AFTERNOON CEREMONY - 3:30 P.M.

*College of Liberal Arts and Sciences*

## *Congratulations to the Class of 2017*

Commencement is probably the happiest event of the year at Portland State as we celebrate the finish line for our graduates. More than 6,000 graduates make up the Class of 2017 from 47 countries and 43 states. The class reflects PSU's rich diversity, with the oldest graduate at age 80 and youngest at age 15. We are conferring 4,375 bachelor's, 1,600 master's and 80 doctoral degrees this year. Many of our grads will have families and friends to celebrate today's ceremonies, a fitting way to celebrate Father's Day. For me, today is bittersweet because it is my last commencement as PSU president prior to stepping down this summer. I can't think of a better way to end my nine-year tenure than joining faculty, families and friends in recognizing the achievements of our newest graduates.

Go Viks!

# Portland State University

---

Portland State University serves as a center of opportunity for more than 27,000 students and a cornerstone for more than 171,000 alumni worldwide. The strength of the University is its world-class faculty, who serve the University and the community through teaching, research, and public service.

Research at Portland State has more than doubled in the past decade, achieving new degrees of excellence through investments such as the \$24 million National Institutes of Health (NIH) research and training grant that will fund the Enhancing Cross-disciplinary Infrastructure Training at Oregon (EXITO) program. Portland State contributes an annual economic impact of \$1.44 billion to the regional economy.

Located in Portland, one of the nation's most livable cities, the University's innovative approach to education combines academic rigor

in the classroom with field-based experiences through internships and classroom projects with community partners.

The University's 50-acre downtown campus exhibits a commitment to sustainability with many Leadership in Energy and Environmental Design (LEED) certified buildings, while many of the more than 200 bachelor's, master's, and doctoral degrees incorporate sustainability into the curriculum. PSU's motto, "Let Knowledge Serve the City," inspires the teaching and research of an accomplished faculty whose work and students span the globe.

## HISTORY

Portland State University opened in 1946 as the Vanport Extension Center to meet the educational needs of veterans home from World War II. The first campus was a portion of Vanport,

a wartime housing project that was destroyed in 1948 when a dike broke along the Columbia River.

The campus was moved to north Portland in fall 1948, and in 1949 the Oregon Legislature made "Vanport College" permanent. Three years later the campus moved to its present location along downtown Portland's South Park Blocks, occupying the former Lincoln High School building. It was then known as the Day Division of the Portland State Extension Center.

The Legislature created Portland State College as a four-year, degree-granting institution in 1955. Graduate work was added in 1961, doctoral programs began in 1968, and the institution became Portland State University in 1969.

The University has grown from an initial enrollment of 1,410 students in 1946 to become Oregon's largest urban research university.

## Our Vision, Mission, and Values

---

### OUR VISION

Portland State University leads the way to an equitable and sustainable future through academic excellence, urban engagement, and expanding opportunity for all.

### OUR MISSION

- We serve and sustain a vibrant urban region through our creativity, collective knowledge and expertise.
- We are dedicated to collaborative learning, innovative research, sustainability and community engagement.
- We educate a diverse community of lifelong learners.
- Our research and teaching have global impact.

### OUR VALUES

- We promote access, inclusion and equity as pillars of excellence.
- We commit to curiosity, collaboration, stewardship and sustainability.
- We strive for excellence and innovation that solves problems.
- We believe everyone should be treated with integrity and respect.

# Academic Costume

One of the most colorful features of the academic procession is the appearance of graduates, faculty, and guests of the University in full academic costume. The design of the gown, the color of the tassel on the cap, and the pattern, length, and colors of the hood all have long histories and special significance.

American universities, unlike those of England and Europe, have adopted a standard code of academic costume. According to the code, the bachelor's gown worn by Portland State University graduating seniors has straight sleeves and is worn closed. Gold, silver, and green cords are worn by honors graduates. The master's gown has long, pointed sleeves with the forearm being seen through a slit at the elbow of the sleeves. The doctor's gown is faced with velvet and has bell-shaped sleeves. Each sleeve carries three bars of velvet. The tassel on the cap indicates by color the college or school conferring the degree.

