# McCabe, McMullen, Reid....

I am a candidate for the office of President of your Student Government.

I want to see in the Student Government council a representation of the student body. I want to see good organization and officer accessibility.

I want to see an openness and a follow-through attitude on the part of Stu-Go, towards those problems and concerns voiced by students. Most of all, I want to see those

(Please turn to Page 4)

There isn't very much I can say about why I'm running again for president of StuGo, so I'll let my record speak for itself.

I started as a senator in StuGo, and I am presently president.

There have been a lot of things written about me. Some good, and some bad; but I'll still stand on my StuGo record as president. As long as I have been in StuGo I have dedicated myself to doing what I believe to be right.

(Please turn to Page 4)

The Administration will not be pleased if you elect Bobbie Reid as your president. As public relations senator, senior senator and finally vice president I have demonstrated that I can lead the Senate and will work on the STUDENTS' behalf and not vice-versa.

My concern is not only at election time but throughout the year. When Canteen raised prices, I advocated and worked in a student boycott. I had long talks with the Administra-

## StuGo Election May 7-8

BY DAVE WIECHMAN

A battle is welling up as 13 candidates seek election in the Wednesday and Thursday spring elections. The student body will be electing a president, vice president, treasurer, secretary, IOC Senator and Convocations Senator.

Voting will take place in the College Center on Wednesday, May 7, from 10 a.m. to 2 p.m. and from 6:30 p.m. to 8:30 p.m. The polls will open for the same hours on Thursday, May 8.

The campaign began Thursday, May 1 at 1:15 and soon the college was filled with brightly colored posters expounding clever quotations urging the student to vote for the

only right candidate.

Max Gepner, the Student Service Senator, was appointed by the Senate on Tuesday, April 29 as the election board chairman. Evening Senator Don Mitchell was appointed as her counterpart during the evening voting.

Running for president is Maryjo McCabe, Tom McMullen and Bobbie Reid. Maryjo McCabe, from Paxton, is the president of the Parkland Peace and Social Awareness Club. She has also served on the committee studying the feasibility of a Day Care Center.

Tom McMullen is the present StuGo president seeking re-election. He previously served as Day

## PC NEWS.. ..IN BRIEF

### Art Exhibit To Be Held May 9th

There will be an exhibit and sale of original art at the Howard Johnson Motel on State Street in Champaign May 9 from 8 to 11 p.m.

The exhibit will feature the original art works of Cliff Black, Randy Stillman, Flint Fothergill, Dan Easton, Jim North, C. W. Zimbleman, Roger Phillips and Rod Moseley.

### Veterans Plan A Lake Of The Woods Cook-Out

The Parkland Veterans Assn. announces that there will be a get-together and cookout at the Lake of the Woods, near Mahomet, on May 10 (May 17 is the rain date), beginning at 10 a.m. and going until 7 p.m.

Kentucky Fried Chicken will cater the affair, with roast beef for those not wanting chicken and the PVA will provide beer with the meal. Activities consist of golf, baseball, softball, football, volleyball, and various other sports. And, it's all FREE.

All veterans and their family or guest are welcome. Come on out to a just plain friendly happening.

### Theta Epsilon Fair May 5

Theta Epsilon, the law enforcement fraternity at Parkland College, will be sponsoring a law enforcement fair on Monday, May 5 from 10 a.m. - 2 p.m. There will be a representative from Champaign, Urbana, Sheriff's, University, and State Police Departments as well as an Agent from the FBI and IBI. There will be displays for students to look at the students are encouraged to talk freely with any of the representatives concerning law enforcement in general or just solely on their own police departments. There will also be a law enforcement advisor from Parkland to talk with any student who might be interested in the law enforcement program at Parkland.

The law enforcement fraternity is sponsoring this fair in hopes of producing a friendly relationship between the public and police. Any one who has any questions concerning the fair can contact the fraternity president, Becky Anding at 351-2255.

### RECREATION SOCIETY

The Recreation Society of Parkland College is going to hold a garage sale on Saturday, May 17, at Parkland's Barn.

The sale is being put on to raise money for next year's club activities.

Everyone is asked to look around for something to donate. Persons wishing to donate items, please call 359-9199 and someone will come and pick up the items for you.

Or students may donate things by leaving them in X-159.

## Parkland Goes To Semester

Parkland's long awaited change to the semester system is no longer a fantasy, but is close to becoming a reality. Pre-registration for Parkland's Fall Semester will be conducted from May 6 through May 16. All continuing full-time students and all students eligible to be full-time should arrange to see their faculty advisor during this 9-day period so that they can select their classes for Fall Semester. Faculty Advisors will have a printed course request form and a Fall Semester Registration Information Sheet for each of their advisees.

It is the responsibility of each student to submit a completed course request form to the Office of Admissions and Records by 5:00 p.m. on Friday, May 16.

All students who have pre-registered during the pre-registration period of May 6-May 16 will receive their printed schedule, statement of tuition and fees in the mail on or about July 30. Also included in this mailing will be instructions to complete registration by mail. To register by mail, all completed forms and payment must be received by the Office of Admissions and Records prior to 5:00 p.m. on Friday, Aug. 15.

Returning and new students who pre-register prior to or on Aug. 7 may complete registration by mail. If they pre-register after Aug. 7, they may not register by mail and may be required to register in person at Parkland College on Aug. 20

(Please turn to Page 5)

## StuGo Approves New Budget

After months of research and debate, the student government passed a budget for next year. The budget is estimated to be around \$75,000 for the entire year.

Voting 7-2, the Senate approved the budget at its regular meeting, Tuesday, April 29, in the lecture hall, C-118. The two opposing votes came from the two evening senators.

Special areas of controversy had centered around publications, campus organizations, convocations, student services, and special projects. The finance board, of which Treasurer Leslie Grove is the chairman, debated the proposed budget for several months. At least seven revisions were necessary.

The final budget was the child of compromise. Before it was approved it had been the object of some controversy. The 75-76 student budget was the brainchild of Treasurer Leslie Grove, Senior Senator David Wiechman and Bob Dees, student members of the Finance Board.

Substantial input was also received from Dean Karch, Vice President Bobbie Reid, Day Senator Gary Miller and former Evening Senator Del Boyd. Also involved was Grant Collins, Maryjo McCabe, and Terri Lane.

An important change in this new budget is the IOC (clubs) allocation. Instead of the present allotment of \$200 to each active club there will be a new joint fund. All clubs will get \$50 to get started. Then as they need more money they must go before the IOC and the finance board and demonstrate a need for a certain amount of money. They will also have to make some of the money themselves. This idea was evolved in order to allocate funds on a basis of need and on worthiness.

Another important point was the

creation of a special projects fund in order to allow next year's student government to fund special events that cannot be foreseen. It was designed to pay for such things as a boycott, national intercollegiate competition and legal aid.

The breakdown of the budget was in the form of percentages. They are as follows: Senate, 6%; Publications, 9.5%; Intermurals, 6%; IOC (Clubs), 10%; Varsity Athletics, 23%; Debate, 3%; I. E. (Speech), 3%; Drama, 1%; Agricultural, 1%; Convocations, 14%; Student Services, 6%; Special Projects, 6.5%; Evening Students Program, 5%; Summer Program, 2%; Bicentennial, 5%; Car pooling, .5% and emergency baby sitting, 3%.

The budget now goes to the Parkland College Board of Trustees for final approval.

## Carnival A "Tension Reliever"

BY DAVID SCOUFFAS

The annual Spring Carnival, held at Parkland last Thursday, May 1, would have to be termed a great success. The area of the carnival was crowded with students enjoying themselves. There were clowns, free helium balloons, cotton candy and games enough for everyone.

Credit for the May Day event has to go to Grant Collins, IOC Senator, who organized the carnival, and the College organizations who ran the games and the concessions. They

# editorials

The up-coming election promises to be hot and heavy, with 13 candidates. This group of campus politicians is comprised of incumbents and a healthy group of newcomers.

The Prospectus will continue the practice of giving the candidates an audience in our readership. Also, we wish to the candidates the best of luck.

We also would like to see a very heavy turnout of voters. Do not forget these are the people with whom your student activities fees are entrusted. They are the ones who book the entertainment that everyone has the chance of viewing for nonfee. Also the movies, speakers, and groups come under Convocations. Now is your chance to elect people who will be responsive to the student voice.

