TUESDAY!

ALL INVITED

STUDENT CENTER

SEPTEMBER 22, 1969

Now don't you look just marvy! Sue Chow exhibits a freshly made Parkland I.D. card, which may never be exhibited by the bearer unless absolutely necessary. Sue is a Business Ed, major from Urbana. The card she holds is for just one of our 1652 students that registered Monday and Tuesday, with an estimation of over 1700 including night registration.

BY TOM KLAY

## Students Approved Paper

If Students from last year have anything to say about it, Prospectus, PC's student newspaper, appears to be in for a long life and a good future. In a recent poll taken at the college, students queried replied vastly in favor of continuing the paper, although many suggested amendments to the paper's present form.

Students were interviewed at several of the college's many locations. Polls were taken at the Student Center, the Learning Resource Center, and the Science Building. Approximately 50 stu-

dents were interviewed on the question, "Should Parkland's newspaper, Prospectus, be continued? Are there any suggestions you would care to make regarding future newspaper policy?"

The percentages ran about like this:

Those in favor of continuation, 78%

Those opposed to continuation, 18%

No opinion, 4%

Some suggestions were made, although many of the students replying wished to remain anonymous.

ideas included more editing, more nation-wide college campus coverage, and more special feature articles.

Randy Smith, one of those who gave his name with his suggestion, commented that the paper needed "to cover more campus events". However, Brian McLane, a second year student from Arcola, thought the paper, in his own words, "had the right idea".

Controversy over an editorial run by the Prospectus a small-town newspaper writer was the main reason for the poll.

## Drawings For Campus Completed on Schedule

by JIM MICHELETTI

"The campus drawings and blueprints are completed on schedule and we're ready for bids", announced Dale Sprankle, architect and designer of the future permanent Parkland campus, in a progress report

to the PC Board of Trustees at their meeting last Tuesday.

Very accurate and well-done drawings of the campus hung on the wall in the meeting room. Two drawings were of an aerial view, one of a side-see-thru view, and one of a close view perspective of two of the buildings. Sprankle stated these drawings were from the final design of the campus. He pointed out certain parts of the campus in detail.

"We've reviewed the drawings from Phase I of the campus, they are completed on schedule, we're ready for the bid, and are now proceeding towards Phase II drawings" said Sprankle.

President Staerkle commented "we are all excited about it."

In front of the board on the table lay forty-five pounds of blue-prints from which the drawings of the campus were made.

Elated at the sight of the long-awaited sketches, the board didn't hesitate to pass motion to approve the building documents and sketches, and to approve authorization of the bond bidding and the release of construction funds by Illinois.

The only delays foreseen by Sprankle were the approval of the building specifications by the Illinois Building Authority, the Fire Marshall, and the hope that Governor Ogilvie lifts the freeze on buying and selling of bonds. Ogilvie had done this earlier this year.

President Staerkel pointed out an interesting detail. He had found out that Parkland was given "top priority" on the list of projects awaiting bid in Illinois. According to him Parkland is at the top of the list. So this means as soon as Ogilvie lifts the freeze on the market, Parkland can bid first.

Afterwards, Staerkel said, "I think we all are excited about this campus and what's been done and very grateful to the architects for completing the drawings on schedule so we can go to bid."

Especially at a time when building costs are high."

William Froom said, "Except for the governor and a few minor details, we're ready to go."

The campus becomes less of a dream and more of a reality.

## For Disadvantaged Students' Program Initiated

by CLARENCE DAVIDSON

A new program has started at Parkland for the disadvantaged student. The Program is directed by Troy Simpson the newly hired black program coordinator for the disadvantaged student.

Simpson said "The program offers two basic communications courses, emphasizing reading, writing, and written communications". The communications courses would be required of all students entering the program. Simpson also said, "The students will select an elective of their particular interest".

The students would also have a voice in the program on a Student Faculty Advisory Committee.

When Simpson was asked what was the purpose of the program he answered, "to make Parkland College more meaningful to the disadvantaged and to extend the college programs to all areas of the school district."

The program by nature is basically an experimental project, which if successful will probably be extended on a larger scale.

