Year: 2018

« [previous](#) | [next](#) »

Volume:

“Validation of synthetic long reads for use in constructing variant graphs for dairy cattle breeding.”, *Proceedings of the World Congress on Genetics Applied to Livestock Production*, p. 339, 2018. [BibTex](#)

(141.9 KB)

Volume: Aquaculture

J. Symonds, “New Zealand aquaculture selective breeding: from theory to industry application for three flagship species”, *Proceedings of the World*

Congress on Genetics Applied to Livestock Production, vol. Aquaculture, p. 1035, 2018. [BibTex](#)

(252.2 KB)

Volume: Biology & Species - Bovine (dairy) 1

A. G. Marete, Janss, L., Sahana, G., Guldbbrandtsen, B., Hoze, C., Lund, M. Sando, and Boichard, D., “Exploring non-additive variance using genome-wide dense SNP in four French and Nordic dairy cattle breeds”, *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology & Species - Bovine (dairy) 1, p. 70, 2018. [BibTex](#)

(205.83 KB)

Y. Masuda, Misztal, I., VanRaden, P., and Lawlor, T., “Pre-selection bias and validation method in single-step GBLUP for production traits in US Holstein”, *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology & Species - Bovine (dairy) 1, p. 540, 2018. [BibTex](#)

(4.83 KB)

A. Quick, Ollivett, T., Skiba, M., Nuttleman, A., Weigel, D., Wallace, R., and Weigel, K., “Development of a genomic reference population for bovine respiratory disease in pre-weaning dairy calves using thoracic ultrasonography”, *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology & Species - Bovine (dairy) 1, p. 308, 2018. [BibTex](#)

(100.21 KB)

L. Lima Verardo, Stafuzza, N., Munari, D., Zerlotini, A., Chud, T., Garrick, D., Cole, J., Panetto, J. Claudio, Machado, M. Antonio, Martins, M., and Silva, M. Vinicius, “A gene-transcription factor network associated with residual feed intake based on SNVs/InDels identified in Gir, Girolando and Holstein cattle breeds”, *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology & Species - Bovine (dairy) 1, p. 193, 2018. [BibTex](#)

(771.48 KB)

I. van den Berg, Hayes, B. J., and Goddard, M. E., “Using expression data to detect small QTL in dairy cattle”, *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology & Species - Bovine (dairy) 1, p. 251, 2018. [BibTex](#)

(500.54 KB)

A. Sigdel, Aguilar, I., Abdollahi-Arpanahi, R., and Peñagaricano, F., “Genetic analysis of heat tolerance for production and health traits in US

Holstein cows", *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology & Species - Bovine (dairy) 1, p. 916, 2018. [BibTex](#)

(1.54 MB)

Volume: Biology & Species - Bovine (dairy) 2

H. J. Huson, Lima, S. F., and Bicalho, R. C., "**16S rRNA milk microbiota profiles on Holstein cows highlight QTL and provide a novel trait to assess the genetic regulation of mastitis**", *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology & Species - Bovine (dairy) 2, p. 508, 2018. [BibTex](#)

(1.01 MB)

G. Gebreyesus, Buitenhuis, A. Johannes, Poulsen, N., Visker, M. H. P. W., Zhang, Q., van Valenberg, H., Sun, D., and Bovenhuis, H., "**Genome-wide association study of the de novo synthesized milk fatty acids based on Dutch, Danish and Chinese Holstein Friesians**", *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology & Species - Bovine (dairy) 2, p. 141, 2018. [BibTex](#)

(170.87 KB)

J. F. Medrano, Cusco, A., Islas-Trejo, A. I., Sanchez, A., and Francino, O., "**Analysis of milk microbial profiles using 16s rRNA gene sequencing in milk somatic cells and fat**", *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology & Species - Bovine (dairy) 2, p. 343, 2018. [BibTex](#)

(1.38 MB)