Congratulations to the IOC on the Carnival this week - always a big event, also a hard event to organize, and make it come off smoothly.

With spring finally here with us, Parkland appears to be absorbing much of the life being generated by its inhabitants, making a higher vibrating feeling emitted by and to all. It is good to feel it in the air once again.

## 'NEXT'

BY DEAN HARRIS MOELLER

As guest writer for the column entitled "Next", I have chosen to make a few comments about the "next" academic year. Although this college year has not ended and several significant events are yet to come, such as final examinations and Commencement, we should begin to plan for the 1975-76 academic year.

By now, everyone is aware that Parkland College will change to the "Early Semester system" beginning next fall. However, what difference will it make and what plans should continuing students make now? I wish to present the following points for your consideration.

First, students desiring to continue their enrollment at Parkland next year should plan carefully their education programs. I strongly urge each continuing student to consult with his/her advisor in selecting courses for next year. Check and double check that the right courses have been selected. All continuing students should consult with their advisors and pre-register prior to May 16. To pre-register costs nothing but the advantages are many.

Secondly, the 1975 Fall Semester at Parkland will begin on Aug. 25. This beginning date for the next academic year is earlier than for any previous year. It is the first time for Parkland that a fall term has begun prior to Labor Day. Therefore, the summer will be shorter for us and we should plan accordingly.

Thirdly, the instructional unit of credit will change from the "quarter hour" to the "semester hour". Whereas, three quarters have comprised our academic year, next year two semesters will comprise the academic year. Presently, a student earning 15 hours per quarter for three quarters earns 45 quarter hours for the academic year. Next year, a student earning 15 hours per semester for two semesters will earn 30 semester hours for the academic year. Forty-five quarter hours equal thirty semester hours.

For this present academic year (1974-75) the tuition and fees for a student pursuing 15 quarter hours each quarter, or a total of 45 quarter hours for the academic year, are \$416.25. (\$9.25 per hour X 30 hours) The point to be made is that tuition and fees have not increased but have been converted in accordance with the unit of instruction. However, the student pursuing 15 hours each semester next year will make two tuition and fees payments of \$207.75 (each at the beginning of a semester) as compared to the present three tuition and fees payments of \$138.75 (each at the beginning of a quarter) for 15 hours. With one less payment next year, each student will make a larger tuition and fees payment at the beginning of each term. Therefore, students should make financial plans accordingly.

Finally, I urge all students who anticipate financial problems next year to apply now for appropriate financial assistance. One may obtain the appropriate application forms from the Parkland College Office of Financial Aids.

## VOTE! VOTE!

As this academic year draws to and end, congratulations to Parkland students for their many accomplishments. For next year, let us plan to make it an even better year.

## letters

To the Editor:

On May 1, 1975, "Law Day, U.S.A." the Illinois House of Representatives fittingly passed the Equal Rights Amendment by a vote of 113 to 62 - six more votes than were needed for the required three-fifths majority.

It now needs passage through the Senate of the Illinois General Assembly. It needs the votes of 36 of the 59 Senators, in order to be ratified by the State of Illinois as the 27th Amendment to the Constitution of the United States.

Support this proposed amendment let your State Senator know - by postcard, by telephone, by wire - that you expect him to vote yes on the amendment.

If you are in the 52nd legislative district (Champaign, Douglas, Moultrie counties) your State Senator is Stan Weaver, Route 3, Urbana, Ill. 61801.

If you are in the 43rd legislative district (Ford and Iroquois counties), your Senator is Jerome J. Joyce, RFD, Reddick, Ill. 60961.

If you are in the 53rd legislative district (Vermilion County) your Senator is Tom Merritt, 858 East Lincoln St., Hoopston, Ill. 6-942.

Your senator can also receive mail at the State Capitol Building, Springfield, Ill. 62704.

The P.S.A. supports the Equal Rights Amendment. It is over 50 years in coming. Let your State Senator know!

Peace & Social Awareness Assn. Senate elects one of its own members as their leader) and finally as your vice president. He also ran for mayor of Champaign.

## The Short Circuit

By David Wiechman

ally as your vice president. He also ran for mayor of Champaign. But Bobbie has this one problem: he is too honest. No, wait. He has a second fault. He refuses to be a patsy for the big boys. Bobbie Reid's whole life revolves around fighting for what is right and to helping the common people. That's part of the reasons he was elected the local president of the NAACP. Reid's not one of those people who try hard to get elected and then do nothing afterward. Just the opposite. He works the hardest the farther it is from an election. And boy, does he ever work. Bobbie has spent hours and hours with me and Gary Miller researching various problems. He has worked on the bookstore, the day care center, Canteen, the boycott and was deeply involved in the creation of this year's innovative budget. Such a record is hard to surpass. Whatever this Student government has done can more than likely be thought of as a personal victory for Bobbie Reid and Gary Miller. Before I examine the second member of the super-star team, I should observe that Bobbie has the one thing that is absolutely essential to being a good StuGo president. That is the ability to lead the Senate. The

To the Editor:

In regard to the article that appeared in your previous issue in which a Ms. Weller indicated that there are young females in this country who derive their sexual interests out of masculine, Mr. America types, I say poppy cock and bolderdash.

It is apparent through recent studies conducted at the UCLA campus that over three-fourths of the American men of this era do not have the specifics of which she elaborated.

On the contrary, most of the American men of today are either overweight or so skinny that they are mistaken for snakes lurking in the shallow water by the beach of which she speaks.

Let me say that it is extremely nice of Ms. Weller to uncover for the male population that there are girls in this wonderful, screwed up country of ours who are still diligently combing the beaches for that Mr. America that every man wishes to be and every girl wishes to have.

Again, I think you, Ms. Weller, for once again stirring my (hopes) that I may one day be approached by a nice, curvy blonde who will say, "Hey, big boy, come on up and see me some time."

Respectfully,  
A 135-lb. Sex Bomb

Head photographer Tim Teran shows his response to the article in the PROSPECTUS last week. "Is this what she meant?" Tim quizzed.

Senate must be treated with respect and trust, something this year's president, McMullen, couldn't quite grasp. Bobbie has the confidence of every member of the Student government.

Competing with Reid for the spot as the most popular member of this year's StuGo is Gary Miller. A young man, Miller has impressed me with his devotion, energy, honesty, and even a superior intellect. A Day Senator this year, he was elected out of a field of six candidates. Gary is one of the few members of the original StuGo team elected in the fall to still be serving out his term.

Miller is now running for vice president. His opponent, who is for all the things Gary is for, is an honorable man, but when it comes down to the line I'd rather go with the sure thing. His opponent says good things, but Miller has actually done things. The student body would be better off with a man who has already proven himself.

To be vice president requires a knowledge of the StuGo and the acceptance of the Senate. The job of number two is just too important to give to a greenhorn or a newcomer. Miller has a lot of experience as a member of the Food Service Committee, Ethics Committee, and the Finance Board. Gary also was the person responsible for bringing Angela Davis to Parkland for a free lecture.

Merely by serving out his entire term of office, Gary Miller has proven a lot but he has also been a member of the debate team, a writer for Prospectus, and finally a straight A student. Qualifications that Gary Miller brings to the office of vice president are just unbeatable.

The final office I would like to comment on is Convocations Senator. Three people are running. As for the incumbent, Ms. Weller, I can only say that I don't think she is the best person for the job.

Sylvia Mandel provides another problem. Although she has the intellect and competency to handle the details of booking entertainment, her credentials as a voting member of the Senate leave something to be desired. Her record I find appalling. But that's not as important as being able to serve out the obligation of a term of office. Ms. Mandel served as senator for one quarter and then quit. No matter how well she felt she did her job, when she took the post it was with the expressed intention that she fill the job until the end. But she failed to fulfill this obligation and forced the students to go to the polls for a third time for one job.

When a senator takes a job, they take the whole job which means seeing it through until the end. Ms. Mandel failed this. It's not too much to ask that after the StuGo pays to send her to Washington, D. C. for a week, that she at least stay in office more than one quarter. For these reasons I can't support a comeback attempt by Ms. Mandel.

