## Money Getting

Is a business which most people  
can follow. To be successful  
means persistent work, self denial  
and a systematic scheme of saving.  
But there is no plan that brings  
more satisfactory results than that  
afforded by using the Upland  
State Bank. Possibly you would  
like to test this matter for yourself

## \$100 Reward, \$100

The readers of this paper will be  
pleased to learn that there is at least  
one dreaded disease that science has  
been able to cure in all its stages and  
that is catarrh. Catarrh being greatly  
influenced by constitutional conditions  
requires constitutional treatment. Hall's  
Catarrh Medicine is taken internally and  
acts thru the Blood on the Mucous Sur-  
faces of the System thereby destroying  
the foundation of the disease, giving the  
patient strength by building up the con-  
stitution and assisting nature in doing its  
work. The proprietors have so much  
faith in the curative powers of Hall's  
Catarrh Medicine that they offer One  
Hundred Dollars for any case that it fails  
to cure. Send for list of testimonials.

## Fine Address

Before one of the largest crowds ever  
assembled in the M. E. Church, Chaplin  
Richardson of Peru, last Thursday night  
addressed the audience with bare facts  
concerning the war into which we are  
now involved, giving bits of experience he  
received while in the English army as a  
chaplain.

He brings to his work a spirit of service  
that, coupled with his rich experience and  
training, makes his address a message of  
"determination" to his hearers, in that,  
all who hear him resolve to do all in  
their power to put an end to the suffering  
of humanity by crushing Kaiser Wilhelm  
and his "Baby Killers," who laughingly  
rape, torture and murder the innocent.

To a large degree the success of the Y.  
M. C. A. Fund which was oversubscribed  
here, might be attributed to his talk, as  
he told of the importance of the Y. M.  
C. A. in keeping the soldiers clean. For  
over an hour he held his audience breath-  
less with intense interest, as he described  
in word pictures scenes of the greatest  
battle the world has ever known. You  
should hear him.

## Boys Given Warning

Boys who have the past few weeks been  
causing complaint from the college ad-  
dition, were caught last Sunday night and  
given warning. The boys have been sing-  
ing ill famed songs and acting indecently  
along the sidewalks. Should they be  
caught again, Marshal Waterman states  
he will put them in jail.

## IMPOSTOR

A strange woman seems to have been  
taking advantage of the Y. M. C. A.  
Campaign last week. She solicited Bruce  
Oren and he gave her a dollar, which has  
never showed up in the local fund. When  
giving to things of this kind, one should  
always know that he is giving it to an  
authorized solicitor.

## Famine, Prussia's Ally

Seven years ago a famous European  
student of history prophesied that the  
next great war would be won, not by  
fighting, but by famine. We are today  
fighting that war—and famine is hovering.  
The men of England, Scotland, Ireland,  
France, Italy, Belgium—our allies—are  
fighting; they are not on the farms. The  
yield of their land is therefore cut down.  
Always they had to import much that  
they ate, drawing the shortage from  
many other countries as well as from  
America. Now that their shortage is worse  
than ever, there is little or none to be had  
from these other sources. They must be  
fed from America. Our allies, therefore,  
depend on us for food as never before and  
they ask for it with a right they never  
had before. For today they are doing the  
fighting, the suffering and the dying—in  
our war.

We must send them the food for their  
necessities. We will send it. But we can  
do it only by a wise and loyal economy  
of food on the part of every one of us.  
We must stimulate our food production,  
organize our food handling, eliminate all  
waste, use largely other foodstuffs for  
wheat, beef, pork, dairy products and  
sugar, and reduce consumption wherever  
it is in excess.

To gain these results is the task of the  
United States Food Administration. It  
can be done only by joining in one effort  
the willing service of all the people in the  
land. To that end, every man, woman  
and child is asked to be a member of the  
Food Administration. No fees, nor dues—  
just a promise to help. The week of Nov.  
22 will be devoted to the nation-wide en-  
rollment of all earnestly loyal Americans  
in the movement to win the war by mak-  
ing sure that our allies are not weakened  
and defeated by lack of food.

## REVIVAL

Miss McGhie of Taylor University is  
conducting a 10 day revival at the M. E.  
Church and many are attending.

Retailers who charge more than the  
average margin of profit and who are not  
large enough to come within the direct  
provisions of the federal license law, may  
find themselves deprived of a source of  
supply, Dr. Barnard says. They will be  
regulated through wholesale houses,  
which will be forbidden to sell to profiteers

## REPORT

### Y. M. C. A. Campaign Report

E. M. Loy, president of the Upland  
district, has the following report to make  
on the Y. M. C. A. campaign held last  
week.

