Faculty, Students Conquer Registration

President William Staerkel

Dr. Staerkel Welcomes Student Body

From its first year in 1967 to the present time, Parkland College has served thousands of citizens. Each year has seen the College grow -- both in terms of size and in the range of opportunities available to students. This year, for example, five new career programs have been added to the curriculum. At the same time the quality of the College has continued to improve with the availability of modern and convenient facilities.

Parkland is an outstanding college with diversified vocational and transfer programs, and an excellent faculty dedicated to helping you achieve your goals. Here you will find yourself surrounded by opportunities. Take advantage of them, and have an enjoyable and happy year.

President

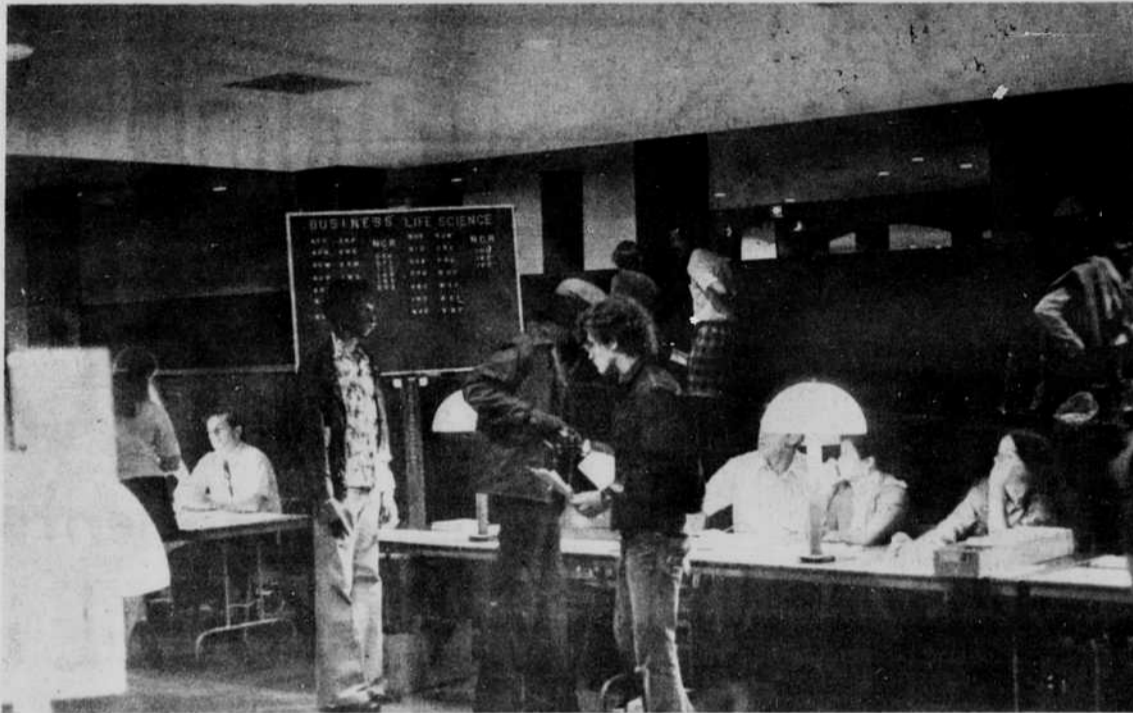

KAREN COLEMAN

StuGo Prexy, Karen Coleman, Offers Welcome

It is my privilege, as President of Student Government, to welcome you to Parkland College.

Along with the wide variety of courses offered and an outstanding academic staff, Parkland offers Please turn to Page 2

Registration went smoothly for some students.

Enrollment Procedures Eased By Mail

BY DEREKE CLEMENTS

For many fall students it is a new and exciting experience to walk around our new Parkland campus.

On the first day, registration seemed to progress smoother than previous Parkland registrations. One reason for this was mainly because there were more faculty than student supervision this year.

This was an advantage for every Parkland student, to help with drop and add procedures. This also insures a closer staff/student relationship, to come on registration day and meet various faculty and staff members as well as new classmates.

To minimize first day registration confusion Parkland posted floor walkers to help answer most directional problems. On the other hand, there were still those little unavoidable mistakes that had to be taken care of, such as incomplete, mis-filled and lost schedules, which can frustrate even the most patient scholar.

These are trivial matters which can be dealt with easily. So if you're the kind of scholar who strives for perfection in whatever field you may venture, read further and enlighten your mind with a few comments from your fellow Parkland students and staff.

Gail Barret, a Parkland financial-aid assistant says, "Pre-registration would eliminate a great deal of registration day wait."

David Dobbs, a new Parkland student confesses, "I couldn't believe there would be so many people here on the second day of registration. To me it seemed pretty well organized."

Colleen Ristow, one of Parkland's smiling information receptionists, says, "Students seemed pretty confused. If they would read the signs posted for them it would help considerably. I would encourage students to try and find their classes early, then they could perhaps help someone else."