In addition to the cap and gown, candidates for advanced degrees wear the academic hood, the traditional

garment signifying high scholarly attainment. The doctoral hood carries the colors of the college or school conferring the degree on the outside and PSU's colors of green and white on the inside.

One legend, which deals with the origin of the cap and gown, reveals that a venerable teacher in ancient Greece promised wealthy parents that their sons would be "appropriately dressed" when presented at a banquet honoring the completion of their academic studies. However, when the young men entered the banquet hall dressed in simple sackcloth robes and carrying mortar boards, the mark of common workmen, a startled cry arose from the audience. "Let me explain," said the teacher as he raised his hands for silence. "Your sons are dressed in clothing of the mason, for their destiny is to build. Some will build cities, some will build lives—perhaps one of them may even build an empire. But all will be builders on the solid foundation of knowledge."

# Faculty Excellence and Achievement Awards

SPONSORED BY THE EMBASSY OF THE STATE OF QATAR

Portland State University and the Portland State University Foundation are pleased to announce that this year's faculty excellence and achievement awards are sponsored by the Embassy of the State of Qatar, thanks to its ambassador and PSU alumnus Mohammed Al Kuwari '80 political science.

The Branford Price Millar, George C. Hoffmann, Kenneth W. and Elsie W. Butler, and Mary H. Cumpston Awards and the Research Faculty Excellence Awards are presented annually to recognize PSU faculty members for their contributions to the University.

The Philanthropic Leadership Award and the Philanthropic Cultivation Award were established by the Portland State University Foundation to help recognize and support faculty for their work to build and promote a culture of philanthropy at Portland State.

## *Daniel A. Vandehey*

DANIEL A. VANDEHEY is graduating with a bachelor's degree in communication studies. As a first-generation college student from a farming background, he did not realize the value of a college education. After being in the workforce for many years with no opportunity of advancement without the proper education, Mr. Vandehey decided to study a field that would give him the opportunity to learn new skills. His hard work has paid off. He is recognized as a 2017 Distinguished Graduate in the PSU Department of Communication.

In his free time, Mr. Vandehey enjoys low-key gatherings with friends, working with computers, and

maintaining his 26-gallon planted aquarium with his aqua-scaping techniques. After graduation, he will continue his studies by pursuing a Master of Science in communication and working as a graduate teaching assistant in the Department of Communication at PSU.

Mr. Vandehey would like to thank his wife Dawn, son Shane, and daughter Emma, for going without many of the comforts to which they had become accustomed so he could pursue his dream. He is also thankful for Professor L. David Ritchie and Professor Lee Shaker for their hours of individual attention and continued support.

## *Noel delaCruz*

NOEL DELACRUZ will receive her Bachelor of Arts in conflict resolution. After attending her daughter's Freshman Orientation at PSU in 2015, Ms. delaCruz realized she could pursue her dream of completing her bachelor's degree without the need of additional math classes, a subject she feared.

During her time at Portland State, she was able to find the support and validation to become more confident in herself and find her voice both inside and outside of the classroom. Representing the graduating class of 2017 as a student speaker is the culmination of her education experience, and she no longer feels invisible.

In her free time, Ms. delaCruz is an aspiring author, avid hiker, and enjoys spending time with her two active grown children, three dogs, and an African Grey parrot.

After graduation, she will return to Portland State University to pursue a Master of Conflict Resolution. Ms. delaCruz would like to thank Eldon delaCruz for his support and encouragement and her two beautiful children, E.J. and Cheyenne, for expressing their enthusiasm and support of her goals. She is tremendously grateful to her professors in the Conflict Resolution Department, including Robert Gould, Amanda Byron and Tom Hastings.

## Doctor of Humane Letters, Honoris Causa

*U.S. Representative Earl Blumenauer, J.D.*

U.S. REPRESENTATIVE EARL BLUMENAUER, a lifelong resident of Portland, has devoted his entire career to public service.

While still a student at Lewis & Clark College, he spearheaded the effort to lower the voting age both in Oregon and at the national level. In 1972, he was elected to the Oregon Legislature, where he served three terms and chaired the House Education and Revenue Committee. In 1978, he was elected to the Multnomah County Commission, where he served for eight years before being elected to the Portland City Council. There, his 10-year tenure as the Commissioner of Public Works demonstrated his leadership skills. He was responsible for innovative accomplishments in transportation, planning, environmental programs and public participation that have helped Portland earn an international reputation as one of America's most livable cities.