## Sports Competition Opens

Any student interested in competing on the varsity cross-country or golf teams should get in touch with Mr. Prichett or Mr. Norris in the armory as soon as possible.

Any prospective wrestlers should see Mr. Grothe as soon as possible too. The PROSPECTUS will run a complete schedule of all Parkland varsity sports next issue.

Grothe also notes that any students interested in forming either a six-man touch football team or else compete as a tennis player should see him soon.

LINDA FREESMAN Formerly of Toronto, Ontario, Canada, as an instructor in Dental Hygiene receiving her diploma in Dental Hygiene from the University of Toronto. There are 41 new staff members new at Parkland; see them on pages 6 and 7. Portraits by Tom Klay.

## SC: Our New Home

by BOB KING

Parkland's student newspaper, PROSPECTUS, has been relocated in a new office adjacent to the northeast lounge in the Student Center at Church and Randolph.

The new facility is a result of the recent efforts of the college to consolidate the various student organizations and services into a more convenient operation.

The new PROSPECTUS office is now in close to the campus organizations and administrative offices, as well as the student center, which is the hub of the campus.

Other new offices located in the Student Center include a student organizations headquarters in addition to the new student government office.

The old faculty cubicles have been removed and a new counseling complex has replaced them. A total of five full-time counselors and offices are now available for student needs.

The faculty members in the Student Center last year are now in the Jefferson Building and the Hickory Annex (Ex-Arthur Murray Dance Studio on Hickory Street).

### INDEX

"We seek the truth, and will endure the consequences." Charles Seymour (1885-1963), statement made while president of Yale University.

President Farris

## Farris Welcomes Students; Sees Activity Day Continuing

By DARRELL FARRIS  
President of Student Government

I would like to welcome all new and returning students to the fall quarter at Parkland College. Student Government has started to move in a positive direction to increase the number and size of the organization and functions on campus by developing Student Activity Day. The purpose of this is to better acquaint the new students with the organizations that are presently started on campus and information which may help them form and charter new clubs or groups in which their interests lie. I definitely think that Student Activity Day will become an annual program which will serve to strengthen student clubs and organizations.

Student Government elections are coming up and all senate positions will be open. The executive board election was held last May and the office of treasurer was vacated during the summer so this is another position up for election. Your executive board officers are: Darrell Farris, President; Vic Erikson, vice-president; and Julie Bruckman, secretary. If you are interested in being a part of Student Government running for the positions available stop in at the Student Government office or Student Activities offices. Elections are October 8-10.

Good luck and have a successful year at Parkland.

## Parking Fines Are Doubled This Year

While the PROSPECTUS wishes to greet all new and returning students to the new year at Parkland, we have to wonder if Champaign mayor Virgil Wikoff and his lady henchmen, commonly known as the meter maids, aren't happier to see the return of students and their CARS.

For the returning student, it becomes a tougher blow to the pocketbook when he sees a bright yellow coupon conveniently parked on his windshield. The shock is that the Champaign board has doubled the fine for over-parking from \$.50 to an even dollar.

And for you new students, you'll have to learn to find a sacred "no meter" spot early in the morning, or else get your track shoes on for running several times a day to fill that change grabber.

To say the least the PROSPECTUS is extremely disappointed that the fine has doubled on everyone. It really seems too bad that the Champaign City

Council cannot figure out a better way to have Parkland students park in downtown Champaign. For Parkland students are bringing in QUITE a bit of extra money to the businesses of Champaign--to say the least. We think that at least the fathers of this city can provide the students at Parkland with a fair shake on the parking situation.

Yes, fellow Parklanders get those green bills out instead of those two shiny Washington coins. All in all, we have to wonder that when Parkland moves to its new campus on the outskirts of Champaign if those one-legged bandits won't start popping up Mattis Avenue too.

**Newspaper Staff Meeting Tuesday**

Davidson

## DAVIDSON'S COLUMN

by CLARENCE DAVIDSON

Parkland College now enters its third year of existence. But this year, in my opinion, it is beginning its third year with the loss of some of its better faculty members of a year ago. To name a couple of those leaving, John Kullberg and Greg Tauben-  
eck.