Willis Brownlee, a Parkland communications student tells us, "I was rather impressed to see all those people on registration day. The staff seemed to be ready and willing to answer everybody's questions. I was also amused by the structure of the campus itself, which is not very confusing."

Thomas J. Neil, assistant Dean of admissions and records, stated that "This is my 28th year of registration and they all go smooth. We also encourage registration by mail in every way we know how."

Parkland's first day of registration was the 28th of August. As of lunch hour the enrollment figure stood at 1081 students. At the end of the first day of registration, enrollment climbed another 325 students. On the second day of registration, Parkland's figures rose from 1433 to 4006, minus 6 problems in student schedulings. Parkland offered a third and last day of registration on Aug. 29 from 8:30 to 11:30 and from 1 to 4.

A great deal of Parkland's enrollment ease was due to registration by mail. This year's count of mail registrations totaled 2,853, which was over half of the students who enrolled at Parkland the first two days. Next year and years to follow will become routine with mail registration procedures.

So if you take a look at how well this year's registration has gone, this seems to be a positive sign that this coming year at Parkland will be a very productive one, thanks to you.

Lonnie & The Lugnutz Top Activities Day

BY JEANENE EDMISON

Hey all you guys and gals out there, Lonnie and the Lugnutz are coming to Parkland.

Who the hell are Lonnie and the Lugnutz, you ask? Why, they're only the greatest musical group to stir the dust at Parkland.

What makes them so great, you ask? Well, they're great because they play the best of the music of the 50's and 60's, like songs made famous by such cool dudes as Elvis Presley, Little Richard, Chubby Checker, Chuck Berry, Bill Haley and his Comets and many, many more.

Why are they coming, you ask? Well folks, it's like this; the Student Government here at Parkland is sponsoring a fun-filled, action-packed day of games, contests and some of the funkiest music you'll ever hear for a long time.

Actually, the purpose of the whole day is to acquaint the new students to the ways of Parkland and to promote a little student-faculty interaction.

According to Student Government, this is only the first in what hopefully will become an annual event here.

The "All College Cookout and Activity Day" will be on Thursday, Sept. 5, from 10 a.m. to 3 p.m. between A and B parking lots.

Lonnie and his Lugnutz, as well as thrilling our ears with their fantastic sounds will be providing the music for a twist contest. You remember the twist -- that's the dance where the top half of your bod moves in the opposite direction of the bottom half.

Incidentally, you might want to get limbered up or take contortion lessons, because prizes will be awarded to the best twisters.

Besides the twist contest, there will be a kite-flying contest, egg-throwing contest, hand wrestling, tug-of-war, and bicycle races. And for good measure, there will be volleyball, horseshoes, and frisbees going on all day long.

ALL-COLLEGE COOKOUT AND ACTIVITY DAY SCHEDULE

THURSDAY, SEPTEMBER 5
10:00 A.M. - 3:00 P.M.

- 10:00 Kite Flying Contest
- 11:00 Egg Throwing Contest
- 11:00- 2:00 Food Serving
- 11:30- 2:15 Lonnie & The Lugnutz
- 12:15-12:30 Hand Wrestling
- 1:15- 1:30 Tug of War
- 2:15-????? Bicycle Races

Volleyball, horseshoes and frisbees will continue all day long.

Meeting Set For Prospectus Jobs

All students interested in working for the student newspaper, Prospectus, should attend a general staff meeting this Thursday, Sept. 5, in the Prospectus Office at one o'clock.

Current plans call for the Prospectus to be published weekly when school is in session with distribution coming each Monday morning.

Several paid positions, including non-reporting responsibilities, exist and applicants for staff positions need not have extensive experience.

A newspaper workshop for all staff members will be held on Saturday, Sept. 7, from 9 a.m. to noon providing professional instruction in such areas as "photography," "layout," "feature writing," and other areas pertinent to a successful student newspaper.

See page four of this issue for a Prospectus staff application or contact Mike Babcock, Room C223, for further information.

