Dear Dr. Amirah DINIATY, Dr. Suryan A JAMRAH, Dr. Akhmad MUJAHIDIN, Dr. Salfen HASRI,

IBIMA publishing team is in the process of formatting your article ID 332631. We need your cooperation to make some modifications:

- 1) The Language Editor has some suggestions to improve the flow and readability of the article. Attached is a copy with suggestions' notes. Please check and make any necessary correction.
- 2) We have noticed that few tables might have similarities with those in already published article. Even if the source was cited below the figures and/or tables, author(s) still need to get written permission to publish them in their article.

Please confirm that all tables are created by the author(s) and we will keep a copy of your reply in file.

Please make sure you remove any figures, tables, website screenshots, graphics, etc., from the paper from any previously published article unless you have a written permission from the publisher. You need to obtain written permissions from the publisher to include any copyrighted material in your manuscript. Only mentioning the source with a reference is not enough. Attached is IBIMA guidelines

Please fix all issues and send the article as soon as possible to continue publication process.

Kind Regards