Captain Ed Wilkins succeeded in turn-  
ing over the largest amount subscribed  
while Jay Atkinson of Monroe township  
made the next highest report.

For a while Monday we thought we  
could publish the names of all those sub-  
scribing, but after working nearly half a  
day copying names and three captains  
yet to report, we decided it too big a job.

A gage could have been taken easier  
of those who refused the noble cause.

The following is what the various cap-  
tains raised.

Ed Wilkins	\$337.25
Jay Atkinson	210.56
Wm. Strange	159.25
Bertha Snyder	152.60
Ed Turner	151.50
E. H. Graves	98.00
O. W. Pugh	68.50
Guy Miller	40.25
Clate Poorman	18.00

Monroe township's total was \$369.81.  
Upland's total was \$905.07 not including  
the college who raised \$1,000 in less than  
an hour.

### Taylor Raises \$1,000

Taylor University subscribed \$1,000 for  
the Y. M. C. A. fund within less than an  
hour. The cards were passed out immedi-  
ately after Dr. Richardson made a talk  
in chapel.

### Cutting the Feed Bill

Feed for our hens will be very high this  
year, but eggs will be high also, and  
the hens must have the feed or they will  
not produce the eggs. It never pays to  
stint the hens, for unless they get enough  
to eat to lay at their best they will not  
give any return for the feed they do eat.

## Girls-Notice

It is urged that all the young women  
and especially the High School girls of  
Upland be present at the M. E. Church  
next Sunday morning. Mrs. Davis of  
Chicago and a number of workers from  
Marion will be present to explain Y. W.  
C. A. work, which organization has taken  
up a war work that every Upland girl can  
be of service in. In the afternoon local  
people will motor to Matthews where an  
organization will be perfected.

### Makes Application

Rev. F. H. Cremean, pastor of the M.  
E. Church, has made application to a Y.  
M. C. A. Training School in Chicago, for  
entrance. In the event his application is  
acted upon, favorably, he will study First  
Aid Work and make an effort to go to  
France after the completion of his course.

## Sheep Damaged

Harley Penrod reported to the Monitor  
Sunday morning that dogs had ruined his  
flock of sheep Saturday night. Mr. Pen-  
rod thinks that the dogs belonged to  
hunters who hunted on his farm Saturday.  
He has decided to give one more warning  
as follows: Every dog caught on my farm  
will be shot, and all hunters prosecuted.

The restaurants Friday observed  
"meatless day." Cards were displayed on  
the counters asking the customers not to  
order beef, veal mutton, lamb, pork,  
ham or bacon and to use sugar in mod-  
eration. The Keever Cafe has been com-  
pelled to take their sugar from the coun-  
ter, owing to the excessive amount some  
few customers put in their coffee. This  
does not imply that you don't get sugar.  
It does mean that you don't get to serve  
yourself and act a hog.

Harley Penrod has renewed his sub-  
scription.

The Musical held last Wednesday  
evening in the Upland Literary Society  
club room was well attended, many not  
being seated. The net proceeds received  
as a silver offering amounted to \$20.50  
which was added to the Y. M. C. A.  
Fund, Upland and vicinity are expected  
to give.

## Dugan Arrested

William Dugan, of Marion, a wealthy  
druggist, politician and owner of a farm, in  
Monroe Township recently purchased of  
Ben Robb, was arrested Sunday and taken  
to Indianapolis charged with conspir-  
acy and receiving stolen goods. The ar-  
rest was in connection with the rounding  
up of auto thieves.

John Kilgore and E. H. Graves boxed  
30 packages of smoking tobacco and 32  
packages of scrap tobacco, which they ex-  
pect to send to France soon.

Wilful waste makes war more awful.

And, if it comes to wooden shoes, shall we wear paper stockings?

There is a time for everything, including a time to shut off the seditious talk.

The man who is his own worst enemy seems to be mighty good company for himself.

Economy is the fine art of doing without something without your neighbor suspecting it.

Germany seems to have done about everything to Belgium now except to eat the inhabitants.

Another way of wasting precious time is trying to write or say things that will hurt the kaiser's feelings.

Who is happier—the father of the boy who has gone to do his duty, or the father of the boy that is a slacker?

The young man now in the cantonment will ardently wish his mother had taught him how to make a bed.

Feminine patriotism will see that there are more sweaters for soldiers and precious few for pups and poodles.

The French continue to call our soldiers "Sammies," but we love France so much that we will take anything off her.

Tobolsk is said to be the Boston of Siberia. One hopes that the czar that was in enjoying his Tobolsk baked beansovitch.