A. Benedet, Costa, A., Penasa, M., Cassandro, M., Finocchiaro, R., Marusi, M., Negrini, R., and De Marchi, M., "**Genetic aspects of milk β -hydroxybutyrate in Italian Holstein cows**", *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology & Species - Bovine (dairy) 2, p. 571, 2018. [BibTex](#)

(146.8 KB)

S. Nayeri, Kroezen, V., Sargolzaei, M., Fleming, A., Schenkel, F., Baes, C., Canovas, A., E. Squires, J., and Miglior, F., "**Genome-wide Association Analysis for β -hydroxybutyrate Concentration in Milk Using Mid-Infrared Spectroscopy in North American Holstein Cattle**", *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology & Species - Bovine (dairy) 2, p. 634, 2018. [BibTex](#)

(245.5 KB)

A. Barbat-Leterrier, Beuvier, E., Boichard, D., Brochard, M., Delacroix-Buchet, A., Jabri, M. El, Fritz, S., Gauzère, Y., Laithier, C., Michenet, A., Minery, S., Rolet-Répécaud, O., Sanchez, M. - P., Taussat, S., and Wolf, V., "Validation of candidate causative variants on milk composition and cheese-making properties in Montbéliarde cows", *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology & Species - Bovine (dairy) 2, p. 580, 2018. [BibTex](#)

(411.65 KB)

Volume: Biology - Behaviour

E. Strandberg, Frögéli, H., and Malm, S., "Genetic analysis of a temperament test for working dog breeds in Sweden", *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology - Behaviour, p. 436, 2018. [BibTex](#)

(316.02 KB)

A. Sant'Anna, Valente, T., Bresolin, T., Baldi, F., Albuquerque, L., and da Costa, M. Paranhos, "Genetic relationship of temperament with meat quality traits in Nellore cattle", *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology - Behaviour, p. 693, 2018. [BibTex](#)

(181.5 KB)

L. Vargovic, Kim,, Bunter, L., Hermes, S., Rebecca,, and Athorn, Z., "Feeding behaviour traits recorded during gestation are heritable even though feed intake itself is restricted", *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology - Behaviour, p. 388, 2018. [BibTex](#)

(148.84 KB)

K. Bunter, Vargovic, L., Athorn, R., Henman, D., and Luxford, B., "The influence of feed delivery and feeding patterns during gestation on reproductive outcomes for sows", *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology - Behaviour, p. 992, 2018. [BibTex](#)

(167.57 KB)

H. Marie Nielsen, Ask, B., Christensen, O. Fredslund, Janss, L., Heidaritabar, M., and Madsen, P., "Social genetic effects for growth in Landrace pigs with varying group sizes", *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology - Behaviour, p. 212, 2018. [BibTex](#)

(242.97 KB)

M. Heidaritabar, Bijma, P., Janss, L., Bortoluzzi, C., Nielsen, H. Marie, Ask, B., and Christensen, O. Fredslund, "Models with indirect genetic effects depending on group sizes - A simulation study assessing the precision of the estimates of the dilution", *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology - Behaviour, p. 38, 2018. [BibTex](#)

(124.38 KB)

D. Hazard, Macé, T., Foulquié, D., Delval, E., Douls, S., Carrière, F., Pradel, J., Moreno, C., and Boissy, A., "Genome wide association studies of maternal behaviours in sheep", *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology - Behaviour, p. 46, 2018. [BibTex](#)

(252.34 KB)

L. Canario and Flatres-Grall, L., "Genetics of tail-biting receipt in gilts from the Tai Zumu line", *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology - Behaviour, p. 572, 2018. [BibTex](#)

(497.27 KB)

Volume: Biology - Disease Resistance 1

B. Mallard, Cartwright, S., Nayeri, S., Emam, M., and Sargolzaei, M., "Genome-Wide Association and Functional Annotation of Positional Candidate Genes for Immune Response in Canadian Holstein Cattle", *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology - Disease Resistance 1, p. 711, 2018. [BibTex](#)

