**BILL HASLAM**  
GOVERNOR  
STATE OF TENNESSEE

February 1, 2016

To the members of the 109<sup>th</sup> General Assembly:

I am pleased to submit to you the fiscal year 2017 Budget for the State of Tennessee.

This budget is supported by a strengthening state economy and I am confident the projected revenue growth will support our budget recommendations being transmitted to you today.

The budget, as usual, includes funding increases to address program and inflation growth in the areas of Correction, TennCare, K-12, and higher education. I am also recommending important strategic investments in education, higher education, transportation, economic development and capital outlay; all of which are detailed in this document.

Lastly, I am recommending the revenue fluctuation reserve be increased by almost 18 percent to \$668 million.

Because every budget often presents its own unique challenges and opportunities, my administration is ready to work with you on the budget and other important issues to be covered in this legislative session.

Sincerely,

A handwritten signature in blue ink, appearing to read "Bill Haslam".

Bill Haslam

**STATE OF TENNESSEE  
DEPARTMENT OF FINANCE AND ADMINISTRATION  
STATE CAPITOL  
NASHVILLE, TENNESSEE 37243-0285  
Larry B. Martin  
COMMISSIONER**

February 1<sup>st</sup>, 2016

The Honorable Bill Haslam  
State Capitol  
Nashville, TN 37243

It is my pleasure to present to you the Budget Document for fiscal year 2017.

Although the state enters 2016 with good economic momentum, the potential deterioration in global economic activity causes us to have a more cautious outlook for Tennessee. This caution is reflected in our budget recommendation.

For fiscal year 2017, the recommended budget is based on a projected growth rate of 2.79 percent in total taxes. The total budget is \$34.78 billion of which \$16.38 billion is state appropriations; \$13.22 billion is federal; and \$5.18 billion is from other departmental revenues, higher education tuition and fees, and bonds.

Funding is recommended to address program and inflationary growth in TennCare, the K-12 Basic Education Program formula, and the outcome-based funding formula in higher education. The budget also recommends substantial funding for capital improvements and capital maintenance in both higher education and other areas of state government. To help maintain the quality of our transportation infrastructure, the budget supplements the highway fund with a \$130 million transfer from the general fund.

In our continued effort to find efficiencies within state government, the budget recommends \$96.3 million in reductions and is detailed in Volume 2. With these additional reductions, the administration will have successfully reduced spending almost \$470 million during the last five years.

With this budget, our revenue fluctuation reserve (commonly known as the Rainy Day Fund), will increase \$100 million to \$668 million. The reserve will now stand at five percent of general fund revenues.

In summary, the recommended budget is balanced. The investments proposed in education and higher education will support our long-term goal for fifty-five percent of Tennesseans to have a college degree or a certificate by the year 2025. In addition, the proposed investments in the capital fund and the transportation fund will improve the condition and quality of our state assets such as facilities and roads.

The Budget staff and I are available to assist you in working with the General Assembly on this important budget.

Respectfully submitted,

A handwritten signature in black ink that reads "Larry B. Martin".

Larry B. Martin  
Commissioner of Finance and Administration

# Budget Highlights

## Recommended Budget, Fiscal Year 2016-2017

The total recommended state budget for fiscal year 2016-2017 is \$34.8 billion, with \$16.4 billion from state appropriations, \$13.2 billion from federal funds, and \$5.2 billion from other departmental revenues, higher education student tuition and fees, and bonds for highway construction. This is an increase of \$833.6 million in total funding and \$849.7 million in state funding from the revised 2015-2016 spending estimates. Federal funding increased by \$429.8 million, other departmental revenues decreased by \$12.2 million, and bond funding decreased by \$433.7 million.

Mid-year review of state tax collections and advice from economists and the State Funding Board suggest that current-year estimates of taxes collected by the Department of Revenue show modest growth. The revised recurring current-year growth rate in the general fund is 3.40 percent compared with the actual 2014-2015 Department of Revenue collections. For fiscal year 2016-2017, before inter-fund reallocations, general fund taxes are expected to grow by \$348.9 million above the revised current-year estimate. This is a 3.25 percent general fund growth rate above the revised current-year estimate. Revenue growth rates are within the range of revenue growth recommended by the State Funding Board.

The revised revenue estimates for the current year and estimates for next year are based on a steady economic recovery through fiscal year 2015-2016 and beyond.

### Plan for Balancing

Supplemental appropriations in the current 2015-2016 fiscal year total \$48.5 million, \$23 million of which is in the Department of Economic and Community Development for infrastructure and job training assistance. Other programs requiring supplemental appropriations include three regional mental health hospitals (\$4.5 million), transition costs in the prison system's food service program (\$9 million), the restoration of funds previously reduced in Environment and Conservation's energy loan program (\$3.6 million), Revenue's new tax system (\$2.8 million), litigation pertaining to the Memphis aquifer (\$2 million), the restoration of funds in TennCare used to treat opiate addiction (\$1.6 million), the restoration of funds for the Court System's data repository (\$1.1 million), statewide performance pay (\$828,600), and the restoration of funds in the Treasury Department (\$20,000).

In fiscal year 2016-2017, the budget is balanced, with recurring revenues fully supporting recurring appropriations. This is accomplished by additional budget reductions in fiscal year 2016-2017. Base budgets in general fund programs throughout state government have been reduced by \$38 million and certain other programs have been increased by \$5.7 million for a net recurring base reduction of \$32.4 million in the general fund. The average general fund recurring reduction is 0.7 percent. (The reductions are detailed in **Volume 2: Base Budget Reductions**.)

---

## Budget Highlights

A total of 175 positions will be abolished as a result of reductions implemented in this budget recommendation. At this time, 87 of these positions are filled. Those employees impacted by the position reductions will be eligible for a severance package consisting of a base payment of \$3,200 and college tuition assistance for two years to be capped at the average of the highest four-year public Tennessee college undergraduate level. More than three-fourths of the filled position reductions are from one department, Children's Services, and result from a change in how juvenile offenders are treated.

### **Federal and State Mandates**

State expenditures in the TennCare program are matched according to a rate set by the federal government known as the Federal Medical Assistance Percentage (FMAP). The federal government determines this rate for all states based on changes in per-capita income. For fiscal year 2016-2017, federal participation in certain health care programs is decreasing from 65.035 percent to 64.984 percent. This requires an increase of \$3.9 million in state funding to TennCare and \$46,200 to the Department of Children's Services for foster care and adoption assistance to maintain the existing level of service in those programs.

A total of \$8.5 million in state funding is required to pay salary increases mandated by state law for certain job classifications within state government. These jobs and the state dollars necessary to fund the required increases include: state judges (\$77,600), the attorney general (\$500), assistant district attorneys and criminal investigators (\$1.2 million), assistant public defenders and criminal investigators (\$651,700), assistant post-conviction defenders (\$34,700), the governor (\$500), trooper step increases (\$919,400) and border-state survey (\$3.3 million), and wildlife officer step increases (\$518,900) and border-state survey (\$1.8 million).

State statutes mandate that teachers at the state-run schools must be compensated based on their training and experience. To fund this requirement, \$52,800 is provided to the Department of Children's Services for the Youth Development Centers and \$107,600 to the Department of Education's Special Schools.

### **K-12 Education**

For K-12 education, the cost to maintain full funding of the Basic Education Program (BEP) formula, which provides an equitable state share of K-12 public education funding to local education agencies (LEAs), is \$48.8 million. An appropriation of \$104.6 million is recommended for salary increases for teachers and other positions funded through the BEP formula, effective July 1, 2016. The amount of the salary increases will depend on each LEA's salary schedule and structure. To fund the 12th month of the cost of medical insurance for teachers in the BEP, an appropriation of \$29.5 million recurring is recommended. Instructional technology and infrastructure improvements to support classroom instruction in the LEAs are funded with \$15 million recurring. An appropriation of \$13.9 million will increase the number of teachers and translators for English Language Learner students. Adjustments to the BEP,

## Budget Highlights

including baseline and stability funding for LEAs and mandatory increases for certain formula components, are funded with a recurring appropriation of \$6.5 million. An effort to place special education students in the least restrictive educational setting is funded with \$4.8 million recurring. In total, state funding for the operations of local school systems funded by the BEP formula will increase by \$223.1 million.

New programs and initiatives in K-12 education include a statewide coaching and intervention initiative that will create a network of district literacy coaches and regional coordinators (\$9 million); a kindergarten entry screener test to identify, assess, and benchmark children for kindergarten readiness (\$1 million); professional development in English and math instruction for teachers (\$3.1 million); and comprehensive assessment in grades three through high school (\$6.5 million).

Administration legislation that eliminates two assessments in grades eight and ten, provides an opportunity to re-take the ACT free of charge, and requires the Education Department to release test questions and student results from the Tennessee Comprehensive Assessment Program (TCAP) tests is funded with \$832,100 recurring. Contract services related to the State Board of Education's charter school authorization activities is funded with \$125,000 recurring. Recurring funds of \$350,000 are recommended to implement the Individualized Education Act Program, which provides options for parents of certain students with disabilities to choose education opportunities that best meet the needs of their child. Reimbursement for members of the standards review committee is funded with \$244,000 non-recurring. An appropriation of \$440,000 is recommended for school leadership training for principals.

A recommendation of \$15.2 million funds the state share of a 6.1 percent group health insurance increase for LEAs effective January 1, 2017.

The Save the Children literacy program is funded another year with a \$1 million non-recurring grant and the Alliance of Boys and Girls Clubs will receive a \$125,000 non-recurring grant.

The total amount of new funding requested for K-12 education is \$261.1 million.

## Higher Education

Costs of the proposed Focus On College and University Success (FOCUS) Act are funded with a recurring appropriation of \$416,400. The FOCUS Act aims to enhance student success across higher education by providing additional support for community and technical colleges, increasing autonomy and local control of Board of Regents universities, and strengthening the Tennessee Higher Education Commission. The appropriation is for three positions – two academic affairs officers and a capital outlay director.

Increased operational costs in the University of Tennessee and Board of Regents systems are funded with a total general fund recurring recommendation of \$50 million. These funds may be used for salary increases as well as program improvements that assist the institutions in meeting

outcomes such as student progression, degree production, research and service, efficiency metrics, and other outcome measures related to institutional mission. A non-recurring appropriation of \$800,000 is recommended to award four to eight competitive grants to colleges and universities that develop action plans for addressing lagging outcomes, goals for increasing these outcomes, and metrics of success. Operating cost increases for non-formula units of higher education are funded with a recurring appropriation of \$7.1 million.

A 3.5 percent increase in group health insurance premiums effective January 1, 2016, is annualized with \$4.1 million. Six months of an anticipated 4.7 percent increase in group health insurance is funded with \$5.7 million. To encourage employee retirement savings, a recurring appropriation of \$1.6 million maintains the state's monthly 401(k) match at \$50.

In the Board of Regents system, an appropriation of \$28.7 million non-recurring is recommended for a consolidated enterprise resource planning system for community colleges. A portion of the funds will be paid back beginning in fiscal year 2022 after implementation is complete.

A joint effort between the University of Tennessee Health Science Center and St. Jude's Hospital to recruit pediatric physician scientists is funded with \$3 million non-recurring. This is the fourth year of what is expected to be a five-year commitment to this recruiting effort.

Recurring funding of \$13.2 million is recommended for need-based financial aid to serve eligible students through the Tennessee Student Assistance Awards (TSAA) program. This program provides grants to financially needy undergraduate students who are residents of Tennessee and who are attending in-state institutions.

The Labor Education Alignment Program (LEAP), which aims to eliminate skills gaps by encouraging collaboration across education and industry, is expanded with \$10 million non-recurring. A temporary administrative position is added to the program with a non-recurring appropriation of \$96,300.

Various grant programs and initiatives for higher education students are funded with a total recommendation of \$5.5 million. This amount includes \$2.5 million non-recurring and three temporary positions for a College Advisor Corps that will provide one-on-one assistance for students completing college admission forms and financial aid applications; \$1 million non-recurring for competitive Veteran Reconnect grants that will be used to train faculty and staff who work with students who have served in the armed forces; \$800,000 non-recurring for competitive grants to institutions to develop programs that will recruit and retain students eligible for the Tennessee Promise Scholarship program; \$469,100 non-recurring to expand the Seamless Alignment and Integrated Learning Support (SAILS) program to Shelby County; \$400,000 non-recurring to address remediation needs of Tennessee Promise students during the summer prior to fall semester enrollment; \$200,000 non-recurring to fund two temporary positions in the Adult Learner Program; and \$150,000 non-recurring for student outreach and Drive to 55 operations.

---

## Budget Highlights

Recurring funds of \$383,300 are recommended to fund administrative functions in the Tennessee Higher Education Commission, Tennessee Student Assistance Corporation, and the Foreign Language Institute.

### Health and Social Services

An additional \$64.3 million in recurring state funding is recommended for the TennCare program to off-set increased costs due to increased enrollment in the program. To manage that enrollment increase, an additional \$4.5 million to fund 250 eligibility determination positions is also requested. Increasing pharmaceutical and premium costs in Medicare Part B and Part D are funded with an appropriation of \$77.7 million. The higher cost of services provided to members of the Intellectual and Developmental Disabilities waiver is funded with \$588,900.

A new program for people with intellectual and developmental disabilities is recommended with an appropriation of \$19 million and eight positions. The new program, called Employment and Community First (ECF) CHOICES, will promote and support integrated, competitive employment and independent living as the first and preferred option for individuals with intellectual and developmental disabilities. Enrollment in the program will include some individuals currently on the waiting list for services from the state. A reallocation of \$5.1 million in existing state funds in the Greene Valley Developmental Center will bring the total appropriation for ECF CHOICES to \$24.1 million.

In anticipation of an expected change in federal requirements, an appropriation of \$1.7 million is requested to transition intellectually and developmentally disabled individuals from facility-based day services. A six month extension allowed under the Clover Bottom Lawsuit Exit Plan is funded with an appropriation of \$6.3 million in TennCare and \$277,900 in the Department of Intellectual and Developmental Disabilities (DIDD). TennCare's share of other cost increases in the Department of Children's Services is funded with \$1.7 million recurring.

Funding for buprenorphine, a drug used to treat opiate addiction, is restored with \$1.6 million. In fiscal year 2015-2016, the use of buprenorphine was limited to two years for TennCare enrollees.

Bureau of TennCare general fund cost increases, including the federal match rate change described in the **Federal and State Mandates** section, total \$189.8 million and are matched with \$309.6 million in federal funds for a total of \$499.4 million in new funding for the state's TennCare program.

In the Department of Health, \$1.4 million and eight new positions are recommended to respond to potential outbreaks of Hepatitis C, HCV, and HIV in the state. Emphasis will be on testing individuals and providing educational materials to at-risk populations to prevent those diseases from spreading. Administration legislation pertaining to the training of county medical examiners and death investigators is funded with \$527,800.

---

## Budget Highlights

Various grant programs are funded with non-recurring appropriations, including the Healthy Start (\$1.5 million) and Child Health and Development (CHAD) (\$450,000) home visitation programs; sickle cell research by the Sickle Cell Foundation of Tennessee (\$75,000) and the Methodist Healthcare Foundation (\$50,000); the Health and Wellness Foundation (\$3 million); the Tennessee Men's Health Network (\$50,000); and epilepsy programs (\$103,100).

In the Department of Mental Health and Substance Abuse Services, an appropriation of \$5.5 million is requested to off-set the loss of revenue associated with changes in insurance trends for patients served at the state's regional mental health institutes. Efforts to maintain Joint Commission on Accreditation of Healthcare Organizations (JCAHO) standards at Moccasin Bend Mental Health Institute are supported with an additional \$1.5 million recurring. Also in the department, \$1.3 million is requested to fund nine new drug recovery courts, two new veteran treatment courts, and three existing veteran treatment courts. There are currently 27 counties without access to recovery court services and this appropriation will make those services available to those counties.

In the Department of Children's Services, recurring appropriations of \$5.2 million and 60 new positions related to the Brian A. Settlement Agreement are recommended. This amount includes a rate increase for private providers of services to children, a foster care rate increase, funds for growth in the adoption assistance caseload, 52 additional child protective services case managers, and other administrative costs.

## Safe Communities

An appropriation of \$10.2 million and 102 new positions in the Department of Correction is recommended to fund administration legislation that will decrease admissions to state prisons by implementing a graduated sanctions system for violations of community supervision, including probation and parole. The legislation also increases the minimum period of incarceration for certain offenses such as aggravated burglary, drug trafficking, and domestic assault. Of the \$10.2 million requested for this legislation, \$9.6 million is recurring and \$575,000 is non-recurring. Separate pieces of legislation that enhance sentencing for individuals convicted of bringing contraband into a state youth development center and for individuals committing TennCare fraud are funded with \$66,300 and \$63,100 respectively.

Cost increases in contracts with non-state service providers are funded with \$2.5 million. These contract increases include Hardeman County-Whiteville (\$941,700), South Central Correctional Center (\$736,300), and the Hardeman County Incarceration Agreement (\$871,000). Cost increases in the state's sex offender treatment program are funded with an appropriation of \$1.3 million. New software for inventory and asset management is funded with \$924,000. An amount of \$600,000 is recommended to update Hepatitis C standards in the state's prison system.

A recommendation to add 12 state trooper positions to the Highway Patrol is funded with a recurring appropriation of \$413,500 and a non-recurring appropriation of \$739,200 for a total of \$1.2 million. The Department of Safety will use some existing unobligated payroll dollars to

fully fund the 12 trooper positions. A Federal Communications Commission (FCC) requirement to operate all radios on a 6.25 KHz digital bandwidth is funded with a recurring appropriation of \$1 million in the Department of Safety for maintenance and security upgrades.

### **Business and Economic Development**

An appropriation of \$70.9 million is recommended for the Jobs4TN program in the Department of Economic and Community Development to create new opportunities for Tennessee's workforce and to support the growth and retention of the state's traditional jobs base. Of this amount, \$15 million is recurring and \$55.9 million is non-recurring. This appropriation is necessary to recruit new businesses and support workforce training, marketing, and education.

A new Rural Development Initiative to assist rural communities and distressed counties was announced at the Governor's Conference on Economic and Community Development in October 2015 and a non-recurring appropriation of \$10 million is recommended to fund that assistance. Aid to eligible areas will include help with site development, community asset improvements, marketing, strategic planning, downtown revitalization, and technical assistance. The new initiative will increase the ability of rural communities to attract businesses and enhance local economies.

The second year of a five-year commitment to fund manufacturing research at Oak Ridge is funded with a non-recurring grant of \$3 million. A recurring appropriation of \$95,000 funds an increase in assessment fees from the Federal Delta Regional Authority, which provides economic development assistance to counties in the Mississippi River Delta Region.

The fourth year of a tourism marketing task force in the Department of Tourist Development is funded with a \$5 million non-recurring appropriation.

Six additional positions needed to improve food safety, public health, and consumer protection are funded with an appropriation of \$2 million in the Department of Agriculture. The source of this funding is the agricultural regulatory fund. Producer grants given to eligible farmers through the Tennessee Agricultural Enhancement Program are increased by \$1.1 million of which \$698,300 is from state appropriation and \$396,000 is from the agricultural regulatory fund.

### **Natural Resources and Regulation**

To reduce the maintenance backlog in state parks, a recurring appropriation of \$4 million is recommended. Also in the park system, five positions funded with \$441,500 are recommended to supplement existing staff at parks during peak attendance months. These new positions will work at multiple parks as attendance requires.

A new preservation specialist position in the Historical Commission to assist in administering the federal National Historic Preservation Act is recommended and funded with \$63,600.

---

## Budget Highlights

Proposed administration legislation to assist local governments in the disposal of automotive fluid is funded with a \$300,000 appropriation, of which one-half is recurring and the other one-half is non-recurring.

Five new positions and \$489,600 in non-recurring appropriation is recommended for the Department of Labor and Workforce Development to comply with statutory requirements pertaining to the permitting of certain amusement devices. After two years, the five positions will be funded with program fees. Also in the department, a new statistical research position with funding of \$97,500 is recommended in the Division of Workers' Compensation.

### **Pay For Performance and Employee Benefits**

To continue implementing pay for performance in executive branch agencies, an appropriation of \$25.8 million is recommended. This amount is the equivalent of a 4 percent across-the-board increase; however, the percentage increase each employee receives will be based on an evaluation score of valued, advanced, or outstanding. Employee evaluations will be completed on September 30, 2016, and the resulting salary increases will be effective on January 1, 2017. The six-month cost of these performance-based increases will be \$25.8 million in fiscal year 2016-2017 and the annualized cost will be \$51.7 million.

Salary increases for state employees not covered by the Tennessee Excellence, Accountability, and Management (TEAM) Act will be funded with an appropriation of \$4.2 million, which is the equivalent of a 3 percent across-the-board increase. The amount of increase each employee receives will be decided by the appointing authorities of those agencies and those increases will also be effective January 1, 2017. The annual cost of this recommendation is \$8.4 million.

Market adjustments for certain job classifications are funded with an appropriation of \$36.1 million. These adjustments are recommended to keep state salaries competitive with the salaries of similar jobs in the private sector and other non-state government agencies. Market adjustment salary increases will be effective July 1, 2016.

Changes to state employee benefits include a January 1, 2016, 3.5 percent group health insurance premium increase annualized with an appropriation of \$4.8 million. Six months of a projected 4.7 percent increase in group health insurance premiums effective January 1, 2017, is funded with \$6.6 million. A Medicare supplement for retired teachers and state employees is funded with \$8.9 million. That amount is the cost of providing a fixed contribution based on the retiree's length of service. To encourage employee retirement savings, a recurring appropriation of \$2.5 million maintains the state's 401(k) monthly match at \$50.

For state employees losing their jobs as a result of position reductions included in the recommended budget, severance packages consisting of a base payment of \$3,200 and college tuition assistance for two years (to be capped at the average of the highest four-year public Tennessee college undergraduate level) are funded with a non-recurring appropriation of \$900,000.

## **Information Technology**

This budget recommendation also includes a plan to implement a new management structure for information technology services in state government. The new structure, known as Enterprise Information Technology (EIT) Transformation, was developed after consultation with private sector technology experts, state agencies, and the Office of Information Resources. This new initiative will implement a unified technology services delivery model that upholds uniform processes and standardizes methodologies under a single organizational structure. This will eliminate duplication of effort among state agencies and reduce information technology project failures.

Following the recommendations of an information technology consultant, 25 new positions will be established in Business Solutions Delivery (BSD), a division of Finance & Administration. Those positions and recommended NextGen salary upgrades for existing staff will be funded with an appropriation of \$5.8 million. The state's Office of Information Resources will be re-named Strategic Technology Solutions (STS) and an additional seven administrative positions funded by state agencies are recommended for that division. Sixteen state agencies will be transferring approximately 300 existing information technology positions to BSD. NextGen salary increases for staff working on the state's enterprise resource planning system, Edison, are funded with a revenue estimate of \$1.1 million to come from state agencies.

