Overhaul: An Insider's Account of the Obama Administrations Emergency Rescue of the Auto Industry

Steven Rattner

Summary

In *Overhaul*, Steven Rattner delivers an inside account of the Obama administration's bold bid to save the auto industry. From his vantage point at the helm of the intervention, Rattner crafts a tightly plotted narrative of political brinksmanship, corporate incompetence, and personalities under pressure in a high-stakes drama of Washington and Detroit. He also explains the tough choices he and his team made to keep Chrysler and GM in operation—while working against the clock in the face of intense lobbying from staunch Democratic allies and vocal opposition from free-market partisans.