(833.89 KB)

J. Cole, Gaddis, K. Parker, Null, D., Maltecca, C., and Clay, J., "Genome-wide association study and gene network analysis of fertility, retained placenta, and metritis in US Holstein cattle", *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology - Disease Resistance 1, p. 610, 2018. [BibTex](#)

(765.6 KB)

S. John Denholm, McNeilly, T. N., Coffey, M. P., Russell, G. C., Banos, G., Tolkamp, A., Coe, J. E., Bagnall, A., Mitchell, M. C., and Wall, E., "Genome-wide associations of immune-associated traits in dairy cows", *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology - Disease Resistance 1, p. 657, 2018. [BibTex](#)

(531.18 KB)

F. Malchiodi, Schenkel, F. S., Christen, A. - M., Kelton, D. F., and Miglior, F., "[Genome-wide association study and functional analysis of infectious and horn type hoof lesions in Canadian Holstein cattle](#)", *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology - Disease Resistance 1, p. 694, 2018. [BibTex](#)

(1.39 MB)

A. Vinet, Leclerc, H., Marquis, F., and Phocas, F., "[Genetic analysis of calf vitality, survival and disease resistance in Charolais beef cattle](#)", *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology - Disease Resistance 1, p. 573, 2018. [BibTex](#)

(152.68 KB)

H. Swalve, Wensch-Dorendorf, M., Kopke, G., Waurich, B., Jungnickel, R., Rosner, F., Brenig, B., and Döpfer, D., "[Estimation of genomic breeding values for the susceptibility to digital dermatitis in Holstein dairy cattle using improved methods for phenotyping](#)", *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology - Disease Resistance 1, p. 187, 2018. [BibTex](#)

(171.4 KB)

J. Cordero-solorzano, Bovenhuis, H., Arts, J., and Parmentier, H., "[Detection of candidate regions affecting bovine IgM natural antibodies in milk](#)", *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology - Disease Resistance 1, p. 559, 2018. [BibTex](#)

(424.11 KB)

M. Meyerholz, Heimes, A., Brodhagen, J., Rohmeier, L., Eickhoff, T., Jander, S., Huelsebusch, A., Weikard, R., Günther, J., Seyfert, H. - M., Zerbe, H., Petzl, W., Hoedemaker, M., Schuberth, H. - J., Engelmann, S., and Kuehn, C., "[ChronMast - a model to study functional genetic variation of mastitis susceptibility](#)", *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology - Disease Resistance 1, p. 529, 2018. [BibTex](#)

(607.64 KB)

Volume: Biology - Disease Resistance 2

H. Raadsma, Walkom, S., Sharland, B., Esquivelzeta-Rabel, C., Brown, D., Bunter, K., and Ferguson, M., "[Genetic architecture of resistance to virulent ovine-footrot in a case-control study of New Zealand Merino sheep](#)", *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology - Disease Resistance 2, p. 335, 2018. [BibTex](#)

(898.79 KB)

J. Schmied, Putz, A., Dekkers, J., Dyck, M., Fortin, F., Harding, J., Plastow, G., PigGen,, and Mallard, B., "Mortality Rate and Survival of Pigs Classified by Immune Response Phenotype Using the High Immune Response Technology™", *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology - Disease Resistance 2, p. 653, 2018. [BibTex](#)

(753.47 KB)

Q. Dong, Dekkers, J., Rowland, R., Lunney, J., Reecy, J., Tuggle, C., and Nguyen, Y., "The Effects of Vaccination and WUR Genotype on Blood Gene Expression Response to Co-infection with PRRSV and PCV2 in Pigs", *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology - Disease Resistance 2, p. 993, 2018. [BibTex](#)

(2.73 MB)

L. Miller, Fleming, D., Harhay, G., Kehrli, M., and Lager, K., "Comparison of the transcriptome response within the porcine tracheobronchial lymphnode following viral infection.", *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology - Disease Resistance 2, p. 672, 2018. [BibTex](#)

