Image map produced from 11 Landsat Thematic Mapper images recorded from 1991-1995, provided by U.S. Geological Survey (USGS), as part of the Multi-Resolution Land Characteristics Consortium Activities, Bands 1, 4, 2.

Land ownership compiled from 1:100,000-scale Bureau of Land Management Surface Management Status maps. Topographic photos produced from USGS Geographic Names Information System.

Boundaries produced from USGS 1:100,000-scale Digital Line Graph data.

Project boundary based on the Mojave Desert Section delineated by Robert G. Bailey, 1995, with a 50 kilometer buffer.
