Dear Author(s),

Congratulations, your submitted paper titled "Hybrid Spelling Correction and Query Expansion for Relevance Document Searching" has been reviewed and accepted for publication in the International Journal of Advanced Computer Science and Applications (IJACSA) - Volume 12 No 8 August 2021.

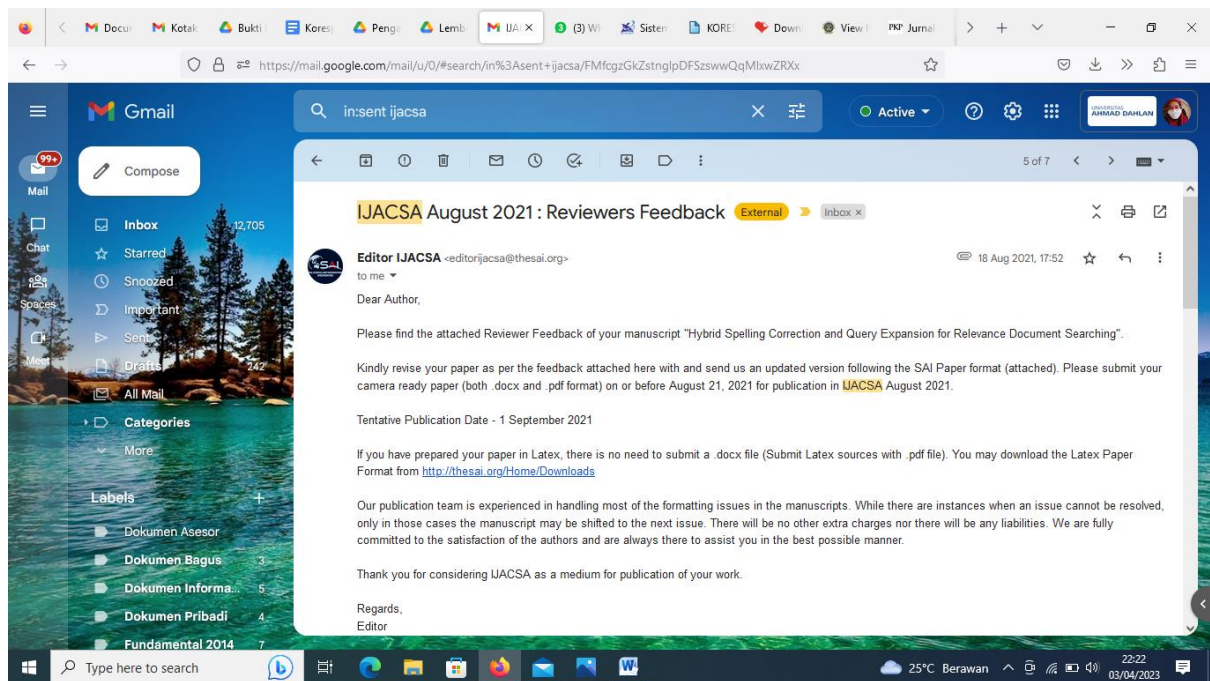

Registration and Publication Fee Payment
You may now proceed with the registration for paper publication at <https://thesai.org/Home/FeePayment>. If you do not have any credit/debit card available or if the payment process fails, please get in touch with us.

Kindly register before **19 August 2021** for timely publication and indexing of your paper.

Open Access
All papers published by the International Journal of Advanced Computer Science and Applications are made freely and permanently accessible online immediately upon publication, without any subscription charges. All published articles are assigned a DOI.

Indexing
Upon publication of papers, our next step will be to submit all published papers in International Indexes and University Libraries. Some of the indexes include **Web of Science**, **Scopus (Q3)**, Inspec, Ebescos, ProQuest, Microsoft Academic, WorldCat. IJACSA is also indexed in the [Clarivate Emerging Sources Citation Index](#) and is also listed in the Master Journal List.

Detailed Comments:

In this paper, author proposed a model to solve the problem by combining the spell correction and query expansion. Some suggestions-

- A particular keyword used was not mentioned in the abstract.
- The first time author uses an abbreviation in the text (Keywords), author should present both the spelled-out version and the short form.
- At the end of Introduction section, a short description of the paper structure is recommended.
- A new section should be created entitled "literature review" or "related works".
- The authors should clearly highlight the gap studies and justify the reasons.
- Figures and tables are meaningful, although some figures were blurred.
- Avoid putting references only at the end of paragraphs. If you do this we are tempted to think the whole paragraph came from the reference and has no input from you.

Detailed Comments:

What is missing is a more thorough discussion of differences between the proposed approach and today prevailing systems. Additionally, it would be desirable to indicate possible generalization pathways to more complex cases

In the Results section, it should not only explain the experimental results, but also add an explanation of the implications of these findings on the theory or method of previous similar studies that have been reviewed in the related work section. This will highlight the contribution of the author's research.

Please make sure your conclusions' section underscore the scientific value added of your paper, and/or the applicability of your findings/results, as indicated previously. Please revise your conclusion part into more details.

Grammar, punctuation, or spelling errors:

A grammar perusal and correction will greatly improve the paper.

The email content includes: "Dear Colleague, It is our pleasure to present the August 2021 Issue of the International Journal of Advanced Computer Science and Applications (IJACSA). Current Issue is published at the following link: [IJACSA Volume 12 Issue 8 August 2021](#). We hope this was a wonderful experience for you and we kindly request you to disseminate information about issue publication among your colleagues and fellow scientists, so as to achieve increased readership for all articles. Please do read the other papers published in our journal and consider citing them in your future publications. For future paper submissions, please refer to the [Call for Papers](#). Further Steps: All papers published in IJACSA are assigned individual DOI's. The DOI information for each article is available at the respective web page of that article. Each published paper also has a dedicated web page with all the information about the paper that is linked to the respective DOI. It may take a few days for DOI records to be updated at CrossRef. The papers of this journal are submitted for indexing to Web of Science, Scopus, Semantic Scholar, Inspec (IET), EBSCOhost, Microsoft Academic Search. The indexing process normally takes about 8-10 weeks to complete. Wishing you all the best and hope to hear from you soon, Regards".