(1.53 MB)

S. Aguerre, Jacquiet, P., Brodier, H., Bournazel, J. - P., Grisez, C., Prevot, F., Michot, L., Fidelle, F., Astruc, J. - M., and Romieux-Moreno, C., "Improving dairy ewes resistance to gastro-intestinal parasites in natural conditions by selecting rams in artificial infections.", *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology - Disease Resistance 2, p. 537, 2018. [BibTex](#)

(155.49 KB)

L. Burrows, "Variation in ovine RAS Guanyl Releasing Protein 1 (RASGRP1) gene and its association with flystrike in New Zealand sheep", *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology - Disease Resistance 2, p. 641, 2018. [BibTex](#)

(466.5 KB)

K. McRae, Clarke, S., Johnson, T., Baird, H., Newman, S. - A., Dodds, K., McEwan, J., and Rowe, S., "Genome-wide association for facial eczema tolerance in New Zealand sheep", *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology - Disease Resistance 2, p. 466, 2018. [BibTex](#)

(860.36 KB)

Volume: Biology - Disease Resistance 3

O. Anacleto, Cabaleiro, S., Villanueva, B., Saura, M., Houston, R., Woolliams, J., and Doeschl-Wilson, A., "Genetic differences in host infectivity affect disease spread and survival in epidemics", *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology - Disease Resistance 3, p. 500, 2018. [BibTex](#)

(953.23 KB)

T. Moen, Emilsen, V., Bruheim, T., Korsvoll, S. Arild, Kjøglum, S., and Santi, N., "Quantitative Trait Loci for Resistance to Heart- and Skeletal Muscle Inflammation in Atlantic salmon", *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology - Disease Resistance 3, p. 933, 2018. [BibTex](#)

(325.76 KB)

G. Yoshida, Carvalheiro, R., Lhorente, J. Paul, Correa, K., Barria, A., Figueroa, R., and Yáñez, J. Manuel, "Bayesian genome-wide association analyses reveal different genetic architecture of *Piscirickettsia salmonis* resistance in three salmonid species", *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology - Disease Resistance 3, p. 721, 2018. [BibTex](#)

(4.66 MB)

E. Amuzu-Aweh, Kayang, B., Muhairwa, A., Botchway, P., Naazie, A., Anning, G., Gallardo, R., Kelly, T., Zhou, H., Lamont, S., and Dekkers, J., "Genetic parameters and genomic regions associated with growth rate and immune response to Newcastle disease in local chicken ecotypes in Ghana and Tanzania", *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology - Disease Resistance 3, p. 774, 2018. [BibTex](#)

(211.64 KB)

A. Doeschl-Wilson, Anacleto, O., Nielsen, H. - M., Karlsson-Drangsholt, T., Lillehammer, M., and Gjerde, B., "New opportunities for genetic disease control: beyond disease resistance", *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology - Disease Resistance 3, p. 462, 2018. [BibTex](#)

(1.1 MB)

E. Lipkin, Smith, J., Burt, D. W., Soller, M., and Fulton, J., "QTLs mapped by selective DNA pooling explain substantial proportion of phenotypic and genetic variation in Marek's Disease mortality in chicken layer lines", *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology - Disease Resistance 3, p. 205, 2018. [BibTex](#)

(169.96 KB)

M. Fife, Whitehead, T., Steyn, A., Benkaroun, J., Bassano, I., Shelton, H., and Kellam, P., "Elucidating the role of chicken IFITM-mediated viral

[restriction.](#)", *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology - Disease Resistance 3, p. 787, 2018. [BibTex](#)

(93.3 KB)

M. H. P. W. Visker, Berghof, T., Arts, J., Parmentier, H., van der Poel, J., Vereijken, A., and Bovenhuis, H., "Candidate gene for natural immune competence in chickens revealed through genome wide association study", *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology - Disease Resistance 3, p. 43, 2018. [BibTex](#)

