The Gallaghers need each other more than ever in season 6 of 'Shameless'

By **Jacqueline Spendlove**
TV Media

Despite the critical acclaim that Showtime's "Shameless" and its British forerunner have enjoyed, the American dramedy doesn't seem to generate a ton of buzz.

It certainly deserves to, though. The show is a perfect blend of black humor and tear-jerking drama, with a good smattering of

petty crime, colorful language and the odd broken nose thrown in for good measure. At its heart, however, it's a show about family and the loyalty that that demands, no matter how rough things get — and in "Shameless," things get pretty rough. Catch a new episode of "Shameless" when it airs Sunday, Feb. 21, on Showtime.

The original "Shameless" ran for an impressive 11 seasons on Channel 4 in the U.K. and received critical acclaim, taking home the

BAFTA Award for Best Drama Series in its first season, as well as the award for Best TV Comedy Drama at the British Comedy Awards. Recreating foreign shows in American settings for American audiences can generate both hits ("The Office") and misses ("Graceland"), but "Shameless" transitioned seamlessly from working-class Manchester to Chicago's South Side.

The series follows the (often illegal) exploits of the dysfunctional

and disorderly Gallagher family, whose six kids live paycheck to paycheck — or, perhaps more accurately, welfare check to welfare check — with a deadbeat father and an absentee mother.

The brilliance of the show is that none of its characters possess particularly admirable qualities, yet somehow they're likeable. The show handles some pretty heavy issues, and, on the surface, these peoples' lives are bleak and depressing, to say the least; most of the time, they're in pretty dire straits. Yet it still manages to be funny. The series is extremely well cast, and a lot can be said for delivering warmth and humor in serious situations.

The official head of the rowdy Gallagher clan is booze-addled, freeloading, remorseless, conniving patriarch Frank, played to absolute perfection by Emmy winner William H. Macy ("Fargo," 1996). The guy is the very definition of the word "bum" — he does everything he can to cheat the system, he relies entirely on the children he neglects in order to barely squeak by, he takes advantage of whomever he can, whenever he can, and despite being a total waste of skin, he's also, somehow, an insufferable narcissist.

The unofficial head of the household — in other words, the one keeping things afloat — is eldest daughter Fiona (Emmy Rossum, "The Day After Tomorrow," 2004), who dropped out of high

school in her junior year to care for her five siblings. Though far from perfect, she's as selfless as her father is selfish, and does her best to keep the kids in line and on the right track. Things have started to unravel for Fiona in the past couple of seasons, with a stint in jail and an impulsive and ill-advised marriage under her belt, but her siblings are as important to her as ever. It's the constant return to the family unit, however dysfunctional, that gets the Gallaghers from one insane issue to the next.

"What I like about [Fiona] still is her desire to win, and that's kind of [true] throughout all of the characters," Rossum told The Hollywood Reporter last year. "No matter how many times they get beat up, lose their house, get separated, go into foster care — they still come together; they don't really get bogged down the way life can bog you down. They're fighters."

Indeed, the whole brood is facing some pretty big issues as season 6 unfolds. Lip (Jeremy Allen White, "Twelve," 2010) is messing around with his married professor, while Ian (Cameron Monaghan, "Click," 2006) is still struggling with his mental health — though it looks like he may be gaining some much-needed direction in hot, gay firefighters.

Fifteen-year-old Debbie (Emma Kenney, "Bittersweet," 2008) is pregnant and getting pressured

by Fiona to have an abortion, while Carl (Ethan Cutkosky, "The Unborn," 2009), following a stint in juvy, has taken up a life of crime in earnest (while sporting cornrows, no less). Meanwhile, the whole crew is still responsible for youngest brother Liam's (Brenden and Brandon Sims) improbable survival. Oh, and the family is now facing eviction, with gentrification rearing its ugly head in Caryville.

As far as the show's content goes, this last problem is probably the biggest. While the individual Gallaghers have always had their own personal problems, the family invariably bands together to help each other out of their respective jams. Keeping the family together has always been of utmost importance, and no matter how tough life gets in the Gallagher house, it's always been there for them all to come back to. Season 6 could prove a real turning point, splitting up the family in earnest, or it could just prove one more massive hurdle that they need to come together to jump.

Certainly, on the surface, "Shameless" sounds like it should be sad and tense rather than funny, but the show's humor, dark as it is, is undeniable. Join the Gallaghers as they continue to lie, steal and cheat their way through season 6. A new episode of "Shameless" airs Sunday, Feb. 21, on Showtime.

