

Coastal Adaptation To Sea Level Rise

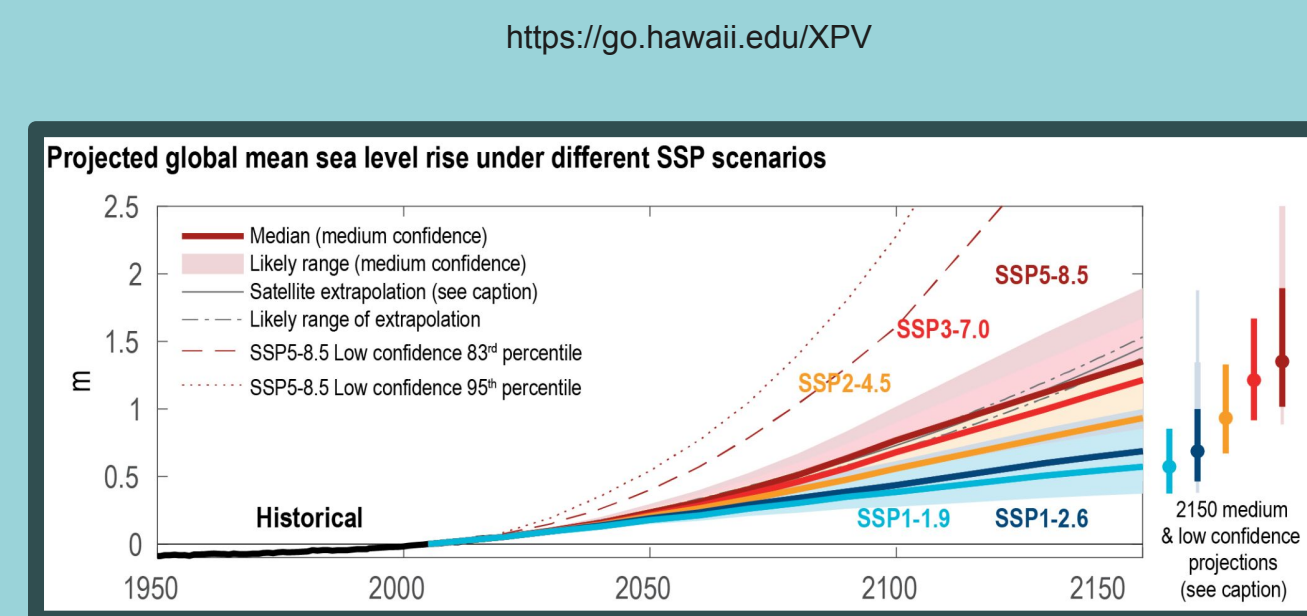

Nadia Einfalt ,GES 100

Sea level rise (SLR)

The IPCC 6th Assessment report states with high confidence that SLR will occur for centuries to millennia.

Adaptation

Human-made changes to natural or human systems in response to the impacts of climate change

<https://go.hawaii.edu/3PX>

<https://go.hawaii.edu/PPX>

<https://go.hawaii.edu/PPX>

Maladaptation

This occurs when the adaptation process makes the community more vulnerable to climate change

<https://go.hawaii.edu/XPx>

<https://go.hawaii.edu/2PX>

Place based Adaptation

Communities identify, assist, and implement adaptation activities to make themselves more resilient against climate change.