The stingy swain who falls to bring along the customary box of candy can explain that he is economizing on sweets to help France.

The man who broke out of jail to join the army is by far more commendable than the slacker who would like to get in to avoid it.

When the price of gasoline is cut in two and fixed by the government the loyalty of every automobile fan will reach the boiling point.

When you reflect on how comparatively little you are doing to help things along, you surely can't kick on the program of the missus for meatless and wheatless days.

Few complaints are coming from the boys at the training camps. They didn't expect a picnic and were aware when they started that the army issues no dancing pumps.

The cost of living is not going to recede so long as the people pay stiff prices to somebody else for service which they have plenty of time to perform for themselves.

About the only thing that retains any standing at all for the nickel is its ability to pay for a street railway fare or to measure one's Christian piety when the ushers pass the collection plate in church.

The man who invents all these brilliant accounts of American vessels sinking German submarines, only to have them officially denied a few minutes later, has a queer idea of doing his patriotic duty.

The former summer girl has completely disappeared. In her place are the Red Cross nurse, the army service volunteer, the ministering god-mother, the steady knitter and the food-canning conservist.

A favorite dancer in London received one night, instead of flowers, a basket of potatoes and a bag of sugar after her dance, over the footlights. It isn't often that art receives such substantial appreciation.

And now professional jokers are asserting that the reason why doctors advise their patients not to eat meat is that they realize people who eat meat at present prices will not have enough money left to pay the doctor.

One attractive thing about a diplomat's job is that if he says anything that gets him into trouble he can say he didn't say it, and, although nobody believes him, what are you going to do about it?

They tell us that rats eat annually \$200,000,000 worth of food in the United States. Of which probably two bits worth is carrots.

It might be doing the country a real service were we to empty some prison of its convicts and incarcerate the professional pacifists.

**World Shown Value of Liberty by the Brutal Power of Germany**

By ELIHU ROOT, Former Secretary of State and Head of Mission to Russia

The brutal power of Germany, which has repudiated everything that civilization has accomplished for the century past, which has repudiated the law of morals and declared the German state to be superior to all morality, which has repudiated the law of humanity, and has without quavering committed the most dreadful outrages in order that she might have the benefit of inspiring terror in the world—the brutal power of Germany has revealed at last to our comfortable people the unreality of our lives, and has shown, bare and naked, the dreadful, horrid truth of human nature unrelieved by morals or religion of humanity. It has shown to us as we never realized before what liberty and justice, what humanity and compassion, what morality and right really are.

We need not talk about the whys and wherefores of the war. It is here, and the issue is drawn so clearly that a child could see. It is for the American people to determine whether they have the manhood to maintain the liberty that their fathers gained for them through sacrifice, the manhood to maintain the justice upon which we have prided ourselves, the manhood to defend those institutions of liberty and justice which we would hand down to our children, or whether we shall submit and abandon them all.

The issue is clear and distinct between the maintenance of the American republic, free and independent, American justice to the rich and poor alike, American opportunity for the boy and the girl—whether we are so craven that we will leave our children to be subjected to the power of evil that ravished Belgium and Serbia; whether falsehood and faithlessness and cynical contempt for morals, and cold-blooded disregard of humanity, and utter absence of mercy and compassion, and denial of human right shall be the portion of our children, or whether the liberty which our fathers won shall be handed down to them by the manhood of our fathers' sons and the love of our children's fathers.

It has come not too soon. It was at the eleventh hour that we came into the vineyard. The great opportunity of the American people was slipping away before they could grasp the opportunity to make themselves into the image of our fathers and of our Maker; the opportunity to die, if need be, and to give our dearest ones to death that our country may live; that its liberty may live; that its justice may endure; that its opportunity for those who toil and endure may continue. We have grasped the opportunity for that sacrifice and suffering through which we shall find our souls again.

**Great Wealth Produced in Time of Peace Can Be Increased in Days of War**

By W. E. CHANCELLOR, Head of Department of Economics, College of Wooster

The total income of a people consists of all the currently produced wealth for consumptive or productive purposes; that is, for immediate use or for investment. The endeavor to discover what this total is has not been successful, even in the countries that have longest maintained private income taxes.

Men say that the income of the United States in 1913 was somewhere between \$30,000,000,000 and perhaps even so much as \$60,000,000,000, but they do not agree as to what items shall be included. Because of the falling purchase power of money there is a fairly general agreement that the annual income of the American people for the fiscal year that ended June 30, 1917, was at least \$45,000,000,000, in money terms. It is evident that when the medium of exchange fluctuates widely in value, in the terms of goods and of other possessions, no figures are wholly trustworthy and substantial.

