item 8.1.c, provide the name of the other *public accounting firm* and the number of the other *public accounting firm's* former partners, shareholders, principals, members, owners, and *accountants* that joined the Firm.

## PART IX—AFFIRMATION OF CONSENT

Item 9.1 Affirmation of Understanding of, and Compliance with, Consent Requirements

Whether or not the Firm, in applying for registration with the *Board*, provided the signed statement required by Item 8.1 of Form 1, affirm that—

a. The Firm has consented to cooperate in and comply with any request for testimony or the production of documents made by the *Board* in furtherance of its authority and responsibilities under the Sarbanes-Oxley Act of 2002;

b. The Firm has secured from each of its *associated persons*, and agrees to enforce as a condition of each such person's continued employment by or other association with the Firm, a consent indicating that the *associated person* consents to cooperate in and comply with any request for testimony or the production of documents made by the *Board* in furtherance of its authority under the Sarbanes-Oxley Act of 2002, and that the *associated person* understands and agrees that such consent is a condition of his or her continued employment by or other association with the Firm; and

c. The Firm understands and agrees that cooperation and compliance, as described in Item 9.1.a, and the securing and enforcing of consents from its *associated persons* as described in Item 9.1.b, is a condition to the continuing effectiveness of the registration of the Firm with the *Board*.

Note 1: The affirmation in Item 9.1.b shall not be understood to include an affirmation that the Firm has secured such consents from any *associated person* that is a *registered public accounting firm*.

Note 2: The affirmation in Item 9.1.b shall not be understood to include an affirmation that the Firm has secured such consents from any *associated person* that is a *foreign public accounting firm* in circumstances where that *associated person* asserts that non-U.S. law prohibits it from providing the consent, so long as the Firm possesses in its files documents relating to the *associated person's* assertion about non-U.S. law that would be sufficient to satisfy the requirements of subparagraphs (2) through (4) of Rule 2207(c) if that *associated person* were a *registered public accounting firm* filing a Form 2 and withholding this affirmation. This exception to the affirmation in Item 9.1.b does not relieve the Firm of its obligation to enforce cooperation and compliance with *Board* demands by any such *associated person* as a condition of continued association with the Firm.

Note 3: If the Firm is a *foreign registered public accounting firm*, the affirmations in Item 9.1 that relate to *associated persons* shall be understood to encompass every *accountant* who is a proprietor, partner, principal, shareholder, officer, or *audit* manager of the Firm and who provided at least ten hours of *audit services* for any *issuer* during the reporting period.

## PART X—CERTIFICATION OF THE FIRM

Item 10.1 Signature of Partner or Authorized Officer

This Form must be signed on behalf of the Firm by an authorized partner or officer of the Firm including, in accordance with Rule 2204, both a signature that

appears in typed form within the electronic submission and a corresponding manual signature retained by the Firm. The signer must certify that—

- a. the signer is authorized to sign this Form on behalf of the Firm;
- b. the signer has reviewed this Form;
- c. based on the signer's knowledge, the Firm has filed a special report on Form 3 with respect to each event that occurred before the end of the reporting period and for which a special report on Form 3 is required under the *Board's rules*;
- d. based on the signer's knowledge, this Form does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading; and
- e. either—
  1. based on the signer's knowledge, the Firm has not failed to include in this Form any information or affirmation that is required by the instructions to this Form, or
  2. based on the signer's knowledge—
    - (A) the Firm is a *foreign registered public accounting firm* and has not failed to include in this Form any information or affirmation that is required by the instructions to this Form except for information or affirmations that the Firm asserts it cannot provide to the *Board* on this Form 2 without violating non-U.S. law;
    - (B) with respect to any such withheld information or affirmation, the Firm has satisfied the requirements of PCAOB Rule 2207(b) and has in its possession the materials required by PCAOB Rule 2207(c); and
    - (C) the Firm has indicated, in accordance with the instructions to this Form, each Item of this Form with respect to which the Firm has withheld any required information or affirmation.

The signature must be accompanied by the signer's title, the capacity in which the signer signed the Form, the date of signature, and the signer's business mailing address, business telephone number, business facsimile number, and business e-mail address.

## **PART XI—EXHIBITS**

To the extent applicable under the foregoing instructions or the *Board's rules*, each annual report must be accompanied by the following exhibits:

Exhibit 3.2 Description of Methodology Used to Estimate Components of Calculation in Item 3.2 and Reasons for Using Estimates

Exhibit 99.1 Request for Confidential Treatment

Exhibit 99.3 Materials Required by Rule 2207(c)(2)–(4)—*Submit Only as an Exhibit to an Amended Form 2 in Response to a Request Made Pursuant to Rule 2207(d)*

## **FORM 3—SPECIAL REPORT FORM**

### GENERAL INSTRUCTIONS

1. Submission of this Report. Effective December 31, 2009, a *registered public accounting firm* must use this Form to file special reports with the *Board* pursuant to Section 102(d) of the *Act* and Rule 2203 and to file any amendments to a special report. Unless otherwise directed by the *Board*, the Firm must file this Form, and

all exhibits to this Form, electronically with the *Board* through the *Board's* Web-based system.

2. **Defined Terms.** The definitions in the *Board's rules* apply to this Form. Italicized terms in the instructions to this Form are defined in the *Board's rules*. In addition, as used in the instructions to this Form, the term "the Firm" means the *registered public accounting firm* that is filing this Form with the *Board*.
3. **When this Report is Required and When It is Considered Filed.** Upon the occurrence of any event specified in Part II of this Form, the Firm must report the event on this Form by following the instructions to this Form. With respect to events that occur on or after December 31, 2009 and while the Firm is registered, the Firm must file the Form no later than thirty days after the occurrence of the event reported. Certain additional requirements apply, but they vary depending on whether a firm was registered as of December 31, 2009. A firm that becomes registered after December 31, 2009, must, within thirty days of receiving notice of *Board* approval of its registration application, file this Form to report any reportable events that occurred in a specified period before approval of the firm's application for registration. See Rule 2203(a)(2). A firm that was registered as of December 31, 2009, must, by January 30, 2010, file this Form to report certain additional information that is current as of December 31, 2009. See Rule 2203(a)(3) and General Instruction No. 4 below. A special report shall be deemed to be filed on the date that the Firm submits a Form 3 in accordance with Rule 2203 that includes the signed certification required in Part VIII of Form 3.
4. **Required Filing to Bring Current Certain Information for Firms Registered as of December 31, 2009.** If the Firm is registered as of December 31, 2009, the Firm must file a special report on this Form no later than January 30, 2010, to report the information specified below, to the extent that it has not been reported on the Firm's Form 1 filing. The Firm must make this Form 3 filing to report the following information even if the Firm has previously informally disclosed the information to the *Board* or its staff—
  - a. Information responsive to Items 2.4 through 2.9 and Item 4.1 if (1) the proceeding is pending as of December 31, 2009, and (2) the defendants or respondents as of that date include either the Firm or a person who is a partner, shareholder, principal, owner, member, or *audit* manager of the Firm as of that date;
  - b. Information responsive to Items 2.10 and 4.2 if (1) the conclusion of a proceeding as to any party specified there occurred after the date used by the firm for purposes of General Instruction 9 to Form 1 and before December 31, 2009, and (2) the proceeding resulted in any conviction of, judgment against, imposition of any liability or sanction on, or *Commission* Rule 102(e) order against the Firm or any person who is a partner, shareholder, principal, owner, member, or *audit* manager of the Firm as of December 31, 2009;
  - c. Information responsive to Items 2.11 and 4.3 if the Firm is the subject of a petition or proceeding described there as of December 31, 2009;

