Table 2. Parameters of the study

<i>Object markers</i>	
1 OM – obj NP	Can the object marker and the lexical object NP co-occur?
2 OM obligatory	Is co-occurrence required in some contexts?
3 OM loc	Are there locative object markers?
4a One OM	Is object marking restricted to one object marker per verb?
4b Restr 2 OM	Are two object markers possible in restricted contexts?
4c Mult OM	Are two or more object markers freely available?
4d Free order	Is the order of multiple object markers structurally free?
<i>Double objects</i>	
5 Sym word-order	Can either object be adjacent to the verb?
6 Sym passive	Can either object become subject under passivisation?
7 Sym OM	Can either object be expressed by an object marker?
<i>Relatives</i>	
8 Agr Rel mark	Does the relative marker agree with the head noun?
9a Res OM obl	Is an object marker required in object relatives?
9b Res OM barred	Is an object marker disallowed in object relatives?
9c Res OM optional	Is an object marker optional in object relatives?
<i>Locative inversion</i>	
10 LI restr	Is locative inversion thematically restricted to intransitives?
11 Full loc SM	Are there three different locative subject markers?
<i>Conjunct agreement</i>	
12 Partial Agr	Is partial agreement with conjoined NPs possible?
<i>Conjoint/disjoint</i>	
13 Conj/disj	Is there a (tonal) distinction between conjoint/disjoint forms?
14 Tone case	Is there a (tonal) distinction of nominal ‘cases’?

3:	multiple OM可；環境制約あり；辞順固定	[19]
4:	multiple OM可；環境制約あり；辞順自由	[0]

P076に関する一般傾向

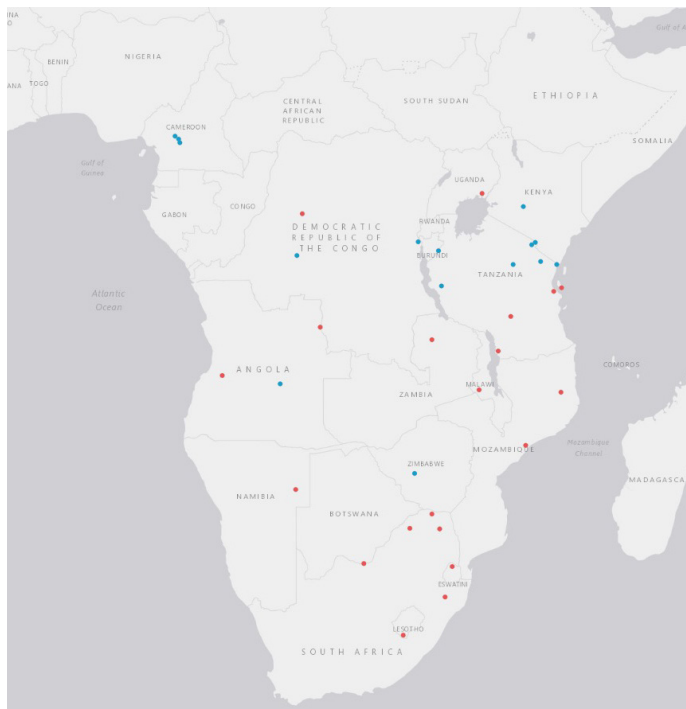

- i) 多くの言語はOMをひとつしかとらない
- ii) multi-OMは、特定の環境制約の元で許容される言語が比較的多い
- iii) 環境制約があり、かつ辞順が自由であるという言語は（今のところ）確認されていない

4. 類型論的一般化の試み – focus markingに関するcovariation

❖ 連動関係を支える論理：CJ/DJとPre-Initial negation

★ CJ/DJ対立を有する言語は、顕著に否定不変化詞を欠く

[+CJ/DJ, -NEG particle]	[+CJ/DJ, +NEG particle]
0.938 = 15/16	0.063 = 1/16

⇒ CJ/DJ対立を有する言語は、動詞内で否定標示を行う傾向

⇒ 主節否定の動詞内否定形式として顕著に用いられる傾向が高いのはPre-Initial marker

Swahili [G42]

a. **ha-wa-ta-on-a** ‘They will not see’ vs. b. **wa-si-o-on-a** ‘(They) who do not see’
 NEG-SM2-FUT-see-FV SM2-NEG-R2-see-FV

⇒ Pre-Initial markerは‘Focused negation’として発達 (Güldemann 1999: 570-576)

⇒ 多くのCJ/DJ型言語では否定環境ではその対立が中和され、もっぱらDJ形 ≡ 動詞フォーカス形が否定動詞として用いられる傾向 (Van der Wal 2017: 35)^[1]