The only one who hasn't proven himself incapable of handling the job is Mr. John Weeks. Until he proves otherwise, I assume he will fill the job until the end of his term and as such should be elected as Convocations Senator.

## VOTE!

**L.T.D.'s CORNER**  
By Mike Street

I had the pleasure of leaving Champaign-Urbana over this past weekend, and in the process, witness what will soon become a history of the young people's heritage. I'm talking about Main Street, U.S.A.

Every since Henry Ford brought to the American people the Model "T", and Chevrolet came out with the epitome of the "All American Grease Machine", the '57 Chevy, kids have diligently and faithfully picked up their friends or girl and taken to the main drag to do a night on the town.

Being from a town (city) such as Champaign, I never really got into that kind of "fun" when I first came in contact with my license and a car. Besides, Champaign is too large for the "real thing". I was in Greencastle, Ind., at the Sigma Chi fraternity to cover a story on "The Little 500", which is a bike marathon competition between the respective fraternities and sororities on the DePauw University campus. (Thanks for the hospitality John and "Sherry").

John decided to show me the town of Greencastle my first night there. To say the least I was amazed at the uniformity and the grace by which these young people put their machines through the nightly rituals. When I say "rituals", that is precisely what I mean to imply. Greasing in Greencastle has become a science and a social phenomenon in itself. Every car and driver understands his "rank" and status that has been assigned to him (or HER) by the ritual's unwritten laws. The "Top Dog" was a '75 El Camino whose driver had attained that right by working his way "up the ladder" in a progression of "runs" in which he had beaten his opponent in a quarter mile race. He would remain in that number one slot until someone came along with a car that could "wax his doors" and take over.

Every town has its strip that they use to show off their cars and grease through, revving their engines, "catching scratch", and generally, making the history of a dying breed of young America.

Greencastle was no exception. Their grease lap was on the south edge of town, on a two lane road which stretched out past the Burger Chef, which was their local hang-out. Here in the evening, was where I found all the town kids . . . sipping on cokes, rappin' away about school, their problems with the town bully, and . . . about the big "race" between the El Camino and the new "Mystery Car."

I just happened to come on the weekend of the two biggest races in the town's (more or less) uneventful history. The bicycle race was won by the Sigma Nu fraternity, with some other frat taking second. My hosts, the Sigma Chi fraternity, took third.

But the real race . . . the race that meant more to the kids, was the bash-off between the '75 "Elk" and the "Mystery Car", which nobody had seen, heard, or talked of until the Friday before.

The whole crowd at the Burger Chef was buzzing with the prospect of what would be the fastest race in the history of Greencastle. The weather was perfect for the race, not a cloud in the sky, only the stars and a not-quite full moon. The strip on the south of town was lined with all the novices, waiting for their hero to show . . . in that beautiful '75 "Elk", the "Mystery Car" showing for the race . . . and the police kept busy on the other side of town.

At about eight-thirty, the "king" of the strip came lazily rolling down the street, the look of confidence gleaming from his baby blue eyes. He let off the gas and braked into position at the starting line. He knew what this race meant, but by the expression molded in his jaws, no one in the crowd could see that it concerned him to any measurable degree.

Eight-thirty five came around and the mystery man and his "car" hadn't appeared. Eight-forty . . . still, no sign. The crowd began to get a little

edgy, nervous little titters broke out. The Hero still showed no emotion.

Then . . . it happened. Out of the dark skies from behind he came. Just as slowly, just as sure of himself as the hero . . . he came. You could see the outlining shadow of the "Mystery Car" as it broke into view. The novices could hear the rumble of the engine. It shook the doors on the Burger Chef . . . it brought the crowd down to the strip with its hypnotic sound. The race was about to begin, and for once . . . the Hero's expression broke.

"That's funny," exclaimed one of the kids, "that dude's only got one light burnin'."

It wasn't all that strange, as they quickly became aware that the car was not a car . . . but a motorcycle. They all broke out in laughter and started to cry out cat calls and yelling that it was a sure thing. Their King would come through this one easy. Ain't no way a motorcycle is gonna whip the King!

"It ain't even a Honda," shouted one of the spectators on the side of the road.

"One of those damn Kawasakis," another cried out.

"Hey motorcycle mama," exclaimed the King, "you gotta be kidding me."

"Would I kid you . . . your Highness," the driver teased.

"I'm gonna blow you off the street."

"If you say so . . . King baby."

There was a commotion as the flagger stepped between the two vehicles.

"You both ready?"

Both acknowledged. The flagger stepped back and brought the checkered peice of cloth up above his head. Both engines started to rev into a scream as the drivers began to come tense with anticipation. Down went the flag. Smoke came pouring out from under the King's tires as he dumped the clutch into its five hundred horse powerhouse. The Kawasaki churped the back tire as he torqued his machine into the red zone. The man was laying flat on the tank, trying to avoid a wheely. The front end still came up . . . he blasted into second gear to bring the front end back down, but it only kept right on about six inches from the ground.

"He's gonna kill himself!"

The Hero started to take an edge for first, blasting second gear and smoking his tires, he took about a three foot lead. The crowd went wild.

The Kawasaki hit third a tremendous roar and overtook the King. The crowd became silent. The King was losing. Both drivers hit fourth with all the power in their engines, and the race was beginning to draw into the final lap. Neck and neck they hurtled their machines into the cool spring night, each of them knowing all too well that there would be only one to take the Crown. The final feet were closing into inches.

Still neck and neck, each poured out the last remaining effort that the machines could deliver. They crossed the line, burning up the road behind them.

The crowd looked eagerly . . . hopefully . . . in anticipation . . .

The next day, the word spread about that strange man who came from no where to race the King. They talked about how the crowd sneered and jeered at him when he came up to the line on that blue Kawasaki. They talked of how the King kept his cool . . . but the King was no longer.

For on the eventful and historic night, a new machine took the position in the Burger Chef lot. It was the Blue Kawasaki and the new King . . . The Kawasaki Kid.

**Photography 35**

BY MICHAEL HELLER

**TIPS ON USING AN EXPOSURE METER**

You'll have more assurance of getting properly exposed pictures when you correctly use an exposure meter. A meter increases your capability and confidence of getting the right exposure under almost every type of lighting condition.

The type of meter you have determines how you should use it. Basically there are two types of exposure meters: reflected light and incident light.

Most photographers use a reflected - light exposure meter because it's convenient to use from the camera position. It measures the average brightness (light reflected from the scene) within the meter's field of view. The photographer usually stands at the camera and aims the meter at the scene he wishes to photograph. On the other hand, an incident - light exposure meter measures the illumination falling onto a scene. With an incident - light meter, the photographer positions the meter in the same light that is illuminating the subject, usually near the subject, and points the meter at the camera.

If you use your exposure meter according to the directions given by the meter manufacturer, you should get an extremely high proportion of properly exposed pictures. By studying the meter instruction manual, you will learn how to use your exposure meter and familiarize yourself with its flexibilities and limitations. If you don't have instructions, write to the manufacturer for them.

The first step is to set your exposure meter for the speed of the film you are using. The film speed indicates the film's relative sensitivity to light. The higher the number, the more sensitive or "faster" the film; the lower the number, the less sensitive or slower the film. Your film instruction sheet or the film carton tells you the speed of your film.

For average subjects, your exposure - meter operation is mostly mechanical; all you do is point the meter at the scene and make your lens setting according to the exposure - meter dial. But scenes of high contrast that have large bright or dark areas require selective meter readings. Your exposure meter has no way of knowing what part of the picture is important to you. When you make an over all exposure meter reading from the camera position, your meter is affected by the large areas in the scene.

If either a large dark area or a large light area is the most predominant part of the scene, your exposure meter will usually indicate a good exposure for that area. However, when the principal subject in the picture is surrounded by a large area that is much brighter or darker than the subject, the meter will be too strongly affected by the predominant area and will indicate an exposure that is incorrect for the principal subject in the picture. The way to determine the correct exposure in these situations is to make a selective meter reading of the principal subject. For ex-

ample, you can make a close-up reading of the subject. To do this, stand near the subject and make a close-up reading that will exclude unimportant bright or dark areas in the scene which can mislead your exposure meter. In making close-up readings, be careful not to measure your shadow or the meter's shadow.

