FARM BUYERS

- PLEASE NOTICE -

We have signed a contract with Noah Dalley to sell his very attractive farm of 91½ acres with good improvements, located just at the City Limits of Flemingsburg. Has three and four-tenths acre tobacco base for 1950. Plenty of blingrass, ged clover and alfalfa. A dandy flome in every way.

At the same time and place will sell for Charles Dalley, his modern 4-room home, insulated throughout, telephone, electric, city water and hasement, with 1-zere good ground. This home would go well with the above farm, if two dwellings were needed,

Both places will be gladly shown to anyone interested. Watch apers and sale bills for further description.

CLEMENTS' RECORD SPEAKS!

As Sheriff, County Clerk, County Judge, State Senator, Congressman and Governor, Earle C. Clements has achieved a pollitical record . . . a record of faithful public service . . . unexcelled in the Commonwealth of Kentucky. AND NEVER ONCE HAS HE BEEN REPUDIATEDON THAT RECORD. That record stands today in the unblamithed faith of the people of the Commonwealth of Kentucky. Because Earle Clements never has failed the people who have elected him to any office of trust. For almost thirty years, Earle Clements has given devoted, conscientious, capable public service to Kentucky.

VICTORY IS A HABIT WITH EARLE CLEMENTS

During his public service, Governor Clements has succeeded at all levels of government—local, State and National. His broad experiences fit him for broader service. These are grave limes in our Nation. The next few years may deter-Nation. The next tew years may determine the very existence of our form of government. We need Earle Clements' business-like, competent, conscientious ability in the National Administration. Earle Clements' outstanding record of service qualifies him unquestionably for the United States Sendle. He has served, the tarmer, veteron, businessman, loboring on all people. developing the sund business basis. His record in public, And the public record of Earle Clements for the Clements of the Cl

Try to do to others as you would have them do to you, and do not be discouraged if they fail sometimes.—Dickens.

Human Blood Is Not A Commodity To Be Sold

To Be Sold

Blood . \$100,00.

How many times have you seen that on a hospital bill?

How many times have you seen an harsassed rather, mother or husband and wife sals, with a pleading look in their eyes, relatives and neighbors to donate?

It's blood at \$35,00 a pin that becomes a trying financial problem when illness and adversity strike . . . when money is needed the most. is this "sale of blood" that caused the

It is this "sale of blood" that cauged the American Red Crops to start its nation-wide blood bank plan. Thirty-seven empirs have been or are now being constructed to square blood... a central storage plant where all hospitus and all doctors may draw from. "This is one of the most humanitarian and commendable programs the American Red Cross has ever attempted. Eventually the itemized line which reads "blood" will be dismissed line which reads "blood" will be dismissed from some beautiful statement.

eliminated from every hospital statement. Scheduled to open within the next four months is the Red Cross blood bank at Huntmonths is the Red Cross blood bank at Hunt-ington, W. Va., which serves this area. Con-struction is already under way. There's no difference in the blood of a white man and a negro—an industrialist or a street cleaner. And, from this and other banks like it all over the United States will come blood for all—for rich and poor allke—for all who

A mobile unit will visit this county four times a year and we will all, if physically able, be asked to contribute. Our quota is able, be asked to contribute. Our quota is based on population and the figures at hand indicate it will not be too difficult to achieve. Further, we will be contributing to the mil-lion or more pints of whole, human blood that will be necessary if we have an atomic war—blood that must be available immedi-ately if that dreaded possibility should be-come a reality.

that dreaded possibility should become a reality.

This is the most sensible, the most humane approach ever attempted toward this medical problem.

Sharing in the blood program is Rowan County Chapter of the Red C which voted its cooperation at a special meet-ing of officers and civic-minded individuals Monday evening.

Monday evening.

However, one detail remains to be worked out, insofar as Rowan and many other counties in this vicinity are concerned. That is the agreement with Lexington hospitals, where nine-tenths of all hospital patients from this vicinity.

nine-tenths of all hospital patients from this vicinity go.

Rowan County people will contripute the 500 pints annually. The Huntington blood bank is, in turn, willing to replace every pint that is used by any Rowan County patient as hospital in Lexington or any other place.

The question now arises as to whether the Legington hospitals will agree to this ex change So far they haven't.

Insofar as Rowan, Fleming and other

Insofar as Rowan, Fleming and other neighboring countles are concerned the entire program, from the local level, depends upon the cooperation of the Lexington hospitals. This proposition is like a triangle . . the people are willing to build this blood bank . the Red Cross is willing to take, store and exchange or replace the blood . . but the cooperation of the third angle, the hospitals, is mandatory.

is mandatory.

Not only is this section of Kentucky send-ing most of its patients to Lexington, which ing most of its patients to Lexington, which has become a rated medical center in the South, but it should be noted that our people are pouring many, many thousands of dollars such year into Lexington business firms.

Surely, a groft on human blood is not the sim of any hospital and the cooperation of Lexington is anticipated.