- d. Information responsive to Items 2.12 through 2.14 and Part V if (1) the relationship commenced after the date used by the firm for purposes of General Instruction 9 to Form 1, (2) the specified disciplinary sanction or *Commission* Rule 102(e) order continued to be in effect as of December 31, 2009, and (3) the specified relationship continues to exist as of December 31, 2009;
  - e. Information responsive to Items 2.15 and 6.1 if (1) the loss of authorization relates to a jurisdiction or authority identified in Item 1.7 of the Firm's Form 1 and, (2) as of December 31, 2009, the Firm continues to lack the specified authorization in that jurisdiction;
  - f. Information responsive to Items 2.16 and 6.2 if the license or certification is in effect as of December 31, 2009; and
  - g. Information responsive to Items 2.17 and 2.18 and Part VII that is current as of December 31, 2009 to the extent that it differs from the corresponding information provided on the Firm's Form 1.
5. Completing the Form. A firm filing this Form must always complete Parts I, II, and VIII of this Form. Parts III through VII should be completed to the extent applicable, as described more fully in the instructions to Part II of the Form.
  6. Amendments to this Report. Amendments shall not be filed to update information in a filed Form 3 that was correct at the time the Form was filed, but only to correct information that was incorrect at the time the Form was filed or to provide information that was omitted from the Form and was required to be provided at the time the Form was filed. When filing a Form 3 to amend an earlier filed Form 3, the Firm must supply not only the corrected or supplemental information, but must include in the amended Form 3 all information, affirmations, and certifications that were required to be included in the original Form 3. The Firm may access the originally filed Form 3 through the *Board's* Web-based system and make the appropriate amendments without needing to re-enter all other information.

Note: The *Board* will designate an amendment to a special report as a report on "Form 3/A."

7. *Rules* Governing this Report. In addition to these instructions, the *rules* contained in Part 2 of Section 2 of the *Board's rules* govern this Form. Please read these *rules* and the instructions carefully before completing this Form.
8. Requests for Confidential Treatment. The Firm may, by marking the Form in accordance with the instructions provided, request confidential treatment of any information submitted in Item 3.1.c, Part IV, Part V, Item 6.1.d, Item 7.1.d, or Exhibit 99.3 of this Form that has not otherwise been publicly disclosed and that either contains information reasonably identified by the Firm as proprietary information or that is protected from public disclosure by applicable laws related to confidentiality of proprietary, personal, or other information. See Rule 2300. If the Firm requests confidential treatment, it must identify the information in Item 3.1.c, Part IV, Part V, Item 6.1.d, Item 7.1.d, or Exhibit 99.3 that it desires to keep confidential, and include, as Exhibit

99.1 to this Form, ~~an exhibit~~ a representation that, to the Firm's knowledge, the information for which confidential treatment is requested has not otherwise been publicly disclosed, and a detailed explanation of the grounds on which the information is considered proprietary or a detailed explanation of the basis for asserting that the information is protected by law from public disclosure and a copy of the specific provision of law that the Firm claims protects the information from public disclosure. If the Firm fails to include Exhibit 99.1, or includes an Exhibit 99.1 that ~~complies~~ fails to comply with the requirements of Rule 2300(c)(2), the request for confidential treatment may be denied solely on the basis of the failure. The Board will normally grant confidential treatment requests for information concerning non-public disciplinary proceedings. The Board will determine whether or not to grant other confidential treatment requests on a case-by-case basis. ~~If the Firm fails to include Exhibit 99.1, or includes an Exhibit 99.1 that fails to comply with Rule 2300(c)(2), the request for confidential treatment may be denied solely on the basis of that failure. See Rule 2300(c).~~

9. Assertions of Conflicts with Non-U.S. Law. If the Firm is a *foreign registered public accounting firm*, the Firm may, unless otherwise directed by the Board pursuant to Rule 2207(e), decline to provide certain information required by this Form if the Firm could not provide such information without violating non-U.S. law and the Firm proceeds in accordance with Rule 2207. The Firm may withhold responsive information on that basis from any Part of the Form other than Parts I, II, and VIII, and Items 7.1.a, 7.1.b, 7.1.c, and 7.2. If the firm withholds responsive information, the Firm must indicate, in accordance with the instructions in the relevant Part of the Form, the particular Items with respect to which the Firm has withheld responsive information. The Firm may not use the Form to make any general assertion that a particular requirement may conflict with non-U.S. law, but only to indicate that, on the basis of an asserted conflict, the Firm has in fact withheld from this Form required information.
10. Language. Information submitted as part of this Form, including any exhibit to this Form, must be in the English language.

## **PART I—IDENTITY OF THE FIRM**

### Item 1.1 Name of Firm

- a. State the legal name of the Firm.

Note: If the Firm is filing this Form 3 to report that the Firm's legal name has changed, the name entered in Item 1.1.a should be the Firm's legal name before the name change that is being reported. The Firm's new name should be included in the response to Item 1.1.c.

- b. If different than its legal name, state the name or names under which the Firm issues *audit reports*.
- c. If the Firm is filing this Form 3 to report that the Firm's legal name has changed, state the new legal name of the Firm.

## **PART II—REASON FOR FILING THIS REPORT**

Indicate, by checking the relevant box(es) from among Items 2.1 through 2.18 below, the event(s) being reported on this Form. More than one event may be

reported in the same Form 3 filing. For each event indicated below, proceed to the Parts and Items of this Form indicated parenthetically for the specific event being reported and provide the information therein described. Provide responses only to those Parts and Items of the Form specifically indicated for the event or events that the Firm identifies in this Part II as an event being reported on this Form. (For example, if the Form is being filed solely to report that the Firm has changed its name, check the box for Item 2.17 in this Part of the Form, and complete only Item 7.1 and Part VIII of the Form.) If the Firm is filing this Form to amend a previous filing, the Firm also should complete Item 2.19.

Note: In Items 2.4 through 2.11 and Item 2.15, the reportable event is described in terms of whether the Firm "has become aware" of certain facts. For these purposes, the Firm is deemed to have become aware of the relevant facts on the date that any partner, shareholder, principal, owner, or member of the Firm first becomes aware of the facts.

### *Audit Reports*

Item 2.1 The Firm has withdrawn an *audit report* on an issuer's financial statements, or withdrawn its consent to the use of its name in a report, document, or written communication containing an *issuer's* financial statements, and the *issuer* has failed to comply with a *Commission* requirement to make a report concerning the matter pursuant to Item 4.02 of *Commission* Form 8-K. (Complete Item 3.1 and Part VIII.)

