Class of '74 Commencement

Openhouse Set For May 19

648 Parkland Students Eligible To Participate

A grand open house of the new Parkland College campus will be held Sunday, May 19 from 1 to 5 p.m. for the general public. No formal ribbon-cutting ceremonies or speaker are planned. Visitors will be free to come and go as they please and to wander throughout the building at their leisure. A 15-minute slide presentation explaining educational and architectural concepts of the campus will be shown on the half-hour in two large lecture halls, C118 and L111.

Construction of the campus, which began in 1970, is 75% completed. Rising like a small self-contained village on the Illinois prairie, Parkland's educational structure stands on a 233-acre site central to District 505 and near Interstate Highways 72, 74 and 57. The campus' brick exterior walls and sloping roofs carry over into the interior where comfortable furnishings suggest a "home-away-from-home" for the many students commuting daily from nearby communities. Ample free parking is available on campus.

The four instructional wings of the building complex are interconnected and joined by the College Center and the Learning Resource Center, making it possible to travel to any part of the campus without going out-of-doors. The interior traffic patterns. Please turn to Page 15

Parkland landscaping will be one of the many innovative features of the new campus on display during the college's formal Open House, set for May 19.

A total of 648 Parkland students will be eligible to graduate in this spring's commencement ceremonies, marking the seventh graduating class of Parkland since its inception in 1967.

The commencement ceremonies are scheduled to be held at the Great Hall of the Krannert Center for the Performing Arts on Friday, May 24 at 8 p.m.

According to Dean Harris Moeller, approximately 200 students of the eligible 648 have ordered caps and gowns from the Campus Bookstore for the commencement exercises as of May 3.

Moeller reported that students who have not yet ordered caps and gowns would be able to do so until the day of commencement.

The guest speaker for commencement of the Class of 1974 will be Dr. Carl S. Winters, a distinguished public speaker, who has addressed more than 800 conventions this year in the U.S. and many other countries.

The topic of Dr. Winter's address to the commencement audience is "The Art of Living." Dean Moeller stated that the address is geared to make people laugh as well as to think and to find inspiration.

Dr. Winters is reported to travel more than a quarter of a million miles each year delivering speeches to various groups.

Although the number of persons expected to attend the commencement out of the 648 eligible to do so appear small, Dr. Moeller estimated that approximately the same number of students participated in the actual commencement ceremonies last year.

Of the 648 students eligible for spring, 1974, graduation, Please turn to Page 15

DR. CARL S. WINTERS

Dr. Winters To Speak At Graduation

Dr. Carl S. Winters, retired pastor of the Oak Park Baptist Church and a guest lecturer for General Motors for 17 years, will be the commencement speaker at Parkland College's Seventh Commencement Exercises, May 24 at 8 p.m. in the Great Hall of Krannert Center for the Performing Arts.

Dr. Winters, ranked among the nation's top professional speakers, has devoted a great Please turn to Page 15

Parkland Groups Win Awards At Jazz Fest

Parkland's two jazz groups received special recognition in the third annual Governors State University Junior College Jazz Festival Saturday,

May 4, held on the new \$20 million campus at Park Forest South.

Parkland competed in the afternoon semi-finals with Triton, Joliet, Waubensee, Lake County College, Kennedy - King, Malcolm X, Thornton, Waubensee, Springfield and Henry Ford College of Dearborn, Mich. Many of the above bands also entered

combo groups in the competition.

Parkland's big band and combo were picked with Waubensee College to compete in the evening finals in which only two big bands and small combos would play. However, Parkland was unable to compete in the evening event as many band members had pre- Please turn to Page 15

Dental Students Capped At Banquet

Capping ceremonies for Parkland College students graduating the end of May in dental assisting and dental hygiene was held Sunday, May 12 at the Ramada Inn Convention Center.

Nineteen students in the dental assisting class of 1974 and 26 students in the dental hygiene class of 1974 were capped in recognition of completing their career studies at Parkland. The 1975 class of dental hygiene students was also capped in recognition of completing their first year of study at the community college.

Dr. William M. Staerkel, president of Parkland, welcomed the students. Nanci Rimmer, dental assisting, Linda Redic, dental hygiene freshman, and Becky Reiners, dental hygiene sophomore, addressed themselves to "What Capping Means to Me."

Instructors assisting with the capping ceremonies included: Jane Ohl, C.D.A.; Linda Mosely, R.D.A., C.D.A.; Linda Moritz, R.D.H.; Lynn Crawford, R.D.H.; and Mary Lou Rose, R.D.H.

Students in the class of 1974 will receive their diplomas at Please turn to Page 15

KAREN COLEMAN

I would like to take this opportunity to welcome future students and visitors of our community to Parkland College. I would also like to invite you to become aware of the opportunities and activities offered here at Parkland.

One look at our catalog will show the wide variety of subjects offered. We have been fortunately endowed with an outstanding academic staff. Also, Parkland has been known for its student-faculty rapport.

Student activities at Parkland include pool tables, ping pong tables, and color television, provided by Stu-Go this school year. There are also 20 campus organizations catering to a wide variety of student interests.

During our next school year 1974-75, Stu-Go is planning many new activities for students. It is our hope to have students and Stu-Go members available to help new students become acquainted with our present facilities. Programs are being planned to allow students to meet Stu-Go officers, faculty members, and administrators.

It is my hope that your visit here at Parkland will be an enjoyable one. If you are planning to attend Parkland College next Fall, I hope your time spent here will be both productive and enjoyable.

Respectfully,

Karen Coleman, President, Student Government

PARKLAND COLLEGE

Student Life

Parkland College is a two-year public community college providing instructional programs designed to meet various educational needs of the citizens of District 505. With the annexation of additional areas on August 1, 1974, the population of District 505 will be approximately 260,000 residents. The District will include thirty high school districts and over fifty communities in twelve counties in East Central Illinois.

INSTRUCTIONAL PROGRAMS

Transfer Programs

Fully accredited by the North Central Association of Colleges and Secondary Schools, Parkland offers a wide range of programs which fulfill the requirements of the first two years of a baccalaureate degree. Many students earn an Associate in Arts or Associate in Science degree in two years at Parkland and transfer to a four-year college or university with junior standing. A student wishing to enroll in a transfer program not specifically listed should consult with a counselor or advisor to plan a program which will meet his individual needs.

Transfer programs include:
 Agriculture
 Art
 Business Administration
 Business Education
 Elementary Education
 Engineering Science
 Humanities/Social Science
 Law Enforcement
 Liberal Arts
 Life Science
 Mathematics/Physical Science
 Physical Education
 Secondary Education

Career Programs

Parkland offers forty-five Certificate and Associated in Applied Science (A.A.S.) degree programs which prepare students for employment in the fields of agriculture, business and commerce, education, health service, industry, and public service.

Career Programs include:

Ag-Related

Agri-Business (Certificate)
 Agri-Marketing (A.A.S.)
 Agri-Production (A.A.S. & Certificate)
 Agri-Supply (A.A.S.)
 Farm-Power and Equipment Technology (A.A.S.)
 Farm-Power and Equipment Service (Certificate & Advanced Certificate)

Business & Commerce

Accounting (A.A.S.)
 Banking (A.A.S.)
 Data Processing (A.A.S.)
 Data Processing Operations (Certificate)
 Food Distribution (A.A.S.)
 General Mid-Management (A.A.S.)

General Studies

General Studies courses are offered for their intrinsic value and/or to provide students with the opportunities to develop their abilities and interests as related to transfer and career programs offered by Parkland College.

Continuing Education

Parkland offers numerous courses designed to enhance personal and professional growth of the citizens of the district.

ADMISSION

Who may Enroll?

- High school graduates.
- Recipients of high school equivalency certificates.
- Non-high school graduates who are 18 years of age or older.
- Transfer students from other colleges and universities.
- College graduates.
- University students on a concurrent enrollment basis with approval of the Dean of their respective college.
- High school students on a concurrent enrollment basis with approval of their principal.
- Persons interested in intellectual, cultural, or vocational development.

Full-Time Students

Persons planning to enroll as full-time students (12 or more quarter hours) should submit:

1. A completed Application for Admission form.
2. A completed Parkland College Health Record form.
3. An official high school transcript and official transcripts from all colleges and universities previously attended.
4. ACT scores (Forwarded from American College Testing Program. The Parkland College ACT Code is 1015).

