Number Nine

Limit Of 39 Years Placed On Rowan Issue

Rowan County's school financial construction problems—including a new Rowan County High—long paralyzed by civic groups, are expected to be taken straight to the voters late in March.

Fiscal Court is expected to act on a petition from the Board of Education at its Tuesday meeting. Probable date for the referendum is Tuesday, March 31.

If approved, an additional 50 cent school tax on each \$100 evaluation, will be placed on Rowan County property.

Refreshments will be served. Curt Hutchinson, chairman of the meeting said, "It is persons who will be 18 years old before the next election will be eligible to vote on the bond proposal."

Many improvements needed... "It has been estimated that a new Rowan County High School would cost about a million dollars. However, other improvements are needed in the physical plants, according to a 1953 survey.

Total tax appraisals will show how much money can be borrowed on the 50 cent tax, extending over 39 years, if the issue is approved.

The citizens committee, spearheading the drive for a favorable vote, started the shift to high gear today with the printing of 1,000 illustrated brochures, depicting deplorable conditions at Rowan High.

Surveys have shown the building is accommodating more than twice the number of students it was built for and is a fire hazard. The structure has also been condemned by the health department.

Rev. B. W. Moore, chairman of the citizens group, said, "We need carry our fight to every precinct and every home... we must meet this obligation to our children."

GIVEN EQUIPMENT—Members of Clearfield Troop 189, Boy Scouts, examine part of a truckload of surplus equipment obtained from the U. S. Army 1st Ft. Knox. Included are canteens and tents which will be used in all phases of scouting activity. Looking over the equipment are Scoutmaster, Dan Kelly, and Scoutmaster, Dan Kelly. Other troops in the area will receive part of the equipment.

New Coach Goes Hunting . . . Gets Big Catch

NEW MOREHEAD STATE COLLEGE COACH GUY PENNY is shown watching closely as Jim Lee, highly touted Catlettsburg High School backfield ace, looks on as Harold Barker (behind Lee), the footballer's high school coach and a former Morehead star, and Morehead backfield-assistant, Rondal Hart (seated at right).

Consecutive Losses To Eastern, Western, Murray, Tennessee Tech Close OVC Slate

The Morehead State College Eagles began their flight through the Southland Friday night and were cut down by a more powerful contingent of Eagles, the Tennessee Tech Golden Eagles 90-66.

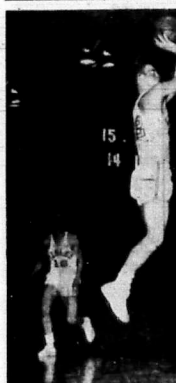

Eagles Rout Tampa In Southern Road Battle 117-86

Morehead's touring Eagles stopped off in Tampa Saturday night and sharpened their shooting eyes, trouncing the homesteading Spartans of Bob Lavy 117-86. The victory gave the Eagles an even break in the first two games of a three game trip they had dropped a 96-60 decision to Tennessee Tech the previous night.

Table with columns: Player, fg, ft, pf. Lists players like Fair, Hill, Harrison, Williams, Triplett, Cole, Yentes, Thompson with their respective stats.

Life's Little Lesson: The more money you get the more money you need.

EAGLE FORWARD DALE FAIR is shown parrying a one-hand jump shot in the recent Morehead Eastern fracas at the fieldhouse. FAIR is one of four Eagle players who will wind up their Blue and Gold careers Thursday against Marshall at Huntington, W. Va.

Farm Bureau Supports Tax Relief Bill

Farm Bureau's legislative workers in Washington are throwing the full support of the nationwide organization behind H.R. 10, which would give long overdue income tax relief to farmers and other self-employed taxpayers who still have a desire to save for their own old-age security.

In the Senate, a similar bill has been introduced by Kentucky Senator Thurston B. Morton, (S.84) who has advised officials of the Kentucky Farm Bureau.

In official testimony in favor of the legislation, Farm Bureau spokesmen in Washington have said that the bill would help to bring some degree of equality among employed and self-employed people. Under provisions of the bill, self-employed workers would be allowed to place a limited amount of savings each year in restricted type of private retirement or trust programs, and be allowed to claim these savings as a deduction on the federal income tax form.

OHIO VALLEY CONFERENCE

Table showing conference standings for Eastern, Western, Tennessee Tech, Morehead, East Tennessee, Murray, Middle Tennessee, and Ohio Valley. Columns include Team, W, L, T, and percentage.

TRACTOR JOCKEYS—These 4-H Club members and leaders recently completed a tractor safety and maintenance course, under the direction of Vernon "Bud" Bumgardner. Completion of this course entitles them to farm safety, care of hand tools, care and mounting of plows and equipment and record keeping, made the 4-H Club members eligible for forthcoming local, district and state tractor driving contests.

Mrs. Kilgore Quits State Parks Post, To Enter Race For Lieutenant-Governor

Mrs. Ben Kilgore, Director of Kentucky State Parks, resigned this week to enter the race for the Democratic nomination for Lt. Governor, first woman to seek the office.

She issued this statement: "I am announcing as a candidate for the office of Lieutenant Governor to finish the race my husband, Ben Kilgore, began in 1951; to work and pray for clean, honest, efficient, progressive government in Education, Health and Welfare; for Communications—roads, airports, railroads and waterways; for a balance between Industry and Agriculture; to promote the Tourist Industry and Recreational Program in Kentucky.