Elected to the U.S. House of Representatives in 1996, Rep.

Blumenauer has created a unique role as Congress' chief spokesperson for Livable Communities: places where people are safe, healthy and economically secure. From 1996 to 2007, he served on the Transportation and Infrastructure Committee, where he was a strong advocate for federal policies that address transportation alternatives, provide housing choices, support sustainable economies and improve the environment.

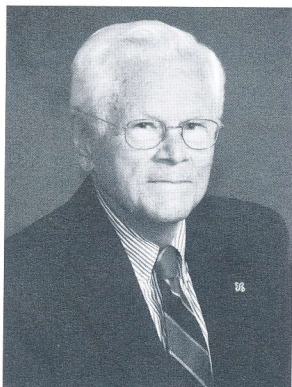

He was a member of the Foreign Affairs Committee from 2001 to 2007, and vice-chair of the Select Committee on Energy Independence and Global Warming from 2007 to 2010. He is currently a member of the Ways and Means Committee and the subcommittees on Health, Oversight, and Tax Policy.

Rep. Blumenauer's academic training includes undergraduate and law degrees from Lewis & Clark College in Portland.

# Doctor of Humane Letters, Honoris Causa

*Phil Bogue, M.B.A.*

PHIL BOGUE moved to Portland from Seattle in 1961 to open the Portland office of accounting firm Arthur Andersen, of which he was a managing partner. Upon arriving in Portland, Mr. Bogue soon began working to help elevate the reputation of Portland State University and to create an active academic community, inspired by his undergraduate alma mater University of Washington's role as an anchor in the city of Seattle. He played a pivotal role in arranging for the PSU's name and motto of "Let Knowledge Serve the City" to be added to the bridge on campus.

After retiring from Arthur Andersen in 1981, he served as assistant to the president for university relations at PSU and as special assistant and consultant to PSU president Joseph Blumel. In those roles, Mr. Bogue made many contributions to the University, including establishing a Portland State alumni program.

Mr. Bogue is a generous donor to PSU, funding many significant priorities, including the School of Business Administration's Karl Miller Center Building Fund, the Bogue

Family Choral Endowment, the Bogue Accounting Endowment and the Center for Professional Integrity and Accountability. The executive board room in the Karl Miller Center has been named in his honor.

In addition to this honorary degree, Mr. Bogue's significant contributions to PSU have been recognized with a Distinguished Service Award in 1979 and a presidential medal in 2014.

He served on the boards of the PSU Foundation, Portland Art Museum and the Oregon Symphony. As board chair of the Oregon Symphony, he had a central role in hiring longtime music director James DePreist. Mr. Bogue also served as interim chief executive officer of Portland Art Museum in 1992, helping to ensure the museum's financial solvency.

Mr. Bogue earned a bachelor's degree in Business and Economics from University of Washington and served in the U.S. Navy for several years as a supply and disbursing officer. He also holds an M.B.A. from Harvard Business School.

*Avel Louise Gordly, B.S. '74*

AVEL LOUISE GORDLY became the first African American woman to be elected to the Oregon State Senate in 1996. Her legislative record includes an array of initiatives that focus on cultural competency in education, mental health, and the administration of justice. In addition to committee assignments such as Joint Ways and Means, Education Policy, Trade and Economic Development, and Environmental Quality, Ms. Gordly advocated for and then co-chaired Governor John Kitzhaber's Task Force on Racial and Ethnic Health and served on the Public Commission on the Oregon Legislature.

Another innovation to her credit was the Governor's Task Force on Environmental Justice, now enshrined in law and a nationally recognized initiative still serving Oregonians. She also achieved notable reform in the Senate caucus system and briefly secured press access for meetings that were usually closed.

Born in Portland in 1947, Ms. Gordly graduated from Girls Polytechnic High School in 1965 and worked at Pacific Northwest Bell until 1970. That year, she enrolled at Portland State University, where she earned a degree in the administration of justice. After graduation, she worked for the Oregon Corrections Division as a women's work-release counselor and later as an adult parole and probation officer.

A key affiliation for Ms. Gordly was the Black United Front (BUF). A national civil rights group headquartered in Chicago, Portland's dynamic BUF was founded in 1979.