The Bureau of TennCare is requesting a new eligibility system to be funded with \$8.3 million from the TennCare Reserves and \$65.5 million in federal revenue for a total of \$73.8 million.

Non-recurring funding of \$14.6 million is recommended for the Electronic Public Health Information (EPI) System. This new system will track and manage core public health services such as immunizations; primary care patient encounters; client visits; and Women, Infants, and Children (WIC) program clients. The EPI System will also include electronic medical record functionality, something not found in the antiquated Patient Tracking Billing Management Information System (PTBMIS) currently used by the department.

An electronic medical records system is also funded in the Department of Mental Health and Substance Abuse Services with a non-recurring appropriation of \$5 million and seven positions. This new system will be used by the department's regional mental health hospitals to improve clinical, administrative, and financial operations.

The Department of Revenue requests \$12.7 million non-recurring and 16 temporary positions for a new revenue and tax collection computer system. The new system is a commercial off-the-shelf product called GenTax that has already been implemented in 20 states. It will replace the existing COBOL-based Revenue Integrated Tax System (RITS), which was implemented over 20 years ago. The Revenue department anticipates the new system will enhance customer service, increase productivity and efficiency, and offer opportunities to increase revenue collections.

## Budget Highlights

Also in the area of information technology, \$630,900 is recommended to match \$420,600 in agency revenues for a total of \$1.1 million to purchase hardware, software, and contracted services to improve the security of the state's data and computer systems.

### Capital Outlay

Capital outlay in fiscal year 2016-2017 totals \$429.2 million, including \$355.9 million in non-recurring current funds and \$73.3 million from federal and other sources. An appropriation of \$121.1 million is recommended for statewide capital maintenance, including \$46.2 million for general government, \$45.5 million for the Board of Regents, and \$29.4 million for the University of Tennessee. Sentencing Act funds are the source of \$12.1 million for capital maintenance in the Department of Correction.

The Facilities Revolving Fund (FRF) capital budget provides an additional \$152.2 million for projects and maintenance of state office buildings and similar facilities maintained through agency rent payments.

### Revenue Fluctuation Reserve

The revenue fluctuation reserve allows services to be maintained when revenue growth is slower than estimated in the budget, mainly during economic downturns. The revenue fluctuation reserve was \$491.5 million on June 30, 2015, and is estimated to be \$568 million on June 30, 2016. A recommended deposit to the fund of \$100 million in fiscal year 2016-2017 will have the total revenue fluctuation reserve at \$668 million on June 30, 2017.

### TennCare Reserve

The TennCare reserve consists of prior-year unspent funds appropriated to the TennCare program. The unobligated reserve, as of June 30, 2015, is \$267.7 million. A transfer of \$8.3 million is expected in the current year to fund a new eligibility system, so the balance is projected to be \$259.4 million on June 30, 2016. The balance is expected to be the same on June 30, 2017.

### Conclusion

The budget document includes narrative program statements for each of the line-item programs for which funds are recommended. In addition, detailed statements explain the recommended cost increases. **Volume 2: Base Budget Reductions**, describes the reductions in recurring funding by program.

# The Budget Document

## Introduction

Tennessee Code Annotated, Section 9-4-5106, requires that the financial plan of Tennessee's state government be presented in three parts:

**1. Financial Policy** – The state's financial policy, contrasting the relationships between expenditures and revenues from all sources that are estimated for the ensuing fiscal year, with the corresponding figures for the latest completed fiscal year and the fiscal year in progress; and a budget summary;

**2. Detailed Budget Estimates** – Estimates of expenditures and revenues, including all funding sources; program statements; statement of the state's bonded indebtedness, detailing redemption requirements until retirement, the net and gross debt of the state, and condition of the sinking fund; and

**3. Appropriations Bill and Other Budget Bills** – The General Appropriations Bill, through which the General Assembly gives legal sanction to the financial plan it adopts. Upon passage, this bill appropriates by agency and funds the expenditures for the ensuing fiscal year. The revenues by which these expenditures are financed also are detailed in this bill. In addition, other bills required to give legal sanction to the financial plan must be filed.

Parts one and two are included in the budget document. The format of the budget document is reviewed annually for clarity and content. Part three, the Appropriations Bill and other budget legislation, such as the Bond Authorization Bill, are separate documents.

The "Introduction" section of the budget document begins with transmittal letters from

the Governor to the General Assembly and from the Commissioner of Finance and Administration to the Governor. These letters and the following budget highlights summarize the policy and financial recommendations included in the document.

The next section of the budget document, entitled "Budget Overview," is a brief summary of the total budget.

This overview is a series of charts and schedules that summarize the Budget. The total state budget and the general fund budget are represented by pie charts that detail each major tax and each functional area for the recommended budget. Tennessee's current tax structure has the majority of its tax revenue coming from the sales tax, the largest portion of which funds K-12 education.

The overview schedules clarify and detail the expenditures, revenue sources, and personnel requirements of state government.

The budget document has several total budget schedules comparing programs by funding source and showing how those funds are derived.

Also included are tables that list, by department, the cost increases proposed for the next fiscal year. A separate table lists, by department, proposed base budget reductions, indicating the percentage of reduction compared with general fund state appropriations and with so-called discretionary appropriations. The discretionary appropriations exclude appropriations from all dedicated taxes and fees, federal aid, and other departmental revenue; and general fund appropriations for the K-12 Basic Education Program (BEP), pre-kindergarten, constitutionally and statutorily required salaries of judges, 31 district attorneys general, 31 public defenders,

## The Budget Document

and certain programs affecting indigent or low-income persons.

There are two charts that provide the total fund balance available, indicating the appropriation requirements and the general fund and education fund revenues and reserves available to meet that need: "General Fund and Education Fund, Comparison of Appropriation Requirements and State Revenues" for the current year, and next (or recommended budget) year. The two charts show how the budget is balanced against general fund and education fund tax revenues for the two fiscal years. Because of its dedicated funding sources, the Department of Transportation's appropriation requirements and revenue sources are stated on a separate chart.

All agencies and departments are included in the summary comparison schedules by program and funding source.

Other schedules provide detail on the supplemental appropriations required to maintain programs in the current fiscal year, the Constitutional spending limitation requirement, a summary of personnel and funding for all state agencies and higher education institutions, and Tennessee characteristics, which include demographic and other information on the state.

Charts in the overview summarize base budget reductions and base budget adjustments (increases). The charts reflect changes from the current-year work program recurring state appropriations.

The overview also includes charts summarizing the lottery for education revenue estimates, program requirements funded from the lottery revenue, and lottery reserve fund balances.

The section entitled "State Tax Revenues" presents state tax revenue estimates for the ensuing fiscal year, compared with actual collections for the previous year and the revised estimate for the current year. This section explains the various sources of revenue, by collecting

agency, and the statutory apportionment among the various funds: the general fund, education fund, highway fund, sinking (or debt service) fund, and cities and counties fund.

Included in the "Financial Statements" section are the comparative balance sheets for the general fund, education fund, and highway fund.

This section is followed by the expenditures and requirements of the debt service fund for the previous, current, and subsequent fiscal years. A debt service fund comparative balance sheet also is included.

The status of the various authorized and unissued bonds is given in a schedule of bonds and appropriations made for capital purposes in lieu of bond issuance. The statement of bonded indebtedness presents the retirement schedule for the state's bonded debt. The cost of outstanding bonds is reflected as principal and interest.

The proposed capital outlay for the ensuing fiscal year is included within the "Capital Outlay and Facilities Program" section. Specific projects are shown for each department impacted, along with capital maintenance. Whether from current funds of the general fund, the sale of general obligation bonds, or from other sources, the proposed funding for each project is indicated.

All of the summary charts and program statements in this budget document include appropriations from all state sources, both general taxes and dedicated taxes and fees.

The major portion of the budget document is "Program Statements by Functional Area." For presentation in the budget document, departments and agencies with related missions, programs, goals, and objectives are grouped, resulting in six functional areas. This enables legislators, policy-makers, and citizens to have a better concept of the magnitude and costs of services provided through the various functional areas of state government.

---

## The Budget Document

At the beginning of each functional presentation is an introduction to the associated agencies, followed by a list of the cost increases that are recommended for that area of state government. The cost increase list is followed by tables that show the total expenditures, funding sources, and personnel of each functional area.

The activities and responsibilities of the departments and agencies are explained through narrative descriptions of each program.

Following this narrative, fiscal and personnel data are provided for the last completed year, the current year, and the next year.

The next-year estimates include the level

of funding and number of positions for the recommended base budget, program cost increases, and the total recommended.

Base budget reductions necessary to balance general fund appropriations are included in the recommended base budget of this document by program. The specific base reductions by program are itemized in a separate Volume 2, Base Budget Reductions.

Following the “Program Statements by Functional Area,” the next-to-last section of the budget document is “Budget Process.” This section includes explanatory sections entitled “The Budget Process,” and “Basis of Budgeting and Accounting.”

The final section is the “Glossary and Index.”

## Tennessee Promise Last Dollar Scholarship Multi-Year Projection Fiscal Years 2015-2016 Through 2017-2018

The Tennessee Promise Scholarship program was created by Public Chapter 900 of the Public Acts of 2014. Promise is both a scholarship and mentoring program. The scholarship will provide funding to cover tuition and mandatory fees not covered by the Pell Grant, the Tennessee Education Lottery Scholarship, or TSAA funds. Students may use the scholarship at any of the 13 community colleges, 27 colleges of applied technology, or four-year public or private institutions offering an associate degree program. Promise will also provide guidance to each participant. Each participant will receive assistance from a mentor who will assist the student as he or she navigates the different facets of college. In addition, Promise participants must complete eight hours of community service per term enrolled, as well as maintain satisfactory academic progress (2.0 GPA) at their institution. The second class will enroll Fall 2016.

## Federal Funding and Aid Trends

### Recommended Budget, Fiscal Year 2016-2017

The total recommended budget for the fiscal year is \$34,783,620,200 with 38% from federal sources. The \$13,222,725,100 of federal funding is an increase of 3.36% from the 2015-2016 estimate. Of the total federal funding, \$6,787,438,900 (51%) is recommended for TennCare expenditures, \$2,582,411,700 (20%) for the Department of Human Services, \$1,114,013,000 (8%) for the Department of Education, and \$2,738,861,500 (21%) for all other state programs.

The Bureau of TennCare receives funds from the federal Department of Health and Human Services to administer the state's Medicaid waiver program. The Tennessee Department of Human Services administers multiple federal programs, with the Supplemental Nutritional Assistance Program (formerly known as Food Stamps) being the largest. The Tennessee Department of Education also administers multiple large federal programs, receiving funds from the federal Department of Education, for such programs as grants to Local Education Agencies, Special Education, and School Nutrition programs.

Since fiscal year 2011-2012, non-TennCare federal funding has remained flat from the expiration of non-recurring sources, including American Recovery and Reinvestment Act and Race to the Top funds. In the TennCare program, a flat trend in federal funding from fiscal years 2011-2012 to 2014-2015 is offset by increased federal funding in fiscal years 2015-2016 and 2016-2017. The increases in 2015-2016 and 2016-2017 are largely due to medical inflation and utilization in the program, increased cost-sharing for dual-eligible enrollees, implementation of an information system, and implementation of a new waiver for intellectually and developmentally disabled enrollees. The impacts to the TennCare budget are displayed elsewhere in this budget.

### **Significant Federal Funding Program Actions - 2009 to 2016**

In February 2009, Congress passed the American Recovery and Reinvestment Act (ARRA). From state fiscal year 2008-2009 to 2013-2014, the act awarded over \$6 billion to the State of Tennessee. The funds awarded included enhanced Medicaid matching funds, grants to Local Education Agencies, increased Supplemental Nutrition Assistance Program (Food Stamp) benefits, special education grants, and infrastructure grants for highways and bridges.

Also, the State of Tennessee applied for and won a \$500 million multi-year grant in 2010 to improve educational outcomes as part of the Race to the Top program outlined in ARRA. This funding was fully obligated by June 30, 2014.

Another federal aid development is the passage of the Budget Control Act of 2011, a law designed to provide for an increase in the federal debt limit while reducing long-term budget deficits. Most significantly for the states, the act established spending caps on discretionary spending programs through federal fiscal year 2021 and included automatic procedures to reduce spending over a 10-year period by over \$1.2 trillion. The automatic spending cuts, known as sequestration, were triggered on January 2, 2013 and effective March 1, 2013. As a result, 242 state-administered federal programs in Tennessee were reduced \$71.8 million for fiscal year 2013-2014. The Bipartisan Budget Act of 2015 raised the discretionary program spending caps in federal fiscal years 2016 and 2017 while also extending the imposition of sequestration spending caps beyond 2021 to federal fiscal year 2025. As a result, there are no additional sequestration reductions of federally funded programs in state fiscal years 2015-2016 or 2016-2017.

### **Fiscal 2017 Outlook**

For fiscal year 2016-2017, increased aid from the federal government is recommended largely in the TennCare program. Of the total cost increase from federal sources of \$332,236,300, the share directed to the TennCare program is \$309,643,300. A factor reducing the federal aid estimate in both the TennCare and Department of Children's Services budgets is the loss of federal funds due to a decrease in the Federal Medical Assistance Percentage (FMAP). The FMAP is the rate at which the federal government matches state appropriation expenditures in the programs. The FMAP formula measures a state's personal income relative to the nation. The revised FMAP reduced fiscal year 2016-2017 federal funding by \$3,967,600 in TennCare and the Department of Children's Services. An increase in state appropriations is recommended to offset this loss of federal funds.

# Tennessee Economic Overview

Recommended Budget, Fiscal Year 2016 – 2017

*Tennessee's fiscal environment depends on economic conditions that influence both the expenditure and revenue sides of the state budget. The Center for Business and Economic Research at the University of Tennessee prepared this summary of current economic conditions and expectations for short-term economic growth in Tennessee and the nation. For additional information, see the most recent edition of "An Economic Report to the Governor of the State of Tennessee."*

The state economy entered 2016 with good momentum, building on the strength of the national economy, which was buoyed by a healthy pace of job creation and a rebounding housing sector. The global economy will be the primary risk factor confronting the state economy in 2016. A slowdown in economic activity abroad, brought about in large part by a slowdown in the Chinese economy, has rippled across the global marketplace. China's slowdown has led to a dramatic reduction in the demand for commodities including petroleum products. As a result, prices for these goods have fallen precipitously. As the global economy has faltered, the value of the dollar has risen in international currency markets, reducing the attractiveness of exports from Tennessee and the U.S. A silver lining is lower gasoline prices which have freed up purchasing power, in turn helping to support consumer spending. While the outlook for 2016 and 2017 is largely positive, especially given the newfound strength and resiliency of the domestic economy, further deterioration in global economic activity will dampen growth in Tennessee.

The discussion that follows provides additional background on current economic conditions and the economic outlook for the state and nation to help frame the state's fiscal outlook for the upcoming fiscal year. For more information on the economic outlook for the U.S. and Tennessee, see *An Annual Report to the Governor of the State of Tennessee*.

## **Recent Economic Conditions**

Once again, U.S. economic growth had a poor showing in the first quarter of last year, and once again it was the result of one-time events, including adverse weather. Growth improved in subsequent quarters yielding annualized growth in inflation-adjusted gross domestic product (GDP) of 2.4 percent in 2015. The national labor market showed strong job growth, including almost 300,000 new jobs in December, and an unemployment rate that fell to 5.0 percent. Consumer spending was a major economic driver, building on an improving labor market and decent earnings growth. Automobile sales, including light trucks, were especially strong. The nation's housing market generally showed improvement over the year. The Federal Reserve demonstrated its confidence in the economy by increasing the federal funds rate from zero to 0.25 percent, the first rate increase in nine years. The only real threat to economic growth was the slowdown in the global economy, driven by a slowdown in China and its large manufacturing sector.

Strong economic growth for the nation carried over to the Tennessee economy. Nonfarm job growth in Tennessee came in at 1.8 percent, slightly below the nation's rate of job creation, and the state's manufacturing sector saw another year of net job growth. The unemployment rate drifted down to 5.6 percent in November, marking significant improvement over the 6.6 percent rate that prevailed in November 2014. Despite these labor market gains, the state's labor force participation rate remains severely depressed. Nominal personal income was up 4.7 percent in 2015, significant improvement over the 3.7 percent gain in 2014.

## **Short-Term Economic Outlook**

The economic outlook for 2016 and 2017 points to healthy, sustained growth for the

state and the national economies. Consumer spending and ongoing improvement in the housing market will be major economic drivers. With gasoline prices continuing to edge down due to a combination of growing supply and sagging demand, consumers will be in a strong position to help offset any headwinds from the global economy. Exports will continue to struggle and private investment is expected to grow at a modest rate. The Federal Reserve is expected to raise interest rates by at least a percentage point over the course of the year unless economic weakness emerges.

Inflation-adjusted gross domestic product for the nation will be up 2.7 percent in 2016 and 2.9 percent in 2017. Consumer spending will grow by at least 3 percent this year and next year, with stronger growth taking place in the durable goods sector which includes automobiles. Nonfarm employment will be up 1.7 percent in 2016 and 1.3 percent in 2017. Slower rates of job creation will occur as labor markets tighten further. Consumer price inflation will show only 1.2 percent

growth as energy prices help restrain the overall level of price increase. The value of residential fixed investment will be up 9.5 percent and 9.6 percent in 2016 and 2017 as the nation's housing sector moves closer to full recovery from the depths of the Great Recession.

Tennessee's inflation-adjusted gross domestic product should experience 2.3 percent growth in 2016, slightly below the growth rate anticipated for the national economy. In Tennessee, nominal personal income should be up 4.8 percent for the calendar year and up 4.6 percent for the 2016-2017 fiscal year. Nonfarm employment will grow 1.8 percent and the state's manufacturing sector will see job growth of 0.7 percent. The state's transportation equipment sector will help lead the manufacturing sector forward in both 2016 and 2017. The state unemployment rate will average 5.6 percent in 2016 compared to a U.S. unemployment rate of 4.9 percent. The higher state rate is a continuation of a trend that was established before the Great Recession.

# State Tax Revenues

## Introduction

Recommended Budget, Fiscal Year 2016-2017

The revenues necessary to finance state government are collected from a variety of sources. The primary source of funding for state expenditures is appropriation from general revenues. General revenues are proceeds from taxes, licenses, fees, fines, forfeitures, and other imposts laid specifically by law.

The revenue estimating process generally starts twelve months before a fiscal year begins. Revenue collections are tracked on a monthly basis, and this information, along with specific long-run forecasts of individual sectors of the economy, is used to form the basis for the next fiscal year's estimated revenue collections.

Preliminary estimates are supplied to the Department of Finance and Administration in mid-summer by the Department of Revenue and the University of Tennessee Center for Business and Economic Research. Tax estimates are recalculated in October and November and refined in December and January for inclusion in the Governor's budget document.

Sales tax estimates are based on estimated retail sales activity, which is provided by the Center for Business and Economic Research. Corporate excise tax estimates are made as late as possible in the year to take advantage of the latest available corporate profit forecasts for the nation and the October state tax returns filed with the Department of Revenue, which provide information useful in projecting quarterly estimated corporate tax payments through the next year.

Estimates for selective excise taxes are commonly based on long-run consumption trends for the selectively-taxed items: cigarettes, gasoline, beer, and alcoholic beverages. Long-run trend analysis is also used as a basis for projecting corporate excise and franchise tax collections and Tennessee Valley Authority in lieu of tax payments.

Motor vehicle fuel (primarily diesel fuel)

and motor vehicle registration fees are estimated conservatively, given their sensitivity to business cycles (especially the truck-related components of both taxes).

The revenue estimating process in Tennessee incorporates the "Good Practices in Revenue Estimating" endorsed by the National Association of State Budget Officers and the Federation of Tax Administrators. This requires using national and state economic forecasts, developing an official revenue estimate, monitoring and monthly reporting on revenue collections, and revising estimates when appropriate.

Tennessee Code Annotated (TCA) 9-4-5104, 5105, 5106, and 5202 specify the manner in which tax revenue estimates are prepared and transmitted to the General Assembly in the budget document.

The Commissioner of Finance and Administration prepares revenue estimates based on advice from economists, his own staff, the Department of Revenue, and the State Funding Board. The State Funding Board, which is composed of the Governor, the Commissioner of Finance and Administration, the Comptroller, the State Treasurer, and the Secretary of State, is assisted in preparing its range of revenue growth estimates by economists from the state's universities, the executive director of the Fiscal Review Committee, and staff of the Department of Finance and Administration, Department of Revenue, and the Treasurer's Office. The State Funding Board prepares and recommends a range of revenue growth estimates using the information provided by the economists, the executive director of the Fiscal Review Committee, and staff.

The State Funding Board's review and recommendations concern only the taxes collected by the Department of Revenue. The growth estimates provide a basis for the tax revenue estimates that are used in preparing the budget. However, recommendation of revenue estimates in the budget is the responsibility of the Governor

and Commissioner of Finance and Administration.

The State Funding Board's most recent letter notifying the Governor and the chairmen of the Senate and House Finance, Ways and Means committees of its revenue growth estimates is included at the end of the state revenues section in subsection entitled "State Funding Board, Range of Tax Revenue Estimates." This letter states the economic assumptions affecting the State Funding Board's recommendations. A more detailed economic overview is presented in the "Budget Overview" section of the budget document.

The tax revenue estimates recommended in the budget document are shown in a following subsection entitled "Comparison Statement of State Revenues." These taxes include not only the taxes collected by the Department of Revenue (the major taxes), but also those collected and deposited to the general fund by some other line agencies in conjunction with carrying out their programs. In the revenue estimate charts, the latter are shown by collecting agency and are subtotaled as other state revenue.

Following the chart comparing taxes for the three fiscal years are three charts included to show collections by fund. The distribution of taxes among the funds on these charts is as provided by law as it existed last year for 2014-2015, actual revenue and as it exists currently for 2015-2016, and 2016-2017 estimates. The funds on the distribution charts, for the budget document presentation, are general fund, education (trust) fund, highway (transportation) fund, debt service fund, and cities and counties (local government) fund. (For information about the inclusion of certain special revenue fund taxes and fees in the general fund estimates, see the "Budget Process" section).

Following the four tax revenue estimate charts is a chart detailing the revenues of regulatory boards, with the collections and

estimates listed by board. This is a supporting schedule to the "Comparison Statement of State Revenues" charts, on which single lines for regulatory board fees appear.

