

## Correction

Proc. R. Soc. B 276, 2837–2846 (7 August 2009; Published online 13 May 2009) (doi:10.1098/rspb.2009.0467)

### Old fossils–young species: evolutionary history of an endemic gastropod assemblage in Lake Malawi

Roland Schultheiß, Bert Van Bocxlaer, Thomas Wilke and Christian Albrecht

Figure 1 was presented incorrectly. It is presented correctly here as

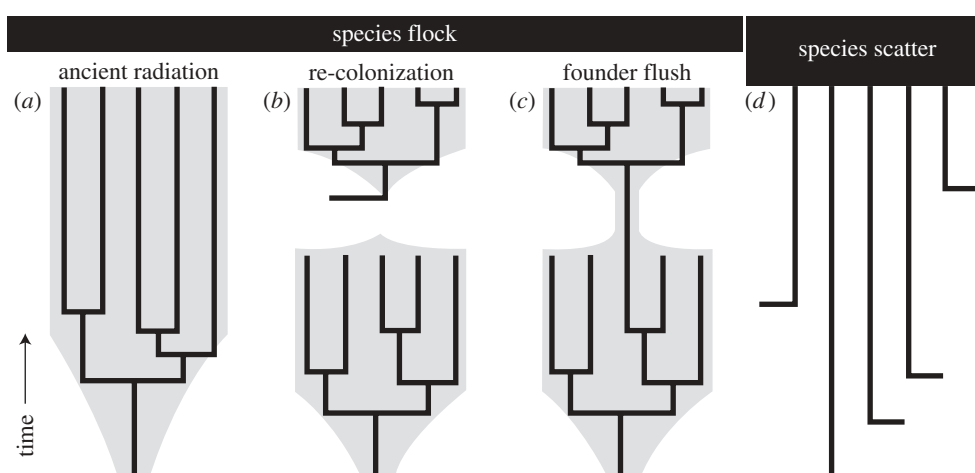

Figure 1. Evolutionary scenarios relative to the ecological stability of a lacustrine system. The stability is indicated by the width of the grey surface underlying the schematic species trees (broad representing stable; narrow, unstable conditions). See text for details.

In §2a, the first line of the first paragraph should read: Three endemic species of *Lanistes* (Ampullariidae) are described from within the lake (figure 2): *Lanistes solidus* Smith 1877, *Lanistes nasutus* Mandahl-Barth 1972 and *Lanistes nyassamus* Dohrn 1865.

In §2c, the third sentence of the first paragraph should read: COI and LSU rRNA sequences of *Pila ovata* (Olivier 1804), *Pila conica* (Gray 1828) and of seven *Lanistes* specimens were obtained from NCBI GenBank (see table 1 in the electronic supplementary material).

### Corrigendum for the paper ‘War and the evolution of belligerence and bravery’

Laurent Lehmann and Marcus W. Feldmann

In the paper ‘War and the evolution of belligerence and bravery’ (Lehmann & Feldman, 2008, which we will refer to as L&F), we used probabilities of identity by descent between pairs of homologous genes sampled in *sub-adult* individuals
