Correction: Symbiotic microbiome *Staphylococcus epidermidis* restricts IL-33 production in allergic nasal epithelium via limiting the cellular necroptosis

Yung Jin Jeon¹, Chan Hee Gil², Jina Won², Ara Jo² and Hyun Jik Kim^{2,3,4*}

Correction: BMC Microbiol 23, 154(2023)
<https://doi.org/10.1186/s12866-023-02898-7>

Published online: 14 June 2023

Following the publication of the original article [1], the authors identified an error in the Supplementary Information section as stated below.

The Additional Supplementary File 2 is an outdated version that was not updated with the final revision. However, the uploaded file for Additional Supplementary File 3 represents the correct and final version that should be included as Additional Supplementary File 2. Additional Supplementary File 3 has been removed, and the Additional Supplementary File 2 has now been updated accordingly. We would like to apologize for this error and any inconvenience it may have caused.

The original article has been corrected.