Part-Time Students

Persons planning to enroll as part-time students (11 or fewer quarter hours) may register by mail or register in person on campus according to the registration schedule. Information concerning registration procedures for part-time students may be obtained by calling the Office of Admissions and Records. Transcripts and American College Test Scores are not required for part-time students enrolling for less than 12 quarter hours.

TUITION & FEES

Resident Tuition per quarter hour \$8.50
 Activity fee per quarter hour .50
 Registration fee per quarter hour .25. **TOTAL \$9.25.**

A resident student pursuing one four-credit hour course is charged \$37. A resident student pursuing a full-time program of 16 quarter hours is charged \$148. Tuition and fees are payable at registration.

Extra-Charge

- Illinois students who are not bona-fide residents of Junior College District 505 shall pay an extra charge equal to the per capita cost per quarter hour less tuition and state apportionment unless they obtain an approved "Authorization for Partial Student Support" from the high school or junior college district in which they reside. An out-of-district student who provides an approved "Authorization" from his high school or junior college district on or before registration is charged at resident tuition rate.
- Out-of-state students must pay a charge equal to the per capita cost per quarter hour.
- Tuition and fees are subject to change.

FINANCIAL AID

For students in need of financial assistance in order to attend Parkland College in the Fall of 1974, **NOW IS THE TIME TO TAKE ACTION!** Students seeking financial assistance in the form of scholarships, grants, loans and/or part-time employment should:

1. Be admitted to Parkland College by submitting:
 - a. A completed Application for Admission form.
 - b. A College Health Record form completed by student.
 - c. An official high school transcript.
 - d. Official college transcripts (if applicable).
 - e. ACT scores forwarded from

the American College Testing Program. The Parkland College ACT code is 1015.

2. Plan to enroll as a full-time student (12 hours or more each quarter).
3. File an ACT Family Financial Statement (FFS) or CSS Parents Confidential Statement (PCS). Forms may be obtained from Parkland College Financial Aids Office.
4. Complete a Parkland College Application for Financial Aid. Form may be obtained from Parkland College Financial Aids Office.
5. File for a monetary award from the Illinois State Scholarship Commission. Application may be obtained from Parkland College Financial Aids Office or high school counselor.
6. Apply for a Basic Educational Opportunities Grant (B.E.O.G.). Application forms are available from Parkland College Financial Aids Office or high school counselor.

Since most financial aid programs require early action, needy prospective students are encouraged to file the needed applications now. The Parkland College Financial Aids Office (351-2268) or a high school counselor can provide the necessary information and forms required to apply for financial assistance.

COUNSELING

Parkland College is committed to providing assistance to each student in selecting and achieving a worthy educational and vocational objective. Professional counselors are readily available to all persons considering full- or part-time enrollment. Prospective students seeking assistance in choosing courses, educational programs or educational, vocational and personal goals are encouraged to contact the Counseling Office.

PLACEMENT

A job placement service is provided for students who complete a program of instruction and who register with the Parkland Placement Office. In assisting students in locating employment opportunities, the Placement Office maintains a listing of available positions and provides prospective employers with placement credentials of interested students.

VETERANS

Assistance is available to veterans interested in pursuing an educational program and receiving benefits in the form of an Illinois State Veterans Scholarship and the Veterans Administration (G.I. Bill) monthly allotment. Special benefits are available to war widows, war orphans, dependents of prisoners of war, and dependents of totally disabled veterans. Veterans seeking information concerning educational benefits should contact the Parkland College Veterans Affairs Office.

STUDENT LIFE

Intercollegiate Athletics

A member of the Central Illinois Junior College Athletic Conference, Parkland College competes within the State and at the national level in cross country, golf, basketball, track and field, wrestling and baseball.

Intramurals

A wide range of intramural activities for men and women is available throughout the year.

Student Government

An elected student government meets regularly to consider student life at Parkland and to recommend activities which enhance student development.

Publications

A weekly college newspaper, the college yearbook, a literary magazine, and a weekly student information bulletin provides opportunities for developing journalistic and literary expression.

Performing Act

Drama, debate, jazz band, choral groups, art, and dance allow for creative expression.

Entertainment

A variety of activities including musical presentations, guest speakers, movies and other forms of entertainment is provided on campus.

College Center

The pleasant lounge and snack areas provide a warm atmosphere conducive for informal discussion, quiet relaxation and individual study.

May 29	Quarter Ends

1975 Summer Session

June 4-5	Registration
June 9	Instruction Begins
July 4	(No Classes)
July 18	Summer Session Ends

SEMESTER SYSTEM FALL 1975

Beginning in the Fall of 1975, Parkland College will change to the "early" calendar which favors the semester system over the quarter system with respect to natural points of ending and beginning a term coinciding with national holidays. In addition, many of the colleges and universities to which Parkland students transfer have changed from the quarter to the early semester system. (Examples: Eastern Illinois University and Southern Illinois University.) The change to the early semester system will benefit students transferring to or from Parkland College. However, Parkland College will continue to offer "shorter-than-semester" courses in certain appropriate areas of instruction.

The delaying of the implementation of the early semester system until the 1975-76 academic year provides for an orderly and systematic process in making this change.

In Campus Design

Parkland: Not Just Another School

DR. WILLIAM STAERKEL

To most students who frequent the high-rise halls of Parkland, the school is just that. A school, but to President Staerkel, Parkland is a carefully designed, well-planned, dream come true. Special theories of design and construction were incorporated into the building of the college, which make it, according to Dr. Staerkel, an educational facility that is in many ways, out of the ordinary.

"We wanted to make the college as comfortable for the students as possible. A kind of home away from home, since there are no campus residence facilities. Many students will spend the entire day here, and we felt that there should be warm furnishings, as with the lounge furniture and the abundance of wood, surrounding the students."

Convenience in studying for the students was another concept built into the design of the college. When coming out of a class in any section of the campus, a study area is located near-by. There is no need to walk a long way to reach an area suitable for studying. The lounge areas with tables, chairs, and various kinds of vending machines are called faculty-student modules and are designed to stimulate interaction between instructors and students. Whether or not they do in fact do this is questionable, but they are there if ever there is sufficient interest for their use.

The architects contracted for the design of Parkland were given the formidable task of putting everything under one roof and yet at the same time keeping it residential in scale. Dr. Staerkel comments, "We were worried that we would end up with a large fortress-like structure; some huge, monumental building that would look like McCormick Place, and we didn't want that." The architects supposedly solved this problem by making the college look like a cluster of buildings instead of one massive structure. Dr. Staerkel adds, "They (the architects) designed it to look like an educational village. When people pass by us on I-57 or I-74, they think that there are a lot of separate buildings. They don't realize until they actually come inside that everything is connected." It's also nice to be able to go to all

your classes without having to go outside and trudge around in a blizzard or a cloudburst.

Another major aim in the designing of the college was to give equal status to all the various programs. No one program or section is situated in a position of dominance over the others. Says Dr. Staerkel, "On so many campuses you ask where the vocational-technical programs or the career programs are located. . . then you have to go off to the back of the campus, way in the rear quarter to find the vo-tech building, just like they were second class citizens. Here, our basic principle was that all programs must be accorded equal status in the architecture of the campus."

Anyone who has walked around the campus has probably noticed the tall, open spaces that extend up to the second and sometimes third floors. This also has a specific purpose in the scheme of the designers.

"An educational environment," says Dr. Staerkel, "should be a very exciting, eventful kind of environment. A great variety of activities are going on. We should make it possible for students to see and involve themselves in these things. How did the architect achieve this? He provided for visual penetration into most spaces, so that you can see down into the lounges and into the classes. As you move around the campus, you really feel part of what is happening."

NO GOLDEN QUILL THIS QUARTER

Mike Babcock, the faculty advisor to Parkland's literary magazine, *The Golden Quill*, has announced that the magazine will not be published this quarter. Students who contributed material are asked to pick up their work in Babcock's office, C-223.