Item 2.1-C The Firm has resigned, declined to stand for re-appointment, or been dismissed from an audit engagement as principal auditor (or an auditor upon whom the issuer's principal auditor expressed reliance in its report regarding a significant subsidiary), and the issuer has failed to comply with a Commission requirement to make a report concerning the matter pursuant to Item 4.01 of Commission Form 8-K. (Complete Item 3.2 and Part VIII.)

Item 2.2 The Firm has issued *audit reports* with respect to more than 100 *issuers* in a calendar year immediately following a calendar year in which the Firm did not issue *audit reports* with respect to more than 100 *issuers*. (Complete Part VIII.)

Item 2.3 The Firm has issued *audit reports* with respect to 100 or fewer *issuers* in a completed calendar year immediately following a calendar year in which the Firm issued *audit reports* with respect to more than 100 *issuers*. (Complete Part VIII.)

### Certain Legal Proceedings

Item 2.4 The Firm has become aware that the Firm has become a defendant in a criminal proceeding prosecuted by a governmental criminal law enforcement authority. (Complete Item 4.1 and Part VIII.)

Item 2.5 The Firm has become aware that, in a matter arising out of his or her conduct in the course of providing *audit services* or *other accounting services* to an *issuer*, broker, dealer, a partner, shareholder, principal, owner, member, or *audit* manager of the Firm has become a defendant in a criminal proceeding prosecuted by a governmental criminal law enforcement authority. (Complete Item 4.1 and Part VIII.)

Item 2.6 The Firm has become aware that a partner, shareholder, principal, owner, member, or *audit* manager of the Firm who provided at least ten hours of *audit services* for any *issuer, broker, or dealer* during the Firm's current fiscal year or its most recently completed fiscal year has become a defendant in a criminal proceeding prosecuted by a governmental criminal law enforcement authority and is charged with fraud, embezzlement, forgery, extortion, bribery,

obstruction of justice, perjury, or false statements; or charged with any crime arising out of alleged conduct relating to accounting, auditing, securities, banking, commodities, taxation, consumer protection, or insurance. (Complete Item 4.1 and Part VIII.)

Item 2.7 The Firm has become aware that, in a matter arising out of the Firm's conduct in the course of providing professional services for a client, the Firm has become a defendant or respondent in a civil or alternative dispute resolution proceeding initiated by a governmental entity or in an administrative or disciplinary proceeding other than a *Board* disciplinary proceeding. (Complete Item 4.1 and Part VIII.)

Item 2.8 The Firm has become aware that, in a matter arising out of his or her conduct in the course of providing *audit services* or *other accounting services* to an *issuer, broker, dealer*, a partner, shareholder, principal, owner, member, or *audit* manager of the Firm has become a defendant or respondent in a civil or alternative dispute resolution proceeding initiated by a governmental entity or in an administrative or disciplinary proceeding other than a *Board* disciplinary proceeding. (Complete Item 4.1 and Part VIII.)

Item 2.9 The Firm has become aware that, in a matter arising out of his or her conduct in the course of providing professional services for a client, a partner, shareholder, principal, owner, member, or *audit* manager of the Firm who provided at least ten hours of *audit services* for any *issuer, broker, or dealer* during the Firm's current fiscal year or its most recently completed fiscal year has become a defendant or respondent in a civil or alternative dispute resolution proceeding initiated by a governmental entity or in an administrative or disciplinary proceeding other than a *Board* disciplinary proceeding. (Complete Item 4.1 and Part VIII.)

Item 2.10 The Firm has become aware that a proceeding meeting the criteria described in Items 2.4, 2.5, 2.6, 2.7, 2.8, or 2.9, above has been concluded as to the Firm or a partner, shareholder, principal, owner, member, or *audit* manager of the Firm (whether by dismissal, acceptance of pleas, through consents or settlement agreements, the entry of a final judgment, or otherwise). (Complete Item 4.2 and Part VIII.)

Item 2.11 The Firm has become aware that the Firm, or the parent or a subsidiary of the Firm, has become the subject of a petition filed in a bankruptcy court, or has otherwise become the subject of a proceeding in which a court or governmental agency (or, in a non-U.S. jurisdiction, a person or entity performing a comparable function) has assumed jurisdiction over substantially all of the assets or business of the Firm or its parent or a subsidiary. (Complete Item 4.3 and Part VIII.)

#### Certain Relationships

Item 2.12 The Firm has taken on as an employee, partner, shareholder, principal, or member, or has otherwise become owned or partly owned by, a person who is currently the subject of (a) a *Board* disciplinary sanction suspending or barring the person from being an *associated person of a registered public accounting firm*, or (b) a *Commission* order under Rule 102(c) of the *Commission's Rules of Practice* suspending or denying the privilege of appearing or practicing before the *Commission*, or (c) a court-ordered injunction prohibiting appearance or practice before the *Commission*. (Complete Item 5.1 and Part VIII.)

Item 2.13 The Firm has become owned or partly owned by an entity that is currently the subject of (a) a *Board* disciplinary sanction suspending or revoking that entity's registration or disapproving that entity's application for registration, or (b) a *Commission* order under Rule 102(c) of the *Commission's Rules of Practice* suspending or denying the privilege of appearing or practicing before

the *Commission*, or (c) a court-ordered injunction prohibiting appearance or practice before the *Commission*. (Complete Item 5.2 and Part VIII.)

Item 2.14 The Firm has entered into a contractual or other arrangement to receive consulting or other professional services from a person or entity meeting any of the criteria described in Items 2.12 or 2.13 above. (Complete Item 5.3 and Part VIII.)

#### Licenses and Certifications

Item 2.15 The Firm has become aware that its authorization to engage in the business of auditing or accounting in a particular jurisdiction has ceased to be effective or has become subject to conditions or contingencies other than conditions or contingencies imposed on all firms engaged in the business of auditing or accounting in the jurisdiction. (Complete Item 6.1 and Part VIII.)

Item 2.16 The Firm has obtained a license or certification authorizing the Firm to engage in the business of auditing or accounting and which has not been identified on any Form 1 or Form 3 previously filed by the Firm, or there has been a change in a license or certification number identified on a Form 1 or Form 3 previously filed by the Firm. (Complete Item 6.2 and Part VIII.)

#### Changes in the Firm or the Firm's *Board* Contact Person

Item 2.17 The Firm has changed its legal name while otherwise remaining the same legal entity that it was before the name change. (Complete Item 7.1 and Part VIII.)

Item 2.18 There has been a change in the business mailing address, business telephone number, business facsimile number, or business e-mail of the person most recently designated by the Firm (on Form 2, Form 3, or Form 4) as the Firm's primary contact with the *Board*, or the Firm is designating a new person to serve as the primary contact. (Complete Item 7.2 and Part VIII.)

#### Amendment

##### Item 2.19 Amendments

If this is an amendment to a report previously filed with the *Board*—

- a. Indicate, by checking the box corresponding to this item, that this is an amendment.
- b. Identify the specific Item numbers of this Form (other than this Item 2.19) as to which the Firm's response has changed from that provided in the most recent Form 3 or amended Form 3 filed by the Firm with respect to the events reported on this Form.