In addition to handling media work for the group, Ms. Gordly coordinated the Front's Saturday School. Its African American history program was tied to curriculum reform in the public education system. With the Front's spin-off, Portlanders Organized for Southern African Freedom, and in concert with the American Friends Service Committee, Ms. Gordly helped score key anti-apartheid victories in Oregon during the 1980s.

Ms. Gordly has received awards from groups such as the YWCA of Greater Portland, the NAACP, the Oregon Youth Authority, Delta Sigma Theta Sorority, the Girl Scouts, and the Oregon Commission for Women. In 2008, Oregon Health Sciences University opened the Avel Gordly Center for Healing, dedicated to culturally specific mental health and psychiatric services. In 2009, Albina Head Start recognized Ms. Gordly's championing of funding for their programs state-wide by renaming its administrative headquarters in her honor.

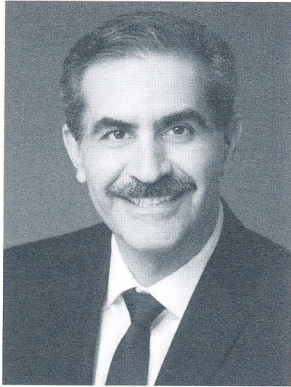

Recently, she received the Urban League of Portland's Edwin C. Berry Lifetime Achievement Award, the Legislative Leadership Lifetime Achievement Award from the National Newspaper Publisher's Association, the *Skanner News*, and the *Portland Observer*, and the J.C. Hawthorne League's Oregon Mental Health Caucus Founder's award.

Oregon State University Press published her memoir, *Remembering the Power of Words: The Life of An Oregon Legislator, Activist, and Community Leader* in 2011.

# Branford Price Millar Award for Faculty Excellence

---

*Hamid Moradkhani, Ph.D.*

PROFESSOR HAMID MORADKHANI, director of Remote Sensing and Water Resources Lab is a professor of civil and environmental engineering and fellow of the Institute for Sustainable Solutions. He is a world-class expert with over 25 years of experience. He has made significant contributions on tackling the grand challenges faced by water resources planners, stakeholders and emergency managers here and around the world: how to be sure there is enough water to meet demands and protect livelihoods and properties against extreme events as populations swell and weather patterns shift due to climate variability and change. Since joining PSU, he has developed and expanded a research program that is regionally, nationally and internationally significant and advances the mission of Portland State.

Professor Moradkhani is a highly cited author of over 130 publications, and a pioneer in stochastic modeling, data assimilation, cyber innovation and uncertainty quantification methods used extensively in engineering, earth science and many other disciplines worldwide.

In recognition of his outstanding works and significant contributions,

he was elected to the Hall of Fame of Samueli College of Engineering at the University of California, Irvine, and in 2015 he was awarded a fellow of Environmental and Water Resources Institute, recognized and designated by the American Academy of Water Resources Engineers. He is a fellow of the American Society of Civil Engineers (2014), and diplomate of Water Resources Engineering (2011).

He has chaired numerous technical committees, panels, conferences and workshops, and served on several advisory panels related to drought, flood, climate change and water policy issues. Professor Moradkhani has been on the editorial boards of journals, including *AGU Water Resources Research*, *Elsevier Journal of Hydrology* and *ASCE Journal of Hydrologic Engineering* among others.

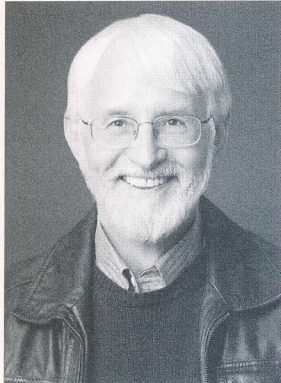

The Millar Award is given annually to a faculty member in a tenure-track or tenured appointment who has demonstrated excellence in the areas of scholarship, instruction, university service, and public service, and whose performance in the area of scholarship and research is judged to be exceptional.

# George C. Hoffmann Award for Faculty Excellence

---

*Wayne Wakeland, Ph.D. '77*

PROFESSOR WAYNE WAKELAND has been a faculty member in the System Science Program since 1978, and is no stranger to awards. He has received teaching awards from the Maseeh College of Engineering and Computer Science and, four times, from the College of Liberal Arts and Sciences, and student evaluations of Professor Wakeland are consistently high.