**"THE BASIC ELEMENTS OF PHOTOGRAPHY"**

Every art and every science has basic elements. Photography, also has elements that are common to it: LIGHT, a SUBJECT, a CAMERA, and FILM.

**LIGHT.** To record a photographic image, film must be exposed to light. For good pictures, you must expose the film in your camera to the proper amount of light. If too little light reaches the film, your pictures will be too dark (underexposed). If too much light reaches the film, your pictures will be too light (overexposed). It is important to read the exposure data on the film carton or on the instruction sheet that comes with the film.

**A SUBJECT.** A good subject is whatever appeals to you. Such subjects as a giggling little girl, a setting sun, a happy bride, and a snowcapped mountain peak are favorites with most everybody.

**CAMERA.** All cameras have the same basic parts: 1. A light-tight box to keep light out. 2. A lens to collect the light reflected from a subject which forms an image on the film. The lens may be factory set for normal picture-taking distances, or it may be of the focusing type. The focusing type of lens is adjustable.

3. A lens opening to control the intensity of light reaching the film. The size of the lens opening may be fixed or adjustable.

**PROSPECTUS, MAY 5, 1975-3**

4. A shutter to control the length of time that light reaches the film. The shutter keeps all light out until you take a picture. A fast shutter speed has the advantage of letting you capture action scenes.

5. A shutter release to open and close the shutter.

6. A film advance mechanism to advance the film for the next exposure.

7. A viewfinder to frame your picture area. If your camera didn't have a viewfinder, you wouldn't be able to tell what your camera sees when you take the picture.

8. Most cameras have a PC outlet for a strobe light.

Adjustable Cameras. An adjustable camera has controls that allow you to take pictures under a wider range of conditions than is possible with a simple camera. Adjustable cameras have a selection of shutter speeds, including very fast shutter speeds for action shots. Most adjustable cameras have focusing lenses, and can be focused for close-ups -- 2 to 3 feet and sometimes closer. Adjustable cameras also offer a wide variety of lens openings. These lens openings are set by moving lever, a pointer, or a dial, and are usually designated by f-numbers.

**FILM.** Film is a light-sensitive material that records an image. When you purchase film, it is important that you get the "right" film for your particular needs. Keep the following points in mind:

Specify whether you want color prints, black and white, or color slides. Each roll of film is intended primarily to make only one of these three kinds of pictures. However, you can have color prints from color slides, and color slides made from color negatives.

McCABE, McMULLEN, REID  
(Continued from Page 1)

## McCabe

problems and concerns dealt with, and not lost in a maze of bewilderment as to whose responsibility various chores are.

I want to see student concerns introduced into Stu-Go meetings, addressed, and if possible, resolved; and then, I want to see the results made known to everyone. If there is no newspaper available on campus each week, to acquaint student body with workings of their Stu-Go, then some other method of communication must be developed.

Not only must Stu-Go and student body work together, but everyone concerned know what's going on.

## McMullen

I have a strong feeling for Stu Go and the students of Parkland College, that's why I run again for the presidency.

The president of our Student Government must be a person who is dedicated and willing to give up a lot of hours of their free time for the cause of the student and his two years of study at Parkland. This person must be able to talk and deal with the Administrators, as well as handle situations that arise between the students, StuGo, and the Administration. This person must also be firm yet flexible when time brings along such situations which call for that particular character.

All this takes a certain kind of person, and I feel that if the voters look, they will find these qualifications in me. I ask for your vote on May 7 or May 8. Thank you...

Tom McMullen  
President of StuGo

P.S. Regardless of who you vote for... please VOTE!!!

## Reid

tion on this subject which resulted in needed delays. However when Mr. McMullen took over the presidency, his first encounter on this problem was when he refused to speak a word of protest on the students' behalf when the Board of Trustees voted to allow a price increase.

But more important, a president must be able to lead the student government. I have shown that I will not alienate the senators but can gain their confidence. This year, the Senate was somewhat ineffective because McMullen couldn't get the Senate to accept his leadership.

Although I won't be a puppet of the Administration I have been able to talk with them. But when I negotiate it's them that make most of the concessions.

Prices of the Bookstore are too high. Because of the pressure created by the protest that I, Gary Miller, and Mr. Wiechman generated, the Bookstore started a buy-back system. But it still needs a lot of improvement.

I'm in favor and have pushed hard for allowing the students the right to vote in referendum on whether StuGo should spend thousands of dollars on such things as cars. I supported the new budget with its project fund and money for an emergency baby-sitting service (day care).

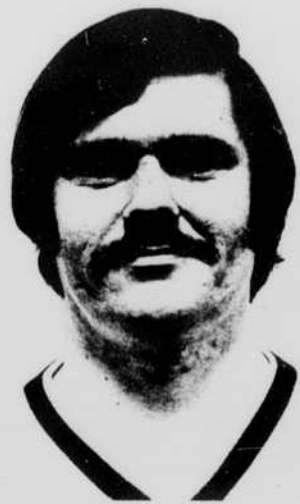

## Woodard

My name is Kevin W. Woodard I am 26 years of age, married and have three children. I spent 4-1/2 years in County Government in Ford County. During that 4-1/2 years, I was appointed to the Emergency Readiness Reaction Team by the governor of Illinois. At present I am the President of the Parkland Veterans Club and a member of the Illinois Educational Advisory Board and the Illinois Veterans Commission Representative here at Parkland.

This past year I felt a lot of the issues taken up by the Student Government have been poorly checked into and useless to the students here at Parkland. There have been valid issues (Canteen and Bookstore) but items like a car for the Student Government to use and a record player were not practical. If we want music, let's get a juke box and make some money at the same time, or

if we want to help the students, we could fix the machine to operate without money (this idea I support.)

I feel the day care center is need-

ed and I feel it can be operated without costing students without children any money.

I feel the student representatives should answer to the student body more often than just at election time. There should be open seminars so students can voice their opinions. Student representatives should be voicing the opinion of the student body, not their own opinions. If they don't agree with the student body they should call a meeting and try to change the student body's opinion. If they can't do this, then they should vote as the student body says.

I hope to have the chance to work for you in the coming year. REGARDLESS OF WHO YOU VOTE FOR, DO VOTE!

## Eads

I believe in a RESPONSIBLE and RESPONSIVE student government. I will do this by:

1. Actively seeking student participation in government.
2. Having published office hours in the day and evening.
3. Make monthly reports to the students in the Prospectus.
4. Increase activities for evening students.

Student government should be for the students and by the students.

Picture not available

## Hart

For the past year I have been actively involved in the Parkland College Sports Car Club and as President I have worked closely

with the present I.O.C. Senator.

Grant Collins has done a great job as I.O.C. Senator and if he was not graduating and leaving Parkland I would see no need to run for Senator of Campus Organizations.

As your I.O.C. Senator I can help to bring all the Clubs together to work with the student government and for the student body.

I believe that through the campus organizations all students can be better informed of the college's administration policies and future changes that affect the students.

One problem I see immediately is that the students do not pull together long and strong enough to accomplish their goals. The boycott this year was an example.

I hope to bring all students to a better understanding and pulling together through the various clubs and organizations.

## Weller

Fellow students, my name is Bonnie Weller. I am, at present, your convocations senator. You, the students, elected me in this position last quarter after Sylvia Mandel resigned as convocations senator. During my time in office you have seen such performances as Victor Marchetti and Angela Davis. You may also have seen films like Paper Moon, The Life and Times of Judge Roy Bean, Cat Ballou and The Man for All Seasons.

Although I have not been in office for a long time, I have been able to line up what I feel are interesting events. What you have to look forward to in the future that I have booked are: Two men playing Scott Joplin music (mainly music from The Sting), A man from Illinois Bell informing us on vacation spots in Illinois, demonstrations on Cuba diving, camping, and sailing, The All Star Frogs, a man that does card tricks, Slink Rand, a group which will be performing outside on the last day of school, if the weather permits. I am also trying to set up an event for the evening students in which food and music will be available.

I am not only involved with student government, but I am a photographer for the Prospectus newspaper. Working on the paper has allowed me to interact with various bands that I have interviewed for the Prospectus. Several of these have expressed an interest in playing for Parkland, such as Pendragon, Cimmaron, Earth, and Garretts Enterprise.