The question that arises in my mind is why is everybody leaving Parkland? Is it because of money? Is it because of the restrictions placed on them by the school's administration, or is it because they finally got fed up with Parkland's conservative board of trustees.

But with the loss of some of

last year's faculty, Parkland has gained what I term a few "token" gained what I term as a few "token" black teachers. Included are Eddie Palmer (counselor), Troy Simpson (program coordinator for the disadvantaged), Shirley Muller (English Department), and Connie Wilson (physical education department). With these additions, Parkland now has a total of six black teachers or administrators.

Parkland has an approximate total of 119 on its professional staff, and out of this enormous total, just six are black.

Other non-professional black

employees at Parkland include one black secretary (who sits at the front desk), one black custodian, one book store helper, and one key-punch operator. With figures like the above mentioned, one could question if Parkland is truly an equal opportunity employer.

I propose to Parkland College that they adopt an affirmative action program, which would include an affirmative officer to oversee the program and make sure it is carried out. The affirmative program would deal with the problems of employment concerning Parkland.

Kwaberi

# EDITORS'

Editor's Note: Bob King was the 1968-69 Photo Editor of the PROSPECTUS, but has left to attend SIU this fall.

Few words could ever be found which could adequately express the last minute rush of thoughts going through an ex-Parklander's mind as he makes his grand exit. However, once more Bob King's magnanimous mind has managed to proliferate a few parting thoughts.

The startling realization that my days at Parkland were over came with fall registration and my last jaunt with the PROSPECTUS. The most surprising revelation was that my three-quarter stay was suddenly too short. As surprising as it may seem to some, this Parklander is sadly departing a great educational experience.

Many of those who attend PC may be classified as "back trackers." This writer is proudly a member of this group. Parkland has proved its usefulness in a two fold way. First, Parkland is a bridge for an ever widening gap between high school and senior college study. Sec-

Our Departing Editor

only, Parkland serves as a sieve which strains boggled minds of the unnecessary confusion barged upon as a result of misdirection and indecision. Many of the changes and improvements which I fought for during the past year have taken place this fall and provide an excellent outlook

for those who will make an effort to benefit from them. Parkland should and will develop pride as a result of these and other changes as well as the students becoming more a part of their education.

Parkland affords all students the opportunity to learn to become part of their education and not just a parrot for Mr. McChoakem-child. Someone may quip that nostalgic people never remember the bad, only the good. This writer remembers only that which results in good, and I've quite a bit to think about. No luck! Parkland students. Just work hard, get involved, think a little.

## Farris, Davidson Featured in Paper

All columns on this page are the expressions of one person, not the student body. The PROSPECTUS will feature columns by student government president Darrell Farris, student Clarence Davidson, and the editor when he is chosen.

In this issue we have a column by our photo editor, Bob King, who has left Parkland for Southern Illinois University. King has written some of his closing thoughts about Parkland for the PROSPECTUS.

Darrell Farris will attempt to keep the students informed as to what he as president and the student government are doing. Davidson will be featured in "Black Rap".

The PROSPECTUS welcomes letters to the editor, ideas, or

even student columns. For this paper is a student paper, written for Parkland students by Parkland students. We therefore accept all help from you--the student.

In this issue, Ray Compton last year's sports editor has expressed views on the parking situation around Parkland's campus.

...a Bear fan?

## Parkland Chemistry Teacher All Italian

To the right of the chemistry lab is a tightly cramped room of shelves loaded with books of atoms and organic chemistry and with test tubes and flasks and round brown bottles of chemicals and powders and fluids. We sat down and introduced each other. Since I was Italian, we talked of recipes for spaghetti and lasagna, of Italy, of our parents, of the language (neither of us can speak Italian), and of Italian music.

Why a chemistry teacher, Miss Travaglini (the 'g' is silent)? "I suppose it sort of grew on me. One thing led to another, and before I knew it I was majoring in chemistry. Grad school ended too quickly," she said.

She is quite young. She preferred to keep her age a secret, but I noticed how modern she dresses.