One-Punch Leads To Death Of UI Student

BY WESTERLY A. DONOHUE

Parkland Community College student John Diefenbaugh, of 1006 West Washington, Champaign, pleaded innocent to a charge of involuntary manslaughter following an as yet unexplained handfight outside Chances R, 65 East Chester Street, Champaign, at about 6:05 p.m., Friday, May 3, which resulted in the death of University of Illinois commerce sophomore Kirk Badgley.

Shortly after Chances R closed at 6 p.m. for clean-up preceding Friday night business, witnesses reported that two groups of persons exchanged words outside of the bar. However, the contents of the actual conversation has remained undetermined according to a Champaign police detective. It is speculated that the conversation exchanged between the two groups may have led to the fight.

Witnesses reported that Diefenbaugh left the area with two other persons and took down the car's license number. The car was halted at a Champaign gas station and

at that time Diefenbaugh admitted to his involvement in the fight.

The victim died at 1:20 a.m. at Burnham City Hospital, Champaign, the following morning of head injuries. Only one punch was exchanged in the fight.

The original charge brought against Diefenbaugh was battery and aggravated battery, but the charge was later altered to involuntary manslaughter. The preliminary hearing in the Diefenbaugh case was set for Friday, May 10.

Movie Projector Reported Missing

A 16-mm movie projector was reported stolen from the Parkland Learning Lab, Wednesday night, May 8. A Champaign resident, 22-year-old Ronald Atkins, was arrested in a campus parking lot a short time later and charged with the theft.

The student was spotted by a University of Illinois police officer who was on the Parkland campus for night classes in law enforcement.

The U of I officer reported the burglary to state police who apprehended the student that same night.

The Wednesday night incident is another in a series of recent thefts on the Parkland campus, particularly involving thefts in campus parking lots.

A Column By and For Women

By Norma Campbell

On Saturday, May 4, several Parkland women (including the writer) attended the second statewide Conference of the Illinois Democratic Women's Caucus in Chicago, Illinois.

The Conference proved to be a stimulating exchange of ideas between many of the most prominent women in the state. As one of the stated purposes of the Illinois Democratic Women's Caucus is to "provide and conduct an open forum which will assure full representation of political and philosophical attitudes within the Democratic Party," the many diverse and challenging issues that were presented proved to clarify many of the socially relevant questions that pervade the Democratic Party today. It was a truly educational experience for all women attending the Conference.

After welcoming us to the Conference, much of the morning was spent in discussing the Conference on Democratic Organization and Policy to be held in Kansas City, Mo. on Dec. 6-8, 1974. The purpose of this national Democratic Conference will be to adopt a national charter for the Democratic Party.

At the 1972 Democratic Presidential Nominating Convention a Charter Commission of 167 people from around the country were appointed. These people have now met over eighteen times to propose a charter to be presented at the Democratic Charter Convention.

Several women from the Charter Commission gave a dynamic panel discussion of the Charter, stressing the actual issues to us as possible delegates to this Convention. Although many people feel that the Democratic National Party need not adopt any national charter, more people are actually at odds on specific issues of the proposed charter as it now stands. This panel proved to be very enlightening in educating us to those issues in the Charter, with intelligent arguments presented both for and against the more controversial issues in the Charter.

Much of the morning was also spent in giving us detailed information on the delegate elector, delegate and alternate delegate candidate procedure for this Charter Convention. All of us were given a packet of materials that detailed the procedure to an extreme degree of accuracy, with questions answered from the floor on all areas of the procedure. As one of the resolutions passed unanimously by the Conference indicated, the Illinois Democratic Women's Caucus firmly showed their desire to "encourage full participation of all Democrats in the delegate selection processes, with particular concern for women, minority groups, native Americans and youth."

The Conference's focus after thoroughly discussing the issues of the Democratic National Convention was to discuss women's involvement in state party politics and legislation. Following up a discussion that had been held at the first Statewide Conference on involving women further in the Democratic State Central Committee, their first guest speaker was Ms. Anna Wall Scott, State Central Committeewoman from the 21st Congressional District and currently the highest elected woman official in Illinois. Ms. Scott gave a dynamic speech on the involvement of women in politics and on correcting the gross inadequacies in our current political system. She also recognized the presence of several groups of downstate Illinois women in the Conference and applauded them for their arousal to action in state party politics.

The chairwoman for E.R.A. Central, their lobbyist, Representative Eugenia Chapman and Senator Esther Sa-

perstein gave a detailed panel discussion of how the Equal Rights Amendment now stands in Illinois in both the House and the Senate. Included in our packet for the presentation were lists of how each legislator in the General Assembly voted for the Amendment, including which of these legislators were up for reelection this year. The panel discussed pragmatically the issues involved, the recent court case on the constitutionality of the "extraordinary majority" rule the General Assembly is currently holding to, and how best to approach an intelligent activist program toward insuring ratification of this Amendment.

After lunch, a stimulating talk was given by the former Chairwoman of the Minnesota Democratic Farmer-Labor Party, currently Chairwoman of the Minnesota Feminist Caucus and Minnesota's Women's Caucus. Much relevant political information was given to all of us as she spoke of her rise from precinct committeewoman to Chairwoman of the Minnesota Democratic Party. Beginning her term of office, the Chairwoman of the Party was an unsalaried position, as opposed to the high-paying position of the Chairmen of the Party. She spoke to us of her eventual success in correcting the unfairness of this situation.

Resolutions were then presented for adoption by the Illinois Democratic Women's Caucus, several pertaining to the Affirmative Action plank of the Charter Convention.

Workshops were given at the end of the Convention to further educate Democratic women in Illinois in organizing and carrying through political action at both the local and statewide levels.

These workshops were extremely informative to any woman wishing to participate actively in campaign work. Covering all areas of campaign structure, these workshops stressed organization, fund-raising and structure of a political campaign, both at a local and state-wide level.

As we left the Convention, we articulated our support of the goals and views of the Convention. For both of us it had been an extremely educational experience, and a relevant lesson in the practical applications the information we had gained might have on our society, truly teaching women how to participate fully and intelligently in the forces that control our society.

Self-Help Clinic Set For Women

A self-examination clinic for women interested in learning the techniques of breast and cervical examinations will be held Tuesday, May 14 at 11 a.m. in Room L239.

The philosophy of self-help will be discussed, followed by a slide presentation and a demonstration of examination procedures.

All women who are interested in learning more about the technique of self-examination are invited to attend.

A Column By and For Men

By Paul Hensel

From the first time that I ever read the Prospectus, a twinge of journalistic bias slapped me across the face. If women desire equality, then why must they take advantage of an unequal status to print columns in a supposedly non-partisan publication. Articles that support only one side of an issue run on a regular basis seem grossly biased over the long haul. For this reason, as my last contribution to this newspaper, a voice for the other half (approximately) comes into being.

The main purpose of this particular article comes in rebuttal to A COLUMN BY AND FOR WOMEN in last week's issue. I contemplated long hours before deciding whether or not that article deserved serious attention before determining the true necessity of an answer. The real need for this column stems from Ms Campbell's unjudicious attempt to knock anything possible in order to come up with a column without regard to the hazards of a poor defense.

First, Ms Campbell begins with the emotion of a highly strung word like "fortitude" and unbuilds from there. Reference is made to a number of "logical inconsistencies" after which she prints a rather long quote as a reference to her point. It is unfortunate that nowhere in her article did she attempt to point out exactly what these so called inconsistencies were, nor did she happen to mention where they could be found. This type of tactic is fairly common in some arenas but has no place in the news-editorial field.

My next complaint relates to another unnecessary tactic of Ms. Campbell. About halfway through her article, she makes statements concerning the real "issues" involved concerning the rights of girls to participate in little league baseball. During this discussion, she points to the reasons men give for not allowing the girls to play to be some crap about girls getting cancer. Not bad for a beginner, but even the dumbest of us males realize that there are reasons that are much more profoundly at issue in this controversy, such as those discussed in the article to which she took offense. I'd add that she failed to speak to this more important issues.

As a clincher, Ms Campbell makes a valiant effort to utilize another of the more common tactics of erroneous logic. Tearing down the man who has something to say is a common political technique that is most usually employed in cases where those who do the tearing down can't come up with a reasonable argument that speaks to the issues at hand. Calling someone a "patronizing liberal" is a good way to express your personal opinion of a person, but has little to do with the true problem. Continued expression of this kind of language just may be exactly why so many people are alienated from the objective causes of women's rights programs. How many times can a man say something to the benefit of those to whom he is making reference and honestly mean what he has said only to be called

a "patronizing liberal" before he learns that it just doesn't pay to say anything at all? And we wonder why there is so much apathy in this country!