In addition to the general revenues detailed in this section, other revenues are collected by departments, institutions, and agencies and are appropriated directly to them. These are called departmental revenues. In the budget document, these departmental revenues are estimated by program and are shown as federal revenue, other revenue (or, sometimes, current services and other revenue), and tuition and fees. The term "other revenue" includes interdepartmental revenue, current services revenue, non-governmental revenue, and revenue from cities and counties. These various departmental revenues consist of earnings and charges for goods and services; student tuition and fees in the higher education system; and donations, contributions, and grants-in-aid from the federal government, political subdivisions, foundations, corporations, and individuals. In a few cases, the other departmental revenues also include reserves from revolving funds or from the unencumbered balance and capital outlay (major maintenance) reserves, in instances in which specific legal authority to carry such funds forward exists. The departmental revenues are reflected in each department's budget as operating revenue.

The next subsection titled "Tax Expenditures" presents two tax exemption charts labeled "Items Not in Sales Tax Base" and "Major Tax Exemptions", as required by law.

Subsequently, information presented in the subsection entitled "Revenue Sources and Basis of Apportionment" outlines the general tax revenues by collecting agency, along with TCA citations on the rate and source of the revenue and the basis of apportionment among funds and agencies, based on current law.

# Tax Expenditures

Recommended Budget, Fiscal Year 2016-2017

Tennessee Code Annotated 9-4-5106(a)(1)(B) requires the Budget Document to include a schedule of exemptions from state taxes. This section is intended to fulfill that statutory obligation.

Under the law, the budget document is required to identify all exemptions from state taxes, to the extent that it is practicable, and estimate the amount of revenue that would have been collected by the state in the ensuing fiscal year, if the exemptions were not to exist. No format or reporting period is specified.

## Tax Exemptions

It is not possible to estimate the amount of revenue lost for each of the tax exemptions found in the Tennessee code. For example, since 1947, the list of non-profit institutions that are exempt from the sales tax has grown dramatically. Such institutions are allowed to buy tangible goods and certain services tax free. Retailers and sellers require proof of exemption and keep records of exempt sales; but tax returns filed with the Department of Revenue do not show detailed statistics on exempt sales by type of exempt entity. Such data is only available in the records of the thousands of individual retailers and vendors

who sell directly to the public. Therefore, the tax exemptions listed in the present report consist only of those that can be estimated with a reasonable degree of accuracy.

The fiscal impact of Tennessee's major tax exemptions is presented in tabular form in Tables 1-A and 1-B. Estimates of revenue loss are provided for fiscal year 2016-2017. Table 1-A presents revenue foregone on services not currently taxed. These services represent activities that were not included in the original tax base. Table 1-B presents revenue foregone due to specific exemptions in the existing sales tax law. For each item in this table, the exemption is briefly described and the specific authorization of the Tennessee code is cited.

It is difficult to estimate the true cost of tax exemptions for two reasons. First, each exemption is considered separately, without regard to how it overlaps with other provisions of the tax code. Summing tax exemptions may result in double-counting in cases where exemptions overlap. Second, the estimates of revenue loss provided in the tables do not generally take into account the impact of a change in a particular tax provision on taxpayer behavior that impacts other taxes (the estimates do not reflect secondary or feedback effects).

**SALES AND**

**USE TAX**.....7.0% is the general rate that applies to the gross proceeds derived from the retail sale or use of tangible personal property and specific services. A one-half of one percent portion of the gross tax is earmarked solely for the Education Fund and the remaining 6.5% portion is distributed to various funds (TCA 67-6-201 through 67-6-205, 67-6-212, 67-6-213, and 67-6-220). The sales tax rate for the retail sale of food and food ingredients for human consumption is 5.0% (TCA 67-6-228(a)). Also, rates varying from 1% to 8.25% apply to other items and services including the following: 1.5% for energy fuels used by manufacturers and nurserymen; and 1% for water used by manufacturers (TCA 67-6-206(b)(1) and 67-6-218); 3.5% for manufactured homes (TCA 67-6-216); 4.5% for aviation fuel (TCA 67-6-217); 3.75% for common carriers (TCA 67-6-219); 7.5% for interstate telecommunication services sold to businesses (TCA 67-6-221); 8.25% for video programming services (between \$15 and \$27.50) and satellite TV services (TCA 67-6-226 and 67-6-227). An additional tax of 2.75% is imposed on the amount for single article sales of personal property in excess of \$1,600, but less than or equal to \$3,200 (TCA 67-6-202(a)).

General Fund.....100% of the 1.0% increase in the general rate enacted in 2002 and 100% of the additional tax imposed on single article sales. 29.0141% of the remaining 5.5% after the allocation to the Transportation Equity Trust Fund, less amounts paid to premier resorts (TCA 67-6-103(b)) and less an amount allocated to the County Revenue Partnership Fund in the general appropriations act (TCA 67-6-103(k)). Also, amounts from video programming services in excess of \$15, but less than \$27.50 (TCA 67-6-103(f) and 67-6-226), and from interstate telecommunication services sold to businesses (TCA 67-6-221(b)). In addition, amounts from the tax on interstate telecommunication services sold to businesses are earmarked to the

Education Fund .....	65.0970%	of the remaining 5.5% after the allocation to the Transportation Equity Trust Fund, and 100% of one-half of one percent of the gross tax (TCA 67-6-103 and 49-3-357). Also, amounts from interstate telecommunication services sold to businesses (TCA 67-6-221(b)).
Highway Fund.....		An amount equivalent to tax collections from air and barge fuel sales is earmarked for the Transportation Equity Trust Fund (TCA 67-6-103(b)).
Debt Service Fund.....	0.9185%	of the remaining 5.5% after the allocation to the Transportation Equity Trust Fund, or whatever amount is necessary to meet debt service requirements (TCA 67-6-103 and 9-9-106, and Section 1 of the general appropriations bill).
Municipalities.....	4.6030%	of the remaining 5.5% after the allocation to the Transportation Equity Trust Fund, less the Municipal Technical Advisory Service (MTAS) grant (0.95% of the amount from the preceding calculation during FY 1998-99 and 1.0% thereafter) to the University of Tennessee. Premier resorts receive a portion of the tax collected by dealers within their boundaries. The collective amount distributed to premier resorts is limited to the amount distributed in the 1999-2000 fiscal year (TCA 67-6-103). A share of the tax on interstate telecommunication services sold to businesses is allocated to cities and counties, and distributed based on population (TCA 67-6-221 (b)).

General Fund.....	79% of bottlers' gross receipts tax, plus 2% of gross highway litter amount from the Highway Fund, 100% of various other gross receipts taxes, and TVA in lieu of tax payments equal to FY 1977-78 payments and 48.5% of any TVA payments received by the state which exceed the amount paid in FY 1977-78, less approximately \$4.1 million distributed to local governments and 48.5% of non-TVA entities tax payments (TCA 67-9-101 through 67-9-103, and 67-4-402, and 67-4-3101).
Highway Fund.....	Approximately 21% of the bottlers' gross receipts tax is earmarked for litter control, less 2% to the general fund (TCA 67-4-402).
Cities and Counties.....	51.5% of the TVA in lieu of tax payments which exceed state receipts in FY 1977-78, of which approximately 65.9% is designated for counties based ½ on population and ½ on area, 28.3% for municipalities based on population, and 5.8% for impacted local areas affected by TVA construction, plus an amount equal to that received by local governments in FY 1977-78 (\$4.1 million). Portions of this share are earmarked for TACIR and under some circumstances, for the County Technical Assistance Service (CTAS) and additional funds for TACIR. With no local areas impacted by TVA construction, the 5.8% impact fund is allocated as follows: 30% to CTAS, 40% to TACIR, and 30% is returned to be included in the amount distributed to cities and counties. Any funds remaining after other allocations provided for in TCA 67-9-102 are allocated to any regional development authorities created by TCA 64-5-201 that have acquired a former nuclear site from TVA (TCA 67-9-101 through 67-9-103). Non-TVA entity tax proceeds are to be distributed in a like manner as TVA proceeds (TCA 67-4-3101).

**INHERITANCE,  
ESTATE, AND  
GIFT TAX.....**

Inheritance and estate taxes are imposed on estates that exceed the maximum single exemption. The exemption varies depending on the year in which the decedent died. For decedents dying in years 2006 through 2012 the maximum single exemption was \$1 million, for 2013 the exemption was \$1.25 million, in 2014 the exemption was \$2 million, and in 2015 is \$5 million. For decedents dying in 2016 and thereafter, no tax is imposed. The inheritance tax applies to the net taxable estate, which is determined by subtracting the appropriate exemption from the total value of the estate. Tax rates range from 5.5% for net taxable estates with a value of at least \$40,000, to a rate of \$30,200 plus 9.5% of the net value in excess of \$440,000. The estate tax is based on the difference between the inheritance tax and the "state death tax credit" allowed on the federal estate tax return. The gift tax was repealed for any transfer by gift occurring on or after January 1, 2012. (TCA 67-8-101, 67-8-204, 67-8-303, 67-8-314, 67-8-316, and 67-8-318).

**Subject:** State Funding Board Growth Projections for FY 2015-16 and FY 2016-17

The State Funding Board met on November 13, 2015, to hear presentations on the State’s economic outlook for the remainder of fiscal year 2015-2016 and for fiscal year 2016-2017. The Board reconvened on November 23, 2015, to discuss revenue growth projections and to arrive at consensus estimates.

Total State Taxes and General Fund Revenue Growth Estimates

The Board is charged, in Tennessee Code Annotated Section 9-4-5202(e), with the responsibility of developing consensus estimates of state revenue growth. In doing so, the Board evaluates and interprets economic data and revenue forecasts supplied by various economists as well as persons acquainted with the Tennessee revenue system. This is a revenue estimation process, not a budgeting process. The Board does not take into consideration the State’s fiscal situation when developing its consensus ranges of revenue growth; however, the Board does strive to have the highest degree of confidence in the State’s ability to achieve such growth. Fiscal considerations properly belong with those who set the State’s budget – the Administration that recommends appropriation levels based upon its assessment of revenue growth and the General Assembly that adopts a *de facto* revenue estimate through its final action on the appropriations bill.

Pursuant to Tennessee Code Annotated Section 9-4-5202(b), the Tennessee Department of Revenue provides to the Board estimates of growth in franchise and excise tax revenue and includes in that estimation

whether the growth is recurring or non-recurring. Additionally, the Board shall, pursuant to Tennessee Code Annotated Section 9-4-5202(e), identify and report whether any growth in franchise and excise tax revenue is recurring or non-recurring. To fulfill these statutory obligations, the Department of Revenue reported non-recurring franchise and excise tax revenue growth of \$150,000,000. The consensus total tax and general fund tax revenue growth estimates displayed below are for recurring growth and do not account for the non-recurring growth of \$150,000,000.

The Board heard testimony regarding the economy from Mr. Lee Jones of the Federal Reserve Bank of Atlanta; Dr. William Fox of the University of Tennessee; Commissioner Richard Roberts of the Tennessee Department of Revenue; and Mr. Robert Currey of the legislative Fiscal Review Committee. The state tax revenue growth estimates provided by each of the presenters are summarized in two attachments to this memorandum.

Multiple presenters cautioned that while Tennessee’s actual tax collections in the current fiscal year are outpacing budgeted revenue estimates, several concerns could impact our future growth. Such factors included Japan, one of our largest trade partners, recently falling into recession; the fact that our retail sales were only stable to flat; and the fact that lower gas prices, although adding to consumer income, may not continue.

The Board developed the following summarized consensus recurring revenue estimates expressed in ranges of growth rates in State taxes.

	FY 2015-2016		FY 2016-2017	
	Low	High	Low	High
Total State Taxes	2.80%	3.30%	2.50%	3.00%
General Fund	2.90%	3.40%	2.75%	3.25%

While it is difficult to precisely predict revenue ranges, the Board believes that these ranges are reasonable for use in state budgeting. These ranges are based on statutory tax provisions enacted through the 2015 session of the General Assembly. Again, these ranges are for recurring tax revenue growth.

Net Lottery Proceeds Revenue Growth Estimates and Long-Term Funding Needs Estimates

The State Funding Board also heard presentations regarding the Tennessee Education Lottery (TEL). Legislation in 2003 created the Tennessee Education Lottery Corporation (TELC) (Tennessee Code Annotated Sections 4-51-101 et seq.). Tennessee Code Annotated Section 4-51-111(c) requires the Board to establish a projected revenue range for the “Net Lottery Proceeds” [defined in Section 4-51-102(14)] for the remainder of the current fiscal year and for the four (4) succeeding fiscal years.

The Board heard testimony regarding the lottery from Mr. Robert Currey of the legislative Fiscal Review Committee, and Mr. Andy Davis, Chief Financial and Technology Officer of the Tennessee Education Lottery Corporation. The Net Lottery Proceeds growth estimates provided by each of the presenters are summarized in two attachments to this memorandum.

Tennessee Code Annotated Section 4-51-111(c)(2)(A)(ii) requires the Board, with the assistance of the Tennessee Student Assistance Corporation (TSAC), to project long-term funding needs of the lottery scholarship and grant programs. These projections are necessary to determine if adjustments to lottery scholarship and grant programs are needed to prevent the funding for these programs from exceeding Net Lottery Proceeds. For this purpose, the Board heard testimony from Mr. Tim Phelps, Associate Executive Director for Grants and Scholarship Programs of Tennessee Student Assistance Corporation. The lottery-

funded scholarship programs as authorized through the 2015 session of the General Assembly include Hope Scholarship, General Assembly Merit Scholarship, ASPIRE Award, Hope Access Grant, Wilder-Naifeh Technical Skills Grant, Non-traditional Student Grant, Foster Child Tuition Grant, Dual Enrollment Grant, Math & Science Teacher Loan Forgiveness Program, Helping Heroes Grant, the STEP UP Scholarship and Tennessee Student Assistance Award.

The estimates provided by each of the presenters are summarized in an attachment to this memorandum. Consensus was reached on the following estimates of the range for Net Lottery Proceeds to be deposited in the Lottery for Education Account and used for the various statutory purposes.

Net Lottery Proceeds	FY2015-2016	FY2016-2017	FY2017-2018	FY2018-2019	FY2019-20
Low	\$341,970,000	\$348,100,000	\$352,600,000	\$357,200,000	\$361,800,000
High	\$347,024,000	\$357,600,000	\$365,800,000	\$373,100,000	\$380,600,000

The State Funding Board considered the joint projections for lottery scholarship and grant program funding needs provided by TSAC and accepted their recommended projections. These estimates and projections assume no new legislative changes regarding the TELC and its authority or the scholarship and grant programs.

Attached is a copy of the letter from the Department of Education requesting \$23,000 from Net Lottery Proceeds pursuant to Tennessee Code Annotated Section 4-51-11(c)(2)(B) which states:

Before December 15, 2003, and before December in each succeeding year, appropriate state agencies shall submit to the funding board and to the governor their recommendations for other educational programs and purposes consistent with article XI, Section 5 of the Tennessee Constitution based on the difference between the funding board's projections and recommendations for the lottery scholarship program based on the report submitted pursuant to subdivision (c)(2)(A). In no event shall such recommendations exceed the projections of the funding board for a specific fiscal year.

**MEMORANDUM**

TO: State Funding Board

FROM: Tim Phelps, Tennessee Student Assistance Corporation

SUBJECT: Tennessee Education Lottery Scholarship Program Projections

Pursuant to T.C.A 4-51-111(c)(2)(A)(ii), the Tennessee Higher Education Commission (THEC) and Tennessee Student Assistance Corporation (TSAC) have collaborated with the University of Tennessee Center for Business and Economic Research (CBER) to project expenditures in lottery scholarship and grant programs through the 2020-21 academic year.

The figures below incorporate data for all lottery-funded programs, including the HOPE Scholarship, General Assembly Merit Scholarship, ASPIRE award, HOPE Access Grant, Wilder-Naifeh Technical Skills Grant, Nontraditional Student Grant, Dual Enrollment Grant, Helping Heroes Grant, Foster Child Tuition Grant, STEP UP Scholarship, and the Math & Science Teacher Loan Forgiveness Program.

Fiscal Year	TELS Expenditures Low	TELS Expenditures Baseline	TELS Expenditures High	Recipients
2014-15 actual	N/A	\$304.1M	N/A	104,000
2015-16 estimated	\$301.1M	\$307.2M	\$316.4M	105,100
2016-17 estimated	\$304.1M	\$310.3M	\$319.6M	106,200
2017-18 estimated	\$307.1M	\$313.4M	\$322.8M	107,200
2018-19 estimated	\$310.2M	\$316.5M	\$326.0M	108,300
2019-20 estimated	\$313.3M	\$319.7M	\$329.3M	109,400
2020-21 estimated	\$316.4M	\$322.9M	\$332.6M	110,500

*\*Does not include supplemental funding of \$6.8M for TSAA and administrative costs of \$3.8M.*

These projections are based on the size of the annual high school graduating class, the scholarship take-up rate of eligible students, and the renewal rate of recipients.

As previously mentioned, there are changes that take effect for the current 2015-16 academic year. The HOPE Scholarship award amounts for entering freshmen have changed and the Wilder-Naifeh Reconnect program has begun.

Please let us know if you have questions or need anything further.

# Debt Management

Recommended Budget, Fiscal Year 2016-2017

The State Funding Board is empowered as the sole governing body over the issuance of general obligation debt for Tennessee. The board was created by the 45th General Assembly with passage of Public Chapter 126, Public Acts of 1887, codified as Title 9, Chapter 9, and Section 101 of the Tennessee Code.

By statute, the state's full faith and credit, as well as ten percent of all state tax revenue collected by the Department of Revenue and allocated to the general fund, the debt service fund and the highway fund are pledged for the payment of principal and interest on all state bonds issued after July 2013.

For the fiscal year ending June 30, 2015, the debt limit calculation produced a maximum annual debt service debt limit of \$695,735,980. The annual debt service requirement on the state's outstanding debt, authorized but unissued debt, and proposed bond authorizations in the fiscal year 2016-2017 budget total \$335,354,000, well below the maximum statutory debt limitation. The statutory debt limitation, therefore, provides for a substantial amount of additional debt capacity.

Over the years, Tennessee has consistently maintained a relatively low debt burden. This has been accomplished through the use of sound, prudent, and conservative debt management practices adopted by the executive and legislative branches of government, with concurrence of the State Funding Board. Such practices include funding a portion of the state's capital program with surplus cash, cancellation of bond authorizations in lieu of issuing debt, creating and maintaining a "Rainy Day Fund" to offset unanticipated revenue shortfalls, and the adoption of state statutes designed to control the issuance of excessive debt. The state continues to maintain a relative low debt burden, and access to the capital markets remains strong.

Tennessee's commitment to conservative and prudent debt management is widely

recognized by the nation's leading debt-rating agencies. Current ratings on the state's general obligation long-term debt are: Fitch AAA, Standard and Poor's AA+, and Moody's Investor Service Aaa.

Tennessee issued \$340 million in additional general obligation debt in the first six months of fiscal year 2015-2016. As of June 30, 2015, Tennessee's total general obligation bonded indebtedness was \$1,575,935,000, excluding the Facilities Revolving Fund (FRF). This debt was issued entirely for institutional and building construction.

In the spring of fiscal 2015, the first session of the 109th General Assembly approved new general obligation bond authorizations in the amount of \$521,400,000. Of this amount, institutional and building bonds accounted for \$236,800,000, economic and community development grants \$200,800,000, and highway bonds \$83,800,000.

The state's practice of using surplus cash to finance road projects in lieu of issuing debt has been one of the key factors in Tennessee's ability to secure and retain very high bond ratings. Consistent with this long-standing policy, the State Funding Board cancelled \$84,500,000 in highway construction bonds and \$13,220,064 in regular general obligation bond authorizations.

The increase in bond authorization coupled with the Funding Board's action on bond cancellations increased the category of authorized but unissued bonds to \$1,649,065,100, which includes \$796.0 million in capital construction bonds, \$789.1 million in highway fund authorizations, \$30.8 million in FRF bonds, and \$33.1 million in data processing equipment and software bonds.

The recommended 2016-2017 Capital Budget is funded entirely from surplus cash in the amount of \$355,926,600 and \$73,302,500 from federal funds and other sources.

# Capital Budget

Recommended Budget, Fiscal Year 2016-2017

A Capital Project begins when an agency or department identifies a need that can be met through the Capital Budget Process. At a designated point in the year, agencies and departments submit these project concepts to the Departments of General Services and Finance and Administration.

Upon receipt of the capital budget requests, a phased approach of review is undertaken by the Departments of General Services and Finance and Administration. The initial phase focuses on a needs assessment to establish priority and direction. During this phase, feasibility and/or market studies are performed to determine the viability of the project, project risks, and potential routes of implementation. The goal of the initial phase is to generate a recommendation regarding the disposition of the project. The next phase provides additional planning to develop better cost estimates. The end result of the above phased approach is the development and prioritization of a formal capital budget request. The various agencies and departments annually submit both their capital maintenance and capital improvement requests in priority order to the Department of Finance and Administration Division of Budget.

All capital budget requests are further reviewed on both a technical and financial basis upon receipt by the Department of Finance and Administration. The projects are analyzed for funding requirements and consistency with program goals and are reviewed within projected availability of funds in the budget for the requested fiscal year. If funds are deemed to be insufficient, individual projects may be deferred to be included in future budgets or rejected.

The Administration intends for the needs of departmental programs to be the impetus for all capital outlay, support program, and service requirements. Funding of projects is analyzed on priority of fiscal support for individual existing and new programs to find the best mix of capital improvements and maintenance to sustain and implement programs.

The management of facilities should be flexible enough to adjust to changing programs through renovation of existing assets. Attempts are made to

minimize operational costs and future capital expenditures through better design and more flexible layouts, as has been done in the state's new prisons. When a capital project creates the need for additional operational funding, the operating costs are identified during the capital budget review and further reviewed in the development of the budget in the year when the new space is expected to be occupied.

Improvements to real property funded by public or private funds must be approved by the State Building Commission, comprised of seven ex-officio members: the Governor, the Secretary of State, the Comptroller of the Treasury, the Commissioner of Finance and Administration, the Treasurer, and the Speakers of the Senate and House of Representatives. The State Building Commission, in addition to supervising improvements to real property, oversees leases by state agencies and the demolition of structures located on state property.

The capital items presented in this document as recommendations to the General Assembly reflect projects meeting State Building Commission requirements and policy guidelines.

Capital maintenance projects are defined as major, non-routine repairs and replacements unrelated to new construction and costing \$100,000 or more. Maintenance projects costing less than this amount are addressed within the departments' operational budget major maintenance programs. Capital maintenance projects include items that appreciably extend the life of the facility, such as alterations to rectify code deficiencies, modifications for health and safety issues, repairs to improve utility systems, repaving, roof repairs, exterior fencing and lighting, and repair projects that restore a facility to its former condition and do not result in changes in facility use. Funding for these projects is allocated to the individual state entities.

Capital improvement projects are defined as those providing new facilities or materially extending the useful life and improving or changing the function of an existing facility. These projects include facility renovation, new construction, new

utility or service systems, land with or without buildings, appurtenances, site improvements or permanent betterments, and initial equipment to furnish and operate a new or improved facility that requires the assistance of a design professional or costs \$100,000 or more.

