# Editorial Expression of Concern: Coincident locations of rupture nucleation during the 2019 Le Teil earthquake, France and maximum stress change from local cement quarrying

Vincenzo De Novellis , Vincenzo Convertito, Sotiris Valkaniotis , Francesco Casu , Riccardo Lanari, Mario Fernando Monterroso Tobar  & Nicola Alessandro Pino 

Addendum to: *Communications Earth & Environment* <https://doi.org/10.1038/s43247-020-00021-6>, published online 18 September 2020.

The editors of *Communications Earth & Environment* have been alerted that in this article, incorrect data were erroneously used to calculate the stress changes associated with cement quarrying. This error will affect the conclusions that can reliably be drawn. *Communications Earth & Environment* is working with the authors to resolve the matter, but in the meantime, readers are cautioned against using results from this article. All authors agree with the publication of this note.
