Pres. Harris outlines plans for semester

By John Hoffmeister
Editor

Parkland College will be "shooting for 10." Years that is when the North Central Commission for Higher Education (NCCHE) makes its accreditation decision in February, according to Zelema Harris, president, Parkland College.

The "central aspect" of the accreditation process, she said, is if the College is meeting its missions and recognizing its strengths and weaknesses.

President Harris said the impact of accreditation on the College would indicate a high level of quality in the College's instruction, and inevitably, help students achieve their scholastic goals.

"The impact is more on the student than on the faculty or anyone else," Harris said. She indicated accreditation can help students obtain financial aid and

make the transition to four-year colleges easier for those in transfer programs.

President Harris, who sits on the North Central Board, said almost 970 colleges and universities around the state are being served by the NCCHE. Because of her commitments to Parkland, she limits her North Central visits to other schools to one a year.

The NCCHE visit takes place 11 years after the first evaluation. In 1981, Parkland was accredited for 10 years, the maximum number of years granted. Recommendations for accreditation can range from no action to 10 years.

The commission will be at the College for four days in February: Sunday through Wednesday. On Wednesday, the public will be invited to the commission recommendation announcement.

Defaulters spark action by State

By John Hoffmeister
Editor

About a quarter of a million students last year were helped by the Illinois Student Assistance Commission (ISAC) to the tune of a half-billion dollars in financial aid, according to Bob Clement, ISAC public information office director.

According to ISAC, in 1991 144,698 students qualified for a guaranteed loan. Clement added that almost 10 percent of those loan recipients will default. "We (ISAC) will work with students to repay the loan," he said.

may possess, and notifying employers about the loan default. "We ask employers to counsel them in repayment," said Stark. He added that ISAC can take those in default to court and have any wages garnished. But, he said, this hasn't stopped a disturbing trend.

Stark said he has noticed many loan recipients implying they are "smarter than the system." People like to say that they aren't paying, when in fact they are," he said. He began noticing the trend after receiving several complaints from individuals who overheard others talking about not repaying

3,000 PC students receive financial aid
.....related story page 3

Al Stark, default collector, ISAC, says the commission acts as a secondary market for lending institutions around the state. "When repayment fails, we can take state action against the recipient," he said.

"The first and foremost action taken is contacting the IRS to transfer the loan recipients refund to repayment of the loan," Stark said. Other steps include having the state take away any license of professional practice the recipient

their student loan.

According to ISAC figures, as of 1989, the cohort default rate at Parkland was 15 percent; the University of Illinois was four percent; Eastern Illinois University was two percent; and Illinois State University was six percent. These figures included all available student loans.

But Jack Lyons, director, Financial Aid and Veterans

Phil Carter (l), president, Student Government, Carol Steinman (c), Dean of Students, and Pres. Zelema Harris (r) discuss plans for the coming year.

Students read paper, ads campus survey shows

Fifty-four percent of Parkland students would like for the Prospectus to be published weekly compared to 22 percent who prefer a biweekly publication.

Fifty-four percent read the paper at least "sometimes," 56 percent read the ads, and 52 percent read the editorials.

These and other readership facts were gathered in a statistical survey of 409 student conducted in 58 randomly selected English and math classes in mid March. The Parkland student population was a record 9,474. Results of the survey conducted by Helen Chen-Lo, director, Office of Institutional Research and Education, are reliable within a 4 to 7 percent range of error.

At least "sometimes," student surveyed read stories about Parkland events (71 percent) reports of community events (64 percent), feature stories (65 percent), editorials (52 percent) and letters to the editor (51 percent).

Sports stories attract 57 percent of readers, and columns rank last with 44 percent.

Parkland students apparently like to read. A whopping 76 percent say at least sometimes they read one or more magazines a week, and 54 percent report that they read one or more books per month in addition to the reading assigned in their classes.

Parkland students also are newspaper readers: 81 percent say they read one or more newspapers a week at least sometimes.

Most students (82 percent) always drive their own cars to campus; only 8 percent always depend on public transportation. Car pooling accounts for 4 percent, and 2 percent ride cycles to campus. Another 2 percent walk.