"Where did you get that sharp looking chain?" I asked. "I got it in New York at a little shop when I was attending the annual convention of the American Chemical Society." She attends these meetings often, but only in Chicago because it's closer. But the meeting in New York was the big one. She was quite honored to attend it, she said.

"I was educated at Rosary College in River Forest, Illinois,

activities. Project Children, which took many months of hard work and planning was a success.

In November CIP would like to have a Community Thanksgiving Dinner. Other projects are in the planning.

New members are always invited. Anyone interested in learning more about CIP should call Michael Markstahler, President of CIP at 356-6614.

and received my master's degree at the U of I. I like football (stopped for a few side remarks about the Cubs), movies, plays, Frank Sinatra, and operas. Some rock 'n' roll I like, but I take it in small doses.

"I like to walk; I have a bicycle, too."

She holds her classes in the laboratory--she's against this. Lately she's been trying to scrounge up classroom space at other parts of the Science Building. The purpose of the lab, for her students, is for individual work and experiments. In the new campus this will be provided for.

She has approximately seventy-five students and last year she was happy to hear that one of her students was accepted at the U of I as a major in chemistry.

Last year she was in sort of a mess, she said, because she has an assistant. And she's hoping for a stock room man to keep a full supply of chemicals.

She talked about using the PLATO computer in the laboratory by getting a grant from the U of I under the auspices of Dr. Gilbert Haight. She firmly believes in using the PLATO computer as a supplementary teaching aid to the students of chemistry.

But for now she teaches from a text coupled with lectures presented straight off the top of her head. Her notes list only the topics she wishes to discuss. Otherwise she has the facts right on hand, just like that.

Perhaps one can describe her course as comprehensive in that it is oriented towards the non-major as well as the major in chemistry. She calls facts as she needs them.

A young lady interrupted our conversation. "You're wanted on the phone, Cathy, and there is someone here to see you."

We had to stop talking. But it was enjoyable. Nice to see an Italian teacher once in a while. Maybe we should have a few more.

Anyway, we bid each other good-bye and she left her laboratory, a tightly cramped room of shelves loaded with books of atoms and organic chemistry and test tubes and flasks and round brown bottles of chemicals and powders and fluids, but only for a minute. She'll be back.

### What could be more fitting than the French School Girl Look?

This sweater takes to you like a body shirt... says "WOW" in any language. The bias-cut plaid skirt buttons down the side. And Garland's underall is the crisp boy shirt. So button up--and

show your fashion "now-how."

### CIP Gives C-U Kids Week Camp

CIP, (Council for Interracial Projects) is a corporation that has been formed within the last year in the Champaign-Urbana area. Volunteers organized CIP to plan projects which would help better racial relations in our area. CIP is a non-profit organization.

This summer the members' hopes of Project Children became a reality. Its purpose was to give 45 "socially and economically deprived children" from the Champaign - Urbana area a week of camping experience which otherwise they would not receive. The camp took place at Camp Howard in Mahomet, Ill. The camp, equally integrated provided an atmosphere which allowed both black and white children to participate in the campus

**JOHN C. CARDWELL**  
English instructor, from San Francisco, M.A. in English-Creative Writing from S.F. State College.

**BONNIE YOUNGBERG**  
On the college's counseling staff, has her M.Ed. in Counseling from U of I, coming from Champaign Centennial HS as a guidance counselor and a teacher-coordinator at Champaign Central HS.

**HARRY GOODMAN**  
From Brockport, New York, A.A.S. in Audio-visual Technology at Monroe Community College, Henrietta, N.Y.

**ARTHUR T. HUINKER**  
Assistant to the Dean of Students, he is working on his Ph.D. in Higher Education at the UofI.

**RUTH ST. JOHN**  
Biology Lab Assistant, Mrs. St. John received her B.Sc. in Biochemistry from the University of Toronto and her M.S. in Biology from the U.I.

**IRVAN M. THORNBERRY**  
Formerly of Bloomington, Indiana, Media specialist at Parkland's IRC, B. S. in Social Studies and M.S. in Audio-visual Communications from Indiana University.

**THOMAS B. WHITING**  
Formerly of Seneca Falls, N.Y. Media technician working in the IRC, A.A.S. from Monroe Community College, Rochester, N.Y.