Professor Wakeland is recognized for revising curriculum to strengthen support for University Studies and the School of the Environment, and to enhance program contributions to the PSU mission.

Professor Wakeland developed 12 unique graduate courses at PSU, four collaboratively with faculty in other departments; five of these courses continue to be offered regularly. He employs the latest simulation technologies, and new on-line and hybrid teaching methods, including learner-directed activities to complement lectures. He routinely teaches more than his obligated teaching load, out of enthusiasm for the subject matter, to meet curricular needs, and to foster campus collaboration.

Since 2003, Professor Wakeland has established a solid publication record with 83 peer-reviewed papers, an average of nearly six papers per year. Of these papers, 24 lie in the

applications area of organizational processes, 16 in biomedical dynamics, 16 in sustainability, 16 in health policy, and 11 regarding simulation and optimization methods.

Professor Wakeland's scholarship has been generously supported by external research funding. Since 2003, he has served as principal investigator or co-principal investigator on 10 grants from government agencies, including National Institutes of Health and NASA, private foundations, and corporate sources totaling \$1.6 million. His scholarship was also supported by \$58,000 in internal funding.

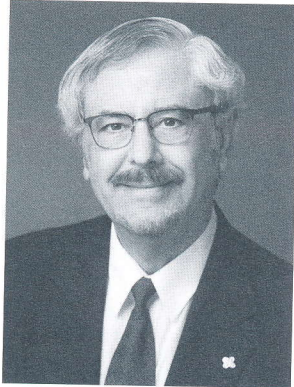

Given Professor Wakeland's extraordinary contributions in instruction and service, his contributions in the area of scholarship are even more remarkable.

The Hoffmann Award is given annually to a faculty member in recognition of distinguished contributions to the University in the areas of instruction, university service, and scholarship which are done in the spirit of humanism, civility, and collegiality with particular dedication to students and loyalty to the University—values especially cherished by the late George C. Hoffmann, a distinguished dean and professor of history at Portland State University.

*Franz Rad, Ph.D.*

Professor Franz Rad is described as the architect, builder and academic leader of civil engineering at Portland State. With 46 years of service at the University, including 22 as department chair, he was a significant leader in establishing the program, the department, and the Maseeh College of Engineering and Computer Science,

Professor Rad developed 13 courses and taught 17 in the Civil and Environmental Engineering Department. He secured funding and helped build many of the fundamental labs still in use, wrote the proposal for the Ph.D. program, and played a key role in the vision and funding of the new engineering building.

Professor Rad's dedication and service record includes seven years on the Faculty Senate, as well as university and departmental committees. His commitment to education is demonstrated by his creation and funding of a \$75,000 endowed scholarship for Civil and Environmental Engineering students.

Important and active scholarship is another piece of Professor Rad's distinguished career. He has

over 90 publications in journals, proceedings, and technical reports. Professor Rad was the recipient of the first Arthur M. James Professor of Structural Engineering endowed professorship, elected to the Academy of Distinguished Alumni at the University of Texas at Austin, and selected Engineer of the Year by the American Society of Civil Engineers (Oregon Section) in 2002.

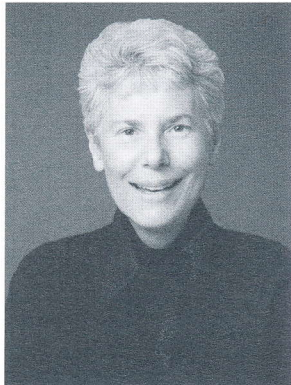

His work in seismic hazards of building in Portland contributed significantly to building safety in the region and laid a solid foundation for the development of a few statewide earthquake safety policies.

The Hoffmann Award is given annually to a faculty member in recognition of distinguished contributions to the University in the areas of instruction, university service, and scholarship which are done in the spirit of humanism, civility, and collegiality with particular dedication to students and loyalty to the University—values especially cherished by the late George C. Hoffmann, a distinguished dean and professor of history at Portland State University.