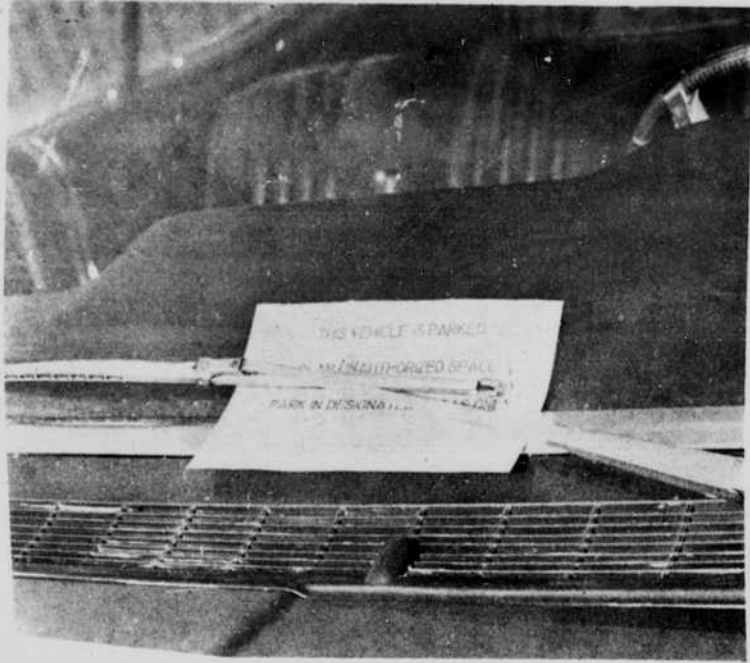

Campus Artist Needed For Cartoon Series

Here's the break you've been waiting for - a promotion from telephone booths and restroom walls to your very own column.

The Parkland newspaper staff is searching for an able-bodied artist who would like to produce and create his/her own cartoon series which will appear in every issue of the Prospectus. All entries must be original and should include artist's name, address, and phone number. Submit examples to Mike Babcock (faculty adviser) in Room C223.

Lonnie and The Lugnutz.

The result of illegal parking.

Parking Regulations

Convocations Plans Activities

Dear Students:

By the time you read this, you should be finished with the hassles and headaches of registration. Therefore, you should be in a good mood for me to welcome you to Parkland College and ask for HELP.

Throughout the year you will notice that there are bands playing, movies showing, lecturers lecturing, and lots of other fun stuff going on. Well, planning all these exciting and breathtaking activities is not an easy task and it takes people, which brings me to the purpose of this letter - the office of Convocations and Fine Arts needs your help in planning and organizing these activities. The following are the different committees that need manpower.

Lecturer Committee: choosing lecturers, forums, seminars, debates, etc.

Exhibit Committee: choosing art exhibits, jewelry, plastics, etc.

Films Committee: choosing entertainment films, educational films, etc.

Music Committee: choosing rock bands, concerts, jazz bands, etc.

If you are interested in working on any of these committees, please get in touch with me at the student government office, or leave a message with one of the other officers. I'm not asking that you devote 40 hours a week, but just a little time and a lot of concern.

Sincerely yours,

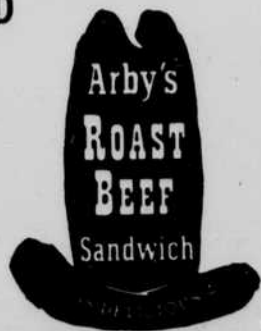

Tom Seymour,
Senator of Convocations
and Fine Arts

Adjusting To College Life

Attention college freshmen! Are you feeling a little hassled, a little confused, a little shaky? Join the crowd! The adjustments of the first few weeks of college have an "unnerving" effect on most people. Learning your way around campus (and the parking lots), psyching out your first "College Profs," making new friends, developing a successful pattern of study, adjusting to apartment living, getting along with your roommates are just some of the new things you may be feeling a little shaky about.

Bill Moore of the counseling staff

will be leading five informal rap sessions centered around "making successful adjustments to college life." Sessions will be held in X210 (just above the Bookstore) from 12 to 1 on Thursdays beginning on Sept. 5. Any student is invited to come. Feel free to bring your lunch. What have you got to lose?

STUGO PREXY
Continued From Page 1

many student activities which when combined contribute to a very well-

rounded education.

It is my hope that along with pursuing your academic endeavors, you will participate in Student Government, campus organizations, or take advantage of some of the many student activities offered.

I would also like to let it be known that Student Government is here to help any student with any problem he or she may encounter while here at Parkland College. Please do not fail to come to me or any other Student Government member whenever necessary.

Good luck to each of you. May your spare time spent here be both a productive and a pleasurable experience.

President, Student Government

Debaters Defend Championships

This 1974-75 academic year the Parkland College Debate Team will be defending their four state regional championships and their National Tournament octofinal finish.

The national collegiate debate topic for this year is Resolved: that the power of the U. S. Presidency should be significantly curtailed.

