19 July 2012

Dear Prof. Gianluigi Corinto.

Re: Renewal of the Referee Panel for:

- International Journal of Anthropology
- Human Evolution
- Global Bioethics

With the advent of a new triennium (2013-2016) in the publishing activities of the three quarterly scientific journals produced by the International Institute of Humankind Studies, we would like to confirm your continued collaboration as part of the referee panel of international representatives for one, or more, of the journals listed above, naturally depending on your own field(s) of specialization.

As usual, this commitment will merely entail the occasional review of articles, and your assistance in procuring high quality articles to publish in any of the journals you deem most appropriate. As a modest thank you, should you be interested in subscribing to any one of the three journals, we would like to offer you a reduction in the annual subscription fee, as outlined in the form attached. On-line subscriptions are now available, too.

In order to update our records, please fill-out the attached form and return it to us by return email.

Needless to say, we rely greatly on your highly valued co-operation in order to guarantee the scientific integrity of our journals, and to help diffuse the ideas and research of both promising and established minds.

Sincerely yours,

Brunetto Chiarelli
Founder and Chief Editor