The fiscal year 2016-2017 capital outlay budget recommends \$429,229,100 divided between capital improvement projects and capital maintenance requests. The recommendation includes \$274.7 million for higher education projects, \$20.0 million for Drive to 55 capital projects, \$54.7 million for state parks, \$12.8 million for military facilities, and various upgrades to state facilities.

**Capital Improvement Projects** — Capital improvement projects recommended for fiscal year 2016-2017 total \$291,549,100, including \$234,835,600 from state appropriation. Federal and other funding sources account for the remainder of the total amount. Projects from dedicated sources of revenue are also recommended for the Tennessee Wildlife Resources Agency totaling \$140,000.

**Capital Maintenance** — Capital maintenance projects are recommended at a level of \$137,680,000. A state appropriation of \$121,091,000 is requested. Federal and other funding sources account for the remainder of the total amount. These projects focus on maintaining current facilities, primarily through repair and renovation of roofing, mechanical, and electrical systems. Funding is also included to bring state facilities in line with federal standards for asbestos and citizens with disabilities. The Tennessee Board of Regents and the University of Tennessee are also funded for modifications to assist in ADA compliance.

**New Bond Authorizations** — Total capital maintenance, capital improvements, and Facilities Revolving Fund requests will require no new bond authorizations. The following chart compares the bond authorizations recommended with those approved by the General Assembly during the past several years.

**Facilities Revolving Fund** — Capital funding in the amount of \$152,220,000 is recommended for capital maintenance and capital improvement projects. The total recommended amount is funded with \$100,690,000 in state appropriation. Departmental and other funding sources account for the remainder of the total amount. These projects are listed in the Facilities Revolving Fund section, which follows the Capital Budget section of this document.

**Operating Costs** — This section includes estimates of the first year operating costs resulting from proposed new construction. Differences can be the result of efficiencies from better designs and energy systems or program requirements. Renovation projects that do not have an impact on operating efficiencies are considered to be cost neutral. Only those projects that will have increased operating costs from the current budget are included in the schedule.

## Facilities Revolving Fund

### Recommended Budget, Fiscal Year 2016-2017

The State Office Buildings and Support Facilities Revolving Fund (FRF) was established in 1988 to provide efficient management of the state office and warehousing facilities. State agencies are charged a rental rate based on usage, location, and market rate for the space they occupy. These revenues, along with any necessary current services revenue and reserve funds, constitute the operating funds for FRF.

The fund pays for facilities management costs of state-owned and leased office space, and warehouse space. These costs include debt service on buildings financed with bonds, routine and major maintenance, relocation expenses and furniture for state agencies, and payments for leased office

space not owned by the state but occupied by state agencies.

FRF is managed by the Department of General Services, with some management support from the Department of Finance and Administration. General Services operates, maintains, and manages FRF facilities, and constructs and renovates facilities through the State of Tennessee Real Estate Asset Management (STREAM) division, with approval of the State Building Commission. The division also provides capital projects pre-planning, lease transaction management, legal oversight, real estate management, space planning, space assignment, interior design, relocation services, and furniture to agencies.

# General Government

Recommended Budget, Fiscal Year 2016 – 2017

**T**his functional area is comprised of those elements of state government that make and execute the laws and are responsible for the overall daily operation and coordination of the many activities of government.

This functional area represents a diverse group of departments and agencies. Included are the General Assembly and the three constitutional officers elected by that body:

- Secretary of State
- Comptroller of the Treasury
- State Treasurer.

The Executive Department, including the Governor's Office, oversees the daily operation of state government and is responsible for ensuring that state laws are enforced, taxes are collected, a budget is proposed, and public monies are spent wisely.

Also included in this functional group are the departments that assist the Governor in staff function:

- Finance and Administration
- Human Resources
- General Services
- Revenue.

These departments facilitate the successful operation of state government by providing support for all departments. In addition, the Department of General Services and the Department of Finance and Administration are responsible for overseeing and administering state office buildings and support the Facilities Revolving Fund (FRF). The Facilities Revolving Fund provides funding for self-perpetuating maintenance and renovation for state-owned buildings. Budget information concerning FRF can be found in the Capital Outlay and Facilities program section. Capital

improvements and major maintenance projects are supported by this fund, as well as repair, upgrade, relocation, leased space, warehouse space, and facility management plans.

The Real Estate Asset Management division within the Department of General Services is responsible for capital improvement, maintenance projects, and energy management in state-owned facilities. The division is also responsible for effectively managing, operating, and maintaining state office buildings. The Real Estate Asset Management division utilizes state employees and contracted services to effectively maintain these assets and deliver all appropriate services to the tenants.

This functional group also includes four agencies whose responsibilities affect many facets of government:

- Tennessee Regulatory Authority
- Human Rights Commission
- Advisory Commission on Intergovernmental Relations
- Veterans Services.

## Cost Increases and Program Statements

The following section includes: (1) a table on personnel and funding for all agencies in this functional area of state government; (2) a table on the recommended budget for each agency by funding source; (3) a statement of recommended cost increases for the ensuing fiscal year; (4) departmental program statements, indicating recommended funding and staffing for the ensuing year, compared with actual amounts for the last year and the amounts budgeted for the current year.

# Legislature

---

As the legislative branch of Tennessee State Government, the General Assembly consists of the Senate and the House of Representatives. The primary powers, vested in it by the Constitution of the state, include the enactment of laws for all citizens and the financing of state government operations by levying taxes and appropriating state revenues. The upper house of Tennessee's General Assembly is the Senate. The state is divided into 33 senatorial districts, each electing one senator. Senators are elected to serve four-year terms, with those from even-numbered districts elected in the same general election, and those representing odd-numbered districts elected two years later. The lower house of Tennessee's General Assembly is the House of Representatives. The state is divided into 99 House districts, each electing one representative. Representatives are elected to serve two-year terms, with all representatives standing for election at the same time.

# Fiscal Review Committee

---

Within the General Assembly, the Fiscal Review Committee is a special, continuing committee. It is comprised of the Speaker of the Senate, the Speaker of the House of Representatives, the chairs of the Senate and the House Finance, Ways and Means committees, and 15 other members of the General Assembly who are appointed from each house by its speaker.

The purpose of this committee is to become knowledgeable about the fiscal affairs of the state and to impart this knowledge to the members of the General Assembly. The committee conducts a continuing review of the finances of state government and of state agencies and programs. The committee also has the responsibility under law of preparing and distributing fiscal notes on all legislation. The committee has a staff and an executive director to assist with these functions.

### Offices of Research and Education Accountability

The Office of Education Accountability was created by the Education Improvement Act of 1992. In 1994, the Comptroller placed the office with the Office of Research. Together, they form the Offices of Research and Education Accountability. They are charged with providing non-partisan, objective analysis of policy issues for the Comptroller of the Treasury, General Assembly, state agencies, and the public.

### 307.14 Offices of Research and Education Accountability

The Office of Education Accountability monitors the performance of Tennessee elementary and public school systems, and provides the General Assembly reports on a variety of education topics. The office assists the House and Senate Education committees, as requested, and provides the Legislature an independent means to evaluate the financial impact of state policy on the public education system. The Office of Research conducts research projects on state and local government issues at the request of the Comptroller and the General Assembly. The office assists the State Funding Board in analyzing the annual economic forecast, which is prepared by the Center for Business and Economic Research. In addition, the Office of Research prepares fiscal note support forms for the Fiscal Review Committee, monitors legislation, and analyzes the budget.

## Audit Services

The Divisions of Audit are responsible for conducting post-audits of the state's Comprehensive Annual Financial Report and other entities and grantees as required by federal and state law, so as to be in compliance with Government Auditing Standards. The department also audits all counties, or in lieu of a state audit, accepts an audit prepared by either a certified public accountant or a licensed public accountant. The department also audits all municipalities, schools, and utility districts in the state. The divisions set rates for nursing facilities that participate in the state TennCare program and conduct financial-related reviews of Managed Care Organizations (MCOs) and Behavioral Health Organizations (BHOs).

### 307.04 Division of State Audit

The Division of State Audit is responsible for providing independent financial and performance audits of agencies of state government, including colleges and universities. All audits are conducted in compliance with Government Auditing Standards. Significant financial and compliance audits include the Comprehensive Annual Financial Report and the Single Audit. Performance audits support the General Assembly's government entity review process.

### Services to Local Governments

Programs providing services to local governments work toward improving the operation of city and county governments by providing assistance and information that affects the state and local governments. In addition, these divisions are required to assist local governments with debt management and ensure that local governments adopt balanced budgets. The divisions also act as agents and liaisons between state, county, and city ad valorem tax assessment and collecting officials. These divisions also serve property assessors and tax-collecting officials through property reappraisal assistance; computerized tax billing; computer-assisted appraisal systems; maintenance of property ownership maps; and reimbursement to certain elderly, disabled, or disabled veteran homeowners for a portion of or for all property taxes paid.

### 307.08 Office of Local Government

The Office of Local Government is responsible for improving the operation of Tennessee's city and county governments by providing assistance and current information to the General Assembly, local governments, state agencies, and the public on issues that affect the state and local governments. Responsibilities include assisting local governments in redistricting, establishing precincts, and serving as a liaison to the U.S. Census Bureau's redistricting data program. In addition, the office maintains county precinct information and provides mapping services utilizing geographic information systems technology.

### 309.01 Treasury Department

The Treasury Department serves as a guardian for all state funds, fulfilling its constitutional duties through a variety of programs. The department manages and invests the state's cash balances, which help finance the various programs of state government. The department administers the Tennessee Consolidated Retirement System (TCRS), which provides retirement coverage to state employees, higher education employees, teachers, and employees of political subdivisions that have elected to participate in the plan. In addition, the department manages the state pooled investment fund, the local government investment pool, the state employees' deferred compensation program, the state employees' flexible benefits plan, the TN STARS College Savings 529 Program, and the Baccalaureate Education System Trust (BEST). BEST is a pre-paid college tuition savings plan closed to new enrollees. The department also assists the three-member Claims Commission and directs the staff of the Claims Administration and Risk Management divisions.

### 313.03 Criminal Injuries Compensation

The Criminal Injuries Compensation Program assists those who are innocent victims of crime. Payments from the fund defray the costs of medical services, loss of earnings, burial costs, and other pecuniary losses either to the victim of a crime or to the dependents of a deceased victim. This program is funded through privilege taxes assessed in courts against criminal defendants and other offenders. Upon conviction, fees are levied against parolees and probationers, the proceeds of bond forfeitures in felony cases, and a federal grant. Jurors may also elect to donate their jury service reimbursement to the fund.

### 313.10 Risk Management Fund

Effective July 1, 2003, the Risk Management Fund was consolidated from the financial operations of the claims award fund and the state's property and casualty insurance program. The Risk Management Fund is liable for all claims filed against the state for workers' compensation by state employees, employee property damage, tort liability, and property insurance for all state-owned buildings and contents. This is achieved through a combination of a self-insurance policy and a variety of other insurance policies.

# Executive Department

---

The Executive Department is responsible for the overall operation of state government. In addition, the department ensures that state laws are enforced, taxes are collected, and public funds are spent wisely and for the general well-being of the state and its citizens. The Governor appoints commissioners and directors of executive branch agencies. The Governor is assisted in the administration of the executive branch by a cabinet comprised of the commissioners of the administrative departments of state government. The cabinet serves as an advisory staff to the Governor on all state matters and assists the Governor in accomplishing the goals of the administration. The Governor's staff works with state agencies and the Legislature to design and implement specific program priorities, and provides policy research and recommendations for the effective operation of government. The Governor's staff also processes written and phone correspondence with Tennessee citizens. The allotment below is for staffing and operational expenses of the Governor's Office.

# Tennessee Regulatory Authority

---

The Tennessee Regulatory Authority (TRA) is a quasi-judicial body. Leadership for the agency is comprised of five directors, three of whom are appointed to six-year terms by the Governor, House Speaker, and Senate Speaker acting separately. Two directors are appointed by the Governor, House Speaker, and Senate Speaker collectively. TRA’s mission is to promote the public interest by balancing the interests of utility consumers and providers, while facilitating the transition to a more competitive environment. TRA’s functions include regulating the quality of service provided and compliance with regulations by public utilities such as gas, electric, water, and telephone; granting of operating authority to public utilities and adjudicating conflicts and controversies arising from utility operations; protecting the public from the accidental release of natural gas by monitoring compliance of distribution systems with minimum federal and state safety standards; administering the state’s “Do Not Call” and “Do Not Fax” programs, which give the residents of Tennessee the option not to receive solicitation calls or faxes from telemarketers; administering the Telecommunications Device Access Program, which provides telecommunications equipment to the state’s deaf, blind, and hearing impaired population; and pursuant to the Competitive Cable and Video Services Act of 2008, serving as the administrative center for statewide cable franchise agreements.

# Advisory Commission on Intergovernmental Relations

In 1978, the General Assembly created the Tennessee Advisory Commission on Intergovernmental Relations (TACIR) to monitor the operation of federal, state, and local government relations and to make recommendations for improvement to the General Assembly. The commission is comprised of 25 members representing the executive branch, legislative branch, county and municipal governments, and the public. TACIR is a permanent, non-partisan forum for the discussion of intergovernmental issues and may initiate studies in accordance with legislative proposals and constitutional amendments. The commission also responds to requests for technical assistance from the General Assembly, state agencies, and local governments.

Current studies and activities directed by the General Assembly for TACIR include: the property assessment system in Tennessee; Tennessee's growth policy, annexation, and incorporation law; an ongoing inventory of public infrastructure needs; and a utility district study.

Major ongoing areas of TACIR studies and activities include fiscal capacity measures for the Basic Education Program (BEP), education finance, issues related to the Tennessee tax structure, government modernization, and intergovernmental issues.

Enterprise IT Transformation (EIT) is a new statewide initiative. EIT focuses on transforming state information technology towards a unified model that upholds uniform processes and standardized methodologies under a single organizational structure. As a part of the EIT initiative, the following divisions will be under the management of the state's Chief Information Officer: Strategic Technology Solutions (STS), Enterprise Resource Planning, and Business Solutions Delivery.

#### 317.03 Strategic Technology Solutions

Strategic Technology Solutions (STS), formerly known as the Office of Information Resources, facilitates the use of information systems and provides technical direction and assistance to agencies, as charged by the Commissioner of Finance and Administration and the Information Systems Council. Strategic Technology Solutions (STS) provides for statewide data, voice, and video operations; information systems planning; information technology training; and security policy, direction, and protection. Strategic Technology Solutions (STS) also provides solutions development and support; manages the state's website; and operates two data centers that house mainframes, distributed computers, and data storage.

## Governor's Books from Birth Fund

### 321.21 Governor's Books from Birth Fund

The Governor's Books from Birth Fund is the primary funding source for the Governor's Books from Birth Foundation. The foundation is a non-profit entity in partnership with the Dollywood Foundation to implement the Imagination Library across Tennessee and is administratively attached to the department. The goal of the Governor's Books from Birth Foundation is to ensure that Tennessee children are reading at grade level by the end of the third grade. The foundation funds 50 percent of each participating county's cost of providing one age-appropriate book each month to children from birth to age five at no cost to the family.

# Veterans Services

---

The Department of Veterans Services serves Tennessee's more than one-half million veterans, dependents, and survivors. Through a statewide power of attorney system, the department serves as an advocate, ensuring that veterans of the state receive quality care, support, and maximum earned entitlements. The department also operates and maintains the state's three veterans cemeteries, located within each grand division. The interment workloads at these cemeteries are among the highest in the nation. In addition to these duties, the department participates in programs that increase public awareness of the services and sacrifices made by veterans.

## Revenue Collection Services

Revenue Collection Services programs collect taxes and fees and ensure proper compliance by taxpayers. The responsibilities associated with these services include administering all state taxes for corporations doing business in Tennessee; enforcing laws and regulations regarding the inspection and taxation of petroleum products; administering the provisions of specific laws regarding the taxation of tobacco products, gifts, inheritances, estates, firearms, gross receipts, liquor by the drink, beer, and other taxes; administering the Hall income tax on stocks and bonds; administering the provisions of the Tennessee sales and use tax laws; and collecting delinquent taxes owed to the State of Tennessee.

### 347.02 Tax Enforcement Division

The Tax Enforcement Division enforces the collection of delinquent tax liability that results when taxpayers fail to remit their taxes on a timely basis or are considered to have under-reported tax liabilities in relation to state tax statutes. The division's ultimate goal is voluntary compliance with regard to the tax collection process. Work assignments of a delinquent nature are generated through the Revenue Integrated Tax System. Tasks include in-state and out-of-state collections, investigating and recommending offers to compromise tax liabilities, recording and releasing tax liens, negotiating payment agreements, and filing of legal claims. The division has a central office in Nashville and various locations throughout the state.

### 347.14 Audit Division

The Audit Division provides tax audit services including audit examination, refund processing, penalty waiver processing, and taxpayer discovery. The division conducts tax audits of taxpayers subject to Tennessee tax law, encourages voluntary compliance with state tax laws, and assists in educating taxpayers regarding tax laws and filing requirements. This is accomplished through centralized management of audit resources, providing fair and objective audit selection, and by conducting tax audits that achieve target coverage levels. The Audit Division maintains in-state offices throughout the state, six out-of-state offices, and several out-of-state post-of-duty stations.

# Education

## Recommended Budget, Fiscal Year 2016 – 2017

**T**his functional area is responsible for the educational efforts of the state, from pre-school and K-12 through all levels of higher education.

The Department of Education coordinates the educational programs of the local public school systems that operate Tennessee's kindergarten, elementary, secondary, and vocational schools. The department also operates the four special schools: Tennessee School for the Blind, Tennessee School for the Deaf, West Tennessee School for the Deaf, and Alvin C. York Agricultural Institute.

With assistance from the Department of Education, the State Board of Education formulates the policies, standards, and guidelines governing K-12 public education. The department is responsible for implementing these policies, standards, and guidelines.

Higher education is governed by two independent systems: the University of Tennessee System and the State University and Community College System, more commonly known as the Tennessee Board of Regents System. The Tennessee Higher Education Commission is responsible for coordinating academic, fiscal, and policy issues between the two systems. The Tennessee Student Assistance Corporation (TSAC) is the state's designated agency to administer financial aid programs designed to help students obtain a post-secondary education at colleges, universities, and technical and career schools. Among the programs TSAC administers are the Education Lottery-funded scholarships, implemented in

the fall of 2004, and the Tennessee Student Assistance Awards (TSAA), the latter funded primarily from general tax revenues. TSAA grants provide non-repayable financial assistance to financially needy undergraduate students who are residents of Tennessee and are enrolled at a public or an eligible non-public post-secondary educational institution in Tennessee. TSAC also administers the Tennessee Promise Endowment Scholarship program.

The lottery scholarships are funded through the Lottery for Education Account. The majority of these funds are made available for scholarships at post-secondary institutions. Scholarships include the Tennessee HOPE Scholarship, Needs-Base Supplemental Award, Dual Enrollment, Wilder-Naifeh Technical Skills Grant, and Non-Traditional student.

### **Cost Increases and Program Statements**

The following section includes: (1) a table on personnel and funding for all agencies in this functional area of state government; (2) a table on recommended budget for each agency by funding source; (3) a statement of recommended cost increases for the ensuing fiscal year; (4) departmental program statements, indicating recommended funding and staffing for the ensuing year, compared with actual amounts for the last year and the amounts budgeted for the current year program.

### Higher Education - State Administered Programs

**• Need-Based Student Financial Aid**

To provide recurring funds for need-based financial aid to serve unfunded eligible students. The Tennessee Student Assistance Awards (TSAA) program provides grants to financially needy undergraduate students who are residents of Tennessee attending in-state institutions. Approximately 118,000 eligible students applied for the TSAA for the 2015-16 academic year but were not awarded due to lack of funds. This improvement would serve approximately 7,110 students. Consistent with the Drive to 55 and the Complete College Tennessee Act, the Tennessee Student Assistance Corporation's (TSAC's) goal is to support efforts to increase timely degree production among the neediest students who are progressing to degree completion.

# Department of Education (K-12)

The Department of Education is responsible for ensuring that the children of Tennessee have the opportunity for intellectual development commensurate with their abilities. The department coordinates and supervises the educational programs provided by the 141 local school districts or local education agencies (LEAs). LEAs operate the state's kindergarten, elementary, secondary, and vocational schools.

## Administration

Administration is organized into two program areas: Administration and State Board of Education.

### 331.01 Administration

Administration functions include policy development, planning, maintenance of the Basic Education Program (BEP) funding formula model, financial management advisory services to LEAs, and collection of student membership data. Sections in Administration include commissioner's office; internal audit; human resources, central accounts, and budget; local finance; core offices; and public information.

### 331.07 State Board of Education

The State Board of Education is the regulatory and policy-making body for K-12 public education, the state's special schools, and any charter schools authorized by the board. The board has several primary responsibilities, including regularly revising and updating the Master Plan for improving education in the state, establishing policies, and guidelines for public education in grades K-12 and providing transparency and oversight for implementation and results of K-12 policies and initiatives. The board is also in charge of facilitating the state's standards revision process. The board is administratively attached to the Department of Education.

### State Support of LEA Programs

The department provides support for a number of initiatives designed to address specific needs and special programs at the local level. Much of this support is provided directly to LEAs. The programs are Basic Education Program; Early Childhood Education; After-School Programs; Energy Efficient Schools Initiative; Career Ladder; Grants-In-Aid; Driver Education; Technology, Infrastructure, and Support Systems; Data and Research; Academic Offices; and Centers of Regional Excellence (CORE).

#### 331.25 Basic Education Program

The Basic Education Program (BEP) formula determines the funding level each school system needs in order to provide a basic level of service for all students. This formula is based on student enrollment in the different grade levels and programs, as well as specific costs for materials, supplies, equipment, and other operating costs. A county's relative ability to pay for education is taken into consideration in determining each system's required local share of the education funds generated by the BEP formula.

### 331.19 After-School Programs Special Account

After-School program grants are offered at the local level and provide academic enrichment activities designed to help students meet state and local standards. Funding for these programs is generated from unclaimed education lottery prize money. These funds enhance existing and fund additional after-school programs. The education lottery that funds this program began in January 2004, and the lottery-funded after-school program began in 2005-2006.

### 331.34 Energy Efficient Schools Initiative

The Energy Efficient Schools Initiative of 2008 and the corresponding council were created to award grants and loans to local school systems for capital outlay projects that meet established energy efficient design and technology guidelines for school facilities. The energy efficient schools council fund was established July 1, 2008, by a transfer of \$90 million from the Lottery for Education Account reserve and the Lottery for Education special reserve account for K-12 capital outlay. Recurring funding is from interest earnings of the energy efficient schools council fund for operational expenditures and an estimated amount from the fund that will be granted or loaned to the school systems. The Energy Efficient Schools Council has the authority to raise corporate and federal funding to support ongoing programs. The council is administratively attached to the Department of Education.

