INVESTIGATIVE PSYCHOLOGY

Offender Profiling and the Analysis of Criminal Action

PROFESSOR DAVID CANTER, International Research Centre
for Investigative Psychology, UK

DR DONNA YOUNGS, University of Huddersfield, UK

Spearheaded by David Canter and his associates, the new discipline of Investigative Psychology has emerged out of a quarter century of research and involvement in many actual cases.

This pioneering text is the first to provide a detailed overview of the field, from the earliest work through to recent studies, including descriptions of previously unpublished internal reports. Crucially it provides a framework for students to explore this exciting terrain, combining Narrative Theory and an Action Systems framework. It includes empirically tested models for Offender Profiling and guidance for investigations, as well as an agenda for research in Investigative Psychology.