Forty-one percent of the students use grocery coupons printed in the Prospectus, and 32 percent redeem the fast food coupons.

Twenty-eight percent shop for groceries in the Parkland neighborhood, and 38 percent

spend money here for fast food.

Local restaurants draw 52 percent of the students at least "sometimes," and 43 percent say they spend money on entertainment this often in the Parkland neighborhood.

Neighborhood clothing stores also draw 40 percent of student shoppers at least "sometimes," and 35 percent say they shop in this area for household items.

Parkland students have money to spend: 22 percent of the students surveyed have annual household incomes of more than \$30,000. However, 22 percent have household incomes of less than \$5,000.

And students expect to spend money this year: about 9 percent say they are seriously considering buying a home within the next 12 months.

Another 21 percent plan to make home improvements in the coming year.

Twenty-eight percent of students plan to buy cars within 12 months. Another 11 percent plan to buy cycles within a year.

Students also are in the market for jewelry (32 percent), and 13 percent plan to purchase computers within a year.

Another 26 percent of students say they are going to purchase travel tickets sometime this year.

Most (77 percent) of the respondents live in District 505, and 70 percent are from Champaign, 25 percent from Urbana.

Most students (45 percent) rent apartments or houses or rooms, and 32 percent live with relatives.

Almost 65 percent of the students surveyed were attending class full time, and 54 percent were freshmen.

Female respondents totaled 50 percent, males 50 percent.

Sixty-six percent of students were under 25 years of age, and 27 percent between 25 and 31 years.

The Prospectus is published by students of Parkland College, 2400 W. Bradley Ave. Champaign, IL 61821-1899. Opinions expressed in editorials, letters to the editor, and unsolicited manuscripts are not necessarily those of the Prospectus or of Parkland College. Editorial offices are located in Room X-155. Phone numbers are 217/351-2216 and 351-2278. Advertising rates are available upon request. The Prospectus is distributed on the Parkland campus and throughout Champaign, Rantoul, Urbana, and high schools in District 505. The Prospectus is printed on 100 percent recycled newsprint, and has been designed as a Model Community Newspaper.

It's a new ball gamean editorial

Welcome to campus-and to reading the Prospectus! We hope that the paper will help you to keep informed about what's happening at the College and encourage you to participate in the activities that will benefit you. There are dozens of programs and events in addition to classes; reading the paper will help you select the one(s) that fit your goals for college and your career.

Most of our staff members, including me, are new at our jobs, and we may make a few bloopers, but we will try to bring you the news in as good technical fashion as we can manage. We hope we will gather experience and steam as we go along so the coverage of campus news and the appearance of the paper will improve steadily.

We are betting that you, like most students here, will really like Parkland. It's a friendly place where the instructors are honestly trying to help you acquire the skills you will need to get a job and/or live with yourself and others successfully. Some students complain that they don't make friends as easily here as they do in colleges and universities that have residence halls. Maybe. But maybe they need to drop into a club meeting or just hang around a little before and after class to get to know people.

This year is going to be an important one for Parkland: a record number of students will be attending; the College will be inspected for accreditation by the North Central Association; the new day care center will be opening, Student Government has a list of events and goals; all kinds of new computers and equipment will be used in classes and labs, but most important-you're starting classes. It's an exciting time, and you may be wondering (gulp) just how tough that math/English/psych/accounting/chem class is going to be? If any class is a lot harder than you expected and you need.....Help!.....let your instructor know. Parkland is famous for giving students the attention they need to be successful in classes.

The Prospectus will try to do what its name implies, which is to tell you what is going to happen and what has happened. We hope you will use the paper to find your way around Parkland and have a great educational and social experience here.

Have a successful semester!

John Hoffmeister

STUDENTS:

Having a problem at Parkland that you can't seem to resolve?

Maybe your student advocate can help.

He's in X-154.