Mrs. Ben Kilgore 'running on record'

"I will run on my record as Director of Parks and Ben's record made during his many years of service to Kentucky and especially in Kentucky agriculture. I will win because our records far surpass that of any other candidate. I am adequately financed and I have a state-wide organization. I will win the race for Lieutenant Governor in the primary, women and young people of Kentucky dedicated to better government. The Christian family, the foundation of this great country of ours. I am doing nothing new—just carrying on as the pioneer women did."

"Please come join me—my friends, Ben's friends, our children's friends, all friends of Kentucky. I need your support, your help and your prayers. Let us all join hands and work for a better Kentucky for all Kentuckians."

"I will file in the near future and at that time, state my platform. I will request a leave of absence until after the primary. When I have won the primary, and I am confident I will, I will return to my position as parks director (until it becomes necessary to campaign again in the fall), finishing the job that Gov-

ernor Chandler asked me to do—run the parks.

"How to accomplish this? With enthusiasm, hard work, determination and faith—in myself, in my fellowman and in a loving and all-powerful God. I will slip mine eyes unto the hills from whence cometh my help. My faith cometh from the Lord which made Heaven and Earth.—Thank you, and God bless you all."

JANUARY JOBLESS

The number of unemployed rose in January to 4,724,000, the Commerce and Labor Departments have reported. The rise of 600,000 was seasonal and only half as great as that of last January, when the recession was deepening. But the total of jobless, reflecting the slow recovery in employment, was the highest for any January since before World War II.

Fishing solves a surprising number of problems.

conquered by a mighty warrior. "Mike was breathless and walked slowly away from his conquest. He crossed the road and began making his way through the streets.

"He had visited the places in his dream. Mike returned to his old home as the dawn began to be noticeable across the horizon.

"Just then Gertrude Waby and a friend approached the house.

"What was that?" Gerald asked.

"What?"

"I saw something white, practically transparent go over there."

"Probably nothing."

"Yes, probably nothing," Gerald agreed.

"Michael O. Butts had returned to heaven."

Heavy Smokers Face Lung Cancer, Surgeon Declares

(From Reader's Digest)

A world-famed chest surgeon makes a grim prediction in the March Reader's Digest. Says Dr. Alton Ochsner: "Every heavy smoker will develop lung cancer—unless heart disease or some other sickness claims him first. Of every 100 persons who develop the disease, only five will be alive five years later.

In an article condensed from a publication of the American Medical Association, Dr. Ochsner tells author J. D. Ratcliff that lung cancer's toll in the United States has leaped from 2,500 in 1950 to an estimated 35,000 last year. Cigarette sales for the same period rose in almost identical proportion.

No self-respecting gambler would accept the odds that face lung cancer victim. Of every hundred cases, 45 are so ravaged by the time they see a doctor that surgery is a waste of time. Another 11 die on the operating table. Twelve more have their chests closed without further surgery after inspection shows them to be hopeless; they die within a few months.

The remaining 32 face one of the most massive operations in the usually delicate surgical domain. Days of pain follow these operations. Even worse, every patient must endure at least five years of agonized suspense before he can be considered cured. Only five of the original 100 victims survive these five years.

The rapid growth of lung cancer makes early discovery imperative. Every heavy smoker over 40 owes himself the minimum protection of having a chest X-ray at least every six months, preferably every three months. With such precaution, Dr. Ochsner believes, lung cancer might become 50 per cent curable, instead of 95 per cent fatal. The article, "The Growing Horror of Lung Cancer," is condensed from Today's Health.

If everyone gave one minute of time per day to a charitable act, it would increase life's pleasures and life's accomplishments.

After hundreds of years of proof to the contrary, some mothers and fathers still think they can best choose a mate for Junior.

UPS AND DOWNS

The wife of a middle-aged business executive met him at his office late one afternoon. As they were going down in the elevator, it stopped and a high-octane secretary got on. Poking the executive in the ribs she said gaily, "Hello, cutie pie!"

Unperturbed, the executive's wife leaned over with a smile and announced, "I'm Mrs. Pie."

Shooting Matches Played Prominent Role In Kentucky

Since marksmanship was a source of pride in pioneer Kentucky, shooting matches were part of the frontier social life.

One of the most famous targets of the early sharpshooter was the "barking" squirrel, not only a pest, but a toothsome dish broiled, fried or cooked into a pot pie.

To avoid tearing the flesh with a bullet, the Kentucky marksman would hit the bark directly below the little rodent and send it whirling. Bob Daniel Boone and George Rogers Clark were adept at this sport.

Another favorite Kentucky shooting pastime was "driving the nail" after a small wager had been made. From 40 paces, the marksman would aim at a common sized nail hammered about two-thirds of the way into a tree. The indifferent shooter would hit close to the nail; the better one would bend the nail and the expert would drive it all the way into the tree.

"Snuffing the candle" was a popular fire sport. A group of experts would gather around a fire and shoot at a candle, all but invisible in the dark some 50 yards away. This improved the riflemen's night hunting, for a torch would reflect in the eyes of a deer or a wolf with just about the same intensity as the candle would flicker at 50 yards.

To win these matches took skill. The squirrel shooter usually could skin the bark beneath his target in one shot. The Kentucky marksman generally could hit the head of the nail one out of three shots and often had to drive in two nails to win a match. Extinguishing three candles out of seven was a fair score for the candle snuffer.

COMBS SUPPORTERS—This is the Rowan County delegation that attended a Bert Combs-Wilson 'Meet the Team' rally last week at Winchester. From left: Barry T. Combs, H. K. Taylor, Elijah Jones, Don Jones, Carl Jones, Don House, Anderson Jones, Claude McGuire and Wilson Wyatt. Taylor was recently named to the group's advisory committee from the 7th Congressional District.

