Exec:

Approve Nat'l Affiliations

Student Exec last week at the Tuesday night meeting invested the reserve fund, approved the National Committee's report, and the AWS constitution as proposed.

The committee's report limited National Affiliated Organizations to two types, Honorary Scholarship Societies both Departmental, and General, and Recognition (Interest) Society, of Departmental Interest or Activity Interest.

The requirements for the groups are that school policies must be complied with and will take precedent over national policies, non discriminatory, and that it will be approved by Exec and Faculty Committee.

The advantages of such an affiliation are that they will bring academic prestige to the college or department and help give student prestige. According to the above rules the committee could find no disadvantages. Carleen Finney and Tex Baker were co-chairman of the committee, with Bob White, Marcia Hursey and Nicki Nickols serving on it.

The Reserve Fund of \$5,097.06 has been invested in the Quaker City Federal Savings at 4% per annum. The measure was voted by Exec and Marion Schwander handled the negotiations.

The committee organized to investigate the proposed national affiliations of Campus organizations, has had their report accepted by Exec and referred to the Faculty Committee for further approval.

'Mona Kai' Set April 27

The Annual Lancer Mona Kai dance, set for April 27 at 8 p.m. will be held at the King Kameamea's Palace, across from the Willowick Country Club in Huntington Beach. Attendance reached several hundred in the past, and this year Lancers are again making preparations for a large crowd.

Ticket sales will begin the week following Spring Vacation for \$2. They can be bought from any Lancer member or at the hut which will be set up in front of the Campus Inn. Ticket salesmen will wear Hawaiian costumes.

Dress for the dance is traditionally Hawaiian — sarongs for the girls and cut-off denims, Bermudas and Hawaiian print shirts for the boys. Those wanting a custom made palm-leaf headdress will be able to get one from the hat maker who will again be at the dance.

Entertainment will harmonize with the prevailing theme and will include a Hawaiian dance and a special skit from Suzi Edmons and Pat Ashcroft. Music will be provided by Dick Shoop.

Coryell To Be at Whittier For Spring Practice

Don Coryell, the new Whittier College Football coach, is scheduled to be in Whittier April 22 to start spring football practice.

he will return to Fort Ord to finish his contract as athletic director and head football coach for the Army.

Community Clubs

During the month he will be introduced to various community service clubs and will be given a chance to meet the team. Fall practice will begin September 19.

Split Tee

Coryell has used the split tee formation, used by Bud Wilkinson of Oklahoma, but what he will use at Whittier will depend on the material available and what the team is best suited for.

In the past, Coryell has coached at Fort Ord for the Army and at Wenatchee, Washington Junior College, where he took the team to the State Championship in the first season under his rule.

Features

We begin our column of Exec news from Tuesday with an item foremost on our mind . . . Happy Easter Vacation . . . Have a good, safe trip.

ALL BOARD—Once again election time has rolled around on the Whittier Campus. The class elections are scheduled for April 30, nominations on April 25, with the runoffs on the following Tuesday.

Elections are serious considerations, because it means that the person in office holds a public trust. With due consideration to this fact and the responsibility that goes with it, we encourage you, the students, to actively participate in the coming election.

SPECIAL RATE—An investment has been made! What is it? It is the reserve fund of the ASWC in the amount of \$5097.06. The deposit was ratified by the Exec to be placed in the Quaker City Savings and Loan Association. An interest rate of 4% is the premium on the investment, also the money is still readily accessible for any emergency that might arise. Here's to future prosperity.

REST STOP—Ed Ferguson reported that arrangements have been made for a bottle coke machine to be placed in the Student Lounge on a trial basis. Students are encouraged to take advantage of the comfortable, cool, quiet (?) student lounge and have a coke, . . . free for a dime.

LATEST ARRIVAL—The Handbook presses will roll once more with the selection of the editor, Dan Santo by Exec. This is a tremendous job to take because of the research into student activities and writing copy for the book. The Handbook is slated to appear during Orientation Week. Congratulations and good luck, Dan.

