

Effects of preferential diffusion on soot modeling with the sectional method and FGM tabulated chemistry

Citation for published version (APA):

Kalbhor, A., & van Oijen, J. A. (2021). Effects of preferential diffusion on soot modeling with the sectional method and FGM tabulated chemistry. Poster session presented at 10th European Combustion Meeting (ECM 2021), Napoli, Italy. https://estimate-project.eu/sites/default/files/ECM21_Kalbhor_Poster.pdf

Document status and date: Published: 14/04/2021

Document Version:

Publisher's PDF, also known as Version of Record (includes final page, issue and volume numbers)

Please check the document version of this publication:

• A submitted manuscript is the version of the article upon submission and before peer-review. There can be important differences between the submitted version and the official published version of record. People interested in the research are advised to contact the author for the final version of the publication, or visit the DOI to the publisher's website.

• The final author version and the galley proof are versions of the publication after peer review.

• The final published version features the final layout of the paper including the volume, issue and page numbers.
