Using Structural Equation Modeling to Investigate Change in Health-Related Quality of Life

ACADEMISCH PROEFSCHRIFT

ter verkrijging van de graad van doctor
aan de Universiteit van Amsterdam
op gezag van de Rector Magnificus
prof. dr. ir. K. I. J. Maex
ten overstaan van een door het College voor Promoties ingestelde commissie,
in het openbaar te verdedigen in de Agnietenkapel
op donderdag 6 april 2017, te 14.00 uur

door

Mathilde Gertrude Esther Verdam

geboren te Hilversum

Promotiecommissie

Promotores:	Prof. dr. F. J. Oort	Universiteit van Amsterdam
	Prof. dr. M. A. G. Sprangers	Universiteit van Amsterdam
Overige leden:	Prof. dr. N. K. Aaronson	Universiteit van Amsterdam
	Prof. dr. D. Borsboom	Universiteit van Amsterdam
	Prof. dr. C. V. Dolan	Vrije Universiteit Amsterdam
	Prof. dr. P. M. Kroonenberg	Universiteit Leiden
	Prof. dr. V. Sébille	Université de Nantes
	Prof. dr. A. H. Zwinderman	Universiteit van Amsterdam

Faculteit der Maatschappij- en Gedragswetenschappen

Contents

Chapter 1	Introduction	7
Chapter 2	Response shift detection through then-test and structural equation modeling: Decomposing observed change and testing tacit assumptions.	23
Chapter 3	The analysis of multivariate longitudinal data: An instructive explanation of the longitudinal three-mode model	39
Chapter 4	Measurement bias detection with Kronecker product restricted models for multivariate longitudinal data when the number of measurement occasions is large	67
Chapter 5	Taking into account the impact of attrition on the assessment of response shift and true change: A multigroup structural equation modeling approach	83
Chapter 6	Using structural equation modeling to detect response shift and true change in discrete variables: An application to the items of the SF-36	103
Chapter 7	Using structural equation modeling to detect item bias: Comparison with other item bias detection methods	141
Chapter 8	The impact of response shift on the assessment of change: Calculation of effect-size indices using structural equation modeling	155
Chapter 9	Summary and general discussion	169