Parkland College Office of Health, Safety & Security "Your Health, Safety & Security"

At Parkland College, the health, safety and security of our students, faculty and staff is always at the top of our agenda. With the support of other departments, we have several people involved in keeping this campus safe and secure. However, a truly safe campus can only be achieved through the cooperation of all students, faculty and staff. This information is a part of our effort to ensure that this collaborative endeavor is effective. We hope that you will read it carefully and use the information to help foster a safe environment for yourself and others on campus.

Reporting Criminal Actions- Any and all criminal actions experienced by students, faculty and staff should be reported at once to the Office of Health, Safety and Security. Our office can be reached by dialing "0" from any campus phone, stopping by the switchboard or by coming to our office, X-202. The response to these reports is immediate. Actions to ensure immediate safety will be taken at once. Students, faculty, staff and visitors to campus are expected to obey local and state laws. Violators of the law will be referred to local police agencies via telephone for immediate action and by way of written report if appropriate. A written report will be forwarded to the office of the Dean of Students for any disciplinary determinations.

Access to campus facilities- The campus is open to the public from 6a.m. to Midnight everyday, except at times of weather related emergencies. Access is denied only to those who abuse the privilege of the use of Campus facilities. The College itself is closed and the doors are locked during times that classes are not in session and no special events are being held on campus. The campus is closed to the public from Midnight to 6a.m. At this time access is denied to all. Students are not to be on campus after hours, unsupervised by a Parkland College official.

Campus law enforcement- The College employs Health, Safety and Security officers and contracted security personnel to enforce criminal law and Parkland College policies and procedures. Personnel are on campus at all times, 365 days a year. All violations of criminal law and information concerning possible violators are passed on to local police agencies through the continued close and friendly relationship developed over the years that Parkland has been in existence. Health, Safety and Security officers and contract security per-

sonnel, submit reports on all incidents that they have knowledge of. The reports are filed with and examined by the Director of Health, Safety and Security to determine accuracy. All reports of activities occurring on an officers shift are filled before that officer ends his/her tour of duty.

Policy regarding alcohol and drugs- The use of controlled substances, as well as the manufacture, distribution, dispensing or possession of such and the illegal use of legal drugs is prohibited on Parkland College property. In addition, the use of alcohol while on Parkland College owned or controlled grounds, including meal periods and breaks is absolutely prohibited except when authorized by the College for approved College functions. If a student feels that he or she has a problem with substance abuse, the College will assist in the identification of a program that specializes in this type of problem. Students with such problems should contact the Office of the Dean of Students for possible referral to one of the substance abuse counseling and treatment programs available in the community.

Health, Safety and Security officers are also responsible for other public safety services on Campus. These include, but are not limited to: responding to medical emergencies; all officers are Registered EMT's, fire emergencies, traffic accidents, unlocking vehicles, escort services and any other incidents requiring emergency assistance.

The Office of Health, Safety and Security is also responsible for safe storing, use and disposal of hazardous materials on campus. The Office also engages in various crime prevention activities throughout the year, including, Rape Awareness and Sexual Assault, engraving of personal items and numbered returnable key tags.

The office encourages all students, staff and faculty to be responsible for their own security and the security of others. Parkland College provides a "timely notice" of violent crimes reported to the Office or local police to aid in the prevention of similar occurrences. This would take place through the student newspaper, Prospectus, and other local news media: newspaper, radio, television and flyers/notices posted throughout campus. Such action will depend on the particular circumstances of the crime.

Pam Cooley, Champaign, cashier, accepts fees from students for their Fall classes.

Some courses are still open for registration

Many of the courses offered at 26 Area Learning Centers begin today, and students may still register in many classes if space permits.

Courses cover a variety of topics including microcomputers, aerobic dancing, karate,

accounting, equitation, basic skills, and business.

Residents of District 505 can take classes at any Area Learning Center; residency in the community where the course is offered is not required.

Non-residents of the district may arrange for an out-of-district chargeback through their local community college district.

For information about registration and space available, call 217-351-2208 or toll-free 1-800-346-8089

Student Government News

Student Government extends a warm welcome to all returning students and to all those new to Parkland.