There is another cause for paying but little attention now to the question as to the total annual income of our people. Our population has been growing at the rate of about 2 per cent per annum. But we are pledging our national future irrespective of what the population is or may become, for we are pledging the people themselves, ourselves. We do not care now whether the total income grows pro rata with the population or not; what we care about is that we, that is, the survivors, shall be free to govern our lands and coasts and commerce according to our own self-determined and now ancient ways, and not according to the revived semi-barbarous ways of Middle Europe. And we know that, though in the easy days of peace we produced perhaps forty billions of wealth a year, in the more laborious days of this war we can produce in days' products, whether salable or not, vastly more. Wars are won by the workers behind the men on the firing lines.

**Neither Individual Nor Nation Can Violate Law and Not Suffer Penalty**

By Rev. Arthur J. Francis, Secretary of the Chicago Community Trust

Communities cannot break the law. They may ignore the law, they may refuse to comply with the law, but law is supreme. Typhoid fever is not merely a physical disease; it is a municipal crime. It reveals that those whose business it is to care for the public health are either ignorant or willfully careless.

Nations cannot break the law. The law breaks nations. The nations have paid in men, in blood and in money for their deliberate violations of the laws of the world's good will—England with her experience of the opium traffic in China, Belgium with her Congo atrocities, Russia with her awful Siberian exile experiences.

Germany has been weighed in the balance and found wanting. For her ruthlessness and brutality and indifference to the law of the world's good will she will learn with all other peoples the fundamental truth that the law cannot be broken; it breaks.

We have had illustration after illustration of men reaching through splendid effort high eminence and power, who, failing to obey the law, have been broken by the law. Honor, truth, integrity, respectability, are for the law abiders. When the laws governing these are set at naught then they instantly begin to grind their grist and we observe honor gone, integrity violated, place and power taken away and given to others.

Never forget this stupendous truth, that law, physical, mental and spiritual, cannot be broken; it breaks.

The women of Italy and France are making millions of ration heaters for the use of soldiers in the trenches and in the high Alps, where coal cannot be sent. They are made of old newspapers and paraffin, for which old candle ends are used. There are thousands of tons of old newspapers and millions of candle ends in this country that may be converted into fuel for the use of men at the front, or in camps, or to save kindling at home. The war is teaching us economy, and this lesson, once learned, will not be altogether forgotten.

It is so easy to make ration heaters that children do the work as successfully as anyone and enjoy doing it. The Italian National society gives the following directions for making them: "Spread out four newspapers, eight sheets in all, and begin rolling at the long end. Roll as tightly as possible, until the papers are half rolled, then fold back the first three sheets toward the rolled part and continue to wrap around the roll almost to the first fold, then fold back another three sheets and continue to wrap around the roll again up to the last margin of the pa-

per. On this margin, consisting of two sheets, spread a little glue or paste and continue the rolling, so as to make a compact roll of paper almost like a torch. If six of the sheets are not turned under, there will be too many edges to glue.

While the newspapers may be cut along the line of the columns before rolling and the individual columns rolled separately, as is done in the making of the trench candle in France, it is easier to roll the whole newspaper into a long roll and then cut it into short lengths. A sharp carving knife, a pair of pruning shears, or an old-fashioned hay cutter will cut the rolls easily. These little rolls must then be boiled for four minutes in enough paraffin to cover them, then taken out and cooled, when they are ready to be put in bags and sent to the front."

There is nothing that soldiers in the trenches will be more grateful for than this means of warming their food or building a fire, and nothing easier to make for them. Schoolchildren are being taught to make them. When they are finished they are placed in large bags and sent to the nearest Red Cross headquarters.

**What Well Dressed Women Will Wear**

Simple and Dignified Negligee.

Some negligees contrive to be simple and dignified, as well as pretty—they have "a grace in being gay." Here is an example of a negligee that is as easy and comfortable as a kimono, presentable outside one's own room and very easy to make for the capable woman who does her own sewing. It has an accordion platted skirt of thin, light-colored silk and a pretty coat of crepe georgette or chiffon cloth.

The skirt is straight and rather narrow and hangs from a very short underbodice, making a high waist line. The skirt and bodice are set together with a narrow heading, which is pretty when crocheted of silk thread, like the skirt in color. Black velvet baby ribbon, run through two rows of the heading, is tied in a rosette at the front and has hanging ends. This touch of black is effective on all the light colors used for the gay and lovely house gowns.

