STS 201 Understanding Technological Society Fall 2023
New Jersey Institute of Technology

Section 003	TTh 8:30-9:50	KUPF 108
Section 007	MTh 11:30-12:50	CULL LECT 3 (M), 1 (Th)
Section 015	TTh 2:30-3:50	KUPF 203

Instructor: Miran Božičević (he, they)

E-mail: miran@njit.edu

Office hours: Tuesday 10:30-11:30am or by appt, Webex [2622 462 4222](https://www.webex.com/join/join.aspx?meetingid=26224624222), pass **2023#Fall**

I aim to respond to emails within 24 hours during the working week, and by the following working day on weekends and holidays. Quizzes and short written assignments are graded weekly, while exams with essay questions and research project work can take two weeks.

Course Description

“A problem-centered and task-oriented course that integrates social science theory and practice into the leading public issues of a technological society. Students learn critical thinking through hands-on assignments. The course emphasizes student understanding of social institutions that directly affect technological development and professional careers. This course satisfies the three credit 200 GER in History and Humanities.” (Undergraduate Catalog)

This course introduces the student to the perspectives of the social sciences applied to understanding today’s global society. The point of view of anthropology serves as the basis.

There are no prerequisites for the course.

Course Objectives and Learning Outcomes

By the end of the course, the students will be able to:

- Describe the breadth of the human experience across cultures and historical epochs.
- Explain how our social world has come into being historically.
- Appraise the complexity of interdependent social, political, economic, and ecological forces shaping today’s world.
- Analyze how relationships of global interdependence are constituted by and shape human culture, group life, beliefs, economic relations, political organization, and systems of ranking and difference.
- Apply social scientific theories and concepts independently to investigate aspects of our societies and cultures.
- Critically evaluate information from diverse sources.
- Express ideas clearly in class discussion and in writing.

Course Materials

The textbook for the course is **required**. You can use either of the two latest editions. Additional materials will be posted on Canvas.

Robbins & Dowty 2018. *Global Problems & the Culture of Capitalism*, 7th ed. Pearson. ISBN 978-0134732794

Robbins 2013. *Global Problems and the Culture of Capitalism*, 6th ed. Pearson. ISBN 978-0205917655

OR

Course Requirements

Your work will be evaluated in four main ways: **class participation**, **exams**, **reading responses**, and the **research project**. I will provide feedback on how you are doing on particular assignments using the comments feature in Canvas.

The grading thresholds are: 92% A, 88% B+, 80% B, 76% C+, 68% C, 60% D. They may be relaxed somewhat in light of the disruptions due to the pandemic and other issues. I strive to give everyone the opportunity to do the best they possibly can in the course.

Please note that **the percentages on Canvas are not an accurate estimate of your grade**. They are not weighted, and do not include all components of the grade. Your actual grade could be better or worse than what Canvas shows. I will strive to give everyone opportunities to do the best they possibly can in the course. That said, grades are earned by continuous work during the semester, not by tweaking an abstract number across an imaginary line.

A brief overview of the major evaluation categories:

Participation		15%
<i>Attendance & Engagement</i>	8%	
<i>Forum Participation</i>	7%	
Exams		30%
<i>Quizzes</i>	2 x 3% = 6%	
<i>Exams 1 & 2</i>	2 x 7% = 14%	
<i>Exam 3</i>	10%	
Readings and Discussions		30%
<i>Reading Responses</i>	20%	
<i>Leading Class Discussion</i>	10%	
Research: The Lives of Others		25%
<i>Choose a Social Group</i>	3%	
<i>Thesis and Sources</i>	6%	
<i>Field Report</i>	6%	
<i>Final Essay</i>	10%	
TOTAL		100%

Participation 15%

We will meet for two lectures in class each week. Please attend regularly, complete the readings before the class session, and take part in class discussions. There will also be an opportunity to discuss the course material in online forums. The participation grade combines your attendance with your engagement in class and online discussions.

In class, you are expected to follow [NJIT's Code of Student Conduct](#). You should be polite, active participants and respect your instructor, classmates, as well as ideas or opinions that differ from yours. Scholarly debates are encouraged but should not become personal attacks.

Exams 30%

There will be a total of **five tests** during the semester. Two are shorter quizzes, worth 3% each. Three are longer exams, each covering four units. Of these, two are worth 7% each, and the last one is worth 10%. The longer exams are **not cumulative**. Both quizzes and exams combine fixed response (multiple choice, matching) with short essay questions.

