**Correction to: MUSCULOSKELETAL SURGERY**  
<https://doi.org/10.1007/s12306-022-00763-w>

The original version of this article unfortunately contained a mistake. The corrected details are given below for your reading.

Figure 2 caption should read as

Two example of fusion area preoperatively defined by identifying the unstable zone according to Lamartina et al. [3]. Left: only L5 was included. Right: L4-L5 was included

The Fig. 3 should have appeared as shown in the following page.

Figure 7 caption should read as

Final reduction is checked by fluoroscope

The original article has been corrected.