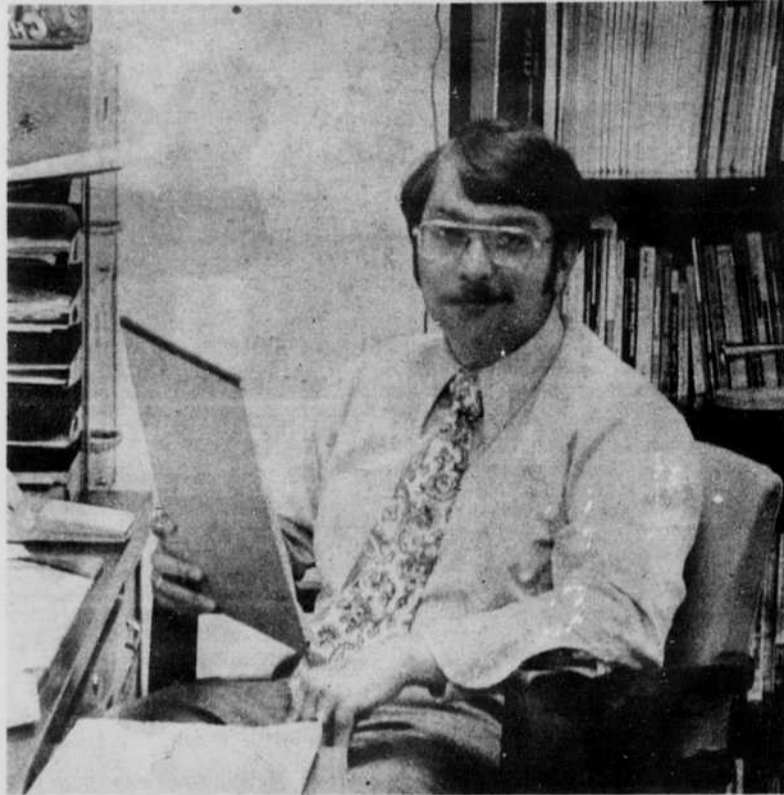

The Debate Team will argue both sides of this resolution at eight to ten university and community College tournaments from October through April in Iowa, Indiana, Wisconsin and Illinois.

Returning veterans from last year's forensic squad are David Wiechman (sophomore) who captured the four state regional third place, the National Championship's Lincoln-Douglas Debate Octofinal finish and posted an overall 75 per cent win average for last year's competition.

This summer, Wiechman attended a three-week Collegiate Debate Institute at the University of Nebraska and Prince Albert National park in Canada.

Also returning is Tanny Heaton (sophomore) who progressively achieved excellent showings on the Individual Events Team in Informative and Persuasive Speaking. Tanny will debate this year along with former Rantoul Township High School novice debater, Gary Miller (freshman). Other probable sophomore novice debaters are Tom Seymour, Charla Leech, Karen Coleman and Bob Dees.

The Debate Team has the potential to again be one of the top 10 community colleges in the nation. If this prediction is proven on the

Director of Student Debate Team
Chuck Newman.

circuit and at regionals, Parkland will be seeded at the National Championships at San Francisco, Calif., in April.

Parkland students, whether inexperienced in debate, in occupational or transfer programs, married, working, or have a family, are en-

couraged to join the team. The practices are informal and flexible in order to include as many student schedules as possible. All transportation, materials, meals, and lodging are provided. The cost

Music Director Ernie Hoffman Looking For Interested Students

Music Director Ernie Hoffman.

Another instructor in dire need of interested students is Ernie Hoffman.

Hoffman directs the music program at Parkland College and has indicated that he is looking for students to participate in a variety of music groups this fall.

For example, those students interested in playing in concert band can sign up for a no-fee course, labeled NCR 020-80, which meets Thursday evenings from 7 to 9 in room C148.

Jazz-rock buffs may opt for the afternoon section of the one-credit hour course, Music 140, or the non-credit big jazz band, NCR 167-88, which meets on Saturdays from 11 a.m. to 1 p.m. No fee is charged

for this group.

Students interested in singing may sign up for the one-hour credit course, Music 100, the college choir or the non-credit Community Chorus, NCR 021-80.

The college choir course meets from 11 a.m. to noon Monday, Wednesday and Friday in C140, while the community chorus meets on Tuesdays from 7 to 9 p.m.

More complete information regarding all music courses can be obtained from Hoffman in C146, or by calling him at 351-2343.

According to Hoffman, "Any student who is intending to transfer to a four-year college or university

Athletic Season Review

Varsity athletics at Parkland College in 1973-74 produced the usual thrills and disappointments of any sporting season, but it was the unusual, the type of thing beyond the control of coaches or players which seemed to characterize the year best.

For example the basketball team seemed determined to prove the aphorism "be it ever so humble, there's no place like home."

The Cobra cagers lost only two games at home all season, yet finished only one game over the .500 mark, dropping 10 of their 16 road encounters, sometimes falling on the road to a team they soundly trounced at home.

The baseball team lost more games to inclement weather than to scheduled opposition losing 21 contests to natural conditions or lack of a playing field and only 10 games to other baseball nines.

And of course no matter which team was playing, the number of people who showed up to support the inspired efforts of the Cobra athletes resembled the number of people who would vote for Howard Cosell as Miss Geniality in the Miss America Pageant.

As a result, many accomplishments went unnoticed by the Parkland populace of which some examples follow.

In cross country, sophomore Joe Earle and freshman Doug Seger qualified for the national meet in Tallahassee, Fla.

Though neither runner could crack the elite All-American top 25, each managed to finish in the top half of the 365 entrants by running what harrier coach Joe Abbey termed their "best competitive times of the season."

Sophomore Frank Flores, an All American honorable mention and Illinois J.C. cross country champion the previous season, had a somewhat disappointing year but coupled with his track ability sparked enough interest to earn an athletic scholarship offer from the University of Oklahoma.