### 331.11 Data and Research

Data and Research is organized to collect, secure, analyze, and report strategic data in innovative and meaningful ways. From the classroom to the Legislature, the division's work informs quality decision-making and inspires purposeful action to continuously improve educational outcomes for Tennessee students. The division encompasses the offices of Accountability, Assessment Logistics, Data Management and Reporting, and Policy and Continuous Improvement, as well as the Research and Strategy unit. Key functions include, but are not limited to, district and school accountability, state report card, strategic plan monitoring, Tennessee Comprehensive Assessment Program (TCAP) administration, National Assessment of Educational Progress (NAEP) - the Nation's Report Card - administration, and external research partnerships. Collectively, the division works to ensure that data is accurate, actionable, and accessible within and beyond the department.

### 331.05 Academic Offices

The Office of the Chief Academic Officer provides services in areas of standards development and review, content development and support, materials support, and assessment design. The office supports all academic divisions in the areas of training, design, logistics and delivery, policy, communications, and research. Through the Teachers and Leaders division, the office ensures that there are effective teachers and leaders in classrooms and schools across the state via professional learning. The Teachers and Leaders division manages policy implementation and issuance of teacher and leader licensure, approval of educator preparation programs, salary and differentiated pay plans, educator recognition, educator evaluation, and support for recruitment. The division also selects, trains, and supports the Governor's Academy for School Leadership and Teach Tennessee Fellows in the transition to teaching and leading.

### 331.39 Centers of Regional Excellence (CORE)

Centers of Regional Excellence (CORE) provide differentiated support to school districts in implementing the department's strategic priorities. The department has eight regional offices throughout the state. The offices are part of a statewide system of support, prioritizing districts with priority schools, focus schools, and other Title I schools in need. CORE teams work closely with district leaders one-on-one and in collaborative teams around data-driven decision making, instructional improvement, and leader and teacher effectiveness.

### Federally-Funded and Supported LEA Programs

Various federally-funded programs, including funding for the No Child Left Behind Act, are designed to enhance the learning environment of disadvantaged and disabled students. Other programs support teacher training in core academic subjects, as well as drug awareness and AIDS education. Titles I, II, III, and X of the Elementary and Secondary Education Act (ESEA) are entirely federally-funded and administered by the state. Child nutrition programs, services to students with disabilities, and career and technical education programs are federally and state-funded.

#### 331.03 ESEA No Child Left Behind

The ESEA No Child Left Behind Act is primarily designed to target resources for school improvements and support initiatives to enhance the learning environment. This act contains four basic education reform principles: stronger accountability for results, increased flexibility and local control, expanded options for parents, and an emphasis on teaching methods that have been proven to work.

### 331.50 Race to the Top

Race to the Top, a competitive grant available to states, is part of the American Recovery and Reinvestment Act of 2009, which was signed into law on February 17, 2009. Through Race to the Top, the U.S. Department of Education asked states to advance reforms around four specific areas: adopt standards and assessments that prepare students to succeed in college and the workplace and to compete in the global economy; build data systems that measure student growth and success and inform teachers and principals about how to improve instruction; recruit, develop, reward, and retain effective teachers and principals, especially where they are needed most; and turn around lowest-achieving schools.

Tennessee was awarded \$500 million over four years to implement the innovative activities put forward in the grant application. Critical to Tennessee's success was the passage by the Tennessee General Assembly of First Extraordinary Session Public Chapter 2, the First to the Top Act of 2010. This legislation significantly changed the requirements for teacher evaluations, allowed school systems to develop alternative salary schedules, and created the Achievement School District to allow state takeover of chronically failing schools in Tennessee. Fiscal year 2015-2016 was the final year of Race to the Top funds.

### 331.09 Improving Schools Program

The Improving Schools Program funds a variety of initiatives designed to provide support for local efforts. The Safe and Drug-Free Schools and Communities program provides financial and technical support to schools and communities to reduce adolescent drug use and violence. The Tobacco Prevention program addresses smoking among young children. The 21st Century Learning Centers administer grants to serve students who attend high-poverty, low-achieving schools. School Health programs provide technical and financial assistance in implementing and developing comprehensive school health programs in the local schools. Financial support is provided through a variety of grant programs, including formula grants to local education agencies, as well as discretionary grants to both school and community-based programs. Other federally-funded programs in the Improving Schools Program include Learn and Serve grants and AIDS education.

### 331.36 Special Education Services

The Division of Special Education Services is responsible for initiating, improving, and expanding special education programs and services to children with disabilities, as mandated by state and federal law. The division serves children through two major efforts: providing technical assistance to school systems and agencies that provide special education programs and ensuring that the rights of disabled children and their parents are protected by mediating disagreements between local school systems and parents regarding a child's educational program and providing due process hearings.

### 331.45 College, Career and Technical Education

The Division of College, Career and Technical Education (CCTE) is responsible for providing specialized education courses and supports to the state's middle and high school students that will prepare them for postsecondary education, industry certifications, and careers. This includes providing direction to the LEAs in establishing and maintaining programs of study in 16 recognized career clusters. The division is also responsible for the growth and promotion of the state's recognized early postsecondary courses and exams, including dual enrollment, dual credit, and Advanced Placement. Also, CCTE oversees the department's commitment to school counseling, as well as other programs and initiatives, including ACT strategies, the Governor's Schools, and student career technical organizations.

### Special Schools

The department operates three schools across the state in order to provide academic, vocational, and special instruction in residential settings for legally blind, deaf, and multi-disabled children, ages preschool to 21. These schools are the Tennessee School for the Blind, the Tennessee School for the Deaf, and the West Tennessee School for the Deaf. The programs offered include academic instruction, self-care skills, counseling, pre-vocational training, child health and safety, independent living skills, consultation services to LEAs, and diagnosis and identification of learning problems.

The department also operates the Alvin C. York Institute in Jamestown.

### 331.90 Alvin C. York Institute

In 1926, Alvin C. York, a World War I hero, established a school to provide educational opportunities to the children of Fentress County. Today, the Alvin C. York Institute operates as a model rural high school that serves the entire state as a center for improving rural education. The York Institute has the unique distinction as the only state-operated and state-financed comprehensive secondary school in Tennessee. The campus is designated as a state natural area, consists of over 400 acres, and supports a working farm.

# Higher Education

---

The mission of the state-sponsored higher education program is to provide affordable, high-quality, post-secondary education to Tennesseans. Higher Education also provides services through research, medical, agricultural, and public service programs. Emphasis is placed on the coordination of higher education, student financial aid, and special programs designed to improve the overall quality of education. The University of Tennessee, the State University and Community College System, the Tennessee Higher Education Commission, and the Tennessee Student Assistance Corporation work together to accomplish these activities.

## State-Administered Programs

### Tennessee Higher Education Commission

The Tennessee Higher Education Commission (THEC) was created in 1967 to coordinate and unify Tennessee's public higher education programs, including the University of Tennessee (UT) and the Tennessee Board of Regents (TBR) systems. The commission is comprised of nine lay members, with six-year terms, representing congressional districts of the state; the Comptroller of the Treasury, State Treasurer, and Secretary of State, each serving ex-officio; the executive director of the State Board of Education, serving ex-officio; and two public higher education students, one from the UT System and one from the TBR System. An executive director manages the agency.

The commission's primary responsibilities include developing and maintaining a master plan for public higher education, making budgetary recommendations to the Governor, developing policies and formulas for the equitable distribution of public funds among public higher education institutions, studying the need for programs and departments at institutions, reviewing proposals for new degree programs and academic departments, making determinations concerning the establishment of new institutions of higher learning, submitting a biennial report on the status of higher education, administering the contract education program, administering tuition waiver and discount programs, authorizing the operation of post-secondary educational institutions, researching and analyzing the Education Lottery Scholarship program, and coordinating Drive to 55 initiatives.

### Tennessee Student Assistance Corporation

The Tennessee Student Assistance Corporation (TSAC) is a non-profit agency that administers state and federal student financial assistance programs. The agency is governed by a 17-member board of directors, including the Governor, the State Treasurer, the Comptroller of the Treasury, the Commissioner of Finance and Administration, the Commissioner of Education, and representatives of higher education serving ex-officio. Other members, each appointed by the Governor, include a representative of a commercial lender, a student of a Tennessee institution of higher education, and three private citizens. The executive director of the Tennessee Higher Education Commission serves as the executive director of TSAC.

Currently, TSAC's duties include guaranteeing student loans; administering the Academic Scholars program and, for financially needy Tennesseans, the Tennessee Student Assistance Awards program; administering loan and scholarship programs encouraging students to enter the teaching, nursing, and medical professions; executing the federal program designed to prevent potential defaults on student loans; arranging for or serving as the lender of last resort; marketing and administering the Tennessee Education Lottery Scholarship program; and administering the Tennessee Promise Endowment Scholarship program.

The U.S. Federal Budget for 2014-2015 included a reduction of the compensation guaranty agencies receive for rehabilitating loans from the Federal Family Education Loan Program. As a result, the program is expected to end by December 31, 2016.

### 332.19 Lottery for Education Account

The Lottery for Education Account is an appropriation of the state's net education lottery proceeds. The majority of these funds are made available for post-secondary scholarships, which include the Tennessee HOPE Scholarship, the General Assembly Merit Scholarship, the Need-Based Supplemental Award, the Tennessee HOPE Access Grant, and the Wilder-Naifeh Technical Skills Grant. Funding for the pre-K and early childhood education programs is appropriated here and is reflected in the Department of Education budget, funded by interdepartmental (other) revenue from the Lottery for Education Account state appropriation. Administrative costs associated with the scholarship program within the Tennessee Higher Education Commission and Tennessee Student Assistance Corporation are also funded from the appropriation to the Lottery for Education Account.

# State University and Community College System

---

The State University and Community College System consists of four-year universities, two-year community colleges, and colleges of applied technology, which serve the citizens of Tennessee through teaching, research, and public service. The system is governed by the Tennessee Board of Regents, which appoints a chancellor as administrative head of the system. The administrative staff, reporting to the chancellor, provides general administrative, planning, coordination, review, and oversight functions through the offices of the chancellor, business and finance, academic affairs, and general counsel.

The Focus On College and University Success (FOCUS) Act will allow four-year institutions currently governed by the Board of Regents to eventually appoint their own independent governing boards.

Note: Position counts shown below are for full-time, unrestricted education and general employees only. Headcount figures are for Fall 2014 and Fall 2015. Federal revenues, tuition and fees, and other revenues are unrestricted current funds derived from education and general sources and from auxiliary enterprise sources.

### 332.59 Regents Access and Diversity Initiative

The Regents Access and Diversity Initiative program provides financial support to the Tennessee Board of Regents for the continuance of higher education access and diversity initiatives after the September 2006 dismissal of the 1968 Geier desegregation lawsuit. The success of a five-year settlement agreement, implemented in 2001, led to the dismissal. The initiative includes efforts that proved to be the most effective in the settlement program. The initiative includes financial aid and stipends, student and faculty recruitment and retention programs, continuing support of the Tennessee State University (TSU) Avon Williams Campus in downtown Nashville, and statewide oversight.

### Agricultural Units

Agricultural units are an important part of TSU in its capacity as a land grant institution. As a land grant institution, TSU receives federal funds from the U.S. Department of Agriculture (USDA) to help finance agricultural research and extension at the Institute of Agricultural and Environmental Research (IAgER) and the TSU Cooperative Extension program. The state appropriations match federal grant funds.

#### 332.63 TSU Institute of Agricultural and Environmental Research

The TSU IAgER is the principal agricultural and environmental research division of TSU. The institute's multi-disciplinary research efforts are in the areas of animal and alternative livestock; economics and policy; nursery, medicinal, and alternative food crops; environmental protection and enhancement; and food safety, nutrition, and family well-being.

#### 332.66 ETSU College of Pharmacy

The College of Pharmacy at ETSU enrolls approximately 125 students per year. Its mission is to train pharmacists for placement in community pharmacies and rural hospital settings to aid in the more effective use of medication. The educational program includes a significant emphasis on pharmaceutical care to reduce the unnecessary use of medications. Much of the training is within interdisciplinary teams of medical, nursing, public health, and pharmacy students, who will be located within rural communities. This method of training prepares future pharmacists for improved consultation with physicians and prescribing nurses, resulting in the most efficient, effective, low-cost drug treatments for their mutual patients.

# Health and Social Services

Recommended Budget, Fiscal Year 2016 – 2017

The agencies and departments of this functional group are concerned with the health and well-being of the citizens of Tennessee. The Health and Social Services functional area is comprised of the following commissions, departments, and agencies:

- Commission on Children and Youth
- Commission on Aging and Disability
- Health Services and Development Agency
- Council on Developmental Disabilities
- Department of Finance and Administration, Bureau of TennCare
- Department of Mental Health and Substance Abuse Services
- Department of Intellectual and Developmental Disabilities
- Department of Health
- Department of Human Services
- Department of Finance and Administration, Strategic Health-Care Programs
- Department of Children's Services.

A major responsibility of this functional group is the administration of programs for children who are placed in the state's custody. These programs range from the provision of a structured environment for troubled youth to a safe home setting for foster care children. Services for children in state care are based on professional assessments of each child and family.

This functional group also is charged with ensuring quality treatment and habilitation services for the mentally ill and intellectually disabled citizens of Tennessee. This includes institutional and community programs for the mentally ill and the intellectually disabled.

In addition to programs for special-needs citizens, general health-care services are provided through local and regional health-care facilities. These programs range from

immunization of school children to ensuring quality care for the elderly.

Health-care programs for Medicaid-eligible and Medicaid waiver-eligible citizens also are the responsibility of this functional group. These services are provided by TennCare, a comprehensive health-care delivery system.

These agencies also are charged with helping disadvantaged Tennesseans achieve or maintain self-sufficiency. Other assistance programs include Supplemental Nutrition Assistance Program (SNAP) benefits to qualified applicants, protective services to abused and neglected children, and legal services to establish, enforce, and administer child support obligations for citizens.

Families First, a time-limited assistance program, emphasizes job skills development. Support services, such as child care and transportation, also are provided to Families First recipients.

Cover Tennessee provides comprehensive health coverage to uninsured children and seriously ill adults who can afford health coverage but who have been turned down by insurance companies. Cover Tennessee also provides affordable medication to low-income citizens who are uninsured.

## Cost Increases and Program Statements

The following section includes: (1) a table on personnel and funding for all agencies in this functional area of state government; (2) a table on the recommended budget for each agency by funding source; (3) a statement of recommended cost increases for the ensuing fiscal year; and (4) departmental program statements, indicating recommended funding and staffing for the ensuing year, compared with actual amounts for the last year and the amounts budgeted for the current year.

### • Electronic Public Health Information System (EPI)

To provide non-recurring funds for the EPI system. The department maintains a legacy system, Patient Tracking Billing Management Information System (PTBMIS), for tracking and managing core public health services that is nearing the end of its serviceable life and must be replaced. This system is currently the primary tracker of immunizations; primary care patient encounters; client visits (local health department level); and Women, Infants, and Children (WIC) program clients. These funds will be used for the design, development, and implementation of the new EPI system, which provides a platform to create and maintain electronic medical records; increases functionality and efficiency of record utilization, claims processing, disease surveillance and management; and is compatible with federal and private partner provider systems.

# Commission on Children and Youth

---

The Commission on Children and Youth works with state agencies, juvenile courts, child advocacy groups, interested citizens, and other organizations to improve services to children. The commission also administers the federal Juvenile Justice and Delinquency Prevention Grant, the federal Juvenile Accountability Block Grant, and other federal and state grant funds for juvenile justice programs.

The commission is comprised of 21 members appointed by the Governor. Four members of the commission are youth advisory members and, as required by statute, at least one member is appointed from each of Tennessee's nine development districts. The Governor appoints an executive director to administer the agency.

The commission members, central office staff, and district coordinators are engaged in the following activities: improving the coordination of services for children, collecting and disseminating statistical and programmatic information, informing citizens and organizations on children's issues, tracking legislation and making recommendations to the Governor and Legislature, and evaluating selected state programs and services for children.

# Commission on Aging and Disability

---

The Commission on Aging and Disability is responsible for networking aging or disabled adults needing in-home services with state, federal, and local programs.

The commission is comprised of 22 members. The Governor appoints 19 members, including a member of his staff. The commissioners of Health, Mental Health and Substance Abuse Services, Intellectual and Developmental Disabilities, Human Services, and Veterans Services, the director of TennCare, and the executive director of the Council on Developmental Disabilities are ex-officio, voting members. The speakers of the Senate and House of Representatives appoint one non-voting member each. The Governor appoints an executive director to administer the agency.

The commission performs the following activities: administers the Older Americans Act; administers a home and community based program for the elderly and disabled who are not eligible for Medicaid; collects statistics on the elderly, family caregivers, and adults with disabilities needing in-home services; publishes information on aging and adults with disabilities; makes recommendations on program improvements; and assists in developing needed services.

# Health Services and Development Agency

---

The Health Services and Development Agency is responsible for regulating the health-care industry through the certificate-of-need program. The agency requires certification of need for the establishment or modification of health-care facilities and the reporting of financial and statistical data from these facilities. The certificate-of-need program assures that health-care projects are accomplished in an orderly, economical manner, consistent with the development of an adequate and effective health-care system.

The agency is governed by a board comprised of 11 members. The Governor appoints six members. The Comptroller of the Treasury, the Commissioner of Commerce and Insurance, and the Director of TennCare are ex-officio members; the speakers of the Senate and House of Representatives appoint one member each. The board acts as a regulatory body in the certificate-of-need process and appoints an executive director to administer the agency.

# Council on Developmental Disabilities

---

The Council on Developmental Disabilities is authorized by the federal Developmental Disabilities Act (Public Law 106-402). The Council on Developmental Disabilities is responsible for improving state policies, practices and public and private partnerships that affect Tennesseans with developmental disabilities and their families. The council works with all state agencies, local government, and private organizations to link programs and services in more efficient and effective ways to benefit individuals with developmental disabilities.

The council consists of 21 members appointed by the Governor and represents a broad range of disabilities, as well as the cultural and geographic diversity of the state. The council operates as an independent office in the executive branch, guided by citizen members appointed by the Governor. The council's executive director is hired and supervised by the council chairperson. The council programs are carried out according to an approved state plan, which meets all federal and state administrative regulations.

### 318.66 TennCare Medical Services

TennCare Medical Services provides funding for traditional basic health care, behavioral health services, and long-term services and support under the Medicaid waiver program. The program provides funding to other state agencies and to managed care organizations, which provide basic medical and behavioral health services in addition to long-term services and supports. State agencies that provide medical care are funded from this division and include the Department of Children's Services and the Department of Health. Beginning in fiscal year 2017, the Employment and Community First (ECF) CHOICES program will provide home and community-based services (HCBS) to individuals with intellectual and developmental disabilities through TennCare's managed care organizations.

Intellectual Disabilities Services provides administrative oversight and funding for three HCBS waivers for persons with intellectual disabilities. These waivers are the Self-Determination waiver, Comprehensive Aggregate Capped waiver, and the Statewide waiver. The Department of Intellectual and Developmental Disabilities is the administrative lead agency for these waiver programs. Upon implementation of the ECF CHOICES program, the current HCBS waivers for individuals with intellectual disabilities will be closed to new enrollees with only a few narrow exceptions. This program also provides funding for individuals who require long-term institutional care in intermediate care facilities.

# Department of Mental Health and Substance Abuse Services

The Department of Mental Health and Substance Abuse Services is responsible for ensuring the provision of services to children, youth, and adults with or at risk of serious and persistent mental illness, serious emotional disturbance, and substance-related disorders. This is accomplished through a system of community service providers, four state-operated Regional Mental Health Institutes (RMHIs), and three contracted private inpatient facilities. The primary focus of the department is to provide a comprehensive system of care that includes adequate resources, safeguard the rights of consumers, match services to the consumer and family members in the least restrictive setting, promote consumer integration into the community, and educate the community regarding mental health and substance abuse disorders.

The department is divided into three functional areas: Administrative Services, Mental Health Services, and Substance Abuse Services.

treatment services for adults who need emergency and generally short-term inpatient care; rehabilitation services for chronically ill adults who typically require basic living, socialization, and vocational skills training; gero-psychiatric services primarily to persons age 60 and older, many of whom need nursing care; and forensic services for inpatient evaluation and treatment to adults as designated by the courts.

### 339.03 Community Substance Abuse Services

Community Substance Abuse Services develops prevention and treatment services to decrease the incidence of alcohol and other drug abuse and dependence. There is particular emphasis on populations with special needs including children and youth, AIDS patients, minorities, women, intravenous drug abusers, the elderly, and persons with co-occurring disorders. The majority of services are provided through grants to non-profit, faith-based or local government agencies. Services include screening and assessment, detoxification, family intervention, residential rehabilitation, recovery houses, day treatment, and outpatient services.

## Health Licensure and Regulation

Health Licensure and Regulation regulates the health-care industry through the certification of health-care facilities, emergency medical services, and the regulation of certain health-care professionals. In addition, the division licenses the commercial breeding of companion animals and coordinates and administers the trauma system fund.

### 343.05 Health Licensure and Regulation

This program includes funds for staff that provide policy, direction, and support to Health Licensure and Regulation and monitors the quality of health care. Civil rights compliance, health-care facility licensure, and the health-care federal certification program are administered by the division. The division also certifies providers for the participation in federal Medicare and Medicaid programs. Health Licensure and Regulation monitors facility compliance with the state minimum standards, federal standards of care, and conditions of participation through facility surveys and incident investigations.

### Health Services

Health Services delivers public health services through a system of 13 regional health offices responsible for the oversight of services provided in 89 rural county health departments, and six metropolitan health departments. These services encompass both primary care and preventative services, with an emphasis on health promotion, disease prevention, and health access. Services are provided through the following programs: General Environmental Health; Family Health and Wellness; Communicable and Environmental Disease and Emergency Preparedness; Community and Medical Services; Special Supplemental Nutrition Program for Women, Infants, and Children (WIC); and Health Services.

### 343.08 Laboratory Services

Laboratory Services offer microbiological and environmental laboratory services for the Department of Health and other state agencies. These services include screening and confirmation tests for disease outbreak investigation, sexually transmitted diseases, tuberculosis, HIV, mosquito-borne viruses, animal rabies, biological and chemical contaminants, and suspect foods. Reference and limited microbiological support is provided to hospitals, private physicians, and private laboratories. The division also provides analytical support to the department's prevention and treatment programs and to environmental regulatory programs.