But my interest in music does not stop there. I also would like to book some jazz, blues, country, funky and soul music. For example, the jazz rock musician, Mighty Joe Young and the funky music group, Coal Kitchen have received an enormous response from the students and I hope to be able to book them again or musicians similar to their style.

Music, however, is not the only interest that I have. There are several lectures and films available to us. I hope that I can persuade several of the politicians from Illinois to come and speak to us. Several students have expressed an interest in Gov. Dan Walker, Cong. Edward Madigan, Adlai Stevenson and Charles Percy. I also wish to invite lecturers in the field of Science fiction, Sports, Social problems and various other cultural programs. As for films, I want not only the modern films (ie; The Sting, The Godfather, etc.) but the oldies but goodies such as Mae West, Boogie,

John Wayne, W.C. Fields, and Clark Gable. I also hope to have several exhibits, art, science, and general information.

Unfortunately, at this time, my budget for 1975-76 is somewhat lower than I had hoped. I am currently involved in a battle to increase this budget. If I can successfully overcome this barrier, (and I feel I can with your support and interest) I will be able to bring you, the students, a better, more varied, convocations program. ICARE about what comes into this college as far as entertainment, and I want to provide you with the best and most entertainment possible.

Present Convocations Senator  
BONNIE WELLER

## McQuinn

I am Willing to SERVE! My name is Terry McQuinn, a candidate for the office of Student Government secretary. If a secretary is to do her best, she must be willing to take upon herself the duties of that position.

During this past year the office of "secretary" has been filled by three people. I'm not judging their ability to hold this office, my only question is, "Why the job wasn't filled by a person who was willing to do the work that had to be done?"

At the present time I am a student assistant in the Learning Lab here at Parkland. My job consists of working with students, typing and running off various materials and other miscellaneous jobs. Last year before graduating from Paxton High School, I was employed as a student secretary. I was also the secretary of S.L.E.C.I. which is,

Student Librarians of East-Central Illinois. I was in charge of correspondence with 400 schools in East-Central Illinois. For my achievements with S.L.E.C.I., I was awarded the Most Outstanding Student Librarian.

Because this office is elected by the students, it should be filled by a person that is willing to assume its commitments.

Service to the students should be one of the secretary's main concerns, for they are the trunk of the tree that has so many small branches of duties to be performed.

Efficiency in the office is very important, otherwise nothing will be accomplished.

Conscientiousness is a trait all good secretaries must have in order to help run and operate an office to its best abilities.

Responsibility to assume these duties should be a concern of the secretary. If you can't count on the secretary to do her job, who will be there to do it?

Enthusiasm in order to do your job to the best of your ability, enthusiasm in what you are doing should be kept in your box of treasures.

Trustworthiness should make a secretary a respectable friend to everyone. If she can be trusted by the students to do the job well, she will know support will always be there.

Accuracy in keeping the records and minutes in good, concise order is a must!

Right-hand is the function of the secretary in order to lighten the load of the president.

Your votes for me will insure a qualified secretary will be filling this position.

Thank You,  
Terry McQuinn

## Weeks

I am thirty-three years old and in my first quarter at Parkland. I've worked in the entertainment business for about 7 years and as assistant manager of the Champaign Hilton which was located in Century 21. I am vice president of the Parkland Vets Club.

Also I have worked in area bands for seven years; playing sax and flute. During this time I played with Soul Generation (now Memphis Underground) and Slow Motion, just to name a few.

I feel that the students should have a more active voice in the student government. I believe the students need to be informed on such things as where the money that comes into

Stu-Go goes. I feel that the students should be able to attend the Stu-Go meetings. I think they should be able to make suggestions of bands, speakers, and movies to be chosen, then the convocations board could select

these that would draw more students. Remember, the election is May 7-8, so back the students of your choice and vote.

### Mandel

Hello! It's election time once again. Before I go into what I plan to do if elected, I feel a few things should be cleared up.

First, in reference to the NEC Convention.

Mr. Wiechman stated that my resignation came as a surprise seeing as I had just returned from Washington. This is not true. I had stated previous to my trip to Washington that once I had the rest of the year booked, I would resign.

My job was done - I made myself available for any assistance StuGo might have needed to insure the smooth flow of events I had booked.

Let us look at my accomplishments while being Convocations Senator last fall.

First, the bands: Fool Killer, Steve and Tom, Mighty Joe Young, Dixie Diesels, Martin, Bogin Armstrong, Memphis Underground, Frisky, and Redwood Landing. Please note that there is only one country and western band. I have been accused of bringing in only country music. As you can see, this is not the case.

Movies: Walking Tall, Play Mistry For Me, Funny Girl, Marlon Brando Festival, Serpico, and one of the best received - Everything You Ever Wanted To Know About Sex (But Were Afraid To Ask).

Lectures: Victor Marchetti. I have hopes of expanding the lecture program if elected.

The question now is: What do I have to offer you that the other candidates do not? Please look at past accomplishments, and you be the judge.

If you would like a well diversified, balanced program, then I urge you to vote for me.

SYLVIA MANDEL

### Miller

The office of the vice president is a job that requires a working knowledge of student government.

I feel I have this knowledge and am qualified because I have served the past year on the government as a day senator. In this position I worked closely with the present vice president, Bobbie Reid, so I am very familiar with this office.

When you vote this Wednesday and Thursday you will be looking for leadership experience and a pro-

ven concern for the students' problems.

I have proved this concern by being involved on three government sub-committees which were the budget committee, food service committee and ethics committee.

Along with these, I have undertaken projects such as the boycott, bookstore investigation and Angela Davis' lecture.

I have also proved this dedication by gathering student opinion on major issues. This was done by setting up tables for the students to

meet their senators and express their views. In the future I would like to see referendums taken on many issues and opinion sheets passed out to the students to make sure government knows the students' needs and concerns.

If I am elected vice president, I will continue working for the students the way I have been. I feel my record proves my qualifications for this office and shows my concern for the students' problems. I will uphold the rights of the people of this college as I have in the past and I will continue to undertake projects that will benefit each individual enrolled at Parkland.

### CHANGE TO SEMESTER (Continued from Page 1)

or 21.

Students who have not registered by 8:30 p.m. on Aug. 21 will have their schedule of classes cancelled.

Any student eligible to register by mail who wishes to change his or her pre-registered schedule may do so on Aug. 13, 14 or 15 between 1:00 and 4:00 p.m. Students who do change their pre-registered schedule must either complete registration when they change their schedule or on Aug. 20 or 21. These students may not register by mail.

### CARNIVAL (Continued from Page 1)

worked long hours setting up this activity which was purely for the enjoyment of the student body.

I talked with some of the students attending the carnival, to get their opinions on the event.

One student, Walter Moore, said that a carnival should be held every day, that a carnival eases his tensions. Everyone else I talked to was delighted with the atmosphere and the fun.

One of the most popular games was the dunking tank (run by Theta Epsilon) where Parkland celebrities such as Dean Karch, submitted themselves to the wrath of Parkland students. The chill winds blowing outside where the booth was placed made the dunking more uncomfortable than usual.

Besides the prizes awarded at the various games, door prizes were also awarded throughout the afternoon. Among the door prize winners were Dale Creekmur, who won two Huskeys hamburgers at Hardees, Kathy Basey, who won two beef sandwiches at Arby's, and Terry McQuinn, a candidate in the upcoming student government elections for secretary, won two prizes, a sewing kit from the Remnant House, and a \$25 gift certificate from Karoll's.

The door prizes were donated by area businessmen and included an Igloo Cooler donated by K's Merchandise Mart, a dinner donated by Bavarian Haus, 10 free games of bowling from Arrowhead Lanes, 10 free coupons for food at Hardees, 10 free admission passes to Big Daddy's, rib eye steak dinners from

Bonanza Steak House, a radio from Team Electronics, gift certificates for clothing from from Stuarts and Karoll's, free food from Arby's, MacDonalds, Round Barn and Uncle John's Pancake House.

The Parkland Book Store donated T-shirts while the Ramada Inn and the Holiday Inn both donated free dinners. Plantscape donated a terrarium, Service Liquor gave away a bottle of Cold Duck, J. C. Penney donated a popcorn popper, the Co-Ed theater gave free passes, and Illini Airport donated free introductory flights.

