

Rakotondriamanga, T., Kala, J. and Hammer, J. M. 2011. Population study of *Pyxis arachnoides brygooi* (Vuillemin & Domergue, 1972) in the area surrounding the *Village des Tortues*, Ifaty-Mangily, southwest Madagascar. Madagascar Conservation & Development 6, 1: 45–49. Supplementary Material.

Coordinates and tortoise counts of all transects and plots in the research area. The starting and finishing point of each transect is listed along with the four corner points of each plot. Tortoise counts *Pyxis arachnoides brygooi* are divided by sex: M = male, F = female and J = juvenile. Animals too small to be sexed were classified as juveniles.