### 343.49 Communicable and Environmental Disease and Emergency Preparedness

The Communicable and Environmental Disease Services program works with staff in regional and local health departments to provide epidemiological services. These activities include epidemiological investigations of acute communicable diseases; tuberculosis control services; administration of immunizations against vaccine-preventable diseases; investigation, diagnosis, and treatment of persons with sexually transmitted diseases, including HIV/AIDS.

Environmental epidemiology services include educational services relative to chemical or physical pollution, disease cluster investigations, and toxicological at-risk assessment consultations with environmental regulatory programs in the Department of Environment and Conservation. Staff also maintains surveillance systems for early detection of bioterrorism and provides emergency support to local health departments and emergency responders.

### 343.52 Community and Medical Services

Community and Medical Services includes health promotion activities that reduce premature death and disability. The program promotes healthy lifestyle practices through a combination of preventive programs and wellness initiatives. The target population is the indigent and medically underserved. The Breast and Cervical Cancer Program provides screening and diagnostic testing. The Health Access Incentive Program provides financial incentives to primary care providers to locate in an underserved area as well as other community initiatives. The Office of Rural Health provides statewide coordination of activities designed to improve the availability and accessibility of health-care services in rural areas. Specific services include health access, rural health, rape prevention and education, community prevention initiative, diabetes prevention and control, heart disease and stroke prevention, and traumatic brain injury treatment.

## Community Services

Three regional offices coordinate services for individuals in the community and for individuals transitioning from institutional settings to the community. Additional alternatives to institutional residential settings are provided at state-operated Intermediate Care Facilities (ICFs) for the intellectually disabled at community homes serving East, Middle, and West Tennessee.

### 344.02 Community Intellectual Disabilities Services

The Community Intellectual Disabilities Services division provides community-based intellectual disabilities services to persons with intellectual disabilities and other developmental disabilities. The division contracts with community agencies across the state to provide the following comprehensive system of support services: residential services, family support, adult day services, therapy services, nursing services, dental services, respite, diagnostic and evaluation, supported employment, and support coordination.

### Adult and Family Services

Adult and Family Services include Family Assistance, Temporary Assistance to Needy Families (TANF), Child Care Benefits, SNAP Benefits, and Community Services.

The Family Assistance program provides temporary cash assistance, child care, and other services to low-income families to enable them to become self-sufficient. Clients are served in the department's 95 county offices and through service centers strategically located throughout the state. The Family Assistance section consists of three programs: Families First, Supplemental Nutrition Assistance Program Benefits, and Eligibility Determination.

Families First is the state's TANF program that distributes cash grants and provides employment, training, education, and support services for families with financial need and dependent children deprived of parental support and/or care. The goals of the Families First program are to: provide assistance to needy families so that children may be cared for in their own homes or in the homes of relatives; end the dependence of needy parents on government benefits by promoting job preparation, work, and marriage; prevent and reduce the incidence of

out-of-wedlock pregnancies and establish annual numerical goals for preventing and reducing the incidence of these pregnancies; and encourage the formation and maintenance of two-parent families.

The Supplemental Nutrition Assistance Program helps ensure that eligible low-income families and individuals are able to obtain a nutritious diet. The program is the cornerstone of the federal food assistance programs and provides crucial support to needy households and to those making the transition from welfare to work. The goal of the program is to eliminate hunger and reduce the incidence of food insecurity.

The Eligibility Determination unit determines eligibility for the Families First-TANF program, SNAP, and provides administrative support to TennCare for Medicaid eligibility determination, which is the state's Medicaid waiver medical assistance program. Clients are assisted through the department's county offices. Special accommodations are made for the elderly, disabled, those with limited English proficiency, and others who need assistance with the application process.

The Community Services program provides regulatory and protective services, social services, and economic assistance in the areas of child and adult care, adult protective services, and community contract services.

**345.20 Child Care Benefits**

The Child Care Benefits program provides assistance for child care services to qualifying participants in programs such as Families First, foster care, child protective services, transitional Families First, and Department of Children's Services relative care.

### 345.25 Supplemental Nutrition Assistance Program

The Supplemental Nutrition Assistance Program (SNAP) is the cornerstone of the federal food assistance programs and provides crucial support to needy households and to those making the transition from welfare to work. The amount of assistance to which any person, household, or family is entitled is determined by measuring the income and resources of such person, household, or family. Benefits are distributed to individuals through an EBT card.

## Child Support

### 345.13 Child Support

The Child Support Enforcement program is a federal, state, and local partnership to collect and distribute child support. Program goals include ensuring children have the financial support of both parents, fostering responsible behavior towards children, and reducing welfare costs. Tennessee's Child Support Enforcement program is administered by the department through contracts with district attorneys general, private vendors, local governments, and program staff. Services include locating non-custodial parents, establishing paternity, establishing and enforcing financial and medical support orders, reviewing and adjusting support orders, and collecting and distributing child support payments. Enforcement staff is included in the District Attorneys General budget with funding from this allotment.

## Rehabilitation Services

The Rehabilitation Services section provides direct services to persons with disabilities and determines eligibility for federal Social Security disability income programs.

### 345.70 Rehabilitation Services

The Rehabilitation program seeks to alleviate barriers and provide quality services to improve the conditions of persons with disabilities. The program's primary goal is to place disabled individuals into employment. Rehabilitation services include any services described in an individual plan for employment that are necessary to assist an individual with a disability in preparing for, securing, retaining, or regaining an employment outcome that is consistent with the strengths and abilities of the individual. The program includes the Tennessee Rehabilitation Center in Smyrna and other locations throughout the state.

### Cover Tennessee Health-Care Programs

Cover Tennessee, enacted in 2006, was developed to create health insurance options that are affordable and portable for the uninsured through three programs. AccessTN and CoverKids were created to provide health insurance to adults and children who are uninsured or uninsurable. CoverRx was created as a pharmacy assistance program for low-income adults without pharmacy coverage.

### 350.40 AccessTN

The AccessTN program was created by law in 2006 to make health care coverage available to uninsurable Tennesseans. This program operated as a high-risk pool for those who were denied insurance previously due to disqualifying medical conditions. On December 31, 2014 the program transitioned from a self-insured health insurance pool to purchasing off-market health coverage for the members.

### 350.60 CoverRx

CoverRx, created by law in 2006, is an expansion of the health-care safety net pharmacy-assistance program, which began in 2005. CoverRx provides discounts for Tennesseans without pharmacy coverage that have a household income below 100 percent of the federal poverty level. This program is not insurance coverage, and no premiums are collected. Participants are provided access to more affordable prescriptions.

# Department of Children's Services

---

In cooperation with juvenile courts, the Department of Children's Services (DCS) provides timely, appropriate, and cost-effective services for children in state custody or at risk of entering state custody in order to enable these children to reach their full potential as productive, competent, and healthy adults. The department is organized into three functional areas: Administration, Child Welfare, and Juvenile Justice.

### 359.10 Administration

Administration provides funds for staffing and other operating costs necessary for administration of the department. Administration also provides internal support, leadership, and direction that lead to improved program performance and success in the ultimate goal of reintegration of children into the community. This program also assists in compliance with state law, departmental policies, and American Correctional Association standards.

### Child Welfare

Child Welfare provides a variety of services that support families with children that are at risk of coming into state custody, ensures that children who enter state custody are provided with appropriate treatment and care, assists with adoptions of special needs children, and manages cases of children and families in an appropriate and timely manner.

### 359.20 Family Support Services

The Family Support Services program provides services to children that are at risk of entering state custody. Crisis intervention services are provided both to parents with difficulty raising their children and to unruly children on a path to youth detention. The goal of these services is to assist children to successfully remain in their homes. If children cannot be raised by their parents, a relative caregiver program attempts to support placement of children in the homes of other family members.

### 359.30 Custody Services

The Custody Services program purchases residential care in safe, state-monitored homes to ensure children in state custody receive treatment and housing until the state can make a permanent placement. Included services are mental, behavioral, and physical treatment services to prepare youth to live independently at adulthood. Youth in custody may volunteer for extended state custody after their 18th birthday to receive services designed to assist youth achieve successful independence after primary school.

### Juvenile Justice

The department operates three youth development centers that provide individualized treatment programs and services to juvenile offenders that contribute to their successful reintegration into society. These centers assess and properly care for the needs of juveniles while offering counseling and educational services.

A youth development center student either has needs that cannot be met in the community, is committed for a violent offense resulting in injury to another person, or has three or more felony offenses. Services provided to students at these centers include parental responsibility counseling, academic education, general educational development, work-study programs, special education, abuse victimization counseling, family counseling, medical care, remedial reading and math, adult basic education, and vocational training. Some specialized services provided include drug and alcohol abuse treatment, sex-abuse and sex offender treatment, violent offender treatment, gang activity awareness, speech therapy, dental care, and behavioral management.

# Court System

---

The judicial branch is one of three basic divisions of state government and serves as a check on the powers of the legislative and executive branches. Judicial power is vested in trial courts and two levels of appeals courts that comprise the state's court system.

The Supreme Court is comprised of five justices elected to eight-year terms. The workload of the court consists of cases appealed from lower courts. Supreme Court decisions act to resolve controversies arising out of Tennessee law and to establish guidelines for the lower courts to use in future decisions.

The intermediate appellate courts are the Court of Appeals and the Court of Criminal Appeals. The Court of Appeals hears appeals only in civil cases from the lower courts. The Court of Criminal Appeals has jurisdiction to hear most felony and misdemeanor appeals from general trial courts, as well as post-conviction petitions.

The state's trial courts include Chancery, Criminal, Circuit, and Probate courts. Chancery courts are the traditional equity courts used when common law or statutory law proves inadequate for cases. Circuit courts, which sometimes overlap with the jurisdiction of Chancery courts, have jurisdiction to hear civil and criminal cases. Criminal courts have jurisdiction over criminal cases and hearing misdemeanor appeals from lower courts. Probate courts primarily have jurisdiction over probate of wills and administration of estates.

Courts of limited jurisdiction are funded locally and include general sessions, juvenile, and municipal courts. Jurisdiction of general sessions courts vary from county to county based on state laws and private acts; they hear civil, criminal, and juvenile cases, except in counties in which the Legislature has established separate juvenile courts. Municipal courts have jurisdiction in cases involving violations of city ordinances.

The court system is grouped into the following functions: Judicial Services, Support Services, and Professional Standards.

# District Attorneys General Conference

---

District Attorneys General are elected for each of the state's 31 judicial districts and serve eight-year terms. The elected officials are the state's prosecutors for all violations of state criminal statutes. In addition, the district attorneys prosecute all criminal cases in the federal courts that are removed from a state court and give opinions to county officials on criminal law relating to their office. Further, district attorneys and support staff consult with and advise law enforcement agencies on cases or investigations within their district. Some of the district attorneys enforce court-ordered child support obligations through an agreement with the Department of Human Services.

# District Public Defenders Conference

---

As required by the United States Constitution and the Tennessee Constitution, district public defenders and their staff provide legal representation at trial and through the state appellate process for indigent persons charged with the commission of a crime. In Tennessee, a statewide system of public defenders was created by the General Assembly in 1989. Public defenders are appointed as counsel for indigent persons in any criminal prosecution or juvenile delinquency proceeding involving the possible deprivation of liberty or in any habeas corpus or other post-conviction proceeding. Twenty-nine judicial districts participate directly in the District Public Defenders Conference. The public defenders for Shelby and Davidson counties receive direct appropriations with no administrative support or control from the conference.

# Office of the Post-Conviction Defender

---

The Office of the Post-Conviction Defender was created in 1995 in order to provide for the representation of any person convicted and sentenced to death who is unable to secure counsel due to indigence. This office also provides continuing legal education and consulting services to attorneys representing indigents in capital cases and recruits qualified members of the private bar who are willing to provide representation in state death penalty proceedings.

The Post-Conviction Defender Commission appoints the Post-Conviction Defender Oversight Commission and has oversight of the office. The commission is comprised of nine members: three appointed by the Governor, three by the Speaker of the Senate, and three by the Speaker of the House of Representatives.

# Alcoholic Beverage Commission

---

The Alcoholic Beverage Commission (ABC) regulates the liquor industry and enforces liquor laws and certain drug laws. The commission is governed by three members appointed by the Governor to terms concurrent with the Governor's term.

The ABC's regulatory functions include licensing and inspecting wineries and distilleries, liquor wholesalers and retailers, temporary liquor sales venues, and establishments offering on-premise liquor consumption.

ABC conducts felony investigations originating under its jurisdiction and enforces laws pertaining to the illegal manufacture, transportation, and sale of alcoholic beverages and marijuana. The commission participates in the Governor's Task Force on Marijuana Eradication and enforces laws against underage drinking. ABC issues server permits to employees of establishments offering on-premise liquor consumption, and requires servers to complete alcohol awareness training certified by the commission. The server training program is designed to properly train employees to responsibly sell and serve alcoholic beverages.

# Tennessee Rehabilitative Initiative in Correction

---

The Tennessee Rehabilitative Initiative in Correction (TRICOR) mission is to employ inmates in manufacturing, business, and agricultural jobs that integrate work opportunities with educational and vocational training and to develop good work habits and marketable skills to assist with a successful reintegration into society. TRICOR markets products and services to state agencies, local governments, non-profit organizations, and private partners.

TRICOR has a central headquarters with 23 operations at 14 correctional facilities and warehouse/distribution centers. Manufacturing and service operations include administrative support services; printing, data entry, and document imaging services; call center services; warehousing and fulfillment services; license plate manufacturing; apparel and textile manufacturing for uniforms and institutional clothing; floor manufacturing; industrial cleaning supply fulfillment; packaging services; and food manufacturing, storage, and distribution with respect to the Cook Chill program.

Agricultural operations, which include field crops and dairy operations, are located at West Tennessee State Penitentiary, Tennessee Cook Chill in Nashville, and Bledsoe County Correctional Complex.

To assist inmates with successful reintegration into society, TRICOR also administers a post-release placement program that provides job placement assistance to eligible inmates who have been released from Tennessee Department of Correction custody.

A nine-member board of directors oversees the agency, which is headed by an executive director. The board members are appointed by the Governor to four-year terms. The Commissioner of Correction serves as an ex-officio, non-voting member of the board.

# Department of Correction

---

The Tennessee Department of Correction (TDOC) protects public safety through the incarceration of felons in a variety of secured institutional settings, supervision of probationers and parolees, and management of community corrections grant programs. In addition, the department provides felons with educational and vocational training, substance abuse treatment, and pre-release programs to prepare them for community re-entrance and to reduce re-offenses.

The Department of Correction carries out its responsibilities through four major functional areas: Administrative and Other Services, Institutional Operations, Special Purpose Facilities, and Contract Management Facilities.

## Administrative and Other Services

The Administrative and Other Services functional area includes Administration, State Prosecutions, Tennessee Correction Academy, Correction Release Centers, Major Maintenance, the Office of Investigations and Compliance, the Sex Offender Treatment Program, Probation and Parole Field Supervision, Community Corrections, and the Sentencing Act of 1985.

### 329.01 Administration

Administration provides department-wide support services, such as fiscal, personnel, policy, planning and research, and communications. Additional department-wide services include the diagnostic unit, which assigns the most appropriate institution or special program requirements for each inmate; sentence management services, which provides sentence management information, computation of all felony sentences, and monitors and reports release dates; compliance, which ensures operational quality and accreditation by the American Correctional Association; and rehabilitative services, which provides educational, victim, and mental health services, as well as inmate jobs and alcohol and drug treatment.

### 329.04 State Prosecutions

State Prosecutions reimburses counties for the expense of housing state felons in local jails and for other statutorily authorized felony expenses. The state is liable for county reimbursement when felons are sentenced to serve their time in the local jail, when counties contract with the state to house felons sentenced to the Department of Correction, and when counties house felons who have been sentenced to the Department of Correction and are awaiting transfer. Certain other expenses are paid from the allotment, including court costs associated with felony charges, inmate transportation costs, extradition costs, witness fees, jury boarding costs, and emergency medical expenses.

### 329.99 Sentencing Act of 1985

During the Special Session on Corrections in 1985, the General Assembly passed legislation that included the Sentencing Act of 1985. The law requires that for any law enacted after July 1, 1986, which results in a net increase in periods of imprisonment in state correctional facilities, there is to be appropriated from recurring revenues the estimated increased operating cost. The amount appropriated for operating costs, in current dollars, is based upon the highest cost of the next ten years, beginning with the year the additional sentence to be served impacts the correctional facilities' population. Appropriations to the Sentencing Act of 1985 are used for capital outlay or for cancellation of construction bonds authorized but not yet sold.

## Institutional Operations

Institutional Operations manages the inmate population in state prisons, including diagnostic centers and time-building institutions.

Diagnostic centers evaluate inmates entering the correctional system, including physical and mental health, work and training experience, educational background, religious affiliation, and family background. Decisions are made about institutional placement or special program requirements. Diagnostic centers are located at the Tennessee Prison for Women, West Tennessee State Penitentiary, and Morgan County Correctional Complex.

Time-building prisons range in security levels from minimum security and work-release to maximum security and death row. These institutions provide educational, counseling, and treatment programs.

### 329.13 Tennessee Prison for Women

The Tennessee Prison for Women (TPW) opened in Nashville in 1898 and relocated to its present site in 1966. The institution is a reception, diagnostic, and time-building prison which houses all levels of female inmates, from those under death sentence to those assigned to work-release. TPW also provides academic and vocational programs.

# Military Department

---

The Military Department provides leadership, direction, and organization for the state's Army and Air National Guard and the Tennessee Emergency Management Agency. The Adjutant General, a constitutional officer of the state appointed by the Governor, is responsible for the leadership and command of the Tennessee Army and Air National Guard, the Tennessee Emergency Management Agency, and the Bureau of War Records. The department is organized into three functional areas: Administration, National Guard, and Emergency Management.

---

The Tennessee Bureau of Investigation (TBI) is responsible for assisting the District Attorneys General and local law enforcement agencies in the investigation and prosecution of criminal offenses. TBI's operations are organized into six divisions: Administrative Services, Criminal Investigations, Drug Investigations, Forensic Services, Information Systems, and Training.

The Administrative Services Division provides overall direction and support for the bureau, including legal, personnel, payroll, and fiscal services for the agency. The Criminal Investigation Division gathers and disseminates intelligence on criminal activity, terrorism, fugitives, and drug trafficking. TBI also investigates corruption and misconduct at all levels of government, as well as provider fraud and patient abuse within the TennCare system. The Drug Investigations Division has original jurisdiction to investigate violations of Tennessee's drug control laws. Special agents are assigned to one of four regional investigative units, which initiate and investigate cases, targeting upper- and mid-level drug violators and drug distribution organizations. In addition, the division works cooperatively with state and local government agencies, the U.S. Drug Enforcement Administration, and the Federal Bureau of Investigation. The Forensic Services Division provides forensic examinations for the law enforcement community and medical examiners statewide. These examinations are performed at laboratories in Nashville, Knoxville, and Memphis. All three laboratories perform DNA and serology, drug chemistry, and toxicology, which includes blood alcohol analysis. The Memphis and Nashville laboratories perform firearms identification analysis. Additionally, the main laboratory in Nashville specializes in latent fingerprint examination and microanalysis testing. The Information Systems Division provides support to investigative activities through records management, systems operations, fingerprint identification, and uniform crime reporting. The Training Division provides training to all TBI employees, to many Tennessee law enforcement officers, to other Tennessee state agency employees, private citizens, and college students through classroom instruction, online training, and internship programs.

# Department of Safety

---

The Tennessee Department of Safety works to provide safe highways for Tennessee’s citizens and visitors by enforcing the laws governing the use of state and federal roads. Development and management of a comprehensive state homeland security strategy is also a function of the department. The department also provides services to motorists, including drivers license issuance, public safety education, and training assistance to local law enforcement officers. Responsibilities of the department focus on the following areas: Administrative and Support Services, Public Services, Investigation and Enforcement, and Education.

## Investigation and Enforcement

The department's enforcement efforts focus on roadway safety, criminal investigation, and other safety-related functions through the Highway Patrol and Auto Theft Investigations division. In addition, the Office of Homeland Security develops and manages a comprehensive strategy to secure the state from terrorism threats.

### 349.03 Highway Patrol

The Tennessee Highway Patrol (THP) protects the motoring public through the enforcement of all traffic laws and federal and state commercial vehicle standards. THP's enforcement activities include patrolling the highways, issuing citations, investigating and reconstructing traffic crashes, performing searches and seizures, and inspecting and weighing commercial vehicles. Other activities include pupil transportation safety, security of state officials, drug-abuse resistance education, and assistance to educators in reducing gang and individual violence.

### 349.15 Office of Homeland Security

The Office of Homeland Security develops, coordinates, and implements a comprehensive strategy to secure the State of Tennessee from terrorist threats and attacks and coordinate the response to these events, if required. The office has three regional offices located in East, Middle, and West Tennessee to assist local officials with planning, training, and conducting exercises; effectively using federal grants; and improving communications. The state also has 11 homeland security districts that provide coordinated multi-county responses to chemical, biological, radiological, and nuclear threats. The office, in partnership with Tennessee Bureau of Investigation, operates the Tennessee Fusion Center, which enhances the state's ability to analyze terrorism information and improves information sharing among state, local, and federal agencies.

# Resources and Regulation

Recommended Budget, Fiscal Year 2016 – 2017

**T**he Resources and Regulation functional group includes eight agencies that promote and protect the state's natural, historical, and cultural resources and its consumers and workers.

Three departments promote consumer protection and safety in the work place:

- Department of Commerce and Insurance
- Department of Financial Institutions
- Department of Labor and Workforce Development.

These departments regulate and promote education in businesses and occupations to ensure professionalism and consumer safety; regulate insurance, commercial banking, and money-lending industries to ensure soundness and protect the interests of depositors and policy-holders; and regulate the work place to ensure worker health and safety, fair wages, and compensation for work-related injuries. In addition to these activities, the Department of Commerce and Insurance is responsible for law enforcement personnel training duties.

Three agencies promote and protect cultural and historical resources:

- Tennessee Arts Commission
- Tennessee State Museum
- Tennessee Historical Commission.

Together, these agencies promote interest, education, and participation in the arts through financial support to artists and supporters of the arts; protect and preserve artifacts that are significant to our natural and cultural history; and promote the preservation of and public

access to historical sites across the state through purchase and financial support.

The following two agencies promote and ensure the conservation of Tennessee's agricultural, environmental, and natural resources:

- Department of Environment and Conservation
- Tennessee Wildlife Resources Agency.

These agencies promote preservation of the state's environmental resources, protection from hazardous waste and radiation exposure, and reclamation of abandoned lands; promote recreation on public and private lands, including the state's geological, archaeological, and park resources; protect and conserve all species of wildlife native to the state; administer hunting and boating safety laws; enforce the litter control laws; stabilize river banks; and maintain drainage patterns to conserve agricultural land in West Tennessee.