Hopefully, a tradition of equally opposing views, the strategies of which are carefully conceived and logically presented, will start and be continued in this paper during the coming year. The space is available and any debatable issue deserves as a matter of right a responsible rebuttal.

Vet's Corner

BY DONNA MC CONKEY

VETERANS PAY FOR SUMMER CREDIT HOURS: 2, 3 or 4 hours, 1/2 time; 5 hours, 3/4 time; and 6, 7 or 8 hours, full time.

Self Enrollment Certification forms are available for ALL veterans, war orphans, war widows and dependents for the Summer Quarter ONLY will be available May 13, 14, 15, 16 and 17. The times will be from 11 a.m. until 1 p.m., 3 to 5 p.m. and 6 to 8 p.m., EXCEPT Friday. The college closes at 5 p.m. on Friday.

Forms for ADVANCE PAY FOR FALL will be available June 17 through June 28. Your check will be available on the registration line in the fall.

GRADUATING VETERANS -- Any veteran on ISVS -- Your cap and gown are paid for by ISVS. Check with Dorothy Lipkin, X174.

Do you know what those IBM cards are for that you receive with your checks? If you look in the upper right hand corner, you will see student certification of attendance. If you have any change of hours, or you are terminating school for any reason see or call Dorothy Lipkin, 351-2253. Please send to VA or see Dorothy promptly or else you will NOT RECEIVE ANY MORE MONEY.

Elections for officers of the Veterans' Association for 1974-75 will be held May 14. If you want to run for office, contact the Office of Veteran's Affairs, X166 or phone 351-2206.

The next meeting of Veteran's Educational Advisory Council will be Monday, May 13 in room L111 at 6:30 p.m.

LET'S HAVE A PICNIC: When: May 25. Where: Mahomet Sportsmen's Club. Who: Club members and their families. What to bring: One covered dish and your own place setting. The Club will furnish: Bar-B-Q Chicken and Spareribs, beer, soft drinks and ice.

FIELD TRIP MEETING SET

For those students interested in the Field Biology/Field Geology trip to the southwest this summer, there will be an informal meeting in the Life Science Division Conference Room (L-117), Thursday, May 16, at 1:00 p.m.

It is advised that students taking this program plan to attend the meeting. For additional information, contact: Earl Cruetzburg (L-231).

Pig Guards Pot Plot From Police Raid

A pig guarding a garden plot where marijuana was being grown held police at bay for nearly an hour yesterday before officers subdued the pugnacious pig with a chemical.

"This story ought to be headlined, 'Pig bites pigs,'" Sheriff Leigh Wilson laughed when telling of the encounter officers Theo York and Mike Robinson had with the animal.

They found the pot plot, but also found a burly pig standing guard.

"The pig tried to take a couple of nips out of Robinson's leg, but he was too fast and got away," the sheriff said. "Then the pig went after York and got kicked in the snout."

BLOOD DRIVE

We have your I.D. cards from the Blood Bank in the Health Service Office, X202. Please come and pick them up.

SUMMER FIELD COURSE IN AMERICAN SOUTHWEST

Parkland College will once again be offering a summer field course in geology/biology. The trip lasts about 3 weeks (August 5-26) and stops to observe the biology and geology will be made in such places as the Rocky Mountain National Park, Bryce and Zion National Parks, Capitol Reef, as well as a hike through the Grand Canyon. More information is forthcoming on posters, but if you are interested in a tremendous outdoor learning experience and want more information NOW, contact Gary Hendrix-333-3042, 344-4254, Earl Cruetzburg-351-2371 or Dean Timme-351-2404.

P/C STUDENT WINS DISTINGUISHED AWARD

Roger Owens, a Parkland Accounting major, won the 1974 "Alumni Distinguished Scholarship" from Illinois State University at Bloomington-Normal. Participants in this program are eligible for an award only by invitation from the university.

Allerton Day Shows Ecological Benefits Of Park

BY STEVE ANDRADA

Allerton Park Appreciation Day was held Saturday, May 4 in which about 50 people visited the park to enjoy nature and listen to some speakers. The crowd was not as big as I expected after seeing all the advance promotion and advertising for the Park Day. However, the 50 or so people that did show up were presented with much testimony and evidence (if not what they could see for themselves) concerning the existence of the Park.

