

Academy of Management Annual Meeting *Proceedings* includes abstracts of all papers and symposia presented at the annual conference, plus 6-page abridged versions of the “Best Papers” accepted for inclusion in the program (approximately 10%). Papers published in the *Proceedings* are abridged because presenting papers at their full length could preclude subsequent journal publication. Abstract

This paper presents the science map of the research produced around cultural intelligence (CQ) from management scholars. To systematize knowledge about CQ, a bibliometric analysis of 513 articles retrieved from the Web of Science Core Collection database has been made via the bibliometrix package in R, covering a range of studies from 2002 until 2020. The analyses present results concerning the performance of CQ research published in scientific journals, the geography of CQ research, and the identification of the main articles and thematic areas of research. Future research directions are drawn from the state of the art of cultural intelligence research.
