FIND SCHOLARLY SOURCES FOR A PAPER (1/3)

Find Articles in a Theology Database

If you are looking for scholarly articles on a theology topic you should start with the library's theology databases. As you research, be sure to reach out to a librarian if you have any questions.

Theology Databases:

[ATLA Religion Database](#)

ATLA (American Theological Library Association) contains indexes and abstracts articles from over 500 theology religion journals as well as book reviews and essay collections. Full text of many titles included.

[Catholic Periodical and Literature Index](#)

Part of ATLA. Includes citations to over 400,000 articles from Roman Catholic periodicals.

[ATLA Historical Monographs Series 1](#)

Series 1 presents more than 15,000 titles from 13th Century through the 1893 World Parliament of Religions.

[ATLA Historical Monographs Series 2](#)

Containing titles published from 1894-1923, this collection offers material on the significant shifts in the religious identification of Americans, including growing interest and experimentation with non-Western religions. The collection includes materials on the evangelical movement, evangelical sermons on the debates between science and religion, biographies of 19th century theologians, books by and about women and the church, and information Native Americans and religion.

Find a Specific Journal

If you have a specific journal title in mind (e.g. *The Thomist* or *Catholic Historical Review*) you should use the library's [Publication Finder](#).

Publication Finder  [\(image\)](#)

is a simple tool that allows you to search for specific journals by title or ISSN.

The screenshot shows the 'Publications' search interface. At the top, there are tabs for 'New Search' and 'Publications'. Below the tabs is the 'library commons' logo and a search box with the text 'Search for journal and newspaper titles'. The search term 'catholic historical review' is entered in the search box, and a 'Search' button is visible. Below the search box, there is a checkbox for 'Keep search limiters' which is checked.

On the left side, there is a 'Refine Results' section. Under 'Current Search', it shows 'Find all my search terms:' followed by 'catholic historical review'. Under 'Limit your results', there is a checkbox for 'Peer Reviewed Journals' which is unchecked.

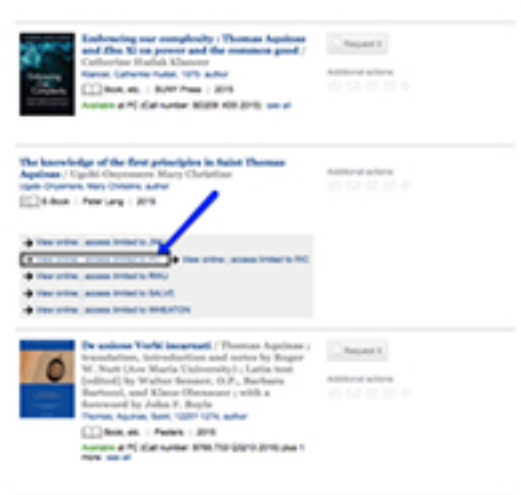

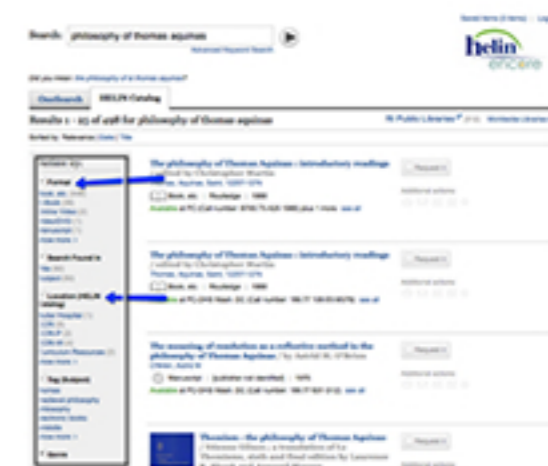

The main search results area shows 'Search Results: 1 - 3 of 3'. The first result is '1. Catholic Historical Review' with ISSN: 0008-8080, 1534-0708. Below the title is a search box labeled 'Search within Publication'. A 'Full Text Access' section follows, listing various databases and their coverage dates:

- Academic Search Complete 01/01/1990 - present
- Academic Search Elite 01/01/1990 - present

To find a specific book, enter the book's title, author, or any other information you have into the search box on the [library's homepage](#).

Once you have done the search you may see your book, or you may need to use the [filters](#) on the left-hand side of the screen to further refine your search.

If you have located a book that is available in the PC Library record the call number and find it in the stacks ([ask a librarian](#) if you need assistance). If the book is at another HELIN library click on the "Request It" button and it can be sent here for pickup.

If you have found an [ebook](#) that PC has access to you should be able to click on the access link and get right to the material. If you are working on your research off campus you will be prompted to enter your name and library bar code (14 digit code on the back of your PC ID).