(489.6 KB)

Volume: Biology - Feed Intake and Efficiency 1

P. VanRaden, O'Connell, J., Connor, E., VandeHaar, M., Tempelman, R., and Weigel, K., "Including feed intake data from U.S. Holsteins in genomic prediction", *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology - Feed Intake and Efficiency 1, p. 125, 2018. [BibTex](#)

(416.28 KB)

T. Valente, Abo-Ismael, M., Crowley, J., Basarab, J., and Plastow, G., "Genomic insights for feeding behavior traits in beef cattle", *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology - Feed Intake and Efficiency 1, p. 234, 2018. [BibTex](#)

(377.56 KB)

P. Ho, "Genomic prediction for feed efficiency: a validation of accuracy and its impact on methane emissions of dairy cows", *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology - Feed Intake and Efficiency 1, p. 179, 2018. [BibTex](#)

(213.93 KB)

O. González Recio, Guasch, I., and Bach, A., "Challenges and limitations for improving feed efficiency from metagenomics data", *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology - Feed Intake and Efficiency 1, p. 93, 2018. [BibTex](#)

(894.57 KB)

M. H. Lidauer, Mäntysaari, E. A., Strandén, I., Mäntysaari, P., Mehtiö, T., and Negussie, E., "Improving feed efficiency and net merit by including maintenance requirement in selection of dairy cattle", *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology - Feed Intake and Efficiency 1, p. 815, 2018. [BibTex](#)

(320.38 KB)

R. Roehe, Auffret, M., Southwell, A., Duthie, C. - A., Rooke, J., Wallace, J., Freeman, T., Snelling, T., Stewart, R., Watson, M., and Dewhurst, R., "The potential of using rumen microbial gene abundances to improve feed efficiency in beef cattle", *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology - Feed Intake and Efficiency 1, p. 865, 2018. [BibTex](#)

(538.67 KB)

B. Ducro and Veerkamp, R. F., "Selection for low or high feed intake cows: genotype by environment interaction for milk yield, live weight and dry matter intake in dairy cows", *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology - Feed Intake and Efficiency 1, p. 189, 2018. [BibTex](#)

(432.75 KB)

Volume: Biology - Feed Intake and Efficiency 2

M. Shirali, Varley, P. Francies, and Jensen, J., "Bayesian estimation of direct and correlated response to genetic selection on linear or ratio expressions of feed efficiency in pigs", *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology - Feed Intake and Efficiency 2, p. 481, 2018. [BibTex](#)

(187.3 KB)

D. Lu, Tiezzi, F., Schillebeeckx, C., McNulty, N., Schwab, C., and Maltecca, C., "Contribution of Microbiome to Variation in Fat and Growth Traits in Crossbred Pigs", *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology - Feed Intake and Efficiency 2, p. 614, 2018. [BibTex](#)

(855.72 KB)

K. Hov Martinsen, Olsen, D., and Meuwissen, T., "Genetic analyses of new feed efficiency traits in Norsvin Landrace.", *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology - Feed Intake and Efficiency 2, p. 576, 2018. [BibTex](#)

(227.31 KB)

E. Sell-Kubiak, Wimmers, K., Reyer, H., and Szwaczkowski, T., "A review of strategies to improve feed efficiency and reduce environmental footprint in poultry", *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology - Feed Intake and Efficiency 2, p. 493, 2018. [BibTex](#)

(187.46 KB)

H. Gilbert, Terenina, E., Ruesche, J., Gress, L., Billon, Y., Mormede, P., and Larzul, C., "[Responses of pigs divergently selected for cortisol level or feed efficiency to a challenge diet during growth](#)", *Proceedings of the World Congress on Genetics Applied to Livestock Production*, vol. Biology - Feed Intake and Efficiency 2, p. 219, 2018. [BibTex](#)
