THE HISTORY AND FUTURE OF
ARTIFICIAL INTELLIGENCE

12:30-1:30 P.M.
WEDNESDAY, APRIL 5, 2023

KETTERING LABS, ROOM 223

Hosted by **Ruth Wolfish (IEEE)**, this session will help you discover current literature and trends in AI — its history, development and forecast for the future. It will include tips on how to find an internship or position in AI and how to make a good impression in your interview, and you'll have a chance to chat with UD's IEEE Xplore representative. This event is open to the whole campus. We will have free pizza, giveaways and IEEE T-shirts.

◆IEEE

FEATURES/HIGHLIGHTS OF IEEE XPLORE: It is a full-text database of over 5.7 million journal articles, conferences and standards from IEEE and various other publishers in PDF or HTML format. The coverage is from the 1884 to 2023, and the peer-reviewed content covers anything that technology touches.
