*Corresponding author.

Regretfully, the author list of the original paper did not contain the members of the groups being responsible for the HPGe screening, Radon emanation measurement and ICPMS surface characterization works. As the work performed is to be considered more than “just service work”, the authors together with the members of these groups have decided to amend the authors list.

At publication the following authors were not included in the author list:

- From Pacific Northwest National Laboratory, Richland, WA, U.S.A.:
E.W. Hoppe, I.J. Arnquist, K.P. Hobbs, A.D. French, M.L. diVacri
- From INFN, Laboratori Nazionali del Gran Sasso, 67100 Assergi, Italy:
M. Laubenstein
- From M. Smoluchowski Institute of Physics, Jagiellonian University, 30-348 Krakow, Poland:
G. Zuzel