ABOVE NATIONAL AVERAGE

Bank Deposits By Rowan Countians Up 22½ Percent

Savings have climbed to a high level in Rowan County. On the basis of money in the bank, one of the important indicators of economic strength, local residents have advanced to new heights in the last two years. The story is told in a biennial report just released by the Federal Reserve System. It gives bank deposit data for every county in the United States.

At the beginning of this fiscal year, it shows, money on deposit in Rowan County's savings and commercial banks reached \$5,927,000. This consisted of time deposits (savings accounts) and demand deposits (checking accounts)

DISCIPLES OF CHRIST

What are the "Christian Churches"?

They ARE usually called "The First Christian Church of Your town."

Today we are a "brotherhood" of more than 8,000 churches, with more than two million members in the United States and Canada.

Our "brotherhood" had its beginnings in America in the early 1800's—to work for two goals:

First was to realize the simple ideal of the early churches of the New Testament. We have never created special creeds, and we have felt each individual should be free to interpret the Bible for himself.

Second was to work for real unity among all Christians. We have led in promoting Christian cooperation among all Christians (the "ecumenical" movement) for we believe that all share the same basic beliefs.

We hope you will feel a warm welcome in any one of our churches. The door of every Christian Church is open to you.

Morehead Christian Church
RAY ALLEN, Pastor

Miss Anderson Has Leading Drama Role

Miss Mary Ann Anderson, daughter of Mr. Ross C. Anderson of 138 West Main Street, Morehead, has been selected for one of the leading roles in the Student Production play, "Squaring the Circle," being given at Otterbein College, Westerville, O. This Russian comedy is being directed and produced by the students. Miss Anderson is remembered for her excellent performance in the last college production, "Oklahoma" at Ado Amie.

Mary Ann Anderson at Otterbein

School Bond

Under the wording on the ballot a 'Yes' vote is approval for the Board of Education to proceed with issuance of the bonds and construction of the new high school. It would probably be built close to the Grade School building on Flemingsburg Road, property which the county school system already owns.

The rise was greater than that attained in most parts of the United States, where it averaged 18.4 per cent. Locally, as well as in most other parts of the country, the savings pattern of families has been affected by the recession. The trend has been to retrench. By no means did they do this drastically. They just deferred some of their spending, especially for items involving big outlays and installment debt. The rest they put into savings, investments and the retirement of old obligations.

According to the President's Council of Economic Advisors, Americans are currently saving at the enormous rate of \$20 billion a year. For every dollar they own they have assets worth more than \$1 available.

The Federal Reserve concluded, after a recent study, that three out of four families have no debt at all or owe less than \$500, exclusive of mortgage and business debt.

The general public, as a result, has an enormous reservoir of funds at its disposal. The potential is present for a big buying spree when the people decide the time is ripe.

Advertising induces people to take money out of the bank, from a sock, and spend it. That's why advertising creates business.

No greatness exists unless it is based upon principle and not upon profits.

The average club, or organization will grab almost any excuse for a supper.

Founders Day Observed By Local PTA

Founders Day was observed at Monday's meeting of the Morehead Parent Teachers Association.

A skit, "What P.T.A. Means to Fathers," was presented by the drama and speech department of Rowan County High School.

Students participating in the play were Nelson Trent, Russell Burrows, Donald Royce, La Vaughn Myhner, Babe Ramey, David Coldiron and Faye Raye Nelson.

nature, "Our Objects, Then and Now," conveyed the past and present meaning of the P.T.A. to the school, community, students and the obligations of its members.

Taking part in the presentation were Johnny Myhner, Bonnie Temple and Larry Linville, Wanda Day, Janet Kaye Lewis and Ruby Franklin.

Book-type programs, including biographies of P.T.A. founders Alice McEllen Birney and Joseph Apperson Hurst, given members of the group as they arrived. The programs were compiled by the commerce department of Rowan County High School under the supervision of Mrs. Nolan Fowler and in cooperation with the drama and speech department.

Mrs. Weisenberger is a past president and is now 12th District president. Mrs. Bazar is the present president of the Morehead unit.

A Founders Day offering was made by members and Mrs. Weisenberger explained how this money is used for leadership training in the P.T.A.

Rev. Ray Allen, vice president of the Rowan County School Improvement Committee, spoke on the school levy election and what it means to the community and Rowan County.

Mrs. W. H. Rice and Mrs. John Allen, Jr. of Rowan County High and Breckinridge Training schools, served refreshments from a lace-covered table. The Founders Day and Washington Birthday theme (centerpieces were contributions of Mrs. Rice's Cub Scout Den.

An expectant mother, elevator- to the maternity ward in the hospital was started to hear the operator murmur, "Second floor—broken bones, broken toenails, pretty nurse." The third floor brought a low recitation of "Operations, plain and fancy, clean beds, costly doctors" and the fourth, "bandages, sprains, neumatism and Chago." She strained her ears to hear how her destination was announced. It was simple: "Fifth floor—American Production Company."

DEMONSTRATION LAMB—This is one of 42 Western ewe lambs being raised by Millie Perkins as a demonstration under the supervision of Morehead State College's Agriculture Department. Examining the lamb are, from left: Francis McTee and Granville Holbrook, students at Morehead State College; and H. C. Haggan, head of the college's Agriculture Department. An additional flock of 20 lambs are being raised on the farm of Chesnut James on Christy Creek.

