Tom -

Secretary Paulson has asked me to visit with some of the large investment banking firms to get a sense of the firm's current thinking on the types of regulation and supervision that might result from the Bear situation. As you can expect, there is a lot of interest in this issue now and it is likely that the Congress will focus on this (at least in the form of hearings) after they move some housing legislation. We have some views, of course, but at this point we want to know where the firms are leaning as that is an important part of our thought process. Are you the right point of contact for us to reach out to on this issue?

I hope you are well.

Best,

David
