Awareness Campaign on Idaho Law

In 1982 Idaho lawmakers created Title 32, Chapter 7

Divorced and now enduring joint custody?

Both parents must agree on health decisions

One parent can cancel the appointments leaving the
child without proper medical or psychological care

Couldn't get local representative to respond so I
must get public involved to induce change

I am not the only parent dealing with this problem

Not one county, city, or state entity is tracking the child's
healthcare deficit