Throughout the summer, Student Government representatives have been meeting to plan a schedule of activities for the semester that will offer something for everyone. Dates of these events will be announced on campus and in the Prospectus.

OPEN HOUSE -- Students will kick off the new semester with an open house in the Stugo

offices, X159, on Sept. 9. There will be prizes and refreshments. All students are welcome.

CLUB A RAMA -- From 11 a.m. to 1 p.m. Sept. 10. Also on this date from noon to 6 p.m. fun flicks in the TV Lounge.

ALLERTON LEADERSHIP RETREAT -- Sept. 25 and 26

REGENCY SINGING GROUP - Performing live in the Parkland Theatre on Oct. 16 at 6 p.m.

STUGO ELECTIONS -- Sept. 21 and 22

TALENT SHOW -- Date and time to be announced

Student Government meets at 2 p.m. every Thursday in X-150. All students are invited.

Parkland students claim \$3.2 million in financial aid

By John Hoffmeister
Editor in Chief

Three thousand Parkland students have been loaned \$3.2 million this year in financial aid, according to Jack Lyons, director, Financial Aid and Veterans Affairs.

Lyons said many students want funding on the junior/senior level: \$4000 a year. But because Parkland does not offer a four-year program, "sometimes confusion is created," Lyons said.

Because of the lack of funding, he said, the Illinois Student Assistance Commission has suspended all monetary award processing for students who submitted financial aid applications after June, 1992.

He said this action will not affect students' Pell or student loan eligibility.

Of the students receiving aid this year, almost 15 percent will default on their loans, Lyons said. The national default average for a two-year college is 20 percent.

Lyons, reflecting on the positive side of loan repayment, said he would like to concentrate on the 85 percent who do pay back their loan.

"Those students who borrow, leave the college, and default on their loan can have a negative impact on the college," he said. "They never intended to pay back the loan because of hard times or their personal budget."

He added that the College's open door policy does not help the default rate.

However, over the last 10 years, grant increases have

not kept up with the cost of living, Lyons said. "Fewer federal dollars have forced students" to find alternate means of funding.

"Technically, all students are eligible for financial aid." But needy students are the most important," he said.

Those considered not eligible can receive a partially subsidized loan. These recipients can defer the principle until after college while paying the interest back while attending school.

Lyons emphasized the importance of student academic standing when applying for a loan. "About 10 percent of financial aid recipients have been suspended" because of academic standing, he said.

WHEN IT COMES TO COLLEGE TUITION, THINGS DON'T ALWAYS ADD UP.

Calligraphy show opens at Krannert Art Museum

Western perceptions of the traditional Japanese art form of calligraphy may be reshaped by an exhibition that opens Aug. 28 for a limited U.S. engagement at the University of Illinois Krannert Art Museum.

"Contemporary Japanese Calligraphy" will be on view through Oct. 4 at the museum, 500 E. Peabody Dr., Champaign. The exhibition features more than 100 large-scale brush-and-ink drawings by members of Japan's Oriental Calligraphers' Federation, a group of artists who exhibit annually in different locations worldwide.

"This year, the group has targeted the American Midwest," said Linda Duke, Krannert's museum education coordinator. "This is their 10th annual exhibition. They've done major shows in such places as Beijing, Shanghai, Brussels, Australia, Southeast Asia, and Mexico.

One of the most striking features of the exhibited work, Duke said, is that it appears to have so much in common with abstract painting.

"Over the centuries, the art of calligraphy has fostered in its practitioners the capacity for appreciating abstract form, which has resulted in a sympathetic dialogue between calligraphy in western abstract expressionist painting."

Still, Duke said, these works by Japan's leading contemporary calligraphers are true to traditional form in their ability to communicate information about the individual artists and their creative motivations and inspirations.

"The aesthetic is based on the strong belief that a person's character is essentially conveyed by those brush strokes," Duke said, explaining that the resulting images function as a sort of body language to express the artist's level of consciousness. "Much is revealed about both the character and mood of the artist," she said. "For instance, 'is he or she in a tranquil state or exhilarated.'"