### **PART III—WITHDRAWN AUDIT REPORTS AND ISSUER AUDITOR CHANGES**

#### Item 3.1 Withdrawn *issuer* audit reports and consents

If the Firm has withdrawn an *audit report* on an issuer's financial statements, or withdrawn its consent to the use of its name in a report, document, or written communication containing an *issuer's* financial statements, and the *issuer* has failed to comply with a *Commission* requirement to make a report concerning the matter pursuant to Item 4.02 of *Commission* Form 8-K, provide—

- a. The *issuer's* name and CIK number, if any;
- b. The date(s) of the *audit report(s)* that the Firm has withdrawn, or to which the Firm's withdrawal of consent relates; and
- c. A description of the reason(s) the Firm has withdrawn the *audit report(s)* or the consent.

Note: The 30-day period in which the Firm must report the event does not begin to run unless and until the *issuer* fails to report on Form 8-K within the time required by the *Commission's* rules. The Firm must then report the event on Form 3 within 30 days of the expiration of the required Form 8-K filing deadline, unless, within that 30-day period, the *issuer* reports on a late-filed Form 8-K.

### Item 3.2 Issuer auditor changes

If the Firm has resigned, declined to stand for re-appointment, or been dismissed from an audit engagement as principal auditor (or an auditor upon whom the issuer's principal auditor expressed reliance in its report regarding a significant subsidiary) and the issuer has failed to comply with a Commission requirement to make a report concerning the matter pursuant to Item 4.01 of Commission Form 8-K, provide—

- a. The issuer's name and CIK number, if any; and
- b. Whether the Firm resigned, declined to stand for re-election, or was dismissed and the date thereof.

## **PART IV—CERTAIN PROCEEDINGS**

### Item 4.1 Criminal, Governmental, Administrative, or Disciplinary Proceedings

If the Firm has indicated in this Form 3 that any of the events described in Items 2.4, 2.5, 2.6, 2.7, 2.8, or 2.9 has occurred, provide the following information with respect to each such event—

- a. The name, filing date, and case or docket number of the proceeding, and the nature of the proceeding, *i.e.*, whether it is a criminal proceeding, a civil or alternative dispute resolution proceeding, or an administrative or disciplinary proceeding.
- b. The name of the court, tribunal, or body in or before which the proceeding was filed.
- c. An indication whether the Firm itself is a defendant or respondent in the proceeding and, if so, the statutes, rules, or legal duties that the firm is alleged to have violated, and a brief description of the firm's alleged conduct in violation of those statutes, rules, or legal duties.
- d. The names of every defendant or respondent who is a partner, shareholder, principal, owner, member, or *audit* manager of the Firm, or who was such either at the time the Firm received notice of the proceeding or at the time of the alleged conduct on which any claim or charge is based, and who provided at least ten hours of *audit services* for any *issuer, broker, or dealer* during the Firm's current fiscal year or its most recent fiscal year; and, as to each such defendant or respondent, the statutes, rules, or legal duties that he or she is alleged to have violated, and a brief description of his or her alleged conduct in violation of those statutes, rules, or legal duties.
- e. The name of any client that was the recipient of the professional services to which any claim or charge in the proceeding relates.

Note: For the purpose of this Part, administrative or disciplinary proceedings include those of the *Commission*; any other federal, *state*, or non-U.S. agency, board, or administrative or licensing authority; and any professional association or body. Investigations that have not resulted in the commencement of a proceeding need not be included.

### Item 4.2 Concluded Criminal, Governmental, Administrative, or Disciplinary Proceedings

If any proceeding meeting the criteria described in Items 2.4, 2.5, 2.6, 2.7, 2.8, or 2.9, including any proceeding reported in Item 4.1, has been concluded as to

the Firm or a partner, shareholder, principal, owner, member, or *audit* manager of the Firm (whether by dismissal, acceptance of pleas, through consents or settlement agreements, the entry of a final judgment, or otherwise), provide—

- a. The name, filing date, and case or docket number of the proceeding, and the nature of the proceeding, *i.e.*, whether it is a criminal proceeding, a civil or alternative dispute resolution proceeding, or an administrative or disciplinary proceeding;
- b. The name of the court, tribunal, or body in or before which the proceeding was filed; and
- c. A brief description of the terms of the conclusion of the proceeding as to the Firm or partner, shareholder, principal, owner, member, or *audit* manager.

#### Item 4.3 Bankruptcy or Receivership

If the Firm, or the parent or a subsidiary thereof, has become the subject of a petition filed in a bankruptcy court, or has otherwise become the subject of a proceeding in which a court or governmental agency (or, in a non-U.S. jurisdiction, a person or entity performing a comparable function) has assumed jurisdiction over substantially all of the assets or business of the Firm or its parent or a subsidiary, provide—

- a. the name of the proceeding;
- b. the name of the court or governmental body;
- c. the date of the filing or of the assumption of jurisdiction; and
- d. the identity of the receiver, fiscal agent or similar officer, if applicable, and the date of his or her appointment.

### PART V—CERTAIN RELATIONSHIPS

#### Item 5.1 New Relationship with Person Subject to Bar or Suspension

If the Firm has taken on as an employee, partner, shareholder, principal, or member, or has otherwise become owned or partly owned by, a person who is currently the subject of (a) a *Board* disciplinary sanction suspending or barring the person from being an *associated person of a registered public accounting firm*, ~~or (b) a *Commission* order under Rule 102(e) of the *Commission's* Rules of Practice~~ suspending or denying the privilege of appearing or practicing before the *Commission*, or (c) a court-ordered injunction prohibiting appearance or practice before the *Commission*, provide—

- a. the name of the person;
- b. the nature of the person's relationship with the Firm; and
- c. the date on which the person's relationship with the Firm began.

#### Item 5.2 New Ownership Interest by Firm Subject to Bar or Suspension

If the Firm has become owned or partly owned by an entity that is currently the subject of (a) a *Board* disciplinary sanction suspending or revoking that entity's registration or disapproving that entity's application for registration, ~~or (b) a *Commission* order under Rule 102(e) of the *Commission's* Rules of Practice~~ suspending or denying the privilege of appearing or practicing before the *Commission*, or (c) a court-ordered injunction prohibiting appearance or practice before the *Commission*, provide—

- a. the name of the entity that has obtained an ownership interest in the Firm;
- b. the nature and extent of the ownership interest; and
- c. the date on which the ownership interest was obtained.

#### Item 5.3 Certain Arrangements to Receive Consulting or Other Professional Services

If the Firm has entered into a contractual or other arrangement to receive consulting or other professional services from a person or entity meeting any of the criteria described in Items 2.12 or 2.13 above, provide—

- a. the name of the person or entity;
- b. the date that the Firm entered into the contract or other arrangement; and
- c. a description of the services to be provided to the Firm by the person or entity.