*Mary Ellen Kenreich, M.L.S., M.P.A. '99*

PROFESSOR MARY ELLEN KENREICH is the first person to receive the Kenneth W. and Elsie W. Butler Award for Library Faculty Service twice. She has been described by her nominations committee as “highly respected and sought after for professional advice and conduct, unrivaled in her professionalism and work ethic and the epitome of a service provider.”

Professor Kenreich’s leadership in the Library has included administrative duties, faculty governance, promotion and tenure review, and committee service.

When Professor Kenreich first won the Butler Award in 2006, she was recognized for being a leader among Library faculty, as well as the greater library and technology community. She had served on the faculty senate, been on numerous campus committees, and volunteered for various campus activities, and worked behind the scenes with great dedication to ensure that relevant information was made available to Library patrons.

Since then, Professor Kenreich has continued to “be a model of academic librarianship, which requires an adeptness in a key area of library expertise, service to end users and research and service to the profession,” wrote nominator Susan Hinken from the University of Portland. Professor Kenreich is receiving this award for the second time because she demonstrates continual dedication to the Portland State community.

Professor Kenreich received her Master of Library Science from Kent State University and her Master of Public Administration from Portland State University in 1999. This year marks Professor Kenreich’s 25th year at PSU.

Professor Emeritus Kenneth W. Butler and his wife, Elsie W. Butler, established the Butler Award for Library Faculty Service to recognize outstanding performance by a member of the Branford P. Millar Library faculty each year. The award recognizes excellence of library service to students, faculty, and other library patrons.

*Becki Ingersoll, M.S. '97*

BECKI INGERSOLL, a Portland State University alumna, joined PSU in 1995 and has served as associate director of Advising and Career Services since 2010. For the past decade, she has worked to advance student success initiatives, first in the Financial Aid Office, then in Admissions, and in the Undergraduate Advising & Support Center, and now in Advising and Career Services. Ms. Ingersoll always puts students first and has their best interests in mind.

Ms. Ingersoll's recent student initiatives include important projects such as the Coordinated Service Network, Four Year Degree Guarantee, Excessive Credit Project, the Last Mile Committee, and involvement with five different reTHINK initiatives in the past three years.

Ms. Ingersoll has served as the floor manager for the Portland State University Spring Commencement Ceremony for the past nine straight years, impacting the final moments and experiences of approximately 18,000 students. Ms. Ingersoll has served for 10 years on the Academic Requirements

Committee and remains one of the most steady and devoted participants reviewing student petitions.

Ms. Ingersoll has also served on the Deadline Appeals Committee for the past four years. The committee reviews 1,700 petitions each year, meaning Ingersoll has had a hand in approving up to 6,800 Deadline Appeals Petitions.

Ms. Ingersoll's direct service to students, her leadership in advising, and her engagement with student success initiatives clearly demonstrates a commitment to serving students and improving the systems that support them. Ms. Ingersoll represents the outstanding service to students that the Cumpston Award strives to honor.

The Mary H. Cumpston Award for Service to Students is given annually to an academic professional or university administrator, without academic rank, who has demonstrated excellence in the area of service to students. Mary H. Cumpston was a beloved colleague who truly embodied the meaning of excellence in service to students to the Portland State University.

*Kristin Hole, Ph.D.*

KRISTIN HOLE, instructor of Film Studies, has served Portland State University since joining its faculty in December 2015. She holds a Ph.D. in Cultural Studies from Stony Brook University. In her short time with Portland State's Film Program, Professor Hole has elevated the program's research profile through her own publications and through her active solicitation of research from other faculty in the program. Her astute research in transnational cinema, feminist film, and film theory constitute important contributions to film curriculum internationally while profoundly informing the campus discourse among Portland State's faculty and students.

Professor Hole's dedication to research and writing, and to integrating both in her faculty role, has been exemplary, both for her colleagues and her students, who benefit from her research work in the courses she teaches on New German cinema and feminist film theory. Frequently engaging in lively conversations about film and culture beyond the classroom, Professor Hole has shown herself to be an important mentor to PSU students, particularly women considering Ph.D. programs.