SUCCESSFUL JOURNEY—Another milestone has been accomplished in the history of the college, with the Student Body benefit breakfast. It was a marked success as a new venture of student participation. Not only was it an addition to the prestige of the college, but also added approximately \$500 to the Chapel fund. Congratulations to all who contributed their help.

ENGINEER INVITES—The Exec Committee expressed sincere appreciation and a glad acceptance of Dr. Smith's invitations to have an Exec dinner-meeting at his home on April 23. Consequently the meeting will necessarily be unable to accommodate guests and visitors but Exec committee encourages all interested persons to attend the remaining two meetings of this semester . . . seems so soon! We were really pleased to see, by the way, the large number (approximately 10) guests at last Tuesday's meeting. Hope we have even more in the future.

PLAYING THE ROLE of a boisterous and inebriated Sir Toby Belch in Interim Theatre's production of "Twelfth Night," is Frank Bock shown above with another member of the cast, Peggy Chatfield. The production will be presented on May 2, 3, and 4 at the Whittier Woman's Club auditorium.

'Twelfth Night' Is Next Interim Theatre Production

On May 2, 3, and 4 at 8:15 p.m., the Whittier College Interim Theatre will present William Shakespeare's immortal comedy "Twelfth Night," at the Whittier Woman's Club Auditorium. Sparkling with the best of comedy from the pen of the world's master writer, the play will be presented in a new and modern manner adapted for the production by director Dr. E. Ray Nichols, Jr.

Standard for Comedy

"Twelfth Night," long considered one of the world's best comedies, is, even today, a standard of comparison for comedy writers. Included in its dramatis personae are some of the great figures of hilarity that the stage has produced. Characters like the boisterous and inebriated Sir Toby Belch, the rather slow to catch on Sir Andrew Aguecheek, the conceited and extremely serious Malvolio, and more like them, make it one of the finest comedies of character and slapstick in the world's theatre.

Cast

Included in the cast of the Interim Theatre production are Art A. Seidelman as Malvolio, Judy Stone as Olivia, Wade Laming as Orsino, Frank Bock as Sir Toby, Dave Westsmith as Sir Andrew, Donna Searing as Viola, and Gilbert McEwen as Feste the clown. Others in the cast include Gordon Blackmon, Don Graham, Dan Swift, Jim Henderson, Peggy Chatfield, Bob Teeter and Neill Richards. Don Graham is serving as Assistant Director. The costumes are being designed and executed by Luene Holmes and Leslie Sloan.

Exchange News

CAL TECH AND
LA VERNE COLLEGE

It seems that Whittier hasn't cornered the market on constructing new campus. La Verne College was given \$400,000 by an anonymous Hollywood multimillionaire recently, and plans for a new gym are underway. Not to be left out of this building expansion program is Cal Tech, which began construction of a \$200,000 health center. This was also due to a gift by an anonymous contributor along with Mrs. Archibald B. Young, whose husband it will be a memorial to.

OXY

Concern over the honor spirit at Oxy aroused students and faculty because of recent violations. The system is a faculty proctor organization with no honor involved, according to student opinion.

REDLANDS

Three students contacted the Soviet Embassy and Admiral in Chief of the U.S. Navy Chester Nimitz by telephone to discuss the prospects of war and the state of present world tensions. One comment from the Soviet attaché at the Soviet Embassy in Washington D.C. was that peaceful coexistence through the United Nations work is the desire of the Soviet Union.

Inspiration From Whittier Choir

First conceived in the mind of a man, perhaps by some dramatic event in his life, maybe inspired by a beautiful scene, or it could be the product of perennial sorrow or the welling up of a good feeling on a good day, the idea is translated into musical notes on paper and there a beautiful harmony is made permanent. But it takes more than that to make it useful. There must be an audience and someone to bring it to the audience.

The strings of the violin must be appropriately shortened and crossed by a bow piloted by someone who has toiled many hours over the "y" days to play meaningfully. Or maybe its voice that transfers the thoughts on the paper to the air where it may be heard and interpreted by the audience.