Basketball coach Ken Pritchett's cagers lacked a tall center but managed to win 13 of 25 games in a sometimes disappointing, always high-scoring, season.

The Cobra hoopsters held a 7-2 home court advantage in the confines of the Centennial High School gymnasium and sported bright new green and gold uniforms at mid-season, but continually dropped road games and finished with a 77-70 loss to lowly Danville in the district tournament.

Gary Lovingfoss, who will display his basketball skills at Eastern Illinois University this winter, captained the squad and went down in the record books as one of the Cobras' most prolific scorers.

The 6-2 Lovingfoss averaged 21.5 points including a 35-point effort against Florissant Valley, and totaled 472 points for the season to up his career total to 883 points.

One of Parkland's brightest moments came in defeat as the Cobras battled the scholarship-sprinkled University of Illinois varsity reserves to a virtual standoff at the Assembly Hall finally yielding 81-75.

Lovingfoss tallied 26 points in the contest and freshman Mark Swarts added 22 counters in the losing effort.

After a slow start, Swarts came on to score 336 points on the year including a 30-point effort against Danville, but the 6-5 Monticello graduate will not return having accepted a basketball scholarship from a small four-year college in Florida.

Sophomore co-captain Ron Umbarger finished third in point production, while another sophomore, Ron Gunter, topped the Cobras in rebounding.

Coach Jim Reed's baseball team won 12 and lost 10 and finished 3-3 in the Central Illinois Athletic Conference, in a season which held many prospects for success in defending the sectional title won the previous year.

But Cobras' hopes for a berth in the nationals were left with the bases loaded in the sectional final, when trailing by one, 7-6, two batters struck out.

Sophomore Greg Garland, who hit .343, drove in 19 runs, and played a solid centerfield, was named the team's most valuable player, and an all-conference selection.

First baseman Ed Neal was the hitting star as he led the Cobras

FRANK FLORES

GARY LOVINGFOSS

GREG GARLAND

in six offensive categories including average, .357, runs-batted-in, runs-scored, doubles, triples and homeruns.

John Hiser, who like Neal, returns this year, also topped the .300 mark, hitting .320 and leading the team in stolen bases with nine.

Steve Ward, who will be competing at Eastern this spring, led the pitching staff in earned-run average with a 1.99 ERA and produced the best individual mound performance of the season.

Late in the season Ward pitched a five-hit, 12-inning, 2-1 victory over the University of Illinois varsity reserves allowing a run in the first inning and then shutting out the young Illini through the final 11 innings.

Randy Markin led the staff in wins with four, while Ward and Mike Dille, currently working for a position on Bob Blackman's Illinois football team, scored three wins each.

DEBATERS DEFEND
Continued from Page 4 to the student is five to ten hours a week.

Chuck Newman, the Director of Debate, thinks that if you're interested in learning how to present, defend, and refute ideas; have a little fun in the process, and possibly receive a half or full ride scholarship to a university (three scholarships offered in the last two years). The Parkland Debate Team might be the activity for you.

If you're interested, contact Chuck Newman at C-128, phone 351-2310 or home phone 359-2188. The heart of the debate season is winter quarter when SPE 202 Argumentation and Debate is offered.

Fast Freddy's Football Forecast

Rules Of The Game

RULES OF THE GAME

1. Everyone, except newspaper staff members and their families, is eligible.
2. This official entry blank must be used.
3. Only one entry per person will be accepted; multiple entries will be disqualified.
4. No individual can win the contest prize more than three times during the season.
5. All entries must be left in the Prospectus Office by 5 p.m., Wednesday, Sept. 11. No entries can be accepted under any circumstances after this time.
6. Winner will be announced in the Sept. 23 issue of the Prospectus and will receive a large pizza of his/her choice at any pizza parlor in the Champaign-Urbana area.
7. Circle the team you think will win in each game. Circle both teams for ties. Pick a score for the tie-breaker game. This game will be used only in case of ties and does not count in the total of 10 games to be predicted. Winner will be the person who selects the most games correctly. (All games played September 14.)

- Game #1 Indiana at Illinois
- Game #2 Ohio State at Minnesota
- Game #3 Northwestern at Michigan State
- Game #4 Long Beach State at Northern Illinois
- Game #5 Colorado at Louisiana State
- Game #6 Wisconsin (Milwaukee) at Illinois State
- Game #7 Iowa at Michigan
- Game #8 Wisconsin at Purdue

Don Grothe New Links Coach

New Parkland College golf coach Don Grothe has announced that all prospective linksters should report to him sometime today (Tuesday) or tomorrow in Room B135, the Business Division.

Grothe, also the wrestling coach, will assume the golf coaching responsibilities from last season's coach Dick Norris.

Currently the Cobra golf schedule lists nine playing dates with the opening meet at Mattoon on Monday, Sept. 16, in the Mattoon Invitational.