Miss Bayless Named Member Of Touring Choir

Sue Ellen Bayless, daughter of Mr. and Mrs. D. E. Bayless of 233 Wilson Avenue, has been named a member of the touring choir at Transylvania College, Lexington. It was announced recently by Harvey O. Davis, choir director.

The Transylvania College Cappella choir has gained an enviable reputation during the past 25 years, when it has been heard throughout most of the Middle West and South. This year the 48-voice organization, which sings the best in the musical literature from the time of Palestrina to the present, will tour to Florida and back, covering five states and some 2,000 miles. The annual choir tour will be held during the spring recess at the college, from March 20 to March 30.

Miss Bayless is a sophomore majoring in music. She is a graduate of Breckinridge Training School.

Rural and Farm Agencies Join Forces To Sponsor Model Farm Program For E. Kentucky

Economic Development is kicking off the experiment with a \$2,000 grant from research fund appropriated by the Legislature.

Hubley said a number of projects are under consideration, including feeder pigs, feeder lambs, soil conservation, water conservation and timber marketing.

Since 1956, the Board has allocated nearly \$75,000 for research projects designed to bolster farm income.

Agencies participating include Vocational Agriculture, University of Kentucky Extension Service, Soil Conservation Service, U.S. Forest Service, Forestry Division of the Kentucky Department of Conservation, Farmers Home Administration, Kentucky Bankers Association, Agricultural Stabilization Committee, Rural Electric Coop Corporation, Kentucky Utilities Company and the Department of Economic Development.

NEW PREXY—Don Holloway, dramatics and speech instructor at Morehead State College, has been elected president of the school's Alumni Association. Holloway has been elected to the office of vice-president of the Kentucky Joint Alumni Council.

Kenland Clover Tops In Ag Station Tests

Kenland red clover, this state's home-developed variety of red clover, topped all other red clover varieties in a three-year yield and vigor test conducted by the Kentucky Agricultural Experiment Station.

Kenland cut six times in the test in contrast to three to four cuttings for the other testing varieties—yielded 5.28 tons of matter an acre. Dry matter is about 88 per cent of forage by weight, which means Kenland produced 6.13 tons of hay.

Reinhold was second in the Woodford County farm test, with 4.25 tons of dry matter; Chesapeake, 4.15 tons; Sanford, 3.17 tons; Kentucky Common, 2.82 tons; Van Atta, 2.59 tons; Wisconsin Synthetic, 2.24 tons; Dollard, 2.06 tons; Midland, 1.46 tons; and Oregon Common, 0.16 tons.

The test showed again that Kenland is superior under Kentucky conditions. All the varieties tested, if added, are available except Van-Atta—Kenland farmers still will do best with Kenland, the variety best adapted to this state.

Hall And Mullins At Camp Lejeune

Marine Sgt. William R. Hall, son of Dr. H. H. Hall of Morehead, and Marine Pfc. Donald W. Mullins, son of Mrs. Lovie H. Mullins, took part in the 18th anniversary celebration of the 2nd Marine Division, Feb. 2, at Camp Lejeune, N. C.

Formed in San Diego, Calif., Feb. 1, 1941, the Division, during the week, held day-long activities highlighted with a full scale parade and special meals in the mess hall. The parade's reviewing officer was Lt. Gen. E. A. Pollock, USMC, Commanding General, Fleet Marine Force, Atlantic.

The Division, which trains year-round to fulfill its role as a force-in-readiness, has been based at Camp Lejeune since 1946.

NO DELAY ON PARLEYS

President Eisenhower has said that there would be no delay in possible negotiations with the Soviet Union on the future of Germany as a result of the illness of John Foster Dulles.

Living Cost Up Slightly In January

Still Below November 1958 Record High

The cost of living edged up one-tenth of one per cent in January. It was still slightly below the November, 1958 record high.

The Labor Department reported this week that rising food prices more than offset a slight decline in the rest of its consumer price index.

The index stood at 123.8 per cent of the 1947-49 average. This was one-tenth of one per cent below the all-time peak.

Ewa Kluge, commissioner of the Bureau of Labor Statistics, said the nine months since April 1958, have been the longest period of comparative price stability since the index was established on its present basis in 1940.

It has fluctuated within a range of four-tenths of a point on the index.

Although spendable earnings and the buying power of factory workers dropped from December, they were at record levels in 1957 that a monthly earnings record has been reached.

The price stability of recent months means there will be no increase in wages for 14 million automobile, aircraft and farm implement workers whose pay is adjusted to movements of the index. They have had no cost-of-living increase since 1956.

About 82,000 workers, mostly in the aircraft industry, whose contracts have a formula on a different base, will gain a penny-an-hour pay increase. These workers have taken a one-cent drop in October.

Clague said the outlook for the next few months is continued comparative stability in living costs.

There was no sign, however, that the administrator's fear of a resumption of inflation later in the year has abated.

Actual services to mothers and children are provided by county health departments, but the division has the responsibility for promoting these programs and providing professional guidance.

The agency reports that the largest number of infant deaths in the Commonwealth. The division maintains an incubator loan service, with 26 incubators available on a permanent basis for use in homes and hospitals.

Services are provided to the preschool child through well-child conferences. Last fiscal year immunizations totaled 172,509 at these conferences, the agency said.

The division examines and licenses midwives and reports that last fiscal year there were 2,541 deliveries by midwife in Kentucky.

During the year prenatal classes and clinics were extended to 2,289 expectant mothers, the agency reported. Its mental retardation program included audiological testing of severely retarded children at Kentucky Training Home, Frankfort. The bureau says it is encouraging and helping establish poison control centers in hospitals throughout the state.