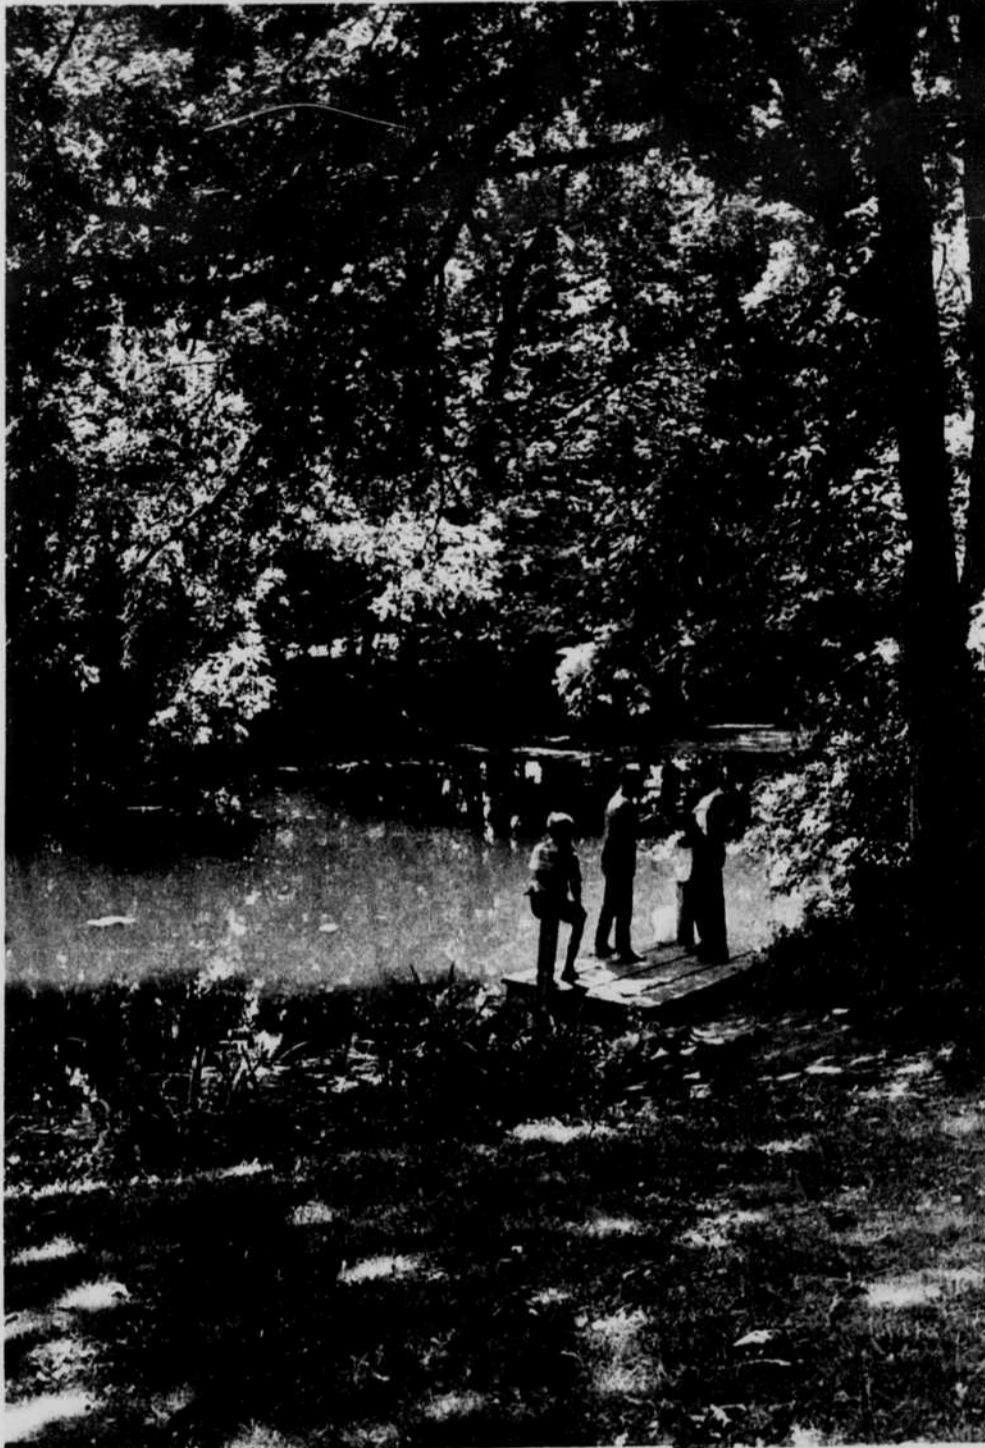

Allerton Park is simply this 1500 acres of unique natural woodland along the Sangamon River. It is one of the few remaining examples of publicly owned, largely untouched bottomland forests in Illinois. The Park is a one-of-a-kind recreational area where people can stroll through miles of undisturbed forest, view spectacular statuary in a native Illinois setting, and examine expansive formal gardens. Also it is The University of Illinois' most valuable outdoor laboratory and ecological research center.

The background of Allerton Park starts with Samuel Allerton, a banker, cattleman, landholder, who is the father of Robert Allerton, patron of the arts, world traveler, lover of wild places and father of John Gregg Allerton, an architect, who with his father, blended the art of man with the art of nature in constructing Allerton Park. In 1946, Robert Allerton, who owned the estate, donated 1500 acres of the park and an additional 3,775 acres of farmland to help support the park, to the University of Illinois. The Illinois 4-H Memorial Camp, just north of the park, was also a part of the estate.

The indenture of agreement between Allerton and The University provided that the woodland property be, "used, maintained, preserved, operated, improved and developed by the grantee for educational and research purposes, as a forest, wild and plant-life reserve, as an example of landscape gardening, and as a public park."

In 1970, Allerton Park was made a national landmark because of it being one of the few remaining examples of native Illinois river bottomland forest left available to the public and research scientists. As a national landmark, the park was to be preserved in its natural state, however, the Army Corps of Engineers plans to take special flowage easements over 1,100 acres in the park, including all of the bottomland forest, which constitutes 3/4 of the park.

The Committee on Allerton Park was formed in 1967, and is comprised of private citizens including scientists, engineers, farmers, housewives and working men. The Committee survive solely on contributions for their financial support. They have studied Allerton Park for several years and have compiled a large collection of documents related to it. The presently proposed Oakley

Project is supported by mainly the U. S. Army Corps of Engineers, the officials of the city of Decatur, the Illinois Division of Waterways, and many Illinois politicians. Opposition comes not only from the Committee, but from citizen groups throughout the state, farmers who will be forced off their land by the reservoir, the Sangamon River Improvement Association, ten county governments and state and national conservation groups.

The Oakley Project was authorized in 1962 and included a permanent reservoir at elevation of 621 feet above mean sea level and canalization of the lower Sangamon River at a cost of \$29 million. The original project is no longer economically feasible according to the Corps of Engineers. The Project has been modified four times and may undergo further revision before being completed. The present plan recommends that Congress approve two reservoirs at a cost of \$65 million. The 1973 cost was \$80.9 mil-

Allerton Park offers serene spots for nature lovers, children, or anyone who marvels at unspoiled natural beauty. The Park abounds in sculptures, decorative gardens, and long secluded walkways.

lion. Almost all of the benefits claimed for the Oakley Project can be realized by treating the upper Sangamon watershed for erosion control, developing the greenbelt, and using well water for Decatur. The cost of this alternative project would be about \$26 million.

Briefly and simply the controversy is this: the present Oakley Project is ecologically and economically unsound, will not provide the benefits claimed for it, and will constitute a great waste of money and other resources. An alternative, non-structural project that will not harm Allerton

Park area farmers and the Sangamon River can be developed at less cost than the present project.

To me it would be a gigantic waste of beauty to see all that is now existing at Allerton go down the drain. The statues, like the Sun Singer and The Centaur have to be seen to be appreciated, and the gardens are magnificent. But most of all is the almost virgin forests that surround the park. To see these put to waste would really be a crime. If anyone ever approaches you with a petition, I urge you to sign it. However, first of all, I wish you would go out to Allerton and take a first-hand look at what everyone is fighting over; it really is nice.

(Most facts, figures, and textual evidence was taken from *The Battle for The Sangamon* - copyright 1971, The Committee on Allerton Park, and various other pamphlets and papers put out by concerned people.)

Debate Team Finishes Best Year Ever

By Mike Field

In only its second year of competition, the Parkland debate team completed what must be considered a highly successful season by capturing first and third place in the four state regionals, thus qualifying for the Nationals in Omaha, Neb. While in the Nationals tournament, the team of Dave Weichman, Ron Diehrich, and Paul Walker totaled a respectable record of seven wins and seven losses, competing against the more experienced California Junior Colleges. For the year, the team had a record of 60 wins and 28 losses and competed primarily against universities.

The director of the debate program at Parkland, Chuck Newman, called the team "The best Junior College debate team in a four state area" Illinois, Wisconsin, Indiana and Iowa, and he's hoping that there is a good turnout of freshmen for the team next fall. He emphasizes that there will be no cut of members from the squad and that no experience in debate is necessary for a person to come out. In fact, this year two of the teams finest debaters

came out with no experience in debate competition at all, and had very fine seasons.

Next year, the team will compete in eight to ten tournaments, with the Nationals being held in Lake Tahoe, Calif., a trip that Newman and the returning debaters are looking forward to. In addition, the team will be traveling to some out-of-state tournaments other than the Nationals, possibly in Wisconsin, Indiana, and Missouri. The team's budget pays for the expenses of the debaters, such as travel, food, and lodging, but more important than that is the experience that the members receive. Newman feels that debate is a definite help to those students who wish to go on to professions that require communication with the public. "Many people now holding positions in government or in business or other jobs that require some form of public speaking, have at one time or another, been involved with debate competition."

He also thinks that the debate experience is good for those students who want to transfer to universities and says that "Both our sophomore debaters this year have been offered scholarships to major universities, although neither accepted them. This (the debate program) is a definitely a good place for students to be considered for scholarships."

Monday's Coach
BY AL SARVER

I read in the newspaper the other day where UCLA's Bill Walton had signed with the Portland Trailblazers for an estimated 2 to 3 million dollars over a five year span. You might say "Big deal. I read that too." Well, have you thought about how much money that is? This man plays a sport for a living and he is an overnight millionaire.

Bill Walton can't be blamed for this. After all, he is simply taking what he can get and I would probably do the same thing if I were fortunate enough to be in his shoes. I must wonder, however, if an athlete is worth all that much. Portland certainly seems to think so!

The bonuses go higher and higher every year. Next year David Thompson will turn pro (if he doesn't decide to do so

More Sports on Page 13

this year) and he could conceivably receive just as much. If you haven't already heard, professional sports is a big business.

The same thing is going on in all phases of professional sports -- people will pay any amount for a winner. I was raised with that old belief that it didn't matter if you won or lost; it was how you played the game. I suppose that belief has stayed with me somewhat.

Please turn to page 13

Thank You

The PROSPECTUS sports staff of Doug Gelvin, Paul Hensel and Al Sarver would like to extend their thanks to the coaching staff of Parkland College. Without their assistance and guidance throughout the year there would not have been a sports page. Men like Joe Abbey, Ken Pritchett, Don Groethe, Jim Reed, and Bob Abbuehl cooperated with us and gave us their full support. Our hats are off to you gentlemen; you make Parkland sports happen.

Shown above is the Coaching Staff at Parkland College. Left to Right: Jim Reed,

Head baseball, assistant basketball; Bob Abbuehl, Intra-

murals; Don Groethe, Wrestling; Ken Pritchett, Head

Basketball; Joe Abbey, Track and cross country, athletic director.