Varsity athletes must be enrolled for at least ten credit hours.

Parkland College will have another successful Debate year. The more debaters the better - especially freshmen. See Chuck Newman by Sept. 18.

MUSIC DIRECTOR
Continued from Page 4

as a music major is reminded that Music 102, Theory and Ear Training, is only offered in the fall quarter each year, and is required of all transfers.

"One other course offered only in fall and summer is Music 107, Music Fundamentals, which is a course designed for students with little or no background in the basics of notation scales, chords and key signatures.

"The text is programmed so students can progress at their own speed."

Finally, Hoffman notes that folk guitar, NCR 085, is still available to students who can obtain a guitar and are free on Tuesday or Thursday from 6:30 to 8:10 p.m. Classes are held in C148 or C140.

So if your thing is debate or music, Parkland has the people to see. Newman and Hoffman are always ready to talk with students and interest them in these areas.

Here Are Your P/C Student Officers

As Parkland gears up for another great year, the Parkland student body is being led by a group of six experienced men and women who make up our elected Student Government. For new and old students alike, the Prospectus presents a profile of each officer and Senator.

Leading off the field is our charming and attractive President, Ms. Karen Coleman. Ms. Coleman is the most experienced and steady member of our government. She began her career when she was elected treasurer on May 2, 1973. She served the entire 1973-74 year with distinction which was a feat in itself. Then on May 2, 1974, she barely edged out the incumbent to become president for the 1974-75 year.

Karen Coleman is well-liked and respected by the other members of her Administration. In the few summer months she has been in office, she has called more meetings of the executive board (the four officers) than her predecessor did in his entire term. Coleman is from Champaign and is a Sophomore majoring in business administration with a 3.00 GPA.

In the number two spot is the influential vice-president Tom McMullen. A sophomore, he is majoring in recreation with a 2.74 GPA. His history of involvement in student government began with his election as Day Senator on Oct. 11, 1973, at the head of a field of six candidates. Immediately after his election to office his fellow Senators then chose him as their Senior Senator. When the vice president resigned on Oct. 29, Tom filled in that post. He then briefly held the office of president when the president resigned on Dec. 5. New elections on Dec. 20 filled the posts of president and vice president and McMullen returned to the post of Senior Senator.

During the May 2, 1974 election McMullen ran for vice president against two candidates and won with a vote total greater than those of his two opponents together.

The treasurer is a new face in Parkland politics, Dave Swick.

The secretary is Karen Watkins who was appointed to fill in when the elected secretary resigned on Aug. 5. Ms. Watkins who comes from Champaign is in her first year here.

There are at present two Senators positions will be filled during the coming Fall elections.

The Senator of Convocations is Tom Seymour. A newcomer, he served as a senator in charge of fine arts at another university. He was elected by a close margin against three other candidates. A sophomore from Chicago, he is majoring in Communications with a 2.5 GPA.

Grant Collins serves as our Senator of Campus Organizations. He's not a newcomer, having run unsuccessfully before. Collins ran unopposed last May but did receive the largest number of votes of any candidate. This is Collin's third year at Parkland, where he is studying law enforcement. Also from Champaign, he was involved in high school sports and has served as secretary of Theta Epsilon.

Filling the post of Student Services until the Fall elections is Tanny Heaton. She was appointed this summer because of her hard work and devotion to duty. Ms. Heaton has been very involved here at Parkland in student government, speech and now debate. She is from Rantoul and will be a sophomore with a 3.80 GPA.

SIMS Lecture Sept. 10

Parkland's chapter of the Student's International Meditation Society (SIMS) will hold a free introductory lecture on the technique of transcendental meditation on Tuesday, Sept. 10, at 11 a.m. in Room X239.

What is transcendental meditation? First, it must be emphasized that TM is not a religion or philosophy, but rather a practical technique for increasing enjoyment in life.

It does not involve a change of life style or dietary habits, and can be practiced by anyone of any age.

Transcendental meditation is a simple, natural, effortless technique which allows the body and mind to gain a deep state of rest. This deep rest rejuvenates the mind and body, and the individual returns to activity with fresh energy and enthusiasm.

Scientific studies on transcendental meditation show that the rest gained during the period of meditation is even greater than that gained during the period of sleep.

Standard physiological measurements of heart rate, blood pressure, breath rate, and other similar functions indicate that general metabolic rate decreases by an average of 20 percent.

These changes are not a result of concentrative manipulation, but rather simply the result of practicing the effortless technique.

This rest releases stress and strains and allows the student of transcendental meditation to enjoy life more.

As one meditator in Berkeley, California, put it, "Since I started transcendental meditation there has been a constant, steady improvement in my life. Things no longer upset me very easily; there are no more worry problems. I am more at peace with myself. I am happier, I enjoy life more and I have greater confidence in my dealings with others."

Presently the Science of Creative Intelligence, a college program involving the principles and practice

of transcendental meditation, is being taught for credit at most major universities in the world.