### ELECTION (Continued from Page 1)

Senator, Senior Senator and vice president.

The third challenger is the vice president, Bobbie Reid. A law enforcement student, Reid has served as public relations senator, senior senator and has served on several committees including the Food Service Committee.

Running for vice president is Linda Lindsey, Gary Miller and Kevin Woodard. Linda Lindsey has been a candidate for this office before.

Gary Miller of Rantoul is a day senator presently. Miller is a writer for Prospectus, a member of the debate team and a member of several StuGo committees, including finance board.

The president of the Veterans Association, Kevin Woodard, is the third person seeking the number 2 job. From Paxton, this is his first try for StuGo.

Seeking to balance the books as treasurer of the student government are two people. The incumbent, Leslie Grove of Champaign, is being challenged by Jerry Eads, also of Champaign and a Veteran Club officer.

There is no opposition to Terry McQuinn as secretary. Terry is from Paxton.

There will also be no race for the senator of campus organizations (IOC). The certain winner here is Jerry Hart, of the Sport Car Club.

There will be a fight for the convocations senator's job. Three are running. They include the incumbent, Bonnie Weller of Champaign who is also a photographer for the Prospectus.

One of her challengers is Sylvia Mandel, Urbana, who held the post for the winter quarter. Ms. Mandel is also a member of the debate team. The other challenger is John Weeks, who is presently serving as a music reviewer for Prospectus.

All officers and senators will be elected by plurality vote except the majority vote of votes cast for office of president.

Names will appear alphabetically for each office on the ballot as listed by the candidate.

### LETTERS (Continued from Page 2)

To The Editor:

Wednesday and Thursday you the student will be able to exercise that absolute power you have over the running of this student government, the vote.

Certain students have proven by either their actions on this year's government or by their stated positions that they can best serve the will of next year's student body. One way this was determined was the way Senators voted on this year's budget proposal which was designed to give maximum power to next year's student body.

When you go into the privacy of the voting booth, please think of all qualifications of each candidate and consider what they have done for you. The Progressive Student Union is a non-partisan group interested in furthering political reform of the Parkland student government. We are not liberal nor conservative but merely interested in seeing good progressive ideals being implemented.

We ask you to help yourself and your fellow student by voting. And by voting for the following candidates who have proven themselves.

For president, elect Bobbie Reid. As vice president, return Gary Miller. Elect Leslie Grove as treasurer. It's Terry McQuinn as secretary. And for Convocations Senator vote for John Weeks. Mr. Weeks is a long time music critic for the Prospectus and has had much experience in working with entertainment.

Bobbie Reid, president; Gary Miller, vice president; Leslie Grove,

## SKYLINES

★★★★★

By Dave Linton

For the past two months, the planet Venus has been shining brilliantly as the brightest object in the western night sky. As we watched from night to night, it soon became clear that Venus was moving eastward relative to the stars at a rather rapid pace.

So rapid has been this motion, in fact, that only the Moon has moved faster, passing Venus on the 14th of last month. The Moon is well past Venus (it will lap Venus on May 14) but now another celestial body will rapidly approach Venus from the West. This is the planet Mercury, seldom seen because of its closeness to the Sun, but favorably positioned for viewing early this month.

For a time Mercury will move faster than Venus. It will gradually slow and then fall farther behind than before. Mercury, moving on a smaller orbit, can never appear as

far away in the sky from the Sun as can Venus. During May, Mercury can be found as a reddish object about 20 degrees below and to the right of Venus. At the start of this week, Mercury will appear between the star Aldebaran (the bull's eye) and the Pleiades star cluster.

Binoculars would be a welcome aid in viewing these objects, but on a clear, dark evening they can be found with the unaided eye.

During the next three weeks, Venus will move in the direction of the planet Saturn (above and to the left of Venus), finally overtaking the ringed planet on the 24th. Binoculars held steady will reveal Saturn not to be round, but a small telescope will be needed to show its beautiful rings and faint moons.

Beg or borrow (don't steal) a view of Saturn in the nearest available telescope - it's worth it!

## Final Examination Schedule

The final examination dates are May 23, 26, 27 and 28.

Time and dates for final examinations will be determined by the first meeting of the class (lecture, lab, quiz section, etc.) Final exams will be held in the same classroom where your first meeting of the week takes place.

**TUESDAY, MAY 27, 8 a.m. to 10 a.m.** All classes whose first meeting during the week is Monday at 8 o'clock.

**MONDAY, MAY 26 8 to 10 a.m.** All classes whose first meeting during the week is Monday at 9 o'clock.

**TUESDAY, MAY 27-11 a.m.-1 p.m.** All classes whose first meeting during the week is Monday at 10 a.m.

**MONDAY, MAY 26, 11 to 1 p.m.** All classes whose first meeting during the week is Monday at 11 a.m.

**WEDNESDAY, MAY 28, 8-10 a.m.** All classes whose first meeting during the week is Monday at 12 o'clock.

**MONDAY, MAY 26, 2 to 4 p.m.** All classes whose first meeting during the week is Monday at 1 p.m.

**FRIDAY, MAY 23, 2 to 4 p.m.** All classes whose first meeting during the week is Monday at 2 p.m.

**WEDNESDAY, MAY 28, 11-1 p.m.** All classes whose first meeting during the week is Monday at 3 p.m.

**WEDNESDAY, MAY 28, 2-4 p.m.** All classes whose first meeting during the week is Monday at 4 p.m.

**TUESDAY, MAY 27, 2 to 4 p.m.** All classes whose first meeting during the week is any time Tuesday morning.

**FRIDAY, MAY 23, 11 to 1 p.m.** All classes whose first meeting during the week is any time Tuesday afternoon.

**FRIDAY, MAY 23, 8 to 10 a.m.** All classes whose first meeting during the week is any time after Tuesday.

**NOTE:** All examinations will be given in the same room assigned for the first meeting of the week.

**FINAL EXAMINATIONS FOR THE EVENING CLASSES WILL BE GIVEN DURING THE REGULAR FINAL EXAM SCHEDULE DURING THE REGULAR CLASS TIME.**

Classes meeting only on Thursday evenings should give their exam on May 22.

Conflicts may be resolved by arrangement with the instructor.

Grades are due at 5 p.m. May 29.

treasurer; Terry McQuinn, secretary; IOC Senator, Jerry Hart, Convocations Senator, John Weeks. The Progressive Student Union

To the Editor: We, as members of the student government urge students to vote

for Day Senator Gary Miller as vice president. Gary Miller has proven his willingness to work, his concern and his ability to lead.

Bobbie Reid, vice president  
David Wiechman, senior senator (acting vice president)  
Don Mitchell, evening senator  
Max Gepner, student services senator

(The other members of the Senate were unavailable for comment)

## Women's Softball End With 5-1

Parkland's final women's softball game was held Thursday, May 1 at Blair Park in Urbana.

Lincoln Land from Springfield was the opponent and Parkland had little trouble winning 28 to 0 in five innings. The women finished with a very fine record of five wins and one loss.

Parkland scored in each inning (4 runs in the first, 11 runs in the second, 6 runs in the third, and 8 runs in the fourth).

Parkland hurler Becky Beach pitched the shut-out allowing just one hit and striking out three.

Beach finished with a perfect 4 and 0 record.

Beach also led the team in hitting with a double, triple, home run and

five RBI's. Other Parkland team members supplying offensive power were:

	Hits	RBIs
Barb Kellogg	3	3
Betsy Place	3	2
Carol Rose	3	1
Josie Reuter	2	4
Sue Bandy	2	1
Cheryl Miller	2	4
Lori Champagne	2	3

Final statistics for the Parkland season:

Pitching	
Becky Beach	4-0
Sue Bandy	1-0
Josie Reuter	0-1

Hitting (at least 15 at bats)	
Cheryl Miller	.647
Becky Beach	.631
Carol Rose	.565
Betsy Place	.541
Josie Reuter	.444
Sue Bandy	.440
Barb Kellogg	.333

Other girls participating on the team in addition to those above were: June Cooper, Sue Fitzgerald, Sue Haag, Viv McGeehou, Barb Manselle, Melinda Mayer and Debbie Roth.

## Cobras Eliminated From State Tourney

After beating Lincoln Trail in their opening game by the score of 11 to 6 the Cobras dropped the Danville game 8 to 4.