Professor Hole has already published several peer-reviewed essays in journals

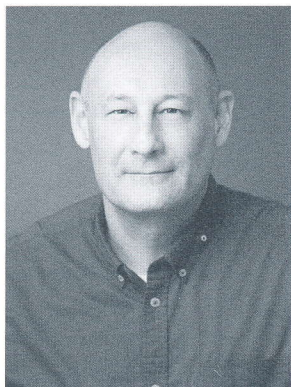

and collections, on par with what might be expected of a tenure-track faculty member at her stage. Her work has appeared in *Angelaki* and in the edited volume *Fashion and Film* (Indiana University Press, 2011). In the last year, she published a monograph, *Towards a Feminist Cinematic Ethics: Claire Denis, Emmanuel Levinas and Jean-Luc Nancy*, with the well-respected Edinburgh University Press, and she co-edited *The Routledge Companion to Cinema and Gender*, published by the equally well-respected Routledge press. She has also co-written the textbook, *Film Feminisms: A Global Introduction*, to be published in 2018 through Routledge press. Additionally, Professor Hole has written several reviews and presented at numerous conferences in the course of her career.

The Research Faculty Research Excellence Award is given annually to a distinguished non-tenure track faculty member in recognition of the importance, originality, quality, volume, and impact of the individual's research and scholarship. This award also recognizes the recipient's extraordinary success engaging PSU's students in rigorous research and academic discourse.

*Niles Lehman, Ph.D.*

NILES LEHMAN, professor of Chemistry, has served Portland State University for 16 years. He leads the internationally renowned Lehman Lab, part of PSU's Center for Life in Extreme Environments; there, he and his team investigate the biochemical and genetic processes that drove the origins of life on Earth some four billion years ago and still drive the evolution of organisms today.

Professor Lehman earned his Ph.D. in biology at the University of California, Los Angeles. His thorough training and extensive experience in both chemistry and biology have distinguished his work from that of virtually every other researcher in the field. He is perhaps the first classically trained evolutionary biologist to work with systems of catalytic RNA evolution, a distinction which, combined with the high caliber of his work, puts him at the cutting edge of a large and growing field. His research has garnered significant support from distinguished sources such as NASA, the National Science Foundation, and the Templeton Foundation.

Prodigious in his research output, Professor Lehman has authored 67 peer-reviewed research articles and 26 other reviews, book chapters, commentaries,

and editorials. His ground-breaking work has been published in such esteemed scientific journals as *Nature* and the *Proceedings of the National Academy of Sciences*. He has served on the editorial boards of the journals *Astrobiology* and *Trends in Evolutionary Biology* and is now editor-in-chief of the *Journal of Molecular Evolution* as well as editor-in-chief of the Chemistry Section of *Life*.

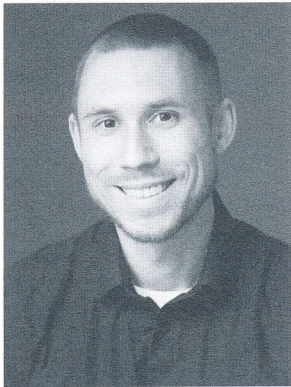

In addition to distinguishing PSU through his research, Professor Lehman is an outstanding member of PSU's teaching faculty. He has twice won the John Elliot Allen Teaching Award for his classroom instruction in general chemistry, prebiotic chemistry, advanced biochemistry, and his general course on the Origins of Life on Earth. He is also highly regarded by the undergraduate and graduate students in his lab for his mentorship and training.

The Senior Faculty Research Excellence Award is given annually to a full professor whose important, original, and prolific research work consistently meets the highest academic standards. Recipients of this award exemplify PSU's commitment to excellence and to "let knowledge serve."

*Paul Loikith, Ph.D.*

PAUL LOIKITH, assistant professor of Geography and Director of PSU's Climate Science Lab, joined Portland State University in September 2015. In his short time at the University he has made outstanding research contributions in climate science, published five new articles, mentored his students to remarkable achievements, and collaborated with geographers, civil engineers, and other natural and social scientists on a range of research projects at PSU.

Professor Loikith holds a Ph.D. in Atmospheric Science from Rutgers University and is rapidly establishing an international reputation with his research, which focuses on the intersection of weather and climate. In particular, Professor Loikith is interested in understanding the dynamic and thermodynamic mechanisms that drive extreme temperature and precipitation events and applying this understanding to evaluate climate models in order to better understand projections of future climate.

