Student name	ANDREI IONESCU
Student ID number	1736023
Date of award	1 st JUNE 2023
Title of thesis	DERIVATIVES IN STOCHASTIC CALCULUS WITH APPLICATIONS TO MATHEMATICAL FINANCE

In the interests of scholarship, a thesis which is accepted by King's College London for the award of a Research Degree is made available for consultation as a print version in the Library of the College, and online as an electronic version in the College institutional repository. The copyright of the thesis is retained by the author.

Declaration:

1. I authorise that the thesis presented by me in 2023 for examination for the above Research Degree shall, if a degree is awarded, be deposited as a print copy in the College Library and as an electronic copy in the College institutional repository and that, subject to the conditions set out below, my thesis shall be made available for public reference, inter-library loan and copying, and be made freely accessible to individuals and institutions via the internet. I understand that through the medium of the internet, files will also be available to automated agents, and may be searched and copied by text mining and plagiarism detection software.
2. I confirm that, with the exception of any third party copyrighted material where permission for inclusion has not been obtained (see 6 below), the electronic copy I will submit will be the same in all respects as the print copy.
3. I authorise the College authorities to collect, create and supply relevant metadata for my thesis (including author, title, and abstract) for inclusion in any published list or electronic database of theses offered for higher degrees, including the British Library Electronic Theses Online Service (EThOS), DART Europe E-theses Portal, and other recognised national and international theses databases.
4. I authorise the College, or its designated agents, to make a digital copy of my thesis for the purposes of deposit in the College institutional repository and British Library Electronic Theses Online Service (EThOS), and of accessibility, inter-library loan, and the supply of copies.
5. I understand that before my thesis is made available as described above, the following statement will have been included at the beginning of my thesis: 'The copyright of this thesis rests with the author and no quotation from it or information derived from it may be published without proper acknowledgement.'
6. I confirm that if my thesis includes any material where copyright is owned by a third party, I have sought and gained permission to include this material in any electronic version of my work.
7. I agree that the College, the British Library or their agents may, without changing content, digitise and migrate my thesis to any medium or format for the purpose of future preservation and accessibility.
8. I warrant that this authorisation does not, to the best of my belief, infringe the rights of any third party.
9. I understand that in the event of my thesis being not approved by the examiners, this declaration would become void.
