Erratum

On the possibility of using information entropy as a quantitative description of porous media structural characteristics [J. Membrane Sci., 117 (1996) 279–289][1]

Alexander Yelshin

Engenharia Biológica, Universidade do Minho, P-4709 Braga Codex, Portugal

After the author's proof had been returned, an unfortunate error was found. On page 284, the lines 6 to 8 after Eq. (15) should read:

..., in other words if $h = 5$ the coefficient of tortuosity must be equal to 3; $h = 100$, $k = 1.1$, etc.

---