Thus ancient thoughts of beauty are reincarnated for us and the future.

Wait! A note of discord. For so are thoughts of evil made ready as ideas that ambush the unaware or are battled by truth.

Because we have received from the past and realize that we give to the future, we prepare to give our best, mindful that excuses are not substitutes for knowledge and truth becomes selfish sin when kept hidden.

Thank you Lord for right and wrong and for ways, for our lives and a Way:

*"To every Man there openeth
A way, and ways, and a Way
And the High Soul climbs the
Way,
And the Low Soul gropes the Low
An in between on the misty flats,
But to every man there openeth
The rest drift to and fro
A High Way and a Low,
And every man decideth
The way his soul shall go."*

Letter to Editor

Just a line to say thanks a million for all the help given me by Dr. Stevenson and Rev. Boblin and my fine committed students in making Marriage Education Week a real success. I also want to thank the student body for the fine reception they gave Dr. Peterson, guest speaker for the week.

Again, thanks are in order for all who helped make the Whittier College Memorial benefit breakfast a real success.

Swimming Team Defeated By Pomona-Claremt. 50-35

The Whittier Swim team, led by co-captains Dick Ellis and Bob Lowe, lost a close meet to Pomona-Claremont last Friday by a 50-35 score. While this may not seem to be a particularly close score, it should be noted that the relay, the last event, counts seven points. Had Whittier won the relay instead of Pomona-Claremont, the score would have been 43-42 in Pomona's favor.

For the Poets, Ellis and Lowe turned in outstanding performances as they won the 50-yard freestyle and the 100-yard freestyle respectively. Morris Fox also greatly aided the Whittier cause as he captured first place in the divine. Seconds captured for Whittier included two by Jack Sturgeon, in the 220 freestyle and the 440 freestyle; Jim Watkins in the 220 breaststroke; Peter Lae in the 220-yard back stroke; Ellis in the 100-yard free-

style; and Lowe in the 50-yard freestyle. Watkins also took a third in the 200 butterfly while Larry Cann took third in the 200-yard breaststroke.

The Poets swam against the tough Occidental Swim team last Wednesday, however the results were too late for this issue.

SUMMARY

220 Freestyle, Booth (PC) Sturgeon (W) Mills (PC) 2:25.9; 50 Freestyle, Ellis (W) Lowe (W) Huemer (PC) 24.4; 200 Butterfly, Lynn (PC) White (PC) Watkins (W) 2:30.2; 100 Freestyle, Lowe (W) Ellis (W) Huemer (PC) 57.1; Diving, Fox (W) 132.6 pts.; 200 Backstroke, Wayne (PC) Lae (W) Golden (PC) 2:32.5; 440 Freestyle, Booth (PC) Sturgeon (W) Mills (PC) 5:22.9; 200 Breaststroke, Lynn (PC) Watkins (W) Cann (W) 2:32.5; 440 Relay, PC 3:50.0.

Final Score—PC 50, W 35.

PREVIEW

Due to vacation there will be no athletic contests next week.

The Q.C. sports staff hopes you have a pleasant vacation.

Poets Win Tri Face Redlands

Coach Aubrey Bonham's Whittier College varsity track squad journeys to Redlands today for a SCIAC dual meet with the University of Redlands Bulldog. The frosh teams of both schools

also collide with field events for both varsity and frosh beginning at 1:30 p.m.

Last Saturday afternoon the Poet varsity cindermen won its first meet of the 1957 season by slumping Westmont, Chapman, Pasadena and the Whittier frosh in a five-way non-conference meet on the Memorial Field.

Asaro Shines

However, it was Poetbabe Vince Asaro who stole the show with record breaking performances in the discus and shotput. Asaro broke his own school record in both events as he flipped the discus 141' 10" bettering his old mark by almost ten feet, and tossed the shot 48 3/4 to eclipse his previous best by 14 inches.

