

Solar Energy: A Net Zero Initiative

William Cole

M.S. in Project Management

Summer 2018

Granite State College

SOLAR PROJECT

- **Purpose**
 - Become net zero facility by 2030
 - American Institute of Architects initiative
 - All energy consumed offset by energy supplied
- **Successes**
 - On schedule
 - Only *slightly* over budget
- **Areas to Improve**
 - Project team continuity
 - Breakdowns in communication

Building a Better Project Manager

Lessons Learned

- Recognize strengths and weaknesses
- Set tone early in project life-cycle
- Focus on continuous improvement

- Project schedule
- Professional project team

Success

- Construction project management
- Project team continuity

Areas of Improvement

- Timely
- Concise
- Single message

Effective Communication