We haven't heard anything about Hoove lately. Maybe he's been drafted.

One of the big faults with employment to day is that so many who want just a job find themselves in a position.

Saddle horses are again becoming popular, with horse lovers going riding on weak ends.

Too had these politicians who speak "straight from the shoulder" can't speak from a little higher up.

Hunting season will soon be here and it reminds as of the sign posted on a farmer's land up north. "If it doesn't move, Don't Shoot, it may be the hired man."

How Much Capital Outlay Have They Charged To Operating Costs?

If one is to believe the charts and graphs prepared by the Ashland Home Telephone Company in its petition for an overall in-crease in rates this must be a poor company in which to invest money.

In round figures the company shows that collected a million dollars from its nearly it collected a million dollars from its nearly 21,000 users during 1949 but that operating costs for the same period were 880,000 and fixed charges (including depreciation, tasken, bond inferest and inferest on borrowed money) amounted to 8280,000 lin. other words Ashland Home says it lost \$25,000 lin. et year and for the first seven months of 1950 the loss amounted to about \$10,000.

The figures are rusher surprising in one respect. In 1947 the company says it collected \$800,000 and expenses of \$800,000 Figure 1,947 Ashland Home was granted a \$102,000 a year rate increase and lost

1890,000 and had expenses of \$890,000 But. On October 21, 1947 Ashland Home was granded a \$102,000 a year rate increase and lost money. In short, to use their figures, the elements of the state of the

Judging that part of the anticipated mil-

Judging that part of the anticipated millips dollar revenue comes from long distance
service, on which there will be no increase,
it is easy to assume that Ashhand Home now
asks each of its telephone users to pay them
80 percent or more.
We've seen many applications for rate increases but we are unable to recall any utility
asking as much as 80 persent at one time.
Kentucky's Public Service Commission
has a policy—ellhough no one knows from
whence they obtained it—that utilities should
be guaranteed a seven percent profit. It is not

whence they obtained it—that unities should be guaranteed a seven percent profit. It is not our inention to now go into this seven percent rule, but we do say there is every indication that it would be more appropriate to change the name of Kentucky's Public Serv-

change the name of Kentucky's Public Serv-jec Commission to "The Utility Commission." Their past actions seem always favorable to the utility concerns.

When the application for a rate increase was made in 1947 this newspaper editorially said that Ashland Home was getting the cart before the horse. that an increase might be in order provided the sub-standard serv-ece was improved. This situation still applies, for the most part, throughout the system in content Kentucky.

for the most part, throughout the system in eastern Kentucky.

After perusing the charts and figures which accountants for Ashland Home have compiled ... obviously juggling figures to make the proposed rate raise seem fair and feasible ... we are wondering if the larger part of what they claim as operating costs isn't, after all, funds expended in an effort to exparid and improve a dilapidated system.

Capital outlay improvements should not be considered as operating capital.

The Public Service Commission should also closely study the bapital investment and the value of holdings through the years. For example if the Ashland Home system was worth \$3 million in 1946 and is now worth \$5 million in 1946 and is now worth \$5 million in 1946 and is now worth \$5 million in 1946 additional stock has ly made \$2 million, if no additional stock has been subscribed, even a dime hasn't been paid

dividends.
Without full knowledge of the workings Without full knowledge of the workings and the accounting of the company it is impossible for one to make a comprehensive appraisal of the merits of the rate raise. But, as the subscribers of Ashland Home well know, we are all now paying too much for the class and type of service rendered.

Manpower In United States May Become Scarcer

With the armed services expanding, it is

With the armed services expanding, it is vitally important for the nation to consider its use of manpower in connection with the necessary build-up of our fighting strength. There have been a number of reports of draftees being rejected for various reasons, including lack of sufficient intelligence to become a soldier. The suggestion has been made that these men, if physically able to work, be put in labor battalions. This would relieve physically-fit soldiers for combit duty.

With the nation about to embark upon universal military training as a, matter of policy, it is vitally important that expensions from service be carefully screened. Certainly, public opinion will be incensed if too liberal exemptions make a fairce of universal service. Those who are unfit to fight might be able to ork and thus serve their country to the best of their ability.

Recently a woman cremated her fourth husband. From this we surmise that some women have husbands to burn.

It's a sad state of affairs we're in. The re wards go to the strikers, the manufacturer raises his prices, and the public shoulders the

Columbus Day OCTOBER 12th

We All Set . . . Are You?

Now's no time to skimp on maintenance. The truck or car you save today may be the same vehicle you'll be using five years from now. Are you prepared to pay the price of neglect? We're fully equipped to render our expert service to you.

Now's the time to bring your equipment in, before the long winter lay-up and while its condition is still fresh in your mind. We can spend more time with it, too, than we could in the height of the season. Now's the time to winterize your car and truck and get them in shape for the tough winter months ahead.

Now's the time to check all those little spots that will give you

so much trouble this winter. Have it done today instead of waiting till it happens. You will be the one to benefit after you

Since 1492 . . . 458 years of freedom have not dimmed the spirit of Columbus nor the rugged courage of the pioneer when it comes to defending our way of life in America . . . Korea has proven that.

