You will be contacted as soon as possible.

Contents

1. Introduction	7
2. Pharmacokinetic study of saquinavir hard gel caps/ritonavir in HIV-1-infected patients: 1600/100 mg once-daily compared with 2000/100 mg once-daily and 1000/100 mg twice-daily	31
3. The interindividual variability of saquinavir pharmacokinetic parameters in Thai and United Kingdom patients	43
4. Ketoconazole is inferior to ritonavir as an alternative booster for saquinavir in a once daily regimen in Thai HIV-1 infected patients	55
5. Nevirapine plasma concentrations and concomitant use of rifampin in patients coinfecting with HIV-1 and tuberculosis	67
6. Relationships between exposure to indinavir, efavirenz and ritonavir, and changes in fasted metabolic parameters and body fat distribution in HIV-1 infected patients switched to a nucleoside-analogue sparing regimen	81
7. Study of the pharmaceutical and bioequivalence of generic saquinavir in Thai healthy volunteers	95
8. A pilot project for quality assessment and monitoring of generic antiretrovirals in Thailand	105
9. Discussion	115
Summary / Samenvatting	137
Acknowledgements	145
Curriculum Vitae	149