In conjunction with the Krannert exhibition, various educational activities, all free and open to the public, have been scheduled to take place in the museum gallery:

* A demonstration by visiting artists from the Oriental Calligraphy Federation from 5:30 to 7:30 p.m. Aug. 28.

* Japanese tea ceremony demonstration, 7 p.m. Sept. 16, performed by UI art and design professor Kimiko Gunji.

* Calligraphy workshop for children and adults, 2:30 p.m. Sept. 20, taught by Urbana artist Yoko Muroga.

* Japanese koto recital, 3 p.m. Sept. 27, performed by Jesse Evans, professor emeritus, and Elizabeth Falconer, professor, both of Augustana College, Rock Island.

More information is available from Duke at the Museum (217) 333-1860.

Bill Ludwig, Julie Mundschenk, and Shalawn Slaughter prepare a Photo ID for Phillis Davis, Mahomet.

New devices assist disabled students at PC

By Sue Petty

Parkland students with disabilities have people to turn to for assistance in the Student Support Services office.

Nancy Rowley, Assistive Devices and Services, provides devices for any learning disabled or physically handicapped student that needs them.

Because of funding by the Lions Club, Rowley was able to obtain a new piece of equipment for hearing-impaired students.

Rowley said these units eliminate environmental noise and allow the instructor to speak directly to the student by way of

a transmitter-receiver set-up.

In addition to the audio enhancement devices, Rowley can provide as tape recorders to tape lectures, electronic spell-checker, electronic dictionaries, large print typewriters and large print calculators, and arrange extended testing time for disabled students.

Students are referred to Rowley by Norm Lambert, assistant director of Student Support Services or Chris Brademas, Learning Disabilities specialist.

For more information call Nancy Rowley at 217/351-2588.

Impress your prof; use his/her correct title

By Marsha Woods
Prospectus Assistant Editor

New faculty titles will be used this fall.

In view of recent changes in academic titles, correct campus etiquette will require a little research by students.

"Good morning Professor Smith" will be correct if Smith is a professor, associate professor, or assistant professor. When writing a note, "Prof." should be used before Smith's full name.

The title, "instructor," will be used for non-tenured faculty. There will be two titles for part-time faculty: "affiliate faculty" and "part-time instructor."

The changes were suggested to keep Parkland academic titles similar to those used by other community colleges.

New administrative positions also have been approved by the Board of Trustees. Dale Ewen has been appointed Vice President for Academic Services. He had previously been serving in the position on an acting basis.

The vice presidents on the administration's executive team, had their titles changed so the word "administration" is replaced by "services." This change was made to reflect more accurately the job services they provide.

Milton Lewis is now Vice President for Administrative Services/Legal Affairs; Kevin Northrup is Vice President of Fiscal Services; Alice Pfeffer is Vice President for Institutional Advancement/Student Services; Chuck Baldwin is acting as Associate Vice President for Academic Services; Jon Surma is Executive Director, Business

Services, and Carol Steinman is Dean of Students.

Also, Grace Johnson, previously Director, College Development, is now Director of College Relations; Anita Bergman, previously Director of Economic Development, a department which has been dissolved, is now Director, College Development, in charge of Grants, Alumni, and Title III, under the Vice President of Institutional Advancement/Student Services, and Norman Lambert, is now acting Director of Student Support Services.

Cooperative Education, directed by Ken Gunji, now reports to Career Planning and Placement. This department had previously reported to the Economic Development Program.

Other new changes include the development of a Center for Excellence for the development and improvement in the teaching and learning processes. Lu Snyder will be chairing this committee.

A new area for marketing, public relations, and recruitment has been developed. This area will be under the Vice President for Institutional Advancement/Student Services. Mary Kay Dailey will be the Marketing coordinator, and Sue Schreiber will be the Public Relations Coordinator for this department.

The Health and Safety Office has been renamed The Health, Safety, and Security Office. Computing Services, now reports to Administrative Services/Legal Affairs instead of Fiscal Administration.

Lou Henson Jr. returns as head Cobras coach

By John Hoffmeister
Editor

Lou Henson Jr., the new basketball head coach, has come home to Parkland.