**JAYNE RYOTI**  
Mathematics instructor, B.S. in math from ISU and M.Ed. in Secondary Education and math from the U. of Delaware.

**W. LEE CONANT, JR.**  
Formerly of Provo, Utah, to the art staff at Parkland, B.S. in Art and M.A. in Design from Brigham Young University, Provo, Utah.

**CAROLYN H. COOPER**  
New to Parkland's nursing staff, B.S. in Nursing Education from the University of Pennsylvania and her M.S. Ed. in Psychiatric Nursing from the University of Pittsburgh.

**DAVID R. DeVRIES**  
New to the Electronics staff, Post-Baccalaureate Certificate in the teaching of Engineering Electronics Technology from the UofI.

**GREGORY L. GOODWIN**  
Formerly of Bakersfield, California, half-time Administrative Assistant to the Dean of Instruction. This fall he will complete his Doctorate in Higher Education at the UofI.

**V. BYRON GREGG**  
New to Parkland's agriculture staff from Assumption, Ill., B.A. and M.A. in Agriculture Education from the UofI.

**SUSAN M. HAASE**  
Is on Parkland's English staff, now completing work toward her M.A. degree in English Education at the U of I.

**ROBERT J. HARDIG**  
From Edwardsville, Illinois, to the Business Education staff. Received his M.S. in Business Education from SIU in 1969.

**HELEN E. KAUFMANN**  
New to the English staff at Parkland, B.S. in Education from Southern Connecticut State College, New Haven, Connecticut, and M.A. in English Literature.

**SHIRLEY MULLER**  
New to the English staff at Parkland, she has earned pre-doctoral units in Special Education of the Culturally Disadvantaged from the U of I.

**JUDITH ANN LENDER**  
Lead instructor in Data Processing, B.A. in math and physics from SIU and her M.S. in Computer Science from the U of I in August.

**DONALD M. NELSON**  
An addition to Parkland's Agriculture staff, previously taught vocational agriculture at Tyler, Minnesota Public Schools, M.S. in Agricultural Education.

**RICHARD D. NORRIS**  
Formerly of Terre Haute, Indiana, to Parkland's physical education staff, received his M.S. in Recreation and Public Administration at ISU.

**CAROLE H. SCHERER**  
New to the English staff at Parkland recently taught Verbal Communication at the U of I for two years, will receive her M.S. in the fall from Northwestern University, Chicago.

**TROY SIMPSON, JR.**  
Originally from West Memphis, Arkansas, Coordinator of Special Programs, M.A. in Social Work from U of I

**JOAN TAYLOR**  
From Nazareth, Pa., to the mathematics staff, received her M.S. at Lehigh University, Bethlehem, Pa. and her B.S. in Mathematics from Westminster College in New Wilmington, Pa.

**EUNICE WEECH**  
A part-time reference librarian at Parkland, is currently a graduate assistant at the Undergraduate Library at the U of I, she expects to receive her M.S. in Library Science in the fall.

**SUSAN I. WEITEKAMP**  
Another addition to the Nursing staff at Parkland, receiving her B.S.M. in Nursing from the U of I Medical Center, Chicago, in 1967.

**DAVID E. WETZLER**  
From Charleston, Ill., is joining the Data Processing staff. He recently received his B.S. from Eastern Illinois University.

**CONNIE WILSON**  
She is joining our Women's Physical Education staff, is now a graduate assistant at the U of I, recently receiving her M.S. in Physical Education.

**SHIRLEY J. WRIGHT**  
A half-time biology laboratory assistant, receiving her M.S. in Zoology from the University of Arizona, Tucson and Ph.D. in Biology from the University of California, Riverside.

**EDMUND T. DELANEY**  
Mr. Delaney is a new appointment to Parkland's Psychology department, he will be teaching psychology part-time, and has recently completed course work for a Counseling/Psychology Ph.D. at the U of I

**DALE E. EWEN**  
Coming from Rantoul Twp. H.S., he will be a full-time instructor in mathematics. He has received his B.S. and M.Ed. degrees from the U of I

**WILLIAM J. HOWARD, III**  
A native of Champaign will now be Assistant to the Director of the Computer Center at Parkland, he attended the U of I.