The slipover coat is long at the back and has kimono sleeves. A vestee is suggested by the short, pointed front. All the seams are hem-stitched and a hem, put in with this stitching, furnishes a simple decorative border for every edge. This method of putting together blouses, bodices and negligee coats simplifies matters for the home dressmaker because all she needs do is to baste in seams and hems and turn the garment over to the professional hemstitcher. The accordion plaiting is also done by people who have plaiting machines, but the home dressmaker can manage side-plaits for herself. In either case, the plaits are to be very slightly dampened and

lightly pressed out around the bottom of the skirt to make a little frill.

**Sleeveless Sweater.**

The sleeveless sweater is a great success. Everybody who has knitted this type of sweater for the Red Cross, according to specifications, knows that in one guise it must fill a real want. And then there are the purely frivolous sleeveless sweaters of silk and wool, in gay colors, sometimes bordered around the neck and armholes and lower edge with a narrow band of angora. The sleeveless sweater is usually of the slip-over style, that is pulled on and off over the head.

**Ostrich Plumes Coming Back.**

Things begin to chirp up for the ostrich feather, for one cannot gainsay the fact that more and more ostrich is being used on hats as the days go by. The exclusive shops especially have adopted it in all sorts of ways. Although much of the use is noticed in bandings, edges and tiny tips, still the full fashioned plumes are gradually coming into their own.

She Did Her "Bit."  
There are many ways for one to do his bit, but a young woman, riding on the hurricane deck of a Fifth avenue bus, discovered a new way, relates the New York Times. The bus was just about to go under the elevated structure, which is only a few feet above the heads of those seated on its top, when a young man in khaki jumped to his feet to join a woman friend in a seat that had just been vacated. The conductor sprang forward to grasp the soldier, but a young woman seated nearby was quicker. "Sit down," she commanded sharply, at the same time jerking the arm of Sammy. The khaki-clad young man lost his balance and the next moment he was seated—in the young woman's lap. The girl blushed a bright pink, and the soldier apologized, and everybody smiled. "I don't care," said the young woman to her friend. "I feel that I have done my bit in saving that soldier's head from being battered by the low bridge."

An Expert.  
"I understand that Blinks has become an efficiency expert."  
"Is that so? Now he will be able to teach everybody to do everything he can't do himself."

## Temperance Notes

(Conducted by the National Woman's Christian Temperance Union.)

### LIKES PROHIBITION.

Mr. W. Innes Paterson of Red Cloud, Neb., writes that the change in that state since the dry law went into effect is marvelous. He says:

"On the 4th of July a celebration was held in this town, and I don't think I ever saw a quieter crowd in a place of its size and not a single intoxicated person. Almost every family has an automobile and everywhere remarks such as 'Not a drunk man,' 'What a difference from other years,' 'We will never go back to it,' 'There is nothing can be said in favor of it,' are heard. There was not a single auto accident; not an incident to mar the pleasure. The farmers' families were well-dressed, with money to spend. Even big cities that it was thought would be drastically affected by the sudden change, are vowing never again will they allow the curse to blight. There is absolutely no argument for its continued use in any civilized country after the demonstration in the United States."

### AUTHORITATIVE TESTIMONY.

In a telegram to President Wilson, the mayor of Savannah, Ga., thus testified to the value of prohibition as an economic measure:

"Prohibition in Savannah has produced astonishing economic benefits. Following are the percentages of reduction of arrests for crime: Assault with intent to murder, 64; burglary, 47; drunk and disorderly, 72; larceny, 50; larceny after trust, 76; murder, 66 2-3; lunacy, 54; number of convicts reduced, 50 per cent. Approximately 3,000 less calls for patrol wagon and 10,000 less articles pledged with pawnbrokers than in previous years of open saloons. Farmers and other employers of labor agree efficiency and reliability of labor increased 50 per cent. Enormous quantity of grain required for production of alcoholic drinks is urgently needed for food. It will be a crime to allow continued waste in this manner. National prohibition during war is of vital importance."

### DRINK AND WHITE SLAVERY.

Miss Kate J. Adams, social worker of Chicago, and author of the Kate Adams law, tells us that girls are disappearing in that city at the rate of three every two days—more than 500 a year. Most of these are without doubt victims of the white slave traffic. "The federal government," says Miss Adams, "maintains a special white slave officer in all cities of 25,000 or more inhabitants which have segregated vice districts, but"—note this statement particularly—"it is a significant fact that it is not necessary for the government to keep men in towns which are in dry territory, or in which there is no regular 'line,' a point which proves what I have always maintained, that no vice district can thrive or even exist for any length of time without whisky."