Set Performances Of 'Gray Bread'

The Breckinridge Training School Speech and Drama Club entry in the Regional Drama Festival received a superior rating. The Festival was held at Morehead State College on Saturday, Feb. 14. Breckinridge Training School participated in the class "C" division due to its enrollment of less than 249 students in high school.

The club presented a one-act play by Jean L. Latham entitled, "Gray Bread". It was produced by special arrangement with Row, Peterson and Company of Evansville, Ill.

The cast included Susie Caudill, Betty Mays, Martha Waltz, and Judy Hickey. Betty Higgins is assistant director for the production. Donald F. Holloway, speech and dramatics teacher at the Training School, directed the play.

"Gray Bread" is scheduled for performances during the next few weeks. On March 3, it will be presented to the Rowan County Woman's Club. It will also be presented to the Breckinridge student body before going to the State Drama Festival at the University of Kentucky on March 9-10.

Fashion Proves A Fickle Goddess

Fashion is a fickle goddess; at a royal hunting party, whose head has been turned by everything from bunions and betts to politics and even the winds of chance.

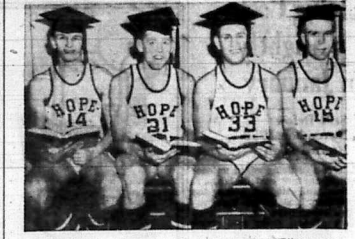

A London dress designer, for example, recently attributed the popularity of the sack dress to a reaction against the curves of Jayne Mansfield and Marilyn Monroe.

Queen Victoria reacted differently, however, when Albert cast admiring eyes on a Scottish peasant girl dressed in a red flannel petticoat.

According to the re-creation department of The World Book Encyclopedia, the queen ordered a red flannel petticoat for herself, and began the fashion typical of her reign.

The French Revolution took the frills out of Parisian dress for a while, and substituted its own simpler tone. The guillotine left its mark in the Titus culture, cut very close at the back with the front arranged in loose ruffles.

Another hair style was initiated off the hat of the Duchesse of Fontenay, when the wind blew.

WITH HOPE... These four hoopers all made a "B" average scholastically while helping Hope College (Mich.) place 20th in the nation.

W. H. Rice Completes Twenty-Ninth Year Of Service At Morehead State College

Described as being personable and very witty by some of his associates, Mr. Rice is an active member of the Morehead Men's Club and has been for about 20 years. In addition to this he is a member of the Kentucky Society of Professional Engineers, the American Society of Civil Engineers, and of the American Water Works Association.

His name may also be found on the roll books of the Southeastern Regional Association of Physical Plant Administrators for Universities and Colleges. And that's not all. He is a licensed professional engineer and water works operator.

When and if he ever has spare time Mr. Rice has a few very special television programs that he likes to watch.

So the next time you see the man with the cigar as his trademark think back on this story to the talents he has and the work he must do to keep this campus going!

REPAIR SHOPS MOBILE Lightweight aircraft maintenance shops that can be transported by helicopter and maneuvered on the ground by standard two- and-a-half ton Army trucks are being developed, according to the Department of the Army. The self-contained shops are designed for use by Army aviation units in performing light maintenance work under conditions found in field operations.

What has become of the little fellow who taught, some years ago, that the world was on the lookout for an intelligent, modest and honorable man?

IT'S THE "TOTAL THAT COUNTS"

Second Beginning Teachers Meet To Be Here Friday

The second annual conference for beginning teachers will be held on the Morehead State College campus this Friday, Monroe Wicker, Director of the Division of School Services has announced.

The purpose of the meeting is threefold. These purposes are: first, to find out the major difficulties our teachers are experiencing; second, to evaluate the Morehead State College teacher-training program in terms of the student teachers; and third, to find out the kind of help the college may offer to teachers in service.

The day's activities will begin with registration at 9 a. m. in the Doran Student House. The morning session, beginning at 10:00 will include a panel discussion, "Experiences of Beginning Teachers," followed by meetings of discussion groups.

Panel participants will include Joyce Brown Chaney, Jenkins, Ky., English teacher, chairman; Mary Northcutt, Beckridge Training School supervising teacher; Joe Bayless, Oblong, Ill. science teacher; Bobby Brewer, Morehead State College student; and Mary K. Egan, West Liberty, Ky. elementary teacher.

Discussion group leaders will be Marjorie Gilbert, Carter County art supervisor; Dorothy Murphy, Morgan County English teacher; Ann Karrick, Mt. Sterling phys-

FLYING HIGH... Little 10-month-old Alice Ann Odenbreck was chosen honorary plane captain by the crew of the airplane that flew her to Holland.

Dignitaries To Participate In Court Conference

A personal representative of President Eisenhower and a former Kentucky State Police commissioner will be featured participants in graduation ceremonies at the Kentucky Traffic Court Conference.

Deputy Commissioner of Public Safety James E. Bassett said William J. Bethea, executive director of the President's Committee for Traffic Safety and former Commissioner of Kentucky State Police P. A. B. Widener will participate in final sessions of the traffic court.

The conference, March 4-6, will be in the Allen Court Room of the University of Louisville, and is being presented by the law schools of that university and the University of Kentucky in cooperation with the Kentucky Department of Public Safety.

Leaders in the legal, traffic safety and civic fields from throughout the State and nation will appear on the program of the three-day sessions. The conference will be attended by judicial officials, attorneys and law enforcement leaders from all over the Commonwealth.

Betheta called the conclave "one of the most outstanding steps taken in the realm of traffic safety in Kentucky within recent years."

Widener pointed out that the importance of the role of the traffic court in traffic law enforcement cannot be over-emphasized.

