## *From Your Editorial Team*

With this issue, the current editorial team finishes its three-year term. We each owe thanks and appreciation to several different sources of help and inspiration:

*To our authors*, thanks for submitting high quality material.

*To our reviewers*, thanks for performing the difficult task of reviewing the scholarship of colleagues. For a complete list, please see page 28.

*To our institutions*, The Ohio State University, Duquesne University, and The University of Wisconsin-Milwaukee, thanks for supporting us with time and space.

*To each other*, thanks for the mutual support.

*To our MWERA readers*, thanks for reading! That, after all, is the main purpose of this endeavor.

*Ayres D'Costa, Sue Brookhart, and John Surber*

The University of Akron is Ohio's third-largest university, with a total enrollment of approximately 30,000 students. The University's 10 academic colleges offer 154 baccalaureate, 47 master's, and 17 doctoral degree programs. A leader in rubber and polymer research since 1909, UA is considered the world's premier synthetic polymer research institution. The University was founded in 1870 as Buchtel College, later was named The University of Akron, and became part of Ohio's state-assisted university system in 1967.