Win Relay

Coach Bonham's varsity runners led its first victory of the '57 campaign by winning the mile relay as they led Pasadena by two and a half points going into the last race of the day. Bob Bland was the only Whittier varsity trackster to cop a double for the day as he tied for first in the high jump at 5' 8" and won the broad jump with a 21' 10 1/2" leap to record his best of the year. Len Peden was the only other varsity man to capture a first as he skinned the high hurdles in the 161 and also placed second in the 100 yard dash.

Other place winners in varsity competition were Joe Sarthou, second, 440; Dale Headley, second, mile, and fourth, two-mile; Tom Marumoto, second, broad jump; Ron Tebbis, second, 220; Bill Marumoto, third, pole vault; Bob Rivers, third, high hurdles; Dick Sallis, third, javelin, and Marty Klure, third, discus.

Poet yearlings who placed in the meet were Loren Hailey, fourth in 220 and shotput; Duke Reynolds, second, 220 and third, 100; Bill Kelley, third, 440; Larry Murray, second, javelin; Don McCrea, fourth, pole vault and the team of Steve Musselman, Dick Trueblood, Hailey and Kelley with a second in the mile relay.

Frosh Baseball Squad Hold 6-3 Record

Whittier College's freshman baseball team, coached by Art Jessup, is currently boasting a six and three over-all record.

The Poetbabes hold victories over the Pomona frosh 6-4 and 7-0; over Redlands frosh 13-8; over Caltech 20-3, in a game that was highlighted by Caltech pitchers giving the Poets a total of 16 walks; and the two most recent victories on the Poet record, over Pasadena College 15-5 and Pepperdine 5-4. The only losses suffered so far this season by the Poets have been at the hands of the Mount San Antonio Junior

College J.V. team twice, 6-2 and 9-2, and to Pepperdine 9-3. The Poets turned the tables on the Waves last week however with their victory.

Individual standouts for the Frosh this season have been Jerry Morgan, who has a 5.2 record on the mound and a .333 average at the plate; Al Balen, who has a 1-0 mound record and a respectable .324 mark at the plate; Bill Mitchell is the leading Poet hitter with a healthy .393 average and in his only appearance on the mound, which was last week, he struck out the only two men he faced.

Reckless Reactions Campus Quakes

Proposal for Progress

Undergrads of Whittier A Cautious Generation" was the title of the article last week. It described you and me as "cautious, adaptive, moderate" students "characterized by superb health and adjustment," but we've been misrepresented!

Let us gaze at the fallacies in this article. It says, "There aren't even any rebels WITH causes." To arms, what nonsense! We rebel against all manner of things. Why live up to silly traditions, why do homework when we can go to the beach, why do anything we don't feel like doing? Rebel! Do what you want, is our motto.

What do we want? All surveys among college students point to security as the most desired value. Hang "caution" in achieving this! Is the football team cautious with the forward wall of a rival team? Who's cautious in driving? How many are "moderate" about how many committees and activities they participate in. No, we're not "breathless and rather weary" from the Depression or any Cold or Hot war. We're pooped from trying to keep up with fellow college students; from our night into social activities. Yes, this is our ideal. Now, our behavior may be "healthy" and good "adjustment" to some, but this doesn't account for the LITTLE things that bother and irk us, that toss us into our moods. It must be that we're crusaders for our goal and "crusaders are maladjusted." Good grief, everybody knows that we can't be maladjusted because if every college student, that's Joe, has the same concept of good it can't be bad.

The article says, "the majority of students do not wish to be typed," phooey, it's just that we all want to be the same type. "College life here exemplifies a balance of interests." Is another phoney concept. We have two goals related to acceptance and security—a happy marriage, and successful job. Great, but is this the balance of a full life? As regards these ideals we're not cautious in our attempts at getting them except when tension and

anxiety build up as we make mistakes. Mistake? That's when we do something unique, act different, or don't join fully in the flight into fun and activity as a means of reaching our goals. You know, conformity and good adjustment must be the same thing.