Q&A hollywood

By Adam Thomlison
TV Media

Q: Now that we have seen Molly C. Quinn grow up in "Castle," will we be seeing her branch out to meatier roles?

A: In Hollywood, it doesn't get much more "grown up" than being a producer — when it's your money, or at least your reputation, that's on the line.

So while her character has definitely become an adult in "Castle," she did the same as a Hollywood entity last year when she produced and co-starred in "Welcome to Happiness," an ensemble-cast independent comedy co-starring Nick Offerman (of "Parks and Recreation" fame), Paget Brewster (previously of "Criminal Minds") and Keegan-Michael Key (the first half of "Key & Peele"), among others.

Otherwise, her roles outside of "Castle" have remained fairly small so far.

She's done a number of short films in recent years, including three last year alone. She also did a comedic guest spot in the odd-ball YouTube series "Princess Rap Battle," playing the character Hermione Granger from the Harry Potter books in a rap music stand-off against the character Katniss Everdeen from the Hunger Games novels.

All of those were fairly brief commitments, which could reflect the fact that she's still signed to "Castle."

In terms of "meatier roles," her biggest so far would have to be the titular Gretel in the 2013 film "Hansel & Gretel Get Baked," but there was nothing grownup about that one.

Q: I miss seeing "Bates Motel" and "Hardcore Pawn." Will these programs be returning with new episodes?

A: Oddly enough, given its subject matter, "Bates Motel" is the safe one here.

Well, at least its future is safe; the critically acclaimed A&E thriller returns with new episodes Monday, March 7. The same cannot be said for "Hardcore Pawn."

The truTV reality series about the frequently odd (though again,

when you're being compared to "Bates Motel," oddness is relative) workings of the American Jewelry & Loan pawn shop in Detroit has not yet been renewed for a 10th season.

Indeed, the show seems to be in trouble, since one of its three stars, Ashley Gold, recently announced she's left the shop to strike out on her own.

In a December interview with the Detroit-based web magazine HometownLife.com, Gold confirmed that she didn't know whether it was being renewed, but regardless, she was leaving to work on her own project, a fashion website called PawnChick-Shopping.com.

The rest of the Gold family (the other two stars of the show are her brother Seth and father Les) have stayed in the news, too, though: they stepped up to the plate back in January to run a bottled-water drive to help nearby Flint, Michigan, in the midst of a water crisis there.

Fans of the original "Psycho" film (1960), on which "Bates Motel" is based, certainly got a thrill out of the promo ad for the new season, which features a tribute to the film's famous shower scene (blood and water run down a shower drain, while Norman calls to his mother in the background — a pretty chilling few seconds).

Indeed, series co-creator Carlton Cuse said that we'll see more plot points from the films leaking into the TV show.

Guy Fieri eats his way across Europe family-style

By Andrew Warren
TV Media

Whether it's in "Triple D" or in "Triple G," Guy Fieri is the face of the Food Network, and he's taken that face overseas for a family adventure.

For the uninitiated, that's "Diners, Drive-Ins and Dives" and "Guy's Grocery Games," the two Food Network shows that brought fame to the spiky-haired, bad-boy chef. They've also brought a touch of fame to another member of the Fieri clan: Guy's teenage son, Hunter, who occasionally shows up at his father's side to provide his own youthful take on food.

Over the years, "Triple D" and "Triple G" fans have watched as Hunter grew up

knowing more about food than most adults do. Well, that little guy isn't so little any more, and he's finally graduating high school. To celebrate, Guy is giving him a gift in his classic style: big, loud and in your face. He's taking the high school grad on a culinary tour of Europe — complete with Food Network cameras in tow. "Guy & Hunter's European Vacation" airs a new episode Friday, Feb. 26, on Food Network.

It would be a dream vacation for almost any kid, but for a foodie like Hunter it's even better. Together, the father and son are visiting a whopping 13 cities across the continent, with stops in Greece, England, France, Germany, Italy, Spain and Switzerland. They kicked off their tour in Athens, Greece, where Hunter got the

lowdown on how to make a perfect Greek gyro.

In this week's episode, the Fieris split their time between two neighbors: Germany and France. Both countries have a rich and famous culinary heritage, and Guy is certainly no stranger to them. In his youth, the celebrity chef was an exchange student in Chantilly, France, which is where he says he first gained his appreciation for French and international cuisines.

It's clearly an appreciation that he's shared with his son, who gets to go on a border-hopping, stomach-bursting, taste bud-teasing trip of a lifetime. At least those of us watching at home can live vicariously through the Fieri clan!

