**FEEDBACK FORM FOR SCHOLARS AND ARTISTS**

Completed by \_\_\_\_\_

The administrative staff and board members of ICS are interested in your experience as a scholar/artist in residence at the Institute this term. Your comments will help us plan future events, add new dimensions, and work to improve and enhance the support provided by ICS. Your remarks also will provide useful information for the Institute's annual report, which will be submitted to the Provost/VPAA.

Please return this form by January 6, 1997 to Jodi Sickler at ICS. Thank you.

**What have been the most rewarding aspects of your affiliation with the Institute this term?**

**Did the release time and support provided by the Institute meet/exceed/fall short of your initial expectations?**

**What activities, events, or new dimensions would you like to see undertaken by the Institute in the future?**

**What kinds of contact and events would you like to see the Institute establish for alumni scholars and artists?**

**Overall, how would you assess your experiences as a fellow at the Institute?**

**What kinds of intellectual work got completed during your residency? Was your work different than you expected or close to what you originally proposed?**

**It would be very valuable for us to discuss and enumerate scholarly/artistic production at ICS in a tangible way. Please list any research activities, presentations, publications, grants, and the like that resulted from this term's residency, as well as future activities that resulted from or were enhanced by work completed during this term at ICS (you may attach any related lists or documents).**