During the 1987-79 season, Henson played for the Cobras.

Henson Jr. has become the third coach in the Cobras' 24-year history. Tom Cooper recently stepped down from 14 years of coaching the varsity cagers.

Henson, 34, was head coach at Lincoln Land Community College in Springfield last season. The Loggers finished with an 18 - 13 record, good for the program's fourth best season in its history.

Dick Kelley, Parkland athletic director, said Henson's strong stand on academic success played a crucial role in his selection. "My goals are to graduate our players academically and challenge for the national championship," Henson said.

Henson earned all-state honors as a prep basketball player in Las Cruces, N.M. He began his college career at Western Oklahoma Junior College and then transferred to Parkland.

A 1988 graduate of Eastern Illinois, Henson spent two seasons there until being selected for the head coaching position at Lincoln Land last year.

Only after assisting his father during summer basketball camps at the UI did Henson become more involved in basketball.

Lou Henson Jr.

In 1989, he joined the University of Mississippi coaching staff as a graduate assistant while working toward a master's degree in education.

Although Henson is filling big shoes left by departing Coach Tom Cooper, he feels a dramatic change in the current system is not necessary. "Don't fix something that's not broken," he said.

Henson added that he has been influenced by Cooper but will be "a different coach" and will do things a little differently.

Henson's first squad is still in the developing stages. After Cooper left, Kelley guaranteed scholarship players that any-

one wanting to transfer to other schools would not be denied. So far, reserve forward Nate Tegtmeyer has departed.

Also, starting forward Marlong Fleming is not likely to return due to academic standing. Terrence Gray, assistant, said.

Henson said he intends to bring in some recruits and doubts that any Lincoln Land players would transfer. He has eight scholarships to award.

Gray, a former point guard under Cooper, joined his staff in 1990. Henson indicated he would likely remain on staff.

Tryouts will be held after the start of the fall semester, Henson said.

Fourth Annual Equine Event on Sept. 13

The fourth annual Champaign Equine Event, co-sponsored by Parkland and the Champaign Park District, is scheduled for Sunday, Sept. 13 from 8 a.m. to 4 p.m. on the campus and adjacent park district grounds.

The event is open to the public. There is no admission charge for spectators, but donations will be accepted. Various fees will be charged for participants, patrons, and exhibitors.

Three students to study abroad this semester

By Marsha Woods
Prospectus Asst. Editor

Three Parkland students will leave Sept. 14 to spend three months studying in Canterbury, England.

Jennifer Amdor, Urbana; April Metz, St. Joseph, and Ryan Hitchings, Bloomington, will be studying at Christ Church College and living in homes around the community of Canterbury.

They will take courses in British culture, literature, history, art, and religion. The program will also include field trips to Paris, Stonehenge, Bath, London, and possibly Amsterdam and Scotland.

Helen Kaufmann, director, Study Abroad, said the stu-

dents who are going wanted to "Interact with people in a culture different from the small realm of the Midwest, gain maturity and independence," and have a chance to fulfill a dream they all have had for a long time.

Two students returned on Aug. 1 from the summer Study Abroad program in Queretaro, Mexico. They are Curtis Nash, Champaign, and Deborah Hlavna, Fisher. They spent seven weeks studying at the Instituto Tecnológico y de Estudios Superiores de Monterrey, studying Spanish, and Mexican culture and society and taking field trips to Mexico City, Morelia, and Guanajuato.

Parkland is part of the Illinois Consortium for

International Studies and Programs. Students from approximately 24 area community colleges and Illinois State University will be sent to Canterbury. Kaufmann said Parkland's sending three students shows a very strong support for the program and is one of the largest numbers of students sent from any one college.

Applications for Study Abroad for Spring and Fall semesters of '93 and applications for scholarships are being taken in the Study Abroad office C124, or contact Helen Kaufmann at (217) 351-2393. Students can apply to study in Canterbury, England; Queretaro, Mexico; and Salzburg, Austria.

Hankins on honor roll

The name of Gregory D. Hankins, of Tuscola, an honors student, should have appeared on the list of honors students published in the June 24 issue of the Prospectus.