#### **PART VI—LICENSES AND CERTIFICATIONS**

Item 6.1 Loss of, or Limitations Imposed on, Authorization to Engage in the Business of Auditing or Accounting

If the Firm's authorization to engage in the business of auditing or accounting in a particular jurisdiction has ceased to be effective or has become subject to conditions or contingencies other than conditions or contingencies imposed on all firms engaged in the business of auditing or accounting in the jurisdiction, provide—

- a. the name of the *state*, agency, board or other authority that had issued the license or certification related to such authorization;
- b. the number of the license or certification;
- c. the date that the authorization ceased to be effective or became subject to conditions or contingencies, and
- d. a brief description of the reason(s) for such action, including a description of the conditions or contingencies, if any.

Item 6.2 New License or Certification

If the Firm has obtained any license or certification authorizing the Firm to engage in the business of auditing or accounting, and which has not been identified on any Form 1 or Form 3 previously filed by the Firm, or there has been a change in any license or certification number identified on a Form 1 or Form 3 previously filed by the Firm, provide—

- a. the name of the issuing *state*, agency, board or other authority;
- b. the number of the license or certification;
- c. the date the license or certification took effect; and
- d. if the license or certification replaces another license or certification issued by the same authority, the number of the replaced license or certification.

Note: If the Firm is filing a Form 4 to report a change in its form of organization, change in jurisdiction, or a business combination, the Firm should report on Form 4, rather than Form 3, any related license change that takes effect before the submission of the Form 4.

#### **PART VII—CHANGES IN THE FIRM OR THE FIRM'S BOARD CONTACT PERSON**

Item 7.1 Change in Name of Firm

If the Firm is reporting a change in its legal name—

- a. State the new legal name of the Firm;
- b. State the legal name of the Firm immediately preceding the new legal name;
- c. State the effective date of the name change;
- d. Provide a brief description of the reason(s) for the change; and
- e. Affirm, by checking the box corresponding to this Item, that, other than the name change, the Firm is the same legal entity that it was before the name change.

Note: If, other than the name change, the Firm is not the same legal entity that it was before the name change, whether because of a change in the Firm's legal form of organization or because of other transactions, the registration status of the predecessor firm does not automatically attach to the Firm, and the Firm cannot report the event as a name change. If the Firm cannot make the affirmation required by Item 7.1.e, the Firm cannot execute the certification in Part VIII as to Item 7.1, and this Form cannot be deemed filed under Rule 2206.

In that event, the Firm should consider whether, pursuant to the provisions of Rule 2108, the Firm can make the representations required in a Form 4 filing to enable the predecessor firm's registration to attach to the Firm. If the Firm cannot or does not file with the *Board* a Form 4 making all necessary representations, the predecessor firm's registration does not attach to the Firm. In those circumstances, the Firm may not lawfully prepare or issue an *audit report* without first filing an application for registration on Form 1 and having that application approved by the *Board*.

Note: If the Firm is filing a Form 4 to report a change in its form of organization, change in jurisdiction, or a business combination, the Firm should report any related name change on Form 4 and not on Form 3.

#### Item 7.2 Change in Contact Information

If there has been a change in the business mailing address, business telephone number, business facsimile number, or business e-mail address of the person most recently designated by the Firm (on Form 2, Form 3, or Form 4) as the Firm's primary contact with the *Board*, or if the Firm is designating a new person to serve as the primary contact, provide the name and current business mailing address, business telephone number, business facsimile number, and business e-mail of the partner or authorized officer of the Firm who will serve as the Firm's primary contact with the *Board*.

### PART VIII—CERTIFICATION OF THE FIRM

#### Item 8.1 Signature of Partner or Authorized Officer

This Form must be signed on behalf of the Firm by an authorized partner or officer of the Firm including, in accordance with Rule 2204, both a signature that appears in typed form within the electronic submission and a corresponding manual signature retained by the Firm. The signer must certify that—

- a. the signer is authorized to sign this Form on behalf of the Firm;
- b. the signer has reviewed this Form;
- c. based on the signer's knowledge, this Form does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading; and
- d. either—
  1. based on the signer's knowledge, the Firm has not failed to include in this Form any information or affirmation that is required by the instructions to this Form, with respect to the event or events being reported on this Form, or
  2. based on the signer's knowledge—
    - (A) the Firm is a *foreign registered public accounting firm* and has not failed to include in this Form any information or affirmation that is required by the instructions to this Form, with respect to the event or events being reported on this

Form, except for information or affirmations that the Firm asserts it cannot provide to the *Board* on this Form 3 without violating non-U.S. law;

- (B) with respect to any such withheld information or affirmation, the Firm has made the efforts required by PCAOB Rule 2207(b) and has in its possession the materials required by PCAOB Rule 2207(c); and
- (C) the Firm has indicated, in accordance with the instructions to this Form, each Item of this Form with respect to which the Firm has withheld any required information.

The signature must be accompanied by the signer's title, the capacity in which the signer signed the Form, the date of signature, and the signer's business mailing address, business telephone number, business facsimile number, and business e-mail address.

#### **PART IX—EXHIBITS**

To the extent applicable under the foregoing instructions, each special report must be accompanied by the following exhibits:

Exhibit 99.1 Request for Confidential Treatment

Exhibit 99.3 Materials Required by Rule 2207(c)(2)-(4)—*Submit Only as an Exhibit to an Amended Form 3 in Response to a Request Made Pursuant to Rule 2207(d)*

#### **FORM 4—SUCCEEDING TO REGISTRATION STATUS OF PREDECESSOR**

##### GENERAL INSTRUCTIONS

1. Purpose of this Form. Effective December 31, 2009, this Form must be used to submit information, representations, and affirmations to the *Board*, pursuant to Rule 2109, by a *public accounting firm* that seeks to succeed to the registration status of a predecessor firm in circumstances described in Rule 2108.
2. Defined Terms. The definitions in the *Board's rules* apply to this Form. Italicized terms in the instructions to this Form are defined in the *Board's rules*. In addition, as used in the instructions to this Form, the term "the Firm" means the *public accounting firm* that is submitting this Form to the *Board*, and the term "the predecessor firm" means the *registered public accounting firm* identified in Item 1.1.a of the Form.
3. Submission of this Form. Unless otherwise directed by the *Board*, the Firm must submit this Form, and all exhibits to this Form, to the *Board* electronically by completing the Web-based version of this Form available on the *Board's Website*. The Firm must use the predecessor firm's user ID and password to access the system and submit the Form. In the event of a transaction involving the combination of multiple *registered public accounting firms*, the Firm must access the system using only the user ID and password of the firm specifically identified in Item 1.1.a, and not those of any other *registered public accounting firm*.
4. When this Form Should be Submitted and When It is Considered Filed. To succeed to the registration status of the predecessor firm pursuant to the provisions of Rule 2108(a) or (b), the Firm must provide the information and representations required by this Form, in accordance with the instructions to this Form, and

must file the Form no later than the 14th day after the effective date of the change in form of organization, change in jurisdiction of organization, or business combination. Different timing requirements apply with respect to events that occurred before December 31, 2009. See Rule 2109(a)(2). Form 4 is considered filed when the Firm has submitted to the *Board*, through the *Board's* Web-based reporting system, a Form 4 that includes the signed certification required in Part V of Form 4, *provided, however*, that any Form 4 so submitted after the applicable filing deadline shall not be deemed filed unless and until the *Board*, pursuant to Rule 2108(d), grants leave to file the Form 4 out of time.

