ANNALS of GEOPHYSICS

[Special Issue_60_4_2017]

MONITORING AND SEISMIC characterization of Archaeological Sites and Structures.

PREFACE

Paolo Clemente, Salomon Hailemikael, Giuliano Milana, Luciana Orlando S0447

ARTICLES

Analysis of the seismic site effects along the ancient via Laurentina in Rome

Francesca Bozzano, Anna Buccellato, Fulvio Coletti, Salvatore Martino, Fabrizio Marra, Stefano Rivellino, Chiara Varone S0435

Geometry and seismic characterization of the subsoil below the Amphitheatrum Flavium in Rome

Ettore Cardarelli, Michele Cercato, Luciana Orlando S0436

Investigating the foundation of the Amphitheatrum Flavium through the passage of Commodus

Luciana Orlando, Giorgio De Donno, Luca Di Giambattista, Lucia Palladini S0437

Sub-surface characterization of the Amphitheatrum Flavium area in Rome, through single-station ambient vibration measurements

Salomon Hailemikael, Giuliano Milana, Fabrizio Cara, Maurizio Vassallo, Marta Pischiutta, Sara Amorso, Paola Bordoni, Luciana Cantore, Giuseppe Di Giulio, Deborah Di Naccio, Daniela Famiani, Alessia Mercuri S0438

Dynamic characteristics of the Amphitheatrum Flavium northern wall from traffic-induced vibrations

Giovanni Bongiovanni, Giacomo Buffarini, Paolo Clemente, Dario Rinaldis, Fernando Saitta S0439

Seismic Hazard Assessment for the protection of Cultural Heritage in Greece: Methodological approaches for National and Local Scale assessment (pilot areas of Aigio, Kalamata and Heraklion)

Sotiris Sboras, John Andrew Dourakopoulos, Evangelos Mouzakiotis, Pavlos Dafnis, Theodoros Palantzas, Vassilis Karastathis, Nikos Voulgaris, Gerasimos-Akis Tselentis S0440

Ambient vibration recording on the Maddalena Bridge in Borgo a Mozzano, Italy: data analysis

Riccardo Mario Azzara, Anna De Falco, Maria Girardi, Daniele Pellegrini S0441

Damage identification and seismic vulnerability assessment of a historic masonry chimney

Maria-Giovanna Masciotta, Luis F. Ramos, Paulo B. Lourenço, Marcello Vasta S0442

Rectangular Blocks vs Polygonal Walls in Archaeoseismology

Klaus-G. Hinzen, Arnaud Montabert S0443

The Ruin of the Roman Temple of Kedesh, Israel; Example of a Precariously Balanced Archaeological Structure Used as a Seismoscope

Gregor Schweppe, Klaus-G. Hinzen, Shmuel Marco, Sharon K. Reamer, Moshe Fischer S0444

Vulnerability assessment of archaeological sites to earthquake hazard: An indicator based method integrating spatial and temporal aspects

Despina Minos-Minopoulos, Dale Dominey-Howes, Kosmas Pavlopoulos

S0445

A study of building vibrations induced by weak motions: effects of earthquake excitation, cultural noise and wind speed

Gaetano Riccio, Rocco Cogliano, Giuseppe Di Giulio, Antonio Fodarella, Stefania Pucillo, Antonio Rovelli

S0446
