osimertinib, QT prolongation, cardiac electrophysiology, delayed conduction, ion channel

A Corrigendum on

Acute osimertinib exposure induces electrocardiac changes by synchronously inhibiting the currents of cardiac ion channels

by Li P, Tian X, Wang G, Jiang E, Li Y and Hao G (2023). Front. Pharmacol. 14:1177003. doi: 10.3389/ fphar. 2023.1177003

In the published article, there was an error in **affiliation** 1. Instead of "School of Clinical Medicine, Henan University, Kaifeng, China", it should be "Department of Cardiology, Huaihe Hospital of Henan University, Kaifeng, China".

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