Makhuwa [P31] Van der Wal (2009: 219)

a. [CJ] **O-hi-ń-thúma esheeni?** ‘What doesn’t he buy?’ vs. b. [DJ] **Kha-ń-thúma.** ‘He doesn’t buy (it).’
 SM1-NEG-PRES-buy.CJ 9.what NEG.SM1-PRES-buy.DJ

^[1] “In Makhuwa there are two negative paradigms for the alternating tenses, of which the CJ form is not used often – the DJ form is the regular negative form” (Van der Wal 2017: 35)

4. 類型論的一般化の試み – focus markingに関するcovariation

❖ 連動関係を支える論理：focus markingと倒置構文

場所名詞句倒置 (Locative inversion): Swahili [G42]

simba amalala **msituni** 「ライオンが森で寝ている」

msituni kumelala simba 「森ではライオンが寝ている」

被動者倒置 (Patient inversion): Rundi [JD62]

johani arasoma **igitabo** 「ヨハニは本をもう読んでいる」

igitabo kirasoma johani 「ヨハニがもう本を読んでいる」

主題化 (topicalization) ストラテジーとして見做される傾向にある倒置構文だが、バントゥ諸語類型論における被動者倒置についてはむしろ積極的な焦点表示 (focus marking) ストラテジーと解釈できる可能性 (Shinagawa and Marten 2021a, Van der Wal 2022)

❖ データの量的拡充

5. 課題と展望

- ❖ データの量的拡充
- ❖ データの質的検証 (validation) : データ自体 + パラメター解釈の妥当性のチェック

Welcome to WALS Online

The World Atlas of Language Structures (WALS) is a large database of structural (phonological, grammatical, lexical) properties of languages gathered from descriptive materials (such as reference grammars) by a team of [55 authors](#).

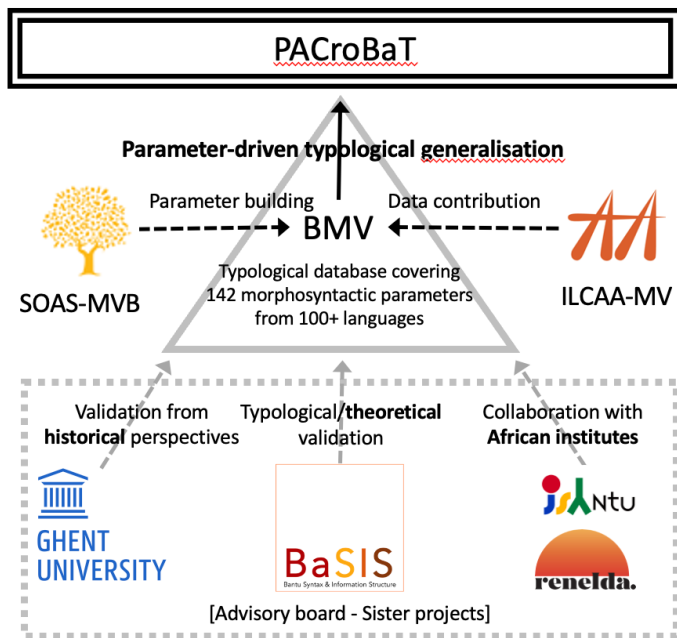

The first version of WALS was published as a book with CD-ROM in 2005 by Oxford University Press. The first online version was published in April 2008.

The 2013 edition of WALS corrects a number of coding errors especially in Chapters 1 and 3. A full list of changes is available [here](#).

Starting with the 2013 edition of WALS, we will release and publish sets of corrections periodically. Thus, any citation of WALS Online 2013 should include the particular version, as listed on [Zenodo](#).

5. 課題と展望

- ❖ データの量的拡充
- ❖ データの質的検証 (validation) : データ自体 + パラメター解釈の妥当性のチェック
- ❖ reductionist vs. scenario-based approaches (Van de Velde, to appear)
- ❖ correlation/covariationの質的検証 : その関係はcausalか?
- ❖ 統計的手法の洗練

- ❖ parameter-driven micro-typologyの国際的研究体制の構築
 - ⇒ 国際的な共同研究体制のもとで、歴史言語学および理論言語学的な視点からの批判的検討を繰り返しつつ、データの量的拡充、質的検証を進めることでより精度の高い類型論的一般化へ
- ❖ データの拡充、検証のみならず、より有効なパラメター設計についての議論も必要
 - ⇒ 記述研究と類型論研究のより有意義な協働へ