### MAKE IT NATION-WIDE.

The action of the government in prohibiting the sale of liquor to soldiers proves that it recognizes the fact that prohibition is right in principle and expedient in policy. Then why not extend it? If in the interests of health and efficiency enlisted men are given federal protection from Demon Rum, why not also the men who are doing war work at home? Why not the boys who will later be summoned to military service? To be fit for war and for the work of reconstruction after the war, America must conserve and strengthen every bit of physical and mental power in her citizenship. Protect the home, the office, the shop, from the raids of rum! Give us nation-wide prohibition!

### TWO OF A KIND.

The brewers used 68,400,000 bushels of grain in 1916. This grain would make annually cargoes for over a thousand vessels of 1,600 tons each. German submarines are sinking only about twenty vessels of all classes a week and but a small per cent of these are loaded with grain. Which is rendering the kaiser the better service, his submarines or the brewers of the United States?—The American Issue.

### A GOOD MOVE.

"It wouldn't be a bad idea," recently said the Country Gentleman, "if more tobacco growers agreed with the Wisconsin farmer who wrote to his experiment station that he was going to put his tobacco lands into grain because he felt it his duty to grow crops for food. In an emergency like this it is worth while to seat John Barleycorn on the toboggan with My Lady Nicotine and give them a good swift push."

### KAISER BARLEYCORN.

Kaiser Barleycorn is not only a disturber but he is a traitor. If he is simply interned during war he is liable to break out again. He should be executed instantly.—Denver Labor Bulletin.

### FOOLISH MOUSE.

Once upon a time a mouse got a taste of the dripping from a liquor cask in the cellar. Soon he began to feel gay and dance around. Then he hopped into a chair and called out, "Bring on your cat!"

# Royal Baking Powder

## saves eggs in baking

In many recipes only half as many eggs are required, in some none at all, if an additional quantity of Royal Baking Powder is used, about a teaspoon, in place of each egg omitted.

Try the following recipes which also conserve white flour as urged by the government.

### Corn Meal Griddle Cakes

1 1/2 cups corn meal  
1 1/2 cups boiling water  
1 cup milk  
1 tablespoon shortening  
1 tablespoon molasses  
1/2 cup flour  
1 teaspoon salt  
5 teaspoons Royal Baking Powder  
NO EGGS

Scald corn meal in bowl with boiling water; add milk, melted shortening and molasses; add flour, salt and baking powder which have been sifted together; mix well. Bake on hot greased griddle until brown.

(The Old Method called for 2 eggs)

### Eggless, Milkless, Butterless Cake

1 cup brown sugar  
1 1/2 cups water  
1 cup seeded raisins  
2 ounces citron, cut fine  
1/2 cup shortening  
5 teaspoons Royal Baking Powder  
1/2 teaspoon salt  
1/2 teaspoon nutmeg  
1 teaspoon cinnamon  
1 cup flour  
1 cup rye flour  
5 teaspoons Royal Baking Powder

Boil sugar, water, fruit, shortening, salt and spices together in saucepan 3 minutes. When cool, add flour and baking powder which have been sifted together. Mix well; bake in loaf pan in moderate oven about 45 minutes.

(The Old Method [Fruit Cake] called for 2 eggs)

## Raise High Priced Wheat on Fertile Canadian Soil

Canada extends to you a hearty invitation to settle on her FREE Homestead lands of 160 acres each or secure some of the low priced lands in Manitoba, Saskatchewan and Alberta. This year wheat is higher but Canadian land just as cheap, so the opportunity is more attractive than ever. Canada wants you to help feed the world by tilling some of her fertile soil—land similar to that which during many years has averaged 20 to 45 bushels of wheat to the acre. Think of the money you can make with wheat around \$2 a bushel and land so easy to get. Wonderful yields also of Oats, Barley and Flax. Mixed farming in Western Canada is as profitable an industry as grain growing.

The Government this year is asking farmers to put increased acreage into grain. There is a great demand for farm labor to replace the many young men who have volunteered for service. The climate is healthful and agreeable, railway facilities excellent, good schools and churches convenient. Write for literature as to reduced railway rates to Supt. of Immigration, Ottawa, Can., or to

## THE LAST EXAMINATION OF WAR'S DRAFT

Many a man has fallen down because a test of his water showed unmistakably that he had kidney disease.

The kidneys are the scavengers and they work day and night in separating the poisons from the blood. Their signals of distress are easily recognized and include such symptoms as backache, depression, drowsiness, irritability, headaches, dizziness, rheumatic twinges, dropsy, gout.