The paper wishes to congratulate him on his academic achievement.

Defaulters....from page 1

Affairs, said state two-year colleges tend to have higher default rates: "on the average 15-to-20 percent." He said an "open door" policy allows more academically questionable students in where as four-year institutions can be more stringent in their selection.

Lyons added that higher default rates are also due to many inner-city schools with large enrollments of low income students. He said many of these students drop-out, forcing a loan default.

Melissa Mitchell, student loan officer, First of America, said loans are given out per academic year. Under the

Stafford loan program, she said, an undergraduate student can receive a maximum, over a four-year period, of \$17,250, with graduate school pocket an additional \$37,500 for a total of \$54,750.

Annually, freshman and sophomores can receive loans of \$2,625, while juniors and seniors can find \$4,000. Graduates can receive up to \$7,500 annually.

Loan repayment, according to Jane Heinrich, student loan officer, Bank One, cover 120 months in \$50 installments. "There is a minimum of five years," she said, "but 100 months is usually the average."

**Art Gallery
showing
new works**

By Sue Petty

More than 600 persons attended the "Asian Arts in Illinois" exhibit this summer in the Parkland Art Gallery, which will welcome back students with works of art done by faculty members.

Starting today and ending Sept. 18, students are invited to the Gallery to view works of art done by Parkland faculty. Thursday from 6-8 p.m. there will be a reception in the Gallery Lounge where people can talk to the artists about their pieces in the exhibit.

Denise Seif, Gallery director, said artists want feedback. "They love to know what you find interesting and what disturbs you about their work," she added.

The faculty show "runs the gamut" as far as types of works in the exhibit including drawing, painting, sculpture, photography, and metalwork, Seif said.

Seif said Don Lake, "a cornerstone of the art department," is back from sabbatical and will have some new pieces in the show.

John Ekstrom, Joe McCauley, Jaunita Gammon, Donna Drysdale, and other instructors also will exhibit new pieces of work.

This summer, Curator Kimiko Gunji, assistant professor in the school of Art and Design at the University of Illinois, showed pieces of Ikebana, the Japanese art of flower arranging, at the Asian Arts show.

Most of the exhibit was comprised of Gunji's photographs and live displays of Ikebana, which translates as "makes flowers come alive," or "make flowers fresh."

In order for Gunji to keep her live arrangements looking fresh, she either called or came to the Gallery every day to take care of the arrangements, or as she refers to them, "her babies."

The exhibit also included Pandau, or "cloth made beautiful like a flower," and paintings by Chinese artist Charles Liu.

Fall Gallery hours are: Monday-Friday 10 a.m.-3 p.m.; Monday-Thursday 6-8 p.m., and Saturday 10a.m.-12 noon.

LOST AND FOUND**

Register by phone in '93

By Marsha Woods
Prospectus Assistant Editor

Parkland students will soon be able to register for classes by telephone.

Jo Williams, director, Enrollment Development and Management, says plans are to have preliminary testing completed by Feb. 1 in time for continuing students to register for summer of 93 as a test unit for the system. New students will register the old way until the testing is complete.

Parkland currently has three companies competing for the bid, Periphonics Corporation, Bohemia, New York, International Business Machines Corporation, Springfield, and EPOS Corporation, Auburn, Ala.

Since the bid is still on the table, Williams could not say how much Parkland's system will cost, but she said prices have ranged from \$35,000 to \$50,000 depending upon the complexity of the system.

Williams stated, "We hope this will make it more convenient for students (to register) and decrease (registration) lines."

The system requires the use of touch-tone phones. Williams said she would like to see a bank of phones set up on campus or special phones installed in local libraries for use by students who do not have touch-tone systems.

Many additional functions are possible on the system, Williams said. For example, students might be able to call

in and check their class schedules, find out if the college is open due to weather conditions, and check on their financial aid status and grade reports.

The system also may be able to tell students how many seats are in the class, how many are still available, and whether or not the class is closed.

Parkland has been planning to install phone registration for four years. Installation of the system will cause no additional increase to students, Williams said.