Agreed — Security found in good relationships with others is not only rewarding, but a worthwhile purpose, great living! Granting that this is a valid goal of the student, we must still ask why the student is not more creative and broad in his approach. Good adjustment implies creative, new, adventuresome approaches to life's goals. The crusader for abolition of the death penalty or state requirements for practicing psychologists is no more maladjusted than the person who's so wrapped up in his little shell that he cannot perceive the fact that these things affect that shell.

This kind of a crusade is not as upsetting as many smaller, more things that block out ego every day. The only matter one reason we keep from being more than crusaders for ourselves lies in our own low opinion of the importance of our voice — namely our personal insecurity. But the value of the individual is the crusaders talk, and we mustn't destroy some one's stability here by repeating it.

Dick Calkins

In answer to last week's article "Undergrads of Whittier A Cautious Generation" I would like to reflect on the causes for such conformity on our campus. First let's ask ourselves if we are alone in the dilemma of the "silent generation." Sad as it may seem I am afraid we will find conformity in thinking on most of the small college campuses. Why? Could it be that we don't have the cross-section of backgrounds and controversies which the large university offers? Or is it because the individual, if dubbed "different" on the small campus, is a social outcast? Certainly I am not advocating non-conformity for non-conformity's

Founders for this purpose alone.

Why doesn't the maintenance department try re-marking the parking area behind the Education Department for the use of small foreign cars only? This would open up more parking on the street for the larger cars and would also increase the capacity of the lot.

sake, for then when the big issue is at stake no one will listen to the "queer duck." No, what is wanted is more questioning minds, more bull sessions, and more stimulating articles in the Q.

If our search is for security we are missing life and living on the fringe of reality. Those among us who have traveled realize that the people of many areas of the world are on the move, demanding change. Yet take a look at the way we're facing this revolution. In our eagerness to bring change many well meaning people are lessening one side of the problem only at the expense of increasing new problems. Is improved health brought on increased-population problems in many areas.

Then again how many of us take a serious look at our policy toward peace? If we go along with the present draft program O.K., let's do it conscientiously. If we don't, have we looked into the pacifists position of non-violence along with constructive measures for lessening tensions?

Still I would like to disagree with Dr. Albert Upton's statement that we have only one and a half intellectuals on our campus. I am encouraged by the interest in the United Nations taken by our M.U.N. group which is now at the Stanford Conference. Our need is for the students with concerns to speak out. What if we don't have all the facts; legislation goes so fast and is so complex that it is impossible to be completely informed. We must see our responsibility to make decisions in the light of the facts we have, keeping open to the possibility of being wrong and of changing. The decision is what's important!

By DICK HERMAN

For many of you who have been around for awhile this is an old wolf under another sheep's skin, for those who are newer this is the local humor column, so-called by some, but really classed by the Dusenberg set as a bit of a vulgar scandal sheet. Well then, so be it.

ALL'S FAIR

Before I go any further it might be considered sporting of me if I would state the policy of this column. If it walks and goes to Whittier College, it's fair game, family spirit, it's still fair, and if it has to do with any Prof, it gets the lead bit.

FOUL PLAY

Carleen Finney, as she pounded vigorously on Exec's door, screamed "Mike Armer, you've ruined my reputation."

FRIENDLY SPIRIT

Bob Kester, after the Spring Sing, bowling at the Friendly Hills Bowling Center with the Penns, got lost on the way to the little comrades room, came back muttering about some mixed up girls in the wrong place.

TACT LAFF

Dr. Wayne Miller, freshman Social Science professor, trying to put over his point concerning the theory of what effect a mother's actions had on her unborn child, stated, "But that's a lot of nonsense, my mother sat on a phonograph record before I was born and it didn't affect me . . . affect me . . . affect me . . ."

CAUSTIC COMMENT

In one of Dr. Burnett's classes, discussion on the recent L.A. school board elections brought this terse exchange:

Student: "... so the teachers claim that since Stafford and Cole have been on the board they've been able to teach the three 'R's' again."

Dr. Burnett: "Well, I don't know where they're doing that unless two of the 'R's' stand for rock and roll."

If the tar pots and feathers don't fly before the next issue, this will be back; if they do, Oxy gets another reporter.