A new episode of "Guy & Hunter's European Vacation" airs Friday, Feb. 26, on Food Network.

Resistance is futile

A family faces impossible choices in 'Colony'

By **Kyla Brewer**
TV Media

Sci-fi fans love a good alien invasion story. H.G. Wells sparked a fascination with the idea when he published his wildly popular novel "The War of the Worlds" in 1898, and since then, countless books, movies and television series have been made on the subject.

The genre may be flooded with extraterrestrials, but one sci-fi TV series is making its mark with nary an alien in sight. Set in near-modern day, USA Network's "Colony," which airs a new episode Thursday, Feb. 25, picks up months after a (presumably) alien force took over Los Angeles. The invading force constructed an enormous wall around the city and established a military occupation using human collaborators known as Redhats and Proxies. They also utilize drone aircraft to keep tabs on the humans and enforce their rule, but the aliens themselves are never seen.

It seems far-fetched, but creator Carlton Cuse ("Lost") talked about the very real connotations of the invaders at last year's San Diego Comic-Con panel promoting the show.

"This mysterious invading force comes down, puts up these walls, installs a proxy government," explained Cuse. "We thought a lot about the analogies to other places that are under foreign rule or occupation, whether it's the United States installing a government in Afghanistan or Iraq, and this idea that almost every other country in the world has either been a

colony or a colonizer was very fascinating to us."

It's a heady concept, but Cuse is no stranger to ambitious television — he was an executive producer and joint showrunner for ABC's groundbreaking television series "Lost," a gig that earned him the distinction of being one of 2010's most 100 influential people in the world, according to Time magazine.

Cuse teamed up with screenwriter Ryan J. Condal ("Hercules," 2014) to create "Colony," and recruited a familiar face to star in the project. "Lost's" Josh Holloway portrays former FBI agent Will Bowman, who is separated from his 12-year-old son during The Arrival. Desperate to reunite with his boy, he tries to infiltrate the Colony Transitional Authority. Unfortunately, the plan goes awry and Bowman is captured. It's then that he's faced with an impossible choice: to work with the Redhats to hunt down members of the Resistance movement, or his family will be sent to a labor camp known as the Factory.

Peter Jacobson ("House") stars as the powerful Proxy Snyder, who presents Bowman with the offer. Meanwhile, unbeknownst to Bowman, his beloved wife, Katie (Sarah Wayne Callies, "The Walking Dead"), is working for the Resistance. Katie uses her "underworld" contacts to try to get insulin for her younger sister, Maddie (Amanda Righetti, "The Mentalist"), whose son is diabetic. The invaders have deemed diseases such as diabetes unworthy of treatment, leaving many to suffer or die. Katie's Resistance movement contacts include Broussard (Tory Kittles, "True De-

TECTIVE"), a ruthless gunman with a knack for forming key alliances.

The ensemble cast paints a desperate picture as the story plays out, and the series often feels more like a drama than a sci-fi program. At Comic-Con, Cuse billed the show as "an espionage thriller with science-fiction elements." The meat of the story focuses more on Bowman's efforts to take down the Resistance and the conflict his new "job" causes with his wife than it does on seeing the extraterrestrials that have invaded.

In fact, it doesn't look like viewers will get much of a peek at the invaders in this first 10-episode season. The Hosts, as they're known, may be pulling the strings, but they work through humans such as Snyder. Cuse recently told The Hollywood Reporter that they didn't want to show the aliens right away, but didn't rule out the possibility in the future.

Onscreen aliens or not, the show has attracted a lot of attention, thanks in part to USA Network's heavy promotion of the series. During the 2015 San Diego Comic-Con, USA Network sent vehicles with "Colony" branding and costumed ambassadors through the city's Gaslamp District, partnering with Uber to offer attendees complimentary rides. Fans were also given the chance to win a ride with creators Cuse and Condal.

The costumed Redhats were on hand in San Diego to recruit fans as collaborators by using the hashtag #RedhatRewards on Twitter. They also handed out Redhat Rewards that could be redeemed for free food at local retailers.

Spotlight

When Marty Baron (Schreiber) takes over as the editor of The Boston Globe in 2001, he learns that the newspaper has a "Spotlight" team — a group of journalists, led by Robby Robinson (Keaton), that focuses on in-depth investigative pieces that can take months to research. When a small article in the paper about a pedophile priest catches Baron's eye, he has the Spotlight team investigate the story more thoroughly. When it's finally published, their findings shock the world and rock one of the world's oldest institutions to its core with allegations that dozens of priests in the city were known pedophiles — a fact covered up by the local Catholic Archdiocese.