Coach Jim Reed said that the main problem was the pitching at the state tourney. He had hoped that after

winning the first game the team would have the momentum to go all the way, but the Danville team eliminated them.

The next home game is this Wednesday at Memorial field against the U of I. Game time is 6:30.

# sports

BY LYNETTE TROUT

Parkland's Women's softball team continued its winning ways last Saturday as they defeated Danville 5 to 3 and Blackhawk 11 to 7 in games played at Danville's Douglas Park. Due to rain, these games which were scheduled for Saturday morning were played Saturday evening and the third game scheduled with the University of Illinois was cancelled. Parkland's record is now four wins and one loss with the loss being to SIU (Edwardsville) the first game of the season.

In the first game, Danville started the scoring in the first inning as Judy Showers doubled and scored on a triple by Debby Dill. Dill was left stranded at third. Parkland tied the score in the third after Debby Roth singled, stole second, advanced to third on a wild pitch and scored on an infield grounder by Sue Bandy as Danville tried and failed to cut down Roth at the plate.

Danville came right back in the bottom of the third and went ahead 3 to 1 and could have broken the game wide open, but left the bases loaded. Parkland scored single runs in the fifth and sixth to tie the score at 3 to 3. In the fifth, Sue Bandy singled, stole second, and scored on two successive wild pitches. In the sixth, Betsy Place singled and scored on a triple by Cheryl Miller. Miller was thrown out at home on an excellent throw by Judy Showers of Danville.

Parkland scored their final two runs in the top of the seventh as Sue Bandy and Lori Champagne were driven in on a single by Becky Beach. Beach shut out the Danville team from the fourth inning on and Parkland came out on top 5 to 3. This was the first time in the limited sports' program for Parkland that Parkland has defeated Danville's women in any sport. It was a very pleasing victory to the Parkland team and especially pleasing to Miss Trout as the team played very, very well.

Becky Beach was the winning pitcher for Parkland. Cheryl Miller and Sue Bandy each had two hits and one RBI for Parkland. Becky Beach, Betsy Place, and Debby Roth had the other Parkland hits.

Parkland was very slow starting in the second game against

Blackhawk. The score at the end of five innings was 4 to 2 in favor of Blackhawk. In the sixth, Parkland batted around and scored five runs to go ahead 7 to 4. Driving in the runs in the sixth were Becky Beach (2), Betsy Place, Carol Rose, and Sue Fitzgerald (1) each.

In the seventh, Parkland padded the lead with four more runs as they were aided by wildness on the part of the Blackhawk pitcher who issued five walks in the seventh. As the game turned out, Parkland needed the four additional runs in the seventh because Blackhawk fought back with three runs in the bottom of the seventh but came up short as Parkland won 11 to 7.

Becky Beach was again the winning pitcher and also the leading hitter with three hits in four at bats. Other Parkland players getting one hit each were: Sue Fitzgerald, Sue Haag, Betsy Place, Josie Reuter, and Carol Rose.

## Right To Life

Tuesday, May 20, the Right to Life Committee of Champaign-Piatt Counties will meet on the 19th floor of Century 21, 302 East John, Champaign at 7:30 p.m.

## SPORTS VIEWS

With Jeff Burk

As I write this the Cubbies are in first place and in honor of this, I made a trip to Wrigley Field to see the Cubs play the Cards.

I was not disappointed as the Cubs beat 'em 8-6. Although seeing the Cubs win was nice, the best part of the trip was seeing and being in Wrigley Field. The field is a throw-back to the simpler days of baseball before electronics took over.

The field has no huge electronic scoreboard that goes berserk when a run is scored. Instead it has a couple of guys putting up the numbers as they happen. The field is also lightless, meaning that only day games are played. I guess you could say that the owner, P. K. Wrigley, is secure enough to not require a night light.

Baseball at Wrigley Field is a really nice way to spend an afternoon and the price is right - only a buck and a half.

The stadium doesn't look like much from the outside but on the inside it is beautiful. It has real green grass instead of (shudder) Astro turf. The seats are old and

worn and they fit like an old pair of shoes. The place is maintained for the fans and not the TV and I, for one, like it that way.

The place has a natural look and feel that separates it from the plastic and antiseptic new parks.

As I wandered into the stands that day my mind's eye could see guys like Ernie Banks, Ron Santo, Billy Williams, Furgie Jenkins - all of whom played but never got to be a pennant winner. Maybe this year for them.

Well, so much for dreams. Now to reality. The Cubs have a solid outfield with Cardenal and Monday but their bats are suspect. Kesseniger and Madlock are keeping the infield together but the answer to where they will be in August lies with the pitching. Since the Cubs made the trade of the century and got rid of Jenkins they have no stopper on the staff and names like Stone, Zomora, Bonham and Locker don't exactly bring any comfort to this fan.

After Hooton and Daryle Knowles they are in trouble. Oh, well, see me in August.

## \$44,000 Ripoff

Take \$468 a year from the average wage earner and make his employer match it, for a total of \$936 taken from each worker. (If the employer did not pay the matching money, he could pay it to the worker instead.)

At this rate, the average worker puts in a total of \$34,532 over a period of 37 years. If the \$936 per year were deposited in a savings account at 5% simple interest, it would grow to more than \$66,000 by age 65.

Now, at age 65, the average married worker gets \$223 per month and has about 101 months left to live. That means he gets back a little over \$22,000 from his \$66,000 or about one third of what it cost him.

But that's not all. For every \$2 the over-65 worker earns, \$1 is deducted from his Social Security benefits. On top of that, he must continue to pay Social Security and income taxes. This means that up to two-thirds of his income may go to taxes.

## Girl's Volleyball Tournament May 5

May 5 through the 8th there will be a girls' volleyball tournament. Girls are urged to get a team together and sign up in X159 by May 1, Thursday. There must be at least three girls on a team.

## Wanted: Ace Reporters

Ever wanted to work on a newspaper? Well, now is your chance! The Parkland College Prospectus is now taking applications for the 1975-76 school year. If you have worked on Prospectus before or have had experience with your high school paper, come see us or drop a card off with your name, address, telephone and the position you would like to take.

Even if you haven't had any training in the field of newspaper work, stop by - we'll be happy to talk to you about working for us on the Prospectus. If you have any questions, call 351-2266 or Ext. 266 between the hours of 9 and 5.

## New Communications 2yr. Program

A new two-year program in career Communications will be offered here next fall. Students will be able to major in one of the program's five options: advertising, broadcast performance, broadcast technology, graphic arts, or journalism.

Recently approved by the State Community College Board, the program will be offered within the Communications Division. Louise Allen, head of that Division, said, "Students may pre-register for courses within the program which is designed to give practical instruction in the basic skills needed for employment in a variety of media organizations within this educational district." These organizations include newspapers, radio and TV stations, retail stores, specialized publications, and print firms.

Although students in all five options will be required to take several common courses, each option offers instruction in specialized subjects. Sample common courses are the Communications Industry, English 101, and Elementary Typing. Each option also includes at least one elective.

The advertising option will offer study in advertising copy writing; campaign research, planning, and operation; layout, and sales promotion. Many of these courses will be taught by Dennis Bailen.

Courses in the broadcast performance option will prepare students for examination for the third class F.C.C. license with broadcast

endorsement. Instruction will be offered in copy and advertising writing, acting, speech, and graphic design. Ed Kelly is the instructor who will teach courses within this option.

The broadcast technology option will prepare students to take the exam for the first class F.C.C. license and operate a control board with multiple inputs and mixers. Courses in this option include math, electronic circuits, digital electronics, broadcast speaking, and writing for broadcasting. Cyrus Rohrer is an instructor for this option.

Courses in design, photography, layout, and drawing will be offered within the graphic arts option. "The emphasis in this option will be to provide students with a variety of practical artistic skills needed in media and promotional organizations," Juanita Gammon, who will teach many of these courses, said.

Newswriting for print and broadcast, editing and proofreading, head writing and layout, and photo journalism are some of the courses offered in the journalism option. Doris Barr will teach courses in this area.

"All five Communications options have been planned to achieve a good interlock among the options so that students will have the versatility required in medium-sized and small media organizations," Mrs. Allen said. Practicums within the college and on the job will be offered in each option in the second year.