Looking for POWER?

Better Buy Buick!

THAT bold bonnet that stretches out before your eyes on a 1950 Buick isn't there just for show.

Lift it up, and you'll find that the space beneath is abundantly occu-pied, by one of the biggest hood-fuls of power you'll find in any

What you're looking at is Buick's modern version of the high-com-pression valve in head engine, which gains extra wallop from the fact that it uses the exclusive Fireball combustion principle.

We could list a lot of mechanical reasons why fuel gives up extra power in a Fireball engine—how it's wrapped in a swirling, ball-shaped charge—how it burns with a smooth, clean thrust that delivers maximum action.

But the best way to find out what all this means is to touch off the eager horsepower out on the highway by a gentle nudge of your toe

-and feel your shoulders press
deep in the cushions behind them.

Now all this sounds thrilling, you say, but how about the feed-bills for all these horses? How about miles-per-gallon?

The practical answer to that one is found in this year's experience with the SUPER and SPECIAL—and

stepped up at the start of the year
-and in all three, bappy owners
report the best mileage in modern Buick experience.

This is due to a little-known but This is due to a little-known but authentic engineering fact—which is that an engine burns less gas when it doesn't have to labor. At any normal driving speed, therefore, extra power is extra thrifty.

So we say again-if you're looking for power - mighty power - buoy ant power-silken power-thrifty power-better buy Buick

Your Buick dealer is eager for the chance to demonstrate how sound this hint really is.

Who Runs America.

* the Congress?-

OR YOU AND THE MAN NEXT DOOR?

RUNNING AMERICA is the joint job of 150,000,000 people. It's the biggest job in the world today keeping it running for liberty and for freedom. And the whole world's watching to see whether Americans can do it!

IN MUCH OF THE WORLD today, the people have resigned from running their own countries. Others have been quick to step in—first with promises of "security"—and then with whips and guns—to run things their way. The evidence is on every front page in the world, every day.

FREEDOM COMES UNDER ATTACK. The reality of war has made every American think hard about the things he's willing to work and fight for—and freedom leads the list.

But that freedom has been attacked here recently—just as it has been attacked in other parts of the world. One of the most serious threats to individual freedom has been the threat of Government-dominated Compulsory been the threat of Government-dominated Comp Health Insurance, falsely presented as a new guar of health "security" for everybody.

THE PEOPLE WEIGH THE FACTS. In the American manner, the people studied the case for Socialized Medicine-and the case against it.

They found that Government domination of the people's medical affairs under Compulsory Health Insurance means lower standards of medical care, higher payroll taxes, loss of incentive, damage to research, penalties for the provident, rewards for the improvident.

They found that no country on earth can surpass America's leadership in medical care and progress. They found that able doctors, teachers, nurses and scientists—workling in laboratories where Science, not Politics, is master—are blazing dramatic new trails to health for American—and for the world.

THE "GRASS ROOTS" SIGNALS CONGRESS. In every community in the Nation, people stood up to be counted out in important issue. Thousands of local women's clubs, civic groups, farm, business, religious, taxpayer, medical, educational and patriotic organizations spoke out—giving the great United States Congress its unmistakable Grass Roots signal from home!

And ever watchful, ever sensitive to an alert peopl. The Congress saw that signal, and heard the peopl speak out, loud and plain. That's democracy in acties That's the American way!

Today among the 10,000 great organizations on militant public record against "Compulsory Health Insurance" are:

General Federation of Women's Clubs American Farm Bureau Federation National Grange Veterans of Foreign Wars National Conference of Catholic Charties

American Legion National Association of Small Business Men United States Chamber of Commerce National Association of Retail Grocers atlanal Retail Dry Goods

e Doctors of this Nation are grateful that the people refused to be wood by the fantastic promises of this un-Almerican excursion into States Socialism. e Doctors of America are dedicated to serve their follow clisses at tionic and their comredes in uniform, whoever service the their think and their comredes in uniform, whoever service the think they stand ready to fight for—to sacrifice for—to die for—is not the allow way of life of Socialism, but the 'prideful security of a free and self-reliant people!

THE AMERICAN WAY! THE VOLUNTARY WAY

Throughout the Nation, free men and women, working and planning together, are finding the American answer to every question of medical service, care and cost. Hundreds of Voluntary Health Insurance Plans are in healthy competition—sponsored by doctor, insurance companies, hos-pitals, fraternal organizations—by industry, agriculture and labor. "Today

in America—70 million people are proceeded by Voluntary Health Intur-ancel o Throughout the Nation, familiar are insuring themselves against the major costs of illines—ar resistable, budget-basts prices. Voluntary Health Inturance takes the economic abook out of illness—reproter your family now. For information, askyour doctor—over insurance man.

An American's greatest heritage is the right to learn the facts—and to speak his mind. Maintained with honor and used with sincerity—that right will guarantee forever that