**DAVID L. JOHNSON**  
Coming from Robert Morris College, he will coordinate the Learning Resource Center at Parkland College, having a M.S. in Library Science from the U.I.

**MARJORIE J. JOHNSON**  
Assuming the position of Technical Services Librarian in Parkland's LRC, coming from Pa. Where she held positions as a head librarian.

**WALTER H. MILLER**  
He will head the two-year Construction Technology program at Parkland; he received his B.S. and M.S. in Civil Engineering from the U. of I.

**KATHY BISSELL**  
Originally from Jacksonville, Ill, Community Information Assistance, now going to the U of I for degree in Communications.

**EDDIE D. PALMER**  
Having served as a Guidance Director at Champaign High School, is now being appointed as a Counselor at Parkland College, received his M.S. in Industrial Education from the UofI.

**DONALD E. SAMSON**  
Will be teaching Psychology at Parkland, and is now a candidate for his D.Ed. at the U of I, he has served as a psychological examiner and school psychologist in Washington.

**PHYLLIS STERN**  
Mrs. Stern will also be teaching Psychology at Parkland, she received a B.S. in Elementary Education, Educational Psychology and a M.Ed. in Special Educational Psychology

**ELIZABETH J. MOWBRAY**  
Mrs. Mowbray will be a part-time instructor on the Chemistry staff at Parkland, recently completing work on her M.S. in chemistry.

**REBECCA J. WELCH**  
Will be joining the English staff at Parkland College, recently leaving the U of I, serving on the Student Personnel's staff and has her B.A. in Latin and her M.A. in English from the U of I.

Liberal Split in Right-Wing Group

# YAF's Attempt Coordination

by NORM PRESSMAN

COLLEGE PRESS SERVICE  
SAINT LOUIS - (CPS) - Over one thousand members of the right wing Young Americans for Freedom crowded St. Louis's exclusive Stouffers' Riverfront Inn in their attempt to coordinate anti-new left activities for the coming year.

But things weren't as quiet in last month's convention as they were in previous conventions. The new libertarian and anarchist caucuses tried to take over the reigns from the tightly knit traditional leadership.

YAF's "liberals", however, found themselves in the same position that McCarthy supporters were in at last summer's Democratic National Convention. They were locked out of delegate positions and in many cases kicked off to the side in alternative or "non-voting" member statuses.

Many delegations were purged of liberal members. National Secretary Michael Thompson was accused of packing his own home state delegation. A leading Missouri YAFer said that he and other libertarian members had been systematically eliminated even though they had sent in checks in advance. Thompson denied the charge and said that he had filled delegate spots in the order in which they had filled out applications.

The biggest fight came in the Pennsylvania delegation where

the national organization had removed the State chairman and replaced him with J. A. Parker, an insurance broker from Philadelphia. Parker is listed as an approved YAF speaker in the official YAF speakers' bureau handbook. He was the only Afro-American at the Convention.

Liberals accused the national office of purging the state chairman because of his anti-national office feelings.

"PURGE, PURGE"

The liberal caucus, which had up to a 40% vote on one amendment, was constantly charged with being alien to the Sharon statement or constitution of YAF. Shouts of "purge, purge," rang from the convention floor and at committee hearings when liberals spoke. Reactionary cartoonist Al Capp advised YAF to get rid of the "outsiders."

Liberals outdid the traditional members with a resolution that not only called for an immediate end to the draft but called on YAF national board members to "publicly oppose conscription or leave the board." It supported direct action "Such as draft counseling and individually resisting the draft."

The liberal view varied but most of the roughly 250 liberals seemed to support immediate troop withdrawal from Vietnam, liberalizing abortion laws and

all similar issues that a modern day McCarthy-type liberal would support.

Some of the traditionals were just as right wing as the libertarians were liberal. One booth in the display area imported Thompson Seedless Green Grapes from California and handed out "Eat Grapes, the Forbidden Fruit" bumper stickers. The same booth handed out Ronald Reagan promotional material.