## Band & Choir Scheduled Concerts

On May 6, 11:00-12:30 in Room C-148, there will be a program of American Popular Music featuring Fred Kern and Jack Bradshaw. This will be followed by a concert for the students by the Parkland Choir in the College Center at 12:30 p.m.

The band will perform twice on May 8 at 1:00 p.m. and 7:30 p.m., in the College Center. Of special interest on the program is the Mendelssohn Piano Concerto in G Minor, featuring John Muir as pianist.

On Mother's Day, May 11, at 4 p.m. in the College Center the Parkland Choir, assisted by the band,

**Editor-In-Chief: James Toms**  
**Managing Editor: Mike Street**  
**Business Editor: John Hankinson**  
**Features Editor: David Wiechman**  
**Assistant Features Editor: Leslie Grove**  
**Sports Editor: Jeff Burk**  
**News Editor: Robert Dees**  
**Circulation Manager: Monica Lucas**  
**Editorial Editor: Gary Miller**  
**Photography Editor: Tim Teran**  
**Faculty Advisor: Mike Babcock**  
**Reporter: David Scoffas**  
**All-around great typists and interviewers, without whom we wouldn't be able to publish:**  
**Bonnie Weller (photos) Colleen**

will give a concert of American music. Many styles will be included—sacred, contemporary, avant-garde, folk, show, jazz and Negro spiritual. The choir is directed by Carol Christell.

A student recital is scheduled for May 13 at 11 a.m. in Room C-148.

## PC Hosts Teacher's Aides

The 1975 Teacher Aide graduating class at Parkland College is sponsoring an informal dessert on May 7 at 7 p.m. for local and area teachers for whom they have served as aides this year.

Teachers will receive recognition certificates from Parkland and will meet with members of the Teacher Aide Advisory Committee, as well as faculty and staff of the College.

Members of the teaching group attending include: Mesdames Speiser, Jay, Jacobs, Blackard and Sahn from Dr. Howard Elementary School in Champaign; Mesdames Wilken and Klein from Robeson Elementary School, Champaign; Mesdames Cech and Seviatowicz, Wiley Elementary School in Urbana; Mesdames Swikle and Hill, First Methodist Day Care, Champaign; Mrs. Linton, Montessori School in Urbana; Mesdames Franzino and McElwain, of Thomasboro Grade School, Thomasboro; and Mesdames Peck, Horn, Brunken and Fitch from Royal Grade School in Royal.

## Speeders .... Beware!

BY MIKE STREET

The State of Illinois finally got wise and went undercover this past weekend with the instigation of their "Family Car Police" program.

The premise is that the speeders in Illinois will have to watch their step now because the police have planted themselves in unmarked, family-type cars to track down speed limit violators on the interstates.

The plan was instigated because of the constant violation of the posted 55 mph speed limit. The use of Citizen Band radios will also be affected because the CB'er won't be able to spot the unmarked car until it's too late.

The rash of speeders and the use of CB radios to escape the speed traps set up by the State Police has been attributed to this new plan to stop the speed limit violations.

As for being able to spot and recognize these vehicles, it will be almost impossible. The State is going to have these vehicles moved from county to county in order to stifle the speeder.

All in all, the State has devised a plan which is for the most part, fool-proof. So, if you see a Volkswagen ahead, you better watch out - it just might be the Law!

## Strike Freezes Construction

With the United Ironworkers' strike in full swing after no immediate negotiations taking form, the new Physical Education building to the north of the campus complex will lay still.

The strike, which started Thursday, May 1, will last until a new contract can be drawn up through negotiations between the United Ironworkers and their respective contractors.

In other areas of Champaign the strike is being felt, especially in the new Sears Complex being constructed on North M Market St., in Champaign. This multi-million dollar complex will be one of the largest shopping plazas in mid-central Illinois.

There has been no tentative date set for the contract negotiations.

## The Parable, May 8 In C118

A Holy Day of Obligation Mass will be observed May 8 at 1 p.m. in C118. After the Gospel, the film-strip, The Parable, will be repeated due to numerous requests. The film is a satirical drama in which Jesus Christ is portrayed as a ridiculed clown in a circus.

The Mass will last about 45 minutes. Following the Mass, the Newman Club will have their last meeting of the Spring Quarter. The club will elect officers to replace those leaving Parkland. New ideas for social or educational activities will be discussed at this time.

The Newman Club is an organization for everyone, single or married who is interested in learning more about the Catholic faith or just to enjoy the good fellowship of other Christians.

Carolyn Warren proudly displays the 10-speed bike she won in the drawing held at the Carnival. Photo by Tim Teran

## StuGo Minutes

**CALL TO ORDER:** Vice President Bobbie Reid called the meeting to order at 5:30 p.m., April 29, 1975

**ATTENDANCE:** Tom McMullen, Bobbie Reid, Patti Wegner, Leslie Grove, Max Gepner, Rich Hendron, Dave Wiechman, Terri Lane, Gary Miller, Don Mitchell, Diane Alexander.

**ABSENT:** Grant Collins, Mark Lehman, Bonnie Weller.

**APPROVAL OF AGENDA:** The agenda was approved May 29, 1975.

**APPROVAL OF THE MINUTES:** The minutes were approved.

**PRESIDENT'S REPORT:** Tom McMullen disapproves of the things that recently have been said or written about him, although he realizes this is a right of the students and members of StuGo. A poem by Rudyard Kipling was handed to the persons attending the meeting, which expresses his feelings concerning this situation. The closing remark in his report was that his main concern is StuGo, now and always.

**SECRETARY'S REPORT:** Request that name be posted on directory.

**TREASURER'S REPORT:** At Leslie Grove's request for a vote on the proposed budget for 1976, StuGo members acted. The result of the vote: 7 yes and 2 no.

(See story on page one)

**SENIOR SENATOR'S REPORT:** Dave Wiechman asked an instructor to attend the meeting so that constructive criticism could be voiced.

An open discussion was held concerning the profits of used books at the bookstore. Presently, the profits made are used for scholarships and loans. Dave questioned whether the money was used wisely in this area or if it would better serve students in the form of lower book prices. Senator Wiechman sugges-

ted that a committee be established for the purpose of looking into the situation more closely. Vice President Bobbie Reid appointed Dave to act as chairman of the committee with Gary Miller, Rich Hendron and Don Mitchell to assist him with this matter.

**PUBLICATIONS:** Rich Hendron had no report at this time.

**STUDENT SERVICES:** Max Gepner announced dates for future Parkland Nights. May 9 and May 15 bands will appear at the T-Bird and no cover charge is due. May 15 has an added bonus: the first beer is free.

Max and Bonnie have been working to get hot dogs and an occasional band for evening students.

**DAY SENATOR'S REPORT:** Terri Lane: Terri's topic dealt with the emergency babysitting service. She reported that although this service isn't possible for the fall semester, it will be available to day and evening students by spring next year.

Miss Lane explained that the service could not be provided by fall due to the probability of lack of space.

She further recommended that space for the service be identified a co-ordinator be selected, a book keeper is necessary, and publicity is important. The cost for the above personnel will be the college's responsibility, while StuGo pays for assistants and toys (\$2,300 as in the budget).

An advisory board should be formed by fall consisting of a coordinator and students.

Gary Miller: The snack bar or food service center will be operating by next fall, 1975. Gary suggested that the bookstore committee set a date for a meeting. The date was set for Monday, May 5 at 3 p.m.

**EVENING SENATOR'S REPORT:** Don Mitchell: Don inquired about an election board chairman and volunteered his services from 6:30 to 8:30 p.m. Max Gepner was appointed for day service.

Diane Alexander: Diane explained that the Admission office is closed evenings and suggested that perhaps a couple of nights a week it could remain open to benefit evening students. (A comment was added by a participating student that specific problems or reasons be identified, at which time the matter could be taken up with Mr. Neil or Dr. Moeller).

**OLD BUSINESS:** Evening students are unable to contact Mr. Karch especially about the canoe trip, because of conflicting schedules. Mr. Karch suggested StuGo members take names. He also stated that phone number information can be obtained in the "Sprinkler."

**ADJOURNMENT:** The meeting was adjourned at 6:20 p.m.