Why are hundreds of thousands of students learning this technique? SIMS director Jerry Jarvis has this to say, "Something is missing. The young generation is aware more than any other that something is missing. Their elders are aware of it too. Man today is trying in various ways to improve his situation.

"He is trying on political, sociological, economic, and human levels. Here is a technique which directly improves the individual and thereby begins to improve all these aspects of life simultaneously."

P/C Bridge Club Opens Season In Sunday Session

Parkland Bridge Club is underway with their season of duplicate contract bridge games following their opening session Sunday.

The games are open to anyone. You need not be a club member nor a Parkland student to participate. Beginners and persons wishing to learn the game are also welcome. Partners will be provided for those needing them.

The games are from 7 to 10 p.m. For those wishing to participate, the Sunday sessions are held in Parkland's game room. There will be only one entrance to the building open on Sunday evenings. The doors off the circle drive will be open from 6:45 to 7:15 p.m. and everyone must enter the building during that time.

For further information, contact Joe Harris in Room C222 or Dick Karch in X153.

Prospectus Staff Salary Increase

Prospectus, the Parkland student newspaper, will begin this school year with a new pay scale, virtually a new staff, and a new adviser.

Various staff positions are available, including the editor-in-chief, business manager, and other page editors and applications are currently being accepted.

Communications instructor Mike Babcock has assumed the responsibilities of advising the Prospectus staff after last year's adviser Dave Jones resigned to work with the Parkland drama program.

Under the leadership of Jones, the paper became a weekly occurrence with a staff, completely salaried, of close to 30 students. Last year was probably the Prospectus' most successful year in the short history of Parkland College.

Babcock, who previously advised the ill-fated student literary magazine *A Quarter's Worth*, hopes to continue with many of the innovations introduced by last year's staff including weekly 12-16 page format with distribution on Monday mornings.

In addition the attempt is being made to increase staff salaries of various editors and incorporate a column-inch payment schedule for reporters to supplement their \$20/quarter salary.

As in the past, the editor-in-chief will receive \$150/quarter, the business manager will receive an increased salary of \$100/quarter, and

MIKE BABCOCK

the advertising managers will receive a 10% commission on ads sold and collected, or approximately \$700 for the school year.

POSITIONS OPEN: Editor-In-

Chief; Business Manager; Feature Editors; Sports Editor; Advertising Managers; Photography Editor; Photographers; Reporters, and typists.

StuGo Works Through Summer

BY DAVE WEICHMAN

While most Parkland students spend their summer working or on vacation, the members of Parkland's Student Government remained on campus to continue to work for the absent students.

In the short time available, the Student Government managed to install coin lockers on campus and ordered a trophy case. They also sponsored a meeting of several past Parkland student presidents who voted to give the \$150,000 in Student Bonds to the college to help defray the cost of construction of the new PE wing.

On Aug. 5, 1974, the Senate accepted the resignation of Connie Huddleston from her post as the secretary. She had been in office since May. To replace her the Senate appointed Karen Watkins. The office of secretary will be up for grabs at the next election later in September or October.

To fill the post of Student Services Senator, Tanny Heaton was appointed in recognition of her work.

Coin operated lockers were installed to provide students with daily storage of personal supplies, clothing, motorcycle helmets, art supplies and college supplies.

There will be 38 lockers installed in a college center lounge on the first floor directly east of X148 and X150. These lockers will be available for student use from 7 a.m. to 10 p.m., Mondays through Thursdays and from 7 a.m. to 5 p.m. on Fridays. The cost for each locker will be 25¢.

The lockers will be checked at 11 p.m. daily by the designated custodian who will empty all lockers and place the contents in a numbered plastic sack corresponding to the locker number. These sacks will be stored in X149.

To reclaim these articles, a student should contact the Office of Student Activities (X153) from 8 a.m. to 5 p.m., Monday through Friday or the Office of Continuing Education (R119) from 6 to 9 p.m., Monday through Thursday. To receive his belongings a student must present the locker key and a service fee of \$1.

All proceeds and service fees from the lockers will go into the general college operations. All

belongings not claimed within 30 days shall be auctioned off by Student Government.

A trophy case was installed to display all the awards Parkland has won.

A couple bands, "Lonnie and the Lugnutz" and the "Coalkitchen" and several movies including "Mash" and "Walking Tall," were planned for this year.

Also planned is to have Buster Crabb on campus during the third week of October, along with Crabb will be Flash Gordon films.

Much of the StuGo's time was spent preparing for the coming Student Activities day and Cookout. Expenses were estimated to be around \$1,534.

June 26, there was a meeting here of the past student presidents to decide on how to use the over \$150,000 in student bonds. Present at this meeting were Karen Cole-

man, president 1974-75; Tom McMullen, vice president 1974-75; Darrell Farris, president 1969-70; Don Lookingbill, president 1968-69; Vic Erickson, vice president 1968-69; Don Harris, president 1970-71; and Brenda Kendrick, president 1973-74.