Another group supposedly sponsored by the "Students for Victory in Vietnam Committee" handed out modified peace symbols that looked like B-52 bombers with the words "Drop it" on them. The committee is housed in the same small offices as Missouri YAF. One girl handing out literature denied that the committee was simply a front for the political beliefs of YAF state chairman Thompson. "All they do is pay the rent," she said.

There was no shortage of good old fashioned red-baiters. The National Education Project played tapes of Eldridge Cleaver's speeches to Black Panthers and handed out material on the international Communist conspiracy. One movie promotion poster read, "See the Communists on campus."

"SDS-SS" buttons were popular. And Phillip A. Luce, former member of the Progressive Labor Party and now a paid member of the national staff, told of his life as a Communist.

One major theme of the convention was that YAF should take legal action to stop campus disruptions. A youthful William Frank, legal advisor to the New Orleans chapter, held a press conference to announce YAF's new plan to sue university officials who give in to campus demands to close classes.

YAF put a one-year deadline on ending the war in Vietnam. It wasn't the kind of deadline liberals push for, however. The resolution called for major escalations in the conflict including an invasion of the North.

Biology with a personality touch.

## Blazier Changes Biology Instruction

BLAZIER INTERVIEWED by JIM MICHELETTI

When I took high school biology, I remembered the comments on the course--interesting as it was--from my fellow classmates. Something like this: "Yawn," "Ho-hum" Everybody staring at the clock.

Traditional biology. Taught from a text. Facts. Useless facts. Who cares?

Not that it hasn't changed. Cells are still the same. Photosynthesis in action. The ecology of the environment. All the same.

Just useless facts that didn't mean anything, unless of course you were a biology major and then you enjoyed poking your nose into all this material.

It isn't like that here, Richard Blazier, biology instructor, has changed all that. The facts are still the same, but the manner of instruction has been changed.

Look at your schedule. Class is two times a week. The rest of the time you spend in the lab completing your homework assigned to you on Monday. You turn the homework in on Friday and take a quiz.

No lectures. All material is programmed using tapes and visual aids such as outside reading material. All learning is done on your own time provided it is in by Friday.

Different, isn't it? No teachers, just a lab monitor that is there if you need him.

Blazier calls this system the "auto-tutorial approach"--with

a sort of "personality touch." To be sure, a student won't get all the material available in class, but what is there is important.

But the facts you learn will mean something. Take air pollution for example. Blazier comments that this is relevant. When he teaches about air pollution, he calls in the biological facts as he needs them if they are important to the topic--anything else is disregarded.

In class, students talk about air pollution and to understand it, they learn the facts that go with it. Nothing more.

Blazier likes this system, says it's a hell of a lot better than the biology courses he was taught. He's very excited about the program and foresees big results in the future.

Blazier himself is a quiet person with extreme dedication to his work. He has a master's degree in the teaching of the biological sciences from the U of I, and he also student taught there. Last year was his first at Parkland.

But he isn't all plants and animals and cells and aquariums. He skis, takes nature pictures, likes classical and modern music -- even played clarinet at one time.

He prefers apache ties and bell-bottoms and even a well-groomed fu manchu moustache.

A young, politically-minded person, he also campaigned for McCarthy in the 1968 election in Wisconsin and Indiana.

### Banking Designed For You!

By BANK OF ILLINOIS

## STUDENT CHECKING

- \* No Monthly Service Charge
- \* No Minimum Balance Required
- \* We Furnish The Checks FREE with your name and your University ID number imprinted . . . which is also your Social Security number. An exclusive feature provided by Bank of Illinois for your convenience.
- \* You pay only 10¢ for each check used. Lost or mutilated checks cost you nothing.

WE ALSO HAVE A SPECIAL GIFT FOR YOU WHEN YOU OPEN YOUR STUDENT CHECKING ACCOUNT.

A colorful desk size academic year appointment and diary book, including phone numbers frequently used and a three year calendar . . . designed for students and faculty.

**HOURS**  
Monday thru Thursday  
9 A.M. to 2:30 P.M.  
Drive-ins to 5:30 P.M.  
**FRIDAY**  
9 A.M. to 6:00 P.M.  
All Facilities