Professor Loikith has published highly influential papers in prestigious climate science journals, including *Geophysical Research Letters*. He has presented his work in major professional societies such as the

American Geophysical Union, American Meteorological Society, and American Association of Geographers, and led international workshop sessions. Professor Loikith has received major grants from the U.S. National Science Foundation and NASA, totaling over \$1 million.

Professor Loikith brings his cutting-edge research into his classroom and graduate student advising, where he consistently provides his students with exciting opportunities for instruction and collaboration, including presenting at professional meetings and authorship of papers. A faculty fellow of PSU's Institute for Sustainable Solutions, Professor Loikith also contributes to community research projects, working with fellow faculty and in partnership with the city of Portland and Clackamas River Water Providers.

The Junior Faculty Research Excellence Award is given annually to an assistant or associate professor who produces outstanding and original scholarly works at an impressive rate while engaging students in the kind of rigorous research that typifies PSU's commitment to excellence and to "let knowledge serve."

# PSU Foundation Faculty Philanthropic Leadership Award

---

*Tim Allen Garrison, Ph.D.*

TIM ALLEN GARRISON is a professor and chair of the Department of History. His dedication to fundraising for the History Department and commitment to developing relationships and engaging donors makes Professor Garrison an outstanding recipient for the PSU Foundation's Philanthropic Leadership award. His active involvement in donor engagement has significantly increased philanthropic giving to the History Department. Professor Garrison has made fundraising a priority during his time as chair, and he truly understands the role philanthropy plays in strengthening the department.

From a development perspective, Professor Garrison is the ideal faculty partner. He is genuine, has a great sense of humor and has a way with people that puts them at ease and makes them feel special. He is always willing to strategize with development staff about cultivation ideas for donors. Despite all that he is juggling as department chair

and as a practicing historian, Professor Garrison makes himself available for donor visits and works to develop prospects in the community.

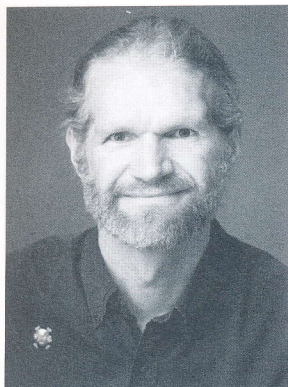

The most notable demonstration of Professor Garrison's devotion to philanthropy is his work with the Friends of History Board of Directors. The board was developed many years ago as a way to build support for the History department, but had become inactive by 2012, when Professor Garrison recruited Lou Livingston to serve as the new president. Together, they revitalized the board, rewrote the bylaws and began recruiting board members. Since then, the Friends of History board has become a key factor in the success of the History Department's fundraising efforts. Funds raised from the Friends of History are used to sponsor public lectures with renowned historians from around the world, support faculty and student research and honor student achievements.

*Kenneth Stedman, Ph.D.*

KENNETH STEDMAN is a professor of Biology at Portland State University. He currently serves on and chairs a number of committees around the university and within the Biology Department. In particular, his chairmanship and service on the Biology Department's Research and Development Committee makes him the ideal recipient of the PSU Foundation's Philanthropic Cultivation Award.

During his 16 years with the university, Professor Stedman has been prolific in his outreach to alumni, donors and research partners. He has secured dozens of grants, including eight grants of more than \$100,000 from sources as diverse as NASA, the National Science Foundation, and the Bill and Melinda Gates Foundation. He has embraced the role of the Research and Development Committee with vigor and actively works with the College of Liberal Arts and Sciences Development Office to fully engage alumni and donors and cultivate them for current and future gifts to the department.

Professor Stedman has done a masterful job of stewarding many of the department's top philanthropic partners, ensuring a successful experience for not only the benefactors, but also for the recipients of our donors' generosity. Professor Stedman clearly understands the importance and impact of maintaining open, direct and thoughtful communication to the University's philanthropic partners and goes above and beyond to leave a positive lasting impression of PSU and the Biology Department.

He has also done outstanding work in maintaining a connection to current and past faculty of the Biology Department, many of whom choose to support the department as a direct result of Professor Stedman's contact with them.

Professor Stedman has shown himself to be a tireless advocate for not only the Biology Department but for all of PSU. He serves on the University's Education Policy Committee, the Faculty Senate, and is chair of the PSU Institutional Biosafety Committee.
