In the original published version of this article, the affiliation 20 is wrongly written as “Network of Immunity in Infection, Malignancy, and Autoimmunity (NIIMA), Universal Scientific Education and Research Network (USERN), Sao Paulo, Brazil”. The authors need it to be corrected to ‘‘20Laboratory of Medical Investigation 29, University of São Paulo School of Medicine”.

In the original published version of this article, the abstract Lines 7-9 is wrongly written as "Most students (n = 421) and school workers (n = 446) had active (qRT-PCR + IgM- IgG- or qRT-PCR + IgM + IgG-/+) SARS-CoV-2 infection". The authors need it to be corrected to "*Most of the PCR + individuals (students, n = 408 and school workers, n = 431) were IgM− and IgG−, thus, belonging to the active early infection status group*".

The authors confirm that the changes were only to be made in the abstract. The authors apologize for the errors. Both the HTML and PDF versions of the article have been updated to correct the errors.
