TV Production Guidance:

Managing the risk of Coronavirus (COVID-19) in production making
(Version 2 – 12 July 2020)

This document is intended as a high-level framework to provide guidance and support for the effective assessment and management of COVID-19 risk in TV production. This should be read in conjunction with general guidance provided by the government about management of COVID-19 risks in workplaces.

Under this guidance:

Producers will need to:

- complete suitable and sufficient risk assessment about COVID-19 risks for their activities,
- record how they are managing significant COVID-19 risks in a COVID-19 risk assessment document,
- engage with their workforce, any recognised trade union and/or employee representatives with this process (providing information to employees about how they will keep people safe, prior to the commencement of production),
- displaying [information](#) on compliance with government guidance in workplaces in the form prescribed in government guidance,
- put together information to assure others (including Commissioners) that appropriate assessments have been completed, publishing this information on their website wherever possible, particularly if they have more than 50 employees.

Commissioning Broadcasters will also need to engage with Producers around how COVID-19 risks are assessed and can be managed as certain measures and restrictions will impact both the cost of production and the content itself.

This guidance provides background information and risk assessment guidance for TV production which includes detail on basic requirements, key areas to consider and controls. The latest government guidance and information can be found on the [GOV.UK](#) website.

How would you rate the week overall?

What would you like to see more of?

Overall Week Feedback

really inspired me.

it was just an incredible opportunity. They have helped me in my confidence

It is much different from what we learn at university.

Honestly it's just got me excited to be in this industry,

They have reassured me that a career in the industry is definitely attainable

it's a great way to make connections!