## Cost Increases and Program Statements

The following section includes: (1) a table on personnel and funding for all agencies in this functional area of state government; (2) a table on recommended budget for each agency by funding source; (3) a statement of recommended cost increases for the ensuing fiscal year; (4) departmental program statements, indicating recommended funding and staffing for the ensuing year, compared with actual amounts for the last year and the amounts budgeted for the current year.

# State Museum

---

The Tennessee State Museum was created by public law in 1937 to bring together all the collections already owned or managed by the state. The State Museum's mandate is to "procure, preserve, exhibit and interpret objects which relate to the social, political, economic, and cultural history of Tennessee and Tennesseans, and to provide exhibitions and programs for the educational and cultural enrichment of the citizens of the state."

The State Museum, located in Nashville, collects, preserves, interprets, and exhibits artifacts that are significant to the natural and cultural history of the state. Through the acquisition, restoration, and stewardship of the collection, the museum's professional staff provides Tennesseans with numerous educational and cultural experiences. Many of the programs reach school-aged children across the state.

The museum secures and sponsors exhibits of distinction from renowned artists and collections to further enrich the citizens of the state. The museum provides technical assistance in conserving and restoring artifacts for historical sites and other museums and organizations in the state. The State Museum maintains administrative oversight of the National Civil Rights Museum in Memphis.

### 327.14 Natural Areas

The Natural Areas program promotes the restoration and conservation of Tennessee's natural and biological diversity by cooperative management of land, scenic rivers, and by collecting and disseminating information on rare plants. Scenic rivers are designated and protected under the 1968 Scenic Rivers Act to protect rivers of exceptional scenic quality and to protect rare species of plants and animals. State natural areas are designated and protected under the 1971 Natural Areas Preservation Act to protect natural biological diversity, preserve areas of exceptional scenic and geological value, and protect habitats for rare plants and animals. The division also studies rare plants and maintains a state list of endangered, threatened, and special-concern plants. The department is the lead agency for listing and recovery of plants under the 1973 Federal Endangered Species Act. The division also regulates the export of ginseng.

### 327.19 Local Parks Acquisition Fund

The Local Parks Acquisition Fund, administered in conjunction with the Department of Agriculture and the Tennessee Wildlife Resources Agency, provides funds for grants to county and municipal governments for the purchase of land for parks, natural areas, greenways, and other recreational facilities. Funding for these grants comes from the real estate transfer tax. Local governments must match the grant on a one-to-one basis.

### 327.11 Geology

The Geology division maps and identifies mineral resources, geology, and geological hazards across the state. The division also serves as a clearinghouse for geological information. Study results are published and distributed in the form of maps and reports. The program maps mineral deposits including coal, oil, and gas and maintains production records for oil and gas wells. The program is a primary source of information, advice, and education about Tennessee's geology, mineral resources, geological hazards, and oil and gas activity for the public, schools, professional geologists, state and federal agencies, environmental regulators, and industries.

**327.31 Air Pollution Control**

The Air Pollution Control division regulates air contaminants that are emitted into the atmosphere. State, local, and federal agencies monitor air quality at several sites across the state to determine if public health and welfare are protected. Mobile sources of air pollution are subject to a vehicle emission testing program in areas of the state that need the most stringent degree of regulation to meet air quality standards. The state coordinates its air pollution control efforts with the four local government air pollution control programs in Shelby, Davidson, Hamilton, and Knox counties.

### 327.32 Radiological Health

The Radiological Health division regulates the use and possession of radioactive materials and radiation producing machines throughout the state. The program performs these functions through licensing and registration of x-ray equipment, inspecting registered facilities, and environmental monitoring of specific sites. The division also monitors the environment for radioactivity, particularly near nuclear reactors, and responds to accidents involving radioactive materials.

### 327.34 Division of Water Resources

The Division of Water Resources is responsible for protecting the state's waters through a program of water quality planning, monitoring and assessment, and regulation. The division regulates stream channel modification, wetlands alteration, gravel dredging, and mine water discharge. This program develops groundwater and wellhead protection plans to ensure that Tennessee's public water supply complies with state and federal standards. The program also regulates most of the dams across the state and the drilling of public and private wells. The division regulates subsurface sewage disposal systems, grants construction permits, and inspects and approves underground septic systems for wastewater disposal areas that lack wastewater treatment plants. In addition, the division is responsible for inspecting septic tank maintenance

### 327.37 Abandoned Lands

The Abandoned Lands program administers the Tennessee surface mining reclamation fund for reclamation and re-vegetation of land affected by surface mining. This program sponsors reclamation projects that remove safety hazards from abandoned mines and restore resources to make them available for economic development and recreational uses. The fund is comprised of fees and forfeited bonds from both active and inactive mining operations.

### 327.38 Hazardous Waste Remedial Action Fund

The Hazardous Waste Remedial Action Fund supports activities to identify, investigate, and remedy properties contaminated by hazardous substances. Without this program, contaminated properties would remain abandoned and pose a threat to the health of Tennesseans and the environment. In addition to monetary support from the federal government, funds are derived from state appropriations and fees paid by generators and transporters of hazardous waste.

# Tennessee Wildlife Resources Agency

---

The Tennessee Wildlife Resources Agency (TWRA) is charged with preserving and managing all species of wildlife in Tennessee. The agency is governed by the Tennessee Wildlife Resources Commission. The commission establishes the agency's objectives; promulgates rules, regulations, and proclamations; approves the agency's budget; and hires the agency's executive director. TWRA generates revenue from a variety of sources including hunting and fishing licenses and permits; boat registration fees; excise taxes on arms, ammunition, bows and arrows, and fishing equipment; and fines for violations of wildlife, hunting, and boating regulations.

Program responsibilities are divided between the central office and regional offices. Administrative and support services provided by the central office include coordinating the agency's comprehensive planning system; coordinating the geographic information system; administering federal aid programs; publishing the Tennessee Wildlife magazine, hunting and fishing guides, and news releases; coordinating law enforcement activities and training; and coordinating equipment crews and engineering activities. Activities include building and maintaining boat access areas, levees, and forestry logging roads on agency property and investigating, reporting, and testifying on environmental issues.

Regional office responsibilities include sponsoring hunting and boating safety workshops and classes; providing technical assistance to farm pond and small lake owners; and developing, maintaining, and operating the wildlife management areas, state lakes, and fish hatcheries.

# Department of Financial Institutions

---

The Tennessee Department of Financial Institutions provides the citizens of Tennessee a supervised and sound system of state-chartered and licensed financial institutions. These include commercial banks; trust companies; savings institutions; credit unions; industrial loan and thrift companies; business and industrial development corporations; deferred presentment and check cashing companies; mortgage lenders, brokers, servicers, and originators; insurance premium finance companies; and money transmitters.

The primary statutory mission of the Department of Financial Institutions is to provide the people of Tennessee with a safe and sound system of banks and other institutions by ensuring safety, soundness, and compliance with governing law, while giving institutions the opportunity to contribute to the economic progress of Tennessee and the nation. None of the department's operating expenditures are funded with general state tax dollars. Revenue is derived solely from supervision, examination, and license fees assessed to those financial institutions regulated by the department.

# Transportation, Business, and Economic Development

Recommended Budget, Fiscal Year 2016 – 2017

**T**he Transportation, Business, and Economic Development functional group is a diverse collection of agencies responsible for the development of economic activity in Tennessee. This group consists of the following agencies and departments:

- Tennessee Housing Development Agency
- Department of Agriculture
- Department of Tourist Development
- Department of Economic and Community Development
- Department of Transportation.

The common goal among these agencies is the development and promotion of economic activity and improvement of the livelihood of all Tennesseans. This is accomplished through various programs and activities, including creating an environment conducive to the operation of business and industry and the construction and maintenance of sound public infrastructure.

In addition to the above general activities,

this functional group also concentrates on promotion of job growth through development of industrial infrastructure and job training investments, regulation and maintenance of the state agricultural and forest industries, and marketing of the state as a vacation destination.

The Housing Development Agency helps low- and moderate-income Tennesseans secure affordable housing.

## Cost Increases and Program Statements

The following section includes: (1) a table on personnel and funding for all agencies in this functional area of state government; (2) a table on recommended budget for each agency by funding source; (3) a statement of recommended cost increases for the ensuing fiscal year; (4) departmental program statements, indicating recommended funding and staffing for the ensuing year, compared with actual amounts for the last year and the amounts budgeted for the current year.

# Tennessee Housing Development Agency

---

The Tennessee Housing Development Agency (THDA) provides opportunities for decent, affordable housing to low- and moderate-income Tennesseans. THDA was created in response to a need for housing initiatives in rural areas, but it also performs activities in the major urban centers. The agency is authorized to sell tax-exempt revenue notes and bonds to provide funds for making below-market interest rate mortgage loans. Through the U.S. Department of Housing and Urban Development’s Section 8 program, THDA provides rental subsidies to assist renters in need and administers project-based contracts. THDA also administers two federally funded grant programs, the HOME program and the Neighborhood Stabilization program. The HOME program assists local housing providers in implementing affordable housing plans. The Neighborhood Stabilization program provides grants to non-profit organizations and local governments that buy foreclosed homes, rehabilitate, and rent or resell the homes to low- to middle-income families in order to help stabilize the housing market. The agency received proceeds from the National Mortgage Settlement fund that are being utilized to support activities aimed to prevent foreclosures.

Since fiscal year 2013-2014, THDA has assumed administration of two federal programs from the Department of Human Services. The Weatherization Assistance Program (WAP) enables low-income families to permanently reduce their energy bills by making their homes more energy efficient. The Low Income Home Energy Assistance Program (LIHEAP) helps keep families safe and healthy through initiatives that assist families with energy costs.

Activities of THDA include the rehabilitation and construction of rental and homeowner housing. The low income housing tax credit program, administered by THDA, supports acquisition, rehabilitation, and new construction of rental units for low-income tenants. THDA has a governing board composed of state officials and gubernatorial and legislative appointees who are active and knowledgeable in their respective industries.

# Department of Agriculture

---

The Department of Agriculture was established in 1854 with the original purpose of promoting agriculture through fairs and livestock expositions. This tradition continues today as the department helps expand markets for farm and forest products through promotions and industry development activities. The department provides an array of consumer services from food safety and product quality assurance to pesticide regulation and environmental monitoring. Forestry services include landowner assistance, wildfire suppression, and state forest management. Water quality programs encourage and promote wise stewardship of natural resources. The department's mission is performed within the following four major areas: Administration and Grants, Market Development, Consumer and Industry Services, and Forestry.

## Administration and Grants

The Administration and Grants area coordinates various duties including policy and strategic planning, budgeting, personnel administration, and legal.

Through cooperation with the National Agricultural Statistics Service this division collects, analyzes, and publishes reliable data for producers and decision makers in agriculture. In addition, the staff monitors grant-based programs in the areas of soil conservation and water quality, pesticide pollution and abatement, commodity distribution assistance to eligible recipients, forestry incentives, and volunteer fire department assistance. The division also administers several programs to help reduce soil erosion on Tennessee farms and forestlands and to improve water quality.

### 325.01 Administration and Grants

The Administration and Grants program includes the commissioner's office, budget office, legal services, personnel office, public affairs, legislative liaison, agricultural crime services, agricultural museum, and agricultural statistics services. This program carries out the Nonpoint Clean Water Act services delegated through the Environmental Protection Agency (EPA). This program also provides grants to promote non-profit agricultural fairs and livestock shows throughout the state and coordinates the distribution of commodities under the guidance of various federal laws.

**325.08 Agricultural Resources Conservation Fund**

The Agricultural Resources Conservation Fund (ARCF) lessens erosion and other agricultural-related impacts by providing cost-share reimbursements to landowners, producers, and managers who install a variety of conservation practices. The Department of Agriculture enters grant agreements with eligible entities, including Soil Conservation Districts (SCDs) who are a major partner in the facilitation of the ARCF program in all 95 counties. Grants to the SCDs comprise a majority of the annual ARCF program expenditures and includes funds for landowner reimbursements, administrative and per diem expenses, and training.

## Market Development

### 325.06 Market Development

The Market Development division works to maximize economic opportunities for Tennessee agriculture through innovative marketing programs and promotional services. The division works to develop domestic and foreign markets for Tennessee agricultural and forest products and to attract agriculture and forest industry to the state. Marketing efforts promote a variety of products including horticultural material, livestock, fruits and vegetables, value-added products, aquaculture, Tennessee grapes, and other products. Grants are also utilized to promote market development initiatives. The Tennessee Agricultural Enhancement Program assists producers in maximizing farm profits, adapting to changing market situations, improving operational safety, increasing farm efficiency, and making a positive economic impact in their communities.

## Consumer and Industry Services

The Consumer and Industry Services area is dedicated to the two main objectives of agricultural production quality and consumer protection. Responsibilities include sampling the quality of feeds, seeds, and fertilizers; protecting animal and plant health; registering pesticides; ensuring food safety; and inspecting processing establishments. A laboratory supports regulatory efforts.

### 325.05 Consumer and Industry Services

Consumer and Industry Services monitors agricultural raw materials, products, and services to assure quality, consumer protection, public safety, a fair market place, and a safe and wholesome food supply. Statutes direct responsibility for the registration, licensing, sampling, inspection of items pertaining to human and animal health safety, consumer protection, truth in labeling, and free movement of plants and animals.

# Department of Tourist Development

---

The Department of Tourist Development is responsible for planning and implementing marketing and service programs that increase the economic impact of tourism. These programs are designed to enhance Tennessee's image as a primary tourist destination in order to increase the number of travelers and tourists coming to Tennessee. The department assists smaller communities in developing new tourism programs to positively impact local economic development. In addition, the department provides visitors to Tennessee's welcome centers with a safe and positive impression of Tennessee. The department is organized into two divisions: Administration and Marketing, and Welcome Centers.

## 401.00 Headquarters

Headquarters consists of divisions that report directly to the commissioner. Headquarters' functions include community relations, constituent services, legal, internal audit, and payment of risk management fund premiums for property and liability insurance. Headquarters' functions also include the licensing of Tennessee's public-use airports, monitoring of compliance with federal grant assurances, and providing flight services for state government. Sales tax collected on aviation fuel, as part of the transportation equity fund, is used for construction and capital improvements of airports.

## 402.00 Bureau of Administration

The Bureau of Administration supports the operations of the department. Bureau services include management of highway safety grants; administration of overweight and oversized vehicle permits; reproduction of technical drawings, specifications, forms, contracts, and official documents; purchase of alternative fuel vehicles; management of radio licenses; and coordination of radio frequencies for government agencies. Finance, strategic planning, civil rights, human resources, and information technology services are also provided by this bureau.

#### **403.00 Bureau of Engineering**

The Bureau of Engineering provides the programming and scheduling of transportation pre-construction activities. Responsibilities include development of construction standards, administration of highway and bridge maintenance programs, and maintenance of materials standards. Improvement of state highways, not classified as construction or reconstruction projects, are administered under the Highway Betterments program. Connector routes to the interstate system are funded with a 50 percent state match through the Local Interstate Connector program. The bureau also administers the Capital Improvements program, providing funding for the construction or replacement of TDOT facilities. Other services provided by the bureau include administration of roadway and bridge design, right-of-way acquisition, highway incident management, and intelligent transportation systems.

#### **404.00 Bureau of Operations**

The Bureau of Operations consists of four different functions which include Field Engineering, Field Construction, Field Maintenance, and Garage and Fleet Operations. Field Engineering services include preliminary engineering, roadway and bridge design, traffic engineering, utility relocations, right-of-way acquisitions, construction, materials testing, and maintenance on the statewide highway system. Field Construction performs a variety of project work, including civil engineering, geological surveying, planning, and constructing highways and bridges. Other services include congestion mitigations, hazard elimination, highway safety, emergency relief, and air quality improvements. Field Maintenance Operations provide routine maintenance of state and interstate highways and bridges. Other responsibilities include highway incident management, highway beautification, and environmental compliance. Garage and Fleet Operations acquires, maintains, and repairs the department's mobile equipment, including its vehicle fleet. This division is also responsible for the acquisition of consumable inventory items and fixed assets, as well as the maintenance and repair of equipment.

#### **405.00 Bureau of Environment and Planning**

The Bureau of Environment and Planning provides transportation and traffic planning, monitors environmental impacts of transportation projects, and distributes mass transit grants. Sales tax collected on commercial water vessels and rail fuel, as part of the transportation equity fund, is used for construction and capital improvements of water port facilities and shortline rail systems. In addition, this division ensures the safety of the state's waterways and railways through routine inspections. The bureau also controls outdoor advertising and easements.

# The Budget Process

Preparation of the Governor’s annual budget for the State of Tennessee is the responsibility of the Commissioner of Finance and Administration, who is the State Budget Director.

Within the Department of Finance and Administration, the Division of Budget is responsible for budget development. Preparation, deliberation, and execution of the budget is a continual process throughout the year. This process regularly involves the legislative and executive branches, with occasional counsel from the judicial branch. The following table indicates the participants in the budgetary process and an approximate time schedule.

Function	Participants	Schedule
Preparation of Strategic Plans	Departments and Agencies	June July August
Executive Review of Strategic Plans	Governor Commissioner of F&A	August
Planning and Estimation	Budget Division Departments and Agencies	July August September
Preparation of the Operational and Capital Budgets	Budget Division	October November December * January
Legislative Deliberation	General Assembly	* February -May
Budget Execution	Budget Division Legislative Committees Departments and Agencies	July-June
Legislative Review of Strategic Plans	Departments and Agencies Finance Committees	Following Year January-May
Comptroller’s Performance Review	Comptroller of the Treasury	Following Year July-June

\*Note: The law requires the Governor to submit the Budget to the General Assembly prior to February 1, except at the beginning of a gubernatorial term, when the deadline is prior

to March 1; unless, in either case, the General Assembly by joint resolution authorizes a later date.

## Planning and Estimation

Immediately after a new fiscal year begins each July, the staff of the Division of Budget begins making plans for the budget that will be considered by the General Assembly for the subsequent fiscal year. These plans include designing and updating the forms and instructions used by departments and agencies in presenting their operational and capital budget requests to the Division of Budget.

These electronic forms and instructions are distributed to the agencies in August. The deadline for completion and transmission of the budget requests is the first of October. During this preparation period, the staff of the Division of Budget meets as needed with agencies’ fiscal, capital, and program personnel to answer questions and provide assistance in developing their budget requests.

In addition to projecting expenditure levels, estimates of the major revenue sources, such as the sales, franchise, excise, and gasoline taxes, are prepared for both the current and next fiscal years. The revenue estimates are prepared by the Commissioner of Finance and Administration after receiving advice from the State Funding Board, as required by TCA section 9-4-5202. All revenue estimates, including estimates for licenses and fees, are part of the budget review by the Commissioner of Finance and Administration, the Governor, and their staffs.

## Preparation of the Budget

Chapter 33 of the Public Acts of 1937 granted the Governor the authority and duty to develop and submit to the General Assembly a recommended budget. The law directs the Commissioner of Finance and Administration to prepare the budget in accordance with the Governor’s directives.

---

## The Budget Process

After the receipt of agency operational and capital budget requests, analysts with the Division of Budget begin the process of balancing expenditures against estimated revenues. Within this constraint, funds must be provided for Administration initiatives of high priority, activities mandated by state or federal statute, and the day-to-day operation of state government.

Instructions for the agency operational budget requests include the submission of two levels of requests: (a) a base request, which accommodates the continuation of current services, and (b) a cost increase request, which includes funds to implement mandated requirements, compensate for revenue reductions, initiate new programs, or enhance the base level due to increased costs of providing current services.

Capital budget requests are submitted to the Division of Budget along with agency operating budget requests, where they are reviewed in conjunction with the Real Estate Asset Management office. Based on these reviews and available funding, recommendations are made to the Commissioner of Finance and Administration and the Governor for consideration in the budget document.

Following analysis of the requests by the Division of Budget, detailed recommendations are made to the Commissioner of Finance and Administration. Meetings are convened with commissioners and directors of the departments and agencies by the Commissioner of Finance and Administration. A consensus is sought with the agencies as to the appropriate funding level for the upcoming year.

After these meetings are completed, the Budget Division staff makes any revisions that have been agreed upon and presents the estimates to the Commissioner of Finance and Administration for his and the Governor's consideration. The Governor and the commissioner review the recommendations resulting from these hearings and consider necessary alterations to fit within the scope of the Administration's initiatives and estimated revenues. The Governor may choose to

conduct meetings or budget hearings with agency heads and may direct them to submit plans for further adjustments to their budgets.

After gubernatorial decisions have been finalized, the staff of the Division of Budget prepares the Budget Document for printing. Meanwhile, work begins on the Governor's Budget Message. The Budget Document must be presented to the General Assembly prior to February 1, or prior to March 1 when a newly elected Governor takes office, unless the General Assembly by joint resolution allows submission on a later date.

At the time the Budget Document and Budget Message are presented, the appropriation process is initiated. The Appropriations Bill, prepared by the Department of Finance and Administration, is introduced and referred to the Finance, Ways and Means committees of both houses of the Legislature. The various standing committees of the houses may review those parts of the Appropriations Bill that fall within their purviews. The departments often are invited to testify before these committees on issues relating to their budgets.

After these committees report their reviews, the Finance, Ways and Means committees begin hearings on the budget in its entirety. Again, the departments may testify, and the Commissioner of Finance and Administration is invited to discuss the budget recommendations. Considerations made by the committees include the fiscal impacts caused by other legislation introduced by the members of both houses, recommendations of other legislative committees, and Appropriations Bill amendments filed by members of the Legislature. The Finance, Ways and Means committees of each house report out the Appropriations Bill with any amendments they recommend.

The Appropriations Bill then is sent to Calendar committees of each house to be scheduled for floor action. The Senate and House of Representatives must pass the same Appropriations Bill in the same form for it to be enacted into law. Approval of

the General Appropriations Bill usually occurs during the last week of the legislative session. In signing the bill into law, the Governor may line-item veto or reduce specific appropriations. Or, he could veto the entire bill; but this rarely would be done. Any veto may be over-ridden by a majority of the elected members, each house acting separately.

Tennessee has a tradition of enacting a single General Appropriations Act each year.

### **Budget Execution**

When passage of the Appropriations Bill is complete and is signed or enacted into law, the execution of the act begins. Two important concepts are involved: preparation of work programs, and development of allotment controls.

Invariably, there are changes to the Budget Document presented by the Governor to the General Assembly. These changes are made by amending the Appropriations Act during the adoption process. Analysts of the Division of Budget and fiscal personnel in the departments and agencies have the responsibility of reconciling the approved Appropriations Act with the Budget Document. This may involve increases or decreases to the agency allotments. The Division of Budget establishes an annual allotment for each agency and division using the reconciled Appropriations Act. This annual allotment, called the official work program, is provided to the Division of Accounts as a means of spending control. The agencies and divisions spend against these allotments during the fiscal year.