Parkland Coaches Review Year

Don Groethe

Parkland College hopes to field one of its better wrestling teams next year. Several outstanding wrestlers from the Parkland district have indicated they will enroll next year. As of this date, the following wrestlers have informed Coach Groethe they will enroll: Mike Hatfield, Greg Bane, Hoopeston; George McDowell and Brian Jones, Mattoon; Tim Stills and Rod Mosier, LeRoy; Don Graham and Gary Gyuran, Mahomet-Seymour; Mike Moberly, Normal; Don Morgon, Mattoon, and Ed Long of Decatur Stephen.

Returning next year are squad members Jeff Welch, Bruce Kloth, Ed Neely and Kent Redding. Two former high school wrestlers who did not wrestle this year but could be out next year are Eric Graham of Central and Mike Dilley of Urbana.

Scheduling for next year includes J. C. tournaments in St. Louis and Chicago, the State meet hosted by Black Hawk in Moline, and fourteen dual meets. Most valuable wrestler for 1973-74 was Ron Smith of Urbana who placed fifth in the State meet at 167 pounds.

Coach Don Groethe stated, "I think we will have one of our largest groups reporting next year, with some outstanding wrestlers on the squad. We still have several more individuals in our district to contact, so I expect more than the above named to be enrolled this fall."

Bob Abbuehl

All Parkland students are encouraged to join and participate in one of the many Intramural sports programs.

Leagues are offered in football, basketball, softball and track for both men and women. Co-recreational activities include volleyball, swimming, basketball, softball, tennis and bowling.

Individuals can participate in track, golf, tennis, arm wrestling, bike racing, table tennis, billiards and jogging.

Trophies and T-shirts are awarded to individual and team champions.

The Intramural Office in X158 is staffed by student leaders and directors.

Programs are planned for fun and mass participation by all students and faculty.

The man to see for further information concerning the Intramural program is Coach Bob Abbuehl in B122.

Jim Reed

This is Parkland College's fourth year of fielding a baseball team. For each of these four years, Jim Reed has been the head coach of the team.

The team has shown marked improvement during this period until the past year when the Cobras won the Central Illinois Athletic Conference championship and the Section VII title of the State Tournament.

Howard Walker, a second baseman and graduate of Champaign Central High School, became Parkland's first All-State performer and Conference Most Valuable Player by batting .409 and by being near the top of the state in stolen bases.

Parkland maintains a forty game spring baseball schedule, as well as an extensive fall program. It is hoped that his kind of program will offer Parkland College students the utmost participation in our national pastime.

Cobras Bat Way Over .500

The Cobra baseball team pushed over the .500 mark during the last week. Tuesday afternoon they squeezed by Millikin in a tight finish to bring the Parkland record to 10 wins and 8 losses. Several games still remain on this year's calendar.

The year started off well with Parkland romping to a 5-1 record before falling into a losing streak that seems to have finally ended. The high point of this year's season to date came in the Section VII State Tournament held

last weekend. Parkland battled its way to the final game of the tournament only to take a backseat to Lakeland Junior College in a heartbreaking loss. With the score 7-6 in favor of Lakeland, Parkland came to bat in the last inning. But after loading the bases with only one out, the next two batters went down on strikes.

Parkland's chances for a repeat conference championship seem spoiled at this

Please turn to page 13

During a press conference held on Friday, May 3, Mark Henrichs, Illinois' leading scorer in high school basketball, announced his intentions to enroll at Parkland next fall.

Mark is shown here discussing his future at Parkland with Athletic Director Joe Abbey, Basketball Coach Ken Pritchett and a News-Gazette reporter.

High-Scoring Henrichs Opts For Parkland Cage Team

By Doug Gelvin

It all ended at 5 p.m. on Friday, May 10 in B135. Mark Henrichs, Illinois' leading scorer in high school basketball, announced his intent to enroll at Parkland for the 1974 fall quarter.

For Mark, this press conference signaled the end of a two month decision-making process.

Mark, who is presently a senior at Onarga High School, said he had three huge boxes full of applications and letters from other colleges and junior colleges. "Everything was pretty quiet until around the first of March," he said. "Then I was named leading scorer in state high school basketball and the letters started pouring in."

One of the main reasons that Mark chose Parkland was the friendly atmosphere that exists between faculty and students which you usually don't find at your larger four-year schools.

Basketball Coach Ken Pritchett has had his eye on Mark for a long time. "I went to Onarga and watched Mark play, talked to him and invited him to visit Parkland," he said. Coach Pritchett is planning on playing Mark at the center position on the team next year.

Besides being on Onarga's basketball team, Mark also played football and was on the track team, where he threw the shot and discus.

The 6' 9" senior is planning on majoring in Physical Education with a minor in Agriculture.

In talking to Coach Pritchett after the press conference, he told me, "Every kid who wants to try out has an opportunity to make the squad. We do have open try-outs and welcome them to come try-out for the team."

He also added, "We have

several other players that have told me that they are planning on coming to Parkland."

With the aid of Mark Henrichs and the possibility of several other bright prospects, next year's basketball season should be one to look forward to with enthusiasm.

P/C Players Thrill Audience

By Steve Andrada

The Parkland Players, under the direction of Ed Kelly, performed excellently two cuttings, one from *Inherit the Wind* by Jerome Lawrence and Robert E. Lee, and the other *Who's Afraid of Virginia Woolf?* by Edward Albee in two separate showings last week.

The cast of *Inherit the Wind* consisted of Dave Gentry, playing the part of Drummond the famous, notorious criminal lawyer who pleads the case for the defense, and Patrick Rogers as Brady, the religious authority whose life's beliefs are under attack.

The play concerns the Scopes Monkey Trial that deals with the controversy over teaching Darwin's evolution in the schools. The authors of the play gave the name Drummond to Clarence Darrow, who was the real lawyer in the case, and Brady stands for William Jennings Bryan, the most respected religious figure of the times who died five days after Darrow's

rigorous assault.

The two players put on a fine presentation of this moment during the trial, Gentry swaggering back and forth, putting the screws on Rogers and Rogers squirming with much finesse and finally exploding in the emotion packed ending. I did not detect any real flaws technically, and thought that the two actors had great timing and voice quality for both showings. If there were any mistakes, they were minute and were covered up beautifully.

In *Who's Afraid of Virginia Woolf?* The members of the cast were Deborah Good as Martha, Amy Webb as Honey, Bob Beam as George and Dave Dillow as Nick. The play revolves around the constant bickering game that the couple George and Martha engage in, and the imaginary child that they dream up to pull themselves together with. The violent verbal battles that occur are always happening whenever the two are together.

Deborah Good deserves

much praise for her role as Martha. It seems as though she adapted to the part very easily. Her talent is clearly evident, as it was in her previous performance of *Adam and Eve*. She and Mary Huelsbusch were assisting directors for these performances.

Amy Webb played her humorous part to the hilt and captured most of the laughs with her twangy voice and drunken eyes. She appeared to be the essence of innocence in playing the part of Honey.

Bob Beam came off well as Martha's husband George, and appeared to be smooth and coherent, and especially good in his rebuttals to Martha.

Dave Dillow did not speak all that much in the play but matched up nicely with Amy and played up the innocent part of it real well. His voice was softer than the others most of the time yet his moods came through all right.

Congratulations to Ron for not messing things up since he didn't have all that much time to practice. It looked as if he enjoyed waving his hands in the air a lot, but I commend him on his fine speaking voice and his contribution to the play.

Everyone who worked with the play was pleased with the performance, and I personally thought that even though the facilities were not adequate, the Parkland Players as Ed Kelly put it "took two tough things and did a great job..."

COBRAS BAT WAY OVER .500

Continued from page 12 point. That by no means indicates the net ability of a fine baseball team. By winning most of their remaining matches for this season, Coach Reed and the members of his squad can be quite proud of their efforts this spring.

MONDAY'S COACH

Continued from page 12 Don't get me wrong. I like a winner just as much as the next guy but, I don't think winning should come with a price tag attached to it.

I don't know much about Bill Walton except that he is an exceptional basketball player. From what I have read and heard about him personally he strikes me as a Dave Cowens type. Bill stated that he was elated to sign with Portland because he would have an opportunity to hike in the mountains outside Portland. He wears flannel shirts and he gives the appearance that he really doesn't care that much about money and material things. Cowens, if you will recall, lives in near seclusion by himself somewhere in the country around Boston. Dave chops his own fire wood, drives an old car, and is an all around nature freak in addition to being the star center of the Boston Celtics.