Responses and Discussions 30%

Please come to class having watched the lectures and read the assigned readings, ready to discuss them. During the course, **you will submit written responses to three readings**, randomly assigned. You will then coordinate with people submitting their responses at the same time to **lead class discussion**.

The due dates for responses and discussion leads remain as assigned even if our classes diverge from the schedule.

Reading Responses 20%

Three times during the semester, **before the first class session** we are covering the unit, you will submit a short essay engaging with the readings and the lectures in light of your own knowledge and experiences. In your responses, you will **share an observation** from the social and cultural world around you, **apply what you have learned** from the reading to interpret your observation, and offer at least two questions for discussion (total 2 pages, 500-600 words).

Reading responses are **submitted and graded individually**.

Leading Class Discussion 10%

Three times during the semester, **before the second class session for each unit**, the students who wrote the responses for the unit will submit, as a group, a **list of questions with explanations** chosen from all of their submissions (text document, 2-3 pages double-spaced; or presentation, 6-10 slides). They will also choose **two or more students per section** to introduce the questions, explain why they're important, and lead class discussion.

Discussion leads are **submitted and graded as group work**, reflecting **the quality of the written work** and the **preparation of the presenters**, averaged across all sections.

Research: The Lives of Others 25%

The theme of this course is to examine the diversity of people's perspectives and experiences. For the class project, you will research a social group with whom you are not familiar and try to get a glimpse into their lives, both by interacting with them and by locating relevant literature. This will give you a chance to try out ethnographic social research methods on your own.

Choose a Social Group 3%

For this first step, you will choose a social group whose experiences you would like to investigate, explain why they are of interest to you, and identify how you can interact with them. (up to 1 page, double spaced)

Thesis and Sources 6%

Next, you will narrow down your interest in the social group you chose, and outline a plan for your research. You will confirm the venues where you may interact with them, and locate literature that will help you clarify your findings. (2-3 pages, double spaced)

Field Report 6%

Then, you will report on your field research on your chosen social group. You will describe which data collection methods you employed, and what you found out. The information you provide will depend on the methods you use. (2-3 pages, double spaced)

Final Essay 10%

You will complete your project with a thesis-driven research essay, due the last day of class. (4-5 pages, double spaced).

Extra Credit Opportunities

Exams and Participation (credit varies)

There are extra credit questions on all exams. Additional points are awarded to students whose participation significantly contributes to the class.

Fourth Discussion Lead or Research Presentation 5%

You can take one of these options, not both:

- Write an additional discussion lead for a unit that wasn't assigned to you.
- Record a presentation of your research topic, slides with audio or video, 5-7 minutes.

If you'd like to avail yourself of these opportunities, you need to identify them and submit your work **by the end of the reading period**.

Examination and Late Policies

In general, tests are **open notes**, but you need to **take them on your own** and **not use outside sources**. Due dates for research assignments are flexible, for group assignments and discussion forums are not. Detailed information about this is in a separate document, *STS 201 Success and Integrity*, posted on Canvas.

Academic Integrity

Academic Integrity is the cornerstone of higher education and is central to the ideals of this course and the university. Cheating is strictly prohibited and devalues the degree that you are working on. As a member of the NJIT community, it is your responsibility to protect your educational investment by knowing and following the academic code of integrity policy. You can find it at: <http://www5.njit.edu/policies/sites/policies/files/academic-integrity-code.pdf>

Please note that it is my professional obligation and responsibility to report any academic misconduct to the Dean of Students Office. Any student found in violation of the code by cheating, plagiarizing or using any online software inappropriately will result in disciplinary action. This may include a failing grade of F, and/or suspension or dismissal from the university. If you have any further questions about the code of Academic Integrity, please contact the Dean of Students Office at dos@njit.edu.

Detailed policies on academic integrity can be found in the separate document *STS 201 Success and Integrity*, posted on Canvas.

Accommodations, Accessibility, and Other Services

If you need accommodation due to a disability please contact Scott Janz, Associate Director of the [Office of Accessibility Resources and Services](#), Kupfrian Hall 201, to discuss your specific needs. A Letter of Accommodation Eligibility from the office authorizing student accommodations is required.

For information on Canvas accessibility, please consult their [Product Accessibility Statement](#).

For more information on online learning resources, please refer to [this document](#), maintained by The NJIT Office of Digital Learning.