5. **Seeking Leave To File this Form Out of Time.** To request leave to file Form 4 out of time, pursuant to the provisions of Rule 2108(d), the Firm must file the request on Form 4 and must attach as Exhibit 99.5 a detailed statement describing why, despite the passage of time since the event described on the Form 4, the *Board* should permit the Firm to succeed to the registration status of the predecessor firm. Any Form 4 that has been submitted out of time, and as to which a *Board* decision on whether to allow the form to be filed is pending, may be withdrawn by accessing the pending submission in the *Board's* Web-based system and selecting the "Withdraw" option.
6. **Completing the Form.** The Firm must complete Parts I, II, IV and V of this Form. Part III should be completed to the extent applicable, as described more fully in the instructions to Part II of the Form.
7. **Amendments to this Form.** Amendments shall not be submitted to update information into a Form 4 that was correct at the time the Form was submitted, but only to correct information that was incorrect at the time the Form was submitted or to provide information that was omitted from the Form and was required to be provided at the time the Form was submitted. When submitting a Form 4 to amend an earlier submitted Form 4, the Firm must supply not only the corrected or supplemental information, but must include in the amended Form 4 all information, affirmations, and certifications that were required to be included in the original Form 4. The Firm may access the originally filed Form 4 through the *Board's* Web-based system and make the appropriate amendments without needing to re-enter all other information. (Note that, pursuant to Rule 2109(d), the provisions of Rule 2205 concerning amendments apply to any submission on this Form as if the submission were a report on Form 3.)

Note: The *Board* will designate an amendment to a report on Form 4 as a report on "Form 4/A."

Note: Any change to a Form 4 that was originally submitted out of time, and as to which a *Board* decision on whether to allow the form to be filed is pending, shall not be treated as an amendment. To make a change to any such pending Form 4 submission, the Firm must access the pending submission in the *Board's* Web-based system, select the "Withdraw and Replace" option, and submit a new completed Form 4 in place of the previously pending submission. The certification required in Part V of the new submission must be executed specifically for the replacement version of the Form and dated accordingly.

8. Rules Governing this Form. In addition to these instructions, the *rules* contained in Part 2 of Section 2 of the *Board's rules* govern this Form. Please read these *rules* and the instructions carefully before completing this Form.
9. Requests for Confidential Treatment. The Firm may, by marking the Form in accordance with the instructions provided, request confidential treatment of any information submitted in Exhibit 99.3 or Exhibit 99.5 of this Form that has not otherwise been publicly disclosed and that either contains information reasonably identified by the Firm as proprietary information or that is protected from public disclosure by applicable laws related to confidentiality of proprietary, personal, or other information. See Rule 2300. If the Firm requests confidential treatment, it must identify the information in Exhibit 99.3 or Exhibit 99.5 that it desires to keep confidential, and include, as Exhibit 99.1 to this Form, an exhibit a representation that, to the Firm's knowledge, the information for which confidential treatment is requested has not otherwise been publicly disclosed, and a detailed explanation of the grounds on which the information is considered proprietary or a detailed explanation of the basis for asserting that the information is protected by law from public disclosure and a copy of the specific provision of law that the Firm claims protects the information from public disclosure. If the Firm fails to include Exhibit 99.1, or includes an Exhibit 99.1 that complies fails to comply with the requirements of Rule 2300(c)(2)-, the request for confidential treatment may be denied solely on the basis of the failure. The Board will normally grant confidential treatment requests for information concerning non-public disciplinary proceedings. The Board will determine whether or not to grant other confidential treatment requests on a case-by-case basis. If the Firm fails to include Exhibit 99.1, or includes an Exhibit 99.1 that fails to comply with Rule 2300(c)(2), the request for confidential treatment may be denied solely on the basis of that failure. See Rule 2300(c).
10. Assertions of Conflicts with Non-U.S. Law. If the Firm is a *foreign registered public accounting firm*, the Firm may, unless otherwise directed by the *Board* pursuant to Rule 2207(e), decline to provide the affirmation required by Item 4.1 of this Form and any answer required by Item 3.2.e of this Form if doing so would constitute a violation of non-U.S. law by the Firm and the Firm proceeds in accordance with Rule 2207. (Note that, pursuant to Rule 2109(d), the provisions of Rule 2207 apply to any submission on this Form as if the submission were a report on Form 3.) If the firm withholds the affirmation or answer, the Firm must indicate, in accordance with the instructions in the relevant Part of the Form, that it has done so.
11. Language. Information submitted as part of this Form, including any exhibit to this Form, must be in the English language.

## PART I—IDENTITY OF THE FIRM AND CONTACT PERSONS

### Item 1.1 Names of Firm and Predecessor *Registered Public Accounting Firm*

a. State the legal name of the *registered public accounting firm* to whose registration status the Firm seeks to succeed.

Note: The name provided in Item 1.1.a should be the legal name of the *registered public accounting firm* as last reported to the *Board* on Form 1 or Form 3. This is the firm referred to in this Form as "the predecessor firm." In accessing and submitting this Form through the *Board's* Web-based system, the Firm must use the predecessor firm's user ID and password.

b. State the legal name of the Firm filing this Form.

Note: The name provided in Item 1.1.b will be the name under which the Firm is registered with the *Board* if this Form is filed in accordance with Rule 2109.

c. If different than the name provided in Item 1.1.b, state the name or names under which the Firm issues or intends to issue *audit reports*.

#### Item 1.2 Contact Information of the Firm

a. State the physical address (and, if different, mailing address) of the Firm's headquarters office.

b. State the telephone number and facsimile number of the Firm's headquarters office. If available, state the Website address of the Firm.

#### Item 1.3 Primary Contact and Signatory

a. State the name, business title, physical business address (and, if different, business mailing address), business telephone number, business facsimile number, and business e-mail address of a partner or authorized officer of the Firm who will serve as the Firm's primary contact with the *Board*, including for purposes of this Form 4, any annual reports filed on Form 2, and any special reports filed on Form 3.

### **PART II—GENERAL INFORMATION CONCERNING THE FILING OF THIS FORM**

#### Item 2.1 Reason for Filing this Form

Indicate, by checking the box for either Item a or Item b below, the reason the Firm is filing this Form. Then proceed to the Parts and Items of this Form indicated parenthetically for the relevant item and provide the information described there. Provide responses only to those Parts and Items of the Form specifically indicated for the event or events that the Firm identifies in this Part II as the reason for filing this Form. (For example, if the Form is being submitted because the Firm has changed its form of organization, check the box for Item 2.1.a, and complete only Item 3.1 and Parts IV and V of the Form. Complete Item 2.2 or Item 2.3 if applicable.)

a. There has been a change in the Firm's form of organization, or the Firm has changed the jurisdiction under the law of which it is organized. (Complete Item 3.1, Part IV, and Part V; complete Item 2.2 or Item 2.3 if applicable.)

b. There has been an acquisition of a *registered public accounting firm* by an entity that was not a registered public accounting firm at the time of the acquisition, or a *registered public accounting firm* has combined with another entity or other entities to form a new legal entity. (Complete Item 3.2, Part IV, and Part V; complete Item 2.2 or Item 2.3 if applicable.)