Let's get back to Walton for a minute. Why does a man like this need to make half a million dollars a year? I've heard of security, but man; that is security! Even after

his playing days are over Walton will be able to get a well paying job on his name alone. I guess the rich just keep on getting richer.

BARTOW ON HIS WAY

Gene Bartow is on his way to a fine first season at the University of Illinois. He has already picked up a couple of fine players and if he can land Audie Matthews he will be able to call his first recruiting year here a success.

Bartow's latest signee is 6' 9" Cincinnati prep Rich Adams. Bartow said when he first arrived at Illinois that the thing he needed most was a man who could pull down around twelve rebounds a game. Adams appears to be just that man. This past season he averaged 26 points and 16 rebounds a game.

If the Illini can get Matthews to sign, the tentative starting-lineup for next year could be Matthews and 6' 7" Rick Schmidt at the forwards, 6' 6" Otho Tucker and 6' 4" junior college transfer Nate Williams at the guards, and the 6' 9" Adams at center. Incoming freshman Tom Gerhardt and JC transfer Mike Washington will likely see some action at forward while Howie Johnson could challenge for a starting guard spot. At any rate the Illini basketball situation is looking up. We may see a running basketball team at the Assembly Hall next winter.

PRITCHETT NOT TO BE OUTDONE

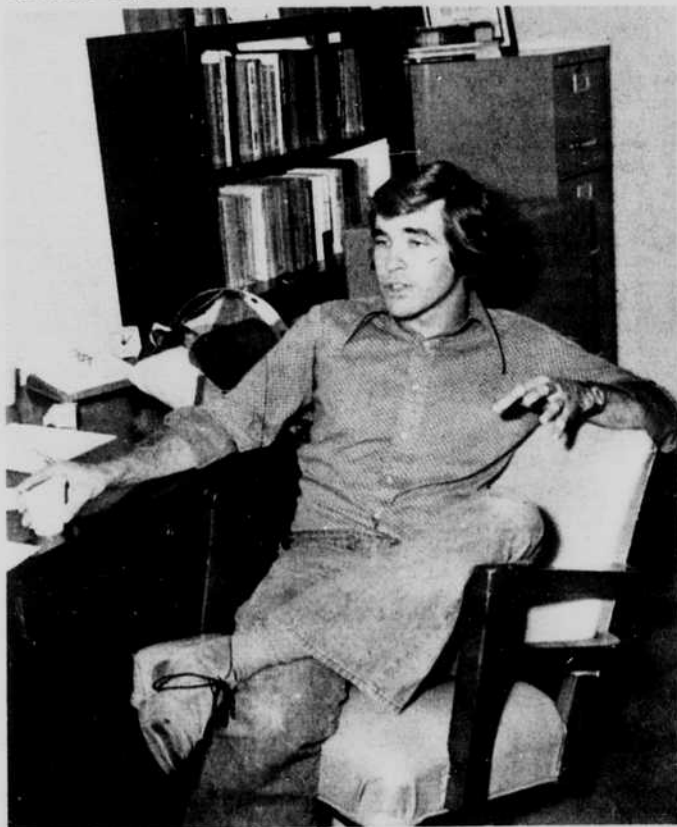

On the home front Parkland

basketball coach Ken Pritchett has landed Onarga High School star Mark Henrichs. The 6' 8" center will be the tallest player ever to play for the Cobras and Coach Pritchett feels that Mark has a chance to become the finest junior college center in the state of Illinois. It is a cinch that he will help to cure the Cobra's rebounding woes and his ability to score has already been confirmed. A player doesn't average 38 points a game without being able to put the ball in the hoop occasionally.

Junior college basketball cannot be taken lightly and put aside as being second rate. Every year major colleges dip down into the junior college ranks to recruit players. Many of these junior college players were good enough to play at a major school but wind up as non-predictors academically. After a couple of years at a JC they have the confidence and experience needed to succeed at a four year university.

ON THE WAY OUT

The school year is now coming to a close and as a result this is the last issue of the PROSPECTUS. I would like to take this time to say that I have enjoyed working on the PROSPECTUS staff this year. I don't know what kind of a readership I have here at Parkland but I like to think that this column has reached a few readers. I have enjoyed expressing my views in Monday's Coach and I hope that those views were taken for what they are worth -- pure opinion.

ED KELLY

The Parkland Players handle often complex character sketches and highly emotional scenes from two plays with skill in their performances last week.

Social, Religious Traditions Expressed In Roots Afrikana

Roots Afrikana is both a healing experience and a musical experience that will raise the listener's musical consciousness to new levels. Roots Afrikana plays the music of the African people, all living on one continent at one time, but now populating North and South America, Cuba and the Caribbean and, of course, Africa.

This music is integral to African life, its social and religious traditions. It can be classified into both ritual and secular music. Ritual music is of a highly structured form and content and should really be reserved for those religious situations for which they were created. Because of this belief, much of what is played by Roots Afrikana flows out of the secular. It is no lesser of an expression of the African musical heritage, and in fact allows for more creative musical expression and innovation.

The most important thing to remember about African music is its creative use of rhythm. This is the basis and in the eyes of the African musician a key to understanding the basis upon which the entire universe moves; cosmic rhythm.

The band is composed of a master musician -- that composes and arranges, a master drummer, the controller, dancers, and supporting musicians who carry out various rhythmic interpretations. The music draws from the old,

P/C JAZZ GROUPS
Continued from Page 1

rious playing commitments that evening. Parkland sophomore Joel Spencer and Community Jazz Band member Bob Samborski were presented Best Section Leader and Best Soloist awards, and each received a \$1,200 scholarship to GSU. Honorable mention awards were given to Parkland sophomores Jeff Kaye and Eric Schneider. One other award, Best Arranger / Composer, was also given at the festival.

Judges for the event were Robert Early, Aquinas College; Bunky Green, Chicago State University; Edward L. Smith, University of Michigan; Charles Suber; Downbeat magazine, and Elaine Chiles, WBEE Jazz Radio, Chicago.

Erwin Hoffman directs the Jazz Program at Parkland.

Librarian Honored

Mrs. Ann Neely, Parkland librarian, was recently honored with a plaque from the Parkland Debate Team. Captain Ron Diedrich presented the plaque denoting Mrs. Neely as "Reference Librarian Supreme."

This award was made in recognition of Mrs. Neely's dedicated efforts in assisting the P/C debaters in research.

End-Of-Year Gala Planned By Phys Ed. Dept.

BY DOUG GELVIN

With the end of school less than two weeks away, the Intramural Department is getting ready to close out the end of the year in style with meets, matches and tournaments.

The track meet will be held during College Hour on Tuesday, May 14 at Centennial. The events scheduled are: 100 yard dash, 220, 440, 880, 1-mile, long jump and high jump.

Plans for the golf tournament have been finalized and it will be held after school on May 16 and 17, at Par 3 Golf Course just south of Champaign on Route 45. Trophies will be awarded to the first, second and third place winners in each of the two flights.

The tennis tournament has also been finalized. It will be held May 16 and 17. Trophies for first, second and third place will be awarded.

Sign-ups for these tournaments ended last Friday, May 10 so if you haven't signed up, it's too late now. ONLY THOSE PEOPLE WHO HAVE

SIGNED UP FOR A TOURNAMENT WILL BE ALLOWED TO BE IN THE TOURNAMENT. Everyone is invited to come and watch.

Men's softball and Co-Rec softball will end May 14 and May 16, respectively.

If you have any questions contact the Intramural Office (X159), Doug Gelvin, Ron Gunter, or Coach Abbuehl in B122.

COMMENCEMENT
Continued from Page 1

309 are men and 339 are women. Those figures include students who have completed classes the Fall, Winter and Spring quarters of the 1974 academic year.

It is also possible for students who will complete their academic workload during the Summer session to be eligible to participate in the commencement ceremonies May 24. Those students will receive their actual diploma by mail after the Summer session.

Students eligible for graduation will receive associate degrees from many areas of study. Seventy-six persons will receive Associate Arts degrees, 61 persons will receive Associate Science degrees, 39 will receive Associate General Studies degrees and 201 persons will receive Associate Applied Science degrees (in career programs.)