Several of the past presidents voiced reservations about the moral and legal implications of this small group controlling such a large sum of money. Dr. Staerkel told the group that the cost of the new PE wing would be about \$2,400,000. With the addition of the Student Gift of \$150,000, the college feels it will have \$2,450,000 ready to spend on the wing.

It was voted that the \$150,000 in the Student Bonds be turned over to the college. There was some discussion about whether or not the Student Government will receive all the proceeds from the use of the future gym.

Theatre Troupe To Hold Auditions

The B & O, a recently formed woman's theatre troupe, will hold auditions for *What Is A Nail?* today and tomorrow from 7 to 10 p.m. in room 143 of Lincoln Hall on the campus of the University of Illinois.

To facilitate casting, actresses may bring a few minutes of prepared material -- poetry, prose, drama, song or dance.

Because of its successful run last summer, *What Is A Nail?* will be seen again when it opens the Depot season at the end of September. The production, the first of the B & O, is a collage of poetry, prose, drama, and dance, celebrating the awakening of woman to herself, written, produced and staged entirely by women.

Encouraged by the reception of *What Is A Nail?* the company's co-directors, Mary Bergquist and Karin Olla, have decided not only to play "Nail" again but to continue the company throughout the coming year.

An issue-oriented theatre, the

B & O hopes to provide a theatrical outlet for women's ideas and for particular problems confronting women locally. Like the living newspapers of the 1930's or today's TV documentaries, future B & O productions will attempt to explicate women's issues theatrically and, by so doing, encourage women and men to take action on them.

Presently, the B & O consists of a small core of tech women and actresses. It hopes, by the end of the year, to have involved talented women from many spheres in its work.

According to co-director Bergquist, "We can begin to realize and solve our problems as women by working together; theatre is one way to begin this work."

For further information contact Ms. Bergquist at 359-6228.

M ★ A ★ S ★ H Headlines Film Season

Have we got a show for you. Headlining our Parkland spectacular Movie Review for this quarter... we've got it all. To start your year off with a chuckle, get your popcorn a popping and bring a handkerchief to wipe the tears that will roll from your cheeks when M*A*S*H comes to Parkland. M*A*S*H stars Elliot Gould, Donald Sutherland, Tom Skerrit and Sally Kellerman. M*A*S*H will be shown Tuesday, Sept. 17 at 11 a.m., 1 and 7 p.m. in Room C118. War times will never be the same.

Everyone has heard about the notorious Clyde Barrow and his deadly chic Bonnie Parker. You guessed it, BONNIE AND CLYDE are back in town starring Warren Beatty and Faye Dunaway, co-starring Michael J. Pollard, Gene Hackman and Estelle Parsons. This celebrated film depicts the thrills and chills and also the tragedy of a pair of folk-hero bank robbing, blood crazy killers named (you guessed it again) BONNIE AND CLYDE. Show time for BONNIE AND CLYDE will be Tuesday, Oct. 8 at 11 a.m., 1 and 7 p.m. in Room C118. This movie will keep you on the verge of a nervous breakdown.

G-G-G-G-Get R-R-R-Ready to be scared out of your skin. Parkland's Halloween Special will make your blood run cold. Come with us into a frightening excursion into CHAMBER OF HORRORS. For the weak-hearted and the timid, there is a built

in audio-visual warning system that will warn you when terror lies ahead. At the same time the Fear Flasher will start to flashing its warning for you to shut your eyes and hold your ears. The reasons for these warnings are because CHAMBER OF HORRORS is filled with scenes that many may consider too shocking for the human mind. The scene is Baltimore in the 1880's where a crazed strangler disappears mysteriously and is thought dead by the police, only to return and mangle... enough said. Seeing is believing. Show time for this chiller is Oct. 31, Room C118 at 1 and 7 p.m. No monsters allowed, please.

In the three year period which followed the assassination of President John F. Kennedy and Lee Harvey Oswald, eighteen material witnesses died -- six by gunfire, three in motor accidents, two by suicide, one from a cut-throat, one from a Karate chop to the neck, three from heart attacks and two from natural causes. Was the assassination of the president the crime of just one man: Lee Harvey Oswald? Or was it in fact a conspiracy? Executive Action tells the truth, only the conspirators are fictitious, everything else is documented fact. Show time for EXECUTIVE ACTION is Nov. 7 at 1 and 7 p.m. in Room C118.

Admission for Parkland College Spectacular Movie Review is FREE to all Parkland students with an ID. And if you wish to bring your loved one, or even an enemy it will cost only 50¢. All movies will be shown in Room C118.

Additional movies will be posted on student board. Check your blood pressure and be prepared to be thrilled, chilled, horrified and amazed with PARKLAND COLLEGE SPECTACULAR MOVIE REVIEW 74.

M*A*S*H	September 17
BONNIE AND CLYDE	October 8