"The very best way to restore the kidneys to their normal state of health and cure such symptoms," says Dr. Pierce of Invalids' Hotel, Buffalo, N. Y., "is to drink plenty of water and obtain from your favorite pharmacy a 60-cent bottle of Anuric, double strength, which is dispensed by almost every druggist. You will find Anuric more potent than lithia, dissolves uric acid almost as water does sugar. Large package 60 cents. Send Dr. Pierce 10c for trial pkg. and ask for advice if there is need.

## Housekeepers Can Save \$200,000,000 on Food

In these days when the high cost of living pinches nearly every home, no waste should be overlooked. One of the most flagrant and the most easily prevented, is the destruction of food by rats. One rat will often do a hundred dollars' damage of food and property in a single night, and a careful estimate gives over \$200,000,000 as the value of foodstuffs destroyed annually by these pests. Exterminate them with Stearns' Paste and save this enormous loss of food. A small box of Stearns' Paste costs only 35 cents and is usually enough to completely rid the house of rats and mice; also effective against cockroaches and waterbugs. Adv.

"The RUDE—Mighty Good"

# The "RUDE" with Chain Drive No Cogs-No Clutches-No Springs

The "RUDE" Chain Drive is very simple in construction and thoroughly practical. It eliminates all clogs, clutches and springs; for the heavy pin link drive chain engages the upper part of the large sprocket wheel when in gear and by simply raising the guide arm, the chain is raised off of the sprocket wheel, thus throwing the machine out of gear.

The Rear Apron Shaft is 1, 1-2" Cold Rolled Steel and an extension of the shaft makes the bearing for the double sprocket which gives the beaters proper speed. This double sprocket simply revolves loosely on the shaft on which the double arm is pivoted. The circular pieces just below the chain are the same on both sides of the sprocket wheel and when the arm is raised these circles pick the chain off the teeth of the sprocket and hold the chain out of gear.

This is the most improved type of drive made, for it not only saves draft over the ordinary cog gears, but when out of gear no parts of the machine are running to cause wear.

The chain when in gear engages enough teeth so there is no tendency for it to jump cogs and the arm is held firmly so the drive is absolutely positive in every way.

We will be glad to show you this Manure Spreader any time and in order to reduce our stock before we invoice, we will sell them at the old price until Jan. 1st.

## Dinner Successful

The local committee on Food Conservation put across a "War Time" dinner at the Methodist church last Saturday evening which was a success in every particular. The demand for dinners exceeded the supply and to the regret of the committee many were turned away unserved. The popular price of 25 cents was intended to cover the cost of materials only, but after all expenses were met it was gratifying to find on hand an excess of \$6.75 which was turned over to the local Y. M. C. A. Committee.

The purpose of the dinner was to demonstrate the possibility of providing a substantial, economical and appetizing meal without using meat, wheat, sugar or fats, the elements which the government asks us to conserve. None of these were used except a minimum of sugar for the coffee, and substitute fats, as recommended by the Food Administration.

The menu was in charge of the following women, whose recognized ability insured its success: Mesdames Turner, Carroll, Schweitzer, Morris, Wray and Miss Dickerson, who were provided with becoming "Food Administration" caps, cleverly designed by Mrs. Turner.

Mrs. Crenean and Mrs. Bowen arranged the tables attractively with choice linen, silver and cut flowers and through the courtesy of Messrs. Bell and Graves unique menu cards were furnished by the Marion Light and Heat Company.

Assisting in serving were Mesdames Connelly, Graves, Long, Outland, Sargent and Misses Snider, Irene Carroll, Geneva Dickerson, Ruth Wray and Gilberta Wray. The menu follows, and by request the recipes are published also.

### MENU

- Bean Loaf Tomato Sauce
- Nut Loaf
- Baked Potatoes
- Oatmeal Bread War-Time Muffins
- Butter (substitute)
- Vegetable Salad
- Whole Spiced Apples Whipped Cream
- Black Coffee

### RECIPES

- Oatmeal Bread, War-Time Muffins
- Mrs. Morris
- Bean Loaf - Miss Dickerson
- Nut Loaf - Mrs. Carroll
- Vegetable Salad - Mrs. Turner
- Spiced Apples - Mrs. Wray
- PEANUT MUFFINS
- 2 cups flour (second grade)
- 1-4 cup sugar (scant peanut butter size of an egg)
- 1 teaspoon shortening
- 2 teaspoons baking powder, 1 egg.

### OATMEAL BREAD

2 cups oatmeal  
2 cups boiling water  
Pour water over oatmeal, cover and let cool. Dissolve 1 cake of yeast in half cup water, cup flour (second grade) beat and let rise. Add 3 cups flour and salt or flour enough to make a soft dough. Let rise and make in loaves.