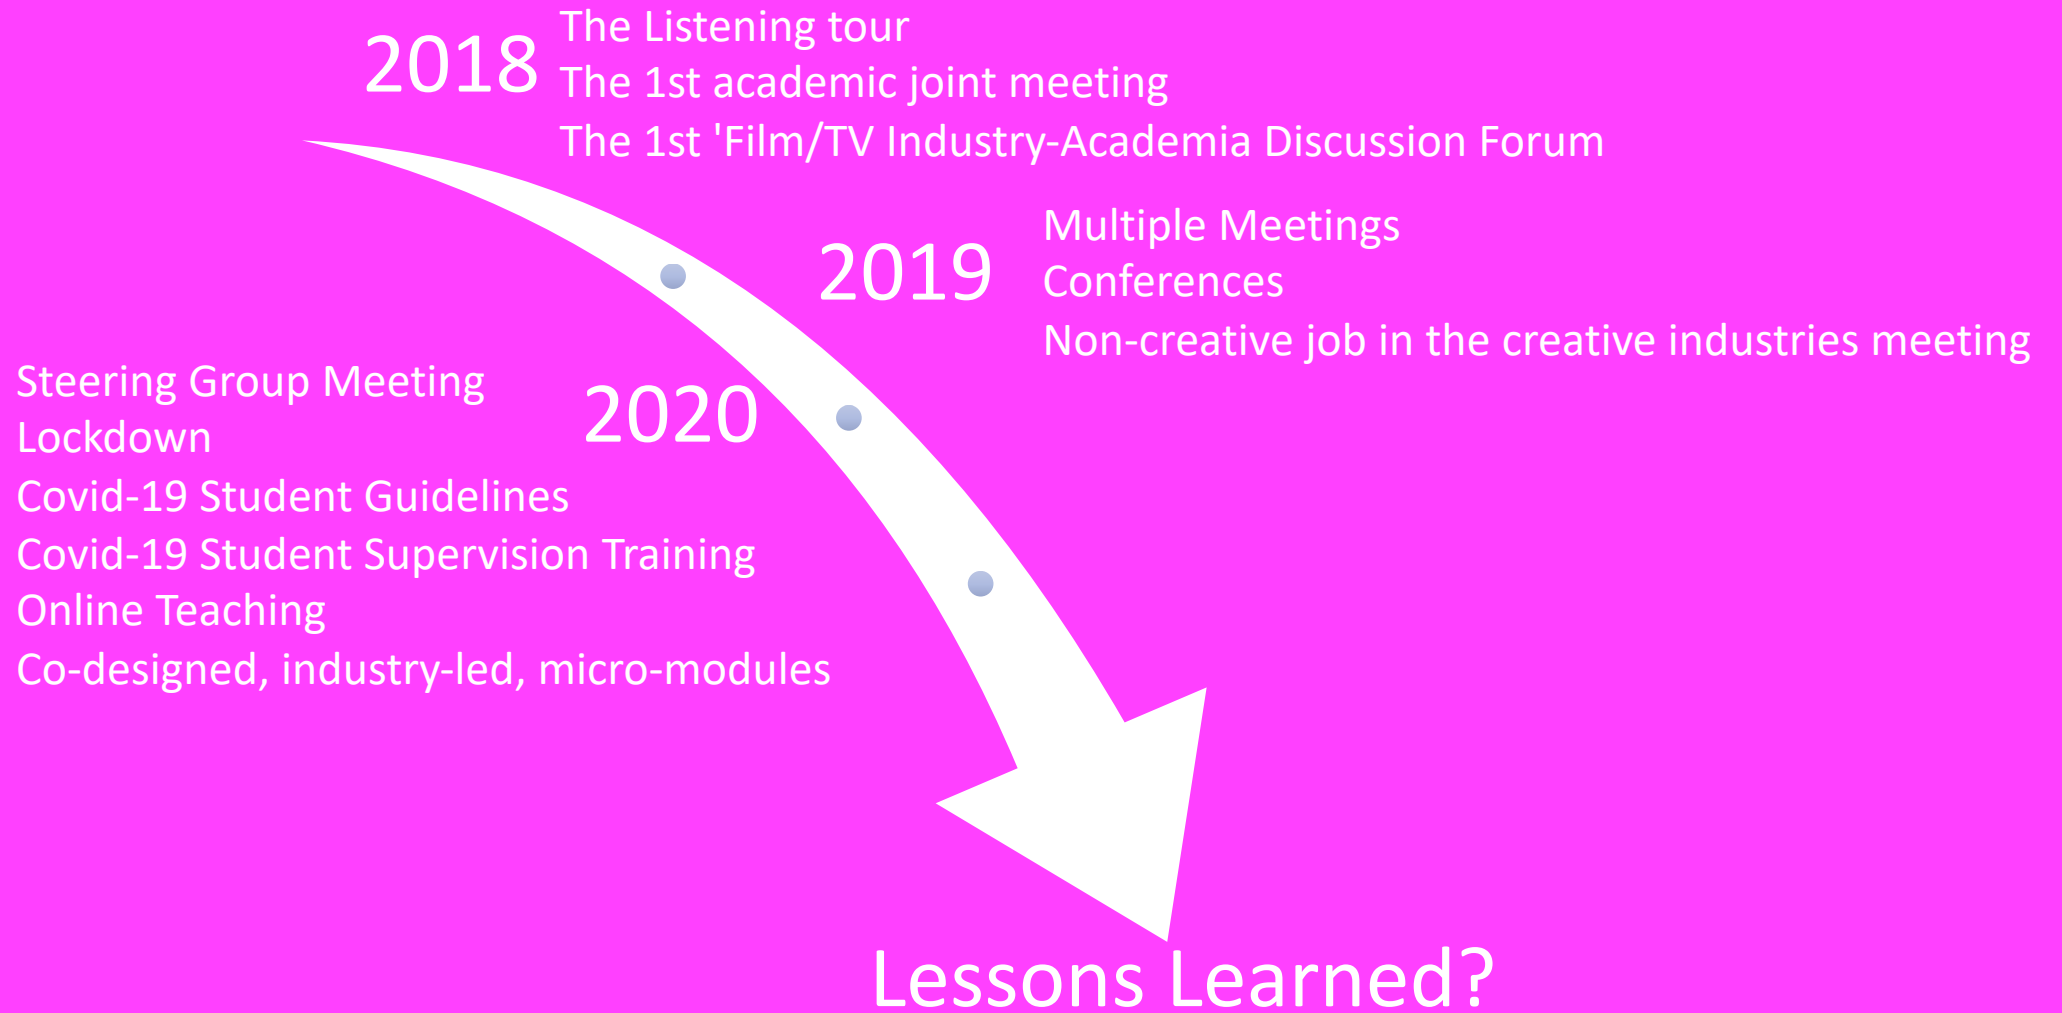

They were deeply rich in terms of content

I learnt so much and got so much inspiration.

It opened up my options.

a great eye-opener and tremendously reassuring.

This has taken some of the pressure of my job hunting prospects in the future

- *We share* more than we differ
- Trust *matters*
- *We can* and *must* work together
- We can help each other's agendas
- We can deliver something of *real value*
- We can test/pilot and *learn*
- We can *co-create* resources & share expertise, without compromising anyone
- We can move relatively *quickly*
- We can work *cost-effectively*
- Covid-19 has changed the goalposts
- Impact measured in tangible outcomes, but also in new ways of thinking and working

Breakout Groups

How might you be able to help?

What can you bring?

How can we make this a success?

What are the barriers and how can we overcome them?

How do we finance this initiative?

Membership, Sponsorship, Grants, Research, Subscription, Other e.g. philanthropy

Breakout sessions to last 30 mins (10 mins per questions)

Each group to have a Chair, who will summarise discussions at the end

Each Chair will have 5 mins, max to feedback to whole group

Sine Cere: 'Without Wax'

- We can shift the paradigm on how academia and industry work together
- We can act as a blueprint for other creative industries
- We can collaborate across Europe and beyond
- We can help shape the future for a generation of young people wishing to work in the creative industries
