CENTRAL INTERVIEW
BY J. JACKSON
OAKLAND, CALIF. 1980

“When I have my access needs met, I’m functionally not disabled, but when places have stairs and everything is built for people who stand, and it’s a really dark environment so I can’t see anything, in an environment like that of course I’m disabled. --- There are always going to be people in pain, it's just the nature of being in a body. But the social body we can change.”

- Patty Berne

“As a phenomenon inherent to the human condition, understanding and respecting diversity should stimulate and enable solutions that build a society centered on all individuals. We shouldn’t try to create neutral designs because even a neutral or middle way cannot be the same for everyone.”

- Victor Delaqua

“Our body is not in space like things; it inhabits or haunts space. It applies itself to space like a hand to an instrument. And when we wish to move about, we do not move the body as we move an object.”

AN ATTEMPT AT
EXHAUSTING A PLACE
IN PARIS

GEORGES PEREC

For long intervals, no buses, no cars

Day 3:

The end of mass

Date: 20 October 1974 (Sunday)

The rain starts falling again.

Time: 11:30am

National day for the elderly: lots of people are wearing little paper badges on their collars of their coats or their raincoats: these prove that they've contributed.

Location: Café de la maire

A 63 (bus) goes by

Weather: rain, wet ground, passing sunny spells

A lady carrying a cake-box goes by (classic image of the exitings of Sunday mass effectively testified here).

Some children

Some wheeled shopping bags.

A 2cv whose windshield is adorned with a caduceus, driven by an elderly gentleman, parks at the edge of the sidewalk; the elderly gentleman comes to look for an elderly lady in the café who is drinking a coffee while reading Le Monde.

An elegant woman goes by, holding, stems up, a large bouquet of flowers.

A 63 goes by

A little girl goes by, carrying two large bags of groceries.