A recommendation for purchase of the system will be presented to the Board of Trustees at their October meeting.

Parkland offers fall telecourses

Parkland will offer seven telecourses on Champaign-Urbana Cablevision, Channel 8, from Sept. 26 through Dec. 11.

Students in Community College District 505 who do not have access to Channel 8 can view the telecourses in the Parkland Library, room R212.

The seven telecourses are "America: The Second Century" (HIS 105), "Business File (BUS 101), "Humanities Through the Arts" (HUM 120), "The Money Puzzle" (ECO 101), "Sociological Imagination" (SOC 101), "Study of Human Behavior" (PSY 101), and "Government By Consent" (POS 122).

Each course will be broadcast three times a week at a variety of viewing times. Those who complete a telecourse successfully earn three to four hours of college credit, depending upon the course.

The telecourse program includes one-hour weekly video lessons, required readings, occasional meetings as well as call-in hours with Parkland instructors, and periodic examinations.

Parkland, 4 others cut 10% by state

Parkland and four other Illinois community colleges received the largest reductions in total grants — 10 percent — delivered by the state for the current fiscal year.

South Suburban, John Wood, Highland, and Kishwaukee took the same percentage reductions.

Total grants for all Illinois community colleges were decreased .3 percent to \$217 million.

Parkland's total grant of \$4,911,818 from the state was cut more than \$680,000. The total College budget for 1992-93 is \$37.5 million compared to \$35 million this year. The increase will be offset by larger enrollment, an expanding tax base, and a \$2 per credit hour tuition increase.

Lewis and Clark college led the list of colleges that received approval for capital improvements with a \$3 million state grant for repair to its main complex building.

College of Lake County got \$11.5 million to construct a multi-use building; John A. Logan received \$494,000 to replace a roof, and Rend Lake got \$375,000 for a new roof.

The General Assembly approved an Illinois Community College Board bill that raises the limit from \$5,000 to \$10,000 for contracts and purchases which can be made by colleges without competitive bidding.

Legislators also passed a budget bill which will enable the ICCB to receive gifts and grants from sources other than the state and disburse funds to help support the system.

Plans.....from page 1

President Harris said the Parkland College Board of Trustees will meet in September to announce the contractor to start construction of the day care center.

She said the addition of the new daycare facility may enhance the accreditation process.

A total of \$126,000 has been set aside for new initiatives.

According to Carol Steinman, Dean of Students, \$30,000 has been allocated to a new tutorial program aimed at students in the college level curriculum.

Dean Steinman said Student Services will be in charge of the new tutorial program which will be designed for students in 100

level classes and higher.

The \$30,000 includes center maintenance and staff pay for part-time coordinators and tutors.

The Center for Teaching Excellence, a new program being coordinated by Lou Snyder, Parkland psychology professor, will start this semester, President Harris said.

Twenty-two thousand dollars has been allocated to the program, which is designed to help faculty develop classroom strategies and to provide a plan for the replacement of retired faculty, she said.

President Harris indicated 40 percent of the College faculty will be eligible for retirement in

five years.

Phil Carter, Student Government president, said he would like to see more students participating in StuGo events and programs.

He said Student Government is directing its efforts to helping to inform students students as to what is available as far as academic help, financial aid, and activities.

"I've talked with a lot of students to try to get them interested in joining a club or taking part in a Stugo event or program -- and I've never lost a customer yet," Carter said. "Every student I've ever talked to, as far as I know, has become involved. It's because we have a big selection of activities, something for everyone."

Rev. Ben Cox notes historical date

August 20 was the 373rd anniversary of the first landing of slaves in the U.S., according to the Rev. Ben E. Cox, Cooperative Education Job developer.

On Friday, Aug. 20, 1619, a Dutch ship fought a battle on the Atlantic Ocean with a Portuguese slave ship.

The Dutch ship won the battle and took the 20 slaves. A storm blew the ship into the James River at Jamestown. The Dutch ship exchanged the 20 slaves for food, Reverend Cox said.

American slaves were freed in 1865.