A letter co-signed by Gov. Albert B. Chandler, Attorney General M. Ferguson and Mayor C. Montgomery, chief justice of the Kentucky Court of Appeals urged officials. "Lend your support to this seminar by attending personally and urging other court officials to be present."

Envy supplies the motivation for about 50 per cent of the world's small talk.

Occupant Thought Letter Was Misread

Kenny Sherrard, a Louisville mail carrier, meets all kinds of people.

"But nothing will top the man who ran out of his house after I'd dropped a letter marked 'occupant' in his box," Sherrard recalls.

"Hey," the man yelled, "nobody by this name lives here."

Search Is On For "Mother Of The Year"

The search is on for Kentucky's 1959 "State Mother of the Year." She will be selected from nominations sent to Mrs. Harry Peters, Trenton, Ky., chairman of the American Mothers Committee for Kentucky. Nomination blanks are being distributed statewide to women's organizations, religious groups, individuals and others.

When the Mother of 1959 is selected she will be especially honored in her own state with a citation at a ceremony. Mrs. Peters said. The Kentucky mother will be eligible for selection as American Mother of 1959 which will be made by the American Mothers Committee from the state winners.

The state and national mothers are chosen each year. Mrs. Peters said, "as a symbol of ideal motherhood, to emphasize the importance of the role of the mother in the home, the community, the nation and the world, and to highlight the career of motherhood."

The primary objective avowed by the committee is "to develop and strengthen the moral and spiritual foundation of the American home."

Mrs. Peters appointed these district leaders to aid with distribution of nomination blanks: Mrs. Ernest Hilliard, Clinton; Mrs. Ruth Calloway Moss, Bowling Green; Mrs. Ruth Scott, Irvington; Mrs. Harriet Akers, Carrollton; Mrs. E. C. Moberly, Richmond; Elizabeth Holliday, Jackson; Mrs. Gertrude Hilton, Mt Vernon; and Mrs. Grayford Schroeder, Louisville. Mrs. Moberly was state mother in 1945 and Mrs. Holliday in 1958.

PONTIAC NAMED CAR OF THE YEAR

"Pontiac with wide-track wheels is the best combination of ride... handling... performance and styling of any '59 car" —The Editors of Motor Trend Magazine

In making its annual automotive award, the staff of Motor Trend Magazine, leading automotive publication, tests and evaluates all new cars. Here are quotations from the April 1959 issue:

"The stability of the 1959 Pontiac is the outstanding automotive advance of the year. Everyone considering a new car should experience it."

"It's the best balanced passenger car in America. We firmly believe that in moving the wheels farther apart, to develop the widest stance of any American car, Pontiac has created an entirely new sense of balance and handling security."

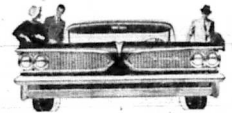

"Pontiac's lines are clean, simple and beautiful. It has a fleet look, a trim appearance. The wide wheel design contributes greatly to its

over-all integrated styling. Any comparison with narrower track cars readily shows the difference."

"For the economy-minded, an efficient new engine. The new 4201 Tempest economy engine offers remarkable performance along with exceptionally high mileage while operating on regular grade gasoline."

"Pontiac is again tops in performance, based on our extensive road testing. Acceleration is outstanding, yet the engine is unusually quiet and smooth."

Your nearest Pontiac dealer will be glad to let you road-test this award-winning automobile on your own. You see why it's the year's most talked-about car!

THE ONLY CAR WITH WIDE-TRACK WHEELS

Wheels are five inches farther apart. This widens only the stance, not the car. Pontiac takes a better grip on the road, hugs tighter on curves and corners. Sways and lean disappear, ride is smoother, balanced, steadier. Handling is easier. You drive with a new confidence, a comforting security. Pontiac gives you roadability on a "narrow gauge" car too.

FREE! If you would like a report of the road tests and evaluations on which Motor Trend named Pontiac "Car of the Year," see your Pontiac dealer or simply send your name and address on a postcard to Pontiac Motor Division, Department 10, Pontiac, Michigan.

We Are Moving Along In The World Much Faster Than Our Brain Power Is Developing

By Clennie Helton

In these trying times of abolishing at the moon and trying to satisfy the needy, we just none of us have enough thinking power to keep us on the right track. We are moving along in this world much faster than our brain power is developing. At times, I believe that a feller's legs will have him run to death before his brain realizes what the feller is supposed to be doing. I went to the house three times today for a milk jar for to get milk in the third time I got the jar but I were so mad that I felt like busting the thing over the earth. Then I got in the Jeep to go get the milk and went all the way up to Pap's house before I found out that I hadn't fetched the milk jar along with me. Such capers will soon wear a feller out before his time. Everybody is a fussing as to how they can't remember nothing hardly and it takes them much longer than usual to get anything done. People are hurrying along too fast. Our minds are capable of keeping up with our pace.

Ernest Kincaid were a settler there in the chestnut comfort home when someone asked him if something were wrong with one side of his face. He said his face were alright.

"Then why did you just have one side then?" the feller asked.

Ernest ran his hands over his face. One side were shaved, the other side weren't. "Well, I'll be daddimmed," he said.

Here is Ernest, a supposedly smart young man, a visiting with his neighbors with only one side of his face shaved! We ain't a keening up with time as tall.