### NUT LOAF

One cup of boiled rice, one cup of bread crumbs, one cup of chopped nuts, mixed with one egg, chopped celery and salt to taste. Make in loaf, bake and baste with water.

### BEAN LOAF

4 cups of beans cooked, two cups of bread crumbs, one beaten egg, one teaspoon of chopped onions, salt and pepper to taste. Mix all the ingredients together, if too soft to hold its shape, add more bread crumbs, if too dry add milk or another egg. Form into a loaf and brown in the oven.

### SPICED APPLES

Select perfect apples, uniform in size, wash but do not pare, and stick three cloves in each. Remove core with apple corer, being careful to keep stem end unbroken. Fill cavity with corn syrup, add 1-4 teaspoonful powdered cinnamon to each apple and bake with a little water in pan until apples burst, serve with whipped cream piled on top.

### WHAT WE THINK OF HIM

During the Revolutionary war we had Tories, who gave aid to the enemy. When they were caught red handed they were imprisoned or shot and their property taken over by the Government.

During the Civil war we had the Butternuts as they were called and those belonging to the Golden Circle. These parties were southern sympathizers and gave aid and council to the Southern Confederacy. It was this gang of cut throats who were the murderers of a man by the name of Whitaker, whose body was concealed in a swamp near Trenton, in Blackford County, and caused a Company of Union Soldiers to be sent back to preserve order but the sight of the blue uniform put the cowards to flight.

We are now engaged in the great world war for Democracy and human rights. The Government through its great leaders have said that they have a right to come to the American home and conscript the son, father or husband and we believe they have that right, and further we believe if they have a right to conscript the only thing on earth near and dear to the poor man and his wife, their only son, they have an equal right to conscript the wealth of the wealthy man. We have men in our own little town who have no boys to be conscripted and are too old for any service themselves and who are so damnable stingy that they refuse to buy liberty bonds, aid the Red Cross or the Y. M. C. A., yet they expect the conscripted flesh and blood of their neighbors to win the war and protect their property. If our boys give their lives and win this war it will protect the property of these human fossils, and we believe that the government should, when a man is able and so void of patriotism that he will absolutely refuse to assist in each and all of these things which are attempts to make the burdens of the soldiers at the front a little lighter, confiscate his property as readily as they would conscript the widows only son and support.

In a neighboring town one of these human freaks took some apples to town to sell them and every one in town refused to buy of him because he was not, they said an American Citizen, and his case has been reported to the federal Government for investigation, for when one is able and absolutely refuses he must be in sympathy with the enemy if he has heart and soul enough to have any sympathy. You probably know what is considered the lowest thing on earth but our opinion is that this kind of a man would have to stand tip toe on the top of an eighteen foot ladder to even peep into that holy place.

Let us who are patriotic and those who have sons, brothers and sweethearts who wear the uniform of the U. S. Soldier, by our actions toward these contemptible of all contemptible reptiles convince them that if they are Americans they must be Americans in the full sense of the word, and if they are not Americans they should be interned during the war and their property treated as other aliens property is treated, and it is every patriotic mans duty to report any thing said or done by these parties to the federal authorities. For our boys can fight ten of the enemy in the trenches with less danger than they can fight one at home.

### NEWS ITEMS.

The State Council of Defense calls upon the sensible people of Indiana to discourage the circulation of stories which help to disorganize our forces lined up to win the war. When unity of sentiment is essential, don't be the tool of those who would divide sentiment.

When you hear one of those foolish yarns, don't pass it along to someone else. Nail it down. Demand the proofs.

If any man, woman or child in Indiana who wishes to perform a patriotic service is intimidated or frightened away from the performance of that service, get the facts in the case and report them to your County Council of Defense

One of the blessed privileges of peace is to peddle cheap hear-say.

In time of war the passing along of a slanderous story, directed against any agency consecrated to the winning of the war, comes mighty near being treason.

The stories are made to sound plausible. That is camouflage. Don't be deceived.

# THANKSGIVING

Don't leave all the "fixin's" to the turkey. Fix yourself up for the holiday. We haven't any elastic vests that will stretch enough to accomodate the Thanksgiving dinner you'll eat. But we do have some mighty good fitting clothes that will not add to your distress.

The real way to celebrate would be, of course, with a new suit or a snappily correct new overcoat! How does that strike you? Good time, too, to go over your supply of shirts, collars and hoisery—a new outfit all around wouldn't cost much and might add a lot to your comfort.

Oh, yes; and ties! You really ought to brighten up with a new tie of the Autumn shades. That's really necessary.

Guess that's all, but you might think of something else if you'd come in and look around—we've a wonderful place here to get suggestions.