Budget execution is a process that continues throughout the fiscal year. In addition to the daily review of numerous operational and personnel transaction requests, the budget analysts must ensure that the legislative intent of the Appropriations Act is being followed by the various departments and agencies.

Further legislative review and control is maintained through the Fiscal Review

Committee and the Finance, Ways and Means committees.

In addition to the review of agency activities by these bodies, the Finance, Ways and Means committees must be informed of any new or expanded programs resulting from unanticipated departmental revenues. These revenues usually are new federal grants, but also may be other departmental revenues. When notice of unexpected revenue is received by an agency, the Commissioner of Finance and Administration, if he wants to approve the program expansion, may submit an expansion report to the chairmen of the finance committees for acknowledgement. Upon the chairmen's acknowledgement of the expansion report, the Commissioner of Finance and Administration may allot the additional departmental revenue to implement the proposed or expanded program.

Agencies may not expand programs or implement new programs on their own authority. This expansion procedure is not used to increase allotments funded from state tax revenue sources. No appropriations from state tax sources may be increased except pursuant to appropriations made by law.

A transfer of appropriations between allotments for purposes other than those for which they were appropriated may not occur without the approval of the Commissioner of Finance and Administration and a committee comprised of the Speakers of the House and the Senate, and the Comptroller of the Treasury.

Throughout the fiscal year, the Budget Division staff reviews the status of the various allotments and advises the Commissioner of Finance and Administration of any problems. At the end of the fiscal year, the Division of Budget has the responsibility of executing revisions to the annual allotments as a function of the accounts closing process.

### **Audit and Review**

Post-audit and review also are functions that continue throughout the fiscal year. Post-audit is a responsibility of the Comptroller of the Treasury, an official elected by the General Assembly. The Division of State Audit, within the Comptroller's Office, has the duty of conducting, supervising, and monitoring the audits of all state departments and agencies. Intermediate care facilities receiving Medicaid funds also are within the purview of this division, and state grants to other entities also are subject to audit. In addition, program audits are performed to determine whether agencies are functioning efficiently.

The General Assembly also participates in a continuing review throughout the fiscal year. The Fiscal Review Committee, a bipartisan committee comprised of members from both houses, meets regularly when the General Assembly is not in session. Following a set agenda, members of this committee review audit reports and departmental personnel respond to inquiries about activities and programs under the department's jurisdiction.

### **Governmental Accountability: Strategic Planning and Performance Measures**

The Governmental Accountability Act of 2013 amended the Governmental Accountability Act of 2002, which requires strategic planning, performance measures, and performance audits.

By August 15 each year, executive branch agencies submit strategic plans to the Commissioner of Finance and Administration who may require modifications. The commissioner must consolidate approved plans and submit them to the Governor and General Assembly by September 30 each year. For 2014, the Commissioner of Finance and Administration, as allowed by law,

exempted the Higher Education Commission and non-cabinet agencies from submitting plans to Finance and Administration, but encouraged the commission and non-cabinet agencies to continue the planning process. The judicial branch, Comptroller of the Treasury, State Treasurer, Secretary of State, Attorney General and Reporter, and legislative branch are not subject to strategic plan review by the Commissioner of Finance and Administration. They must submit plans separately to the General Assembly and Governor by September 30.

Under the Accountability Act, instructions for developing strategic plans and performance measures are issued to executive branch agencies by the Commissioner of Finance and Administration, who under other law, also issues budget instructions to all agencies. The strategic plans must include performance measures and standards, which must be included in the recommended Budget Document. The Governmental Accountability Act requires the Commissioner of Finance and Administration to annually evaluate strategic plans and performance measures.

Also under the Governmental Accountability Act, as well as under other law, each state agency is subject to performance review by the Comptroller of the Treasury.

The Governmental Accountability Acts of 2013 and 2002 continue the Tennessee tradition of strong executive management of the line agencies, begun with the Governmental Reorganization Act of 1923, and strong executive budget development and budget execution responsibility, begun with the budget law of 1937. The General Assembly has the prerogative to alter executive recommendations through the Appropriations Act and to alter policy and exert oversight through the legislative and performance review processes.

# Basis of Budgeting and Accounting

## Budgeting Basis

The annual budget of the State of Tennessee is prepared on the modified accrual basis of accounting – the method under which revenues are recognized when they become available and measurable, and expenditures are recognized when the liability is incurred. Most appropriations generally lapse at the end of each fiscal year. Appropriations for contractual obligations in the highway fund do not lapse at year end but are carried forward for subsequent year expenditures. In addition, it is the state’s budgetary practice to appropriate matching dollars for jointly funded projects in the year of federal apportionment. Most revenue collection estimates are presented on a modified accrual basis, consistent with the basis of accounting explained below.

The law requires the Governor to present his proposed budget to the General Assembly annually. The General Assembly enacts the budget through passage of a general appropriations act. This act appropriates funds at the program level. Before signing the Appropriations Act, the Governor may veto or reduce any specific appropriation, subject to legislative override. Once passed and signed, the budget, in the form of the Appropriations Act, becomes the state’s financial plan for the coming year.

Budgetary control is maintained at the program level by the individual departments and agencies, acting in conjunction with the Department of Finance and Administration. The latter has a Division of Budget and a Division of Accounts to execute budgetary controls. The budget document details the separation between payroll and operational funds by program. Any movement of funds between the payroll and operational funds requires approval and a revision to the budget by the Division of Budget on behalf of the Commissioner of Finance and Administration and the Governor. Other budget revisions during the year, reflecting program changes or intradepartmental transfers of an administrative nature, require certain executive and legislative branch approval, pursuant to law. This is

discussed in detail in the “Budget Process” subsection. With proper legal authority, the Division of Budget, acting on behalf of the Governor and Commissioner of Finance and Administration, may execute allotment (or budget) revisions. The line agencies may not make these revisions themselves. In Tennessee, as in other states, appropriation of funds is a legislative power, not an executive power. No expenditures may be made and no allotments increased, except pursuant to appropriations made by law.

For budget document purposes, all funds are classified as **General Fund** except for the Department of Transportation (Transportation, or highway fund), Capital Outlay (capital projects fund), facilities revolving fund, debt service (or sinking) fund, and Cities and Counties – State-Shared Taxes (Local Government Fund). The Education Trust Fund, including the Lottery for Education Account, for which state tax revenues are estimated separately, is included in the general fund in the presentation of the “Budget Overview”, although a separate fund balance statement for this fund is included in the “Financial Statements” section of the Budget Document.

The presentation of all the operating budgets within the **General Fund** in the budget document, except for Transportation, is done for ease of budget presentation and understanding. In the budget, revenue estimates for special revenue, internal service, and enterprise fund programs, funded by dedicated revenues, are included in the state tax revenue and departmental revenue estimates in the general fund, as are those programs’ expenditures.

**Special Revenue Fund** programs reflected in the general fund in the budget document are:

- Wildlife Resources Agency
- Boating Safety
- Wetlands Acquisition Fund
- Wetlands Compensation Fund
- Tennessee Regulatory Authority
- Education Fund

**Enterprise Fund** programs reflected in the general fund in the budget document are:

Tennessee Housing Development Agency  
Grain Indemnity Fund  
Client Protection Fund.

In the “Budget Overview,” **Education Trust Fund** programs are presented in the general fund, although the tax apportionments for the education fund are separately estimated. This, again, is done for ease of presentation and understanding of the budget. It also is done because the taxes earmarked and apportioned to the education fund are less than the education appropriations, requiring general fund tax support for education programs.

The programs in the Education Trust Fund are: (1) Department of Education (K-12), including general-source programs and the dedicated-source After-School Programs Special Account, funded by 100% of unclaimed lottery prizes; (2) Higher Education, including state appropriations for the University of Tennessee, the State University and Community College System (Board of Regents), the Foreign Language Institute, and the dedicated-source appropriation in the Lottery for Education Account; and (3) all funding sources for programs of the Higher Education Commission and the Student Assistance Corporation.

In the budget document, certain institutional revenues for the two university systems are estimated. These include unrestricted educational and general revenues (E&G), and auxiliary enterprise funds. Examples of unrestricted E&G funds are student tuition and fees; unrestricted state, federal, local, and private gifts, grants, and contracts; local appropriations; and sales and services related to academic programs. Restricted funds are not reflected in the budget document.

Although presenting the operating budgets in this consolidated fashion makes the budget easier to understand, the Comprehensive Annual Financial Report (CAFR) does present the special revenue and other funds separately from the general fund. The Division of Accounts provides that document to the General Assembly and the public.

**Accounting Basis**

*(From Division of Accounts, Comprehensive Annual Financial Report)*

The financial statements of the State of Tennessee are prepared in conformity with generally accepted accounting principles, as prescribed by the Governmental Accounting Standards Board (GASB). These principles require that the financial statements present the primary government and its component units, or the entities for which the government is considered to be financially accountable. Component units are discretely presented in a separate column in the government-wide financial statements to emphasize legal separation from the primary government.

In the government-wide financial statements, the financial activities of the state are reported as governmental or business-type activities. The government-wide financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

In the fund financial statements, the state's major **governmental funds** include:

**General Fund** – used to account for all financial transactions not required to be accounted for in other funds;

**Education Fund** – used to account for revenues and expenditures associated with programs involving the Departments of Education and Higher Education. Funding is provided primarily from the dedicated sales and services taxes and federal monies received from the U.S. Department of Education. Net education lottery proceeds and 100% of unclaimed lottery prizes fund higher education scholarships and after-school programs;

**Highway Fund** – used to account for revenues and expenditures associated with the Department of Transportation. Funding is provided from dedicated highway user taxes and funds received from the various federal transportation agencies; and,

**Capital Projects Fund** – used to account for the acquisition or construction of all major governmental capital facilities.

The state's non-major **governmental funds**, reported in a single column, include:

**Special Revenue Fund** – used to account for specific revenues earmarked to finance particular or restricted programs and activities;

**Debt Service Fund** – used to account for the payment of principal and interest on general long-term debt; and,

**Permanent Funds** – used to account for legally restricted funds where only earnings, not principal, can be spent.

All of the governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this basis, revenues are recognized when they become measurable and available. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are typically recorded only when payment is due.

Principal revenue sources considered susceptible to accrual include taxes, federal funds, local funds, and investment income. Taxes and similarly measurable fees and fines, are generally considered to be available if collected within 60 days after fiscal year-end. Grants and similar items are recognized as revenue when all eligibility requirements imposed by the provider have been met, and the amount is received during the current period or within six months after fiscal year-end. The state uses this same six month availability period for most other measurable revenues. However, tobacco and similar litigation settlement proceeds are generally considered available if collection is expected within 12 months after fiscal year-end. Licenses, permits, and other similar miscellaneous revenue items are considered measurable and available only when cash is received by the state.

## Basis of Budgeting and Accounting

The state's **proprietary fund** financial statements include:

**Enterprise Funds** – used to account for the operations of self-sustaining state agencies providing goods or services to the general public on a user-charge basis. Two of these funds are considered major funds – sewer treatment loan fund and employment security fund. Non-major funds are reported in a single column; and,

**Internal Service Funds** – used to account for goods or services provided to other departments or agencies of the state or other governments, on a cost reimbursement basis. These funds are reported in a single column.

The proprietary funds are accounted for on the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

The state's **fiduciary funds** financial statements include:

**Pension Trust Fund** – used to account for the activities of the state-administered retirement system;

**Employee Benefit Trust Fund** – used to account for the funds contributed by employees under the IRC Section 125 cafeteria plan;

**Investment Trust Fund** – used to account for the activities of the state-sponsored external investment pool;

**Private-Purpose Trust Funds** – used to report trust arrangements under which the principal and income benefit individuals, private organizations, or other governments; and,

**Agency Funds** – used to account for amounts held in custody of others.

Fiduciary fund types are used to account for resources held in a trustee or agency capacity for others and cannot be used to support the government's own programs. The fiduciary funds are accounted for on the accrual basis of accounting, except for agency funds, which do not recognize revenues and expenditures and do not present the results of operations.

**Discretely presented component units** include:

Federal Family Education Loan Program  
Tennessee Student Assistance Corporation  
(TSAC)  
Community Services Agency  
Tennessee Certified Cotton Growers'  
Organization  
Tennessee Housing Development Agency  
Tennessee Local Development Authority

# Glossary of Budget Terms

## A

**Accrual Basis of Accounting** - Records revenues in the period in which they are earned and become measurable; expenses are recorded in the period incurred, if measurable.

**Agency** - Any department, commission, board, authority, government-owned corporation, or other independent governmental entity.

**Allotment** - Funds established for agency expenditure, in accordance with the appropriations made by the General Assembly.

**Allotment Code** - The five-digit number used to designate a program or programs for budgeting and accounting purposes.

**Appropriation** - The amount authorized by the General Assembly to be allocated from a fund to an allotment code. Also, in the context of funding type, the general state revenue allocated to an allotment code by the General Assembly.

**Appropriations Bill** - Annual legislation authorizing the allocation and expenditure of funds for a two-year period: the year of bill passage and the subsequent year. The bill also sets policies, assigns certain responsibilities, and at times, specifies legislative intent on certain issues.

**Authorized Positions** - The maximum number of positions an agency may establish at any given time; authorized positions must receive legislative approval by legislation,

by expansion, or by inclusion in the Governor's recommended budget document.

## B

**Balanced Budget** - A budget in which the expenditures incurred during a given period are matched by revenues.

**Base Budget** - The estimated expenditures and associated revenues or appropriation necessary to maintain the current level of service or activity.

**BEP** - The Basic Education Program is the formula that determines the funding level each school system needs in order to provide a basic level of service for all students.

**Brian A.** - A settlement agreement, signed in July 2001, which requires reform of child welfare services provided by the Department of Children's Services.

**Budget Request** - The annual spending and revenue plan submitted by each agency for review by the Department of Finance and Administration, the State Comptroller, and the Fiscal Review Committee.

## C

**Capital Budget** - The portion of the budget devoted to proposed additions or maintenance to capital assets and the means of financing those additions.

**Capital Maintenance** - Major non-routine repairs and replacements unrelated to new

construction. Improvements of this type have a cost of \$100,000 or more.

**Capital Outlay** - Expenditures which result in the acquisition of or addition to major fixed assets (e.g., land, buildings, and equipment related to construction).

**Clean Water Acts** - Federal laws designed to restore and maintain the nation's air and water supply.

**Component Unit** - Entities for which the state is considered financially accountable.

**Cost Increases** - Increases in departmental budgets needed to implement mandated requirements, compensate for revenue reductions, initiate new programs, or enhance the base level.

**CPI** - The Consumer Price Index is required by state law for judges' salary adjustments. A year-to-year comparison of the average CPI (For All Urban Consumers: All Items) is used to index the statutory adjustment.

**Current Services Revenue** - Program funds generated by a specific activity to support that activity. This includes fees and assessments, gifts, and interest from reserves or endowments (e.g., licenses, permit and certificate fees, and inspection fees).

## D

**Debt Rating** - A measure of a governmental entity's ability to pay debt on bonds, etc.

**Debt Service Fund** - Funds used to retire bonds in an orderly process over the bonds' life. Each year, the state sets aside a sum of money equal to a certain percentage of the total bond issue.

**DNA** - Deoxyribonucleic acid is a nucleic acid that is the molecular basis of heredity.

## E

**Earmarked Funds** - Funds that are legislatively limited in how they can be expended.

**Education Trust Fund** - The fund into which all revenues earmarked and allocated exclusively for educational purposes are deposited.

**EEO** - Equal Employment Opportunity is a series of policies and procedures enacted by the Department of Human Resources to comply with federal laws governing fair employment practices as provided in the Equal Employment Opportunity Act.

**EMS** - Emergency Medical Services provide pre-hospital emergency medical care and medical transportation systems, primarily ambulatory services.

**Encumbrance** - Commitments related to unexecuted contracts for goods and services issued by the Central Procurement Office, Department of General Services.

**EPF** - The Environmental Protection Fund, administered by the Department of Environment and Conservation, to improve performance in permitting, monitoring, investigation, enforcement, and administration of the department's function under each regulatory program.

## F

**Families First** - This program, administered by the Department of Human Services, replaced Aid to Families with Dependent Children and provides time-limited cash grants, education, job training, child care, employment assistance, and transitional benefits to poor or low-income Tennesseans in order to reduce or eliminate welfare dependency.

## Glossary of Budget Terms

### G

**FDIC** - The Federal Deposit Insurance Corporation, which insures bank deposits up to \$250,000.

**Federal Funds** - Funds received from federal government agencies for the support of programs at state and local levels. Federal funds are received by way of block grants, entitlement programs, and specific grants.

**Federal Mandates** - A provision of federal law or regulation that requires state government implementation. This includes the creation of new programs, changes in existing programs, and increases in state financial participation in jointly funded federal programs.

**Fiscal Year** - A 12-month accounting period; in Tennessee, July 1 through June 30.

**FRF** – The Facilities Revolving Fund, which is a self-perpetuating fund for the maintenance and renovation of state-owned buildings and the leasing of office space.

**FRF Capital Projects Fund** - The fund used to account for financial resources related to the acquisition, construction, or maintenance of major capital facilities.

**FRF Debt Service** - Expenses for principal, interest, and discounts on bonds and other types of borrowed money.

**Fund** - A repository of money set aside for a specific purpose.

**Fund Balance** - Excess of the assets of a fund over its liabilities and reserves.

**Geier Desegregation Settlement** - A settlement agreement implemented in January 2001 to end the Geier higher education lawsuit, originally filed in 1968. The agreement resulted in dismissal of the lawsuit in September 2006. The agreement was intended to create a system of public higher education that preserves and enhances access and opportunities at Tennessee's public colleges and universities.

**General Fund** - The fund maintained by the Treasurer into which revenues collected by the state, other than highway taxes, are deposited for appropriation by the General Assembly to support the operation of state agencies.

**GIS** – Geographic Information System is a computer-based system for managing spatial data and mapping applications. Spatial data includes roads, elevation data, streams and lakes, imagery, and parcel boundaries.

**Governmental Accountability Act** – Law enacted in 2002 and amended in 2013 that requires strategic planning, performance measures, and performance audits.

### H

**Highway Fund** - The fund maintained by the Treasurer into which certain revenues collected by the state are deposited for appropriation by the General Assembly to the Department of Transportation. Revenues generated mostly from petroleum-related taxes comprise the Highway Fund.

## Glossary of Budget Terms

### I

**Interdepartmental Revenue** - Revenue received by one entity of state government from another entity of state government. These funds are received as reimbursement of shared costs, as a grant, or as some other inter-agency agreement.

### L

**LEA** - Local Education Agencies, which are defined as any county, city, or special school district, unified school district, school district of any metropolitan form of government, or any other school system established by law.

**Liability** - An obligation that legally binds the state to settle a debt.

### M

**MCO** - Managed Care Organizations, which are responsible for managing the distribution of medical services for the TennCare program.

**Modified Accrual Basis of Accounting** - Recognizes revenues in the period in which they become available and measurable; revenues are considered available when they will be collected, either during the current period or soon enough after the end of the period to pay current year liabilities.

### N

**NCUA** - The National Credit Union Administration, which charters and supervises federal credit unions and insures

Tennessee's state-chartered credit union deposits up to \$100,000.

**Ned McWherter Scholars Program** - In-state scholarships offered to academically outstanding Tennessee high school students, to encourage them to attend college in Tennessee.

**Non-Recurring Funds** - Funds that are appropriated to be used for a one-time expense.

### O

**Operating Budget** - Money that is necessary to maintain a program, excluding the cost of capital construction.

**Other Revenue** - A collection of funding sources, excluding state appropriations and federal funds which are generally from local governments, current services, and interdepartmental activities.

**Overappropriation** - The anticipated savings resulting from position vacancies and other unexpended funds.

**Overlapped** - Term used when an appointing authority places more than one incumbent into a single position. This is subject to budgetary limits as well as approval of the Commissioner of Human Resources.

### P

**Performance Measure** - A quantitative or qualitative indicator that is used to assess performance.

**Performance Standard** - A desired level of performance of a program, measured by outcome or output.

## Glossary of Budget Terms

**Pre-Need Funeral Contracts** - Contracts entered into with funeral establishments for services required at a later date.

**Program** - Any of the major activities of an agency expressed as a primary function.

### R

**Rainy Day Fund** - A fund established to ensure stability in the event of an extended economic downturn (also referred to as the Revenue Fluctuation Reserve Fund).

**Reclassification** - A change in the duties and responsibilities of a state employee's job.

**Recommended Funding** - The funds proposed by the Governor for legislative approval, including the base budget and cost increases.

**Recurring Funds** - Funds that are appropriated on an ongoing basis.

**Reserve Funds** - Funds held for future needs or a special purpose.

**Reversion** - The return of the unused portion of an appropriation to the fund from which the appropriation was made.

**Revolving Fund** - A fund provided to carry out a cycle of operations. The amounts expended from a fund of this type are restored by earnings from operations or by transfer from other funds. Thus, the fund is always intact in the form of cash, receivables, inventory, or other assets.

### S

**Second Injury Fund** - A fund providing money for judgments against the State of Tennessee and for legal costs awarded by the state in order to encourage employers to hire workers with prior injuries or disabilities.

**Section 8** - A federally funded rental subsidy program offered through the Tennessee Housing Development Agency for individuals and families with very low incomes.

**Sinking Fund** - See **Debt Service Fund**.

**Special Schools** - Schools operated by the state Department of Education to provide educational opportunities in residential settings for legally blind, deaf, and multi-disabled children ages preschool to 21, and to provide a model rural high school.

**Supervision Fees** - Fees collected from felons under the supervision of the Department of Correction, used to defray the costs of supervision and rehabilitation.

**Supplemental Appropriation** - Additional appropriations to the original allotment authorized by the General Assembly after the beginning of the fiscal year.

### T

**TANF** - Temporary Assistance for Needy Families is a federal program administered by the Department of Human Services and provides cash grants for families with financial need and dependent children deprived of support or care.

## Glossary of Budget Terms

**TCAP** - The Tennessee Comprehensive Assessment Program, which is used to assess academic progress of Tennessee students at specified points in their academic career.

**Tennessee Valley Authority** - A federal power-producing and economic development program.

**TLDA** - The Tennessee Local Development Authority, which is given the responsibility of issuing bonds and notes to provide funds to local governments and certain other entities for projects related to economic development and specific environmental and public health concerns.

**Tobacco Master Settlement Agreement** - A settlement agreement, signed by attorneys general representing 46 states in November 1998, with the major cigarette companies to settle all lawsuits seeking to recover the Medicaid costs of treating smokers. The agreement imposes restrictions on advertising, marketing, and promotion and requires the manufacturers to make annual payments to states through 2025.

## W

**West Tennessee River Basin Authority** - Preserves the natural flow and function of the Hatchie, Obion, and Forked Deer river basins.

**Workers' Compensation Reform Act** - Legislation that revised the state workers' compensation program.
