

IZ STRANIH ČASOPISA**Allgemeine Vermessungs-Nachrichten, Vol.112, No.7, 2005.**

- SmartStation von Leica Geosystems: Effizienzsteigerung durch neue Messtechnologie? J. Schmidt, M. Moser. 246.-253.
- Machbarkeitsstudie zur Nutzung von Satellitendaten in der landlichen Bodenordnung. J. Huth, K.-H. Thiemann. 254.-257.
- Test loading of the "Dubrovnik Bridge". Z. Kapovic, L. Herceg, J. Krolo. 258.-262.
- Bewegungsmessungen an Blockgletschern der westlichen Stubai- und Otztaler Alpen (Tirol) mit dem GPS-Gerat ZMax. K. Krainer. 263.-264.
- From space angles to point position using Sylvester resultant. J. L. Awange, E. W. Grafarend. 265.-269.

Bollettino di Geodesia e Scienze Affini, Vol.64, No.1, 2005.

- Variance component estimation in Integrated geodesy adjustment. A. Antonopoulos. 1.-12.
- Closed recurrent expression for analytical covariance functions between gravity disturbances and other geodetic functionals: A case study for airborne applications. D. Marchenko, U. Meyer. 13.-28.
- Test statistici in reti GPS. A. Pellegrinelli, N. Perfetti, P. Russo. 29.-44.
- Deterministic versus stochastic modelling of an unknown bias in linear Gauss-Markov models. C. Kotsakis. 45.-

Geomatics Info Magazine, Vol.19, No.9., 2005.

- How Historians Are Now Using Computer Technology: Investigating Spatial Effects in Architecture and Painting. V. Hart, A. Day, J. Robson. 13.-
- Disappointing NSDI National Clearinghouse Survey: International Developments, Status, Suitability and Spatial Distribution. J. Cromptoets, A. Bregt, M. van Adrichem. 35.-
- Swiss Cadastral Core Data Model: A System-independent Data Exchange Mechanism. D. Steudler. 40.-
- Optimal GCPs with Onboard GPS: Block Adjustment for Photogrammetric Production of Map of Iran. A. Milanlak, M. G. Majdabadi. 46.-
- Slum Identification Using High-resolution Satellite Data: Informal Settlement Patterns in India. S. Jain, B. S. Sokhi, U. Sur. 60.-
- Renewed European Standard Setting: CEN Technical Committee on Standardisation in Geographic Information. H. Knoop, W. Pachelski. 69.-

Journal of Geodesy, Vol.79, No.4-5., 2005.

- Temporal and spatial variability of the bias between TOPEX- and GPS-derived total electron content. C. Brunini, A. Meza, W. Bosch. 175.-188.
- Evaluation of co-location ties relating the VLBI and GPS reference frames. J. Ray, Z. Altamimi. 189.-195.
- Effect of post-seismic deformation on earth orientation parameter estimates from VLBI observations: a case study at Gilcreek, Alaska. O. Titov, P. Tregoning. 196.-202.
- Topological vector spaces of harmonic functions and the trace operator. F. Sanso, G. Venuti. 203.-221.
- Investigation of GPS antenna mean phase centre offsets using a full roving observation strategy. L. Banyai. 222.-230.
- A parametric study on the impact of satellite attitude errors on GOCE gravity field recovery. R. Pail. 231.-241.
- An integer ambiguity resolution procedure for GPS/pseudolite/INS integration. H. K. Lee, J. Wang, C. Rizos. 242.-255.

- Comparison of length of day with oceanic and atmospheric angular momentum series. J. Kouba, J. Vondrak. 256.-268.
- The need for a new definition of a conventional international origin. R. O. Vicente, C. R. Wilson. 269.-279.
- On new data validation criteria in differential GPS. A. Lannes. 280.-287.

Surveying and Land Information Science, Vol.65, No.2, 2005.

- The National Spatial Reference System Readjustment of NAD 83. C. Pearson. 69.-74.
- A Control Survey and Mapping Project for an Urbanizing Region (A Study in Persistence). K. W. Bauer. 75.-83.
- The Effects of Unestimated Parameters. C. R. Schwarz. 87.-90.
- When Ellipsoidal Heights Will Do the Job, Why Look Elsewhere! M. Kumar. 91.-94.
- GPS Geodesy and Applications (GPS-GAP) – An Internet-based Geodesy and GPS Educational Application. P. Lazio. 95.-98.
- Assessing Individual Epochs in Airborne GPS. P. Kuntu-Mensah, R. Hintz. 99.-104.
- Development of Quality Metrics for Linear Features. R. Ramirez, T. Ali. 105.-110.
- Location of Boundaries Defined by Conveyances – A Question of Timing. J. Curd, A. C. Kellie. 111.-117.

Survey Review, Vol.38, No.297, July, 2005.

- Diagnosis of outlier of type multipath in GPS pseudo-range observations. J.L. Awange. 177.-189.
- Precision and results reliability analysis of different instruments for investigating vertical micro-displacement of structures. B. Kovacic, Z. Kapovic. 190.-203.
- A computational approach to the Robinson projection. C. Ipbuker. 204.-217.
- PDOP values for simulated GPS/Galileo positioning. P. Cederholm. 218.-228.
- Modelling landslide surfaces by kinematic and dynamic surface models: a case study in North Eastern Turkey. M. Yalcinkaya, T. Bayrak, A. Yalcin. 229.-242.
- Determination of the optimal diameter for spherical targets used in 3D laser scanning. Y. Reshetyuk, M. Horemuz, L. E. Sjoberg. 243.-253.
- The influence of the sea on driving the Channel Tunnel. A. Johnston. 254.-258.

Zeitschrift fur Geodasie, Geoinformation und Landmanagement, Vol.130, No.4, 2005.

- Diagnoseausgleichung SAPOS – Homogenisierung des Raumbezugs im System ETRS89 in Deutschland. H. Beckers, K. Behnke, H. Derenbach, U. Faulhaber, J. Ihde, W. Irsen, J. Lotze, M. Strerath. 203.-208.
- Diagnoseausgleichung SAPOS: Integration von SAPOS-Stationen in Internationale Netze. Y. Altiner. 209.-217.
- Ein wissensbasiertes Entscheidungssystem für ein online Videotheodolit-basiertes Messsystem. A. Reiterer. 218.-225.
- Indoor-GPS: Ist der Satellitenempfang in Gebäuden möglich? B. Eissfeller, A. Teuber, P. Zucker. 226.-234.
- Standort-Informationssysteme – Anforderungen, Potentiale und Visionen. H. Taubenbock, M. Schilcher. 235.-237.
- Zum antiken astro-geodatischen Messinstrument Skiotherikos Gnomon. D. Lelgemann, E. Knobloch, A. Fuls, A. Kleinberg. 238.-247.
- Schattenmessung mit dem Gnomon. H. Minow. 248.-252.
- ISIVerm-Informationssystem im Intranet des Landesbetriebs Vermessung Baden-Württemberg. W.-D. Simmank. 252.-259.