#### Item 2.2 Request for Leave To File this Form Out of Time

If this Form is not submitted in accordance with Rule 2109(b) on or before the filing deadline set by Rule 2109(a), the Firm may request leave to file this Form 4 out of time by checking the box for this Item, completing this Form 4 as is otherwise required, and providing, as Exhibit 99.5 to this Form, a description of the reason(s) the Form was not timely filed and a statement of the grounds on which the Firm asserts that the *Board* should grant leave to file the Form out of time.

Note: Requests for leave to file Form 4 out of time are not automatically granted.  
See Rule 2108(d).

### Item 2.3 Amendments

If this is an amendment to a Form 4 previously filed with the *Board*—

- a. Indicate, by checking the box corresponding to this item, that this is an amendment.
- b. Identify the specific Item numbers of this Form (other than this Item 2.3) as to which the Firm's response has changed from that provided in the most recent Form 4 or amended Form 4 filed by the Firm with respect to the event reported on this Form.

## PART III—CHANGES IN THE FIRM

### Item 3.1 Changes in Form of Organization or in Relevant Jurisdiction

If this Form 4 is being submitted in connection with a change in the Firm's form of organization or a change in the jurisdiction under the law of which the Firm is organized—

- a. State the Firm's current (i.e., after the change in legal form or jurisdiction) legal form of organization;
- b. Identify the jurisdiction under the law of which the Firm is organized currently (i.e., after the change in legal form or jurisdiction); and
- c. State the date that the change took effect.
- d. Affirm that, after the change reported or described in this Item 3.1, the Firm is a *public accounting firm* under substantially the same ownership as the predecessor firm.

Note: Neither the Act nor *Board rules* include any provision by which a *registered public accounting firm* may, in effect, transfer its *Board* registration to another entity. Rule 2108(a), in conjunction with this Form, allows the succession of registration status in circumstances in which a *registered public accounting firm* changes its legal form of organization while remaining under substantially the same ownership. For purposes of this Item, the Firm is considered to be under substantially the same ownership as the predecessor firm if a majority of the persons who held an equity ownership interest in the predecessor also constitute a majority of the persons who hold an equity ownership interest in the Firm.

- e. If, in connection with the change described in this Item 3.1, the Firm has obtained, or will practice under, a license or certification number, authorizing it to engage in the business of auditing or accounting, that is different from any such license or certification number previously reported to the *Board* by the predecessor firm, provide as to each such license—
  1. the name of the issuing *state*, agency, board, or other authority;
  2. the number of the license or certification;
  3. the date the license or certification took effect.
- f. If, in connection with the change described in this Item 3.1, any license or certification that authorized the predecessor firm to engage in the business of auditing or accounting has ceased to be effective or has become subject to any conditions or contingencies other than conditions or contingencies imposed on all firms engaged in the business of auditing or accounting in the jurisdiction, provide, as to each such license—

1. the name of the issuing *state*, agency, board, or other authority;
2. the number of the license or certification; and
3. the date that the authorization ceased to be effective or became subject to conditions or contingencies.

Item 3.2 Acquisitions of, or Combinations Involving, A *Registered Public Accounting Firm*

a. If this Form 4 is being submitted in connection with a transaction concerning which a person who holds an equity ownership interest in the Firm, or is employed by the Firm, can certify the points set out in Item 3.2.b. and Exhibit 99.4,—

1. Provide the name of each entity, other than the predecessor firm, that was involved in the transaction and that was a *registered public accounting firm* immediately before the transaction, and as to each such entity—

- (i) affirm that the entity has filed with the *Board* a request for leave to withdraw from registration on Form 1-WD; and
- (ii) state the date that the entity filed Form 1-WD;

2. Provide the name of each entity, including any acquiror, that was involved in the transaction and that was not a *registered public accounting firm* immediately before the transaction;

3. Provide the date that the transaction took effect; and

4. Provide a brief description of the nature of the transaction.

b. Provide as Exhibit 99.4 to this Form, a statement in the form set out below, signed by a person who, immediately before the transaction, was an officer of, or held an equity ownership interest in, the predecessor firm and who now either holds an equity ownership interest in, or is employed by, the Firm. The statement must be submitted on behalf of the Firm. Exhibit 99.4 must include a signature that appears in typed form in the electronic submission and a corresponding manual signature retained by the Firm in accordance with Rule 2109(d). The signature must be accompanied by the signer's current title, the signer's title immediately before the event described in Item 3.2.a, the date of signature, and the signer's business mailing address, business telephone number, business facsimile number, and business e-mail address. Other than the insertion of the relevant names, Exhibit 99.4 must be in the exact following words—

On behalf of [name of the Firm], I certify that (1) I was an officer of, or held an equity ownership interest in, [name of predecessor firm] immediately before the transaction described in Item 3.2.a of the Form 4 to which this exhibit is attached; (2) immediately before that transaction [name of predecessor firm] was a *registered public accounting firm*; (3) as part of that transaction, a majority of the persons who held equity ownership interests in [name of predecessor firm] obtained equity ownership interests in, or became employed by, [name of the Firm]; (4) [name of predecessor firm] intended that [name of the Firm] succeed to the *Board* registration status of [name of predecessor firm] to the extent permitted by the *Board's* rules; and (5) [name of predecessor firm] is no longer a *public accounting firm*.

c. If, in connection with the transaction described in Item 3.2.a, the Firm has obtained, or will practice under, a license or certification number, authorizing it to engage in the business of auditing or accounting, that is different from any

such license or certification number previously reported to the *Board* by the predecessor firm, provide, as to each such license—

1. the name of the issuing *state*, agency, board or other authority;
2. the number of the license or certification; and
3. the date the license or certification took effect.

d. If, in connection with the transaction described in Item 3.2.a, any license or certification that authorized the predecessor firm to engage in the business of auditing or accounting has ceased to be effective or has become subject to any conditions or contingencies other than conditions or contingencies imposed on all firms engaged in the business of auditing or accounting in the jurisdiction, provide, as to each such license—

1. the name of the issuing *state*, agency, board, or other authority;
2. the number of the license or certification; and
3. the date that the authorization ceased to be effective or became subject to conditions or contingencies.

e. Provide a "yes" or "no" answer to each of the following questions—

1. Is there identified in Item 3.2.a.2 any entity that, if it were filing an application for registration on Form 1 on the date of the certification in Part V of this Form, would have to provide an affirmative response to Item 5.1.a of Form 1 in order to file a complete and truthful Form 1?

Note: In considering whether an affirmative response would be required to Item 5.1.a of Form 1, the Firm should take into account the guidance provided by question number 33 in Frequently Asked Questions Regarding Registration with the *Board*, PCAOB Release No. 2003-011AD (~~Nov. 13, 2003~~ Apr. 28, 2010).

2. Is there identified in Item 3.2.a.2 any entity that (i) issued an *audit report* with respect to an *issuer* on or after October 22, 2003 (or, if the entity is a non-U.S. entity, July 19, 2004), while not registered with the *Board*, and (ii) ~~has never had~~ did not thereafter have an application for registration on Form 1 approved by the *Board*?