"Me and a polecat met up in my chicken house. The polecat were a stealing my chickens and I were fed of him a doing such things. Can't do nothing 'bout people a stealing, but I certainly put a stop to that polecat's pilfering. But good gosh a mighty, it when I hadn't a done it, it when I hadn't a done it, I stirred up a awful stink out there in that hen house and me right in there with him. The family didn't appreciate me a coming back to the house a bragging 'bout killing that polecat either. I smelt bad. You can get rid of varmints a stealing hot juveniles can track their foot under their arms and hide behind the legs of a Welfare Social working organization and make laws as you as you approach them. The Welfare Social workers will explain to you how the poor little fellow stink because of a psychological factor and he must be handled carefully. Juveniles are

New York Couple Enjoys Rest At Cumberland Falls

Each winter from November to April Mr. and Mrs. Charles Tibbets of North River, N. Y., call Cumberland Falls State Park near Corbin, Ky., home.

In summer the Tibbets' own and operate a busy resort called the "Lois House" in upper New York. After these months of hustle and hard work they feel that quiet and relaxation can best be found at Cumberland Falls.

They drive from North River to Corbin in November and settle down in cottage No. 1 at the park. There are few trails which have not been explored by the Tibbets. James Draughn, superintendent of Cumberland Falls, says the Tibbets make themselves "right at home" and are treated by park personnel as real "home-folk."

Many of their meals are prepared in the cottage kitchen with grocery supplies purchased at nearby Corbin. On Sunday the Tibbets go into town to attend church or they join in the devotional services at the lodge. In the evenings they enjoy television and catnaps in DuPont Lodge with the Draughns and other park guests.

"We enjoy the park and park life," Mr. Tibbets says, "and feel the quiet we find here is the ideal life we want to live in winter." For several years, they explain, they went to the deep South for their vacation but did not find that climate to be best for them. They prefer the mild winters and seasonal changes of Kentucky. They claim they can live cheaper at Cumberland Falls than at home during the same period.

In Kentucky, they are outdoors most of the year, while in their area of New York they are often snowbound and forced to stay inside, they say.

The Tibbets' son, who attends the University of Pennsylvania, spent Christmas at Cumberland Falls with them. Of course their beloved dog Pitch is their ever-constant companion.

ASSURES CONGRESS

A spokesman for the Airport Operators Council has told Congress that it had no reason to fear that Federal funds would be used for luxury spending in the construction of terminals.

He expects to get much of what is a going around. With I had me a place to move to down there."

Herbert Laties claims there too many widows and bachelors around up in here. He is forming a Lonely Hearts Club to take care of these persons. He lives at Fillmore and can be contacted there.

ACTRESS & AUTHOR... Marilyn Monroe (the lady on the left if there are any doubters) meets Danish author Isak Dinesen at the home of writer Carson McCullers in N. Y.

Rowan Library Has Over 300 New Books

Rowan County's library, Flemingsburg Road, reported today receipt of 300 new books from the Extension Service.

The library now has all of the Zane Grey series plus most of the books written by Ernie Loring and Grace L. Hill.

The library made this statement:

"We now have many new books for juniors, including science and space publications.

"In addition we have received some of the most modern fiction for adults and juniors as well as easy-to-read books for early-school and pre-school children.

"Your library hopes to begin a community story hour for pre-school children on Friday afternoon. Mothers should contact the library for full details, and the success and continuance of the story hour will depend on how many take advantage of this, for which there is no cost."

Guthrie Hayes is the Rowan County librarian.

There is something to be said for the good old days when neighbors shared their fruits and vegetables, their joys and their sorrows.

High School Band Clinic To Be Held Here This Week End

The Morehead State College department of music will be host to the second annual Eastern Kentucky Band Clinic Friday, Saturday, and Sunday of this week. Dr. J. E. Duncan, head of the department announced recently.

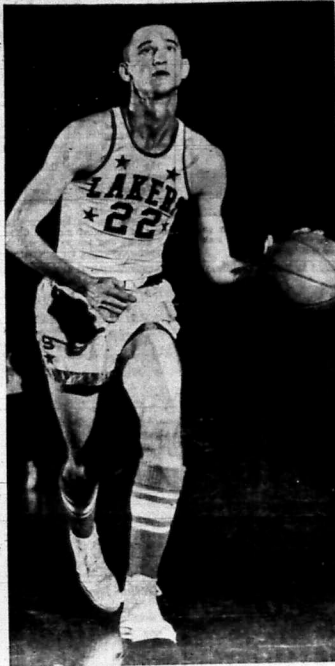

The clinic is open to all high school band students in the area served by Morehead State College, as well as their band directors. The students will compose a full symphonic band of 100 pieces for the purpose of providing them an opportunity to participate in an ideal band situation and expose them to new band literature.

Guest clinicians will instruct in the various areas of the band program during the three-day meeting. Seminars for the purpose of demonstrating and instructing the students and other participants will be held in flute, oboe, bassoon, clarinet, french horn, cornet and percussion.

Byron Anstry, cornetist from Michigan State University, will lead the discussions of that instrument. Anstry is a correct instructor and a soloist of national repute.

Seminars in the study and application of proper methods in percussion will be led by Charles Simons, leader in nationwide percussion clinics.

Also serving as clinicians will be all members of the American Woodwind Quintet from the University of Indiana. They include Keith Kummer, oboe, Henry Gu-

FORMER MOREHEAD ACE Steve Hamilton is now playing with the professional Memphis Lakers of the National Basketball Association. Steve, a 6'7" forward, has seen considerable action this season as a part of the Lakers' rookie trio including Elgin Baylor, destined for rookie-of-the-year honors, and Alex "Boo" Ellis, former Niagara University star.

