Part of the [Public Health Commons](#)

---

Learning public health concepts in real life settings, not just the classroom, helps prepare our students for internships and their careers.

These pictures are from students' exploration of how community settings can impact individual and community health.

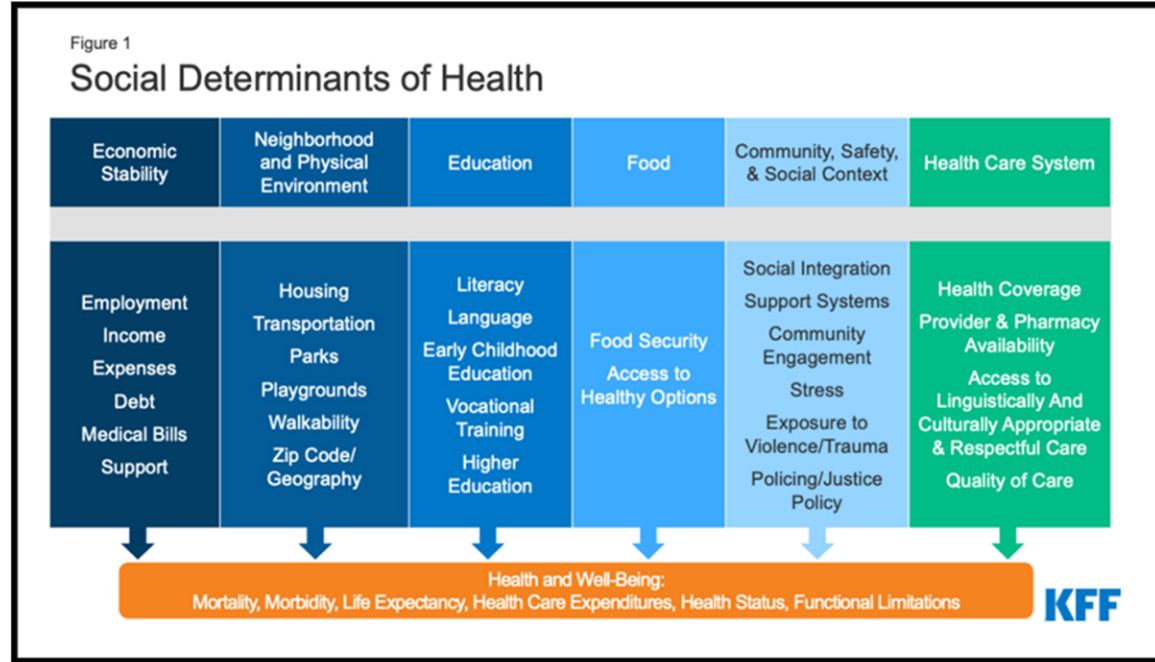

*Choosing to continue to cook and eat my cultural foods connects me to my past, my heritage, and my identity.*

<https://www.eiu.edu/publichealth/>

Social determinants of health are the most basic needs to be addressed for good health.