3. Is there identified in Item 3.2.a.2 any entity that (i) issued an *audit report* with respect to a *broker or dealer* for financial statements with fiscal years ending after December 31, 2008, while not registered with the *Board*, and (ii) did not thereafter have an application for registration on Form 1 approved by the *Board*?

4. Is the Firm operating without holding any license or certification issued by a *state*, agency, board, or other authority authorizing the Firm to engage in the business of auditing or accounting?

Note: If the Firm answers "yes" to any question in Item 3.2.e or asserts as to any of those questions that non-U.S. law prohibits it from providing an answer, the Firm cannot succeed outright to the registration of the predecessor. If this Form 4 is submitted in accordance with Rule 2109, however, the Firm will temporarily succeed to the registration of the predecessor for a transitional period as described in Rule 2108(b)(2) as long as the Firm makes the representation required in Item 3.2.f below. If the Firm answers "yes" to any question in Item 3.2.e or asserts as to any of those questions that non U.S. law prohibits it from providing an answer but fails to make the representation required in Item 3.2.f, this Form 4 will not be accepted for filing and the Firm will not succeed to the predecessor's registration even on a temporary basis. See Rule 2108(b)(2).

f. If the Firm answered "yes" to any question in Item 3.2.e or asserts as to any of those questions that non-U.S. law prohibits it from providing an answer,

affirm, by checking the box corresponding to the appropriate item, that one of the following statements is true—

1. The Firm has filed an application for registration on Form 1 on or after the date provided in Item 3.2.a.3.
2. The Firm intends to file an application for Registration on Form 1 no later than 45 days after the date provided in Item 3.2.a.3.

#### **PART IV—CONTINUING OBLIGATIONS**

Item 4.1 Continuing Consent to Cooperate Affirm that—

- a. The Firm consents to cooperate in and comply with any request for testimony or the production of documents made by the *Board* in furtherance of its authority and responsibilities under the Sarbanes-Oxley Act of 2002;
- b. The Firm has secured from each of its *associated persons*, and agrees to enforce as a condition of each such person's continued employment by or other association with the Firm, a consent indicating that the *associated person* consents to cooperate in and comply with any request for testimony or the production of documents made by the *Board* in furtherance of its authority under the Sarbanes-Oxley Act of 2002, and that the *associated person* understands and agrees that such consent is a condition of his or her continued employment by or other association with the Firm; and
- c. The Firm understands and agrees that cooperation and compliance, as described in Item 4.1.a., and the securing and enforcing of consents from its *associated persons* as described in Item 4.1.b., is a condition to the continuing effectiveness of the registration of the Firm with the *Board*.

Note: The affirmation in Item 4.1.b. shall not be understood to include an affirmation that the Firm has secured such consents from any *associated person* that is a *registered public accounting firm*.

Note: The affirmation in Item 4.1.b. shall not be understood to include an affirmation that the Firm has secured such consents from any *associated person* that is a *foreign public accounting firm* in circumstances where that *associated person* asserts that non-U.S. law prohibits it from providing the consent, so long as the Firm possesses in its files documents relating to the *associated person's* assertion about non-U.S. law that would be sufficient to satisfy the requirements of subparagraphs (2) through (4) of Rule 2207(c) if that *associated person* were a *registered public accounting firm* filing a Form 2 and withholding this affirmation. This exception to the affirmation in Item 4.1.b. does not relieve the Firm of its obligation to enforce cooperation and compliance with *Board* demands by any such *associated person* as a condition of continued association with the Firm.

Note: If the Firm is a *foreign registered public accounting firm*, the affirmations in Item 4.1 that relate to *associated persons* shall be understood to encompass every *accountant* who is a proprietor, partner, principal, shareholder, officer, or manager of the Firm and who provided at least ten hours of *audit services* for any *issuer* during the reporting period.

Item 4.2 Continuing Responsibility to the *Board* for Previous Conduct

Affirm that, for purposes of the *Board's* authority with respect to *registered public accounting firms*, including but not limited to the authority to require reporting of information and the authority to impose disciplinary sanctions, the Firm either has retained or assumes responsibility for the conduct of any predecessor *registered public accounting firm* before the change or business combination reported on this Form took effect.

Note: As used in Item 4.2 the term "predecessor *registered public accounting firm*," means (1) in circumstances not involving a transaction described in Item 3.2, the predecessor firm and (2) in circumstances involving a transaction described in Item 3.2, each *registered public accounting firm* that was involved in the business combination.

Note: The continuing responsibility in Item 4.2 includes, among other things, responsibility for reporting information on Form 2 and events on Form 3. Thus, for example, if a *registered public accounting firm* experienced a Form 3 reportable event before the event that is the subject of this Form, the Firm, as successor, has the obligation to report that event on Form 3, and bears responsibility for any failure by any predecessor to have filed a timely Form 3 to report the matter.

Note: The *Board's rules* do not require that any entity retain or assume responsibility as set forth above. In the absence of an affirmation that it retains or assumes responsibility for such conduct at least for purposes of the *Board's* authority, however, an entity cannot succeed to the *Board* registration status of any predecessor entity. See Rule 2108.

## PART V—CERTIFICATION OF THE FIRM

### Item 5.1 Signature of Partner or Authorized Officer

This Form must be signed on behalf of the Firm by an authorized partner or officer of the Firm including, in accordance with Rule 2109(d), both a signature that appears in typed form within the electronic submission and a corresponding manual signature retained by the Firm. The signer must certify that—

- a. the signer is authorized to sign this Form on behalf of the Firm;
- b. the signer has reviewed this Form;
- c. based on the signer's knowledge, this Form does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading; and
- d. either—
  1. based on the signer's knowledge, the Firm has not failed to include in this Form any information or affirmation that is required by the instructions to this Form, with respect to the event or events being described on this Form, or
  2. based on the signer's knowledge—
    - (A) the Firm is a *foreign public accounting firm* and has not failed to include in this Form any information or affirmation that is required by the instructions to this Form other than an affirmation required by Item 4.1 and/or an answer to Item 3.2.e.; and
    - (B) the Firm asserts that it is prohibited by non-U.S. law from providing any such withheld affirmation or response to the Board on this Form and, with respect to each such withheld affirmation or response, the Firm has made the efforts described in PCAOB Rule 2207(b) and has in its files the materials described in PCAOB Rule 2207(c).

The signature must be accompanied by the signer's title, the capacity in which the signer signed the Form, the date of signature, and the signer's business mailing address, business telephone number, business facsimile number, and business e-mail address.

**PART VI—EXHIBITS**

To the extent applicable under the foregoing instructions, each report must be accompanied by the following exhibits:

Exhibit 99.1 Request for Confidential Treatment

Exhibit 99.3 Materials Required by Rule 2207(c)(2)–(4)—*Submit Only as an Exhibit to an Amended Form 4 in Response to a Request Made Pursuant to Rule 2207(d)*

Exhibit 99.4 Acknowledgment Concerning Registration Status in Certain Transactions

Exhibit 99.5 Statement in Support of Request for Leave To File Form 4 Out of Time.