President's Council Will Sponsor Better-Dressed Week Here March 2-6

The second annual Better-Dressed Week on the campus of Morehead State College has been scheduled for the week of March 2-6.

The President's Council, under the supervision of Dr. Aaron Doran, president of the college, is sponsoring the week and has taken charge of the program. This week is being observed in conjunction with a statewide better-dressed program.

On Tuesday of that week members of the Council are holding their regular meeting in the form of a formal dinner meeting in the Doran Student House.

The convocation program for Thursday, March 5, is also in keeping with the Better-Dressed Week. There will be a style show of what the better-dressed college student should wear.

A semi-formal dance on Friday evening will be the final activity for the week. Bobby Martin and Betty Conley are serving as chairman for the style show committee with Charlie Jones, Tom Hummer, Bob Brewer, Betty Cooper, Joyce Bebecher, and Pat Spencer assisting her. The Home Economics Club will also be helping this committee with its work.

The purpose of the week is not to have everyone stretch their budget to the "nath degree" for a new wardrobe, but to promote neatness and better taste in what's being worn on campus.

KID'S HERO... Cuban leader Fidel Castro talks with barefoot youngsters on a rice farm. The children's parents benefit from Castro's new reform program.

\$100 Million Paid Neady, Unemployed

Nearly 100 million dollars was paid to unemployed workers and needy families or individuals during 1958 under programs administered by the Kentucky Department of Economic Security, the agency reports.

The department added: This was an increase of 19.2 million dollars over 1957's sum. To help counteract the worst economic recession of the last two decades, unemployment insurance payments were increased by 16.2 million dollars to a record high total of 49.8 million dollars in 1958.

Of this, the Kentucky trust fund provided 46.4 million dollars and special federal funds 3.4 million dollars for veterans and federal employees.

Public assistance payments in 1958 totaled 50 1/2 million dollars, an increase of three million over the previous year. Payments included 27.6 million dollars for the needy aged, 17.4 million for dependent children, 3.5 million for the permanently and totally disabled, and 1.6 million for the needy blind.

Go-getters, as a rule, are often careless about what and how they get.

Most schemes for making money revolve themselves into the intelligent application of perspiration.

AFL-CIO Asks Congress For 35-Hour Week

Necessary To Provide Jobs For Millions Idled By Machines

AFL-CIO leaders asked Congress this week to legislate a sharp cut in the American work week immediately. They said this is necessary to provide jobs for millions idled by increasingly efficient machines.

The federation's executive council called for a reduction of the present 40-hour week, 8-hour day limit in the Fair Labor Standards Act to 35 hours a 7-hour day. Beyond that, overtime pay rates would apply.

The council urged Congress to make the 35-hour week effective for employees of the federal government.

George Meany, AFL-CIO president, said organized labor will push hard for such legislation and redouble efforts to accomplish the same result through collective bargaining contracts.

Meany said some unions already enjoying a work week of less than 40 hours will strive to get below the 35-hour goal.

The council statement said that in the 21 years since Congress set the 40-hour week "America has made tremendous technological progress which justifies and makes possible further reductions in the work week."

The growing efficiency of the American economy, the council said, is demonstrated by the fact more than one million fewer factory workers are employed now than in 1942, yet the output has been multiplied.

Meany said the immediate drive to get Congress to reduce the work week is part of a triple play effort to amend the Fair Labor Standards Act.

Other federation goals, he said, are to raise the present 11 hourly wage minimum to \$1.25 and to broaden the law's scope to cover eight million to 10 million of perhaps 20 million workers now exempt.

At present the law covers about 24 million workers.

A new batch of AFL-CIO economic statements blasted policies of President Eisenhower's administration. They said the nation's basic economic problems are to provide more jobs and promote economic growth.

At present the law covers about 24 million workers.

TWO BIG REASONS why the Morehead Eagles will be expecting a greater season next year are these two towering freshmen performers. At left is Doug Cundiff, 6-4 forward from Breathitt County High, and at right is Ed Hox, 6-9 ace from Mt. Clemens, Michigan.

Eastern Kentuckians Told They Must Wait Turn On New Highway Projects

Eastern Kentuckians were told last Thursday they'll have to wait their turn on highway projects.

Federal and state highway officials, called to a meeting at Hazard to discuss local economic problems, said money is the big factor in road projects.

And, they added, similar demands for highway projects are being made elsewhere in the nation and the state.

J. C. Cobb, Kentucky division engineer for the U. S. Bureau of Public Roads, said highways are built "on the basis of want and need. Priorities are based on need. Need is based on the volume of traffic."

The current priority system drew criticism from John D. Whisman, executive secretary of the Eastern Kentucky Regional Planning Commission.

Under the present rules, he said, Eastern Kentucky will never get the roads it needs to improve its economic condition.

The commission has suggested a 600-mile network of roads to give Eastern Kentucky commercial outlets to the Bluegrass and to provide a scenic tourist route.

Highway Commissioner Ward J. Oster, who also attended the meeting, has endorsed the net-work plan as a future project.

Hazard officials have said they're faced with the problem of having a demand for new housing projects without space to build on.

They outlined plans calling for a 6-mile re-routing of present roads to provide a bypass around Hazard.

The bypass, they said, would leave room for expansion and still provide access to the area.

Oster said he would consider the matter but added federal approval would be necessary before funds to match state money could be made available.

Insurance executive J. F. Huwel of Cincinnati said his firm, the Prudential Insurance Co., has \$ million dollars worth of loans outstanding in the Hazard area without a "single delinquent account."

He said the company was lending money with confidence, adding as long as there is coal there will be a demand for it.
