

# **Complex Systems Science and the Relationship Between Climate Change, Racialized, Gendered and Ethnopolitical Violence During the Genocide in Darfur (69529)**

Session Information: Global Issues & Human Rights | Session Chair: Naeli Fitria Akhmad

Sunday, 28 May 2023 10:45

Session: Session 1

Room: Room 705

Presentation Type: Oral Presentation

About the Presenter(s): Dr Stacy Banwell is a University Associate Professor/Senior Lecturer at University of Greenwich in United Kingdom

Abstract Teaser: This article explores the relationship between climate change and racial genocide. Drawing on Complex Systems Science it provides an original analysis of the 2003-2005 conflict in Darfur. It connects the genocidal and reproductive violence(s) committed against black African Darfuri males...