In addition to the students receiving Associate degrees, two persons will receive Advanced Certificate degrees in Automotive - Farm Equipment programs. Ninety-six persons will receive one-year Certificate degrees for the Spring Quarter, 1974.

In light of the number of credits earned, a student may be eligible to be graduated from Parkland College and to participate in spring commencement.

If the student is uncertain of his status concerning the requirements for an associate degree or a certificate degree, he is encouraged to consult with his advisor or counselor as soon as possible.

All persons completing degree or certificate requirements during this academic year or during the 1974 Summer session are eligible to participate in commencement.

It is required of all students eligible to graduate to file a "Petition to Graduate" with the Office of Admissions and Records so that his academic record may be evaluated with respect to the degree or certificate requirements. Petitions must be filed by May 17.

A student should then pick up his announcements for the graduation ceremony from the College Bookstore, for packets of five announcements at \$1.75 per packet.

Cap and gown orders are also accepted at the Campus Bookstore.

Each student is entitled to 10 graduation tickets available from the Office of Student Activities.

Instruction sheets outlining the commencement procedures will be enclosed with cap and gown orders. For additional information regarding commencement, students should contact Office of Student Activities by May 24. Student Activities is located in Room X-153.

Jones Cites Improvements In Prospectus

DAVID M. JONES

By Monica A. Lucas

Dave Jones, the current advisor of Parkland's newspaper, the Prospectus, stated that he was really pleased with the progress that the newspaper has made this year. He said that the staff has taken over the responsibility that it should, and the quality of the paper has steadily improved throughout the year. The articles in the paper have become more relevant to the student body and the paper has become more professional in terms of layout. Jones stated, "The college is growing and I want the college paper to reflect this growth."

Besides serving as the advisor for the newspaper, Jones also teaches English 104, 105, 201 and Drama 201.

As for the future of the paper, he stated that he hopes it will continue to grow as it has this year, and become more involved in community affairs, not deal solely with school issues.

Working on the paper provides a valuable experience for those students hoping to major in journalism. Jones felt that students should also be given credit for the work they do while on the newspaper.

Throughout the year, the paper has become definitely more professional in looks and journalism. The news has increased, with coverage being timely and relevant. The in-depth interviews done this year have become definitely more interesting.

The function of a school newspaper, Jones said, should be that of a channel of communication, and it should also promote school spirit. The students working on the newspaper staff have obtained valuable experience this year and Jones looks forward to a steady increase in the quality of Parkland's newspaper, the Prospectus.

RUTHANN RYAN

Business Student Wins Award

A Parkland College student, Ms. Ruthann Ryan, has been awarded the Illinois Business Education Association scholarship award in the amount of \$500.00. The IBEA awards two scholarships annually; one to a high school senior and one to a graduate of a junior college. The IBEA scholarship may be used to attend any Illinois college or university. This is the third year this award has been given and Parkland has won it the past two years.

Ruthann Ryan competed with graduates from every junior college in the State. To enter competition a student must be sponsored by an IBEA member. Ms. Ryan was sponsored by Shirley Clausen, Coordinator of Secretarial Science at Parkland. Participants were judged on the following merits: scholarship, personality, transfer success in teaching and financial need. Ms. Ryan was interviewed by 5 judges in Springfield on May 4th.

Ruthann, a native of Tuscola, presently serves as a student assistant in the Office of Admissions and Records. She began her academic career in secretarial science but later, as her interest in teaching grew, transferred to the business education curriculum.

Krannert Art Schedule

Many Financial Awards Open To Incoming Parkland Students

(The following information becomes effective September, 1974.)

To qualify for any of the following financial assistance programs, a student must file an Application for Financial Assistance, demonstrate financial need through nationally approved financial need analysis service provided by College Scholarship Service (PCS or SFS) or American College Testing (FFS); be admitted to the college as a fully matriculated student, carry a minimum of 12 academic hours each term, and be making a satisfactory academic progress.

1. THE NATIONAL DIRECT STUDENT LOAN PROGRAM:

Eligible borrower may receive up to \$2,500 (\$1,250 maximum per academic year) while a student at Parkland College. Monthly repayment begins 9 months after student leaves school. During the repayment period a 3 percent annual simple interest on unpaid balance on loan principal will be charged. There is a partial cancellation benefit offered to persons pursuing teaching in low economic communities or in the field of special education.

2. THE SUPPLEMENTAL EDUCATIONAL OPPORTUNITY GRANT (SEOG) PROGRAM:

Eligible recipient must accept amount equal to or

greater in matching fund including any other programs listed in this section, Illinois State Monetary Award, Basic Educational Opportunity Grant, or other eligible scholarships

3. THE COLLEGE WORK STUDY (CWS) PROGRAM:

Eligible student may be employed a maximum of 20 hours a week while the college is in session or 40 hours a week during school vacations. Most of jobs are on the college campus and work schedule may be fitted between classes.

4. THE NURSING STUDENT LOAN (NSL) PROGRAM:

Only the students in 2 year associate degree nursing program who meet other general criteria are eligible. Monthly repayment begins 9 months after recipient leaves the nursing program. During the repayment period a 3 percent annual simple interest on unpaid balance on loan principal will be charged. There is a partial cancellation benefit given to each year of full-time nursing employment up to 5 years and 85 percent of the loan is available.

5. THE SCHOLARSHIP PROGRAM:

Recipient must meet the general requirements and be able to maintain a minimum of 2.75 grade point average (on 4.00 scale). For the names of the donor, please refer to the college catalogue.

FINANCIAL AID APPLICATION PROCEDURE CHECK LIST

1. Select college(s) or university(ies) which you wish to attend, obtain application(s) for admission, and submit it (them) well in advance of specified deadline date. Some schools require that high school transcript be attached to the application, so allow time for the additional step which would delay the application in route.

In most colleges, completed admissions processing is required before your request for financial aid may be considered.

2. Take college entrance examination and have the test scores sent to schools of your choice. Most mid-western schools will accept ACT scores but if you are wanting to attend Ivy League and other Eastern schools, you should take the SAT test.

3. Obtain application for financial aid (which is different from application for admission) from every school which you have applied for admission. Complete and return it to the school well in advance of stated deadline date.

4. Obtain from your high school counselor the following and send them in according to instructions on each with proper fees if required.

- a. Illinois State Monetary Award application. For this award use the name of school which you most likely will attend. You may change the school designation up to October 1.
- b. Parents' Confidential Statement (CSS) and/or Family Financial Statement (ACT) as required by school(s) of your choice. (For the proper form refer to application for financial aid from schools you obtained.)
- c. Basic Educational Opportunity Grant application.

5. Points of interests:

- a. Illinois State Monetary Award is based on 1972 Federal Income tax return while PCS, FFS, and BEOG

will use 1973 Federal Income tax return information. Thus, information submitted on the two would most likely not coincide.

b. Before you attempt to complete any forms, READ THE INSTRUCTIONS VERY CAREFULLY. Be sure to answer all questions.

c. You may not qualify for an award under one or more of applications you submit; however, you still may qualify for other awards as they all have different approaches to determine your award.

Parkland Vets Info Center On Wheels

The Veterans Association of Parkland are the proud owners of a new 1971 Dodge Van. The van was purchased out of funds awarded to Parkland from the Department of Health, Education and Welfare under the Veterans Cost of Instruction Program.

The van is to be used by members of the Vets Association staff at community, social and church events, within district 505. It is a means of transportation, and a way for the Vets Club to get out and meet the people in our school district, and provide information for the vets and non-vets in those areas.

Anyone interested in contacting the Veterans Association to schedule a meeting or otherwise should please get a hold of the Office of Veterans Affairs, Parkland College; Box 3268 CFS; Champaign, Illinois, 61820 or call, 217-351-2206.

Poet Laureate of Illinois Gwendolyn Brooks recites one of her many popular poems before a full house at Parkland's campus May 7 after a long-delayed appearance.

PROSPECTUS

Official Student Newspaper

The Prospectus is a student publication of Parkland College and does not necessarily represent in whole or in part, the views of the Parkland College administration, faculty or students.

Published weekly during the academic year, except for weeks shortened by holidays and final examination periods. Production is by The Farmer City Journal. Display and classified rates available upon request. For information, call 351-2266 or 351-2346.
